5 hrs (4 lec, 1 rec)
4 cr

CHEM 37600 - Biochemistry I

GER
3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

CHEM 37700 - Biochemistry II

GER
3/B
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs
3 cr.

CHEM 33300 - Computational Drug Discovery

Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.
prereq: CHEM 37600 or BIOL 30000 or permission of the instructor
3 hrs
3 cr.
offered spring
Required Biology Courses (12 cr.)

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only*

**BIOL 42500 - Computational Molecular Biology**

**GER**
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.

Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

*prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency
permitted by instructor.

3 hrs
3 cr.

Required Mathematics and Statistics Courses (11-18 cr.)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions: Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

_prereq: appropriate score on placement exam or exit from appropriate departmental workshop_

4 hrs (2 lec, 2 lab)
3 cr.

**MATH 12500 (STEM) - Precalculus**

*Hunter Core*

Math/Quantitative Reasoning

GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

_prereq: grade of C or better in MATH 10100 or appropriate score on placement exam_

4 hrs
4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

*Hunter Core*

Math/Quantitative Reasoning

GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

_prereq: grade of C or better in MATH 12500 or appropriate score on placement exam_

4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

*Hunter Core*

Math/Quantitative Reasoning

GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

_prereq: grade of C or better in MATH 15000_
STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.

Required Physics Courses (9 cr.)

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

Required Computer Science Courses (6 cr.)

CSCI 13200 - Practical UNIX and Programming, with Lab
An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.

Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

NOTE: *These courses may be counted for credit in more than one program.

Chemistry/Adolescent Education: Chemistry - BA/MA

An accelerated program leading to a BA in Chemistry and an MA in Adolescent Education: Chemistry. Undergraduates admitted to the program start graduate courses during their senior year and will be able to complete the MA degree one year after they complete the requirements for the BA degree. Students interested in the program should speak to a chemistry department adviser during their sophomore year to review the curriculum path for the five-year program. A minimum of 138 credits is required for the dual degree.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Degree Map for Chemistry Major 1

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all
Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

**prereq or coreq:** MATH 12500, 15000 or equiv.

5 hrs (4 lec, 1 rec)

4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*

4 hrs

4 cr.

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)

**GER**
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**
Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

Spring

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

**CHEM 10200**

*prereq: CHEM 10200*

**CHEM 10400**

6 hrs

3 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER**

2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

**prereq: PHYS 11000 or 11100**

**prereq or coreq: (with perm dept.): MATH 15500**

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

**Sophomore Year**

**Fall**

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**

English Comp (EC)

**GER**

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

**prereq: ENGL 12000**

3 hrs + one additional conference hour

3 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300  
prereq: CHEM 10400 with a grade of C or better  
5-6 hrs (4 lec, 1-2 recitation/workshop)  
4 cr.

**CHEM 22300 - Organic Chemistry Laboratory I**

**GER**  
3/B  

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

**prereq:** CHEM 10500 OR CHEM 10600 OR CHEM 11200  
**coreq:** CHEM 22301  
**prereq or coreq:** CHEM 22204 OR CHEM 22206  
4 hrs  
2.5 cr.

**CHEM 24900 - Quantitative Analysis**

**GER**  
GER 3/B  

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

**prereq:** CHEM 10400 with grade of C or better, 10500  
5 hrs (3 lab, 2 rec)  
3 cr.  
fall

**MATH 25000 - Calculus with Analytic Geometry III**

**GER**  
3/B  

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.  
**prereq:** MATH 15500  
4 hrs  
4 cr.

**Spring**

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**  
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

CHEM 29101 - Chemical Investigations

Pluralism and Diversity
GER 3/B

Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.

prereq: CHEM 22400, perm chair
4 hrs
1 cr.

- MATH 254 OR MATH 260
- HCR - US Experience in its Diversity
- Foreign Language - Elementary Level I

Junior Year

Fall

CHEM 35200 - Physical Chemistry I

GER
3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 15500 and PHYS 12100 all with a grade of C or better
3 hrs
3 cr.
offered fall

CHEM 35500 - Physical Chemistry Laboratory I
Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

CHEM 32200 - Organic Chemistry Lecture III

GER 3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better
3 hrs
3 cr.
offered fall

- Individual and Society/ Social Sciences
- Foreign Language - Elementary Level 2

Spring

CHEM 35600 - Physical Chemistry II - S

GER
GER 3/B

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 15500 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B

Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair

prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring
CHEM 39000 - Current Laboratory Methods in Chemistry

Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

*prereq or coreq: CHEM 35700 or perm instr.*
4 hrs
2 cr.
*offered spring*

- CHEM 291 -or- CHEM 491
- Individual and Society/Humanities
- Foreign Language/Intermediate Level 3

Senior Year

Fall

CHEM 37600 - Biochemistry I

GER
3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

*prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better*
4 hrs (3 lec, 1 rec)
3 cr.

- Creative Expression
- Foreign Language/Intermediate Level 4

CHEM 36600 - Inorganic Chemistry

GER
GER 3/B
Treatment of structure, bonding and reactivity of inorganic compounds.

*prereq: CHEM 35200 with grade of C or better*
3 hrs
3 cr.
*offered fall*

Spring

CHEM 34900 - Instrumental Analysis
PLURALISM AND DIVERSITY
GER 3/B
Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.

Prereq: CHEM 35400 or 35600 with grade of C or better with 35500
8 hrs (2 lec, 6 lab)
5 cr
offered spring

- World Cultures & Global Issues
- Individual and Society/Humanities
- ELECTIVE (if needed)
- ELECTIVE (if needed)

Notes:

- For students who place below MATH 150, please note the following Math sequence:
  MATH 101 – MATH 125 – MATH 150. If you start MATH 125 Precalculus, the degree map is shifted by
  one semester and still allows for completion of the major in 4 years.
- *CHEM 111 and CHEM 112 are sequence options in place of CHEM 102, CHEM 104 and CHEM 106
- If taking CHEM 111, this is a special honors course and is a prerequisite for CHEM 112.
- CHEM 390 requires special departmental permission to register.
- In Junior and senior year, a 300-level chemistry course must be taken.

MINOR IN CHEMISTRY

A minor in Chemistry consists of 27 – 27.5 credits as follow:

1. Before declaring the minor

Students must complete 11 cr of foundational courses

CHEM 10200 (STEM) General Chemistry I
CHEM 10400 (STEM) General Chemistry II
CHEM 10600 (STEM) General Chemistry Laboratory

-or-

CHEM 10200 (STEM) General Chemistry I
CHEM 10300 (STEM) General Chemistry Laboratory I
CHEM 10400 (STEM) General Chemistry II
CHEM 10500 (STEM) General Chemistry Laboratory II

2. An additional 13-13.5 credits of course work, including the required
   courses below

3. One 3-credit elective from Chemistry offerings numbered 300
Required courses for the Minor:

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
4 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

-or-
CHEM 24900 - Quantitative Analysis

GER
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

 prerequisites: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.
fall

Elective: Any 300 Level (3 cr)

Classical and Oriental Studies

Overview

The Department of Classical and Oriental Studies offers programs in Classics, Russian, Chinese, Hebrew, Japanese, and Arabic. With over 20 full-time faculty and approximately 20–25 adjunct faculty, the department is able to offer eight BA degrees: Latin, Greek, Latin and Greek, Classical Studies, Classical Archaeology, Russian, Hebrew, and Chinese. In addition, the department offers a three-year sequence in the Japanese language, and a three-year sequence in Arabic language and literature, and—in joint sponsorship with the Kosciuszko Foundation—a wide range of courses in Polish language, literature and culture. The department participates in several interdisciplinary programs, including Religion, Women and Gender Studies, Comparative Literature, and Jewish Studies. All the programs of the department have as their common goal the teaching of the foreign languages and literatures, traditionally viewed as one of the cornerstones of the liberal arts curriculum. This goal is met in several ways. Each of the languages helps fulfill the 12-credit (normally four-semester) foreign-language requirement. The six-credit requirement in literature may be satisfied in part by a course in literature in the original language or by a course in literature in translation. Undergraduate majors are given a solid grounding in foreign languages and literature study in order to prepare them both for careers in which they will use these skills and for further study on the graduate level.

Full list of Programs and Courses in Classical and Oriental Studies

Programs and Courses in Classical & Oriental Studies

What can I do with my degree in Classical and Oriental Studies?

The programs prepare students for further studies in graduate school and professional careers in international trade, education, government service, diplomacy, private business, journalism and related fields. Careers in research, government and education use skills developed in classical studies, and a major in classics provides an excellent foundation for many professional programs such as law. In addition, specialized careers—such as college and high school teaching, museum work, and archival research—are open to professional classicists and archaeologists. Russian
majors find employment in U.S. governmental agencies, the United Nations, broadcasting, banking, international commerce, education, library services and other fields

Chinese Language and Literature - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24-30 credits)

The major in Chinese language and literature consists of 24-30 credits chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level. Courses must be taken in the sequence described below. Students who demonstrate proficiency in Chinese through a placement exam may be exempted from some courses.

CHIN 10100 - Elementary Chinese I

Beginning course in Mandarin.
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.
offered fall

CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin.

3 hrs
3 cr.
offered spring

CHIN 20100 - Intermediate Chinese I

Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary-building.
prereq: CHIN 10200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 20200 - Intermediate Chinese II

Continued reading of literature in baihua.
prereq: CHIN 20100 or equiv.
3 hrs
3 cr.
offered spring

CHIN 30100 - Journalistic Chinese Literature I

Intensive reading of literature and essays written in journalistic style.
prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 30200 - Journalistic Chinese Literature II

Intensive reading and translation of literature written in journalistic style.
prereq: CHIN 30100 or equiv.
3 hrs
3 cr.
offered spring

CHIN 30300 - Classical Chinese Literature I

Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles.
prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 30400 - Classical Chinese Literature II

Continuation of CHIN 303. Selected readings in literature written in wenyan or classical style.
prereq: CHIN 303 or equiv.
3 hrs
3 cr.
offered spring

**CHIN 30700 - Classical Chinese Poetry**

**Pluralism and Diversity**
PD/A
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.
*prereq: CHIN 30400 or equiv.*
3 hrs
3 cr.

**CHIN 40100 - Advanced Studies in Chinese Literature**

Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.
*prereq: CHIN 30200 or equiv, perm chair*
3 hrs
3 cr.

**CHIN 40200 - Independent Study in Chinese Literature**

Independent study and research in Chinese literature under supervision of a faculty member.
For majors only.
*prereq: CHIN 40100, perm chair*
3 hrs
3 cr.

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

**Minor in Chinese**

The minor in Chinese consists of 12 credits. Students must take 4 courses at or above the CHIN 200 level taught in Chinese. Course prerequisites must be satisfied. Internships and independent studies do not count toward the minor. Consult the Chinese program adviser for appropriate course recommendations.

**Advanced Placement and Exemptions**

Students who elect to take Chinese as their required language and have studied the language abroad or at home must consult the head of the Chinese Division for advanced placement or exemptions. The Chinese program does not offer proficiency tests.

**Electives**

All courses, unless otherwise stated in course descriptions, are open to qualified students majoring in other disciplines.
Chinese: Other Courses

Language Courses

CHIN 10100 - Elementary Chinese I

Beginning course in Mandarin.
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Foreign Language Requirement.
3 hrs
3 cr.
offered fall

CHIN 10200 - Elementary Chinese II

Beginning course in Mandarin.
3 hrs
3 cr.
offered spring

CHIN 10500 - Chinese Writing System and Calligraphy I

Beginning course in learning the basics about writing Chinese characters, methods of analysis, and mastery of common radicals and characters.
3 hours
3 credits
offered fall

CHIN 10600 - Chinese Writing System and Calligraphy II

Continued instruction in topics related to the development of Chinese scripts, printing, and calligraphy, and mastery of additional common characters.
prereq: CHIN 10500 or equivalent
3 hours
3 credits
offered spring

CHIN 30600 - 20th-century Chinese Literature

Pluralism and Diversity
PD/A
Selected readings of leading thinkers and writers.
prereq: CHIN 20200 or equiv.
3 hrs
3 cr.

CHIN 39900 - Second Language Acquisition
A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.

*prereq: at least three courses at the 300 level in the language, ENGL 12000
3 hrs
3 cr.

**Chinese Culture and Literature in Translation**

**CHIN 11100 - Chinese Culture I**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A

**GER**
2/C

Introduction to Chinese culture with emphasis on classical tradition. Lectures and readings in English.
3 hrs
3 cr.

Classical Archaeology (Interdepartmental) - BA

Return to Classical and Oriental Studies

Hunter Core Requirement

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of Classical Archaeology, the course that meets CCCR is:

CLA 20400  World Culture and Global Issues (WCGI)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

BA in Classical Archaeology (Interdepartmental)

Courses Required for the Major (36-38 credits)

24 credits from the interdepartmental course pool (below), including
CLA 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

**Hunter Core**
World Culture and Global Issues (WCGI)
GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

*prereq: ENGL 12000*

3 hrs
3 cr.

CLA 22000 - Aegean Archaeology (W)

**Pluralism and Diversity**
PD/D
GER
3/A

Crete, Greece, and the islands in Bronze Age. Knossos, Thera, Mycenae. Painting, jewelry, pottery, daily life.

*prereq: ENGL 12000, CLA 20400*

3 hrs
3 cr.

CLA 22100 - Greek Archaeology (W)

**Pluralism and Diversity**
PD/D
GER
3/A

Greece from Archaic to Hellenistic period: culture, Greek cities overseas, daily life; Delphi, Olympia, Athens.

*prereq: ENGL 12000; CLA 20400*

3 hrs
3 cr.

CLA 22200 - Roman Archaeology I: Etruscans, Monarchy, Republic (W)

**Pluralism and Diversity**
PD/D
GER
3/A

Etruscans and pre-Roman Italy; rise of Rome to the time of Julius Caesar: architecture, painting, sculpture; Pompeii and daily life.

*prereq: ENGL 12000; CLA 20300 -or- CLA 20400*

3 hrs
3 cr.

*fall only*

- with a corequisite of 12-14 credits of Greek or Latin*. 

____________________________________________
*These courses may be counted for credit in more than one program.

**Preparation for Teaching in Grades 7-12**

Students interested in a teaching career should consult with the The School of Education. In addition, the department offers an MA in the teaching of Latin.

**Honors and Tutorials**

Departmental honors in classics and tutorials are open only to majors.

**Interdepartmental Course Pool**

**CLA 22500 - Archaeology of Egypt (W)**

- **Pluralism and Diversity**
  - PD/A
  - GER
  - 3/A

  Sites, cultures, and styles of ancient Egypt, Giza, Thebes, Amarna; hieroglyphs, literature, tombs, religion, daily life.
  - **prereq:** ENGL 12000, CLA 20400
  - **3 hrs**
  - **3 cr.**

**CLA 22700 - Archaeology of Eastern Mediterranean (W)**

- **Pluralism and Diversity**
  - PD/A
  - GER
  - 3/A

  Cyprus, Southern Anatolia, Phoenicia, and Palestine, especially in Bronze Age.
  - **prereq:** ENGL 12000, CLA 20400
  - **3 hrs**
  - **3 cr.**

**CLA 32200 - Archaeology of Mesopotamia and Iran (W)**

- **Pluralism and Diversity**
  - PD/A
  - GER
  - 3/A

  Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.
  - **prereq:** ENGL 12000, CLA 20400
  - **3 hrs**
  - **3 cr.**
CLA 32300 - Archaeology of Anatolia (W)

Pluralism and Diversity
PD/A
GER
3/A

Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.
prereq: ENGL 12000, CLA 20400
3 hrs
3 cr.

CLA 32900 - Problems in Archaeology

Exploration in depth of particular area or period in Old World archaeology. Topics vary.
prereq: ENGL 12000, two courses in classical archaeology
3 hrs
3 cr.

CLA 33000 - Field Seminar in Archaeology

Open to majors only. Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school.
prereq: ENGL 12000, perm dept.
6 cr. maximum

ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
3 hrs
3 cr.
offered every sem.

ANTHC 12700 - Methods In Archaeological Science

Hunter Core
SW
Introduction to theory and method of scientific research in archaeology.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 22600 - Archaeology of Africa

Pluralism and Diversity
PD/A
Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.
*prereq: ANTHC 12600 or perm instr.*
3 hrs
3 cr.

**ANTHC 22700 - Archaeology of Europe**

Pluralism and Diversity
PD/D
GER
3/B

Prehistory; early hunting and gathering adaptations, beginnings of sedentary village life, development of complex societies.
*prereq: ANTHC 12600 or perm instr.*
3 hrs
3 cr.

**ANTHC 22800 - Archaeology of the Near East to 2000 BC**

Pluralism and Diversity
PD/A
GER
3/B

Sociocultural development of Near East from early hunter-gatherers to first states and empires.
*prereq: ANTHC 12600 or perm instr.*
3 hrs
3 cr.

**ANTHC 23100 - Archaeology of Mesoamerica**

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.
*prereq: ANTHC 12600 or perm instr.*
3 hrs
3 cr.

**ANTHC 23200 - Archaeology of South America and the Caribbean**

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.
*prereq: ANTHC 12600 or perm instr.*
3 hrs
3 cr.
ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity
See note below
Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B
ANTHC 42660 Archaeology of Colonialism meets PD/D

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

Minor in Classical Archaeology

12 Credits

1. CLA 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)
2. CLA 22100 - Greek Archaeology (W)
3. CLA 22200 - Roman Archaeology I: Etruscans, Monarchy, Republic (W)
4. One other course in Classical Archaeology at the 200- or 300-level.

Note: CLA 20400 is a prerequisite for all other Classical Archaeology courses.

*Pluralism and Diversity*

*GER 3/A*

Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.

*prereq: ENGL 12000, CLA 20400
3 hrs
3 cr.*

**CLA 32300 - Archaeology of Anatolia (W)**

*Pluralism and Diversity*

*GER 3/A*

Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.

*prereq: ENGL 12000, CLA 20400
3 hrs
3 cr.*

**CLA 32900 - Problems in Archaeology**

Exploration in depth of particular area or period in Old World archaeology. Topics vary.

*prereq: ENGL 12000, two courses in classical archaeology
CLA 33000 - Field Seminar in Archaeology

Open to majors only. Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school.

prereq: ENGL 12000, perm dept.
6 cr. maximum

CLA 42100 - Independent Study in Classics

Open to majors only.

prereq: ENGL 12000, perm dept.
1-3 cr.

CLA 49100 - Honors in Classics

Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.

prereq: ENGL 12000, perm dept.
3 hrs
3 cr.

CLA 49800 - Internship

prereq: ENGL 12000, perm dept.
1-6 cr.

Degree Map

Degree Map for Classical Studies

Degree Map for Hebrew

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Hebrew major. The Degree Map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Freshman Year

Fall
• ENGL 12000 Expository Writing  
• HEBR 10100 Elementary Hebrew I  
• Math/Quantitative Reasoning  
• Creative Expression  
• US Experience in Its Diversity  

**Spring**  
• ENGL 22000 Introduction to Writing about Literature (W)  
• HEBR 10200 Elementary Hebrew II  
• Individual and Society (Social Sciences)  
• Scientific World

Intermediate-level course in reading Greek prose. Offered in the fall.

*prereq: GRK 10200*  
*3 hrs*  
*3 cr.*  
*fall*

**GRK 21200 - Ancient Greek Reading: Poetry**

Intermediate-level course in reading Greek poetry, usually Homer. Offered in the spring.

*prereq: GRK 21100*  
*3 hrs*  
*3 cr.*  
*spring*

**GRK 20200 - Plato**

*prereq: GRK 11000 or equiv.*  
*3 hrs*  
*3 cr.*

**GRK 30100 - Plato II**
GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30200 - Euripides

prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30300 - Greek Lyric Poetry

prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30400 - Aristophanes and Menander

prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30500 - Attic Orators

prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30700 - Sophocles

prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30800 - Aeschylus

prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 30900 - Herodotus

prereq: GRK 202 or equiv.
3 hrs
3 cr.

GRK 31000 - Thucydides
prereq: GRK 20200 or equiv.
3 hrs
3 cr.

GRK 32000 - Topics in Greek Literature

Advanced-level reading in ancient Greek of a specific author, group of authors, or group of texts related to a topic. May be taken 3 times for credit.

prereq: GRK 20200 or equivalent
3 hrs
3 cr.

GRK 42100 - Independent Study in Greek Literature

Advanced-level reading in ancient Greek of a specific author, group of authors, or group of texts related to a topic in independent studies. May be taken 3 times for credit.

prereq: GRK 20200 and Department Permission
3 hrs
3 cr.

2. 6 credits of LAT

Depending on prior learning, students may be able to select more advanced LAT courses. See program adviser.

LAT 10100 - Beginning Latin

For credit policy on LAT 10100 without LAT 10200, please see Foreign Language Requirement.
3 hrs.
3 cr.
offered fall

LAT 10200 - Beginning Latin

3 hrs.
3 cr.
offered spring
-or-

LAT 10700 - Beginning Latin, Intensive

6 hrs
6 cr.
usually offered spring and summer

3. 6 credits of courses with a CLA prefix

Courses in Classics (CLA)
Preparation for Teaching in Grades 7-12

Students interested in a teaching career should consult with the School of Education. In addition, the department offers an MA in the teaching of Latin.

Honors and Tutorials

Departmental honors in classics and tutorials are open only to majors.

Classics: Minors

Classical Studies

A minor in Classical Studies consists of: CLA 10100, CLA 20100, CLA 20300 and one additional CLA course at the 200 or 300 level (e.g., literature in translation or upper-level culture courses).

Note: CLA 10100, CLA 20100 and CLA 20300 have no prerequisites

Classical Archaeology

A minor in Classical Archaeology consists of: CLA 20400, CLA 22100, CLA 22200 and one additional Classical archaeology course at the 200 or 300 level.

Greek

A minor in Greek consists of 12 credits beyond GRK 10100/GRK 10200

Latin

A minor in Latin consists of 12 credits beyond LAT 10100 and LAT 10200 or LAT 10700.

Note: CLA 10100, CLA 20100 and CLA 20300 have no prerequisites

Classical Archaeology

A minor in Classical Archaeology consists of: CLA 20400, CLA 22100, CLA 22200 and one additional Classical archaeology course at the 200 or 300 level.

Greek

A minor in Greek consists of 12 credits beyond GRK 10100/GRK 10200

Latin

A minor in Latin consists of 12 credits beyond LAT 10100 and LAT 10200 or LAT 10700.

Hebrew - BA

Return to: Classical and Oriental Studies

The major consists of 24-30 credits. In general, a Hebrew major is required to achieve proficiency in Biblical and/or modern Hebrew literature by successfully completing a minimum of four courses at the 300 level in Hebrew. Courses in Hebraic studies conducted in English may be applied toward partial fulfillment of the Hebrew major provided they are part of a coherent program approved by the head of the division.
Qualified students interested in a more intensive program in the field of Hebraic or Judaic studies, particularly those preparing for graduate work in such specialized areas as Semitic languages and civilizations, Jewish history, Biblical studies and archaeology, medieval or modern Hebrew literature, Near Eastern studies or religious studies, should consult a division adviser regarding additional courses and supportive studies in related fields.

Students who demonstrate proficiency in Hebrew through a placement exam may be exempted from some courses. Please see the Classical and Oriental Studies department for details.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. 3 cr.

100/200+ level HEBR courses (12 credits)
300 level HEBR courses (12 credits)

Preparation for Teaching in Grades 7-12

In cooperation with the School of Education, the Program in Hebrew provides opportunities for students to prepare for a career in teaching Hebrew in grades 7-12. Students preparing to teach Hebrew must complete a 33-credit major option for teaching that includes the 24-credit sequence taken by non-teaching majors, HEBR 39900, and 6 additional credits in Hebrew language and literature at the 300 or 400 level. Students interested in teaching Hebrew in New York schools should take the 23-credit pedagogical sequence for grades 7-12. This sequence may count toward the course requirements for New York State Certification, but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the School of Education.

Minor

Two minors are offered, one in Hebrew, the other in Hebraic Studies.

Hebrew Minor

The Hebrew minor requires the successful completion of 12 credits at the 200-level or above. Courses counted toward the Hebrew minor must be either language courses or have Hebrew as their language of instruction.

Hebraic Studies Minor

The Hebraic Studies minor requires the successful completion of four HEBR literature and/or culture courses on the 200-level or above, taught in English or in Hebrew. Two Hebrew language courses other than Elementary and Intermediate Hebrew—e.g., Biblical Hebrew, Advanced Hebrew—may be used toward the minor requirement in lieu of two literature or culture courses.

Honors

Opportunity for honors work is available through HEBR 49100 - Honors Project.

Courses in Hebrew

HEBR 10100 - Elementary Hebrew I

Fundamentals of reading, pronunciation and grammar for beginners. Practice in conversation and writing. HEBR 10100 usually not credited without HEBR 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs

3 cr.

HEBR 10200 - Elementary Hebrew II
Continuation of HEBR 10100.
prereq: HEBR 10100 or equiv.
3 hrs
3 cr.

HEBR 10300 - Intensive Elementary Hebrew

Intensive practice in basic skills of Hebrew. Course covers in one semester the material covered in the two semesters of HEBR 10100 and 10200.
6 hrs
6 cr.

Courses in Classics

**Preparation for Teaching in Grades 7-12**

Students interested in a teaching career should consult with the The School of Education. In addition, the department offers an MA in the teaching of Latin.

**Honors and Tutorials**

Departmental honors in classics and tutorials are open only to majors.

**Classics: Minors**

**Classical Studies**

A minor in Classical Studies consists of: CLA 10100, CLA 20100, CLA 20300 and one additional CLA course at the 200 or 300 level (e.g., literature in translation or upper-level culture courses).

Note: CLA 10100, CLA 20100 and CLA 20300 have no prerequisites
Classical Archaeology

A minor in Classical Archaeology consists of: CLA 20400, CLA 22100, CLA 22200 and one additional Classical archaeology course at the 200 or 300 level.

Greek

A minor in Greek consists of 12 credits beyond GRK 10100/GRK 10200

Latin

A minor in Latin consists of 12 credits beyond LAT 10100 and LAT 10200 or LAT 10700.

Minor in Arabic and Minor in Arabic Studies

Return to Classical and Oriental Studies

Two 12-credit minors are offered by the Arabic Language, Literature, and Culture Division of the Department of Classical and Oriental Studies: Arabic and Arabic Studies.

Minor in Arabic

The minor in Arabic requires the successful completion of

**ARB 20100 - Intermediate Arabic I**

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

*prereq: ARB 10200 or equiv.*

3 hrs  
3 cr.

**ARB 20200 - Intermediate Arabic II**

Continuation of ARB 20100.

*prereq: ARB 20100 or equiv.*

3 hrs  
3 cr.

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic

*prereq: ARB 20200 or equiv.*

3 hrs  
3 cr.

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100

*prereq: ARB 30100 or equiv.*

3 hrs  
3 cr.

*or their equivalent as determined by the Arabic Program Head.*

**ARB 24900 - Special Topics in Arabic Dialects**

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

*prereq: ARB 20200*

3 hrs  
3 cr.
ARB 40100 - Focused Arabic Study for Advanced Students

Pluralism and Diversity
P/D A
A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

prereq: ARB 30200
3 hrs
3 cr.

can count toward the minor

Arabic Studies Minor

At least 2 Arabic language classes taken at Hunter

• ARB 10100 Beginning Arabic I
• ARB 10200 Beginning Arabic II
• ARB 24900 Special Topics in Arabic Dialects
• ARB 20100 Intermediate Arabic I
• ARB 20200 Intermediate Arabic II
• ARB 30100 Advanced Arabic I
• ARB 30200 Advanced Arabic II

or at a program approved by the Arabic Program Head and at least two ARB courses taught in English.

For students who test out of ARB 30200 without having taken any Arabic courses at the university level, the Arabic Studies Minor can be achieved by taking at least 4 courses from the ARB courses taught in English.

Total credits for the minor: 12

Arabic Courses

ARB 10100 - Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement
3 hrs
3 cr.

ARB 10200 - Beginning Arabic II
Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.

**prereq:** ARB 10100 or permission of Head of Arabic Program.

3 hrs
3 cr.

**ARB 14800 - Beginning Arabic for Heritage Speakers**

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

**prereq:** perm of division head

3 hrs
3 cr.

**ARB 14900 - Spoken Egyptian Arabic**

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

**prereq:** ARB 10200 and permission of instructor

3 hours
3 credits

**ARB 15000 - Introduction to Modern Arab Cultures**

**Pluralism and Diversity**

P/D A

This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs
3 cr.

**ARB 20000 - Topics in Arabic Literature and Culture**

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

**prereq:** ENGL 12000 or equivalent

3 hrs.
3 cr.
ARB 20100 - Intermediate Arabic I

ARB 20200 - Intermediate Arabic II

Continuation of ARB 20100.

*prereq: ARB 20100 or equiv.*

3 hrs
3 cr.

ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any textbook. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: ARB 14800 or Arabic Program head's permission*

3 hrs
3 cr.

ARB 24900 - Special Topics in Arabic Dialects

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

*prereq: ARB 20200*

3 hrs
3 cr.

ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

*prereq: ENG 22000 or equiv.*

3 hrs
3 cr.

ARB 25100 - Arab Cinema (in translation)
This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

**ARB 25200 - Literatures from the Islamic World (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A

**ARB 25300 - Literatures and Cultures of Muslim Spain (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A

**ARB 25400 - The Arabian Nights East and West (W)**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**
PD/A

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.
prereq or coreq: ENGL 12000 or equivalent
3 hours
3 credits

ARB 25500 - Modern Palestinian Culture

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.
3 hrs
3 cr.

ARB 25600 - Modern Arab Theatre

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.
3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.
prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.
3 hours
3 credits

ARB 30100 - Advanced Arabic I

Emphasis on increased proficiency in reading, speaking and writing Arabic
prereq: ARB 20200 or equiv.
3 hrs
3 cr.

ARB 30200 - Advanced Arabic II
Continuation of ARB 30100  
prereq: ARB 30100 or equiv.  
3 hrs

Minor in Chinese

The Minor in Chinese consists of 12 credits. Students must take four courses at or above CHIN 200-level taught in Chinese. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

Minor in Classical Studies

12 Credits:

1. CLA 10100 - Classical Mythology
2. CLA 20100 - Greek Civilization (W)
3. CLA 20300 - Roman Civilization (W)
4. One course with a CLA prefix at the 200- or 300- level (e.g. literature in translation or upper-level culture courses)

Note: CLA 10100, CLA 20100, and CLA 20300 have no prerequisites

Minor in Hebraic Studies

Minor: 12 credits

The Hebraic Studies minor requires the successful completion of four HEBR literature and/or culture courses on the 200-level or above, taught in English or in Hebrew. Two Hebrew language courses on 300-level or above may be used toward the minor requirement in lieu of two literature or culture courses.

Minor in Hebrew

The Hebrew minor requires the successful completion of 12 credits at the 200-level or above. Courses counted toward the Hebrew minor must be either language courses or have Hebrew as their language of instruction.
Minor in Japanese Language

The Japanese Language Minor seeks to develop students' understanding of the Japanese language at an advanced level. With higher-level language courses, students will be exposed to more complex oral and written Japanese that will lead to a greater fluency in the language. To this end, the Japanese Language Minor requires completion of a minimum of 12 credits (4 courses). By completing the Japanese Language Minor, students will also have fulfilled the Hunter College language requirement.

No grade below B- shall be considered to fulfill the requirements for this minor.

Students must complete the following course:

JPN 20200 - Intermediate Japanese II

Continuation of JPN 20100.

prereq: JPN 20100 or equiv.

3 hrs
3 cr.

Students must take at least three of the following courses or an elective course approved by the department head (9 credit hours total):

JPN 27100 - Japanese Reading: Recitation and Comprehension

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

prereq: JPN 20100 (Intermediate Japanese I) or permission from the instructor

3 hrs
3 cr.

JPN 30100 - Advanced Japanese I

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.

prereq: JPN 20200 or equiv.

3 hrs
3 cr.

JPN 30200 - Advanced Japanese II

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.

prereq: JPN 30100 or equiv.

3 hrs
3 cr.
JPN 35100 - Advanced Japanese Conversation

This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

prereq: JPN 20200 (intermediate Japanese II) or perm instructor
3 hrs
3 cr.

JPN 42103 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.
3 hrs
3 cr.

Minor in Japanese Studies

The Japanese Studies Minor seeks to develop students' understanding of Japanese culture, while also fostering a broader understanding of Japan's influence in the world. The required culture classes (JPN 25100 and JPN 25200) will give students a foundation specifically in Japanese culture and society, and the additional elective courses offer students the option to customize the aspects of Japan they want to research. This minor is designed to be flexible and accommodate students who do not take Japanese language classes, but rather have an interest purely in Japanese culture. The majority of classes that satisfy this minor are taught in English, however some Japanese language classes can be used to fulfill it. Students who complete the minor will have a well-rounded perspective on Japanese history and contemporary issues that will give insight into Japan.

Minor in Japanese Studies: 12 credits

No grade below B- shall be considered to fulfill these requirements.

Students must complete the following courses (6 credit hours)

JPN 25100 - Japanese Culture Before 1600

Hunter Core
Individual and Society - Humanities (I&S H)
Pluralism and Diversity
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.
While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

**Prerequisite:** ENGL 120

**Credits:** 3

### JPN 25200 - Japanese Culture Since 1600

**Pluralism and Diversity**

**PD/A**

**GER**

**2/C**

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

**Prerequisite:** ENGL 12000

**Credits:** 3

Students must take at least two of the following elective courses or an elective course approved by the department head (6 credit hours total):

### JPN 27100 - Japanese Reading: Recitation and Comprehension

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

**Prerequisite:** JPN 20100 (Intermediate Japanese I) or permission from the instructor

**Credits:** 3

### JPN 35100 - Advanced Japanese Conversation

This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

**Prerequisite:** JPN 20200 (Intermediate Japanese II) or permission from the instructor

**Credits:** 3

### JPN 42103 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.
prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.

2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

Students may petition for other courses to fulfill the elective requirement. No more than one class from other campuses or universities may be used to fulfill requirements.

Total credits required: 12 credits

Minor in Latin or Ancient Greek

Greek: 12 credits beyond GRK 10100/ GRK 10200
Latin: 12 credits beyond LAT 10100/ LAT 10200 or LAT 10700

Minor in Russian Language and Minor in Russian Literature and Culture

The Program will encourage students to take the Russian minor. The minor consists of minimum of 12 credits. Students wishing to minor in Russian should either pass a proficiency test or take the language sequence of RUSS 10100 — RUSS 10200 ; RUSS 20100 — RUSS 20200 . Courses taken toward the Russian minor could follow two tracks:

Track I: Russian Language Minor
Prerequisite: RUSS 20200 or equivalent. Students are expected to take: RUSS 30100 & RUSS 30200; RUSS 31700 or RUSS 31800 or RUSS 31900; plus one literature course taught in Russian.

Track II: Russian Literature and Culture Minor

Prerequisite: RUSS 20200 or equivalent. Students are expected to take: RUSS 30100 & RUSS 30200 and two literature or culture courses conducted either in Russian or in English. Literature courses may be substituted for language courses in the Literature and Culture Minor with permission by the head of the program.

Russian - BA

Return to: Classical and Oriental Studies

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of Russian, the courses that meet CCC are:

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (24 credits)**

The Russian major consists of at least 24 credits chosen among courses in the language beyond RUSS 10200 or RUSS 10300.

**Russian Concentrations**

There are four possible concentrations within the Russian Major, the requirements for which are outlined below. Students who demonstrate proficiency in Russian through a placement exam may be exempted from some courses.

1. **Russian Language Concentration**: for students who want to acquire native fluency in spoken and written Russian and a thorough knowledge of Russian literature.
   - RUSS 10100 and RUSS 10200 Elementary Russian or RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   - 24 credits in courses beyond RUSS 10200 or RUSS 10300.

2. **Russian Language and Culture Concentration**: for students interested in the arts rather than in language. With the permission of the division head, a limited number of courses in translation may be applied to the major sequence.
   - RUSS 10100 and RUSS 10200 Elementary Russian or RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   - 24 credits in courses beyond RUSS 10200 or RUSS 10300.

3. **Russian and East Central European Studies (RECE) Concentration**: For students interested in a variety of disciplines in combination with courses from the Division of Russian and Slavic Studies. Requirements for RECE include
   - Russian or Slavic language proficiency or 6 credits in Russian or Slavic language at the 20200 (intermediate) level or above
   - 18 credits distributed as follows:
     a. Russian or East Central European history (3 cr.);
     b. RECE area political science (3 cr.);
     c. Russian or East Central European literature, culture or arts (3 cr.);
     d. and three additional 200- or 300-level courses chosen from two of the following categories:
       i. anthropology,
       ii. economics,
       iii. geography,
       iv. history,
       v. political science and
       vi. literature, culture or arts.
• Students should select courses in consultation with their RECE adviser. In addition to their 18-to 24-credit concentration, students are strongly urged to choose 12 minor credits from disciplines related to RECE.

4. Russian Translation Concentration: for students interested in acquiring training in Russian translation in a variety of professional fields. Requirements for the concentration in Russian translation include:

• RUSS 10100 and RUSS 10200 Elementary Russian -or- RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
• 6 credits in Russian language at the intermediate level (RUSS 20100 and RUSS 20200) or 6 credits in the intensive RUSS 20300 for heritage speakers.
• RUSS 21500 Translating Culture: Introduction to Theory and Practice of Translation
• RUSS 30100 Advanced Russian I
• RUSS 30200 Advanced Russian II
• RUSS 31700 Practical Aspects of Translation
• RUSS 31800 Advanced Translation
• RUSS 49800 Internship in Russian and Slavic Studies

*Students exempt from the Russian language requirement through proficiency testing or by permission of the Division Head are required to take 6 credits at the 300-level of either:

1. Two language courses from the following courses:
   • RUSS 31200
   • RUSS 31300
   • RUSS 31400
   • RUSS 31500 -or- RUSS 31900
2. Two literature courses in Russian
3. One literature courses and one of the above language courses

Preparation for teaching in Grades 7-12

In cooperation with the The School of Education, the program in Russian provides opportunities for students to prepare for a career in teaching Russian in grades 7-12. Students preparing to teach Russian must complete a 33-credit major option for teaching that includes the 24-credit sequence taken by non-teaching majors plus 9 additional credits:RUSS 39900 and 6 additional credits in Russian language and literature at the 300 or 400 level. Students interested in teaching Russian in New York Schools should take the 23-credit pedagogical sequence for grades 7-12. This sequence may count toward the course requirements for New York State Certification, but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the The School of Education.

Minor in Russian

The minor in Russian consists of no fewer than 12 credits. Courses taken toward the Russian minor could follow two tracks: the Russian language minor or the Russian literature and culture minor.

Students wishing to minor in Russian should either pass a proficiency test or take the language sequences of

RUSS 10100 - Elementary Russian

Introduction to Russian language. Practice in spoken Russian. Reading of simple texts. RUSS 10100 not credited without RUSS 10200. For details about credit policy, please see Foreign Language Requirement.

2 sems, 3 hrs
3 cr. each sem.
RUSS 10200 - Elementary Russian

Introduction to Russian language. Practice in spoken Russian. Reading of simple texts. RUSS 10100 not credited without RUSS 10200.
2 sems, 3 hrs
3 cr. each sem.

RUSS 20100 - Intermediate Russian I

Selected readings in prose. Continued practice in written and spoken Russian. Grammar review.
prereq: RUSS 10200 or 10300
3 hrs
3 cr.

RUSS 20200 - Intermediate Russian II

Selected readings in Russian literature. Practice in oral and written expression.
prereq: RUSS 20100
3 hrs
3 cr.

RUSS 10300 - Elementary Russian for Heritage Speakers (Intensive)

Intensive study of the Russian language for heritage speakers who seek to gain literacy in the language. Two semesters in one.
6 hrs
6 cr.

RUSS 20300 - Intermediate Russian for Heritage Speakers (Intensive)

Intensive study of the Russian language for heritage students who seek to improve literacy in the language. Not open to students who have taken RUSS 20100 RUSS 20200 sequence. Two semesters in one.

prereq: RUSS 10300 or instructor's permission.
6 hrs
6 cr.

Track I: Russian Language Minor

Prerequisite

RUSS 20200 - Intermediate Russian II

Selected readings in Russian literature. Practice in oral and written expression.
prereq: RUSS 20100
3 hrs
3 cr.

Students are expected to take
RUSS 30100 - Advanced Russian I

Mastery of grammar in its application to writing, listening comprehension and oral expression.

_prereq: RUSS 20200 or equiv._
3 hrs
3 cr.

RUSS 30200 - Advanced Russian II

GER
3/A

Intensive study of grammar. Consideration of levels of style, problems of idiom and syntax. Oral and written reports.

_prereq: RUSS 20200 or equiv._
3 hrs
3 cr.

RUSS 31700 - Practical Aspects of Translation

Examination of the lexical, morphological and syntactic aspects of language in translation, focusing on the comparative presentation of these aspects in Russian and English.

_prereq: RUSS 20200 or equiv._
3 hrs
3 cr.

-or-

RUSS 31800 - Advanced Translation

Continuation of RUSS 31700 on an advanced level. Application of the theoretical and practical knowledge of translation to discipline-specific areas, including medical, legal, academic, scientific, and literary translation.

_prereq: ENGL 12000, RUSS 31700 or equiv; RUSS 20200 or equiv._
3 hrs
3 cr.

-or-

RUSS 31900 - Business Russian

Increase mastery of Russian vocabulary, style and syntax for translating and composing diverse business materials in such fields as finance, insurance, litigation, advertising and labor relations. Conducted in Russian.

_prereq: RUSS 20200 or equiv._
3 hrs
3 cr.

plus one literature course taught in Russian.

Track II: Russian Literature and Culture Minor

Prerequisite

RUSS 20200 - Intermediate Russian II
Selected readings in Russian literature. Practice in oral and written expression.

*prereq: RUSS 20100
3 hrs
3 cr.

**RUSS 30100 - Advanced Russian I**

Mastery of grammar in its application to writing, listening comprehension and oral expression.

*prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

**RUSS 30200 - Advanced Russian II**

**GER**

3/A

Intensive study of grammar. Consideration of levels of style, problems of idiom and syntax. Oral and written reports.

*prereq: RUSS 20200 or equiv
3 hrs
3 cr.

and two literature or culture courses conducted either in Russian or in English. Literature courses may be substituted for language courses in the Literature and Culture Minor with permission by the head of the program.

**Comparative Literature**

**Overview**

The Department of Romance Languages at Hunter College offers a major in Comparative Literature.

**What can I do with my degree in Comparative Literature?**

The study of comparative literature prepares students for careers in teaching, interpreting, and translating, as well as those professions that recognize the importance of a broad humanistic education, including law and medicine.

**Programs and Courses**
Honors

Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.

Comparative Literature - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

<table>

<tr>
<th>Course</th>
<th>CUNY Common Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 22000</td>
<td>English Composition (EC)</td>
</tr>
</tbody>
</table>

Courses Required for the Major (33 credits)

All majors take a core course in methodology, but the remaining classes in a student's program are arranged with the coordinator in an effort to work out a balance between two different bodies of literature, two different literary periods,
and two different genres. In addition to comparative literature courses in prose fiction, drama, myth and folklore, literary movements, and literature and the arts, majors may also elect appropriate classes from other literature departments, as well as from such disciplines as history, philosophy, art and anthropology, with the approval of the coordinator. Upon becoming a major, a student will, in consultation with the coordinator, choose one member of the comparative literature committee as an adviser and plan an individualized program. All majors are required to review their programs with their adviser once a semester.

The comparative literature major consists of 33 credits distributed as follows:

A. ENGL 22000

ENGL 22000 - Introduction to Writing about Literature (W)

B. Concentration in at least two periods and in two genres.

C. At least 9 credits in COMP-prefixed courses, beginning with the following

(all of these courses will be taught in English)

**COMPL 30100 - Seminar: Approaches to Comparative Literature**

Study of selected major works to demonstrate scope and various approaches of comparative literature. Focus on conscious imitation, treatment of similar themes, use of well-defined genres and conventions as well as of concepts from history of ideas. Emphasis on close reading of texts and development of critical vocabulary. Required of all majors in comparative literature.

3 hrs

3 cr.

D. 21 credits in literature courses

distributed so that at least 12 credits are courses studied in the original language (be it a foreign language, if the student is proficient in that language, or English). Courses at the 300 level are strongly preferred, although exceptions may be granted by the adviser.

**Minor for Students Majoring in Comparative Literature**

A 12 credit minor is recommended for students majoring in Comparative Literature. Students will be advised by their Comparative Literature faculty mentor to choose a discipline that will complement and enrich their major field of study.

**Honors**

Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.
Computer Science

Overview

The Department of Computer Science offers a comprehensive Bachelor of Arts degree in computer science. The core objectives of our curriculum are to:

- Provide a broad base in the design, implementation and application of computer software systems; a firm grasp of the essentials of computer architecture; and a solid foundation in the theoretical aspects of computer science;
- Prepare undergraduates for life after graduation in careers in business, government, and the computer industry or in the pursuit of graduate studies, and;
- Expose students to the excitement and challenge of computing technologies and theory through a variety of advanced topics courses and close participation with faculty in cutting-edge research.

What can I do with my degree in Computer Science?

The Department of Computer Science provides students with outstanding preparation both for employment as computer professionals and for graduate study. Students use a spectrum of programming languages and machine architectures and are expected to construct creative solutions to challenging problems in a variety of contexts. In addition, students are educated in the mathematics of computer science — the theoretical foundations that support current technology and will guide its future development.

Computer Science - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of Computer Science, the course that meets CCCR is:
CSCI 12700 Introduction to Computer Science (STEM) Scientific World

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (40-61 credits)

The computer science major consists of 34-44 credits in CSCI courses and a collateral 6-17 credits in MATH/STAT courses.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Students may obtain Credit by Examination for CSCI 12700, CSCI 13500 and CSCI 15000. See the Computer Science department for details.

Please note that the department of Computer Science does not accept Cr/NC grades in courses required for the Major.

All computer science majors (except those following requirements for the Computer Science with Concentration in Bioinformatics - BA) must complete successfully the following courses with a grade of C or better:

Required Courses
MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

Prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

Prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

Prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

Prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

CSCI 12700 - Introduction to Computer Science (STEM)
This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

**CSCI 13500 - Software Analysis and Design I**

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

*prereq: CSCI 12700 or equivalent
*coreq: CSCI 13600
3 hrs
3 cr.

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

*prereq: MATH 12500, 15000 or 15500
4 hrs (3 Lec. 1 Rec.)
4 cr.

**MATH 16000 - Matrix Algebra**

*GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

*prereq: MATH 12500 or appropriate score on placement exam
3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

Hunter Core
Math/Quantitative Reasoning
*GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

CSCI 16000 - Computer Architecture I

GER
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.
prereq: CSCI 12700, CSCI 15000
3 hrs
3 cr.

CSCI 23500 - Software Analysis and Design II

GER
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.
prereq: CSCI 13500, 15000; MATH 15000
3 hrs
3 cr.

CSCI 26000 - Computer Architecture II

GER
3/B

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.
prereq: CSCI 13500, 16000 or 24500; MATH 15000
3 hrs
3 cr.

CSCI 26500 - Computer Theory I

GER
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.
prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III
GER
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.
*prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.

CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.
*prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300
3 hrs
3 cr.

CSCI 49900 - Advanced Applications: A Capstone for Majors

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.
*prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.
4 hrs
4 cr.

Electives

Students who declared their major after spring 2009 take a minimum of 12 elective credits and are required to successfully complete CSCI 49900, after having successfully completed all other required courses for the major.

Recommended course sequence for entering freshmen without credit for pre-calculus and without prior computer programming experience:

Term 1

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

Term 2

CSCI 13500 - Software Analysis and Design I

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

prereq: CSCI 12700 or equivalent
coreq: CSCI 13600
3 hrs
3 cr.

CSCI 13600 - Supervised Programming Lab

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment.

May not be counted towards the computer science major.

coreq: CSCI 13500
2 hrs
1 cr.

CSCI 15000 - Discrete Structures

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

prereq: MATH 12500, 15000 or 15500
4 hrs (3 Lec. 1 Rec.)
4 cr.

Term 3
CSCI 16000 - Computer Architecture I

GER
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

prereq: CSCI 12700, CSCI 15000
3 hrs
3 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

Term 4

CSCI 23500 - Software Analysis and Design II

GER
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

prereq: CSCI 13500, 15000; MATH 15000
3 hrs
3 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

Term 5
CSCI 26000 - Computer Architecture II

GER
3/B

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

prereq: CSCI 13500, 16000 or 24500; MATH 15000
3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III

GER
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.

MATH 16000 - Matrix Algebra

GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12500 or appropriate score on placement exam
3 hrs
3 cr.

Term 6

CSCI 26500 - Computer Theory I

GER
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.

Term 7

CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

3 hrs
3 cr.

• 2 CSCI electives

Term 8

CSCI 49900 - Advanced Applications: A Capstone for Majors

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.

4 hrs
4 cr.

and 2 CSCI electives

Additional Information

Students with both credit for pre-calculus and prior computer programming experience can begin with Semester 2.

Recommended course sequence for students with transfer credit for CSCI 13500, 15000 and 16000 and MATH 15000 and 15500:

Term 1

CSCI 23500 - Software Analysis and Design II
Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

prereq: CSCI 13500, 15000; MATH 15000
3 hrs
3 cr.

CSCI 26000 - Computer Architecture II

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

prereq: CSCI 13500, 16000 or 24500; MATH 15000
3 hrs
3 cr.

MATH 16000 - Matrix Algebra

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12500 or appropriate score on placement exam
3 hrs
3 cr.

Term 2

CSCI 33500 - Software Analysis and Design III

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.

CSCI 26500 - Computer Theory I

3/B
Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

*prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.*

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

*prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.*

**Term 3**

**CSCI 34000 - Operating Systems**

**GER**

3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

*prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300
3 hrs
3 cr.*

- 2 CSCI electives

**Term 4**

**CSCI 49900 - Advanced Applications: A Capstone for Majors**

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

*prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.
4 hrs
4 cr.*

- and 2 CSCI electives

**Minor in Computer Science**
A minor in Computer Science consists of 13-14 credits of coursework. These credits include the following required courses – note that MATH 12500 (STEM) is a prerequisite course to CSCI 12700 however MATH 125 does not count towards the Computer Science Minor:

**CSCI 12700 - Introduction to Computer Science (STEM)**

*Hunter Core*
*Scientific World (SW)*
*GER*
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

**CSCI 13300 - Programming for Everyone**

*Hunter Core*
*Scientific World (SW)*
*GER* 2/E

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.

3 hrs
3 cr.

**CSCI 23200 - Relational Databases and SQL Programming, with Lab**

*GER*
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.

Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

*prereq: CSCI 12700 or CSCI 13200*

3 hrs
3 cr.

**CSCI 23300 - Programming Projects Seminar for Minors**
This course will serve as a capstone for the minor, affording students the opportunity to write reasonably large and complex programs. Students will be expected to draw topics for these programs from their majors or other areas of interest. This course does not count toward the computer science major.

prereq or coreq: CSCI 13300 and 23200 and a declared Computer Science Minor.

2 hrs.
1 credit

In addition, students will be required to take at least one 3 credit elective selected from Computer Science offerings numbered 13500 or above. Although minors may take any Computer Science course numbered 135 or above, courses that require only one or more of the above courses as prerequisites include:

**CSCI 13500 - Software Analysis and Design I**

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

prereq: CSCI 12700 or equivalent
coreq: CSCI 13600

3 hrs
3 cr.

**CSCI 13600 - Supervised Programming Lab**

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment.

May not be counted towards the computer science major.

coreq: CSCI 13500

2 hrs
1 cr.

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

prereq: MATH 12500, 15000 or 15500

4 hrs (3 Lec. 1 Rec.)
4 cr.

**CSCI 16000 - Computer Architecture I**

GER
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

prereq: CSCI 12700, CSCI 15000

3 hrs
3 cr.

**CSCI 26700 - Microprocessors and Embedded Systems**
Students will assemble and program a small single board computer to control, or simulate control of, some device.

*prereq: CSCI 13300 or 26000*

3 hrs

3 cr.

**Note**

All prerequisites must be fulfilled for any CSCI course. The only exception is a written waiver from the instructor.

Prospective minors should be aware that this course of study usually requires a minimum of four semesters to complete.

**Please note**

*Computer science majors cannot choose computer science for their minor.*

**Minor in Logic**

Minor in Logic

**Minors for Computer Science Majors**

Hunter College does not requires students to take a minor field of study in conjunction with their major. Nevertheless, we encourage students to pursue a minor. Interested students may wish to combine a computer science major with a minor in such fields as mathematics, geography, economics, film and media. In fact most disciplines would be appropriate as a minor depending on the student's interests.

Consult and adviser in the department of the minor you wish to pursue for further information.

**Honors**

To graduate from Hunter College with honors in computer science, a student must have at least a 2.7 GPA overall and a 3.5 GPA or better in computer science/math and a grade of A in one of the CSCI 49300 series of courses.

**Additional Information**

The “one repeat” rule is in effect for all courses to be used toward the major, from CSCI 13500 through the 400-level courses. This means that if a student fails a CSCI major course once (failure = D, F, NC, WU), that student will have only one more chance to pass the course. In addition, the Computer Science Department will not accept a CR grade in any of the preliminary or required courses for the major (CSCI 13500, CSCI 15000, CSCI 16000, CSCI 23500, CSCI 26000, CSCI 26500, CSCI 33500, CSCI 34000, CSCI 36000). Any student wishing to declare computer science as a major who has received a grade of CR in any of the CSCI courses listed above, must ask the instructor of that course to change the CR grade to the appropriate letter grade. This must be done before the declaration of major form can be authorized.
Please note: A grade of “D” is not considered a passing grade by this department for any of the computer science or math courses required for the major.

Degree Map

Degree Map for Computer Science

Computer Science with Concentration in Bioinformatics - BA

Return to Programs and Courses in Computer Science

This course of study will provide computer science majors with a fundamental understanding of the most important aspects of quantitative and computational biology, including a solid background in biology, chemistry, mathematics, statistics, and computer science, with an emphasis on quantitative reasoning. Students opting to concentrate in bioinformatics are not required to take CSCI 26000, and CSCI 36000. Instead of 15 credits of 300-level and 400-level electives, the following requirements must be met:

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement. In the case of Computer Science, the course that meets CCCR is: CSCI 12700 (Scientific World)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (58-83 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students may obtain Credit by Examination for CSCI 12700, CSCI 13500 and CSCI 15000. See Computer Science department for details. Please note that the department of Computer Science does not accept Cr/NC grades in courses required for the Major.

I. Introductory Courses (1-14 credits credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

Prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 12500 (STEM) - Precalculus
Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

\textit{prereq: grade of C or better in MATH 10100 or appropriate score on placement exam}

4 hrs
4 cr.

CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

CSCI 13500 - Software Analysis and Design I

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

\textit{prereq: CSCI 12700 or equivalent}
\textit{coreq: CSCI 13600}

3 hrs
3 cr.

CSCI 13600 - Supervised Programming Lab

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment. May not be counted towards the computer science major.

\textit{coreq: CSCI 13500}

2 hrs
1 cr.

II. Students must obtain a grade of C or better in the following courses:

A. Computer science component 21-25 credits
CSCI 15000 - Discrete Structures

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.
prereq: MATH 12500, 15000 or 15500
4 hrs (3 Lec. 1 Rec.)
4 cr.

CSCI 16000 - Computer Architecture I

GER
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.
prereq: CSCI 12700, CSCI 15000
3 hrs
3 cr.

CSCI 23500 - Software Analysis and Design II

GER
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.
prereq: CSCI 13500, 15000; MATH 15000
3 hrs
3 cr.

CSCI 26500 - Computer Theory I

GER
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.
prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III

GER
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.
prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.
CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

3 hrs
3 cr.

CSCI 43500 - Database Management

GER
3/B

Hierarchical and network databases; theory of relational databases; normalization theory; query languages.

prereq: CSCI 33500

3 hrs
3 cr.

CSCI 49369 - Big Data Technology

The increasing availability of big data has changed fundamental practices in business, health care, policy making, and scientific research. The primary objective of this course is to enable students to efficiently process, manage, reformulate, and mine an extremely large data set. This is an interdisciplinary course that considers data from many different sources. Students are welcome to work with their own interested domains in addition to the required ones.

prereq: CSCI 13500 and CSCI 23200 or CSCI43500, or permission of the instructor

3 hrs
3 cr.

B. Math and statistics component 9-17 credits

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 16000 - Matrix Algebra

GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.
prereq: MATH 12500 or appropriate score on placement exam
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 31900 - Bayesian Statistical Inference in the Sciences

GER
3/B

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).
Prerequisites waived for students who have passed STAT 311.
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.
3 hrs
3 cr

C. Biology component 12 credits
BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered.

Prokaryotic and eucaryotic systems will be described. Classical Mendelian and molecular genetics principles will be covered in the lecture through discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eucaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.

(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)

coreq: CHEM 22200, 22300 or perm instr.

7 hrs

4.5 cr.

spring only

BIOL 42500 - Computational Molecular Biology

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.

Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs

3 cr.
D. Chemistry component 15 credits

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

*These courses may be counted for credit in more than one program.

Additional Information

Prerequisites for certain courses are waived for students opting for this concentration. BIOL 102 is waived for BIOL 203. CSCI 26000 is waived for CSCI 34000. Other prerequisites must be satisfied. Students who plan to apply to graduate school in Computer Science are recommended to take CSI 26000, 36000 and 36500.

Degree Map

Degree Map for Computer Science: Bioinformatics

Minor in Computer Science

An applied minor in Computer Science consists of 13-14 credits of coursework. These credits include the following required courses – note that MATH 12500 is a prerequisite course to CSCI 12700 however MATH 125 does not count towards the Computer Science Minor:

- **CSCI 12700** - Introduction to Computer Science (STEM) (3 credits, 3 hours)
- **CSCI 13300** - Programming for Everyone (3 credits, 3 hours)
- **CSCI 23200** - Relational Databases and SQL Programming, with Lab (3 credits, 3 hours)
- **CSCI 23300** - Programming Projects Seminar for Minors (1 credit, 2 hours)

In addition, students will be required to take at least one 3 credit elective selected from Computer Science offerings numbered 135 or above. Although you may take any Computer Science course numbered 135 or above, courses that require only one or more of the above courses as prerequisites include:

- **CSCI 13500** - Software Analysis and Design I (3 credits, 3 hours) and **CSCI 13600** - Supervised Programming Lab (1 credit, 2 hours)
- **CSCI 15000** - Discrete Structures (4 credits, 4 hours)
- **CSCI 26700** - Microprocessors and Embedded Systems (3 credits, 3 hours)
- **CSCI 16000** - Computer Architecture I (3 credits, 3 hours)

Dance

Overview
The Hunter College Dance Department offers an opportunity to pursue a BA degree in dance with in the context of a strong liberal arts education. From a campus in the heart of New York City, the dance major or minor student has the unique opportunity of interfacing with many professional dance companies, choreographers and researchers who live and work in New York. The contemporary dance-based curriculum provides the student with the opportunities to pursue careers in performance, choreography, teaching, arts administration and production and is unique in its focus on individual creativity and reflection. All dance majors are required to choreograph, perform, and participate actively in the close-knit artistic community. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, guest artist workshops, and internship opportunities. Through our collaboration with Hunter's School of Education, students can also pursue BA or BA/MA degrees in Dance Education, leading to initial certification as a teacher in New York State.

What can I do with my degree in Dance?

Our curriculum provides students with a strong foundation that can lead to professional careers for performers, creators, scholars, educators, and arts advocates.

Programs and Courses

Programs and Courses in Dance

Dance Education Programs

Preparation for Teaching

The BA program in PreK-12 Dance Education leads to initial certification as a teacher in New York State. This undergraduate program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools. The Education course of study is a 25-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Administration and Faculty

Chair:

Carol K. Walker (acting)
614 Thomas Hunter
212-772-5010

Department Office:

(212) 772-5012
http://www.hunter.cuny.edu/~dance/
Hours of Operation: Monday – Friday 9:00 AM – 5:00 PM

Faculty
Dance - BA

The BA in Dance at Hunter is open to all students who have been admitted to Hunter College. To be declared a BA Dance Major, students must be admitted into DAN 21500 Ballet 1 or DAN 21000 Contemporary Dance Technique I or higher as determined by placement audition open to all students. The student will meet with the advisor in the Dance Department as soon as they qualify for level 1 technique or higher and every semester thereafter.

All Dance majors are required to earn 42 credits minimum in DAN courses and complete all requirements including:

- Be registered in at least one dance technique course every semester in order to remain a Dance major in good standing, unless granted exemption by the department;
- Perform in a minimum of 2 student choreographed pieces during their studies at Hunter College;
- Earn a C grade or better in all courses required for the major (grades below C will not count toward the major.)

Courses Required for the Major (42-46 credits)

The BA Dance Degree Curriculum is divided into 4 areas of study:

1. Dance Technique and Performance (20-24 credits minimum)
2. Creative work: Improvisation, choreography, performance (11 credits)
3. Dance Studies (8 credits)
4. Electives (3 credits)

1. Dance Technique and Performance (20-24 credits)

- Four credits of any dance technique style at level I (all four credits must be in the same style) (4)
- Four credits of dance technique level III (all four credits must be in the same style) (4)
- Eight credits of dance technique any style at level I or higher (8)
- DAN 43200 (1) and DAN 43300 (1)
- DAN 44000 (2)
- Students who do not place into a dance technique level 1 class must take DAN 10100 Fundamentals of Contemporary Dance Technique and/or DAN 10500 Fundamentals of Ballet (0-3)

2. Creative Work (11 credits)

- DAN 12400 Production Crew (.5 x 2)*
- DAN 22100 Improvisation (1)
- DAN 22400 Stagecraft (1)
- DAN 32100 Composition I (2)
- DAN 42100 Composition II (2)
- DAN 42200 Dance Workshop (2)
- DAN 42400 Production (2)

*Please note that DAN 12400 Production Crew must be taken twice to complete the major.
3. Dance Studies (8 credits)

- DAN 21300 Basic Musicianship for Dancers (2)
- DAN 23200 20th-Century Dance History (3)
- DAN 35000 Anatomy and Kinesiology for Dancers (3)

4. Electives (3 credits)*

Dance Technique Electives

- DAN 15100 Global Dance 1
- DAN 25100 Global Dance 2
- DAN 25200 Special Topics: Traditional Dance I
- DAN 35200 Special Topics: Traditional Dance II

Other Electives

- DAN 34200 Teaching Dance
- DAN 25500 Dance Pedagogy
- DAN 46100 Seminar in Dance
- DAN 48000 Independent Study in Dance
- DAN 49000 Honors in Dance
- DAN 49800 Internship

*Dance Technique and Creative Work courses are repeatable for elective credit.

Note: All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Teacher Education Pathway for Creative Arts

Students planning to teach this subject in grades PreK-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Minor in Dance

The Hunter College Minor in Dance (a minimum of 16 required credits) is designed to allow students to pursue a variety of interests in the field.

Required courses (a minimum of 16 credits total)

The following 2 courses must be taken prior to declaration of the minor:

**DAN 10100 - Fundamentals of Contemporary Dance Technique**

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq: minimum 12 cr.**

3 hrs

2 cr.

**DAN 10200 - Dance, Dancers and the Audience**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**
GER 2/D

Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq: minimum 12 cr.**

3 hrs

3 cr.

**Additional required courses**

**DAN 21000 - Contemporary Dance Technique I**

**GER**
3/A

Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken twice for credit with permission of the department.

**prereq: DAN 10100, perm dept., placement class**

4 hrs

2 cr.

**DAN 22100 - Improvisation**

**GER**
3/A

Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

**prereq: Declaration of Dance Major or Dance Minor**

4 hrs

1 cr.

1 additional dance technique course, selected from the following:

**DAN 10500 - Fundamentals of Ballet**
Introduction to fundamental skills and nomenclature of ballet. May be taken three times for credit with permission of the department.

4 hrs
2 cr.

**DAN 15100 - Global Dance 1**

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.

2 hrs
1 cr.

**DAN 22000 - Contemporary Dance Technique II**

**GER**
3/A

Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be taken twice for credit with permission of the department.

prereq: DAN 21000, perm dept, or placement class
4 hrs
2 cr.

**DAN 21500 - Ballet 1**

**GER**
3/A

Advanced-beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken three times for credit with permission of the department.

prereq: permission of department
4 hrs
2 cr.

**DAN 25200 - Special Topics: Traditional Dance I**

**Pluralism and Diversity**

**GER 3/A PD/A**

Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: placement class
4 hrs
2 cr.
DAN 31000 - Contemporary Dance Technique III

Pluralism and Diversity
GER 3/A
Intermediate-advanced movement experience, expansion of technical and aesthetic range; continued in-depth study of all concepts of dance. May be taken twice for credit with permission of the department.

prereq: DAN 22000, or perm. depart.
4 hrs
2 cr.

DAN 41000 - Contemporary Dance Technique 4

Pluralism and Diversity
GER 3/A
Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken three times for credit with permission of the department.

prereq: permission of department
3 hrs
2 cr.

DAN 22500 - Ballet 2

GER
3/A
Intermediate-level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken three times for credit with permission of the department.

prereq: permission of department
4 hrs
2 cr.

DAN 35200 - Special Topics: Traditional Dance II

Pluralism and Diversity
PD/A
GER
3/A
Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: DAN 25200, perm dept.
4 hrs
2 cr.

Plus a minimum of 6 additional credits in dance
A minimum of 6 additional credits in Dance (choices must be approved by Dance Faculty Adviser):

Any DAN course at the 200 level or above (At least one of these must be a 3-credit course)

Additional Requirements of the Dance Minor

Participation on one production crew team for a fully produced dance program concert.

Performance in at least one Hunter dance concert.

Minor in Dance

The Hunter College Dance Program Minor in Dance (a minimum of 16 required credits) is designed to allow students to pursue a variety of interests in the field, from performance and creative work to analysis, production and pedagogy.

Required courses (a minimum of 16 credits total)

The following 2 courses must be taken prior to declaration of the minor:

**DAN 10100 - Fundamentals of Contemporary Dance Technique**

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

*prereq: minimum 12 cr.*

3 hrs

2 cr.

**DAN 10200 - Dance, Dancers and the Audience**

**Hunter Core**

Creative Expression (CE)

**Pluralism and Diversity**

GER 2/D

Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

*prereq: minimum 12 cr.*

4 hrs
2 cr.

A minimum of 6 additional credits in dance

A minimum of 6 additional credits in Dance (choices must be approved by Dance Faculty Adviser):

Any DAN course at the 200 level or above (At least one of these must be a 3-credit course)

Participation on one production crew

Participation on one production crew team for a fully produced dance program concert

Note:

Placement in technique courses above the Fundamentals level is by placement class, the first day of class review, recommendation of instructor, or department permission. Repeated courses may not be counted in these requirements.

Economics

Overview

The department has two undergraduate programs, a BA in Economics and a BS in Accounting, as well as a BA/MA in Economics. All three programs equip students with analytic tools that can be applied in many different careers in both the private and public sectors.
Economics

Economics students become problem solvers. They learn to analyze a situation, figure out what is important and determine what can be abstracted away. The economics curriculum stresses the development of general problem-solving skills: finding, gathering and interpreting information; predicting the consequences of decisions; evaluating alternative courses of action; and analyzing the management of resources in both the public and private sectors. At the same time, economics students learn about the institutions and rules that shape daily life — the monetary system, the stock and bond markets and the regulatory system that mandates warning labels on cigarette packs and seat belts in automobiles.

What can I do with an Economics Degree?

While an undergraduate major in economics does not define the career a graduate may ultimately lead, it provides students with a point of view and a set of skills that will be useful in almost any path taken after graduation. A major in economics is especially valuable for those who plan careers in finance, management, law, journalism, or public policy. Many professional economists also enter government at the federal, state, or local level, either in research or policy-making positions. Still others are involved in teaching and research in colleges and universities.

Accounting

Accountants specialize in measuring, reporting and interpreting the financial aspects and transactions of businesses, governments, non-profits and other institutions. Accounting provides the information necessary to determine and evaluate both present and projected economic activities of organizations. Professional accountants develop and apply their skills in auditing, taxation, management policy, information systems, computer operations and many other areas.

What can I do with an Accounting Degree?

Nearly half of all accounting graduates are employed by public accounting firms. Others work for private firms, engage in research and consulting, practice in the government sector or with non-profit entities, or continue their education on the graduate level.

Programs and Courses

Programs and Courses in Economics

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

Internships
Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the department, to identify internship opportunities.

**Faculty**

Economics and Accounting

**HEGIS Codes:** 2204 (Economics), 0502 (Accounting)

**Accounting-BS**

The degree of bachelor of science (accounting) offered at Hunter College fulfills educational requirements for the CPA examination in New York State. Candidates pursuing licensure in New York State will need to complete 150 college credits including ACCP 49000 - Accounting & Auditing Research. An appropriate masters degree, while not required, is another path to licensure. For information on the MS in Accounting at Hunter College, see the Hunter College Graduate Catalog.

All students contemplating a career in accounting should request an interview with the accounting program adviser during the lower freshman term. To assure completion of the BS (accounting) degree within four years, a full-time student should begin the accounting major sequence in the upper freshman term, if possible, and no later than the lower sophomore term, by registering for ACC 27100.

**Hunter Core Requirement**
Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the accounting major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>ECO 20000</td>
<td>Scientific World</td>
</tr>
<tr>
<td>ECO 20100</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

**Accounting Major**

The Department of Economics offers a major leading to the BS in accounting, requiring a minimum of 35 credits of accounting, 36 credits of other professional studies and an additional 3-11 credits of non-professional studies. Details are outlined below.

**Grade Options**

Students enrolled in the BS (accounting) curriculum may not use CR/NC grades for the 35 accounting credits in the accounting major.

**Progression in the Major**

All courses that are prerequisites to courses required by the B.S. Program in Accounting must be passed with a grade of C, or CR, or better before students may progress to the next course in the sequence and in order to graduate. ECO 22100 is required for the major and must be completed with a grade of C, CR or better to be accepted for credit toward fulfillment of the major.

**Courses Required for the Major (74-82 credits)**

**Non-professional Studies (3-11 cr)**

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*
MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

Prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

*These courses may be counted for credit in more than one program.

Additional Information

Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Courses waived through substitution or examination do not provide course credit nor do they count toward the major.

Students may place out of MATH 10100 and MATH 12500 (STEM) requirements without replacing the credits. See the Department of Mathematics and Statistics for details. Students may place out of MATH 15000 (STEM) but must replace the course with a 3 credit course approved by the Accounting Program.

Professional Studies (71 cr)

Accounting (35 cr)

ACC 27100 - Accounting I

Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.

Prereq: upper freshman standing

3 hrs
3 cr.

ACC 27200 - Accounting II

Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.

Effective term spring 2016

Prereq: ACC 27100 with a grade of C or better

3 hrs
3 cr.

ACCP 37100 - Intermediate Accounting I

In-depth study of current concepts relating to accounting for assets and current liabilities.

Effective term spring 2016

Prereq: ACC 27100 and ACC 27200 all with a grade of C or better.
ACCP 37200 - Intermediate Accounting II

Long-term liabilities, investments, revenue recognition; shareholders' equity, dilutive securities and earnings per share, income taxes, pensions, leases.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better.*

3 hrs
3 cr.

ACCP 37300 - Federal Income Taxation

Principles of federal income taxation and the impact of taxes on individuals.

*effective term spring 2016*

*prereq: Prereq: ACC 27100 and ACC 27200 and ACCP 37100, all with a grade of C or better*  
3 hrs
3 cr.

ACCP 37400 - Managerial Accounting (Cost Accounting)

Accumulation, analysis, presentation and use of cost data by management; budgets.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better*  
3 hrs
3 cr.

ACCP 47100 - Advanced Accounting I

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better*  
3 hrs
3 cr.

ACCP 47200 - Advanced Accounting II

Accounting theory and practice focused on partnerships, joint ventures, multinationals, government and public sector entities; not-for-profit accounting; interim and segment reporting; SEC problems, fiduciary accounting, bankruptcy.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better*  
3 hrs
3 cr.

ACCP 47300 - Business Taxes
Federal income taxation of partnerships and corporations; other special tax issues.

effective term spring 2016

prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 and ACCP 37300 all with a grade of C or better

3 hrs

3 cr.

ACCP 47500 - Auditing

Auditing theory and practices; ethics of accounting profession; procedures for auditing financial statements.

prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better

prereq or coreq: ACCP 47100 with a grade of C or better

4 hrs

4 cr.

ACCP 49000 - Accounting & Auditing Research

Acquisition of research, analytical and communication skills. Provides coverage of fundamental knowledge and skills to conduct research as well as their application through announced readings, cases and research discussions on selected topics. Requires extensive Internet and library research including the use of FASB codification database.

prereq: ECO 22100 with a grade of C or CR or better or STAT 21300 with a grade of C or CR or better and ACC 27100, ACC 27200, ACCP 37100, and ACCP 37200 all with a grade of C or better.

prereq or coreq: ACCP 47500

3 hrs

3 cr.

Additional Information

An overall average of at least "C+" (2.3 Grade Point Average) must be maintained in these 35 Accounting credits. Students who receive a grade of "D" or lower in any of the eleven required Accounting courses in the Professional Studies Requirement will be allowed to repeat the course only once. In total, students may repeat no more than three Accounting courses for which they received a grade of "D" or lower. Students who exceed this allowed number of course repeats will be dismissed from the BS program in Accounting. The Academic Adviser for the BS program in Accounting may, under extraordinary circumstances, make exceptions to this rule.

Other Professional Studies (36 cr)

Business Law (6 cr)

ACCP 28000 - Business Law I

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

prereq: sophomore standing or perm chair

3 hrs

3 cr.

ACCP 38000 - Business Law II
Legal aspects of business organizations; agency, partnership and corporate relationships.

*prereq: ACC 28000 with a grade of C, or CR, or better*
3 hrs
3 cr.

Statistics (3 cr)

**ECO 22100 - Economic Statistics**

**Hunter Core**
Mathematics and Quantitative Reasoning

**GER**
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

*prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500*

3 hr lecture or 2 hr lecture/1 hr discussion
3 cr.

Note: STAT 21300 (STEM) Introduction to Applied Statistics may also be used to fulfill this requirement.

**Additional Information:** For students already at or beyond this point when they become majors, the course should be taken within the first 12 credits following declaration of the major.

Finance (6 cr)

Required: ECO 36500 Corporate Finance and one additional course from the following:

**ECO 21000 - Money and Banking**

**GER**
3/B

Monetary and banking principles and practice; current issues; theory and policy.

*prereq: ECO 20000, 20100*
3 hrs
3 cr.

**ECO 36600 - Security and Investment Analysis**

**GER**
GER 3/B

Operation of the stock market; security analysis and evaluation; economic variables influencing security values.

*prereq: ECO 36500*
3 hrs
3 cr.

**ACCP 36700 - Analysis of Financial Statements**

**GER**
GER 3/B
Analysis, interpretation, and use of financial statements.

*note: This course does not count as an elective towards the Economics major.*

**prereq:** ECO 37200 and ECO 36500 or adviser's permission  
3 hrs  
3 cr.

**Business Core-Required (9 cr)**

**ECO 20000 - Principles of Microeconomics**

**Hunter Core**  
Scientific World (SW)  
**GER**  
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.  
**prereq:** MATH 10100 or exemption from the course  
3 hrs  
3 cr.

**ECO 20100 - Principles of Macroeconomics**

**GER**  
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.  
**prereq:** MATH 10100 or exemption from the course  
3 hrs  
3 cr.

- One course in computer science  
  **NOTE:** ACCP 47600 - Computer Accounting Systems is strongly recommended.

**Business electives (12 cr)**

Choose from the following:

**ECO 35900 - Economics of Business Organization and Management**

**GER**  
3/B

The economic theory of the firm, including the formal analysis of incentives and contracts. Particular focus on how the internal organization of the firm can mitigate the negative effects of conflicts of interest between different stakeholders in the firm.  
**prereq:** ECO 20000 with a grade of C, CR or better
3 hrs
3 cr.

- Any 300- or 400-level ACC or ECO course (excluding ACCP 47600 and ECO 49800) Note: ACCP 48000 is strongly recommended.
  NOTE: Students may not use any course to fulfill the business elective requirement that is also being used to satisfy any other requirement of the Accounting major.

Additional Information

An overall average of at least "C+" (2.3 Grade Point Average) must be maintained in these 36 credits of Other Professional Studies (Business Law, Statistics, Finance, Business Core, and Business Elective). This requirement is separate and measured independently of the required 2.3 GPA for the 35 Accounting credits.

Note: There is no minimum required Grade Point Average for the four to eleven Non-professional Studies credits.

Students enrolled in the BS (accounting) curriculum may use a CR/NC grade only one time toward the 36 credits in the Other Professional Studies requirement. If a student exceeds this limit, any additional CR grades in these 36 credits will be converted to a grade of C and any additional NC grades in these 36 credits will be converted to a grade of F.

Minor in Accounting

A Minor in Accounting is available. These courses may be used for CPLicensure in New York State, but represent only 15 of the 69 credits required.

Interdepartmental Fields

Students may take courses in economics as part of an interdepartmental program of study in Latin American and Caribbean studies, environmental studies (geography), women’s and gender studies and Jewish studies. Listings in each area discuss recommended courses.

Internships

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

ECO 49900 - Honors Project

Jr/Sr only. Supervised individual research and directed reading. Honors essay. 
prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5
GPA required in the major offered by the department and permission of the chair
3 hrs
3 cr.

Degree Map

Degree Map for Accounting

Degree Map for Economics

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Economics major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
prereq: successful completion of developmental courses, if required

Spring

ENGL 22000 - Introduction to Writing about Literature (W)

**Hunter Core**  
English Comp (EC)  
**GER**  
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.  
*prereq: ENGL 12000*  
3 hrs + one additional conference hour  
3 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*  
4 hrs  
4 cr.

ECO 20100 - Principles of Macroeconomics

**GER**  
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.  
*prereq: MATH 10100 or exemption from the course*
Sophomore Year

Fall

ECO 22100 - Economic Statistics

**Hunter Core**
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

*prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500

*3hr lecture or 2hr lecture/1 hr discussion*

Notes:
• Students placing into MATH 101 or 101EN can still complete the major in four years – sequencing will be shifted by one semester.

• Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 30000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major.

• The remaining 12 credits needed to complete the 30-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits may be at the 100-level (note: ECO 10000, ECO 19600, and ECO 29600 cannot be counted.)

• Economics majors may find both the minor and the Certificate Program in Public Policy of particular interest.

• The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC.

• For motivated students, the department offers the opportunity to complete both the BA and MA degrees simultaneously, where 30 of the 120 credits required for graduation are graduate credits. Please see the Accelerated BA/MA Economics Degree Map.

**Economics - Accelerated BA/MA**

The Department of Economics offers promising students the opportunity to complete both the BA and MA degrees within 120 credits, 30 of which must be at the graduate level.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index.

A minimum grade of B in the following, or their equivalents

**ECO 30000 - Intermediate Microeconomics**

**GER**

3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

*prereq: ECO 20000, 20100, MATH 15000*

3 hrs

3 cr.

**ECO 32100 - Introduction to Econometrics**

**GER**

3/B

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

*prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15400 or MATH 15500 or MATH 25500*

3 hrs

3 cr.

A minimum grade of C in the following, or their equivalents
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

Continuing in the program is contingent upon maintaining a 3.0 GPA in economics and the cumulative index and receiving

A minimum grade of B in

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000
3 hrs
3 cr.

An average grade of B in

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 16000 - Matrix Algebra

GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12500 or appropriate score on placement exam
3 hrs
3 cr.
All students in the BA/MA program must complete the following, or their equivalents, as well as the courses listed above.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs

4 cr.

**MATH 16000 - Matrix Algebra**

**GER**
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

*prereq: MATH 12500 or appropriate score on placement exam*

3 hrs

3 cr.

**Additional Information**

An undergraduate major in economics is normally required. Thomas Hunter Honors Program students may be admitted without declaring an undergraduate economics major, provided that the above courses are completed. To apply, see the graduate adviser.

**Honors**

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

Note: Students enrolled in the BA/MA program may substitute enrollment in ECO 798 and an MA thesis for ECO 49900 and the Honors paper.

**ECO 49900 - Honors Project**
Economics - BA

Hunter Core Requirement

Several courses lwithin this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses    CUNY Common Core Requirement

MATH 12500 Math & Quantitative Reasoning

MATH 15000 Math & Quantitative Reasoning

ECO 20000 Scientific World

ECO 20100 Individual & Society - Social Science

ECO 22100 Math & Quantitative Resoning

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Majors

The Department of Economics offers two Economics majors. The first, discussed below, is the Economics - BA, requiring a minimum of 30 credits. In addition, for motivated students, the department offers the opportunity to complete both the BA and MA degrees simulataneously, where 30 of the 120 credits required for graduation are graduate credits. Students interested in this option should click this link: Economics - Accelerated BA/MA

Grade Options

The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC.

Courses Required for the Major (30- 41 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites and without replacing the credits. See the Mathematics and Statistics department for details.

Students majoring in economics must take:

A. Introductory Courses for the Economics Major

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function
concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.
prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

ECO 20100 - Principles of Macroeconomics

GER
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.
prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

These courses must be completed with a grade of C, CR, or better to serve as prerequisites for courses credited to the major.

B. Core of the Economics Major

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

\textit{prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.}

\textit{4 hrs}

**Pre-requisites:**
ECO 22100 or STAT 21300 and MATH 15000 or MATH 15400 or MATH 15500 or MATH 25500

* 3 hrs
* 3 cr.

* These courses may be counted for credit in more than one program.

**Additional Information**

Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 30000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Courses waived through substitution or examination do not provide course credit nor do they count toward the major.

**C. Elective Courses**

The remaining 12 credits needed to complete the 30-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits may be at the 100-level (note: ECO 10000, ECO 19600, and ECO 29600 cannot be counted.)

**Minor in Economics**

The economics minor consists of a minimum of 12 credits, including

**ECO 20000 - Principles of Microeconomics**

**Hunter Core**
Scientific World (SW)
**GER**
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

*pre-req: MATH 10100 or exemption from the course*

* 3 hrs
* 3 cr.

**ECO 20100 - Principles of Macroeconomics**

**GER**
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.

*pre-req: MATH 10100 or exemption from the course*

* 3 hrs
* 3 cr.

and two other courses in economics. Accounting and business law courses do not count towards the economics minor.
Interdepartmental Fields

Students with majors in other departments may take courses in economics as part of an interdepartmental program of study in public policy, Latin American and Caribbean studies, environmental studies (geography), women's and gender studies and Jewish social studies. Listings in each area discuss recommended courses.

Internships

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

**ECO 49900 - Honors Project**

Jr/Sr only. Supervised individual research and directed reading. Honors essay. 
prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair
3 hrs
3 cr.

Public Policy

Economics majors may find both the minor and the Certificate Program in Public Policy of particular interest.

Degree Map

Degree Map for Economics

**Minor in Accounting**

A minor in accounting is available. These courses may be used for CPLicensure in New York State, but represent only 15 of the 69 credits required.

The Minor consists of 15 credits

with the following required courses:

**ACC 27100 - Accounting I**
Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.

prereq: upper freshman standing  
3 hrs  
3 cr.

ACC 27200 - Accounting II

Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.

effective term spring 2016

prereq: ACC 27100 with a grade of C or better  
3 hrs  
3 cr.

and Three of the following courses for the Financial Accounting Track 1

ACCP 37100 - Intermediate Accounting I

In-depth study of current concepts relating to accounting for assets and current liabilities.

effective term spring 2016

prereq: ACC 27100 and ACC 27200 all with a grade of C or better.  
3 hrs  
3 cr.

ACCP 37200 - Intermediate Accounting II

Long-term liabilities, investments, revenue recognition; shareholders' equity, dilutive securities and earnings per share, income taxes, pensions, leases.

effective term spring 2016

prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better.  
4 hrs  
4 cr.

ACCP 37400 - Managerial Accounting (Cost Accounting)

Accumulation, analysis, presentation and use of cost data by management; budgets.

effective term spring 2016

prereq: Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better  
3 hrs  
3 cr.

ACCP 47100 - Advanced Accounting I

effective term spring 2016

prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
Three of the following courses for the Law and Taxation Track 2 (ECO 37300 strongly recommended)

**ACC 28000 - Business Law I**

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

*prereq: sophomore standing or perm chair*

**ACCP 37300 - Federal Income Taxation**

Principles of federal income taxation and the impact of taxes on individuals.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100, all with a grade of C or better*

**ACCP 38000 - Business Law II**

Legal aspects of business organizations; agency, partnership and corporate relationships.

*prereq: ACC 28000 with a grade of C, or CR, or better*

**ACCP 47300 - Business Taxes**

Federal income taxation of partnerships and corporations; other special tax issues.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 and ACCP 37300 all with a grade of C or better*

**ACCP 48000 - Business Law III**

Sales and financing devices under Uniform Commercial Code; property; trusts and estates; bankruptcy; other selected topics.

*prereq: ACCP 28000 with a grade of C or CR or better*

**Minor in Economics**

The economics minor consists of a minimum of 12 credits, including ECO 20000 - Principles of Microeconomics, ECO 20100 - Principles of Macroeconomics and two other courses in economics. Accounting and business law courses do not count towards the economics minor.
English

Overview

The Department of English offers students a variety of courses in the study of literature, literary theory, composition, rhetoric, linguistics and creative writing. The department is interdisciplinary in its offerings, with a diverse faculty whose areas of research and approaches to teaching offer Hunter students a wide spectrum of historical, post-modern, theoretical, textual, and socio-cultural approaches to literary study, rhetoric and composition, linguistics and language, and creative writing. The department encourages disciplined, original thinking and writing while its small classes promote learning through stimulating discussions.

Introductory and intermediate courses present a wide range of literary forms, periods and genres. Students who major in English choose one of five concentrations: Literatures, Language and Criticism; Creative Writing; Adolescent Education (a concentration designed for prospective high school teachers), English Language Arts and Linguistics and Rhetoric. Qualified students may enroll in honors seminars and tutorials. The English Department participates in Hunter's interdisciplinary programs in Asian American Studies, Comparative Literature, Women's and Gender Studies, and Religion. The English major provides a foundation for careers in writing, teaching, journalism, publishing, law, business, or any other career that depends on the ability to read analytically and write effectively.

What can I do with my degree in English?

The ability to write well remains a rare but prized skill in almost every field, and English majors go on to careers in a variety of professions. The analytical, writing, and speaking skills honed in the major can lead graduates to careers in fields such as marketing, technology, publishing, teaching, the arts, law, venture capital, medicine, and policy making.

Concentration in Creative Writing (42 credits)

Return to Programs and Courses in English

The concentration in Creative Writing is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 22000 Introduction to Writing about Literature (W) and ENGL 25200 Introduction to Literary Studies, five required courses in literature, at least four creative writing workshops and three electives.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

B.A. in English: Concentration in Creative Writing

A. Introductory Courses (6 cr)

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core

English Comp (EC)

GER

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

3 hrs + one additional conference hour

3 cr.

ENGL 25200 - Introduction to Literary Studies
GER
3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

_prereq: ENGL 22000
3 hrs.
3 cr.

...to be taken within one semester of declaring the major

B. Five Required Literature Courses (15 cr)

1. Required Course

ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts.

_prereq: ENGL 22000
3 hrs
3 cr.

2. One course chosen from the following courses in American Literature

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

_prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39600 - American Prose from Reconstruction to World War I

GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

_prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39700 - Pre-20th Century American Poetry
GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

prereq: ENGL 22000
3 hrs
3 cr.

3. One course chosen from the following courses in Multi-Ethnic or Transnational Literatures written in English

ENGL 31800 - Topics in Literature of Non-European Americans (W)

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

*prereq: ENGL 22000

3 hrs
3 cr.

- or -

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

*prereq: ENGL 22000

3 hrs
3 cr.

4. One course chosen from the following courses in Literary Theory, Linguistics, or Rhetoric

ENGL 30600 - Introduction to Literary Theory (W)

GER
3/A

An introduction to major theories of literature, with an emphasis on contemporary trends.

*prereq: ENGL 22000

3 hrs
3 cr.

- or -

ENGL 33000 - Sociolinguistics
This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

*prereq: ENGL 22000*

3 hrs  
3 cr

-or-

**ENGL 33100 - The Structure of Modern English**

Exploration of the acquisition, structure, and use of modern English and its regional and social variations

*prereq: ENGL 22000*

3 hrs  
3 cr.

-or-

**ENGL 33200 - History of the English Language (W)**

The diversity and spread of English across the globe. The effects of language contact on English.

*prereq: ENGL 22000*

3 hrs  
3 cr.

-or-

**ENGL 34000 - History of Rhetoric**

GER  
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

*prereq: ENGL 22000*

3 hrs  
3 cr.

-or-

**ENGL 34800 - English Across the World**

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

*prereq: ENGL 22000*

3 hrs  
3 cr
5. One 300- or 400-level English course with a focus on literature or rhetoric before 1800

Note:

1. Students may use a period appropriate Honors Seminar to satisfy this requirement. Students may not use ENGL 33800 or ENGL 39500 to satisfy this requirement.
2. Topics courses must conform to the pre-1800 period requirement. Consult individual course descriptions or an English advisor for guidance.

Students may choose from among the following English courses:

**ENGL 31700 - Topics in Non-European Literary Traditions (W)**

**Pluralism and Diversity**
PD/A
GER
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester
*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

**Pluralism and Diversity**
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.
*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 31900 - Topics in Literature by Women (W)**

**Pluralism and Diversity**
PD/C
GER
3/A

Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.

cross-listed WGS 31900
*prereq: ENGL 22000*
3 hrs
3 cr.
ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32200 - Topics in Gender and Sexuality in Literature

Pluralism and Diversity
PD/C
Study of selected works examining gender and sexuality in literature in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature
Pluralism and Diversity
PD/B
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 32700 - Topics in Caribbean Literature (W)**

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 32900 - Topics in Cross-Cultural Literature in English (W)**

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 33200 - History of the English Language (W)**

The diversity and spread of English across the globe. The effects of language contact on English.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 33300 - Topics in Language and Linguistics**

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

*prereq: ENGL 22000*

3 hrs
3 cr.
ENGL 33400 - Beowulf and Other Early Texts

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33500 - Chaucer

Pluralism and Diversity
PD/D
GER
3/A

Study of Chaucer, with emphasis on The Canterbury Tales.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33600 - Medieval Literature (1100-1500)

GER
3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33700 - Literary Aspects of Folklore

GER
3/A

Studies of folktales, ballads and legends in their relationship to written literature.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34000 - History of Rhetoric

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.
ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A
A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton

ENGL 35100 - The Age of Elizabeth I

Pluralism and Diversity
PD/D
GER
3/A
Major emphasis on the work of Spenser; readings in other Elizabethan poetry and prose.

**prereq: ENGL 22000**

*3 hrs*  
*3 cr.*

### ENGL 35200 - Shakespeare Survey

**Pluralism and Diversity**

**PD/D**

**GER**  
3/A

A survey of Shakespeare's works from across his career.

**prereq: ENGL 22000**

*3 hrs*  
*3 cr.*

### ENGL 35300 - Shakespeare I

**Pluralism and Diversity**

**PD/D**

**GER**  
3/A

Study of works from first half of Shakespeare's career.

**prereq: ENGL 22000**

*3 hrs*  
*3 cr.*

### ENGL 35400 - Shakespeare II

**Pluralism and Diversity**

**PD/D**

**GER**  
3/A

Study of works from second half of Shakespeare's career.

**prereq: ENGL 22000**

*3 hrs*  
*3 cr.*

### ENGL 35500 - Topics in Shakespeare (W)

**GER**

3/A

Study of Shakespeare's works in relation to a particular literary, historical, or theoretical theme

**prereq: ENGL 22000**

*3 hrs*  
*3 cr.*
ENGL 35900 - Topics in Seventeenth-Century Literature

Poetry, prose and/or drama of the seventeenth century. Representative authors may include John Donne, Ben Jonson, Amilia Lanyer, Katherine Philips, John Milton, George Herbert, Lady Mary Wroth, Francis Bacon and Andrew Marvell.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 36000 - The 17th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works from the period in their cultural, social, and historical contexts. Authors may include Donne, Cary, Philips, Marvell, Herrick, Milton, and Rochester.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36100 - Milton

Pluralism and Diversity
PD/D
GER
3/A

Poetry and selected prose of Milton, with special emphasis on Paradise Lost.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36200 - English Drama of Restoration and 18th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Behn, Etherege, Wycherley, Dryden, Otway, Congreve, Centlivre, Gay, Goldsmith and Sheridan.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36300 - Topics in Milton
Study of Milton's works in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

*prereq: ENGL 22000

3 hrs
3 cr

**ENGL 36400 - The Age of Satire**

**Pluralism and Diversity**
PD/D
GER
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Dryden, Manley, Pope, Montagu and Swift.

*prereq: ENGL 22000

3 hrs
3 cr.

**ENGL 36500 - The Later 18th Century**

**Pluralism and Diversity**
PD/D
GER
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Johnson, Boswell, Blake, and Smith.

*prereq: ENGL 22000

3 hrs
3 cr.

**ENGL 36800 - The 18th Century English Novel**

**Pluralism and Diversity**
PD/D
GER
3/A

A survey of representative novels of the period in their cultural, social, and historical contexts. Authors may include Behn, Haywood, Fielding, Richardson, Sterne, Burney, and Austen.

*prereq: ENGL 22000

3 hrs
3 cr.

**ENGL 37100 - Topics in Romantic Literature**

Study of selected works and writers of the British Romantic period in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

*prereq: ENGL 22000*
3 hrs
3 cr.

ENGL 37200 - Romantic Poetry

Pluralism and Diversity
PD/D
GER
3/A

Study of major poets of the Romantic period in their cultural, social, and historical contexts. Authors may include Wordsworth, Coleridge, Byron, Shelley, Keats, Blake, Clare, Barbauld, Smith and Yearsley.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38200 - Topics in Medieval Literature

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic. May include study of Old and/or Middle English.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38300 - Topics in Renaissance Literature

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38400 - Topics in Restoration and 18th Century Literature

GER
3/A

Topics vary from semester to semester.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38600 - Topics in British and American Literature
Pluralism and Diversity
PD/C or PD/D (some topics)
GER
3/A

Topics vary from semester to semester. Check the schedule of classes and with the undergraduate adviser to see which topics meet PD requirements.

*prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38700 - Topics in British and/or Irish Fiction

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with an undergraduate adviser.

May be repeated once for credit with a different topic.

*prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38800 - Topics in Multi-Genre British and/or Irish Literature

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

*prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38900 - One Major Writer (W)

Pluralism and Diversity
PD/C or D
GER
3/A

Authors vary from semester to semester. May be taken more than once with permission of dept. Some authors may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

*prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39100 - Topics in British and/ or Irish Poetry
Study of selected works and poets in the British and/or Irish poetry canon in relation to a particular literary, cultural, historical, or theoretical theme

**prereq:** ENGL 22000

3 hrs
3 cr.

**ENGL 39200 - Topics in American Poetry**

Study of selected American poetry in relation to a particular literary, cultural, historical, or theoretical theme.

**prereq:** ENGL 22000

3 hrs
3 cr.

**ENGL 39400 - World Literature: Drama**

GER
3/A

Selected plays, classical, medieval and modern, including dramatic criticism.

**prereq:** ENGL 22000

3 hrs
3 cr.

**ENGL 39800 - Topics in American Fiction**

Pluralism and Diversity
PD/C
GER
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
May be repeated once for credit with a different topic.

**prereq:** ENGL 22000 ENGL 39500 or ENGL 39600

3 hrs
3 cr.

**ENGL 39900 - Topics in American Multi-Genre Literature (W)**

Pluralism and Diversity
PD/C
GER
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
May be repeated once for credit with a different topic.

**prereq:** ENGL 22000, ENGL 39500 or ENGL 39600
ENGL 49000 - Advanced Topics Seminar

Focused study of and research on selected authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated for credit if a different topic is taken.

Prereq: ENGL 22000; ENGL 25200; completion of at least 24 credits in the major with a minimum GPA of 2.0
3 hrs.
3 cr.

ENGL 49400 - Honors Seminar: Special Studies

Pluralism and Diversity
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

1 sem
3 cr.

C. Four Required Creative Writing Workshops (12 cr)

1. All students who are planning to concentrate in Creative Writing must first take:

ENGL 30000 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

Prereq: ENGL 22000
3 hrs
3 cr.

(and pass it with a grade of B or higher)

2. Students must then take 3 more creative writing workshops from the following, at least one of which must be a level-II workshop.

Note: Students may repeat level-II workshops once for credit. Students may not take a Level-II Workshop without first taking the Level-I Workshop in that genre. Students may not take ENGL 48400 without first taking a Level-II Workshop in that genre.
ENGL 30800 - Workshop in Non-Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

prereq: ENGL 30000
3 hrs
3 cr.

ENGL 30900 - Workshop in Non-Fiction II

GER
3/A

A continuation of Workshop in Non-Fiction I, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

prereq: ENGL 30000 and 30800
3 hrs
3 cr.

ENGL 31100 - Workshop in Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of fiction.

prereq: ENGL 30000
3 hrs
3 cr.

ENGL 31300 - Workshop in Fiction II

GER
3/A

A continuation of ENGL 31100, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

prereq: ENGL 30000 and ENGL 31100
3 hrs
3 cr.

ENGL 31400 - Workshop in Poetry I

GER
3/A
Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of poetry.

prereq: ENGL 30000
3 hrs
3 cr.

ENGL 31600 - Workshop in Poetry II

GER
3/A

A continuation of ENGL 31400, with increasing emphasis on craft and revision. This course may be repeated once for credit.
prereq: ENGL 30000 and ENGL 31400
3 hrs
3 cr.

ENGL 48400 - Special Studies Seminar

GER
3/A

Topics in British and American literature or linguistics. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
3 hrs
3 cr.

(offerings vary and may include: Advanced Workshop in Poetry; Advanced Prose Writing; Narrative Forms: Strategies in Fiction; or The Art of Revision: Poetry and Fiction – See the Department web page each semester for current information.)

D. Three Electives (9 cr.)

Electives may be chosen from any of the department’s 300-or 400-level courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). In special cases, full-time faculty may find it appropriate to supervise a student who is interested in taking on an individual creative project for 3 credits; this option is listed in the catalogue, and in semester-by-semester class postings, as ENGL 48500: Independent Tutorial Study. Successful completion of such a course may also, if arranged beforehand, qualify as an Honors course. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department’s prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

Degree Map

Degree Map for English: Creative Writing
Concentration in English Language Arts (42 credits)

The concentration in English Language Arts is designed to provide students with experience in the study of literature, language, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. The English department strongly recommends that students choose at least one Language, Writing, or Modern/Contemporary Literature elective course.

Note: Double majors may count the course toward the requirements for only one of their majors. Students wishing to take a 300-level course that is not listed below must get prior written consent from an English advisor, and any such course is subject to the pre-requisites of the department in which the course is taken. Students also enrolled in the QUEST major may satisfy one of their ELA elective requirements by taking any Art History, Music History, Theatre, or Dance History course. Taking one of these courses will also satisfy 3 credits of the QUEST Arts Distribution requirement. This option is available only to ELA majors who are also majoring in QUEST.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR]. Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

BA in English: Concentration in English Language Arts

A. Introductory Courses (6 cr)

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core

English Comp (EC)

GER

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

3 hrs + one additional conference hour

3 cr.

ENGL 25200 - Introduction to Literary Studies
Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization. 

prereq: ENGL 22000
3 hrs.
3 cr.

to be taken within one semester of declaring the major

B. Four Required Literature Courses (12 cr)

1. Three Required Courses

ENGL 30500 - Studies in Children's Literature

GER
3/A

Selected works of children's literature in relation to a special theme, technique, theoretical issue, or cultural consideration.

prereq: ENGL 22000
3 hrs.
3 cr.

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs.
3 cr.

ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs.
3 cr.

2. One course chosen from among the following courses in American Literature (3 cr)

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)
An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

**prereq:** ENGL 22000  
3 hrs  
3 cr.

---

**ENGL 39600 - American Prose from Reconstruction to World War I**

**GER**  
3/A  

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.  

**prereq:** ENGL 22000  
3 hrs  
3 cr.

---

**ENGL 39700 - Pre-20th Century American Poetry**

**GER**  
3/A  

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.  

**prereq:** ENGL 22000  
3 hrs  
3 cr.

---

**C. Two Required Language and/or Rhetoric Courses (6 cr)**

1. **Required Course**

**ENGL 33100 - The Structure of Modern English**

Exploration of the acquisition, structure, and use of modern English and its regional and social variations  

**prereq:** ENGL 22000  
3 hrs  
3 cr.

2. One course chosen from among the following (3 cr):

**ENGL 33000 - Sociolinguistics**
This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

-or-

**ENGL 33200 - History of the English Language (W)**

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

**ENGL 33300 - Topics in Language and Linguistics**

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

**ENGL 34000 - History of Rhetoric**

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

**ENGL 34200 - Topics in Rhetoric**

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.
ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

D. Two Required Courses in Writing (6 cr.)

1. Required Course

ENGL 30100 - Composition Theory and Practice

GER
3/A

Study of the theory and practice of academic composition.

ENGL 30000 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods. Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

ENGL 30800 - Workshop in Non-Fiction I

-or-

prereq: ENGL 22000
3 hrs
3 cr.
Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

**prereq:** ENGL 30000

3 hrs

3 cr.

-or-

**ENGL 34100 - Rhetorical Principles of Expository Writing**

This course will focus on the relationship between rhetorical principles and academic writing.

**prereq:** ENGL 22000

3 hrs

3 cr.

Note: Students must take ENGL 30000 or 30100 before taking ENGL 30800.

**E. Four Electives (12 cr)**

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both.

NOTE: Students also enrolled in the QUEST major may satisfy one of their ELA elective requirements by taking any Art History, Music History, Theatre, or Dance History course. Taking one of these courses will also satisfy 3 credits of the QUEST Arts Distribution requirement. This option is available only to ELA majors who are also majoring in QUEST. To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

**Degree Map for English: English Language Arts**

**Concentration in English: Preparation for Secondary School Teaching (42 credits)**

Return to Programs and Courses in English
The concentration in English: Preparation for Secondary School Teaching is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies, 18 credits of required literature courses, 6 credits of required writing courses, a 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department, with the option to choose one of their three electives from a menu of courses in other departments and programs. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 Honors Seminar.

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

3 cr.

3. One course chosen from the following (3 cr):

**ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)**

**GER**  
3/A  

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.  
prereq: ENGL 22000  
3 hrs  
3 cr.

- or -

**ENGL 39600 - American Prose from Reconstruction to World War I**
GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin."

prereq: ENGL 22000
3 hrs
3 cr.

- or -

ENGL 39700 - Pre-20th Century American Poetry

GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

prereq: ENGL 22000
3 hrs
3 cr.

4. One course chosen from the following (3 cr)

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

- or -

ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.
C. Required Writing Courses (6 cr)

1. Theory and Practice of Expository Writing (3 cr)

**ENGL 30100 - Composition Theory and Practice**

**GER**

3/A

Study of the theory and practice of academic composition.

*prereq: ENGL 22000*

3 hrs

3 cr.

2. One course chosen from the following (3 cr.)

**ENGL 30000 - Introduction to Creative Writing**

**GER**

3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

*prereq: ENGL 22000*

3 hrs

3 cr.

-or-

**ENGL 34100 - Rhetorical Principles of Expository Writing**

**GER**

3/A

This course will focus on the relationship between rhetorical principles and academic writing.

*prereq: ENGL 22000*

3 hrs

3 cr.

D. Required Language Course (3 cr)

**ENGL 33100 - The Structure of Modern English**

Exploration of the acquisition, structure, and use of modern English and its regional and social variations.

*prereq: ENGL 22000*

3 hrs

3 cr.
E. Three Electives (9 cr)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

Degree Map

Degree Map for English: Preparation for Secondary School Teaching BA

Concentration in Linguistics and Rhetoric (42 credits)

Return to Programs and Courses in English

The concentration in Linguistics and Rhetoric is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches. This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

A. Required Courses

English 22000
ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

1. Two Required Courses (6 cr)

ENGL 25200 - Introduction to Literary Studies

GER
3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

prereq: ENGL 22000
3 hrs.
3 cr.

ENGL 33100 - The Structure of Modern English

Exploration of the acquisition, structure, and use of modern English and its regional and social variations

prereq: ENGL 22000
3 hrs
3 cr.

2. Two additional courses in linguistics chosen from the following (6 cr)

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

-or-

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two
texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

**prereq: ENGL 22000**

3 hrs

3 cr

3. Theory and Practice of Expository Writing (3 cr)

**ENGL 30100 - Composition Theory and Practice**

**GER**

3/A

Study of the theory and practice of academic composition.

**prereq: ENGL 22000**

3 hrs

3 cr.

4. Two courses in rhetoric chosen from the following (6 cr)

**ENGL 34000 - History of Rhetoric**

**GER**

3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

**prereq: ENGL 22000**

3 hrs

3 cr.

-or-

**ENGL 34100 - Rhetorical Principles of Expository Writing**

**GER**

3/A

This course will focus on the relationship between rhetorical principles and academic writing.

**prereq: ENGL 22000**

3 hrs

3 cr.

-or-

**ENGL 34200 - Topics in Rhetoric**
Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

5. Survey of British Literature I (3 cr)

ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs
3 cr.

6. One course in American literature chosen from the following (3 cr)

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39600 - American Prose from Reconstruction to World War I

GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39700 - Pre-20th Century American Poetry
GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

prereq: ENGL 22000
3 hrs
3 cr.

7. One additional course in literature chosen from the following (3 cr)

ENGL 31700 - Topics in Non-European Literary Traditions (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 31800 - Topics in Literature of Non-European Americans (W)

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B

Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs.
3 cr.

ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32500 - Post-Colonial Literature in English (W)
Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

*prereq: ENGL 22000*  
3 hrs  
3 cr.

-or-

**ENGL 32600 - Topics in US Latina/o Literature**

**Pluralism and Diversity**  
PD/B  
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme.  
Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*  
3 hrs  
3 cr.

-or-

**ENGL 32700 - Topics in Caribbean Literature (W)**

**Pluralism and Diversity**  
PD/A  
**GER**  
3/A  
Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*  
3 hrs  
3 cr.

-or-

**ENGL 32900 - Topics in Cross-Cultural Literature in English (W)**

**GER**  
3/A  
Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*  
3 hrs  
3 cr.

-or-

**ENGL 33300 - Topics in Language and Linguistics**

**GER**  
3/A
Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

B. Three Elective Courses (9 Credits)

Students may select electives from any 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). ENGL 30600 - Introduction to Literary Theory (W) is strongly recommended for all Linguistics and Rhetoric students. Students may also choose from courses related to linguistics or rhetoric offered in other departments, such as Anthropology (e.g., ANTHC 15100 - Introduction to Linguistics; ANTHC 32076 - Language, Sex and Gender; ANTHC 35100 - Language in Culture and Society), Classics (e.g., CLA 11000 - The Greek and Latin Roots of English, and Philosophy (e.g., PHILO 10300 - Introduction to Logic and Critical Thinking); or from courses in foreign language study that are beyond those taken in fulfillment of the foreign language requirement (e.g., advanced courses in a second language, beginning courses in a third language).

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department’s prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

Note

*ENGL 33300 and ENGL 34200 may be taken multiple times in different topics to fulfill both required and elective courses.

Degree Map for English: Linguistics and Rhetoric

Degree Map for English: Linguistics & Rhetoric
Concentration in Literatures, Language and Criticism (42 credits)

Return to Programs and Courses in English

Literatures, Language and Criticism Concentration

 Majors who choose the Concentration in Literatures, Language and Criticism (42 credits) take ENGL 22000
 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3), four required
 courses (12), three courses in a specialized area of study (9), one 300- or 400-level English course with a focus on
 literature or rhetoric before 1800 (3), and 4-5 electives (12-15). The department recommends that students take the six
 required courses early in their major studies, preferably soon after they have declared the major.

 The Literatures, Language and Criticism concentration is designed to provide students with exposure to a range of
 literary texts and traditions, as well as to a specific area of study in which to focus. The first two areas of study reflect
 particular national literatures, and the remaining four are designed with broader approaches to literary study in mind.
 With prior approval, a student may also work with an adviser to design her own area.

 Hunter Core Requirement

 Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core
 Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose
 courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details
 on the Hunter Core Requirement can be found here: Hunter Core Requirement

 Courses CUNY Common Core

 ENGL 22000 English Composition (EC)

 Please note that no more than two courses from any one department will count for the CUNY Common Core
 Requirement.

 Courses Required for the Major

 A. Introductory Courses (6 cr)

 ENGL 22000 - Introduction to Writing about Literature (W)

 Hunter Core

 English Comp (EC)

 GER

 2/A

 Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an
 emphasis on further development of critical writing and research skills. Students gain a deeper understanding and

3 cr.*

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

*prereq: ENGL 22000
3 hrs
3 cr.*

C. Required Area of Study (9 cr)

Students in this concentration must take three additional courses in one of the areas below. Particularly motivated students may also obtain prior approval from an adviser to design an area of their own choosing (e.g. literature by genre or by historical period, literary theory, cultural studies).

1. British and/or Irish Literatures
2. American Literatures, including African American, Asian American, Latino, and Native American
3. Transnational and/or Postcolonial Studies
4. Gender and Sexuality Studies
5. Race, Ethnicity, and/or Class Studies
6. Linguistics, Language, and/or Rhetoric
7. Transatlantic Studies

D. One 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3 cr)

Note: Students may use a period appropriate Area of Study course or Honors Seminar to satisfy this requirement. Students may not use ENGL 33800 or 39500 to satisfy this requirement.

Students may choose from among the following English courses:

ENGL 31700 - Topics in Non-European Literary Traditions (W)

Pluralism and Diversity
PD/A
GER
3/A
Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

**Pluralism and Diversity**  
**PD/B**  
**GER**  
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000  
3 hrs  
3 cr.

**ENGL 31900 - Topics in Literature by Women (W)**

**Pluralism and Diversity**  
**PD/C**  
**GER**  
3/A

Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.

cross-listed WGSA 31900

prereq: ENGL 22000  
3 hrs  
3 cr.

**ENGL 32100 - Topics in African American Literature**

**Pluralism and Diversity**  
**PD/B**  
**GER**  
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

`prereq: ENGL 22000` 
3 hrs
3 cr.

**ENGL 34700 - Language and Ethnicity**

**Pluralism and Diversity**
PD/B

**GER**
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

`prereq: ENGL 22000`
ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A
A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton

3 cr.*

**ENGL 49400 - Honors Seminar: Special Studies**

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

*1 sem
3 cr.*

**E. Electives (12-15 cr)**

The remaining courses in the major are electives, chosen by the student. Unless a student uses an Area of Study course to fulfill the requirement, one of these courses must be a 300- or 400-level English course with a focus on literature or rhetoric before 1800.

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

**Degree Map for English: Literature, Language and Criticism**

Degree Map for English: Literature, Language, & Criticism
Degree Map for English: Creative Writing

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an English major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Major

The English Department offers students five concentrations: (1) Literatures, Language and Criticism, (2) Creative Writing, (3) English: Preparation for Secondary School Teaching, (4) English Language Arts, and (5) Linguistics and Rhetoric. Students must take ENGL 22000 before taking any other English courses. Thirty-nine credits (13 classes) in 300- and 400-level courses are required for each concentration. Up to 6 credits in the major sequence may be taken for CR/NC.

- Concentration in Literatures, Language and Criticism (42 credits)
- Concentration in Creative Writing (42 credits)
- Concentration in English Language Arts (42 credits)
- Concentration in English: Preparation for Secondary School Teaching (42 credits)
- Concentration in Linguistics and Rhetoric (42 credits)

Literatures, Language and Criticism Concentration

Majors who choose the Concentration in Literatures, Language and Criticism (42 credits) take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3), four required courses (12), three courses in a specialized area of study (9), one 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3), and 4-5 electives (12-15). The department recommends that students take the five required courses early in their major studies, preferably soon after they have declared the major.

Creative Writing Concentration

The Concentration in Creative Writing (42 credits) is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 22000 Introduction to Writing about Literature
(W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), five required courses in literature (15 cr), at least four creative writing workshops (12 cr), and three electives (9 cr). The five literature requirements are: 1) ENGL 33800; 2) ENGL 39500, 39600, or 39700; 3) ENGL 31800, 32000, 32400, 32500, or 32700; 4) ENGL 30600, 33100, 33200, or 34000; and 5) One 300- or 400-level English course with a focus in literature or rhetoric before 1800. The first workshop for ALL students is the 3-genre workshop ENGL 30000: Introduction to Creative Writing, which must be passed with a grade of B or higher in order to qualify for this concentration. After successfully completing ENGL 30000, students are required to take a minimum of three additional workshops, beginning with the level-I workshop in the genre(s) in which they are interested: ENGL 30800, 31100, or 31400. Students are required to take at least one level-II workshop (ENGL 30900, 31300, or 31600) after completing the level-I workshop in that genre. Students may also take one of the special topics genre workshops (ENGL 48400) after completing both 300-level workshops in that genre. The remaining three courses for the major are electives and may be chosen from any of the department's 300- or 400-level courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). In special cases, full-time faculty may find it appropriate to supervise a student who is interested in taking on an individual creative project; this option is listed in the catalogue, and in semester-by-semester class postings, as ENGL 48500: Independent Tutorial Study. Successful completion of such a course may also, if arranged beforehand, qualify as an Honors course.

**English Language Arts Concentration**

The Concentration in English Language Arts (42 credits) is designed to provide students with experience in the study of literature, language, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. Students take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), four required literature courses (12 cr), two required courses in language and/or rhetoric (6 cr), and two required courses in writing (6 cr). The remaining four courses (9 cr) are electives and may be chosen from among the following: any of the English department's 300- or 400-level literature courses, including, if the student is eligible, one of the Honors seminars (ENGL 49400); any of the 300-level Creative Writing workshops for which the student has met the prerequisite(s); any 300- or 400-level courses in linguistics or literatures taught in English in other departments for which the student meets that department's prerequisite(s); and selected Theatre courses (16000, 16100, 32100, 37600, 37700, 37800) for which the student meets that department's prerequisite(s). The English department strongly recommends that students choose at least one Language, Writing, or Modern/Contemporary Literature elective course.

**Concentration in Preparation for Secondary School Teaching**

The Concentration in English: Preparation for Secondary School Teaching (42 credits) is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), 18 credits of required literature courses, 6 credits of required writing courses, one 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 - Honors Seminar: Special Studies.

**Concentration in Linguistics and Rhetoric**

The Concentration in Linguistics and Rhetoric (42 credits) is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches.
Students choosing this concentration will take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), three courses in linguistics (9 cr), three courses in composition and rhetoric (9 cr), three courses in literature (9 cr), and three electives (9 cr). This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

Honors

In order to qualify for departmental honors, students must take the Honors Seminar (ENGL 49400) and write an honors essay. The essay is normally written in relation to the Honors Seminar and under the supervision of the professor teaching the seminar. To take the Honors Seminar, students must first complete at least 24 credits of 300- and/or 400-level English classes with a GPA of at least 3.5 in those courses and an overall GPA of at least 2.8. Of these 24 credits, 21 must be taken at Hunter (in exceptional cases, 18 credits may suffice). The Honors Seminar requirement is in addition to the specified required courses in the student's concentration. Students interested in pursuing departmental honors should consult an undergraduate adviser. Please see the college rules on Academic Honors for more information in Academic Policies & Procedures.

ENGL 49400 - Honors Seminar: Special Studies

Pluralism and Diversity
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
1 sem
3 cr.

Note(s)

The Honors Seminar requirement is in addition to the specified courses in the student's major concentration. Students interested in departmental honors should consult the undergraduate adviser.

Minor in English

The English Department offers a 12-credit minor that provides students with an opportunity to pursue interests in literature, language, rhetoric, composition, and creative writing at the intermediate and advanced levels. Students may declare the Minor only after completing ENGL 22000 - Introduction to Writing about Literature (W), the prerequisite for all English courses above the 220 level. Students minoring in English may choose four courses (12 cr.) from among 200- and 300-level literature, language, rhetoric, or writing offerings, with a minimum of two 300-level courses necessary to satisfy the Minor requirements. Students who wish to take Creative Writing workshops in any of the three genres offered (Fiction, Poetry, and Creative Non-Fiction) must first pass ENGL 30000 - Introduction to Creative Writing, with a minimum grade of B.

Note:
Minor in English

The English Department offers a 12-credit minor that provides students with an opportunity to pursue interests in literature, language, rhetoric, composition, and creative writing at the intermediate and advanced levels. The prerequisite to declare a minor is ENGL 22000 - Introduction to Writing about Literature (W). Students minoring in English may choose four courses (12 cr.) from among 200- and 300-level literature, language, or writing offerings, with a minimum of two 300-level courses necessary to satisfy the Minor requirements. Students who wish to take Creative Writing workshops in any of the three genres offered (Fiction, Poetry, and Creative Non-Fiction) must first pass ENGL 30000 - Introduction to Creative Writing, with a minimum grade of B.

NOTE: No course below English 22000 counts towards fulfillment of the Minor except ENGL 21800 - Advanced Expository Writing. English minors may not take 400-level courses.

Film and Media Studies

Overview

The Hunter College Department of Film and Media Studies offers three degree programs in the production and critical analysis of film and media. One program leads toward a major in Film, combining film history and theory with film production. The other leads toward a major in Media Studies, combining critical media analysis with creative practice using a mix of contemporary media forms (video, animation, digital imaging and graphics, web and interactive production). Students are encouraged to develop a creative voice that is socially aware and engaged and can find expression across a range of contemporary media technologies. Our curriculum is founded on the integration of theory and practice. Leading scholars in history, aesthetics, media policy, critical theory and alternative and international practices provide students with a broad base in analytical thinking. Courses deal with subjects such as the history and aesthetics of film, video, television and new media; genre studies; the history, production and distribution of print and broadcast news; media representations of race, class and gender; and the intricate relationships among the mass media, popular culture and society. The department's production courses encourage students to work creatively in a variety of existing and emerging media forms. Courses include narrative film production (including screenwriting and directing), documentary production, television production, journalism and emerging media (including web design, animation, physical computing and game programming). The department is distinguished by award-winning faculty who are active in their respective fields.

What can I do with my degree in Film and Media Studies?

Skills honed in the major include research and communication skills, critical thinking, project management, team building skills and the ability to organize time effectively. In addition to careers within the film and media industries, graduates are attractive to the publishing industry, advertising and communications fields and other related industries.

Degree Map for Film

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Film major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Film major, the course that meets CCCR is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM 10100</td>
<td>Creative Expression</td>
</tr>
</tbody>
</table>

Courses Required for the Major (36 credits)

30-36 credits, combined total: up to 6 introductory, 12 credits analytical, 12 credits production and 6 credits electives from analytical and/or production courses.

Students must receive a grade of B or better in FILM 10100 to continue a major in film. The major must be declared in person with an undergraduate film adviser (call (212) 772-4949 to schedule). The student must bring his or her transcript, and, where relevant, transcripts from other colleges attended, when meeting with the undergraduate film adviser to declare a film major. Students majoring in film must also take FILMP 16000/MEDP 16000 which is prerequisite for all film production courses. A maximum of 6 credits in MEDIA courses at the 200 or 300 level may be applied toward the major in film. Students must meet any prerequisites for these courses. Courses at the 100 level, independent study, and internship courses do not count toward the major. Students must see a program adviser to plan choice and sequence of courses.

I. Introductory Courses (6 credits)

**FILM 10100 - Introduction to Cinema**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.

*3 hrs
3 cr.*
note: a B or better is required in this course in order to continue in the Film major

**FILMP 16000 - Media & Film in a Digital Age II**

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

*cross-listed MEDP 16000*

*prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)*

4 hrs

3 cr

-or-

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed FILMP 16000*

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

4 hrs

3 cr.

II. Analytical Course Requirements (12 credits)

A) Film Style and Close Analysis (6 credits)

**FILM 20100 - Practical Film Analysis**

*GER*

3/A

Close case study of a selected motion picture.

*prereq: FILM 10100*

3 hrs

3 cr.

plus 3 credits from one of the following courses:

**FILM 22400 - Cinematic Space**

*GER*

3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

*prereq: FILM 10100, 20100*

4 hrs

3 cr.

**FILM 23100 - Studies of Selected Directors**
Pluralism and Diversity
GER 3/A
Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.
prereq: FLM 10100, 20100
4 hrs
3 cr.

FILM 32300 - Film Technology and Aesthetic Theory

GER
3/A
Study of the relationship between film technology and film theory. May be repeated for credit with a different topic.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FLM 10100 and 20100
4 hrs
3 cr.

FILM 32351 - Aesthetics of Film Sound

GER
3/A
Examination of the history, theory and aesthetics of the relationship between film sound and image.
Except as otherwise noted, ENGL 12000 is prerequisite for all 30000- and 40000-level courses in FILM.
prereq: FLM 10100, 20100
4 hrs
3 cr.

FILM 33300 - Styles and Theories of Film Acting

GER
3/A
Study of film acting with regard to theoretical structures and aesthetic practice.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FLM 10100, 20100
4 hrs
3 cr.

B) Film History (6 credits):

One course (3 cr) from the following 200-level courses:

FILM 21100 - Film History I: 1895-1942

Pluralism and Diversity
PD/D
GER
3/A
Survey of film history and theory from the silent era to 1942.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21200 - Film History II: Since 1942

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from 1942 to the present.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21300 - National Cinema

Pluralism and Diversity
PD/D or A
GER
3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

prereq: FILM 10100
4 hrs
3 cr.

One course (3 cr) from the following 300-level courses:

FILM 34400 - History of Cinematography

GER
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

FILM 39700 - Topics in Film History

Pluralism and Diversity
PD/D
GER
A focused examination of specific issues and moments in film history. May be taken twice for credit under a different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100 and FILM 21100 or 21200 or 21300

**4 hrs**

**3 cr.**

**II. Production Course Requirements (12 credits):**

**A) Required Production Sequence (9 credits):**

**FILMP 25100 - Film Production I**

Introduction to the fundamentals of filmmaking, writing, cinematography and editing.

Material Fee: $20

**prereq:** MEDP/FLMP 16000; open to majors only or perm instr.

**4 hrs**

**3 cr.**

**FILPL 27600 - Screen Writing I - The Short (W)**

The Short Fundamentals of writing for film; critiques of original student scripts.

**prereq:** FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.

**4 hrs**

**3 cr.**

**FILMP 35200 - Film Production II**

Further development of fundamental filmmaking skills: pre-production, directing, and syncsound production techniques.

Material Fee: $20

**prereq:** FILM 25100, FILMP 27600 open to film/media majors only or perm instr.

**prereq or coreq:** Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**4 hrs**

**3 cr.**

**B) Advanced Production Cluster (3 credits):**

**FILMP 37100 - Screen Directing I**

Theory and practice of the film director's role as guiding force in creation of visual and aural images. Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILMP 251, FILMP 276; open to film/media majors only or perm instr.

**4 hrs**

**3 cr.**

**FILPL 37700 - Screen Writing II The Feature (W)**
Continuation of workshop experience with emphasis on full-length screenplay.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 27600
*4 hrs
*3 cr.

III. Elective Course Requirements (6 credits):

From analytical and/or production electives: At least one elective must be a 300 level or above course.

A) Analytical Electives:

**FILM 21400 - Multicultural Perspectives in Cinema**

**Pluralism and Diversity**
**PD/B (214.51 only)**
**GER**
**3/A**

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

*prereq: FILM 10100
*4 hrs
*3 cr.

**FILM 21500 - Women and Film**

**Pluralism and Diversity**
**PD/C**
**GER**
**3/A**

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

*prereq: FILM 10100
*4 hrs
*3 cr.

**FILM 22200 - Topics in Genre Studies**

**GER**
**3/A**

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

*prereq: FILM 10100
*4 hrs
*3 cr.

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**
This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

*cross-listed* WGSA 222.52

prereq: FILM 10100

4 hrs

3 cr.

**FILM 23000 - Movies in American Culture**

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq: FILM 10100

4 hrs

3 cr.

**FILM 23200 - Experimental Film and Video**

Historical examination of pertinent films and videos with particular emphasis on current American productions. 

prereq: FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).

4 hrs

3 cr.

**FILM 29900 - Special Topics in Film**

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.

prereq: perm dept.

1-3 hrs

1-3 cr.

**FILM 32200 - Contemporary Film Theory**
This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after.

Except as otherwise noted, ENGL 12000 is prerequisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100 and FILM 20100

4 hrs
3 cr.

**FILM 32400 - Narrative Strategies**

GER
3/A

Study of narrative techniques in cinema

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and 20100 or 23100

4 hrs
3 cr.

**FILM 32600 - America in American Film and Video**

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 21100 or 21200

3 hrs
3 cr.

**FILM 32700 - Representations of Race and Ethnicity in U.S. Media**

Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100

4 hrs
3 cr.

**FILM 32800 - Images of Resistance in the Developing World**

Pluralism and Diversity
PD/A
GER
Focuses on challenges by developing world films and filmmakers to Western media stereotypes.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100
* 4 hrs
* 3 cr.

**FILM 33200 - Myths and Images in the Media**

*GER*
* 3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100
* 3 hrs
* 3 cr.

**FILM 33400 - Theatricality and the Presentation of Self**

*GER*
* 3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and any 200-level FILM course
* 4 hrs
* 3 cr.

**FILM 39100 - Problems in Film Research**

*GER*
* 3/A

Study of basic methods of solving problems in the field of cinema studies.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100, 20100, 21100 or 21200
* 3 hrs
* 3 cr.

**FILM 39900 - Studies in Film**

*GER*
* 3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: variable*
3 hrs
3 cr.

**FILM 40100 - Independent Research**

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: perm chair
1-3 cr.

**FILM 40200 - Honors Project**

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.
3 hrs
3 cr.

**FILM 49900 - Advanced Seminar**

Selected topics in cinema studies. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: perm instr.
4 hrs
3 cr.

These courses may be counted for credit in more than one program.

**B) Film Production Electives:**

A second course from the advanced production cluster may be taken as an elective course

**FILMP 37100 - Screen Directing I**

Theory and practice of the film director's role as guiding force in creation of visual and aural images. Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 251, FILMP 276; open to film/media majors only or perm instr.
4 hrs
3 cr.

**FILPL 37700 - Screen Writing II The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 27600
4 hrs
3 cr.

**FILMP 31100 - Directing Documentary Video Production**
Exploration of the aesthetics of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** MEDP 28100; open to film/media majors only or perm instr.

4 hrs
3 cr.

**OR**

**FILMP 28600 - Location Sound**

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.

*cross-listed* MEDP 28600

**prereq:** FILMP 25100 or MEDP 28100

3 hrs
3 cr.

**FILMP 34100 - Producing the Film**

Contracts, financing, distribution, copyright law, options, acquisition of rights, securities law requirements. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILMP 25100, FILMP 27600

3 hrs
3 cr.

**FILMP 37200 - Screen Directing II**

Continuation of FILMP 37100. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILMP 37100 or permission of instructor

4 hrs
3 cr.

**FILMP 38100 - Techniques of Cinematography**

Advanced cinematographic techniques such as sensitometry, effects lighting and special effects. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILMP 35200 or permission of instructor

4 hrs
3 cr.

**FILMP 38200 - Narrative Editing**

Narrative editing concepts, theories and techniques. Editing exercises explore the aesthetic and practical components of the craft and introduce advanced digital editing tools.

**prereq:** FILMP 25100

4 hrs
3 cr.
**FILMP 38300 - Sound Design**

Aesthetics of sound design with practical instruction in audio post-production technology. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.*  
3 hrs  
3 cr.

**FILMP 38400 - Film and Video Production**

Production of short films with each student assigned to specific crew positions. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: FILMP 35200, and permission of instructor.*  
*variable hrs*  
3 cr.

**FILMP 39900 - Special Topics in Advanced Film Practice**

Offered periodically with the specific topic listed in the schedule of classes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: perm instr.*  
4 hrs  
3 cr.

**FILMP 45100 - Film and Video Production Seminar**

Individual student films produced under faculty supervision.  
Material Fee: $20 May be taken twice for credit.  
*cross-listed* MEDP 45100  
*prereq: FILMP 35200 and perm instr.*  
*prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.*  
3 hrs  
3 cr.

**FILMP 49800 - Internship**

Opportunity to gain professional experience  
40 working per. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: FILM 10100, two other film courses or equiv; perm dept and host institution 1-6 cr, 40 working hrs per cr.*  
*These courses may be counted for credit in more than one program.*

**Total credits required**

Sub-total 30  
Electives 6  
Total credits required 36

**Minor in Film**
Students who wish to minor in film must complete a total of 15 credits in addition to FILM 10100 which does not count towards the minor and is a prerequisite for all FILM courses.

Required courses

**FILM 21100 - Film History I: 1895-1942**

Pluralism and Diversity  
PD/D  
GER  
3/A

Survey of film history and theory from the silent era to 1942.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

-or-

**FILM 21200 - Film History II: Since 1942**

Pluralism and Diversity  
PD/D  
GER  
3/A

Survey of film history and theory from 1942 to the present.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

and two 200-level courses, and two 300-level courses.

No film production classes (designated FILMP) are available to minors with the exception of

**FILPL 27600 - Screen Writing I - The Short (W)**

The Short Fundamentals of writing for film; critiques of original student scripts.  
*prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.*  
4 hrs  
3 cr.

**FILPL 37700 - Screen Writing II - The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay.  
Except as otherwise noted, ENGL 12000 is prereq for all 300- and 400-level courses in FILM.  
*prereq: FILMP 27600*  
4 hrs  
3 cr.

Honors
To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

**FILM 40200 - Honors Project**

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.*

3 hrs
3 cr.

**MEDIA 40200 - Honors Project**

Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion qualifies student for departmental honors at graduation.

*prereq: 3 advanced-level courses; 3.0 GPA and 3.5 major GPA; perm dept.*

3 hrs
3 cr.

**Degree Map**

Degree Map for Film

**Media Studies -BA**

**Hunter Core Requirement**

Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

**Major (36 cr)**

Students must receive a grade of B or better in MEDIA 18000 to declare a major in Media Studies. The major must be declared in person with an undergraduate media studies adviser. (see department website for adviser schedules http://fm.hunter.cuny.edu/).

Students will be able to do a Media Studies BA: General Media Studies Major but may choose one of the concentrations in the major. These concentrations are:

- Media Studies BA: Concentration in Media Analysis and Criticism
- Media Studies BA: Concentration in Documentary and Television Production
- Media Studies BA: Concentration in Journalism
- Media Studies BA: Concentration in Emerging Media
However, these concentrations are optional; as long as they satisfy the General Media Studies Major requirements, students may combine courses from different concentrations.

Students majoring in Media Studies must take the following introductory courses. These courses count toward the major.

- MEDIA 18000
- FILMP 15000/MEDP 15000
- FILMP 16000/MEDP 16000

A maximum of 6 credits in FILM or FILMP courses at the 200- or 300-level may be applied toward the major in media studies. Students must meet any prerequisites for these courses. Courses in Independent Study, Honors Project, and Internship do not count toward the major. Students must consult a program adviser to plan choice and sequence of courses.

**Double Majors**

Students may choose to complete a major in the Department of Film and Media Studies and a second major in another department. A student cannot declare a double major in film and media studies. Because of the intensive nature of the production courses in both Film and Media Studies, it is strongly recommended that all students take no more than two production courses per semester.

**Minor in Media Studies**

The Minor in Media Studies consists of five courses for a total of 15 credits. At least one 200-level course and at least one 300-level course are required. The other three courses can be at any level. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor. Courses may be taken as either MEDIA, MEDP or MEDPL.

**Honors**

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project FILM 40200 or MEDIA 40200, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

**Media Studies BA: Concentration in Documentary and Television Production**

This concentration is intended to give students foundational knowledge in the theory and practice of linear non-fiction video and related digital media skills. Students in this concentration will also specialize in one of three advanced areas: Documentary Production, Experimental Media Production or Studio Television Production.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose
courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Media Studies major, the course that meets CCCR is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEDIA 18000</td>
<td>Individual &amp; Society (I&amp;S H)</td>
</tr>
</tbody>
</table>

Courses Required for the Major (36 credits)

A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

*This course may be counted for credit in more than one program.

B. Required Production Courses (9 cr.)

MEDP 28100 - Documentary Video Production 1
Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.
Material Fee: $20

prereq: MEDP/FILMP 16000
3 hrs
3 cr.

MEDPL 29000 - Developing the Documentary (W)

This workshop guides students through the research, writing and production planning essential for creating a video or film documentary.
prereq: MEDIA 18000 and MEDP 16000
3 hrs
3 cr.

Choice of one course from the following

MEDP 31100 - Documentary Video Production 2

Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.
Material Fee: $20
prereq: MEDP 28100 or FILMP 35200
prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.
4 hrs
3 cr.

-or-

MEDPL 31600 - Experimental Production

Experimental methods of film and video production, emphasizing innovative and non-traditional formal and conceptual practice.

prereq: FILM 25100 or MEDP 28100 or perm. instr.
3 hrs
3 cr.

-or-

MEDP 28200 - Studio Television Production

Elements of multi-camera studio production.

prereq: MEDP/FILMP 15000

coreq: MEDP/FILMP 16000 (or MEDIA/FILM 15100)
3 hrs
3 cr.

C. Elective Production Courses (9 cr.)
These may be any regular 200- or 300-level MEDP or MEDPL courses. Any regular 200- or 300-level FILMP and FILPL courses course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

D. Required Analytical Course (3 cr.)

MEDIA 31500 - Nonfiction Film and Video

GER
3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
4 hrs
3 cr.

E. Elective Analytical Courses (6 cr.)

Two regular analytical courses may be chosen from any analytical offering, however it is strongly recommended that students consider analytical courses in relation to their area of production.

Total Credits Required

21 Sub-total
15 Electives
36 Total credits required

Degree Map for Media Studies: Documentary Production

- Degree Map for Media Studies: Documentary Production

Media Studies BA: Concentration in Emerging Media

Return to Media Studies -BA

The Emerging Media concentration gives students foundational knowledge in the theory and practice of digital media as a creative and investigative form of production. Students in this concentration may elect to specialize in various areas of production including Web Production, Interactive Media Production and 3D Imaging Production or may elect a broad curriculum of study from the Emerging Media courses. The curriculum interweaves technical instruction with aesthetic, communicative and cultural production and research to help a student establish a cohesive portfolio in new media.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Emerging Media Concentration, the course that meets CCCR is:

**Courses** | **CUNY Common Core Requirement**
---|---
MEDIA 18000 | Individual & Society (I&S H)

Courses Required for the Major (36 credits)

**A. Introductory Courses (9 cr.)**

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs
*3 cr.*

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100

*4 hrs
*3 cr.*

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)

*4 hrs
*3 cr.*

*This course may be counted for credit in more than one program.

**B. Required Production Courses**

*select 4 from the list below for 12 credits:*
MEDP 25000 - Digital Design and Usability

This course introduces students to the fundamentals of 2D design and interaction design for digital media. The class approaches the subject from a creative and conceptual perspective. Students choose which digital production tools are most effective to address specific creative design problems.

_prereq:_ MEDP/FILMP 15000
3 hrs.
3 cr.

MEDP 26000 - Introduction to 2D Animation

This hands-on class is an introduction to animation using 2D digital tools. Historical precursors to digital animation including experimental and animated film as well as contemporary animation will be screened. Class time will consist of screenings, in-class demonstration, production and critique.

_prereq:_ MEDIA 18000. MEDP 15000, MEDP 16000
4 hrs.
3 cr.

MEDP 28100 - Documentary Video Production 1

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

_prereq:_ MEDP/FILMP 16000
3 hrs
3 cr.

MEDP 28500 - Web Production I

An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

_prereq:_ MEDP/FILMP 15000
3 hrs
3 cr.

MEDP 33100 - Web Production II

An exploration of the production of Internet-distributed media, especially animation, sound, and video, using GIF Animation, Flash, and sound tools.

_prereq:_ MEDP 28500
3 hrs
3 cr.

MEDP 34100 - Web Programming

Advanced programming skills for website design. Dynamic content development explored through state of the art programming languages for the creation of interactive web sites. Students will create web pages that utilize the most
current techniques in web development. The curriculum in this class emphasizes an integrated and creative approach to web programming, including detailed instruction and practice in the technical aspects. It is designed to give students a basic introduction to the tools and techniques used by web programmers.

prereq: MEDP 23400 and MEDP 33100
3 hrs
3 cr.

MEDP 34500 - Web Design Projects

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

prereq: MEDP 33100 or perm instr.
3 hrs
3 cr.

MEDP 34900 - Introduction to Physical Computing

This course is intended to introduce students to programming and off-screen media. Some time will be spent producing screen based visual and interactive art, but most of our semester will be dedicated to hardware hacking and the Arduino. Theoretical readings will be assigned throughout and students are expected to respond thoughtfully in text and media.

prereq: MEDP 16000 and MEDP 23400
3 hrs
3 cr.

MEDP 35500 - Physical Computing: Interactive Installation

A hands-on course focusing on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound and text exploring design concepts and using sensors for real-time interactivity. Material Fee: $20

prereq: MEDIA 18000, MEDP 15000 and 16000, MEDP 28500
3 hrs
3 cr.

MEDP 36000 - 3D Animation and Modeling

This hands-on production course will examine concepts and practices that form the basis of 3D animation for video, graphic novels, filmmaking, and net based art.

prereq: MEDP 25000, MEDP 26000
3 hrs
3 cr.

MEDP 36500 - 3D Virtual Environments

This course is an introduction to skills and creative approaches for the development of computer-generated 3D interactive virtual environments. Students will develop 3D virtual environments using standard 3D game design
techniques and technologies. This class approaches the subject from both a technical and creative perspective. It gives students an introduction to the tools and techniques used to design 3D computer games and how those processes may be applied to create artistically focused work.

*prereq: MEDP 36000
3 hrs.
3 cr.*

**MEDP 39909 - Game Design and Programming**

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of game development tools and approaches while exploring a variety of theoretical, social, and other aspects of modern game culture.

*prereq: MEDP 23400 and MEDP 25000
prereq or coreq: MEDIA 36300
3 hrs
3 cr.
- MEDP 39910 - Game Programming 2**

**MEDP 39950 - Motion Graphics**

This course examines the design and use of computer animation and effects for digital video. The course emphasizes the use of motion graphics to animate and render typography, effects and the compositing of distinct visual assets as well as its function within a greater narrative.

*prereq: MEDP/FILMP 15000 and MEDP/FILMP 16000 and MEDP 25000
3 hrs
3 cr.*

**MEDP 39900 - Special Topics in Advanced Media Production**

Taught periodically, with topic listed in Schedule of Classes.

*prereq: MEDIA 18000, others variable
3 hrs
3 cr.*

**This topics course under the MEDP 39900 Special Topics in Advanced Media Production umbrella counts towards the Required Production Courses. Consult the Schedule of Classes for availability.**

**C. Elective Production Courses (6 cr.)**

These may be any regular 200- or 300-level MEDP or MEDPL courses including those from the list of required courses (see B. above.) Any regular 200- or 300-level FILMP or FILPL course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

**D. Elective Analytical Courses (9 cr.)**

Three analytical courses may be chosen from any analytical offering; however it is strongly recommended that students consider analytical courses in relation to their area of production.

Degree Map for Media Studies: Emerging Media

Media Studies BA: Concentration in Journalism

Return to Media Studies - BA

The journalism concentration offers a liberal arts approach to the study of news. Students will learn to gather information through observation, interviews, and research, to evaluate it and to communicate it through clear and compelling writing enhanced by photography, video, audio, and interactive features. In addition to a toolkit for newsgathering and presentation, they will gain a critical perspective through courses that offer a critical analysis of media.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Media Studies major, the course that meets CCCR is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEDIA 18000</td>
<td>Individual &amp; Society (I&amp;S H)</td>
</tr>
</tbody>
</table>

Courses Required for the Major (36 credits)

A. Introductory Courses (12 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.
MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.
cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age (W)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of print, TV, radio, web and social media stories. We will also study the First Amendment, the underpinnings of an independent press and the consequences of censorship.

prereq: ENGL 12000, MEDIA 18000
3 hrs
3 cr.
*This course may be counted for credit in more than one program.

B. Required Production Courses (6 cr.)

MEDPL 20100 - Reporting and Writing I (W)

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

prereq or coreq: MEDIA 18000
3 hrs
3 cr.

MEDPL 20200 - Reporting and Writing 2(W)

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

prereq: MEDPL 20100
3 hrs
3 cr.
C. Elective Production Courses (12 cr.)

Choose among:

**MEDPL 23900 - Entertainment Journalism (W)**

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 28300 - News Video Reporting**

This course teaches students how to report and produce news video stories, including: hard news, features, formal interviews, and live shots.

*prereq: MEDPL 16000 and MEDPL 20200*

3 hrs
3 cr.

**MEDPL 28400 - Radio Reporting and Podcasting**

This course teaches students how to report and write a variety of audio news stories and podcasts for a live radio newscast.

*prereq: MEDPL 20200*

3 hrs
3 cr.

**MEDPL 29400 - Magazine Writing (W)**

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 29500 - Online Journalism (W)**

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video that includes text and photos to tell a story and use social media to research news stories.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 29600 - Feature Writing (W)**
A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

**MEDPL 29700 - Data Journalism: Telling Stories with Numbers**

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

*prereq: MEDPL 20100
3 hrs
3 cr.

**MEDPL 37200 - Investigative Reporting (W)**

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

*prereq: MEDPL 20100
3 hrs
3 cr.

**MEDPL 37700 - Neighborhood News (W)**

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

*prereq: MEDIA 18000 and MEDPL 20100
3 hrs
3 cr.

**MEDPL 38700 - Mobile Journalism**

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

*prereq: MEDPL 20200
3 hrs
3 cr.

**MEDPL 38800 - Studio News Production**

This course teaches students how to collectively produce and present a live newscast on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

*prereq or coreq: MEDPL 28300
3 hrs
3 cr.*
E. Elective Analytical Courses (6 cr.)

Analytical courses may be chosen from any analytical offering; however, it is strongly recommended that students consider analytical courses in relation to their area of production.

Courses Required for the Major (36 credits)

A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

*These courses may be counted for credit in more than one program.

B. Required Analytical Courses (21 cr):

Analytical courses in 3 categories, as outlined below.

Some courses are listed in more than 1 place, but each course fulfills a requirement in just 1 category. (Students may not double count a course.)

1. Media Representations (9 credits from the following)

**MEDIA 27100 - Television Culture**

GER
3/A

Theoretical analysis of the production and reception of televsional texts, with close reading of particular texts.

prereq: MEDIA 18000
3 hrs
3 cr.

**MEDIA 29853 - The Horror Film**

GER
3/A
A historically informed exploration of the international horror film genre in cultural context. Includes a consideration of filmic conventions, marketing practices, and audience reception. We will explore cultural fears, and how art and industry manage to express and profit from those fears.

**MEDIA 31500 - Nonfiction Film and Video**

**GER**

3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**MEDIA 32600 - America in American Film and Video**

**GER**

3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.

**MEDIA 32700 - Representations of Race and Ethnicity in U.S. Media**

**Pluralism and Diversity**

PD/B

**GER**

3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism; and other forms of American popular culture.

**MEDIA 33200 - Myths and Images in the Media**

**GER**

3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.
MEDIA 33300 - Typecasting

GER
3/A

A history of the relationship between stereotyping as a social, cultural and psychological language and the rise of modern society. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 180 and either MEDIA 327 or MEDIA 384 or perm instr.

3 hrs
3 cr.

MEDIA 37400 - Media, Sports, and Society

GER
3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

prereq: MEDIA 18000

3 hrs
3 cr.

MEDIA 38400 - Women and Media

Pluralism and Diversity
PD/C
GER
3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.

cross-listed WGS 38400 (W)

prereq: MEDIA 18000

3 hrs
3 cr.

MEDIA 39700 - Cult TV and its Audiences

GER
3/A

This course explores the historical and cross-cultural development of "cult" television, from cancelled programs whose narratives are kept alive by fan audiences, to the mainstreaming of cult audience behavior for high-rated programs today.

prereq: MEDIA 27100
MEDIA 39800 - Complex Television Narratives (W)

This course examines the historical emergence and characteristics of long-term arc-driven TV serials. Emphasis will be on the narrative strategies and formal features of dramatic serials, with some attention to complex comedies. This course falls under the Media Analysis and Criticism concentration of the Media major.

prereq: MEDIA 27100 (Television Culture, previously MEDIA 37100) or MEDIA 37100 or MEDIA 39700 (Culture Television Theory and Audiences) or Permission of instructor

3 hrs
3 cr.

MEDIA 39900 - Special Issues in Media Studies

GER
3/A

Taught periodically, with topic listed in Schedule of Classes.

prereq: MEDIA 18000, others variable

3 hrs
3 cr.

These two topics courses under the MEDIA 39900 Special Issues in Media Studies umbrella can fulfill the Representations Area:

MEDIA 39931 Women and Television
MEDIA 39940 TV Genres

Consult the Schedule of Classes for availability.

2. Media Technologies, Industries, and Policies (6 credits from the following)

MEDIA 26000 - Internet and Society

GER
3/A

The Impact of the Internet on American and global society.

prereq: MEDIA 18000 or permission of instr.

3 hrs
3 cr.

MEDIA 36500 - Digital Copyright

GER
3/A

An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-
peer trading, digital rights management, and third party liability for information service providers.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37400 - Media, Sports, and Society

GER
3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38000 - History of Broadcasting

GER
3/A

Broadcasting's roots in industrialization and influence on modern society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38300 - Popular Music and the Music Industry

GER
3/A

Exploration of social and cultural significance of popular music; history, structure, and economics of music industry. Particular emphasis on popular music from fifties to present.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39400 - Mass Communications and the Law

GER
3/A

Relationship of mass media to significant constitutional problems.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39500 - Mass Media in Developing Countries
**Pluralism and Diversity**

PD/A  
GER  
3/A

Exploration of impact of transnational corporations on developing countries and issues of cultural domination.

*prereq: MEDIA 18000*  
*3 hrs*  
*3 cr.*

**MEDIA 39600 - Global Communication**

GER  
3/A

Structures, policies and impact of global communications. Areas covered include global news, film, TV and music industries; telecommunications and the Internet. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 18000*  
*3 hrs*  
*3 cr.*

3. News, Politics, and Propaganda (6 credits from the following)

**MEDIA 21000 - Journalism and Society**

GER  
3/A

This course focuses on industry issues and service to the public good. It is partly designed for students interested in careers in journalism, who can benefit from greater sophistication about the news industry. The course explores the way news is gathered and written, the way news organizations are structured and financed, and the way they relate to other forms of political and entertainment communication. It examines the ways that the news industry describes itself and its problems and surveys journalistic practice in different media, e.g. print, the Internet, etc. Many of the readings will be drawn from the news industry trade press as well as from cultural studies and media sociology. Students will be asked to address journalism as citizens, weighing the role of journalism in our democracy.

*prereq: MEDIA 18000*  
*3 hrs*  
*3 cr.*

**MEDIA 21100 - News Literacy in a Digital Age (W)**

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of print, TV, radio, web and social media stories. We will also study the First Amendment, the underpinnings of an independent press and the consequences of censorship.

*prereq: ENGL 12000, MEDIA 18000*  
*3 hrs*  
*3 cr.*

**MEDIA 31300 - The Culture of Publicity**
GER
3/A

An in-depth historical understanding of public relations, social image-management, and opinion engineering in the U.S. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37300 - Journalism as Literature

GER
3/A

An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37500 - Media and Politics

GER
3/A

The impact of the electronic media on American politics.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38000 - History of Broadcasting

GER
3/A

Broadcasting's roots in industrialization and influence on modern society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38100 - Propaganda and the Mass Media

GER
3/A

Study of mass media (broadcast, film, print) as forms for propaganda.

prereq: MEDIA 18000
3 hrs
3 cr.
MEDIA 39000 - Broadcast Journalism

GER
3/A

Broadcast Journalism is a focused study of how journalism has evolved from radio, television, cable television, and the Internet; how it is distributed on social media; the growing popularity of podcasts; and how news distribution on various platforms relates to the social, economic, and political context of American culture and society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39100 - History of Print Journalism

GER
3/A

Development of newspapers and magazines as social force.
prereq: MEDIA 18000
3 hrs
3 cr.

Courses Required for the Major (36 credits)

A. Required Introductory Courses (9 cr.)

**MEDIA 18000 - Introduction to Media Studies**

- Hunter Core
  - Individual & Society - Humanities (I&S H)
- GER
  - 2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs
*3 cr.*

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed FILMP 15000*

*prereq or coreq: MEDIA 18000, FILM 10100*

*4 hrs
*3 cr.*

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed FILMP 16000*

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

*4 hrs
*3 cr.*

*This course may be counted for credit in more than one program.*

B. Required Analytical Courses (9 cr.)

Students must take at least 9 credits of analytical courses. Any 200- and 300-level MEDIA courses may be used to meet this requirement. Any 200- or 300-level FILM course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP or FILPL classes toward the major. MEDP, MEDPL, FILMP and FILPL courses do not count toward the analytical requirement.

C. Elective Analytical or Production Courses (18 cr.)
Students must take an additional 18 credits of analytical and/or production courses. These may be any 200- or 300-level MEDIA or MEDP or MEDPL courses. Any 200- or 300-level FILM or FILMP or FILPL course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

Total Credits Required

18 introductory and analytical credits
18 analytical or production credits
36 Total credits required

Minor in Film

Requirements for the Minor in Film

A. Required Introductory Course (3 cr.)

FILM 10100 - Introduction to Cinema

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.

3 hrs
3 cr.

*This course may be counted for credit in more than one program.

B. Other Requirements (15 cr)

Three 200-level courses from the following (9 cr)

FILM 20100 - Practical Film Analysis

GER
3/A

Close case study of a selected motion picture.

prereq: FILM 10100
3 hrs
3 cr.
**FILM 21100 - Film History I: 1895-1942**

Pluralism and Diversity  
PD/D  
GER  
3/A

Survey of film history and theory from the silent era to 1942.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

**FILM 21200 - Film History II: Since 1942**

Pluralism and Diversity  
PD/D  
GER  
3/A

Survey of film history and theory from 1942 to the present.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

GER  
3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.  
*prereq: FILM 10100, 20100*  
4 hrs  
3 cr.

**FILM 23100 - Studies of Selected Directors**

Pluralism and Diversity  
GER 3/A

Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.  
*prereq: FILM 10100, 20100*  
4 hrs  
3 cr.

**FILM 21300 - National Cinema**

Pluralism and Diversity  
PD/D or A  
GER  
3/A
Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

**prereq:** FILM 10100  
4 hrs  
3 cr.

**FILM 23000 - Movies in American Culture**

**GER**  
3/A  

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

**prereq:** FILM 10100  
4 hrs  
3 cr.

**FILM 21400 - Multicultural Perspectives in Cinema**

**Pluralism and Diversity**  
PD/B (214.51 only)  
**GER**  
3/A  

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

**prereq:** FILM 10100  
4 hrs  
3 cr.

**FILM 21500 - Women and Film**

**Pluralism and Diversity**  
PD/C  
**GER**  
3/A  

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

**prereq:** FILM 10100  
4 hrs  
3 cr.

**FILM 22200 - Topics in Genre Studies**

**GER**  
3/A  

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be
repeated for credit with a different topic.

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**

**Prerequisites:**
- FILM 10100

**Course Details:**
- 4 hrs
- 3 cr.

This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

**Cross-listed:** WGS 222.52

**Prerequisites:** FILM 10100

- 4 hrs
- 3 cr.

**FILM 23200 - Experimental Film and Video**

**Prerequisites:**
- FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).

**Course Details:**
- 4 hrs
- 3 cr.

This course provides an examination of pertinent films and videos with particular emphasis on current American productions.

**Prerequisites:**
- FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).

- 4 hrs
- 3 cr.

**FILM 29900 - Special Topics in Film**

**Prerequisites:**
- perm dept.

**Course Details:**
- 1-3 hrs
- 1-3 cr.

This course focuses on a specific topic that will be listed in Schedule of Classes for a given semester.

**Prerequisites:** perm dept.

- 1-3 hrs
- 1-3 cr.

**FILPL 27600 - Screen Writing I - The Short (W)**

**Prerequisites:**
- FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.

**Course Details:**
- 4 hrs
- 3 cr.

The Short Fundamentals of writing for film; critiques of original student scripts.

Two 300 level courses from the following (6 cr)
FILM 32200 - Contemporary Film Theory

**Pluralism and Diversity**

*PD/D*  
*GER*  
*3/A*

This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after.  
Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.  
*prereq: FILM 10100 and FILM 20100*  
*4 hrs*  
*3 cr.*

FILM 32300 - Film Technology and Aesthetic Theory

*GER*  
*3/A*

Study of the relationship between film technology and film theory. May be repeated for credit with a different topic.  
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.  
*prereq: FILM 10100 and 20100*  
*4 hrs*  
*3 cr.*

FILM 32351 - Aesthetics of Film Sound

*GER*  
*3/A*

Examination of the history, theory and aesthetics of the relationship between film sound and image.  
Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.  
*prereq: FILM 10100, 20100*  
*4 hrs*  
*3 cr.*

FILM 32400 - Narrative Strategies

*GER*  
*3/A*

Study of narrative techniques in cinema  
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.  
*prereq: FILM 10100 and 20100 or 23100*  
*4 hrs*  
*3 cr.*

FILM 32600 - America in American Film and Video

*GER*  
*3/A*
Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 21100 or 21200
3 hrs
3 cr.

**FILM 32700 - Representations of Race and Ethnicity in U.S. Media**

**Pluralism and Diversity**
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

**FILM 32800 - Images of Resistance in the Developing World**

**Pluralism and Diversity**
PD/A
GER
3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

**FILM 33200 - Myths and Images in the Media**

GER
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
3 hrs
3 cr.

**FILM 33400 - Theatricality and the Presentation of Self**

GER
3/A
Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

FILM 34400 - History of Cinematography

GER
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

FILM 39100 - Problems in Film Research

GER
3/A

Study of basic methods of solving problems in the field of cinema studies.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 20100, 21100 or 21200
3 hrs
3 cr.

FILM 39900 - Studies in Film

GER
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: variable
3 hrs
3 cr.

FILPL 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILMP 27600
4 hrs
3 cr.
Total credits required

Subtotal  3
Electives   15

Total credits required 18

Minor in Journalism

Training future journalists to report the news accurately and ethically is essential to the future of the news industry. While a major or minor in journalism is not a prerequisite to work in the news industry, many news organizations do prefer to hire students that have this credential because these employers are familiar with journalism curricula. This minor offers students the opportunity to pursue an 18-credit minor in Journalism, affording them a potentially beneficial credential when seeking internships, fellowships, or jobs with news organizations. The Journalism minor will attract students from other disciplines like Political Science, Urban Studies, and Public Policy that require a foundation in journalism for their expertise. Media Studies majors may earn the Journalism minor and in that event, will be able to count MEDIA 18000 for both the major and the minor.

Required courses - 12 credits

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age (W)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of print, TV, radio, web and social media stories. We will also study the First Amendment, the underpinnings of an independent press and the consequences of censorship.

prereq: ENGL 12000, MEDIA 18000
3 hrs
3 cr.

MEDPL 20100 - Reporting and Writing I (W)

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

prereq or coreq: MEDIA 18000
3 hrs
3 cr.
MEDPL 20200 - Reporting and Writing 2(W)

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

prereq: MEDPL 20100
3 hrs
3 cr.

Electives - 6 credits

MEDPL 23900 - Entertainment Journalism (W)

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 28300 - News Video Reporting

This course teaches students how to report and produce news video stories, including: hard news, features, formal interviews, and live shots.

prereq: MEDPL 16000 and MEDPL 20200
3 hrs
3 cr.

MEDPL 28400 - Radio Reporting and Podcasting

This course teaches students how to report and write a variety of audio news stories and podcasts for a live radio newscast.

prereq: MEDPL 20200
3 hrs
3 cr.

MEDPL 29400 - Magazine Writing (W)

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 29500 - Online Journalism (W)
This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video that includes text and photos to tell a story and use social media to research news stories.

**prereq:** MEDPL 20100
3 hrs
3 cr.

**MEDPL 29600 - Feature Writing (W)**

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

**prereq:** MEDPL 20100
3 hrs
3 cr

**MEDPL 29700 - Data Journalism: Telling Stories with Numbers**

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

**prereq:** MEDPL 20100
3 hrs
3 cr.

**MEDIA 38600 - Media Ethics**

**GER**
3/A
An exploration of the moral issues surrounding media work, including truth-telling, social justice, cultural effects and conflicting rights.

**prereq:** MEDIA 18000
3 hrs
3 cr.

**MEDIA 49800 - Internship**

Opportunity to gain professional experience.

**prereq:** MEDIA 18000 and 2 other MEDIA or MEDP courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

**MEDPL 37200 - Investigative Reporting (W)**

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

**prereq:** MEDPL 20100
3 hrs
3 cr.

**MEDPL 37700 - Neighborhood News (W)**
An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

**prereq:** MEDIA 18000 and MEDPL 20100

3 hrs

3 cr.

**MEDPL 38700 - Mobile Journalism**

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

**prereq:** MEDPL 20200

3 hrs

3 cr.

**MEDPL 38800 - Studio News Production**

This course teaches students how to collectively produce and present a live newscast on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

**prereq or coreq:** MEDPL 28300

3 hrs

3 cr.

**Total Credits Required**

Total credits required 18

**Minor in Media Studies**

The Minor in Media Studies consists of five courses for a total of 15 credits. At least one 200-level course and at least one 300-level course are required. The other three courses can be at any level. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

**Geography**

**Overview**

The department offers majors in Geography and Environmental Studies, a five-year combined BA/MA program in Environmental Studies and Adolescent Education-Earth Science, and minors in Geography, Environmental Studies and Geology. Our programs focus on urban and social geography; globalization and international development; earth systems, environmental science, and physical geography; geographic information science and digital mapping;
environmental policy and sustainability; and social studies and environmental education. In addition, students learn how to use advanced analytical skills, including quantitative, qualitative, modeling, and geospatial research methods in order to address the vital problems humanity is facing today. In addition to comprehensive classroom instruction, the department offers field trips and field courses in geography and environmental science.

A major in Geography is designed to prepare students to understand our world's changing social and natural environments in their interaction and using concepts of place, space, distance, and location. In many instances, geographers make maps to analyze differences between places and to seek explanations for those differences. Most importantly, Geography not only will broaden your knowledge of the world and how human and natural systems interact but will also equip you with the skills needed to seek solutions to many pressing problems, from the impacts and consequences of climate change, depletion of natural resources, and pollution to poverty, inequality, geopolitical crises, migration, and insecurity. These skills include critical thinking, spatial analysis, and analytical writing. In addition to classroom learning and field trips, students learn by doing research projects together with community advocacy groups in New York City.

Geography majors are encouraged to pursue the course of study that best fits their interests while also exploring the three concentration areas that the department offers: Cities and Globalization; Digital Mapping and Geographic Information Science; and Sustainability. There is an option that prepares students for temporary certification in New York State to teach social studies at grades K-12.

The Environmental Studies major offers a common core of courses and an interdisciplinary approach that allows students to focus on environmental policy and management or earth systems science. Our major prepares students to identify and describe the components of Earth's environment and their interconnections. Our goal is to equip students with theoretical and practical tools to synthesize the body of knowledge presented in the course work and to address real world problems. We seek to accomplish this goal by fostering classroom dynamics where assumptions, methods and findings are critically evaluated. After choosing a concentration, students take advanced physical science courses for the Environmental Earth Science concentration and human geography and social science courses for the Environmental Management Policy concentration. Coursework covers subjects that include weather and climate, climate change, environmental hazards, fluid dynamics, sustainability, ecology, oceanography, conservation, urban problems and their solutions and the global impact of humans on the Earth system.

What can I do with my degree in Geography and Environmental Studies?

Courses in all of these fields are valuable parts of a general liberal education, developing an awareness of earth phenomena and the role these play in people's lives. Through integration of content knowledge, applied skills, and internships, our graduates are prepared for both graduate study and immediate employment in the public, private, and non-profit sectors.

Our website features stories about our former students who equally excel in academic and professional worlds. Courses for Geography and Environmental Studies majors are valuable parts of a liberal arts education, developing an awareness of how earth systems work and the role these play in people's lives. They also educate students about the challenges humanity faces in the era of global climate change, geopolitical and public health crises, growing inequality, and migration. Both majors prepare students for graduate degrees in earth and environmental science, geography, geoinformatics, and related fields. Many students successfully pursue top graduate programs and receive prestigious internships and fellowships such as those from the National Center for Atmospheric Research (NCAR) and the National Atmospheric and Space Administration (NASA), U.S. Environmental Protection Agency and Department of Environmental Protection. Many also become professionals whose expertise in the above areas is widely used by the governments and administrations of New York City and New York State, the U.S. Bureau of the Census, and private industry; they also develop careers as geography/earth science teachers.

HEGIS Codes: 2206 (Geography); 2205 (Adolescent Education); 4999 (Environmental Studies)

Environmental Studies - BA
The major offers two concentrations which are organized to promote an intensive understanding of contemporary physical science, specifically earth system science as it relates to environmental issues, and an intensive understanding of a system-based approach to the dynamic nature of human-environmental interactions particularly as manifest in contemporary politics and economics. The concentrations are Environmental Earth Science and Environmental Management and Policy. It is suggested that students select a concentration as they enter the major with the understanding that the choice is not final at this stage and students can switch concentrations as they advance in the program. To aid in this process, the curriculum offers a common core of required courses, as well as sufficient overlap within the required elective courses. It is strongly recommended that students considering this major meet with the adviser to discuss their interests and program of studies as courses may be added or deleted as the college's and department's offerings change. One or more courses not listed below may be included in a student's concentration with the advice and consent of the adviser.

1. Environmental Studies: Earth Science Concentration
2. Environmental Studies: Management and Policy Concentration - BA

Internships

Students can receive from one to four credits for internships in government agencies, consumer and activist groups, business and industry and media organizations involved in energy issues (e.g., Council on the Environment of NYC, Energy Task Force, NY State Assembly, Sierra Club, International Earthcare Center, NY State Department of Energy, Brooklyn Union Gas, NYC Department of Environmental Protection and the American Museum of Natural History).

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows

one course selected from

**PGEOG 13000 (STEM) - Weather and Climate**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $ 5
5 hrs (3 lec, 2 lab)
4 cr.

Offered in the Fall and Spring

**GEOL 10000 - Introduction to Geology**

**Hunter Core**
Scientific World (SW)

**GER**
Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

**GEOL 10500 - Introduction to Environmental Geoscience**

**Hunter Core**
Scientific World (SW)

**GER**
2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.

*prereq: ENGL 12000*

3 hrs
3 cr.

**GEOL 18000 - Introduction to Oceanography**

**Hunter Core**
Scientific World (SW)

**GER**
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

*prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students*

3 hrs
3 cr.

Offered fall and spring and

at least one course (minimum of 3 credits) selected from

**PGEOG 25000 - Earth System Science I**

**GER**
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the
atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

**pggeo 25100 - Earth System Science II**

**GER**

3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

**prereq:** PGEO 25000 or perm instr.

4 hrs

3.5 cr.

**GEOG 22600 - Environmental Conservation: Resource Management**

**GER**

2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs

3 cr.

**GEOL 28000 - Marine Geology**

**GER**

3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

**prereq:** GEOL 10200 or perm instr.

3 hrs

3 cr.

**Fall**

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including,
cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

and

• at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program’s Concentration A Environmental Studies: Earth Science Concentration or Concentration B Environmental Studies: Management and Policy Concentration - BA).

Minor in Geology

A minor in geology consists of 12 credits selected from GEOL prefix courses

-or-

PGEOG 23100 - Physical Geography II: Principles of Geomorphology

See GEOL 23100

-or-

PGEOG 33400 - Coastal Geomorphology See GEOL 33400

See GEOL 33400

-or-

GTECH 35000 - Field Topographic Surveying

Field use of surveying equipment. Notebook and computer data collection relating to horizontal and vertical location on the landscape, including the use of global positioning systems. Field record-keeping and preliminary analysis of results. Fee for transportation, accommodations and food allowance required.

prereq: GTEC 20100, perm instr.
90 hrs of field/lab work (1 day lab, 10 days field)
3 cr.
Offered summer intersession (check with dept. in April).

Prerequisites may apply. It is recommended that prospective geology minors consult with an undergraduate adviser from the Department of Geography.

Additional Information

If after taking a number of geology courses at Hunter, a student wishes to concentrate in geology, it is recommended that the student transfer to a unit of CUNY offering a geology major or take courses on permit at other CUNY units as elective credits.

Preparation for Graduate Work in Teaching Earth Science
For students planning to pursue an MA degree for teachers of earth science, grades 7-12, it is recommended that they complete the following undergraduate work: a baccalaureate degree with a grade point average of 2.8 or better in their science courses and in their overall undergraduate work; a major of at least 30 credits in arts and sciences.

At least 21 credits in

- geology,
- physical geography,
- earth science or environmental science, including geographic techniques;
- general education core in the liberal arts and sciences that includes
  - 6 credits in English,
  - 6 credits in mathematics/technology,
  - 6 credits in social studies (to include at least one course in U.S. history or geography),
  - 6 credits in the arts and
  - 6 credits in a language other than English.

It is recommended, but not required, that the criteria above be satisfied using

- electives selected from GEOL, PGEOG and GTECH courses;
- a minor in geology;
- GER core requirement laboratory science chosen from
  - chemistry,
  - physics or
  - biology and
- GER core requirement non-laboratory science chosen from
  - astronomy,
  - oceanography,
  - statistics or mathematics.

For further information on the education requirements, students should see an adviser in the School of Education.

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq: perm dept.*

1 sem

3 cr.

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

- and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

The following courses
also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOG 39200 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOG 39300 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOL 39100 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sems of geology, perm dept.*

1-3 cr

**GEOL 39200 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sems of geology, perm dept.*

1-3 cr

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sems of geology, perm dept.*

1-3 cr

**PGEOG 39100 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: GEOL 10500, GEOG 22600 or PGEOG 13000*

1-3 cr

**PGEOG 39200 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.*

1-3 cr
PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance. 

*prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.*

1-3 cr.

Fieldwork

Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Study Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

Intern Program

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

Degree Map

Degree Map for Environmental Studies

Environmental Studies: Earth Science Concentration
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Environmental Studies major, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 10100</td>
<td>Life and Physical Sciences</td>
</tr>
<tr>
<td>PGEOG 13000 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (45-54 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students with appropriate background may be exempted from GEOG 10100 and/or PGEOG 13000 (STEM). Please see the Department of Geography for details.

Required courses

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 12500 (STEM) - Precalculus**

*Hunter Core*

Math/Quantitative Reasoning

*GER*

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs

4 cr.
MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500

2 hrs
1 cr.

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

-or-

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $ 5
5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.
Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core

Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core

Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

GEOG 22600 - Environmental Conservation: Resource Management

GER 2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

PGEOG 25000 - Earth System Science I

GER 3/B
In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

**Prerequisites:**
- At least one 100-level science course or perm instr.
- GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.

**Course Details:**
- 4 hrs
- 3.5 cr.

**PGEOG 25100 - Earth System Science II**

**GER**
- 3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

**Prerequisites:**
- PGEO 25000 or perm instr.

**Course Details:**
- 4 hrs
- 3.5 cr.

---

*These courses are prerequisites to PGEOG 25000. Either of these courses or GEOG 22600 is acceptable.

**Required Capstone Course - 3 credits**

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

**Prerequisites:**
- perm dept.

---

**PGEOG 49800 - Internship in Environmental Studies**

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

**Course Details:**
- 1-4 cr.

**Electives - 18 credits**

A minimum of 18 credits from the list below. 12 credits must be taken at the 300-level or higher.

*Note: It is strongly recommended that students take STAT 11300 - Elementary Probability and Statistics.*

**GEOL 20500 - Environmental Geology**

**GER**
- 3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions
concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

prereq: GEOL 10100
3 hrs
3 cr.

GEOL 28000 - Marine Geology

GER
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

prereq: GEOL 10200 or perm instr.
3 hrs
3 cr.
Fall

GEOL 38000 - Advanced Oceanography: Physics of the Oceans

GER
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

prereq: one sem CHEM or PHYS, MATH 15000 or equiv.
3 hrs
3 cr.

GEOL 38300 - Special Topics in Geology and Oceanography

GER
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

prereq: 200-level course of which special topic is logical outgrowth; perm instr.
**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15  
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.  
6 hrs (2 lec, 4 lab) 4 cr.  
Offered fall and spring

**GTECH 32100 - Remote Sensing of the Environment**

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.  
Material Fee:$ 15  
prereq: GTEC 32000 or perm instr.  
4 hrs (2 lec, 2 lab) 3 cr.

**GTECH 36100 - GIS Analysis**

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.  
Material Fee:$ 15  
prereq: GTECH 20100  
4 hrs (2 lec, 2 lab) 3 cr.

**PGEOG 31300 - Biogeography**

GER 3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.
**PGEOG 33200 - Introduction to Hydrology**

**GER**

3/B

Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.

*prereq: GEOL 10100, PGEO 13000 or perm instr.*

3 hrs

3 cr.

**PGEOG 33500 - Urban and Metropolitan Coasts**

**GER**

3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

*prereq or coreq: Prereq: GEOL 10100 or GEOG 10100*

3 hrs

3 cr.

**PGEOG 36100 - Global Climatic Change**

**GER**

3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

*prereq: PGEO 13000 or GEOL 10100 or 10500*

3 hrs

3 cr.

**PGEOG 36300 - Environmental Hazards**

**GER**

3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of
environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

*prereq: PGEO 13000 or equiv.*
*prereq or coreq: PGEOG 13000 or equiv.*
3 hrs
3 cr.

**PGEOL 38300 - Special Topics in Environmental Studies**

**GER**
3/B

Open to Jr/Sr only. Topics to be announced.

*prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.*
1-4 hrs (lec or lec/lab)
1-3 cr.

**Environmental Studies: Management and Policy Concentration - BA**

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Environmental Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 10100</td>
<td>Life and Physical Sciences</td>
</tr>
<tr>
<td>PGEOG 13000 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (45-54 credits)**

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students with appropriate background may be exempted from GEOG 10100 and/or PGEOG 13000 (STEM). Please see the Department of Geography for details.

**Required courses**
MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

prereq or coreq: MATH 12500

2 hrs

1 cr.

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences

GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.

3 cr.

-or-

PGEOG 13000 (STEM) - Weather and Climate
**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
GER  
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Required Capstone Course - 3 credits

PGEOG 49000 - Honors in Environmental Studies
Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.

-or-

**PGEOG 49800 - Internship in Environmental Studies**

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

**Electives - 18 credits**

A minimum of 18 credits from the list of courses below. 12 credits must be taken at the 300-level or higher. Courses not listed may be included in a student's concentration with permission of the ES adviser.

*Note: It is strongly recommended that students take STAT 11300 Probability and Statistics.*

**COMHE 32500 - Environmental Public Health**

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

*prereq: acceptance to the COMHE major, or permission of the instructor*

3 hrs

3 cr.

**GEOG 24100 - Population Geography**

**Pluralism and Diversity**

PD/B or C

GER

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

*prereq: GEOG 101 or GEOG 150 or GES 101 and Jr/Sr standing*

3 hrs

3 cr.

**GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions**

**GER**

3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

*prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing*
GEOG 33500 - International Pollution Issues

GER
3/B

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.

prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr.

3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only

3 hrs
3 cr.

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

3 hrs
3 cr.

GEOG 37100 - Rural Water Supply in Developing Regions

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education.
The course will also discuss methods of providing drinking water in a sustainable manner.

**prereq:** GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

**GEOL 20500 - Environmental Geology**

**GER**
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

**prereq:** GEOL 10100
3 hrs
3 cr.

**GEOL 33400 - Geomorphology: The Study of Beaches and Coasts**

**GER**
3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

**prereq:** GEOL 23100 or PGEO 23100 or equiv. or perm dept.
3 hrs
3 cr.

**GEOL 38300 - Special Topics in Geology and Oceanography**

**GER**
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**prereq:** 200-level course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

**GTECH 32100 - Remote Sensing of the Environment**

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite
measurements.
Material Fee: $15
prereq: GTEC 32000 or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 38500 - GIS Applications

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.
Material Fee: $15
prereq: GTEC 20100 or equiv.
3 hrs
3 cr.

PGEOG 31300 - Biogeography

GER
3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

prereq: PGEOG 13000, GEOG 10100 or BIOL 10000/10200
3 hrs
3 cr.

PGEOG 33500 - Urban and Metropolitan Coasts

GER
3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.
prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
3 hrs
3 cr.

PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.
prereq: PGEO 13000 or GEOL 10100 or 10500
The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

**PGEOG 36300 - Environmental Hazards**

**GER**

3/B

**PGEOG 38300 - Special Topics in Environmental Studies**

**GER**

3/B

Open to Jr/Sr only. Topics to be announced.

**POLSC 24400 - Energy and Environmental Politics and Public Policy (W)**

**GER**

3/B

Examination of political processes and public policies shaping energy production and consumption in the U.S. with comparative reference to other countries. Emphasis on political, economic, social, environmental and foreign policy aspects.

**SOC 36100 - Development and Globalization (W)**

**Pluralism and Diversity**

PD/A

**GER**

3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of
development, the strategies for development that have been adopted, and the theories which attempt to explain why
countries do or do not grow economically.

prereq: SOC 10100
3 hrs
3 cr.

URBS 31000 - Methods of Urban Research and Policy Analysis

GER
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods
of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.
3 hrs
3 cr.

URBS 40100 - Managing Urban Physical Environment

GER
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and
the location of housing. The role of public and private agencies at local, state, and national levels in the planning and
management of the physical environment is also considered.

prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

Five-Year BA/MA Program in Environmental Studies and
Adolescent Education: Earth Science (Grade 7-12)

Students who major in Environmental Studies may also want to complete a sequence of courses that will enable them
to pursue a career teaching earth science in grades 7-12. The BA/MA program in Environmental Studies and
Adolescent Education: Earth Science is designed to prepare prospective teachers to serve as high-quality educator for
adolescents in urban schools.

This is an accelerated program leading to a BA in Environmental Studies and an MA in Adolescent Education: Earth
Science. The program is designed for highly qualified Environmental Studies majors who, during their sophomore year,
decide to pursue a career in secondary school teaching. This program will ensure that these students receive all of their
pedagogical and disciplinary training before entering the classroom to teach. Students who complete the 134 credit
program will have satisfied the coursework requirements for teacher certification. The 18 elective credits required for
the Environmental Studies degree must emphasize atmospheric systems, earth systems, water systems, or geological
systems.

For students in this BA/MA program, the 18 credit elective portion of the Environmental Earth Science Concentration
major must include GEOL 10200, PGEOG 13000 (STEM), ASTRO 10100/ASTRO 10700, or, after spring 2011,
ASTRO 10100, and a minimum of 9 undergraduate credits selection from 200- and 300-level GEOL, PGEOG, and
GTECH courses (with the exception of GTECH 20100), and the independent study, honors, and internship courses in each of these series.

Students interested in this program should speak to adviser in the Department of Geography during their sophomore year to review the curriculum path for the five-year program. And students should also speak to an adviser in the School of Education as soon as possible.

Admission to the School of Education is not automatic with admission to Hunter College. There is a separate admission process that involves a paper application, a writing sample, and an interview.

**Required Courses**

**ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises**

**GER**
2/E with lab

An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler's laws of planetary motion; Newton's laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble's Law and the expanding universe, from the Big Bang to the present; future scenarios.

The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.

5 hrs
4 cr.

-or-

**ASTRO 10700 - Laboratory Exercises in Astronomy**

**GER**
2/E

Classroom and online experimental laboratory exercises in astronomy to observe the major features of the night sky, demonstrate the physical basis of astronomical instruments, and experiment with astronomical phenomena. Only offered to students who have previously taken ASTRO 100 which is no longer offered [ASTRO 100 + ASTRO 107 are replaced by ASTRO 10100].

prereq or coreq: ASTRO 10000
2 hrs
1 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400

6 hrs
3 cr.

or

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

-and-

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.
fall only

GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

GEOL 18000 - Introduction to Oceanography

Hunter Core
Scientific World (SW)

GER
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students

3 hrs
3 cr.
Offered fall and spring
GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10200 - Plate Tectonics and the Earth's Evolution

GER
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth's evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

prereq: GEOL 10100
5 hrs (3 lec, 2 lab)
4 cr.
Offered fall.

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

prereq: GEOL 10100
3 hrs
3 cr.

GEOL 28000 - Marine Geology
Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

prereq: GEOL 10200 or perm instr.

3 hrs
3 cr.
Fall

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning

GER

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs
4 cr.

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

GER

2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5

5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring

PGEOG 25000 - Earth System Science I

GER

3/B

In this course students learn to think of Earth as a system of several components that interact with each other,
sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

**prereq:** at least one 100-level science course or perm instr.
**prereq or coreq:** GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.

*4 hrs
3.5 cr.*

**PGEOG 25100 - Earth System Science II**

**GER**
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

**prereq:** PGEO 25000 or perm instr.

*4 hrs
3.5 cr.*

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

**prereq:** perm dept.

-or-

**PGEOG 49800 - Internship in Environmental Studies**

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

*1-4 cr.*

**Major Electives**
6-8 credits

Graduate Courses (see graduate catalog)

- PGEOG 630 Science and Society
- PGEOG 660 Challenging Concepts in Earth Science
- PGEOG 701.63 Earth Science Today
- GTECH 710 Introduction to GIS
- SEDC 710 Building Foundations of Literacy
- SEDC 713 Methods I
- SEDC 720 Adolescent Health and Safety
- SEDC 724 Methods II
- SEDC 754.04 Student Teaching in Earth Sciences
- SEDF 703 Social Foundations of Adolescent Education
- SEDF 704 Adolescent Development
- SEDF 705 Educational Psychology
- SEDF 706 Assessment of Teaching and
Geography - BA

The major in Geography is designed to prepare students to understand and respond to our world's changing social and natural environments. The major consists of 45 credits—a 15 credit Common Core that includes a capstone project, and 30 credits in one of four tracks: Urban and Social Geography, Physical and Environmental Geography, Geographic Information Science, and Sustainability Studies. Students interested in temporary certification as a Social Studies-Childhood Education teacher should complete Track A: Urban and Social Geography and must apply for the QUEST Program through the School of Education before completing a total of 45 undergraduate credits. Students must complete one of the following three courses: GEOG 10100 or GEOG 15000 or GEOL 10500 to continue in the major. Students interested in the Geographic Information Science track are strongly encouraged to take STAT 11300 or STAT 21300 (STEM) since it is a prerequisite for GTECH 30100.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: In the case of the Geography major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 10100</td>
<td>Individual and Society (SS)</td>
</tr>
<tr>
<td>GEOL 10000</td>
<td>Scientific World</td>
</tr>
<tr>
<td>GEOL 10100</td>
<td>Life and Physical Sciences</td>
</tr>
<tr>
<td>GEOL 10500</td>
<td>Scientific World</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core.

Courses Required for the Major (45 credits)

Students complete the Geography Core (15 credits), and select one of the four tracks (30 credits). Please see below: Tracks A-D

Geography Core 15 credits

1. One of the following courses (3 credits)

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life.

Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

-or-

**GEOG 15000 - World Regional Geography**

**Pluralism and Diversity**
PD/A or D
GER
2/B

A survey of the world's major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

*prereq: ENGL 12000*

3 hrs
3 cr.
Offered fall and spring

-or-

**GEOL 10500 - Introduction to Environmental Geoscience**

**Hunter Core**
Scientific World (SW)
GER
2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.

*prereq: ENGL 12000*

3 hrs
3 cr.

2. Two of the following four courses (6 credits), where one course has to be a lecture and the other a lab
PGEOG 14000 - Introduction to Weather, Climate and Climate Change

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

3 hrs
3 cr.

- or -

PGEOG 14100 - Introduction to Weather, Climate and Climate Change Laboratory

A hands-on laboratory science course. PGEOG 14100 will explain how weather and climate affect people and the natural environment through hands-on laboratory and field experiences. The course explores the science of the atmosphere starting with weather and weather forecasting including severe storms such as hurricanes and tornadoes. World climates and global climate change is included. This course will serve as an introduction to atmospheric science and will prepare students for further work in geography and Earth sciences.

3 hrs (1 hour lecture, 2 hours lab)
3 cr.

- or -

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.

Offered fall and spring.

- or -

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.
3. Digital Earth Course

**GTECH 10100 - Digital Earth**

Digital Earth introduces students to the new suite of geospatial technologies and how they are being used to capture, store, process and display the vast amount of geospatial information about our planet, a wide variety of environmental and cultural phenomena, and how this information helps us to better understand natural and cultural characteristics of the world, address world problems, and make sound decisions. Students will learn how satellites take complete photographs of the entire planet, Geographic Information Systems (GIS) display geospatial data, Global Positioning Systems (GPS) track the location of environmental and cultural phenomena, Geovisualization tools map our 3-D planet, and how these technologies are applied to solve problems in diverse fields and phenomena in the physical and social sciences in exciting ways. The knowledge and skills learned in Digital Earth open the door toward a geotechnology-oriented career.

4. One Approved Capstone course from the following list (3 credits):

**GEOG 48000 - Capstone in Urban and Social Geography**

Individual or group research project as capstone experience in urban and social geography.

*prereq: Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.*

3 hrs  
3 cr.

**PGEOG 48000 - Capstone in Physical Geography**

Individual or group research project as capstone experience in physical and environmental geography.

*prereq: Senior standing as a geography or environmental studies major, approval of undergraduate adviser, and signed project contract with faculty sponsor.*

3 hrs  
3 cr.

**GTECH 48000 - Capstone in Geographic Information Science**

Individual or group research project as capstone experience in geographic information science.

*prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.*

3 hrs  
3 cr.

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.
**GEOG 49800 - Internship**

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

**GTECH 49800 - Internship in Geographic Information Science**

Open to qualified geography majors and minors. Opportunities for working in positions of responsibility in professional institutions for academic credit.

prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.

3 hrs

3 cr.

Note: To graduate with departmental honors, students must hold senior status, have a minimum GPA in the major of 3.5, and complete GEOG 49000 or PGEOG 49000 or GTECH 49000 as their capstone course.

**Geography Tracks: A-D**

- Track A: Urban and Social Geography (30 credits)
- Track B: Physical and Environmental Geography (30 credits)
- Track C: Geographic Information Science (30 credits)
- Track D: Sustainability Studies (30 credits)
Minors for Geography Majors

A minor course of study is no longer required at Hunter College. However, geography majors can elect to minor in any field of their choice. It is recommended, but not required, that the chosen field be related to the student's principal interest(s) in geography, and that the student consult with the Geography Undergraduate Adviser prior to selection of a minor course of study.

- Minor in Geography
- Minor in Geology
- Minor in Environmental Studies

Options in Social Studies Education within the Geography Major

The Department of Geography and the School of Education provide opportunities for students to prepare for a career in teaching social studies in grades 1-6 (Childhood Education) or in grades 7-12 (Adolescent Education).

1. Option in Social Studies within the Geography Major for Childhood Education Teachers
2. Option in Social Studies within the Geography Major for Adolescent Education Teachers

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to the following and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

GEOG 49000 - Honors in Geography

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

 prereq: perm dept.
 1 sem
 3 cr.

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

 prereq: perm dept.

The following courses

Also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

GEOG 39100 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

 prereq: 2 sem of geography, perm dept.
 1-3 cr
GEOG 39200 - Individual Study in Geography
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sem of geography, perm dept.
1-3 cr

GEOG 39300 - Individual Study in Geography
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sem of geography, perm dept.
1-3 cr

GEOL 39100 - Individual Study in Geology
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39200 - Individual Study in Geology
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39300 - Individual Study in Geology
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.

PGEOG 39300 - Individual Study in Environmental Studies
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

Fieldwork
Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Education Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

Intern Program

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

Degree Map

Degree Map for Geography BA

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000, GEOL 10100, GEOL 10500, GEOL 18000; and
- at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100 *, GEOG 22600, GEOL 28000, or GTECH 20100; and
- at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100
Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGE or GTEC prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student's major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology

A minor in geology consists of a minimum of 12 credits as follows:

One course selected (at least 3 credits) from

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

GEOL 10200 - Plate Tectonics and the Earth's Evolution

GER
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth's evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes;
depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

prereq: GEOL 10100

5 hrs (3 lec, 2 lab)

4 cr.

Offered fall.

**GEOL 10500 - Introduction to Environmental Geoscience**

**Hunter Core**

Scientific World (SW)

**GER**

2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.

prereq: ENGL 12000

3 hrs

3 cr.

**GEOL 18000 - Introduction to Oceanography**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students

3 hrs

3 cr.

Offered fall and spring

and

at least one course (minimum of 3 credits) selected from

**GEOL 20500 - Environmental Geology**

**GER**

3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these
decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

**prereq:** GEOL 10100

3 hrs

3 cr.

**GEOL 23100 - Principles of Geomorphology**

**GER**

2/E or 3/B

Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

**prereq:** PGEO 13000 or GEOL 10100

4 hrs (2 lec, 2 lab)

3 cr.

**GEOL 28000 - Marine Geology**

**GER**

3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

**prereq:** GEOL 10200 or perm instr.

3 hrs

3 cr.

Fall

or other approved course, and

at least one course (minimum of 3 credits) from the following list of 300-level courses

**GEOL 33400 - Geomorphology: The Study of Beaches and Coasts**

**GER**

3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

**prereq:** GEOL 23100 or PGEO 23100 or equiv. or perm dept.

3 hrs

3 cr.
GEOL 38000 - Advanced Oceanography: Physics of the Oceans

GER
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

*prereq: one sem CHEM or PHYS, MATH 15000 or equiv.*

3 hrs
3 cr.

GEOL 38300 - Special Topics in Geology and Oceanography

GER
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

*prereq: 200-level course of which special topic is logical outgrowth; perm instr.*

1-4 hrs (lec or lec/lab)
1-3 cr.

GEOL 39300 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sems of geology, perm dept.*

1-3 cr.

GTECH 35100 - Field Techniques in Geography

Observation and analysis of physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as ground-truthing of remotely sensed images, the use of maps, compasses and GPS to navigate. Fee for transportation, lodging and food allowance required.

Material Fee: $300-400

*prereq: GTEC 20100, any two additional geography or geology courses, perm dept.*

90 hrs field/lab work (3 days lab, 7 days field)
3 cr.

Offered summer intersession (check with dept. in April).

PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an
understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

*prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

*prereq: PGEO 13000 or equiv.
*prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

or other approved course

Other

A minimum of one lab* or field course** or other approved course with a field component is required

†PGEOG 25000 Earth System Science I (while not counted toward the geology minor) is a prerequisite for PGEOG 36100.

Minors for Geography Majors

A minor course of study is no longer required at Hunter College. However, geography majors can elect to minor in any field of their choice. It is recommended, but not required, that the chosen field be related to the student's principal interest(s) in geography, and that the student consult with the Geography Undergraduate Adviser prior to selection of a minor course of study.

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGEOG or GTECH prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student's major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology
A minor in geology consists of a minimum of 12 credits selected from courses with a GEOL prefix, or PGEOG 23100, or PGEOG 33400, or GTECH 35000. Prerequisites may apply. It is recommended that prospective geology minors consult with an undergraduate adviser from the Department of Geography.

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000 (STEM), GEOL 10000, GEOL 10500, GEOL 18000; and
- at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100*, GEOG 22600, GEOL 28000, or GTECH 20100; and
- at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

Option in Social Studies within the Geography Major for Adolescent Education Teachers

Return to: Geography - BA

In cooperation with the The School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching social studies in grades 7 – 12. In addition to mandatory course work provided by the School of Education, interested students must complete the course of study outlined below. At least 18 credits of these courses or equivalents must be satisfactorily completed (grade of C or better) before the student enrolls in the social studies methods courses. Refer to the catalog section specific to programs in the The School of Education.

Transfer students who enter Hunter College with more than 90 credits or who will exceed 90 credits in completing the prerequisites for this option in the Geography major, cannot apply for the Adolescent Education program of the School of Education. They may still complete this option within the Geography major but must complete a Master of Arts degree in Adolescent Education before certification as a New York State teacher. While New York State recognizes the regular major in Geography for certification in Childhood Education, students interested in becoming certified as Social Studies-Adolescent Education teachers in New York State must complete this interdisciplinary course of study.

Prerequisites for the Major 9 credits

**HIST 15100 - The United States from the Colonial Era to the Civil War (W)**

*Hunter Core*

US Experience in its Diversity (USED)

*GER*

1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

**3 hrs**

**3 cr.**
HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

GEOG 15000 - World Regional Geography

Pluralism and Diversity
PD/A or D
GER
2/B

A survey of the world's major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.
prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

Requirements for the Major 36 credits

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to economic principles, issues, and policy. Recommended for students who want a broad, one-semester overview.
Not open to students who have taken or are currently enrolled in ECO 20000 or 20100 or their equivalents. Cannot be credited towards the Economics major.
3 hrs
3 cr.

GEOG 24100 - Population Geography

Pluralism and Diversity
PD/B or C
GER
3/B
Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

**prereq:** GEOG 10100 or GEOG 15000 or perm instr.

3 hrs

3 cr.

**HIST 11100 - World History to 1500**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A

GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**
World Culture and Global Issues (WCGI)

GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.
Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

1. Required courses (18 cr.)

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)

GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received
transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to economic principles, issues, and policy. Recommended for students who want a broad, one-semester overview.
Not open to students who have taken or are currently enrolled in ECO 20000 or 20100 or their equivalents. Cannot be credited towards the Economics major.
3 hrs
3 cr.

GEOG 24100 - Population Geography

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.
prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.
HIST 11200 - World History from 1500 to the Present

**Hunter Core**
World Culture and Global Issues (WCGI)
**GER**
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.

Courses at the 300-level and above not offered to freshmen.

2 hrs
3 cr.

2. One 3-credit course in cultural anthropology (ANTHC) or Sociology (3 cr)

- One 3-credit course in cultural anthropology (ANTHC) or Sociology (SOC) selected with approval of the Geography Undergraduate Adviser.

3. Elective Courses in History (6 credits)

- Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

4. Elective Courses in Geography (9 credits, at least 6 credits at the 300-level)

**GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions**

**GER**
3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

**prereq:** GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

**GER**
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and
suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 34200 - Geography of International Migration and Ethnicity

**Pluralism and Diversity**
PD/B
GER
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

prereq: GEOG 24100 or perm instr.
3 hrs
3 cr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

*effective term 2016*
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/Sr only.
prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.
Option in Social Studies within the Geography Major for Childhood Education Teachers

In cooperation with the School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching in grades 1-6. Students may choose to complete the Geography - BA, in addition to successful completion of the QUEST program. Interested students may also choose to complete the course of study outlined below. The option in Social Studies for Childhood Education is available only to students who are accepted into the QUEST program.

Students not accepted to the QUEST program, or students not eligible to apply to the QUEST program, should complete the traditional Geography major outlined above. They must complete a Master of Arts degree in Childhood Education before being certified as a New York State teacher.

Program Prerequisites (9 credits)

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

GEOG 15000 - World Regional Geography

Pluralism and Diversity
PD/A or D
GER
2/B

A survey of the world's major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized
behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

**prereq:** ENGL 12000

World Culture and Global Issues (WCGI)

**GER**

2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world. Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

**GEOG 24100 - Population Geography**

**Pluralism and Diversity**

PD/B or C

GER

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.
**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**

US Experience in its Diversity (USED)

**GER**

1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

**prereq: ENGL 12000 (or equivalent)**

**prereq or coreq: ENGL 12000 or its equivalent**

3 hrs

3 cr.

2. Elective Courses in Geography (6 credits)

Choose any two of the following:

**GEOG 24300 - Urban Geography**

**GER**

3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

**prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only**

3 hrs

3 cr.

**GEOG 34200 - Geography of International Migration and Ethnicity**

**Pluralism and Diversity**

**PD/B**

**GER**

3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.
prereq: GEOG 24100 or perm instr.
3 hrs
3 cr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/Sr only.
prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

3. Elective Courses in History (6 credits)

Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

Track A: Urban and Social Geography (30 credits)

Five courses from the list below (15 credits)

GEOG 22100 - Economic Geography and Globalization

GER
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both
economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen

**GEOG 24100 - Population Geography**

**Pluralism and Diversity**

PD/B or C

GER

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

**prereq:** GEOG 10100 or GEOG 15000 or perm instr.

3 cr.

**Offered fall and spring**

**GEOG 24300 - Urban Geography**

GER

3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

**prereq:** GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only

3 hrs

3 cr.

**GEOG 24700 - Cultural Geography**

GER

3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

**effective term 2016**

**prereq:** ENGL 12000, and GEOG 10100 -or- GEOG 15000
GEOG 25000 - Geographic Research Methods

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

Two courses with a GEOG 30600 course number (6 credits)

GEOG 30600 - Special Topics in Contemporary Regional Geographies

Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 15000 World Regional Geography or instructor permission

Three courses with a GEOG 30500, GEOG 38300, or GTECH 38500 course number (9 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

Note: Most GEOG 30600 courses have GEOG 15000 or permission of instructor as a prerequisite. GEOG 30500 courses have GEOG 24300 or permission of instructor as a prerequisite. GTECH 38500 courses have GTECH 20100 as a prerequisite.

GEOG 30500 - Special Topics in Urban and Regional Dynamics

Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 24300 Urban Geography or instructor permission
**GEOG 38300 - Special Topics in Geography**

**GER**

3/B

Open to Jr/Sr only. Topics to be announced.

*prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.*

1-4 hrs (lec or lec/lab)

1-3 cr

**GTECH 38500 - GIS Applications**

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.

Material Fee: $15

*prereq: GTEC 20100 or equiv.*

3 hrs

3 cr

**Track B: Physical and Environmental Geography (30 credits)**

The following 15 credits

**PGEOG 21200 - Geography of Soils and Vegetation**

**GER**

3/B

**PGEOG 25000 - Earth System Science I**

**GER**

3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

*prereq: at least one 100-level science course or perm instr.*

*prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.*

4 hrs

3.5 cr

**GEOL 23100 - Principles of Geomorphology**

**GER**

2/E or 3/B
Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

prereq: PGEO 13000 or GEOL 10100
4 hrs (2 lec, 2 lab)
3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.

Offered fall and spring

**GTECH 20300 - Introduction to Remote Sensing**

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15

prereq: GTECH 20100
6 hrs (2 lec, 4 lab)
4 cr.

- Five 300-level courses with a PGEOG, GEOL, and/or GTECH prefix with advice and approval of the undergraduate advisor as appropriate to student interests and professional goals (15 credits)

**Track C: Geographic Information Science (30 credits)**

The following 9 credits:

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.

Offered fall and spring
**GTECH 20300 - Introduction to Remote Sensing**

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15  
prereq: GTECH 20100  
6 hrs (2 lec, 4 lab)  
4 cr.

**GEOG 25000 - Geographic Research Methods**

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course  
3 hrs  
3 cr.

The following 15 credits:

**GTECH 30100 - Quantitative Methods in Geography**

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling; distribution measurement; statistical analysis of spatial data.

prereq: GTEC 201, STAT 113 or 213 or perm instr.  
3 hrs  
3 cr.

**GTECH 32100 - Remote Sensing of the Environment**

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.  
Material Fee: $15  
prereq: GTEC 32000 or perm instr.  
4 hrs (2 lec, 2 lab)  
3 cr.

**GTECH 32200 - Digital Image Processing**
Course emphasizes the acquisition and nature of digital image data and the tools required to process and analyze remotely sensed data. Topics include: image preprocessing, spectral mixture analysis, image transformation, image classification and accuracy assessment, change detection, information extraction from LIDAR and radar. At least one application for each image processing method will be introduced. This is an advanced remote sensing course. The course includes lab exercises through which students will obtain hands-on experience in digital image processing. The labs include practical assignments and computer-based analysis of remotely-sensed images, and also field work to evaluate the results. The lab will use ENVI, an image processing software, together with the comprehensive data analysis tool IDL.

prereq: GTEC 32100, and multivariate statistics, elementary linear algebra or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 36100 - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee:$ 15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 38000 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

Material Fee:$ 15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

- Two additional 300-level GTECH courses with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals
Note: GTECH 30100 has GTECH 20100 and STAT 11300 or STAT 21300 as prerequisites. Selected GTECH 38500 courses have GEOG or PGEOG prerequisites in addition to GTECH 20100.

Track D: Sustainability Studies (30 credits)

Five courses from the list below (15 credits):

GEOG 22100 - Economic Geography and Globalization

GER 2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history
of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

**GEOG 24500 - Geography of Development**

Introduction to geographic concepts, methods, and theories of development, as well as failures and challenges for development in a changing world.

prereq: ENGL 12000, and GEOG 10100 or GEOG 15000 or permission of instructor
3 hrs
3 cr.

**GEOG 22600 - Environmental Conservation: Resource Management**

GER

2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

GER

3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

**GEOG 24100 - Population Geography**

Pluralism and Diversity

PD/B or C

GER

3/B
Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

WGSL 20017 - Globalization and Gender

Globalization has been the subject of intense debate within both academic and journalistic spheres. These debates have questioned whether globalization ‘works for the greater good or not.’ In this course we will examine globalization critically by looking at some of the academic debates. We will examine the claim that globalization has heralded the end of the nation-state, review the implications of globalization on gender and sexuality, and consider the formation of a ‘global middle class.’

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.

The following 9 credits:

GEOG 38300 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity
PD/A
GER
3/B
Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

*prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.*

3 hrs
3 cr.

**GEOG 37100 - Rural Water Supply in Developing Regions**

**Pluralism and Diversity**
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education. The course will also discuss methods of providing drinking water in a sustainable manner.

*prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.*

3 hrs
3 cr.

- Two courses with a GEOG 30500, GEOG 30600, GEOG 38300 or GTECH 38500 course number (6 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

*Note: GEOG 38328 Environmental Ethics is the required course; no other 38300 course will be acceptable.*

**German**

**Overview**

The mission of the German Department is to teach German language, culture, and civilization in a professional, research-based manner, to help students develop a foundational knowledge of the German cultural and literary canon, to develop intercultural awareness and foster understanding between the Hunter as well as New York City communities and the German-speaking countries, and to create and propagate knowledge and understanding about German language, literature and culture and also about the teaching of German language, literature and culture locally, regionally, and nationally. The department offers courses in the language, literature, and culture of German-speaking countries that are designed and sequenced to guide students from their current language proficiency levels through well-defined stages of proficiency in production and comprehension so that students will reach college-level literacy in German and excel in the field of German studies. Students who complete the elementary and intermediate courses can expect to reach the ability to function in everyday situations in German-speaking environments and to have a solid base for the upper-level study of German language, literature and culture. Students who complete advanced language, literature, and culture courses will gain an understanding and appreciation of German culture and civilization, past and present; they will comprehend spoken and written German to the level of understanding the classics of German prose, drama, and poetry; and will either have reached or will be well on their way towards reaching the linguistic and cultural capacity for engaging in intellectual discourse in written and spoken German.

**What can I do with my degree in German?**
Germany is the third-largest economy in the world, and German is the first language of over 95 million people worldwide. Students with a foundation in the language, literature, history, and intellectual revolutions of Germany are prepared to enter a wide variety of vocations. Majors continue to postgraduate study in Germany and the United States, enter law schools and other graduate programs and work in fields as diverse as environmental policy, journalism, arts management, consulting, and engineering, as well as in governmental and nongovernmental organizations and businesses. Some of our recent graduates have been hired by the Manhattan branches of the Goethe Institut and the German American Chamber of Commerce.

**Programs and Courses**

Programs and Courses in German

**Foreign Language Requirement**

1. Students who begin German as a new language will fulfill the foreign language requirement by taking 12 credits in the elementary/intermediate language sequence: GERMN 10100-GERMN 10200 (or GERMN 10300), GERMN 20100-GERMN 20200 (or GERMN 20300). Students who enter with one or more years of high school German must take all the credits they need so that they can pass GERMN 20200 (or GERMN 20300). Students who enter with four years of high school German will be exempted from the foreign language requirement (see the Hunter Core Requirement section of this catalog).

**Placement**

Students who have some knowledge of German should consult with one of the departmental advisers or the chair for placement in a class that is appropriate for them.

**Administration and Faculty**

**Chair:**

Lisa Marie Anderson  
1408 West

Degree Map for German

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a German Studies major. The Degree Map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
_prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

GERMN 10100 - Elementary German I

Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 not usually credited without GRMN 10200. For details about credit policy, please see Foreign Language Requirement.
3 hrs
3 cr.

-or-

GERMN 10300 - Intensive Elementary German

Intensive practice in 4 basic skills of German. Covers material of GRMN 10100 and 10200 in one semester.
6 hrs
6 cr.

Note: Students opting for Intensive 6 cr. option would postpone SW or I&S/SS for the following semester.
Math/Quantitative Reasoning
Scientific World
Individual and Society (Social Sciences)

Spring
ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

GERMN 10200 - Elementary German II

Continued practice in speaking, reading, writing and comprehending German.

prereq: GRMN 10100 or equiv.
3 hrs
3 cr.

-or-

GERMN 20300 - Intensive Intermediate German

Covers material of GRMN 201 and 202 in one semester.

prereq: GRMN 10200, 10300 or equiv.
6 hrs
6 cr.

Note: Students opting for Intensive 6 cr. option would postpone LIPS or I&S/H for the following semester.

GERMN 24100 - German Fairy Tales in Translation (W)

Hunter Core
Creative Expression
Pluralism and Diversity
PD/D
GER
2/C

Reading and discussion of traditional and literary fairy tales of Germany. Cross-cultural comparison of various fairy-story traditions; development of motifs through various ages and cultures.
(Conducted in English) Note: No knowledge of German required.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

*No "W" designation when offered in Winter Session

• Individual and Society - Humanities
• Life and Physical Sciences

Sophomore Year
Fall

Notes

Students interested in Study Abroad should speak with a departmental advisor about summer programs, which carry a total of 6 credit hours, 3 that may be applied to the major and 3 that will count as elective credits. Semester-long and year-long study abroad is also possible.

Students who complete the intensive language sequence (GERMN 10300 and GERMN 20300) in their first year may move on to Advanced Language and Literature courses GERMN 30100 - GERMN 30200, GERMN 31000, GERMN 32000 - GERMN 33900) in their sophomore year.

At least 12 credits must be earned by taking advanced classes in German literature and culture (numbered GERMN 32000 - GERMN 35900; also GERMN 44400). Three or more of these credits must be from level 2 literature courses numbered GERMN 34100 - GERMN 35900; also GERMN 44400). Majors are permitted to substitute one level 1 literature course (numbered GERMN 32000 - GERMN 33900) with a level 2 language course (GERMN 38500). Students are encouraged to consult a departmental advisor as early as possible to plan their course of studies in German.

German - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24-30 credits)

Elementary and Intermediate German Language Courses (12 credits)

**GERMN 10100 - Elementary German I**

Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners. GERMN 10100 not usually credited without GRMN 10200. For details about credit policy, please see Foreign Language Requirement.
3 hrs
3 cr.

**GERMN 10200 - Elementary German II**

Continued practice in speaking, reading, writing and comprehending German.  
*prereq: GERMN 10100 or equiv.*
3 hrs
3 cr.

**GERMN 20100 - Intermediate German I**

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.  
*prereq: GERMN 10200 or equiv.*
3 hrs
3 cr.

**GERMN 20200 - Intermediate German II**

Grammar review and composition. Reading and discussion of selected literary texts.  
*prereq: GERMN 20100 or equiv.*
3 hrs
3 cr.

Note:

**GERMN 10300 - Intensive Elementary German**

Intensive practice in 4 basic skills of German. Covers material of GRMN 10100 and 10200 in one semester.
6 hrs
6 cr.

**GERMN 20000 - Intensive German 2 and 3**

prereq: GERMN 10100
6 hrs
6 cr.

GERMN 20300 - Intensive Intermediate German

Covers material of GRMN 201 and 202 in one semester.
prereq: GRMN 10200, 10300 or equiv.
6 hrs
6 cr.

Note: Between 3 and 12 credits of these courses may be waived if students have prior knowledge of German. Prior knowledge will be determined by a departmental placement test.

Advanced Courses in German Language and Literature (18 - 24 credits)

Students who begin their German study in college (GERMN 10100 and GERMN 10200 or equivalent on the transcript) must take an additional total of 18 credits in Advanced German Language and Literature Courses numbered above GERMN 30000.

Students who began their German study before entering college (no GERMN 10100 and GERMN 10200 or equivalent on the transcript) must take a total of 24 credits in Advanced German Language and Literature Courses numbered above GERMN 30000.

Note: Courses on German literature or culture taught in English cannot be used to fulfill requirements for a German major.

Advanced courses in language, level I (30100 - 31200):

GERMN 30100 - Advanced German Comprehension and Conversation

GER
3/A

Intensive practice in reading and listening to German texts and in conversational German; some essay writing. (Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 30200 - Advanced German Conversation and Composition

GER
3/A

Intensive practice in speaking and writing German. (Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.
GERMN 31000 - Advanced German Language Studies

GER
3/A

Intensive language study in a German speaking country. May be repeated at different levels.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 31200 - Introduction to Business German

GER
3/A

Introduction to the specialized language of German business and economics and intensive practice in German
terminology and style on such topics as banking and finance, the corporate structure and the European Union.
(Conducted in German)
prereq: GERMN 30100 or perm instr.
3 hrs
3 cr.

Advanced courses in literature, level I (32000 - 33900):

GERMN 32000 - Studies in German Literature and Language

Pluralism and Diversity
PD/D
GER
3/A

Discussion of literary topics or linguistic phenomena. May be repeated with a different topic.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 32100 - Individual and Society in Modern German Literature

Pluralism and Diversity
PD/D
GER
3/A

The central conflict between individual liberty and societal constraints as reflected in short stories, novellas and plays
by 20th century authors such as Kafka, Brecht, Böll and Frisch.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.
GERMN 32200 - German Civilization

Pluralism and Diversity  
PD/D  
GER  
3/A

Introduction to key topics in German history, politics, arts, literature and sciences.  
(Conducted in German)  
prereq: GERMN 20200 or equiv.  
3 hrs  
3 cr.

GERMN 32300 - Women in German Literature

Pluralism and Diversity  
PD/C  
GER  
3/A

Reading and discussion of literature from the 19th century to the present written in German by and about women.  
(Conducted in German)  
prereq: GERMN 20200 or 20300 or equiv.  
3 hrs  
3 cr.

GERMN 32400 - Post-Feminist German Literature and Film

Pluralism and Diversity  
P&D C  
GER  
3/A

Reading and discussion of German literature and film written and produced by women at the end of the 20th and the beginning of the 21st centuries.  
prereq: GERMN 20200 or 20300 or equivalent  
3 hrs  
3 cr.

GERMN 32700 - Modern Swiss Literature

Pluralism and Diversity  
PD/D  
GER  
3/A

Reading and discussion of literature written in German by Swiss authors since the 19th century.  
(Conducted in German)  
prereq: GERMN 20200 or 20300 or equiv.  
3 hrs  
3 cr.

GERMN 32800 - German Children's and Adolescent Literature
Reading and discussion of literature for young readers and adolescents.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33400 - The German Short Story and Novelle**

Discussion of short narrative works from age of Goethe to present.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33500 - German Radio Plays: Hoerspiel**

Listening to and discussion of literary radio plays from the 1950s to today.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33600 - German Lyric Poetry**

Discussion of important lyrics from Baroque period to present.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33900 - German Drama from Naturalism to Present**
Discussion of dramas by such writers as Hauptmann, Wedekind, Brecht, Dürrenmatt, Frisch and Handke. (Conducted in German)

prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

Advanced courses in literature, level II (34000 - 35900):

GERMN 34100 - German Drama from Age of Goethe to Naturalism

Discussion of dramas by such writers as Goethe, Schiller, Kleist, Büchner, Grillparzer and Hebbel. (Conducted in German)

prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34200 - The German Novel

Discussion of narrative works by such writers as Goethe, Keller, Fontane, T. Mann, Kafka, Döblin and Böll. (Conducted in German)

prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34300 - German Literature from Its Origins to the Age of Goethe

GERMN 34400 - Readings in Classical Period of German Literature
Discussion of selected works by Lessing, Goethe and Schiller.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34500 - Literature of Weimar Republic

Pluralism and Diversity
PD/D
GER
3/A

Discussion of literary works and documents influential in German life between 1918 and 1933.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34600 - German Literature of the 1930s and 1940s

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of literature written between the time of the Weimar Republic and 1945.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34700 - German Literature 1945-1995

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of German literature written between 1945 and 1995.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34800 - East German Literature (1945-1990)

Pluralism and Diversity
PD/D
GER
3/A
Reading and discussion in German of literature written in East Germany during the existence of the German Democratic Republic as a sovereign state.

(Conducted in German)

Prereq: one course numbered GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 35000 - Austrian Literature**

Pluralism and Diversity
PD/D
GER
3/A

Discussion of literature and culture of the fin-de-siècle Vienna.

(Conducted in German)

Prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 35300 - Goethe's Faust**

Pluralism and Diversity
PD/D
GER
3/A

Intensive study of Goethe's Faust, Parts I and II.

(Conducted in German)

Prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 35900 - German Literary Seminar**

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of significant theme in German literature, German author or literary movement or genre. May be repeated with a different topic.

(Conducted in German)

Prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

Advanced courses in language, level II (all course numbers beginning with 38500);
GERMN 38501 - The German Press of Today: Reading and Understanding Newspapers and Magazines

GER
3/A

Reading and discussion of present-day German newspapers and magazines.
(Conducted in German) A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.
prereq: two courses numbered GERMN 30000 or above or equiv. (excluding courses in English translation)
3 hrs
3 cr.

GERMN 38502 - Advanced Business German

GER
3/A

Cross-cultural study and practicing of German business culture and language while studying Germany as global economic player. Topics such as corporate structure, management strategies, international marketing and labor relations.
A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.
prereq or coreq: GERMN 31200 or perm. instr.
3 hrs
3 cr.

GERMN 38503 - German Grammar for Upper-Level Discourse

GER
3/A

Study of German grammar from basic to complex structures. Intensive practice in control of grammatical forms at high levels of spoken and written discourse.
(Conducted in German) A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.
prereq: three courses above GERMN 30000 or equiv (excluding courses in English translation)
3 hrs
3 cr.

Special projects:

GERMN 44400 - Seminar Studies in German Literature and Language

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of literary topic or linguistic phenomenon. May be repeated with a different topic.
GERMN 2000 or 20300 or equiv.
3 hrs
3 cr.

GERMN 49100 - Honors Project

Open to Jr/Sr only. Individual study and independent research in consultation with faculty member. Honors essay required.
(Conducted in German)

prereq: perm chair
3 cr.

GERMN 49200 - Independent Study in German

Number of credits to be determined in advance in consultation with faculty member on basis of work planned.
(Conducted in German) A varying selection of the following courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq: perm chair
1-3 cr.

GERMN 49300 - Individual Studies Project in German Studies

Individual research on German-studies topic under direction of faculty member. Written report required.
(Conducted in German)

prereq: perm chair
3 cr.

GERMN 49800 - Internship

(Conducted in German) A varying selection of the following courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq: perm of chair
1-4 cr.

Additional Information

At least 12 credits must be earned by taking advanced classes in German literature and culture (numbered 32000-35900; also 44400).

Three or more of these credits must be from level II literature courses (numbered 34000-35900; also 44400). Majors are permitted to substitute one level I literature course (numbered 32000-33900) with a level II language course (any course with a number that begins with 38500).

Students are encouraged to consult a departmental adviser as early as possible to plan their course of studies in German.

Students who begin German in college may count the following as major courses.

GERMN 20100 - Intermediate German I
Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

*prereq: GRMN 10200 or equiv.*

3 hrs
3 cr.

**GERMN 20200 - Intermediate German II**

Grammar review and composition. Reading and discussion of selected literary texts.

*prereq: GRMN 20100 or equiv.*

3 hrs
3 cr.

-or-

**GERMN 20300 - Intensive Intermediate German**

Covers material of GRMN 201 and 202 in one semester.

*prereq: GRMN 10200, 10300 or equiv.*

6 hrs
6 cr.

**Preparation for Teaching in Grades 7-12**

In cooperation with the School of Education, the program in German provides opportunities for students to prepare for a career in teaching German in grades 7-12. Students preparing to teach German must complete a 33-credit major option (Option 2) for teaching that includes the 24-credit sequence (Option 1) taken by non-teaching majors plus 9 additional credits: GERMN 39900 and 6 additional credits in advanced GERMN language and literature courses in the German Department between GERMN 30100 and GERMN 44400 or GERMN 24000, GERMN 24100 or 300-level courses related to German studies offered in other departments (with prior approval by the chairperson of the German Department). Students interested in teaching German in New York schools will take the 23-credit pedagogical sequence for grades 7-12 Languages Other than English: Chinese, French, German, Hebrew, Italian, Russian, Spanish (BA) Additional Coursework and Student Teaching along with the major in German. This sequence may count toward the course requirements for New York State Certification but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the School of Education. All students who want to pursue a teaching certificate in German must take an oral examination with the German Department. See the The School of Education section of this catalog for further information.

**Minor in German**

Foundational Courses must be completed before embarking upon the minor. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**GERMN 10100 - Elementary German I**

Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners. GERMN 10100 not usually credited without GERMN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.
GERMN 10200 - Elementary German II

Continued practice in speaking, reading, writing and comprehending German.

*prereq: GERMN 10100 or equiv.*

3 hrs
3 cr.

GERMN 20100 - Intermediate German I

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

*prereq: GERMN 10200 or equiv.*

3 hrs
3 cr.

GERMN 20200 - Intermediate German II

Grammar review and composition. Reading and discussion of selected literary texts.

*prereq: GERMN 20100 or equiv.*

3 hrs
3 cr.

-or-

GERMN 10300 - Intensive Elementary German

Intensive practice in 4 basic skills of German. Covers material of GERMN 10100 and 10200 in one semester.

6 hrs
6 cr.

GERMN 20300 - Intensive Intermediate German

Covers material of GERMN 201 and 202 in one semester.

*prereq: GERMN 10200, 10300 or equiv.*

6 hrs
6 cr.

Courses Required for the Minor

12 credits in language and literature taught in German at the 300-level or higher are required for the minor.

- GERMN 30100 to 35900
- GERMN 38100 to 44400

At least 3 of the credits for a German minor must be earned by taking a literature class numbered between GERMN 320.00 and GERMN 35900. Students who begin their study of German in college may count GERMN 20100 and GERMN 20300 towards the minor and will need to take two courses at the 300-level.

Electives

All courses offered are open to all qualified students as electives. For placement, consult a departmental adviser or the department chair.
Honors, Tutorials

Consult the department chair for these special programs. In order to graduate with departmental honors the student has to write an honors essay in the following. Please check under “Academic Honors” for exact details. Students who qualify can be elected to the German Honor Society Sigma Epsilon Phi. Please consult the department for exact requirements.

**GERMN 49100 - Honors Project**

Open to Jr/Sr only. Individual study and independent research in consultation with faculty member. Honors essay required.

*prereq: perm chair*

3 cr.

Study Abroad

The German Department sponsors a summer study abroad program in Kassel, Germany, for students at all levels.

**Exchange Program with Pädagogische Hochschule Karlsruhe, Germany**

The German Department has a semester-long or year-long exchange program with the Pädagogische Hochschule Karlsruhewww.ph-karlsruhe.de/index.php. The department will help students seek financial support. Please consult the department for details.

International Examinations

The German Department is a testing site for the “Goethe Zertifikate” B1, B2 and C1. These examinations are given world-wide by the Goethe Institute www.goethe.de/lrn/prj/pba/bes/enindex.htm, the cultural arm of the German government.

**Degree Map for German BA**

- Degree Map for German

**Minor in German**

**Courses Required for the German Minor**

Students with appropriate background may be exempted from some or all Elementary and Intermediate Courses. See department for proper placement.

**Elementary and Intermediate German Language Courses (12 credits)**

**GERMN 10100 - Elementary German I**
Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners. GERMN 10100 not usually credited without GERMN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.

**GERMN 10200 - Elementary German II**

Continued practice in speaking, reading, writing and comprehending German.

*prereq: GERMN 10100 or equiv.*

3 hrs
3 cr.

**GERMN 20100 - Intermediate German I**

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

*prereq: GERMN 10200 or equiv.*

3 hrs
3 cr.

**GERMN 20200 - Intermediate German II**

Grammar review and composition. Reading and discussion of selected literary texts.

*prereq: GERMN 20100 or equiv.*

3 hrs
3 cr.

**Note:**

**GERMN 10300 - Intensive Elementary German**

Intensive practice in 4 basic skills of German. Covers material of GERMN 10100 and 10200 in one semester.

6 hrs
6 cr.

may be substituted for GERMN 10100 and GERMN 10200.

**GERMN 20000 - Intensive German 2 and 3**

*prereq: GERMN 10100*

6 hrs
6 cr.

may be substituted for GERMN 10200 and GERMN 20100.

**GERMN 20300 - Intensive Intermediate German**
Covers material of GRMN 201 and 202 in one semester.

prereq: GRMN 10200, 10300 or equiv.
6 hrs
6 cr.

may be substituted for GERMN 20100 and GERMN 20200.

12 credits in language and literature taught in German at the 300-level or higher are required for the minor.

Courses in the range of

GERMN 30100 - Advanced German Comprehension and Conversation

GER
3/A

Intensive practice in reading and listening to German texts and in conversational German; some essay writing.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 35900 - German Literary Seminar

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of significant theme in German literature, German author or literary movement or genre. May be repeated with a different topic.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

Courses in the range of

GERMN 38500 - Advanced Topics in German Language Study

Advanced study of a linguistic phenomenon or of German language for a particular purpose. May be repeated with a different topic or level.
A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.
prereq or coreq: Will vary with topic
3 hrs
3 cr.

through

GERMN 44400 - Seminar Studies in German Literature and Language
Pluralism and Diversity
PD/D
GER
3/A

Seminar study of literary topic or linguistic phenomenon. May be repeated with a different topic.
(Conducted in German)

prereq: GERMN 2000 or 20300 or equiv.
3 hrs
3 cr.

Note:

At least 3 of the credits for a German minor must be earned by taking a literature class numbered between GERMN 32000 and GERMN 35900. Students who begin their study of German in college may count 6 credits of German Intermediate instruction (3 credits of GERMN 20000 or GERMN 20100 and GERMN 20200; or GERMN 20300) towards the minor and will need to take two courses at the 300-level.

History

Overview

History is the record of human experience. Its study is a first step in learning about ourselves and our society — about economics and politics, psychology and sociology, mathematics and science, the arts and the humanities. Beyond the purely practical consideration of a profession, the study of history is exciting in its own right. The History Department offers courses in the history of the United States, the ancient world, medieval and modern Europe, Russia, Jewish studies, the Middle East and Islamic world, Latin America, Africa, East Asia and South Asia, as well as many comparative topics in political, intellectual, and world history.

What can I do with my degree in History?

For students whose undergraduate major is history, career opportunities are numerous and varied. Medical, law and other professional schools favor applicants with history majors because of their broad background and research skills. Moreover, while teaching has long been a popular goal for history majors, positions in government (local, state and national), publishing, museums, public relations, advertising, media/communications, business and management also await those students whose human perspective, critical thinking skills, and intellectual discipline have been developed in history classes.

Degree Map for History

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a History major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core  
English Comp (EC)  
GER  
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.  
_prereq: successful completion of developmental courses, if required

3 hrs + conf  
3 cr.

- Math & Quantitative Reasoning
- Foreign Language Elementary Level 1
- Life and Physical Sciences
HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

Spring

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

Notes:

- Students must complete a minimum of 6 HIST credits within each of the following geographical fields: United States history, European history (includes Russia and the USSR), and World/Non-Western (Asia, Africa, and Middle East)/Latin American history.
- A maximum of 9 credits in 100-level courses may be applied to the major.
- A minimum of 18 credits in advanced-level courses distributed as follows:
  - 6 credits in 200-level courses (not including HIST 29000)
  - 9 credits in 300-level courses or higher (including HIST 30000/HIST 40000)
- **HIST 29000 - History Practicum (W) Majors must have passed 9 credits of HIST-designated courses before enrolling in HIST 29000. No more than 6 of the 9 credits required for HIST 29000 enrollment may be at the 100 level. A minimum grade of C is required to receive credit for HIST 29000. The Department strongly suggests students take the Practicum in the sophomore year, but recognizes that transfer students will not have had an opportunity to do so, but should be encouraged to take it the Fall semester of their Junior year.
- Chronological Distribution: Within the requirements for the major (exclusive of HIST 300) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:
  - If the course is at the 100-level, it must cover material that is entirely pre-1815.
  - If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

History - BA

Hunter Core Requirement

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the History major, the courses that meet CCCR are:

<table>

Courses Required for the Major (30 credits)

• A maximum of 9 credits in 100-level courses may be taken.

• A minimum of 18 credits in advanced-level courses distributed as follows:
  - 6 credits in 200-level courses (not including HIST 29000)
  - 9 credits in 300-level courses or higher (not including HIST 30000/HIST 40000)

• History Practicum

HIST 29000 - History Practicum (W)

A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed "hands-on" experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.

_prereq: ENGL 12000; 6 cr in history and permission of the department
3 hrs.
3 cr.

Majors must have passed 9 credits of HIST-designated courses before enrolling in HIST 29000. No more than 6 of the 9 credits required for HIST 29000 enrollment may be at the 100 level.

A minimum grade of C is required to receive credit for HIST 29000

• Historical Research or Historical Research Honors

HIST 30000 - Historical Research (W)

GER
3/B

Independent research related to a prior upper-level course already completed under the supervising instructor. The
research will result in an extensive paper.

Courses at the 300-level and above not offered to freshmen.

**prereq:** HIST 29000 and departmental permission

3 hrs

3 cr.

-or-

**HIST 40000 - Historical Research [H]**

**GER**

3/B

The origins of history writing and the modern historical profession; modes of historical research; the evaluation of historical evidence; the historical and social uses of history. Recommended for all history majors. Required of students who wish to graduate with honors in history.

Courses at the 300-level and above not offered to freshmen.

**prereq:** not open to students who have completed fewer than 80 credits

3 hrs

3 cr.

*A minimum grade of C is required to receive credit for HIST 30000/HIST 40000*

**Geographic Distribution:**

- Within the requirements for the major (exclusive of HIST 30000) students must complete a minimum of 6 credits in each of the following geographic fields:
  - 1) United States history
  - 2) European history (includes Russia and the U.S.S.R.)
  - 3) World/Non-Western history (includes Asia, Africa, Middle East, Latin America).

**Chronological Distribution:**

Within the requirements for the major (exclusive of HIST 30000) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:

- If the course is at the 100-level, it must cover material that is entirely pre-1815.
- If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

**Minor**

Students majoring in disciplines other than history may elect a minor in history. The history minor consists of 12 credits. The minor in History is flexible and thus it can provide depth to a variety of majors; students can tailor the minor to suit best their individual interests.

**Requirements:**

1. Four history courses of 3 credits each (or 12 credits total) taken for a letter grade (C or better. Courses taken for a grade of Credit/No Credit will not count toward the minor.)
2. Courses must be distributed in at least two geographic fields, i.e. at least one course (3 credits) must be taken in a geographic area different from the other three. (Currently, the geographic areas are defined as U.S., European and World/Non-Western.)

3. At least two courses (6 credits) must be at the 300-level or above. Internships do not count toward completion of the minor, although students completing the minor may elect to include an internship as an additional course. Independent studies (tutorials) and HIST300 are available only to History Majors and, thus, do not count toward the minor.

4. At least two of the courses (or 6 credits) must be taken in the History Department at Hunter College. Courses taken in other disciplines will not count toward the minor unless cross-listed and taken under the appropriate HIST course code. Transfer courses must be approved by the History Undergraduate Advisor.

There are no prerequisites for the minor, although certain courses may have their own prerequisites.

Declaring a Minor in History:

Students are advised to declare their minor by the beginning of the upper junior semester, but must do it prior to their final semester (that of graduation). Declaration requires a planning session with the History Undergraduate Advisor and completion of the Major/Minor Declaration Form (to be obtained from the OASIS).

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors in History

Students will be eligible for honors in history upon the completion of all of the requirements for the major (including HIST 30000) with a 3.5 GPA and a 3.0 cumulative GPA at the time of graduation. In order to receive honors students may complete a portion of their major requirements in one of the following ways:

- completing HIST 40000 with a grade of B or better in lieu of HIST 30000, which is required for the major

OR

- completing 3 credits with a grade of B or better in an honors seminar, problems course, or tutorial (with departmental permission) in lieu of one of their 300-level or higher courses required for the major. Such seminars, honors courses, or tutorial options include:
  - HIST 48300 Problems in U.S. History (Honors) (W)
  - HIST 48400 Problems in European History (Honors) (W)
  - HIST 48500 Problems in Non-Western History (Honors) (W)
  - HIST 49300 Individual Tutorial Research Project

  Note: the student must still complete HIST 30000 or HIST 40000

OR

- completing a graduate-level course (with special permission from the instructor) with a grade of B or better in lieu of one of their 300-level or higher courses required for the major.

  Note: the student must still complete HIST 30000 or HIST 40000

Eligible students should apply for honors at the time they file for graduation. Applications are available from the department.
Graduate Study

Qualified students in their junior and senior years may be admitted to graduate courses with the approval of the department chair.

Degree Map

Degree Map for History

**History: Major with Minor in International Affairs - BA**

Adviser: Michael Luther

**Major**

The major consists of 18 credits in history:

**HIST 32900 - History of European Diplomacy**

- Pluralism and Diversity
- PD/D
- GER
- 3/B

From the Congress of Vienna and national unification movements through the era of total wars and cold war. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 36100 - America and the World in the 20th Century**

- Pluralism and Diversity
- PD/D
- GER
- 3/B

The trajectory of American foreign relations during the last century, focusing on how and why the United States engaged other nations and peoples as it did. It also explores the ways in which developments overseas helped shape American domestic life.

Courses at the 300-level and above not offered to freshmen.

prereq: ENGL 12000

3 hrs
3 cr.

plus 9 credits selected from

**HIST 27700 - East Asia to 1600 (W)**
Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 27800 - East Asia, 1600 to the Present (W)**

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 28800 - History of Africa to the 19th Century**

Survey of pre-colonial African societies with emphasis on economic and social institutions changing under the impact of the environment.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 28900 - Africa in the 19th and 20th Centuries (W)**

Historical explanation of independent Africa rising after colonialism and adjusting to modernization.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 32700 - Europe since 1914**
Europe in a century of total wars and cold war: the military, political, social, economic and intellectual scene. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 34600 - Churchill's Britain (W)**

GER
3/B

The history of Britain and its empire in the 20th century. The emphasis will be on the world wars and their impact on British military and diplomatic power, and thus on the spread of British imperial rule up to the 1920s, as well as on the changes the wars brought to the British economy, society and culture and, ultimately, the collapse of the empire after 1945. The major theme of the course will be how to understand Britain's "decline" in the 20th century. The rise and fall of the British imperial system and its transformation into a Commonwealth of nations.

Courses at the 300-level and above not offered to freshmen.

*prereq: ENGL 12000*

3 hrs
3 cr.

**HIST 37500 - Late Imperial Russia and the Soviet Union**

Pluralism and Diversity
PD/D
GER
3/B

Political, socioeconomic and cultural development of late 19th and 20th century Russian and Soviet society.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 37700 - Ancient and Imperial China to 1800**

GER
3/B

China's traditions and transformation from Neolithic times to the late-imperial period, emphasizing state/society relations and the development of the centralized bureaucratic political system; covers political, economic, religious and social developments.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 37800 - China Since 1800**

GER
3/B
Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 39000 - History of Modern West Africa**

**GER**
3/B

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

- Seminars, problems courses and tutorial if appropriate

**Minor**

The minor consists of 18 credits including

**ECO 34000 - International Trade**

**GER**
3/B

Theories of international trade and international trade policies.

*prereq: ECO 20000*

3 hrs
3 cr.

**POLSC 37500 - International Law (W)**

**GER**
3/B

Theory of and case studies on the nature, sources, practices and efficacy of international law, principles and rules.

*prereq: ENGL 12000 and POLSC 11500 or POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282*

3 hrs
3 cr.

**POLSC 27800 - International Organizations (W)**

**GER**
3/B

Powers, functions and effectiveness of international institutions; emphasis on United Nations and regional organizations.

*prereq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

GEOG 22100 - Economic Geography and Globalization

GER
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

Minor in History

Students majoring in disciplines other than history may elect a minor in history. The history minor consists of 12 credits. The minor in History is flexible and thus it can provide depth to a variety of majors; students can tailor the minor to suit best their individual interests.

Requirements:

1. Four history courses of 3 credits each (or 12 credits total) taken for a letter grade (C or better. Courses taken for a grade of Credit/No Credit will not count toward the minor.)
2. Courses must be distributed in at least two geographic fields, i.e. at least one course (3 credits) must be taken in a geographic area different from the other three. (Currently, the geographic areas are defined as U.S., European and World/Non-Western.)
3. At least two courses (6 credits) must be at the 300-level or above. Internships do not count toward completion of the minor, although students completing the minor may elect to include an internship as an additional course. Independent studies (tutorials) and HIST300 are available only to History Majors and, thus, do not count toward the minor.
4. At least two of the courses (or 6 credits) must be taken in the History Department at Hunter College. Courses taken in other disciplines will not count toward the minor unless cross-listed and taken under the appropriate HIST course code. Transfer courses must be approved by the History Undergraduate Advisor.

There are no prerequisites for the minor, although certain courses may have their own prerequisites.

Declaring a Minor in History:

Students are advised to declare their minor by the beginning of the upper junior semester, but must do it prior to their final semester (that of graduation). Declaration requires a planning session with the History Undergraduate Advisor and completion of the Major/Minor Declaration Form (to be obtained from the One Stop).

Jewish Studies
Overview

Jewish Studies is an inter-departmental, multi-disciplinary program offering a 24-credit major leading to a BA degree in Jewish Studies with courses in such fields as history, Hebrew language and literature, English and other literatures, religion, sociology, and political science. It also offers independent study and fieldwork on Jewish subjects and a 12-credit minor.

What can I do with my degree in Jewish Studies?

Graduates continue to careers in education, law, business, religious life, academics, politics, publishing and the arts. Jewish Studies majors are well-prepared to apply for graduate studies in many fields.

Degree Map for Jewish Studies

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Classical Archaeology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.
Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)
GER
1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

- Math & Quantitative Reasoning
- Individual and Society/ Social Sciences
- US Experience in its Diversity
- Foreign Language Elementary Level 1

Notes:

- Jewish Studies is an inter-departmental, multi-disciplinary program.
- Jewish Studies majors should work with a program advisor to decide upon a sequence of Jewish Studies electives totaling 18 credits (6 classes).
- Jewish Studies electives can be completed with courses in fields such as History, Hebrew language, Literatures, Religion, Sociology and Political Science.
- At least 6 credits (2 classes) must be at the 300 level or above.

Jewish Studies - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Jewish Studies major, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>HEBR 21100</td>
<td>Individual and Society (H)</td>
</tr>
<tr>
<td>HEBR 22200</td>
<td>World Culture and Global Issues</td>
</tr>
</tbody>
</table>
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24 credits)

The 24 required credits are distributed as follows:

The 6 core credits required of all majors are:

**HIST 20800 - History of the Jews**

**Hunter Core**
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.

*prereq or coreq: ENGL 12000*
3 hours
3 credits

**HEBR 22200 - Introduction to Jewish Texts and Writings**

**Hunter Core**
World Culture and Global Issues (WCGI)
A broad survey of influential Jewish texts and literary masterpieces from ancient to modern times.

*prereq or coreq: ENGL 120*
3 hours
3 credits

15 Credits in Jewish Studies

In addition to the core courses, students must select 15 credits in Jewish studies in conjunction with the program adviser, at least 6 of which must be at the 300-level or above. Students are encouraged to select from, but are not limited to, the following:

**HEBR 21100 - Masterpieces of Medieval Hebraic Literature in Translation (W)**

**Hunter Core**
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Selections from major works reflecting Jewish life and thought in medieval Islamic world and Christendom.
3 hrs
3 cr.

HEBR 21200 - Readings in Modern Hebrew Literature in Translation (W)

GER
2/C

Survey of Hebraic literature from Enlightenment movement to present.
3 hrs
3 cr

HEBR 21800 - Masterpieces of Yiddish Literature in Translation (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major works in Yiddish literature from Mendele Mocher Seforim to present.
prereq: ENGL 22000
3 hrs
3 cr

HEBR 28100 - Masterpieces of Ancient Hebraic Literature in Translation (W)

GER
3/A

Study of Hebrew classics and collateral works against background of Jewish history and ancient civilization.
3 hrs
3 cr

Other courses that may be selected to meet this 15-credit requirement are ENGL 38663 (ENGL 38600), The Bible in British and American Literature, ENGL 39058 (ENGL 39000), Literature and Catastrophe (focus on Holocaust Studies), ENGL 39968 (ENGL 39900 ), Jewish American Literature, HIST 74000, Modern Jewish Social and Intellectual History (see graduate catalog) and HIST 74800, American Jewish History (see graduate catalog).
Note

Up to 6 credits of independent study and fieldwork may be taken with special permission from the program adviser.

Capstone Course (3 credits)

One of the following courses should be taken as a capstone course:

**JS 40000 - Individual Honors Project**

Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required.

**Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director**

**prereq:** 12 cr. in Jewish Studies, perm program director

**3-6 hrs**

3-6 cr.

**JS 41050 - Jewish Studies Seminar I**

Selected topics and problems in Jewish studies.

**prereq:** qualified Jr/Sr, perm instr. or program director

**3 hrs**

3 cr. each

**JS 41051 - Jewish Studies Seminar II**

Selected topics and problems in Jewish studies.

**prereq:** qualified Jr/Sr, perm instr. or program director

**3 hrs**

3 cr. each

Minor in Jewish Studies

The minor in Jewish Studies consists of 12 credits in courses in Jewish studies of which at least 3 credits must be on topics in the history of the Jews or Judaism and at least 3 credits in Jewish literature, thought, religion, or one of the social sciences (sociology, anthropology, or political science). Students can apply to the minor up to 6 credits in Independent Studies (JS 30000 or JS 40000) or fieldwork (JS 31000). Up to six credits in Jewish studies taken at other institutions of higher learning may be applied to the minor. Jewish Studies minors cannot apply any 100-level courses to the minor.

Honors in Jewish Studies

Students will be eligible for honors in Jewish Studies upon completion of 24 credits in Jewish Studies with a 3.5 GPA and a 2.8 cumulative GPA at the time of graduation. To be eligible to graduate with honors in Jewish Studies, students can take the following JS 40000 (Individual Honors Project) or JS 41050/JS 41051 (Jewish Studies Seminar, I or II), HEBR 49100 (Honors Project) or graduate courses with special permission, with a grade of B or better. Eligible students should apply for honors at the time they file for graduation.

Latin American and Caribbean Studies

Overview

Latin American and Caribbean Studies is an interdisciplinary program that offers students the opportunity to learn about the history, culture, politics, society, and political economy of the region and its relations with the United States. The LACS program, in collaboration with the Hunter College Education Abroad Office, has offered study-abroad programs in Argentina, Costa Rica, and Brazil in recent years.

Latin American and Caribbean Studies - BA

The specialization in Latin American and Caribbean Studies as a major leading to a BA degree consists of 24 credits. The core courses for the major are drawn from the social sciences, humanities, and arts. Following the program's goal of exposing the region's realities from the perspectives of various disciplines, no more than two courses from any single department may count for the 24 major credits. The program recommends that students take a 12-
credit minor in one of the associated disciplinary departments. Students select courses for the major in consultation with the program's director or with a member of the Latin American and Caribbean Studies Faculty Advisory Committee.

The interdisciplinary specialization of the major will serve graduates well, whether they choose to seek employment in public or private organizations, pursue professional degrees, or go on to a graduate degree in the social sciences or humanities.

**Language Requirement**

Latin American and Caribbean Studies majors are required to demonstrate a reading knowledge of Spanish, Portuguese, or French, fulfilled at least one semester before graduation from the college.

**Courses Required for the Major (24 credits)**

LACS students are required to take either LACS 33000 (a field course for students to study or intern in the region or intern in an institution in the New York area) or LACS 43400 (a course that comprises preparation of a major original research paper to be developed in close association with a mentor from the Latin American and Caribbean Studies Faculty Advisory Committee). ENGL 12000 is a prerequisite for program courses.

**LACS 33000 - Latin America and the Caribbean Field Course/Internship**

A field course for students to study in the region or who are interning in an institution either in the New York area or in the region. Major research paper based on field or internship experience.

3 cr.

**LACS 43400 - Seminar in Latin American and Caribbean Studies**

Open to sophomores, juniors, and seniors who have completed at least 18 credits in LACS or have instructor permission. Interdisciplinary reading, research, and discussion of selected topics involving cultural, economic, political, and social problems. Research paper required. May be repeated for a maximum of 6 edits.

3 cr.

**Departmental Honors**

LACS majors with a GPA above 3.5 are eligible to receive the Lily Mage Award.

**CR/NC Policy**

No CR/NC grades will be accepted in courses to meet LACS major requirements.

**Teaching**

In addition to its distinguished regular Hunter faculty, LACS offers students courses by excellent adjunct faculty.

**Mentoring**
Faculty mentoring is very important to the LACS Program. Majors should maintain regular contact with their mentors/advisers.

Study Abroad

Study abroad is encouraged for LACS majors. Study-abroad programs are offered through the Education Abroad Programs office at Hunter College.

Course Offerings for LACS

Course Offerings in LACS from Other Departments

Africana and Puerto Rican/Latino Courses

Courses from Africana and Puerto Rican Studies Department

Survey of the origins, contemporary and future development of Puerto Ricans in the United States.
3 hrs
3 cr.

**AFPRL 25500 - Puerto Rican/Latino Children in North American Schools**

**Pluralism and Diversity**
**PD/B**
Survey of educational system viewed as an acculturating institution.
3 hrs
3 cr.

**AFPRL 29000 - Selected Topics in Africana and Puerto Rican/Latino Studies**

**Pluralism and Diversity**
**PD/A or B**
Topics change according to instructor.
3 hrs
3 cr.

**AFPRL 30800 - Contemporary International Relations of the African-Caribbean (W)**

**GER**
3/B

Examination of the use of foreign policy for economic development in the Caribbean and as an instrument of transformation.
*prereq: AFPRL 20700 or 21000 or perm instr.*
3 hrs
3 cr.

**AFPRL 31900 - Women in the African Diaspora (W)**

**Pluralism and Diversity**
**PD/B or C**
**GER**
3/B

The cultural-historical role of women of African descent in North America and the Caribbean in relation to the family, to political resistance and in sustaining African culture and values.
cross-listed WGSC 32900 (W)
prereq: AFPRL 20400 or 20900 or 21000 or perm instr.
3 hrs
3 cr.

**AFPRL 32000 - African-Caribbean Culture (W)**

*Pluralism and Diversity*

*PD/A or B*

*GER*

3/A

*prereq: AFPRL 20900 or 21000 or 22200*

*3 hrs*

*3 cr.*

**AFPRL 33700 - Caribbean Women Writers (W)**

*GER*

3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, creolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.

*cross-listed WGSA 33700 (W)*

*prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000*

*3 hrs*

*3 cr.*

**AFPRL 35600 - Latino Literature in English (W)**

*Pluralism and Diversity*

*PD/B*

*GER*

3/A

Latino writing in English in the U.S.; analysis of cultural, linguistic and ideological factors as found in the work of such authors as Sandra Cisneros (Chicana), Pedro Pietri (Puerto Rican) and Oscar Hijuelos (Cuban-American).

*3 hrs*

*3 cr.*

**AFPRL 38700 - Puerto Rican/Latino Politics in the United States (W)**

*Pluralism and Diversity*

*PD/B*

*GER*

3/B

An analysis of the political participation and leadership of Puerto Ricans and other Latinos in the United States.

*prereq: either AFPRL 10200, 24200 or 24400 or perm. Instr.*
3 hrs
3 cr.

**AFPRL 39000 - Research Topics in Africana and Puerto Rican/Latino Studies (W)**

**GER**
3/A or B

Topics change according to instructor.
Open to Jr/Sr only.

3 hrs
3 cr.

**AFPRL 42800 - Selected Topics in Africana and Puerto Rican/Latino Studies: Social Science**

**Pluralism and Diversity**
PD/B
**GER**
3/A or B

Topics change according to instructor.
Pluralism and diversity requirements are dependent on the topic course.

*prereq: perm dept.*
3 hrs
3 cr.

**AFPRL 44500 - Caribbean Short Story in Spanish: Readings and Theories**

**GER**
3/A

A critical study of the short story genre in the Hispanic Caribbean viewed in conjunction with contemporary literary theory.

*prereq or coreq: SPAN 20800*
3 hrs
3 cr.

**Anthropology**

**ANTHC 40100 - Seminars in Selected Topics**

Topics TBA.

**Economics**

**ECO 33000 - Economic Development**

**Pluralism and Diversity**
PD/A
Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

*prereq: ECO 20000*

3 hrs
3 cr.

**Geography**

**History**

**HIST 27100 - Early History of Latin America**

History and cultures of Amerindian groups in Central and South America and the Caribbean; encounter and multiple interactions of European and African cultures with indigenous societies; development of Iberian colonial systems and cultures within the Americas.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 34122 - Latin American Political Economy**

courses at the 300-level and above not open to freshmen

3 hrs
3 cr.

**HIST 34139 - African Influences in the Americas**

Courses at the 300-level and above not open to freshmen

3 hrs
3 cr.

**Music**

**MUSHL 24000 - Music of the Caribbean and Latin America (W)**

*Pluralism and Diversity*

GER 3/A PD/A

Origin and development of Caribbean and Latin American musical styles and their impact on the United States and other parts of the world.

*prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 101, or perm instr.*
MUSHL 22100 - Black Music in the Americas (W)

Pluralism and Diversity
PD/B
GER
3/A

The origins, history, and evolutionary progression of Black music in the Americas; shared musical practices and resources in the multicultural matrix of the United States in particular and the hemisphere in general.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

Political Science

POLSC 25300 - Government and Politics in Latin America (W)

Pluralism and Diversity
PD/A
GER
3/B

Ideology, revolution, authoritarianism, democracy, institutions, class structure, distribution of wealth and power, political and economic development.
cross-listed LACS 43405
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 26200 - Government and Politics in Central America (W)

Pluralism and Diversity
PD/A
GER
3/B

Political institutions, ideology, class and ethnic structure, economic development, distribution of wealth and power, foreign influences and revolutionary and evolutionary roads to modernization.
cross-listed LACS 43429
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27100 - International Politics in the Americas (W)

Pluralism and Diversity
PD/A
Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present, and of relations of Latin American countries with each other and with extra-hemispheric nations.

cross-listed LACS 43432

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28100 - Drugs, Politics and Public Policy (W)

Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and market factors, constitutional implications and United States foreign policy.

prereq: ENGL 12000
3 hrs
3 cr.

Romance Languages - Spanish

SPAN 26400 - Contemporary Spanish Literature in Translation

Cela, Lorca, Unamuno, Ortega y Gasset.
Taught in English. This course is designed for students who want to become acquainted with Spanish culture. Cannot be credited toward the major and are not recommended for the minor.

prereq: ENGL 12000
3 hrs
3 cr.

SPAN 27600 - Readings in Modern Spanish- American Literature

Representative writers: Borges, Neruda, Cortazar, Garcia Mirquez.

prereq: SPAN 20200, 20300, 20800 21100 or four yrs high school Spanish or dept. perm.
3 hrs
3 cr.

SPAN 33600 - Latin American Civilization

Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.

prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.
SPAN 34100 - Introduction to Hispanic Literature I

Pluralism and Diversity
PD/D
GER
3/A

Prerequisite or corequisite to most courses in major sequence. Basic interpretive and research skills for Spanish majors and other qualified students through study of key works of Spanish and Spanish-American authors.

prereq or coreq: SPAN 31100 or dept. perm
3 hrs
3 cr.

SPAN 34200 - Introduction to Hispanic Literature II

Pluralism and Diversity
PD/D
GER
3/A

prereq: SPAN 34100
coreq: SPAN 31200
3 hrs
3 cr.

SPAN 36400 - Spanish-American Modernism and Post-modernism

GER
3/A

Modernist and post-modernist authors.

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 49100 - Honors Course in Spanish: Special Studies in Contemporary Latin American Literature

Open to Jr/Sr only. Group meetings, conferences, oral and written reports.

prereq: major GPA of 3.2, cum GPA of 2.8; perm adviser
3 hrs
3 cr.

Sociology

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B
Economic, demographic, political and cultural factors influencing migration and the consequences of migration. 

**SOC 32502 - Sociology of Human Rights: Violation and Protection**

**GER**
3/B

*prereq: SOC 10100, perm instr.*
3 hrs
3 cr.

**SOC 32506 - Latin American Societies**

**GER**
3/B

*prereq: SOC 10100, perm instr.*
3 hrs
3 cr.

**SOC 32519 - Economic Development and Social Inequality in Latin America**

**GER**
3/B

*prereq: SOC 10100, perm instr.*
3 hrs
3 cr.

**SOC 36100 - Development and Globalization (W)**

**Pluralism and Diversity**

**PD/A**

**GER**
3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

*prereq: SOC 10100*
3 hrs
3 cr.

Women and Gender Studies
WGSA 33700 - Caribbean Women Writers (W)

**GER**

3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, eolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.

*cross-listed* AFPRL 33700

*prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000*

3 hrs

3 cr.

WGS 20005 - Dominican and Haitian Literature and Culture

3 hrs

3 cr.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Mathematics and Statistics

Overview

Mathematics has many aspects: it is the language and tool of the sciences, a cultural phenomenon with a rich historical tradition, and a model of abstract reasoning. The course offerings and the major in Mathematics reflect these multiple facets. The Mathematics major provides a broad education in various areas of mathematics in a program flexible enough to accommodate many ranges of interest. The major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas. It trains students in the analytic thinking characteristic of pure and applied mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to the standard Mathematics Major, the department offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration Quantitative Biology, the concentration Preparation for Adolescent Education (Grades 7-12), and the concentration Preparation for Childhood Education (Grades 1-6).

What can I do with my degree in Mathematics and Statistics?

The Mathematics major prepares students for careers in business, government, research and teaching. The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of
computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics.

Credit and Course Exemption

The department offers credit or course exemption based on standard examinations such as AP. Inquiries should be made at the department office.

Mathematics Proficiency and Placement

All students entering Hunter College must demonstrate proficiency in the basic skills through their scores on the mathematics assessment exam. Exemptions are given for SATs, ACT, NY Regents, and for certain other entrance categories. The placement exam further assesses a student's preparedness for certain courses in mathematics, statistics, and other disciplines at the college. Students may enroll in these courses only if their scores on the placement exam are at appropriate levels or if they have taken college courses in the required mathematics. Students who need to place into courses by examination and have not taken the placement exam are advised to schedule the test with the Testing Center, Room 150 Hunter North, 212-772-4868, http://hunter.cuny.edu/testingcenter, well in advance of registration. Students should notice the mathematics and statistics prerequisites that are indicated in the descriptions of courses and majors so they can effectively plan their studies.

Programs and Courses

In planning their schedules, prospective majors should note that some advanced required courses are offered only once each year and several advanced elective courses are offered only once every other year. A rotation schedule for course offerings is available in the departmental office and on the departmental web site http://math.hunter.cuny.edu.

Prerequisites: Because of the nature of mathematics, the department recommends that students refrain from enrolling in any course that carries prerequisites unless these prerequisites have been completed with a grade of C or better.

- Programs and Courses in Mathematics & Statistics
- Minor in Logic - a minor consisting of courses from three disciplines: computer science, mathematics and philosophy

Administration and Faculty

Web site: http://math.hunter.cuny.edu
Faculty

Mathematics and Statistics Faculty

HEGIS Codes: 1701 (BA; BA/MA in Mathematics, Adolescent Education/Mathematics); 1701/1703 (BA/MA in Mathematics/Statistics and Applied Mathematics); 1702 (BA in Statistics); 1702/1703 (BA/MA in Statistics/Statistics and Applied Mathematics)

Mathematics - BA

The major consists of at least 33 credits of coursework: 24-39 credits of core mathematics and statistics courses and 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required. Modifications are permitted with the consent of the mathematics adviser. With permission of the adviser, a student may take graduate courses in statistics or mathematics. Mathematics majors interested in bioinformatics should refer to the requirements for the Mathematics Major with a Concentration in Quantitative Biology - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Mathematics major, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>STAT 21300 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (33-51 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.
MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop
Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

**prereq:** MATH 15000
**prereq or coreq:** MATH 15500
2 hrs
1 cr.

**MATH 25000 - Calculus with Analytic Geometry III**

**GER**
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**prereq:** MATH 15500
4 hrs
4 cr.

**MATH 25400 - Ordinary Differential Equations**

**GER**
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000
3 hrs
3 cr.

**MATH 25500 - Vector Analysis**

**GER**
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.

**prereq:** MATH 25000
3 hrs
3 cr.

**MATH 26000 - Linear Algebra**

**GER**
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

**prereq:** MATH 15600
**prereq or coreq:** MATH 25000
4 hrs
4 cr.

**MATH 31100 - Abstract Algebra I**
Introduction to the theory of groups and rings.

prereq: MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.

prereq: MATH 25000, 26000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

Elective Courses

The student must complete three 3-credit mathematics or statistics courses chosen from the 300- or 400-level courses in mathematics or statistics listed by the department and approved by the undergraduate mathematics adviser. Factors affecting the choice of electives will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule.

Symbolic Computation Proficiency Requirement (0-3 credits)

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of:

- MATH 12600 Precalculus Technology Laboratory
- MATH 15400 An Introduction to Symbolic Computation
- MATH 38500 Numerical Methods I
b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

Degree Map

Degree Map for Mathematics BA

Mathematics BA Programs

The mathematics major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas. It trains students in the analytic thinking characteristic of pure and applied mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to offering a standard Mathematics Major, described below, the department also offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration in Quantitative Biology, the concentration in Preparation for Adolescent Education (grades 7-12), and the concentration in Preparation for Childhood Education (grades 1-6.)

Students interested in pursuing mathematics at the advanced graduate level are urged to participate in the BA/MA program in Mathematics. The BA/MA program in Preparation for Adolescent Education leads to initial certification in adolescent education (grades 7-12) in mathematics. Certification may also be received by completing the BA degree with a Mathematics Major and then completing the MA in adolescent education in mathematics.

BA Programs in Mathematics

1. Mathematics - BA
2. Mathematics Concentration in Preparation for Adolescent Education (Grades 7-12) - BA
3. Mathematics Major with a Concentration in Quantitative Biology - BA
4. Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA
5. Mathematics or Statistics and Applied Mathematics - BA/MA
6. Mathematics Preparation for Adolescent Education (Grades 7-12) - BA/MA

Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000 or STAT 48600, by presenting a major GPA of at least 3.6 and by achieving a satisfactory rating on a comprehensive examination.

MATH 49000 - Honors Seminar

GER
3/B

prereq: MATH 31100, 35100, departmental permission
3 hrs
3 cr.

- or -

STAT 48600 - Modeling and Visualization

GER
3/B
The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences. Project required. Course may be used to qualify for departmental honors.

prereq: departmental permission
3 hrs
3 cr.

Minor in Mathematics

A minor in mathematics consists of a minimum of 12 credits selected from any of the following courses offered by the Department:

- MATH courses numbered MATH 15000 or above

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.

prereq: STAT 31100
3 hrs
3 cr.

Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective mathematics minors consult with an undergraduate mathematics adviser concerning course selection.

Mathematics Concentration in Preparation for Adolescent Education (Grades 7-12) - BA

return to Mathematics BA Programs

Provisional certification for teaching mathematics in grades 7-12 may be obtained by:

- Completing the BA with a standard mathematics major, and
- Completing the adolescent education sequence as prescribed by the School of Education.

Students following this concentration in the mathematics major should consult a departmental adviser as to which advanced elective courses are recommended to complete 33 or more credits in the major.
Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA

This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH 10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below.

The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education (QUEST) major.

Major Core Curriculum (20 credits)

MATH 15400 - An Introduction to Symbolic Computation

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

prereq: MATH 15000

2 hrs

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning

GER

1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs

4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000

prereq or coreq: MATH 15500

2 hrs

1 cr.

MATH 16000 - Matrix Algebra
GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12500 or appropriate score on placement exam

3 hrs
3 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500

4 hrs
4 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600

prereq or coreq: MATH 25000

4 hrs
4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.

Additional Required Courses (at least 12 credits)

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning

GER
Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.

3 hrs
3 cr.

**STAT 22000 - Statistical Analysis in Forensics**

GER

3/B

A second course in probability and statistics and the evaluation of evidence in the forensic sciences.

prereq: STAT 21200 and either STAT 21300 or 11300 by permission of instructor. One of the above, i.e., STAT 21200 or STAT 21300 or STAT 11300 by permission of instructor may be taken as a coreq.

3 hrs
3 cr.

- Two additional courses approved by a departmental adviser

**Mathematics Major with a Concentration in Quantitative Biology - BA**

return to Mathematics BA Programs

This program is for students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry. Students interested in this concentration in the mathematics major should consult the BioInformatics adviser.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Mathematics major with a concentration in Quantitative Biology, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
</tbody>
</table>
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (63-78 credits)

Core Courses (30-45 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 12500 (STEM) - Precalculus**

<table>
<thead>
<tr>
<th>Hunter Core</th>
<th>Math/Quantitative Reasoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>GER</td>
<td>1/B</td>
</tr>
</tbody>
</table>

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs

4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

<table>
<thead>
<tr>
<th>Hunter Core</th>
<th>Math/Quantitative Reasoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>GER</td>
<td>1/B</td>
</tr>
</tbody>
</table>

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*

4 hrs

4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**
**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
*prereq: grade of C or better in MATH 15000*  
4 hrs  
4 cr.

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.  
*prereq: MATH 15000*  
*prereq or coreq: MATH 15500*  
2 hrs  
1 cr.

**MATH 25000 - Calculus with Analytic Geometry III**

GER  
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.  
*prereq: MATH 15500*  
4 hrs  
4 cr.

**MATH 25400 - Ordinary Differential Equations**

GER  
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.  
*prereq: MATH 25000*  
3 hrs  
3 cr.

**MATH 25500 - Vector Analysis**

GER  
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.  
*prereq: MATH 25000*  
3 hrs  
3 cr.
MATH 26000 - Linear Algebra

GER 3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

MATH 31100 - Abstract Algebra I

GER 3/B

Introduction to the theory of groups and rings.
prereq: MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

GER 3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.
prereq: MATH 25000, 26000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 31100 - Probability Theory

GER 3/B
Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

STAT 31900 - Bayesian Statistical Inference in the Sciences

GER
3/B

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).
Prerequisites waived for students who have passed STAT 311.
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs
3 cr

**Note: The symbolic proficiency requirement is met by taking STAT 31900.

Additional Required Courses (33 credits)

CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)

GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.
prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.

(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)

coreq: CHEM 22200, 22300 or perm instr.

7 hrs
4.5 cr.

spring only

BIOL 42500 - Computational Molecular Biology

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predications of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.
Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

**Prerequisite:** Biol 30000 or Biol 30200 or Chem 37600; Stat 21300; Csci 13200 or Csci 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

**Note:**

For more information about this concentration, visit: http://www.hunter.cuny.edu/qubi/mathematics-majors

**Mathematics or Statistics and Applied Mathematics - BA/MA**

return to Mathematics BA Programs

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the graduate adviser for further information regarding eligibility and curriculum requirements.

**Track 1: BA/MA Program in Mathematics**

Students complete the BA with a standard Mathematics Major, with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

**Track 2: BA/MA Program in Statistics and Applied Mathematics**

Students complete the BA with a standard major in statistics or mathematics, with 30 additional credits at the graduate level in applied mathematics, statistics, and computer science, approved by the departmental graduate adviser.

**Undergraduate Requirements:**

- Mathematics-BA

**Mathematics Preparation for Adolescent Education (Grades 7-12) - BA/MA**

return to Mathematics BA Programs

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

**Admission Requirements for the BA/MA in Teaching**

- Completion of at least 45 credits with a GPA of 3.0.
- Completion of at least 10 credits in mathematics, including a year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent), with an average of 2.7 in these major courses.
- Admission to the The School of Education.

**Degree Requirements for the BA/MA in Teaching**
The BA/MA program in the teaching of mathematics includes 47–48 credits in mathematics (in addition to the year of calculus described above) and 27 credits in teacher education courses, some of them taken at the undergraduate level and some at the graduate level. The required mathematics/statistics courses are:

- The 33 credits required for the Mathematics-BA OR the 32 credits required for the BA in Statistics.
- The following 15 graduate credits: MATH 62000, 63000, 63300, 63500, and STAT 61200 *or 61400. *Although students are required to take either STAT 61200 or STAT 61400, they are encouraged to take both courses.

Also required is passing a comprehensive examination in mathematics consisting of three parts covering the material in MATH 620, 630, and 633. Students may sit for the comprehensive examination only after having taken all three courses. Students who fail any part of the examination need only retake that part of the examination. A student can take any part of the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the Department of Curriculum and Teaching will decide if the student can take the examination a third and final time.

The student should consult the The School of Education section of the graduate catalog for the sequence of teacher education courses.

**Minor in Mathematics**

A minor in mathematics consists of a minimum of 12 credits selected from any of the following courses offered by the Department:

- MATH courses numbered 15000 or above
- STAT 31100
- STAT 31200

Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective mathematics minors consult with an undergraduate mathematics adviser concerning course selection.

**Minor in Statistics**

A minor in statistics consists of at least 12 credits selected from STAT courses offered by the Department. Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective statistics minors consult with an undergraduate statistics adviser concerning course selection.

**Statistics - BA**

Return to Statistics BA Programs

The statistics major consists of at least 33 credits of coursework: 30-45 credits of core mathematics and statistics courses and any additional 3-credit statistics, mathematics, or computer science course approved by the statistics adviser. Modifications are permitted with the consent of the statistics adviser. With permission of the adviser, a student may take graduate courses in statistics and applied mathematics. Statistics majors interested in bioinformatics should refer to the requirements for the Statistics Major with a Concentration in Quantitative Biology - BA.

**Hunter Core Requirement**
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Statistics major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>STAT 21200</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>STAT 21300 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30-45 credits)

Core Courses

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500

2 hrs
1 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500

4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B
First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000  
3 hrs  
3 cr.

-or-

**MATH 35400 - Dynamical Systems and Chaos**

**GER**  
3/B

Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems.

**prereq:** MATH 25000, 26000  
3 hrs  
3 cr.

**MATH 26000 - Linear Algebra**

**GER**  
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

**prereq:** MATH 15600  
**prereq or coreq:** MATH 25000  
4 hrs  
4 cr.

**STAT 21200 - Discrete Probability**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

**prereq:** MATH 12500 or STAT 11300 or appropriate score on placement exam.  
3 hrs  
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical
STAT 21400 - Data Analysis Using Statistical Software

GER
3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building
prereq: STAT 21300 or MATH 12500 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.
prereq: STAT 31100
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.
prereq: STAT 31100
3 hrs
3 cr.

Elective Courses (3 credits)

The student must complete one additional 3-credit statistics or mathematics course approved by the undergraduate statistics adviser.
Actuarial Sequence

A student interested in actuarial work should take the following courses. Students are also encouraged to take courses in accounting, economics and computer science. A student majoring either in Statistics or Mathematics could also complete the Actuarial Sequence as a part of his/her major requirements. A review for the Actuarial Exams is not a part of the curriculum, however, and it is left to the individual student to study for and take those exams.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
_prereq: grade of C or better in MATH 12500 or appropriate score on placement exam._  
4 hrs  
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
_prereq: grade of C or better in MATH 15000  
4 hrs  
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.  
_prereq: MATH 15000  
_prereq or coreq: MATH 15500  
2 hrs  
1 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.  
_prereq: MATH 15500  
4 hrs  
4 cr.
MATH 26000 - Linear Algebra

GER

3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

STAT 31100 - Probability Theory

GER

3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER

3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

prereq: STAT 31100
3 hrs
3 cr.

Degree Map

Degree Map for Statistics

Statistics BA Programs

The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics. In addition to offering the Statistics Major, the department has a specialized undergraduate track for students interested in pursuing a career in bioinformatics: the concentration in Quantitative Biology. The BA/MA in Statistics and Applied Mathematics offered by the department provides enrichment for undergraduate statistics majors.

- Statistics - BA
- Statistics Major with a Concentration in Quantitative Biology - BA
- Mathematics or Statistics and Applied Mathematics - BA/MA

Honors
A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000 or STAT 48600, by presenting a major GPA of at least 3.6 and by achieving a satisfactory rating on a comprehensive examination.

MATH 49000 - Honors Seminar

GER
3/B

prereq: MATH 31100, 35100, departmental permission
3 hrs
3 cr.

-or-

STAT 48600 - Modeling and Visualization

GER
3/B

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences. Project required. Course may be used to qualify for departmental honors.

prereq: departmental permission
3 hrs
3 cr.

Statistics Major with a Concentration in Quantitative Biology - BA

return to Statistics BA Programs

For students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry. Students interested in this concentration in the statistics major should consult the bioinformatics adviser.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.

3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.

STAT 21400 - Data Analysis Using Statistical Software

GER
3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building

prereq: STAT 21300 or MATH 12500 and STAT 11300 with grade of C or better in each course.

3 hrs
3 cr.
STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.
prereq: STAT 31100
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.
prereq: STAT 31100
3 hrs
3 cr.

Additional Required Courses (33 credits)

CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.
This course cannot be counted towards the CSCI major.
prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.

Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

**prereq or coreq:** MATH 12500, 15000 or equiv.

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

**prereq:** CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

*Pluralism and Diversity*
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq:** CHEM 10200

**coreq:** CHEM 10400

6 hrs

3 cr.
CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000, 12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

BIOL 42500 - Computational Molecular Biology
An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.

Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs
3 cr.

*These courses may be counted for credit in more than one program.

Medical Laboratory Sciences

Overview

The Department of Medical Laboratory Sciences offers a rigorous and extensive education in biomedical science that prepares students for employment in clinical (hospital and private diagnostic), research (academic/biotechnology/pharmaceutical) and public health laboratories and for advanced degrees in graduate (Master's/Ph.D.) and professional (medical/dental/physician assistant) schools as well as advanced clinical certifications. Two academic degrees for undergraduates are offered: the BS in Medical Laboratory Sciences: Biomedical Science and the BS in Medical Laboratory Sciences: Clinical Science. Both majors emphasize laboratory training through classroom work. The Medical Laboratory Sciences: Biomedical Science major is intended for those students who plan to obtain advanced graduate or medical degrees. Students in this major are encouraged to perform independent study research projects with faculty. The Medical Laboratory Sciences: Clinical Science major is licensure qualifying and is intended for those students who plan to take the New York State Education Department (NYSED) licensure exam for clinical laboratory technologists. A license is required to work as a clinical laboratory technologist in NYS. Clinical laboratory technologists perform analytical tests on patient samples and play an essential role in the diagnosis and treatment of disease. The Clinical Science major requires students to perform a departmentally-arranged eight-week full time summer internship in a hospital or private diagnostic laboratory. Students in the Clinical Science major may also pursue advanced graduate and medical degrees.

What can I do with my degree in Medical Laboratory Sciences?

Graduates pursue entry-level careers in diagnostic or research labs, as well as further education in graduate programs, medical school and other clinical specialties. MLS graduates work in hospitals, nonprofit research institutions and pharmaceutical and biotechnology companies.

Degree Map for Medical Lab Sciences: Biomedical Science

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Medical Lab Sciences-Biomedical Science major. The Degree Map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Freshman Year

Fall

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.
prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

MATH 12500 (STEM) - Precalculus
**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs
4 cr.

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATHICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

**prereq or coreq:** MATH 12500

2 hrs
1 cr.

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

**prereq:** successful completion of developmental courses, if required

3 hrs + conf

3 cr.

- Foreign Language Elementary Level 1

**Spring**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**
English Comp (EC)
**GER**
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.
prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.
- Foreign Language Elementary Level 2

**Sophomore Year**
Fall

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301

prereq or coreq: CHEM 22204 OR CHEM 22206

4 hrs

2.5 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning

GER
1/B
Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

-or-

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.
- Foreign Language Elementary Level 3

**Spring**

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
- Creative Expression
- Individual and Society (Humanities)
- US Experience in Its Diversity
- Foreign Language Intermediate Level 4

**Junior Year**

**Fall**
MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. MLS 60000 is the graduate component of this course.

*prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.
3 hrs (2 lec, 1 lab)
3 cr.

MLSP 34900 - Hematology

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.

*prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35100 - Clinical Microbiology I

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.

*prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 36100 - Computers and Data Processing in the Medical Laboratory

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.

*prereq: MATH 15000 or STAT 11300
3 hrs (1 lec, 2 lab)
3 cr.

• Individual and Society (Social Sciences)

Spring

MLS 31200 - Human Physiology: Integration and Control

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.

*prereq: BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.
3 hrs
3 cr.

MLS 34700 - Human Histology

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.

*coreq: MLS 31200
5 hrs (2 lec, 3 lab)
3 cr.
MLSP 35200 - Clinical Microbiology II

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.
prereq: MLSP 30000, 35100 or equiv.
5 hrs (2 lec, 3 lab)
4 cr.

MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.
prereq: CHEM 22200
5 hrs (2 lec, 3 lab)
3.5 cr.

Senior Year

Fall

MLSP 35500 - Clinical Biochemistry II: Genes to Proteins

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.
prereq: MLSP 35400
5 hrs (2 lec, 3 lab)
3.5 cr.

MLS 45000 - Cell and Tissue Culture

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.
prereq: MLS 35100
coreq: MLS 34700, 35200
5 hrs (2 lec, 3 lab)
4 cr.

- World Cultures & Global Issues
- ELECTIVE

Spring

MLSP 45700 - Senior Seminar

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.
prereq: perm instr.
2 hrs
3 cr.
MLS 46000 - Immunology

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

prereq: MLS 34900, 35100
coreq: MLS 35200, 35400
5 hrs (2 lec, 3 lab)
3 cr.

- COMHE 33000 or PHILO 25400 or SOC 30100 or MLSP 40000
- ELECTIVES (3-4 cr)

Notes

Students who do not place into MATH 12500 (STEM) should begin with MATH 10100 Algebra. The sequence is as follows – MATH 10100 – MATH 12500 (STEM) – MATH 15000 (STEM) - MATH 15500 (STEM). If you begin with MATH 10100, the Degree Map is shifted by one semester and still allows for completion of the major in 4 years.

BIOL 10000 (STEM) is offered during the spring and summer semesters only. To complete the degree in four years, students who are unable to complete the course in the spring semester of freshman year should enroll in the summer course.

BIOL 10000 (STEM) and BIOL 10200 (STEM) may satisfy Pluralism & Diversity - either Group C or Group D, only if both courses are taken at Hunter.

MLSP 41000 requires departmental permission
MLSP 45700 requires permission from an instructor

Degree Map for Medical Lab Sciences: Clinical Science

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Medical Lab Sciences-Clinical Science major. The Degree Map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. 2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

• Individual and Society (Humanities)
• Creative Expression
• US Experience in Its Diversity
• Foreign Language - Intermediate level 4

Junior Year

Fall

MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory
Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. 

MLS 60000 is the graduate component of this course  
prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.  
3 hrs (2 lec, 1 lab)  
3 cr.

**MLSP 34900 - Hematology**

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.  
prereq or coreq: MLSP 30000  
5 hrs (2 lec, 3 lab)  
3 cr.

**MLSP 35100 - Clinical Microbiology I**

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.  
prereq or coreq: MLSP 30000  
5 hrs (2 lec, 3 lab)  
3 cr.

**MLSP 36100 - Computers and Data Processing in the Medical Laboratory**

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.  
prereq: MATH 15000 or STAT 11300  
3 hrs (1 lec, 2 lab)  
3 cr.

- Individual and Society (Social Sciences)

**Spring**

**MLS 31200 - Human Physiology: Integration and Control**

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.  
prereq: BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.  
3 hrs  
3 cr.

**MLSP 34700 - Human Histology**

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.  
tcoreq: MLS 31200  
5 hrs (2 lec, 3 lab)  
3 cr.

**MLSP 35200 - Clinical Microbiology II**
Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.

**prereq:** MLSP 30000, 35100 or equiv.
5 hrs (2 lec, 3 lab)
4 cr.

### MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.

**prereq:** CHEM 22200
5 hrs (2 lec, 3 lab)
3.5 cr.

### Senior Year

#### Fall

### MLS 45000 - Cell and Tissue Culture

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

**prereq:** MLSP 35100
**coreq:** MLS 34700, 35200
5 hrs (2 lec, 3 lab)
4 cr.

### MLSP 35500 - Clinical Biochemistry II: Genes to Proteins

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.

**prereq:** MLSP 35400
5 hrs (2 lec, 3 lab)
3.5 cr.

### MLSP 41000 - Professional Practice

Directed full-time experience in clinical, research, public health or other biomedical laboratories. Arranged on an individual basis.

**prereq:** departmental permission
8 weeks
3 cr.
  - World Cultures & Global Issues

#### Spring

### MLS 46000 - Immunology
Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

**prereq:** MLS 34900, 35100  
**coreq:** MLS 35200, 35400  
5 hrs (2 lec, 3 lab)  
3 cr.

**MLSP 43000 - Immunohematology**

Study of the immunologic properties of blood associated with blood group systems, donor screening, transfusion reactions and hemolytic disease and laboratory techniques used to characterize antigen-antibody reactions.

**prereq:** MLS 34900  
3 hrs (2 lec, 1 lab)  
3 cr.

**MLSP 45700 - Senior Seminar**

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

**prereq:** perm instr.  
2 hrs  
3 cr.

- COMHE 33000 or PHILO 25400 or SOC 30100 or MLSP 40000

**Notes**

Students who do not place into MATH 12500 (STEM) should begin with MATH 10100 Algebra. The sequence is as follows – MATH 10100 - MATH 12500 (STEM) - MATH 15000 (STEM) - MATH 15500 (STEM). If you begin with MATH 10100, the Degree Map is shifted by one semester and still allows for completion of the major in 4 years.

BIOL 10000 (STEM) is offered during the spring and summer semesters only. To complete the degree in four years, students who are unable to complete the course in the spring semester of freshman year should enroll in the summer course.

BIOL 10000 (STEM) and BIOL 10200 (STEM) may satisfy Pluralism & Diversity - either Group C or Group D, only if both courses are taken at Hunter.

MLSP 41000 requires departmental permission

MLSP 45700 requires permission from an instructor

**Medical Laboratory Sciences - BS**

The Department of Medical Laboratory Sciences (MLS) offers two majors: (1)Medical Laboratory Sciences: Clinical Science BS and 2) Medical Laboratory Sciences: Biomedical Science BS. The Clinical Science major is intended for students pursuing careers in the diagnostic laboratory and meets the requirements for NY State licensure of clinical
laboratory technologists. The Biomedical Science major is appropriate for students seeking other careers or graduate education in the biomedical field.

Professional Outcomes

Entry-Level Positions Students completing the MLS degree are prepared for positions in a variety of settings. These include clinical laboratory (medical) technologists in diagnostic laboratories in hospitals and commercial environments, and research assistants in medical center and university labs, pharmaceutical and biotechnology companies and public health laboratories. Personnel shortages are severe in several of these areas, and opportunities are predicted to grow. The Bureau of Labor Statistics projects growth of 16% for clinical laboratory positions from 2014 to 2024.

The passage of the Clinical Laboratory Technology Practice Act in 2005 created a transparent professional pathway defining the education, experience and examination to qualify as a clinical laboratory technologist in New York State NYSED Office of the Professions. The course of study in the Medical Laboratory Sciences: Clinical Science major fulfills the educational and practice components for licensure. It is expected that status as licensed professionals will help to alleviate shortages in the field.

Further Education

MLS students are encouraged to plan for postbaccalaureate education, and are guided to complete prerequisites. MLS alumni have been successful in medical and dental school, graduate programs in biomedical science (master's and PhD), management and clinical specialties (PA, forensic science, etc.) and advanced laboratory diagnostics such as cytotechnology.

Opportunities for Pre-Professional Experience

- **Professional Practice**: Qualified students planning for careers in the diagnostic lab enroll in MLSP 41000 to fulfill the practical experience requirement of the clinical laboratory technologist license. Students are assigned to hospital, reference or public health labs for summer or semester-long internship experience in an area consistent with their interests.
- **Student Research**: Qualified students are encouraged to participate in faculty research projects through independent study and honors courses in such areas as innate immune regulation, bacteriophage, microbial pathogenesis, antimicrobials, gastric secretion and cancer, glutamate receptors in neurological diseases and cancer, and myelination in the peripheral and central nervous systems.
- **Academic Advising**: MLS majors meet each semester with a faculty adviser to review progress and plan the next semester's program. The adviser helps students pace their studies appropriately. Counseling for graduate school, employment and reference support is ongoing for our alumni. A strong professional network exists among MLS alumni.

Admission Requirements

The requirements for consideration for the Medical Laboratory Sciences- BS admission are as follows:

Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab (CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM), or equivalent) 1 year of general biology with lab (BIOL 10000 (STEM), BIOL 10200 (STEM), or equivalent) and an overall GPA of at least 2.5. Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisers welcome e-mail inquiries anytime. To apply both current Hunter College students and transfer students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectivestudents/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select "Medical Laboratory Sciences" at Hunter College as the
choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement (HCR) Hunter Core Requirement which includes the CUNY Common Core, the Hunter Focus on foreign language and the concurrent Rrequirements before entering the program, but liberal arts classes can be interspersed with major courses.

Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Course of Study

Candidates for the BS degree complete a total of 120 credits including the Hunter Core Requirement. See requirements for the two undergraduate majors offered in MLS (1)Medical Laboratory Sciences: Clinical Science BS and 2) Medical Laboratory Sciences: Biomedical Science BS.

Scholastic Requirements

Student grades are reviewed each semester to determine eligibility for remaining in the program. Each student must maintain an overall GPA of 2.0 for each semester and a grade of C or better in each major course. Major courses must be taken for letter grades except, at the discretion of the chair, for clinic, field or independent study. Departmental permission is required in order to register for courses. Faculty advisers authorize course permissions during the pre-registration and registration periods.

Medical Laboratory Sciences: Biomedical Science BS

Go to Medical Laboratory Sciences - BS

Overview

The Medical Laboratory Sciences (MLS): Biomedical Science major prepares students for careers in biomedical laboratories and other health-related professions. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into the following categories:

1. fundamental lab skills
2. clinical subspecialties
Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Biomedical Science major is appropriate for students seeking graduate education in biomedical or health-related fields. This major does not meet the requirements for NY State licensure of clinical laboratory technologists. For the licensure-qualifying program, please see the Medical Laboratory Sciences: Clinical Science BS major. The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site for more detail.

Admission Requirements

The requirements for consideration for admission to Medical Laboratory Sciences - BS programs are as follows:

Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM) or equivalent) 1 year of general biology with lab (BIOL 10000 (STEM), BIOL 10200 (STEM) or equivalent) and an overall GPA of at least 2.5. Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisers welcome e-mail inquiries anytime. To apply both current Hunter College students and transfer students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectivestudents/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select “Medical Laboratory Sciences” at Hunter College as the choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively.

Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Courses Required for the Major (67-70 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Mathematics and Science Courses (22 cr.)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

prereq or coreq: MATH 12500
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general
chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core

Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.
prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

-MATH 15000 (STEM) - Calculus with Analytic Geometry I-

Hunter Core

Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

**prereq:** CHEM 10500 OR CHEM 10600 OR CHEM 11200  
**coreq:** CHEM 22301  
**prereq or coreq:** CHEM 22204 OR CHEM 22206

4 hrs  
2.5 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**GER**  
2/E

First semester of two-semester introductory physics course using algebra.  
**prereq:** MATH 12500; pre-calculus or equiv. By math dept. exam.  
7 hrs (3 lec, 3 lab, 1 rec)  
4.5 cr.

*These courses may be counted for credit in more than one program.

**Biomedical Science Curriculum (40-42 cr.)**

**MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.  
**prereq:** BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.  
3 hrs (2 lec, 1 lab)  
3 cr.

**MLS 31200 - Human Physiology: Integration and Control**

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.  
**prereq:** BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.  
3 hrs  
3 cr.

**MLS 34700 - Human Histology**

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.  
**coreq:** MLS 31200  
5 hrs (2 lec, 3 lab)  
3 cr.
**MLSP 34900 - Hematology**

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.

*prereq or coreq: MLSP 30000*

5 hrs (2 lec, 3 lab)

3 cr.

**MLSP 35100 - Clinical Microbiology I**

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.

*prereq or coreq: MLSP 30000*

5 hrs (2 lec, 3 lab)

3 cr.

**MLSP 35200 - Clinical Microbiology II**

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.

*prereq: MLSP 30000, 35100 or equiv.*

5 hrs (2 lec, 3 lab)

4 cr.

**MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism**

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.

*prereq: CHEM 22200*

5 hrs (2 lec, 3 lab)

3.5 cr.

**MLSP 35500 - Clinical Biochemistry II: Genes to Proteins**

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.

*prereq: MLSP 35400*

5 hrs (2 lec, 3 lab)

3.5 cr.

**MLSP 36100 - Computers and Data Processing in the Medical Laboratory**

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.

*prereq: MATH 15000 or STAT 11300*

3 hrs (1 lec, 2 lab)

3 cr.

**MLS 45000 - Cell and Tissue Culture**
Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

**prereq:** MLS 35100  
**coreq:** MLS 34700, 35200  
5 hrs (2 lec, 3 lab)  
4 cr.

**MLSP 45700 - Senior Seminar**

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

**prereq:** perm instr.

2 hrs  
3 cr.

**MLS 46000 - Immunology**

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

**prereq:** MLS 34900, 35100  
**coreq:** MLS 35200, 35400  
5 hrs (2 lec, 3 lab)  
3 cr.

**COMHE 33000 - Principles of Epidemiology**

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

**prereq:** Acceptance to the major, or permission of the instructor.

3 hrs  
3 cr.

-or-

**PHILO 25400 - Ethical Issues in Biology and Medical Care (W)**

**GER**  
3/B

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

**prereq:** ENGL 12000 and one previous course in philosophy.

3 hrs  
3 cr.

-or-

**SOC 30100 - Medical Sociology**

**GER**  
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.
prereq: SOC 10100
3 hrs
3 cr.

-or-

MLSP 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

Electives (5-6 cr.)

MLSP 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

MLS 48001-48003 - Independent Study

prereq or coreq: departmental permission
1-3

MLS 49000 - Honors

prereq: departmental permission
hrs TBA
3 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
MATH 15500 (STEM) - Calculus with Analytic Geometry II

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs
4 cr.

STAT 11300 - Elementary Probability and Statistics

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

*prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam*

*prereq or coreq: ENGL 12000*

3 hrs
3 cr.

Degree Map for Medical Lab Sciences: Biomedical Science

- Degree Map for Medical Lab Sciences: Biomedical Science

**Medical Laboratory Sciences: Clinical Science BS**

Go to Medical Laboratory Sciences - BS

**Overview**

Medical Laboratory Sciences (MLS): Clinical Science is a pre-professional major, preparing students for careers in laboratories devoted to promoting, maintaining and restoring human health. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into the following categories:

1. fundamental lab skills
2. clinical subspecialties
3. advanced biomedical courses
4. pre-professional practice

Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Clinical Science major is intended for, but not limited to, students pursuing careers in the diagnostic laboratory and is designed to meet the requirements for NY State licensure of clinical laboratory technologists.

The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site: http://www.hunter.cuny.edu/mls for more detail.

Admission Requirements

The requirements for consideration for admission to Medical Laboratory Sciences - BS programs are as follows:

Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab (CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM) or equivalent) 1 year of general biology with lab (BIOL 10000 (STEM), BIOL 10200 (STEM) or equivalent) and an overall GPA of at least 2.5. Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisers welcome e-mail inquiries anytime. To apply both current Hunter College students and transfer students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectivestudents/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select "Medical Laboratory Sciences" at Hunter College as the choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement (HCR) which includes the CUNY Common Core Requirement, the Hunter Focus on foreign language and the Concurrent Requirements before entering the program, but liberal arts classes can be interspersed with major courses.

Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Courses Required for the Major (68-70 credits)

Math and Science Courses (22 cr.)

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics
or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.
prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.
Primarily for premed, medical laboratory sciences and science majors.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq:** CHEM 10200

**coreq:** CHEM 10400

5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**Note:** No student may receive credit for both CHEM 12000-12100 and 22200-22300

**prereq:** CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**CHEM 22300 - Organic Chemistry Laboratory I**

**GER**

3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

**prereq:** CHEM 10500 OR CHEM 10600 OR CHEM 11200
**coreq:** CHEM 22301
**prereq or coreq:** CHEM 22204 OR CHEM 22206

4 hrs
2.5 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

*These courses may be counted for credit in more than one program.

Clinical Science Curriculum (46-48 cr.)

**MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.

MLS 60000 is the graduate component of this course

prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.

3 hrs (2 lec, 1 lab)

3 cr.

**MLS 31200 - Human Physiology: Integration and Control**

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.

prereq: BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.

3 hrs

3 cr.

**MLS 34700 - Human Histology**

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.

coreq: MLS 31200

5 hrs (2 lec, 3 lab)

3 cr.

**MLSP 34900 - Hematology**

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.

prereq or coreq: MLSP 30000

5 hrs (2 lec, 3 lab)

3 cr.

**MLSP 35100 - Clinical Microbiology I**

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.

prereq or coreq: MLSP 30000

5 hrs (2 lec, 3 lab)

3 cr.
MLSP 35200 - Clinical Microbiology II

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.
prereq: MLSP 30000, 35100 or equiv.
5 hrs (2 lec, 3 lab)
4 cr.

MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.
prereq: CHEM 22200
5 hrs (2 lec, 3 lab)
3.5 cr.

MLSP 35500 - Clinical Biochemistry II: Genes to Proteins

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.
prereq: MLSP 35400
5 hrs (2 lec, 3 lab)
3.5 cr.

MLSP 36100 - Computers and Data Processing in the Medical Laboratory

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.
prereq: MATH 15000 or STAT 11300
3 hrs (1 lec, 2 lab)
3 cr.

MLSP 41000 - Professional Practice

Directed full-time experience in clinical, research, public health or other biomedical laboratories. Arranged on an individual basis.
prereq: departmental permission
8 weeks
3 cr.

MLSP 43000 - Immunohematology

Study of the immunologic properties of blood associated with blood group systems, donor screening, transfusion reactions and hemolytic disease and laboratory techniques used to characterize antigen-antibody reactions.
prereq: MLSP 34900
3 hrs (2 lec, 1 lab)
3 cr.

MLS 45000 - Cell and Tissue Culture
Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

**prereq:** MLS 35100  
**coreq:** MLS 34700, 35200  
5 hrs (2 lec, 3 lab)  
4 cr.

**MLSP 45700 - Senior Seminar**

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

**prereq:** perm instr.  
2 hrs  
3 cr.

**MLS 46000 - Immunology**

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

**prereq:** MLS 34900, 35100  
**coreq:** MLS 35200, 35400  
5 hrs (2 lec, 3 lab)  
3 cr.

**COMHE 33000 - Principles of Epidemiology**

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

**prereq:** Acceptance to the major, or permission of the instructor.  
3 hrs  
3 cr.  
-or-

**PHILO 25400 - Ethical Issues in Biology and Medical Care (W)**

**GER**  
3/B  

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

**prereq:** ENGL 12000 and one previous course in philosophy.  
3 hrs  
3 cr.  
-or-

**SOC 30100 - Medical Sociology**

**GER**  
3/B  

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.
prereq: SOC 10100
3 hrs
3 cr.

-or-

MLSP 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

Degree Map for Medical Lab Sciences: Clinical Science

Music

Overview

The Music Department offers students the chance to explore musical expression through performance and academic study. Opportunities to learn from some of the best theorists, musicologists and ethnomusicologists in the field exist alongside exciting performance opportunities for every playing and singing ability. All undergraduate music majors include training in performance, aural skills, music theory, and music history, in the context of a strong liberal-arts degree program. Many other subjects, including composition, arranging, computer music, and ethnomusicology are available as electives. The undergraduate programs provide both the foundation for further study of any area of music and a liberal-arts background that can serve as a basis for careers in other fields.

Our ensembles include College Choir, Chamber Singers, Opera, Jazz Vocal Workshop, Jazz Ensemble, Jazz and Popular Music Combos, Chamber Music, and the Hunter Symphony. The BA degree can be completed evenings or days. In addition, the department sponsors numerous extracurricular events, including concerts, lectures, and master classes. Private lessons in instruments and voice are provided to all performance majors and many other music majors by a distinguished roster of performance teachers. Financial aid is available to qualified performance majors and other majors who need to study with private teachers not on the staff.

What can I do with my degree in Music?

Graduates of the department go on to a variety of careers in music and beyond. Graduates of the BA/MA dual degree program in Music/Music Teacher Education Pre-K-12 - BA/MA are qualified to teach in the public elementary and high schools of New York State.

Programs and Courses

Programs and Courses in Music

Graduate Study
Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

**Degree Map for Music 60-credit BMus**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a BMus (60-credit) music major. The Degree Map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

**Freshman Year**

**Fall**

**MUSPF 43100 - Individual Instruction in Instrument or Voice**
Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required.
May be taken 8 times.

prereq: perm dept.

1 hr

3 cr.

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs

1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

prereq: audition, perm instr.

3 hrs

1 cr.

**MUSPF 21300 - Piano I**

Basic piano techniques, scales and chords, exercises, simple pieces, and sight-reading.

prereq: declared music major or perm dept.

2 hrs

1 cr.

**MUSHL 10100 - A Thousand Years of Listening**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.

3 hrs

3 cr.

**ENGL 12000 - Expository Writing**

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

- Math/Quantitative Reasoning
- Foreign Language - Level 1 Intermediate
- Life and Physical Sciences

Spring

**MUSPF 43100 - Individual Instruction in Instrument or Voice**

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

*prereq: perm dept.*

1 hr
3 cr.

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs
1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

*prereq: audition, perm instr.*

3 hrs
1 cr.

**MUSPF 21400 - Piano II**

Continuation of MUSPF 21300.

*prereq: MUSPF 21300 or perm dept.*

2 hrs
1 cr.

**MUSTH 10100 - Music Theory Fundamentals**

**Hunter Core**
Creative Expression (CE)
**GER**
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.

3 hrs
3 cr.

**ENGL 22000 - Introduction to Writing about Literature (W)**
Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

**prereq:** ENGL 12000

* 3 hrs + one additional conference hour
* 3 cr.

- Individual and Society (Social Sciences)
- Foreign Language - Level 2

**Sophomore Year**

**Fall**

**MUSPF 43100 - Individual Instruction in Instrument or Voice**

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

**prereq:** perm dept.

* 1 hr
* 3 cr.

**MUSTH 22000 - Music Theory I**

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** ability to read music as demonstrated by dept. exam, perm dept.

**coreq:** MUSTH 23000

* 3 hrs
* 3 cr.

offered fall

**MUSTH 23000 - Musicianship I**

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

**coreq:** MUSTH 22000

* 3 hrs
* 2 cr.

offered fall

- MUSTP choice of ensemble
- Foreign Language - Level 3
- Individual and Society (Humanities)

**Spring**
MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.
1 hr
3 cr.

MUSTH 22100 - Music Theory II

Continuation of MUSTH 22000.
prereq: MUSTH 22000
coreq: MUSTH 23100
3 hrs
3 cr.
offered spring

MUSTH 23100 - Musicianship II

Continuation of MUSTH 23000.
prereq: MUSTH 23000
coreq: MUSTH 22100
3 hrs
2 cr.
offered spring

MUSTH 20100 - Introduction to Music Technology

An introduction to basic music technology skills: music notation software, MIDI sequencing, and digital audio editing.
prereq or coreq: prereqs: MUSTH 22000 and 23000, or perm dept.
1 hr
1 cr.
offered spring
- MUSPF - choice of ensemble
- Scientific World
- Foreign Language - Level 4

Junior Year

Fall

MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.
1 hr
3 cr.

MUSHL 20100 - Introduction to Music Research

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

coreq: MUSHL 20500
prereq or coreq: ENGL 12000

1 hr
1 cr.
offered fall

MUSHL 20500 - Music History I

Pluralism and Diversity
PD/D
For music majors. Survey of the history of music in the European tradition to 1600.

prereq: elementary knowledge of music history and literature, demonstrated by dept. exam

coreq: MUSHL 20100

prereq or coreq: MUSTH 22000, 23000, ENGL 12000, perm dept.

3 hrs
3 cr.
offered fall

MUSTH 32000 - Music Theory III

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

prereq: MUSTH 20100, MUSTH 22100

coreq: MUSTH 33000

3 hrs
3 cr.

offered fall

MUSTH 33000 - Musicianship III

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

prereq: MUSTH 23100

coreq: MUSTH 32000

3 hrs
2 cr.

offered fall

• ELECTIVE

Fall

MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required.
May be taken 8 times.
*prereq: perm dept.
1 hr
3 cr.

MUSHL 30500 - Music History III (W)

Pluralism and Diversity
PD/D
Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.
*prereq: MUSHL 20600, MUSTH 22100, 23100
Spring

MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.

1 hr

MUSHL 30600 - Music History IV (W)

Pluralism and Diversity

PD/D

Central issues in the history of European music, such as the role of patronage in musical culture, relationships of musical style to instruments and performing ensembles, and the impact of historical consciousness on contemporary musical life.

prereq: MUSHL 30500

3 hrs

MUSHL 35200 - Introduction to Ethnomusicology I (W)

Pluralism and Diversity

PD/A

prereq: MUSTH 22100, 23100 or perm instr; ENGL 12000

3 hrs

- or -

Notes
Minor in Music

The music minor consists of 15 credits in music: MUSTH 10100; MUSHL 10100 or MUSHL 10700; one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher. Prospective minors who have already mastered the material taught in the required 100-level courses (MUSTH 10100 and/or MUSHL 10100 or 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see Music 25-Credit Major [BA]). Music minors must substitute more advanced courses in any area of music study, which may include private lessons and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

Music - BMus

This degree is designed for students planning to pursue careers as professional performers of music or as teachers of music performance. It provides intensive instruction in the student's instrument or voice; solid training in music history and theory; and a broad, liberal arts education. Admission to this program is conditional on passing an audition (preferably before the student enters college) demonstrating a high level of skill in performance.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses Required for the Major (60 cr.)

Music history:

**MUSHL 20100 - Introduction to Music Research**

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

*coreq: MUSHL 20500
*prereq or coreq: ENGL 12000
1 hr
1 cr.

*offered spring*

**MUSTH 23000 - Musicianship I**

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

*coreq: MUSTH 22000*

3 hrs

2 cr.

*offered fall*

**MUSTH 23100 - Musicianship II**

Continuation of MUSTH 23000.

*prereq: MUSTH 23000*

*coreq: MUSTH 22100*

3 hrs

2 cr.

*offered spring*

**MUSTH 32000 - Music Theory III**

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

*prereq: MUSTH 20100, MUSTH 22100*

*coreq: MUSTH 33000*

3 hrs

3 cr.

*offered fall*

**MUSTH 33000 - Musicianship III**

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

*prereq: MUSTH 23100*

*coreq: MUSTH 32000*

3 hrs

2 cr.

*offered fall*

and any other 3-credit MUSTH course at the 300-level

**Private lessons:**
MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.
1 hr
3 cr.

Performance ensembles:

For instrumentalists - 6 credits in instrumental ensembles

Choose 6 credits from the following:

MUSPF 23100 - Hunter Symphony

Rehearsal and performance of orchestral works. May be taken 8 times.

prereq: audition, perm instr.
3 hrs
1 cr.

MUSPF 24900 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 25000 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

prereq or coreq: audition, dept. permission required
2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each
semester will also include individual attention to problems of public performance.
May be taken 4 times.

coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

For singers

6 credits in vocal ensembles

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs
1 cr.

**MUSPF 25100 - Jazz Vocal Workshop Ensemble**

Jazz performance and improvisation. May be taken 6 times.

prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition
2 hrs
1 cr.

**MUSPF 35300 - Chamber Singers**

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.

**MUSPF 36900 - Topics in Vocal Performance**

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.

prereq: ENGL 12000
coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

for singers, a minimum of 2 credits must be in MUSPF 36900

**Electives:**

- 4 credits in music courses above the 100-level.

**Recital:**

- A senior recital, for which no credit is given, is also required.
Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

Music 25-Credit Major (BA)

Major

This degree is designed for students who want to study music in the context of a general liberal arts education, but who do not plan to pursue careers in music. It may also be convenient for students who enter Hunter with a large number of transfer credits in music. Requirements are:

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses Required for the Major

Music History

MUSHL 20100 - Introduction to Music Research

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

coreq: MUSHL 20500

prereq or coreq: ENGL 12000

1 hr

1 cr.

offered fall

MUSHL 20500 - Music History I

Pluralism and Diversity

PD/D
For music majors. Survey of the history of music in the European tradition to 1600.

**prereq:** elementary knowledge of music history and literature, demonstrated by dept. exam
**coreq:** MUSHL 20100
**prereq or coreq:** MUSTH 22000, 23000, ENGL 12000, perm dept.

3 hrs
3 cr.
offered fall

**MUSHL 20600 - Music History II (W)**

**Pluralism and Diversity**

**PD/D**
For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.

**prereq:** MUSHL 20100, 20500, ENGL 12000
**prereq or coreq:** MUSTH 22100, 23100
3 hrs
3 cr.
offered spring

**MUSHL 30500 - Music History III (W)**

**Pluralism and Diversity**

**PD/D**
Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.

**prereq:** MUSHL 20600, MUSTH 22100, 23100
3 hrs
3 cr.
offered fall
  
  • and any other 3-credit MUSHL course at the 300-level

**Music Theory**

**MUSTH 22000 - Music Theory I**

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** ability to read music as demonstrated by dept. exam, perm dept.
**coreq:** MUSTH 23000
3 hrs
3 cr.
offered fall

**MUSTH 22100 - Music Theory II**

Continuation of MUSTH 22000.

**prereq:** MUSTH 22000
**coreq:** MUSTH 23100
3 hrs
3 cr.
offered spring
MUSTH 23000 - Musicianship I

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

- Music 25-Credit Major (BA)
- Music 42-Credit Major (BA)
- Music - BMus

Major Programs

The Department of Music offers three undergraduate programs a BA/MA in Music Education for those going into a Music Education major at the graduate level. Students must take three examinations before declaring a music major:

1. **Music notation, rudimentary theory, and basic musicianship skills.** This examination is prerequisite to MUSTH 22000 (Music Theory I).
   
   Students who do not pass it must take MUSTH 10100 (Music Theory Fundamentals) or learn the material on their own, then repeat the examination.

2. **Elementary music history and literature.** This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 (Introduction to Music) or learn the material on their own, then repeat the examination.

3. **Performance audition on an instrument or voice.** This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study.

Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Minor in Music

The music minor consists of 15 credits in music:

**MUSTH 10100 - Music Theory Fundamentals**

Hunter Core
Creative Expression (CE)
GER
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.

3 hrs
3 cr.

MUSHL 10100 - A Thousand Years of Listening

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.

3 hrs
3 cr.

-or-

MUSHL 10700 - The World of Music

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.

3 hrs
3 cr.

- one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher.

Prospective minors who have already mastered the material taught in the required 100-level courses MUSTH 10100 and/or MUSHL 10100 or MUSHL 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see above). Music minors may substitute more advanced courses in any area of music study, including private lessons (subject to availability) and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

Grading Policies

Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.
Honors

To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition; or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

MUSTH 49100 - Honors Project

Upper Jr/Sr only. Individual project of large scope in music history, theory, composition, or performance. 
_prereq: minimum music GPA of 3.5, perm undergrad adviser
1 sem
3 cr.

-or-

MUSTH 49200 - Honors Project

_prereq: MUSTH 49100
1 sem
3 cr.

Graduate Study

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

Music/Music Teacher Education Pre-K-12 - BA/MA

Major Programs

The Department of Music offers three undergraduate and two BA/MA major programs to fit individual interests and requirements. Students must take three examinations before declaring a music major:

1. **Music notation, rudimentary theory, and basic aural skills.** This examination is prerequisite to MUSTH 22000 (Music Theory I).

   Students who do not pass it must take MUSTH 10100 (Basic Musicianship) or learn the material on their own, then repeat the examination.

2. **Elementary music history and literature.** This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 A Thousand Years of Listening or learn the material on their own, then repeat the examination.

3. **Performance audition on an instrument or voice.** This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own
expense (without credit), then repeat the examination. Students with no experience in performance may defer
the audition until the end of their first semester of study.
Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these
examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement
during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the second
year of study in music theory (MUSTH 32000 and MUSTH 32100). Students entering Hunter with limited keyboard
background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at
their own expense. The Music Department office has a list of recommended piano teachers.

5- to 6-Year Dual BA/MA Degree in Teacher Education

Exceptionally qualified students may obtain a master's degree in teacher education in 5-6 years with a minimum of 140
credits. Requirements are the same as those for the 42-credit BA plus requirements for the MA degree in music teacher
education (see graduate catalog). Students may be admitted to this program only after they have completed at least 60
credits of college work, including at least 29 credits in music (three semesters of music history, four semesters of music
theory, and four semesters of musicianship). At least 12 credits (including six in music) must have been taken at Hunter
College, and students must have a cumulative GPA of at least 3.5 with no grade of less than B in any music course.
They must have passed the Music Department's piano proficiency examination and an audition-interview
demonstrating reasonable mastery of an instrument or voice.

Admission requires the consent of both the Music Department and the School of Education. See the The School of
Education section of this catalog for more information on applying to the PreK-12 Music Education (BAMA) program.

Minor

For 25-credit music majors, the minor consists of 12 credits in a field of study leading to a BA degree and approved by
the Music Department adviser. Double-majors and students in other music major programs are exempt from the minor
requirement. Minor courses can be used without limit to satisfy stages 1, 2, and 3 of the GER.

Minor for non-Majors

For students minoring in music, the requirements are determined by the student’s major department. See your major
adviser. The Music Department recommends the following courses. Because 300-level courses are intended primarily
for music majors and have extensive prerequisites, students whose major departments require a 300-level course in the
minor may, with permission of their adviser, substitute a 200-level course in the music minor.

MUSTH 10100 - Music Theory Fundamentals

Hunter Core
Creative Expression (CE)
GER
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.
3 hrs
3 cr.
MUSTH 22000 - Music Theory I

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

prereq: ability to read music as demonstrated by dept. exam, perm dept.
coreq: MUSTH 23000
3 hrs
3 cr.
offered fall

MUSTH 23000 - Musicianship I

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.
coreq: MUSTH 22000
3 hrs
2 cr.
offered fall

MUSHL 10100 - A Thousand Years of Listening

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.
3 hrs
3 cr.

MUSHL 10700 - The World of Music

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.
3 hrs
3 cr.
- One course with an MU-H prefix at the 200-level
- 1-3 credits of music electives

Grading Policy
Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.

Honors

To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition; or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

Philosophy

Overview

Philosophy studies the most fundamental questions that human beings ask — about individual and social action, the possibility and limits of knowledge, the truth and justification of beliefs, human nature and freedom, the existence of God and the operations of nature. Philosophy approaches these questions in a systematic way and philosophers have worked out more or less comprehensive theories to answer them (or show why they cannot be answered). The courses offered by the Philosophy Department are designed to introduce students to the main problems that philosophers study and to the main ideas of such profound and influential thinkers as Socrates, Plato, Aristotle, Augustine, Aquinas, Descartes, Hume and Kant.

Philosophy is one of the most important subjects a student can study because it develops the ability to reason clearly and critically, to write thoughtfully, to use intelligence and logic to deal with problems all too often ruled by emotion and prejudice. Philosophy also helps one develop intellectual flexibility and learn to appreciate ideas and beliefs other than those of one's own time, place, class or group. Since it develops these intellectual abilities and habits, the study of philosophy, either in individual courses or as a major or minor, is excellent preparation for any profession or occupation.

Students of philosophy pursue careers in law, business, medicine, government and the arts. Some go on to study philosophy at the graduate level with the aim either of teaching philosophy or of obtaining an advanced degree to further their career objectives.

What can I do with a degree in Philosophy?
Philosophy majors pursue many different careers. Philosophy courses are designed to provide skills that can be used across many fields, rather than to prepare you for a single career. Philosophy prepares students to pursue graduate studies in a variety of fields. Philosophy majors perform extremely well on graduate schools entrance exams and score higher on the GRE than graduates of other majors. Philosophy majors also are among the top performers on the LSAT and GMAT. But pursuing philosophy can also be intrinsically valuable—not just as a means to some end, but as an end in itself. To do philosophy—and, in particular, to do it well—is to exercise your mind in ways that reveal how powerful, creative, and open it can be.

Course Listings

The department especially encourages students majoring in or interested in philosophy, both with fewer than 6 credits toward the major in philosophy, to consult with a departmental adviser about courses and their prerequisites at this stage of their academic stay at Hunter.

Degree Map for Philosophy: Politics and Society

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Philosophy major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses
required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**  
English Comp (EC)  
GER  
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.  
*prereq: successful completion of developmental courses, if required*  
3 hrs + conf  
3 cr.

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**  
Individual and Society (Social Science) -I&S SS  
**Pluralism and Diversity**  
PD/D  
GER  
2/C

Introduction to social and political philosophy.  
3 hrs  
3 cr.  
*offered each semester*

- Math & Quantitative Reasoning  
- Foreign Language Level 1  
- US Experience in its Diversity

Spring

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**  
English Comp (EC)  
GER  
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and
appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

- Foreign Language Level 2
- Scientific World

Sophomore Year

Fall

PHILO 21500 - Foundations of Modern Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

- Individual and Society/ Humanities
- Life & Physical Sciences
- Foreign Language Level 3
- PHILO 24800 - International Ethics (W) or PHILO 25000 - Problems of Ethics and Society (W)
Spring

PHILO 31800 - Revolutions in Modern Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.

prereq: ENGL 12000 and two previous courses in philosophy
3 hrs
3 cr.

PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

- World Cultures & Global Issues
- Creative Expression
- Foreign Language Level 4

Junior Year

Fall

PHILO 38000 - Major Figures in Philosophy (W)

GER
3/A

Intensive study of the works and legacy of a major philosopher. The course may be repeated as different figures are offered. Figures include:
PHILO 38010 Plato (W)
PHILO 38011 Aristotle (W)
PHILO 38020 Plotinus (W)
PHILO 38063 Hume (W)
PHILO 38068 Kant (W)
PHILO 38070 Hegel (W)
PHILO 38076 Marx (W)
PHILO 38078 Nietzsche (W)
PHILO 38080 Wittgenstein (W)
PHILO 38083 Heidegger (W)
PHILO 38086 Foucault (W)

Prereq: Two courses in philosophy, at least one of which is at the 200 level.

Notes:

- Philosophy Electives can be chosen from 200 and 300 level PHILO courses (excluding including PHILO 171); 6 credits of this requirement may be taken from the non-departmental Faculty Advisor.

Minor in Logic

Currently, logic is studied by three distinct disciplines—Computer Science, Mathematics, and Philosophy. This minor is interdisciplinary and will introduce students to the questions about logic that these disciplines raise, their methods for
investigating these questions, and applications these disciplines may find for logic. Symbolic Logic is the foundational course, prerequisite for the current three advanced-level courses. Students must take this course prior to declaring the Minor in Logic. Each of the three disciplines is represented by an advanced-level course:

**Foundational Course**

This course must be taken before students are able to sign up for the Minor

**CSCI 27500 - Symbolic Logic**

Sentential logic including symbolizations, truth-value tables, formal derivations. Predicate logic including symbolizations, interpretations, and formal derivations.

cross-listed MATH 27500, PHILO 27500
3 hrs
3 cr.

**Logic in the disciplines of Mathematics, Philosophy, & Computer Science**

**CSCI 37100 - Advanced Symbolic Logic**

A survey of the central results and techniques of meta-logic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem theorem and Church's theorem on undecidability.

cross-listed PHILO 37500
prereq: PHILO 27500 or CSCI 27500 or MATH 27500
3 hrs
3 cr.

**CSCI 37700 - Non-classical Logic**

Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.

cross-listed PHILO 37700, MATH 37700
prereq: PHILO 27500 or MATH 27500 or CSCI 27500
3 hrs
3 cr.

**CSCI 37200 - Logic and Computers**

This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.

cross-listed MATH 37200 / PHILO 37200
prereq: CSCI 15000 -or- PHILO/CSCI/MATH 27500
No more than 6 crs. that count towards the minor may be used to fulfill the major in Philosophy.

Total credits required 12

**Minor in Philosophy (the Standard concentration)**

Prerequisite to the minor: one of 4 introductory philosophy courses

Chose one:

**PHILO 10100 - Introduction to Philosophy**

**Hunter Core**
Individual and Society (Humanities) -I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.

3 hrs
3 cr.
offered each semester

**PHILO 10400 - Introduction to Ethics and Moral Judgment**

**Hunter Core**
Individual and Society (Humanities) -I&S H
GER
2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
offered each semester

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**
Individual and Society (Social Science) -I&S SS
Pluralism and Diversity
PD/D
GER
2/C

Introduction to social and political philosophy.

3 hrs
ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

Standard Philosophy Minor

The philosophy minor requires 12 credits at the 200-level and above with no fewer than 3 credits at the 300-level. Exceptions: PHILO 17000 may count toward the minor at the 200-level and PHILO 20400 shall not count.

Minimum GPA for the minor

A student must pass a minor in philosophy with a minimum GPA of 3.00.

Note:

Students should always consult with a philosophy department adviser when constructing their minor. Some suggested tracks may be found on the philosophy department website http://www.hunter.cuny.edu/philosophy.

Minor in Philosophy, Politics and Society (PPS)

A student must take, as a prerequisite to the minor, PHILO 10600. This course does not count toward the PPS minor.

The PPS minor consists in taking 4 courses or 12 credits from the philosophy courses listed in the PPS major, at least one of which must be at the 300-level. Non-philosophy courses counting toward the PPS major concentration may not count toward the PPS minor.

A student must pass the PPS minor with a minimum GPA of 3.00.

Note: When constructing a minor in the PPS concentration, a student should always consult with a philosophy department advisor beforehand.

Minors in Philosophy
Minor in Philosophy (the Standard concentration)
Minor in Philosophy, Politics and Society (PPS)
Minor in Political Theory
Minor in Logic

Philosophy - BA

Major

The Philosophy Department offers two concentrations: 1) the Standard concentration and 2) the concentration in Philosophy, Politics and Society (PPS).

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Philosophy Concentrations

- Philosophy: Standard Concentration
- Philosophy: Concentration in Philosophy, Politics and Society

Major Adviser: Prof. Ian Blecher

The Philosophy Department offers extensive advising services to majors, including: guidance for course selection and sequencing and devising a course of study; tracking progress and compliance with college, CUNY, and state regulations; career advice; planning for graduate and professional school applications; and information about special opportunities for philosophy students. Minors may also make use of these services.
Mentoring

Philosophy majors are encouraged to establish a relationship with a faculty mentor of their choice. This relationship can be distinct from the departmental advising relationship.

Honors

To be eligible for graduation with departmental honors in philosophy, a major must have at least a 3.50 GPA in philosophy, at least a 3.0 overall GPA. The student must register for the 3- or 6-credit PHILO 49400, which is taken in addition to and is not part of the 30 credits for the major. The student must write a substantial paper under the direction of a full-time faculty member. To receive departmental honors the completed paper must be submitted to a three-member committee who will judge whether it merits departmental honors. This committee will consist of the director of the student's Honors Tutorial and two other full-time philosophy faculty members appointed by the director.

PHILO 49400 - Honors Tutorial in Philosophy

Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion is one requirement for departmental honors at graduation.

prereq: 3.0 cum GPA and 3.50 major GPA; philosophy majors only, minor with perm instr; two 300-level PHIL courses, one of which may be taken concurrently; perm dept.

3 or 6 cr.

Independent Study

Students may engage in independent study under the supervision of a member of the Philosophy department by receiving permission to take the following.

PHILO 49200 - Independent Study in Philosophy

Independent study of philosophical works under faculty supervision.

prereq: one PHILO course at 300-level, perm instr. (see Program Prerequisites)

1-6 cr.

Minors in Philosophy

- Minor in Philosophy (the Standard concentration)
- Minor in Philosophy, Politics and Society (PPS)
- Minor in Political Theory
- Minor in Logic

Philosophy: Concentration in Philosophy, Politics and Society

Courses Required for the Major (33 credits)

One Introductory Course in Philosophy
Students are encouraged to take:

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**  
Individual and Society (Social Science) - I&S SS  
**Pluralism and Diversity**  
PD/D  
GER  
2/C

Introduction to social and political philosophy.  
3 hrs  
3 cr.  
offered each semester

**History of Philosophy (9 cr.)**

**PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.  
*prereq: ENGL 12000 and one previous course in philosophy.*  
3 hrs  
3 cr.

**PHILO 21500 - Foundations of Modern Philosophy (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.  
*prereq: ENGL 12000 and one previous course in philosophy.*  
3 hrs  
3 cr.

**PHILO 31800 - Revolutions in Modern Philosophy (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach,
Kierkegaard, Marx and Nietzsche.

prereq: ENGL 12000 and two previous courses in philosophy
3 hrs
3 cr.

Political Philosophy (3 cr.)

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Social Philosophy (3 cr.)

PHILO 24800 - International Ethics (W)

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Intensive Study of a major philosopher, preferably concerning their political and/or social ideas (3 cr.)

offered under PHILO 38000 Major Figures in Philosophy (W)

Study of Recent Issues in Political and Social Philosophy (3 cr.)
PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

Electives (9 cr.)

chosen from 200- and 300-level PHIL courses (excluding PHILO 20400, but including PHILO 17000); 6 credits of this requirement may be taken from the nondepartmental courses listed below. It is also recommended that 3 credits be taken on philosophical approaches to class, race, or gender; the following philosophy courses satisfy this recommendation: PHILO 21900 Marxist and Critical Theory (W), PHILO 22600 African-American Philosophy (W), or PHILO 22300 Feminism: Philosophical Theory and Practice (W).

Nondepartmental courses to satisfy elective requirement

AFPRL 40100 - Pan-Africanism

GER
3/B

Seminar traces development of Pan-Africanism through the 20th century.
Not open to freshmen.
prereq: AFPRL 20200 or 20400 or 20600
3 hrs
3 cr.

AFPRL 40200 - African American Political Thought

GER
3/B

Comparative theorists; methods and ideological currents.
prereq: AFPRL 20300 or 20400 or 20500
3 hrs
3 cr.

HIST 33100 - European Culture in the 16th, 17th and 18th Centuries (W)

GER
3/B

The impact of the Reformation, Counter-Reformation, the Scientific Revolution and related movements.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

**HIST 33200 - Modern Culture from the 18th to the 20th Centuries**

**GER**
3/B

From the impact of the Scientific Revolution and the Enlightenment to recent literature, art, religion and science. European political and social thought. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**POLSC 20100 - Ancient to Early Modern Political Thought (W)**

**Pluralism and Diversity**
PD/D
**GER**
3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

**POLSC 20200 - Modern Political Thought (1600-1900) (W)**

**Pluralism and Diversity**
PD/D
**GER**
3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

**POLSC 20300 - Political Thought Since 1900 (W)**

**Pluralism and Diversity**
PD/D
**GER**
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.
POLSC 20400 - Contemporary Issues in Political Theory

GER
3/B

Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority. POLSC 20451 Women in Western Political Thought meets PD/D

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20900 - Women and Gender in Western Political Thought (W)

Pluralism and Diversity
PD/C or D
GER
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women. cross-listed WGST 20900

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 30100 - American Political Thought (W)

GER
3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.
3 hrs
3 cr.

POLSC 30300 - Democracy and Emergency (W)

GER
3/B

This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.

prereq: ENGL 12000
4

POLSC 30400 - Contemporary Issues in Political Theory
Selected topics in political theory.

**prereq:** ENGL 12000 or its equivalent; one course in political theory subfield or perm instr

3 hrs

3 cr.

**POLSC 30500 - Democratic Theory (W)**

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

**prereq or coreq:** ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs

3 cr.

**POLSC 30700 - Theory of Revolution**

Traditional and modern revolutions. Conditions and objectives of socialist and communist revolutions.

**prereq:** ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 30900 - Feminist Political Theory (W)**

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

**cross-listed WGST 30900 (W)**

**prereq:** ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs

3 cr.

**POLSC 31100 - Utopian Theory (W)**

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.

**prereq:** ENGL 12000 or its equivalent; one course in political theory or perm dept.
3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs
3 cr.

PUPOL 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper. Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research. These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.

3 hours
3 credits

SOC 22100 - Classical Sociological Theory

Pluralism and Diversity

PD/D
GER
3/B

Classical theorists and their contributions.

prereq: SOC 10100

3 hrs
3 cr.

SOC 22300 - Contemporary Sociological Theory (W)

GER
3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

prereq: SOC 10100, SOC 22100, and ENGL 12000

3 hrs
3 cr.
Elective courses recommended for students with particular interests

Elective credits should be carefully chosen to focus students' programs on their present interests and future needs. The following courses are recommended for students with particular interests.

Graduate study in philosophy

PHILO 27500 - Symbolic Logic

GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.
cross-listed MATH 27500
3 hrs
3 cr.

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Admission to Law School

PHILO 27500 - Symbolic Logic

GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.
cross-listed MATH 27500
3 hrs
3 cr.

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.
Careers in Public Administration

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

Careers in Foreign Service

PHILO 24800 - International Ethics (W)

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs
3 cr.

An additional course relating philosophy to international relations

Careers in Social Welfare

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.
SOC 22100 - Classical Sociological Theory

Pluralism and Diversity
PD/D
GER
3/B

Classical theorists and their contributions.
prereq: SOC 10100
3 hrs
3 cr.

SOC 22300 - Contemporary Sociological Theory (W)

GER
3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

prereq: SOC 10100, SOC 22100, and ENGL 12000
3 hrs
3 cr.

Note:

Certain new, ad hoc, or independent study courses may be taken in partial satisfaction of requirements listed above, if they are approved by the Philosophy, Politics and Society major concentration adviser.

Degree Map

Degree Map for Philosophy: Politics and Society

Philosophy: Standard Concentration

Courses Required for the Major (33 credits)

One of the following (3 cr.)

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.
3 hrs
PHILO 10400 - Introduction to Ethics and Moral Judgment

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
offered each semester

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Science) - I&S SS
Pluralism and Diversity
PD/D
GER
2/C

Introduction to social and political philosophy.

3 hrs
3 cr.
offered each semester

1. Logic (3 cr.)

PHILO 17000 - Introduction to Logic and Scientific Method

Hunter Core
Scientific World
An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

3 hrs.
3 cr.

-or-

PHILO 27500 - Symbolic Logic

GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including
symbolizations, interpretations and formal derivations.

*cross-listed* MATH 27500  
3 hrs  
3 cr.

2. History of Philosophy (9 cr.)

**PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A  

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.  
*prereq: ENGL 12000 and one previous course in philosophy.*  
3 hrs  
3 cr.

**PHILO 21500 - Foundations of Modern Philosophy (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A  

Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.  
*prereq: ENGL 12000 and one previous course in philosophy.*  
3 hrs  
3 cr.

**PHILO 31800 - Revolutions in Modern Philosophy (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A  

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.  
*prereq: ENGL 12000 and two previous courses in philosophy*  
3 hrs  
3 cr.

3. Ethics, Politics and Aesthetics (3 cr.)

any course from
PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 25800 - Aesthetics (W)

GER
3/A

Study of philosophical issues that arise in our understanding and criticism of the arts. Topics include nature of expression, purpose and standards of criticism and aesthetic value.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

4. Metaphysics and Epistemology (3 cr.)

any course from

PHILO 36000 - Metaphysics (W)

GER
3/A

Study of major metaphysical views, such as materialism, idealism, nominalism and realism. The major question is: What is reality and how may it be known?
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36200 - Theory of Knowledge (W)

GER
3/A
Study of origin, structure, methods and foundations of human knowledge.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36400 - Philosophy of Language (W)

GER
3/A

Inquiry into the philosophical significance of language, its structure, meaning, reference and use.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36600 - Philosophy of Mind (W)

GER
3/A

Examination of the concept of mind and the person. Topics include thinking, intention, consciousness, supervenience, emotion, self-knowledge.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 37800 - Philosophy of Biology (W)

Philosophical problems of biology, including evolutionary biology, molecular biology and genetics, and neuroscience.
prereq: ENGL 12000 and 2 courses in philosophy, at least one at the 200-level
3 hrs
3 cr.

PHILO 37900 - Philosophy of Science (W)

GER
3/B

Study of foundations of knowledge in natural and social sciences.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

5. Intensive Study of a Major Philosopher (3 cr.)

any course from those offered under PHILO 38000 Major Figures in Philosophy (W)

6. Additional Required Credits (9 cr.)
Chosen in consultation with an adviser. Students are required to select at least one course (3 cr.) at the 300-level. Also they are encouraged to select courses that acquaint them with philosophic traditions other than the dominant Western ones.

Degree Map

Degree Map for Philosophy BA

Physics and Astronomy

Overview

Physics is the study of the basic interactions that govern the behavior of the universe as we know it. As such, a knowledge of physics is necessary for the proper understanding of any science, and, of course, it is an exciting field of study in its own right. The primary mission of the Department of Physics and Astronomy is to provide an outstanding education for our students. Our curriculum serves undergraduate liberal arts students who seek, by the study of physics, to acquire critical thinking skills and develop the understanding and problem-solving abilities which are increasingly needed in our technological society. Undergraduate science majors pursue courses of study such as pre-medicine and computer science, in which a sound foundation in physics is essential to further advancement. The major includes lecture courses, laboratory courses, and a chance for qualified students to participate in research with faculty members.

What can I do with my degree in Physics?

The department offers comprehensive training in physics that can lead to industrial, institutional and government work; graduate study, and a teaching position in grades 7-12

Physics for Non-Physics Majors

A minimum of one year of physics is recommended for all majors in sciences and health sciences.

Medical and dental schools also require one year of physics. Students requiring one year of physics may take either the PHYS 11000 (STEM)-PHYS 12000 (STEM) sequence (9 cr) or the PHYS 11100 (STEM)-PHYS 12100 (STEM) sequence (11 cr). Although both sequences cover the same topics, PHYS 11100 (STEM)-PHYS 12100 (STEM) utilizes elementary calculus and meets for one additional lecture hour each week. It is recommended for science students and those premed students who satisfy the mathematics prerequisite. PHYS 10100 (4 cr) should be taken only by those who want a one semester terminal course in physics; it does not satisfy pre-professional requirements. Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

Minor in Physics

A minor in Physics consists of a minimum of 12 credits of PHYS courses, including two courses numbered above 200 or one course numbered above 300. Students who wish to enroll in the Physics Minor must have completed:

- MATH 15000 -and- MATH 15500.

The prerequisites for the 300-level courses include MATH 25000 and/or MATH 25400.

Physics - BA

Major

One of the following 3 options (concentrations) may be taken.

- Physics Option 1
- Physics - Option 2
- Physics - Option 3
Graduate Study

The Department of Physics and Astronomy offers a number of advanced courses, listed in the graduate catalog, which give credit toward the degree of master of arts. Qualified undergraduate students may be admitted to these courses with the approval of the department chair.

Minor in Physics

A minor in Physics consists of a minimum of 12 credits of PHYS courses, including two courses numbered above 200 or one course numbered above 300.

Students who wish to enroll in the Physics Minor must have completed MATH 15000 (STEM) and MATH 15500 (STEM). The prerequisites for the 300-level courses include MATH 25000 and/or MATH 25400.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors Work

The opportunity for students to do individual research (experimental or theoretical) is offered in courses

**PHYS 45300 - Introduction to Research**

Independent theoretical or experimental research or independent study of approved topic.

*prereq: PHYS 33000, 33400, 33500, and 42700 or perm chair*

1-3 cr.

**PHYS 45400 - Introduction to Research**

Independent theoretical or experimental research or independent study of approved topic.

*prereq: PHYS 45300 or perm chair*

1 to 3 cr.

Articulation Agreement

Articulation Agreement with New York City College of Technology

An agreement is in place for students from New York City College of Technology (CUNY) who successfully complete an associate degree in science in Liberal Arts (LAS) with at least a 2.0 overall grade-point average to be accepted into the Hunter College BA program in Physics. Consult the physics and astronomy department for further information.

**Physics - BA/MA**
This special program for a limited number of well qualified students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity to quickly reach a level where they are competitive for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second semester. Students should consult with the department chair, undergraduate adviser or graduate adviser for details as early as possible.

**Physics - Option 2**

Return to Programs and Courses in Physics & Astronomy

The Biophysics concentration) is recommended for students planning to pursue graduate studies and industrial R&D in biological related areas in physics, chemistry, bioengineering, and material sciences. This concentration is designed to allow the students to gain a solid foundation in physics and biology, together with a specially-designed course in biophysics which demonstrates the disciplinary interface between the two. The concentration requirements consist of courses in physics (27 cr), mathematics (5-20 cr), chemistry (19 cr) and biology (13.5 cr) and 8 credits of electives (at least 4 must be in physics).

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Physics major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 11000 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 11100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 12000 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 12100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (72-87.5 credits)**

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

**Courses in Physics (27 credits)**
PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.
prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
4 hrs
4 cr.

PHYS 33400 - Intermediate Electricity and Magnetism

Electrostatics, currents, magnetism, and introduction to electromagnetic theory of light.
prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
PHYS 33600 - Thermodynamics and Statistical Mechanics

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

<table>
<thead>
<tr>
<th>prereq: PHYS 12000 or 12100; MATH 25000</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 hrs</td>
</tr>
<tr>
<td>4 cr.</td>
</tr>
</tbody>
</table>

PHYS 42000 - Introduction to Biophysics

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

<table>
<thead>
<tr>
<th>prereq or coreq: PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 hrs</td>
</tr>
<tr>
<td>4 cr.</td>
</tr>
</tbody>
</table>

Mathematics (5-20 cr)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept, introduction to polynomial, rational and exponential functions and their graphs.

<table>
<thead>
<tr>
<th>prereq: appropriate score on placement exam or exit from appropriate departmental workshop</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 hrs (2 lec, 2 lab)</td>
</tr>
<tr>
<td>3 cr.</td>
</tr>
</tbody>
</table>

MATH 12500 (STEM) - Precalculus

<table>

<tr>
<th>Hunter Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>GER</td>
</tr>
<tr>
<td>1/B</td>
</tr>
</tbody>
</table>

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

<table>
<thead>
<tr>
<th>prereq: grade of C or better in MATH 10100 or appropriate score on placement exam</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 hrs</td>
</tr>
<tr>
<td>4 cr.</td>
</tr>
</tbody>
</table>

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the
symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500

4 hrs
4 cr.

Chemistry (19 cr)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.
Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

*CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

Biology (13.5 cr)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and
function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

and 8 credits of electives

At least 4 credits must be in physics

Physics - Option 3

Return to Programs and Courses in Physics & Astronomy

The Laser and fiber optics concentration is recommended for those interested in a career in the telecommunications industry, as it includes a foundation in lasers and fiber optics.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Physics major, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 11000 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 11100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 12000 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 12100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (41-48 credits)

Eight (8) credits of introductory physics are required
Recommended

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

May be taken instead

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

No more than 8 credits toward the major can be obtained from these courses. It is recommended that the following be taken, if the PHYS 110-120 sequence is taken instead of the PHYS 111-121 sequence.

PHYS 19000 - Tutorial in Mathematical Physics

Applications of differential and integral calculus to selected topics chosen from the major subfields of physics. Completion of this course and its prerequisites is equivalent to completion of the calculus-based general physics sequence, PHYS 11100 and 12100.

prereq: MATH 15500, PHYS 12000
3 hrs (2 lec, 1 rec)
2 cr.

23 credits of mathematics are required in addition to one year of high school chemistry or college chemistry

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

**prereq or coreq:** MATH 12500

2 hrs

1 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs

4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs

4 cr.

**MATH 25000 - Calculus with Analytic Geometry III**

**GER**

3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**prereq:** MATH 15500
MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

prereq: MATH 25000
3 hrs
3 cr.

All four courses of the sequence are required (17 credits)

Physics Option 1

For students in the BA/MA program, students intending to teach grades 7-12, and students intending to enter the medical profession.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

<table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (53-70 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.
Please note: students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course PHYS 12000 (STEM), PHYS 12100 (STEM) since they may receive credit for no more than one course from each group.

A. Introductory Physics: Two Semesters

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

*Hunter Core*
Scientific World (SW) Life and Physical Sciences (LPS)
**GER**
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

**prereq or coreq: coreq (with perm dept.): MATH 15000**
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

*Hunter Core*
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.*

*Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

**prereq: PHYS 11000 or 11100**
**prereq or coreq: (with perm dept.): MATH 15500**
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

B. 22- to 24-credit concentration in physics courses at the 200 level and higher:

**PHYS 22100 - Electronics**
Ger
3/B

Prereq: PHYS 12000 or PHYS 12100
4 hrs
4 cr.

Phys 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.

Prereq: PHYS 12000 or 12100
Prereq or coreq: MATH 25000
4 hrs
4 cr.

Phys 33400 - Intermediate Electricity and Magnetism

Electrostatics, currents, magnetism, and introduction to electromagnetic theory of light.

Prereq: PHYS 12000 or 12100
Prereq or coreq: MATH 25000
4 hrs
4 cr.

Phys 33500 - Intermediate Mechanics

Study of laws of motion and coordinate systems; introduction to powerful analytical techniques.

Prereq: PHYS 12000 or 12100
Prereq or coreq: MATH 25000
4 hrs
4 cr.

Any Three of the following 5 courses:

Phys 22200 - Electronics Laboratory

Ger
3/B

Experiments are performed with passive devices (capacitors, inductors, resistors) and active devices (diodes, transistors). A variety of transistor amplifier and oscillator circuits are studied as well as integrated circuit applications.

Prereq: PHYS 22100
4 hrs
2 cr.

Phys 23000 - Classical Physics Laboratory

Ger
3/B
Selected experiments of mechanics, electricity/magnetism, and thermodynamics. Experiments may include driven oscillator resonance, coupled oscillators, liquid nitrogen heat of vaporization, Fourier analysis/filtering, ferromagnetic hysteresis, and the nonlinear pendulum period. Elementary error analysis techniques and computer software for data analysis/graphing.

*prereq: PHYS 12000 or 12100*

4 hrs

2 cr.

**PHYS 23500 - Modern Physics Laboratory**

GER

3/B

Selected experiments of quantum physics and optics. Experiments may include nuclear half-life, microwave diffraction, Bragg scattering of x-rays, nuclear multichannel scintillation, Franck-Hertz quantum levels, Millikan oil drop. Error analysis techniques including Gauss and Poisson distributions and correlation of data. Programming for data analysis.

*prereq: PHYS 12000 or 12100*

4 hrs

2 cr.

**PHYS 38500 - Numerical Methods I**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations. Cross-listed as MATH 38500 and CSCI 38500 so that students in the mathematics and computer science departments can use the course toward the completion of their major requirements.

*prereq: MATH 25400*

3 hrs

3 cr.

**PHYS 48500 - Numerical Methods II**

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project will be assigned. Cross-listed as MATH 48500 and CSCI 48500 so that students in the mathematics and computer science departments can use the course toward the completion of their major requirements.

*cross-listed CSCI 48500 and MATH 48500*

*prereq: PHYS 38500*

3 hrs

3 cr.

**C. Required Math & Chemistry courses 20-35 credits:**

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.
MATH 12500 (STEM) - Precalculus

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs

4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

*prereq or coreq: MATH 12500*

2 hrs

1 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam*

4 hrs

4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs

4 cr.

MATH 25000 - Calculus with Analytic Geometry III
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**prereq:** MATH 15500

4 hrs
4 cr.

**MATH 25400 - Ordinary Differential Equations**

**GER**
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000

3 hrs
3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*Note:* No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

**prereq or coreq:** MATH 12500, 15000 or equiv.

5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

**prereq:** CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
Ger 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

Prereq: CHEM 10200
Coreq: CHEM 10400
6 hrs
3 cr.

* These courses may be counted for credit in more than one program.

NOTE: The chemistry courses may be substituted by one year of high-school-level chemistry. Together, the introductory physics (11 credits) and the Option 1 22-24 credit concentration in physics satisfy the major requirement for initial certification as a teacher of physics in grades 7-12. Option 1, together with the MA (see the Physics - BA/MA ), is recommended for students planning to pursue a PhD in physics.

Preparation for Teaching

The Option 1 major in physics satisfies the requirements for NY State initial certification of at least 30 credits for teachers in adolescent education: physics (grades 7-12). Students planning to become physics teachers at the secondary level should take the 23-credit sequence in secondary education.

Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises

Ger 2/E with lab

An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler's laws of planetary motion; Newton's laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble's Law and the expanding universe, from the Big Bang to the present; future scenarios. The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.

5 hrs
4 cr.

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
Ger 2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and
environmental studies courses.
3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200*

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

*spring only*

**Degree Map**

Degree Map for Physics Option 1

**Political Science**

**Overview**

Political science deals with the various political, social, economic, and cultural arrangements through which people govern their lives. It attempts to interpret the past and explain the present, and often dares to draw images of the future. As a field of study, it covers several fields, from the evolution of political philosophy and the implications of contemporary political concepts to the problems of development in emerging nations, from the performance American government at the local, state, and national levels to the interaction of peoples and states in the international arena. In short, the discipline ranges across broad and diverse areas of inquiry.

Many people think of politics in terms of what governments do, but political science also covers much else. Students will find courses on the ideas of great thinkers from Plato to the present, the problems of cities, war and peace, democratic and authoritarian political systems, international political economy, human rights, women and politics, political parties and forms of political participation that include interest groups and social movements, constitutional and international law, public policies such as immigration, the domestic and foreign policies of the United States and other countries, and the political systems of various regions around the world including the Middle East, Latin America, Africa, and Asia.

**What can I do with my degree in Political Science?**
Some political science majors choose to enter public service upon completing their bachelor's degrees, working for government agencies or nonprofit organizations. Other popular careers have included teaching, business, and journalism. Still other graduates enter politics. Many pursue law school – more political science majors attend law school than majors from any other department at the college – or some other kind of graduate training. Graduates have earned advanced degrees in international affairs, public policy, public administration, journalism, social work, and other fields. In sum, political science prepares students for a variety of career opportunities as well as for a lifetime of active citizenship.

Degree Map for Political Science

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Political Science major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall
ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.  
*prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

- Math & Quantitative Reasoning
- Individual and Society/Social Sciences
- Foreign Language - Elementary Level I

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

*prereq: ENGL 12000 (or equivalent)
*prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

Spring

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.
- POLSC 100 level or 200 level course
- Foreign Language - Elementary Level II

Notes

- Majors are required to take at least one course in each of the four following subfields of the discipline: American Government, Political Theory, Comparative Politics, and International Relations.
- Students may distribute their remaining courses in the major as they see fit. However, students contemplating graduate work are encouraged to specialize appropriately in consultation with the department's faculty members.
- No more than two introductory (100-level) courses can be applied toward the major. Majors must complete at least three 300-level courses (from any subfields).
- No more than 6 credits in internship, independent study, and/or experiential courses (such as Model United Nations) may be used to satisfy the 30 credits in the major. Also, such credits may not be used to satisfy the distribution requirements in the four fields. Courses taken for Credit/No Credit may not be applied toward the major.
- POLSC 491, 492, and 493 are only for Political Science majors, with a 3.5 GPA in the major, who elect to complete the POLSC Honors Thesis.

Minor in International Relations

The International Relations (IR) minor is an inter-disciplinary course of study that allows students to examine international relations from different perspectives within a liberal arts curriculum. The International Relations minor introduces students to the major themes in IR: IR theories and approaches, peace and security, international political economy, foreign policy, and international norms and institutions.

Requirements

- 15 credit minor—Students are required to complete at least one course from Group A and at least one course from two of the other four categories (Groups B-E).
- Students can take no more than three courses from one department.
- Students may not use more than one 100-level course towards completion of the IR minor.
- Students must complete at least one 300-level course to fulfill the requirements of the IR minor.
- No more than two courses from the student's major can be applied toward the IR minor.
A. IR Theories and Approaches

These courses teach students the skills necessary to think and write clearly about IR.

**POLSC 27000 - International Relations: Conceptual Foundations and Current Issues (W)**

**Hunter Core**

World Culture and Global Issues (WCGI)

**GER**

3/B

Examines the conceptual foundations of international relations and their application to current issues. Topics include: anarchy, power, war and peace, international cooperation, the role of the state and non-state actors, international institutions, norms and human rights, and the global economy.

Students may not take both POLSC 11500 and POLSC 27000 at Hunter College for credit. (Transfer students may receive only 100-level credit for a course equivalent for POLSC 11500 after spring 2010, when POLSC 27000 becomes the prerequisite for most advanced courses in international relations.)

*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 37700 - Theories of International Politics (W)**

**GER**

3/B

An examination of the central concepts and issues in international politics that underpin the main theoretical debates in the field.

*prereq: POLSC 11500 or 27000 or 27500 or 28200 or perm. instr.*  
*coreq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**ECO 20000 - Principles of Microeconomics**

**Hunter Core**

Scientific World (SW)

**GER**

2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

*prereq: MATH 10100 or exemption from the course*  
3 hrs  
3 cr.
ECO 20100 - Principles of Macroeconomics

GER
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.
prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

B. Foreign Policy and Analysis

These courses emphasize the foreign policies of countries or regions and research design and methods in IR.

POLSC 20600 - Research Design in Political Science (W)

GER
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.
prereq: passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27600 - Global Issues (W)

GER
3/B

Examination of current global issues using traditional and critical international relations perspectives. Topics vary each semester: population growth, food insecurity, human trafficking, the future of the euro, immigration challenges in Europe, climate change, resource shortages, global poverty, shared values, and other issues.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27400 - American Foreign Policy (W)

GER
3/B

Broad overview of the sources, processes, institutions, traditional tenets, current challenges, and aims of American foreign policy.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 37800 - Russian National Interest: Past and Present (W)
Pluralism and Diversity
PD/D
GER
3/B

In a contemporary, historical and comparative context, this course explores the factors influencing debates on and definitions of Russia's national interests, the strategies for promoting those interests and the implications for Russia and the international system.

_prereq: ENGL 12000 or equiv; POLSC 11500 or POLSC 11700 or perm instr._

3 hrs
3 cr.

POLSC 38400 - Comparative Foreign Policy (W)

An analysis of why states have different foreign policies and the sources of those differences. Various factors such as power, political culture, religion, regime type, history, economic and state development, and individuals will be explored.

_prereq: POLSC 11500 or POLSC 27000 or POLSC 28200

4 hrs.
4 cr.

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

_prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500

3hr lecture or 2hr lecture/1 hr discussion
3 cr.

POLSC 27100 - International Politics in the Americas (W)

Pluralism and Diversity
PD/A
GER
3/B

Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present, and of relations of Latin American countries with each other and with extra-hemispheric nations.

cross-listed LACS 43432
_prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

or

HIST 34100 - Topics in History (W)
GER
3/B

Exploration of major trends, special controversies or significant events; topics vary each term.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

C. International Norms and Institutions

These courses teach students how global cooperation has been achieved through the creation of international law, international norms, and international institutions.

POLSC 27800 - International Organizations (W)

GER
3/B

Powers, functions and effectiveness of international institutions; emphasis on United Nations and regional organizations.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28100 - Drugs, Politics and Public Policy (W)

GER
3/B

Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and market factors, constitutional implications and United States foreign policy.
prereq: ENGL 12000
3 hrs
3 cr.

POLSC 37400 - International Human Rights (W)

GER
3/B

An examination of the origins, substance and processes of human rights in international relations.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 37500 - International Law (W)

GER
3/B
Theory of and case studies on the nature, sources, practices and efficacy of international law, principles and rules.

prereq: ENGL 12000 and POLSC 11500 or POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282
3 hrs
3 cr.

POLSC 38300 - Rising Powers, China, the U.S. and World Order (W)

GER
3/B

An examination of global power shifts and their consequences for international competition and order. Draws on theoretical insights to explain patterns in historical and contemporary cases, including the current rise of China and other "BRICS" countries.

prereq: ENGL 12000 (or equivalent), and (POLSC 11500 or POLSC 27500 or POLSC 27000 or POLSC 28200)
4 hrs
4 cr.

GEOG 33500 - International Pollution Issues

GER
3/B

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.

prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr.
3 hrs
3 cr.

PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

D. International Political Economy

These courses emphasize international trade, finance, and development.

POLSC 27500 - Politics of the Global Economy (W)

GER
3/B
Introduction to International Political Economy (IPE). Examines the dynamic interaction between politics and economics across national borders, including the politics of trade, development, finance, varieties of capitalism, globalization and environmental protection. Not open to students who have taken POLSC 37600.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 37600 - International Political Economy (W)

GER
3/B

Examination of the intersection of politics and economics at the international level through a careful reading and analysis of dominant theoretical approaches and their application to central debates concerning the politics of trade, money and finance, development and globalization.

prereq: POLSC 11500 or 27000 or 27500; minimum of 45 credits and 9 credits in political science or permission of the instructor

coreq: ENGL 12000 or its equivalent
4 hrs
4 cr.

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

ECO 33000 - Economic Development

Pluralism and Diversity
PD/A
GER
3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

prereq: ECO 20000
3 hrs
3 cr.
**ECO 34000 - International Trade**

**GER**
3/B

Theories of international trade and international trade policies.

*prereq: ECO 20000*
3 hrs
3 cr.

**ECO 34100 - International Finance**

**GER**
3/B

Theories of exchange-rate determination and open-economy macroeconomic theory and policy.

*prereq: ECO 20100*
3 hrs
3 cr.

**SOC 36100 - Development and Globalization (W)**

**Pluralism and Diversity**
**PD/A**
**GER**
3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 30700 - Migration**

**Pluralism and Diversity**
**PD/B**
**GER**
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 31100 - Population Dynamics**
Comparative analysis of fertility, mortality, migration trends, and related social factors.

prereq: SOC 10100
3 hrs
3 cr.

E. International Peace and Security

These courses focus on peace, security, conflict, violence, war, and terrorism.

**POLSC 28200 - International Security (W)**

An introduction to basic concepts and problems in the area of international security, this course will explore explanations for some of the central causes of security/insecurity and peace/war, as well as examine select contemporary security issues.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 28300 - Terrorism (W)**

The course will explore the types, causes, and strategies of terrorism as well as the effectiveness and civil liberty implications of counterterrorism strategies. Both contemporary and historical terrorist groups will be considered.

Not open to students who have completed POLSC 27353.

prereq or coreq: ENGL 12000 or the equivalent
3 hrs
3 cr.

**POLSC 37900 - War and Strategy (W)**

An examination of strategy and wars between states, within states, and between states and transnational groups. Focuses on how strategy affects the avoidance, outbreak, conduct, and consequences of war and the difficulty of devising strategies that successfully link political ends and military means.

prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or the equivalent
4 hrs
4 cr.
POLSC 38000 - European Security (W)

Pluralism and Diversity
PD/D
GER
3/B

A theoretically informed examination of current and historical security problems in Europe, with a focus on the sources of war and peace, strategic calculations, alliances, institutions, democratization, norms, and ideological and identity conflicts. A principal aim is to establish a foundation for analyzing the prospects for a secure order in Europe in the first part of the 21st century.

prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or its equivalent
4 hrs
4 cr.

POLSC 38200 - Causes of War (W)

GER
3/B

An analysis of the causes of war and peace for both civil and interstate wars including especially the role of bargaining, but also the roles alliances, arms races, rivalries, and institutions.

prereq or coreq: ENGL 12000 or the equivalent; POLSC 27000 or POLSC 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor.
4 hrs
4 cr.

Minor in Legal Studies

The Legal Studies minor is an interdisciplinary course of study that allows students to examine the role and development of law from different perspectives within a liberal arts curriculum. Legal studies students will be introduced to the study of judicial opinions, theories of law and legal interpretation, the structure and role of legal institutions, and the operation of law in history and everyday life.

Law is a central feature of political, social, and economic life. The legal studies minor will prepare students embarking on careers in government, business, or the non-profit sector to think broadly and critically about the nature of law. It will also be extremely helpful for any students planning to pursue graduate study focusing on law or legal institutions, in a wide variety of disciplines. The legal studies program places an emphasis on developing students’ communication skills, interdisciplinary scholarship and a commitment to connect undergraduate education to advanced career opportunities. The core of the legal studies minor, though, is a commitment to the study of law within the liberal arts tradition.

While there are many ways for students to prepare successfully for law school, an advantage of the legal studies minor is its ability to help the college identify students planning to apply to law school, to ensure that these students receive guidance on the application process as early as possible, and to give them a solid foundation when they enter law school.
Program Requirements

15-credit minor

Students are required to complete at least one course from within each of the three categories below. Students can take no more than three courses from one department.

No more than two courses from the student's major can be applied toward the Legal Studies minor. Courses used to fulfill the Legal Studies minor may be used to meet any other degree requirements, including the political science major. Students should be aware that courses listed for this minor may have prerequisites within their home departments.

Foundations of Legal Studies

These courses teach students foundational knowledge and skills that are important for thinking and writing clearly about law.

PHILO 10600 - Philosophy, Politics and Society

**Hunter Core**
Individual and Society (Social Science) -I&S SS

**Pluralism and Diversity**
PD/D
GER
2/C

Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

PHILO 17000 - Introduction to Logic and Scientific Method

**Hunter Core**
Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.
3 hrs.
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

**Hunter Core**
Flexible Core: US Experience in its Diversity

GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency
and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

**Legal Institutions and Legal Processes**

These courses emphasize the “law on the ground.” They tend to present a more external analysis of the role and operation of legal institutions, actors, and norms.

**POLSC 21900 - Women and the Law (W)**

*Pluralism and Diversity*  
PD/C  
*GER*  
3/B

Overview of how local, state and federal laws treat people on the basis of sex.  
*cross-listed* WGSP 21900  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 23800 - The American Legal System (W)**

*GER*  
3/B

Civil and criminal law, common law and equity, substantive and procedural law. Emphasis on federal and New York law.  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 24000 - The American Judiciary (W)**

*GER*  
3/B

The Supreme Court and other federal courts as part of policy-making process in American government.  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.
POLSC 31000 - Comparative Legal Systems (W)

GER
3/B

Comparative study of major legal traditions of the modern world, including common law, civil law, Soviet, Islamic, Chinese, tribal and hybrid systems.

prereq: POLSC 11000, 23800 or 34000 or 34100 or 34300 or 37500 or any course in comparative politics subfield, or perm instr; ENGL 12000 or its equivalent

3 hrs
3 cr.

POLSC 37500 - International Law (W)

GER
3/B

Theory of and case studies on the nature, sources, practices and efficacy of international law, principles and rules.

prereq: ENGL 12000 and POLSC 11500 or POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282

3 hrs
3 cr.

ASIAN 39002 - Asian American Civil Rights and the Law

Pluralism and Diversity
PD/B

Critical examination of major immigration and civil rights laws and Supreme Court cases that have affected Asian Americans.

3 hrs
3 cr.

MEDIA 39400 - Mass Communications and the Law

GER
3/A

Relationship of mass media to significant constitutional problems.

prereq: MEDIA 18000

3 hrs
3 cr.

HIST 36400 - American Constitutional History, 1783 to 1900

Pluralism and Diversity
PD/D
GER
3/B

Development of constitutional thought from the framing of the Articles of Confederation to 1900.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**SOC 31900 - Criminology**

**GER**
3/B

Criminal behavior, arrest, and punishment. Problems of definition, administration of criminal justice.

*prereq: SOC 10100*

3 hrs
3 cr.

**SOC 32000 - Law, Society and Civil Rights**

**GER**
3/B

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

*prereq: SOC 10100*

3 hrs
3 cr.

**The Theory and Practice of Legal Interpretation**

These courses emphasize the “law on the books,” the way relative insiders, like legal theorists and judges, talk about the content of law. Courses in this category introduce students to judicial opinions as well as normative theories about the way law should be interpreted.

**POLSC 34000 - Constitutional Law: Organizing the Government (W)**

**GER**
3/B

Constitutional problems and Supreme Court decisions. Federalism, judicial review, separation of powers, foreign policy.

*prereq: POLSC 11000 or 11100 or 23800*

3 hrs
3 cr.

**POLSC 34100 - Constitutional Law: Civil Rights (W)**

**GER**
3/B

Constitutional problems and Supreme Court decisions regarding race and sex discrimination.

*prereq: POLSC 11000 or 11100 or 23800*

3 hrs
3 cr.
**POLSC 34200 - Constitutional Law: The First Amendment (W)**

**GER**

3/B

Constitutional problems and Supreme Court decisions regarding freedom of speech, press (media), religion and assembly.

*prereq: POLSC 11000 or 11100 or 23800*

3 hrs
3 cr.

**ECO 37000 - Law and Economics**

**GER**

3/B

Analytical tools of microeconomics are used to examine various aspects of the law, including property, contracts, torts, liability, and criminal and family law.

*prereq: ECO 20000*

3 hrs
3 cr.

**PHILO 25200 - Problems of Law and Morality**

**GER**

3/B

Philosophy of law and the relation of legal to ethical issues.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 34600 - Contemporary Theories of Justice (W)**

**GER**

3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr.

**Minor in Political Science**

Students minoring in political science must complete 12 credits in political science. No more than three credits can be at the 100-level. No more than three credits in independent study (POLSC 29001-29003) can be used to satisfy the minor. Internship credits may not be applied toward the minor.
The minor in Political Science is designed to provide students with solid grounding in political science and to encourage them to develop depth in the discipline in an area that will complement their major or develop expertise in an area of particular interest to them.

The minor in Political Science allows students considerable flexibility in designing a minor that will best serve their academic goals. Students may, for instance, wish to focus on courses dealing with European politics and foreign policy to complement a major in a European language and culture. Students may concentrate their courses in one field of political science, or spread them across several fields. Students may consult an advisor in the Department of Political Science about their goals as they choose courses to satisfy the minor.

**Minor in Political Theory**

The Political Theory Minor provides a concentration of study for students interested in political, social, and legal philosophy or thought, often related to public discourses, practices, and laws. It recognizes the interdisciplinary character of political theory, which operates at the intersection of the humanities and social sciences. It focuses on critical issues of ethics and power in history and the present, along with major authors in the traditions of political philosophy and thought.

The minor program consists of at least 15 credits taken from the courses listed below, or others as approved by the minor program advisor. Students must take at least 6 credits in philosophy and 6 credits in political science, including PHILO 10600 (or another 100-level PHILO course, with permission of the Advisor) and POLSC 20000. At least 3 credits must be taken at the 300-level, and one course must be taken from each of the three Minor categories (listed below). No more than six credits that count towards the student's major may be used to fulfill this Minor.

**1. Required Courses**

**PHILO 10600 - Philosophy, Politics and Society**

Hunter Core
Individual and Society (Social Science) - I&S SS

Pluralism and Diversity
PD/D

GER
2/C

Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

**POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)**

Hunter Core
Individual and Society (Social Sciences) - I&S SS

GER
2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

2. Current Courses That Count Towards the Political Theory Minor

Minor courses are to be selected from the following list of regularly taught courses or special topics courses in Philosophy or Political Science that pertain to the Minor but are irregularly taught (those interested in the latter should check with the advisor to verify that they may count toward the minor). In addition, one course, with significant theoretical content, offered in, e.g., Anthropology, Classics, Geography, History, Religion, or Sociology, may count toward the Minor, upon approval of the Political Theory Adviser.

History of Political Philosophy and Thought

One Course on figures in, or periods of, political theory, eg., courses in the PHILO 38000 Major Figures in Philosophy (W) topic series:

PHILO 38010 - Plato (W)

GER
3A

Intensive study of the works and legacy of Plato.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

-or-

PHILO 38011 - Aristotle (W)

GER
3A

Intensive study of the works and legacy of Aristotle.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

-or-

PHILO 38070 - Hegel (W)

GER
3A

Intensive study of the works of Hegel.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.
PHILO 38076 - Marx (W)

GER
3A

Intensive study of the works and legacy of Marx (W)

prereq: Two courses in philosophy, at least one of which is at the 200 level
3 hrs
3 cr.

PHILO 38086 - Foucault (W)

GER
3A

Intensive study of the works and legacy of Foucault.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

POLSC 20100 - Ancient to Early Modern Political Thought (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20200 - Modern Political Thought (1600-1900) (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.
POLSC 20300 - Political Thought Since 1900 (W)

Pluralism and Diversity
PD/D
GER
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

-or-

POLSC 20900 - Women and Gender in Western Political Thought (W)

Pluralism and Diversity
PD/C or D
GER
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.

cross-listed WGST 20900

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

-or-

POLSC 30100 - American Political Thought (W)

GER
3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.
3 hrs
3 cr.

Note: For more information on the topic series course click here: PHILO 38000 Major Figures in Philosophy (W)

Basic Concepts and Themes

One course on theoretical or conceptual tendencies in political theory

PHILO 22600 - African-American Philosophy (W)

Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs

3 cr.

-or-

**PHILO 24600 - Political Philosophy (W)**

**GER**

3/B

Study of selected philosophical problems in politics, law, economics and society.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs

3 cr.

-or-

**PHILO 24800 - International Ethics (W)**

**GER**

3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs

3 cr.

-or-

**PHILO 25500 - Environmental Philosophy (W)**

Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.

*prereq: ENGL 12000 and one course in Philosophy*

3 hrs

3 cr.

-or-

**PHILO 31900 - Marxist and Critical Theory (W)**

**Pluralism and Diversity**

**PD/D**  

**GER**

3/A

Study of 20th-century philosophers, such as Lucás, Adorno, and Marcuse, who attempted to develop a theory of historical materialism or a critical theory of society, as well as the sources of their ideas in the work of Marx, Weber, and Freud.

*prereq: ENGL 12000 and 2 courses in philosophy, 1 at the 200-level*
A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

- or -

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women’s and environmental rights.

*prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.*

3 hrs
3 cr.

- or -

PHILO 39400 - Philosophical Problems

Study of one or more major philosophical problems.

*prereq: variable (see Program Prerequisites)*

3 hrs
3 cr.

- or -

POLSC 30200 - Critical Theory and Politics (W)

Intensive study in the core concepts and ideas in the tradition of Critical Theory. Thinkers include, among others, Kant, Hegel, Marx, Nietzsche, Adorno, Horkheimer, Marcuse, Fanon, and Foucault, as well as contemporary critical theorists. Themes and foci will vary by semester and will include: the nature and purpose of critique; political sociology and the analysis of liberalism, fascism and other political formations; mass culture and the fate of art; power and the psyche; reason and affect; violence and terror; the philosophy of history, and the politics of liberation.

*prereq: ENGL 12000 or the equivalent; at least one 200-level course in political theory or permission of the instructor.*

4 hrs
4 cr.
POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice. 

*prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs
3 cr.

POLSC 30900 - Feminist Political Theory (W)

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists. 

*cross-listed WGST 30900 (W)*

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice. 

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs
3 cr.

Theoretical Dimensions of Contemporary Controversies

One course on problems or issues in political theory

PHILO 20080

PHILO 22600 - African-American Philosophy (W)

Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25200 - Problems of Law and Morality

GER
3/B

Philosophy of law and the relation of legal to ethical issues.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25500 - Environmental Philosophy (W)

Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.
prereq: ENGL 12000 and one course in Philosophy
3 hrs
3 cr.

-or-

PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.
3 hrs
3 cr
PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.

prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.

3 hrs
3 cr.

PHILO 39400 - Philosophical Problems

GER

3/A

Study of one or more major philosophical problems.

prereq: variable (see Program Prerequisites)

3 hrs
3 cr.

POLSC 20400 - Contemporary Issues in Political Theory

GER

3/B

Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority.

POLSC 20451 Women in Western Political Thought meets PD/D

prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

POLSC 30300 - Democracy and Emergency (W)

GER

3/B

This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.

prereq: ENGL 12000

4

4

POLSC 30400 - Contemporary Issues in Political Theory
GER
3/B

Selected topics in political theory.
prereq: ENGL 12000 or its equivalent; one course in political theory subfield or perm instr
3 hrs
3 cr.
-or-

POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.
prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.
-or-

POLSC 30900 - Feminist Political Theory (W)

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.
cross-listed WGST 30900 (W)
prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.
-or-

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.
prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

Political Science - BA

Hunter Core Requirement
Several courses within this major fulfill parts of the Hunter Core Requirement (CUNY Common Core, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path of the major. Details of the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of political science, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLSC 11000</td>
<td>US Experience in its Diversity</td>
</tr>
<tr>
<td>POLSC 10000</td>
<td>World Culture/Global Issues</td>
</tr>
<tr>
<td>POLSC 25000</td>
<td>World Culture/Global Issues</td>
</tr>
<tr>
<td>POLSC 20000</td>
<td>Individual and Society</td>
</tr>
<tr>
<td>POLSC 27000</td>
<td>World Culture/Global Issues</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core.

Courses Required for the Major (30 credits)

30 credits for students declaring after September 1, 2009

Majors are required to take at least one course in each of the four following subfields of the discipline:

1. American Government
2. Political Theory
3. Comparative Politics
4. International Relations

Students may distribute their remaining courses in the major as they see fit. However, students contemplating graduate work are encouraged to specialize appropriately in consultation with the department's faculty members.

No more than two introductory (100-level) courses can be applied toward the major. Majors are strongly encouraged to take the introductory courses to the subfields (POLSC 20000 — political theory, POLSC 25000 — comparative politics, and POLSC 25000 — international relations) as they are required prerequisites for some 300-level courses. Majors must complete at least three 300-level courses (from any subfields).

No more than 6 credits in internship, independent study, and/or experiential courses (such as Model United Nations) may be used to satisfy the 30 credits in the major. Also, such credits may not be used to satisfy the distribution requirements in the four fields. Courses taken for Credit/No Credit may not be applied toward the major.

Minor in Political Science

Students minoring in political science must complete 12 credits in political science. No more than three credits can be at the 100-level. No more than three credits in independent study can be used to satisfy the minor. Internship credits may not be applied toward the minor.

The minor in Political Science is designed to provide students with solid grounding in political science and to encourage them to develop depth in the discipline in an area that will complement their major or develop expertise in an area of particular interest to them. To complete a minor in Political Science, students must complete 12 credits in Political Science with no more than 3 credits at the 100 level. Students may apply up to 3 credits of independent study in Political Science POLSC 29001-29003; however, internship credit may not be applied to the minor.
The minor in Political Science offers students considerable flexibility in designing a minor that will best serve their academic goals. Students may, for instance, wish to focus on courses dealing with European politics and foreign policy to complement a major in a European language and culture. Other students may wish to emphasize courses in international and public law in preparation for law school. Students may concentrate their courses in one field of political science, or spread them across several fields. Students may consult an advisor in the Department of Political Science about their goals as they choose courses to satisfy the minor.

Interdepartmental Fields

Political Science department faculty are actively involved in many interdisciplinary programs at Hunter College. Students who want to do work in political science as part of the following interdepartmental programs should refer to the appropriate programs in this catalog.

- Minor in Asian American Studies
- Human Rights
- Jewish Studies - BA
- Latin American and Caribbean Studies - BA
- Public Policy
- Women and Gender Studies - BA

Honors

To complete the requirements for departmental honors in Political Science at graduation, students must have at least 30 credits in Political Science and be eligible for graduation in the semester that they formally complete department honors. At least 21 of these credits (or in exceptional cases, 18) must be taken in the Political Science Department at Hunter College. In the case of transfer students, the student's faculty supervisor must recommend an exception to this policy; however, in no case should a student who has taken fewer than 15 credits in academic coursework (excluding internships or other experiential education courses) in political science at Hunter College be recommended for departmental honors.

In addition, students must 1) have a GPA in the major of not less than 3.5; 2) complete two supervision-based courses (POLSC 49100 and POLSC 49200), which focus on the inception and completion of the honors thesis, respectively; and 3) complete POLSC 49300.

The thesis should be a major paper of approximately 25 pages in length that reflects serious scholarship in an honors course. Students should enroll in POLSC 49200 under the supervision of a faculty member with whom the student has done prior coursework and who has agreed to supervise the student's honors project. Students seeking to graduate with departmental honors should begin to plan the sequence of honors work at least two semesters in advance of their expected graduation date.

Approval for Honors will come from the Supervisor. Once students have received the approval of the Sponsor, the thesis can be submitted for departmental honors. Successful completion of departmental honors includes a formal presentation of the thesis to the Honors Committee. Final papers must be deposited in the department office.

Pi Sigma Alpha

Students interested in joining this honor society should consult with Professor Leonard Feldman, 1702 Hunter West, (212)396-6246, lfeldman@hunter.cuny.edu.

Writing Corequisite and Prerequisites
Introductory, intermediate and advanced political science courses require significant expository writing and ENGL 12000 as a co- or prerequisite. To assure that students are ready for these courses, they should be enrolled in ENGL 12000 (or its equivalent) or have successfully completed the course. For all 100-level courses, ENGL 12000 (or its equivalent) is a prerequisite or co-requisite; for all 200-level, 300-level and 400-level courses, ENGL 12000 (or its equivalent) is a prerequisite.

Seminar/Internship Program in New York Government

This university-wide program is designed to bridge the gap between academic study and the practical world of government. Each year approximately 300 students are selected as CUNY interns. Hunter College students participate by enrolling in POLSC 22200/22300. Interns spend eight to ten hours a week in agencies, political offices or community groups working on administrative or research assignments related to urban affairs and services.

They attend a weekly classroom seminar at Hunter and monthly meetings of the entire program at the CUNY Graduate School. Prominent government officials, political leaders, community representatives and academic experts participate in both the weekly and monthly meetings. Students are advised to have taken prior coursework in American politics and to have at least a 3.0 GPA prior to being admitted to this program. For further information, consult the Department of Political Science.

Other Internships

Students may wish to consider internships in any field of political science, and receive credit through POLSC 29801-29806. The department does not offer internship credits to students in their first semester at Hunter College or to students who have never taken a political science course at Hunter. Up to 6 credits in internship work (POLSC 29801-29806) may be used to satisfy requirements for the major. As a general rule, a student who takes POLSC 29801-29806 must be supervised by a full-time faculty member with whom the student has done prior coursework and who has agreed to supervise the student’s internship. Additional internship credits may be used as electives toward graduation.

Preparation for Graduate Study

Many political science majors go on to graduate study. Students considering graduate work should consult members of the political science faculty.

Awards and Prizes

The Political Science Department confers recognition on its outstanding graduates through prizes and awards. The Katherine Duffy Prize and the David Haight Memorial Prize are presented annually to graduating political science majors.

Scholarships

The Political Science Department may award the Joan Pincus Scholarship to students majoring in political science who have achieved at least sophomore status, have an excellent academic record and have demonstrated financial need. For additional information, see the department chair or a departmental adviser.

Degree Map

Degree Map for Political Science
Psychology

Overview

Psychology is concerned with all aspects of the study of behavioral, developmental and cognitive processes, and employs a broad spectrum of approaches, from the social to the biological to understand them. The Hunter College Psychology program reflects the diversity of psychology as a science and as a profession. Its course offerings span this spectrum from clinical, social and developmental psychology to experimental psychology, ethology, biopsychology and behavioral neuroscience. Although Psychology is a large department, students have personal contact with faculty members through an extensive advisement system, involvement in departmental activities and committees, supervised field placement and participation in research laboratories under the guidance of faculty mentors as part of our independent study, honors, BP-ENDURE, MARC (Minority Access to Research Careers) & MBRS/RISE ( Minority Biomedical Research Support/Research Initiative for Scientific Enhancement) programs. A broad range of applied and research opportunities are available within the department in developmental psychology, social psychology, human adjustment, animal behavior, physiological psychology and abnormal psychology. Departmental affiliations with mental health and community organizations make it possible for students to integrate their academic studies of personality, abnormal and child psychology with supervised practical experience by means of field placements and opportunities for applied research. The faculty and facilities of various subprograms within the CUNY Psychology doctoral program and our master's program in General Psychology and in Animal Behavior and Conservation are integral parts of the Hunter College Psychology program. These programs provide course concentrations in a number of different areas within psychology and offer undergraduate students research and other opportunities to interact with graduate students. Qualified students in their last semester may be admitted to graduate courses with the approval of the instructor and the department's graduate adviser.

What can I do with my degree in Psychology?

The Psychology major, as part of the bachelor's degree program, prepares the student for many career possibilities in psychology, education, social and welfare services, health services and industry and fulfills the course requirements for entering most psychology graduate programs. A background in psychology combined with special training in other disciplines within the college may be especially useful in preparing for careers in human resources, medicine, law, nursing, speech pathology, social work, special education, counseling and music, art and dance therapy.

Faculty

Psychology Faculty

HEGIS Code: 2001

Biopsychology Content Area with Corresponding Focus Areas

Animal Behavior

**PSYCH 22500 - Ethology: Animal Behavior**

**GER**  
3/B

Adaptation, survival, reproduction and evolution of behavior, emphasizing development and species-comparison. Writing Intensive  
prereq: PSYCH 10000 and any other 3 cr PSYCH course  
prereq or coreq: ENGL 12000  
3 hrs  
3 cr.

**PSYCH 32000 - Neuronal Basis of Behavior (Neuroethology)**

This course is designed primarily for upper level undergraduates who already have an introductory background in animal behavior, neurobiology and Psychology. The course will review the rapidly expanding field of neuroethology, providing a general introduction to the subject and some of its many model systems.  
prereq: ENGL 12000, Completion of PSYCH 24900 or 25000  
3 hrs.  
3 cr.

**PSYCH 32100 - Animal Orientation**

Organisms must orient to survive, including to secure shelter and food, or find mates, and return to a familiar home. This course provides an advanced understanding of how animals achieve these tasks and evaluates possible behavioral, physiological, and molecular mechanisms for orientation.
prereq: ENGL 12000; Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

**PSYCH 32400 - Communication Behavior**

This course will examine behaviors that exchange information, the evolution of the signals that carry the message, and the senses that receive it. Both human nonverbal and animal communication systems will be analyzed. Students will conduct field and library research on specific communicative behaviors.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*
3 hrs
3 cr.

**PSYCH 38100 - Current Topics in Animal Behavior**

Finding mates, securing shelter and food, and returning to a familiar home are ubiquitous animal functions which often require complex navigational strategies. This course will provide an advanced undergraduate level survey of the history of the field of animal orientation, and expound on ontogeny, mechanisms, and function of orienting behaviors.

*prereq: PSYCH 10000, PSYCH 16000 (Evolution and Behavior); PSYCH 22500 (Ethology); PSYCH 24800 (Psychological Statistics). Open only to psychology majors.*
3 hrs
3 cr.

**Physiological Psychology**

**PSYCH 22400 - Neuroscience**

The aim of this course is to introduce you to the biological and physiological aspect of the science of Psychology. Biopsychology is the subarea of Psychology that takes a biological approach to understanding behavior. Biopsychologists study the biological events - genetic, neural, endocrine- that underlie each and every one of our thoughts, feelings, and actions. This course will explore what is currently known about the biological basis of emotional responses, mental illness, sexual behavior, memory, states of consciousness, sensory perception, thought and language, and several neurological disorders.

*prereq: PSYCH 10000 and any other 3 CR PSYCH Course; completion of ENGL 12000 with a minimum grade of C*
3 hrs.
3 cr.

**PSYCH 30000 - Physiological Psychology**

**GER**
3/B

Neural and endocrine mechanisms involved in learning, emotion, perception and other psychological processes. PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

*prereq: ENGL 12000, PSYCH 24900 or 25000 and PSYCH 22400*
3 hrs
3 cr.
PSYCH 30100 - Sensation and Perception

GER
3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

*prereq: ENGL 12000, PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology

Pluralism and Diversity
PD/C
GER
3/B

An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.

*prereq: ENGL 12000, PSYCH 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

PSYCH 31600 - Cognitive Neuroscience

The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32100 - Animal Orientation

Organisms must orient to survive, including to secure shelter and food, or find mates, and return to a familiar home. This course provides an advanced understanding of how animals achieve these tasks and evaluates possible behavioral, physiological, and molecular mechanisms for orientation.

*prereq: ENGL 12000; Completion of PSYCH 24900 or 25000 and PSYCH 22500
3 hrs
3 cr.

PSYCH 32700 - Motivation and Emotion
The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

*prereq: ENGL 12000, PSYCH 24900 or 25000; and PSYCH 22400*

3 hrs
3 cr.

**PSYCH 36900 - Behavioral Pharmacology**

The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

*prereq: ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr. and PSYCH 22400*

3 hrs
3 cr.

**PSYCH 38200 - Current Topics in Biopsychology**

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of biological psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

*prereq: PSYCH 22400 (Neuroscience) PSYCH 25000*  
*Open only to psychology majors.*

3 hrs
3 cr.

**Cognitive/Developmental Psychology Content Area with Corresponding Focus Area**

**Cognitive Psychology**

**PSYCH 24300 - Cognitive Processes**

A survey of theoretical issues and empirical research on human cognition including attention, perception, memory, representation of knowledge, language, and problem solving.

*prereq: 6 cr. in PSYCH including PSYCH 10000*

3 hrs
3 cr.
**PSYCH 31600 - Cognitive Neuroscience**

The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*

3 hrs

3 cr.

**PSYCH 32200 - Psychology of Language**

**GER**

3/B

Psychological and psychophysical basis of language comprehension, production and acquisition from experimental and theoretical perspectives; the relationship between language and the cognitive processes of perception, memory and representation.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

*prereq: ENGL 12000, PSYCH 24900 or 25000, PSYCH 27000 or perm instr.*

3 hrs

3 cr.

**PSYCH 32400 - Communication Behavior**

This course will examine behaviors that exchange information, the evolution of the signals that carry the message, and the senses that receive it. Both human nonverbal and animal communication systems will be analyzed. Students will conduct field and library research on specific communicative behaviors.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*

3 hrs

3 cr.

**PSYCH 32500 - Animal Cognition**

This course will focus on various topics and readings in animal cognition within and across species from the perspectives of animal behavior, cognitive ethology and comparative cognition. In addition to familiarizing the students with what is currently known, the course is designed to stimulate critical and creative thinking about how we investigate and understand the minds and behavior of animals as diverse as chimpanzees, dolphins, elephants, monkeys, pigeons and humans. It will focus on various topics and readings in animal cognition including categorization, discrimination learning, decision making, social learning, tool use, culture and communication.

*prereq: ENGL 12000, PSYCH 24900 -or- 25000; and PSYCH 22500 -or- 24300*

3 hrs.

3 cr.

**PSYCH 32800 - States of Consciousness**

**GER**

3/B
The subjective and physiological aspects of consciousness; the means by which it may be altered: hypnosis, dreams, drugs, meditation and mysticism; psychosis.

*prereq: ENGL 12000; PSYCH 24900 -or- 25000; and PSYCH 24300*

3 hrs

3 cr.

**PSYCH 32900 - Cognitive Science**

Introduction to cognitive science, the interdisciplinary study of the human mind from the perspectives of psychology, linguistics, computer science, neuroscience, and philosophy.

*prereq: PSYCH 24800 with a minimum grade of C; completion of PSYCH 24800 or 25000; declaration of the psychology major*

3 hrs

3 cr.

**PSYCH 33000 - Memory and Attention**

This course is intended to provide an introduction to the processes associated with memory, attention, and their development, with particular attention given to classic and contemporary theories, and to how they interact with factors such as biology, age, culture and experience.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*

3 hrs

3 cr.

**PSYCH 33100 - Social Cognition of Gender**

The course examines the social cognitive and motivational processes that a) underpin beliefs about and evaluations of men and women, b) affect behaviors toward and by men and women, and c) change or entrench attitudes and behaviors.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*

3 hrs

3 cr.

**PSYCH 35000 - Learning**

*GER*

3/B

Theoretical and experimental approaches to human and animal learning; the relationship between systematic theory models and methodology; analysis of the historical and contemporary major contributions to learning theories.

*prereq: ENGL 12000, PSYCH 24900 or 25000*

3 hrs

3 cr.

**PSYCH 37000 - Cognitive Development**

*GER*

3/B

A comparative information processing perspective on the development of mental structure and functioning, including
perception, memory, problem solving, self-awareness of thinking, intelligence, concept formation and language development.

prereq: ENGL 12000, PSYCH 24900 or 25000, PSYCH 27000 or perm instr.
3 hrs
3 cr.

PSYCH 38300 - Current Topics in Cognitive Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in selected areas in cognitive psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term. Students may take a Current Topics in Cognitive Psychology course twice.

prereq: completion of PSYCH 25000 and 24300 with a grade of C or better
3 hrs
3 cr.

Developmental Psychology

PSYCH 21000 - Child Development

GER
3/B

Emotional, social, motor and cognitive development as influenced by genetic, cultural and individual factors during the first twelve years of life. (May not be taken for credit by students who have a collateral major, or a minor, in education.)

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21200 - Exceptional Childhoods

GER
3/B

Special problems of adjustment and training of exceptional children, including the gifted as well as the intellectually, emotionally and physically handicapped.

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21300 - Children & Adolescents with Autism

A theoretical and practical introduction to the social, biological, behavioral, and educational theories that guide our understanding of children and adolescents with Autism Spectrum Disorder (ASD). Focusing on this important public
health issue, students learn how these theories inform public awareness, the experiences of families affected by this disorder, the development and implementation of interventions, and public policy.

prereq: PSYCH 10000 and PSYCH 15000 (Human Development) or departmental permission
3 hrs
3 cr.

PSYCH 21400 - Adults with Developmental Disabilities

A theoretical and practical introduction to the key issues and challenges that affect the lives of adults with developmental disabilities, including adults with Autism Spectrum Disorder. Covered topics include person-centered planning, self-determination, transition planning, post-secondary education, employment, residential supports, and community living. Students learn how these challenges inform services that support full inclusion and improve quality of life.

prereq: PSYCH 10000 and PSYCH 15000 (Human Development) or departmental permission
3 hrs
3 cr.

PSYCH 31000 - Research Methods in Developmental Psychology

GER
3/B

Open to declared majors only. Theory and research in selected areas of developmental psychology. PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 15000 or 21000, PSYCH 24900 or 25000, perm instr.
3 hrs
3 cr.

PSYCH 31300 - Adolescence

This course reviews the physical, cognitive, emotional, and social changes that typically occur during adolescence. Topics include classic and contemporary theories of adolescent development and the interactions between adolescents and their social and cultural environments.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 31500 - Adult Development

GER
3/B

Open to declared majors only. Theories and research concerning the personal and social development of men and women in adulthood; ongoing changes with age related to physical growth and decline, including marital, parental and interpersonal relationships, occupational roles, leisure activities, disability and approaching death.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the
previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000, PSYCH 15000 or 21000, PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32300 - Developmental Psychopathology

GER
3/B
Survey and evaluation of empirical and theoretical approaches to the major psychological abnormalities that arise in childhood and adolescence; their characteristics, causes and treatments.

prereq: ENGL 12000, PSYCH 24900 or 25000 and PSYCH 21000 or 22300
3 hrs
3 cr.

PSYCH 33200 - Attitudes and Persuasion

This course reviews basic theory and research applications on attitudes and attitude change processes, including how attitudes are measured, used to predict behavior, and, to persuade individuals.

prereq: ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 or 23000
3 hrs
3 cr.

PSYCH 33300 - Advanced Social Psychology Theory and Methods

In-depth training in the concepts and skills necessary for conducting scientific research in social psychology. Core concepts in social psychology are used as the basis for case-studies in which different methods for examining constructs are illustrated and compared.

prereq or coreq: PSYCH 24800 with a minimum grade of C; completion of PSYCH 24900 or 25000; declaration of the psychology major.
3 hrs
3 cr.

PSYCH 33400 - Cultural Psychology

As ours society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 36100 - Psychological Tests
Introduction to the principles of psychological assessment; major methods of measuring general ability, aptitude, achievement, interest, personality. Appraisal of psychological tests.

*prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.*

**PSYCH 37000 - Cognitive Development**

A comparative information processing perspective on the development of mental structure and functioning, including perception, memory, problem solving, self-awareness of thinking, intelligence, concept formation and language development.

*prereq: ENGL 12000. PSYCH 24900 or 25000, PSYCH 27000 or perm instr.
3 hrs
3 cr.*

**PSYCH 38400 - Current Topics in Developmental Psychology**

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of developmental psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

*prereq: PSYCH 21000 (Child Development); PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs
3 cr.*

**Degree Map for Psychology**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Psychology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

**Freshman Year**

**Fall**

**ENGL 12000 - Expository Writing**
**Hunter Core**  
**English Comp (EC)**  
**GER**  
1/A  

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.  
*prereq: successful completion of developmental courses, if required*  
3 hrs + conf  
3 cr.  

**PSYCH 10000 - Introduction to Psychology**  

**GER**  
2/B  

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.  
3 hrs  
3 cr.  

- Math & Quantitative Reasoning (Note: Based on math placement test results: MATH 101* or MATH 101EN* OR STAT 113** or MATH 125** only STAT 113 or MATH 125 satisfies MQR; Must earn C or better)  
- Life and Physical Sciences (must be lab science course, minimum 4 credits)  
- Elective (1 cr)  

**Spring**  
- English Composition 2  
- STAT 11300 Elementary Probability and Statistics **-or- MATH 12500 (STEM) Precalculus ** (if MATH 101 or MATH 101EN is taken in fall or ELECTIVE (Must earn C or better)  
- Individual & Society/ Social Sciences  
- World Cultures & Global Issues  
- PSYCH 1 (must earn B or better)  

**Sophomore Year**  

**Fall**  
- PSYCH 2 (from Content Area options)  
- Scientific World (must be lab science course, minimum 4 credits)  
- Foreign Language Elementary Level 1  
- US Experience in Its Diversity  
- Elective  

**Spring**
PSYCH 24800 - Statistical Methods in Psychological Research

GER
3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam
prereq or coreq: ENGL 12000

4 hrs
4 cr.

- PSYCH 2
- Foreign Language Elementary Level 2
- Creative Expression
- Individual & Society/ Humanities

Junior Year

Fall

PSYCH 25000 - Experimental Psychology: General

GER
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYCH 24800 with a minimum grade of C

6 hrs (2 lec, 4 lab)
4 cr.

- PSYCH 2 (from different Content Area options)
- Foreign Language Intermediate Level 3
- Elective
- Elective

Spring
• PSYCH 2 or 3 (Major elective 1)
• Foreign Language Intermediate Level 4
• Elective
• Elective
• Elective

Senior Year

Fall

• PSYCH 3 (from Psychology Focus Area options)
• PSYCH 2 or 3 (Major elective 2)
• Elective
• Honors Research or elective
• Elective

Spring

• PSYCH 3 (from Psychology Focus Area options)
• Honors Research or elective
• Elective
• Elective (3-6 cr)

Notes:

• Meet with the Psychology advisor prior to second year.
• Declare major at or before 60 earned credits.
• Plan to accumulate at least 90 earned credits by the end of the third year.
• Select Focus Area of Study in Psychology in consultation with the Psychology major advisor.
• Discuss Honors option with the Psychology major advisor.
• Incorporate research experiences into the plan of study.

Minor in Psychology

The minor in psychology is designed to expose students to a variety of content areas in the field of psychology and to provide the student with the ability to evaluate psychology research as a consumer. To declare a psychology minor, the student must have completed any 100-level psychology course with a minimum grade of C and a required mathematics course with a minimum grade of C or CR. The mathematics requirement may be satisfied by STAT 11300 or MATH 12500 or by an appropriate score on the mathematics placement test. The minor in Psychology consists of 15 credits in Psychology, as follows: PSYCH 10000 and any other 3 cr. PSYC course; PSYCH 21500; and any 2 200-level PSYC courses below PSYCH 24800. The total number of credits to fulfill all minor requirements, including credits for all prerequisites, is 18: 15 credits in PSYC course and 3 credits in STAT 11300 or MATH 12500.

Psychology - BA
Courses Required for the Major (43-50 credits)

Psychology is organized around eight (8) tracks grouped within three (3) broad content areas.

The major consists of:

1. Introductory courses 6-13 credits
2. Statistics and Experimental 8 credits
3. Content/track focus 21 credits
4. Two science with lab 8 credits

I. Introductory Courses (6-13 credits)

In order to continue in the major, students must complete the Introductory courses in psychology as listed below with a minimum grade of B and a required mathematics course with a minimum grade of C or CR and have a minimum GPA of 2.00. The mathematics requirement may be satisfied by STAT 11300 or MATH 12500 (STEM), or by earning exemption from the mathematics requirement. Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

The major must be declared in person with an undergraduate psychology adviser. (Refer to http://hunter.cuny.edu/psychology for schedule.) The student must bring his/her Hunter transcript (and where relevant, transcripts from all other colleges attended) when meeting with the adviser to declare a psychology major.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

-or-
MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

Choose one of the following:

PSYCH 14000 - Psychological Adjustment

GER
2/B

Styles of adjustment; social interaction; self-concept and self-esteem: stress management; alienation; failures of adjustment.
prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 15000 - Human Development

GER
2/B

Development from conception to death; biological, physiological and social factors and their interactions at each stage.
prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 16000 - Evolution and Behavior
GER 2/B

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 17000 - Psychology of Human Sexuality

Pluralism and Diversity
PD/C
GER 2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.
cross-listed WGSS 17000
prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 17100 - Stress and Coping

A theoretical and practical introduction to stress processes and coping behaviors. The course explores the social, biological, behavioral, and clinical theories that guide our understanding of stress and coping and translated into testable interventions for managing stress and mitigating its negative effects.

prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 18000 - Brain and Behavior

GER 2/B

Brain structure, function and relation to behavior. Topics include the neural basis of perception, learning and memory, consciousness, motivation, emotion.

prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 19000 - Development of Gender Roles

Pluralism and Diversity
PD/C
GER 2/B

Social, cognitive, hormonal and personality factors in development of gender roles; determinants of behavioral and
cognitive gender differences.

cross-listed WGSS 19000

prereq: PSYCH 10000

3 hrs

3 cr.

II. Statistics and Experimental Psychology- 8 cr.

PSYCH 24800 - Statistical Methods in Psychological Research

GER

3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam

prereq or coreq: ENGL 12000

4 hrs

4 cr.

PSYCH 24900 - Experimental Psychology: Social

GER

3/B

Introduction to the principles of research methodology and experimental techniques. Required research reports involve laboratory and field exercises concerned with a variety of social psychological phenomena. (Students may take either PSYC 249 or 250, but not both.)

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYC 24800 with a minimum grade of C

prereq or coreq: Writing Intensive

6 hrs (2 lec, 4 lab)

4 cr.

III. Content/track focus 21 credits

The psychology major is organized around three Content Areas and their corresponding Focus Areas.

The Content Areas are
The **Focus Areas** (tracks) are

- General Psychology
- Animal Behavior
- Physiological Psychology
- Cognitive Psychology
- Developmental Psychology
- Social Psychology
- Clinical Psychology
- Health Psychology

**Content Areas with Corresponding Focus Areas**

- Biopsychology Content Area with Corresponding Focus Areas
- Cognitive/Developmental Psychology Content Area with Corresponding Focus Area
- Social/Clinical/Health Psychology with Corresponding Focus Areas

1. **200-level Courses in Each Content Area - 9 cr.**

Three (3) 200-level courses*, one (1) in each of 3 content areas (Biopsychology, Cognitive/Developmental Psychology, Social/Clinical/Health Psychology)

One of these three courses must be within the student's chosen Area of Focus (Animal Behavior, Physiological Psychology, Cognitive Psychology, Developmental Psychology, Social Psychology, Clinical Psychology, or Health Psychology). Students selecting the "General Psychology" Focus Area must take one 200-level course in each of the three Content Areas.

2. **Two (2) 300-level courses within the chosen Focus Area - 6 cr.**

Note: Students selecting the General Psychology focus area must take two (2) 300-level courses in any area of Psychology

3. **Two (2) electives at the 200 or 300 level - 6 cr**

IV. Two Science course with Lab - 8 cr

**Degree Map for Psychology**

**Psychology: Concentration in Behavioral Neuroscience**

**Purpose**
The Behavioral Neuroscience Concentration within Psychology provides interdisciplinary training for students preparing for academic or professional careers in neuroscience-related areas. The concentration brings together students from Psychology and Biology in a set of core courses and offers mentored research experience in faculty laboratories, opportunities for student research presentations and talks by distinguished visiting neuroscientists. The neuroscience concentration is a particularly good option for students who plan to do graduate study in neuroscience or neuroscience-related fields or attend medical school for neurology, neurosurgery, or psychiatry specialties. Because of the large number of required courses in the concentration, it is very important that interested students meet with the concentration adviser as early in their college career as possible no later than the start of their Sophomore year. The concentration adviser is Prof. Philip Zeigler, ((212) 772-5363; Room 626 Hunter North).

The Concentration has three, equally important components: Stem Courses (Levels 1 and 2), Neuroscience Electives (Level 3), and Mentored Honors research.

Courses Required for the Major (34.5-47.5 credits)

Admission to the program requires completion of the following courses:

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200*

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

*spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior, ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.*

7 hrs (3 lec, 3 lab, 1 disc)
CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

PSYCH 22400 - Neuroscience

The aim of this course is to introduce you to the biological and physiological aspect of the science of Psychology. Biopsychology is the subarea of Psychology that takes a biological approach to understanding behavior. Biopsychologists study the biological events - genetic, neural, endocrine- that underlie each and every one of our thoughts, feelings, and actions. This course will explore what is currently known about the biological basis of emotional responses, mental illness, sexual behavior, memory, states of consciousness, sensory perception, thought and language, and several neurological disorders.

prereq: PSYCH 10000 and any other 3 CR PSYCH Course; completion of ENGL 12000 with a minimum grade of C
3 hrs.
3 cr.

PSYCH 24800 - Statistical Methods in Psychological Research

GER
3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

_prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam
_prereq or coreq: ENGL 12000

4 hrs
4 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

_prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
_prereq or coreq: ENGL 12000

3 hrs
3 cr.

PSYCH 25000 - Experimental Psychology: General

GER
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

_prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade;
PSYCH 24800 with a minimum grade of C
6 hrs (2 lec, 4 lab)
4 cr.

**PSYCH 14000 - Psychological Adjustment**

**GER**
2/B

Styles of adjustment; social interaction; self-concept and self-esteem; stress management; alienation; failures of adjustment.

*prereq: PSYC 10000*

3 hrs
3 cr.

- Three 200-level courses, one in each of 3 content areas * One of these three courses must be within the students chosen Area of Focus
- Note: Students selecting the "General Psychology" Focus Area must take one 200 level course in each of the three Content Areas
- Two 300 level courses within the chosen Focus Area. Students selecting the General Psychology Focus Area must take two 300 level courses in any area of Psychology (6 cr)

**Psychology electives at the 200 or 300 level (6 cr)**

**BIOL 47100 - Special Topics in Biology**

**GER**
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

*prereq: BIOL 30000*

3 hrs (lec)
3 cr. per sem.

**BIOL 20300 - Molecular Biology and Genetics**

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

*prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)*

*coreq: CHEM 22200, 22300 or perm instr.*

7 hrs
4.5 cr.

spring only

**CHEM 10600 (STEM) - General Chemistry Laboratory**
Hunter Core  
Life and Physical Sciences (LPS); Scientific World (SW)  

**Pluralism and Diversity**  
GER 2/E  
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.  
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.  
*prereq: CHEM 10200*  
*coreq: CHEM 10400*  
6 hrs  
3 cr.  

**CHEM 22200 - Organic Chemistry Lecture I**  
GER  
GER 3/B  
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.  
*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300*  
*prereq: CHEM 10400 with a grade of C or better*  
5- 6 hrs (4 lec, 1-2 recitation/workshop)  
4 cr.  

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**  
Hunter Core  
Math/Quantitative Reasoning  
GER 1/B  
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*  
4 hrs  
4 cr.  

**PSYCH 39600 - Honors in Psychology**  
Independent, sponsored, empirical research and seminar. Students are expected to attend the regularly scheduled seminar. An APA-style research report or its equivalent (to be filed in the department) is a requirement of this course.  
To graduate with departmental honors, the student must receive a grade of A in PSYCH 39600. Honors in Psychology is typically a one-semester course; however, when a PSYCH 39600 research project extends beyond a single semester, the student may (with permission) register for a second semester as PSYCH 39800. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.  
*prereq: ENGL 12000, PSYCH 24900 or 25000; 3.5 major GPA; 3.00 cumulative GPA; perm instr.*  
3 hrs  
3 cr.  

**PSYCH 39800 - Honors in Psychology**
Independent sponsored research and seminar. Attendance at regularly scheduled seminar and research report required. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: PSYCH 39600, perm instr.
3 hrs
3 cr.

Electives

Nine credits from the following (at least 3 must be from Biology)

**BIOL 37000 - Physiology of the Nervous System**

**GER**
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

prereq: BIOL 30000 or perm instr.
4 hrs (lec)
4 cr.
spring only

**BIOL 37600 - Endocrinology**

**GER**
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

**BIOL 38000 - Molecular Neurobiology**

**GER**
3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.
3 lec hrs
3 cr.
fall only

**PSYCH 30100 - Sensation and Perception**
Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology

Pluralism and Diversity
PD/C
GER
3/B

An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.

prereq: ENGL 12000. PSYCH 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

PSYCH 31600 - Cognitive Neuroscience

The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32700 - Motivation and Emotion

GER
3/B

The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

prereq: ENGL 12000, PSYCH 24900 -or- 25000; and PSYCH 22400
3 hrs
3 cr.

PSYCH 36900 - Behavioral Pharmacology
This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

Prereq: ENGL 12000. PSYCH 24900 or 25000. PSYCH 30000 or perm instr. and PSYCH 22400
3 hrs
3 cr.

PSYCH 38200 - Current Topics in Biopsychology

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of biological psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

Prereq: PSYCH 22400 (Neuroscience) PSYCH 25000 Open only to psychology majors.
3 hrs
3 cr.

Social/Clinical/Health Psychology with Corresponding Focus Areas

Social Psychology

PSYCH 22000 - Personality

GER
3/B

Review of the contributions to the understanding of normal personality in the theories of the Freudian and other analytical schools; of Allport, of representative behaviorist groups and of constitutional typologists; also, methods of assessing and understanding individual personality.

Writing Intensive
Prereq: PSYCH 10000 and any other 3 cr PSYCH course
Prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 23000 - Social Psychology

GER
3/B

Problems of human experience and behavior in the social context; theories and current methodology in research on the influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice; leadership; group processes.

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 23500 - The Psychology of Women

Pluralism and Diversity
PD/C
GER
3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.
Writing Intensive cross-listed WGSP 23500 (W)
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 31300 - Adolescence

This course reviews the physical, cognitive, emotional, and social changes that typically occur during adolescence. Topics include classic and contemporary theories of adolescent development and the interactions between adolescents and their social and cultural environments.
prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 33100 - Social Cognition of Gender

The course examines the social cognitive and motivational processes that a) underpin beliefs about and evaluations of men and women, b) affect behaviors toward and by men and women, and c) change or entrench attitudes and behaviors.
prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 33200 - Attitudes and Persuasion

This course reviews basic theory and research applications on attitudes and attitude change processes, including how attitudes are measured, used to predict behavior, and, to persuade individuals.
prereq: ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 -or- 23000
3 hrs
3 cr.

PSYCH 33300 - Advanced Social Psychology Theory and Methods

In-depth training in the concepts and skills necessary for conducting scientific research in social psychology. Core concepts in social psychology are used as the basis for case-studies in which different methods for examining constructs are illustrated and compared.
prereq or coreq: PSYCH 24800 with a minimum grade of C; completion of PSYCH 24900 or 25000; declaration of the
psychology major.
3 hrs
3 cr.

PSYCH 33400 - Cultural Psychology

As our society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 38500 - Current Topics in Social Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in selected areas within social psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

prereq: PSYCH 23000 (Social Psychology; PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs
3 cr.

Clinical Psychology

PSYCH 22300 - Abnormal Psychology

GER
3/B

Consideration of psychological abnormalities; symptoms, etiology, diagnostic procedures and therapy.
Writing Intensive

prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 32300 - Developmental Psychopathology

GER
3/B

Survey and evaluation of empirical and theoretical approaches to the major psychological abnormalities that arise in childhood and adolescence; their characteristics, causes and treatments.

prereq: ENGL 12000, PSYCH 24900 -or- 25000 and PSYCH 21000 -or- 22300
PSYCH 34100 - Stress, Trauma, and Resilience

This course covers the interrelated topics of stress, trauma, and resilience. The course uses a clinical science perspective to explore both normative (healthy) and problematic physiological and psychological responses to stress and trauma, as well as factors that influence resilience.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 34200 - Emotion: Function and Dysfunction

Focus of the course will be on understanding the role of emotion in both functional and dysfunctional contexts. Through readings, class discussion, and lecture, we will address how emotions can both be vital for survival yet at the heart of so many mental disorders.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 34400 - Clinical Psychology

Clinical psychologists engage in a wide range of activities including research, teaching, assessment, administration, consultation. This course will discuss controversial issues regarding how to best define clinical psychology in a modern health practice context.

prereq: ENGL 12000, Completion of PSYCH 24900 or 250
3 hrs.
3 cr.

PSYCH 36100 - Psychological Tests

GER
3/B

Introduction to the principles of psychological assessment; major methods of measuring general ability, aptitude, achievement, interest, personality. Appraisal of psychological tests.

prereq: ENGL 12000, PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 38600 - Current Topics in Clinical Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of clinical psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

prereq: PSYCH 22300 (Abnormal Psychology); PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs.
3 cr.
Health Psychology

PSYCH 24200 - Health Psychology

GER
3/B

Psychological and behavioral factors related to physical illness and health promotion, including such areas as aging, stress and coping, pain, addiction and eating disorders.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 36200 - Psychological Determinants of Health Disparities

Current research, theory, and applications related to the psychological determinants of health disparities that are experienced as a function of population characteristics, including race/ethnicity, gender, age, socioeconomic status, and sexual orientation.
prereq: PSYCH 24900 or 25000; PSYCH 24200. Open only to psychology majors.
3
3

PSYCH 36300 - Health Behavior Change

A theoretical and practical introduction to health behavior change. The course explores the social and behavioral theories that guide understanding of health behavior and describes how these theories are translated into testable interventions for health promotion, risk reduction, and treatment.
prereq: PSYCH 24200 (Health Psychology); PSYCH 24900 or 25000; Open only to psychology majors.
3 hrs
3 cr.

PSYCH 36400 - Sexuality and Health

This course reviews the field of sexual health research, sexual health policy, and sexual health education and intervention, as well as specific topics such as the role of gender, sexual orientation, and personal motivation in sexual health.
prereq: PSYCH 17000 (Psychology of Human Sexuality); PSYCH 24200 (Health Psychology); PSYCH 24900 or 25000. Open only to Psychology Majors.
3 hrs
3 cr.

PSYCH 36500 - Coping with Chronic Disease

Focuses on current knowledge of psychological adjustment to chronic health conditions, including - intrapersonal, interpersonal and social determinants of adjustment using theory and empirical evidence within a stress and coping framework. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field.
**PSYCH 36600 - Interpersonal Relationships and Health**

This course will familiarize students with current research, theory, and applications related to interpersonal processes and health, emphasizing emotional as well as physical health. It will broadly consider the literature in health psychology and relationship science and therefore maintains a biopsychosocial perspective of health and well-being.  

*prereq: PSYCH 24200 (Health Psychology) or PSYCH 23000 (Social Psychology); PSYCH 24900 or 25000; Open only to psychology majors.*

3 hrs  
3 cr.

**PSYCH 36700 - Biological and Social Bases of Addictive Behavior**

A biopsychosocial approach to understanding risk factors, onset, course, treatment considerations and prognosis for common addictive behaviors. It explores the neurobiological, psychological, pharmacological, and cultural themes that unify the understanding of addictive behaviors.

*prereq: PSYCH 24200 (Health Psychology) or PSYCH 22300 (Abnormal Psychology); PSYCH 24900 or 25000; PSYCH 30000 (Physiological Psychology). Open only to psychology majors.*

3 hrs  
3 cr.

**PSYCH 38700 - Current Topics in Health Psychology**

Contemporary knowledge and issues in the scholarly literature in a focused area of health psychology. Emphases on interdisciplinary approaches and critical thinking, including links to theoretical and empirical foundations of the field. Topics vary each term.

*prereq: PSYCH 24200; PSYCH 24900 -or- 25000; Open only to psychology majors*

3 hrs  
3 cr.

**Religion**

**Overview**

In the program in Religion, students examine the nature of religion and the forms its various expressions have taken. Religion is studied as an academic discipline and the program's approach reflects no doctrinal bias. The purposes of the program are to introduce the field of religion in general; to present the thoughts, documents and history of major religious traditions (both Eastern and Western, ancient and modern, missionary and tribal); and to give students insight into specific religious issues and thinkers. The program consists of a series of core courses taught by specialists in the field, augmented by other religion courses offered by faculty in 8 participating departments or divisions: Anthropology, Africana and Puerto Rican/Latino Studies, Chinese, Classics, Hebrew, History, Philosophy and Sociology. The program is divided into four categories of courses: Introduction to the field of religion (basic introductory courses); Theoretical studies in religion (courses focusing on different methodological approaches to the study of religion); Issues in religion (courses dealing with religious experience, faith, ethics, religion and the arts); and Religious traditions (courses in major religious traditions).
What can I do with my degree in Religion?

Studying theology and religious studies gives you a thorough understanding of the major world religions, their historical development and their relationship with the world we live in. Graduates continue to careers in law, education, business, journalism, social work, medicine and health care.

Degree Map for Religion

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Religion major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Minor in Religion

The Minor in Religion consists of four courses for a total of 12 credits.

- The following two courses are required:
  - REL 11000 - Nature of Religion (W)
  - REL 11100 - Approaches to Religion (W)
- Also required for the Minor in Religion:
  a) one course to be chosen from those listed under the category “Religious Traditions”; and
b) one course from the category “Issues in Religion” reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

**Religion - BA**

Return to: Religion Program Information

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of Religion, the courses that meet CCCR are:

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

A major in religion consists of 30 credits. A sequence of courses for the major normally includes REL 11000-Nature of Religion, REL 11100-Approaches to Religion, REL 25100-Asian Religions, and REL 25300-Abrahamic Religions followed by at least one course in theoretical studies and at least one course in religious issues.

1. Introduction to the Field of Religion
2. Theoretical studies in Religion
3. Issues in Religion
4. Religious Traditions

On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.

I. Introduction to the Field of Religion

REL 11000 - Nature of Religion (W)

**Hunter Core**
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.

GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)

Hunter Core
Individual and Society - Humanities
GER
2/C
It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**prereq: ENGL 12000**

3 hrs
3 cr.

**REL 21000 - Atheism (W)**

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.

**prereq: ENGL 12000**

3 hrs
3 cr.

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

**Hunter Core**

World Cultures and Global Issues (WCGI)

GER

2/C

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

**prereq: ENGL 12000**

3 hrs
3 cr.

**REL 30700 - Religious Ideas in Modern Literature (W)**

**Pluralism and Diversity**

PD/D

GER

3/A

Exploration of religious themes in modern literature.

**prereq: ENGL 12000**

3 hrs
3 cr.

**Pluralism and Diversity**
PD/D
GER
3/A

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31300 - Spirit and Nature (W)**

**Pluralism and Diversity**
PD/D
GER
3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31400 - Religion and Sports (W)**

GER
3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of sport.

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31500 - The Problem of Evil (W)**

**Pluralism and Diversity**
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.

*prereq: ENGL 12000
3 hrs
3 cr.*
REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C - or - PD/D

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31700 - Religion and Film (W)

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of ‘religion and film studies.’ As such, students will explore the nature of vision, representation, and narrative – topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31900 - Religion and the Body (W)

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.
prereq: ENGL 12000
3 hrs
3 cr.

REL 33400 - Mysticism (W)
Pluralism and Diversity
PD/D
GER
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

3 hrs

3 cr.

**REL 32600 - Religious Meanings of the Qur’an (W)**

**GER**

3/A

This course introduces students to the study of the Qur’an based on the traditional Islamic "sciences of the Qur’an" (‘Ulūm al-Qur’ān). Using an introductory text on the Qur’ānic sciences, the course will introduce the traditional areas of concern in the Qur’ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur’an and its exegesis.

**prereq:** ENGL 12000

Independent Study

**REL 41000 - Independent Study in Religion**

Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.

May be taken a second or third time with another subject.

*prereq: perm chair*

hrs TBA
1-6 cr.

Honors

To be eligible for honors classes a student must have the director's permission and at least a 3.5 GPA in the major and cumulatively. To qualify for departmental honors, a student must complete one of the honors courses with a grade of B or above, achieving a final GPA in Religion and cumulatively of at least 3.5.

**REL 45000 - Honors Seminar in Religion**

Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the course requirements for departmental honors.

*prereq: five courses in religion or a major/CUNY-BA focus in religion and perm instr. or program director*

3 hrs
3 cr.

**REL 49000 - Honors Tutorial in Religion**
Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.

prereq: perm chair
hrs TBA
3-6 cr.

Minor in Religion

The Minor in Religion consists of four courses for a total of 12 credits.

The following two courses are required:

**REL 11000 - Nature of Religion (W)**

**Hunter Core**
Individual and Society (Humanities) - I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

**REL 11100 - Approaches to Religion (W)**

**Hunter Core**
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.
prereq: ENGL 12000
3 hrs
3 cr.

Also required for the Minor in Religion:
a) one course to be chosen from those listed under the category “Religious Traditions”; and

b) one course from the category “Issues in Religion” reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

**Romance Languages**

**Overview**

The Department of Romance Languages at Hunter College offers language, culture and literature courses in French, Italian, Spanish, as well as literature and culture courses in English. Our degrees include the undergraduate major and
master's degrees in French, Italian and Spanish. We also offer a Romance Languages major that combines knowledge and understanding of two Romance literatures and cultures. Besides these offerings, the department has recently added a major concentration in Spanish-English/English-Spanish Translation and Interpretation, an expansion of its vision of providing professional training within the context of traditional liberal arts.

**What can I do with my degree in Romance Languages?**

The department is committed to equipping students for professional life: it has continued Hunter's tradition in teacher preparation, and, in conjunction with the School of Education, it sponsors TEP (Teacher Education Program), a selective scholarship-cum-practicum program leading to an MA in Spanish/Education. Most students majoring in one or two Romance languages pursue careers in education. Others enter careers in the fields of commerce, tourism, interpretation and translation and international affairs, among others.

Notes

FREN 22000, FREN 27500, FREN 31100, FREN 31200, FREN 32100, Group A, taught in French: 12 credits must be taken from this category. No exceptions and no substitutions. Ideally, this sequence of courses should be completed before beginning 300-level courses, with the possible exception of FREN 34100 or FREN 34200, which may be started before completing all of Group A.

FREN 24100 to FREN 26200, Group B, taught in English: 0 to 9 credits may be taken in this category. Such courses may be taken simultaneously with the language sequence FREN 10100 - FREN 10200.

FREN 33500 to FREN 36500, Group C, taught in French: 9 to 18 credits must be taken from this category. Students are expected to take FREN 34100 FREN 34200 in addition to whatever other 300-level courses interest them. Depending on how many credits students take from Group B, the number of credits required from Group C will
For example, if a student takes 0 credits from Group B, then the number of credits from Group C must total 18. If a student takes 3 credits from Group B, then the number of credits from Group C will total 15. Etc.

Study Abroad: a.) Compiègne: this immersion program is ideal for students who have completed one year of language study. Its successful completion will earn 6 credits toward FREN 20100 and FREN 20200. It should be completed during the summer between the first and second year; b.) Paris-CUNY Exchange Program: students are encouraged to study at least one semester in Paris. Ideally, a student should have approximately one year of upper division French courses under his or her belt before departure. Nota Bene: at least 15 credits of the major must be taken “in-residency,” that is, at Hunter College. For courses taken abroad to be counted as equivalent, they must fit the course offerings in the French major.

*See department for availability of Intensive (FREN 10300 and FREN 20300).

Notes

The French Literature concentration is ideal for students who are native speakers, or who already have an advanced level of French proficiency, and therefore require minimum language study.

FREN 31100, FREN 31200, FREN 32100: 3 credits must be taken from this category. No exceptions and no substitutions. This course may be taken simultaneously with FREN 34100 or FREN 34200.

FREN 34100 and FREN 34200: 6 credits must be taken from this category. Ideally, a student will have completed FREN 34200 before taking any 300-level course dealing with literature from the eighteenth, nineteenth, twentieth, or twenty-first centuries. Similarly, a student should have taken FREN 34100 before taking any 300-level course focusing on literature from the Middle Ages, the Renaissance, or the Grand Siècle.

FREN FREN 33500 -FREN 36500: 21 credits must be taken from this category.

Study Abroad: a.) Compiègne: this immersion program is ideal for students who have finished one year of language study. Its successful completion will earn 6 credits toward FREN 20100 and FREN 20200. It should be completed during the summer between the first and second year; b.) Paris-CUNY Exchange Program: students are encouraged to study at least one semester in Paris. Ideally, a student should have approximately one year of upper division French courses under his or her belt before departure. Nota Bene: at least 15 credits of the major must be taken "in-residency," that is, at Hunter College. For courses taken abroad to be counted as equivalent, they must fit with the course offerings in the French major.

*See department for availability of Intensive (FREN 10300 and FREN 20300).

Degree Map for Italian Literature

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Italian Literature major. The degree map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter
Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Notes

- *Students opting for Intensive 6 cr. Option would postpone SW or I&S/SS for the following semester.
- **Students opting for Intensive 6 cr. Option would postpone LIPS or I&S/H for the following semester.
- Students interested in Study Abroad should speak with Professor Schinaider about the Spanish Department's summer program in Madrid, Spain, and the January program in Argentina. This program carries a minimum of 6 credit hours that may be applied to the major and 3 that will count as elective credits.
- This roadmap reflects the path of a student with no previous background in Spanish. Students with prior knowledge of Spanish may be able to begin with more advanced courses and should see the department for appropriate placement prior to the beginning of their first semester. Students with no previous background in Spanish are advised to take the intensive sequence of SPAN 10300 (6 credits) and SPAN 20300 (6 credits) in their first year in order to enable the start of the major as soon as possible. As an alternative, such students might take the regular sequence of SPAN 10100 and SPAN 10200 in their first year, and then complete SPAN 20100 and SPAN 20200 in summer session. Finally, for students entering the major at the Elementary Spanish level, Study Abroad is highly recommended.
- 300-level Advanced Literature or Culture course should be distributed among the following categories:
  o 6 credits in Peninsular literature before the 19th century (SPAN 34300, SPAN 34500, SPAN 34600, SPAN 34900, SPAN 35000, SPAN 35300 or SPAN 37000 when appropriate)
  o 9 credits in Latin American literature (SPAN SPAN 36000 SPAN 36200 SPAN 36400 SPAN 36500 SPAN 36600 SPAN 36700 SPAN 36800 SPAN 37100), at least 3 credits of which must be in contemporary literature (SPAN 36400 SPAN 36500 SPAN 36600 SPAN 36700 or SPAN 37100 when appropriate)
  o 6 credits chosen from among any course in literature from Spain or Latin America numbered above SPAN 34200.

- ELECTIVE

Spring

SPAN 38100 - Translation from Spanish into English
Develops proficiency in translating from Spanish into English. The student will work with a variety of general Spanish texts and develop skills for analyzing and rendering them accurately into English. In addition, s/he will examine the best ways to handle idiomatic expressions, tenses and other complex grammatical structures. S/he will become familiar
with the relevant terminology and theoretical issues, as well as learn how to select and evaluate dictionaries and other research materials.

*prereq: SPAN 38000 3 hrs 3 cr.*

-or-

**SPAN 38400 - Simultaneous Interpretation Spanish-English**

Designed so that students may begin working directly on the skills, protocol and practice of simultaneous interpretation, analyze in detail its processes, and review the settings in which it is used.

*prereq: SPAN 38000 3 hrs 3 cr.*

**SPAN 39000 - Translation and Interpretation for the Professions**

This series of courses will focus each semester on a different professional area, such as legal, medical, business, technical-scientific, social, and literary translation.

*prereq: varies by course 3 hrs 3 cr.*

**SPAN 39100 - Internship in Translation**

Students who have completed the 39000 sequence of courses and have maintained an average of B+ or better are encouraged to take advantage of this internship. It consists of 70 hours of practical work in translation for a financial institution, law firm, translation agency, the United Nations, or other organization. In addition, the student must attend regularly scheduled meetings with the professor supervising the internship in order to discuss issues and problems in the real world of professional translation.

*prereq: SPAN 38100 – 38400, 39000 3 hrs 3 cr.*

-or-

**SPAN 39200 - Internship in Interpretation**

Students who have completed the 39000 sequence of courses and have maintained an average of B+ or better are encouraged to take advantage of this internship to train them in real-world interpreting skills in the context of court interpreting, parliamentary procedure, diplomatic etiquette, conference organization, etc. This internship consists of 70 hours of practical work in interpretation as well as frequent meetings with the professor supervising the internship in order to discuss issues and problems in the real world of professional interpretation.

*prereq: SPAN 38100 – 38400, 39000 3 hrs 3 cr.*
• One course from ENGL 20100, ENGL 21800, ENGL 30100, ENGL 30800, ENGL 30900, ENGL 33100
• One course from option A or B (See below note for specific information)

Notes

• Students interested in Study Abroad should speak with Professor Schinaider about the Spanish Department’s summer program in Madrid, Spain, and the January program in Argentina. This program carries a minimum of 6 credit hours that may be applied to the major and 3 that will count as elective credits.
• Major consists of 51-57 credits. Students who demonstrate proficiency in Spanish through a placement exam may be exempted from some courses. Please see an advisor as soon as possible for proper direction.
• Choose either Option A or Option B:
  Option A: two courses in Contemporary Literature written in English from the following courses (6 credits)
  ENGL 32000, ENGL 32100, ENGL 37700, ENGL 37900, AFPRL 35600
  Option B: One course from Option A above and one of the following courses (6 credits):
  ANTHC 15100, ANTHC 35100, ANTHC 35300, ANTHC 35400, AFPRL 18100, ENGL 33200, MEDPL 20100, MEDPL 20200, THEA 16100 THEA 26100 THEA 26200. These course may be counted for credits in more than one program.

French - BA

Major

The French major provides two concentrations:

1. French Literature
2. French Language and Civilization - BA

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.
The New York/Paris Exchange Program is open to students who wish to study a semester or a year at a French university in Paris. For the requirements and more details, contact Professor J. Przybos at (212) 772-5097. French in France is offered during June, July and August at Pau and Bayonne.

Minor in French (15 credits)

a. French Literature and Culture

This course of study provides the opportunity to deepen the knowledge of French language beyond the basic language sequence and to introduce students to French Culture trans-historically, in ways that could usefully complement a major in another field in the humanities, where a broad knowledge of French history or culture could be useful (for instance in the Arts).

The prerequisite for this minor consists either of

FREN 20200 - Intermediate French II

Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

prereq: FREN 2000 or three yrs high school French
3 hrs
3 cr.

- or -

FREN 20300 - Intensive Intermediate French

Equivalent to material covered in 20100 and 20200. Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

prereq: FREN 10200 or two yrs high school French
6 hrs
6 cr.

For the minor, 3 language courses to be chosen from

FREN 21100 - Intermediate Grammar and Composition

Continued study of grammar and syntax, with focus on reading and writing. Intended for French majors and minors.

prereq: FREN 202, 203, or placement by departmental adviser
3 hrs
3 cr.

FREN 22000 - Advanced French Conversation
prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 31100 - Advanced French Grammar

prereq: FREN 20200
3 hrs
3 cr.

FREN 31200 - French Oral and Written Expression

prereq: FREN 20200 or equiv.
3 hrs
3 cr.

and 2 Culture and Civilization courses to be chosen from

FREN 33500 - French Culture I

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the Gauls to the French Revolution. Conducted in French.
prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 33600 - French Culture II

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the French Revolution to 1958. Conducted in French.
prereq: FREN 20200 or four years of high school French
3 hrs
3 cr.

FREN 33700 - Contemporary French Culture

Contemporary French civilization and culture from 1958 to the present, as seen in its press. World events observed through the lens of French culture and politics. Comparison of current events coverage by French and U.S. Press.
prereq: FREN 31100 or 31200 or perm instr.
3 hrs
3 cr.

b. French Literature

This course of study provides the opportunity to deepen the knowledge of French language beyond the basic language sequence through the analysis of French Literature. Among undergraduates potentially interested in this track are our native-speakers, or students with a francophone background, whose majors are in another, non-related, discipline.
The prerequisite for this minor consists of

FREN 21100 - Intermediate Grammar and Composition

Continued study of grammar and syntax, with focus on reading and writing. Intended for French majors and minors.

_prereq: FREN 202, 203, or placement by departmental adviser
3 hrs
3 cr.

For the minor, students must first complete

FREN 34100 - Survey of French Literature from the Middle Ages to the End of the 17th Century

Principlism and Diversity
PD/D
GER
3/A

_prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 34200 - Survey of French Literature from the 18th Century to the Modern Period

Principlism and Diversity
PD/D
GER
3/A

_prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

and then choose 3 courses from the following:

FREN 34300 - Medieval and Renaissance French Literature

Principlism and Diversity
PD/D
GER
3/A

From medieval epics, lyrical poetry and mystery plays to writers such as Sce, Du Bellay, Ronsard, Rabelais and Montaigne.

FREN 34100 and 34200 are prerequisite to all courses numbered 34300 and above.
FREN 34400 - 17th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Boileau, Bossuet, Corneille, Cyrano de Bergerac, La Bruyére, Mme de Lafayette, La Fontaine, Malherbe, Molire, Pascal, Racine, Mme de Sign Saint Simon.

prereq: FREN 34100 and 34200

FREN 34600 - 18th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beaumarchais, Buffon, Ch'niier, the Encyclopedists, Diderot, Laclos, Marivaux, Montesquieu, Provost, Rousseau, Sade, Voltaire.

prereq: FREN 34100 and 34200

FREN 34800 - 19th Century French Literature (1800-1850)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Balzac, Chateaubriand, Constant, Gautier, Hugo, Lamartine, Musset, Sand, Mme de Sta, Stendhal, Vigny.
FREN 34100 and 34200

FREN 34900 - 19th Century French Literature (1850-1900)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Barbey durevilly, Barr's, Baudelaire, Daudet, Flaubert, France, Huysmans, Leconte de Lisle, Mallarm, Maupassant, Renan, Rimbaud, Sainte-Beuve, Taine, Verlaine, Villiers de Isle-Adam, Zola.

prereq: FREN 34100 and 34200
FREN 35000 - 20th Century French Literature (1900-1950)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Apollinaire, Beauvoir, Breton, Claudel, Cocteau, Colette, Gide, Giraudoux, Malraux, Mauriac, Pgy, Proust, Sartre.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 35100 - Contemporary French Literature (1950-present)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beckett, Bon, Butor, Camus, Duras, Echenoz, Enaux, Kolt's, NDiaye, Pery, Redonnet, Robbe-Grillet, Sarraute.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36000 - French Literature: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36100 - Middle Ages and the Renaissance: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.
FREN 36200 - The 17th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

3 hrs
3 cr.

FREN 36300 - The 18th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36400 - The 19th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36500 - The 20th Century: Special Topics

Pluralism and Diversity
GER 3/A PD/D
Topics to be offered may include single authors, themes, genres, movements, or approaches.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

c. French Culture and Literature in Translation

This course of study provides the opportunity to students with no knowledge of the French language to be introduced to French Culture & Literature. This minor offers an interesting complement or context to studies in other fields (such as history, philosophy, political theory or women’s studies) that have benefited, historically, from French influences.

The courses in this minor are to be chosen from a selection of 200-level courses, taught in English, such as
FREN 24100 - Early French Civilization: From Gothic to Revolution

Hunter Core
- World Culture and Global Issues (WCGI)
- Pluralism and Diversity
PD/D
- GER
2/C

Conducted in English; readings in English.

3 hrs
3 cr.

FREN 24200 - Modern French Civilization: From Revolution to Present

Hunter Core
- World Cultures and Global Issues (WCGI)
- Pluralism and Diversity
PD/D
- GER
2/C

Conducted in English; readings in English.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

3 hrs
3 cr.

FREN 25100 - French Literature and the Arts

Pluralism and Diversity
PD/D
Conducted in English; readings in English and French. Particular attention to theme, image and structure as they may be compared in literary and artistic works.

3 hrs
3 cr.

FREN 25200 - From Symbolism to Surrealism in French Literature

GER
3/A

Conducted in English; readings in English. Impressionist, symbolist, cubist, Dada and surrealist movements in literature and art from the late 19th to 20th century.

3 hrs
3 cr.

FREN 25300 - Modern French Theatre: Theory and Practice
Pluralism and Diversity
PD/D
GER
3/A

4 hrs
3 cr.

FREN 25400 - Film and the French Novel

Pluralism and Diversity
PD/D
GER
3/A

Conducted in English. Truffaut, Godard, Resnais, Robbe-Grillet and others.
4 hrs
3 cr.

FREN 25500 - New Approaches to Modern French Literature

GER
3/A

Conducted in English; readings in French and English. Investigation of various currents of 20th century literary and aesthetic criticism as practiced in France.
3 hrs
3 cr.

FREN 25600 - Dream and Image (W)

GER
3/A

Conducted in English. Analysis of literary representations of dreams. Exploration of the relationship between word and image in French Literature. Such authors as Flaubert, Maupassant, Nerval and Proust.
3 hrs
3 cr.

FREN 25700 - Literary Cross-Currents

Conducted in English. Topics: Interaction of French and Russian literature, of French and American literature; the myth of Germany in French literature; Shakespeare in France; Dante and French literature.
prereq: reading knowledge of French
3 hrs
3 cr.

FREN 25800 - French Poetry in Translation
Conducted in English. Study of major themes, theories and texts from 16th century to contemporary period.

3 hrs
3 cr.

**FREN 25900 - French Theatre in Translation**

**Pluralism and Diversity**
**PD/D**
Conducted in English; readings in English. Development of French theatre from 17th to 20th century. Great plays that have become known in English translation.

3 hrs
3 cr.

**FREN 26000 - French Novel in Translation (1600-1900)**

**Pluralism and Diversity**
**PD/D**
Readings in English; conducted in English. Development and evolution of French novel; its relationship to other literary genres.

3 hrs
3 cr.

**FREN 26100 - Modern French Novel in Translation (1900-Present)**

**Pluralism and Diversity**
**PD/D**
Conducted in English; readings in English. From Gide and Proust to present.

3 hrs
3 cr.

**FREN 26200 - Perspectives on Women in French Literature**

**Pluralism and Diversity**
**PD/C or D**
**GER**
3/A

The representation of women in literary texts from the Middle Ages to the present. Conducted in English. Readings in English translation.

3 hrs
3 cr.

**Honors**

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

**Graduate Study**
Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

**French Language and Civilization - BA**

A concentration in French language as well as in French and Francophone literature, culture and civilization. 12-24 credits from the language sequence (Group A); 0-9 credits from Group B (offered in English); and 9-18 credits from Group C (offered in French).

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the French Language and Civilization major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN 24100</td>
<td>World Culture and Global Issues (WCGI)</td>
</tr>
<tr>
<td>FREN 24200</td>
<td>World Culture and Global Issues (WCGI)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (30- 42 credits)**

Students who demonstrate proficiency in French through a placement exam may be exempted from some courses.

12 credits from:

**FREN 10100 - Elementary French I**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Foreign Language Requirement.

*3 hrs*

*3 cr.*

**FREN 10200 - Elementary French II**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100,
20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

2. Italian Language and Civilization

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Minor in Italian (12 cr)

Prerequisite for the minor

ITAL 20200 - Intermediate Italian II

Language lab mandatory.

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an
The minor of 12 credits utilizes four existing courses, all taught in Italian.

ITAL 31100 - Advanced Italian Grammar

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

prereq: ITAL 20200 or equiv.

3 hrs
3 cr.

ITAL 31200 - Advanced Italian Composition

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

prereq: ITAL 31100 or equiv.

3 hrs
3 cr.

ITAL 32100 - Italian Translation

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

prereq: ITAL 311 or equiv.

3 hrs
3 cr.

ITAL 33100 - Italian Phonetics and Diction

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

prereq: ITAL 202 or equiv.

3 hrs
3 cr.
Honors

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

Hunter in Italy: Summer Program in Pescara, June-July, at the University of Pescara; Italian Language courses and Italian literature and culture courses taught in English.

Winter Program Hunter in Florence, held during January intersession, offers courses and Italian Culture and Literature taught in English.

Italian Language and Civilization

A concentration on Italian language with an emphasis on oral and written communication.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

1-3 cr.

**Degree Map for Italian Language and Civilization**

Degree Map for Italian Language and Civilization
Italian Literature

A concentration on Italian literature with an emphasis on the study of literary history and texts. The majority of the courses are offered in Italian.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Course Required for the Major (30-42 credits)

Students who demonstrate proficiency in Italian through a placement exam may be exempted from some courses.

0-12 credits from

Minor in French Culture and Literature in Translation

This course of study provides the opportunity to students with no knowledge of the French language to be introduced to French Culture & Literature. This minor offers an interesting complement or context to studies in other fields (such as history, philosophy, political theory or women’s studies) that have benefited, historically, from French influences.

The courses in this minor are to be chosen from a selection of 200-level courses, taught in English, such as

FREN 24100 - Early French Civilization: From Gothic to Revolution
FREN 24200 - Modern French Civilization: From Revolution to Present
FREN 25100 - French Literature and the Arts
FREN 25200 - From Symbolism to Surrealism in French Literature
FREN 25300 - Modern French Theatre: Theory and Practice
FREN 25400 - Film and the French Novel
FREN 25500 - New Approaches to Modern French Literature
FREN 25600 - Dream and Image (W)
FREN 25700 - Literary Cross-Currents
FREN 25800 - French Poetry in Translation
FREN 25900 - French Theatre in Translation
FREN 26000 - French Novel in Translation (1600-1900)
FREN 26100 - Modern French Novel in Translation (1900-Present)
FREN 26200 - Perspectives on Women in French Literature

**Minor in French Language & Culture**

The French minor consists of 15 credits:

**Prerequisite for the minor**

Romance Languages - BA

Courses Required for the Major (36 credits)

Students who demonstrate proficiency may be exempted from required introductory language courses. This major is intended for students who want to specialize in two Romance languages.

- Required: 34100 and 34200 in each of two chosen languages (12 cr)

- 9 credits in advanced literature in each of the two languages (18 cr)
- 3 credits in culture or translation in each of the two languages (6 cr)

Minor (12 cr)

Students majoring in one or more Romance languages take as a minor 12 credits in one field of study that leads to a BA degree, which must be approved by the departmental adviser.
Honors

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

Degree Maps

- Degree Map for Romance languages BA (Spanish and French)

Spanish - BA

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Major

The Spanish major provides two concentrations:

1. Spanish: Concentration in Spanish Literature
2. Spanish: Concentration in Spanish-English/English-Spanish Translation and Interpretation BA

Honors

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.
Minor in Spanish

1. Spanish Minor

The Spanish minor consists of 15 credits of courses that are taught entirely in Spanish and combines language, civilization, and literature.

Students may use transfer credits and credits from the Hunter programs in Spain and Argentina up to a maximum of 6 credits. At least 9 credits of the minor must be completed in residence at Hunter.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

Spanish in Spain is offered during June, July, or both months at the Universidad Antonio de Nebrija in Madrid. Spanish in Argentina is offered during the winter break in Mar del Plata (Argentina) at the Universidad Nacional de Mar del Plata.

SEDCP 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/ learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.
Degree Map for Spanish Literature

Spanish: Concentration in Spanish-English/English-Spanish Translation and Interpretation BA

This program prepares students for careers in the growing translation field. Students take courses in Spanish language, literature and civilization in conjunction with specialized courses in translation/interpretation theory and practice. Allied courses in English and related fields of study are required and must be approved by the program adviser. Sufficient flexibility is built into the program so that students may tailor certain requirements to fit their individual needs and interests. An intensive internship in translation and/or interpretation serves as the student's capstone experience and preparation for future professional settings. Please see the department of Romance Languages for more details regarding this new and innovative program of study.

Courses Required for the Major (51-63 credits)

1. 100-level and 200-level courses

Students who demonstrate proficiency in Spanish through a placement exam may be exempted from some courses.

**SPAN 10100 - Elementary Spanish I**

Language lab mandatory.

**GER**

3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.
3 hrs
3 cr.

**ANTHC 35300 - Phonological Analysis and Theory**

**GER**

3/B

Phonetics of diverse languages, their phonemic analysis at different levels of theory, including distinctive feature analysis and phonological links to grammar.

*prereq: ANTHC 15100 or equiv.*
3 hrs
3 cr.

**ANTHC 35400 - Grammatical Analysis and Theory**

**GER**

3/B

Methods of syntax and morphology in work with diverse languages; syntactic theories and their development relative to universals, semantics, pragmatics, discourse.

*prereq: ANTHC 15100 or equiv.*
AFPRL 18100 - Language and Ethnic Identity

Hunter Core
Individual and Society (Social Sciences) - I&S SS

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000

MEDPL 20100 - Reporting and Writing I (W)

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

prereq or coreq: MEDIA 18000

MEDPL 20200 - Reporting and Writing 2(W)

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

prereq: MEDPL 20100

THEA 16100 - Acting I: Basic Acting Techniques

For intended majors and non-majors. Exploration of the fundamentals of acting technique through exercises and improvisation.

THEA 26100 - Acting II: American Realism

GER

3/A

Fundamentals of scene study focusing on text analysis, personalization, objective and action using American realism.

prereq: THEA 16100 or perm instr.
THEA 26200 - Acting III: World Realism

GER
3/A

Continuation of scene study focusing on text analysis, personalization, objective and action using the world realistic repertory, such as the plays of Chekhov, Ibsen and Strindberg.
It is recommended that this course be taken with THEA 26300.

prereq: THEA 26100
4 hrs
3 cr.

*These courses may be counted for credit in more than one program.

Degree Map for Spanish Translation and Interpretation

Sociology

Overview

Sociology is a multi-faceted discipline represented at Hunter College by a range of scholars who use diverse methods from field research to quantitative analysis and theoretical inquiry. Precisely because sociology is a broad-based discipline that encompasses theory, methods of observation, and research, sociology is both practically useful in analyzing contemporary issues and academically fascinating. The study of sociology also meets four important goals of Hunter College overall: acquisition of conceptual and analytic skills, development of intellectual and personal growth, widening students' outlook by understanding U.S. as well as global culture and values, and generating new knowledge to address local and international needs and issues. A major in sociology provides the undergraduate with the opportunity to gain a distinct intellectual perspective and a method of inquiry. By continually testing conventional wisdom against evidence, the study of sociology encourages the development of critical judgment. By routinely considering the matrix of social and cultural facts, such study can lead students to an understanding of the conditions under which social facts emerge, and the consequences they have for individuals, groups, societies and social institutions. It can also help students better understand their own roles in the array of social institutions in which they are entwined.

What can I do with my degree in Sociology?

Our courses provide a foundation for the student who desires to pursue advanced graduate studies in sociology leading to teaching positions. The department offers a wide range of specialties offering students flexibility in their choice of PhD programs. A major in sociology also helps to prepare students for many careers: social research, marketing, media, and other fields in the private sectors, as well as law, civil service and public policy, social work, the health professions, personnel work and other human-service areas. Majors are encouraged to develop skills in observation, interviewing, and other data-collection techniques; data processing; statistical and content analysis; and trend analysis — all marketable skills in many career lines.

Honors

In order to graduate with departmental honors in sociology, students must have a 3.0 GPA overall and a 3.5 GPA in sociology; at least 21 of the credits toward the major should have been courses taken at Hunter College.

Students must complete either an Honors Seminar

- SOC 47300 - Honors Seminar
or an Honors Independent Study

- SOC 47100/SOC 47200 - Honors/Independent Study
or

- SOC 42500 - Seminar in Selected Problems of Sociology

Additional Information

Students whose GPAs are within this range are urged to consult their adviser before planning senior year programs of study, since honors seminars are generally offered only once per year, usually in the fall semester. In addition, students qualifying for departmental honors are eligible for membership in Alpha Kappa Delta, the International Sociology Honor Society. See adviser for more information.
Internships

Provided students secure approval of a full-time faculty member, internships can be carried out for 3 to 6 credits in the areas of marketing, media, and politics, with other areas provided faculty supervision can be secured. Interested students must meet the requirements listed under the SOC 49800 entry.

Awards

The Department of Sociology offers four prestigious awards to outstanding students in sociology and applied social research. Once a year at the end of the spring term the Benjamin Ringer Award, carrying a cash stipend of $100, is granted for the best undergraduate paper in the areas of ethnic and race relations. The endowed Rosalyn Tough Award is granted with a tuition remission to one outstanding sociology student. Two Suzanne Keller Awards with a stipend of $250 each are granted at the end of the academic year. One goes to the graduating sociology major with the best academic record. The second Keller award is given to the best BA/MS graduate entering the field of applied social research. For more information about the awards contact the departmental advisers.

Degree Map for Sociology

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Sociology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Notes:

The major requires 15 electives and at least 6 must be in courses at the 300 level or above. No more than 3 credits from the following may be used to satisfy this requirement.

• SOC 33100 Field Placement in Social Work Agencies
• SOC 33200 Advanced Field Placement in Social Work Agencies
• SOC 37101 Independent Study
• SOC 37200 Independent Study
• SOC 47100 Honors/Independent Study
• SOC 47200 Honors/Independent Study
• SOC 49800 Internship

Students may design their own areas of concentration but they are not required to do so.

Minor in Sociology
The minor in Sociology requires four courses with 12 credits which students have to pass with a GPA of at least 2.0. Students minoring in Sociology must take SOC 10100 - Introduction to Sociology, the prerequisite for all other sociology courses, SOC 22100 - Classical Sociological Theory and two additional courses selected from those offered on a regular basis. It is recommended but not required that one sociology course on the 300 or higher level be included.

**Sociology - BA**

The department recommends a GPA of at least 2.3 when declaring the major.

**Hunter Core Requirement**

One course within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:

**Hunter Core Requirement**

In the case of the Sociology major, the course that meets CCC is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 10100 Individual and Society (I&amp;S SS)</td>
<td>Individual and Society (Social Sciences) -I&amp;S SS</td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

**Courses Required for the Major (30 credits)**

1. **Required Courses (9 cr.)**

   **SOC 10100 - Introduction to Sociology**

   **Hunter Core**

   Individual and Society (Social Sciences) -I&S SS

   **GER**

   2/B

   Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.

   3 hrs

   3 cr.

   **SOC 24000 - Introduction to Research Methods**

   **GER**

   3/B

   Discussion of various research techniques and strategies including the survey method, field research, experiments, and
content analysis. Firsthand involvement in the collection of quantitative data.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 24100 - Social Statistics**

GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

**GER**

3/B

Education viewed cross-culturally and historically. Schools and colleges as social systems.

*prereq: SOC 10100*

3 hrs
3 cr.

**SOC 23500 - Community Organization and Action**

**GER**

3/B

Evaluation of specific local and national action programs.

*prereq: SOC 10100*

3 hrs
3 cr.

**SOC 23700 - Social Welfare Policy**

**GER**

3/B

Development of welfare institutions. Consequences of welfare services for client and community.

*prereq: SOC 10100*

3 hrs
3 cr.
SOC 23900 - Child Welfare (W)

GER
3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it. 
cross-listed WGSP 23900 (W)
prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

SOC 30100 - Medical Sociology

GER
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.
prereq: SOC 10100
3 hrs
3 cr.

SOC 31500 - Work and Society (W)

GER
3/B

Work in market economies, mechanisms of control and sources of stratification, gender and ethnic factors, role of 
education and trade unions.
cross-listed WGSL 31500
prereq: SOC 10100
3 hrs
3 cr.

SOC 32100 - Sociology of Organizations

GER
3/B

Organization, structure, and processes; relationship between individual and organization.
prereq: SOC 10100
3 hrs
3 cr

SOC 33000 - Children and Public Policy (W)

GER
3/B

Study of changes in children's lives, including family composition, parental work, child care, and poverty, as well as 
the day-to-day lives of children living in poverty and immigrant families. The historical evolution of public policies and
current policy issues are studied as they relate to children, particularly education, income support, and health policies. International policy comparisons are highlighted.  

**prereq:** ENGL 12000  
**3 hrs**  
**3 cr.**

- SOC 325xx Food and Society

### 3. Comparative/Cross-Cultural/Global Studies

**SOC 20500 - Sociology of Religion**

**GER**  
**3/B**

Comparative study of religion in human societies. Analysis of beliefs, myths and sacred attitudes.  

**prereq:** SOC 10100  
**3 hrs**  
**3 cr.**

**SOC 36100 - Development and Globalization (W)**

**Pluralism and Diversity**  
**PD/A**  
**GER**  
**3/B**

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.  

**prereq:** SOC 10100  
**3 hrs**  
**3 cr.**

**SOC 36200 - Sociology of Islam (W)**

**GER**  
**3/B**

Introduction to Islam as religion and culture with emphasis on how misconceptions have permeated our understanding of Islam. Analysis from a historical perspective which serves as a framework for comprehending Islam's dogma, rituals, and legal system.  

**prereq:** SOC 10100  
**3 hrs**  
**3 cr.**

**SOC 36400 - Globalism and Nationalism**

**GER**  
**3/B**
This course covers the emergence, spread, and decline of global cultural identities and practices in individual nation-states. It further explores the origin, character, and vicissitudes of nationalism in the global area.

*prereq: SOC 10100
3 hrs
3 cr*

4. Culture, Media and Social Psychology

**SOC 20700 - Leisure, Recreation and Sports**

*GER
3/B*

Role and social organization of leisure and recreation in traditional and modern society.

*prereq: SOC 10100
3 hrs
3 cr.*

**SOC 25100 - Interpersonal Behavior**

*GER
3/B*

Study of interactional processes and the emergence and maintenance of selves and identities.

*prereq: SOC 10100
3 hrs
3 cr.*

**SOC 25900 - Mass Media, Communication and Public Opinion (W)**

*GER
3/B*

Impact of mass media on public opinion and government action.

*prereq: SOC 10100 ENGL 12000
3 hrs
3 cr.*

**SOC 31400 - Culture and Consumption**

*GER
3/B*

The structure and patterning of everyday life as concerned with material well-being. Symbolic and moral dimensions of food and living arrangements, as well as commerce and the marketplace.

*prereq: SOC 10100
3 hrs
3 cr.*
5. Research Methods, Demography, & Applied Sociology

**SOC 23500 - Community Organization and Action**

**GER**

3/B

Evaluation of specific local and national action programs.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 24000 - Introduction to Research Methods**

**GER**

3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 24100 - Social Statistics**

**GER**

3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 30700 - Migration**

**Pluralism and Diversity**

**PD/B**

**GER**

3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 31100 - Population Dynamics**

**GER**

3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.
prereq: SOC 10100
3 hrs
3 cr.

SOC 31300 - Consumer Behavior

GER
3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

prereq: SOC 10100
3 hrs
3 cr.

SOC 32100 - Sociology of Organizations

GER
3/B

Organization, structure, and processes; relationship between individual and organization.

prereq: SOC 10100
3 hrs
3 cr

- SOC 425xx Mapping Social Science Data
- SOC 425xx Ethnographic Research & Interviewing
- SOC 425xx Research Design
- SOC 425xx Statistics
- SOC 42555 Focus Group Research
- SOC 70900 Statistics (graduate course)
- SOC 71600 – Workshop Information Technology (graduate course)
- SOC 75200 – Focus Group Research

6. Crime, Law, & Deviance

SOC 32000 - Law, Society and Civil Rights

GER
3/B

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

prereq: SOC 10100
3 hrs
3 cr.

SOC 32200 - Drugs and Society
GER
3/B

The course focuses on the social, cultural and historical dimensions of drug use, and treats the causes and consequences of drug use and abuse as a social—rather than bio-physical phenomenon. Course topics may include: drug use as a universal phenomenon, regulatory issues related to drugs, especially in relation to race, class and subcultures; and drugs as a media phenomenon.

prereq: SOC 10100
3 hrs
3 cr

• SOC 325xx Sociology of Crime and Punishment

7. Inequality and Social Movements: Gender, Race, Class, Sexualities

SOC 21300 - Political Sociology

GER
3/B

Power, authority, political ideologies, and patterns of participation. Articulation and resolution of political issues in contemporary societies in the context of globalization.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 42500 - Seminar in Selected Problems of Sociology**

**GER**
3/B

Advanced seminar: reading, discussion, and papers on significant problems in sociology and in applied social research; in most cases cross-listed with graduate social research course or seminar.

_prereq: SOC 10100, perm instr.
3 hrs
3 cr

**Additional Information**

Students whose GPAs are within this range are urged to consult their adviser before planning senior year programs of study, since honors seminars are generally offered only once per year, usually in the fall semester. In addition, students qualifying for departmental honors are eligible for membership in Alpha Kappa Delta, the International Sociology Honor Society. See adviser for more information.

**Internships**
Provided students secure approval of a full-time faculty member, internships can be carried out for 3 to 6 credits in the areas of marketing, media, and politics, with other areas provided faculty supervision can be secured. Interested students must meet the requirements listed under the SOC 49800 entry.

Awards

The Department of Sociology offers four prestigious awards to outstanding students in sociology and applied social research. Once a year at the end of the spring term the Benjamin Ringer Award, carrying a cash stipend of $100, is granted for the best undergraduate paper in the areas of ethnic and race relations. The endowed Rosalyn Tough Award is granted with a tuition remission to one outstanding sociology student. Two Suzanne Keller Awards with a stipend of $250 each are granted at the end of the academic year. One goes to the graduating sociology major with the best academic record. The second Keller award is given to the best BA/MS graduate entering the field of applied social research. For more information about the awards contact the departmental advisers.

Career Opportunities

Applied Social Research

Students interested in careers in research-related fields such as media and marketing research, policy analysis and evaluation, advertising, consumer behavior, and public opinion polling, as well as students who are contemplating graduate studies in sociology, are encouraged to gain research experience through selected coursework and independent research carried out under faculty supervision.

In addition to the following, which are required for the major,

SOC 24000 - Introduction to Research Methods

GER
3/B
Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.
prereq: SOC 10100
3 hrs
3 cr.

SOC 24100 - Social Statistics

GER
3/B
Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.
prereq: SOC 10100
3 hrs
3 cr.

Select electives from the following:

SOC 25900 - Mass Media, Communication and Public Opinion (W)
Impact of mass media on public opinion and government action.

*prereq: SOC 10100 ENGL 12000*

3 hrs
3 cr.

**SOC 31100 - Population Dynamics**

Comparative analysis of fertility, mortality, migration trends, and related social factors.

*prereq: SOC 10100*

3 hrs
3 cr.

**SOC 31300 - Consumer Behavior**

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

*prereq: SOC 10100*

3 hrs
3 cr.

Additional Information

The department has also participated in a number of programs that place qualified minority students in summer research internships at leading universities. See advisers for more information.

**Social Work**

Students interested in careers in social work or other human services are strongly encouraged to consult the pre-social work adviser (Prof. Poppendieck, Room 1603 Hunter West, (212) 772-5583, jpoppend@hunter.cuny.edu). The presocial work advising office offers information about graduate study in social work as well as help with program planning.

**Pre-social work**

Pre-social work students without work experience in the human services should plan to take the following courses that provide supervised field experience.

**SOC 33100 - Field Placement in Social Work Agencies**

*GER*

3/B
Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.  
*prereq: SOC 10100, perm instr.*  
8 hrs per week  
3 cr.

**SOC 33200 - Advanced Field Placement in Social Work Agencies**

**GER**  
3/B  

Supervised work in social service agency, weekly seminar, agency-based research project.  
*prereq: SOC 10100, SOC 33100 or documented equiv. experience in social work agency, perm instr.*  
8 hrs per week  
3 cr.

Ideally, this coursework should be completed by the end of the junior year, and students must meet with the instructor in the previous semester to arrange a placement.

**Directly related to social work**

While virtually all sociology courses are relevant to the practice of social work, several courses are directly related to social work

**SOC 23500 - Community Organization and Action**

**GER**  
3/B  

Evaluation of specific local and national action programs.  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**SOC 23700 - Social Welfare Policy**

**GER**  
3/B  

Development of welfare institutions. Consequences of welfare services for client and community.  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**SOC 23900 - Child Welfare (W)**

**GER**  
3/B  

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.
cross-listed WGSP 23900 (W)
prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

Graduate Courses

Qualified undergraduates seeking more advanced or specialized work may, with the permission of the instructor, be permitted to take graduate courses. Consult the graduate catalog for course listings.

Sociology Minor

The minor in sociology consists of 12 cr, including

- SOC 10100 Introduction to Sociology
- SOC 22100 Classical Sociological Theory

and two additional Sociology electives. It is recommended that one of the electives be at the upper division level (i.e. 300 level)

Degree Map

Degree Map for Sociology

Sociology/Social Research - Accelerated BA/MS

Five-Year BA/MS Program

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from the BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term.

In order to be admitted to the program, students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of 3.25 and meet other requirements of the MS program as outlined in the graduate catalog except for the GRE examination. BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. After consulting with the undergraduate adviser to establish eligibility, students may apply to the Graduate Director. Applications require a cover letter/personal statement and include a copy of one's current transcript and two letters of recommendation.

Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

Theatre
Overview

The Department of Theatre offers students the opportunity to study all aspects of the art form: the making, history, and theory of theatre and drama. Theatre courses include acting, playwriting, directing, design, history, theory, puppetry, interdisciplinary performance and more. The curriculum was developed with an emphasis on professional standards within a liberal arts context. Majors are involved in practical, hands-on production work.

What can I do with my degree in Theatre?

Many students who graduate from the program work as actors, directors, stage managers, and designers. Some of our students continue their creative study in conservatory or MFA programs. Others continue their study in history and theory as MA or PhD students. Graduates who concentrate in developmental drama frequently enter the field as teachers and directors of theatre in education.

Degree Map for Theatre
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Theatre major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)
**GER**
1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**THEA 10100 - Introduction to Theatre**

**Hunter Core**
Creative Expression (CE)
**GER**
2/D

Study of elements of theatre arts—acting, directing, playwriting, design—from standpoints of both viewer and participant.

Minor in Theatre

A Minor in Theatre requires a minimum of 12 credits in the Department of Theatre at the 200-level or higher of which at least 3 credits must be at the 300-level (these are usually at least 3 credits). Minors are required to take all necessary prerequisites for these courses. Minors have access to all courses offered by the Department of Theatre. Minors are encouraged to participate in departmental and student productions. Interested students must meet with the undergraduate advisor in the Department of Theatre to declare a minor and to define their course of study.

Theatre - BA
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement[CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Theatre major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>THEA 10100</td>
<td>Creative Expression (CE)</td>
</tr>
<tr>

**GER**

3/A

Principles of play analysis; examination of play structure, theatrical form, and dramatic genre.

*prereq: THEA 21100 or 21200 or 21300*

3 hrs

3 cr.

THEA 28100 - Visual Elements of Theatre

**GER**

3/A

Introduction to the theory and practice of various design elements and their contribution to theatrical production. Includes practical work on departmental productions.

*prereq: THEA 10100*

5 hrs

3 cr.

- Electives chosen from 300-level courses 6 cr.
- 2 production crews (not-for-credit)

plus one course selected from the following:

THEA 38100 - Scene Design I

**GER**

3/A

Theory and practice of scenic design for the stage. Includes practical work on departmental productions.

*prereq: THEA 28100*

5 hrs

3 cr.

THEA 38300 - Costume Design I

**GER**

3/A

Theory and practice of costume design for the stage. Includes practical work on departmental productions.

*prereq: THEA 28100*

5 hrs

3 cr.

THEA 38400 - Stage Lighting Design
Principles, techniques, and practice of lighting for theatre, emphasizing its contribution to dramatic interpretation.

prereq: THEA 28100
5 hrs
3 cr.

THEA 38500 - Production Design I for Theatre, Film, and Television

Theory and practice in scenic design for theatre, film, and television.

prereq: THEA 10100 or FILM 10100 and THEA 28500
4 hrs
3 cr.

THEA 38700 - Concepts of Light in Theatre, Film, and Television

The aesthetics, styles, conventions, and vocabulary of lighting in theatre, film, and television: how light establishes style, mood, rhythm, and atmosphere as interpretive elements of performance.

prereq: THEA 28100 or THEA 28500
3 hrs
3 cr.

Minor

Theatre majors may select a minor from any department or program in the college that offers a program of study leading to a BA degree. Students should consult the departmental adviser regarding appropriate minor choices.

A minor in Theatre requires a minimum of 12 credits in the Department of Theatre at the 200-level or higher of which at least 3 credits must be at the 300-level (these are usually at least 3 credits). Minors are required to take all necessary prerequisites for these courses. Minors have access to all courses offered by the Department of Theatre. Minors are encouraged to participate in departmental and student productions. Interested students must meet with the undergraduate advisor in the Department of Theatre to declare a minor and to define their course of study.

Honors

Open to any qualified junior or senior with a 3.5 GPA in Theatre and an overall minimum GPA of 2.7 and permission of the chair. Individual work under faculty supervision. Departmental honors granted at graduation.

Degree Map

Degree Map for Theatre
Thomas Hunter Honors Program

Overview

The interdisciplinary Thomas Hunter Honors Program provides some outstanding undergraduate students with a course of study suited to their individual needs and interests. Students selected for the Thomas Hunter Honors Program must show evidence of high academic potential, interdisciplinary interests and intellectual curiosity, as well as the willingness to explore unfamiliar fields and to accept challenges.

Students may apply for admission to the program on their own or they may be invited to participate in recognition of their outstanding academic records. Many graduates of the Thomas Hunter Honors Program go on to PhD programs in the various arts and sciences, or to law, medical and other professional schools. Others choose careers in a wide variety of professional, artistic and business fields.

College Requirements

The Thomas Hunter Honors Program requires that students maintain breadth in their programs, create a significant pattern of courses in at least two academic areas of investigation (Humanities and Arts, Social Sciences, Sciences and Mathematics), including at least one laboratory science course. All programs must be approved every semester by a Council adviser.

Students entering Hunter in fall 2013 or later, are required to complete the College's Common Core requirements. Note that all colloquia in the 200 or 300 series are "W" courses.

Thomas Hunter Honors Program Faculty
Thomas Hunter Honors Program

Major

Students in the Thomas Hunter Honors Program who wish to design an interdisciplinary major for themselves may do so in consultation with the appropriate Council adviser. The final transcript of such students designates the major as "Special Honors Curriculum." Most students in the Thomas Hunter Honors Program, however, elect to fulfill the requirements for one or more specific departmental majors. These students abide by departmental criteria for the major, and are expected to pursue departmental honors in their major. Their final transcript records the major as Special Honors Curriculum/Specific Department. Whatever their major concentration, all students in the Program must also successfully complete three special interdisciplinary honors colloquia (see further on) and maintain a cumulative grade point average of 3.5 or better until their final certification into the Program. Certification usually occurs in the student's junior year, when the Council, ruling on each case individually, decides that the student's continuing academic distinction, commitment to interdisciplinary work, and promise of future productivity warrant permanent membership in the Thomas Hunter Honors Program.

Thomas Hunter Honors Program students meet regularly in 200-level and 300-level colloquia, led by members of the Council on Honors and by other invited members of the faculty. Students take a minimum of three colloquia, one of which must be at the 200-level, and one of which must be at the 300-level. While the specific content of these courses varies from semester to semester, the underlying principles remain the same.

The 200-level colloquium is taught by one professor, often a member of the Council on Honors, who studies a specific theme using the materials and methodologies of at least two disciplines. Students may take more than one of these colloquia if they so desire, but at least one must be taken during their first year in the Program. The 300-level honors colloquia are special seminars, usually conducted by two professors, devoted to topics lending themselves to broad interdisciplinary investigation. One of the required three colloquia must be a 300-level.

The colloquia offer breadth of exposure, but, even more importantly, they seek to demonstrate how knowledge gained from a variety of disciplines can be related and integrated in an effort to understand complex processes and phenomena. In all colloquia, students write at least one major paper, in which they apply the methodology of the course to material of particular interest to them.

Upon completion of 90 credits, Thomas Hunter Honors students may also be admitted by the Council to Advanced Interdisciplinary Studies, with the opportunity of engaging in advanced independent study under the Council's supervision. A thesis or other appropriate report of the results of the student's research is presented to the Council.

Urban Policy and Planning

Overview

Since its creation by advocacy planner Paul Davidoff in 1965, the Urban Policy and Planning Department has consistently upheld a vision of urban planning as a multi-disciplinary field. As component of the department, the Urban Studies undergraduate major gives students an understanding of contemporary cities economically, socially, politically and physically. Urban studies provides answers to questions about why America is car dependent, New York housing is expensive, the number 6 train is always late and crowded, or how you can make your neighborhood better.

Going beyond the walls of Hunter, the major provides field-work courses: an internship which gives job experience and a studio class, which take students into a neighborhood to solve urban problems such as the increase of clubs and noise pollution on the Lower East Side, street vending along busy streets in Jackson Heights, or lack of park space in East Harlem.
In keeping with this vision of the major, the urban studies faculty represents a wide range of disciplines including architecture, economics, history, political science, public policy, sociology, social work and urban planning. The program also benefits greatly from a distinguished part-time faculty who bring practical experience and knowledge in both public and non-profit sectors into the classroom.

What can I do with my degree in Urban Studies?

Individuals with a bachelor's degree in urban studies have found work at real estate development firms, community non-profits, local government or social service agencies. Many urban studies majors go to graduate school, most often in urban planning. Others have pursued advanced degrees in law, social work and public administration. The range of graduate school choice reflects the flexibility of the urban studies curriculum and its focus on a myriad of issues from a variety of perspectives. Urban studies graduates have completed Master's degrees at Harvard, Cornell, MIT, Rutgers, and other prestigious universities across the country.

Programs and Courses

Programs and Courses in Urban Policy and Planning

Honors

Overall GPA: 3.2 and above. Major GPA: 3.5 and above.

Internships

The Public Service Scholar Program seeks to improve our cities and the lives of people by preparing talented students particularly women, minorities and immigrants for public service careers through internships with elected officials, government, and nonprofit organizations. The program runs for a full academic year and combines internship placements in the offices of senior officials and administrators with intensive seminars on public policy issues, social change, government and nonprofit organizations. The program is open to any Hunter College student, regardless of major, who has a minimum 3.0 GPA and who is within 45 credits of graduation at the beginning of the program in the fall semester. Admission of up to 24 students is competitive. Applications are accepted starting in November with a deadline of March 15th. Students accepted as Public Service Scholars receive 12 academic credits and a $6,000 stipend. Because women, minorities and immigrants have been traditionally underrepresented in public policy making and leadership positions, special efforts are taken to encourage them to apply for the program. Interested students should contact the Public Service Scholar Program, Room 1643 Hunter West, (212) 772-5599 or email ewalsh@hunter.cuny.edu.

Urban Studies - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement[CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Urban Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>URBS 10100</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
<tr>
<td>URBS 10200</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

Urban studies majors must complete 30 credits of courses that provide a rigorous background that will make students competitive job seekers or graduate school applicants. The core includes an introductory course as well as classes about the city's physical structure, public policies and research methods, both qualitative and quantitative. The urban studies core provides a foundation for more advanced courses. In addition to the core and advanced courses, the major requires an internship, elective courses, and interdisciplinary set of classes from several social science disciplines, e.g., political science, history, and economics.

A. Urban Studies Core (15)

URBS 10100 - Urban Life: Personal and Observational View (W)

Hunter Core

Individual & Society - Social Science I&S SS

GER

2/B
Introduction to urban studies allowing students to translate personal knowledge and experience of New York City to more theoretical understanding of urbanism. Includes four projects dealing with mapping, immigration, census data analysis, and local development issues.

3 hrs
3 cr.

URBS 10200 - Structure of Urban Region (W)

Hunter Core
Individual and Society Social Science (I&S SS)
GER
2/B

Introduction to forces shaping institutions and life of contemporary American urban regions. Focus on evolving metropolitan economic, social, demographic, spatial, and political systems, and their relevance to current policy.

prereq: URBS 10100 or relevant intro course (e.g., ECO 10000 or 20100-20200; GEOG 10100, PLSC 11100, SOC 10100) or perm instr.

3 hrs
3 cr.

URBS 20100 - Urban Plans and Policies

GER
2/B

Includes the study of the policy making process, major plans/policies (e.g. War on Poverty, urban renewal, neighborhood rezoning), "politics/power," the role of non-profits in urban planning and policy making.

prereq: URBS 10200 or 6 cr. intro social science courses or perm instr.

3 hrs
3 cr.

URBS 31000 - Methods of Urban Research and Policy Analysis

GER
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.

3 hrs
3 cr.

URBS 31100 - Quantitative Approaches to Urban Analysis

GER
3/B

A survey of quantitative methods used to analyze urban policy and plans. Students are taught about demography, data analysis, and benefits cost analysis.

prereq: Open only urban studies majors who have completed the URBS 10100/10200 sequence or perm instr.
B. Urban Studies Electives (6)

Any two (2) 400-level courses in Urban Studies may fulfill this requirement

Examples:

URBS 40100 - Managing Urban Physical Environment

GER
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

URBS 40200 - Urban Studies Studio

GER
3/B

This course is structured as a site-based research project where the classroom will extend into the city to actual project. In particular, students will work to understand the structural elements of development as it is taking place in one location, for example, the Hudson Yards on the Far West side of Manhattan. A goal is to see how theory holds up to reality; how ideas are linked to practice.

prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

URBS 40300 - Selected Topics in Urban Affairs

GER
3/B

Intensive examination or investigation of specialized topics or new developments in literature and research.
3 hrs
3 cr.

C. Fieldwork Component 3 cr

URBS 40900 - Urban Studies Internship
Students gain first-hand experience by working in urban-related public, private, or non-profit agencies. The internships provide knowledge about urban planning or policy issues.

Open only to declared urban studies majors within 45 credits of graduation.

3 hrs
3 cr.

D. Basic Social Science Component 6 cr

Select two from:

**AFPRL 38400 - Poverty in Society (W)**

Causes and effects of deprivation, with emphasis on policy and program approaches for African Americans and Puerto Ricans/Latinos.

prereq: successful completion of any 2 AFPRL courses

3 hrs
3 cr.

**AFPRL 42000 - The Black Church and Social Change**

In-depth study of the sociopolitical role of Black church in political struggle of Black people with special emphasis on America.

prereq: AFPRL 20300 or 20400 or 20500 or perm instr.

3 hrs
3 cr.

**ECO 33000 - Economic Development**

Pluralism and Diversity

GER

3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

prereq: ECO 20000

3 hrs
3 cr.

**GEOG 22700 - Environmental Conservation: Urban Problems**
Covers topics related to environmental problems and their connection to urban areas. The course will begin with a survey of urban systems (transport, water, food, waste and energy) followed by investigating how these systems contribute to environmental problems and their solutions. This investigation will also include a discussion about the connections between rural and urban areas and urban planning that attempts to minimize environmental hazards.

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

*prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only*

3 hrs
3 cr.

**GEOG 35700 - Geography of New York City and Vicinity**

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/Sr only.

*prereq: GEOG 10100 or GEOG 15000*

3 hrs
3 cr.

Offered fall.

**HIST 31700 - History of the American City**

Pluralism and Diversity
PD/D
GER
3/B

History of the American city from the Colonial era to the present; development of the city as physical environment, social experience, political entity and cultural symbol. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**POLSC 21200 - Urban Politics (W)**
GER
3/B
Politics in New York City and other urban areas. Decentralization, suburbanization, race, ethnicity, reform.
*prereq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

SOC 21100 - Urban Sociology

GER
3/B
The relationships of space and society, with special attention to the nature and problems of urban life.
*prereq: SOC 10100*
3 hrs
3 cr.

SOC 21700 - Race and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B
Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.
*prereq: SOC 10100*
3 hrs
3 cr.

SOC 21800 - Social Inequality

GER
3/B
Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.
*prereq: SOC 10100*
3 hrs
3 cr.

SOC 23500 - Community Organization and Action

GER
3/B
Evaluation of specific local and national action programs.
*prereq: SOC 10100*
3 hrs
3 cr.
URBS 40100 - Managing Urban Physical Environment

GER
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

*prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

URBS 40200 - Urban Studies Studio

GER
3/B

This course is structured as a site-based research project where the classroom will extend into the city to actual project. In particular, students will work to understand the structural elements of development as it is taking place in one location, for example, the Hudson Yards on the Far West side of Manhattan. A goal is to see how theory holds up to reality; how ideas are linked to practice.

*prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

URBS 40300 - Selected Topics in Urban Affairs

GER
3/B

Intensive examination or investigation of specialized topics or new developments in literature and research.

3 hrs
3 cr.

Additional Information

*Students should consult with a program advisor to choose 6 credits (2 courses) of upper-level social science classes appropriate to students' interest. This component can also be met by another 300- or 400-level urban-related course, if approved by the undergraduate advisor.

Departmental Honors: Eligibility Criteria

Overall GPA: 3.2 and above

Major GPA: 3.5 and above

Graduate Courses
The following graduate courses are open to senior urban studies majors. Other graduate-level courses may be taken by seniors with permission of the instructor:

URBP 70100 History and Theory of Urban Planning

URBG 70200 Structure of the Urban Region

In addition to these two courses, there are cross-listed classes, offered each semester, that are open to undergraduate students.

Degree Map

Degree Map for Urban Studies

Women and Gender Studies

Overview

Women's Studies at Hunter was established in 1975 in response to the women's movement of the sixties, which asked that higher education integrate the study of women and gender into the curriculum. Our classes focus on the critical examination of gender, class, race, dis/ability, sexuality, and nationality as intersecting dynamics of social and identity formation. Through our own and cross-listed courses, our students are able to explore topics such as Bathroom Politics; Women and Film; Gender, Sexuality and History; Masculinities; Gender and Human Rights; Gender and Migration, and Transnational Feminism.

Our mission is to:

- Educate students about the principles, theories, and concrete applications of these critical analyses.
- Encourage students to examine the complex ways in which the social formations of sexuality, gender, race, class, national origin, dis/ability, and sexual orientation shape human experience and produce structures of power and inequality.
- Re-examine in curriculum and scholarship the historical record to make visible the experiences and contributions of disenfranchised groups across historical and social locations.
- Connect academic work with social and political realities outside the university; enhance students' understanding of and resistance to structures of inequalities; and link research, teaching/learning, and activism.

Our faculty is an interdisciplinary group of scholars whose research, teaching and advocacy work focuses on the relationships between these forces, drawing from women, gender, and feminist studies; ethnic and critical race studies; LGBT and queer studies; disabilities studies; as well as the study of nationalism and class.

What can I do with a Women and Gender Studies Major?

Through the interdisciplinary study of gender and its relation to other identity markers such as race, class, ethnicity, sexuality, nation, and religion, Hunter College builds a foundation for its Women and Gender Studies majors to move on to professional work in government, public service, research, and education. Our majors also have an academic background that makes them ideal candidates for pursuing professional degrees and graduate studies in a variety of fields, including social work, policy, health, and law.

Degree Map for Women and Gender Studies

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Women and Gender Studies major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably
will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**  
English Comp (EC)  
GER  
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.  
*prereq: successful completion of developmental courses, if required*  
*3 hrs + conf*  
*3 cr.*

**WGS 10000 - Introduction to Gender and Sexuality Studies**

**Hunter Core**  
Individual and Society (I&S)  
Pluralism and Diversity  
GER  
2/B

The course will introduce students to the political and theoretical debates in the discipline of gender and sexuality. We will cover historical struggles for the women's enfranchisement, the abolitionist movements, sex wars, and the queer rights movement. The course introduces students to feminist contribution to the debate that considers sex as biology and gender as culture, critical race theory, and queer theory. In addition the course will also deal with structural and institutional forms of disenfranchisement by examining the relationship between gender and the state, colonialism, law and capital.  
*3 hrs*  
*3 cr.*

- Math & Quantitative Reasoning  
- Foreign Language Elementary Level 1  
- Scientific World

Spring

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**  
English Comp (EC)  
GER  
2/A
Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

- HCR - US Experience in its Diversity
- Foreign Language - Elementary Level II
- HCR - Individual and Society : Humanities
- HCR - Scientific World

Sophomore Year

Fall

WGS 20100 - Classics in Feminist Thought (W)

Pluralism and Diversity
PD/C
GER
3/A or B

The course covers the historical debates within the 'women's movement' in the United States by examining some of the 'classical' texts by Mary Wollstonecraft, John Adams, and Sojourner Truth. The course also covers the political and intellectual contribution by women of color to the discipline by reading Gloria Anzuldua, bell hooks, Audre Lorde, Patricia Williams, Kimberley Crenshaw among others. 'Foundational' texts by Gayle Rubin, Judith Butler, and Adrienne Rich offer a deeper understanding of queer theory's influence to the discipline. Even as the course reads 'classic' texts of the discipline, we will critically examine the formation of a cannon.

prereq: WGS 10000, ENGL 12000 or equiv.
3 hrs
3 cr.

- Creative Expression
- Foreign Language Intermediate Level 3
- Elective
- Elective

Spring

WGS 24400 - Transnational Feminisms

Pluralism and Diversity
PD/C
GER
3/A or B

Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third
World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas
about gender in different parts of the world.

*prereq: WGS 10000, ENGL 12000*

**3 hrs**

**Spring**

**WGS 31000 - Research Seminar: Feminist Theory and Methodology**

Open to Jr/Sr only. Study of the theoretical models that feminist scholars create to guide their work and application of
feminist methodology to a research project. To graduate with honors in Women's Studies, majors must enroll in this
seminar.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may
also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the
program director in advance to plan their senior seminar.

*prereq: WGS 10000, 20100, at least one other WGS course at 200-level or higher*

Spring

WGSP 32000 - Internship Seminar: Feminist Activism and Advocacy

Open to Jr/Sr only. Practical experience in one of a variety of agencies and organizations related to the needs or concerns of women. Weekly seminar devoted to discussion of feminist activism and advocacy.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

prereq: WGS 10000 and 20100 and at least one other WGS course at the 200 level or higher.
7-10 hrs
3-4 cr.
spring semester

• WGS Elective
• Elective
• Elective
• Elective

Notes:

• Women and Gender Studies majors take 9 credits (3 classes) in one of six Areas of Concentration. See the WGS website for a list of Area of Concentrations and associated courses.
• Students take 6 credits (2 classes) of WGS or cross-listed elective classes. 3 Credits (1 course) of the two elective classes MUST be in an alternate Area of Concentration than the primary one selected.
• At least one of the courses within the Area of Concentration or elective must be 300 level or above.

Minor in Women and Gender Studies

The Minor in Women and Gender Studies requires students to take 12 credits: Introduction to Gender and Sexuality Studies (WGS 10000), Classics in Feminist Thought (WGS 20100), Transnational Feminisms (WGS 24400) and one elective course from one of the six areas of concentration.

WGS 10000 - Introduction to Gender and Sexuality Studies, must be completed before WGS 20100 - Classics in Feminist Thought (W) and WGS 24400 - Transnational Feminisms.

Women and Gender Studies - BA

Hunter Core Requirement

One course within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that
count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the Women and Gender Studies major, the course that meets CCC is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 10000</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
<tr>

3 cr.

WGS 31000 - Research Seminar: Feminist Theory and Methodology

Open to Jr/Sr only. Study of the theoretical models that feminist scholars create to guide their work and application of feminist methodology to a research project. To graduate with honors in Women's Studies, majors must enroll in this seminar.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

prereq: WGS 10000, 20100, at least one other WGS course at 200-level or higher

3 hrs
3 cr.

Area of Concentration - 9 Credits

Students will choose one from among the 6 areas of concentration listed as follows:

- Area of Concentration 1: Feminist Thought and Theory (WGST)
- Area of Concentration 2: Sexualities (WGSS)
- Area of Concentration 3: Gender & Public Policy (WGSP)
- Area of Concentration 4: Labor, Migration and Globalization (WGSL)
- Area of Concentration 5: Women and Gender across Cultures (WGSC)
- Area of Concentration 6: Gender, Literature and the Arts (WGSA)

Electives - 6 credits

Students will be required to take two elective classes (6 credits). One (3 credits) of the two elective classes MUST be in a different Area of Concentration than their primary one. At least one of the classes in your Area of Concentration or an elective must be 300 level or above.

Minor in Women and Gender Studies - 12 credits
The Minor in Women and Gender Studies requires students to take 12 credits: Introduction to Gender and Sexuality Studies (WGS 10000), Classics in Feminist Thought (WGS 20100), Transnational Feminisms (WGS 24400) and one elective course from one of the six areas of concentration. WGS 10000 - Introduction to Gender and Sexuality Studies, must be completed before WGS 20100 - Classics in Feminist Thought (W) and WGS 24400 - Transnational Feminisms.

**Research Seminar**

Majors may satisfy the Senior Seminar requirement of the major by enrolling in the Research Seminar (WGS 31000). This course serves as a capstone course in which WGS majors apply feminist theory and methodology to develop an original research project resulting in a substantial paper.

**Honors**

In order to graduate with honors in Women and Gender Studies, a student must have a 3.5 GPA in the Women and Gender Studies major and a college-wide cumulative index of at least 3.0. Students should submit a 18-20 page paper written for any Women and Gender Studies 300 level class including but not limited to the Research Seminar (WGS 31000). The student must submit the paper by March 30 (for June graduation) and October 30 (for December graduation) to be considered for program honors. A faculty committee will read submitted papers and determine whether they merit honors.

**School of Education**

**The School of Education**

**UTEP (Undergraduate Teacher Education Pathways)**

School of Education UTEP programs at Hunter College prepare prospective teachers to serve as highly effective educators, and provide opportunities to work with children of diverse backgrounds, abilities, and interests within an array of educational settings in New York State.

A student who completes an undergraduate School of Education program fulfills the academic requirements for New York State Initial Certification. All students in an education major or minor at Hunter must also fulfill both the Hunter Core requirement and the requirements for a liberal arts or sciences major.

The School of Education is committed to the development of teacher candidates that will be both educators and lifelong students. Teacher preparation that focuses on the unique challenges of working in NYC public school classrooms is at the core of Hunter College's educational mission, and the School of Education is a place for aspiring teachers to learn their craft and contribute to the future through the classroom.
School of Education students are held to the highest professional and academic standards, and will be expected to:

- Learn deep and broad content knowledge across academic disciplines.
- Develop professional knowledge and academic skills.
- Learn the theory and practice of effective pedagogy.
- Understand the history, philosophy, psychology, and sociology of education that will inform their teaching.

The School of Education also believes in preparing teacher candidates to work with a diverse student population in the modern classroom, and recognizes that learning takes place inside social and community networks that support student learning. Thus, our programs also provide teacher candidates with knowledge on how to:

- Manage their educational setting to provide effective instruction for all students.
- Design lessons and units of work for students and to adapt their instruction to students' prior knowledge and level of skill.
- Use research-based theories and methods of teaching students with special needs, including special education students and English language learners.
- Learn to create humane and ethical learning communities in which all students receive the support they need to achieve academically.
- Learn to communicate effectively with parents, families, community members, and other members of the school faculty and staff in order to provide this support.
- Master the use of technology as a tool for teaching.

Finally, becoming a Hunter College teacher candidate requires dedication to the continuous improvement of one's professional abilities. Our programs, therefore, ensure teacher candidates know how to:

- Reflect on teaching practice in order to strengthen work with students and grow as professionals.
- Gain expertise in analyzing and using assessments of student achievement to guide and inform instruction.

Roosevelt House

Two undergraduate programs are offered at Roosevelt House.

Human Rights

This program aims to give students the tools they need to address human rights problems intelligently and constructively, whether as advocates, scholars, researchers or informed citizens. Via academic study and hands-on experience, students will explore both the theoretical and practical underpinnings of current human rights debates.

By learning about human rights law, theory and practice, students in the program will understand how human rights norms and aspirations can shape public policy, international relations, and corporate behavior. They will learn about issues such as accountability, humanitarian intervention, freedom of expression, and the rights of immigrants. They will be introduced to the structure of human rights enforcement mechanisms, assessing the way in which international treaties and multilateral institutions influence the behavior of national governments.

Public Policy

The Roosevelt House public policy program is based on the understanding that the preparation of informed individuals is the key to a vibrant participatory democracy. The program prepares students by providing essential research and analytical skills that are important goals of a strong liberal arts education. Our graduates are unique: they span many
majors from Anthropology to Political Science, Women & Gender Studies to Biology. Students have an opportunity to interact first-hand with policy experts and practitioners, both in the classroom and outside, and learn how policies are created, how communities come together to demand change, who benefits from specific policies, and how public policy impacts can be best measured. These are important skills that enable students to enter competitive graduate school programs, or to embark on careers in public affairs and the nonprofit sector at the local, national or global level.

Roosevelt House

Programs under Roosevelt House

- Human Rights
- Public Policy

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement. Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

Programs and Courses in Human Rights

Programs and Courses in Human Rights

Administration and Faculty

Human Rights

15-credit Minor in Human Rights, five 3-credit courses:

The minor consists of the following courses:

2 Core Required Courses

- Introduction to Human Rights (HR 20000)
- Internship in Human Rights (HR 25000)

3 Elective Cognate Courses from an approved list

The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective
courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Minor program, a student must have completed HR 20000 with a B and have a cumulative GPA of 3.0.

24-credit Certificate in Human Rights

4 Core Required Courses from an approved list

- HR 20000 Introduction to Human Rights: History, Discourse, Practice (W)
- HR 25000 Human Rights Internship
- HR 26000 Human Rights Internship Seminar (W)
- HR 35000 Human Rights Capstone Seminar (W)

4 Elective Cognate Courses from an approved list

The approved list of cognates comprises courses drawn from 18 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Certificate program, a student must have at least completed HR 20000 with a B and have a cumulative GPA of 3.0.

Courses in Human Rights

Public Policy

Overview

The Public Policy program is based on the understanding that the preparation of informed individuals is the key to a vibrant participatory democracy. The program prepares students by providing essential research and analytical skills that are important goals of a strong liberal arts education. Our graduates are unique; they span many majors from Anthropology to Psychology, Chinese and Classics. Students have an opportunity to interact first-hand with policy experts and practitioners, both in the classroom and outside, and learn how policies are created, how communities come together to demand change, who benefits from specific policies, and how to measure the impact of laws. These are important skills that enable graduates to either embark on careers in public affairs and the nonprofit sector, or remain engaged in public affairs—nationally and globally—regardless of their stated major, career goals, or personal objectives.

What can I do with my certificate in Public Policy?

Participation in the Public Policy Program, via either the Minor or the Certificate, will provide students with skills, experience and knowledge that will strengthen their applications to graduate school or law school, and help them in their future careers.

Minor in Public Policy

An 18-credit undergraduate minor in public policy is open to students in all disciplines. In addition to the Core Requirements, students need to take one course in each of the four basic skill areas (political, economic, quantitative and normative analysis).

Core Requirements

PUPOP 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).
Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

**PUPOL 40000 - Capstone Seminar**

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.

Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research.

These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.
3 hours
3 credits

**One Course in American Government and Politics**

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
pcoreq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**One Course in Economic Analysis**

**ECO 20000 - Principles of Microeconomics**

**Hunter Core**
Scientific World (SW)
GER
May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

One Course in Quantitative Analysis

**ECO 22100 - Economic Statistics**

**Hunter Core**
Mathematics and Quantitative Reasoning
**GER**
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500
3 hr lecture or 2 hr lecture/1 hr discussion
3 cr.

**POLSC 20600 - Research Design in Political Science (W)**

**GER**
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.

prereq: passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

**SOC 24000 - Introduction to Research Methods**

**GER**
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.

prereq: SOC 10100
3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B
Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

*prereq: MATH 12500 or appropriate score on placement exam.*

3 hrs
3 cr.

One Course in Normative, Ethical, and Value Analysis. Such courses include but are not limited to:

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**
Individual and Society (Social Science) -I&S SS

**Pluralism and Diversity**
PD/D
GER
2/C

Introduction to social and political philosophy.
3 hrs
3 cr.
*offered each semester*

**PHILO 24400 - Moral Philosophy (W)**

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 10400 - Introduction to Ethics and Moral Judgment**

**Hunter Core**
Individual and Society (Humanities) -I&S H

GER
2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
*offered each semester*

**SOC 21800 - Social Inequality**

GER
3/B
Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

*prereq: SOC 10100
3 hrs
3 cr.*

**POLSC 31100 - Utopian Theory (W)**

GER 3/B

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm dept.
3 hrs
3 cr.*

**POLSC 30500 - Democratic Theory (W)**

GER 3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

*prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.*

**Certificate in Public Policy: Substantive Policy Specialization**

For the Public Policy Certificate each student will take the 6 core courses (18 credits) for the Minor and will be required to declare a substantive area of specialization comprised of 3 courses (9 credits) of additional course work. These may be grounded in a particular discipline or disciplines and should be at the 300-level or by permission of the program director. Or a student may use the substantive specialization to take advantage of clusters of expertise that exist across several Hunter departments. Examples of the latter include (but are not limited to) immigration, health, aging, gender studies, macroeconomics, public finance, economic development, social welfare, public law, human rights, ethics, international relations, international trade, education, urban affairs, environmental studies, and labor. Courses designated for the substantive specialization need approval by the director of the program.

**Additional Opportunities**

The Public Policy Program offers other unique opportunities to its students in the form of conferences, lectures, brown bag seminars, internships and travel. These options are designed to enrich and supplement the students' experiences at the Roosevelt House Public Policy Institute.

**Generic Policy Courses**

Advanced courses which build on the knowledge and skills acquired in the core courses and are applicable to students in a wide range of substantive specializations.
Internships

While internships are not a formal requirement to complete the program, it is a highly recommended option. Undergraduate internship programs are designed to give students a chance to work in a policy-related institutional setting outside the university, either in a government agency, nonprofit, think tank, or advocacy group. Additionally, Roosevelt House has entered into a partnership with the prestigious Brookings Institution in Washington, DC to place a few undergraduates enrolled in the Public Policy Program to work with their scholars in the summer.

Policy Colloquia

A colloquium series will be launched at Roosevelt House that will allow students and faculty to come together several times a semester to discuss public policy issues. Guest speakers, including scholars and practitioners, with relevant expertise will be invited to discuss topics of the day either individually or in panels.

Hunter-Bellevue School of Nursing

Overview

The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research, scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers three programs leading to the Bachelor of Science (with a major in nursing) degree: the Generic Program, for students who do not have an RN license; the RN to BS Program, for students who have completed a nursing program and have received or are about to receive a current RN license to practice professional nursing in New York State and the Accelerated 2nd Degree Program, for students who have already achieved a baccalaureate degree in another field of study and wish to transition into a nursing career. Information on applying to all of our programs is available at http://www.hunter.cuny.edu/nursing. In earning the Bachelor of Science (with a major in Nursing) degree, students in all programs complete core requirements and professional education curriculum requirements.

What can I do with my degree in Nursing?

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings.

School of Urban Public Health

School of Urban Public Health

OVERVIEW

Hunter College's School of Urban Public Health educates students to contribute to improving urban health by addressing problems such as HIV, substance abuse, asthma, obesity, under-nutrition, violence, heart disease and cancer. The school of offers undergraduate programs in Community Health and Nutrition and Food Science. Hunter's School of Urban Public Health shares an eight-story, 147,000-square-foot green building on Third Avenue between East 118th and 119th Streets with the Silberman School of Social Work at Hunter College. Faculty, staff and students from both schools work closely with community organizations and health and social service agencies in East Harlem to strengthen existing and create new approaches to improving the well-being of East Harlem and other low-income communities.

What can I do with my degree in Community Health?

This program is designed to prepare students for work in community-based and human rights organizations, family planning clinics, mental health centers, homeless shelters, research centers, media organizations, as well as in city, state and national health departments.

What can I do with my degree in Nutrition and Food Science?

The major prepares students to work in a variety of career settings. NFS majors can work with athletes, weight control and fitness programs, special groups like WIC (Women, Infants & Children) in community settings, food service industries like hotels, airlines, universities, food service chains, and industrial cafeterias. Graduates can become food science technical specialists and conduct research, development and quality control of food products for food companies. It is also possible to use foods and nutrition knowledge for jobs in advertising, marketing and in the mass media. Students can become consultants to television programs, or write articles on food for newspapers. Students may take steps after graduation to enter a graduate didactic program in dietetics (DPD) at Hunter or elsewhere to become registered dietitians (RD), or pursue graduate study in allied health, social work, scientific research, or other human service professions. (Note: The NFS-BS undergraduate major is not a didactic program in dietetics (DPD) and does not prepare the student to become a registered dietitian. At Hunter, the DPD is on graduate level (NUTR-MS).)

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), the program will qualify students from the BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

Silberman School of Social Work

The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social work in New York City. The School's mission is to promote excellence in social work practice by preparing knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our pedagogy, scholarship, and service reflect social work's historic commitment to human rights, cultural complexity, and social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real-world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

About Hunter College

Hunter College is part of The City University of New York (CUNY), the nation's largest urban university. CUNY comprises 11 senior colleges, seven community colleges, a graduate school, a school of professional studies, a school of journalism, a school of public health and health policy, an honors college and a law school.

Known for its rich and academically rigorous environment, Hunter College takes pride in a curriculum as diverse and wideranging as its community. Hunter faculty and students come from virtually every nation and culture in the world, enriching the Hunter community and the city with their myriad perspectives and experiences. The college seeks to help its students broaden their outlook on the world, achieve success in their chosen professions and fulfill their personal, academic and civic potential.

Originally called The Normal College, the school was founded in 1870 by Thomas Hunter to educate young women who wished to be teachers. Today Hunter is a coeducational, fully accredited college with a large, distinguished faculty in the liberal arts and sciences and in its professional schools. Hunter offers both undergraduate and graduate degrees and enrolls close to 23,000 students, making it the largest senior college in CUNY.

The college consists of six schools: the School of Arts and Sciences, the School of Education, the Hunter-Bellevue School of Nursing, the School of Urban Public Health, the School of Health Professions and the Silberman School of
Social Work. The schools offer more than 55 undergraduate programs, which lead to the degrees of bachelor of arts, bachelor of science, bachelor of fine arts, bachelor of music and bachelor of social work as well as 14 dual bachelor's/master's programs and scores of graduate programs. Each program of study provides students with skills to attain competence in a specialized field and a foundation of general knowledge. The fields of concentration may be chosen from the general areas of the fine arts, the humanities, the language arts, the sciences, the social sciences and the applied arts and sciences, as well as in professional areas in accounting, education, health sciences and nursing.

A post-baccalaureate program in health careers preparation is available for students interested in taking coursework required for admission to schools of medicine, dentistry, nursing, veterinary science, etc.

Graduate students may matriculate in any one of over 70 master's degree programs in the School of Arts and Sciences, the School of Education, the School of Urban Public Health, the School of Health Professions, the Hunter-Bellevue School of Nursing and the Silberman School of Social Work. In addition, the graduate programs in teacher education and nursing include courses leading to post-master's certificates in several different areas. Details of the graduate programs are available in the graduate catalog catalog.hunter.cuny.edu/index.php, at the Hunter College Welcome Center (Room 100 North Building), in the offices of the deans of each area, in the Cooperman Library and on the Web at www.hunter.cuny.edu.

The Hunter College Campus Schools are devoted to the education of gifted students who reside in New York City. Opportunities are provided for students to engage in critical thinking and creative endeavors in an atmosphere of intellectual inquiry. Educational research and teacher education projects are features of collaboration with the School of Education at Hunter College. The elementary school (K to Grade 6) and the high school (Grades 7-12) model different educational strategies and serve as demonstration schools for students and teachers. For additional information, contact Lisa Siegman, Acting Director, at (212) 860-1291 or by e-mail at lsiegman@hccs.hunter.cuny.edu.

Manhattan Hunter Science High School is a science-focused early college high school funded in part by the Gates Foundation. It is a joint venture of Hunter and the New York City Department of Education. Students take college courses at Hunter during their junior and senior years. Many will pursue baccalaureate studies at Hunter and other City University colleges.

**Absence of Instructor**

If a class finds that the instructor is still absent after 10 minutes of the period has elapsed, a representative should be sent to the appropriate department office for instructions. The class should remain until the representative returns.

**Academic Calendar and Sessions**

Hunter College offers fall, winter, spring, and summer semesters. Consult the Academic Calendar at http://www.hunter.cuny.edu/onestop/calendars/academic-calendars for specific starting dates. Courses are offered from early morning to late evening each semester and in the summer. Students are expected to attend both the fall and spring semesters; students who do not must apply for readmission.

Attendance in the summer program is optional. Students who receive financial aid under the New York State Tuition Assistance Program (TAP) should realize that these awards are available for no more than a total of eight semesters (ten for SEEK). TAP assistance for a summer session will count as one-half a semester; the other half may be used only in a subsequent summer session.

**Academic Honors**

**Dean's List** At the end of each fall and spring semester the Dean of Students recognizes matriculated students with excellent academic records. The criteria for inclusion on the Dean's List are: a grade point average of 3.5 or higher with
A student who has completed 60 credits of traditional letter grades at Hunter College may be considered for graduation honors. Students with a cumulative GPA of 3.900 or higher will be graduated Summa Cum Laude. Students with a GPA from 3.750 to 3.899 will be graduated Magna Cum Laude. Students with a GPA from 3.500 to 3.749 will be graduated Cum Laude.

Graduation with Departmental Honors On recommendation of any department or interdepartmental field, students with at least 24 credits in the department or field may be graduated "With Honors" in that department or field, provided they graduate in the term for which they file for honors. Of these credits, 21 (or, in exceptional cases, 18) must be taken at Hunter. Students who participate in the Study Abroad Program or the Exchange Program within the United States may be considered for departmental honors even if they have earned fewer than 18 credits at Hunter in courses approved for the major. Students are eligible for departmental honors if their GPA in the major or field is not less than 3.5. The student must also elect at least 2 credits (but no more than 6 credits) in honors courses offered in that department and present to the department's Committee on Honors a piece of independent work. Honors courses include seminar, laboratory, reading and tutorial courses and independent study projects established for the instruction of honors students.

Academic Preparation

The best preparation for success at Hunter College is a full program of college-preparatory courses. The college recommends four years of English, four years of social studies, three years of mathematics, two years of foreign language, two years of laboratory science and one year of performing or visual arts.

In addition to providing a strong foundation for college-level coursework, the program recommended above fulfills the 16 units of high school work in academic courses required for admission to a CUNY senior college. High school students should check with guidance counselors to determine which courses are considered to be academically within the English, mathematics, science, social science, foreign language and fine and performing arts curricula. Freshman admission to Hunter College is competitive. Applicants are considered for admission on the basis of the overall strength of their academic preparation, which includes SAT/ACT scores, high school academic average, the number of academic subjects and the distribution of those courses. A diploma from an accredited high school, an equivalency diploma or a United States Armed Forces diploma is also required for entrance to the college. Neither a high school certificate nor an IEP diploma is acceptable. For more information on how to prepare to apply to Hunter College, visit www.cuny.edu/prepare.

Academic Requirements

• Hunter Core Requirement
• General Education Requirements
• Foreign Language Requirement

Accelerated Bachelor's/Master's Degrees

Accelerated Bachelor's/Master's Degrees

These programs may enable highly qualified students to earn the bachelor's and master's degrees in a shorter period of time than is required for taking the degrees separately. The following programs are available.

• Accelerated BS/MS in Nutrition (DPD)
• Adolescent Biology, Grades 7-12 - BA/MA
Accelerated BS/MS in Nutrition (DPD) Program

Description

This pathway is for NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement. Acceptance to the BS-MS accelerated track is a competitive option open only to Hunter College students in the NFS major. Students must complete the NFS major and academic requirements for their undergraduate degree in about 96 credits, must have an overall GPA of 3.5 and prerequisite GPA of 3.2 or better to be considered. However, a 3.5 GPA in and of itself does not guarantee admission.

This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework and provides students the opportunity for academic acceleration to a graduate degree.

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), the credentialing arm of the Academy of Nutrition and Dietetics (AND), it will qualify students from this BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

Access to College Files

The Federal Education Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include the right to inspect the student's education records; the right to request the amendment of the student's education records that the student believes are inaccurate or misleading; the right to consent to disclosure of personally identifiable information contained in the student's education records; and the right to request that certain information not be released without his or her prior written consent by filing a letter with the Office of the Registrar.

Accreditation

Hunter College is fully accredited by the Middle States Commission on Higher Education (MSCHE), 3624 Market Street, Philadelphia, PA 19104-2680; phone: 267-284-5000.
Hunter is approved as a degree-granting institution by the Trustees of the City University of New York and the Regents of New York State.

**Academic programs with national accreditation or certification include the following:**

School of Arts and Sciences programs in Biochemistry and Urban Planning are accredited by the American Society for Biochemistry and Molecular Biology and the Planning Accreditation Board, respectively.

School of Education programs are accredited by the National Council for Accreditation of Teacher Education (NCATE), the Counsel on Rehabilitation Education (CORE), and the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

The baccalaureate degree in nursing programs, the master's degree in nursing programs, and the Doctor of Nursing Practice program at Hunter College, CUNY, are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington DC 20001, 202-887-6791.

Silberman School of Social Work programs are accredited by the Council on Social Work Education.

Health Professions programs are accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association; the American Physical Therapy Association.

School of Urban Public Health programs in nutrition are accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND).

Admission Requirements (all Programs)

Students are considered for admission to the Generic Program, Accelerated 2nd Degree and RN to BS programs for the fall semester only. Students are considered for admission to the generic program in the spring semester of their freshman year, after completing prerequisite course work and an application to the School of Nursing. An overall college GPA of 3.2 in addition to other requirements is the minimum requirement for consideration of an application. Only matriculated Hunter College students can apply to the Generic Program. Admission to the School of Nursing is competitive. Generic Program and Accelerated 2nd Degree Program students must be able to attend during the day and evening on a full-time basis, including weekends. All clinical assignments are made by the school faculty depending on site availability. RN Program students may attend during the day or evening, depending on scheduling of courses, on a full- or a part-time basis.

HBSON and Queensborough Community College have a collaborative agreement that grants early acceptance of AAS students into the RN to BS program. Students must complete their first semester of study at QCC with a grade of B or better in NU 101 and a GPA of 3.2 or better for early acceptance.

Admission Requirements to Nursing Programs

Declaring a Teacher Preparation Major or Minor
Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

(Please note that the writing test is no longer required)

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

The School of Education also offers the following course to Hunter students who have not applied for admission to an SOE program:

EDUC 25000 - Introduction to Urban Education: Topics and Issues around Diversity and Equity (W)

**Admissions: How to Apply**

To apply to Hunter College, students must complete the CUNY undergraduate application, which is available online at www.cuny.edu/apply.

Freshmen and transfer students are encouraged to apply by February 1 for the fall semester and September 15 for the spring semester. Students should complete the online application and submit the application processing fee and all supporting documentation as early as possible to guarantee full consideration for admission and scholarship aid. To apply as a part-time student contact the Hunter College Welcome Center for an appropriate application.

**Application Fees**
- $65 freshman
- $70 transfer

**Admissions: International Students Office**

For more information, contact the International Students Office, Hunter College, 695 Park Avenue, Room 1109 Hunter East, New York, NY 10065; telephone: (212) 772-4864; e-mail: intlss@hunter.cuny.edu. Policies governing the Office of Admissions and the International Students Office are based on policies and practices recommended by NAFSA, AACRAO and other educational organizations.

**Adolescent Education**

Students who want to become teachers in secondary schools must complete the adolescent education sequence of 23 credits and may also have to take some liberal arts courses beyond those required for the Hunter Core Requirement. In order to be admitted to this program, students must apply to the School of Education. See School of Education for the admission process. The adolescent education program leads to initial NYS certification.
Adolescent English, Grades 7-12 - BA

Liberal Arts and Sciences Major Requirements

Completion of the BA degree: Concentration in English: Preparation for Secondary School Teaching (39 cr)

The concentration in English: Preparation for Secondary School Teaching is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 252 Introduction to Literary Studies, 18 credits of required literature courses, 6 credits of required writing courses, a 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department, with the option to choose one of their three electives from a menu of courses in other departments and programs. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 Honors Seminar.

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses CUNY Common Core Foundational or Major

ENGL 12000 English Composition (EC)Foundational

ENGL 22000 English Composition (EC)Foundational

B.A. in English: Concentration in English: Preparation for Secondary School Teaching

A. Introduction to Literary Studies (3 cr)

• ENGL 25200 Introduction to Literary Studies

B. Six Required Literature Courses (18 cr)

1. Three Required Courses (9 cr)

• ENGL 30300 Western Literary Backgrounds of British and American Literature
• ENGL 30600 Introduction to Literary Theory (W)
• ENGL 33800 Survey of British Literature I: Early Texts To the Eighteenth Century

2. One course chosen from the following (3 cr):

• ENGL 35200 Shakespeare Survey -or- ENGL 35300 Shakespeare I -or- ENGL 35400 Shakespeare II

3. One course chosen from the following (3 cr):

4. One course chosen from the following (3 cr.)

- ENGL 32000 Multi-Ethnic American Literature (W) -or- ENGL 32500 Post-Colonial Literature in English (W)

C. Required Writing Courses (6 cr)

1. Theory and Practice of Expository Writing (3 cr)

- ENGL 30100 Composition Theory and Practice

2. One course chosen from the following (3 cr.)

- ENGL 30000 Introduction to Creative Writing -or- ENGL 34100 Rhetorical Principles of Expository Writing

D. Required Language Course (3 cr)

- ENGL 33100 The Structure of Modern English

E. Three Electives (9 cr)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements.

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

Adolescent Mathematics, Grades 7-12 - BA

Liberal Arts and Sciences Major Requirements

33-credit major in mathematics Mathematics - BA plus one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent).

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- MATH 12500 (STEM) - Precalculus (prereq to MATH 15000)
- MATH 15000 (STEM) Calculus with Analytic Geometry I
- MATH 15500 (STEM) Calculus with Analytic Geometry II

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's
advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

To enter the standard Mathematics Major, the student should have completed the Foundational Courses of one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent). The major consists of at least 33 credits of coursework: 24 credits of core curriculum courses and at least 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required.

Major Core Curriculum (24 cr)

- MATH 15600 Introduction to Mathematical Proof Workshop
- MATH 25000 Calculus with Analytic Geometry III
- MATH 25400 Ordinary Differential Equations
- MATH 25500 Vector Analysis
- MATH 26000 Linear Algebra
- MATH 31100 Abstract Algebra I
- MATH 35100 Mathematical Analysis I
- STAT 21300 (STEM) Introduction to Applied Statistics -or- STAT 31100 Probability Theory

Elective Courses

The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate level course approved by a departmental adviser.

Symbolic Computation Proficiency Requirement

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

- MATH 12600 Precalculus Technology Laboratory
- MATH 15400 An Introduction to Symbolic Computation
- MATH 38500 Numerical Methods I

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

Adolescent Physics, Grades 7-12 - BA

Liberal Arts and Sciences Major Requirements

30-credit major in physics.

Physics Option 1

For students in the BA/MA program, students intending to teach grades 7-12, and students intending to enter the medical profession.

Foundational Courses (9 credits)
Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- MATH 12500 (STEM) Precalculus
- MATH 12600 Precalculus Technology Laboratory
- MATH 15000 (STEM) Calculus with Analytic Geometry I

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

A. Introductory Physics: Two Semesters

- PHYS 11100 (STEM) General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

B. 22- to 24-credit concentration in physics courses at the 200 level and higher:

- PHYS 22100 Electronics
- PHYS 33000 Atomic and Nuclear Physics
- PHYS 33400 Intermediate Electricity and Magnetism
- PHYS 33500 Intermediate Mechanics

C. Any Three of the following 5 courses:

- PHYS 22200 Electronics Laboratory
- PHYS 23000 Classical Physics Laboratory
- PHYS 23500 Modern Physics Laboratory
- PHYS 38500 Numerical Methods I
- PHYS 48500 Numerical Methods II

D. Required Allied Courses (Math & Chemistry) 15-26 credits:

- MATH 15000 (STEM) Calculus with Analytic Geometry I
- MATH 15500 (STEM) Calculus with Analytic Geometry II
- MATH 25000 Calculus with Analytic Geometry III
- MATH 25400 Ordinary Differential Equations
- CHEM 10200 (STEM) General Chemistry I
- CHEM 10400 (STEM) General Chemistry II
- CHEM 10600 (STEM) General Chemistry Laboratory

NOTE: The chemistry courses may be substituted by one year of high-school-level chemistry. Together, the introductory physics and the Option 1 concentration (33-35 credit total) satisfy the major requirement for initial certification as a teacher of physics in grades 7-12. Option 1, together with the MA (see the Physics - BA/MA), is recommended for students planning to pursue a PhD in physics.

Preparation for Teaching

The Option 1 major in physics satisfies the requirements for NY State initial certification of at least 30 credits for teachers in adolescent education: physics (grades 7-12). Students planning to become physics teachers at the secondary level should take the 23-credit sequence in secondary education.
Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

- ASTRO 10100 Basic Concepts of Astronomy with Laboratory Exercises
- GEOL 10000 Introduction to Geology
- BIOL 10000 (STEM) Principles of Biology I

**Adolescent Social Studies, Grades 7-12 - BA**

**Liberal Arts and Sciences Major Requirements**

A history major for adolescent teachers. See History for Adolescent Education (Social Studies)

**History for Adolescent Education (Social Studies)**

**Foundational Courses (9 credits)**

At least 6 credits of Foundational Courses must be completed to declare the major. The remaining 3 credits can be completed along with the major.

- HIST 15100 The United States from the Colonial Era to the Civil War (W)
- HIST 15200 The United States from the Civil War Era to the Present (W)
- GEOG 15000 World Regional Geography -or- GEOG 10100 People and Their Environment

**Major (33 credits)**

**Geography (6 credits)**

- GEOG 22100 Economic Geography and Globalization
- GEOG 24100 Population Geography
- GEOG 24300 Urban Geography
- GEOG 24700 Cultural Geography
- GEOG 30500 Special Topics in Urban and Regional Dynamics
- GEOG 30600 Special Topics in Contemporary Regional Geographies
- GEOG 32800 Urban Environmental Problems: Evaluations and Solutions

**Political Science & Economics (6 credits)**

- ECO 10000 Introduction to Economics
- POLSC 11000 American Government: A Historical Introduction (W)

**History (21 credits)**

- A maximum of 6 credits in history courses at the 100-level and a minimum of 9 credits in history courses at the 300-level or above. Foundational courses do not count toward the History credits.

**World/Non-US History (12 credits)**

including a least three credits in each of the following categories (courses may be used to count toward only one category; described category must comprise 50% or more of course content for course to qualify):

1) Pre-1800
2) non-Europe
3) Europe
4) One additional World/Non-US History

US History (6 credits)

- all above the 100-level

Keystone Course in History (3 credits)

SWIM or SYNC: History Practicum or any dedicated seminar or Honors course at the 400 level approved by the Undergraduate Advisor and/or the Department Chair, as involving significant writing in the major (“SWIM”) or graduate-level history course (700-level) available with permission to graduating seniors (Senior Year Non-Traditional Course; “SYNC”)

Advanced Placement

Students need to score at least a 3 on the AP exam to earn credit and/or exemptions from requirements (some exams may require a 5). For more information on how Hunter evaluates AP exams for credit see our Advanced Placement (AP) Examination Course Equivalencies sheet.

Advanced Placement and College-Level Courses Taken while in High School

A maximum of 30 transfer credits can be awarded to students in a freshmen status through the following programs; College Entrance Examination Board Advanced Placement (AP), College-level Examination Program (CLEP), International Baccalaureate (IB) Exam and any college-level courses. Certain academic departments may have restrictions on the award of credits by examination. Check with the department.

- Advanced Placement

Students need to score at least a 3 on the AP exam to earn credit and/or exemptions from requirements (some exams may require a 5). For more information on how Hunter evaluates AP exams for credit see our Advanced Placement (AP) Examination Course Equivalencies sheet.

- International Baccalaureate (IB)

In accordance with CUNY policy, students have two ways to earn credit from an International Baccalaureate (IB) program:

30+ POINTS WITH AN IB DIPLOMA
Students who have completed an IB Diploma with 30 points or higher may be awarded 30 credits (7 credits for each HL exam and 3 credits for each SL exam). See the International Baccalaureate Policy for more detailed information.

24-29 POINTS
Students with 24-29 points may be awarded credits for HL (Higher Level) IB exams with a grade of "5" or better in accordance with the equivalencies in our International Baccalaureate Policy. SL (Standard Level)
courses are not transferable with 29 points or less. An official IB transcript and diploma (if applicable) are required for credit review.

- **College Courses Taken While in High School**

  Students who have completed college-level coursework offered by an accredited college while in high school may receive credit for courses in which grades of C or better are earned (Grade of D or better if taken in the CUNY College Now Program).

  An official college transcript(s) is required in order to be evaluated for college credit at Hunter.

- **Courses taken at Early College Initiative High Schools**

  Students who have earned college credits at an ECI high school may receive up to 30 credits (in combination with any AP, IB, CLEP, A-Level, or GCE exams credits) provided that they have received a grade of D or better (grade of C or better is required for Bard Early College High Schools). Students who have earned their AA or AS degree from an ECI high school will be considered as freshmen, but may be awarded a maximum of 70 credits provided that they have received a grade of D or better (grade of C or better is required for Bard Early College High Schools) and these courses are deemed as transferable. AA or AS holders who accept the offer of admission for the Hunter College Macaulay Honors Program or any of the Honors Scholar Cohorts programs can only receive a maximum of 30 credits and must forfeit the additional credits earned from the Associate degree.

---

**Africana and Puerto Rican/Latino Studies**

Return to: Faculty of the School of Arts and Sciences

- **Anthony Browne**, Associate Professor and Chair, Africana and Puerto Rican/Latino Studies; BA Cornell, MA California (Los Angeles), MA, PhD Columbia

- **James Cantres**, Assistant Professor, Africana and Puerto Rican/Latino Studies; BA Vassar; PhD New York University

- **Milagros Denis-Rosario**, Associate Professor, Africana and Puerto Rican/Latino Studies; BA University of Puerto Rico, MPS Cornell, PhD Howard

- **Joanne Edey-Rhodes**, Lecturer, Africana and Puerto Rican/Latino Studies; BA LIU; MA, MPhil Columbia

- **Veronica M. Gregg**, Associate Professor, Africana and Puerto Rican/Latino Studies; BA West Indies, MA Queens (Canada), PhD Kent (UK)

- **Ehiedu Iweriebor**, Professor, Africana and Puerto Rican/Latino Studies; BA, MA Ibadan (Nigeria), PhD Columbia
Alumni Association

1313B Hunter East; (212) 772-4087

The Alumni Association of Hunter College, composed of 85,000 women and men graduates of the college, has been in continuous existence since 1872. Membership is automatic upon graduation from any Hunter College degree program.

The Association provides opportunities for alumni to become actively involved in the life of the college and serves as the link between Hunter and its graduates. In addition to providing vital support for scholarships and academic programs, members participate in a variety of chapter and on-campus activities, including lectures, faculty round tables, workshops and book discussion groups.

Members can take advantage of campus facilities with the Alumni Card, which provides access to the college libraries, Sportsplex, instructional computing center, Chanin Language Center and career development services. Alumni can attend association meetings in January and May and stay informed about activities through the publication, At Hunter.

Ancient and Medieval

- ARTH 20500 Egyptian Art
- ARTH 21500 Greek Art

Michael Steiper, Professor; PhD, Harvard; Biological Anthropology, Molecular Evolution and Phylogenetics, Population Genetics, Primates

Ida Susser, Distinguished Professor; PhD, Columbia; Medical Anthropology, Contemporary U.S., Urban, Political Economy, Gender, South Africa

Appeals - Rules and Regulations

Please note that all appeals for exceptions and/or substitutions to the General Education Requirements, Hunter Core Requirements and Distribution Requirements will now be heard in the Hunter College Senate, Room 1018 East building. Please access the following link to file an online appeal application
http://www.hunter.cuny.edu/senate/gerappeals

All appeals for dean's list, change of administrative grades (WU, WN, FIN) to retroactive withdrawals and fulfillment of the foreign language requirement with four years of high school language study remain in the Office of Advising, room 1119 east building.
Appeals - General Education Requirements

Students seeking to appeal for substitutions to or exemptions from any general education requirement must begin by filing an appeal with the General Education Requirements Appeals Committee of the Hunter College Senate. Students who follow the Hunter Core (adopted fall 2013) may file appeals regarding the CUNY Common Core or the Hunter Focus (Foreign Language, Concentrated Study, or Pluralism and Diversity). Students who follow the General Education Requirement or Distribution Requirement may also appeal to this committee and should see this document [http://www.hunter.cuny.edu/senate/general-education-requirements-appeals. Appeals must be filed in accordance with the following procedures:

1. The student must submit a complete application for appeal: [http://geappeal.hunter.cuny.edu]. Incomplete applications will be returned to the student without consideration by the appeals committee. This action will not be regarded as a denial of the appeal. The appeals committee may request additional documentation in support of an appeal. Students must respond to such requests within 30 days or reapply with a complete application.

2. The student must present clear evidence that deviation from the prescribed program in the catalog is necessary and reasonable, and that any proposed substitutions adequately meet the academic objectives of the requirement.

3. Appeals for experimental courses completed at Hunter College but not yet approved by the Undergraduate Course of Study Committee as fulfilling a general education requirement must be supported with a class action letter from the department or program that offered the course. Such appeals will be considered only for Pluralism and Diversity or for the Hunter Focus—not for the CUNY Common Core.

4. The student must present clear evidence that a course transferred from another college or university fulfills the academic objectives of the requirement. Petitions for satisfaction of CUNY Common Core Requirements must include indication of which learning outcomes were met in the course and how they were met.

5. The appeals committee will respond to appeals requests on or about the 15th and the 30th of each month during the spring and fall semesters when Hunter College classes are in session. The committee does not review appeals for currently enrolled students between June 1 and September 1 of the same year.

Special Appeals

For other appeals for deviations or exemptions from other academic requirements or policies, students should confer with The Office of Advising. Special appeals include appeals to follow the General Education Requirement (GER), effective Fall 2001-Spring 2013, and the Distribution Requirement, effective Fall 1986-Spring 2001, rather than the Hunter Core. Notice! There are no appeals for Writing Intensive—'W' designated—courses. All 'W' courses must be completed at Hunter College. Note that not all sections of a course are necessarily offered with significant writing every semester. The 'W' designated courses (or specific sections thereof) for a particular semester are listed in the Schedule of Classes each semester. To satisfy a writing requirement, a particular section must be designated as 'W'.

Grades

When a student considers a final course grade unsatisfactory, the student should first confer with the instructor regarding the accuracy of the grade received. This conference should be held within the first three weeks of the semester following receipt of the grade. At this time, errors may be corrected. If the grade is not an error, the student and instructor must together review all class material pertinent to the grade. If the student is not satisfied or if the instructor does not confer with the student within the first three weeks of the semester, the student should promptly contact the department chair by submitting a written appeal, consisting of a statement giving the factual reasons and basis for the complaint. The student has the right to request in writing that the chair appoint a student as a member of the department/school Grade Appeals Committee. This appeal at the department/school level must be submitted within
the first five weeks of the semester following receipt of the grade, in accordance with the "College-wide Grade Appeals Procedures" adopted by the Senate in fall 1985. Copies of this procedure may be obtained in the Senate Office, the Office of Advising or academic departmental offices. Students appealing grades to the School of Nursing, the School of Urban Public Health or the School of Health Professions should direct their appeal to the dean of the School of Nursing. Students appealing grades to the School of Social Work should direct the appeal to the dean of the school, who shall carry out the responsibilities of the department chair.

Application Procedure

Complete the Free Application for Federal Student Aid (FAFSA) on the Web online at www.fafsa.ed.gov. When the student completes the FAFSA (Free Application for Federal Student Aid), Hunter College should be included among the colleges to which the application information is reported. When the FAFSA is processed, CUNY will receive an electronic record of the student's application information. The student may be required to provide additional documentation to the Office of Financial Aid to verify the application information or to clarify any discrepancies in the application.

New York State resident students can apply for both federal and New York State aid during a single on-line session. After completing FAFSA on the Web, New York State residents are able to link to the TAP on the Web Form, which is pre-filled with their FAFSA data.

Arabic Language, Literature, and Culture Program

Overview

The Arabic Language, Literature, and Culture program teaches Arabic as a living language, focusing on both formal — usually referred to as Modern Standard Arabic (MSA) or Fusha — and informal Arabic. Instead of focusing on the translation of written texts, as Arabic has traditionally been taught, we teach our students how to read, speak and aurally comprehend the different registers of the language. We offer a 7-course sequence of language courses, and a number both of advanced elective courses in Arabic and culture courses taught in English. Four semesters of Arabic or the equivalent fulfills the language requirement of Hunter. We also offer two minors: Arabic and Arabic Studies.

Programs and Course

Christopher Reed Stone, Associate Professor, Arabic Studies, Classical and Oriental Studies; BA Haverford; MA, PhD Princeton

Arabic Programs and Courses

Minor in Arabic and Minor in Arabic Studies

Return to Classical and Oriental Studies

Two 12-credit minors are offered by the Arabic Language, Literature, and Culture Division of the Department of Classical and Oriental Studies: Arabic and Arabic Studies.

Minor in Arabic

The minor in Arabic requires the successful completion of

**ARB 20100 - Intermediate Arabic I**

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

*prereq: ARB 10200 or equiv.*

3 hrs
3 cr.

**ARB 20200 - Intermediate Arabic II**

Continuation of ARB 20100.

*prereq: ARB 20100 or equiv.*

3 hrs
3 cr.

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic

*prereq: ARB 20200 or equiv.*

3 hrs
3 cr.

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100

*prereq: ARB 30100 or equiv.*

3 hrs
3 cr.

or their equivalent as determined by the Arabic Program Head.

**ARB 24900 - Special Topics in Arabic Dialects**
The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic.

**prereq:** ARB 20200

3 hrs
3 cr.

**ARB 40100 - Focused Arabic Study for Advanced Students**

**Pluralism and Diversity**

P/D A

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

**prereq:** ARB 30200

3 hrs
3 cr.

...can count toward the minor

**Arabic Studies Minor**

At least 2 Arabic language classes taken at Hunter

- ARB 10100 Beginning Arabic I
- ARB 10200 Beginning Arabic II
- ARB 24900 Special Topics in Arabic Dialects
- ARB 20100 Intermediate Arabic I
- ARB 20200 Intermediate Arabic II
- ARB 30100 Advanced Arabic I
- ARB 30200 Advanced Arabic II

or at a program approved by the Arabic Program Head and at least two ARB courses taught in English.

For students who test out of ARB 30200 without having taken any Arabic courses at the university level, the Arabic Studies Minor can be achieved by taking at least 4 courses from the ARB courses taught in English.

Total credits for the minor: 12

**Arabic Courses**

**ARB 10100 - Beginning Arabic I**

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.
This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement

3 hrs
3 cr.

**ARB 10200 - Beginning Arabic II**

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

prereq: ARB 10100 or permission of Head of Arabic Program.
3 hrs
3 cr.

**ARB 14800 - Beginning Arabic for Heritage Speakers**

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head
3 hrs
3 cr.

**ARB 14900 - Spoken Egyptian Arabic**

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

prereq: ARB 10200 and permission of instructor
3 hours
3 credits

**ARB 15000 - Introduction to Modern Arab Cultures**

**Pluralism and Diversity**
P/D A
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs
3 cr.
ARB 20000 - Topics in Arabic Literature and Culture

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

* prereq: ENGL 12000 or equivalent

3 hrs  
3 cr.

ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

* prereq: ARB 10200 or equiv.

3 hrs  
3 cr.

ARB 20200 - Intermediate Arabic II

Continuation of ARB 20100.

* prereq: ARB 20100 or equiv.

3 hrs  
3 cr.

ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

* prereq: ARB 14800 or Arabic Program head's permission

3 hrs  
3 cr.

ARB 24900 - Special Topics in Arabic Dialects

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

* prereq: ARB 20200

3 hrs  
3 cr.

ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core  
Creative Expression (CE)  
Pluralism and Diversity  
PD/A  
GER  
2/C
A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

*prereq: ENG 22000 or equiv.*
3 hrs
3 cr.

**ARB 25100 - Arab Cinema (in translation)**

*Hunter Core*
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

*prereq: ENGL 12000 or equivalent*
3 hrs
3 credits

**ARB 25200 - Literatures from the Islamic World (W)**

*Hunter Core*
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

*prereq: ENGL 12000 or equivalent*
3 hrs
3 credits

**ARB 25300 - Literatures and Cultures of Muslim Spain (W)**

*Hunter Core*
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

*prereq: ENGL 12000 or equivalent*
3 hrs
3 credits

**ARB 25400 - The Arabian Nights East and West (W)**
The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

Prerequisite or corequisite: ENGL 12000 or equivalent

3 hours
3 credits

ARB 25500 - Modern Palestinian Culture

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity

PD/A

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

3 hrs
3 cr.

ARB 25600 - Modern Arab Theatre

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity

PD/A

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

Prerequisite or corequisite: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.

3 hours
3 credits

ARB 30100 - Advanced Arabic I
Emphasis on increased proficiency in reading, speaking and writing Arabic

*prereq: ARB 20200 or equiv.*

3 hrs
3 cr.

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100

*prereq: ARB 30100 or equiv.*

3 hrs
3 cr.

**ARB 40100 - Focused Arabic Study for Advanced Students**

**Pluralism and Diversity**

P/D A

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

*prereq: ARB 30200*

3 hrs
3 cr.

**Art and Art History**

Return to: Faculty of the School of Arts and Sciences

**Nebahat Avcioglu**, Associate Professor, Art History; BA Istanbul Technical University, PhD Cambridge

**Drew Beattie**, Distinguished Lecturer, Studio Art; BFA North Carolina, MFA Boston Museum School of Fine Arts

**Andrea Blum**, Professor and Associate Chair, Studio Art; BFA Boston Museum School of Fine Arts, MFA Art Institute of Chicago

**Daniel Bozhkov**, Associate Professor, Studio Art; Academy of Fine Arts, Sofia, Bulgaria, MFA Hunter

**Emily Braun**, Distinguished Professor, Art History; BA Victoria College, Toronto, MA, PhD NYU

**Joel Carreiro**, Professor, Studio Art; BFA Cornell, MFA Hunter

**Wen-Shing Chou**, Assistant Professor, Art History; BA Chicago, MA, PhD UC Berkeley

**Susanna Cole**, Distinguished Lecturer; BA Brown, PhD Columbia

**Susan Crile**, Professor, Studio Art; BA Bennington

**Lisa Corinne Davis**, Professor, Studio Art; BFA Pratt, MFA Hunter

**Thierry de Duve**, Kossak Professor and Distinguished Lecturer, Art History; BA, MA University of Louvain, PhD Ecole des Hautes Etudes en Sciences Sociales, Paris

**Constance DeJong**, Distinguished Lecturer, Studio Art; Ohio State University, MA Hunter
Hendrik Dey, Professor and Associate Chair, Art History; BA Middlebury, MA University of Durham, MA, PhD Michigan

Cynthia Hahn, Professor, Art History; BA Pennsylvania State, MA Chicago, PhD John Hopkins

Valerie Jaudon, Professor, Studio Art; St. Martins School of Art, London

Paul Ramirez Jonas, Associate Professor, Studio Art; BA Brown, MFA Rhode Island School of Design

Lynda Klich, Assistant Professor, Art History; BS St. Joseph's, MA Hunter, PhD Institute of Fine Arts, NYU

Reiner Leist, Professor, Studio Art; BFA Cape Town (South Africa), MFA School of Visual Arts

Michael Lobel, Professor, Art History; BA Wesleyan, MA, PhD Yale

Maria Loh, Professor, Art History; BA McGill, MA, PhD Toronto

Jeffrey Mongrain, Distinguished Professor, Studio Art; BFA Minnesota, MFA Southern Illinois

Harper Montgomery, Assistant Professor, Art History; MA Columbia University, PhD University of Chicago

Carrie Moyer, Professor, Studio Art; BFA Pratt, MA NY Institute of Technology, MFA Bard

Maria Antonella Pelizzari, Professor, Art History; Laurea Degree University of Genova, PhD New Mexico

Joachim Pissarro, Bershad Professor of Art History and Director of the Hunter College Galleries; MA Courtauld Institute, London, PhD Texas (Austin)

Juan Sánchez, Professor, Studio Art; BFA Cooper Union, MFA Rutgers

Howard Singerman, Professor and Phyllis and Joseph Caroff Chair, BA Antioch, MFA Claremont, PhD Rochester

Nari C. Ward, Distinguished Professor, Studio Art; BFA Hunter, MFA Brooklyn

Thomas Weaver, Professor, Studio Art; BA California (Santa Cruz), MFA Hunter

Brian Wood, Professor, Studio Art; BA Saskatchewan (Canada), MFA Hunter

Tara Zanardi, Associate Professor; BA Delaware, MA, PhD Virginia

Asian American Studies

Return to: Faculty of the School of Arts and Sciences

John Chin, Professor, Urban Policy & Planning; MS School of Social Research, PhD, MPhil Columbia

Margaret M. Chin, Associate Professor, Sociology; BA Harvard-Radcliffe, MA, PhD Columbia

Vivian Louie, Professor, Urban Policy & and Planning and Asian American Studies Program Director; BA Harvard-Radcliffe, PhD, Yale

Joong Oh, Professor, Sociology; BA Puson National Univ. (Korea), MA, PhD South Carolina

Rupal Oza, Associate Professor, Women and Gender Studies; MA Temple, PhD Rutgers

Angela Reyes, Professor, English; BA Michigan State, MSEd Penn State, PhD Pennsylvania
Assembly and Meeting Hours

Dean's Hour, scheduled on Wednesdays from 1:10-3:00 PM, is a time block reserved for official college assemblies, club/organizational meetings, guidance meetings, and other academic/administrative purposes. No classes will be scheduled at this time.

Assembly Hall

Hunter North Lobby- Room 118 HN

The Assembly Hall is Hunter's largest performance venue. With a seating capacity of 2,079, the hall hosts performances by the Hunter College Symphony, concerts, meetings, forums and a variety of other events. Anyone interested in reserving the Assembly Hall for an event should contact the Office of Central Reservations at (212) 772-4872.

Assignment of Credit Hours to Courses

The assignment of credit hours to courses at Hunter College complies with the New York State Education Department's procedures:

"Semester hour means a credit, point, or other unit granted for the satisfactory completion of a course which requires at least 15 hours (of 50 minutes each) of instruction and at least 30 hours of supplementary assignments, except as otherwise provided pursuant to section 52.2(c)(4) of this Subchapter. This basic measure shall be adjusted proportionately to translate the value of other academic calendars and formats of study in relation to the credit granted for study during the two semesters that comprise an academic year."

See www.highered.nysed.gov/ocue/aipr/Part50.htm

Athletic Program Participation Notice

The college files an annual report with the US secretary of education on intercollegiate athletics which includes information on the participation of males and females on its teams and the expenditures and revenues of those teams. Copies of the annual report on intercollegiate athletics are available at the reference desk of the library.

Attendance Policies

All students must report to classes during the first week of classes. Students will lose their place in some classes if they do not attend the first class meeting, and will be given the "never attend" grade of WN. Although this grade won't appear on an official transcript, the student is liable for payment depending on the date the instructor notifies the Registrar's Office of missing attendance.

Although Hunter is not an attendance-taking institution, the instructor has the right to set attendance as one of the requirements for the course, thus using attendance in the calculation of final grades. Such attendance policies will be
Attendance Requirements for Nursing

Generic Program and Accelerated 2nd Degree Program students must attend during the day on a full-time basis. RN Program students may attend during the day or evening (depending on scheduling of courses) on a full-or a part-time basis.

Auditing

- Currently enrolled degree and non-degree students: Students register for the course online at their CUNYfirst account and then provide a letter on letterhead stationery, signed by the Chairperson of the academic department which offers the course and approving that the course may be taken for AUDIT grade. This letter must be delivered to the One Stop, Room 217 North Building before the last day of the first week of classes during posted office hours. See www.hunter.cuny.edu/onestop/hours-of-operation for office hours. This option is only available through the first week of classes for each semester or term. Audit status will not be posted for students after the last day of the first week of classes. Audit grade status cannot be reversed once posted.
- Senior Citizens: Students classified as Senior Citizens by the college may register for courses as auditors only.
- Newly admitted and/or readmitted degree and non-degree students: Consult with the Office of Advising, Room 1119 East Building.
- Auditors pay mandated tuition and fees. For more information, visit: http://www.hunter.cuny.edu/onestop/finances/billing/costs-tuition-fees. No credit or grade will be given for audited classes.

Auditing Courses

Auditors receive neither grades nor academic credit for their courses. Individuals enrolling under this program pay fees totaling approximately $80 each semester.

Biological Sciences

Return to: Faculty of the School of Arts and Sciences

Adrienne Alaie, Assistant Professor; BA Bennington, PhD CUNY

**Biological Sciences: Basic concentration**

**Liberal Arts and Sciences Major Requirements**

37 credits in Biology plus 33.5-36.5 credits in required additional science and math courses (total 70.5 to 73.5 credits).

**Biological Science: Basic Concentration**

**Foundational Courses**
Foundational Courses for the Biology Major (all concentrations) must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- MATH 12500 (STEM) Precalculus
- MATH 12600 Precalculus Technology Laboratory

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

The basic major is for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. Students planning to pursue the biology major are strongly encouraged to declare their major as soon as possible after completing one semester of Principles of Biology. Declared majors are assigned a permanent faculty advisor who will assist in individual curriculum planning. Students are required to meet with their advisor at least once each semester throughout their undergraduate career to discuss their program and progress.

A. Introductory Biology (9 cr.)

- BIOL 10000 (STEM) Principles of Biology I
- MATH 10200 Mathematics and Everyday Life

B. 200-level and higher Concentration in Biology (24.5 cr.)

1. Required Courses (13.5 cr.)

- BIOL 20300 Molecular Biology and Genetics
- BIOL 30000 Biological Chemistry
- BIOL 30300 Cell Biology

2. Electives (11 credits)

Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, at least one special-topics course must be taken (BIOL 47000 or BIOL 47100 or BIOL 79000; various topics offered each semester) in addition to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major (e.g. BIOL 12000, BIOL 12200 and BIOL 23000). Please read the course descriptions carefully to identify those courses. If you have any questions about which courses can be used as major electives, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits are taken as a BIOL 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course. Laboratory research credits can also be obtained from BIOL 61000. Together, introductory biology and the concentration (33.5 cr.) satisfy the major requirement for certification as a teacher of biology in grades 7-12.
Additional science and math requirements for the major:

- CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM), CHEM 22200, CHEM 22300, CHEM 22400
- PHYS 11000 (STEM), PHYS 12000 (STEM),(or PHYS 11100 (STEM)), PHYS 12100 (STEM)
- MATH 15000 (STEM), MATH 15500 (STEM) or STAT 21300 (STEM)

Allied courses credits required

- 37.5-44.5, including MATH 12500 (STEM) or placement test.

Biological Sciences: Career Planning

Return to Biological Sciences Department

Graduate Study The department offers a master of arts in the biological sciences and courses taken in the MA program can later be credited toward the PhD upon acceptance into the CUNY doctoral program in biology. Interested students should obtain the Hunter College graduate catalog and contact the biology master's program adviser. Laboratory research under faculty supervision (see undergraduate research, below) is extremely valuable for gaining admission to graduate schools. Students planning to apply to graduate school should consult with their adviser as early in their college career as possible.

Professional Schools Students who plan to apply to schools of medicine, dentistry or veterinary medicine should consult with their adviser and see the preprofessional adviser on the 12th floor of Hunter East.

Preparation for Teaching In cooperation with the School of Education, the Department of Biological Sciences offers opportunities for students to prepare for a teaching career in elementary and secondary schools. The basic major in biology satisfies the requirements for New York State certification of at least 30 credits for teachers in adolescent education, grades 7-12.

Preparation for Biotechnology Students interested in careers in the rapidly growing field of biotechnology should select the major in biology and consult with their adviser as early as possible. Advanced courses taken as electives should include BIOL 61000 (see Hunter graduate catalog) and those special topics courses (BIOL 47000-BIOL 47100) that are most relevant to biotechnology. Qualified students are also encouraged to pursue the BA/MA Program in Biotechnology. Interested biology majors who have completed BIOL 300 should contact Dr. Patricia Rockwell as early as possible.

Brookdale Center on Healthy Aging and Longevity

2180 3rd Ave @ 119th Street, NYC 8th Floor

New York, NY 10035
(212) 396-7835
http://www.brookdale.org/
ActingDirector: Daniel Gardner
The Brookdale Center for Healthy Aging improves the lives of older adults through research, policy and professional development.

Founded in 1974, by Dr. Rose Dobroff, the Center quickly took root and flourished. As one of the country's first academic gerontology centers, Brookdale fostered a generation of professionals and paraprofessionals who serve older adults. With the addition of the Sadin Institute on Law and Public Policy, named for its founder Sam Sadin, Brookdale pioneered the field of elder law, nurturing many of the field's top legal experts. For over four decades, Brookdale has remained a leader and innovator in an area of human services and public policy that has become increasingly relevant over the years.

Human services professionals, lawyers and other advocates continue to come to Brookdale to expand their knowledge and sharpen their skills. Brookdale trains the majority of public employees in New York State who provide protective services to vulnerable adults; operates an institute specifically for managers and aspiring supervisors; trains lawyers and others in the guardianship process; and runs a rigorous certificate program in geriatric care management – to name just a few examples.

From the Center's location in East Harlem, staff are engaged in developing, implementing and evaluating cutting-edge programs and practices and disseminating those that work – such as daily money management services that protect elderly and disabled adults from financial exploitation and may enable them to remain at home instead of being placed in residential care facilities, and programs that neighborhood senior centers can offer to help people manage chronic health problems and improve their quality of life.

ARTICLE XV: STUDENTS

SECTION 15.0 PREAMBLE.

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Student participation, responsibility, academic freedom, and due process are essential to the operation of the academic enterprise. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Freedom to learn and to explore major social, political, and economic issues are necessary adjuncts to student academic freedom, as is freedom from discrimination, as set forth in the university's non-discrimination policy.

Freedom to learn and freedom to teach are inseparable facets of academic freedom. The concomitant of this freedom is responsibility. If members of the academic community are to develop positively in their freedom; if these rights are to be secure, then students should exercise their freedom with responsibility.

SECTION 15.1. CONDUCT STANDARD DEFINED

Each student enrolled or in attendance in any college, school or unit under the control of the board and every student organization, association, publication, club or chapter shall obey (1) the laws of the city, state and nation; (2) the bylaws and resolutions of the board, including the rules and regulations for the maintenance of public order pursuant to article 129-a of the education law ("Henderson rules"); and (3) the governance plan, policies, regulations, and orders of the college. Such laws, bylaws, resolutions, policies, rules, regulations and orders shall, of course, be limited by the right of students to the freedoms of speech, press, assembly and petition as construed by the courts.

SECTION 15.2. STUDENT ORGANIZATIONS

a. Any group of students may form an organization, association, club or chapter by filing with the duly elected student government organization of the college or school at which they are enrolled or in attendance and with an officer to be designated by the chief student affairs officer of the college or school at which they are enrolled or in attendance (1) the name and purposes of the organization, association, club or chapter, (2) the names and addresses of its president and secretary or other officers corresponding in function to president and secretary.

The board recognizes that students have rights to free expression and association. At the same time, the board strongly believes that respect for all members of the university's diverse community is an essential attribute of a great university.
b. Extra-curricular activities at each college or school shall be regulated by the duly elected student government organization to insure the effective conduct of such college or school as an institution of higher learning and for the prevention of activities which are hereafter proscribed or which violate the standards of conduct of the character set forth in bylaw 15.1. Such powers shall include:

1. The power to charter or otherwise authorize teams (excluding intercollegiate athletics), publications, organizations, associations, clubs or chapters, and, when appropriate in the exercise of such regulatory power, the power to refuse, suspend or revoke any charter or other authorization for cause after hearing on notice.

2. The power to delegate responsibility for the effective implementation of its regulatory functions hereunder to any officer or committee which it may appoint.

c. 1. Any person or organization affiliated with the college may file a complaint with the chief student affairs officer if there is reason to believe that a student organization has violated any of the standards of conduct set forth in section 15.1 above. The chief student affairs officer shall promptly notify the affected organization, investigate any complaint and report the results of that investigation along with a recommendation for appropriate action to the complainant and the student government which shall take action as it deems appropriate, except that in the case of a complaint against the student government itself, the chief student affairs officer shall report the results of the investigation and the recommendation for appropriate action directly to the president.

2. The complainant or any student organization adversely affected by the action of the student government pursuant to subparagraph c (1) above may appeal to the president. The president may take such action as he or she deems appropriate and such action shall be final.

d. Each college shall establish a student elections review committee in consultation with the various student governments. The student elections review committee shall approve the election procedures and certify the results of elections for student governments, and student body referenda. Decisions of the student elections review committee may be appealed to the college president, whose decision shall be final. An appeal from the decision of the student elections review committee must be made in writing to the President within ten (10) calendar days of the decision. The President shall consult with the student elections review committee and render a decision as expeditiously as possible which may affirm, reverse, or modify the decision of the student elections review committee.

e. Student government elections shall be scheduled and conducted, and newly elected student governments shall take office, in accordance with policies of the board, and implementing regulations.

SECTION 15.3. THE UNIVERSITY STUDENT SENATE

There shall be a university student senate responsible, subject to the board of trustees, for the formulation of university-wide student policy relating to the academic status, role, rights and freedoms of the student. The authority and duties of the university student senate shall not extend to areas of interest which fall exclusively within the domain of the student governments of the constituent units of the university. Consistent with the authority of the board of trustees in accordance with the education law and the bylaws of the board of trustees, the university student senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures, for its internal administration and for such other matters as is necessary for its existence. The university student senate shall have the full rights and responsibilities accorded student organizations as provided in these bylaws. The delegates and alternate delegates to the university student senate shall be elected by their respective constituencies, or by their student governments from the elected members of the respective student governments.

SECTION 15.4. STUDENT DISCIPLINARY PROCEDURES

Complaint Procedures

a. A University student, employee, visitor, organization or department who/which believes she/he/it is the victim of a student's misconduct (hereinafter "complainant") may make a charge, accusation, or allegation against a student (hereinafter "respondent") which if proved, may subject the respondent to disciplinary action. Such charge, accusation, or allegation must be communicated to the chief student affairs officer of the college the respondent attends.
b. The chief student affairs officer of the college or her or his designee shall conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or her or his designee shall advise the respondent of the allegation against her or him, explain to the respondent and the complainant their rights, consult with other parties who may be involved or who have information regarding the incident, and review other relevant evidence. The preliminary investigation shall be concluded within thirty (30) calendar days of the filing of the complaint, unless: (i) said complaint involves two or more complainants or respondents; or (ii) said complaint involves a matter that is also under investigation by law enforcement authorities. In those cases, the preliminary investigation shall be completed within sixty (60) calendar days. Further, if the matter has been previously investigated pursuant to the Board of Trustees Policy on Sexual Misconduct, the chief student affairs officer shall dispense with a preliminary investigation and rely on the report completed by the Title IX Coordinator. Following the completion of the preliminary investigation, the chief student affairs officer or designee shall take one of the following actions:

(i) Dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary action. The individuals involved shall be notified that the complaint has been dismissed;

(ii) Refer the matter to mediation (except in cases involving allegations of sexual assault, stalking or other forms of sexual violence); or

(iii) Prefer formal disciplinary charges.

c. In the event that a respondent withdraws from the college after a charge, accusation or allegation against a respondent has been made, and the college prefers formal disciplinary charges, the respondent is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made or the charges are otherwise resolved. If the respondent fails to appear the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding.

d. The college may offer the respondent and the complainant the opportunity to participate in a mediation conference prior to the time the disciplinary hearing takes place in an effort to resolve the matter by mutual agreement (except in cases involving sexual assault, stalking and other forms of sexual violence). The conference shall be conducted by a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:

1. An effort shall be made to resolve the matter by mutual agreement.

2. If an agreement is reached, the faculty or staff member conducting the conference shall report her/his recommendation to the chief student affairs officer for approval and, if approved, the complainant and the respondent shall be notified, and a written memorandum shall be created memorializing the resolution and any consequences for non-compliance.

3. If no agreement is reached within a reasonable time, or if the respondent fails to appear, the faculty or staff member conducting the conference shall refer the matter back to the chief student affairs officer who may prefer disciplinary charges.

Mediation Conference

d. The mediation conference shall be conducted by a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference: I. An effort will be made to resolve the matter by mutual agreement.

2. If an agreement is reached, the faculty or staff member conducting the conference shall report his/her recommendation to the chief student affairs officer for approval and, if approved, the complainant shall be notified, and a written memorandum shall be created memorializing the resolution and any consequences for non-compliance.
3. If no agreement is reached, or if the student fails to appear, the faculty or staff member conducting the conference shall refer the matter back to the chief student affairs officer who may prefer disciplinary charges.

4. The faculty or staff member conducting the mediation conference is precluded from testifying in a college hearing regarding information received during the mediation conference.

Notice of Hearing and Charges, and Pre-Hearing Document Inspection

e. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered to the respondent, or sent by certified or overnight mail and email to the respondent's CUNY-assigned email address. Notice shall also be sent in a similar manner to the complainant to the extent the charges relate to her/him/it. The chief student affairs officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent and the complainant. The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment as of right. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the faculty-student disciplinary committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed in absentia, and any decision and sanction shall be binding.

f. The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the rule, bylaw or regulation she/he is charged with violating, and the possible penalties for such violation.

2. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:

(i) to present their side of the story;

(ii) to present witnesses and evidence on their behalf;

(iii) to cross-examine witnesses presenting evidence;

(iv) to remain silent without assumption of guilt; and

(iv) to be represented by an advisor or legal counsel at their expense; if the respondent or the complainant request it, the college shall assist in finding a legal counsel or advisor.

3. A warning that anything the respondent says may be used against her/him at a non-college hearing.

4. At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review any documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by Family Education Rights and Privacy Act ("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during, or some time prior to, the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the additional documents or tangible evidence. If during the hearing the respondent submits documentary evidence, the chairperson may, at the request of either the college or the complainant, direct the respondent to produce such other documents as may be necessary in the interest of fairness.

Emergency Suspension

g. The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing as provided in this bylaw section 15.4. to take place within not more than twelve (12) calendar days, unless the student requests an adjournment. Such suspension shall be for conduct which impedes, obstructs,
impairs or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution. Prior to the commencement of a temporary suspension of a student, the college shall give the student oral notice (which shall be confirmed via email to the address appearing on the records of the college) or written notice of the charges against her/him and, if she/he denies them, the college shall forthwith give the student an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter. When a student's presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter. The complainant shall be notified in the event that an emergency suspension is imposed against a student, and/or when the suspension is subsequently lifted to the extent that the suspension involves the complainant in the same manner notice is given to the student.

Faculty-Student Disciplinary Committee Structure

h. Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

i. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons: CUNY School of Law, Gutman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

j. The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. CUNY School of Law, Gutman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. CUNY School of Law, Gutman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEO's. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Gutman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than four (4) consecutive years. Notwithstanding the above, in cases of sexual assault, stalking and other forms of sexual violence, the president shall designate one (1) chairperson, two (2) faculty/HEO members, and two (2) students, who shall be specially trained, and who shall constitute the faculty-student disciplinary committee in all such cases.

k. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery.

l. Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.
n. Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Faculty-Student Disciplinary Committee Procedures

n. The following procedures shall apply at the hearing before the faculty-student disciplinary committee:

1. The chairperson shall preside at the hearing. The chairperson shall inform the respondent of the charges, the hearing procedures and her or his rights.

2. All faculty student disciplinary committee hearings are closed hearings, but the respondent has the right to request an open public hearing. However, the chairperson has the right to deny the request and hold a closed hearing when an open public hearing would adversely affect and be disruptive to the committee's normal operations, or when the complainant in a case involving allegations of sexual assault, stalking, or other forms of sexual violence requests a closed hearing. In the event of an open hearing, the respondent must sign a written waiver acknowledging that those present will hear the evidence introduced at the hearing.

3. After informing the respondent of the charges, the hearing procedures, and her or his rights, the chairperson shall ask the respondent to respond. If the respondent admits the conduct charged, the respondent shall be given an opportunity to explain her/his actions before the committee and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its case. At the conclusion of the college's case, the respondent may move to dismiss the charges. If the motion is denied by the committee, the respondent shall be given an opportunity to present her or his defense.

4. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may rule on the admissibility of the evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. In addition, if either party wishes to question the impartiality of a committee member on the basis of evidence which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

5. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. The college must assign a staff member for each hearing, with the sole responsibility of ensuring that the hearing is recorded in its entirety. No other recording of the proceedings may be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's representative or attorney. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their representatives or attorneys.

6. The college bears the burden of proving the charge(s) by a preponderance of the evidence.

7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and render a determination. In the event the respondent is found to have committed the conduct charged, the committee shall then determine the penalty to be imposed.

8. The college, the respondent and the complainant are permitted to have lawyers or other representatives act on their behalf during the pendency of a disciplinary action, which shall include the calling and examining of witnesses, and presenting other evidence. Any party intending to appear with an attorney shall give the other party 5 (five) calendar days' notice of such representation.

9. The chairperson of the faculty-student disciplinary committee retains discretion to limit the number of witnesses and the time of testimony for the presentations by any party and/or their representative.
10. In the event that the respondent is charged with a sexual assault, stalking or other forms of sexual violence, neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they wish to, the respondent and the complainant may cross-examine each other only through a representative. If either or both of them do not have a representative, the college shall work with them to find a representative to conduct such cross-examination. In the alternative, either party may provide written questions to the chairperson to be posed to the witness.

11. At the end of the presentations, the respondent and the complainant may introduce individual character references. The college may introduce a copy of the respondent's previous disciplinary record, including records from any CUNY institution the respondent has attended, where applicable, provided the respondent was shown a copy of the record prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the committee in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found to have committed the conduct charged. The previous disciplinary records, as well as documents and character evidence introduced by the respondent, the complainant, and the college shall be opened and used by the committee for dispositional purposes, i.e., to determine an appropriate penalty if the charges are sustained.

12. The committee shall deliberate in closed session. The committee shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing and the papers filed by the parties.

13. The respondent shall be sent a copy of the faculty-student disciplinary committee's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the respondent shall be sent a copy of faculty-student disciplinary committee's decision within fourteen (14) calendar days of the conclusion of the hearing. The chief student affairs officer is also encouraged to send the decision to any other e-mail address that he or she may have for the respondent. The decision shall be final subject to any appeal. In cases involving a crime of violence or a non-forcible sex offense, as set forth in FERPA, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

14. When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a university-wide penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

15. Disciplinary penalties shall be placed on a respondent's transcript unless a mediation agreement, the committee's decision, or the decision on any appeal under section 15.4(o) below, expressly indicate otherwise. For all undergraduate students, a penalty other than suspension or expulsion shall be removed from the respondent's transcript upon the request of the respondent after at least four (4) years have elapsed since the penalty was completed, unless the respondent has been found to have committed a subsequent violation pursuant to this Article. The chief student affairs officer shall be responsible for having any penalty removed from a student's transcript as provided above.

Appeals

o. A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii) the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee. If the penalty after appeal to the president is one of dismissal or suspension for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

p. An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the appealing party shall be sent a written notice of the
other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

q. The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

SECTION 15.5. ACTION BY THE BOARD OF TRUSTEES

Notwithstanding the foregoing provisions of this article, the board of trustees reserves full power to suspend or take other appropriate action against a student or a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or units of the university in the use of its facilities or in the achievement of its purposes as an educational institution in accordance with procedures established by the board of trustees.

The provisions in a duly adopted college governance plan shall not be inconsistent with the provisions contained in this article.

Adopted by the CUNY Board of Trustees

November 28, 2011

SECTION 16.1 STUDENT ACTIVITY FEE

The student activity fee is the total of the fees for student government and other student activities. Student activity fees, including student government fees collected by a college of the university shall be deposited in a college central depository and, except where earmarked by the board, allocated by a college association budget committee subject to review by the college association as required in these bylaws.

SECTION 16.2 USE OF STUDENT ACTIVITY FEES - EXPENDITURE CATEGORIES

Student activity fee funds shall be allocated and expended only for the following purposes:

1. Extracurricular educational programs;
2. Cultural and social activities;
3. Recreational and athletic programs;
4. Student government;
5. Publications and other media;
6. Assistance to registered student organizations;
7. Community service programs;
8. Enhancement of the college and university environment;
9. Transportation, administration and insurance related to the implementation of these activities;
10. Student services to supplement or add to those provided by the university;
11. Stipends to student leaders.

SECTION 16.3 STUDENT GOVERNMENT FEE

The student government fee is that portion of the student activity fee levied by resolution of the board which has been established for the support of student government activities. The existing student government fees now in effect shall continue until changed. Student government fees shall be allocated by the duly elected student government, or each student government where more than one duly elected student government exists, for its own use and for the use of student organizations, as specified in section 15.2. of these bylaws, provided, however, that the allocation is based on a budget approved by the duly elected student government after notice and hearing, subject to the review of the college association.

Where more than one duly elected student government exists, the college association shall apportion the student government fees to each student government in direct proportion to the amount collected from members of each student government.

A student government activity is any activity operated by and for the students enrolled at any unit of the university provided, (1) such activity is for the direct benefit of students enrolled at the college, (2) that participation in the activity and the benefit thereof is available to all students enrolled in the unit or student government thereof, and (3) that the activity does not contravene the laws of the city, state or nation, or the published rules, regulations, and orders of the university or the duly established college authorities.

1. The college association shall have responsibility for the supervision and review over college student activity fee supported budgets. All budgets of college student activity fees, except where earmarked by the board to be allocated by another body, should be developed by a college association budget committee and recommended to the college association for review by the college association prior to expenditure. The college association shall review all college student activity fee, including student government fee allocations and expenditures for conformance with the expenditure categories defined in Section 16.2. of this article and the college association shall disapprove any allocation or expenditure it finds does not so conform, or is inappropriate, improper, or inequitable.

2. A college association shall be considered approved for purposes of this article if it consists of thirteen (13) members, its governing documents are approved by the college president and the following requirements are met:

1. The governing board of the college association is composed of:

1. The college president or his/her designee as chair.

2. Three administrative members appointed by the college president.

3. Three faculty members appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body.

4. Six student members comprised of the student government president(s) and other elected students with the student seats allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable in proportion to the student activity fees provided by the students from the respective constituencies.

2. The college association structure provides a budget committee composed of members of the governing board, at least a majority of whom are students selected in accordance with section 16.5.(b) (1)(iv) of these bylaws. The budget committee shall be empowered to receive and review student activity fee budget requests and to develop a budget subject to the review of the college association. The college association may choose to not approve the budget or portions of the budget if in their opinion such items are inappropriate, improper, or inequitable. The budget shall be
returned to the budget committee with the specific concerns of the college association noted for further deliberation by the budget committee and subsequent resubmittal to the college association. If the budget is not approved within thirty (30) days those portions of the budget voted upon and approved by the college association board will be allocated. The remainder shall be held until the college association and the budget committee agree.

3. The governing documents of the college association have been reviewed by the board's general counsel and approved by the board.

SECTION 16.6 MANAGEMENT AND DISBURSEMENT OF FUNDS

The college and all student activity fee allocating bodies shall employ generally accepted accounting and investment procedures in the management of all funds. All funds for the support of student activities are to be disbursed only in accordance with approved budgets and be based on written documentation. A requisition for disbursement of funds must contain two signatures; one, the signature of a person with responsibility for the program; the other, the signature of an approved representative of the allocating body.

All revenues generated by student activities funded through student activity fees shall be placed in a college central depository subject to the control of the allocating body. The application of such revenues to the account of the income generating organization shall require the specific authorization of the allocating body.

The chancellor or his/her designee shall promulgate regulations in a fiscal accountability handbook, to regulate all aspects of the collection, deposit, financial disclosure, accounting procedures, financial payments, documentation, contracts, travel vouchers, investments and surpluses of student activity fees and all other procedural and documentary aspects necessary, as determined by the chancellor or his/her designee to protect the integrity and accountability of all student activity fee funds.

A college purposes fund may be established at each college and shall be allocated by the college president. This fund may have up to twenty-five (25) percent of the unearmarked portion of the student activity fee earmarked to it by resolution of the board, upon the presentation to the board of a list of activities that may be properly funded by student activity fees that are deemed essential by the college president.

Expenditures from the college purposes fund shall be subject to full disclosure under section 16.13. of these bylaws.

Referenda of the student body with respect to the use and amount of the college purposes fund shall be permitted under the procedures and requirements of section 16.12. of these bylaws.

The auxiliary enterprise board shall have responsibility for the oversight, supervision and review over college auxiliary enterprises. All budgets of auxiliary enterprise funds and all contracts for auxiliary enterprises shall be developed by the auxiliary enterprise budget and contract committee and reviewed by the auxiliary enterprise board prior to expenditure or execution.

The auxiliary enterprise board shall be considered approved for the purposes of this article if it consists of at least eleven (11) members, its governing documents are approved by the college president and the following requirements are met:

1. The governing board is composed of the college president or his/her designee as chair, plus an equal number of students and the combined total of faculty and administrative members.

2. The administrative members are appointed by the college president.
3. The faculty members are appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body.

4. The student members are the student government president(s) and other elected students and the student seats are allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable, in proportion to the student enrollment by headcount from the respective constituencies.

5. The auxiliary enterprise board structure provides for a budget and contract committee composed of a combined total of faculty and administrative members that is one more than the number of student members. The budget and contract committee shall be empowered to develop all contract and budget allocation proposals subject to the review and approval of the auxiliary enterprise board.

6. The governing documents of the auxiliary enterprise board have been reviewed by the board's general counsel and approved by the board.

SECTION 16.11 THE REVIEW AUTHORITY OF COLLEGE PRESIDENTS OVER STUDENT ACTIVITY FEE ALLOCATING BODIES AND AUXILIARY ENTERPRISE BOARDS

1. The president of the college shall have the authority to disapprove any student activity fee, including student government fee, or auxiliary enterprise allocation or expenditure, which in his or her opinion contravenes the laws of the city, state, or nation or any bylaw or policy of the university or any policy, regulation, or order of the college. If the college president chooses to disapprove an allocation or expenditure, he or she shall consult with the general counsel and vice chancellor for legal affairs and thereafter communicate his/her decision to the allocating body or auxiliary enterprise board.

2. The president of the college shall have the authority to suspend and send back for further review any student activity fee, including student government fee, allocation or expenditure which in his or her opinion is not within the expenditure categories defined in section 16.2. of this article. The college association shall, within ten (10) days of receiving a proposed allocation or expenditure for further review, study it and make a recommendation to the president with respect to it. The college president shall thereafter consider the recommendation, shall consult with the general counsel and vice chancellor for legal affairs, and thereafter communicate his/her final decision to the allocating body as to whether the allocation or expenditure is disapproved.

3. The chancellor or his/her designee shall have the same review authority with respect to university student activity fees that the college president has with respect to college student activity fees.

4. All disapprovals exercised under this section shall be filed with the general counsel and vice chancellor for legal affairs.

5. Recipients of extramural student activity fees shall present an annual report to the chancellor for the appropriate board committee detailing the activities, benefits and finances of the extramural body as they pertain to the colleges where students are paying an extramural fee.

A referendum proposing changes in the student activity fee shall be initiated by a petition of at least ten (10) percent of the appropriate student body and voted upon in conjunction with student government elections.

1. Where a referendum seeks to earmark student activity fees for a specific purpose or organization without changing the total student activity fee, the results of the referendum shall be sent to the college association for implementation.

2. Where a referendum seeks to earmark student activity fees for a specific purpose or organization by changing the total student activity fee, the results of such referendum shall be sent to the board by the president of the
college together with his/her recommendation.

3. At the initiation of a petition of at least ten (10) percent of the appropriate student body, the college president may schedule a student referendum at a convenient time other than in conjunction with student government elections.

4. Where the referendum seeks to affect the use or amount of student activity fees in the college purposes fund, the results of the referendum shall be sent to the board by the college president together with his/her recommendation.

The college president shall be responsible for the full disclosure to each of the student governments of the college of all financial information with respect to student activity fees.

The student governments shall be responsible for the full disclosure to their constituents of all financial information with respect to student government fees.

The student activity fee allocating bodies shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to all of its activities.

The auxiliary enterprise board shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to auxiliary enterprises.

For purposes of the foregoing paragraphs, full disclosure shall mean the presentation each semester of written financial statements which shall include, but need not be limited to, the source of all fee income by constituency, income from other sources creditable to student activity fee accounts, disbursements, transfers, past reserves, surplus accounts, contingency and stabilization funds. Certified independent audits performed by a public auditing firm shall be conducted at least once each year.

The payment of stipends to student leaders is permitted only within those time limits and amounts authorized by the board.

www.hunter.cuny.edu/livingathunter

Hunter College residents have the unique opportunity to enrich their learning experiences beyond the classroom by becoming involved in the Residence Life community. Residents can participate in a number of social, educational, and cultural programs designed to enhance their education and to promote positive relationships within the residences and the community at large.

Only a limited number of Hunter's 23,000 plus students have the opportunity to live in our residences. Scholar groups are given priority access, and are assigned to a specific residence to better build community among them.

The Brookdale Residence Hall is located at 425 East 25th Street and houses approximately 650 undergraduate students. This location offers the convenience of 24 hour security, an indoor pool, a basketball court and a game room managed
by the Brookdale Council. All rooms are single occupancy and contain basic furnishings. Gender neutral rooms are available. Each floor has a main lounge, bathroom facilities and a kitchen.

97th Street Residence is located at 1760 3rd Avenue at 97th Street, and houses 99 undergraduate residents. This updated residence hall is equipped with everything you would expect plus a concierge, high tech gym, and laundry facility.

92nd Street Residence is located at 1395 Lexington Ave (at 92nd Street), and houses 36 undergraduate residents. This location offers a full complimentary membership to the 92nd Street's May Center for Health, Fitness & Sport, two weight-training rooms, two gyms, an indoor track, racquetball courts, steam rooms, saunas and a 25-yard ozone-purified swimming pool. Residents can also attend 92nd Street programs, events and classes at a discount.

The Apartments at 79th Street is located at 334 East 79th Street and houses approximately 160 undergraduate and graduate students. This housing location offers furnished apartment style rooms with the convenience of 24-hour security and a laundry room. Each apartment includes air conditioning, a full kitchen, WiFi, TV, cable services, and contains basic furnishings. The Apartments at 79th Street offers doubles, triples, quads style spaces, and several suites. Gender Neutral apartments are available upon request.

Career Development Services

805 East
(212) 772-4850
www.hunter.cuny.edu/studentservices/cds

The Office of Career Development Services helps Hunter College students to compete in the job market through a variety of services:

- **Career Counseling** Career counseling is an interactive process where students are assisted in discovering the career that will provide optimum personal satisfaction. Counselors meet with students individually and in small groups to explore and evaluate the student's academic strengths and concentration, additional training, work history, interests, skills and personal traits. Counselors help uncover underlying factors that may impede progress toward decision making. Counselors also help the student develop a resumé, interviewing skills and job search skills. Alumni are also encouraged to use the services for assistance in job search and career change.

- **Internships** Internships provide the opportunity to gain pre-professional work experience in a setting related to a student's major course of study. Interns work in corporations, government agencies and nonprofit organizations. In addition to gaining work-related skills, students develop contacts for future employment and acquire job related experience to enhance their resumé and interview presentation and earn academic credit or stipends.

- **Employer Recruiting** Representatives recruit and interview students both on and off campus from a wide variety of fields to meet the employment needs of students in all majors.

- **Employer Visits** Employers and successful professionals, including alumni, come to Hunter to discuss career opportunities in their respective areas. Panelists explore current trends in various fields, offer suggestions for preparing for the competitive job market and describe their own careers. From these experiences, students learn about specific companies, their products and services, hiring trends and career opportunities.

- **The On Campus Recruiting Program** Graduating seniors have the opportunity to enroll in the On Campus Recruiting Program. Approved resumés are made available to participating employers for review. Employers select those candidates in whom they are interested and conduct interviews on and off campus.

- **CAREERHUNTER Job and Internship Data Base** Businesses and organizations in a wide variety of fields post part- and full-time jobs and internships with the Career Development Services office. Students and alumni can register in CAREERHUNTER, create a profile, upload a resumé, access the listings, and send the resumé directly to employers.
- **Career Resources** A wide variety of career information is available both online and inhouse: skills and interest inventories, industry and job market information, employment trends, résumé and cover letter writing, interviewing and job search skills.

**Center for Occupational and Environmental Health**

7th Floor  
http://www.hunter.cuny.edu/health/coeh/  
(212) 481-8790  
Co-Directors: Andrew Burgie  
andrew.burgie@hunter.cuny.edu,  
David Kotchelchuck  
dkotelch@hunter.cuny.edu

The Hunter College Center for Occupational and Environmental Health was established in 1986 to improve workplace and environmental health by assisting worker and community efforts to understand and ameliorate hazardous conditions. The center conducts training classes to assist labor unions, government agencies and other groups to strengthen their capacity to respond to workplace hazards; assists communities in addressing urban environmental concerns; and sponsors graduate student internships in occupational and environmental health. Current areas of interest and study include asbestos, lead poisoning, hazardous waste and materials, asthma, air pollution, ergonomics and public health policy. The Center for Occupational and Environmental Health is funded by federal and state grants, labor unions and private foundations.

**Center for Student Achievement**

417 Hunter West  
(212) 772-4890  
http://www.hunter.cuny.edu/studentservices/csa

The Center for Student Achievement provides students with opportunities to develop and enhance their study methods. The Center provides assistance to students on academic probation. By offering programs such as Project Success and the Academic Success Coaching program we give students the opportunity to improve their academic skills. Project Success is a weekly seminar for students on academic probation, while the Academic Success Coaching program offers students who are academically at-risk individual meetings with a trained staff member. For more information about the services and resources, visit our Web site.
Center for Translational and Basic Research (CTBR)

315 Hunter North; http://ctbr.hunter.cuny.edu/
(212) 650-3957

The Clinical and Translational Science Center is a multi-institutional consortium that accelerates translational research from bench to bedside to effective health care practice for New York City's diverse communities and beyond.

The RCMI Program at Hunter College of the City University of New York was established in 1985 through the vision of James Wyche, Harvey Ozer (former Program Coordinators for the Hunter RCMI Program) and Richard Mawe (former Program Director of the Hunter RCMI Program) with the support of the Research Centers in Minority Institutions (RCMI) Program. In 2012, the RCMI Program was transferred to the National Institute on Minority Health and Health Disparities (NIMHD) of the National Institutes of Health (NIH) after the closing of the National Center for Research Resources.

The RCMI program funds the Center for Translational and Basic Research (CTBR) for Addressing Health Disparities and Improving Health Outcomes, formerly the Center for Study of Gene Structure and Function (Gene Center), a consortium of researchers from the Hunter College departments of biology, chemistry, psychology, physics, anthropology and the Hunter-Bellevue School of Nursing. Since the CTBR's inception, the growing number of papers published in peer-reviewed journals and the number and amount of grants obtained by the faculty have been the most visible hallmarks of its success. The CTBR provides a vibrant research environment marked by workshops on cutting-edge research techniques; frequent research colloquia and seminars by guest scientists; an annual international symposium, which is a major event on the New York scientific calendar; and a strong emphasis on collaborative translational research. In addition, the CTBR encourages bright undergraduates, especially from groups underrepresented in the sciences, to develop a career in biomedical research by hosting a Summer Program for Undergraduate Research.

The CTBR is a key partner in the Clinical and Translational Science Center, an enterprise that also includes the Weill Cornell Medical College, Memorial Sloan-Kettering Cancer Center, the Hospital for Special Surgery and the Hunter-Bellevue School of Nursing. The Clinical Translational Science Center was established in 2007 with the aim of accelerating translational research. The overall goal is to facilitate the transition of laboratory work into state-of-the-art clinical research (T1 research), provide research that improves patient care (T2) and health outcomes in the general community (T3). The CTBR also participates in a national consortium, the Research Centers in Minority Institutions Translational Research Network (RTRN) which facilitates collaboration, large scale projects and sharing of facilities among Research Centers in Minority Institutions.

The CTBR is supported by the Research Centers in Minority Institutions Program of the National Institute on Minority Health and Health Disparities of the National Institutes of Health. Grant Number 8 G12 MD007599-27 (formerly NCRR Grant #G12 RR003037).

Certificates

Two certificates are available to students majoring in any discipline: Human Rights and Public Policy. These credentials contain 24 to 27 credits respectively.
Chemistry

Return to: Faculty of the School of Arts and Sciences

**Spiro Alexandratos**, Professor, Chemistry; BS Manhattan College, PhD California (Berkeley)

**Adam Braunschweig**, Associate Professor; PhD California (Los Angeles)

**Manashi Chatterjee**, Doctoral Lecturer, Chemistry; University of Saskatchewan, Saskatoon, Canada Ph.D. (Organic Chemistry), University of Edinburgh, Scotland, UK Post-doctoral Research, Indian Institute of Technology (IIT), Bombay, India M.Sc. (Organic Chemistry).

**Charles M. Drain**, Professor and Chair, Chemistry; BS Missouri (St. Louis), PhD Tufts

**Lynn Francesconi**, Professor, Chemistry; BA Ithaca, PhD Illinois

**Dixie Goss**, Gertrude B. Elion Professor, Chemistry; BS Nebraska Wesleyan, PhD Nebraska

**Kirsten J. Grant**, Clinical Professor, Chemistry, Ph.D. Florida State University

**Nancy Greenbaum**, Professor, Chemistry; BA, PhD Pennsylvania

**Philip R. Hamman**, Doctoral Lecturer, Chemistry, Ph.D. Purdue

**Wayne W. Harding**, Associate Professor, Chemistry; BS, PhD West Indies

**Mandë Holford**, Associate Professor, Chemistry; BS York (CUNY), PhD Rockefeller

**Akira Kawamura**, Associate Professor, Chemistry; BS, MS Tokyo (Japan), PhD Columbia

**Frida Kleiman**, Professor, Chemistry; BS, PhD Cordoba (Argentina)

**Nadezhda Kobko-Litskevitch**, Doctoral Lecturer, Chemistry; PhD CUNY

**Louis Massa**, Professor, Chemistry; BS Lemoyne, MS Clarkson, PhD Georgetown

**Hiroshi Matsui**, Professor, Chemistry; BS Sophia, MS Stanford, PhD Purdue

**David R. Mootoo**, Professor, Chemistry; BSc, MPhil West Indies, PhD Maryland

**Gabriela M. Smeureanu**, Doctoral Lecturer, Chemistry; PhD CUNY

**Rein Ulijn**, Professor, BS, MS Wageningen University, PhD University of Strathclyde, UK

**Yujia Xu**, Associate Professor, Chemistry; BS Lanzhou (China), PhD Connecticut

**Brian Zeigis**, Assistant Professor, Chemistry, BS Yale University, PhD Caltech

**Shengping Zheng**, Associate Professor, Chemistry, PhD Columbia

**Chemistry Major II**

**Liberal Arts and Sciences Major Requirements**

24 -27 credits of chemistry plus 27 credits of biology, math and physics.
Chemistry Major II

Foundational Courses

Foundational Courses include courses in chemistry and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Chemistry Major II, the courses that meet CCC are:

General Chemistry Core:

One year of General Chemistry Lecture and Laboratory

- CHEM 10200 (STEM) General Chemistry I
- CHEM 10400 (STEM) General Chemistry II
- CHEM 10600 (STEM) General Chemistry Laboratory
  or its equivalent

  -or-

- CHEM 11100 (STEM) Chemical Principles
- CHEM 11200 (STEM) Thermodynamics and Solution Chemistry

Option 1:

For students interested in a career in the chemical industry. It consists of a minimum of 28 credits in chemistry above the introductory level and an 11-credit general chemistry core for a minimum total of 39 credits of chemistry. One year of physics and three semesters of calculus are also required.

Required chemistry courses:

- CHEM 22200 Organic Chemistry Lecture I
- CHEM 22300 Organic Chemistry Laboratory I
- CHEM 22400 Organic Chemistry Lecture II
- CHEM 22500 Organic Chemistry Laboratory II
- CHEM 24900 Quantitative Analysis
- CHEM 35200 Physical Chemistry I
- CHEM 35400 Physical Chemistry II - F  -or- CHEM 35600 Physical Chemistry II - S
- CHEM 35500 Physical Chemistry Laboratory I
- CHEM 35700 Physical Chemistry Laboratory II

**Required elective course:**

Any chemistry course at the 300 level or above excluding CHEM 49101.

**Required allied courses:**

- MATH 15000 (STEM) Calculus with Analytic Geometry I
- MATH 15500 (STEM) Calculus with Analytic Geometry II
- MATH 25000 Calculus with Analytic Geometry III
- PHYS 11100 (STEM) General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Children's Learning Center

The Children's Learning Center at Hunter College offers a rich, developmentally appropriate environment for your child while you attend classes. The staff members are highly qualified to provide experiences and activities necessary for your child's development. The Center has two programs: Preschool (aged 2.5 - 5), and After-school (aged 6-12). Any Hunter student who is the parent or legal guardian of a child is eligible for this program. Students can be part time, full time, undergraduate, or graduate. Fees operate on a sliding scale and financial assistance is available to eligible students. Apply in person or online.

E-Mail: bhippoly@hunter.cuny.edu

Chinese Language and Literature Program

Overview

The Chinese Language and Literature program offers language courses in Modern Chinese (Mandarin) and Classical Chinese as well as courses taught in English on traditional and modern Chinese literature and culture. The program offers a major and minor and focuses on language acquisition and literacy development to help students attain professional language proficiency. It also introduces students to the civilization of China. Students are encouraged to take interdisciplinary courses in Chinese art, economics, history, political science and religion to develop a deeper understanding of past and present China.

Programs and Courses

Chinese Language and Literature - BA

Administration and Faculty

Program Head: Der-Lin Chao (212) 772-4965

Ming Ying Li, Lecturer, Chinese Studies, Classical and Oriental Studies; B.Ed. Tsinghua (Nanda Campus, Taiwan); M.Ed. U of Exeter (UK); PhD Penn State

Chinese Language and Literature- BA

Liberal Arts and Sciences Major Requirements

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- CHIN 10100 Elementary Chinese I
- CHIN 10200 Elementary Chinese II

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Major 24 cr.

The major in Chinese language and literature consists of 24 credits chosen from the following CHIN-prefixed courses:

- CHIN 20100 Intermediate Chinese I
- CHIN 20200 Intermediate Chinese II
- CHIN 30100 Journalistic Chinese Literature I
- CHIN 30200 Journalistic Chinese Literature II
- CHIN 30300 Classical Chinese Literature I
- CHIN 30400 Classical Chinese Literature II
- CHIN 30700 Classical Chinese Poetry
Preparation for Teaching Chinese in Grades 7-12

Students preparing to teach Chinese must complete a 30-credit major option for teaching that includes the 24-credit sequence taken by non-teaching majors plus 9 additional credits: CHIN 39900 and 6 credits in Chinese language and literature at the 300 or 400 level. Students interested in teaching Chinese in New York schools should take the 23-credit pedagogical sequence for grades 7-12; this sequence may count toward the course requirements for New York State certification, but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the The School of Education.
Interim Vice Chancellor for Student Affairs
Christopher Rosa

Interim Chief Operating Officer
Marc V Shaw

Doron Friedman, Lecturer, Hebraic and Judaic Studies, Classical and Oriental Studies; EdD Argosy University

Japanese Studies

Sue A. Kawashima, Lecturer, Japanese Studies, Classical and Oriental Studies; BA, MA Columbia

Russian and Slavic Studies

Yasha Klots, Assistant Professor, Russian and Slavic Studies; MA Boston, MPhil, PhD Yale

Nadya L. Peterson, Associate Professor, Russian and Slavic Studies, Classical and Oriental Studies; MA Moscow State, MA, PhD Indiana

CLEP

Hunter College participates in the College Level Examination Program (CLEP), under which registered Hunter matriculated students can receive college credit by taking CLEP Subject Examinations. Only the subject Examinations listed in our CLEP Examinations handbook are honored. Please see the handbook for the Hunter's minimum qualifying score for each exam.
Hunter College does NOT accept CLEP GENERAL EXAMINATIONS. No student can earn more than 30 credits for CLEP plus AP, IB credit.

**College Bookstore**

Hunter College is pleased to announce our innovative online and in-store bookstore program with the new Hunter College Online Bookstore, and Shakespeare & Co., the official brick and mortar bookstore for Hunter College through a partnership with Akademos.

Hunter is proud of the important flexibility it provides our students as they determine the best venues from which to attain their textbooks and other academic materials for the lowest cost. Students can purchase or rent books and course materials online from the Hunter College Online Bookstore or in-store from Shakespeare & Co., located at 939 Lexington Avenue across from the Hunter campus.

**College Calendar: Schedule of Final Examinations**

A final examination is required in each course at the college during the examination period scheduled by the registrar, except in those courses in which the department has ruled that no examination shall be given. Since the final examination week is part of the semester hour requirement as mandated by the State Education Department, the period scheduled for final examinations should be used either for the final examination in the course or as an instructional period.

Students in an examination room may not have in their possession or within their reach any books or papers except those permitted by the instructor for use in the examination. Notes normally carried in pockets or handbags should be placed completely out of reach.

Students taking a drawing examination should bring their own implements. Students are not to possess an examination book at any time except during the examination period. Students should carefully fill out all information asked for on the front cover of every examination book used. If scratch paper is needed, students should use the back pages of the examination book; no other paper of any kind is to be used. All matter that is not intended to be read and marked by the examiner should be crossed out (but not torn out) before the examination book is handed in. No pages are to be torn from examination books.

The student is responsible for making sure that the instructor receives the examination book. Students may leave the examination room as soon as they finish. Quiet should be maintained in passing through the halls.

Students obliged to withdraw from an examination because of illness will be counted as absent from the examination and are permitted to take an absentee examination, as explained in the section on Incomplete Work in Course.

For information on absence from final examination for other reasons, see section on Incomplete Work in a Course.

**College Courses Taken While in High School**

Students who have completed college-level coursework offered by an accredited college while in high school may receive credit for courses in which grades of C or better are earned (Grade of D or better if taken in the CUNY College Now Program).

An official college transcript(s) is required in order to be evaluated for college credit at Hunter.

**College Credit Exams**
There are a variety of exams available for high school students to gain college credit before they enroll. Currently, Hunter College accepts the Advanced Placement (AP) exam, the International Baccalaureate (IB) exam, GCE (The General Certificate of Education Advanced Level generally termed the GCE Advanced Level or more commonly the A-level). Hunter students may be granted as much as a year of degree credit (normally 30 credits) for Advanced Placement, International Baccalaureate, GCE, College-Level Examination Program (CLEP), Regent College Examinations (RCE), and College-Level coursework. Students who completed college-level coursework offered by an accredited senior or community college while in high school will receive credit for courses in which grades of C or better are earned, provided that the courses were not used to satisfy their high school graduation requirements. Official college transcripts must be submitted to the Office of Undergraduate Admissions and Recruitment for credits to be awarded. Students should not register for the same classes once they matriculate.

**College Governance**

Hunter College has several governing assemblies, most of which provide for student participation.

**The Hunter College Senate**

Room 1018 Hunter East

The Hunter College Senate, chartered in 1970, is the principal governance body of the college and the only such body that holds a Governance Charter with the CUNY Board of Trustees. The Senate has authority to determine college policy in matters related to:

1. Curriculum
2. Academic requirements and standards
3. Instruction and the evaluation of teaching
4. College development, including master plan
5. Computing and technology

Representatives of the faculty, student body and administration constitute the voting membership of the Senate and serve for a term of two years. The elected officers of the Senate include the chairperson, vice-chairperson, secretary and the chairperson of the Evening Council, who constitute the Senate Administrative Committee. There are 18 standing committees and a varying number of special and ad-hoc committees. These committees accomplish much of the work of the Senate. Reports and Resolutions from these committees are discussed and voted on at Senate meetings. Membership on committees is representative and open to all faculty and students by election of the full Senate from a slate recommended by the Nominating Committee and by member nominations from the Senate floor.

Regular meetings of the Senate are planned for two hours and are held twice a month. Additional monthly meetings may be called as needed.

Election of faculty and student membership to the Senate occurs during the spring semester.

Faculty members and students are encouraged to become involved in the meetings of the Hunter College Senate and its committees.

Further information may be obtained by visiting the Senate Office.

**The Faculty Delegate Assembly**

Room 1414 Hunter East
All Hunter faculty, full and part-time, are members of the Faculty Delegate Assembly, which serves to address faculty concerns regarding teaching, research, and the quality of professional life at Hunter and CUNY. We provide a forum for free and open consideration of significant issues at monthly general meetings. Each academic department in the college elects two members to attend these events, which are also open to all other members and usually include invited speakers from both inside and outside of the college. The FDA also hosts a coffee service in the faculty lounge at the 68th Street campus on most afternoons, organizes social events each semester, publishes a newsletter, The Faculty Voice, and is responsible for periodic updates of the Faculty Handbook.

The Student Governments

**Undergraduate** Room 121 Hunter North

**Graduate** Room 218 Thomas Hunter

These elected student groups have an essential role in the life of the college by allocating the Student Activity Fee, as well as facilitating the chartering of student organizations. All of the elected officers serve as student representatives on campus-wide committees concerning matters of college policy. A few are Senators in the Hunter College Senate, while others are elected to serve as delegates and alternates at the University Student Senate (USS) meetings.

The objective of these student officers is to lead by example in fostering diversity and supporting the exchange of peaceful dialogue among the varied constituents on Hunter's many campuses.

Hunter College Ombudsman

Room 1016 Hunter East

The ombudsman is empowered by the Hunter College Governance Charter to investigate complaints and grievances by any member of the college community (student, faculty, staff, or administration) about a problem or condition in the college. When requested and where possible, the anonymity of a complainant will be protected and names will not be used in any reports the ombudsman may make.

When someone feels unfairly treated or unjustly disadvantaged, the ombudsman can advise the person of the available appeals procedures, recommend corrective action to be taken by the appropriate college officers, or recommend changes in college procedures or regulations that would eliminate such injustices in the future.

The ombudsman may be reached at ombuds@hunter.cuny.edu or at (212) 772-4203.

Faculty Personnel and Budget Committee (FP&B)

Composed of the president, the provost and the chairs of departments, FP&B is concerned with appointment, reappointment, promotion and other faculty personnel matters.

Departmental Committees

Each department has bylaws approved by the Senate. These bylaws provide for a number of committees, most of which are open to student members. Further information is available in the appropriate departmental office.

College Name
The official name of the college, which must be used in correspondence and on application forms for employment, admission to graduate school and transfer to other institutions, is "Hunter College of The City University of New York." Merely referring to "The City University of New York" or "CUNY" will result in the correspondence or application being sent to the Board of Trustees, thereby causing delay in processing.

**College Now**

Students at New York City public high schools may acquaint themselves with undergraduate life by participating in Hunter College Now. Activities range from workshops for sharpening writing or mathematics skills to college-level courses across the arts and sciences. Each summer, Hunter College Now focuses on the sciences and mathematics by hosting high-performing students at the Summer Institute for accelerated coursework that is complemented by tutoring, college guidance and co-curricular activities. Admission to college-level courses offered through College Now is competitive. To qualify for college-level coursework, including the Summer Institute, a student must demonstrate mastery of basic mathematics and/or verbal skills, depending on the discipline, as measured by the SAT, PSAT and English language arts and mathematics Regents exams. College Now offerings, including credit-bearing courses, are provided at no cost.

**College Regulations**

Students should be aware of the following regulations:

- Students may not have personal or business mail or telegrams addressed to them at the college.
- The college cannot deliver messages to students except in cases of grave emergency.
- If a student has a visitor, a visitor's pass from the Office of Student Services is required.
- Students are required to present proper identification (Hunter ID Card) upon the request of any college official.
- The college does not provide a check-cashing service.
- No student or outsider may use any part of the college buildings (including bulletin boards) for soliciting or selling any merchandise without written permission from the dean of students, or operating a business for personal gain within the college.
- No student may be a self-appointed representative of the college.
- No pets or animals (except seeing-eye dogs and certified service dogs) may be brought into college buildings.
- The use, possession and/or distribution of hallucinogenic drugs, barbiturates, amphetamines, narcotics and other dangerous drugs is prohibited by law and therefore by college regulations.
- Only wine and beer may be served at student sponsored functions. A representative of the sponsoring group must be present at the bar to assure compliance with the minimum drinking age.

**Community Health Program Description**

Students in the Community Health major will develop the skills needed to be able to effectively answer various public health questions through a social justice lens. Community health professionals work to improve the health and wellbeing of entire communities. Students will learn to analyze how both social structures (including poverty, racism and environmental exposures) and behavioral choices shape a community's health. They will take courses in health disparities, epidemiology, public health biology, and community health assessment to develop their analytic skills and courses in health communications and social media to learn tools for addressing public health problems. This program is designed to prepare students for work in community-based and human rights organizations, family planning clinics, mental health centers, homeless shelters, research centers, media organizations, as well as in city, state and national health departments.
This is a competitive, 51-credit major and requires the following prerequisites: completion of 60 credits; combined grade point average (GPA) of all postsecondary institutions attended of minimum 3.0; and completion of the six prerequisite courses with at least a grade of "C". In addition to the transfer application, students are also required to submit a supplemental application (with essay).

**Comparative Literature Faculty Committee**

Return to: Faculty of the School of Arts and Sciences

**Sarah Chinn**, Professor, English; PhD Columbia

**Chris Stone**, Associate Professor, Arabic Division, Classical and Oriental Studies; MA, PhD Princeton

**Paolo Fasoli**, Associate Professor, Romance Languages (Italian); Dottore in Lettere Universita' di Roma II (Italy), PhD Toronto (Canada)

**Robert Koehl**, Professor, Classics Division and Chair, Classical and Oriental Studies, PhD University of Pennsylvania

**Anselmo Di Iorio**, Associate Professor, French; BA Grinnell, MA, PhD Pennsylvania

**Computer Science**

Return to: Faculty of the School of Arts and Sciences

**Debroy, Saptarshi, Assistant Professor**; PhD, Central Florida; Cyber-security, big data networking, distributed and cloud computing, wireless networking.

**Epstein, Susan L., Professor**; PhD, Rutgers; Problem solving, machine learning, cognitive modeling, knowledge representation, constraint satisfaction programming, bioinformatics.

**Khatchadourian, Raffi, Assistant Professor**; PhD, Ohio State; Software engineering and software security, formal methods, automated software evolution, static and dynamic program analysis.

**Mneimneh, Saad, Assistant Professor**; PhD, Massachusetts Institute of Technology; Fast network switches, optical routing, graph problems, and computational biology.

**Sakas, William G., Associate Professor and Chair**; PhD, CUNY Graduate Center; Cognitive science, computational models of language acquisition, computational linguistics.

**Schaffer, Cullen, Associate Professor**; PhD, Rutgers; Computation-intensive approaches to data analysis.

**Schweitzer, Eric, Lecturer**; MA, SUNY at Stonybrook; Theory of computation, logics of knowledge and probabilistic reasoning.

**Shankar, Subash, Associate Professor**; PhD, Minnesota; Software engineering, formal methods, automated reasoning, system modeling, analysis and verification.

**Stamos, Ioannis, Associate Professor**; PhD, Columbia; Computer vision and computer graphics, range sensing, 3-D modeling; range segmentation, sensor fusion, range-range and range-image registration.

**St. John, Katherine, Professor**; PhD, UCLA; Intersection of biology, computing, and mathematics, focusing on tree structures used to model evolutionary histories, binary search trees, and ways to compare and visualize these structures.
**Wei, Stewart N., Associate Professor;** PhD, NYU; Software testing, analysis verification, reliability theory, parallel architecture and computing.

**Vazquez-Abad, Felisa, Professor;** PhD, Brown; Stochastic optimization, modeling and simulation of random processes, statistical estimation of sensitivity for discrete event systems, applied probability, applications of decision making.

**Xie, Lei, Associate Professor;** PhD, Rutgers; Computational techniques to study the structure, function, dynamic, and evolution of molecular interactions. Bridging the basic sciences with clinical research.

**Xu, Jia, Assistant Professor;** PhD, Technical University of Aachen (Germany); Computational linguistics, natural language processing, artificial intelligence, machine translation, machine learning.

**Zamfirescu, Christina, Professor;** PhD, Technical University of Aachen (Germany); Graph theory, algorithms on graphs, transformation networks, discrete mathematics, intersection digraphs, evaluating complexity in chemical topology using graph theory.

## Continuing Education

Continuing Education at Hunter College offers non-credit courses for adults in a variety of disciplines. Classes in academic skill development, test preparation (for GED, GRE, GMAT, LSAT), personal finance, nursing, foreign languages, creative writing, social dance, fitness, computers, business and professional development. A variety of Professional Certificate Programs—such as Interpretation/Translation, Legal Studies, Medical Coding and Billing, and Graphic Design—are also offered. Whether students are new to the workforce, looking for a career change or simply looking to learn a new skill, our continuing education programs are designed to enhance professional development and personal enrichment. For more information about the classes offered, call (212) 650-3850 or visit the Continuing Education Web site at www.hunter.cuny.edu/continuinged.

## Counseling & Wellness Services

http://www.hunter.cuny.edu/cws

**Counseling Services** offers free and confidential assessment and short-term counseling to enrolled Hunter College students. Professional counselors assist students with personal and emotional difficulties that may interfere with academic progress and success. Additional services include crisis intervention and referrals to community agencies and resources. Counselors are also available to provide consultation services to the entire Hunter College community. **1123 East (212) 772-4931**

**Health Services** is responsible for processing student immunization records, and offers health-related information and resources. **307 Hunter North (212)-772-4800**

**Health Promotion & Education** offers a variety of workshops and programs designed to enhance and advance the mental health and well-being of students in support of personal and academic success. Workshops designed to support student well-being are also offered to faculty and staff. **307 Hunter North (212)-772-4909**

## Course Policies

- Academic Calendar and Sessions
- Credit/ No Credit Policy
- Courses at Other Accredited Institutions (e Permit)
- Repeating Courses
Courses at Other Accredited Institutions (ePermit)

Currently enrolled degree students may take courses at other accredited institutions (CUNY or other) provided the appropriate procedures are followed.

A department may refuse to authorize a permit if, in its judgment, it is inappropriate to do so.

Students who wish to apply for courses at another CUNY campus may do so by submitting an E-permit via CUNY First. At the Student Center page, use the drop down menu and click on epermit to begin the process. Students wishing to register for courses at non-CUNY institutions must complete a permit form to attend another college. The form is available in the Registrar's Office, 217 Hunter North Building (at the 68th Street campus).

In all cases, permits are authorized by the appropriate department and administered by the Office of the Registrar.

It is the responsibility of students who study at other institutions to have official transcripts of their work sent to the Office of the Registrar as soon as grades are posted. Effective fall 2004, grades for courses taken on permit at CUNY schools are posted to the student's record and are computed in the GPA. All permit credits must be posted to student's Hunter transcripts prior to graduation.

Note: Hunter students may not take courses on permit during their final semester prior to graduation.

Courses in Classical Studies

Archaeology: Classical

- CLA 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)
- CLA 22000 - Aegean Archaeology (W)

Courses in Human Rights

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement. Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)

Pluralism and Diversity
PD/D
GER
3/B

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.
In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

**prereq:** ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.

3 hrs
3 cr.
fall and spring; summer when possible

**HR 22000 - Special Topics in Human Rights**

This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for credit with different topics.

**prereq:** ENGL 12000; HR 20000 is recommended but not required

3 hrs
3 cr.

**HR 25000 - Human Rights Internship**

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights.

**prereq:** ENGL 12000 or equivalent; HR 20000 or equivalent

3 hrs
3 cr.
fall, winter, spring, and summer

**HR 26000 - Human Rights Internship Seminar (W)**

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

**prereq:** ENGL 12000 and HR 20000
**prereq or coreq:** HR 25000

3 hrs
3 cr.
fall semesters on Wednesdays, 10:10 a.m. – 1:00 p.m. It is recommended that students not take an earlier Wednesday morning class, as site visits off campus may start at 10:00 a.m.

**HR 32000 - Special Topics in Human Rights**

This course covers **special topics in human rights on an advanced undergraduate level**. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and
international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director
3 hrs
3 cr.

HR 35000 - Human Rights Capstone Seminar (W)

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.

prereq or coreq: HR 26000
Offered spring only

Courses in Latin

Courses in Nursing

Hunter-Bellevue School of Nursing
Overview

The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research, scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers three programs leading to the Bachelor of Science (with a major in nursing) degree: the Generic Program, for students who do not have an RN license; the RN to BS Program, for students who have completed a nursing program and have received or are about to receive a current RN license to practice professional nursing in New York State and the Accelerated 2nd Degree Program, for students who have already achieved a baccalaureate degree in another field of study and wish to transition into a nursing career. Information on applying to all of our programs is available at http://www.hunter.cuny.edu/nursing. In earning the Bachelor of Science (with a major in Nursing) degree, students in all programs complete core requirements and professional education curriculum requirements.

What can I do with my degree in Nursing?

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings.

HEGIS Codes: 1203 (Generic); 1203.10 (RN to BSN)

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced. RN to BS only: fully online/hybrid

prereq: CHEM 10100; STAT 11300
coreq: Generic Pathway: NURS 21000; NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 21000 - Nursing Fundamentals and Health Assessment
This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

**NURS 22000 - Adult Health and Illness**

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

**NURS 24000 - Foundations of Genetics for Nurses**

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues. For RN to BS students only.

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

**NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process**
This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

prereq: NURS 22000
30 hrs
2 cr.

NURS 33400 - Pathopharmacology

An intensive course focused on a molecular understanding of the disease process. The course emphasizes physiological disruptions, associated nursing care, and pharmacological management.

prereq: CHEM 10000/10100; BIOL 23000
4 hrs
4 cr.

NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

prereq: NURS 22000; NURS 33100
coreq: NURS 33200; NURS 35200; NURS 38000
45 hrs. lecture
3 hrs.

NURS 34000 - Women’s Health

Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

NURS 34200 - Ethical Issues in Nursing Practice

Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.

3 hrs
3 cr.

NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological
sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: NURS 22000; NURS 24000; NURS 33900; NURS 38000
2. Accelerated 2nd Degree: NURS 22000; NURS 33900
coreq: 1. Generic Program: NURS 34900; NURS 36000
2. Accelerated 2nd Degree: NURS 35200; NURS 36000; NURS 38000
45 hrs
3 cr.

NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers

Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.

3 hrs
3 cr.

NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.

3 hrs
3 cr.

NURS 34900 - Foundations of Ethics and End-of-Life Care

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated "ELNEC Trained."

prereq: NURS 22000, NURS 24000, NURS 38000
coreq: NURS 34300; NURS 36000
45 hrs. lecture
3 hrs.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.

1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
P/D C
Explores the complex relationship between women and the sciences.
NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: NURS 22000; NURS 33100
coreq: (Generic) NURS 33200; NURS 33900; NURS 38000
(A2D) NURS 34300; NURS 36000; NURS 38000;
30 hrs. Lecture, 90 hrs. Clinical
4 cr.

NURS 36000 - Nursing Care of Infants, Children, and Adolescents

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

prereq: NURS 22000; NURS 33100
coreq: (Generic) NURS 34300; NURS 34900
(A2D) NURS 34300; NURS 35200; NURS 38000
22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical
4 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service- learning are introduced.

Fully online/hybrid
3 hrs
3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only: Fully online.
prereq: Generic Program: NURS 22000
Accelerated 2nd Degree: NURS 22000
RN Program: STAT 11300
coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000
NURS 38100 - Health Assessment Throughout the Lifespan

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.
Fully online.
Material Fee: $45
prereq: CHEM 10000, CHEM 10100
3 hrs
3 cr.

NURS 38400 - Nursing Culturally Diverse Families

Pluralism and Diversity
PD/B
Open to RN-BS Program students only. Explores the interrelationships between sociocultural factors and health care practices of families from diverse cultures as a basis for nursing practice. Principles of service-learning are reflected in the culturally competent interventions.
3 hrs
3 cr.

NURS 39998 - Urban Disaster Response and the Health Care Team

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.
3 hrs
3 cr.

NURS 42000 - Nursing Leadership and Ethics

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in advocating on behalf of patients, themselves and the profession.
prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200
3 hrs
3 cr.

NURS 42200 - Health Policy and Leadership

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services.
Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients, themselves and the profession.

**Prerequisites:**
- NURS 45500; NURS 46000
- Corequisites: NURS 47000; NURS 49000; NURS 49200

**Course Details:**
- 45 hrs: Lecture
- 3 cr.

**NURS 42300 - Foundations of Ethics and Palliative Care**

An introduction to ethics and palliative care in nursing.

**Prerequisites:**
- CHEM 10000/10100; STAT 11300

**Course Details:**
- 3 hrs
- 3 cr.

**NURS 44000 - Stress Management for Nurses**

An overview of stress and its effect upon behavior within the framework of the holistic man-wellness model.

**Course Details:**
- 3 hrs
- 3 cr.

**NURS 44100 - Selected Studies in Nursing Research**

An honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.

**Prerequisites:**
- NURS 31000, 31200, 33100, 33200, 38000, 38100

**Course Details:**
- 3 hrs
- 3 cr.

**NURS 44200 - Nursing Care of Acute and Critically Ill Clients**

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.

**Course Details:**
- 3 hrs
- 3 cr.

**NURS 44500 - Teaching-Learning Across the Developmental and Health Continua**

Pedagogical/androgogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.

**Course Details:**
- 3 hrs
- 3 cr.

**NURS 45000 - Computer Concepts and Application in Nursing**

Study of computing concepts, principles, practices, and applications in nursing and health care.

**Course Details:**
- 3 hrs
- 3 cr.
NURS 45500 - Public Health Nursing

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: NURS 35200; NURS 36000
coreq: NURS 46000
30 hrs: Lecture, 90 hrs: Clinical
4 cr.

NURS 46000 - Mental and Behavioral Health Nursing

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

prereq: NURS 35200; NURS 36000
coreq: NURS 45500
30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

NURS 47000 - Adult Acute Illness/ Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000; NURS 49000; NURS 49200
22.5 hrs: Lecture; 112.5 hrs: Clinical
4 cr.

NURS 48000 - Promotion of Wellness in the Community

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement. Combination online/hybrid.

4 hrs
4 cr.

NURS 48200 - Advancement of Roles and Relationships in Professional Nursing

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.
NURS 48300 - Politics of Health

An analysis of the relationships between politics and health status, health services and health care providers.

3 hrs
3 cr.

NURS 49000 - Gerontological Nursing

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with interdisciplinary health teams.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000; NURS 49200
(A2D) NURS 42000; NURS 47000; NURS 49200
30 hrs: Lecture; 90 hrs: Clinical
4 cr.

NURS 49100 - Gerontology for Nurses

This course provides a knowledge and skill base for effective nursing care of older adult clients.

prereq: CHEM 10000/10100
3 hrs
3 cr.

NURS 49200 - Advanced Synthesis of Nursing Knowledge

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000; NURS 49000
NURS 42000; NURS 47000; NURS 49000
22.5 hrs: Lecture; 30 hrs: Lab
2 cr.

NURS 49500 - Writing for Health Professionals: A Course for Undergraduates
In this course, students explore and refine their powers of observation, description, and expression through writing. Students engage in prompted narrative writing exercises and produce new out-of-class writings that are discussed in small groups and revised. The cultural and personal context in which writing is produced and read is emphasized. Scholarly and literary works are discussed, as are blogs. Students are guided to explore and test strategies for overcoming personal challenges to timely, effective writing.

prereq: ENGL 12000
45 hrs.
3 cr.

Courses in Public Policy

Public Policy

Overview

The Public Policy program is based on the understanding that the preparation of informed individuals is the key to a vibrant participatory democracy. The program prepares students by providing essential research and analytical skills that are important goals of a strong liberal arts education. Our graduates are unique; they span many majors from Anthropology to Psychology, Chinese and Classics. Students have an opportunity to interact first-hand with policy experts and practitioners, both in the classroom and outside, and learn how policies are created, how communities come together to demand change, who benefits from specific policies, and how to measure the impact of laws. These are important skills that enable graduates to either embark on careers in public affairs and the nonprofit sector, or remain engaged in public affairs—nationally and globally—regardless of their stated major, career goals, or personal objectives.

What can I do with my certificate in Public Policy?

Participation in the Public Policy Program, via either the Minor or the Certificate, will provide students with skills, experience and knowledge that will strengthen their applications to graduate school or law school, and help them in their future careers.

Public Policy

Public Policy is an 18-credit undergraduate minor open to students in all disciplines. Students also have an option to receive a Certificate in Public Policy by taking 9 additional credits (for a total of 27 credits).

The Roosevelt House public policy program is based on the understanding that the preparation of informed individuals is the key to a vibrant participatory democracy. The program prepares students by providing essential research and analytical skills that are important goals of a strong liberal arts education. Our graduates are unique: they span many majors from Anthropology to Political Science, Women & Gender Studies to Biology. Students have an opportunity to interact first-hand with policy experts and practitioners, both in the classroom and outside, and learn how policies are created, how communities come together to demand change, who benefits from specific policies, and how public policy impacts can be best measured. These are important skills that enable students to enter competitive graduate school programs, or to embark on careers in public affairs and the nonprofit sector at the local, national or global level.

Minor in Public Policy

An 18-credit undergraduate minor in public policy is open to students in all disciplines. In addition to the Core Requirements, students need to take one course in each of the four basic skill areas (political, economic, quantitative and normative analysis).

Core Requirements

**PUPOL 10000 - Introduction to Public Policy**

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

*prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0*

*3 hrs

*3 cr.*

**PUPOL 40000 - Capstone Seminar**

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.
Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research. These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.

3 hours
3 credits

One Course in American Government and Politics

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

One Course in Economic Analysis

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

One Course in Quantitative Analysis

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.
prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500
3 hr lecture or 2 hr lecture/1 hr discussion
3 cr.

POLSC 20600 - Research Design in Political Science (W)

GER
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.
prereq: passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

SOC 24000 - Introduction to Research Methods

GER
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.
prereq: SOC 10100
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

One Course in Normative, Ethical, and Value Analysis. Such courses include but are not limited to:

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Science) - I&S SS
Pluralism and Diversity
Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 10400 - Introduction to Ethics and Moral Judgment

Hunter Core
Individual and Society (Humanities) - I&S H
GER
3/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
offered each semester

SOC 21800 - Social Inequality

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.
prereq: SOC 10100
3 hrs
3 cr.

POLSC 31100 - Utopian Theory (W)

GER
3/B

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.
prereq: ENGL 12000 or its equivalent; one course in political theory or perm dept.
3 hrs
3 cr.

POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

Certificate in Public Policy: Substantive Policy Specialization

For the Public Policy Certificate each student will take the 6 core courses (18 credits) for the Minor and will be required to declare a substantive area of specialization comprised of 3 courses (9 credits) of additional course work. These may be grounded in a particular discipline or disciplines and should be at the 300-level or by permission of the program director. Or a student may use the substantive specialization to take advantage of clusters of expertise that exist across several Hunter departments. Examples of the latter include (but are not limited to) immigration, health, aging, gender studies, macroeconomics, public finance, economic development, social welfare, public law, human rights, ethics, international relations, international trade, education, urban affairs, environmental studies, and labor. Courses designated for the substantive specialization need approval by the director of the program.

Additional Opportunities

The Public Policy Program offers other unique opportunities to its students in the form of conferences, lectures, brown bag seminars, internships and travel. These options are designed to enrich and supplement the students' experiences at the Roosevelt House Public Policy Institute.

Generic Policy Courses

Advanced courses which build on the knowledge and skills acquired in the core courses and are applicable to students in a wide range of substantive specializations.

Internships

While internships are not a formal requirement to complete the program, it is a highly recommended option. Undergraduate internship programs are designed to give students a chance to work in a policy-related institutional setting outside the university, either in a government agency, nonprofit, think tank, or advocacy group. Additionally, Roosevelt House has entered into a partnership with the prestigious Brookings Institution in Washington, DC to place a few undergraduates enrolled in the Public Policy Program to work with their scholars in the summer.

Policy Colloquia
A colloquium series will be launched at Roosevelt House that will allow students and faculty to come together several times a semester to discuss public policy issues. Guest speakers, including scholars and practitioners, with relevant expertise will be invited to discuss topics of the day either individually or in panels.

Public Policy

PUPOL 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

PUPOL 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.

Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research.

These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.
3 hours
3 credits

Courses in Thomas Hunter Honors Program

Thomas Hunter Honors Program

Overview

The interdisciplinary Thomas Hunter Honors Program provides some outstanding undergraduate students with a course of study suited to their individual needs and interests. Students selected for the Thomas Hunter Honors Program must show evidence of high academic potential, interdisciplinary interests and intellectual curiosity, as well as the willingness to explore unfamiliar fields and to accept challenges.
Students may apply for admission to the program on their own or they may be invited to participate in recognition of their outstanding academic records. Many graduates of the Thomas Hunter Honors Program go on to PhD programs in the various arts and sciences, or to law, medical and other professional schools. Others choose careers in a wide variety of professional, artistic and business fields.

**College Requirements**

The Thomas Hunter Honors Program requires that students maintain breadth in their programs, create a significant pattern of courses in at least two academic areas of investigation (Humanities and Arts, Social Sciences, Sciences and Mathematics), including at least one laboratory science course. All programs must be approved every semester by a Council adviser.

Students entering Hunter in fall 2013 or later, are required to complete the College's Common Core requirements. Note that all colloquia in the 200 or 300 series are "W" courses.

**Thomas Hunter Honors Program**

**Major**

Students in the Thomas Hunter Honors Program who wish to design an interdisciplinary major for themselves may do so in consultation with the appropriate Council adviser. The final transcript of such students designates the major as
"Special Honors Curriculum." Most students in the Thomas Hunter Honors Program, however, elect to fulfill the requirements for one or more specific departmental majors. These students abide by departmental criteria for the major, and are expected to pursue departmental honors in their major. Their final transcript records the major as Special Honors Curriculum/Specific Department. Whatever their major concentration, all students in the Program must also successfully complete three special interdisciplinary honors colloquia (see further on) and maintain a cumulative grade point average of 3.5 or better until their final certification into the Program. Certification usually occurs in the student's junior year, when the Council, ruling on each case individually, decides that the student's continuing academic distinction, commitment to interdisciplinary work, and promise of future productivity warrant permanent membership in the Thomas Hunter Honors Program.

Thomas Hunter Honors Program students meet regularly in 200-level and 300-level colloquia, led by members of the Council on Honors and by other invited members of the faculty. Students take a minimum of three colloquia, one of which must be at the 200-level, and one of which must be at the 300-level. While the specific content of these courses varies from semester to semester, the underlying principles remain the same.

The 200-level colloquium is taught by one professor, often a member of the Council on Honors, who studies a specific theme using the materials and methodologies of at least two disciplines. Students may take more than one of these colloquia if they so desire, but at least one must be taken during their first year in the Program. The 300-level honors colloquia are special seminars, usually conducted by two professors, devoted to topics lending themselves to broad interdisciplinary investigation. One of the required three colloquia must be a 300-level.

The colloquia offer breadth of exposure, but, even more importantly, they seek to demonstrate how knowledge gained from a variety of disciplines can be related and integrated in an effort to understand complex processes and phenomena. In all colloquia, students write at least one major paper, in which they apply the methodology of the course to material of particular interest to them.

Upon completion of 90 credits, Thomas Hunter Honors students may also be admitted by the Council to Advanced Interdisciplinary Studies, with the opportunity of engaging in advanced independent study under the Council's supervision. A thesis or other appropriate report of the results of the student's research is presented to the Council.

**Thomas Hunter Honors Program**

**HONS 20100 - Sophomore Honors Colloquium (W)**

**Pluralism and Diversity**

PD/D

Sample topics: Integrating the Irrational; Dante's World; Language, Learning, and Computation; Law and Literature; The Gothic; Ethics in Public Health. May be taken more than once with different topics. Some topics may meet a PD requirement; check with adviser.

**prereq:** perm dept.

3 hrs

3 cr.

**HONS 30100 - Upper-Level Honors Colloquium (W)**

**Pluralism and Diversity**

PD/D

Sample topics: Behavior and Evolution; Greek Myth in the Arts; Energy and Environment; Politics of Southern Africa. May be taken more than once with different topics. Some topics may meet a PD requirement; check with adviser.

**prereq:** perm dept.
3 hrs
3 cr.

HONS 30199 - Interdisciplinary Independent Study

prereq: perm honors council
3 hrs
3 cr.

prereq: perm honors council
6 hrs
6 cr.

Courses taken at Early College Initiative High Schools

Students who have earned college credits at an ECI high school may receive up to 30 credits (in combination with any AP, IB, CLEP, A-Level, or GCE exams credits) provided that they have received a grade of D or better (grade of C or better is required for Bard Early College High Schools). Students who have earned their AA or AS degree from an ECI high school will be considered as freshmen, but may be awarded a maximum of 70 credits provided that they have received a grade of D or better (grade of C or better is required for Bard Early College High Schools) and these courses are deemed as transferable. AA or AS holders who accept the offer of admission for the Hunter College Macaulay Honors Program or any of the Honors Scholar Cohorts programs can only receive a maximum of 30 credits and must forfeit the additional credits earned from the Associate degree.

Credit/ No Credit Policy

Credit/No Credit A system based on the non-letter grades of Credit/No Credit, where Credit is the equivalent of A, B or C and No Credit is the equivalent of D or F. Credit/No Credit grades are not averaged into the GPA; course requirements are the same as in the traditional grading system.

Note: Eligibility for some Financial Aid Grants may be affected by the choice of credit/no credit grades.

There are certain restrictions about how and when the student may choose the Credit/No Credit system:

1. A maximum of four courses (including repeated courses) at Hunter College may be taken on a Credit/No Credit basis excluding remedial/developmental courses and any courses with mandatory CR/NC grading.

2. Credit/No Credit grades are not allowed for students on probation.

3. When a student chooses the Credit/No Credit option and earns a D as the final grade, the student may choose to receive either the D or a grade of No Credit.

4. If (as a result of a student's request) a Credit/No Credit is given where it is not an allowed grade according to existing regulations, it will be converted to a letter grade by the Registrar's Office, Room 217 Hunter North. Credit grades will be changed to C; No Credit grades will be changed to F.
5. With approval of the Senate, departments may prohibit the use of Credit/No Credit grades in major courses, especially in those areas in which outside certification is required. Credit/No Credit grades are not permitted in education, nursing, pre-engineering, premedical, health sciences, nutrition and food science and prelaw. All students should check with their departmental advisers for specific policies.

The Credit/No Credit system may be elected by students up until the beginning of the final exam (or the due date for handing in the last term paper, if there is no final exam). Credit/No Credit is an agreement between a student and the student's instructor or professor. When departmental policies allow, request forms must be accepted by the instructor. Students requesting grading according to this system must satisfy whatever attendance requirement has been set by the instructor, complete all the assignments and take the final examination. It should be noted that the grade of No Credit shall be used only to replace the academic grades of D and F. It shall not be used to replace the grades of WU or IN. A No Credit grade may not override the FIN grade.

CUNY 7th Day Financial Aid Certification Date policy

Beginning fall 2014 CUNY implemented the 7th day Financial Aid Certification Date policy. Students' credit load as of the end of the 7th day of the semester will determine their financial aid status and eligibility for federal and state aid programs they may qualify to receive for the semester.

CUNY Macaulay Honors College at Hunter College

The Macaulay Honors College at Hunter College attracts students with outstanding academic records who seek intellectual challenges in a supportive environment. Using the undergraduate online application available through the CUNY Web site (www.cuny.edu/apply), students select the Macaulay Honors College and then indicate Hunter College as their desired campus.

A student must enter the Macaulay Honors College as a first semester freshman and may seek admission for the following fall. The application deadline is December 1. For more information on the Macaulay Honors College, see Special Academic Programs of this catalog or inquire at the Macaulay Honors College Office, Room 630A Hunter East, (212) 650-3556.

CUNY Manual of General Policy

ARTICLE V FACULTY, STAFF AND ADMINISTRATION: Policy 5.20 Student Complaints About Faculty conduct in Academic Settings

1. Introduction

The university and its colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The university respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the university recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples
might include incompetent or inefficient service, neglect of duty, physical or mental incapacity and conduct unbecoming a member of the staff.

2. Determination of Appropriate Procedure

If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.

3. Informal Resolution

Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.

4. Formal Complaint

If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the "Fact Finder.") Only students in a faculty member's class or present in another academic setting where the alleged conduct occurred may file complaints against that faculty member.

1. The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.

2. The Fact Finder shall promptly send a copy to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder.

The chairperson may also submit a written request for recusal for good cause to the academic dean or senior faculty member designated by the college president to review such requests. If a recusal request is granted, a different department chairperson shall conduct the investigation, or, if no other chairperson is available, an administrator designated by the college president shall serve in the chairperson's stead. Further, the college president may re-assign investigations as necessary, including but not limited to situations in which a Fact Finder has not completed an investigation in a timely manner. In addition, during any time that no department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

3. The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.

4. If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief
academic officer and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member and other persons with relevant knowledge and information and shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative or attorney) present during the initial meeting, the interview and any post-investigation meeting.

5. In cases where there is strong preliminary evidence that a student's complaint is meritorious and that the student may suffer immediate and irreparable harm, the Fact Finder may provide appropriate interim relief to the complaining student pending the completion of the investigation. The affected faculty member may appeal such interim relief to the chief academic officer.

6. At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.

5. Appeals Procedure

If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate and one student elected annually by the student senate. The Appeals Committee shall review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson and the president.

6. Subsequent Action

Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college must comply with the bylaws of the university and the collective bargaining agreement between the university and the Professional Staff Congress.

7. Campus Implementation

Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college Web site.
CUNY Medical Withdrawal & Re-Entry Policy

The City University of New York ("CUNY") is committed to the academic success and personal growth of its students. As part of that commitment, the university and its constituent campuses are responsible for providing a safe learning and working environment for students, faculty, staff and other members of the university community. Some students may, because of a medical condition, engage in behavior that presents a direct threat of harm to themselves or to others, or substantially disrupts the learning or working environment of others. In such situations, the safety and security of the campus community, including the individual student, is paramount. This policy does not replace or supersede reasonable and appropriate security and health and safety measures, such as calling 911 or taking other immediate action in case of imminent threat to life or limb. In addition to taking action to protect the security and safety of the campus community, a college may address the student's conduct to determine if action under this policy or under the student disciplinary process is appropriate. When a student's conduct that directly threatens or substantially disrupts the learning or working environment of others appears to relate to a medical condition, the campus may, at its option, address the student's conduct either in accordance with this policy, or through the student disciplinary process. If the student's conduct constitutes a threat solely to him or herself, it should be addressed under this policy rather than the disciplinary process.

1. Primary Principles

As an alternative to disciplinary action that may be taken under Article XV of CUNY's Bylaws, a college of CUNY may bring a proceeding to require a student to withdraw from the university, or, under some circumstances, the student's home college and/or from residence in a college residence hall under this withdrawal policy and procedures when the student's behavior evidences a direct threat of harm to others, or when the student's behavior substantially disrupts the learning or working environment of others. A direct threat means a significant risk of harm to health or safety. (BTM,2007,06-25,007) A student who threatens to commit or attempts to commit suicide, and who does not otherwise threaten direct harm to others or substantially disrupts the learning or working environment of others, shall not be subject to disciplinary action for that threat or attempt under Article XV of the CUNY's Bylaws. If a college determines that withdrawal of the student or retention of the student subject to specified conditions is appropriate because the student's behavior threatens direct harm to him or herself, the procedures outlined below shall apply instead of disciplinary procedures. (BTM,2007,06-25,007)

A student who withdraws or is withdrawn from the university, a college or college residence hall pursuant to this policy may apply for re-entry to the University, a college and/or to a college residence hall. The application for re-entry shall be made to the student's home college's Chief Student Affairs Officer, who shall determine whether the student still presents a direct threat of harm to him or herself or others or still presents a significant risk to substantially disrupt the learning or working environment of others. If the Chief Student Affairs Officer or designee determines, based on the assessment of a qualified, licensed mental health professional, that there is not a significant risk that the behavior that required withdrawal will be repeated, he or she shall approve the student's application for re-entry. (BTM,2007,06-25,007)

2. Process

2.1 Emergency Interim Removal

If a student's behavior presents an immediate, severe and direct threat to him or herself or others (by evidencing a likelihood of harm to him or herself or others), or is substantially disrupting the learning or working environment of others, the Chief Student Affairs Officer or designee (if such Officer is not immediately available) may direct an
emergency interim removal of the student that restricts the student's access to the College's campus or residence hall, as appropriate, for an interim period before a final determination of the matter. The Chief Student Affairs Officer or designee shall consult with the university's Office of the General Counsel prior to making any such direction.  (BTM,2007,06-25,007,_C)

The fact that a student has threatened to commit suicide or attempted suicide, by itself, does not allow the Chief Student Affairs Officer or designee to direct an emergency interim removal. In all cases involving such students, the Chief Student Affairs Officer or designee must attempt to have the student individually assessed by a mental health professional as outlined below before deciding whether to direct an emergency interim removal. (BTM,2007,06-25,007,_C)

Except as permitted above, before determining whether to require an emergency interim removal, the Chief Student Affairs Officer or designee shall take the following steps (BTM,2007,06-25,007,_C):

Exercise all reasonable efforts to meet with the student (BTM,2007,06-25,007,_C)

In that meeting, offer the student the opportunity to be evaluated at the college's expense by a qualified, licensed mental health professional, who may be an employee of a college of the university (CUNY) or of the university or on retainer to a college of the university (CUNY). Whenever possible, that professional shall have had no prior contact with the student. The professional shall assess whether the student's behavior presents an immediate, severe and direct threat to him or herself or others or presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others, and, if so, whether the student's behavior may be the result of a medical issue. That professional shall present his or her findings to the Chief Student Affairs Officer or designee, who shall determine based on those findings and other evidence available whether emergency interim removal under these procedures is appropriate (BTM,2007,06-25,007,_C).

If the student refuses to meet, and/or refuses to undergo such assessment or to keep a scheduled appointment, the Chief Student Affairs Officer or designee may require emergency interim removal without a meeting and/or mental health assessment if he or she reasonably concludes on the basis of the available evidence that the student's behavior evidences an immediate, severe and direct threat of harm to the student or others or is substantially disrupting the working or learning environment of others and presents a significant risk to continue that substantial disruption. The Chief Student Affairs Officer or designee shall consult with the University's Office of the General Counsel before making such a determination. . (BTM,2007,06-25,007,_C)

The emergency interim removal from the college and/or residence hall shall remain in effect until a final decision has been made pursuant to the procedures below, unless, before a final decision is made, the Chief Student Affairs Officer or designee determines that the reasons for imposing the interim removal no longer exist. (BTM,2007,06-25,007,_C)

2.2. Withdrawal after Emergency Interim Removal

If a student has been subjected to an emergency interim removal from the college and/or residence hall, the college shall request retention with conditions or voluntary withdrawal within 7 calendar days of such removal. Should the request for retention with conditions or voluntary withdrawal request be refused, the college shall determine within 7 calendar days of such refusal whether to take further action against the student, including whether to initiate involuntary withdrawal proceedings or, disciplinary proceedings under Article XV of the University Bylaws, as applicable above, and shall send notice of such proceeding in accordance with the notice requirements of the applicable procedure within that seven day period. For students who have been subjected to an emergency interim removal without having undergone the assessment procedures outlined above, the college shall follow the assessment procedures outlined below prior to determining its course of action. (BTM,2007,06-25,007,_C)

In cases where the student has been subjected to an emergency interim removal without assessment, the procedure for determining whether withdrawal is appropriate is as follows (BTM,2007,06-25,007,_C):
The Chief Student Affairs Officer or designee shall exercise best efforts to meet with the student to discuss the student's behavior and to hear the student's explanation of the alleged behavior. If, after hearing the explanation, the Officer or designee still wishes to consider the possibility of the student's withdrawal, he or she shall offer the student an opportunity to be evaluated, at the college's expense, by a qualified, licensed mental health professional, who may be an employee of a college of the university (CUNY) or the university, or on retainer to a college of the university or the university. Whenever possible, that professional shall have had no prior contact with the student. The professional shall make findings concerning whether the student's behavior presents a direct threat of harm to himself or herself or others or presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others and if so, whether the student's behavior may be the result of a medical issue. The professional shall report such findings to the Chief Student Affairs Officer, who shall, based on those findings, and after consultation with the University's Office of the General Counsel, determine the appropriate action, including whether to request that the student withdraw from the university, the college and/or the college residence hall or whether to request that the student agree to specified conditions in lieu of withdrawal. (BTM,2007,06-25,007, C)

If the student refuses to undergo the requested assessment, or fails to keep the scheduled appointment, and the Chief Student Affairs Officer reasonably concludes on the basis of the available evidence that the student's behavior presents a direct threat of harm to him or herself or others or substantially disrupts the learning or working environment of others and presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others, the Chief Student Affairs Officer may request that the student voluntarily withdraw from the university, the college and/or the college residence hall. The Chief Student Affairs Officer shall consult with the University's Office of the General Counsel before making any such request. (BTM,2007,06-25,007, C)

If the student agrees to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs officer or designee shall (BTM,2007,06-25,007, C):

(a) Discuss with the student the procedures for and consequences of voluntary withdrawal or the specified conditions, as applicable

(b) Discuss the circumstances with the student's parents or legal guardians as permissible by law and as appropriate

(c) Consult with the student's academic adviser or department, as appropriate

(d) Consult with the residence hall director, as appropriate

(e) Refer the student to appropriate resources for treatment

(f) Advise the student concerning the process for applying for re-entry, as well as on conditions for re-entry, if applicable and appropriate.

If the student does not agree to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs Officer shall determine, in consultation with the University's Office of the General Counsel, whether to take further action against the student, including whether to initiate involuntary withdrawal proceedings, or, in the case of students referenced above, whether to initiate disciplinary proceedings under Article XV of the University Bylaws.

**2.3. Withdrawal without Emergency Interim Removal, of Students who Present a Direct Threat of Harm to Others or Substantially Disrupt the Learning or Working Environment of Others**

In situations where a student's behavior evidences a direct threat of harm to himself or others or substantially disrupts the learning or working environment of others and presents a significant risk to repeat behavior that substantially
disrupts the learning or working environment of others and the Chief Student Affairs Officer reasonably believes that the student's behavior may be connected to a medical issue, the Chief Student Affairs Officer or designee may request that the student voluntarily withdraw or agree to retention under conditions. (BTM,2007,06-25,007, C)

If the student agrees to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs officer or designee shall (BTM,2007,06-25,007, C):

(a) Discuss with the student the procedures for and consequences of voluntary withdrawal or the specified conditions, as applicable
(b) Discuss the circumstances with the student's parents or legal guardians as permissible by law and as appropriate
(c) Consult with the student's academic adviser or department, as appropriate
(d) Consult with the residence hall director, as appropriate
(e) Refer the student to appropriate resources for treatment
(f) Advise the student concerning the process for applying for re-entry, as well as on conditions for re-entry, if applicable and appropriate.

If the student does not agree to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs Officer shall determine, in consultation with the University's Office of the General Counsel, whether to take further action against the student, including whether to initiate involuntary withdrawal proceedings or disciplinary proceedings under Article XV of the University Bylaws. (BTM,2007,06-25,007, C)

Before initiating involuntary withdrawal proceedings under this procedure, the Chief Student Affairs Officer shall follow the assessment procedures outlined above. (BTM,2007,06-25,007, C)

2.4 Withdrawal without Emergency Interim Removal of Students who Present a Direct Threat of Harm Solely to Themselves

The college shall follow the assessment and other procedures outlined above in order to determine the appropriate course of action. (BTM,2007,06-25,007, C)

3. Involuntary Withdrawal

The following shall be the procedures for involuntary withdrawal:

Notice of the involuntary withdrawal hearing and the time and place of the hearing shall be personally delivered or sent by the Chief Student Affairs Officer or designee of the student's home college to the student at the address appearing on the records of the college, by overnight or certified mail, by regular mail, and, for students who have a college e-mail address, to that e-mail address. Notice of at least five business days shall be given to the student in advance of the hearing unless the student consents to an earlier hearing. (BTM,20 07,06-25,007, C)

The notice shall contain (BTM,20 07,06-25,007, C)

(a) A statement of the reasons involuntary withdrawal is sought
(b) The type of withdrawal sought (from the university, the college and/or from the college residence hall); and
(c) A statement that the student has a right to present his or her side of the story, to present witnesses and evidence on his or her behalf, to cross-examine witnesses presenting evidence against the student, to remain silent without assumption of guilt, and to be represented by legal counsel or an adviser at the student's expense.

The university shall constitute a Health Review Panel, comprised of qualified, licensed mental health professionals employed by a college of the university (CUNY) or by the university, or on retainer to a college of the university or the university. The university's Vice Chancellor for Student Development shall appoint the members of the Health Review Panel. Members of the Health Review Panel, in committees constituted separately for each hearing ("Health Review Committee"), shall be responsible for adjudicating all involuntary withdrawal hearings held according to these procedures. For each involuntary withdrawal hearing, the Vice Chancellor for Student Development or his designee shall constitute a three-person Health Review Committee from the Health Review Panel to adjudicate at that hearing. No member of the Health Review Committee shall have had prior contact with the student. All decisions of the Health Review Committee shall be made by majority vote.  

The hearing shall be closed, unless the student requests an open hearing. However, the Health Review Committee may overrule a request for an open hearing if it determines that an open hearing would be inappropriate or disruptive in light of the nature of the evidence to be presented.

After the evidence is presented at the hearing, the Health Review Committee shall determine whether the college has proved, by a preponderance of the evidence, that the student's behavior presents a direct threat of harm to him or herself or others, or has substantially disrupted the learning or working environment of others and presents a significant risk of threatening further substantial disruption of the learning or working environment of others, and if so, what the appropriate remedy should be. The Health Review Committee may also set reasonable and appropriate conditions on re-entry. The decision of the Health Review Committee shall be made within five business days from the close of the hearing.  

4. Appeals

An appeal from the decision of the Health Review Committee may be made to the President of the student's home college or the President's designee within thirty calendar days after the delivery of the decision appealed from. The President or designee shall make his or her determination on the appeal within fifteen business days from receipt of the appeal. The President's decision may be appealed to the Chancellor of the University or his or her designee within thirty calendar days after the delivery of the President's decision on appeal. The Chancellor or designee's decision shall be made within fifteen business days from receipt of the appeal. The Chancellor (or designee's) decision shall be final. The bases overturning a decision of the Health Review Committee at both levels of review are limited to the following.

(a) Clearly erroneous factual findings;
(b) Procedural irregularities;
(c) Newly available evidence that would have affected the outcome;
(d) The remedy and/or conditions on re-entry were unreasonable or inappropriate.

5. Re-entry

A student who is withdrawn from the university, a student's home college and/or a college residence hall under this policy may be considered for re-entry.
A student wishing to be considered for re-entry should contact his or her home college's Chief Student Affairs Officer and provide appropriate documentation of behavioral change and resolution of the initial behavioral problem, including compliance with any conditions that may have been set for re-entry.

A student may apply for re-entry to the university, a college and/or a college residence hall no more than one time per term. (BTM,2007,06-25,007, C)

In assessing an application for re-entry, the Chief Student Affairs Officer or designee shall (BTM,2007,06-25,007, C):
(a) In cases in which he or she determines that an additional mental health assessment is necessary, refer the student for assessment to a qualified, licensed mental health professional, at the college's expense;
(b) Receive, investigate, and examine appropriate relevant documentation, including assessments made by college-referred mental health professionals, and, if applicable, licensed treating mental health professionals;
(c) Consult with the Health Review Committee, in cases in which the student's withdrawal was adjudicated by such a Committee;
(d) Contact the student's parents or legal guardians as permissible by law, if appropriate
(e) Provide an opportunity for the student to meet with the Chief Student Affairs Officer or designee to discuss re-entry.

If the Chief Student Affairs Officer or designee determines, based on the evidence presented, that there is not a significant risk that the behavior that required withdrawal will be repeated, he or she shall approve the student's application for re-entry. In such cases, the Chief Student Affairs Officer or designee shall initiate the re-entry process, provide the student with written conditions for continued attendance, and inform any relevant administrators of the student's re-entry.

If the Chief Student Affairs Officer or designee determines that the application for re-entry should be denied, he or she shall provide the student with a written explanation of the reasons for the denial and specify when the next request for re-entry may be considered. (BTM,20 07,06-25,007, C)

A student may appeal the Chief Student Affairs Officer or designee's denial of re-entry to the college President or designee within thirty calendar days after the delivery of the decision denying re-entry. The President or designee shall make his or her determination on the appeal within thirty calendar days from receipt of the appeal. The President's decision may be appealed to the Chancellor of the University or his or her designee within thirty calendar days after the delivery of the President's decision on appeal. The Chancellor or designee's decision shall be made within thirty calendar days from receipt of the appeal. The Chancellor (or designee's) decision shall be final. The basis for overturning a decision on appeal at either level shall be limited to a determination that the decision on re-entry was clearly erroneous. (BTM,2007,06-25,007, C)

6. Effect on Academic Status

In the event of a withdrawal pursuant to this policy, a notation of withdrawal shall appear on the student's transcript for all classes taken during that semester. The Chief Student Affairs Officer at a student's home college may grant a student request that, in lieu of withdrawal, a notation of incomplete shall appear on his or her transcript for classes taken during that semester if and only if there is a reasonable prospect that the student will eventually complete such classes, subject to faculty approval for each such class. Regardless of the notation that appears on a student's transcript, the Chief Student Affairs Officer of the student's home college shall inform the Vice Chancellor for Student Development of the student's withdrawal in order to effectuate a hold by the University Application Processing Center on the student's ability to transfer or otherwise seek admission to another college of the university. (BTM,2007,06-25,007, C)

7. Effect on Housing Status
If the student has been living in a college residence hall and will not be permitted to continue to do so, the student's contract will be canceled and fees refunded on a prorated basis. (BTM,2007,06-25,007, C)

8. Confidentiality

The results of examinations by mental health professionals to whom students are referred for assessment at any stage in the withdrawal or readmission process shall be confidential student records, except that if the results indicate that the student presents an imminent, severe, and direct threat of harm to him or herself or others, those results may be shared with the appropriate individuals in order to attempt to prevent the occurrence of such harm. The results of these examinations shall be admissible in involuntary withdrawal hearings but shall not be admissible in disciplinary hearings, unless the student places his or her health, including mental health, at issue in a disciplinary hearing. (BTM,2007,06-25,007, C)

9. Board Review

During the fall 2009 semester, the Chancellery shall conduct a review of the experience of the colleges with these procedures and shall report the results of that review to the Board of Trustees, along with any recommended changes. (BTM,2007,06-25,007, C)

CUNY Policy on Academic Integrity

Academic Dishonesty is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion, as provided herein.

I. Definitions and Examples of Academic Dishonesty

Cheating is the unauthorized use or attempted use of material, information, notes, study aids, devices or communication during an academic exercise. The following are some examples of cheating, but by no means is it an exhaustive list:

- Copying from another student during an examination or allowing another to copy your work.
- Unauthorized collaboration on a take home assignment or examination.
- Using notes during a closed book examination.
- Taking an examination for another student, or asking or allowing another student to take an examination for you.
- Changing a graded exam and returning it for more credit.
- Submitting substantial portions of the same paper to more than one course without consulting with each instructor.
- Preparing answers or writing notes in a blue book (exam booklet) before an examination.
- Allowing others to research and write assigned papers or do assigned projects, including use of commercial term paper services.
- Giving assistance to acts of academic misconduct/ dishonesty.
- Fabricating data (all or in part).
- Submitting someone else's work as your own.
- Unauthorized use during an examination of any electronic devices such as cell phones, palm pilots, computers or other technologies to retrieve or send information.
Plagiarism is the act of presenting another person's ideas, research or writings as your own. The following are some examples of plagiarism, but by no means is it an exhaustive list:

- Copying another person's actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Using information that is not common knowledge without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

Internet plagiarism includes submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, and "cutting & pasting" from various sources without proper attribution.

Obtaining Unfair Advantage is any activity that intentionally or unintentionally gives a student an unfair advantage in his/her academic work over another student. The following are some examples of obtaining an unfair advantage, but by no means it is an exhaustive list:

- Stealing, reproducing, circulating or otherwise gaining advance access to examination materials.
- Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.
- Retaining, using or circulating examination materials which clearly indicate that they should be returned at the end of the exam.
- Intentionally obstructing or interfering with another student's work.

Falsification of Records and Official Documents. The following are some examples of falsification, but by no means is it an exhaustive list:

- Forging signatures of authorization
- Falsifying information on an official academic record.
- Falsifying information on an official document such as a grade report, letter of permission, drop/add form, ID card or other college document.

CUNY Sexual Misconduct Policy

I. Policy Statement

II. Scope of this Policy

III. Definitions

IV. Prohibited Conduct

V. Title IX Coordinator

VI. Assistance in Cases of Sexual Violence

VII. Important Information about Confidentiality, Privacy and Required Referrals

VIII. Reporting Sexual Misconduct to the College

IX. Reporting/Confidentiality Obligations of College and University Employees

X. No Contact Orders and Other Interim and Supportive Measures

XI. Investigating Complaints of Sexual Misconduct

XII. Disciplinary Process and Procedures
I. Policy Statement

Every member of The City University of New York ("CUNY") community, including students, employees and visitors, deserves the opportunity to live, learn and work free from Sexual Misconduct (sexual harassment, gender-based harassment and sexual violence). Accordingly, CUNY is committed to:

1) Defining conduct that constitutes prohibited Sexual Misconduct;

2) Providing clear guidelines for students, employees and visitors on how to report incidents of Sexual Misconduct and a commitment that any complaints will be handled respectfully;

3) Promptly responding to and investigating allegations of Sexual Misconduct, pursuing disciplinary action when appropriate, referring the incident to local law enforcement when appropriate, and taking action to investigate and address any allegations of retaliation;

4) Providing ongoing assistance and support to students and employees who make allegations of Sexual Misconduct;

5) Providing awareness and prevention information on Sexual Misconduct, including widely disseminating this policy, as well as a "students' bill of rights" and implementing training and educational programs on Sexual Misconduct to college constituencies; and

6) Gathering and analyzing information and data that will be reviewed in order to improve safety, reporting, responsiveness and the resolution of incidents.

This is the sole policy at CUNY addressing Sexual Misconduct and is applicable at all college and units at the University. It will be interpreted in accordance with the principles of academic freedom adopted by CUNY's Board of Trustees.

The CUNY community should also be aware of the following CUNY policies:

• The CUNY Policy on Equal Opportunity and Nondiscrimination prohibits discrimination on the basis of numerous protected characteristics in accordance with federal, state and local law. That policy addresses sex discrimination other than Sexual Misconduct covered by this policy.

• The CUNY Campus and Workplace Violence Prevention Policy addresses workplace violence.

• The CUNY Domestic Violence and the Workplace Policy addresses domestic violence in or affecting employees in the workplace.

• The CUNY Procedures for Implementing Reasonable Accommodations and Academic Adjustments addresses the procedures CUNY will follow when there is a request for a reasonable accommodation and or academic adjustment.

In addition, campus crime statistics, including statistics relating to sexual violence, which CUNY is required to report under the Jeanne Clery Act, are available from the Office of Public Safety at each college and/or on its Public Safety website.

II. Scope of this Policy

This policy governs the conduct of (i) all the members of CUNY's community, including employees and students, and (ii) non-members of CUNY's community who interact with members of the CUNY community (hereinafter "visitors").
Visitors are both protected by and subject to this policy. A non-member may make a complaint of or report a violation of this policy committed by a member of CUNY's community. A non-member may also be subject to restrictions for failing to comply with this policy. This policy applies to conduct that occurs on and off CUNY property.

III. Definitions

1. **Affirmative Consent** is a knowing, voluntary and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of resistance, in and of itself, does not demonstrate consent. The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity or gender expression.

Consent to any sexual act or prior consensual sexual activity between or with any party does not necessarily constitute consent to any other sexual act.

In order to give consent, one must be of legal age (17 years or older).

Consent is required regardless of whether the person initiating the act is under the influence of drugs and/or alcohol.

Consent cannot be given when a person is incapacitated, which occurs when an individual lacks the ability to knowingly choose to participate in sexual activity. Incapacitation may be caused by lack of consciousness or being asleep, being involuntarily restrained, or if the individual otherwise cannot consent. Depending on the degree of intoxication, someone who is under the influence of alcohol, drugs, or other intoxicants may be incapacitated and therefore unable to consent.

Consent cannot be given when it is the result of any coercion, intimidation, force, or threat of harm.

Consent may be initially given but withdrawn at any time. When consent is withdrawn or can no longer be given, sexual activity must stop.

2. **Complainant** refers to the individual who alleges that she/he has been the subject of Sexual Misconduct, and can be a CUNY student, employee (including all full-time and part-time faculty and staff), or visitor. Under this policy, the alleged incident(s) may have been brought to the college's attention by someone other than the complainant.

3. **Complaint** is an allegation of Sexual Misconduct made under this policy.

4. **Confidentiality** is the commitment not to share any identifying information with others, except as required by law in emergency circumstances (such as risk of death or serious bodily harm). Confidentiality may only be offered by individuals who are not legally required to report known incidents of Sexual Misconduct to college officials. Licensed mental health counselors, medical providers & pastoral counselors may offer confidentiality.

5. **Dating Violence** is violence or sexual assault committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship is determined based on the reporting party's statement and with consideration of the length of the relationship and the frequency of the interaction between the persons involved in the relationship. Dating violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct. A relationship may be romantic or intimate regardless of whether the relationship was sexual in nature. Dating violence includes the threat of sexual or physical abuse.
6. **Domestic Violence** is any violence or sexual assault committed by (i) a current or former spouse or intimate partner of the victim; (ii) a person with whom the victim shares a child; (iii) a person who cohabits or cohabited with the victim as a spouse or intimate partner; or (iv) anyone else covered by applicable domestic violence laws. Domestic violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct.

7. **Forcible Touching/Fondling** is intentionally touching the sexual or other intimate parts of another person without the latter's consent for the purpose of degrading or abusing such person, or for the purpose of gratifying the actor's sexual desire.

8. **Gender-Based Harassment** is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities. The effect will be evaluated based on the perspective of a reasonable person in the position of the complainant. An example of gender-based harassment would be persistent mocking or disparagement of a person based on a perceived lack of stereotypical masculinity or femininity.

9. **Intimate Partner Violence ("IPV")** includes both Domestic Violence and Dating Violence.

10. **Managers** are employees who have authority to make tangible employment decisions with regard to other employees, including the authority to hire, fire, promote, compensate or assign significantly different responsibilities.

11. **Pastoral counselor.** A person who is associated with a religious order or denomination, recognized by that order or denomination as someone who provides confidential counseling, and functioning within the scope of that recognition.

12. **Privacy** is the assurance that the college will only reveal information about a report of Sexual Misconduct to those who need to know the information in order to carry out their duties or responsibilities or as otherwise required by law. Individuals who are unable to offer the higher standard of confidentiality under law, but who are still committed to not disclose information more than necessary, may offer privacy.

13. **Rape and Attempted Rape** is the penetration or attempted penetration, no matter how slight, of any body part by a sex organ of another person, without the consent of that person.

14. **Respondent** refers to the individual who is alleged to have committed Sexual Misconduct against a CUNY student, employee, or visitor.

15. **Retaliation** is adverse treatment of an individual as a result of that individual's reporting Sexual Misconduct, assisting someone with a report of Sexual Misconduct, opposing in a reasonable manner an act or policy believed to constitute Sexual Misconduct, or participating in any manner in an investigation or resolution of a Sexual Misconduct report. Adverse treatment includes threats, intimidation and reprisals by either a complainant or respondent or by others such as friends or relatives of either a complainant or respondent.

16. **Sexual Activity** is
   - contact between the penis and the vulva or the penis and the anus;
   - contact between the mouth and the penis, the mouth and the vulva, or the mouth and the anus;
   - penetration, however slight, of the of the anal or genital opening of another by a hand or finger or by any object, with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person; or intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person.
17. **Sexual Assault** is any form of sexual activity that occurs without consent.

18. **Sex Discrimination** is treating an individual differently or less favorably because of sex, including sexual orientation, gender or gender identity (including transgender status), as well as pregnancy, childbirth and related medical conditions. Examples of sex discrimination include giving a student a lower grade, or failing to hire or promote an employee, based on their sex.

19. **Sexual Harassment** is unwelcome conduct of a sexual nature, including but not limited to unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, graphic and electronic communications or physical conduct of a sexual nature when:

   i. submission to or rejection of such conduct is made either explicitly or implicitly a condition of an individual's employment or academic standing or is used as the basis for employment decisions or for academic evaluation, grades, or advancement (quid pro quo); or

   ii. such conduct is sufficiently serious that it alters the conditions of, or has the effect of substantially interfering with, an individual's educational or work experience by creating an intimidating, hostile, or offensive environment (hostile environment). The effect will be evaluated based on the perspective of a reasonable person in the position of a complainant.

Conduct is considered “unwelcome” if the individual did not request or invite it and considered the conduct to be undesirable or offensive. While it is not possible to list all circumstances that might constitute sexual harassment, the following are some examples of conduct that might constitute sexual harassment depending on the totality of the circumstances:

   i. Inappropriate or unwelcome physical contact or suggestive body language, such as touching, groping, patting, pinching, hugging, kissing, or brushing against an individual's body;

   ii. Verbal abuse or offensive comments of a sexual nature, including sexual slurs, persistent or pervasive sexually explicit statements, questions, jokes or anecdotes, degrading words regarding sexuality or gender, suggestive or obscene letters, notes, or invitations;

   iii. Visual displays or distribution of sexually explicit drawings, pictures, or written materials; or

   iv. Undue and unwanted attention, such as repeated inappropriate flirting, staring, or making sexually suggestive gestures.

20. **Sexual Misconduct** is sexual harassment, gender-based harassment or sexual violence, as defined in this policy.

21. **Sexual Violence** includes: (1) sexual activity without affirmative consent, such as sexual assault rape/attempted rape, and forcible touching/fondling; (2) dating, domestic and intimate partner violence; (3) stalking as defined below; and (4) voyeurism, as defined below.

22. **Stalking** is intentionally engaging in a course of conduct directed at a specific person that:

   1. is likely to cause reasonable fear of material harm to the physical health, safety or property of such person, a member of such person's immediate family or a third party with whom such person is acquainted; or causes material harm to the mental or emotional health of such person, where such conduct consists of following, telephoning or initiating communication or contact with such person, a member of such person's immediate family or a third party with whom such person is acquainted; or

   2. is likely to cause such person to reasonably fear that her/his employment, business or career is threatened, where such conduct consists of appearing, telephoning or initiating communication or contact at such
person's place of employment or business, and the actor was previously clearly informed to cease that conduct.

Where stalking is directed at an individual with whom the perpetrator has, had, or sought some form of sexual or romantic relationship, it will be addressed under this Policy. Stalking that lacks a sexual or gender-based nexus may be addressed under the Code of Conduct.

23. **Supervisors** are employees who are not managers, but have a sufficient degree of control over the working conditions of one or more employees, which might include evaluating their performance and making recommendations for changes in employment status that are given particular weight.

24. **Visitor** is an individual who is present at a CUNY campus or unit but is not a student or an employee.

25. **Voyeurism** is unlawful surveillance and includes acts that violate an individual's right to privacy in connection with her/his body and/or sexual activity such as:

   i. Viewing another person's sexual activity, intimate body parts, or nakedness in a place where that person would have a reasonable expectation of privacy, without that person's consent.

   ii. Recording images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness without that person's consent;

   iii. Disseminating images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness, if the individual distributing the images or audio knows or should have known that the person depicted in the images or audio did not consent to such disclosure;

   iv. Using or installing, or permitting the use or installation of a device for the purpose of recording another person's sexual activity, intimate body parts or nakedness in a place where the person would have a reasonable expectation of privacy without that person's consent.

26. **Writing.** Whenever this policy requires in "writing," electronic mail satisfies the writing requirement.

### IV. Prohibited Conduct

1. **Sexual Harassment, Gender-Based Harassment and Sexual Violence**

   This policy prohibits sexual harassment, gender-based harassment and sexual violence (together "Sexual Misconduct") against any CUNY student, employee or visitor.

   Sexual harassment includes unwelcome conduct of a sexual nature, such as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, graphic and electronic communications or physical conduct that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities.

   Sexual harassment is considered a form of employee misconduct and an employee who engages in such conduct, or, managerial and supervisory personnel who knowingly allow such behavior to continue, shall be subject to discipline in accordance with applicable rules, policies and collective bargaining agreements.

   Gender-based harassment is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes that is sufficiently serious to adversely affect an individual's participation in employment,
education or other CUNY activities.

Sexual violence is an umbrella term that includes: (1) sexual activity without affirmative consent, sexual assault, rape/attempted rape, and forcible touching/fondling; (2) dating, domestic and intimate partner violence; (3) stalking/cyberstalking ("stalking"), and (4) voyeurism.

The complete definitions of these terms, as well as other key terms used in this policy, are in Section III above.

2. Retaliation

This policy prohibits retaliation against any person who reports Sexual Misconduct, assists someone making such a report, participates in any manner in an investigation or resolution of a Sexual Misconduct complaint, including testifying or assisting in a legal proceeding, or opposes in a reasonable manner an act or policy believed to constitute Sexual Misconduct. Federal, state, and local laws also prohibit retaliation.

3. Certain Intimate Relationships

This policy also prohibits certain intimate relationships when they occur between a facultymember or employee and any student for whom he or she has a professional responsibility as set forth in Section XII below.

V. Title IX Coordinator

Each college or unit of CUNY has an employee who has been designated as the Title IX Coordinator. This employee is responsible for compliance with Title IX of the Education Amendments of 1972, which prohibits sex discrimination, including Sexual Misconduct, in education programs, and with New York State Law Article 129B, commonly referred to as the Enough is Enough, Combating Sexual Assault and Domestic Violence on College Campuses (hereafter "Enough is Enough"). The Title IX Coordinator has overall responsibility for implementing this policy, including overseeing the investigation of complaints at her/his college or unit and carrying out the other functions of that position set forth in this policy. All Title IX Coordinators shall receive annual training on Sexual Misconduct as required by Title IX, the Clery 10 Act, Enough is Enough, and other civil rights law. The name and contact information for all Title IX Coordinators at CUNY can be found on the university's dedicated Title IX website.

VI. Assistance in Cases of Sexual Violence

1. Reporting to Law Enforcement

Students, employees and other community members who experience any form of sexual violence on or off-campus (including CUNY-sponsored trips and events) and visitors who experience sexual violence on a CUNY campus may, but are not required to, report to local law enforcement, and/or state police. CUNY does not require a complainant to report sexual misconduct to law enforcement; however, if a student, employee, or other community member does wish to report to law enforcement, CUNY will provide assistance. Each college public safety office shall have an appropriately trained employee available at all times to provide the complainant with information regarding options to proceed, including information regarding the criminal justice process and the preservation of evidence. Campus public safety officers can also assist the complainant with filing a complaint both on and off-campus, and in obtaining immediate medical attention and other services.

Additional information is available on the university's Title IX website.
2. Relationship of CUNY's Investigation to the Action of Outside Law Enforcement

In cases where the complainant files a complaint with outside law enforcement authorities as well as with the college, the college shall determine what actions to take based on its own investigation. The college may coordinate with outside law enforcement authorities in order to avoid interfering with their activities and, where possible, to obtain information regarding their investigation. Neither a law enforcement determination whether to prosecute a respondent, nor the outcome of any criminal prosecution, is dispositive of whether the respondent has committed a violation of this policy.

Students, employees and other community members should be aware that CUNY procedures and standards differ from those of criminal procedures. When CUNY investigates allegations of sexual misconduct or brings disciplinary proceedings for violations of this policy, the issue is whether the respondent violated CUNY policy. The standard applied in making this determination is whether the preponderance of the evidence substantiates the complaint, or, stated another way, whether it is more likely than not that the alleged conduct occurred. An individual found to have violated this policy may be sanctioned by the college and CUNY. In the criminal justice system, on the other hand, the issue is whether the accused violated state criminal law. The standard applied is proof beyond a reasonable doubt and an individual found guilty of a crime is subject to criminal penalties, such as incarceration, probation and fines. More information about relevant criminal laws is available in 'A Plain Language Explanation of Distinction Between the New York Penal Law and the College Disciplinary Processes'.

3. Obtaining Immediate Medical Attention and Emotional Support

CUNY encourages anyone who has experienced sexual assault or domestic, dating or intimate partner violence to seek medical attention as soon as possible. Medical resources can provide treatment for injuries, preventative treatment for sexually transmitted diseases, emergency contraception, and other health services. They can also assist in preserving evidence or documenting any injuries. Taking these steps promptly after an incident can be very helpful if an individual later decides to seek criminal proceedings or a protective order.

Individuals who have experienced or witnessed sexual violence are also encouraged to seek emotional support, either on or off-campus.

4. On-campus resources

On campus resources include nurses and/or nurse practitioners at campus health offices and counselors at campus counseling centers. Counselors are trained to provide crisis intervention and provide referrals for longer-term care as necessary.

CUNY also maintains a list of off-campus emergency contacts and resources, including rape crisis centers, available throughout New York City on its dedicated web page. This includes a list of local hospitals designated as SAFE (Sexual Assault Forensic Examiner) hospitals, which are specially equipped to handle sexual assaults and trained to gather evidence from such assaults.

VII. Important Information about Confidentiality, Privacy and Required Referrals

CUNY values the privacy of its students, employees, and visitors. They should be able to seek the assistance they need without fear that the information they provide will be shared more broadly. Some individuals who serve as resources on campus are confidential resources and will not share any identifying information with others, except as required by law in emergency circumstances. Other individuals are not permitted to maintain confidentiality but will protect privacy to the greatest extent possible and share information with other staff only on a need-to-know basis.
**Confidential resources.** Individuals considered confidential resources include counselors and health care providers at the college counseling centers and health offices, pastoral counselors, and designated staff members at women's or men's centers, if they exist on campus. *Students may use these resources even if they decide not to make a report or participate in University disciplinary proceedings or the criminal justice process.*

**Private but non-confidential resources.** Many college employees are required by federal and state law to provide information about possible sexual misconduct to the Title IX Coordinator. Individuals designated as non-confidential but private resources will protect privacy to the greatest extent possible, but must share relevant information about sexual misconduct with the Title IX Coordinator.

More information about confidential and private but non-confidential resources is provided in Section IX, below.

Under the Clery Act, the College is required to maintain records, advise the government about reports of certain crimes, and issue timely warnings when there is a serious, continuing threat to the community. Such reports and warnings do not disclose the names of reporting individuals.

**VIII. Reporting Sexual Misconduct to the College**

In order for the University to address allegations of sexual misconduct, it has to learn about them. Accordingly, CUNY strongly encourages individuals who have experienced sexual misconduct to file a complaint with a designated campus official, as outlined below. The designated officials are trained to accept complaints, to ensure they are investigated in accordance with this policy, and to help complainants get necessary assistance.

Students, faculty, staff and visitors are encouraged to report incidents of sexual misconduct to campus officials, even if they have reported the incident to outside law enforcement authorities, and regardless of whether the incident took place on or off-campus (including "study abroad" programs.) Such reporting will enable complainants to get the support they need and provide the college with the information it needs to take appropriate action.

1. **Complainant's Rights**

   Individuals who have experienced sexual misconduct have the right to file a complaint with the college or to decide not to do so. (The decision on whether to bring disciplinary charges, however, rests with the campus.) Students who report sexual misconduct have all of the rights contained in the Students Bill of Rights (copy attached).

   Complainants also have these rights:

   • To notify campus public safety, local law enforcement, and/or the state police; or to choose not to report.
   • To have emergency access to a college official trained to interview victims of sexual assault and able to provide certain information, including reporting options and information about confidentiality and privacy. The official will, where appropriate, advise the reporting individual about the importance of preserving evidence and obtaining a sexual assault forensic examination ("SAFE") as soon as possible. The official will also explain that the criminal process uses different standards of proof, evidence, and that any questions about whether an incident violated criminal law should be addressed to a law enforcement official or a district attorney's office.
   • To disclose the incident to a college representative who can offer confidentiality or privacy and assist in obtaining services for reporting individuals. See Section IX, below.
   • To describe the incident only to those campus officials who need the information in order to properly respond and to repeat the description as few times as practicable.
   • To have complaints investigated in accordance with CUNY policy.
   • To have privacy preserved to the extent possible.
   • To receive assistance and resources on campus, including confidential and free on-campus counseling, and to be notified of other services available on- and off-campus, including the New York State Office of Victim
Services.
• To disclose the incident to the college's Human Resources Director or designee (if the accused is a college employee) or request that a confidential or private resource assist in doing so.
• To disclose the incident confidentially and obtain services from state and local governments.
• To receive assistance from the campus or others in filing a criminal complaint, initiating legal proceedings in family court or civil court, and/or seeking an Order of Protection or the equivalent. In New York City, this assistance is provided by Family Justice Centers located in each borough, www1.nyc.gov/site/ocdv/programs/family-justice-centers.page.
• To receive assistance with effecting an arrest when an individual violates an Order of Protection, which may be provided by assisting local law enforcement in effecting such an arrest.
• To withdraw a complaint or involvement from the process at any time.

Students can speak with confidential resources on a strictly confidential basis before determining whether to make a report to college authorities. See Section IX, below. Students also have the right to consult confidentially with state, local and private resources who can provide other assistance.

2. Where to File a Complaint on Campus

Students, employees and visitors who experience sexual misconduct should bring their complaints to one of these campus officials/offices:

• Title IX Coordinator; • Office of Public Safety;
• Office of Vice President for Student Affairs or Dean of Students (students only)
• Residence Life staff in CUNY owned or operated housing (students and residence visitors only)
• Human Resources Director (employees only)

Contact information for these officials can be found at http://www1.cuny.edu/sites/titleix/campus-websites

There is no prescribed method for filing a complaint of sexual misconduct and the college will respond to complaints whether they are oral or written. Complainants may, but are not required to, fill out the CUNY Sexual Misconduct Complaint form (see page 38). After the form is filled out, it should be brought to one of the offices listed above.

Once any of the officials or offices above is notified of an incident of sexual misconduct, she/he will provide a copy of this Policy to the Complainant and coordinate with appropriate college offices to address the matter in accordance with this policy, including taking appropriate interim and supportive measures. These officials and offices will maintain a complainant's privacy to the greatest extent possible, and all information in connection with the complaint, including the identities of the complainant and the respondent, will be shared only with those who have a legitimate need for the information.

Visitors: CUNY strongly encourages visitors to report all incidents of sexual misconduct that they observe or experience while on a CUNY campus or at a CUNY sponsored event to the Office of Public Safety, Residence Life staff, or other appropriate college officials listed above. In certain instances, CUNY may be able to offer those visitors who have experienced sexual misconduct with resources and assistance. For more information on such assistance, please visit http://www1.cuny.edu/sites/title-ix/

3. Request that the College Maintain a Complainant's Confidentiality or Not Conduct an Investigation

After a report of an alleged incident of sexual misconduct is made to the Title IX Coordinator, a complainant may request (a) that the matter be investigated only to the extent possible without further revealing her/his identity or any details regarding the incident being divulged further (b) that no investigation into a particular incident be conducted, or (c) that an incident not be reported to outside law enforcement.

In all such cases, the Title IX Coordinator will weigh the complainant's request against the college's
obligation to provide a safe, non-discriminatory environment for all students, employees and visitors, including the complainant. Factors used to determine whether to honor such a request include, but are not limited to: (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation of unlawful conduct by the accused from previously noted behavior; (c) any increased risk that the accused will commit additional acts of violence, (d) whether the accused used a weapon or force; (e) whether the complainant is a minor; (f) whether the college possesses other means to obtain evidence such as security footage; and (g) whether available information reveals pattern of misconduct at a given location or by particular group.

A decision to maintain confidentiality does not mean that confidentiality can be absolutely guaranteed in all circumstances, but that reasonable efforts will be made to keep information confidential consistent with law. Notwithstanding the decision of the Title IX Coordinator regarding the scope of any investigation, the college will provide the complainant with ongoing assistance and support, including, where appropriate, the interim and supportive measures set forth in Section VII of this policy.

If the Title IX Coordinator determines that the college may maintain confidentiality as requested by the complainant, the college will, if possible, take reasonable steps to investigate the incident consistent with the request for confidentiality. However, a college's ability to meaningfully investigate the incident and pursue disciplinary action may be limited by such a request for confidentiality.

4. Filing External Complaints

Complainants who feel that they have been subjected to unlawful sexual harassment and/or violence have the right to avail themselves of any and all of their rights under law, including but not limited to filing complaints with one or more of the outside agencies listed below.

- U.S. Department of Education, Office for Civil Rights
  http://www2.ed.gov/about/offices/list/ocr/complaintprocess.html

- U.S. Equal Employment Opportunity Commission
  https://www.eeoc.gov/federal/fed_employees/filing_complaint.cfm

- New York State Division of Human Rights 15
  http://www.dhr.ny.gov/how-file-complaint

- New York City Commission on Human Rights
  http://www1.nyc.gov/site/cchr/about/resources.page

5. Action by Bystanders and Other Community Members

While only employees designated as "responsible" employees are required reporters as set forth in Section IX below, CUNY encourages all other community members, including faculty, students and visitors, to take reasonable and prudent actions to prevent or stop an act of sexual misconduct that they may witness. Although these actions will depend on the circumstances, they may include direct intervention, calling law enforcement, or seeking assistance from a person in authority.

In addition, CUNY encourages all community members to report any incident of sexual misconduct that they observe or become aware of to the Title IX Coordinator, or the offices of Public Safety, Vice President of Students Affairs (students), Dean of Students (students) or Human Resources (employees) at their college. Community members who take action in accordance with this paragraph will be supported by the college, and anyone who retaliates against them will be subject to disciplinary charges.

6. Amnesty for Drug and Alcohol Use
The health and safety of every student at CUNY is of the utmost importance. CUNY recognizes that students who have been drinking and/or using drugs (whether such use is voluntary or involuntary) at a time that violence (including but not limited to sexual violence) occurs may be hesitant to report such incidents due to fear of potential consequences for their own conduct. CUNY strongly encourages students to report sexual violence to college officials. A bystander or complainant acting in good faith who discloses any incident of sexual violence to college officials or law enforcement will not be subject to discipline under CUNY's Policy Against Drugs and Alcohol for violations of alcohol and/or drug use policies occurring at or near the time of the commission of the sexual violence.

This policy does not provide amnesty for drug dealers or those who use drugs or alcohol as a weapon or to facilitate assault. Under CUNY's Amnesty for Drug and Alcohol Policy, personal drug use and possession, whether it is intentional or accidental, will not form the basis of faculty student disciplinary charges.

7. Reporting Suspected Child Abuse

Certain members of the CUNY community who interact with, supervise, chaperone, or otherwise oversee minors in programs or activities at CUNY or sponsored by CUNY are required to report immediately to the New York State Maltreatment Hotline if they have reasonable cause to suspect abuse or maltreatment of individuals under the age of 18. Information regarding mandated child abuse reporting is available on the Office of the General Counsel web page. If anyone other than New York State mandated reporters has reasonable cause to believe that a minor is being or has been abused or maltreated on campus, she/he should notify either the Title IX Coordinator or the Director of Public Safety. If any CUNY community member witnesses child abuse while it is happening, she/he should immediately call 911.

8. Reporting Retaliation

An individual may file a complaint with the Title IX Coordinator if the individual has been retaliated against for reporting sexual misconduct, opposing in a reasonable manner an act or policy believed to constitute sexual misconduct, assisting someone making such a report, or participating in any manner in an investigation or resolution of a sexual misconduct complaint. All retaliation complaints will be investigated in accordance with the investigation procedures set forth in Section XI of this policy, and individuals who are found to have engaged in retaliation will be subject to disciplinary action.

IX. Reporting/Confidentiality Obligations of College and University Employees

An individual who speaks to a college or CUNY employee about sexual misconduct should be aware that employees fall into three categories:

- "confidential" employees, who have an obligation to maintain a complainant's confidentiality regarding the incident(s);
- "responsible" employees, who are required to report the incident(s) to the Title IX Coordinator;
- all other employees, who are strongly encouraged but not required to report the incident(s).

A. Confidential Employees

1. For Students. Students at CUNY who wish to speak to someone who will keep all of the communications confidential should speak to one of the following:

   - Counselor or other staff member at their college counseling center;
   - Nurse, nurse practitioner or other college health office staff member;
   - Pastoral counselor, if available at the college; or
   - Designated staff member in a women's or men's center, if one exists at their college.

These individuals will not report information about an incident to the college's Title IX Coordinator or other college employees without the student's permission. The only exception is in the case where there is an
imminent threat of serious harm to the complainant or any other person

If a student speaks solely to a "confidential" employee, the college will rarely be able to conduct an investigation into the particular incident or pursue disciplinary action against the alleged perpetrator. Confidential employees will assist students in obtaining other necessary support. A student who first requests confidentiality may later decide to file a complaint with the college or with local law enforcement.

2. **For Employees.** Although CUNY does not directly employ individuals to whom CUNY employees can speak on a confidential basis regarding sexual misconduct, free confidential support services are available through CUNY's Work/Life Program, which is administered by an outside company. Confidential community counseling resources are also available throughout New York City.

B. "Responsible" Employees – Private, but not confidential.

"Responsible" employees have a duty to report incidents of sexual misconduct, including all relevant details, to the Title IX Coordinator. Such employees are not permitted to maintain a complainant's confidentiality, except that the Title IX Coordinator may honor a request for confidentiality under the circumstances described in Section VII above. However, these employees will maintain a complainant's privacy to the greatest extent possible, and information reported to them will be shared only with the Title IX Coordinator and other people responsible for handling the college's response to the report.

To the extent possible, before a complainant reveals any information to a responsible employee, the employee shall advise the complainant of the employee's reporting obligations—and if the complainant wants to maintain confidentiality, direct the complainant to confidential resources identified above.

CUNY has designated the following individuals as "responsible" employees. Complainants who wish to report sexual violence are encouraged to speak with one of the responsible employees marked *

i. Title IX Coordinator and her/his staff

ii. * Office of Public Safety employees (all)

iii. * Vice President for Student Affairs or Dean of Students and all staff housed in those offices

iv. * Residence Life staff in CUNY owned or operated housing, including Resident Assistants (all) (for students and housing visitors)

v. * Human Resources staff (all) (for employees)

vi. College President, Vice Presidents and Deans vii. Athletics Staff (all)

viii. Faculty Athletics Representatives

ix. Department Chairpersons/Executive Officers

x. University Office of the General Counsel employees (all)

xi. College/unit attorney and her/his staff

xii. College/unit labor designee and her/his staff

xiii. International Education Liaisons/Study Abroad Campus Directors and Field Directors
xiv. Faculty and staff members at times when they are leading or supervising student on off-campus trips

xv. Faculty or staff advisors to student groups

xvi. Employees who are Managers or Supervisors (all)

xvii. SEEK/College Discovery staff (all)

xviii. College Childcare Center staff (all)

xix. Directors of "Educational Opportunity Centers" affiliated with CUNY colleges

xx. Faculty or staff academic advisors

C. All Other Employees

Employees other than those identified in subsections "A" and "B" above are strongly encouraged but not required to report any possible sexual misconduct to the Title IX Coordinator. They are also strongly encouraged to maintain individual privacy to the greatest extent possible by sharing information, including the identities of the complainant and the respondent, only with the Title IX coordinator.

It is important to emphasize that faculty members other than those specifically identified in subsection "B" above have not been designated as "responsible" employees and do not have an obligation to report the matter to the Title IX Coordinator, although they are strongly encouraged to do so. An individual who wishes to ensure that the Title IX Coordinator is notified of an incident is strongly encouraged to speak with the Title IX Coordinator or one of the other individuals identified in Section IX, above.

D. Special Rules Concerning Public Awareness and Advocacy Events

CUNY supports public awareness events that help provide its community with information about sexual misconduct and how it can be addressed and prevented. In order to preserve the ability to participate freely in public awareness and advocacy events, if an individual discloses information about sexual misconduct at such event (for example, Take Back the Night gatherings, candlelight vigils, or protests) the college will not treat the disclosure as triggering an obligation to commence an investigation based on that information. Individuals are encouraged to report sexual misconduct to college officials so that the college can provide resources and assistance.

X. No Contact Orders and Other Interim and Supportive Measures

When a college becomes aware of an allegation of sexual misconduct and the complainant or other affected parties request interim or supportive measures, the college will take appropriate interim and supportive measures to protect the complainant and other affected parties, to assist the parties, and to protect against retaliation. Appropriate interim and supportive measures may also be available to respondents. The college may also take interim measures to protect the college community at large.

The college's Title IX Coordinator is responsible for coordinating interim and supportive measures, which are available even if the complainant chooses not to file or continue to pursue a complaint. Requests for interim and supportive measures should be made to the Title IX Coordinator.

The Title IX Coordinator will work with the Chief Student Affairs Officer to identify a trained staff member to assist students to obtain interim and supporting measures. The Title IX Coordinator will work with the Human Resources Director to assist employee complainants to obtain interim and supporting measures.

1. No Contact Orders
When respondent is a student, the complainant has the right to a college-issued "no contact order" under which continued intentional contact with the complainant would violate this policy. No contact orders may be issued for both the complainant and the respondent, as well as other individuals as appropriate.

2. **Types of Interim and Supportive Measures**

   Possible interim and supportive measures include:

   i. Making appropriate changes to academic programs, including changes in class schedule, accommodations to permit the complainant to take an incomplete or drop a course or courses without penalty, permitting complainant or respondent to attend a class via skype or other alternative means, providing an academic tutor, or extending deadlines for assignments;

   ii. Making appropriate changes to residential housing situations or providing assistance in finding alternate housing;

   iii. Changing an employee's work assignment or schedule;

   iv. Providing the complainant with an escort to and from class or campus work location;

   v. Arranging appropriate transportation services to ensure safety;

   vi. Offering counseling services through the college Counseling Center or other appropriate office, or referral to an off-campus agency;

   vii. Assisting the complainant in obtaining medical and other services, including access to rape crisis centers;

   viii. Assisting the complainant with filing a criminal complaint and/or seeking an order of protection;

   ix. Enforcing an order of protection;

   x. Obtaining a copy and/or explaining the terms of an order of protection and the consequences of violating it;

   xi. Addressing situations in which it appears that a complainant's academic progress is affected by the alleged incident;

   xii. In exceptional circumstances, where a respondent is determined to present a continuing threat to the health and safety of the community, the college may seek an emergency interim suspension of a student or take similar emergency measures against an employee, consistent with applicable CUNY Bylaws, rules, policies and collective bargaining agreements. The Office of Public Safety will, in cooperation with the Title IX Coordinator 20 and appropriate other campus officials, determine whether a respondent presents a continuing threat to the health and safety of the campus, including (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation in unlawful conduct by the accused; and (c) any increased risk that the accused will commit additional acts of violence.

3. **Interim Emergency Student Suspensions**

   The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing for not more than twelve (12) calendar days, unless the student requests an adjournment. See Section B above.

   Prior to the commencement of a temporary suspension of a student, the college shall give the student respondent oral notice (which shall be confirmed via email to the address appearing on the records of the
If the respondent denies them, the college shall forthwith give the respondent an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter.

Both complainant and the respondent will be notified of the suspension and if or when it the suspension is lifted at the same time and in the same manner.

4. **Process for Review of Interim Measures, including "No Contact" Orders and Interim Suspensions.**

Upon request, the complainant and the respondent shall each be afforded a prompt review of the need for and terms of restrictive interim measures, including "no contact" orders and interim suspensions. Issues that may be raised include possible modification or discontinuance of a "no contact" order. Complainants and respondents shall be allowed to submit evidence to support their request. The request shall be made to the college's Chief Student Affairs Officer, if either the complainant or the respondent is a student, or to the college's Human Resources Director, if neither the complainant nor the respondent are students. If a request is made in a case involving both a student and an employee, the Chief Student Affairs Officer shall consult with the Human Resources Director. The Chief Student Affairs Officer or Human Resources Director may consult with the Title IX Coordinator and other relevant officials regarding the request. If appropriate and possible, the college may establish an appropriate schedule for the complainant and the respondent to access college facilities when they are not being used by the other party to enable both parties to use college facilities to the maximum extent feasible, without violation of the "no contact" order.

Requests for accommodations that were made under CUNY's Procedures for Implementing Reasonable Accommodations and Academic Adjustments and do not directly affect the other party are governed by the appeals provisions set forth in those Procedures.

**XI. Investigating Complaints of Sexual Misconduct**

The college will conduct an investigation when it becomes aware, from any source (including third-parties not connected to the college or university), that sexual misconduct may have been committed against a student, employee or visitor, unless the information provided is insufficient to permit an investigation or the complainant has requested that the college refrain from such an investigation and the college has determined that refraining from an investigation will not result in a continuing threat to the college community. See Section VIII, above.

1. **Rights of the Complainant and Respondent.**

   Whenever an investigation takes place, the complainant and respondent shall have these rights:

   • to an investigation and process that is fair, impartial, timely and thorough and provides a meaningful opportunity to be heard;

   • to have the complaint investigated and/or adjudicated by individuals who receive annual training in conducting investigations of sexual violence, the effects of trauma, impartiality, and the rights of the respondent, including the right to a presumption that the respondent is "not responsible" until any finding of responsibility;

   • to have the college's judicial or conduct process run concurrently with any criminal justice investigation and proceeding, except for temporary delays requested by external municipal entities while law enforcement gathers evidence;

   • to receive reasonable advance written or electronic notice of any meeting they are required to or eligible to attend, of the specific rule or law alleged to have been violated and in what manner;
• to exclude their own prior sexual history with persons other than the other party in the conduct process or their own mental health diagnosis and/or treatment from admittance in the stage that determines responsibility. (Past findings of sexual misconduct may be admissible in the stage that determines sanction.)

• to offer evidence during the investigation;

• to review documents and tangible evidence, consistent with FERPA and other law;

• to be accompanied by an attorney or other advisor of their choice, who may assist and advise the complainant or respondent throughout the process including during all related meetings and hearings. Such attorneys or advisors must comply with the CUNY policies and procedures; and

• to simultaneous notice of the outcome of proceedings.

2. The Investigation

The college Title IX Coordinator is responsible for conducting any investigation in a prompt, thorough, and impartial manner and may designate another appropriately trained administrator to conduct all or part of the investigation. Whenever an investigation is conducted, the Title IX Coordinator shall

• coordinate investigative efforts with other appropriate offices;

• inform the complainant that an investigation is being commenced and that the respondent will receive a written summary of the allegations;

• inform the respondent that an investigation is being commenced and provide the respondent with a written summary of the allegations of the complaint. A respondent employee who is covered by a collective bargaining agreement may consult with and have a union representative present at any interview of that employee conducted as part of such investigation;

• interview witnesses who might reasonably be expected to provide information relevant to the allegations, and review relevant documents and evidence. Both the complainant and respondent shall be informed that they have the right to provide relevant documents and to propose for interview witnesses whom they reasonably believe can provide relevant information.

Neither the complainant nor the respondent is restricted from discussing and sharing information related to the complaint with others who may support or assist them. This does not, however, permit unreasonable sharing of private information in a manner intended to harm or embarrass another, or in a manner that would recklessly do so regardless of intention. Such unreasonable sharing may constitute retaliation under this Policy.

The college Title IX Coordinator shall maintain all documents of the investigation in accordance with the CUNY Records Retention and Disposition Policy.

The college shall make reasonable efforts to ensure that the investigation and resolution of a complaint are carried out as timely and efficiently as possible. However, the college may need to temporarily delay the fact-finding portion of its investigation during the evidence-gathering phase of a law enforcement investigation. Temporary delays will generally not last more than ten days except when law enforcement specifically requests and justifies a longer delay. While some complaints may require more extensive investigation, when possible, the investigation of complaints should be completed within sixty (60) calendar days of the receipt of the complaint. If there is a delay in completing the investigation, the Title IX Coordinator shall notify the complainant and the respondent in writing.

i. Role of the Advisor
In cases involving this Policy, both the complainant and respondent may be accompanied by an advisor of their choice (including an attorney) who may advise throughout the entire process, including all meetings and hearings. While advisors may represent a party and fully participate at a hearing, they may not speak during the meetings that proceed the hearing nor give testimony as a witness at the hearing.

3. **Conflicts**

If a complainant or respondent believes that any individual involved in the investigatory or adjudication process has a conflict of interest, he or she may make a request to the Chief Student Affairs Officer (or, if no students are involved, to the Legal or Labor Designee) to have that conflicted individual removed from the process. The request for removal must be in writing within five days of the complaint or respondent's notification that the individual is to be involved and include a detailed description of the conflict. If the Chief Student Affairs Officer (or Legal or Labor Designee) determines that a conflict does exist, he or she will take immediate steps to address the conflict in order to ensure an impartial and fair process.

If any administrator designated by this policy to participate in the investigation or resolution of a complaint (including but not limited to the Title IX Coordinator) is the respondent, the College President will appoint another college administrator to perform such person's duties under this policy. If the President is the respondent, the investigation will be handled by the University Title IX Coordinator or her/his designee.

4. **Informal Resolution**

Except in instances involving sexual assault, the Title IX Coordinator, in their discretion, may offer the respondent and the complainant the opportunity to participate in the informal resolution process. Informal resolution may take place after the Title IX Coordinator has completed the investigation, but before the Title IX report has been completed, in an effort to resolve the matter by mutual agreement. The informal resolution process shall be conducted by the Title IX Coordinator, or by a qualified staff or faculty member designated by Title IX Coordinator, in coordination with the Chief Student Affairs Officer.

Both the complainant and the respondent have the right to end the informal resolution process at any time. Any informal resolution must be acceptable to the complainant, the respondent, and the Title IX Coordinator. Even if both the respondent and complainant agree to a resolution, the Title IX Coordinator must also agree with the resolution for it to be final.

If a resolution is reached, the complainant and the respondent shall be notified in writing, and the Title IX Coordinator will confer with the Chief Student Affairs Officer when creating a written memorandum memorializing the agreed upon resolution and consequences for non-compliance. This memorandum will be included in the respondent's student record.

If no agreement is reached within a reasonable time, the Title IX Coordinator shall complete the Title IX report and take action in accordance with subsection E below. Information learned during and directly from the informal resolution process will not be documented in the Title IX report.

5. **Action Following the Investigation or Closure of a Complaint**

i. Within 30 days following the completion of an investigation, the Title IX Coordinator shall report her/his findings to the College President in writing ("Report of Findings"). In the event the complainant or the respondent is a student, the report shall also be sent to the Chief Student Affairs Officer. A copy of the report shall be maintained in the files of the Title IX Coordinator.

ii. In making findings regarding the allegations, the Title IX Coordinator shall use the "preponderance of the evidence" standard.
iii. Following receipt of the Report of Findings, the College President shall, when warranted by the facts, authorize such action as she/he deems necessary to address the issues raised in the Report of Findings, including action to correct the effects of the conduct investigated or prevent further harm to an affected party or others similarly situated. This may include a recommendation that disciplinary action be commenced against a respondent, as set forth in Section XII below.

iv. Within 30 calendar days following the termination of an investigation that has not been completed (for example, because it was resolved by mediation or the complainant withdrew cooperation) the Title IX Coordinator will summarize for the file the actions taken in response to the complaint and the basis on which the investigation was closed.

6. Malicious Allegations

Members of the CUNY community who make false and malicious complaints of violations of this policy of as opposed to complaints which, even if erroneous, are made in good faith, may be subject to disciplinary action.

XII. Disciplinary Process and Procedures

A. Disciplinary Action

If the College President recommends that disciplinary action be commenced against a respondent student or employee for violations of this Policy, the following procedures shall apply:

Discipline Against Students:

1. In cases where a College President recommends discipline against a student for violations of this Policy, the matter shall be referred to the college's Office of Student Affairs and action shall be taken in accordance with Section 11.A-C of this Policy, below. This Section provides for, among other things, a University-Wide Faculty-Student Disciplinary Committee consisting of faculty members, students and in some cases staff members to hear and decide charges of violation of this Policy.

2. As described in Sections XI above, complainants have the same rights as respondents:
   • to receive notice of the charges, including the date, time, location and factual allegations, concerning alleged violation of this Policy;
   • to receive notice of the specific provisions alleged to have been violated and possible sanctions;
   • to present evidence and testimony at any hearing, where appropriate;
   • to be represented by an attorney or advisor of their choice;
   • to receive access to a full and fair record of any hearing;
   • to receive written notice of the decision of the faculty-student disciplinary committee, specifically whether the allegations were substantiated and what, if any, penalty was imposed;
   • to make an impact statement at the point when the decision maker is deliberating on appropriate sanctions;
   • To written notice of findings of fact, decisions and sanctions if any, as well as the rationale for the decision and any sanction;
   • to choose whether to or discuss the outcome of a conduct or judicial process;
• to appeal to a decision maker that is fair and impartial and does not include individuals with conflicts of interest;

• to have all information obtained during the conduct process protected from public release until a decision maker on appeal makes a final determination, unless otherwise required by law.

3. Penalties for students instituted after a hearing before the faculty-student disciplinary committee range from a warning to suspension or expulsion from the University. Students accused of crimes of violence are also subject to the university's policy on transcript notations which is discussed in this Section below.

**Discipline Against Employees**

In cases where the college President recommends discipline against an employee, the matter shall be referred for disciplinary action in accordance with the applicable CUNY policies, rules and collective bargaining agreements. Penalties for employees include, depending on the employee's title, reprimand, suspension, demotion, fine, or termination of employment following applicable disciplinary procedures. For many respondent employees, these procedures may include a hearing before a non-CUNY fact-finder, as required by the particular collective bargaining agreement.

For additional information on the disciplinary process in specific cases, complainants should consult their campus Title IX Coordinator, who will work with campus Human Resources Director to provide information. Respondents should consult their union representative, if any, or campus Human Resources Director.

**Action Against Visitors**

In cases where the person accused of sexual misconduct is not a CUNY student or employee, the college's ability to take action against the accused is usually extremely limited. However, the college shall take all appropriate actions within its control, such as restricting the visitor's access to campus. In addition, subject to Section VI, above, the matter may be referred to local law enforcement for legal action, including seeking Orders of Protection and/or reporting to local law enforcement, where appropriate. College Public Safety will assist both students and employees in enforcing Orders of Protection on the campus.

**No Disciplinary Action**

In cases where a determination is made not to bring disciplinary action, the Title IX Coordinator shall inform the complainant and respondent of that decision at the same time, in writing, and shall offer any appropriate support services, including counseling to both.

**B. Student Disciplinary Procedures**

**Referral of Violation for Disciplinary Action**

If the President decides that discipline is warranted, the President will refer the matter to the Chief Student Affairs Officer for further action. The chief student affairs officer may rely on the investigation and determination of the Title IX Coordinator and prefer disciplinary charges.

In instances where a respondent is alleged to have violated this Policy as well as other CUNY policies, rules or bylaws, the entire matter will be heard before the University-Wide Faculty Student Disciplinary Committee and will follow the rules and procedures outlined in Section XI of this Policy.

**Respondent Withdrawal Before Completion of the Process**

In the event that a respondent withdraws from the college before a decision is rendered on the charges, the respondent
is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred
from attending any other unit of the university until a decision on the charges is made, or the charges are otherwise
resolved.

Immediately following such withdrawal, the college shall place a notation on the respondent's transcript that the
respondent "withdrew with conduct charges pending." If the respondent fails to appear, the college may proceed with
the disciplinary hearing in absentia, and any decision and sanction shall be binding, and the transcript notation, if any,
resulting from that decision and penalty shall replace the notation.

Issuance of Charges & Notice of Hearing

Notice of the charge(s) and of the time and place of the hearing shall be sent to the respondent by both first-class mail
and email to the address appearing on the records of the college. Notice shall also be sent in a similar manner to the
complainant to the extent that charges relate to the complainant. The Chief Student Affairs Officer is also encouraged
to send the notice of charges to any other e-mail address that he or she may have for the respondent and the
complainant.

The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation
conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless
the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment, for a reasonable
amount of time under the circumstances, without specifying a reason. Additional requests for an adjournment must be
made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the
chairperson of the Faculty Student Disciplinary Committee. If the respondent fails to respond to the notice, appear on
the adjourned date, or request an extension, the college may proceed without the respondent present, and any decision
and sanction shall be binding.

Content of Notice of Charges and Hearing

The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the
   policy, rule and/or bylaw the respondent is charged with violating, and the possible penalties for such
   violation.

2. A statement that the respondent and the complainant have the right to attend and participate fully in the
   hearing including the right:

   i. to present their side of the story;
   ii. to present witnesses and evidence on their behalf;
   iii. to cross-examine witnesses presenting evidence, the exception being that the complainant and respondent
      may not cross-examine each other as discussed below;
   iv. for the respondent to remain silent without assumption of guilt; and
   v. to be represented by an advisor or legal counsel at their expense; if the respondent or the complainant
      requests it, the college shall assist in finding a legal counsel or advisor.
   vi. A warning that anything the respondent says may be used against the respondent at a non-college hearing.

Review of Evidence before Hearing:

At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall
provide the respondent and the complainant and/or their designated representative, with similar and timely
access to review documents or other tangible evidence that the college intends to use at the disciplinary
hearing, consistent with the restrictions imposed by the Family Educational Rights and Privacy Act
("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during the
disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the
additional documents or tangible evidence. If during the hearing the complainant or the respondent submits documentary evidence, the chairperson may, at the request of any other party grant, adjournment of the hearing as necessary in the interest of fairness, to permit the requesting party time to review the newly produced evidence.

**Admission & Acceptance of Penalty**

After the charges have been preferred by the chief student affairs officer, but prior to the commencement of a disciplinary hearing, the respondent may admit to the charges and accept the penalty that the chief student affairs officer or designee determines to be appropriate to address the misconduct. If required by this Policy, the agreed-upon penalty shall be placed on the respondent's transcript consistent with CUNY's policy on Transcript Notations (see below). Before resolving a complaint in this manner, the chief student affairs officer or designee shall first consult with the complainant and provide the complainant with an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant's objection, the chief student affairs officer or designee shall provide the complainant with a statement of the reasons supporting such resolution, and the complainant may appeal the resolution to the college President.

3. **Faculty Student Disciplinary Committee Structure:**

Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training upon appointment and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons: CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. Members of the panel shall be trained on an annual basis in compliance with the law and this Policy. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEO's. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected.

In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery.
Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Roles and Responsibilities of Individuals during the Hearing

a. Role and Responsibilities of Panel Chairperson:

The chairperson shall preside at the hearing. The parties to the hearing are the college, the respondent, and if the complainant chooses to participate, the complainant. At the commencement of the hearing, the chairperson shall inform the respondent of the charges, the hearing procedures, and her or his rights. After informing the respondent of the charges, the hearing procedures, and respondent's rights, the chairperson shall ask the respondent to state whether he or she is responsible or not responsible for the conduct. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson shall rule on any motions regarding the admissibility of evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

The chairperson shall preside at all hearing sessions and meetings and make all rulings for the panel. The chairperson has discretion to limit the number of witnesses and the length of testimony for the presentations by any party and/or their representative. All hearings pursuant to this Policy shall be closed hearings. The chairperson shall not be a voting member of the panel but shall vote in the event of a tie. In the event that the chairperson cannot continue, the Vice Chancellor for Student Affairs, or his or his designee, shall appoint another chairperson from the University-wide committee. In the event that a seat on the panel becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student committee members by lot.

b. Presenters:

Each academic year, the chief student affairs officer at each College or designee shall identify one or more college employees to serve as presenters for the hearings. This list will be forwarded to the Offices of the Vice Chancellor for Student Affairs and General Counsel and Vice Chancellor for Legal Affairs prior to the first day of the academic year. The employee who serves as presenter during the hearing shall be from the same institution as the respondent.

c. Recording of Proceeding

The college shall make a recording of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. No other recording of the proceedings shall be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's advisor. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their advisors.

Basic Hearing Rules:

If, at the commencement of the hearing, the respondent admits the conduct charged, the respondent shall be
given an opportunity to explain her/his actions before the hearing panel and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its evidence. At the conclusion of the college's presentation, the respondent may move to dismiss the charges. If the motion is denied by the committee, the complainant, if the complainant chooses to participate, shall be given an opportunity to make a presentation. After the college's, and, if complainant choses to participate, complainant's presentation, the Respondent shall be given an opportunity to make a presentation.

The college bears the burden of proving the charge(s) by a preponderance of the evidence. The role of the hearing panel is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and make a decision as to responsibility. In the event the respondent is found responsible for the conduct, the committee shall then determine the penalty to be imposed.

The college, the respondent and the complainant are permitted to have advisors act on their behalf during the pendency of a hearing, which shall include the calling and examining of witnesses, and presenting evidence. Any party intending to appear with an attorney shall give the other party five (5) calendar days' notice of such representation.

Neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they choose to, the respondent and the complainant shall cross-examine each other only through an advisor. If either or both of them do not have an advisor, the college shall assist them to find an advisor to conduct such cross-examination. In the alternative, the complainant and respondent may provide written questions to the chairperson to be posed to the witness, in the chairperson's discretion.

Responsibility Phase

The following rules apply to the introduction of evidence at the hearing: Evidence of the mental health diagnosis and/or treatment of a complainant, respondent, or witness may not be introduced; and b) Evidence of either party's prior sexual history may not be introduced except that (i) evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing, and (ii) past findings of domestic violence, dating violence, stalking, or sexual assault may be admissible in the stage of that hearing related to penalty.

Penalty Phase

If the panel has found the Respondent responsible for the conduct, then the complainant, respondent, and college, will have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be. The complainant, respondent and college will also have the opportunity to introduce evidence of and comment on the respondent's character, including any past findings of a respondent's responsibility for domestic violence, stalking, or sexual assault or any other sexual misconduct, and submit a statement regarding the impact of the conduct.

The College may also introduce a copy of the respondent's previous disciplinary records, if any, from any CUNY institution the respondent has attended, provided the respondent was shown a copy of the records prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the panel in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found responsible for the conduct charged. The hearing panel, to determine an appropriate penalty, shall use the disciplinary records, as well as any documents or character evidence introduced by the respondent, the complainant, or the college.

If either the complainant or the respondent chose not to participate in the hearing, they still have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be and to provide or make an impact statement.
ii. Decision

The panel shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing, including the penalty phase. The college shall send to the respondent a copy of the panel's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the college has fourteen (14) calendar days of the conclusion of the hearing to send the panel's decision. The college is also encouraged to send the decision to any other e-mail address that it may have for the respondent. The decision shall be final subject to any appeal.

In cases involving a crime of violence or a non-forcible sex offense, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a university-wide penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

iii. Appeals/Review

A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii) the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee.

If the penalty after appeal to the president is one of dismissal or suspension for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the non-appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

iv. Transcript Notation(s)

In cases in which the panel finds the respondent responsible and the penalty is either suspension or expulsion, the college shall place a notation on the respondent's transcript stating that respondent was suspended or expelled after a finding of responsibility for a code of conduct violation. In cases where a student has been expelled as a result of a Clery Act crime of violence, the notation will not be removed.

For all other cases, after four years from the date of the conclusion of the disciplinary proceeding, or one year
after the conclusion of any suspension, whichever is later, the Respondent has the right to request that a transcript notation from a finding of responsibility be removed. If a finding of responsibility for any violation is vacated for any reason, the notation shall be removed.

XIII. College Obligations Under this Policy

In addition to addressing possible violations of this policy, colleges/units of CUNY have the following obligations:

1. **Dissemination of Policies, Procedures and Notices**

   The college Title IX Coordinator, in coordination with the Office of Student Affairs, Office of Public Safety, Human Resources Department and other appropriate offices, is responsible for the wide dissemination of the following on her/his campus: (i) this Policy; (ii) CUNY's Notice of NonDiscrimination; (iii) the Title IX Coordinator's name, phone number, office location, and email address; and (iv) contact information for the campus Public Safety Office. Such dissemination shall include posting the documents and information on the college website, and including it in residence life materials and training and educational materials. In addition, the Students' Bill of Rights, which is appended to and made a part of this policy, must be distributed to any individual reporting an incident of sexual misconduct at the time the report is made. It must also be distributed annually to all students, made available on the college's website and posted in college campus centers and in CUNY owned and operated housing.

2. **Training and Educational Programming**

   CUNY is responsible for providing training to college Title IX Coordinators and others who may serve as investigators. The college Title IX Coordinator, in coordination with other applicable offices, including Public Safety, Human Resources and Student Affairs, is responsible for ensuring that the college provides training to college employees on their obligations under this policy; provides education on this policy and on sexual misconduct (including domestic violence, dating violence, stalking and sexual assault) to new and continuing students; and promotes awareness and prevention of sexual misconduct among all students and employees. Specific required trainings include the following:

   i. **Training For Responsible and Confidential Employees**

   The college shall provide training to all employees who are required to report incidents of sexual misconduct under this policy, as well as to those employees who have been designated as confidential employees.

   ii. **Training For Title IX Coordinator and other investigators**

   CUNY shall provide at least annual training to Title IX Coordinators and other investigators in conducting investigations of sexual misconduct, including

   • the effects of trauma;
   • impartiality;
   • the rights of the respondent, include the right to a presumption that the respondent is "not responsible" until any finding of responsibility is made;
   • relevant CUNY policies and procedures; and
   • other issues including what constitutes crimes of sexual misconduct.

   iii. **Student Onboarding and Ongoing Education**
Each college shall adopt a comprehensive student onboarding and ongoing education campaign to educate students about sexual misconduct, including domestic violence, dating violence, stalking, and sexual assault. During the student onboarding process, all new first-year and transfer students shall receive training on this policy and on a variety of topics relating to sexual misconduct. In addition, each college shall offer and administer appropriate educational programming to residence hall students, athletes, and student leaders. Each college shall also provide such educational programming to any other student groups which the college determines could benefit from education in the area of sexual misconduct. The college shall also share information on domestic violence, dating violence, stalking and sexual assault prevention with parents of enrolling students. This may be done by linking to http://www1.cuny.edu/sites/title-ix/information-for-parents-andfamilies/campus/university/

c. Campus Climate Assessments

Each college of the University shall conduct, no less than every other year, a climate assessment using an assessment instrument provided by the University central office, to ascertain its students' general awareness and knowledge of the University's policy and procedures regarding sexual misconduct, including but not limited to student experiences with and knowledge of reporting, investigation and disciplinary processes. The assessment instrument shall include all topics required to be included under applicable law, including Section 129-B of the New York State Education Law. The University shall publish the results of the surveys on its Title IX web page. The published results shall not contain any information which would enable a reader to identify any individual who responded to the climate assessment.

XIV. Rules Regarding Intimate Relationships
d. Relationships between Faculty or Employees and Students

Amorous, dating or sexual activity or relationships ("intimate relationships"), even when apparently consensual, are inappropriate when they occur between a faculty member or employee and any student for whom he or she has a professional responsibility. Those relationships are inappropriate because of the unequal power dynamic between students and faculty members and between students and employees who advise or evaluate them, such as athletic coaches or workplace supervisors. Such relationships necessarily involve issues of student vulnerability and have the potential for coercion. In addition, conflicts of interest or perceived conflicts of interest may arise when a faculty member or employee is required to evaluate the work or make personnel or academic decisions with respect to a student with whom he or she is having an intimate relationship. Finally, if the relationship ends in a way that is not amicable, the relationship may lead to charges of and possible liability for sexual misconduct.

Therefore, faculty members and other employees are prohibited from engaging in intimate relationships with students for whom they have a professional responsibility, including undergraduates, graduate and professional students and postdoctoral fellows.

For purposes of this Section, professional responsibility for a student means responsibility over any academic matters, including teaching, counseling, grading, advising for a formal project such as a thesis or research, evaluating, hiring, supervising, coaching, making decisions or recommendations that confer benefits such as admissions, registration, financial aid, other awards, remuneration, or fellowships, or performing any other function that might affect teaching, research, or other academic opportunities.

e. Relationships between Supervisors and Employees

Many of the concerns about intimate relationships between faculty members or employees and students also apply to relationships between supervisors and employees they supervise. Those relationships therefore are strongly discouraged. Supervisors shall disclose any such relationships to their supervisors in order to avoid or mitigate conflicts of interest in connection with the supervision and evaluation of the employees with whom they have an intimate relationship. Mitigation may involve the transfer of either the supervisor or employee, reassigning the responsibility to evaluate the employee to a different supervisor, or other appropriate action.
For purposes of this Section, supervising an employee means supervising in an employment setting, including hiring, evaluating, assigning work, or making decisions or recommendations that confer benefits such as promotions, raises or other remuneration, or performing any other function that might affect employment opportunities.

The City University of New York
Students' Bill of Rights

For CUNY students who experience Sexual Violence, including sexual assault; domestic, dating or, intimate partner violence, stalking or voyeurism

All students have the right to

1. Make a report to local law enforcement and/or state police;

2. Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously;

3. Make a decision about whether or not to disclose a crime or violation and participate in the judicial or conduct process and/or criminal justice process free from pressure by the institution;

4. Participate in a process that is fair, impartial, and provides adequate notice and a meaningful opportunity to be heard;

5. Be treated with dignity and to receive from the institution courteous, fair, and respectful health care and counseling services, where available;

6. Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such crimes or violations;

7. Describe the incident to as few institutional representatives as practicable and not be required to unnecessarily repeat a description of the incident;

8. Be protected from retaliation by the institution, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the institution;

9. Have access to at least one level of appeal of a determination;

10. Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent throughout the judicial or conduct process including during all meetings and hearings related to such process; and

11. Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the institution.

This Student Bill of Rights was established by the "Enough is Enough" Law, New York State Education Law Article 129-B, effective October 7, 2015.

For more information about preventing and addressing Sexual Violence at CUNY see http://www1.cuny.edu/sites/title-ix/campus-websites.

Information about filing a report, seeking a response, and options for confidential disclosure is available also available CUNY's Title IX web page.
Questions about CUNY's Sexual Misconduct policy and procedures may be directed to your campus Title IX Coordinator.

Policy adopted by the Board of Trustees on 12/1/2014 Cal. 4.C., with effective date of 1/1/2015. Amended by the Board of Trustees on 10/1/2015. Cal. 6.B. Adopted as revised by BOT on 6/25/2018. Cal.9.A.

Dance

Return to: Faculty of the School of Arts and Sciences

David Capps, Associate Professor, Dance; BA Towson State, MFA NYU
Maura Nguyen Donohue, Associate Professor, Dance; MFA Smith College
Kathleen Isaac, Assistant Professor, MA, NYU; Dance Education
Carol K. Walker, Professor and Acting Chair, BFA, Barat

Dance Education Programs

Dance Pre-K - 12 - BA
Dance Pre-K - 12 - BA/MA

Dance Pre-K-12 - BA

Liberal Arts and Sciences Major Requirements

34-credit major in PreK - 12 Dance BA.

Foundational Courses

Foundational Courses include courses in dance and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. All students must take a technique placement class prior to the beginning of each semester in order to gain permission for registration. Students should check the department website for placement class dates.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of Dance, the courses that meet CCC are:
Courses                                CUNY Common Core/Foundational or Major
DAN 23200 20th-Century Dance History  Creative Expression  Foundational
DAN 10200 Dance, Dancers and the Audience  Creative Expression  Foundational

Major 34 cr.

The following 34-credit Curriculum is required of all majors.

Note: All dance technique classes may be taken two times for credit.

- DAN 15100 Global Dance I
- DAN 21000 Contemporary Dance Technique I
- DAN 21300 Basic Musicianship for Dancers
- DAN 22000 Contemporary Dance Technique II
- DAN 22100 Improvisation
- DAN 23200 20th-Century Dance History
- DAN 24500 Ballet I
- DAN 31000 Contemporary Dance Technique III
- DAN 32000 Contemporary Dance Technique IV
- DAN 32100 Composition I
- DAN 32400 Production I
- DAN 34500 Ballet II
- DAN 35000 Anatomy and Kinesiology for Dancers
- DAN 42200 Dance Workshop
- DAN 44000 Lecture/Demonstration Touring Group

A placement audition is required of all incoming majors. All dance majors are required to be registered in at least one technique class every semester they are in attendance at Hunter. Performance, choreography and technical production requirements are to be fulfilled prior to graduation. These requirements include:

- Performance in at least two (2) concerts.
- Choreography of at least two (2) works:
  - solo performed in open composition.
  - group work developed during fall and spring semesters and performed in formal concert.
- Production crew work in two (2) formal concerts.

Note: All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Declarating a major

To declare or change a major, students should print a Major Declaration Approval form at http://www.hunter.cuny.edu/onestop/forms-online, and confer with an adviser in the major department who will review the program of study and must sign and stamp the form.

All matriculated students must declare a major no later than the semester in which the combination of credits earned and credits for which they are currently registered totals 60 or greater. Transfer students entering with 60 credits or more must declare their major before the end of their first semester of attendance at Hunter. Under New York State guidelines, students who have not declared a major by the 60-credit point, or changed their major/program, by the end of the drop/add period of the semester are ineligible for TAP financial aid.
Declaring a Major

To declare or change a major, students should print a Major Declaration Approval form at registrar.hunter.cuny.edu/subpages/forms.shtml, and confer with an adviser in the major department who will review the program of study and determine the student's eligibility. If the student is admitted into the major, the adviser will sign and stamp the form. That form must be forwarded to OASIS. Each major must be declared in the same way and approved by an adviser in the major department.

All matriculated students must declare a major no later than the semester in which the combination of credits earned and credits for which they are currently registered totals 60 or greater. Transfer students entering with 60 credits or more must declare their major before the end of their first semester of attendance at Hunter.

Choosing a Major and TAP Financial Aid

Under New York State guidelines, students who have not declared a major by the 60-credit point are ineligible for TAP financial aid. The calculated financial aid is based on the declared major as of the end of the DROP/ADD period.

Degree Students and CUNY Proficiency Requirements

Degree seeking students enrolling at Hunter College must demonstrate proficiency in reading, writing and mathematics at the time of application, as outlined by the City University of New York. Students can demonstrate that they meet the CUNY proficiency skills requirements in reading, writing and mathematics based on SAT, ACT, or NY State Regents test scores. Students may also demonstrate CUNY proficiency requirements based on a bachelor's degree or higher from an accredited program that is approved by the Office of Admissions. Otherwise, students must take the appropriate CUNY Assessment Test (CAT) to demonstrate proficiency requirements.

Demonstrating Proficiency: Mathematics

Students may demonstrate proficiency in mathematics based on the following SAT, ACT, or NY State Regents test scores.

Students are considered proficient in mathematics if they provide official documentation on any one of the following:

- SAT Math score of 500 or higher
- ACT Math score of 21 or higher
- NY State Regents score of 70 or higher in Algebra I and successful completion of Algebra II/trigonometry or higher-level course.
- NY State Regents score of 80 or higher in Integrated Algebra, Geometry, OR Algebra 2/Trigonometry AND successful completion of the Algebra 2/Trigonometry or a higher-level course.
- Math A or Math B, Sequential II or III NY State Regents score of 75 or higher

Students may demonstrate proficiency in mathematics based on the following CUNY Assessment Test score: Algebra (M2) score of 40 or higher

In addition, transfer students from outside of CUNY can demonstrate that they meet the CUNY math proficiency requirement by documenting successful completion of a 3 credit college-level math course with a grade of C or better from an accredited college or university. Transfer students from another CUNY college can demonstrate that they meet
the CUNY mathematics proficiency requirement by documenting successful completion of Elementary Algebra or a 3 credit college-level math course at a CUNY college.

**Demonstrating Proficiency: Reading and Writing**

Students may demonstrate proficiency in reading and writing based on the following SAT, ACT, or NY State Regents test scores.

Students are considered proficient in reading and writing if they provide official documentation on any one of the following:

- SAT I Verbal score of 480 or higher or Critical Reading score of 480 or higher
- ACT English score of 20 or higher
- NY State English Regents score of 75 or higher

Students may demonstrate proficiency in **reading and writing** based on the following CUNY Assessment Test scores:

- Reading: a score of 70 or higher.
- Writing: a score of 56 or higher.

To be eligible to register for the first college-level composition course, students must be proficient in both reading **and** writing.

In addition, transfer students from outside of CUNY may demonstrate that they meet the City University of New York's proficiency requirement in reading and writing by documenting successful completion of a 3-credit college-level English course with a grade of C or better from an accredited college or university. Transfer students from another CUNY college may demonstrate that they meet the City University of New York's proficiency requirement in reading and writing by documenting successful completion of a 3-credit college-level English course with a grade of C or better from a CUNY college.

Introduction

About Public Safety

Campus Access

Identification Cards

Complaints and Information

Reporting a Crime

Security Policies

Sexual Misconduct
Introduction

Hunter College is centrally located on 68th Street and Lexington Avenue, in the heart of one of the most exciting neighborhoods in the city. The proximity to Central Park, makes the area attractive to all New Yorkers. The subway system makes the daily commute convenient and refreshing with the Number 6 line stopping right at the Main Campus. Hunter College offers graduate and undergraduate courses of study in liberal arts and sciences, as well as several professional fields; education, health and sciences, nursing and social work. With a student body of nearly 23,000 male and female students in day and evening classes, the college employs 1,200 full time faculty and staff personnel. Hunter College's uniqueness does not stop there. Our residential dormitory, known as the Brookdale Campus, is located at 25th Street and 1st Avenue. Brookdale is the home to nearly 600 male and female students and resident nurses. The Silberman School of Social Work is located on 3rd Avenue at East 119th Street in Manhattan. The campuses are closely monitored by public safety personnel 24 hours a day.

About Public Safety

Established in 1991, the CUNY Public Safety Department was created to further ensure that those who attend any of the CUNY institutions do so in a safe and comfortable environment. CUNY Public Safety Officers are sworn Peace Officers and have arrest authority granted them by the City of New York. They are City Special Patrolmen/Peace Officers in accordance with Section 2.10, subsection 27 of the New York State Criminal Procedure Law. Campus Peace Officers (CPO) undergo sixteen weeks of training at York College, where they receive training pertaining to servicing the college community and how to effectively handle situations which may occur on a college campus and in the surrounding community. Campus Security Assistants (CSA) are employed as security guards in accordance with Article 7A of the General Business Law. CSA's do not have arrest authority above that of a private citizen.

All Hunter College Department of Public Safety personnel wear distinctive uniforms and carry two-way radios. Additionally, the college has seven New York State Certified Emergency Medical EMTs to respond to medical emergencies at the Main and Brookdale campuses. These personnel are trained in first aid, cardiopulmonary resuscitation and other emergency response procedures.

Campus Peace Officers (CPO's) are charged with the responsibility of making sure federal, state and local laws, as well as University policies and procedures are obeyed. Although officers are not city police officers, they are granted "Peace Officer" status through the City of New York and have arrest powers on all campuses. This allows officers to make an arrest and to search and seize evidence in connection with an arrest as long at the crime was committed in their presence or view, but reasonable grounds exist that the offense was committed by the person the officer is arresting on the campus. The Hunter College Public Safety Department also maintains a strong working relationship with the City of New York Police Department, county, state and federal authorities and the City of New York Fire Department.

NOTE: The Hunter College Department of Public Safety does not provide security at any off-campus events; or for any off-campus organization not owned by Hunter College.

Students, staff and faculty are encouraged to report all public safety concerns to this department. A mechanism has been added to the Hunter College Public Safety web page which allows the college community to report crimes anonymously, known as "Silent Witness". At the present time pastoral and professional counselors do not have to inform the persons that they are counseling to report crimes on a voluntary, confidential basis.

The Director of the Public Safety Department is Joseph D. Foelsch,Jr., who has an extensive law enforcement background. Mr. Foelsch is assisted by the Department by a Deputy Director, Mr. Richard Meier. The Public Safety staff includes two Lieutenants, thirteen Sergeants, seven Corporals, four Specialists, 68 Campus Peace Officers, and 52 Campus Security Assistants. The staff maintains several "fixed" posts, a communications center as well as roving patrols.

Campus Access
The campus is monitored 24 hours a day by members of the Public Safety staff. After the campus is closed all persons entering the institution must sign in. The lobby of the West Building is available to all current Hunter College students. Only those students with written permission from a department head, or faculty, are permitted to go to areas other than the West Lobby at times when the campus is closed. A student that wants to remain on campus after hours must request permission in writing, through their Department head, or designee sponsoring the after hour visit. The permission and a supporting letter must be provided to Public Safety. Students are not permitted to sign in non-students through the Visitors Center.

Identification Cards

Every member of the college community is required to carry a validated identification card while on campus. Upon request of a Public Safety Officer or college official, the ID card must be presented. Refusal to present the ID card will result in denial of access to the campus. ID cards are NON-TRANSFERABLE and may not be used by any other person, for any reason. The college will prosecute any unauthorized person who trespasses or loiters on college property. Students, faculty, card in order to gain access to buildings, or to gain access to offices when keys are forgotten. Student ID cards shall be validated each semester.

Complaints and Information

Complaints and requests for information concerning Public Safety services should be made to Mr. Joseph D. Foelsch, Jr. the Director of Public Safety at (212) 772-4521. After hours, all calls for Public Safety service should be made to (212) 772-4447.

Reporting a Crime

All crimes against person and property should be reported as soon as possible to the Office of Public Safety. This helps us apprehend criminals and make strategic decisions about the deployment of security resources. Incidents can be reported in person in the Public Safety office (B-122 in the West Building); by phone X 1-4444 if the crime is in process, (X 1-4447 after the fact) or to any uniformed officer on campus. The Office of Public Safety will assist you in reporting a crime as necessary.

Even if you do not want to pursue action with the college or the criminal justice system, please make a confidential report which does not reveal your identity to the Public Safety Office. This helps us keep an accurate record of the number and nature of incidents, determine whether there is a pattern of crime, redeploy our security officers, and alert the campus community to a potential danger. Reports filed in this manner are counted and disclosed in the crime statistics of the college.

Security Policies

The policy of the City University and of Hunter College is that:

- Students and employees will report safety hazards; crimes; loss of property; illness or injury. Proper reporting assists in the apprehension of criminals and ensures the safety of the college community. Incidents can be reported to any Public Safety officer or by calling the Office of Public Safety.

Investigation of Violent Felony Offenses

Hunter College has adopted and implemented a plan providing for the investigation of any violent felony offenses occurring on Campus, and providing for the investigation of resident Missing Persons. Such plans provide for the coordination of the investigation of such crimes and reports with the New York City Police Department (NYPD). Such plans shall include, but not be limited to, written agreements with the NYPD providing for the prompt investigation of such crimes.

Violent Felony Offenses

Defined in Section 70.02 sub. 1 of the New York State Penal Law and include Class A, B, C, D and E. These crimes will be immediately reported to the New York City Police Department by the Hunter College Department of Public Safety Office. A joint initial investigation will be conducted and will be updated on developments.

Alcohol and Drugs:

http://www.hunter.cuny.edu/publicsafety/policies-and-procedures/alcohol-drug-policies/alcohol-drug-policy
Any action or situation which recklessly or intentionally endangers mental or physical health, or involves forced consumption of liquor or drugs for the purpose of initiation or affiliation with any organization is prohibited. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or controlled substances by University students or employees on University/College property, or as part of any University/College activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal conviction for a violation occurring in the workplace no later than (5) days a

The unlawful possession, use, or distribution of liquor or drugs for the purpose of initiation or affiliation with any organization is prohibited. The unlawful possession, use, or distribution of alcohol by students or employees on University/College property, or as part of any University/College activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal conviction for a violation occurring in the workplace no later than (5) days a

The legal age for possession and consumption of alcohol in New York State is 21. It is against the law to sell or give away alcohol to anyone under the age of 21.

The possession or use of illegal drugs is a crime in the State of New York. Anyone found in possession of or using such drugs on college property will be severely dealt with and will face criminal charges.

Hunter College is in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226). The New York State minimum drinking age (21 years) is observed at all campus functions. Proof of age is required to consume alcoholic beverages and no individual appearing to be under the influence of alcohol will be served.

The unlawful possession, use or distribution of drugs is prohibited on the campus. Violators will be subject to penalties ranging from reprimand and warning for a first infraction, to separation from the college for a subsequent offense.

Legal sanctions against students alleged to be in violation of Public Law 101-226 will be determined according to Article 15 Section 3 of the CUNY Board of Trustees Bylaws. Sanctions for members of the instructional staff and non-instructional staff will be governed by Article VII of the CUNY Board of Trustees Bylaws. Respectively.

Weapons

No individual within the university community, except Peace Officers, pursuant to authorization of the college presidents, shall have in their possession a rifle, shotgun, firearm or any other dangerous instrument or material that can be used to inflict bodily harm on an individual, or damage to a building or the grounds.

Public Safety Emergencies

Throughout the Hunter College Main Campus and Brookdale Campus are stainless steel colored "Talk-A-Lert" boxes. The Talk-Alert boxes are mounted near elevators, stairways and female bathrooms. Talk-Alerts are to be used for any and all emergencies on campus. Just push the black button, wait for the box to connect with Public Safety communications and a verbal response to your emergency. You may always reach Public Safety by dialing 1-4444 from any internal telephone, or a cellular phone will connect you with NYPD. To dial 911 from an interior campus telephone you must dial a 9 first (9-911).

Evacuation Procedures

Usually evacuation procedures concern a working fire; however there may be other reasons that a building may have to be evacuated. Examples of these may include: a bomb threat; a chemical spill in a lab; a police action; a power failure; or other situation where it would be in the best interest of the occupants to evacuate. (PROCEDURES ARE LISTED UNDER Fire Safety Plan SECTION)

Timely Emergency Warnings

If a situation arises either on or off campus that, in the judgment of the Director of Public Safety, constitutes an ongoing threat, a campus wide "timely warning" will be issued through the college e-mail system to all students, faculty and staff.

Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to the community and individuals, Public Safety may also send out a notice using the CUNY ALERT system.

ALL students; faculty and staff are requested to sign up for CUNY Alert at the following web site: http://www2.cuny.edu/news/cuny-alert/

Sexual Misconduct
CUNY Sexual Misconduct Policy

Daily Crime and Fire Log

The Department of Public Safety maintains a "daily crime log" and a "daily fire log" in two ways. One is placed in electronic form and may be viewed on our web site at http://www.hunter.cuny.edu/publicsafety/reports/daily-log. This forum lists all crimes that are reported at all Hunter campuses. The second manner is a "daily crime log" that is maintained at each Hunter campus of crimes reported to the particular campus. That log will show reported crimes for the past 60 days and is available for viewing by students, faculty and staff during normal business hours.

ASR availability:
The Annual Security Report, commonly known as the ASR, provides information about Hunter Colleges Public Safety Department; policies and procedures; types of crimes and definitions; college resources for students and victims of a crime and crime statistics for the college.

The Annual Security Report (ASR) is mandated by the Clery Act to be available to all students, faculty and potential students: ASR's can be obtained online at http://www.hunter.cuny.edu/publicsafety/repository/files/CLERY%20%202017%20ASR%20Hunter%20College%20for%20Revised%20and%20Updated.doc attached to any public safety desk at any one of Hunters campuses or at Public Safety's Administrative Office located in the West Building in room B-122A.

Lost and Found

All items found on campus that are lost should be turned in to any public safety officer; public safety desk; or a drop box or safe located at some campuses. Found or recovered items will be recorded and stored in the campuses "Lost & Found" locker. Persons who have lost property should complete and Lost & Found slip and turn it in to Public Safety.

Or, go to the following link to report a lost item online: http://www.hunter.cuny.edu/publicsafety/repository/files/Lost%20and%20Found%20Form%202012.pdf

Public Safety does not permit the random rummaging through the lost and found area for lost items. If an item is "reported" lost and it is located by public safety, you will be contacted by telephone and arrangements will be made to return the property. Found property will be stored for sixty (60) days only.

FIRE SAFETY

Each campus has a fire alarm system that meets the fire code of New York City. In most campuses a Fire Warden is assigned to each floor and is responsible for implementing the fire safety policy and evacuation during a fire emergency.

Things to Remember:

• If you notice a fire - pull the fire alarm pull station - do not waste time calling public safety. (Once activated, the alarm goes directly to NYFD is automatically notified and dispatched.
• If a "pull station" is not close to you then,
  o Activate one of the silver wall mounted "Talk-Alert" boxes
  o Dial 1-4444 on a main campus telephone
  o Dial 911 on your cell phone.
• Fire extinguishers are located on all floors of all campuses.
• A Fire Warden is assigned to each floor and is responsible for implementing the fire safety policy and evacuation during a fire emergency.
• It is important to follow their instructions, they are there for your safety.
• Stairway "A" is the primary staircase to be used for evacuation, unless told otherwise.
• Disabled individuals should enter the stairway and stay on the landing of their floor. NYFD will come and get you!
• A delay in public address announcements after a fire alarm sounds is usually because public safety is investigating the source of the alarm and needs to be done.
  o Always listen for public address announcements.
• If there is a fire or smoke condition in, or near an elevator shaft, the fire alarms will sound on all floors.
  o Elevators will get automatically re-called to the lowest floor/lobby.
• Some elevators may be re-called to the main floor due to a fire.
• After a fire alarm is activated, the alarm and the elevators cannot be reset until the NY Fire Department authorizes it and gives the "all clear" signal.
• Evacuations may only occur on the "fire floor" and one floor above, and one floor below and not the entire building.
• Organized "Fire Brigades" will respond to the floor below the fire floor.
• Each semester Public Safety performs fire drills at each campus.

Evacuation Procedures

Usually evacuation procedures concern a working fire; however there may be other reasons that a building may have to be evacuated. Examples of this may be a bomb threat; a chemical spill in a lab; a police action; a power failure; or other situation where it would be in the best interest of the occupants to evacuate.

• Do Not Use Elevators
• Remain calm.
• Everyone will listen for a public address announcement to evacuate the building when the fire alarm is sounded.
• Normally, evacuation is ordered by building and by floor to prevent overcrowding in the stairwells.
• Upon activation of the fire alarm, and the announcement to evacuate, all occupants will immediately exit the building using the nearest stairwell and proceed across the street from the building.
• Excessive smoke, smell of gas is reason to immediately evacuate even if no announcement was heard.
• Evacuation floor plans are posted on each floor by the elevators throughout each campus.
• Close windows and doors. Leave lights on and doors unlocked.
• When you evacuate, do not stop for personal belongings or records.
• If there is excessive smoke, crawl to an exit. If you are unable to exit, stay low and plug all openings around doors, windows and vents.
• If you find yourself trapped dial 911 and give them your location, room number and floor.
• Before entering another room or stairwell, check for heat by placing your hand near the door.
• Fire Wardens that are familiar with the evacuation procedures will alert on their assigned floor to follow their emergency procedures.
• Disabled persons will enter the closest stairwell and await NYFD to assist them in exiting the building.
• A "runner" should be dispatched to tell the responding officer (fire or police) the location of the handicapped individual(s), so that a rescue can be initiated.
• Building occupants must immediately advise the responding Public Safety Officers of the possibility and location of any persons who have not yet evacuated the buildings due to injury or incapacitation.
• No one is permitted to re-enter an evacuated building until the building is determined to be safe by the emergency service personnel and entry into the building is permitted.

Disclaimers and Statement of Rights

Notice of Possible Changes

The Board of Trustees of The City University of New York reserves the right to make changes of any nature in the academic programs and requirements of The City University of New York and its constituent colleges. All programs, requirements, and courses are subject to termination or change without advance notice. Tuition and fees set forth in this publication are similarly subject to change by the Board of Trustees of The City University of New York.

The course descriptions in this catalog summarize the full, official descriptions authorized by the Hunter College Senate. Full descriptions are available in the appropriate school and department offices. Hunter College reserves the right to change rules, policies, fees, and curricula without advance notice.

Dismissal from the College and the City University

Students who fail to achieve the required academic standards will be placed on academic probation. Students who fail to achieve the required academic standards while on probation will be dismissed from Hunter College and the CUNY system.
Students may appeal an academic dismissal and should discuss the preparation of such an appeal with an academic adviser in the Office of Advising Services, Room 1119 Hunter East. The Senate Committee on Student Standing reviews all appeals and makes the final determinations.

Tuition and fees will be refunded to a student who is dismissed for failure to meet the required academic standards after having registered.

Students who withdraw from the college when their GPA is below the required academic standards will be automatically dismissed from the university. Students who have been dismissed or who have withdrawn when their GPA is below required academic standards may not be readmitted until they have been separated from the university system for at least one fall or spring semester. Students who wish to apply for readmission after separation of one or more semesters must file an application at the Office of Admissions, Room 203 Hunter North. Applications must be filed at least three months prior to the beginning of the semester in which the student plans to re-enter.

Until such time as they are eligible to apply for readmission, students who are separated from the university may not enroll for credit-bearing courses in any unit of the university in any status.

**Drug-Free Schools and Campuses, Public Law 101-226**

Hunter College is in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226).

The New York State minimum drinking age (21 years) is observed at all campus functions. Proof of age is required to consume alcoholic beverages and no individual appearing to be under the influence of alcohol will be served.

All Hunter College organizations sponsoring events must, in advance of the event, agree to the following conditions:

1. No person shall sell or provide an alcoholic beverage to a person under the age of 21. Where documentation of age is unavailable or not reasonably certain, the law requires denial of an alcoholic beverage to that person.
2. No person shall sell or provide an alcoholic beverage to a person actually or apparently under the influence of alcohol.
3. No person shall sell or provide an alcoholic beverage to a person known to be a habitual excessive drinker.
4. All advertising, promotion, publicity, invitations, etc. stating the availability of alcoholic beverages at an event, must include the following statement:

   The unlawful possession, use or distribution of drugs is prohibited on the campus. Violators will be subject to penalties ranging from reprimand and warning for a first infraction, to separation from the college for a subsequent offense.

Legal sanctions against students alleged to be in violation of Public Law 101-226 will be determined according to Article 15 Section 3 of the CUNY Board of Trustees Bylaws. Sanctions for members of the instructional staff and non-instructional staff will be governed by Article VII of the CUNY Board of Trustees Bylaws and Article XIV, respectively.

The Hunter College Smoking Policy
http://www.hunter.cuny.edu/tobaccofreehunter/tobacco-policy

Hunter College is a non-smoking environment (facility) pursuant to New York City Law.

Early Admission

Students with superior high school records may apply for admission to the college upon completion of the third year of high school. An interview with the Admissions Committee is required, as well as a high school average of at least 90%, minimum SAT scores of 600 verbal and 600 math and three high school recommendations. Students are admitted only in the fall semester. Applications must be filed directly with the Hunter Admissions Office before April 1.

Early College Initiative High Schools

Starting for the fall 2019 semester, students applying from any of the 19 designated early college initiative high schools will follow the policies below when applying to a CUNY school:

All applicants, regardless of how many college credits attempted or earned while in high school, will apply to CUNY as freshman applicants.

As part of the admission review process, ECI/BHSEC applicants will be evaluated with both the freshman and transfer admission criteria. This practice will maximize their opportunity for admission by ensuring all of their college credits and college GPA factor into their review.

Transfer credits awarded to students upon matriculation will not affect their freshman status at the school for the purposes of advising, orientation, financial aid options, and available student services.

As freshman applicants, ECI students can apply to all honors programs and special programs that would be available to all freshman applicants, including but not limited to the Macaulay Honors College, Sophie Davis, and SEEK/College Discovery programs.

Applicants from the BHSEC schools will be required to submit official Bard college transcripts, since they are not part of the CUNY ECI Network.

Applicants from the ECI schools will not need to submit official college transcripts as their CUNY credits are available within CUNYfirst.

Education Abroad Programs

Opportunities exist for study abroad in summer, winter intersession and during the academic year. There are a variety of countries, subject matters and languages to choose from. Current summer offerings include programs in: the Bahamas, Costa Rica, France, Germany, Italy, Poland, Spain, England and Scotland. Winter intersession typically offers programs in Argentina, Australia, Brazil, Ghana, Italy, Jordan and Uganda. During the academic semester or year, Hunter students can participate in a study abroad program in Costa Rica and in exchanges with Queen Mary College of the University of London, Nebrija University in Madrid, University of Amsterdam, Meji Gakuin University in Yokohama, Japan as well as with the three main campuses (Melbourne, Geelong and Warnabul) of Deakin
University in Australia. Additional information about Hunter programs is available on the Education Abroad website 
http://www.hunter.cuny.edu/educationabroad.

Besides the programs organized by Hunter College, students can participate in the study abroad programs of other 
CUNY colleges, as well as CUNY-wide exchanges. More information about these programs can be found at 
www.cuny.edu/studyabroad. Hunter students also have the option of participating in programs offered by SUNY 
colleges. More information is available at www.studyabroad.com/suny.

Finally, Hunter College belongs to the University Studies Abroad Consortium (USAC) and all USAC programs are 
open to Hunter students. For more information go to http://usac.unr.edu/.

Elective (or Optional) Credits

These are credits needed to complete the degree beyond those taken to fulfill the Hunter Core Requirement and the 
major. Students may choose as electives any courses for which they have the necessary prerequisites. They may take 
more courses in their major, declare and complete a minor, study another foreign language they will need for graduate 
work or explore new horizons.

**Equal Opportunity and Non-Discrimination Policy**

Hunter is committed to a policy of equal employment and equal access in its educational programs and activities. Diversity, inclusion, and an environment free from discrimination are central to the mission of the City University of New York.

It is the policy of Hunter to recruit, employ, retain, promote, and provide benefits to employees (including paid and unpaid interns) and to admit and provide services for students without regard to race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including pregnancy, childbirth and related conditions), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, status as a victim of domestic violence/stalking/sex offenses, unemployment status, or any other legally prohibited basis in accordance with federal, state and city laws.

It is also the Hunter's policy to provide reasonable accommodations when appropriate to individuals with disabilities, individuals observing religious practices, employees who have pregnancy or childbirth-related medical conditions, or employees who are victims of domestic violence/stalking/sex offenses.

This Policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.

**Title IX**

Hunter College is committed to maintaining a fair and equal environment for both its employees and student body, consistent with the requirements of Title IX of the Education Amendments Act of 1972, which state that:

No person in the United States shall, on the basis of sex, be excluded from participation in, denied the benefits of, or be subjected to, discrimination under any education program or activity receiving Federal financial assistance.

This Policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.

Any individual who believes he or she has been discriminated against on the basis of gender in any area outside the purview of the Sexual Harassment Panel may direct all inquiries, concerns and complaints to Dean John T. Rose, Hunter's Title IX Coordinator.

* These criteria are based on guidelines issued by the Office of Civil Rights, Department of Education.
ESL (English as a Second Language) Designation

Students whose secondary school education includes at least one year in a high school where a language other than English is the primary language of instruction are designated as ESL students. ESL students who are admitted to Hunter may be permitted to register even if they received failing scores (within a certain range) on the CUNY skills assessment tests in reading and/or writing. (A passing score on the CUNY Math Assessment Test (CMAT) is required for ESL designation.

These students are tested for placement in appropriate developmental courses and receive special advisement regarding program planning. ESL students may take developmental English courses for two semesters and are permitted to enroll at Hunter for an additional two semesters before being required to pass the skills test. Additional information about placement and program planning for ESL students is available via the ESL Programs website: http://www.hunter.cuny.edu/english/esl-programs/about

Return to School of Public Health

Federal Financial Aid

Federal Pell Grant eligibility is restricted to a maximum of 12 full-time semesters (600%).

The calculation of the duration of your Pell grant eligibility will include ALL years you received Federal Pell grant funding. Your Pell grant duration will be determined by adding together each of your annual percentages of the scheduled award that were disbursed to you. A student enrolled full-time throughout the fall and spring semesters would earn 100% of their Pell Grant each year.

Satisfactory Academic Progress Standards for federal financial aid are more restrictive.

Effective July 1, 2012, if you are placed on academic probation you will be ineligible for Pell Grant, SEOG, Federal Work-Study, Federal Perkins and Federal Direct Student Loans. If you can demonstrate exceptional or extenuating circumstances resulted in your failure to satisfy academic requirements you may appeal to receive federal funding. The student's academic adviser must submit an "academic action plan" that indicates it will be possible for the student to regain eligibility for the next semester.

Undergraduate Direct Subsidized loan interest rate

Effective July 1, 2014 the Federal Direct Stafford subsidized loan will remain interest-free while undergraduate students are enrolled in school at least half-time, however the interest rate will be 4.66%.

Subsidized loans for graduate students are no longer available.

Graduate students are no longer eligible for subsidized loans. While the total annual loan limit that students can borrow will remain at $20,500, the full amount will be unsubsidized, accruing a 6.21% interest while in school.

Film and Media Studies

Return to: Faculty of the School of Arts and Sciences

Kelly Anderson, Professor and Department Chair, Film and Media Studies; BA Brown
Andrew Demirjian, Assistant Professor, Film and Media Studies; BA Clark, MFA Hunter (CUNY)

James Roman, Professor, Film and Media Studies; BA, MA Brooklyn, EdD Fairleigh Dickinson

Laurence Shore, Associate Professor, Film and Media Studies; BA Witwatersrand (South Africa), MA Pennsylvania, MA, PhD Stanford

Robert H. Stanley, Professor, Film and Media Studies; BA SUNY (Albany), MA Queens, PhD Ohio State

Shanti Thakur, Associate Professor, Film and Media Studies; MFA Temple

Joel Stewart Zuker, Associate Professor, Film and Media Studies; BA Ohio State, MA, PhD NYU

Financial Need

All funds from federal financial aid programs administered by the Office of Financial Aid are awarded on the basis of financial need, with the exception of the Federal Direct Unsubsidized Loan and the Federal Direct PLUS (Parent) Loan.

When the student applies for federal student aid, the information that is reported on the FAFSA is used in a formula, established by the U. S. Dept. of Education and approved by the U.S. Congress, that calculates the Expected Family Contribution (EFC), the amount that the student and the student's family are expected to contribute toward the student's education.
There is not a maximum EFC that defines eligibility for the other financial aid programs. Instead, the EFC is used in an equation to determine financial need:

Cost of Attendance

- Expected Family Contribution (EFC)

= Financial Need

The Financial Aid Office subtracts the Expected Family Contribution (EFC) from the Cost of Attendance. The remainder is the student's financial need. In determining the student's need for aid from the federal financial aid programs, the Financial Aid Office must first consider other aid the student is expected to receive.

**Fire Safety Plan**

- Use of Elevators during a Fire
- If elevators can be used during a fire
- When there is a report of a fire alarm in the building
- For your Safety
- Fire Alarm
- Instructions for Fire Reporting and Evacuation Procedure
- Fire Safety Plan for the Disabled
- Special Instructions for the handling of Disabled Persons

**Use of Elevators during a Fire**

No person should ever use an elevator in a fire unless directed by Fire Department personnel. Using an elevator in a fire is extremely dangerous. The college has been informed by the Fire Department that the use of elevators in a fire has, in many cases, resulted in many unfortunate and unnecessary deaths.

The New York City Fire Department has informed Hunter College that the Fire Department has the primary responsibility to determine if elevators can be used to transport disabled persons during fire emergencies. Fire Department officials also state that they are responsible for relocating disabled persons to a safe location if such relocation is necessary. Disabled persons should wait at the designated stairwell on the floor that they are on at the time of an emergency.

The New York City Fire Department considers transporting disabled persons in an emergency a highly risky procedure. The relocation process may subject disabled persons and other persons to accidents and injuries. However, if it is necessary to relocate disabled persons during an emergency, the Fire Department will handle the relocation of disabled persons, using safe procedures and experienced Fire Department personnel.

**If elevators can be used during a fire alarm**

The Fire Department considers use of the elevators to be the best method of relocation because it is practical, safe and efficient. This explains the Fire Department's position of advocating emergency assembly areas for disabled persons. (The Fire Department often refers to this type of assembly area as a refuge area.)
When there is a report of a fire alarm in the building

*(note: The alarm may be a false alarm or the fire may be in a small section of the building)* if disabled persons are not in any danger from the fire or its smoke, the Fire Department does not automatically recommend the relocation of disabled persons. In most cases, the Fire Department would not recommend that such persons be removed from the building. Instead, the Fire Department would recommend that such persons be moved to a safe location within the building.

*Note: It is extremely important that the Hunter College community understand the procedure of the New York City Fire Department for evacuating a building that is experiencing a fire. Everyone in the building should not automatically be evacuated to the street. Nor should everyone be relocated within the building. This is the policy for ambulatory persons as well as non-ambulatory persons.*

If you have any questions regarding the standards used to determine the need for evacuating the buildings, call the Director of Public Safety and Security at (212) 772-4521.

**For Your Safety**

The Hunter West, East, North and Thomas Hunter Buildings are equipped with Fire Emergency notification devices. It is the responsibility of everyone to become familiar with their location and their use. These Fire Emergency notification devices consist of the following:

**Fire Alarm**

The Fire Alarm Pull Stations are small, red boxes. They are wall mounted and located next to a fire exit. Printed on these pull stations is PULL HERE IN CASE OF FIRE.

To activate the Fire Alarm Pull Station, follow these steps:

1. Lift cover and pull down the RED lever on the Fire Alarm Pull Station box. This will cause the fire alarm to sound on the fire door and on the floor above. In addition, it will send a signal to the Fire Command Station. The Fire Safety Director at the Fire Command Station will carry out the fire emergency procedures. Make yourself familiar with them now, so that in an emergency you will know what to do.
2. During a fire alarm, Fire Wardens, Fire Searchers and Public Safety Officers have been directed to communicate the number, the location and the status of all disabled persons via Fire Warden phones to the Fire Command Station. The Fire Safety Director will notify members of the New York City Fire Department regarding the status of all disabled persons in the building as soon as the Fire Department arrives on campus.

*Note: It is extremely important that the college community understand the protocol of the New York City Fire Department for evacuation of a building that is experiencing a fire. Everyone in the building should not automatically be evacuated to the outside, or, for that matter, be relocated within the building. This is the policy for ambulatory persons as well as non-ambulatory persons.*

**Instructions for Fire Reporting and Evacuation Procedure**

**A. If you see a fire, do the following:**

1. Call the Fire Department (911), or
2. Call the Public Safety Emergency Number (Security) (212) 772-4444, or
3. Pull the fire alarm.
4. Then, follow the procedures below:

**B. Procedures**

1. Evacuate your area.
2. Close, but do not lock, doors.
3. Follow instructions transmitted over the public address system.
4. Proceed to evacuate the building through designated exits.
5. Evacuate to street if not directed otherwise over the public address system.
6. Before entering any stairwell, touch the door with the back of your hand. If it is warm or hot, do not enter the stairwell. Proceed to the next stairwell.
7. When leaving the building keep your head turned to the center of the stairway.
9. It is dangerous to use elevators during an evacuation. Only use elevators when authorized to do so by fire emergency personnel.
10. When using the down escalators, make long and wide turns going from one escalator to the next escalator in order to prevent congestion.
11. When you are outside the building, move away from the entrance approximately 200 feet.
12. Wait for the all-clear signal before re-entering the building.

Fire Safety Plan for the Disabled

When there is a fire alarm in one of the college's buildings disabled persons who are unable to walk down steps should assemble at one of the designated stairwells as per the fire safety director's instructions.

During a fire alarm, fire wardens, fire searchers and security personnel have been directed to communicate the number, the location and the status of all disabled persons via Fire Warden Phones or through security personnel to Hunter College's Fire Command Station. The Public Safety person at the Fire Command Station will notify members of the New York City Fire Department of the status of all disabled persons in the building as soon as the firefighters arrive on the campus.

When Public Safety Offices Will Relocate Disabled Persons if, for any reason, a disabled person is in imminent danger due to fire, smoke or similar circumstances on campus and members of the Fire Department are not present to relocate the disabled person, Public Safety Officers and other members of the College Fire Brigade will assume the responsibility of relocating that person to a safe location.

Public Safety Officers and members of the Fire Brigade operating under the direction of the Fire Safety Director will take command and make immediate arrangements to have the appropriate disabled person(s) moved to a safe location if necessary.

Note: The Public Safety Officer in charge of the evacuation process will determine the number of carriers needed to relocate a disabled person. Factors to be considered when making these assignments will be the weight of the disabled person, the weight of the wheelchair, the width of the staircase and any other factors that are deemed necessary to successfully carry out these functions without accidents.

This Fire Safety Plan for the Disabled is established to provide for the safety of the disabled members of the Hunter College community and disabled visitors to the college in the event of a fire or other life-threatening emergency. The plan will be implemented in any situation in which there may be a need to relocate disabled persons to a safe location.

The Fire Safety Plan for the Disabled identifies the New York City Fire Department as the agency having the primary responsibility for relocating any disabled person from an endangered floor to a safe location. However, if the Fire Department or other New York City emergency agency response is not exercised in a timely fashion and the situation requires immediate removal of disabled persons, Public Safety and Security Personnel will transport such individual or individuals to a safe location.

The Fire Safety Plan for the Disabled is a part of the Hunter College Fire Safety Plan. All faculty, staff and students are advised to read and be fully familiar with the entire Fire Safety Plan.

Orientation
1. Orientation to the Fire Safety Plan, including the relocation procedures, will be provided for disabled faculty, students and staff yearly under the auspices of the 504 Committee.
2. Orientation for new disabled students will be included in the orientation program for entering freshmen.
3. Instructions regarding the Fire Safety Plan and Relocation Procedures will be included in the regularly conducted fire drills.

Disabled Person Precautions

1. Remain calm. Your safety and the security of others depend on the absence of panic.
2. Before entering any stairwell, using the back of your hand, touch the door leading into the stairwell. If the door is warm or hot, do not open or enter the stairwell. Proceed to the next stairwell.
3. If you cannot reach a stairwell near an elevator and you are in an office or classroom and have access to a phone, call Security at 212-772-4444. Disabled persons and persons who are trapped are the only persons who should call Public Safety during a fire emergency.
4. If you are in an area with a door and cannot reach an exit near the elevators, seal the crack around the door with rags or clothing.
5. All rooms including restrooms will be searched by Public Safety and the fire brigad

What Emergency Personnel Will Do

1. The person who searches the floor will report your location to the fire command station. The fire command station will inform the Fire Department of your location.
2. If you are in need of relocation and the Fire Department is not available to relocate you, a member of the Public Safety and Security Department will relocate you to a safe location.
3. If necessary, you will be relocated to a safe floor or taken out of the building.

Locating Disabled Persons

1. The Office of AccessAbility maintains class schedules for disabled students and work schedules for disabled faculty and staff. These schedules will be used to assist emergency personnel to locate disabled persons in an emergency.
2. Students are responsible for reporting their class schedules, their work schedules and schedule changes to the Coordinator for Disabled Student Services (Room 1214B Hunter East).
3. Disabled faculty and staff are responsible for reporting their work schedules and schedule changes to the director of personnel (Room 1502A Hunter East).

Special Instructions for the Handling of Disabled Persons

Person Who Is Visually Impaired

A disabled person who is visually impaired and has to be relocated, but is able to walk downstairs, will be personally escorted to a safe location by a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the college Fire Brigade.

Person Who Has a Hearing Impairment

A person who has a hearing impairment will be alerted to a fire alarm by a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the College Fire Brigade. Those disabled persons will be escorted to a safe location if necessary.

Special Caution on Lifting and Carrying Disabled Persons

Before lifting any disabled person, carriers will, if possible, ask the disabled person how they should be lifted. Disabled persons know better than anyone else how they should be lifted or carried in order to avoid any unnecessary injuries to the disabled person.
Responsibility for Implementation

The fire safety director of the Department of Public Safety is responsible for the implementation of the Fire Safety Plan.

Distribution

The Fire Safety Plan for Disabled Persons will be distributed to all faculty, students and staff who have identified themselves as disabled. The Fire Safety Plan for the Disabled will be distributed with the Hunter College Fire Safety Plan.

If you have any questions regarding the various parameters used to evaluate the necessity of evacuation, please consult with the fire safety director at ext. 6640.

Food Services

Main Campus

The cafeteria (The Hungry Hawk) on the 3rd floor of Hunter West is open to all Hunter students, faculty, staff and visitors. There are two eating areas adjacent to the food service area. The south side seats around 200 people. The north side seats about 75. A full menu of hot and cold foods and beverages is offered.

- **Hours:** Monday through Thursday, 8:30 am to 7:30 pm; Friday, 8:30 am to 5:00 pm

The Campus Café is located in the lobby of Hunter West, serving a variety of breakfast and lunch items including Sandwiches, soups and more as well as snacks, coffee and beverages.

- **Hours:** Monday through Friday, 7:00 am to 7:30 pm

The World Cup Café is located on the third floor of Hunter East and serves breakfast and lunch items including specialty empanadas, soups, smoothies, pastries and beverages.

- **Hours:** Monday through Friday, 7:00 am to 8:00 pm; Saturday's 9:30 am to 4 pm

Brookdale

Coming soon:The World Cup Café will be located on the main floor of Brookdale and will serve breakfast and lunch items including sandwiches, soups, pastries and beverages.

- **Hours:** To be Determined

School of Social Work, 119th Street & 3rd Avenue Food service options are available at the first floor café, and are currently provided through a local vendor, in keeping with Hunter's commitment to support the East Harlem community.

Vending There are vending machines throughout all of Hunter College's campus locations.

Foreign Language Requirement

List of Courses for the Hunter Focus in Foreign Language

Hunter College currently offers the following programs to meet the foreign language requirement:
Course of Study:

Hunter encourages all students to reach fourth-semester proficiency in a foreign language, and students who enter Hunter College as freshmen must do so. In each language a required course sequence (12 credits) is offered: Elementary I and II (2 three-credit courses or 1 six-credit intensive course) and Intermediate I and II (2 three-credit courses or 1 six-credit intensive course). The Elementary three-credit courses are usually numbered 10100 and 10200 and the Intermediate three-credit courses are usually 20100 and 20200 (except that the Spanish for Native Speakers sequence is SPAN 10500, 10600, 20700, and 20800; intermediate Greek is GRK 11000 and GRK 20200 or 20300; intermediate Latin is LAT 11000 and LAT 20100, 20200, 20300, or 20400). The intensive six-credit courses are usually numbered 10300 and 20300 (except for: GRK 10700; and LAT 10700). Intensive courses are not offered in all languages. Completion of ARB 24800 satisfies the Hunter Focus requirement that students attain fourth-semester proficiency in a foreign language. A student who has completed ARB 24800 may still need to complete the remainder of the 12 credits necessary in the 'Focused Study' component of the Hunter Focus.

Partial Exemption: Students may be exempted from one or more classes towards the requirement of 4th-semester proficiency by virtue of taking an appropriate placement exam. Students who wish to continue studying a language they have previously learned elsewhere (in high school, while abroad, at home, etc.) must first take a placement exam with the appropriate foreign language department. The results of the placement may exempt students from having to take courses below the level at which they are placed.

Complete Exemption: Students may be exempted from having to take any classes towards the requirement of 4th-semester proficiency by virtue of:

1. Successful completion of high school courses. Students who have successfully completed 4 years of one foreign language in high school should apply for an exemption with the Coordinator of Academic Appeals; an official high school transcript is required. Students who have passed a language Advanced Placement Test of the College Board with a grade of 5, 4, or 3 should contact the Office of Admissions.

2. Passing at least one advanced college foreign language or literature course that has a 4th-semester level prerequisite in that language.

3. Competency demonstrated through a Hunter-approved proficiency examination. To arrange for an examination contact the appropriate department office; if the language in question is not taught at Hunter College contact the dean of the School of Arts & Sciences.

4. Presentation of foreign secondary school documentation. Students who have graduated from a high school outside the United States in which the language of instruction was other than English may be exempted from the foreign language requirement upon presentation of a high school transcript and/or diploma.

5. Presentation of foreign university documentation. Students who present appropriate evidence that they have completed one or more semesters of full-time study at a college or university outside of the United States in which the language of instruction was other than English may be exempted from the foreign language requirement. Native speakers of English who participated in a study-abroad program or a program specifically designed for foreigners may be exempted from the foreign language requirement if they provide sufficient evidence of their proficiency in the foreign language.

Note: an exemption from a language requirement does not yield any credit unless the exemption is based on successful completion of college courses.
Students entering Hunter College as freshmen will take an introductory language course for their World Cultures and Global Issues requirement. Remaining courses needed to attain fourth semester proficiency will be taken as part of the Hunter Focus. After this goal has been met, students should begin concentrated study in an area outside their first major.

Frankfort Center for Learning and Scholarly Technologies

The Frankfort Video Analysis project of pre-certification teachers and counselors was initiated in 2007 and has since become a requirement for every degree and certificate candidate at the Hunter College School of Education. This innovative database has been improving professional development and teacher preparation via embedded rubrics and observation tools. The corresponding library of best practices and teachable moments is one of the nation's first archive of indexed student-teaching videos. The VAT/VAC was lauded by the NCTQ in their 2014 rankings of educational programs as a resource that comprises, "promising or exemplary materials from teacher preparation programs."

Freedom of Information Law

Request to inspect public records at the college should be made to the Records Access Officer, Laura Hertzog, Special Counsel to the President, who is located at the Hunter College Legal Office, 695 Park Avenue, 1705 Hunter East, (212) 772-4220. Requests via email may be sent to the attention of Laura Hertzog at the following email address: mesoto@hunter.cuny.edu. Please refer to CUNY's FOIL webpage for additional information

http://www2.cuny.edu/about/administration/offices/communications-marketing/foil/

French - BA

Major

French Literature

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- FREN 10100 Elementary French I
- FREN 10200 Elementary French II
- FREN 20100 Intermediate French I
- FREN 20200 Intermediate French II -or- FREN 10300 Intensive Elementary French
- FREN 20300 Intensive Intermediate French

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Major - 30 credits

3 credits from
- FREN 31100 Advanced French Grammar
- FREN 31200 French Oral and Written Expression
- FREN 32100 French Translation

6 credits in

- FREN 34100 Survey of French Literature from the Middle Ages to the End of the 17th Century
- FREN 34200 Survey of French Literature from the 18th Century to the Modern Period

21 credits from

- FREN 33500 French Culture I
- FREN 33600 French Culture II
- FREN 33700 Contemporary French Culture
- FREN 34300 Medieval and Renaissance French Literature
- FREN 34400 17th Century French Literature
- FREN 34600 18th Century French Literature
- FREN 34800 19th Century French Literature (1800-1850)
- FREN 34900 19th Century French Literature (1850-1900)
- FREN 35000 20th Century French Literature (1900-1950)
- FREN 35100 Contemporary French Literature (1950-present)
- FREN 35300 Survey of Francophone Literature
- FREN 36000 French Literature: Special Topics
- FREN 36100 Middle Ages and the Renaissance: Special Topics
- FREN 36300 The 18th Century: Special Topics
- FREN 36500 The 20th Century: Special Topics
- FREN 37500 Seminar in French Literary History
- FREN 49100 Honors Course in French
- FREN 49500 Independent Study in French Literature

Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

- FREN 39900 Second Language Acquisition -or-FREN 49500 Independent Study in French Literature -or-
- SEDCP 21200 Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage
- Language Classroom, Grades 7-12  or SEDC 712 (see graduate catalog)

**Freshman Admission**

**Academic Preparation**

The best preparation for success at Hunter College is a full program of college-preparatory courses. The college recommends four years of English, four years of social studies, three years of mathematics, two years of foreign language, two years of laboratory science and one year of performing or visual arts.

In addition to providing a strong foundation for college-level coursework, the program recommended above fulfills the 16 units of high school work in academic courses required for admission to a CUNY senior college under the College Preparatory Initiative (CPI). High school students should check with guidance counselors to determine which courses are considered to be academically within the English, mathematics, science, social science, foreign language and fine and performing arts curricula. Freshman admission to Hunter College is competitive. Applicants are considered for admission on the basis of the overall strength of their academic preparation, which includes SAT/ACT scores, high school academic average, the number of academic subjects and the distribution of those courses. A diploma from an accredited high school, an equivalency diploma or a United States Armed Forces diploma is also required for entrance
to the college. Neither a high school certificate nor an IEP diploma is acceptable. For more information on how to prepare to apply to Hunter College, visit www.cuny.edu/prepare.

**Advanced Placement and College-Level Courses**

Students who have had an Advanced Placement (AP) course in secondary school and who pass the Advanced Placement Tests of the College Entrance Examination Board with grades of 5 or 4 (high honors or honors) are in most cases exempt from taking a corresponding course or equivalent requirement at Hunter. Those who are similarly prepared but whose scores are 3 (creditable) may also be exempt from a corresponding course at Hunter, provided the appropriate Hunter department so recommends.

A maximum of 30 credits can be awarded by examination through the following programs; College Entrance Examination Board Advanced Placement (AP), College-level Examination Program (CLEP) and Regents College Examinations (RCE). Certain academic departments may have restrictions on the award of credits by examination. Check with the department and see the Office of Admissions Web site for additional information.

Students who have completed college-level coursework offered by an accredited senior or community college while in high school will receive credit for courses in which grades of C or better are earned. Official college transcripts must be submitted to the Office of Admissions for credit to be awarded.

**GCE**

The GCE traditionally comprised two levels: the Ordinary Level (O Level) and the Advanced Level (A Level). Hunter College awards 3-4 credit for A-Level subject results of A-E.

**General Education Requirements**

**Introduction**

All undergraduate students who matriculated at Hunter College in fall 2001 through spring 2013 were required to fulfill the General Education Requirement (GER), a set of competencies, knowledge areas and perspectives that Hunter College considers essential to the intellectual development of its undergraduates. For students matriculating at Hunter College in fall of 2013 or later, the Hunter Core Requirement replaces the GER. Current Hunter students who started before fall 2013 can "opt in" to the Hunter Core or continue with the GER. See www.hunter.cuny.edu/academics/hunter-core-requirement for further information specific to your status.

The General Education Requirement is composed of the Core Requirement, consisting of designated courses at various academic levels and three graduation requirements: the Writing Requirement, the Foreign Language Requirement and the Pluralism and Diversity Requirement. Transfer students who have earned an AA/AS degree from a CUNY college and who matriculated in fall 2003 and after are exempt from the Core requirements of the GER, but must fulfill the three graduation requirements of Writing, Pluralism and Diversity and Foreign Language. Transfer students who have earned an AA/AS degree from a CUNY college and who matriculated between fall 2001 and summer 2003 are exempt from the Core Requirement and the Writing Requirement. Evaluated transfer credits sometimes can be used to fulfill the GER requirements. All transfer students should carefully check their evaluated courses against the GER. Students transferring from a CUNY school without an AA or AS degree should seek an adviser to help determine which courses they may use to satisfy Core requirements. For overlaps and restrictions on these different requirements and their relation to major and minor requirements, see the section below on Regulations for Core Requirement.
Summary

The Core Requirement, composed of designated courses, is divided into three sequential Stages: 1-Academic Foundations; 2-Broad Exposure; and 3-Focused Exposure.

Stage 1 – Academic Foundations (Students should complete this stage within their first 30 credits.) The Academic Foundations Stage includes courses in mathematics, composition and history that provide students with the analytic, interpretive, communication and historical competencies and perspectives critical to academic success.

Stage 2 – Broad Exposure (Students should complete this stage within their first 45 credits.) The Broad Exposure Stage continues with courses in the social sciences, humanities, arts and natural sciences to introduce students to a broad range of disciplinary perspectives and areas of knowledge.

Stage 3 – Focused Exposure (Students should complete this stage within their first 60 credits.) This Stage requires students to select advanced courses outside their major (students with more than one major should see the Regulations for Core Requirement, below).

The Focused Exposure Stage includes courses in areas that the student has selected to study in greater depth, in the expectation that more advanced students should do more analysis and research.

Graduation Requirements:

Comprise the Writing Requirement, the Foreign Language Requirement and the Pluralism and Diversity Requirement.

1. **Writing Requirement** The Writing Requirement ensures that all students have significant writing experiences. It is recommended that students fulfill the Writing Requirement early in their academic career in order to prepare effectively for advanced coursework. Courses that can be taken to fulfill the Writing Requirement carry the designation "W" in this catalog. The maximum number of writing intensive, W-designated courses a student must take is 3 (see the section below on Writing Requirement). All W courses must be taken at Hunter. The W-designated courses (or specific sections thereof) are indicated in the Schedule of Classes each semester.

   *Note: Not all sections of a course are necessarily offered with significant writing. To satisfy the Writing Requirement a section designated as W in the "Schedule of Classes" must be taken.*

2. **Foreign Language Requirement** The goal of this requirement is to provide facility in a language other than English and to enable students to access non-English literatures. In learning a foreign language and studying its literature and cultures, students acquire new perspectives on how people think, view the world, express themselves and communicate with one another. Language learning expands one's ability to create and discover new meaning in one's own language and culture. An awareness of contrasting cultural concepts sensitizes students to the differences between their own culture and others — increasingly important, as the communities of the world have become so interconnected and interdependent. This is a graduation requirement. The requirement of four semesters of language courses or an equivalent combination of college and high school courses is fulfilled only if all four semesters are completed in the same language.

   All BA, BFA and BMus students must fulfill a graduation requirement of intermediate (fourth semester) foreign language proficiency. It is recommended that students begin the first two semesters of foreign language proficiency within their first 30 credits at Hunter. Although intermediate foreign language proficiency is required only by the time a student graduates, gaps in language instruction are very undesirable and it is strongly recommended that students complete all their foreign language requirements in consecutive semesters. Students in BS programs should check the requirements for their specific program. Students who
change from a BS to a BA program must meet the foreign language requirement for the BA degree.

3. **Pluralism and Diversity Requirement** This requirement is composed of designated courses in four groups (A, B, C, D). A course can satisfy only one of these four groups, though it may also satisfy a requirement in the Core and in the minor and major.

The General Education Requirement is composed of a Core Requirement and Graduation Requirements in: Writing, Foreign Language, and Pluralism & Diversity. Any number of courses from a major or minor may be used to satisfy the Pluralism and Diversity Requirement and the Writing Requirement.

*Note: The list of courses satisfying the requirements is often updated. For the most recent list, please check the Registrar's Web site at: http://registrar.hunter.cuny.edu*

**Regulations for Core Requirement:**

1. A course may be used to satisfy only one Core Requirement.

2. No more than two courses per department or program may be applied to satisfy Core requirements. Exceptions to this are courses in Stage 1: Academic Foundations.*

3. All courses satisfying Core, Stage 2 Groups A through D must be from different departments or programs.*

4. Students may apply up to two courses from their major to satisfy Stage 1 and Stage 2 of the Core; only one of these is permitted to fulfill a Stage 1 requirement, and only one a Stage 2 requirement.

   *Note: Students who have declared two or more majors can use up to two courses from one of those majors to satisfy Stage 1 and Stage 2 of the Core. Only one of these is permitted to fulfill a Stage 1 requirement, and only one a Stage 2 requirement. Courses from minors and any additional majors can be used without limit to satisfy Stages 1, 2, and 3 of the Core.*

5. *All CUNY Macaulay Honors College (MHC) courses designated for the Core Requirement may be applied toward the Core Requirement.*

**Core Requirement**

**Stage 1: Academic Foundations**

List of Approved Courses for GER Core Stage 1: Academic Foundations

This Stage involves basic academic skills needed for success in the liberal arts and sciences. Accordingly students should complete this Stage as early as possible, preferably within their first 30 credits at Hunter. Exemption may be granted on the basis of placement exams or other criteria as determined by the Hunter College Senate. Such exemptions do not yield credit unless they are based on the successful completion of college courses.

**Group Credits Description**

<table>
<thead>
<tr>
<th></th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
</table>
| A   | 3       | **English Composition**

This requirement introduces expository writing and academic discourse. Through reading, writing, and rewriting, students learn to generate, explore, and refine their own ideas, analyze and
evaluate intellectual arguments, take positions and support them persuasively, and write with sound grammar, varied sentence structure, logic, and coherence.

**Quantitative Reasoning**
The goal of this requirement is to develop competence in mathematical and quantitative reasoning, including the use of numerical and graphical data in making judgments on personal, professional, and public issues. Students who place out of MATH 125 are exempt from this requirement.

<table>
<thead>
<tr>
<th>Group</th>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>B</strong> 3</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**US History**
This requirement introduces portions of the history of the United States covering periods of time sufficiently long to reveal the historical dynamic and bring understanding of the historical contexts that have created our social and political institutions. It emphasizes the importance of the historical perspective and method, an understanding of how, where, and why change has occurred over time, and an awareness that the world we live in has been influenced by the past. HIST 151W, 152W, PLSC 110W

**Stage 2: Broad Exposure**

List of Approved Courses for GER Core Stage 2: Broad Exposure

These courses should be completed within a student's first three semesters (full-time) or 45 credits (part-time) at Hunter.

<table>
<thead>
<tr>
<th>Group</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>A</strong> 3</td>
<td>Survey of Literature Written in English</td>
<td>This requirement is meant to increase students' understanding and appreciation of literature written in English. Courses emphasize close readings of representative texts chosen to familiarize student with various authors, periods, and genres - fiction, drama, and poetry - and to provide a firm foundation for further literary study. Written assignments include quizzes, papers, and a midterm and final exam.</td>
</tr>
<tr>
<td><strong>B</strong> 6</td>
<td>Social Science: People and their Societies</td>
<td>The goal of this requirement is to introduce students to the understanding of individual and collective human behavior. Students should be aware of the geographic, political, social, economic, historical, and psychological effects on the human environment. By studying human relations and the human experience students should learn the methodologies as well as the nature, scope, and limits of specific disciplines in the social sciences.</td>
</tr>
<tr>
<td><strong>C</strong> 3</td>
<td>Humanities: Cultures and Ideas: Literature, Philosophy, Classics</td>
<td>This requirement is meant to introduce students to the human intellectual heritage, the wisdom, and the vision expected of well-educated members of the global human community. The study of texts, thoughts, cultures, and human values should nourish the mind and the spirit, inspiring an enduring love of learning. The humanities are strongly linked to other fields of higher education and are vital to the health of society.</td>
</tr>
</tbody>
</table>
Visual and Performing Arts: Media, Art, Dance, Film, Music, Theater

This requirement is meant to introduce students to significant works of the creative imagination, familiarize them with a medium of creative expression, and enable them to actively participate in individual aesthetic and creative experiences. Through critical analysis, research, and direct involvement in creative work in a particular medium, students should develop an appreciation of the interrelations of intellectual and emotional responses to the arts and letters.

Natural Science: Two courses are required, one of which must include a laboratory component. These may be in the same discipline.

The goal of this requirement is to introduce students to the concepts and ways of thinking of the natural sciences. The sciences have intrinsic intellectual value, pursuing basic questions about the workings of the universe and the world around us. Students should be conversant with the rapid pace of scientific advances and able to make informed decisions about scientific matters in the public domain.

Stage 3: Focused Exposure

List of Approved Courses for GER Core Stage 3: Focused Exposure

These courses are intended to give students the opportunity to study selected subjects outside their major department or program in greater depth than in Stage 2. Usually, these courses will be beyond the 100 level. Accordingly, it is strongly recommended that students take a first course in the same discipline. A student must take one course from Group A and one course from Group B in Stage 3.

Graduation Requirements

Writing Requirement

List of Approved Courses for the Writing Requirement

Students matriculating with fewer than 31 credits must take three courses in significant writing — "W" designated courses — at Hunter College. Transfer students matriculating with 31 to 59 credits must take at least two "W" designated courses at Hunter College. Transfer students matriculating with 60 to 90 credits must take at least one "W" designated course at Hunter College. (ENGL 120 does not count as "W" designated course.)

Note: Specific sections of courses containing significant writing are listed with a W designation in the Schedule of Classes. Please note that not all sections of a course are necessarily offered with significant writing. To satisfy the Writing Requirement a section designated as W must be taken.
Foreign Language Requirement

List of Courses for the Hunter Focus in Foreign Language

Hunter College currently offers the following programs to meet the foreign language requirement:

Chinese (CHIN), French (FREN), German (GRMN), Greek (GRK), Hebrew (HEBR), Italian (ITAL), Japanese (JPN), Latin (LAT), Polish (POL), Russian (RUSS), Spanish (SPAN), Swahili (SWA), Ukrainian (UKR), Yoruba (YOR).

Course of Study:

All students must demonstrate foreign language proficiency at the 12-credit level or its equivalent. In each language a required course sequence (12 credits) is offered: Elementary I and II (2 three-credit courses or 1 six-credit intensive course) and Intermediate I and II (2 three-credit courses or 1 six-credit intensive course). The Elementary three-credit courses are usually numbered 101 and 102 and the Intermediate three-credit courses are usually 201 and 202 (except that the Spanish for Native Speakers sequence is SPAN 105, 106, 207, and 208; intermediate Greek is GRK 110 and GRK 202 or 203; intermediate Latin is LAT 110 and LAT 201, 202, 203, or 204). The intensive six-credit courses are usually numbered 103 and 203 (except for: CHIN 107 and 207; GRK 107; and LAT 107). Intensive courses are not offered in all languages. The first semester of a four-course sequence will not be credited without successful completion of the second semester.

Exemption: Students may be exempted from part or all of the foreign language requirement by virtue of:

1. Successful completion of high school courses. Each year of language study completed in high school is equivalent to one semester (3 cr) of the same language in college. The requirement of 4 semesters of language courses or an equivalent combination of college and high school courses is fulfilled only if all 4 semesters are completed in the same language. Students who have completed 4 years of one foreign language in high school should apply for an exemption with the Coordinator of Academic Appeals; an official high school transcript is required. Students who have passed a language Advanced Placement Test of the College Board with a grade of 5, 4, or 3 should contact the Office of Admissions.

2. Passing at least one advanced college foreign language or literature course that has a 4th semester level prerequisite in that language.

3. Competency demonstrated through proficiency examinations. To arrange for an examination contact the appropriate department office; if the language in question is not taught at Hunter College contact the dean of the School of Arts & Sciences.

4. Presentation of foreign secondary school documentation. Students who have graduated from a high school outside the United States in which the language of instruction was other than English may be exempted from the foreign language requirement upon presentation of a high school or secondary (equivalent) transcript.

5. Presentation of foreign university documentation. Students who present appropriate evidence that they have completed one or more semesters of full-time study at a college or university outside of the United States in which the language of instruction was other than English may be exempted from the foreign language requirement. Native speakers of English who participated in a study-abroad program or a program specifically designed for foreigners may be exempted from the foreign language requirement if they provide sufficient evidence of their proficiency in the foreign language.

Note: an exemption from a language requirement does not yield any credit unless the exemption is based on successful completion of college courses.
**Placement:** Students may begin a foreign language at Hunter College. Students who are not exempt from the foreign language requirement as described above should choose their language course as follows:

1. Students who have satisfactorily completed 3 years of study of one language in high school or have completed the college equivalent of the 3rd level in a foreign language sequence should take the 4th course in the required sequence.

2. Students who have satisfactorily completed 2 years of study of one language in high school or have completed the college equivalent of the second level in a foreign language sequence should take the 3rd and 4th courses in the required sequence.

3. Students who have satisfactorily completed 1 year of study of a language in high school or have completed the college equivalent of the 1st level in a foreign language sequence should take the 2nd, 3rd and 4th courses in the required sequence.

4. Students who are beginning the study of a foreign language should take all 12 credits of a course sequence.

**Pluralism And Diversity Requirement**

**List of Approved Courses for the Pluralism and Diversity Requirement**

The growing interdependence of the world's political, economic, and cultural relations, along with the increasingly diverse character of the American citizenry in general and the students of Hunter College in particular, make it imperative that Hunter undergraduates be exposed to a wide range of intellectual traditions, perspectives, and concerns arising from all corners of the globe. The emergence of sizable bodies of scholarship in recent decades reflecting that intellectual array makes it important for Hunter to present them as an integral part of the education of its undergraduates.

Accordingly, all students, including transfer students, who entered Hunter College in the fall 1993 semester or later are required to complete 12 credits in designated courses that address issues of pluralism and diversity before graduating from Hunter College. Students choose three credits from each of the four groups below. Work done at other colleges may be counted towards the pluralism and diversity requirement. When a student is given course equivalence for a course that counts towards pluralism and diversity, that student will also be deemed to have met the corresponding pluralism and diversity requirement except that, for BIOL 100/102 and BIOL 100/160, students must see the department to receive pluralism and diversity credit. All courses used to satisfy Pluralism and Diversity requirements may simultaneously meet a student's Core Requirement or the courses necessary for a major or minor area of study.

*Note: While some courses may be listed in more than one group of the requirement, students will be able to apply such course to only one of the four areas.*

</table>
and/or intellectual traditions of one or more of the following groups in the United States of America: African Americans, Asian Americans, Latino Americans, and Native Americans.

A course focusing on scholarship about major practical or theoretical issues (e.g., artistic, economic, geographic, literary, political, scientific, or social) that emerge from, are reflected in, or are principally derived from the historical conditions, perspectives, and/or intellectual traditions of women and/or issues of gender or sexual orientation.

A course focusing on scholarship about major practical or theoretical issues (e.g., artistic, economic, geographic, literary, political, scientific, or social) that emerge from, are reflected in, or are principally derived from the historical conditions, perspectives, and/or intellectual traditions of Europe, including the ways in which pluralism and diversity have been addressed.

* Groups designated by letters A, B, C, and D substitute for Groups originally called 1, 2, 3, and 4, respectively.

Note: SOC 101 has been withdrawn from Group A. This change has gone into effect for all students entering Hunter in fall 2001.

General Rules about Courses

No course may be repeated for credit unless the course description specifies this. Students may earn credit for the first semester foreign language course (level 101), without completing the second courses (level 102), only once.

Geography

Return to: Faculty of the School of Arts and Sciences

Sean Ahearn, Professor and Director, Center for Advanced Research of Spatial Information (CARS); PhD, Wisconsin (Madison); GIS, remote sensing, digital image processing, natural resources, habitat studies

Jochen Albrecht, Professor; PhD, Vechta (Germany); Geographic information science, GIS applications, change modeling, simulation, quantitative methods, Europe

Frank Buonaiuto, Associate Professor; PhD, SUNY (Stony Brook); Oceanography, coastal processes, numerical modeling of waves, tides and sediment transport

Allan Frei, Professor and Deputy Director, CUNY Institute for Sustainable Cities; PhD, Rutgers; Climate change, snow and water resources, modeling

Hongmian Gong, Professor; PhD, Georgia; urban geography, GIS applications, and transportation

Mohamed Ibrahim, Associate Professor; PhD, Alberta; Environmental studies, resource management, sustainable development, Africa, rural water supply and sanitation, urbanization in the developing world

Peter Marcotullio, Professor and Director, CUNY Institute for Sustainable Cities; PhD, Columbia; Global Cities, Urban environmental transitions, globalization and urban development, ecosystem approaches to urban and regional environmental planning and management and impacts of urbanization on the environment

Ines Miyares, Professor; PhD, Arizona State; Geographies of immigration and ethnicity, spatial impacts of immigration and refugee law, Latin America and Hawai'i
GPA Requirements for Nursing Programs

An overall college GPA of 3.2 in addition to other requirements is the minimum requirement for consideration of an application.

Grade Appeals

Grades

When a student considers a final course grade unsatisfactory, the student should first confer with the instructor regarding the accuracy of the grade received. This conference should be held within the first three weeks of the semester following receipt of the grade. At this time, errors may be corrected. If the grade is not an error, the student and instructor must together review all class material pertinent to the grade. If the student is not satisfied or if the instructor does not confer with the student within the first three weeks of the semester, the student should promptly contact the department chair by submitting a written appeal, consisting of a statement giving the factual reasons and basis for the complaint. The student has the right to request in writing that the chair appoint a student as a member of the department/school Grade Appeals Committee. This appeal at the department/school level must be submitted within the first five weeks of the semester following receipt of the grade, in accordance with the "College-wide Grade Appeals
Procedures" adopted by the Senate in fall 1985. Copies of this procedure may be obtained in the Senate Office, the Office of Advising or academic departmental offices. Students appealing grades to the School of Nursing, the School of Urban Public Health or the School of Health Professions should direct their appeal to the dean of the School of Nursing. Students appealing grades to the School of Social Work should direct the appeal to the dean of the school, who shall carry out the responsibilities of the department chair.

Grading Definition

Students are to be graded in courses according to the traditional system of letter grades (A, B, C, D and F).

Note: Hunter College implemented plus/minus grading in spring 1996 for undergraduate courses and in fall 1996 for graduate courses. We modified the undergraduate course GPA values and eliminated the grades "C-" and "D+" in spring 2000. These charts have also been updated to include the "WN" grade effective fall 2008.

Retention Standards The Board of Trustees has mandated uniform student retention standards for all the colleges that are part of the City University system. Under these standards, decisions about whether or not students may continue in a CUNY college are made on the basis of the grade point average (GPA). In order to make these decisions, course grades are assigned quality points (which count toward the GPA), as shown in the following table:

<table>
<thead>
<tr>
<th>Quality Points</th>

### Grading Policies

- Grading Definition
- Study Abroad Grading
- Credit/ No Credit Policy
- Grading Policy for Nursing Courses
- Academic Honors
Grading Policy for Nursing Courses

School of Nursing

Students must receive minimum grades of C in all required nursing courses. One required nursing course (Generic Pathway: NURS 20000, NURS 21000, NURS 24000, NURS 22000, NURS 33100, NURS 33900, NURS 35200, NURS 33200, NURS 34300, NURS 34900, NURS 36000, NURS 45500, NURS 46000, NURS 47000, NURS 49000 NURS 49200, NURS 42200) is repeatable once by students who have received a failing grade. Students who fail a second required nursing course in the sequence may not repeat that course and may not continue in the nursing major.

Note: Other colleges, graduate schools, professional schools, services and employers may calculate a grade point average inclusive of the failing grades. For questions regarding this policy, check with the Office of Advising Services, Rm 1119 East Building.

Graduation-in-Absentia

Undergraduate students who need 15 credits or fewer to fulfill their degree requirements and who have completed the Hunter Core Requirement (including pluralism and diversity, writing and foreign language) and the major requirements may apply for graduation-in-absentia if they must leave the city before completing their studies. They may attend an accredited college in the United States or abroad. Students who must leave before these criteria are met should apply for transfer to another college. Students should contact Advising Services, Room 1119 East http://www.hunter.cuny.edu/studentservices/advising for more information.

Health & Safety Policies and Procedures

- Drug-Free Schools and Campuses, Public Law 101-226

- Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders

Health Careers Preparation Program

Post-Baccalaureate Certificate Program in Health Careers Preparation

Return to: Health Careers Preparation

The Post-Baccalaureate Certificate in Health Careers Preparation Program is designed for students who wish to enter a professional program in medicine, dentistry, optometry, podiatry or veterinary medicine but whose undergraduate
education does not meet the requirements for these programs. Students interested in entering programs in nursing, nutrition, physical therapy, pharmacy or physician assistant studies are not eligible for the Post-Baccalaureate Certificate Program.

Admission Criteria

We encourage prospective students who meet the admission criteria to apply to our certificate program. All applicants must:

- Hold a baccalaureate degree from an accredited institution with a minimum overall GPA of 3.00 (students with undergraduate degrees in progress are not eligible to apply).
- Apply for admission to City University of New York (CUNY), Hunter College.
- Submit a completed Post-Baccalaureate Certificate Program supplemental application by the February 1st deadline.
- Demonstrate their commitment to a career in the health professions through paid or volunteer experience.

Application Procedures

Admission to the program is limited to the fall semester. Application to the program is a two-step process. For detailed, step-by-step instructions for completing the application procedures, please refer to the Prospective Post-Baccalaureate Student section of the Pre-Health Website.

All prospective students must submit a supplemental application directly to the Pre-Health Advising Office at Hunter College. The supplemental application is completed electronically and is available on the Pre-Health website in mid-fall. In addition to a supplemental application all candidates for the Post-Baccalaureate Certificate Program must apply to CUNY as transfer students. The 4-digit code for Hunter's Post-Baccalaureate Certificate Program is 0339, and this must be selected in order for the student to be considered for the program. All students must submit their official transcripts directly to CUNY through the CUNY Application Portal. High school transcripts are NOT required. The Admissions Committee may also request an interview and/or letters of recommendation for applicants sometime after the supplemental application has been submitted.

Deadlines

Both CUNY and supplemental applications must be received (by CUNY and the Hunter College Pre-Health Office) by February 1 of each year to be considered for admission to the Program in the fall. Applications received after February 1 may not be considered.

Program Requirements

To complete the Program, all Post-Baccalaureate Certificate students starting in fall 2010 and after must:

- Complete one year of college-level English. This requirement can be fulfilled by undergraduate transfer credit and/or by taking courses at Hunter College.
- Complete one year of college-level mathematics beyond pre-calculus. This requirement can also be fulfilled by undergraduate transfer credit and/or by taking courses at Hunter. There are two ways to fulfill this requirement at Hunter:
  1. MATH 15000 (STEM) (calculus) and MATH 15500 (STEM) (calculus II)
  2. MATH 15000 (STEM) (calculus) and STAT 21300 (STEM) (STAT 113 does not fulfill this requirement)
• Complete 38 credits in science (biology, chemistry or physics) at Hunter College.
• Maintain a 3.3 GPA for every semester in the program with no individual course grade below B-.
• Provide 56 hours of service to the Hunter College Community during their time in the program. Tutoring in science courses, mentoring undergraduate students, and assisting with activities sponsored by the Pre-Health Advising Office are examples of activities that fulfill the service commitment requirements.
• Obtain a committee letter from the Pre-Health Advisory Committee at Hunter College.

Courses and Requirements

The exact titles and sequence of courses for Post-Baccalaureate students depend on their individual academic needs and availability of courses at Hunter College each semester. Students typically take 9–12 credits of mathematics/science per semester but individual students' course loads can vary depending on their schedules of extracurricular activities and other factors.

In addition to the mathematics and English requirements stated above, typical course work for pre-health students includes the following:

• One year of general biology with lab: BIOL 10000 (STEM) and BIOL 10200 (STEM) (4.5 credits each, including lab) offered in spring and fall semesters, respectively.
• One year of general chemistry with lab: CHEM 10200 (STEM) and CHEM 10400 (STEM) (lecture, 3 credits each) and CHEM 10600 (STEM) (lab, 3 credits). CHEM 10400, which serves as a pre-requisite to CHEM 10600 may be taken concurrently to satisfy requirements.
• One year of Organic Chemistry lectures: CHEM 22200 and CHEM 22400 (4 credits each); and one year of Organic Chemistry labs: CHEM 22300 and CHEM 22500 (2.5 credits each).
• One year of general physics with lab: PHYS 11000 (STEM) and PHYS 12000 (STEM) (4.5 credits each, including lab).
• One semester of Biological Chemistry BIOL 30000 or a year of Biochemistry CHEM 37600, CHEM 37700 and CHEM 37800

Additional Courses

Students may use classes from the following list of upper division biology and chemistry courses to fulfill the requirements for the program:

Courses

BIOL 30600 - Developmental Biology

GER
3/B

Major topics include molecular and cellular mechanisms of early embryonic development in amphibians, mammals and model organisms such as Drosophila, as well as the related subjects of vertebrate organ system development, biology of stem cells and animal cloning. Emphasis is placed on seminal and current research in cell-cell communication, signal transduction and differential gene regulation in developmental processes.

prereq: BIOL 30000
3 hrs (lec)
3 cr.
fall only
BIOL 35000 - The Biology of Cancer

GER
3/B

When a normal cell becomes a cancer cell there are genetic changes that occur that alter the biology of the cell such that it behaves independent of its neighbors. This course will investigate the altered biology of cancer cells that lead to uncontrolled proliferation and cancer. Topics include: cell culture, the cell cycle, hormones, receptors, intracellular signal transduction, oncogenes, tumor suppressor genes, apoptosis, metastasis, and the etiology of human cancer.

prereq: BIOL 20000, 30000, or perm instr.
3 hrs (lec)
3 cr.

BIOL 36000 - Cellular and Molecular Immunology

GER
3/B

Study of the immune system from a molecular perspective. Molecular genetics of antibody and T cell receptor diversity, hematopoiesis and lymphocyte development, humoral and cellular immunity, histocompatibility.

prereq or coreq: BIOL 30000, perm instr.
4 hrs (3 lec, 1 disc)
3.5 cr.
spring only

BIOL 37000 - Physiology of the Nervous System

GER
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

prereq: BIOL 30000 or perm instr.
4 hrs (lec)
4 cr.
spring only

BIOL 37500 - Molecular Systematics

GER
3/B

An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest in phylogeny and population biology.

prereq: BIOL 30000 or perm instr.
3 hrs
3 cr.

**BIOL 37600 - Endocrinology**

**GER**

3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

*prereq: BIOL 20200 or perm instr.*

3 hrs (lec)
3 cr.

*spring only*

**BIOL 38000 - Molecular Neurobiology**

**GER**

3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

*prereq: BIOL 30000 or perm instr.*

3 lec hrs
3 cr.

*fall only*

**CHEM 35000 - Biophysical Chemistry**

**Pluralism and Diversity**

GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

*prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better*  

5 hrs (4 lec, 1 rec)
4 cr

**CHEM 32200 - Organic Chemistry Lecture III**

**GER**

3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

*prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better*  

3 hrs
3 cr.

*offered fall*

New Required Courses for Medical School
Students intending to apply to medical school are now required to complete

**PSYCH 10000 - Introduction to Psychology**

**GER**
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

and

**SOC 10100 - Introduction to Sociology**

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS

**GER**
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.

3 hrs
3 cr.

Consult the Sociology department or the Pre-Health Advising Office for information about the specific section recommended. These courses can also be satisfied with equivalent transfer credits.

**Note:**

Please refer to the Pre-Health Office website and publications for information regarding the specific coursework and extracurricular activities required by the individual health professional schools.

**Time to Completion**

Students must complete all of the required courses within 36 months in order to receive the certificate. A typical post-baccalaureate student completes the minimum coursework required to take standardized tests such as the MCAT or DAT within this same time period. Many students also go on to take additional upper division courses recommended by many health professional schools during the third (application) year. Decisions about professional school admissions are usually made one year after applications are submitted. Hunter College also has linkage agreements with several medical schools, which allows highly qualified Post-Baccalaureates who have completed all pre-medical requirements to matriculate in the same year in which they apply.

**Additional Fees**

Hunter College Post-Baccalaureates are required to pay additional Academic Excellence fees, which are used to improve the resources available to them. Among other things, these fees entitle students to the additional support of a dedicated Post-Baccalaureate advisor and preparatory courses for standardized tests such as the MCAT. The following is a breakdown of the Academic Excellence Fee structure:
Health Regulations

Table of Contents

- Health Standards
- Measles, Mumps, and Rubella
- Meningococcal Disease
- Medical Records and Examinations

Health Standards

The following are the general health standards for admission, readmission and continuing attendance at Hunter College:

1. The student's health status shall not constitute a danger to any individual or group at Hunter College.

2. The health condition shall not be such that it may be aggravated or intensified by the demands of attendance at the college.

3. Any limitations of activity necessitated by a health problem shall be such that program adjustments will still enable the student to conform to the college's academic requirements.

4. A student's health status shall be such that the student may be expected to continue his or her college work, taking a reasonable number of hours on a continuing basis.

Immunizations Public Health Law 2165 requires college students to present a complete record of two live immunizations against measles and single immunization against mumps and rubella. Students born on or after January 1, 1957 must submit a complete immunization record signed by a health practitioner. Noncompliance will prohibit a student from registering for classes.

Measles, Mumps, and Rubella

Immunizations Public Health Law 2165 requires college students to present a complete record of two live immunizations against measles and single immunization against mumps and rubella. Students born on or after January 1, 1957 must submit a complete immunization record signed by a health practitioner. Noncompliance will prohibit a student from registering for classes.

New York State Public Health Law §2167 requires post-secondary institutions to distribute information about meningococcal meningitis and vaccination to all students enrolled for at least six semester hours or the equivalent per semester, or at least four semester hours per quarter regardless if the student is in a degree seeking program or not.

Post-secondary institutions must maintain a record of the following for each student:

- A response form, signed by the student's parent or guardian (or the student if he/she is 18 years of age or older), that information about meningococcal disease and vaccine information was received. This must include information on the availability and cost of meningococcal meningitis vaccine including an indication of whether or not the institution offers meningococcal meningitis immunization services.

AND
• A vaccine record indicating at least 1 dose of meningococcal ACWY vaccine within the last 5 years or a complete 2- or 3-dose series of MenB without a response form: OR
• A signed response form with a vaccine record (If a student submits a response form selecting this option, a vaccine record must be attached); OR
• A signed response form indicating that the student will obtain meningococcal vaccine within 30 days; OR
• A signed response form indicating that the student will not obtain immunization against meningococcal disease.

Medical Records and Examinations

Matriculated students (including transfer students) are required to submit a medical report by a recognized physician upon admission into certain programs. If a student's medical report or other factors indicate a health problem, the college may require from the student's physician a report from a medical specialist in the area of the student's disability.

Hebrew Program

Overview

The Hebrew Program offers a program of Hebrew language, literature and culture spanning the ancient through the modern periods. This program is designed to develop language skills, cultivate a critical appreciation of Hebraic and Judaic literature and thought and promote an understanding of Jewish cultural tradition against the background of world civilization. These courses may be applied to satisfy foreign language and other components of the General Education Requirement as well as to fulfill major and minor concentrations. This curriculum also meets the special needs of students majoring in other disciplines for courses dealing with the Hebraic or Judaic elements and influences on European culture. The wide variety of course offerings enables students to concentrate their attention on one major period, to aim for an overall proficiency or to strive for both objectives simultaneously.

**Donna Haverty-Stacke**, Professor, History; BA Georgetown, MA, PhD Cornell

**D'Weston Haywood**, Associate Professor; BA North Carolina Central University, MA, PhD, Northwestern
Foundational Courses (9 credits)

At least 6 credits of Foundational Courses must be completed to declare the major. The remaining 3 credits can be completed along with the major.

- HIST 15100 The United States from the Colonial Era to the Civil War (W)
- HIST 15200 The United States from the Civil War Era to the Present (W)
- GEOG 15000 World Regional Geography
  or
- GEOG 10100 People and Their Environment

Major (33 credits)

Geography (6 credits)

- GEOG 22100 Economic Geography and Globalization
- GEOG 24100 Population Geography
- GEOG 24300 Urban Geography
- GEOG 24700 Cultural Geography
- GEOG 30500 Special Topics in Urban and Regional Dynamics
- GEOG 30600 Special Topics in Contemporary Regional Geographies
- GEOG 32800 Urban Environmental Problems: Evaluations and Solutions

Political Science & Economics (6 credits)

- ECO 10000 Introduction to Economics
- POLSC 11000 American Government: A Historical Introduction (W)

History (21 credits)

- A maximum of 6 credits in history courses at the 100-level and a minimum of 9 credits in history courses at the 300-level or above. Foundational courses do not count toward the History credits.

World/Non-US History (12 credits)

including at least three credits in each of the following categories (courses may be used to count toward only one category; described category must comprise 50% or more of course content for course to qualify):
1. Pre-1800
2. non-Europe
3. Europe

One additional World/Non-US History

**US History (6 credits)**

- all above the 100-level

**Keystone Course in History (3 credits)**

SWIM or SYNC: History Practicum or any dedicated seminar or Honors course at the 400 level approved by the Undergraduate Advisor and/or the Department Chair, as involving significant writing in the major ("SWIM") or graduate-level history course (700-level) available with permission to graduating seniors (Senior Year Non-Traditional Course; "SYNC")

**Honor Societies**

Two kinds of honor societies are recognized at Hunter College: academic and professional. In general the requirements for nomination are: for academic societies, a cumulative GPA of 3.0 and a departmental GPA prescribed by the department concerned, although in no case less than 3.0; for professional societies, a cumulative GPA of 2.8 and a departmental GPA and professional qualifications that meet departmental requirements. All honor societies except Phi Beta Kappa and Sigma Xi are subject to the rules and regulations established by a committee of the Hunter College Senate. Students may qualify for the following honor societies:

- Alpha Kappa Delta - Sociology
- Omicron Delta Epsilon - Economics
- Dobro Slovo - Slavic Language and Literature
- Phi Alpha Theta - History
- Eta Beta Rho - Hebrew
- Pi Mu Epsilon - Mathematics
- Eta Sigma Phi - Latin and/or Greek
- Pi Sigma Alpha - Political Science
- Gamma Kappa Alpha - Italian
- Psi Chi - Psychology
- Gamma Theta Upsilon - Geography
- Sigma Delta Pi - Spanish
- Kappa Delta Pi - Education
- Sigma Epsilon Phi - German
- Kappa Pi - Art
- Sigma Pi Sigma - Physics
- Kappa Omicron Nu - Food Science
- Sigma Theta Tau - Nursing
- and Human Nutrition

**Phi Beta Kappa** is the oldest undergraduate honors organization in the United States. Students do not apply for membership; they are elected on the basis of academic excellence. Eligibility is calculated on the basis of liberal arts courses under Phi Beta Kappa rules, which differ from those used in awarding other honors at Hunter College.

**Sigma Xi** The Scientific Research Society honors those who have made noteworthy contributions in research. Its
purpose is “to encourage original investigation in science, to foster companionship and cooperation among scientists, and to maintain honor, integrity and honesty in all scientific activities.” It has nearly 65,000 active members, scientists and engineers, whose goal is to improve the human condition. The Hunter College Chapter was installed in 1969.

Honors Programs

Hunter College provides a range of honors programs for students with strong academic records and the desire for stimulating courses and a host of special opportunities.

Macaulay Honors College at Hunter College Graduating high school seniors and others who have not yet attended college may apply to the Macaulay Honors College at Hunter College. The mission of this highly competitive program is to inspire and prepare outstanding leaders to confront and solve the social, economic, cultural, and scientific challenges of New York City and the world. Accepted students take a series of interdisciplinary seminars focused on New York City, and work closely with Honors Advisors inorder to learn about and access the diverse resources of CUNY. Generous financial support is provided, allowing students to concentrate on their studies and carefully selected co-curricular activities. For further information, call the Macaulay Honors College office at (212) 650-3556 or see the website: http://www.hunter.cuny.edu/honorscollege.

Thomas Hunter Honors Program (Special Honors Curriculum) This program provides superior students who are pursuing a Hunter BA degree with a course of study suited to their individual needs and interests. Open to students who have demonstrated academic excellence and an interest in interdisciplinary studies and who desire to be intellectually challenged, it offers the opportunity to design a personalized curriculum under the supervision of the Council on Honors. The program also offers its participants the chance to study with faculty members committed to working with outstanding undergraduates who wish to pursue interdisciplinary studies. For details, see the Thomas Hunter Honors Program.

Human Rights Courses

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement.

Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)

**Pluralism and Diversity**

PD/D  
GER  
3/B  

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.

In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

*prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.*

3 hrs  
3 cr.  
*fall and spring; summer when possible*

HR 22000 - Special Topics in Human Rights

This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for
credit with different topics.

**HR 25000 - Human Rights Internship**

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights.

*prereq: ENGL 12000 or equivalent; HR 20000 or equivalent*

3 hrs

3 cr.

**HR 26000 - Human Rights Internship Seminar (W)**

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

*prereq: ENGL 12000 and HR 20000*

*prereq or coreq: HR 25000*

3 hrs

3 cr.

fall, winter, spring, and summer

**HR 32000 - Special Topics in Human Rights**

This course covers special topics in human rights on an advanced undergraduate level. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

*prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director*

3 hrs

3 cr.

**HR 35000 - Human Rights Capstone Seminar (W)**

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.
prereq or coreq: HR 26000
Offered spring only

Hunter College Campus Schools

The Campus Schools are located at Park Avenue and 94th Street in Manhattan. They serve as a laboratory for observation, demonstration, research, curriculum design and other projects involving their students, all of whom score in the range of the gifted on intelligence and achievement tests. Students are admitted to the publicly supported schools on the basis of competitive testing. Efforts continue to identify gifted children from diverse backgrounds who meet the schools' rigorous standards for admission to kindergarten and grade 7 (the two levels at which students are admitted).

Hunter College Elementary School

Children must be five years of age to attend the kindergarten. Only Manhattan residents are eligible to apply. The age of an applicant is calculated according to the academic year. While some students continue on to the high school from the elementary school, high-achieving students from the five boroughs are invited to take a competitive examination in order to enter Hunter High School at the 7th grade.

Hunter College Foreign Language Requirement

Return to Department of Romance Languages

The college foreign language requirement may be fulfilled by completion of French, Italian or Spanish 202, 203 or 208 or by demonstrating equivalent proficiency through a departmental examination. Students with prior knowledge of one of the languages should see a departmental adviser and take a placement examination before registering for courses. Students who have a high school diploma in a language other than English or who have studied a foreign language in
students have fulfilled the language requirement. Students should consult a departmental advisor to resolve all matters regarding placement, registration and course offerings.

Please contact the department for details on when placement examinations are offered.

1. Students pursuing a new language will fulfill the language requirement in four college semesters by completing one of the following sequences:
   a. French: FREN 10100-FREN 10200 or FREN 10300 and FREN 20100-FREN 20200, or FREN 20300;
   b. Italian: ITAL 10100-ITAL 10200, or ITAL 10300 and ITAL 20100-ITAL 20200, or ITAL 20300;
2. Spanish: SPAN 10100-SPAN 10200, or SPAN 10300, or SPAN 10500-SPAN 10600 and SPAN 20100-SPAN 20200, or SPAN 20300, or SPAN 20700 and SPAN 20800.

Hunter College High School

The Hunter College High School is a six-year junior-senior high school. The academic program stresses both acceleration and enrichment and provides students with a rigorous education. Research focuses on the development of curriculum, teaching strategies and other educational practices that maintain and advance a "state of the art" approach to the education of intellectually gifted students.

Hunter College Libraries

http://library.hunter.cuny.edu

The Hunter College Libraries, with locations at all of our campuses, offer the Hunter College community access to a wide variety of services, collections, and spaces. At the 68th Street campus, the Leon & Toby Cooperman Library occupies nine floors in the East Building, with entrances to the library on the 3rd and 7th floors. The Cooperman Library is home to the Hunter College Archives & Special Collections (Floor 2), the Silverstein Student Success Center (Floor 7), and the Education Library (Floor 6). Also at the 68th Street campus, the Zabar Art Library is located on the 16th Floor of the North Building. The Brookdale campus (425 East 25th Street) is home to the Health Professions Library, and the Silberman Building (2180 Third Avenue) houses the Social Work and Urban Public Health Library.

Our team of faculty, staff, and student workers is dedicated to helping our users. Faculty librarians assist people with research questions from the simple to the complex both in-person and online via our Ask-a-librarian service, as well as partnering with classroom faculty to teach information literacy instruction to various classes. Library staff and students provide excellent service to users at a variety of service points throughout all our libraries.

The Libraries' print and electronic collections include hundreds of thousands of books, ebooks, and periodicals, as well as unique archival content in our Archives & Special Collections. Through our robust collection of online resources, in addition to periodicals and ebooks, the Hunter community can access primary sources, historical documents, science and social science datasets, streaming media, digital images, and much more.

Our spaces include collaborative work areas, reservable study rooms, and areas for quiet study. Additionally, we provide desktop, laptop, and tablet computers as well as printers, photocopiers, scanners, whiteboards, and lots of electrical outlets.

Hunter College Mission Statement
Hunter College of the City University of New York, a distinguished public university, values learning in the liberal arts and sciences as a cornerstone of individual development and a vital foundation for a more just and inclusive society. Continuing our long tradition of expanding opportunity, we welcome students from all backgrounds to engage in a rigorous educational experience that prepares them to become leaders and innovators in their communities and in the world. Hunter also contributes to intellectual discourse by supporting excellent scholarship and creative activity by its accomplished faculty.

Hunter undergraduate, graduate, and professional curricula challenge students to think critically – to approach problems from multiple perspectives, distinguish the questions each raises, and recognize the kinds of evidence each values. The college’s academic programs stress the significance of human diversity, emphasize research and artistic creation, and invite students to extend their education beyond campus. We cultivate the qualities our graduates need to thrive in their chosen careers and make a difference as active citizens.

We embrace our setting at the heart of New York City – we seek to draw on its energy, capitalize on its remarkable resources, weave it into the fabric of our teaching, research, and creative expression, and give back to it through our service and citizenship.

Hunter College Students' Rights Concerning Education Records

- Student Regulations and Rights

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records.

   Students should submit to the registrar, the dean of students, or other appropriate college official, written requests that identify the record(s) they wish to inspect. If the records are not maintained by the college official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

   All requests shall be granted or denied in writing within 45 days of receipt. If the request is granted, the student will be provided with copies of the requested records or notified of the time and place where the records may be inspected. Students will be charged a fee for copies of requested records. If the request is denied or not responded to within 45 days, the student may appeal to the college’s FERPA appeals officer. Additional information regarding the appeal procedures will be provided by the college’s FERPA appeals officer: Office of Legal Affairs, Hunter College, Room 1705 HE, 695 Park Avenue, New York, NY 10065.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.
Students may ask the college to amend a record that they believe is inaccurate or misleading. They should write to the registrar, the dean of students, or other appropriate college official, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and advise the student of his or her right to a hearing before the college's FERPA appeals officer regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to college officials with legitimate educational interests. A college official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the university has contracted; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another college official in performing his or her tasks. A college official has a legitimate educational interest if access is reasonably necessary in order to perform his/her instructional, research, administrative or other duties and responsibilities. Upon request, the college discloses education records without consent to officials of another college or school in which a student seeks or intends to enroll.

4. You may appeal the alleged denial of FERPA rights to the: General Counsel and Vice Chancellor for Legal Affairs, The City University of New York, 535 East 80th Street, New York, NY 10065.

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA.

The name and address of the office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue SW, Washington, DC 20202-4605.

6. The college will make the following "directory information" concerning current and former students available to those parties having a legitimate interest in the information: a student's name, attendance dates, telephone listing, home address, present address, e-mail address, major and minor fields of study, degrees and awards received, date of birth, place of birth, level of education and the most recent previous educational institution attended. By filing a form with the Registrar's Office, a student or former student may request that any or all of the above information not be released without his or her prior written consent. This form may be completed, withdrawn, or modified at any time.

This policy shall be effective as of September 2000 and shall supersede prior policy on this issue.

**Students Regulations and Rights**

**Statement on the Rights of Students**

The Hunter College Senate voted endorsement of the following statement on September 24, 1974:

**Preamble**
"Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. Freedom to teach and freedom to learn are inseparable facets of academic freedom."

Students "have a distinctive role…which qualifies them to share in the responsible authority on campus; the exercise of the authority is part of their education….

Joint efforts among all groups in the institution—students, faculty, administration and governing board—is a prerequisite of sound academic government...Joint effort, to be effective, must be rooted in the concept of shared authority. The exercise of shared authority in college and university government, like the protection of (student and faculty) academic freedom, requires tolerance, respect and a sense of community."

"The responsibility to secure and respect general conditions conducive to the freedom to learn is shared by all members of the academic community."

Students' rights are not limited by what is enumerated in this statement. The purpose of the statement is to outline some basic principles and guidelines, many of which are now met. Specific implementation will have to be continuously adjusted as conditions at the college change.

1. Academic and Personal Files
   1. Improper disclosure, even within the college, of academic, personal and disciplinary records is a serious invasion of privacy. To minimize the risk of improper disclosure, academic, personal and disciplinary records should be kept in separate files.
   2. All files may be made available only to specially authorized college staff. Express consent of the student involved is otherwise required.
   3. Academic records and transcripts should contain only information about scholastic achievement.
   4. No records should be kept which reflect the political and off-campus activities or beliefs of students.
   5. Non-current medical and disciplinary records should be periodically destroyed.
   6. Students have the right to periodically review their academic, medical and disciplinary records and to appeal for removal of items improperly included. If the appeal fails the student has the right to append a written rebuttal to the record.

2. Classroom, Grades, etc.
   1. Students have the right, within the limits of available facilities, to pursue any course of study for which they are eligible according to college standards.
   2. In order to permit eligible students unhindered access to courses, the costs of required materials should be kept within reasonable limits.
   3. Students have the right to know, at the start of each course of study, the basis to be used by the instructor in determining grades.
   4. Students' grades should be based solely on academic criteria, not on opinions or conduct in matters unrelated to academic standards.
   5. Students should have the opportunity to take reasoned exception to facts or points of view offered in any course of study, but they are responsible for meeting the academic standards of any course of
study for which they are enrolled.

6. Students should have the protection through formally established procedures against prejudiced or capricious academic standards or evaluations.

3. Participation in Academic Affairs

1. Students have the right, individually and collectively, to express their views on matters of general interest to the student body, including institutional policy, curriculum and personnel decisions.

2. Students have the right to participate in the formulation and application of institutional policy affecting academic and student affairs.

3. Students should share in the formation of policies regarding degree requirements, courses and curriculum, academic grading systems, standards of academic standing and calendar arrangements.

4. Students should have the opportunity, individually and collectively, to assess the value of a course and to express their views on the form and conduct of a class which they have taken.

5. The results of an institutional mechanism used for students to assess courses and faculty, such as evaluation questionnaires, should be accessible to all members of the college community and should be weighed in all decisions affecting faculty status and curriculum.

4. Extracurricular Activities

1. Students should be free to form and join associations to promote their common interests.

2. Students have the right to express their opinions, individually and collectively and to support causes in a manner that does not disrupt the orderly operation of the college.

5. Standards of Conduct

1. Students should participate in the formulation of standards of behavior which are considered essential to the educational mission and community responsibilities of the college.

2. The code of conduct, as a set of regulations and procedures, should be clearly stated and published in a handbook or other generally available set of institutional regulations.

3. In all cases, disciplinary procedures should protect the student from capricious and prejudicial application of the rules of conduct. Such procedures should also satisfy the requirements of procedural due process, including written notice with details of charges, sufficient time to prepare a defense, right to assistance in the defense, right to cross-examine witnesses and to present evidence and the right to appeal the decision.

RESOLVED, That these rules and regulations be incorporated in each college bulletin.

Adopted by the Board of Trustees of The City University of New York on June 23, 1969 and amended on October 27, 1980 and May 22, 1989

Rules and Regulations for Students Pursuant to Article 224A of the NYS Education Law
1. No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he or she is unable, because of his or her religious beliefs, to register or attend classes or to participate in any examination, study or work requirements on a particular day or days.

2. Any student in an institution of higher education who is unable, because of his or her religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.

3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his or her religious beliefs, an equivalent opportunity to register for classes or make up any examination, study or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.

4. If registration, classes, examinations, study or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study or work requirements or opportunity to register shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study or work requirements or registration held on other days.

5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his or her availing himself or herself of the provisions of this section.

6. Any student who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his or her rights under this section.

7. As used in this section, the term "institution of higher education" shall mean any institution of higher education, recognized and approved by the regents of the university of the state of New York, which provides a course of study leading to the granting of a post-secondary degree or diploma. Such term shall not include any institution which is operated, supervised or controlled by a church or by a religious or denominational organization whose educational programs are principally designed for the purpose of training ministers or other religious functionaries or for the purpose of propagating religious doctrines.

8. As used in this section, the term "religious belief" shall mean beliefs associated with any corporation organized and operated exclusively for religious purposes, which is not disqualified for tax exemption under section 501 of the United States code.

Equal Opportunity Programs

Hunter College is an Equal Opportunity and Affirmative Action Institution. The college does not discriminate on the basis of race, color, national or ethnic origin, religion, age, sex, sexual orientation, transgender, marital status,
disability, genetic predisposition or carrier status, alienage or citizenship, military or veteran status, or status as victim of domestic violence in its student admissions, employment, access to programs and administration of educational policies.

Rules and Regulations for the Maintenance of Public Order Pursuant to Article 129A of the NYS Education Law

The tradition of the university as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedoms: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility and trust among teachers and students, only when members of the university community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the university campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the university has the right and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Higher Education.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board of Higher Education provide that:

"THE PRESIDENT. The president, with respect to his educational unit, shall:

1. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;
2. Be the adviser and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the bylaws, resolutions and policies of the Board, the lawful resolutions of any of its committees and the policies, programs and lawful resolutions of the several faculties;
3. Exercise general superintendence over the concerns, officers, employees and students of his educational unit...."

1. Rules

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational and community services.

2. Individuals are liable for failure to comply with lawful directions issued by representatives of the university/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.

3. Unauthorized occupancy of university/college facilities or blocking access to and from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation and use of university/college equipment and/or supplies.
4. Theft from or damage to university/college premises or property, or theft of or damage to property of any person on university/college premises is prohibited.

5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.

6. Action may be taken against any and all persons who have no legitimate reason for their presence on campus within the university/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational and community services.

7. Disorderly or indecent conduct on university/college-owned or controlled property is prohibited.

8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the university/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used or is intended to inflict bodily harm on an individual or damage upon a building or the grounds of the university/college.

9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.

10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.

11. The unlawful possession, use, or distribution of alcohol by students or employees on university/college premises or as part of any university/college activities is prohibited.

2. Penalties

1. Any student engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsion, ejection and/or arrest by the civil authorities.

2. Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York, or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection and/or arrest by the civil authorities and for engaging in any manner in conduct prohibited under substantive.

Rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member or other member of the instructional staff, or member of the classified staff charged with engaging in any
manner in conduct prohibited under substantive

Rules 1-11 he or she shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.

3. Any visitor, licensee, or invitee engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to ejection and/or arrest by the civil authorities.

4. Any organization which authorized the conduct prohibited under substantive Rules 1-11 shall have its permission to operate on campus rescinded. Penalties 1-4 shall be in addition to any other penalty provided by law or The City University Trustees.

Sanctions Defined:

1. **ADMONITION** An oral statement to the offender that he/she has violated university rules.

2. **WARNING** Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may be cause for more severe disciplinary action.

3. **CENSURE** Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any university regulation within a period stated in the letter of reprimand.

4. **DISCIPLINARY PROBATION** Exclusion from participation in privileges or extracurricular university activities as set forth in the notice of disciplinary probation for a specified period of time.

5. **RESTITUTION** Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

6. **SUSPENSION** Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

7. **EXPULSION** Termination of student status for an indefinite period. The conditions for readmission, if any is permitted, shall be stated in the order of expulsion.

8. **COMPLAINT TO CIVIL AUTHORITIES**

9. **EJECTION**

**504/ADA Grievance Procedures**

Hunter College encourages the prompt and equitable settlement of all complaints and grievances of discrimination in college programs under Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Section 706) and the Americans with Disabilities Act of 1990 as amended (42 U.S.C. Section 12101-02). Toward that end, both informal and formal grievance procedures are established for the college.

These procedures are available to any student of the college who alleges any action relating to handicap which is prohibited by Section 504, the ADA, or the rules and regulations implementing those laws. No other issues may be raised in these proceedings.
The resolution of a grievance may pass through several steps. Initially, students are encouraged to discuss a complaint with the supervisor of the office involved. Often, this conversation will lead to steps that will alleviate the difficulty. If this discussion does not lead to a result that is satisfactory to the student, he or she should then begin an informal complaint process with the director of the Office for Access and Accommodations. If the informal complaint process does not yield results satisfactory to the student, a written formal complaint may be filed with the Vice President for Student Affairs.

Students may obtain a written explanation of the entire grievance procedure and the accompanying form from Office for Access and Accommodations, Room 1124 Hunter East. The Section 504 and ADA Coordinator at Hunter College, Professor Tamara Green, is responsible for policies related to the disabled. She can be contacted in Room 1425A Hunter West; (212) 772-5061.

Hunter College's Policy on Academic Integrity

- Procedures for Reporting Academic Integrity Violations
- Committee Structure
- CUNY Examples of Substantial Violations

Procedures for Reporting Academic Integrity Violations

To initiate the procedure for addressing an allegation of academic dishonesty, faculty members must complete the online Academic Integrity Form indicating the recommended academic sanction, which involves a grade penalty (i.e., a reduced grade). Disciplinary sanctions may only be pursued by the Dean of Students if the case merits them.

I. Procedure for Academic Sanctions

- When the faculty member suspects academic dishonesty and wants an academic sanction, the professor should first confer with the student. If the student admits to the violation, the instructor should inform the student of the grade penalty and report the action taken on the online Academic Integrity Form and upload all supporting documentation [pdf]. The faculty should submit the online reporting form within 30 days of discovery of the academic dishonesty. The Office of Student Conduct will contact the student once we receive a completed online form. Faculty members must submit the online form within 30 days of discovery of the academic dishonesty.

- If the student admits to academic dishonesty but believes the grade penalty is too severe, the instructor should select the appropriate option on the online Academic Integrity Form, upload supporting documentation and submit it online. At that point, the student may contest the grade sanction by appealing the course grade through the college's grade appeal procedure. Once the student has admitted the violation, s/he may contest only the severity of the grade sanction, not the dishonesty allegation itself. If the student appeals the grade, the departmental and Senate grade appeals committees should send copies of their findings to the Hunter College Academic Integrity Official.

- If the student denies the allegation of academic dishonesty, the faculty member will report that this is the student's position on the online Academic Integrity Form. The Office of Student Conduct will submit a placeholder grade of PEN if the occurrence is during the middle of the semester. The instructor shall submit a placeholder grade of INC if the occurrence is at the end of the semester and final course grades are due. The instructor must then report the alleged violation to the Office of Student Conduct (OSC) using the online academic integrity form. The OSC will then place a PEN grade as a placeholder during the pending of the investigation. If the student admits or is proven responsible for violating the academic integrity policy the instructor will be notified. After which the instructor must submit a change of grade form changing the PEN grade to the final grade in the course. The matter will first be reviewed by the Academic Integrity Official who will conduct a fact finding investigation and attempt to resolve the matter. If the matter cannot be resolved then Mediation will be proposed between both parties with a third party member. If the case is not resolved through Mediation then it will be moved to an official hearing before the Faculty-Student
Disciplinary Committee who will render judgment upon conclusion of the hearing. The student has the right to appeal the Committee's judgment by appealing with the President's Office.

- Students who either admit to an act of academic dishonesty or are found to have committed one by the Academic Integrity Official will receive a letter from Hunter College's Academic Integrity Official notifying them that this matter has been reported to the Dean of Students Office. When an academic integrity accusation is resolved by the Faculty-Student Disciplinary Committee, the student and faculty member will be notified of the findings.

II. Procedure for Disciplinary Sanctions

A. The Dean of Students has the right to pursue disciplinary sanctions against any student should the case deem appropriate, which includes substantial violations, if the student has prior violations or when academic sanctions were not executed because the student withdrew from the course.

III. Faculty-Student Disciplinary Committee

The purpose of the Faculty-Student Disciplinary Committee is to review evidence when an academic sanction is being sought and when the allegations of academic dishonesty are still in dispute after meetings with the Academic Integrity Official and Mediator have occurred. The Committee will proceed in the following manner:

1. If the charge of academic dishonesty is denied by the student, the faculty member will advise the student that the matter has been referred to the Hunter College Academic Integrity Official, who will initiate the fact-finding process.

2. The Faculty-Student Disciplinary Committee members will be selected and convened by Hunter College Academic Integrity Official to review the evidence for each case.

3. The committee will deliberate in closed session (i.e., with neither student nor instructor present) and submit its findings, in writing, to the Hunter College Academic Integrity Official, who will then notify the faculty member and student. Although faculty members reserve the right to submit grades whenever they deem appropriate, they are encouraged not to submit grades for the disputed work or a final course grade until they have been notified of the committee's findings. Students may appeal the final course grade through the college's grade appeal process.

Each faculty-student disciplinary committee shall consist of one faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the instructional staff of that college to receive training and to serve in rotation as chair of the disciplinary committee. If none of the chairpersons appointed from the campus can serve, the president, at his/her discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. He/she shall not be a voting member of the committee but shall vote in the event of a tie.

The faculty members shall be selected by lot from a panel of six elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. The student members shall be selected by lot from a panel of six elected annually in an election in which all students registered at the college shall be eligible to vote. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than four(4) consecutive years.

In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO or student panel by lottery.
Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

IV. Clarification of the Process

All questions regarding these procedures or the College's disciplinary process should be referred to the Office of Student Conduct in the Vice President for Student Affairs and Dean of Students office (Room 1103 East, phone 212.772.4534/212.396.6484 or email at academic.integrity@hunter.cuny.edu).

ACADEMIC SANCTIONS

- Reduced or "F" grade on academic exercise
- Reduced or "F" grade in course

CUNY Examples of substantial violations
These include but are not limited to:

- Forging any type of document
- Stealing an examination from faculty or a College Office
- Taking an examination for someone or having someone take it on your behalf
- Writing a paper for someone or having someone write your paper
- Purposely sabotaging another student's work that prevent his/her completion of an assignment
- The student has previously violated the policy
- Any violations made by a graduate and or professional student or a student who is pursuing professional licensure

Hunter Core Requirement

The Hunter Core Requirement
(Effective Fall 2013)

(note: if you are a current Hunter student who started before fall 2013, see www.hunter.cuny.edu/academics/hunter-core-requirement for information concerning whether to "opt in" to the Hunter Core or continue with Hunter's General Education Requirements - GER)

INTRODUCTION

All students who matriculate at Hunter College must fulfill the Hunter Core Requirement (Hunter Core, HCR). This is a set of courses Hunter College considers essential to the intellectual development of its undergraduates. The Hunter Core requirements and expectations are meant to support the professional and personal development of Hunter students, prepare them for advanced study, and enable them to become active participants in the world of ideas.

The Hunter Core provides students with opportunities to sharpen their essential academic skills in writing, mathematics, scientific reasoning, and critical thinking. The Hunter Core also introduces students to a spectrum of distinctive perspectives with which various academic disciplines view our world, its past, and its future.
The Hunter Core is distinguished by its emphasis on foreign language study and its encouragement of concentrated student achievement in a subject outside the student's first major. Hunter encourages all students to take an active role in planning their education, and to pursue and develop subjects of interest beyond what is required for their major.

**HUNTER CORE**

The Hunter Core includes

1. The CUNY Common Core, comprising 30 credits;
2. The Hunter Focus comprising 12 credits.

**CUNY Common Core (CCCR, 30 credits)**

CUNY Common Core Requirement consists of designated courses in:

- **A. English Composition (6 credits = 2 courses)** EC
  1. English Composition 1 - ENGL 12000 (3 credits)
  2. English Composition 2 - (3 credits)
    - CUNY Common Core English Composition (EC) 2 courses

- **B. Math and Quantitative Reasoning MQR (3 credits)**
  - CUNY Common Core Math/Quantitative Reasoning (MQR) 1 Course

- **C. Life and Physical Sciences (3 credits) LPS**
  - CUNY Common Core Life and Physical Sciences (LPS) 1 Course

- **D. Scientific World SW (3 credits)**
  - CUNY Common Core Scientific World (SW) 1 Course

- **E. Creative Expression (3 credits)**
  - CUNY Common Core Creative Expression (CE) 1 Course

- **F. U.S. Experience in its Diversity (3 credits)**
  - CUNY Common Core US Experience in Its Diversity (USED) 1 Course

- **G. World Cultures and Global Issues (3 credits)**
  - CUNY Common Core World Cultures & Global Issues (WCGI) 1 Course

- **H. Individual & Society (6 credits - one course from each)**
  - CUNY Common Core Individual and Society (Humanities) I&S H 1 Course
  - CUNY Common Core Individual and Society (Social Sciences) I&S SS 1 Course

*Note: Students may take no more than two courses from one department or program to fulfill categories a.2 (English Composition 2) through h. See CUNY Common Core by Department*

*Students who receive an "exemption" for ENGL 12000 or for a course in English Comp 2 are deemed to have fulfilled English Composition 1 or 2, respectively.

**There are some courses in these categories that carry more than 3 credits (the "STEM variant" courses). Students who elect to take these courses may apply only three credits towards fulfilling the CUNY Common Core Requirement. — These courses, labeled STEM, may be found in three areas of the Common Core: CUNY Common Core Life and Physical Sciences (LPS) 1 Course, CUNY Common Core Math/Quantitative Reasoning (MQR) 1 Course, and CUNY Common Core Scientific World (SW) 1 Course. A particular STEM variant course may appear in more than one area of the Common Core. When this occurs, students may choose which area of the Common Core they fulfill.**
want the course to fulfill. STEM variant courses may be more than three credits. In such cases, three credits will apply to fulfilling the Common Core; all of the course's credits will apply to the major.

**The Hunter Focus**

Beyond the CUNY Common Core, Hunter requires students to complete 12 credits for the Hunter Focus. These credits are part of the CUNY College Option – an additional set of requirements in the baccalaureate programs that encourage students to delve more deeply in the specialties of the colleges. The Hunter focus emphasizes foreign language and concentrated study – two areas of study that highlight Hunter's current and historic focus on the liberal arts.

Hunter students are expected to attain fourth-semester proficiency in a foreign language, regardless of where the learning took place. After this goal has been met, students should begin concentrated study in an area outside of their first major. The composition of the Hunter Focus will vary depending on students' language proficiency at the time of matriculation. Students who have to take a beginning language course must apply all their language credits to the Hunter Focus. Students in the Hunter College School of Nursing may fulfill their entire 12 credits of Hunter Focus by taking three "STEM variant" science courses in addition to the STEM courses used to fulfill the CUNY Common Core.

**Hunter Focus in Foreign Language.** The goal of the foreign language competency requirement is to help students attain cross-cultural knowledge and communicate in a language other than English. In studying foreign languages, their literatures and cultures, students acquire new perspectives on how people think, view the world, express themselves, and communicate with one another. Language study sensitizes students to the differences between their own culture and that of others, an important factor in an interconnected and interdependent world. Foreign Language Requirement

Students are required to complete up to 12 credits in a foreign language depending upon the student's language knowledge at the time of matriculation and a student's matriculation status. (See Considerations for Transfer Students below.) Students may apply only one course at each level (Elementary levels 1 and 2, Intermediate levels 3 and 4) toward the CUNY College Option. Intensive courses can be used to satisfy two levels.

It is strongly recommended that students complete their foreign language study as early as possible so they can benefit from it in their college career. Foreign Language courses should be taken in consecutive semesters because gaps in language study are undesirable.

**Hunter Focus: Concentrated Study.** This requirement encourages students to begin concentrated study outside of their major. Students who have gained fourth semester language proficiency should make progress toward a minor, second major, or certificate (they will not complete such a program within Concentrated Study, but take first steps towards it). The number of credit hours that must be completed in the Concentrated Study requirement depends on a student's entry status and achievements prior to entering Hunter and ranges from 0 to 12. (See Considerations for Transfer Students below.) It is necessary for a student to indicate a minor, second major or certificate program. Credit for Concentrated Study is granted only for courses completed within that same declared course of study.

**CONCURRENT COURSE REQUIREMENTS**

Hunter College requires students to take some courses that are writing intensive and some that deal with issues of Pluralism and Diversity. These courses can be part of the Hunter Core Requirement (HCR) or any major or minor requirements, or electives.

**List of Approved Courses for the Writing Requirement**

**Courses for Pluralism and Diversity.** This group of courses addresses topics that help students broaden their horizons and gain new perspectives. The Pluralism and Diversity courses are grouped into four categories (A, B, C and D) that focus on scholarship about major practical or theoretical issues that emerge from, are reflected in, or are principally derived from the historical conditions, perspectives, and/or intellectual traditions of:

A. Non-European societies, particularly those of Africa, Asia, Latin America, or those indigenous to the Americas
B. One or more of the following groups in the US: African Americans, Asian Americans, Latino Americans, and Native Americans,

C. Women and/or issues of gender or sexual orientation,

D. Europe, including ways in which pluralism and diversity have been addressed.

List of Approved Courses for the Pluralism and Diversity Requirement

CONSIDERATIONS FOR TRANSFER STUDENTS

2nd Degree Students. Students who have earned a baccalaureate degree from an accredited institution are exempt from the Hunter Core Requirement and all concurrent requirements.

CUNY Common Core. All CUNY transfer students retain completion of the CUNY Common Core requirements when transferring to Hunter College. Transfer students who have earned an AA/AS degree from an accredited institution and who matriculate in fall 2013 and after will have fulfilled the CUNY Common Core requirements by obtaining the AA/AS degree.

Hunter Focus

All transfer students, including CUNY transfers, must complete the Hunter Focus. The number of credits required to complete the Hunter Focus varies with the number of credits transferred as indicated below:

- 12 credits of Hunter Focus for fewer than 30 credits transferred
- 9 credits of Hunter Focus for 30 or more credits transferred without an AA/AS degree*
- 6 credits of Hunter Focus for students with an AA/AS degree

*A transfer student who first matriculates in a baccalaureate program must complete 12 credits of Hunter Focus. The student can apply any "College Option" credits completed at a CUNY senior college toward the Hunter Focus.

Foreign Language. Hunter encourages all students to reach fourth-semester proficiency in a foreign language. Transfer students who have not attained fourth-semester proficiency in a foreign language at the time of transfer must apply the foreign language requirement towards the Hunter Focus. Students must either continue a language they have studied previously or begin the study of a different language at Hunter for the number of credits required by their transfer status.

Concentrated Study. Hunter encourages all students to delve deeply into another area in addition to their major by completing a minor, a second major, or a certificate program. Transfer students who have fulfilled the foreign language requirement should apply Hunter Focus courses towards a minor, second major or certificate program.

Writing Intensive. All students must take at least one course with a "W" designation from Hunter College. The number of "W" designated courses required are:

- 3 for students who transfer fewer than 31 credits
- 2 for students who transfer between 31-59 credits
- 1 for students who transfer 60 or more credits

Pluralism and Diversity. Transfer students must take courses in Pluralism and Diversity according to the schedule below:

- 4 courses for students who transfer fewer than 31 credits – one from each Group (A, B, C, and D).
- 2 courses for students who transfer 31 or more credits. These two courses must come from Groups A, B, or C and the two courses cannot come from the same Group.
Hunter Galleries

Main campus gallery: (212) 772-4991

The Hunter College Art Galleries, comprised of the Bertha and Karl Leubsdorf Gallery, The 205 Hudson Gallery, and The Artist's Institute are committed to a dynamic exhibition program that expands the classroom experience of undergraduate learning across the college. The Galleries are also integral to the graduate programs in Art and Art History, affording students the opportunity to work hands-on with faculty, guest curators, and gallery staff to develop exhibitions that encourage critical thinking, original research, and direct contact with both historical and contemporary art.

The Bertha and Karl Leubsdorf Gallery is located in the West Building of the main campus at 68th Street and Lexington Avenue and focuses on historical and scholarly exhibitions developed by faculty, students, and alumni.

The 205 Hudson Gallery is a new street level exhibition space, housed in the Studio MFA program building in Tribeca. 205 Hudson is dedicated to engaging contemporary art through diverse exhibitions, performance events, and programming, including exhibitions of graduating MFA students.

The Artist's Institute, located on the Lower East Side, was founded in 2010 by Hunter College and curator Anthony Huberman. The Artist's Institute is an experimental platform for thinking about art in the present moment, with an annual program that is divided into two six-month seasons, each of which is dedicated to the work of a single artist.

Located in the Silberman School of Social Work Building at 119th Street, The Hunter College East Harlem Art Gallery is a space for initiating partnerships between different departments and academic disciplines. The gallery presents exhibitions and public events that foster academic collaboration at Hunter College while addressing subjects relevant to the East Harlem community.

Ida K. Lang Recital Hall

4th Floor Hunter North

The Lang Recital Hall, a 149-seat auditorium designed by the firm of Abramowitz Kingsland Schiff, opened in Spring 1995.

This state-of-the-art facility hosts jazz concerts, chamber music ensembles and film festivals and houses most of the Department of Music graduation and faculty recitals. Artists from throughout the world have performed at the Lang.

Box office: (212) 772-4448; administrative office: (212) 772-4227.

Immunization Requirements

Prior to registration, the following health requirements must be met:

Immunizations for Measles, Mumps and Rubella - New York State Public Health Law 2165 requires all students entering a post-secondary institution to provide their health services center with proof of immunity to measles, mumps and rubella. This law applies to students born on or after January 1, 1957, who are registered for 6 or more credits (or its equivalent) regardless of degree or non-degree status at a CUNY campus. Acceptable proof of immunity includes: immunization cards/records from childhood, from schools you attended previously, or from your health care provider, or a copy of a lab report showing immunity to measles, mumps and rubella.

Meningococcal Disease

Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students registering for 6 or more credits, whether they live on or off campus. Hunter College of the City University of New York is required to maintain a record of the following for each student: a) response to receipt of meningococcal disease and vaccine information signed by the student; b) record of meningococcal meningitis immunization within the past 10 years; OR c) acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student. Students can submit this information using the Health Services Immunization Form or can do so electronically through their CUNYfirst account. To learn more about meningitis and the vaccine, please consult your physician. You can also find information about the disease at http://www.cdc.gov.

Link for the Immunization Form: http://www.hunter.cuny.edu/studentservices/counseling-and-wellness/wellness/repository/files/ImmunizationRecord.pdf. The form must be returned to the Office of Health Services, Room 307 Hunter North. For updated office hours call (212) 772-4800. For further information please visit: http://www.hunter.cuny.edu/studentservices/counseling-and-wellness/wellness/immunization.

Immunizations for Measles, Mumps and Rubella

This law applies to students born on or after January 1, 1957, who are registered for 6 or more credits (or its equivalent) regardless of degree or non-degree status at a CUNY campus. Acceptable proof of immunity includes: immunization cards/records from childhood, from schools you attended previously, or from your health care provider, or a copy of a lab report showing immunity to measles, mumps and rubella.
Implementation of Policies and Procedures Concerning Sexual Assault and Other Forms of Violence Against Students

Incomplete Work in a Course

When a student for valid reason does not complete the work assigned in a course (including the final exam, papers, etc.) and in the view of the instructor still has a reasonable chance to pass the course, the student shall be given the grade INC (incomplete). The student must explain the reason to the instructor or, in the absence of the instructor, to the department chair and arrange a schedule for making up the missing coursework. These steps must be taken as soon as possible and no later than the end of the second week of the following semester. The student shall then be given the opportunity to complete the course without penalty beyond previously established penalties for lateness.

The length of time permitted for completing missing coursework remains at the discretion of the instructor and shall be indicated in writing to the student, but shall not extend beyond the end of the semester following the one in which the course was taken. Unless the student submits the work by the date specified by the instructor, the grade will automatically become FIN on the student's permanent record. (Under certain circumstances, where the student must repeat class sessions or laboratories in a course not given during the following semester, the FIN grade may later be converted to the appropriate letter grade.)

Instructors and departments may choose to have make-up final examinations administered by the college. Such examinations will be given before Monday of the seventh week of the following semester. It is the responsibility of the student who must take an absentee examination to determine from the instructor or department whether it will be administered by the college, to file the appropriate form and to pay any required fee by the deadline specified by the college.

If the faculty member wishes to extend the deadline for the student to complete the coursework beyond one semester, the faculty member and the student must enter into a written contract clearly specifying the deadline. This contract must be written during the semester following the one in which the course was taken. The student must be aware that the INC grade will change to a FIN grade until the work is completed. The written contract must accompany the change of grade form. If a student has not filed a contract with the faculty member but still wishes to complete the work and have a FIN grade changed, the student can appeal to the Senate Grade Appeals Committee. The appeal must include the reason for failing to complete the work and must be accompanied by a supporting letter from the faculty member who issued the INC grade or, if the faculty member is no longer at the college, from the department chair. Appeals with no endorsement will be denied.

Institutional Policies

- CUNY Policy on Academic Integrity
- Hunter College's Policy on Academic Integrity
- College Regulations
- Disclaimers and Statement of Rights
- Freedom of Information Law
- Equal Opportunity and Non-Discrimination Policy
- CUNY Sexual Misconduct Policy
- CUNY Medical Withdrawal & Re-Entry Policy

Instructional Computing and Information Technology Resources

The Instructional Computing and Information Technology Department (ICIT) provides technology resources and services for students, staff and faculty. These include 1000 computers in open labs and through the Laptop Loan Program, Public Access computers, a 20-seat training facility, 250 technology-equipped classrooms, and a center for online learning, to support faculty in creating and teaching hybrid and online courses. Other services accessible to staff, faculty and students include: e-mail, course management, computer training, consultation, audiovisual services, teleconferencing/videoconferencing services, telephone/voice mail services, computer networking services (on campus and off campus), software and student information services. Guidelines for access to and use of these services and facilities are posted at each facility and are subject to the rules and regulations of the college.

Hours, locations and a general description of the facilities available in each area are posted on the ICIT Web site: http://www.hunter.cuny.edu/icit

Interdepartmental Majors

**BA Degree** The following programs leading to the BA degree involve courses in more than one department. For details and names of advisers, see Programs of Study. In addition to the interdepartmental fields of study, the college also offers individual interdisciplinary courses in the humanities, social sciences, sciences and mathematics and health sciences.

- Archaeology
- Latin American and Caribbean Studies
- Comparative Literature
- Religion
- Human Biology
- Urban Studies
- Jewish Studies

International Admission

Admission of international students is based on two factors: meeting the academic criteria for admissions and English language proficiency. Although the guarantee of sufficient financial resources to meet the cost of attendance is essential to maintaining one's respective status; it does not solely determine admissions into Hunter College. For purposes of admission, an international student is defined as an applicant who currently holds a student (F-1) or Exchange visitor (J-1) visa or seeks to change such an immigration status upon enrollment. The United States Citizenship and Immigration Services (USCIS) requires documentation of financial support before approving the issuance of a F-1 or J-1 Exchange Visitor status within the United States (if the admitted student is within the United States) and the State Department reviews financial status and substantial home ties of the applicant before issuing a visa, if the admitted student is overseas.
International applicants whose primary language is not English must demonstrate a firm command of the English language by scoring a minimum of 500 or higher (for graduate level students) on the Test of English as a Foreign Language (TOEFL). No provisional admission is offered whereby a student may come to the college and spend a semester or year learning English. Applicants are responsible for the payment of all tuition and fees at the time of registration. Hunter College does not provide financial assistance to international students; they must be in a position to finance tuition, fees, room and board, insurance, books and incidental expenses. The estimated cost is $38,000 per year for undergraduate students and $43,564 and for graduate level students and is subject to change. Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements upon arrival.

For more information, contact the International Students Office, Hunter College, 695 Park Avenue, Room 1109 Hunter East, New York, NY 10065; telephone: (212) 772-4864; e-mail: intlss@hunter.cuny.edu. Policies governing the Office of Admissions and the International Students Office are based on policies and practices recommended by NAFSA, AACRAO and other educational organizations.

**International Admission: Criteria**

Admission of international students is based on two factors: meeting the academic criteria for admissions and English language proficiency. Although the guarantee of sufficient financial resources to meet the cost of attendance is essential to maintaining one's respective status; it does not solely determine admissions into Hunter College. For purposes of admission, an international student is defined as an applicant who currently holds a student (F-1) or Exchange visitor (J-1) visa or seeks to change such an immigration status upon enrollment. The United States Citizenship and Immigration Services (USCIS) requires documentation of financial support before approving the issuance of a F-1 or J-1 Exchange Visitor status within the United States (if the admitted student is within the United States) and the State Department reviews financial status and substantial home ties of the applicant before issuing a visa, if the admitted student is overseas.

**International Baccalaureate (IB)**

In accordance with CUNY policy, students have two ways to earn credit from an International Baccalaureate (IB) program:

**30+ POINTS WITH AN IB DIPLOMA**
Students who have completed an IB Diploma with 30 points or higher may be awarded 30 credits (7 credits for each HL exam and 3 credits for each SL exam). See the International Baccalaureate Policy for more detailed information.

**24-29 POINTS**
Students with 24-29 points may be awarded credits for HL (Higher Level) IB exams with a grade of "5" or better in accordance with the equivalencies in our International Baccalaureate Policy. SL (Standard Level) courses are not transferable with 29 points or less. An official IB transcript and diploma (if applicable) are required for credit review.

**International Students Office**

Rooms 1109/1133 Hunter East Building
(212) 772-4864
E-mail: intlss@hunter.cuny.edu
Website: http://www.hunter.cuny.edu/studentservices/is

The International Students Office (ISO) provides vital immigration-related information to international students, including F-1 and J-1 Exchange Visitor status or visa holders, including Fulbright students sponsored by the Institute of International Education; other students with questions about their statuses to assist them in learning advocacy and status
maintenance skills. The ISO also advises faculty/staff on matters of F-1/J-1 employment eligibility, etc. The ISO refers all undergraduate international students to Academic Advising Services and graduate international students to their respective departments for educational planning for timely graduation from Hunter College.

The ISO is an important source of information regarding immigration matters, such as the requirements for compliance with the Student Exchange and Visitors Information System (SEVIS) and the US Department of State. The ISO offers opportunities for off campus cross cultural engagement. The ISO issues SEVIS I-20/DS2019 forms to all newly admitted international students. It is also a strong liaison between the students and various offices within and off campus to help make the students' transition to Hunter College easier. It also provides individualized advising and holds small group discussions throughout the academic year on topics of interest, such as employment options, immigration law, tax issues, and adaptation to both the United States (U.S.) educational systems and to the U.S.

For more information, visit the International Students Office's on line tutorial: http://packages.kognito.com/cuny/hunter/Builds/001/

**Introduction**

Return to CUNY Medical Withdrawal & Re-Entry Policy & Procedure Governing Dangerous Student Behavior

The City University of New York (“CUNY”) is committed to the academic success and personal growth of its students. As part of that commitment, CUNY and its constituent campuses are responsible for providing a safe learning and working environment for students, faculty, staff and other members of the university community. Some students may, because of a medical condition, engage in behavior that presents a direct threat of harm to themselves or to others, or substantially disrupts the learning or working environment of others. In such situations, the safety and security of the campus community, including the individual student, is paramount. This policy does not replace or supersede reasonable and appropriate security and health and safety measures, such as calling 911 or taking other immediate action in case of imminent threat to life or limb.

In addition to taking action to protect the security and safety of the campus community, a college may address the student’s conduct to determine if action under this policy or under the student disciplinary process is appropriate. When a student’s conduct that directly threatens or substantially disrupts the learning or working environment of others appears to relate to a medical condition, the campus may, at its option, address the student’s conduct either in accordance with this policy, or through the student disciplinary process. If the student’s conduct constitutes a threat solely to him or herself, it should be addressed under this policy rather than the disciplinary process.

**Islamic, Asian (including Chinese, Japanese, and Indian), and African**

- ARTH 26000 - Islamic Art and Architecture
- ARTH 26200 - Art of East Asia: Ritual and Religion
- ARTH 26300 - Art of East Asia: Painting and Calligraphy
- ARTH 27000 - Art of Africa and Oceania
- ARTH 36100 - Special Topics Lecture in Islamic Art (W)
- ARTH 37100 - Special Topics Lecture in Asian Art (W)
- ARTH 46000 - Advanced Studies Seminar in Islamic Art (W)
- ARTH 47000 - Advanced Studies Seminar in Asian Art (W)

**Italian - BA**
Major

Preparation for Teaching French, Spanish or Italian Adolescent Education (grades 7-12)

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See The School of Education section of the catalog for further information.

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- ITAL 10100 Elementary Italian I
- ITAL 10200 Elementary Italian II
- ITAL 20100 Intermediate Italian I
- ITAL 20200 Intermediate Italian II -or- ITAL 10300 Intensive Elementary Italian
- ITAL 20300 Intensive Intermediate Italian

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Major: 30 credits

3 credits from

- ITAL 31100 Advanced Italian Grammar
- ITAL 31200 Advanced Italian Composition
- ITAL 33100 Italian Phonetics and Diction

9 credits from

- ITAL 34100 Introduction to Italian Literature from the Middle Ages to the 16th Century
- ITAL 34200 Introduction to Italian Literature from the 16th Century to the Present
- ITAL 34300 Dante's Vita Nuova and Inferno

3 credits from

- ITAL 34400 Dante's Purgatorio and Introduction to Paradiso -or- ITAL 34500 Dante's Paradiso and Major Prose Works

15 credits chosen from

- ITAL 34600 Petrarch, Boccaccio and the Literature of Humanism
- ITAL 34700 16th Century Italian Literature
- ITAL 34800 17th and 18th Century Literature
- ITAL 34900 The Modern Italian Lyric
- ITAL 35000 The Modern Italian Novel
- ITAL 35100 The Modern Italian Theatre
- ITAL 36000 The Middle Ages: Special Topics
- ITAL 36100 The Renaissance: Special Topics
- ITAL 36200 The 17th Century: Special Topics
- ITAL 36300 The 18th Century: Special Topics
- ITAL 36400 The 19th Century: Special Topics
- ITAL 36500 The 20th Century: Special Topics
• ITAL 37000 Italian Literature: Special Topics
• ITAL 37500 Seminar in Italian Literary History
• ITAL 49500 Independent Study in Italian Literature

Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

• ITAL 39900 Second Language Acquisition
• ITAL 49500 Independent Study in Italian Literature or SEDCP 21200 Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12 or SEDC 712 (see graduate catalog)

## Jewish Studies

Return to: Faculty of the School of Arts and Sciences

**Leah Garrett**, Professor and Program Director; PhD Jewish Theological Seminary, NYC

**Bruce Ruben**, Adjunct Associate Professor, Jewish History, PhD CUNY

**Yitzhak Berger**, Associate Professor, Hebrew Division, Classical and Oriental Studies; BA-MA, PhD Yeshiva University

**Laura Schor**, Professor, History; PhD University of Rochester

## Latin American and Caribbean Studies

Return to: Faculty of the School of Arts and Sciences

**Thomas Angotti**, Professor, Urban Affairs and Planning; BA Indiana State, MA, PhD Rutgers

**James Cantres**, Assistant Professor, Africana and Puerto Rican/Latino Studies; BA Vassar; PhD New York University

**Jonathan Conning**, Associate Professor, Economics; BA Swarthmore, MA, PhD Yale

**Milagros Denis-Rosario**, Associate Professor, Africana and Puerto Rican/Latino Studies; BA University of Puerto Rico, MPS Cornell, PhD Howard

**Marc Edelman**, Professor, Anthropology; BA, MA, PhD Columbia

**Kenneth Paul Erickson**, Professor, Political Science; BA Michigan (Ann Arbor), PhD Columbia

**Paolo Fasoli**, Associate Professor, Romance Languages; Dottore in Lettere Universita' di Roma II (Italy), PhD Toronto (Canada)

**Maria Luisa Fischer**, Associate Professor, Romance Languages; Licenciatura en Literatura General (Chile), PhD Boston

**Veronica M. Gregg**, Associate Professor, Africana and Puerto Rican/Latino Studies; BA West Indies, MA Queens (Canada), PhD Kent (UK)

**John Hammond**, Professor, Sociology; AB Harvard, MA, PhD Chicago

**Barbara L. Hampton**, Professor, Music; BMus Howard, MA California (Los Angeles), PhD Columbia
Latin and Classics courses

Classical and Oriental Studies

Overview

The Department of Classical and Oriental Studies offers programs in Classics, Russian, Chinese, Hebrew, Japanese, and Arabic. With over 20 full-time faculty and approximately 20–25 adjunct faculty, the department is able to offer eight BA degrees: Latin, Greek, Latin and Greek, Classical Studies, Classical Archaeology, Russian, Hebrew, and Chinese. In addition, the department offers a three-year sequence in the Japanese language, and a three-year sequence in Arabic language and literature, and—in joint sponsorship with the Kosciuszko Foundation—a wide range of courses in Polish language, literature and culture. The department participates in several interdisciplinary programs, including Religion, Women and Gender Studies, Comparative Literature, and Jewish Studies. All the programs of the department have as their common goal the teaching of the foreign languages and literatures, traditionally viewed as one of the cornerstones of the liberal arts curriculum. This goal is met in several ways. Each of the languages helps fulfill the 12-credit (normally four-semester) foreign-language requirement. The six-credit requirement in literature may be satisfied in part by a course in literature in the original language or by a course in literature in translation. Undergraduate majors are given a solid grounding in foreign languages and literature study in order to prepare them both for careers in which they will use these skills and for further study on the graduate level.

Full list of Programs and Courses in Classical and Oriental Studies

Programs and Courses in Classical & Oriental Studies

What can I do with my degree in Classical and Oriental Studies?

The programs prepare students for further studies in graduate school and professional careers in international trade, education, government service, diplomacy, private business, journalism and related fields. Careers in research, government and education use skills developed in classical studies, and a major in classics provides an excellent foundation for many professional programs such as law. In addition, specialized careers—such as college and high
school teaching, museum work, and archival research—are open to professional classicists and archaeologists. Russian majors find employment in U.S. governmental agencies, the United Nations, broadcasting, banking, international commerce, education, library services and other fields.

Faculty for All Programs in Classical and Oriental Studies

Classical and Oriental Studies Faculty

ARB 10100 - Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement

3 hrs
3 cr.

ARB 10200 - Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.
prereq: ARB 10100 or permission of Head of Arabic Program.
3 hrs
3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers
This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

**prereq:** perm of division head
3 hrs
3 cr.

**ARB 14900 - Spoken Egyptian Arabic**

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

**prereq:** ARB 10200 and permission of instructor
3 hours
3 credits

**ARB 15000 - Introduction to Modern Arab Cultures**

**Pluralism and Diversity**
P/D A
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs
3 cr.

**ARB 20000 - Topics in Arabic Literature and Culture**

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

**prereq:** ENGL 12000 or equivalent
3 hrs.
3 cr.

**ARB 20100 - Intermediate Arabic I**

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

**prereq:** ARB 10200 or equiv.
3 hrs
3 cr.

**ARB 20200 - Intermediate Arabic II**

Continuation of ARB 20100.

**prereq:** ARB 20100 or equiv.
3 hrs
3 cr.

**ARB 24800 - Intermediate Arabic for Heritage Speakers**
This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

**prereq:** ARB 14800 or Arabic Program head's permission
3 hrs
3 cr.

**ARB 24900 - Special Topics in Arabic Dialects**

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

**prereq:** ARB 20200
3 hrs
3 cr.

**ARB 25000 - The Arab Novel (in translation) (W)**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

**prereq:** ENG 22000 or equiv.
3 hrs
3 cr.

**ARB 25100 - Arab Cinema (in translation)**

3 hours
3 credits

ARB 25500 - Modern Palestinian Culture

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.
ARB 25600 - Modern Arab Theatre

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.
3 hrs
3 cr.

ARB 25700 - Language and Culture in Contemporary North Africa

Pluralism and Diversity
P/D A
North Africa (Maghreb) is often described as a crossroads of many cultures - Arab, Berber, African, European, and others. Over the course of this semester, we will discuss important issues facing this region, including democratic reform efforts both before and following the Arab spring, Berber language movements and other language debates, colonial and post-colonial struggles, and social and cultural debates surrounding gender and religion. Through readings of key literary, historical, political, and cultural texts, as well as viewing important documentary and fictional film productions, we will examine this fascinating region from multiple vantage points.

prereq: ENGL 12000
3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.

HEBR 22000 - Israeli Cinema

Pluralism and Diversity
PD/A
GER
3/A

Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. This course will explore discourses on topics concerning the Israeli-Palestinian and Israeli-Arab conflicts, Zionist and post-Zionist trends, socio-economic gaps, religious controversies and aesthetic societal contexts, as well as women's issues. The course will employ a variety of disciplines, including but not limited to formalist and semiotic film theories and literary analysis. The student will gain fundamental insight into Israeli culture. No knowledge of Hebrew is required but can be helpful. Students, who wish to do the reading and discussion in the Hebrew language, may have that option. Course will be conducted in English.

3/A

Study of Hebrew poetry since World War I. Emphasis on works of Greenberg, Schlonsky, Lamdan and Alterman.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32700 - The Modern Hebrew Novel

GER
3/A

Intensive study of a major novel by Agnon, Barash or Hazaz, with collateral readings in other Hebrew novels.
prereq: HEBR 20200 or equiv.
HEBR 32800 - Contemporary Hebrew Prose

GER
3/A

prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 33100 - Medieval Hebrew Philosophic Texts

GER
3/A

Study of selected chapters of Halevi's Kuzari and Maimonide' Moreh Nebukim (Guide to the Perplexed).
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 35100 - Hebrew Grammar and Composition

Intensive study of principles of vocalization, inflections of nouns and verbs, rules of syntax and practice in composition.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 35700 - Approaches to Main Problems in Hebraic Studies

Explorations in depth of a particular area in Hebraic studies. May be repeated as topics vary from semester to semester.

There are "unlimited" repeats for this course.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 37100 - Hebrew Conversation I

Conversation course designed to improve oral proficiency and enable students to hold their own in advanced courses in Hebrew literature.
prereq: HEBR 20100 or 3 years of high school Hebrew or equivalent; intensive practice in spoken language
3 hours
3 credits

HEBR 37200 - Hebrew Conversation II
Conversation course designed to improve oral proficiency and enable students to hold their own in advanced courses in Hebrew literature.

*prereq: HEBR 20100 or 3 years of high school Hebrew; intensive practice in spoken language*

3 hours
3 credits

**HEBR 39900 - Second Language Acquisition**

A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.

*prereq: at least three courses at the 300 level in the language, ENGL 12000*

3 hrs
3 cr

**HEBR 45100 - Selected Studies in Hebrew Literature**

*Pluralism and Diversity*
PD/D

Course will concentrate on an author, theme, genre or period in Hebrew literature. May be repeated as topics vary from semester to semester. Some topics may meet a PD requirement.

There are unlimited repeats for this course.

*prereq: HEBR 20200 or equiv, perm division*

3 hrs
3 cr

**HEBR 49000 - Independent Studies**

Independent research under direction of a member of the division. May be repeated as topics vary from semester to semester.

There are "unlimited" repeats for this course.

*prereq: permission of division head*

hrs TBA
3 cr

**HEBR 49100 - Honors Project**

Individual study and research in Hebrew literature in consultation with staff member. Honors essay required. May be repeated as topics vary from semester to semester.

There are "unlimited" repeats for this course.

*prereq: Jr/Sr only; perm division*

1 sem
3 cr.

**JPN 10100 - Elementary Japanese I**

JPN 10100 not usually credited without JPN 10200. For details about credit policy, please see Foreign Language Requirement.
JPN 10200 - Elementary Japanese II

Continuation of 10100.

prereq: JPN 10100 or equiv.

JPN 20100 - Intermediate Japanese I

Continuation of JPN 10100-10200. Extensive reading and writing practice, including at least 500 additional kanji; advanced grammar study.

prereq: JPN 10200 or equiv.

JPN 20200 - Intermediate Japanese II

Continuation of JPN 20100.

prereq: JPN 20100 or equiv.

JPN 25100 - Japanese Culture Before 1600

Hunter Core
Individual and Society - Humanities (I&S H)
Pluralism and Diversity
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

prereq: ENGL 120

JPN 25200 - Japanese Culture Since 1600

Pluralism and Diversity
PD/A
GER
This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

prereq: ENGL 12000
3 hours
3 credits

**JPN 26100 - Special Topics in Japanese Culture**

**Pluralism and Diversity**
PD/A
GER
2/C

Examination of specific areas of classical or contemporary Japanese culture, such as film or literature, and the economic, political, and social conditions that shaped them.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

**JPN 27100 - Japanese Reading: Recitation and Comprehension**

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

prereq: JPN 20100 (Intermediate Japanese I) or permission from the instructor
3 hrs
3 cr.

**JPN 30100 - Advanced Japanese I**

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.

prereq: JPN 20200 or equiv.
3 hrs
3 cr.

**JPN 30200 - Advanced Japanese II**

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.

prereq: JPN 30100 or equiv.
3 hrs
3 cr.

**JPN 35100 - Advanced Japanese Conversation**
This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

prereq: JPN 20200 (Intermediate Japanese II) or perm instructor

3 hrs
3 cr.

JPN 42101 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.

1 hr
1 cr.

JPN 42102 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.

PD/D
GER
3/A

Students will be introduced to basic concepts of literature and folklore to increase, through a comparative study, their
understanding and appreciation of both art forms. Works in English of major Russian writers such as Pushkin, Gogol and Pilnyak will be read in juxtaposition with folklore genres in search of how literary texts mirror folklore subjects. European, African and South American literature and folklore will be introduced or comparative purposes.

**prereq:** ENGL 12000

3 hrs

3 cr.

**RUSS 29500 - The Vampire in Lore and Literature (W)**

**Hunter Core**

Creative Expression (CE)

**GER**

2/C

Comparative study of the vampire in various folk and literary traditions from ancient Greece to the 21st century. Characteristics of vampires and their kith and kin in folklore and in classical antiquity. Eastern and Western European vampires in folklore and popular culture; their reinterpretation in literature and basis for their popularity. Readings include J. Sheridan Le Fanu, Bram Stoker, Nicholas Gogol, A.K. Tolstoi, Anne Rice, and others. The vampire tradition in films from Murnau's *Nosferatu*, to Coppola's *Dracula*, to Hardwicke's *Twilight*.

**prereq:** ENGL 22000

3 hrs

3 cr.

**RUSS 29600 - Vladimir Nabokov Between Two Cultures**

**Hunter Core**

Creative Expression (CE)

**GER**

3/A

Nabokov as a bilingual writer, including major works originally written in Russian and in English: Priglashenie na kazn' (Invitation to a Beheading); Dar (The Gift); Drugie Berega (Other Shores); Speak, Memory; Pnin; Lolita and Pale Fire.

**prereq:** ENGL 22000 or perm dept.

3 hrs

3 cr.

**RUSS 29700 - The Russian Urban Novel in English Translation (W)**

**Hunter Core**

Individual and Society - Humanities (I&S H)

**GER**

3/A

The interaction of a theme (the city) and a genre (the novel). Crime and Punishment, The Master and Margarita, We and others in their comparative context.

**prereq:** ENGL 22000 or perm dept.

3 hrs

3 cr.

**RUSS 30100 - Advanced Russian I**
Mastery of grammar in its application to writing, listening comprehension and oral expression. 
*prereq: RUSS 20200 or equiv.*
3 hrs
3 cr.

**RUSS 30200 - Advanced Russian II**

**GER**
3/A

Intensive study of grammar. Consideration of levels of style, problems of idiom and syntax. Oral and written reports. 
*prereq: RUSS 20200 or equiv*
3 hrs
3 cr.

**RUSS 31200 - Advanced Russian Conversation I**

Conversation and oral exercises; discussions based on readings of social and cultural interest. Introduction to oral interpreting. 
*prereq: RUSS 20200 or equiv.*
3 hrs
3 cr.

**RUSS 31300 - Advanced Russian Conversation II**

Literary, political, social, scientific vocabulary. Scholarly reports and practical exchanges on selected topics. 
*prereq: RUSS 20200 or equiv.*
3 hrs
3 cr.

**RUSS 31400 - Reading Russian I**

Reading and critical analysis of selected literary and journalistic texts from various disciplines. Grammar review through reading. 
*prereq: RUSS 20200 or equiv.*
3 hrs
3 cr.

**RUSS 31500 - Reading Russian II**

In-depth study of syntax and idiomatic language to improve reading competency. 
*prereq: RUSS 20200 or equiv.*
3 hrs
3 cr.

**RUSS 31700 - Practical Aspects of Translation**

Examination of the lexical, morphological and syntactic aspects of language in translation, focusing on the comparative presentation of these aspects in Russian and English. 
*prereq: RUSS 20200 or equiv.*
RUSS 31800 - Advanced Translation

Continuation of RUSS 31700 on an advanced level. Application of the theoretical and practical knowledge of translation to discipline-specific areas, including medical, legal, academic, scientific, and literary translation.

*prereq:* ENGL 12000, RUSS 31700 or equiv; RUSS 20200 or equiv.

3 hrs
3 cr.

RUSS 31900 - Business Russian

Increase mastery of Russian vocabulary, style and syntax for translating and composing diverse business materials in such fields as finance, insurance, litigation, advertising and labor relations. Conducted in Russian.

*prereq:* RUSS 20200 or equiv.

3 hrs
3 cr.

RUSS 32100 - Russian Short Story and Novella

Pluralism and Diversity
PD/D
GER
3/A

Analysis of various texts and readings from Gogol, Chekhov, Babel, Solzhenitsyn.

*prereq:* RUSS 20200 or equiv.

3 hrs
3 cr.

RUSS 32200 - Classical Russian Poetry

Pluralism and Diversity
PD/D
GER
3/A

Major poets from the late 18th to mid-19th century, including Lomonosov, Derzhavin, Pushkin, Lermontov and Nekrasov.

*prereq:* RUSS 20200 or equiv.

3 hrs
3 cr.

RUSS 32300 - Modern Russian Poetry

Pluralism and Diversity
PD/D
GER
3/A
Major poets of the late 19th and 20th centuries, including Fet, Tyutchev, Blok, Mayakovsky, Esenin, Pasternak, Yevtushenko.

prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 32400 - Literature of Kievan Rus' and Early Russian Literature through the Age of Classicism

GER
3/A

Major literary works of the Kievan period, 968 to 1237: The Primary Chronicle, The Tale of Igor's Campaign.

prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34000 - 19th Century Russian Literature

GER
3/A

Pushkin's Eugene Onegin, Lermontov's Hero of Our Time, Gogol's Dead Souls, Turgenev's Fathers and Sons and others.

prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34100 - Tolstoy and Dostoevsky

Pluralism and Diversity
PD/D
GER
3/A

Major novels of Russia's two greatest writers. Tolstoy's War and Peace, Anna Karenina, Dostoevsky's The Brothers Karamazov and others.

prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34200 - Modern Russian Literature

Pluralism and Diversity
PD/D
GER
3/A

Gorky, Mayakovsky, Olesha, Babel, Sholokhov, Bulgakov, Nabokov, et al.

prereq: RUSS 20200 or equiv.
3 hrs
3 cr.
RUSS 34300 - Russian Theater

Pluralism and Diversity
PD/D
GER
3/A

Development of Russian drama and theater from early 19th century to present. Griboedov, Pushkin, Gogol, Chekhov and others.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34400 - The Silver Age of Russian Literature

Pluralism and Diversity
PD/D
GER
3/A

Major writers and movements of years 1890- 1925. Short works by Chekhov, Sologub, Belyi, Blok, Akhmatova, Pasternak.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 36000 - Russian Women Writers

Pluralism and Diversity
PD/C
GER
3/A

cross-listed WGSA 36100
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 37000 - Independent Study in Slavic Literatures and Cultures

prereq: ENGL 120
3 hrs
3 cr.

RUSS 39900 - Second Language Acquisition

A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.
prereq: at least three courses at the 300 level in the language, ENGL 120
3 hrs
3 cr.

RUSS 49100 - Honors Project

Open to Russian majors only. Essay.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 49800 - Internship in Russian and Slavic Studies

Students who enroll in the course can work in corporations, government agencies and non-profit organizations. In addition to gaining work-related skills, students develop contacts for future employment and acquire job-related experience. No more than 6 total internship credits can be taken. 3 credits count toward Russian major or minor.
prereq: Russian 20200 or an equivalent, or by permission of the head of the program; ENGL 12000
3 cr.

UKR 30000 - Independent Study in Ukrainian Language and Literature

3 hrs
3 cr.

Learning Community

First-year students entering in the fall semester begin their college careers by enrolling in a cluster of courses called a Learning Community. Each Learning Community consists of four or five introductory-level courses designed to introduce students to areas of study or majors offered at the college. By enrolling in and completing these courses, first year students begin to explore potential areas of study as well as completing some of the Hunter Core courses needed to fulfill degree requirements for graduation. Additionally, since small groups of students are enrolled in many of the same course sections, these Learning Communities are designed to bring students together and make connections with peers who share their learning experiences and academic interests. Participation in a Learning Community does not limit a student's future area of study and can be tailored to fit a student's educational history.

Liberal Arts and Sciences Test (LAST)

Students should register to take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations during their junior year. Students will not be allowed to enroll in student teaching until their scores on the LAST have been received by the School of Education. Students who do not pass the LAST at least partly because of low scores on subtest 4 and/or 5 must enroll in a college writing course before being allowed to register for any additional courses.

Licensing and Accreditation

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings. Graduates from the Generic and Accelerated 2nd Degree Programs are eligible to take the National Council Licensing Examination for Registered Nurses. The program also provides a foundation for graduate study which is also offered at
the School of Nursing. Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialist.

Macaulay Honors College at Hunter College

Graduating high school seniors and others who have not yet attended college may apply to the Macaulay Honors College at Hunter College. The mission of this highly competitive program is to inspire and prepare outstanding leaders to confront and solve the social, economic, cultural, and scientific challenges of New York City and the world. Accepted students take a series of interdisciplinary seminars focused on New York City, and work closely with Honors Advisors in order to learn about and access the diverse resources of CUNY. Generous financial support is provided, allowing students to concentrate on their studies and carefully selected co-curricular activities. For further information, call the Macaulay Honors College office at (212) 650-3556 or see the website: http://www.hunter.cuny.edu/honorscollege.

Manhattan/Hunter College Science High School

The Manhattan/Hunter Science High School, located on Amsterdam Avenue at 66th Street, provides instruction for grades 9 through 12. This science high school is grounded in the belief that individuals are better prepared to face life's challenges when given the proper tools. Science offers the lens through which we may see, explore and meet the future. The New York City Department of Education and Hunter College have joined to create a school that provides an enriched, comprehensive college preparatory curriculum with a focus on science and the integration of science and the scientific method into all subject areas.

Mathematics and Statistics

Return to: Faculty of the School of Arts and Sciences

Ara Basmajian, Professor, Mathematics and Statistics; BA Queens, MA, PhD SUNY (Stony Brook)

Martin Bendersky, Professor, Mathematics and Statistics; BA City College, PhD California (Berkeley)

Patrick Burke, Lecturer, Mathematics and Statistics; BS Duquesne, MA Pittsburgh, PhD Columbia

Barry Cherkas, Professor and Chair, Mathematics and Statistics; BS Worcester Polytech., MA, PhD Georgetown

Daniel S. Chess, Associate Professor, Mathematics and Statistics; AB Harvard, PhD Princeton

Richard Churchill, Professor, Mathematics and Statistics; BA George Washington, MS, MA, PhD Wisconsin (Madison)

Sandra Clarkson, Professor, Mathematics and Statistics; BS North Georgia, MEd, EdD Georgia

Lucille Croom, Professor, Mathematics and Statistics; BA Talladega, MA Michigan (Ann Arbor), PhD Columbia

Scott Gentile, Lecturer, Mathematics and Statistics; BA, MA Boston College

Jingtao Gou, Assistant Professor, Mathematics and Statistics; BS, MS Tsinghua, PhD Northwestern

Olympia Hadjiliadis, Professor, Mathematics and Statistics; BSc Toronto, MMath Waterloo, MPhil, PhD Columbia

Olga Kharlampovich, Professor, Mathematics and Statistics; Dr.Sc. Steklov Institute, PhD Leningrad

John Loustau, Professor, Mathematics and Statistics; BA Oregon State, PhD California (Santa Barbara)

Michael Samra, Lecturer, Mathematics and Statistics; MPhil CUNY

Verna Segarra, Lecturer, Mathematics and Statistics; BS, MA City College

Brian Shay, Associate Professor, Mathematics and Statistics; BS, MA Fordham, PhD CUNY

Lev Shneerson, Professor, Mathematics and Statistics; MS Ivanovo Pedagogical Inst., PhD Ural State (USSR)

Dana Sylvan, Professor, Mathematics and Statistics; BS, MS, Bucharest (Romania), PhD Fed. Inst. of Technology (Switzerland)

Robert D. Thompson, Professor, Mathematics and Statistics; BA California (Santa Cruz), PhD Washington

William Williams, Professor, Mathematics and Statistics; BA McMasters, MS, PhD Iowa State

Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA
This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH 10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below.

The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education (QUEST) major.

**Major Core Curriculum (20 credits)**

- MATH 15400 An Introduction to Symbolic Computation
- MATH 15500 (STEM) Calculus with Analytic Geometry II
- MATH 15600 Introduction to Mathematical Proof Workshop
- MATH 16000 Matrix Algebra
- MATH 25000 Calculus with Analytic Geometry III
- MATH 26000 Linear Algebra
- STAT 21300 (STEM) Introduction to Applied Statistics

**Additional Required Courses (at least 12 credits)**

- STAT 21200 Discrete Probability
- STAT 22000 Statistical Analysis in Forensics

Two additional courses approved by a departmental adviser

**Mathematics Placement Test**

The Mathematics Placement Test is an untimed, multiple choice, computer-based test composed of four sections: Pre-Algebra, Algebra, College Algebra and Trigonometry. Starting with algebra, the test covers progressively advanced topics with placement into more advanced mathematics or mathematics-related courses. Students must take the Math Placement Test before they may register for math, science and certain liberal arts courses at Hunter College. SAT, ACT and New York State Regents test scores do not exempt a student from this test. Test results will be used to place students appropriately in coursework at Hunter College. The exam does not affect acceptance to Hunter College. Students may only take this exam one time throughout the City University of New York (CUNY).

The CUNY Assessment Test (CAT) and Mathematics Placement Test are administered in the Hunter College Testing Center, Room 150 Hunter North. Visit the Hunter College Testing Center's website at https://www.hunter.cuny.edu/testingcenter for sample questions, related information, as well as available dates and times to take examinations. Inquiries pertaining to testing at Hunter College may be addressed by calling the Testing Center at 212-772-4868 or sending an email to testing@hunter.cuny.edu.

**Mathematics-BA**

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- MATH 12500 (STEM) Precalculus (prereq to MATH 15000)
- MATH 15000 (STEM) Calculus with Analytic Geometry I
- MATH 15500 (STEM) Calculus with Analytic Geometry II

**Hunter Core Requirement**

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

**Major**

To enter the standard Mathematics Major, the student should have completed the Foundational Courses of one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent). The major consists of at least 33 credits of coursework: 24 credits of core curriculum courses and at least 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required.

**Major Core Curriculum (24)**

- MATH 15600 Introduction to Mathematical Proof Workshop
- MATH 25000 Calculus with Analytic Geometry III
- MATH 25400 Ordinary Differential Equations
- MATH 25500 Vector Analysis
- MATH 26000 Linear Algebra
- MATH 31100 Abstract Algebra I
- MATH 35100 Mathematical Analysis I
- STAT 21300 (STEM) Introduction to Applied Statistics -or- STAT 31100 Probability Theory

**Elective Courses**

The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate level course approved by a departmental advisor.

**Symbolic Computation Proficiency Requirement**

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

- MATH 12600 Precalculus Technology Laboratory
- MATH 15400 An Introduction to Symbolic Computation
- MATH 38500 Numerical Methods I

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

**Graduate Requirements**

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. **Algebra Requirement**
• MATH 72100 - Modern Algebra I and at least one of MATH 72200 - Modern Algebra II or MATH 72500 - Advanced Linear Algebra

2. Analysis Requirement

• MATH 74600 - Theory of Functions of a Real Variable I and at least one of MATH 74200 - Analytic Functions or MATH 74700 - Theory of Functions of a Real Variable II

3. Geometry and Topology Requirement

• at least one of MATH 75100 - General Topology or MATH 75000 - Calculus on Manifolds

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Medical Laboratory Sciences

Return to: Faculty of the School of Arts and Sciences

Steven Einheber, Associate Professor and Chair, Medical Laboratory Sciences: BS George Washington; PhD Cornell

Chad Euler, Assistant Professor, Medical Laboratory Sciences: BS Vermont, PhD Rockefeller

Muktar Mahajan, Doctoral Lecturer, Medical Laboratory Sciences: MS University of Kashmir, India, PhD Indian Institute of Science

Shahana Mahajan, Associate Professor, Medical Laboratory Sciences: MS University of Hyderabad, India; PhD Indian Institute of Science

Robert Raffaniello, Associate Professor, Medical Laboratory Sciences; BS College of Staten Island; MS LIU; PhD NYU

Abigail Rodriguez Morales, Assistant Professor, Medical Laboratory Sciences; BA New York University; PhD Washington University in St. Louis

Meningococcal Disease

Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students registering for 6 or more credits, whether they live on or off campus. Hunter College of the City University of New York is required to maintain a record of the following for each
student: a) response to receipt of meningococcal disease and vaccine information signed by the student; b) record of meningococcal meningitis immunization within the past 10 years; OR c) acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student. Students can submit this information using the Health Services Immunization Form or can do so electronically through their CUNYfirst account. To learn more about meningitis and the vaccine, please consult your physician. You can also find information about the disease at http://www.cdc.gov.

Link for the Immunization Form: The form must be returned to the Office of Health Services, Room 307 Hunter North. For updated office hours call (212) 772-4800. For further information please visit: http://www.hunter.cuny.edu/cws/healthservices

**Modern: 19th, 20th and 21st century (including Modern Latin America)**

- ARTH 24300 - Eighteenth-Century Art
- ARTH 24400 - Neo-Classicism and Romanticism: the Age of Revolution, 1789-1848
- ARTH 24600 - American Art 1760-1900
- ARTH 24700 - Modern Art in Latin American (until c. 1945)
- ARTH 24900 - Twentieth-Century Art I
- ARTH 25000 - Twentieth-Century Art II
- ARTH 25100 - Contemporary Art
- ARTH 25500 - Modern Architecture I (1850-1950)
- ARTH 25600 - Modern Architecture II (from 1950 until today)
- ARTH 25700 - Postwar and Contemporary Art in Latin America
- ARTH 35100 - Special Topics Lecture in Modern Art (W)
- ARTH 45000 - Advanced Studies Seminar in Modern Art (W)

**Music**

Return to: Faculty of the School of Arts and Sciences

**Victor Bobetsky**, Professor, Music; BA Brooklyn, MA Hunter, DMA Miami

**Geoffrey Burleson**, Professor, Music; BMus Peabody, MMus New England Conservatory, DMA SUNY (Stony Brook)

**L. Poundie Burstein**, Professor, Music; BA Mannes, MA Queens, PhD CUNY

**Michele Cabrini**, Associate Professor, Music; BMus, MMus Peabody, MA, PhD Princeton

**Catherine Coppola**, Lecturer, Music; BS New York University, MM Manhattan School of Music, PhD CUNY

**Philip Ewell**, Associate Professor, Music; BA Stanford, MM Queens, PhD Yale

**Suzanne Farrin**, Professor and Chair, Music; BMus University of Colorado at Boulder, MA, MMA, DMA Yale
Music 42-Credit Major (BA)

This degree is designed for students planning to pursue professional careers in music. It provides basic training in all areas of music and serves as a foundation for graduate study of any aspect of the field.

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

- ENGL 12000 Expository Writing

Music BA-42-credit Major

Music history:

- MUSHL 20100 Introduction to Music Research
- MUSHL 20500 Music History I
- MUSHL 20600 Music History II (W)
- MUSHL 30500 Music History III (W)
- Any other 3-credit MUSHL course at the 300-level

Music theory:

- MUSTH 20100 Introduction to Music Technology
- MUSTH 22000 Music Theory I
- MUSTH 22100 Music Theory II
- MUSTH 23000 Musicianship I
- MUSTH 23100 Musicianship II
- MUSTH 32000 Music Theory III
- MUSTH 33000 Musicianship III
- Any other 3-credit MUSTH course at the 300-level
Performance:

2 credits in

- MUSPF 40100 Individual Instruction in Instrument or Voice

2 credits in large ensembles

- MUSPF 22100 College Choir

2 credits in performance electives

- MUSPF 22100 College Choir
- MUSPF 24900 Jazz Ensemble
- MUSPF 25000 Jazz and Popular Music Combos
- MUSPF 25100 Jazz Vocal Workshop Ensemble
- MUSPF 35300 Chamber Singers
- MUSPF 35500 Chamber Music Workshop
- MUSPF 36500 Topics in Piano Performance
- MUSPF 36900 Topics in Vocal Performance or MUSPF 40100 Individual Instruction in Instrument or Voice

Electives:

- 4 credits in music courses above the 100-level

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Graduate Curriculum

MUS 64100, MUS 64300, MUS 64500, MUS 64700, MUS 64900, MUS 65100, MUS 72400, MUS 75100, MUS 75200, MUS 77900, 3 cr. Music elective chosen in consultation with graduate adviser. (For course descriptions, see graduate catalog)

Music Bachelor's Degrees

Music

Overview

The Music Department offers students the chance to explore musical expression through performance and academic study. Opportunities to learn from some of the best theorists, musicologists and ethnomusicologists in the field exist alongside exciting performance opportunities for every playing and singing ability. All undergraduate music majors include training in performance, aural skills, music theory, and music history, in the context of a strong liberal-arts degree program. Many other subjects, including composition, arranging, computer music, and ethnomusicology are available as electives. The undergraduate programs provide both the foundation for further study of any area of music and a liberal-arts background that can serve as a basis for careers in other fields.
Our ensembles include College Choir, Chamber Singers, Opera, Jazz Vocal Workshop, Jazz Ensemble, Jazz and Popular Music Combos, Chamber Music, and the Hunter Symphony. The BA degree can be completed evenings or days. In addition, the department sponsors numerous extracurricular events, including concerts, lectures, and master classes. Private lessons in instruments and voice are provided to all performance majors and many other music majors by a distinguished roster of performance teachers. Financial aid is available to qualified performance majors and other majors who need to study with private teachers not on the staff.

**What can I do with my degree in Music?**

Graduates of the department go on to a variety of careers in music and beyond. Graduates of the BA/MA dual degree program in Music/Music Teacher Education Pre-K-12 - BA/MA are qualified to teach in the public elementary and high schools of New York State.

**Programs and Courses**

Programs and Courses in Music

**Graduate Study**

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

Degree Map for Music 60-credit BMus

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a BMus (60-credit)music major. The Degree Map is a tool to assist you and your adviser in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your adviser. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Freshman Year

Fall

MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required.
May be taken 8 times.
prereq: perm dept.
1 hr
3 cr.

MUSPF 22100 - College Choir

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.
3 hrs
1 cr.

MUSPF 23100 - Hunter Symphony

Rehearsal and performance of orchestral works. May be taken 8 times.
prereq: audition, perm instr.
3 hrs
1 cr.

MUSPF 21300 - Piano I

Basic piano techniques, scales and chords, exercises, simple pieces, and sight-reading.
prereq: declared music major or perm dept.
2 hrs
1 cr.

MUSHL 10100 - A Thousand Years of Listening
Hunter Core
Creative Expression (CE)

Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.

3 hrs
3 cr.

Notes

* determined by experience and placement test
** determined by placement test on the day of the audition

Minor in Music

The music minor consists of 15 credits in music: MUSTH 10100; MUSHL 10100 or MUSHL 10700; one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher. Prospective minors who have already mastered the material taught in the required 100-level courses (MUSTH 10100 and/or MUSHL 10100 or 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see Music 25-Credit Major (BA)). Music minors must substitute more advanced courses in any area of music study, which may include private lessons and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

Music - BMus

This degree is designed for students planning to pursue careers as professional performers of music or as teachers of music performance. It provides intensive instruction in the student's instrument or voice; solid training in music history and theory; and a broad, liberal arts education. Admission to this program is conditional on passing an audition preferably before the student enters college) demonstrating a high level of skill in performance.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement
Courses Required for the Major (60 cr.)

Music history:

**MUSHL 20100 - Introduction to Music Research**

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

3 hrs  
2 cr.  
offered fall

and any other 3-credit MUSTH course at the 300-level

**Private lessons:**

**MUSPF 43100 - Individual Instruction in Instrument or Voice**

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

*prereq:* perm dept.  
1 hr  
3 cr.

**Performance ensembles:**

**For instrumentalists - 6 credits in instrumental ensembles**

Choose 6 credits from the following:

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

*prereq:* audition, perm instr.  
3 hrs  
1 cr.

**MUSPF 24900 - Jazz Ensemble**

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs  
1 cr.
MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

*prereq: audition, perm instr.*

2 hrs  
1 cr.

MUSPF 25000 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

*prereq or coreq: audition, dept. permission required*

2 hrs  
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.

*coreq: MUSPF 40100 or 43100*

2 hrs  
1 cr.

For singers

6 credits in vocal ensembles

MUSPF 22100 - College Choir

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs  
1 cr.

MUSPF 25100 - Jazz Vocal Workshop Ensemble

Jazz performance and improvisation. May be taken 6 times.

*prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition*

2 hrs  
1 cr.

MUSPF 35300 - Chamber Singers

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

*prereq: audition, perm instr.*

2 hrs  
1 cr.
MUSPF 36900 - Topics in Vocal Performance

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.

prereq: ENGL 12000
coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

for singers, a minimum of 2 credits must be in MUSPF 36900

Electives:

- 4 credits in music courses above the 100-level.

Recital:

- A senior recital, for which no credit is given, is also required.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

2 credits in Individual Instruction

MUSPF 40100 - Individual Instruction in Instrument or Voice

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level
2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher. May be taken 8 times.

\textit{prereq: perm dept.}

\textit{1 hr}

\textit{1 cr.}

2 credits in large ensembles

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

\textit{3 hrs}

\textit{1 cr.}

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

\textit{prereq: audition, perm instr.}

\textit{3 hrs}

\textit{1 cr.}

2 credits in performance electives

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

\textit{3 hrs}

\textit{1 cr.}

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

\textit{prereq: audition, perm instr.}

\textit{3 hrs}

\textit{1 cr.}

**MUSPF 24900 - Jazz Ensemble**

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

\textit{2 hrs}

\textit{1 cr.}

**MUSPF 25000 - Jazz and Popular Music Combos**

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.
MUSPF 25100 - Jazz Vocal Workshop Ensemble

Jazz performance and improvisation. May be taken 6 times.

prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition

2 hrs
1 cr.

MUSPF 35300 - Chamber Singers

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

prereq: audition, perm instr.

2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.

2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

coreq: MUSPF 40100 or 43100

2 hrs
1 cr.

MUSPF 36900 - Topics in Vocal Performance

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

prereq: ENGL 12000

coreq: MUSPF 40100 or 43100

2 hrs
1 cr.

MUSPF 40100 - Individual Instruction in Instrument or Voice

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level
2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher. May be taken 8 times.

**prereq:** perm dept.

1 hr

1 cr.

**Electives:**

- 4 credits in music courses above the 100-level

**Piano Proficiency Requirement**

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

**Major Programs**

The Department of Music offers three undergraduate programs a BA/MA in Music Education for those going into a Music Education major at the graduate level. Students must take three examinations before declaring a music major:

1. **Music notation, rudimentary theory, and basic musicianship skills.** This examination is prerequisite to MUSTH 22000 (Music Theory I).

   Students who do not pass it must take MUSTH 10100 (Music Theory Fundamentals) or learn the material on their own, then repeat the examination.

2. **Elementary music history and literature.** This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 (Introduction to Music) or learn the material on their own, then repeat the examination.

3. **Performance audition on an instrument or voice.** This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York
State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study. Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Minor in Music

The music minor consists of 15 credits in music:

**MUSTH 10100 - Music Theory Fundamentals**

**Hunter Core**
Creative Expression (CE)
GER
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.

3 hrs
3 cr.

**MUSHL 10100 - A Thousand Years of Listening**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.

3 hrs
3 cr.

- or -

**MUSHL 10700 - The World of Music**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/A
For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.

3 hrs
3 cr.

- one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher.

Prospective minors who have already mastered the material taught in the required 100-level courses MUSTH 10100 and/or MUSHL 10100 or MUSHL 10700 may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see above). Music minors may substitute more advanced courses in any area of music study, including private lessons (subject to availability) and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

Grading Policies

Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.

Honors

To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition; or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

**MUSTH 49100 - Honors Project**

Upper Jr/Sr only. Individual project of large scope in music history, theory, composition, or performance.

**prereq:** minimum music GPA of 3.5, perm undergrad adviser

1 sem
3 cr.

- or -

**MUSTH 49200 - Honors Project**

**prereq:** MUSTH 49100

1 sem
3 cr.

Graduate Study
Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

**Music/Music Teacher Education Pre-K-12 - BA/MA**

**Major Programs**

The Department of Music offers three undergraduate and two BA/MA major programs to fit individual interests and requirements. Students must take three examinations before declaring a music major:

1. **Music notation, rudimentary theory, and basic aural skills.** This examination is prerequisite to MUSTH 22000 (Music Theory I).

   Students who do not pass it must take MUSTH 10100 (Basic Musicianship) or learn the material on their own, then repeat the examination.

2. **Elementary music history and literature.** This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 A Thousand Years of Listening or learn the material on their own, then repeat the examination.

3. **Performance audition on an instrument or voice.** This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study.

   Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

**Piano Proficiency Requirement**

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the second year of study in music theory (MUSTH 32000 and MUSTH 32100). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

**5- to 6-Year Dual BA/MA Degree in Teacher Education**

Exceptionally qualified students may obtain a master's degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus requirements for the MA degree in music teacher education (see graduate catalog). Students may be admitted to this program only after they have completed at least 60 credits of college work, including at least 29 credits in music (three semesters of music history, four semesters of music theory, and four semesters of musicianship). At least 12 credits (including six in music) must have been taken at Hunter College, and students must have a cumulative GPA of at least 3.5 with no grade of less than B in any music course. They must have passed the Music Department's piano proficiency examination and an audition-interview demonstrating reasonable mastery of an instrument or voice.

Admission requires the consent of both the Music Department and the School of Education. See the The School of Education section of this catalog for more information on applying to the PreK-12 Music Education (BAMA) program.
Minor

For 25-credit music majors, the minor consists of 12 credits in a field of study leading to a BA degree and approved by the Music Department adviser. Double-majors and students in other music major programs are exempt from the minor requirement. Minor courses can be used without limit to satisfy stages 1, 2, and 3 of the GER.

Minor for non-Majors

For students minoring in music, the requirements are determined by the student’s major department. See your major adviser. The Music Department recommends the following courses. Because 300-level courses are intended primarily for music majors and have extensive prerequisites, students whose major departments require a 300-level course in the minor may, with permission of their adviser, substitute a 200-level course in the music minor.
