Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Honors College (NCF)

Admission Program Objective Code: HONA State CIP Code: 1192401010
Offered at NCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240199, track 1/2 *See note in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Honors College (FAU)

Admission Program Objective Code: HONB State CIP Code: 1192401010
Offered at FAU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240199, track 2/2 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Marine/Aquatic Biology

Admission Program Objective Code: MARI State CIP Code: 1192401010
Offered at FIU, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 261302 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 1046C - College Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better

in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II

4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Marketing, Other - Advertising

Admission Program Objective Code: MARO State CIP Code: 1192401010

Offered at USF* Individual course requirements at specific institutions may sometimes differ from the published Common Course

Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521499 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Materials Engineering

Admission Program Objective Code: MATE State CIP Code: 1192401010

Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141801 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Mathematics Teacher Education - Secondary Mathematics Education

Admission Program Objective Code: MATR State CIP Code: 1192401010
Offered at BC, CC, DSC, FSWSC, FAMU, FAU, IRSC, UCF, UNF, USF, SPC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131311, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

MACXXXX - Any course with the MAC prefix or
MTGXXXX - Any course with the MTG prefix or
MASXXXX - Any course with the MAS prefix
* See Notes on Common Course Prerequisite Manual
This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

A laboratory based science course for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C , PHY 2048C , PHY 2049C)

* See Notes on Common Course Prerequisite Manual

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

AA Transfer Major: Mechanical Engineering

Admission Program Objective Code: MECH State CIP Code: 1192401010

Offered at FAMU, FAU, FIU, FPU, FSU, UCF, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141901 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Medical Technology/Clinical Laboratory Sciences

Admission Program Objective Code: MEDC State CIP Code: 1192401010
Offered at USF, SFC, FGCU, UCF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 511005 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Meteorology - Meteorology

Admission Program Objective Code: METE State CIP Code: 1192401010

Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400401, track 1/2 * See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

* See Notes on Common Course Prerequisite Manual
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I
This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II
This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I
This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Microbiology/Bacteriology

Admission Program Objective Code: MCBA State CIP Code: 1192401010
Offered at UCF, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260503 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Middle Eastern Studies

Admission Program Objective Code: MIDE State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050108 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Multi-/Interdisciplinary Studies

Admission Program Objective Code: MULT State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300000 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Advertising

Admission Program Objective Code: ADVE State CIP Code: 1192401010
Offered at UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm

program requirements. Transfer Program CIP code: 090903 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Chemical Sciences - FSU Teach

Admission Program Objective Code: CMST State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400599, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The

principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
* See Notes on Common Course Prerequisite Manual
In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Community Health

Admission Program Objective Code: COMH State CIP Code: 1192401010
Offered at FGCU, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512208 * See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique.

Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105 - College Algebra

or

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 4 Credit Hours (Required at UF)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer & Information Science- Information Systems

Admission Program Objective Code: CIS State CIP Code: 1192401010
Offered at FAMU. FIU, UF, UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 3/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - High level programming language course*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1550 - Introduction to World Wide Web

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World

Wide Web and the Internet.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer & Information Science - Information Technology

Admission Program Objective Code: CIIT State CIP Code: 1192401010

Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 5/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1570 - Computer Applications for Business

An introductory object-oriented computer programming course* (COP 2224 , COP 2228 , COP 2360 , COP 2362 , COP 2654 , COP 2658 , COP 2660 , COP 2662 , COP 2800 , COP 2805 , COP 2833)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

* See Notes on Common Course Prerequisite Manual

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

SPCXXXX - Any course with the SPC prefix

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer Networking (BAS)

Admission Program Objective Code: CNET State CIP Code: 1192401010
Offered at FSCJ Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110901 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Cardiopulmonary Science

Admission Program Objective Code: CARD State CIP Code: 1192401010
Offered at FSWSC, VC*, FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510908 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1005 - General Biology and BSC 1005L - Biology Lab 1 Credit Hour

or

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

* See Notes on Common Course Prerequisite Manual

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Dietetics/Nutritional Services

Admission Program Objective Code: DIET State CIP Code: 1192401010

Offered at FIU*, FSU, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513101, track 1/2 * See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I and CHM 1046C - College Chemistry II 4 Credit Hours

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The

principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Dietetics/Nutritional Services - Dietetics

Admission Program Objective Code: DIEN State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Agriculture Science

Admission Program Objective Code: AGRS State CIP Code: 1192401010

Offered at UFAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 010000 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds,

and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

or

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Economics - Business

Admission Program Objective Code: ECOB State CIP Code: 1192401010

Offered at FAMU, FAU, UF, UNF, USF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450601, track 2/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Environmental Science

Admission Program Objective Code: ENVS State CIP Code: 1192401010

Offered at FSU (BA only), UF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030104, track 1/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BOT 1010C - Botany

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope

slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

or

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

GLY 2010C - Principles of Geology I

* See Notes on Common Course Prerequisite Manual

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth's interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

MAC 1105 - College Algebra *

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra

or

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1020 - Physical Science *

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling

distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Geoscience - FSU Teach

Admission Program Objective Code: GEOS State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141401, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
* See Notes on Common Course Prerequisite Manual
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Health Information Management

Admission Program Objective Code: HEIM State CIP Code: 1192401010
Offered at FAMU, UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510706 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

CGSXXXX - Any course with the CGS prefix

* See Notes on Common Course Prerequisite Manual

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health Science - Pre-Clinical/Pre-Physical Therapy

Admission Program Objective Code: HSPC State CIP Code: 1192401010

Offered at FAMU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 3/7 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ECO 2013 - Economics I

* See Notes on Common Course Prerequisite Manual

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health Science - Pre-Occupational Therapy

Admission Program Objective Code: HSPO State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 4/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of

equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

or

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

PSY 2012 - Psychology

or

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health Science

Admission Program Objective Code: HESC State CIP Code: 1192401010
Offered at FGCU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 5/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Interior Design (BAS)

Admission Program Objective Code: INDE State CIP Code: 1192401010
Offered at SSCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500408, track 3/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Journalism

Admission Program Objective Code: JOUR State CIP Code: 1192401010
Offered at UCF*, FAMU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

* See Notes on Common Course Prerequisite Manual
Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Mathematics, General - FSU - Teach

Admission Program Objective Code: MFSU State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270101, track 3/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - A scientific programming course designed for computer science majors* (COP 2011 , COP 2222 , COP 2228 , COP 2362 , COP 2658 , COP 2662 , COP 2805 , COP 2833 , COP 2840)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

A laboratory based science course for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C , PHY 2048C , PHY 2049C)
This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their

applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
* See Notes on Common Course Prerequisite Manual
This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

AA Transfer Major: Motion Picture & Television Technology

Admission Program Objective Code: MOTP State CIP Code: 1192401010
Offered at FSU*, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500602, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Biology, General - FSU - Teach

Admission Program Objective Code: BIOF State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and

ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc

lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II I 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Nuclear Engineering

Admission Program Objective Code: NUCL State CIP Code: 1192401010

Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 142301 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations
This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I
This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Nursing

Admission Program Objective Code: NRSN State CIP Code: 1192401010
Offered at FAMU*, FAU*, FGCU*, FIU*, FSU*, UCF*, UF*, UNF*, USF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513801, 1/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
BSCXXXX - Any course with the BSC prefix or
CHMXXXX - Any course with the CHM prefix or

PHYXXXX - Any course with the PHY prefix
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

or
SYGXXXX - Any course with the SYG prefix
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

AA Transfer Major: Paralegal Studies (BAS)

Admission Program Objective Code: PLAA State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 220302, 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Parks & Recreation Management - Instruction

Admission Program Objective Code: PKRE State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 1/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

DEP 2004 - Human Growth and Development
A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PSY 2012 - Psychology
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Parks & Recreation Management - Recreation, Tourism & Events

Admission Program Objective Code: PRKR State CIP Code: 1192401010
Offered at 310301, track 2/6 Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131311 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

AA Transfer Major: Parks & Recreation Management - Recreation and Tourism

Admission Program Objective Code: PRKT State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 3/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Parks & Recreation Management - Hospitality, Recreation & Resort Management

Admission Program Objective Code: PRKH State CIP Code: 1192401010

Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 5/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Parks & Recreation Management

Admission Program Objective Code: PRKF State CIP Code: 1192401010

Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 6/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

AA Transfer Major: Pharmaceutical Science

Admission Program Objective Code: PHAR State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512099 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be

discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Pharmacy (Pharm D)

Admission Program Objective Code: PHAD State CIP Code: 1192401010
Offered at FAMU*, UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512001 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II
This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 4 Credit Hours

or

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

* See Notes on Common Course Prerequisite Manual

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Philosophy

Admission Program Objective Code: PHIL State CIP Code: 1192401010

Offered at FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 380101 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Philosophy and Religion

Admission Program Objective Code: PHRL State CIP Code: 1192401010

Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm

program requirements. Transfer Program CIP code: 389999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Photonics Science and Engineering

Admission Program Objective Code: PHEN State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141003 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space,

quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Physical Education Teacher Education

Admission Program Objective Code: PHED State CIP Code: 1192401010
Offered at FIU, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131314 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

or

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

PET 2622 - Care and Prevention of Athletic Injuries

PELXXXX - 4-5 credit hours of courses with the PEL prefix

PEMXXXX - 3 hours of courses with the PEM prefix

* See Notes on Common Course Prerequisite Manual

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Physical Science

Admission Program Objective Code: PHSC State CIP Code: 1192401010

Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400899, track 1/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Physical Science - FSU Teach

Admission Program Objective Code: PHYT State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400899, track 2/2 Common Course Prerequisite Manual

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Physics Teacher Education

Admission Program Objective Code: PHTE State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400801, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I
This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Political Science & Government

Admission Program Objective Code: POTL State CIP Code: 1192401010
Offered at FAU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

POS 1041 - American Government

* See Notes on Common Course Prerequisite Manual
Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Age 3 through Grade 3

Admission Program Objective Code: ECHA State CIP Code: 1192401010
Offered at CCF, FAMU, FGCU, FSCJ, FSU*, SJRSC, UCF, UNF, UWF, SPC, USF, USFSM, FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131210, track 1/3 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Birth through Age 4 (NWF)

Admission Program Objective Code: ECHB State CIP Code: 1192401010
Offered at NWFSC, SCFMS, SFC, FGC (CIP 131210, track 2/3 is Early Childhood Teacher Ed - Birth through 4 at NWFSC) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131210, track 2/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1601 - Assessment in Early Childhood Education

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EEC 1949 - Internship, Early Childhood Education

* See Notes on Common Course Prerequisite Manual
On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
EEC 1309 or EEC 1201 .

AA Transfer Major: Professional Communication

Admission Program Objective Code: PRCO State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090900 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Project Management (BAS - NWF)

Admission Program Objective Code: PROJ State CIP Code: 1192401010
Offered at NWFSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520202 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Psychobiology

Admission Program Objective Code: PSYB State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 422706 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without

Calculus II 4 Credit Hours

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Psychology, General

Admission Program Objective Code: PSCH State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU*, UCF, UF*, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 420101
* See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

PSY 2012 - Psychology

One of the following Psychology courses: CLP 1001 , CLP 2140 , DEP 2004 , DEP 2100
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
One of the following Biology courses: BSC 1005 , BSC 1010C , BSC 1011C , BSC 1080 , BSC 1085C , BSC 1086C , BSC 2020C or

ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Public Policy and Administration

Admission Program Objective Code: PUBP State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, IRSC, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):
none

Note:
▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

* See Notes on Common Course Prerequisite Manual
Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Public Relations & Organizational Communication

Admission Program Objective Code: PUBC State CIP Code: 1192401010
Offered at FAMU*, UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090902 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ECO 2013 - Economics I

* See Notes on Common Course Prerequisite Manual
This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Public Safety Mgt (BAS) or Public Admin (BAS) or Public Safety/Homeland Security

Admission Program Objective Code: PBHL State CIP Code: 1192401010
Offered at FAU, FSCJ, FSWSC, MDC, SCFMS, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 439999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Admission Program Objective Code: RDTC State CIP Code: 1192401010
Offered at VC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510907 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

To be admitted, a student must have current American Registry of Radiologic Technologists (ARRT) certification.*
* See Notes on Common Course Prerequisite Manual
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

AA Transfer Major: Real Estate

Admission Program Objective Code: REAL State CIP Code: 1192401010
Offered at FAU, FIU, FSU*, UCF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521501 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Religious Studies

Admission Program Objective Code: RELG State CIP Code: 1192401010

Offered at FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 380201 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Resort & Hospitality Management

Admission Program Objective Code: RSHO State CIP Code: 1192401010
Offered at FGCU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520906 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

HFT 1000 - Introduction to Hospitality Management

* See Notes on Common Course Prerequisite Manual
This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Restaurant and Food Service Management

Admission Program Objective Code: REST State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520905 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Rhetorical Speech & Communication

Admission Program Objective Code: RHET State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 231304 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

SPC 1608 - Public Speaking

* See Notes on Common Course Prerequisite Manual
Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Russian & East European Studies

Admission Program Objective Code: RUSS State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050105 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Science Teacher Education - Biology Teacher Education (FAMU, FAU, UCF, UNF, USF)

Admission Program Objective Code: STEB State CIP Code: 1192401010
Offered at FAMU, FAU, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 1/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and

ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

Choose any two of the following:

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Science Teacher Education - Earth/Space Teacher Education

Admission Program Objective Code: STEE State CIP Code: 1192401010
Offered at DSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 3/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I and BSC 1011C - Principles of Biology II 4 Credit Hours

or

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

Any two of the following:

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Science Teacher Education - Chemistry Teacher Education (DSC, MDC)

Admission Program Objective Code: SCIC State CIP Code: 1192401010

Offered at DSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131323 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

AA Transfer Major: Secondary Teacher Ed - English

Admission Program Objective Code: SETE State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131205, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ENL 2012A - English Literature I

or

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature II

* See Notes on Common Course Prerequisite Manual

A study of English literature from the Romantics through the modern era, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SPC 1608 - Public Speaking

LITXXXX - Any course with the LIT prefix or

AMLXXXX - Any course with the AML prefix

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Secondary Teacher Ed - Social Science

Admission Program Objective Code: SESS State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131205, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

ECOXXXX - Any course with the ECO prefix or
SOCXXXX - Any course with the SOC prefix or
ANTXXXX - Any course with the ANT prefix or
PSYXXXX - Any course with the PSY prefix or
GEAXXXX - Any course with the GEA prefix
* See Notes on Common Course Prerequisite Manual
Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Social Psychology

Admission Program Objective Code: SOPS State CIP Code: 1192401010

Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 422707 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Social Sciences Teacher Ed (History, Social Science, Economics, and Political Science)

Admission Program Objective Code: SSTE State CIP Code: 1192401010

notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1005 - General Biology

or

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful

completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

or

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Sociology - Anthropology

Admission Program Objective Code: SOAN State CIP Code: 1192401010
Offered at FUI Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451101, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ANT 2000 - Introduction to Anthropology

* See Notes on Common Course Prerequisite Manual
Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Sociology

Admission Program Objective Code: SOCI State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FSU, UCF, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. Transfer Major Required Courses*

SPN 1120 - Spanish I

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SPN 1121 - Spanish II

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

SPN 1120 or an equivalent course with a grade of “C” or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2220 - Spanish III

* See Notes on Common Course Prerequisite Manual

Intermediate level review of grammar, readings in Spanish Literature, and development of conversational and writing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

SPN 1121 or an equivalent course with a grade of “C” or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

AA Transfer Major: Special Education, General

Admission Program Objective Code: SPED State CIP Code: 1192401010
Offered at BC, CC, DSC, FAU, FGCU, FIU, FSU, UCF, UF*, UNF, USF, USFSM, USFSP, UWF, SPC, IRSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131001 Common Course Prerequisite Manual

Transfer Major Required Courses

STA 2023 - Statistics

BSCXXXX - Any course with the BSC prefix
PHYXXXX - Any course with the PHY prefix or
CHMXXXX - Any course with the CHM prefix
PSYXXXX - Any course with the PSY prefix or
CLPXXXX - Any course the the CLP prefix or
DEPXXXX - Any course with the DEP prefix or
SYGXXXX - Any course with the SYG prefix
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Speech Pathology & Audiology (FSU, UCF, UF, USF)

Admission Program Objective Code: SPCP State CIP Code: 1192401010
Offered at FSU*, UCF, UF*, USF, USFSM Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510204, track 1/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

STA 2023 - Statistics

BSCXXXX - Any course with the BSC prefix

PHYXXXX - Any course with the PHY prefix or
CHMXXXX - Any course with the CHM prefix
PSYXXXX - Any course with the PSY prefix or
CLPXXXX - Any course with the CLP prefix or
DEPXXXX - Any course with the DEP prefix or
SYGXXXX - Any course with the SYG prefix
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Speech Pathology & Audiology - Deaf Studies Concentration

Admission Program Objective Code: SPCH State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510204, track 3/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Sport Management

Admission Program Objective Code: SPME State CIP Code: 1192401010
Offered at FSU, UF, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310504 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
MARXXXX - Any course with the MAR prefix or
GEBXXXX - Any course with the GEB prefix
MANXXXX - Any course with the MAN prefix or
BULXXXX - Any course with the BUL prefix or
CGSXXXX - Any course with the CGS prefix or

STA 2023 - Statistics 4 Credit Hours or
ACGXXXX - Any course with the ACG prefix

HFT 1000 - Introduction to Hospitality Management

or
ECOXXXX - Any course with the ECO prefix (ECO 2013 or ECO 2023)
This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PET 2622 - Care and Prevention of Athletic Injuries

* See Notes on Common Course Prerequisite Manual
Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Statistics

Admission Program Objective Code: STAT State CIP Code: 1192401010
Offered at FIU, FSU, UCF, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - A scientific programming course designed for computer science majors* (COP 2011 , COP 2222 , COP 2228 , COP 2362 , COP 2658 , COP 2662 , COP 2805 , COP 2833 , COP 2840)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

Two laboratory based science courses for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C , PHY 2048C , PHY 2049C)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Studio/Fine Art

Admission Program Objective Code: SDAR State CIP Code: 1192401010

Offered at FAMU, FGCU,, FIU, FSU*, UCF, UF*, UNF*, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500702, track 1/2

* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

 Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

ARTXXXX - Two courses with the ART prefix

* See Notes on Common Course Prerequisite Manual

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

or

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2330C - Figure Drawing I

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

AA Transfer Major: Studio/Fine Art - Graphic Design

Admission Program Objective Code: SDGD State CIP Code: 1192401010

Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm

program requirements. Transfer Program CIP code: 500702, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2602C - Digital Imaging I

ARHXXXX - Any course with the ARH prefix

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

GRA 2190C - Graphic Design I

GRAXXXX - Any course with the GRA prefix

* See Notes on Common Course Prerequisite Manual

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

AA Transfer Major: Management and Supervision (BAS - NWF)

Admission Program Objective Code: SVMG State CIP Code: 1192401010
Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC (Also see Supervision and Management) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Supply Chain Management (BAS)

Admission Program Objective Code: SUPP State CIP Code: 1192401010
Offered at BC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520203, track 1/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Science Teacher Education - Chemistry Teacher Education (FAMU, FAU, UCF, UNF, USF)

Admission Program Objective Code: STEC State CIP Code: 1192401010
Offered at FAMU, FAU, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, 2/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Surveying

Admission Program Objective Code: SURV State CIP Code: 1192401010

Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 151102 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Sustainability Management - BAS

Admission Program Objective Code: SUST State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Sustainability and Built Environment

Admission Program Objective Code: SSBL State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 303301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Teacher Education, Multiple Levels

Admission Program Objective Code: TCHE State CIP Code: 1192401010
Offered at USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131206 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Technology Management (BAS)

Admission Program Objective Code: TCMG State CIP Code: 1192401010
Offered at BC, FSCJ, GCSC, PBSC, SCFMS, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 111099 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Tourism and Travel Services Management

Admission Program Objective Code: TOUR State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520907 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Trade & Industrial Teacher Ed (Vocational)

Admission Program Objective Code: TRAD State CIP Code: 1192401010
Offered at FAMU, FIU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131320 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Transportation Management

Admission Program Objective Code: TRAN State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520209 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1550 - Introduction to World Wide Web

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World Wide Web and the Internet.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Urban & Regional Planning

Admission Program Objective Code: URBA State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 040301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Urban Design

Admission Program Objective Code: URDS State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 040401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Veterinary Technology (BAS)

Admission Program Objective Code: VET State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510808 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Vocational Rehabilitation Counseling

Admission Program Objective Code: VOCR State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512310 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1005 - General Biology

SYGXXXX - Any course with the SYG prefix
* See Notes on Common Course Prerequisite Manual
The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Women's Studies

Admission Program Objective Code: WOMN State CIP Code: 1192401010
Offered at FIU, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050207 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Zoology

Admission Program Objective Code: ZOO State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Environmental Studies

Admission Program Objective Code: ENVT State CIP Code: 1192401010
Offered at FGCU, FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030103 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also

includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

GLY 2010C - Principles of Geology I

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth's interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Supervision & Management (BAS), Organizational Mgt (BAS), Business & Org Mgt (BAS), Administration & Supervision (BAS), Spvr & Org Mgt (BAS) Mgt & Org Leadership (BAS)

Admission Program Objective Code: SVMG State CIP Code: 1192401010
Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC (CIP 520299 is Management and Supervision at NWFSC) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

Welding Technology (PSAV)

Admission Program of Study Code WELT State CIP Code 0648050805
This program offers a broad foundation of knowledge and skills to prepare students for employment in the welding industry.
Basic Skills Requirements: The student must be exempt or attain a 9th grade level on each section of the TABE exam: Math, Language and Reading.

Core Courses

PMT 0106C - Welder Helper

This course provides instruction in shop safety, the use of safety procedures and protective equipment needed in a welding shop. Course incudes basic shop math, shop safety, welding equipment setup/teardown procedures.

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0111C - Metal Preparation

This course provides instruction in different metal preparation processes including: thermal preparation (oxygen/fuel cutting, carbon arc cutting, plasma torch cutting). The student will also learn mechanical preparation (band saw, grinder, power brush, and other metal prep equipment).

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0121C - Introductory Shielded Metal Arc Welding (SMAW)

This course provides instruction and demonstration using Shielded Metal Arc Welding (SMAW). Topics include visually inspect of welds, and basic SMAW technical terminology. Basic structural welding techniques will be demonstrated in accordance with American Welding Society (AWS) D1.1 Structural Welding Code. Tack welding and metal joint fit of carbon steel is covered in this course.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0122C - Basic Shielded Metal Arc Welding (SMAW)

This course introduces structural fillet welds in different joint positions in accordance with AWS D1.1 Structural Welding Code. Fillet welds will be performed on carbon steel plate of various thicknesses.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):

PMT 0121C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0126C - Intermediate Shielded Metal Arc Welding (SMAW)

This course provides the student with instruction on joint design, joint preparation, and fit-up, and performance of groove welds with backing. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of groove welds with backing and make acceptable groove welds with backing using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):

PMT 0122C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0127C - Advanced Shielded Metal Arc Welding (SMAW)

This course provides the student with advanced instruction on joint design, joint preparation, and fit-up, and performance of open groove welds. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of open groove welds and make acceptable open groove welds in all positions using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Spring, Summer) Prerequisite(s):

PMT 0126C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0134C - Gas Metal Arc Welding (GMAW)

This course provides instruction and demonstration using the various transfer methods and techniques of Gas Metal Arc Welding (GMAW). Topics included are safety, equipment set-up, joint design and preparation, and gases.

Credit Hour(s): 50 Clock Hours When Offered: (Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0145C - Flux-Core Arc and Gas Tungsten Arc Welding

This course provides instruction and demonstration using the various transfer methods and techniques to flux cored arc and gas tungsten arc welds. Topics included are safety, equipment set-up, joint design and preparation, and gases. Students study basic Flux-Core Arc Welding (FCAW), basic Gas Tungsten Arc Welding (GTAW), and basic understanding of pipe welding. Welding symbols and blueprint reading is covered in this course.

Credit Hour(s): 400 Clock Hours When Offered: (Fall, Spring) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 1050

Suggested Academic Plan

Welding Technology - Advanced (PSAV)

Admission Program of Study Code WELA State CIP Code 0648050806
This program offers a broad foundation of knowledge and skills to prepare students for employment in the welding industry.

Core Courses

PMT 0165C - Shielded Metal Arc Weld (SMAW) Pipe Welding
This course introduces the student to the practices and procedures of welding carbon steel pipe using the Shielded Metal Arc Weld (SMAW) process. Emphasis is placed on pipe positions, electrode selection, joint geometry, joint preparation and fit-up. Upon completion, students should be able to demonstrate pipe positions, proper electrodes selection, proper joint geometry, joint preparation, fit-up, and proper SMAW pipe welding techniques in accordance with applicable codes.
Credit Hour(s): 200 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0171C - SMAW-GTAW Pipe Welding
This course is designed to provide the students with skills in welding carbon steel pipe using Shielded Metal Arc Weld process and Gas Tungsten Arc Weld (GTAW) processes using proper filler metals in the 2G, 5G, and 6G positions. Upon completion, students should be able to perform shielded metal arc welding process and gas tungsten arc welding on carbon steel pipe with the prescribed filler metals in the 2G, 5G, and 6G position in accordance with the applicable code.
Credit Hour(s): 400 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0173C - Specialty Pipe Welding
This courses covers advanced pipe welding and is designed to build advanced GTAW skills. This course covers advanced Gas Tungsten Arc Welding (GTAW) on alloy pipe and heavy wall carbon pipe.
Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and

Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 750

Suggested Academic Plan

AA Transfer Major: Early Childhood Teacher Ed - Birth through Age 4 (NWF)

Admission Program Objective Code: ECHB State CIP Code: 1192401010
Offered at NWFSC, SCFMS, SFC, FGC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131210, track 2/3 Common Course Prerequisite Manual (Also see AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Birth through Age 4 (NWF))
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1601 - Assessment in Early Childhood Education

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EEC 1949 - Internship, Early Childhood Education

* See Notes on Common Course Prerequisite Manual
On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

EEC 1309 or EEC 1201 .

Firefighter/Emergency Medical Technician-Combined (PSAV)

Admission Program of Study Code FIEM State CIP Code 0743020312
Basic Skills Requirements: The student must be exempt or attain a 10th grade level on each section of the TABE exam: Math, Language and Reading.
Entry into the Firefighter/Emergency Medical Technician-Combined Program requires meeting the standards established by the Florida Division of State Fire Marshal, Bureau of Fire Standards and Training. A copy of these requirements is available through the Public Safety Division of NWF State College.
Firefighters are trained to extinguish and control fires in response to situations where property, life, or the environment is in danger. At the scene of an emergency, firefighters perform tasks assigned by their commanding officer. Depending on the situation, they may need to provide medical attention, break through debris, operate fire hoses, or enter a burning building. Firefighters are often first responders to car accidents, heart attack scenes, and other medical emergencies that do not involve fire.
Graduates of this program will be eligible to apply for the examinations to become both a Florida Certified Emergency Medical Technician/National Registry Emergency Medical Technician Basic and Florida Fire Standards. This will allow graduates to obtain employment as a firefighter EMT after 2 semesters of training.
The Firefighter/EMT Certificate program is two semester program that consists of Firefighter standards and EMT training. Applicants to this program must have a high school diploma or GED and meet other applicable admission criteria. If the number of qualified applicants to the program exceeds the number of openings, students will be accepted using a combination of application points . Contact the Emergency Services Office at (850) 729-4924 for additional information.
Students who successfully complete this certificate may be eligible to receive credits towards the Emergency Administration & Management (AS) degree (State CIP Code 1743030200).

Core Courses

FFP 0010 - Firefighting I

This course is the first part of the Basic Fire Recruit Academy and prepares students for a career as a volunteer firefighter. Classroom instruction includes a variety of fire related topics which are reinforced and enhanced through practical skills activities. Upon completion, the student is eligible to test for certification as a volunteer firefighter through the Florida State Fire College and may elect to continue training in Firefighter II to pursue state certification as a career firefighter. Permission of the Public Safety Division is required.

Credit Hour(s): 206 Clock Hours When Offered: (Offered as needed) Corequisite(s):

FFP 0077 unless previous certification has been obtained for first responder, EMT, or paramedic.

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0020 - Firefighting II

This course is the second part of the Basic Fire Recruit Academy and prepares students for a career as a firefighter. The delivery of instruction includes a variety of training in practical skills necessary for the mastery of the basic competencies required in the program. Upon successful completion of this course, the student is eligible to take the Bureau of Fire Standards and Training written and practical examination. Permission of the Public Safety Division is required.

Credit Hour(s): 192 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

FFP 0010 or FFP 0077

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

EMS 0119 - Emergency Medical Technician for Firefighters

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 140 Clock Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Permission of the EMS Director

Corequisite(s):

FFP 0010, FFP 0020, EMS 0119L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

EMS 0119L - Emergency Medical Technician Lab for Firefighters

This course provides an integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 160 Clock Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Permission of the EMS Director.

Corequisite(s):

FFP 0010, FFP 0020, EMS 0119

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 698

Suggested Academic Plan

Hospitality and Tourism (AS)

Hospitality and Tourism
Admission Program of Study Code HSTR
State CIP Code 1252090101
The Hospitality and Tourism program prepares students for employment in management positions in the hospitality industry and/or provides supplemental training for persons previously or currently employed in these occupations. The hospitality industry as addressed in this program includes the hotel, motel, bed and breakfast, resort, club, marina, and other lodging organizations.

General Education

Total General Education Credits Required: 18

Core Courses

Total Core Credits Required: 30

Technical Elective Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

passing score on placement test.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1300 - Managing Housekeeping Operations

Provides an overview of the fundamentals of housekeeping management. Describes management functions, tools, and practices required in today's lodging and institutional housekeeping departments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1500 - Marketing and Sales in the Hospitality Industry

How to sell and promote the many services the food service/lodging industries offer guests. How to operate a sales and convention department.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2940 - Hospitality Internship

This course consists of on-the-job experience supplied by the hotel-motel-resort- restaurant industries. Job placement will be dependent upon the availability of participating hospitality institutions. The course consists of 30 hours per semester of on-the-job instruction accompanied by a seminar class.

Credit Hour(s): 1 Credit Hour When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2941 - Hospitality Internship

This course consists of on-the-job experience supplied by the hotel-motel-resort- restaurant industries. Job placement will be dependent upon the availability of participating hospitality institutions. The course consists of 60 hours per semester of on-the-job instruction accompanied by a seminar class.

Credit Hour(s): 2 Credit Hours When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2942 - Hospitality Internship

This course, an extension of Hospitality Internship (HFT2941), consists of on-the-job work experience supplied by the hotel, motel, resort and restaurant industries. Students will concentrate on 3 specific areas or functions that are career-goal oriented. Job placement will be dependent upon availability of participating hospitality institutions. The course consists of 90 hours of on-the-job instruction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FOS 2201 - Food Service Sanitation Management

Scientific rationales for safety and sanitation procedures; causes of food-borne illnesses and preventative measures, sanitation practices, and food safety regulations and practices.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1120 - Food and Beverage Purchasing

Contracts and procedures involved in volume food and beverage purchasing, procedures for receiving, storing, and issuing food, beverages, and other supplies, and writing specifications.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1203C - Quantity Food Production

This course is designed to assist students to recognize the operational procedures of food services, career and job opportunities, to recognize techniques in preparing a bake station, beverage, and pantry items. To use standard recipes and commercial tools and equipment to demonstrate safe work procedures, and to demonstrated employability, leadership, and organizational skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1250 - Dining Room Management

The various types of service appropriate to coffee shops, dining rooms, luncheons, banquets, and buffets. The relationship between menu, equipment, supplies, merchandising, and personnel and patron acceptance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2251 - Food and Beverage Management

Purchasing, receiving, storage, preparation, and service of food and beverages. Including the layout and design of storage and kitchen facilities, scheduling, financial management techniques, personnel management, and sanitation and safety.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
FSS 1120 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2500 - Food and Beverage Cost Control

Materials and labor cost and controls to include inventories, payroll preparation and processing, preparing of reports, insurance and tax procedures, and maximizing economy and profits.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 12

Total Program Credits Required: 60

Suggested Academic Plan

Fire Officer Supervisor (CCC)

Admission Program of Study Code FSUP
State CIP Code 0743020111
Earning this certificate increases management skills for professionals employed as Fire Fighters. The purpose of this certificate is to prepare students for employment as Firefighting and Prevention Supervisors to supervise Fire Fighters who control and extinguish fires, protect life and property, and conduct rescue efforts. The program is beneficial to professionals seeking career field enhancement. This program does not prepare students for certification as Fire Fighters. A student must successfully complete the basic recruit program in firefighting to become certified, pursuant to Chapter 633, Florida Statutes. This program does not complete the requirements to be eligible to sit for Bureau of Fire Standards and Training (BFST) certification exams. A student must contact the Bureau of Fire Standards and Training (BFST) for additional requirements.

Core Courses

FFP 1740 - Fire Service Course Delivery

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2610 - Fire Behavior and Combustion

Study of cause and origin of fires with emphasis on fire inspector's or fire officer's role in the investigation process. The course deals with determination of fire cause and origin, collection of evidence, and investigator's preparation for trial.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2770 - Ethical and Legal Issues for the Fire Service

This course teaches the federal, state, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases. It also includes labor relations, human rights and diversity, conflicts of interest and frameworks for ethical decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1702 - Principles of Emergency Services

This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/services; fire loss analysis, organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

Total Program Credits Required: 12

Fire Science Technology (AS)

Admission Program of Study Code FSCI
State CIP Code 1743020112

The Fire Science Technology Associate in Science degree program offers students a sequence of courses designed to provide relevant technical knowledge needed to prepare students for entry or advancement in the fire service or in a related fire protection

field. A technical certificate, Fire Officer Supervisor (6455) (T.C.), is included as an option within this degree program. Students may pursue the A.S. degree and earn the technical certificate while completing the requirements for the degree, or pursue the certificate to develop or upgrade their skills. Contact an advisor or counselor to determine the career education path that is best for you.
Career Opportunities In addition to community fire departments, there are opportunities in government installations such as airports, as well as private fire-fighting companies. There is also a need for inspectors, investigators, forest rangers and smoke jumpers. In all cases, employment is based on high test scores and outstanding skills.

General Education

Total General Education Credits Required: 18

Core Courses

FFP 1505 - Fire Prevention Practices

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1540 - Private Fire Protection Systems

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1740 - Fire Service Course Delivery

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1810 - Firefighting Tactics and Strategy I

This course is a study of the principles utilized on the fire ground for maximum manpower and equipment utilization; fire ground administration starting with a small fire on up through major conflagrations. Emphasis will be on developing thinking skills in relation to crises.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2120 - Fire Service Building Construction

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2610 - Fire Behavior and Combustion

Study of cause and origin of fires with emphasis on fire inspector's or fire officer's role in the investigation process. The course

deals with determination of fire cause and origin, collection of evidence, and investigator's preparation for trial.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2720 - Company Officer

Designed to assist fire officers in solving the varied problems and situations they will be required to manage effectively in today's ever changing fire service. The curriculum includes a review of fire department organization and administration, management theory, leadership, communication, motivation, and small group dynamics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2770 - Ethical and Legal Issues for the Fire Service

This course teaches the federal, state, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases. It also includes labor relations, human rights and diversity, conflicts of interest and frameworks for ethical decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2780 - Fire Department Administration

The course is designed to present the principles of management theory, and its application in the fire service. The course is intended for officers whose area of responsibility encompasses long and short range planning, budgeting and administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1702 - Principles of Emergency Services

This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/services; fire loss analysis, organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

Total Core Credits Required: 30

Technical Elective Courses

DSC 1004 - Introduction to NRF and NIMS

Designed to inform emergency responders and planners of the key elements in the National Response Framework (NRF) and the National Incident Management System (NIMS) and their relationship to planning and response operations. The curriculum includes classroom exercises.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1631 - Planning Considerations for Terror Prevention

This course introduces participants to various aspects of planning for potential terrorist activity. The student will be introduced to basic principles of emergency management, communications, security threats, and the effects these operations may have on personnel. The student will learn techniques for evaluating their own jurisdiction's vulnerability against terrorist attacks. Students will gain knowledge of the roles and responsibilities of local agencies during terrorism responses. The course introduces participants to various aspects of emergency management of terrorist activity.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1751 - Homeland Security Policy and Law

This course introduces participants to the major debates about balancing democratic freedoms with security from the Patriot Act to Supreme Court decisions on detention powers. The course provides insight into legal strategies necessary to confront ongoing national security threats. The course examines laws designed to preserve both our security and our democratic way of life.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 2056 - Disaster Response Operations

This course examines the response protocol, logistics, responsibilities, interagency support, and concepts of front end planning involved in preparation for a catastrophic event. Students will be introduced to the development of an emergency response plan that will include concepts such as lookout, awareness, communications, escape, safety (laces), training, and various agency relationships.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

(Contains 15 hours articulation for Firefighter/Emergency Medical Technician-Combined (PSAV))

EMS 1119C - Emergency Medical Technician

And

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMT Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1401L .

EMS 1401L - EMT Lab

An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1119C .

FFP 1826 - Incident Management

This course contrasts the major forms of Incident Management/Incident Command Systems. It illuminates these differences and offers a fresh perspective on the concepts on which these systems are founded in order to make them more accessible and user-friendly. It bridges the gap between their theoretical and academic foundations and their real-world applications, and makes them more applicable to the professional's daily needs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Total Technical Elective Credits Required: 15

Total Program Credits Required: 60

Management and Supervision - Military Science and Leadership (BAS)

Admission Program of Study Code BSMS

State CIP code 1105202991

See the BAS Management and Supervision Program Flowchart

Upper Division Requirements*

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4720 - Strategic Planning and Management

This course addresses the integration of organizational functions to achieve competitive advantage and organizational harmony through strategy formulation, implementation and evaluation. Activities include case studies and a strategic planning simulation. Topics include change theory, decision-making, planning models, and strategic planning processes as applied in a variety of business settings, units, and functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization diversity and change management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods used in business and economics, including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required and Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Required Courses for the Emphasis in Military Science and Leadership

MSL 3201 - Adaptive Team Leadership

Examines skills that underlie effective problem solving, analyze military missions and plan military operations, execute squad battle drills.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 3202 - Leadership in Changing Environments

Probes leader responsibilities that foster an ethical command climate, develop cadet leadership competencies, and apply principles and techniques of effective written and oral communication.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 4301 - Developing Adaptive Leaders

Discuss staff organization, functions, and processes, analyze counseling responsibilities and methods, and apply leadership and problem solving principles to a complex case study/simulation.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 4302 - Leadership in a Complex World

Capstone course to explore topics relevant to second lieutenants entering the army, describe legal aspects of decision making and leadership, analyze army organization from tactical to strategic level.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making

and customer service through application to issues and problems across the general business spectrum.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods used in business and economics, including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required and Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Required Courses for the Emphasis in Logistics

ENV 4610 - Sustainable Logistics

This course introduces students to current and future trends in logistics technology, policy and sustainability. Topics include, source sustainability, environmental impacts of existing and emerging technologies, and local environmental conditions and the global climate.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3505 - Production Operations and Logistics Management

This course examines the integration of production operations and logistics management and how this enables an organization to compete successfully in business. Special emphasis is placed on the relationships that exist between operations and the supply chain to include operations and supply chain strategies, business processes, project management, product design and development, and inventory management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and MAN 3052 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4570 - Purchasing and Materials Management

The management of purchasing and the materials for production processes. Cost/price analysis, computer systems, forecasting, materials requirements, negotiations, and contracting are included.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Suggested Two Year Academic Plan

Applied Management (AAS)

Admission Program of Study Code APMG
State CIP Code 0552020107
The A.A.S. degree in Applied Management examines the ways in which management skills are used in a variety of businesses. Students interested in a broad range of technical fields will be able to prepare for leadership roles in the Business Management and Administration professions.

General Education

Total General Education Credits Required: 18

Core Courses

MAN 2021 - Management
Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management
An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I
The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications
Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 12

Technical Elective Courses

ACG 2001 - Accounting I
This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a

business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2104 - Introduction to Windows

An introduction to operating systems in general with emphasis on Windows.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

passing score on placement test.

GEB 1940 - Internship - Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her

degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2021 - Professional Selling

Selling, correct attitudes and personal attributes for dealing with the public on a business or professional basis.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2511 - Introduction to Advertising

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

____ ____ Other Approved College Credits (Requires Dept. Chair Approval)

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 30

Total Program Credits Required: 60

Suggested Two Year Academic Plan

AAS Degree General Education Requirements

All A.A.S. degree programs at NWF State College require a minimum of 18 college credits in general education. Unless otherwise specified in the program requirements, students must complete one course from each of the following categories to meet general education requirements.

To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options (designated with ♦) in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. The A.A.S. degree programs provide flexibility for entering the job market or continuing education. Students who take general education courses are guaranteed transfer of those courses when continuing their education within the Florida College and University System.

NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA, AS, and AAS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

Communications: 3

LIN 1670 - Writing and Grammar

___ ____ - Any other AA General Education Communications Course

♦ Core General Education ▲ Technology-Across-the Curriculum ¶ Writing requirements

The course includes practice in writing short essays and encompasses a comprehensive review of grammar and mechanics. This course is strongly recommended for students who have completed Developmental Writing, those who want a preparation for Composition, or those who score 103-116 on the PERT.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal achievement, successful completion of any required developmental English coursework with a minimum grade of "C", or exemption from placement testing.

Humanities: 3

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of

medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

Rich Text Editor, text_description, Press ALT 0 for help

___ ____ - Any other AA General Education Humanities course with the † symbol or any General Education Humanities course AND another course with the † symbol.

♦ Core General Education † Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 3

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAT 1033A - Intermediate Algebra

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or higher mathematics course with a grade of "C" or better or equivalent or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or higher mathematics course with a grade of "C" or better or equivalent or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

___ ____ - Any other AA General Education Mathematics course

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling

distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Natural Sciences: 4

AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

___ ____ - Any other AA General Education Natural Science course

♦ Core General Education

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Social Sciences: 3

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing

course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

SYG 2000 - Sociology

___ ____ - Any other AA General Education Social Science course

♦ Core General Education International and/or diversity focus ¶ Writing requirements

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Additional General Education Credits: 2

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

LIT 2335 - Introduction to Children's and Adolescent Literature

Designed to explore the range and diversity of the children's literary canon, surveying the historical development of children's and adolescent literature (pre-school to eighth grade) and the construction of socio-cultural influences. While the focus is predominantly on classic works from the tradition of American and British fiction, poetry, folklore and fairy tales, drama, and picture books, the course nonetheless addresses multi-cultural issues and texts in order to broaden the cultural vision provided by the literary study. This course will be a General Education elective, but will not meet the Humanities or English General Education requirements. Course has international/diversity focus for Teacher Education program common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common

prerequisites.

LIT 2603 - Literature of War in the 20th Century

Designed to investigate the historical, psychological, and universal issues that face societies in times of war, through analysis of a range of literary genre and texts, including fiction, poetry, drama, letters, and memoirs focusing on wars of the modern era. The approach is global, but concentrates heavily on the war experiences of the United States. This course will be a General Education elective, but will not meet Humanities or English General Education requirements. Course has International/Diversity focus for Teacher Ed program common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

___ ____ - Any other AA General Education course

♦ Core General Education † Speaking-Across-the Curriculum ▲ Technology-Across-the Curriculum

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

Total AAS General Education Credits Required: 18

AAS Degree Checklist:

Business Development and Entrepreneurship (CCC)

Admission Program of Study Code BMDE State CIP Code 0552070306
Students who successfully complete this certificate may be eligible to receive credits towards the Business Administration (AS) degree (State CIP Code 1552020102).

Core Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2021 - Financial Accounting

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
MAC 1105 - College Algebra , equivalent, or higher

SBM 2000 - Small Business Management
This course provides students the opportunity to learn hands-on technical applications regarding entrepreneurship. It is designed for the student who is interested in the ownership and management of a small business enterprise.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

ENT 2931 - Selected Studies in Entrepreneurship
In this course, topics of current interest are presented in group instruction.

Credit Hour(s): 1 Credit Hour When Offered: (Spring)

Total Program Credits Required: 25

AA Transfer Programs

A fountainredbud science bldg

AA Transfer Majors indicate the required courses needed to be eligible to be admitted to the university program at the institutions listed. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.
The following list indicates the AA transfer majors that can be completed taking courses at NWF State College. It is not a complete list of all university transfer majors. The Common Course Prerequisite Manual lists all university transfer programs available in the State of Florida.
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWF State College recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

AAS Degree

AAS Degree General Education Requirements

Course Descriptions

All Courses
Adult Education Courses
Developmental Education Courses
Directed independent study provides opportunities for students to earn college credits in standard courses by working with a college instructor on an independent basis. Students enrolling for courses under Directed Independent Study (DIS) are expected to accomplish the goals and objectives as specified in the course syllabus and are expected to attend such class meetings, group sessions, and working conferences as specified by the instructor. Courses are scheduled on a flexible basis as approved by the instructor, the department chair, and by the Vice President of Academic Affairs with the understanding that final exams will be taken and grades awarded during the term in which they begin. All regular fees apply to DIS courses.
DIS course enrollments are authorized under the following conditions:
A documented need exists for the student(s) to enroll for the course immediately rather than taking an alternate course or waiting until the next term in which the desired course would be offered.
The student is able to identify an instructor who is willing to teach the course as DIS.
The student understands the extensive burden which he or she is undertaking.
Enrollment is approved by the Department Chair and Vice President of Academic Affairs.
When it is not feasible for the course/section to be scheduled concurrently and taught at the same time and locations as another course/section.

Florida's Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and by participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.
Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.
The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "statewide course profiles."

Examples of Course Identifiers

Prefix	Level Code (first digit)	Century Digit (second digit)	Decade Digit (third digit)	Unit Digit (fourth digit)	Lab Code
ENC	1	1	0	1	English Composition

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.
For example, a freshman composition skills course is offered by 84 different public and nonpublic postsecondary institutions. Each institution uses "ENC_101" to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "ENC" means "English Composition," the century digit "1" represents "Freshman Composition," the decade digit "0" represents "Freshman Composition Skills," and the unit digit "1" represents "Freshman Composition Skills I."

In the sciences and certain other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.
Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at a Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.
NOTE: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:
Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.
Courses not offered by the receiving institution.
For courses at nonregionally accredited institutions, courses offered prior to the established transfer date of the course in question.
Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations.
Applied academics for adult education courses.
Graduate courses.
Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio,

audition, interview, etc.).

Courses at Nonregionally Accredited Institutions

The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.
Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to Northwest Florida State College, Office of the Vice President of Instruction or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

Lower Division College Credit Courses
Upper Division College Credit Courses
Vocational Courses

Courses by Type (Subject Area)

Accounting ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2021 - Financial Accounting

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

MAC 1105 - College Algebra , equivalent, or higher

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2450 - Computer Applications for Accounting

An introductory course in computerized integrated accounting procedures found in the microcomputer environment. Includes application of software designed for general ledger, accounts payable and receivable, financial statement analysis, purchasing and sales order processing, fixed assets, payroll, inventory and departmental accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

ACO 1806 - Payroll Accounting

Introduction to the theory, laws and procedures related to payroll activities of a business. Topics include payroll and personnel records, federal payroll laws, payroll operations, computerized payroll systems, and preparation of payroll registers, earnings records, and payroll tax forms.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

TAX 2000 - Federal Income Tax: Individual

Federal Income Taxes. Determine income tax for individuals, interpretations of Internal Revenue Code and Regulation, tax planning and advisory service. Brief introduction to partnership, corporation, estate and gift taxes. Extensive practice problems in individual income tax returns and research in tax questions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MTB 1103 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Adult Basic Education (ABE) ABX 01__ - Adult Basic Education - Mathematics

The Adult Basic Education (ABE) Mathematics course is a non-credit course designed to develop literacy skills necessary to be successful workers, citizens and family members. Career and College Readiness (CCR) standards have been incorporated into this class. A student enrolled in the ABE program should be enrolled in all of the following courses: Mathematics, Language Arts, and Reading. ABE prepares students to enroll in a GED® Preparation course.

ABX 02__ - Adult Basic Education - Reading

The Adult Basic Education (ABE) Reading course is a non-credit course designed to develop literacy skills necessary to be successful workers, citizens and family members. Career and College Readiness (CCR) standards have been incorporated into this class. A student enrolled in the ABE program should be enrolled in all of the following courses: Mathematics, Language Arts, and Reading. ABE prepares students to enroll in a GED® Preparation course.

ABX 03__ - Adult Basic Education - Language Arts

The Adult Basic Education (ABE) Language Arts course is a non-credit course designed to develop literacy skills necessary to be successful workers, citizens and family members. Career and College Readiness (CCR) standards have been incorporated into this class. A student enrolled in the ABE program should be enrolled in all of the following courses: Mathematics, Language Arts, and Reading. ABE prepares students to enroll in a GED® Preparation course.

Anthropology, Archeology ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ANT 2100 - Introduction to Archaeology

Introduction to the fundamental principles, methods, and theories in archaeology. Includes a history of the development of

archaeology, and examination of the nature of archaeological data and research, an introduction to archaeological data and analysis, and an examination of approaches to synthesis and interpretation. North and South American archeology is studied, but non-western examples are also studied to enhance an understanding of the development of the discipline in Europe and the Americas.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ANT 2159C - Florida Southeast US Archaeology

Introduction to special topics in anthropology and archaeology. Example: field experience in archaeology, brief introduction to prehistoric native American cultures in Florida and the southeastern United States and field experience excavating a prehistoric site in Okaloosa County.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Architectural Drafting BCN 1230 - Building Construction Materials and Processes

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

BCN 1272 - Blueprint Reading for Commercial Construction

A course to familiarize non-drafting students with techniques of blueprint reading and the fundamentals of construction methods that make blueprint reading meaningful.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

BCN 1520 - Electrical Systems in Construction

A course to familiarize students with electrical terminology, practices, methods, code requirements and safety and health in construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCN 1567 - Plumbing and Gas Construction Practices

A course to familiarize students with Plumbing and Gas code requirements, terminology, methods, practices, processes and safety and health used in building construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCN 2231 - Building Construction Materials and Processes II

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry. The focus of the course will cover Divisions 9 through 16 of the construction industry.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

BCN 2560 - Mechanical Systems in Construction

A course to familiarize students with mechanical trades terminology, methods, practices, code requirements processes, and safety and health criteria in mechanical construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCN 2721 - Construction Management/Planning

The course covers project development and organization from pre-construction site investigation to final completion. The course will include the management of project estimates, plans, schedules, operations and safety. The student will become knowledgeable about documents used in the construction industry for bid, contracts, zoning, permits, bonds, loans specifications and drawings. Cost engineering, procurement, value engineering and quality assurance will be covered. Cost management through job cost analysis and purchase order systems will also be covered.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCT 1763 - Construction Safety and Health

A basic course in construction safety and health, covering such topics as: theories of accident causation; workplace hazards; hazard analysis and prevention; accident reporting; OSHA construction standard and safety practices; environmental safety; violence in the workplace; ergonomics; ethics and safety; workers' compensation; and stress on the job.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCT 2761 - Structural Systems in Construction

A course to familiarize students with structural terminology, practices, methods, code requirements and safety, and health criteria in construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCT 2770 - Construction Estimating

A course in estimating as it relates to the construction industry covering references, estimating methods, take-off organization and presentation; material take-off, cost estimating in heavy construction, mathematical formulas for estimating, quantity take-off from plan review, and computer estimating overview.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BCN 1230 , BCN 1272 .

TAR 2121C - Architectural Drafting

Architectural design and development of residential and light commercial buildings to include: development and construction of good architectural freehand lettering, VA and FHA approved residential house plans, “Good Sense” house plans as defined in the Arkansas Plan, and heat loss/heat gain calculations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ETD 1102 or ETD 1112 or equivalent.

Architecture ARC 1131 - Architectural Presentation

This course introduces basic ideas and presentation techniques directed towards developing design skills, such as drawing, perspective sketching, and graphics using a variety of media to include: pencil, ink, colored pencils, markers, and model building to be used in architectural presentations. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

ARC 1301C - Design 1.1

The primary foci of this course are the development of two and three-dimensional graphic skills and the ability to think spatially and to manipulate elements in space. Analysis and design exercises are located primarily in abstract two/three dimensional space and deal with topics such as figure/ground relationships, line/plane/mass, the idea of systems, networks, repetition, and the relation of part to the whole. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Fall)

ARC 1302C - Design 1.2

This course continues the emphasis and topics studied in Design 1.1, with increased expectation with regard to graphic and spatial manipulation ability. Students study exemplary works of architecture and art, beginning the process of developing an understanding of the role history plays in their creative explorations. By the end of the course, site and the human being are part of the design environment. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

ARC 1301C .

ARC 2201 - Theory of Architecture

An introduction to architectural theory, selected contemporary architectural theories and movements, and their evolution and historical basis. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ETD 1102 .

ARC 2303A - Design 2.1

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 6 Credit Hours When Offered: (Fall) Prerequisite(s):

ARC 2201 .

ARC 2304 - Design 2.2

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making, and human behavior.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Prerequisite(s):

ARC 2303A .

ARC 2472 - Introduction to the Technology of Architecture

This course is the beginning of the technology sequence in the areas of structures, environment technology, and materials and methods of construction. It introduces themes such as the response of buildings to the natural environment, the strength, stiffness, and durability in building materials, and the quantitative method of analysis and design of building assemblies and support systems. It explores the relationship between building technology and the social, aesthetic, environmental and economic aspects of the settings in which buildings are located, and how these factors relate to the process of architectural design. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Summer)

ARC 2501 - Architectural Structures I

The emphasis of the course is on the development of the principles of statics and the application of these principles to the analysis and design of structural systems, primarily column, beam, slab systems, and the truss systems. The course builds on the basic ideas of structural form and material properties developed in Introduction to the Technology of Architecture.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

any college level physics or calculus course, and concurrent enrollment in ARC 2472 . This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ARC 2701 - Survey of History of Architecture, Part I

A critical exploration of the history and theory of architecture from pre-history through the end of the 13th century. Examination of the making and intent of significant buildings and sites tracing the developments that have given meaning to the built environment and brought order to the tectonics of architecture. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Art ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 1750C - Pottery I

The students shall be exposed to the production of pottery utilizing all known hand building techniques. Also includes introduction to potter's wheel and basic wheel fundamentals. The first half of course is hand building, the second half is devoted to development of skills on the potter's wheel. Students also learn how to glaze pottery and make glass. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ART 1751C - Pottery II

Continues hand building of Pottery I, but major emphasis is placed upon development skills utilizing the potter's wheel. Additional glazing experimentation is also emphasized.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ART 1750C . Please refer to catalog section regarding audit enrollment.

ART 1905A - Independent Study – Art

A defined independent study which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule. Departmental approval is required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

ART 2330C - Figure Drawing I

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2331C - Figure Drawing II

This class is a continuation of Figure Drawing I. Emphasis is on composition and self-expression in relation to the human figure. Exploration of media and content will be encouraged.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 2330C . Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 2500C - Painting I

Course will include design elements, composition and spatial relationships. Emphasis is on color theory, color mixing, and execution thereof within a variety of subject matter. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2501C - Painting II

This course is a continuation of Painting I ART 2500C with emphasis on further exploration of student's personal style and original techniques. Further experimentation in abstraction and emotional aspects of form and color are explored and expressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 2500C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2540C - Water Color I

An introduction to water media techniques applied to various subject matter through demonstrations and various lab experiences. Open to all students. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2541C - Water Color II

Allows continued experience in more complex water color technique and subject matter. Emphasis is on composition and individual expression.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 2540C . Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 2602C - Digital Imaging I

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

ART 2603C - Digital Imaging II

A continuing course which expands upon the technical and conceptual foundation laid in Digital Imaging I. Students will explore advanced software techniques and greater challenges of personal or commercial expression in digital media. Access to an appropriate high quality digital camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ART 2602C , PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

ART 2701C - Sculpture I

An introductory course in the technical and aesthetic consideration of sculptural forms. Includes a wide range of materials and expressions, representing past and present sculptural methods. Audit enrollment in studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

ART 2703C - Sculpture II

Allows continued experience in more complex three-dimensional techniques; emphasis on individual projects and conceptual approach.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ART 2701C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2834C - Gallery Practices

The principles of Art Gallery practices and operations. Both theoretical and practical experiences will be obtained through lectures, field trips and class projects.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ART 2930 - Art - Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

ART 2955 - Portfolio Development

Development of a working portfolio through studio project aimed at fulfilling the general requirements the average company, university, art school or advertising agency looks for in a portfolio presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ART 1201C , ART 1203C , ART 1300C , ART 1301C .

Art History ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2402 - Art History: Modern Art

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2930 - Art History – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Astronomy AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Biology BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005C - General College Biology

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. General biology uses experimental methodology and technique and includes a survey of bacteria, protist, fungi, plants and animals. The lab content will include a survey of organisms, dissection of plants, invertebrates and vertebrates.

Credit Hour(s): 5 Credit Hours (1 HC) When Offered: (Fall, Spring, Summer) Note:

(NWFSC Collegiate High School Students Only)

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular

level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

BSC 1080 - Essentials of Anatomy and Physiology

This course surveys basic structure and function of the human body with emphasis on terminology and anatomy.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 1905 - Independent Study – Biology

A course designed to (1) allow a student to complete part of a course taken elsewhere and thereby complete general education requirements, (2) to go deeper into special areas of interest.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

BSC 2020C - Human Structure and Function

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 2946 - Directed Work Study – Biology

Practical experience with use and maintenance of lab equipment and materials. Participation in support activities and organizational routines of lab courses. Course fees may be waived. May be taken up to four times for credit. Departmental approval following interview is required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

Botany BOT 1010C - Botany

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and

water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

Business FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1214 - Business and Supervision Terminology

This course is designed for students to achieve mastery of the special vocabulary, jargon, and concept terminology associated with general business and supervision in the modern workplace. Students will apply the terms in common workplace scenarios and hypothetical situations, as well as in standard written documents and assignments.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

GEB 1942 - Internship Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3930 - Business Project and Acquisitions Terms and Concepts

Students will apply specialized terminology of project and acquisitions management in various communication venues including short written documents and summary analyses. Emphasis will be placed upon the latest terms, abbreviations and jargon applicable to the field. Students will research selected terms and concepts in various contemporary periodicals and publications.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3933 - Business Research

This seminar-style course, offered in group or individual format, provides an introduction to various references, databases, periodicals, journals and other publications essential to the research of contemporary business issues; also included are methods of accessing resources via the Internet, designing search strategies, citing Internet resources and evaluating research materials.

Credit Hour(s): 1 Credit Hour When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4454 - Business in a High Technology Environment

Presents the special challenges and opportunities of managing a high technology firm or a traditional entity operating in the high technology environment; addresses software/information security, recruiting technical personnel, outsourcing, equipment security, updating equipment, telecommuting and similar issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and GEB 3031 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4930 - Special Topics: Project Management

An individual or group course designed to provide students with the opportunity to pursue a special topic(s) in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4933 - Special Topics: Management

An individual or group course designed to provide students with the opportunity to pursue a special topic(s) in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4934 - Special Topics: Business Administration

An individual or group course designed to provide students with the opportunity to pursue a special topic(s) from the area of business administration in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4941 - Internship: Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods used in business and economics, including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required and Knowledge of basic computer and keyboarding skills are strongly recommended.

TRA 3132 - Procurement Management

Purchasing is required by all types of goods-producing & service-providing organizations in such sectors as manufacturing, agriculture, health care, & government. This professional business function tries to buy the right good or service at the right quality, in the right quantity, at the right time, at the right price, from the right source, with delivery at the right place.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

TRA 4203 - Principles of Logistics

Overview of logistics function within a firm and in the context of integrated vertical systems. Topics include customer service, information flow, inventory control, materials management, order processing, packaging, physical distribution.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Business Law BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4333 - Contract Formation and Administration

Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4931 - Acquisition Law Seminar

This course addresses contract law as applicable to formation and administration of contracts with private and governmental agencies, with emphasis on the federal government. The following topics are also included: concepts of responsiveness and responsibility, bidding procedures, mistakes, negotiation procedures, changes, claims and dispute resolution. Students will explore the typical contracting problems that can lead to litigation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Chemistry CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

Chinese CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

CHI 1121 - Mandarin Chinese II

This course is a continuation of Mandarin Chinese I with additional vocabulary and grammar. Pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHI 1120 or an equivalent course with a minimum grade of "C".

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

Coaching PEO 2004 - Theory and Practice of Teaching a Specific Sport

This course is designed to provide knowledge of the rules, teaching progressions and strategies for competition. The course includes acceptable behavior and ethics for coaches. This course will be offered for the following specific sports: baseball/softball, basketball, football, golf, soccer, swimming, tennis, track and field/cross country, volleyball and wrestling.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PEO 2005 - Coaching Theory

This course is designed to provide knowledge of the characteristics, principles, ethics, and theories related to coaching sports in educational and recreational settings. Emphasis is placed on preparing coaches to train athletes to achieve optimal levels of performance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

College Success SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals,

identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SLS 1201 - Service Learning Seminar

A seminar course designed to enhance and reinforce the value of civic responsibility and to provide students with a community service program opportunity by volunteering in community agencies in the public and private sectors.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

Computer Science CAP 2134C - Database Security

This course is designed to provide the student with an understanding of database security concepts and practices. The objective of the course is to provide hands-on instruction in various database tasks that relate to securing the confidentiality, integrity and availability of information that is stored in a database. The student will be able to perform administrative tasks in different database management systems, as well as manage database user profiles, privileges, and roles. Different database application security models will be explored, as will the security advantages of utilizing virtual private databases. Finally, the process of database auditing will be explored, including auditing methods using various database management systems.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CET 1660

Note:

▲Technology-Across-the-Curriculum Course.

CAP 2762 - Data Mining

This course offers exploration of data mining methodologies. Topics may include decision tables, decision trees, classification rules, association rules, clustering, statistical modeling, and linear models and will focus on data warehousing, data mining and data drilling.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CGS 2541 or any programming language are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 1600C - Networking Fundamentals

This course introduces the student to the basics of Internetworking technology. This is also the first of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity, and electronics and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 1610C - Routing Protocols and Concepts

Basic Router terminology and configurations are studied in this course. The student will study router components, router configuration, IOS, TCP/IP, IP addressing, and router protocols. This is one of the four courses designed to prepare a student to take the CISCO Certified Network Associate Exam (CCNA).

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 1660 - Introduction to Network Security

This course is designed to introduce students to the terminology and concepts associated with network security, including communication security, infrastructure security, cryptography, access control, authentication, external attack, as well as operational and organizational security. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 1675C - Introduction to IP Telephony

This course explains how companies are using IP Telephony equipment and software to efficiently upgrade existing telephone systems. In addition, the course will give the student a fundamental understanding of the architecture of voice communication and how signaling, call quality and public switched telephone networks operate in a LAN/WAN networking environment. The use of IP Telephony products will be discussed and how software allows companies to cost-effectively upgrade and eventually replace existing (legacy) telephone systems with more cost-effective and easy-to-use telephone equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1600C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 1854C - Introduction to Wireless Technology

This course teaches key wireless networking topics, including wireless technology and architecture network design, types of wireless networks, and applications. Special focus on technical matters, wireless communication products, wireless networking products, and wireless LANS products. It is recommended that all students have a least a basic knowledge of networking, including protocol, the OSI module, and TCIP/IP.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2172C - Microcomputer Servicing

This course introduces the PC system, how it works and how the operating system controls it. Also studied are the components which make up the PC system, how to use multimeters and logic probes to make measurements and troubleshoot the system with the aid of diagnostic software. Students will perform fault analysis of simulated PC defects. In addition, students will learn to disassemble, reassemble and modify the PC hardware components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2179C - PC Operating Systems A+

This course is designed to help prepare the student to take the A+ Certification exams by making the student proficient in personal computer operating systems, including Win 2000, Win XP, and Win Vista. Major topics include disk and file management, system configurations, menu driven processing, graphical user interfaces, boot files, disk caching, virtual memory, device drivers, remote assistance, and security essentials and security practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2182C - PC Hardware A+

This course is designed to prepare the student to take the A+ Certification exam, by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2615C - LAN Switching and Wireless

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CET 1600C , CET 1610C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2620C - Accessing the WAN

This course introduces the student to advanced router configurations and network design. This is also the last of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1600C , CET 1610C , CET 2615C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2682C - Cisco Voice over IP (VoIP)

Instruction includes, but is not limited to, Voice over Internet Protocol (VoIP) theory, Voice Gateway configuration in a IP Telephony (IPT) solution, IP Phone configuration, design of VoIP networks and troubleshooting IPT networks. Students will design and configure various VoIP networks using case studies and laboratory equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2685C - Fundamentals of Network Security

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1600C , CET 1610C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2854C - Fundamentals of Wireless LANs

Develop, implement and troubleshoot wireless networks. This hands-on, skill-based course focuses on the design, planning and operation of wireless networks, with an overview of technologies, security, and design best practices. This course helps prepare the student for the CISCO Wireless Certification.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1600C , CET 1610C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2880C - Digital Forensics Fundamentals

This course offers a solid foundation to computer forensics investigations: preparing students to acquire and analyze digital evidence. the course covers tools and techniques and explains topics such as file structure, data recovery, e-mail and network investigations, and expert witness testimony. In addition, the student will gain practical knowledge in conducting digital investigations and preserving digital evidence that maybe used in court or corporate inquiries.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2881C - Digital Forensics II

Digital Forensics II builds upon the foundational knowledge learned in digital forensics fundamentals. Students will utilize industry standard tools to conduct examinations of various digital media and document their findings. Devices to be studied include computers (server, desktop, laptop), mobile devices (tablets, cell phones, smart phones, mp3 players, gps), and devices such as dvr's and routers. Emphasis will be placed upon real-world digital forensics scenarios and the investigative thought process. At the conclusion of the class, students will be prepared to take the accessdata certified examiner (ace) examination.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 2880C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2891C - Wireless Network Security Certification

This course prepares students to secure wireless networks and protect valuable data from intruders. The following subjects are covered: intrusion tools and techniques, detection systems, WPA/WPA2/802.11i security, enterprise wireless gateways, encryption gateways, secure wireless bridging, and wireless VPN routers. This course prepares students for the compTIA wireless certification exam.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1854C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2892C - Advanced Network Security

This course examines advanced network security topics including, but not limited to, advanced topics in integration of hardware firewalls, advanced topics in Intrusion Detection Systems (IDS), advanced topics in Internet Protocol-security (IPSec), and advanced topics in Virtual Private Networking (VPN) in network security design. Students will implement designs using equipment in a laboratory setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2905 - Independent Study, Computer Engineering

This is a directed study course to provide computer engineering students with individual projects designed to meet specific needs in areas of computer engineering technology for which present course availability is limited.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

instructor or departmental chair approval. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CET 2940 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

active enrollment in an appropriate degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CET 2941 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CET 2942 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

none

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1550 - Introduction to World Wide Web

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World Wide Web and the Internet.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CGS 1843 - Introduction to E-Commerce

This course is designed to provide students with an overview of the dynamics of electronic commerce and how it links information technology to business objectives. Course may not transfer to all State University System institutions.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CGS 2541 - Introduction to Database Concepts

This course will provide an introduction to data modeling and the design and implementation of relational databases and extend the students' understanding of the principles and techniques used in the design and implementation of modern database systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CGS 2544 - Advanced Database Concepts

The aim of this course is to explore advanced database concepts including an advanced exploration of data modeling and the design and implementation of relational databases. This course will extend the students' understanding of advanced principles and techniques used in the design and implementation of modern database systems and explore database problems and potential solutions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CGS 2820 - Web Design

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CIS 1000 - Introduction to Computer Science

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CIS 1940 - Internship in Computer Studies

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CIS 2352C - Ethical Hacking Fundamentals

This course is designed to provide the student with an understanding of the techniques and methodologies of security penetration testing. This course provides hands-on instruction using the various tools and methods that security professionals use to analyze an information system in order to discover vulnerabilities and protect against information loss, cyber-terrorism, and corporate espionage. The student will be introduced to fundamental security testing concepts, gain practical knowledge of computer programming, learn how to properly document a security test, and explore the legal and ethical ramifications of penetration testing. Students will also learn how to apply the appropriate countermeasures in order to reduce the risk that an organization faces.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of networking, basic computer, and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 1000 - Introduction to Programming Concepts and Logic

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2010 - Visual Basic Programming

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2011 - Advanced Applications Programming in Visual Basic

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2030 - Programming In Python

An Introduction to Python programming language using microcomputers. Topics include Python basics, use of Python control and data structures, use of Python function, Python 110, and implementation of basic programming tasks.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2176 - Visual Basic ADO.Net

The aim of this course is to provide an advanced level of knowledge in database programming using Visual Basic's ADO.Net, using normalization, object and relational types, modeling, data validation, and structured query language (SQL) in creating database applications.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 and COP 2010 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

CGS 2544 , COP 2011 .

Note:

▲Technology-Across-the-Curriculum Course.

COP 2220 - Programming in C

An introduction to C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2222 - Advanced Programming in C

An advanced exploration of the C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2224 - Programming in C++

An introduction to C++ programming using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2228 - Advanced Programming in C++

An advanced exploration of the C++ programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2360 - Programming in C Sharp (C#)

An introduction to the C# programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2362 - Advanced Programming in C Sharp (C#)

This hands-on course examines how to utilize advanced features in the .NET Framework using the C# programming language, in order to build sophisticated applications. Students will work with advanced object-oriented programming topics, including inheritance, partial classes and generics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2360 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2658 - Advanced Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the advanced IOS programming topics and provides a broad perspective of the IPhone SDK platform. It begins with an overview of the Objective-C language and progressed into the advanced details of the UIKit, as well as several other frameworks essential for advanced development of the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2654 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2662 - Advanced Programming for Mobile Devices: Android

This class teaches advanced concepts and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devises and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2700 - Introduction to SQL

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2702 - Introduction to PL-SQL

An introduction to PL-SQL and the design and creation of object-oriented databases (using PL-SQL). Topics include storing, retrieving, updating and displaying data using PL-SQL and Oracle.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2440 or CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2800 - Introduction to Java Programming

An introduction to programming using the Java language. Students will develop and apply individual programs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2805 - Advanced Java Programming

An advanced level programming course using advanced Java techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2833 - Databasing for Internet Applications

This course will expose students to basic relational database concepts used in web programming, including structuring data and making queries.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

CGS 2820

Note:

▲Technology-Across-the-Curriculum Course.

COP 2840 - Web-based Programming I

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 1106 - Fundamentals of UNIX

This course is designed to introduce the UNIX operating system to new users. The student will learn fundamental features of the operating system, including file system navigation, file permissions, editors, command shells, and basic network use. Provides a foundation for more advanced courses in administration and certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of networking, basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 1156C - Desktop Support

This course introduces the helpdesk skills to troubleshoot hardware or software operation and application problems for end users on the desktop or client-side, based on the Windows operating system. It is designed to help prepare the student to take the two core exams (70-620 and 70-622) required for certification as an MCITP: Enterprise Support Technician students should have user-level competency with Windows and MS Office.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 1347C - Windows Network Infrastructure 2010

This course addresses the configuration of Windows Server network infrastructure. Topics covered include: routing and remote access, network access protection, network authentication, IPv4 and IPv6 addressing, DHCP, DNS, WINS, DFS, IPSec, and security. Recommended level of knowledge: A+, Network +, Security +. This course prepares the student for the MCTS exam, a core requirement for Windows MCITP.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 1383C - Windows Server Administration Fundamentals

This course provides basic concepts of server administration in a Microsoft server environment. Introduction to server installation, server storage concepts, administering services, Active Directory infrastructure and configuration, server roles, remote access, troubleshooting and performance monitoring, and maintenance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2104 - Introduction to Windows

An introduction to operating systems in general with emphasis on Windows.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2134 - Network Technology

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2143C - CompTIA Server+

This course provides advanced concepts in server hardware components and troubleshooting in a non-vendor-specific environment. Introduction to server installation, server storage concepts, administering services, server roles, virtualization, performance monitoring, security, data protection, and maintenance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2163C - Windows 10 Client Operating System

This course addresses the implementation and desktop support needs of the MS client software, including installation, configuration and management of hardware and file systems, user profiles, remote users, and monitoring of resources and performance. Recommended level of knowledge: A+, Network +, Security +. This course prepares the student for the MCTS exam, a core requirement for Windows MCITP.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2302C - Windows Active Directory

This course focuses on a Windows server directory service environment, including forest and domain structure, DNS, site topology and replication, organizational unit structure and delegation of administration, Group Policy, and user/group/computer account strategies. Recommended level of knowledge: A+, Network +, Security +. This course prepares the student for the MCTS exam, a core requirement for Windows MCITP.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CTS 1383C

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2314C - Network Defense and Countermeasures

This course will explore concepts of network defense and countermeasures as well as hardware and software required to design, configure and implement secure networks. Security topics covered in this course include firewalls, Intrusion Detection Systems (IDS), Virtual Private Networks (VPN) and policy creation using the Windows Operating System (OS), Transmission Control Protocol/Internet Protocol (TCP/IP) packet and signature analysis. The student will get hands-on instruction installing the network defense mechanisms and countermeasure applications. Software will be used for collecting, monitoring and auditing various activities; students will analyze threats and intrusions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CET 1660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2321 - UNIX Administration

This course is designed for network administrators in a UNIX operating environment. UNIX operating system concepts, architecture and administration will be explored using Linux. Includes shell programming, database managements, rapid application development, and programming tools such as PERL and C++.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2134 and CTS 1106 are required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2346C - Windows Server 2016 Administrator

This course will provide students with the opportunity to develop the skills required to manage accounts and resources, maintain server resources, monitor server performance, and safeguard data. Recommended knowledge level: A+, Network +, Security + and Win client operating system. This course prepares the student for the MCITP exam.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

CTS 1383C

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2390C - Installing and Configuring Windows Server 2016

This course is the first of a series of three courses which provide the skills and knowledge necessary to implement a core Windows Server 2016 infrastructure in an existing enterprise environment. The three courses in total collectively cover implementing, managing, maintaining, and provisioning services and infrastructure in a Windows Server 2016 environment. While there is some cross-over in skill set and tasks across the courses, this course primarily covers the initial implementation and configuration of those core services, such as Active Directory Domain Services, networking services, and initial Hyper-V configuration and is also preparation material for, Exam 70-410: Installing and Configuring Windows Server 2016.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CTS 2163C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2391C - Administering Windows Server 2016

This course is the second in a series of three courses which provide the skills and knowledge necessary to implement a core Windows Server 2016 infrastructure in an existing enterprise environment. The three courses in total will collectively cover implementing, managing, maintaining and provisioning services and infrastructure in a Windows Server 2016 environment. While there is some cross-over in skills and tasks across the courses, this course will primarily cover the administration tasks necessary to maintain a Windows Server 2016 infrastructure, such as user and group management, network access and data security and is also preparation material for, Exam 70-411: Administering Windows Server 2016.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CTS 2390C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2392C - Configuring Advanced Windows Server 2016

This course is the third in a series of three courses which provide the skills and knowledge necessary to implement a core Windows Server 2016 Infrastructure in an existing enterprise environment. While there is some cross-over in skill sets and tasks across the three courses this course will primarily cover advanced configuration and services tasks necessary to deploy, manage and maintain a Windows Server 2016 infrastructure, such as identity management and identity federation, network load balancing, business continuity and disaster recovery, fault tolerance and rights management. This course is also preparation material, and maps directly to, Exam 70-412: Configuring Advanced Windows Server 2016 Services.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

CTS 2391C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2437 - Administering SQL Server Database

This course provides students with the skills required to install, configure, administer and troubleshoot the client-server database management system of Microsoft SQL Server. This is preparation for the MCP exam, an elective requirement for Windows MCSA/MCSE.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2134 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2438 - Advanced SQL Server Database

This course provides students with advanced topics required to install, configure, administer and troubleshoot the client-server database management system of Microsoft SQL Server. This course is designed to prepare the student for certification, an elective requirement for the Windows MCSA/MCSE.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2437 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2440 - Introduction to Oracle

An introduction to Oracle and the design and creation of relational databases (using Oracle). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL) integrated into Stored Procedures, Functions, Packages and Triggers (PL/SQL Programming).

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ISM 3220 - Network Technologies for Information Professionals

This course is designed to give the student an understanding of the various networking technologies and their practical application

in the management of a business. The course also covers the technical issues involved in designing and implementing an efficient network for voice, data, and information networks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 3232 - Software Essentials

This course covers a broad range of software topics as they apply to software management and systems analysis and design. Topics include, but are not limited to programming, the systems development life cycle (SDLC), systems management, interface design and Internet technology.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 3323 - Applications in Information Security

This course helps develop the important security concepts relative to software application development and access control that provide the knowledge and skills necessary for the successful management of information security in an organization. Students will understand the environment where software is designed and developed as well as the critical role software plays in providing security to an organization's information systems. The course focuses on software development concepts that relate to security, and how access control methodologies fit into the entire enterprise architecture.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 4011 - Information Systems Management

This course provides a study of the language, concepts, structures, and processes involved in management of information systems, including the fundamentals of computer-based technology and the use of business-based software for support of managerial decisions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 4480 - Electronic Commerce Systems and Strategies

This course is designed to familiarize the student with the management approach to defining and implementing e-commerce (EC) systems. The course addresses the digital economy, EC strategy and marketing, EC models (Business to Business, Business to Consumer, etc.) as well as EC architectures. The course will cover management and regulatory issues in EC such as internationalization, electronic payment methods, Internet fraud, mobile e-commerce, and current implementation technologies. Architectures and inter-dependence (i.e. integration) of systems will be covered.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 4930 - Special Topics - Technology Management

This is an individual or group course designed to provide students with the opportunity to pursue a special topic(s) in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Upper division standing and permission of instructor.

Note:

This course may be taken up to two times for credit.

ISM 4931 - Internship - Technology Management

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and permission of instructor.

Corrections CJK 0340 - Corrections PSAV Physical Fitness

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Criminal Justice CCJ 1010 - Introduction to Criminology

A study of the nature and causes of crime and delinquency; the development of delinquent and criminal behavior; theory development in criminology, crime rates and trends, victimology and particular crime pattern areas.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CCJ 1020 - Introduction to Criminal Justice

An introduction to the philosophical and historical background of law enforcement and the administration of criminal justice. Organization and jurisdiction of local, state, and federal law enforcement agencies, court and criminal procedures, career opportunities in the Criminal Justice field are also covered.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CCJ 1941 - Internship – Criminal Justice

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Permission of the instructor

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

CCJ 2509 - Introduction to Gangs and Crime

This course provides students with an overview of street gangs, the social factors, and the general classifications necessary for the law enforcement, corrections, and public safety professional. This course explores the history, membership, activity, current trends, and influence of street gangs. Students will be challenged to define community-based solutions and strategies to combat the criminal activity associated with street gangs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CCJ 2934 - Special Topics in Criminal Justice

This course centers around topics of current interest or of special interest to students or instructors. Topics or focus may vary from semester to semester.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

*This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

CJC 2000 - Introduction to Corrections

Theories of punishment and incarceration; the organization of correction programs and institutions, principles of probation and parole, role of parole and probation officers, legal implications; and problems of rehabilitation are covered. This course may be used in transfer to UWF and may be accepted at other upper division schools. Students should consult the department for program planning.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJE 1642C - Introduction to Crime Scene Technology

This course explains and discusses the principals and theories in crime scene technology. The course covers specialized collection procedures for biological evidence, weapons, traffic crash evidence, arson evidence, gunshot residue, blood splatter and bodies.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 1735 - Unmanned Vehicle Legal Requirements and Case Law

This course examines the legal requirements and limits of drone operation by law enforcement. The course will also introduce the student to case studies, guidelines, laws, and protocols for law enforcement operations in contrast to use by private citizens. Additionally, this case will examine and define expectations of privacy, based on case law as set forth by the United States Supreme Court. Case studies and Supreme Court decisions from the last century based on the fourth amendment and due process of law, will be studied for class projects. Each student will be required to submit a research paper on a specific related topic as assigned by the instructor.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJE 2300 - Police Administration and Organization

This course presents the principles of organization and administration in law enforcement including functions and activities, planning and research, public relations, personnel and training, inspection and control, records and communications and custody.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2330 - Ethics in Criminal Justice

This course is a detailed exploration of ethical issues in Criminal justice with special emphasis on morality and the law, human behavior, and ethical decision making in law enforcement, corrections and the courts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2400 - Police and Community Relations

A study of the relationship of the Justice Administration agencies to the surrounding community. Examines the effect of social change and the consequences that it produces upon law enforcement, corrections, and the courts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2600 - Criminal Investigations

Fundamentals of investigation; duties and responsibilities of the detective; interrogation techniques; search and techniques of protecting the crime scene; collection and preservation of evidence; modus operandi systems; scientific aids and other sources of information; court preparation and case follow-up.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CJE 2736 - Law Enforcement Applications of Unmanned Vehicles for 21st Century

This course will introduce students to current law enforcement uses and abilities of unmanned vehicle systems, along with new and developing applications for exclusive use in law enforcement actions. Students will understand and explain the definitions of privacy expectations as related to law enforcement actions governed by the fourth amendment. Students will be required to participate in a course project, in which students will develop, justify and define futuristic uses on drone technologies in the law enforcement field. In this team project, a presentation is required to defend the positions and uses of drone technologies as related in the project results.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJJ 1002 - Juvenile Delinquency

A study of the nature and cause of juvenile delinquency, the development of the delinquent and criminal behavior, specific criminal justice subsystem (law enforcement, judicial, corrections) problems dealing with juvenile delinquents from initial contact through final disposition and treatment. This course may be used in transfer to UWF and may be accepted at other upper division schools. Students should consult the department for program planning.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CJK 0001 - Introduction to Law Enforcement

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to introduce the student to law enforcement, the process for becoming a certified law enforcement officer, and the requirements of the academy program. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and

Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0012 - Legal

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to introduce the student to the criminal justice system, the chain-of-command system in law enforcement, Constitutional Law, Florida Statutes, and the Police Code of Ethics. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 63 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0013 - Interactions in a Diverse Community

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enhance student awareness and understanding of human diversity issues and to teach students skills to enable them to effectively interact with people of diverse backgrounds. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0014 - Interviewing and Report Writing

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to help the student learn vital communication skills including interviewing, note-taking, statement taking, and report writing. It also helps the student to develop survival skills, stress management skills, and problem solving skills utilizing the SECURE model. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 54 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0020 - Law Enforcement CMS Vehicle Operations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply vehicle operations knowledge, principles and techniques to the police driving environment. This course includes classroom instruction and practical application on the driving range. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0031 - CMS First Aid for Criminal Justice Officers

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law

Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - CMS Firearms

This course is a component of the Law Enforcement/Corrections Florida CMS Basic Recruit Academy. This course is designed to give the student basic skills and knowledge needed to safely operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Law Enforcement Florida CMS or Corrections Basic Recruit Academy.

Credit Hour(s): 81 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Defensive Tactics

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 81 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0064 - Fundamentals of Patrol

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to understand Community Oriented Policing and how it is implemented as a problem solving model, and identify the SECURE problem solving model and its application in real life situations; understand officer safety issues, identify and avoid fatal errors, identify and manage stress, maintain mental and physical fitness; respond to a call, approach a suspect, make an arrest, transport a prisoner and process the prisoner at a detention facility; and understand how to direct traffic, how to enforce traffic citations, identify how to respond to alarms and conduct a building search, and search inventory and impound vehicles. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0065 - Calls for Service

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to respond to calls for service, disturbances, people in distress and court orders. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0077 - Criminal Investigations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to prepare the student to respond appropriately to a person or property crime victim, witness, and suspect; conduct a preliminary investigation on crimes against persons and crimes against property offenses; conduct a follow-up investigation to establish a suspect's identity and/or ascertain facts of the case; and, give testimony in different types of court proceedings. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 51 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0078 - Crime Scene to Courtroom

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to prepare the student to respond to a crime scene, protect and survey a crime scene, process a crime scene, dust for latent prints, and document a crime scene by sketching. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0084 - DUI Traffic Stops

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to the basic rules for conducting safe and effective DUI stops, including identifying a driver under the influence of alcohol and drugs, conducting field sobriety tests, and completing a DUI investigation. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0087 - Traffic Stops

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to the basic rules for conducting safe and effective traffic stops, including ethical consideration, safety considerations, citation and warning procedures, and dealing with abandoned vehicles. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0088 - Traffic Crash Investigations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to traffic crash investigations, laws pertaining to traffic crashes and procedures for responding to a traffic crash. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0092 - Critical Incidents

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to identify the crowd control procedures to safely and effectively disperse or control a large group of people; understand local emergency response plans; respond to a bomb threat, assesses the scene, search and evacuate a building or suspected bomb sight, identify Weapons of Mass Destruction and properly respond to a WMD incident. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 45 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096A - Criminal Justice Physical Fitness I

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 31 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096B - Criminal Justice Physical Fitness II

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 32 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0240 - Law Enforcement Auxiliary Introduction

This course is a component of the Law Enforcement Auxiliary Basic Recruit Academy. It introduces the student to the criminal justice system. It also introduces an understanding of ethics and professionalism required by a law enforcement auxiliary officer as well as the daily functions to be conducted by an auxiliary officer. This course is open only to students admitted to the Law Enforcement Auxiliary CMS Basic Recruit Academy.

Credit Hour(s): 27 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0241 - Law Enforcement Auxiliary Patrol and Traffic

This course is a component of the Law Enforcement Auxiliary Basic Recruit Academy. It introduces the student to the basic rules for responding to calls, making arrests, and transporting prisoners. It also helps students understand how to direct traffic, enforce citations and maintain crowd control. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0242 - Law Enforcement Auxiliary Investigations

This course is a component of the Law Enforcement Auxiliary Florida Basic Recruit Academy. It introduces the student to the basic rules for responding, protecting and processing a crime scene. It also introduces how to conduct an investigation and give a testimony in court. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Auxiliary Florida Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0300 - Introduction to Corrections

This course introduces students to the legal and ethical responsibilities of a correctional officer. Legal terms and definitions are explained. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0305 - CJSTC Communications

This course covers the entire report writing process. Topics include interview and interrogation, interpersonal communication, and practical exercises. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0310 - Officer Safety

Correctional officer safety procedures are learned. Students will learn to identify potential hazards and learn how to safely respond. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0315 - Facility and Equipment

Students learn the appropriate procedures for inspecting a correctional facility and equipment. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0320 - Intake and Release

Students learn the appropriate procedures for admitting and releasing inmates in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0325 - Supervising in a Correctional Facility

Students learn the appropriate procedures for supervising inmates in a correctional facility. They also learn to detect crimes and rule violations in various correctional facility settings. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0330 - Supervising Special Populations

Students learn how to identify and supervise special population groups, such as threat groups, juveniles, elderly, and mentally ill inmates. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0335 - Responding to Incidents and Emergencies

Students learn how to identify and respond to situations involving escapes, riots, bomb threats, fires, and medical emergencies in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0422 - Dart-Firing Stun Gun

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare students in the proper use of the Dart Firing Stun in accordance with the Florida State Statutes, the United States Constitution, and case law. It includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 9 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0780 - Cross-Over Law Enforcement to Corrections

This course is a component of the Corrections Cross-Over Basic Recruit Academy. This course is designed to enhance Law Enforcement recruits' awareness and understanding of corrections and to teach student skills which will enable them to cross-train into the corrections profession. This course includes classroom instruction. This course is open only to students who have successfully completed the Law Enforcement Basic Recruit Academy and passed the state certification examination for Law Enforcement.

Credit Hour(s): 16 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

Law Enforcement Basic Recruit Training Program.

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJL 1100 - Criminal Law

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2130 - Criminal Evidence and Procedure

This course provides students with an overview of criminal procedure particularly applied to search and seizure and evaluation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

Dance DAA 1100 - Fundamentals of Modern Dance

This beginning dance class serves as an introduction to the art of contemporary dance. It includes instruction and practice in basic modern dance techniques, improvisation, dance forms and brief historical overview.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring,, Summer) Note:

This course may be taken up to four times for credit.

DAA 1101 - Modern Dance II for Non-Majors

This course includes a continued analysis of the modern dance at an intermediate level. Instruction and practice in specific contemporary dance techniques and performance qualities will be stressed.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1104 - Modern I for Majors

This dance class is designed to affect an understanding of the art of the modern dance. It includes a brief history of the dance; instruction and practice in basic dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time. This course maybe taken 4 times for credit.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1200 - Fundamentals of Ballet

This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1201 - Ballet II for Non-Majors

Intermediate Ballet is designed to train the student in the tradition of the art of the classical ballet beyond the basics. Continued development of the body as an expressive instrument for ballet movement will be stressed as students reach the proficiency level necessary to perform the more complicated steps of an intermediate class.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1204 - Ballet I for Majors

A beginning dance course designed to serve as an introduction to the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1500 - Jazz I for Non-Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken four times for credit.

DAA 1500A - Beginning Jazz

This course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1520 - Tap I

This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1521 - Tap II

The Tap II dance class includes a more in-depth history of tap dance, instruction and practice utilizing tap and exploring its various styles.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

DAA 1520 .

Note:

This course may be taken up to four times for credit.

DAA 1580 - Musical Theater Dance I

This beginning course covers the study of musical theater dance techniques and styles as related to a specific performance experience, usually Creative Dramatics. Students must participate in designated rehearsals and performances.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):
level of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 1680 - Dance Workshop
This course includes instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAA 1681 - Dance Ensemble
The student shall participate in the preparation and performance of original dance compositions to include Dance Line and Show Choir performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
level of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 2105 - Modern II for Majors
This dance class is designed to further the student's understanding of the art of the modern dance. It includes continued study in history of the dance; instruction and practice in intermediate level dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 2205 - Ballet II for Majors
This dance course is designed to serve as an further training in the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 2581 - Musical Theater Dance II
The continued study of Musical Theater dance techniques and styles as related to a specific performance experience, usually Summer Ensemble Workshop. Students must participate in rehearsals and performances.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):
level of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 2610 - Dance Composition
An introduction and practice in the application of compositional tools encourages the student to explore and compose dance. By studying the body's movement in time and space the student will improve technical skills, develop improvisation and choreographic skills and enhance overall dance performance. Previous dance experience is helpful.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAA 2682 - Dance Workshop II
This course includes continued instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
A demonstration of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 2683 - Performance Dance, (Repertory and/or Original Choreography)
This course includes the continuation of study and participation in all rehearsals of selected works of dance repertory and/or

original choreography culminating in public performance.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAN 1750 - Dance Conditioning

Dance Conditioning is an excellent course in which to begin your dance training. It is designed to improve fundamentals for the beginning/intermediate student through daily practice in floor work, yoga, and Pilates exercises. This movement class will get you ready to meet the challenges of other dance classes by toning, strengthening and preparing the body to move.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAN 2120 - Dance Appreciation

This course is a study of the development of dance as an art form, as entertainment, and how it relates to the history of cultures and societies, emphasizing the evolution of dance in the specific genres such as ballet, modern dance, jazz dance, and world dance forms. Designed to heighten student awareness of dance as an integral part of society and establish an appreciation of dance's impact on the making of art. This course will give the student a foundation level understanding of dance as an art form and its historical and cultural significance. The major periods of dance history, master choreographers, and their works will be explored through lecture, discussion and media presentation. DAN 2120 is not an activity course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Dental Assisting DEA 0020 - Pre-Clinical Procedures Theory

This course is designed to provide an introduction to the dental assisting profession to include orientation to four handed dentistry and general dental office procedures including, but not limited to basic principles of disease prevention, patient data collection and assessment, and instrumentation. Emphasis is on adhering to safety guidelines as specified by OSHA.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0020L - Pre-Clinical Practice Lab

This is a comprehensive chair side competency based course. The course provides the skills practice necessary for dental assisting students entering four handed dentistry practice including but not limited to infection control, taking and recording vital signs, assisting with operative procedures, principles of preventive dentistry, instrument identification, and use and maintenance of equipment. Emphasis is on aseptic technique and clinical competency with procedures performed in a contemporary dental practice.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020 , DES 0103L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0130 - Allied Dental Theory

This course is a general study of the scientific and clinical concepts that include additional knowledge base necessary to the practice of dental assisting. Students will study the normal and abnormal conditions of the oral cavity such as dental caries prevention, the dental caries process and recognition of various common pathological conditions. Oral pathology, histology and embryology are included. Emphasis is on the interrelationship of the information presented with the clinical practice of dental assisting.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved

articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0803L - Clinical Practice I

This competency based clinical course provides a real world setting in which to integrate the laboratory and clinical skills learned in the classroom. The student receives closely supervised hands on training in chair side dental assisting through rotations at community dental offices. Progress is evaluated using predetermined competency guidelines. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 90 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020 , DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0851L - Clinical Practice III

This course is a continuation of Clinical Practice II, providing a real world setting for students to practice the training and clinical skills learned in class including x-ray film placement and cone positioning. The student is assigned to various offices in the community including specialty offices and general dentistry offices. Students assist the dentist and staff with various function of a Dental Assistant at a more advanced level of proficiency. Students must provide their own transportation and must have current CPR training along with up-to-date immunizations. Specific procedure requirements and 180 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 180 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0803L , DEA 0852L , DES 0205 , DES 0205L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0852L - Clinical Practice II

This course is a continuation of Clinical Practice I. It provides a real world setting for students to receive additional training in the clinical skills learned in class. Students are assigned to various offices in the community including but not limited to general dentists, oral surgeons, orthodontists, periodontists, and endodontists. Performance evaluations are utilized to measure competency and provide feedback from the local dental offices to the instructor regarding the students' competency level. Skills are strengthened in Seminar Lab. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 150 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0803L , DES 0400B

Corequisite(s):

DES 0830 , DES 0830L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0936 - Dental Assisting Seminar

This course is designed to provide a review of materials commonly covered on the Dental Assisting National Board (DANB) Exam. Topics include but are not limited to infection control, general chair side procedures, and radiographic technique. The seminar will provide a mock board examination, and opportunities for review, problem solving, and strengthening skills. The course also serves as an opportunity for feedback from students' Clinical Practice.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0852L , DEA 0803L , DES 0205 , DES 0205L

Corequisite(s):

DEA 0803L , DES 0206L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103 - Dental Materials Theory

This course is a comprehensive study of the theory of manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. The competency based lab that accompanies this course includes exercises to illustrate application and use of selected materials. Students will study various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, as well as acrylic plastics. Students will become familiar with various pieces of dental laboratory equipment and their uses.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0103L , DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103L - Dental Materials Lab

This course is a comprehensive study of the manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. Emphasis is on practical application as it relates to the role of the dental assistant in the contemporary dental practice. It is a competency based lab that accompanies the theory course and includes exercises to illustrate application and uses of selected materials. Students practice the use of various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, and acrylic plastics.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0103 , DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205 - Dental Radiology Lecture

This course is designed to introduce the theory, application and principles of radiographic exposure and processing techniques used in dentistry. Students will receive instruction including but not limited to historical data, radiation safety, exposure, processing, mounting and error prevention. Image interpretation of radiographic anatomical structures will be included.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400B , DEA 0020 , DEA 0020L

Corequisite(s):

DES 0205L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205L - Dental Radiology Lab

This laboratory course assists students in radiographic performance techniques using DXTR manikins to achieve competency prior to exposure of various patients with varied dentitions. Students practice exposing, mounting, radiographic interpretation, safe darkroom procedures, identification of landmarks and distinguishing radiographic pathology from normal landmarks. Clinical radiographic skills necessary to produce diagnostic quality radiographs including bitewings, periapical radiographs, and panoramic x-rays will be covered. Emphasis is on patient and operator safety guidelines and producing diagnostic quality radiographs.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400B , DEA 0020 , DEA 0020L

Corequisite(s):

DES 0205 .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206L - Dental Radiology Lab II

This laboratory course assists students in additional radiographic performance techniques to include surveys on patients with varied dentitions. Students practice more advanced radiographic exposure techniques, interpretation, additional darkroom procedures, identification of landmarks and distinguishing various radiographic pathology. Clinical radiographic skills necessary to produce diagnostic quality x-rays including but not limited to bitewings, periapical radiographs, and panoramic surveys on actual patients will be covered. Emphasis is placed on patient and operator safety guidelines and producing diagnostic quality radiographs during this course.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400B , DEA 0020 , DEA 0020L , DES 0205L

Corequisite(s):

DEA 0851L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0324 - Interpersonal Communications Skills

This course is designed to implement interpersonal and effective communication skills in the practice of dentistry. It includes team building strategies, oral and written communications skills with the correct use of terminology commonly used in dentistry. Professionalism in verbal and nonverbal communications is emphasized. Students will be introduced to the legal and ethical scope of responsibilities for dental assistants and interpersonal relations in the dental office. Providing oral health instructions and post operative instructions for patients will be introduced. Scenario-based role playing is used to augment student learning of course content.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0400B - Dental Anatomy

This course provides a detailed study of the orofacial and related structures of the head and neck including, but not limited to the eruption, identification and function of the human dentition, study of bony, circulatory, muscular and nervous systems of the head, neck and surrounding structures associated with the oral cavity. A brief introduction to oral histology and embryology will be included.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0501 - Dental Practice Management

This course includes theory and content relating to practical administrative duties performed in the dental office. Lectures and role playing activities are related to the responsibilities of the dental assistant. Topics include but are not limited to appointment scheduling, billing, collections, record keeping, clerical and dental supply inventory. Students are introduced to the use of dental practice software with hands on computer experience. Legal responsibilities, interpersonal relations, and interview skills are included.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0205 , DES 0205L

Corequisite(s):

DEA 0936 .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0602 - Pharmacology and Dental Office Emergencies

This course is designed to familiarize the dental assisting student with the basic concepts and considerations regarding pharmacology and pharmaceutics used in dentistry. Topics presented include nitrous oxide monitoring, emergency procedures and protocol. Lectures will include recognition of emergency conditions in the dental office, not limited to syncope, anaphylaxis, and cardiovascular incidents. Emphasis is placed on the role of the dental assistant in the prevention and management of dental office emergencies.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830 - Expanded Function Theory

This course introduces the dental assisting student to the dental specialty practices and more advanced clinical skills. It also provides the theory of dental specialty practice administration as it relates to the role of the dental assistant including ethical and legal ramifications. Lectures relate topics including but not limited to dental specialty procedures, instruments used in the specialty practices and duties delegated to dental assistants according to the rules and regulations of the Florida Dental Practice Act. Role playing and problem solving activities using case studies relate to duties delegated to dental assistants.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0400B

Corequisite(s):

DES 0830L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830L - Skills Seminar

This laboratory course accompanies the clinical practice lecture course DES 0830 and provides opportunity for students to practice application of the duties delegated to dental assistants according to the Florida Dental Practice Act. Students become more proficient in more advanced skills. Competencies containing information and behavioral objectives allow students to master each skill before advancing to the next.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0400B

Corequisite(s):

DES 0830 .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0844 - Dental Science

This course is a general study in biomedical sciences of preventive dentistry to familiarize the dental assisting student with basic principles of microbiology, basic body structures, and their functions and effects as manifested in the oral cavity. The course also covers the effects of nutrition and the role of microorganisms in dental health and blood borne pathogens.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Domestic Security DSC 1002 - Domestic and International Terrorism

This course is designed to assist students in recognizing and understanding the elements and objectives of terrorism and 4th Generation Warfare and how they affect public safety planning and response operations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1004 - Introduction to NRF and NIMS

Designed to inform emergency responders and planners of the key elements in the National Response Framework (NRF) and the National Incident Management System (NIMS) and their relationship to planning and response operations. The curriculum includes classroom exercises.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1222 - Psychological Management of Disaster Victims

This course introduces students to a general overview of terrorism and the potential psychological effect of terrorist events on victims.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1250 - Unmanned Vehicles Fundamentals for Disaster Management

This course examines the protocol and interagency support concepts for the utilization of unmanned vehicles in preparation and response of catastrophic events. Students will be introduced to the development of an emergency response plan which will include unmanned vehicle concepts such as observation, communications, safety, training, and also integration between Public safety agencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

DSC 1552 - Critical Infrastructure Protection

This course introduces participants to the Critical Infrastructure Protection (CIP) process to secure the effective protection of the people, physical entities, and cyber systems that are critical. The CIP course will guide leaders in the systematic protection of critical infrastructures. More basically, the course will introduce decision sequence that assists leaders and future leaders in

ultimately determining exactly what really needs protection as well as when. The course will introduce a time-efficient and resource-restrained practice that ensures the protection of only those infrastructures upon which survivability, continuity of operations, and mission success depend.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1562 - Homeland Security Threat Strategy

This course addresses problems of terrorism from a criminal justice perspective. It is designed to provide students with an understanding of the major issues associated with responding to terrorism in a democratic society. The course focuses on the threat of terrorism to the United States and will review specific strategies to deter terrorist threats to the U.S. The course will assess the relative effectiveness of anti-terrorist activities.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1631 - Planning Considerations for Terror Prevention

This course introduces participants to various aspects of planning for potential terrorist activity. The student will be introduced to basic principles of emergency management, communications, security threats, and the effects these operations may have on personnel. The student will learn techniques for evaluating their own jurisdiction's vulnerability against terrorist attacks. Students will gain knowledge of the roles and responsibilities of local agencies during terrorism responses. The course introduces participants to various aspects of emergency management of terrorist activity.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1751 - Homeland Security Policy and Law

This course introduces participants to the major debates about balancing democratic freedoms with security from the Patriot Act to Supreme Court decisions on detention powers. The course provides insight into legal strategies necessary to confront ongoing national security threats. The course examines laws designed to preserve both our security and our democratic way of life.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 2055 - Issues in Disaster Response

This course serves as an introduction to disaster response and mitigation for the first responder. Students will be introduced to legislation that has had a major impact on disaster and incident response, the role of local, tribal, state and federal government response to incident and disaster declarations and a brief introduction to the National Incident Management System, National Response Plan and the Incident Management System.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

DSC 2056 - Disaster Response Operations

This course examines the response protocol, logistics, responsibilities, interagency support, and concepts of front end planning involved in preparation for a catastrophic event. Students will be introduced to the development of an emergency response plan that will include concepts such as lookout, awareness, communications, escape, safety (laces), training, and various agency relationships.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Drafting and Design EGN 1111C - Engineering Graphics

Covers the use of instruments, lettering practice; geometric construction; multiview projection and conventions, auxiliary views, section views, axonometric and oblique projections, rotation, patterns and development, and methods of reproduction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 1102 or equivalent: prerequisite only applies to Architectural Drafting and Design students.

EGN 1130C - Descriptive Geometry

Covers basic principles of orthographic projection, auxiliary views and rotation as they apply to points, lines and planes in space; addition of coplanar and non-coplanar vectors; intersections and developments; and selected abstract, exponometric and oblique projection, and practical problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

EGN 1111C or equivalent.

ETD 1102 - Introduction to Technical Drawing

A course in the fundamental principles of the graphic language (the language of industry) and is developed for students without previous mechanical drawing experience. Topics include: use and care of instruments, lettering, geometric construction, multiview projection, sketching techniques, inking, and methods of reproduction.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer, Fall)

ETD 1112 - Mechanical Drafting I

The second of a sequence of courses in drafting which includes basic use of instruments, freehand lettering, geometric construction, orthographic projection, sections and conventional revolutions, dimensioning, inking, mechanical lettering, methods of reproduction, and developing computer-aided drafting skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ETD 1102 and ETD 1320C or equivalent

ETD 1217 - Fundamentals of Dimensioning and Tolerancing

A course designed to help students develop the basic fundamentals of dimensioning and tolerancing. Topics include: dimensioning systems such as; metric, decimal, fractional-inch, foot and inch, tolerancing methods, limits and tolerances, tolerancing accumulation, dimensioning practices, and standards fits.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

ETD 1320C - AutoCAD I

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:

▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands, advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 1320C or equivalent.

Note:

▲Technology-Across-the-Curriculum Course.

ETD 1355C - AutoCAD 3-D Modeling I

A basic course in mechanical design using basic computer geometry techniques. Topics will include: orthographic projections, space relationships of points, lines, planes and revolution of objects. Additional coverage will include principles of surface generation, intersections, wire modeling, and solid modeling techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ETD 1340C or equivalent.

Note:

▲Technology-Across-the-Curriculum Course.

ETD 1801C - Technical Illustration

The purpose of this course is to help students develop the skills, knowledge, and attitudes necessary to be job entry-level qualified as technical illustrators.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

ETD 1112 or EGN 1130C , and ETD 1340C .

Note:

▲Technology-Across-the-Curriculum Course.

ETD 2150 - Industrial Print Reading

The beginning level aspects of reading industrial prints such as drawing notes, title blocks, revision blocks, legends, schedules, multiviews, and parts list.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ETD 2218 - Geometric Dimensioning and Tolerancing

An introductory course in geometric dimensioning and tolerancing using the geometric method nationally accepted according to ASMEY 14.5M. Topics covered include: definition and terms, symbols, datum referencing, locational tolerancing, form tolerancing, profile tolerancing, orientation and runout tolerancing, and math for positional tolerancing.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Summer) Prerequisite(s):

ETD 1217 or equivalent.

ETD 2350C - AutoCAD III

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 1340C .

Note:

▲Technology-Across-the-Curriculum Course.

ETD 2357C - Inventor I

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Note:

▲Technology-Across-the-Curriculum Course.

ETD 2358C - Inventor II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using Inventor Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

ETD 2357C .

Note:

▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Note:

▲Technology-Across-the-Curriculum Course.

ETD 2368C - SolidWorks II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ETD 2364C or higher or equivalent.

Note:

▲Technology-Across-the-Curriculum Course.

ETD 2377C - 3D Studio Max I

Course is designed to use 3D Studio in rendering, and animation as a dynamic visualization tool for AutoCAD design images. Upon completion of this course, the user will be able to navigate through the modules of the program, model simple projects, set up scenes for rendering and animation, assign materials to objects, and define simple motion paths, input and output techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ETD 1355C or equivalent.

ETD 2731 - Mechanical Drafting II

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary views, related mathematics, precision dimensioning developing computer-aided drafting skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ETD 1112 or equivalent.

ETD 2735 - Mechanical Drafting III

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include: isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary views, related mathematics, and precision dimensioning developing computer-aided drafting skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ETD 2218 and ETD 2731 or equivalent.

ETD 2802C - Technical Illustration II

The purpose of this course is to help students develop advanced skills, knowledge, and attitudes necessary as technical illustrators, to include oblique, and axiometric projections, perspective and exploded pictorial drawings, and related techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ETD 1340C or equivalent.

ETD 2905 - Independent Study – Drafting

Practical treatment of special geometry, graphics, and design with emphasis on individual work projects utilizing such graphical techniques as orthographic projection, perspective drawing, auxiliary views, topographic drawing, and graphing.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

EGN 1111C and ETD 1112 or permission of instructor.

Note:

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
* This course may be taken up to four times for credit.

ETG 1941 - Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the instructor

Note:

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

Early Childhood Education DEP 2100 - Child Growth and Development

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1002 - Early Childhood Program Administration

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1201 - Infants and Toddlers

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1401 - The Family In Early Childhood Education

This course is comprehensive in scope, emphasizing skills and concepts of parenting which include: adjustment to parental roles; parent-child communication, care, growth, and development of children; cultivating strong families; special concerns; alternative family structures; educational institutions working effectively with parents; and agencies and legislation affecting children and parents.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1601 - Assessment in Early Childhood Education

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EEC 1750 - Guidance for Young Children

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

EEC 1949 - Internship, Early Childhood Education

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

EEC 1309 or EEC 1201 .

EEC 2218 - Instructional Strategies in Early Childhood Education

Study of and development of effective skills and techniques used in program planning and use of creative media for young children.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

EEC 1309 .

EEC 2220 - Language and Literacy Instruction In Early Childhood Education

Study of the principles, methods, and materials used to assist young children acquire basic skills to use language effectively and competently; evaluation and development of appropriate teaching materials to use with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

EEC 1309

EEC 2222 - Math and Science Instruction In Early Childhood Education

Study of the basic concepts, methods, and materials of mathematics and science appropriate to the education of young children. Identification of the role of staff members in the center for the education of young children. Assignment with young children in community agencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring and as needed) Prerequisite(s):

EEC 1309 .

EEC 2732 - Child Nutrition, Health and Safety

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 3213 - Teaching the Language Arts In Early Childhood Education

The focus of this course will be on the development of language and literacy in children ages birth through age four. Emphasis will be placed on understanding the process of emergent literacy including vocabulary and language, phonological awareness, print knowledge and comprehension; and on designing a developmentally appropriate language arts program in relation to the early learning and developmental standards. This course will require observing and participating in an early childhood classroom.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

EEC 3227 - Art, Music, and Movement

The focus of this course will be on developing an understanding of the creative developmental process in the life of children from birth through four years old. Emphasis will be placed on the teacher's role in developing opportunities and materials for young children to express themselves creatively through music, drama, dance and two- and three-dimensional art and on providing varied opportunities for young children to gain an appreciation of art, music, drama, and dance in ways that reflect cultural diversity in relation to the early learning and developmental standards. This course will require observing and participating in an early childhood classroom.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 3320 - Principles and Methods for Teaching Early Childhood Social Studies

This course is designed to prepare students to teach social studies In the early childhood classroom. Emphasis is on implementing the project approach to investigate components of social studies to include: individual development and identity; people, places, and environments, technology and our world; and civic ideals and practices. The student will increase and apply knowledge and skills in the Florida Early Learning and Developmental Standards relevant to this content area.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 3511 - Curriculum for Infants and Toddlers

The focus of this course will be on the design, implementation and evaluation of programming and curriculum that promotes growth and development of young children birth to three years old and aligns with the early learning and developmental standards. Study of typical and atypical development will be included. Emphasis will be on working effectively with families of infants and toddlers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 3524 - Professionalism/Program Development

Focus of this course will be on management and leadership in early childhood education programs. Topics will include mentoring adults, professional development, staff assessment, program evaluation, and child advocacy. Career options in the field of early childhood education will be explored. This course will require observing and participating in a program or agency related to early childhood education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

EEC 4404 - Families and Diversity

This course will focus on building positive relationships with families through communication and involvement. Focus will include developing an awareness of diversity and multicultural considerations in working with families of young children. The course will explore the role of the family and the influence of the community on the development of young children in a diverse society; and will prepare the student to work effectively with families and communities.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 4421 - Teaching Math and Science in Early Childhood Education

The focus of this course will be on developing an understanding of how concepts, skills and attitudes in early childhood mathematics and science are developed in young children ages birth through age four. Math topics will include number sense and operations, patterns, geometry, and measurement. Science topics will include scientific inquiry, physical science, life science and earth science. Emphasis will be on the alignment of the Early Learning and Developmental Standards with a developmentally appropriate approach to teaching math and science in the early childhood classroom. This course will require observing and participating in an early childhood classroom.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

EEC 4613 - Systematic Observation and Assessment

The focus of this course will be on understanding the purpose of child assessment, implementing developmentally appropriate practices in formal and informal child assessment, and using assessment results to support learning, to identify special needs, to evaluate programs, and to respond to program accountability requirements. A field experience is required to practice various methods of assessment in an early childhood setting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 4940 - Internship

Supervised teaching in an assigned Early Childhood Education setting. Student teaching assignments will be made by the Department of Teacher Education Office. This course requires a minimum grade of "C". Current background check (fingerprinting) is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper Division standing with permission of Department Chair

EEX 3604 - Classroom Management in Early Childhood Education

The focus of this course is on implementing effective classroom management practices including establishing an appropriate physical environment, setting up appropriate classroom routines and rules and creating a positive classroom community. Emphasis will be on strategies for guiding children's behavior, teaching social problem-solving skills and responding appropriately to challenging behaviors.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEX 4201 - Young Children with Special Needs

The focus of this course will be on working with young children birth through age four in an inclusive early childhood classroom. Emphasis will be on identifying typical and atypical development, creating an inclusive early childhood learning environment, understanding special education law, developing an awareness of resources for inclusive practice to meet the needs of young children and their families.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Earth Science ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

Economics ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Education EDE 4223 - Integrating Art, Music, and Physical Education

This integrative course provides students with critical understanding of art, music, and physical education. Emphasis is placed on the effective integrative lesson planning and modeling techniques to art, music, and physical education in elementary schools. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDE 4226C - Integrated Language Arts, Social Science and Literature

This course is designed to prepare candidates to teach language arts and social science in elementary classrooms. Teacher candidates will develop units of study that integrate literature, language arts, with social science content. Emphasis is on constructivist principles and methodology. Teacher candidates will plan and deliver standards-based language arts and social science lessons designed to meet the needs of diverse learners including English language learners (ELLs) and students with exceptionalities. This course requires 18 hours of field experience in a K-6 classroom setting. Current background check (fingerprinting) acceptable to the district in which the field experience will take place is required for this course. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDE 4930C - Seminar in Elementary Education

This course is designed to prepare the pre-service teacher to transition into the workplace. Includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDF 1005 - Introduction to the Teaching Profession

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen-hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course requires a minimum grade of "C" if used to meet state prerequisites for entry into a Bachelor of Teacher Education program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EDF 1006 - Field Experience in Education

This Educational Field Experience course allows students to work in an educational setting for a semester to meet requirements for admission to the BSE program. This course requires a minimum grade of "C". Current background check (fingerprints) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

permission of department chair.

EDF 1006A - Field Experience in Education

This Educational Field Experience course allows students to work in an educational setting for a semester to meet requirements for admission to the BSE program. This course requires a minimum grade of "C". Current background check (fingerprints) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of department director.

EDF 2085 - Introduction to Diversity for Educators

This course will provide the student with the opportunity to explore personal values and attitudes toward cultural diversity. Designed for the prospective educator, the theoretical component will examine the issues of teaching in culturally diverse classrooms. An eighteen-hour field experience and examination of educational materials will enhance the student's understanding of multiculturalism. An additional fingerprinting cost may be associated with this course. This course requires a minimum grade of "C" if used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EDF 3214 - Human Development and Learning

This course is designed to cover the principles of learning and student development with applications to learning/teaching situations. Identification and analysis of students' academic, physical, cognitive, emotional, motivational, and social development is to be emphasized. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDF 3430 - Measurement, Evaluation, and Assessment in Education

This course studies the basic principles and methods of measurement, evaluation, and methods of test construction. Students will interpret standardized test scores, construct teacher-made tests and other classroom assessments, and evaluate portfolio and performance assessment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDF 3910A - Projects in Teacher Education

Directed study and individual projects designed to meet the needs of Teacher Education students completing an artifact required in the B.S.E. program. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

upper division standing

EDF 3910P - Projects in Teacher Education – Field Placement

Directed study and individual projects designed to meet the needs of Teacher Education students completing field experience in the B.S.E. program. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

upper division standing

EDG 3343 - Instructional Strategies

This course provides an overview of instructional models and strategies. Emphasis is placed on principles of state standards, instructional methods, and lesson planning and instruction. Students will develop knowledge of instructional models and lesson plan construction for effective implementation including the diverse student populations. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C

EDG 3410 - Classroom Management, School Safety, Law, and Ethics

Practicing teachers are provided strategies for managing a safe, stimulating learning environment for all learners. This course emphasizes school safety, law, and ethics as they apply to schools, districts, and the learning environment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. This course is restricted to practicing teachers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Online Only Prerequisite(s):

upper division standing.

EDG 3410C - Classroom Management, School Safety, Law, and Ethics

Pre-service teachers are provided strategies for managing a safe, stimulating learning environment for all learners. This course emphasizes school safety, law, and ethics as they apply to schools, districts, and the learning environment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

EDG 4940 - Internship

Supervised teaching in a public or private school. Student teaching assignments will be made by the department of teacher education field placement coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing with permission of department chair.

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EEX 3070 - Methods of Inclusion and Collaboration

This course examines the basic identification techniques and strategies used to promote academic and social integration and interaction of "mainstreamed" exceptional students. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EME 2040 - Introduction to Technology for Educators

This course will develop competencies necessary to integrate technology into classroom instruction. Students will survey a variety of instructional technology materials, software, and systems, as well as learn to use these in the classroom environment. This course requires a minimum grade of “C” if used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

EME 3410C - Integrating Technology in the Classroom

In this course students will learn how to design a technology-rich classroom while contemplating the changing role of the teacher as a mentor/guide and student as a self-directed learner. Students will explore models of technology integration, classroom management, and administrative tasks that can be performed more efficiently using technology and learn strategies to select software and deal with legal and ethical issues when planning for technology integration. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3343 and EDG 3410C

EVR 3949 - Extended Internship, Environmental Science

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Minimum Grade of "B" in any college-level science course and permission of instructor.

LAE 4343C - Writing Across the Curriculum

This course prepares pre-service teachers by developing an understanding of the foundations of writing through the use of writers workshops and instructional strategies necessary to provide adequate instruction to emergent, novice, and transitional writers. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 3350C - Principles and Methods for Teaching Mathematics K-8

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching mathematics in grades K-8. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4312C - How Children Learn Math

This course is designed to develop the skills and concepts necessary to deliver the mathematics curriculum effectively in the classroom. The content strongly reflects the curriculum emphases of the National Council of Teacher of Mathematics, and topics are presented using a process-oriented approach. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4930C - Seminar in Math Education

This course is designed to prepare the pre-service teacher to transition into the workplace, and includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns in mathematics, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4940C - Teaching Methods in Middle Grades Math Field Experience

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching mathematics in a middle school classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4945 - Internship - Middle Grades Math

Supervised teaching of Middle Grades Math in an assigned school. Student teaching assignments will be made by the Department of Teacher Education Field Placement Coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Upper division standing with permission of department chair.
EDF 3214 , EDF 3430 , EDG 3410C , EDG 3343 , EEX 3070 , EME 3410C , MAC 2312 , MAD 3107 , MAE 3350C , MAE 4312C , MAE 4940C , MHF 4404 , MTG 2206 , RED 3324C , RED 3335C , STA 2023 , and TSL 3081C

RED 3309C - Early and Emergent Literacy K-2

This course is designed to increase the understanding of early literacy development and the conditions which promote total literacy from birth through lower elementary grades. Language theory and current research are used to shape informed practices regarding literacy development. Connections are made among all aspects of literacy learning: reading, writing, listening, speaking and attitude development. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 3324C - Teaching in the Middle Grades Curriculum

This course presents theory and methodology for teaching reading at the middle school level with emphasis on strategies for vocabulary and comprehension, evaluating student progress in reading, and integrating reading and study skills into content area instruction across the middle school curriculum. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 3335C - Teaching Reading in the Content Areas

This course addresses strategies, materials, and skills for teaching reading in content areas. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3324C and upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 3511 - Intermediate Literacy 3-6: Reading and Thinking

This course combines the theory and practice in the teaching of reading/ literacy in the elementary intermediate grades. Procedures for meeting individual differences, differentiated instruction, selected use of materials, and classroom organizations will be examined. This course requires a minimum grade of "C" or better and is restricted to practicing teachers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C and upper division standing

Prereq/Corequisites:

EDG 3410C , EDG 3343

RED 3511C - Intermediate Literacy 3-6: Reading and Thinking

This course combines the theory and practice in the teaching of reading/literacy in the elementary intermediate grades. Procedures for meeting individual differences, differentiated instruction, selected use of materials, and classroom organizations will be examined. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C and upperdivision standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 4312 - Integration of Assessment into Classroom Reading

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students.

Emphasis is placed on integrating assessments into the curriculum to strengthen instructional strategies and student success. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

RED 3309C , RED 3511C and upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 4519C - Diagnostic and Instructional Interventions in Reading

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on diagnosis of reading problems, administration of assessments, evaluation of results and planning instructional interventions to remediate reading difficulties. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C , RED 3511C and upperdivision standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 4854C - Reading Field Experience

This course provides application of knowledge of reading development to reading instruction. Emphasis is placed on increased reading proficiency for struggling students, including students with disabilities and students from diverse populations. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C , RED 3511C , RED 4312 , RED 4519C , upper division standing with permission of department chair

SCE 3350C - Principles and Methods for Teaching Science K-8

This course provides techniques, methods and materials of instruction for teaching science in grades K-8. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

SCE 4930C - Seminar in Science Education

This course is designed to prepare the pre-service teacher to transition into the workplace, and includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns in science, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

SCE 4940C - Teaching Methods in Middle Grades Science Field Experience

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching science in a middle school classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

SCE 4945 - Internship - Middle Grades Science

Supervised teaching of Middle Grades Science in an assigned school. Student teaching assignments will be made by the

Department of Teacher Education Field Placement Coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Upper division standing with permission of department chair.
EDF 3214 , EDF 3430 , EDG 3343 , EDG 3410C , EME 3410C , EEX 3070 , ESC 1000 , EVR 3949 , ISC 4145 , MET 1010C , RED 3324C , RED 3335C , SCE 3350C , SCE 4940C , TSL 3081C , and CHM 1020 or PHY 1020

TSL 3081 - TESOL Issues and Practices

This course is designed to integrate the theories and principles of the Teaching of English to Speakers of Other Languages and applying them to classroom instruction. ESOL methodology and curriculum will be emphasized as they relate to current best practice in ESOL instruction. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a minimum grade of "C." Neither field experience or a background check/fingerprinting are required for current teachers enrolled in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing

Prereq/Corequisites:

EDG 3410C , EDG 3343

TSL 3081C - TESOL Issues and Practice

This course is designed to integrate the theories and principles of the Teaching of English to Speakers of Other Languages and applying them to classroom instruction. ESOL methodology and curriculum will be emphasized as they relate to current best practice in ESOL instruction. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

TSL 4140C - ESOL Methods, Curriculum and Assessment

This course is designed to build on the candidate's knowledge of applied linguistics and cross cultural communication. Candidates will extend their understanding of the role of language and culture in the classroom. This course will prepare candidates for effective planning, instruction, and assessment of ELLs in the classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

TSL 3081C and upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

Educational Psychology EDP 2002 - Educational Psychology

Significant aspects of the growth and development of children and youth, including physical, social, and intellectual developments as they affect behavior patterns. Psychology as applied in improving the learning process.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Electronics EET 1015C - Electricity/Electronics I, DC Circuits

This is the first course required for Electronics Aide certificate. This course introduces the theories, concepts, and relationships of voltage, current, and power in DC series, parallel, and series/parallel circuits containing common circuit elements with single and multiple sources. Students are introduced to Ohm's Law, Kirchoff's voltage and current Laws, Thieving's, Norton's, super-position, and maximum transfer of power theorems and their uses in DC circuit analysis. Students will learn how to use a digital multimeter to trouble shoot and analysis DC circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

EET 1084C

EET 1025C - Electricity/Electronics II, AC Circuits

This is the second course required for Electronics Aide certificate. This course introduces the theories, concepts, and relationships of voltage, current, and power in AC series, parallel, and series/parallel circuits containing common circuit elements with single and

3-phase sources. Students will apply Ohm's Law, Kirchoff's voltage and current Laws, Thieving's, Norton's, super-position, and maximum transfer of power theorems and their uses in AC circuit analysis. Included will be the use of a multimeter and oscilloscope for experimentation with and trouble shooting AC circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1015C

EET 1141C - Solid State Electronics

This is the third course required for Electronics Aide certificate. This course introduces the student to the concept, components, and uses of solid state electronics. Topics include semiconductor devices; thyristors and diodes, transistors, amplifiers, power supplies, oscillators, and optoelectronics. The use of capacitors and inductors in solid state electronics will be also covered. The design, set-up, and troubleshooting solid state circuits and devices using various power supplies and function generators will be dispersed throughout the class.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1025C

EET 1180C - Industrial Electronic Troubleshooting

This course covers troubleshooting procedures for a variety of electronic equipment and circuits common to industrial applications. The student will develop and implement trouble shooting protocols and plans, equipment monitoring plans, a preventive maintenance plan, and select appropriate test and monitoring equipment. Safety in an industrial setting will be stressed and reinforced through a series of lab exercises throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1084C

EET 2155C - Linear Integrated Circuits

This course covers the fundamentals and applications of linear integrated circuits and operational amplifiers. The course covers includes inverting and non-inverting amplifiers, comparators, signal generators, differential and instrumentation amplifiers, operational amplifier specifications, active filters, modulator-demodulator integrated circuits, timers, analog to digital converters (ADC), and digital to analog converters (DAC) and measurement and analysis of linear circuits and devices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1015C , EET 1025C

ETS 1511C - Motors and Controls

This course explores the theory and application of AC and DC motors, types of single-phase motors, three-phase power, three-phase motors, remote and local control, forward and reversing motor starters, and various motor control circuits. Wiring and troubleshooting exercises of electric three-phase motor control circuits are emphasized in a wide range of applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1084C

Engineering Technology EET 1084C - Introduction to Electronics

This course introduces the fundamentals, terminology, and applications used in the electronics industry. The topic coverage will include circuit theory principles, electronic components, transistor usage, amplifiers, power supplies, digital logic techniques, and electronic instruments. The course will also include some basic laboratory exercises to strengthen the topic coverage as it pertains to measurement involving both analog and digital circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ETD 2371C - Rapid Prototyping I

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2364C or ETD 2357C or permission of instructor.

ETD 2372C - Rapid Prototyping II

The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2371C or permission of the instructor.

ETI 4205 - Applied Logistics

Introduction to logistics. Emphasis on practical applications. Includes systems engineering, cost/ systems effectiveness, reliability, maintainability, system functional analysis, logistic support analysis, life cycle cost analysis.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

ETM 1010C - Mechanical Measurement and Instrumentation

This course provides the foundation for mechanical and electronic measurement techniques used in manufacturing environments. The course will integrate the concepts, principles, and techniques of mechanical measurement with the use of various types of instruments including micrometers, verniers, calipers, height gages, digital multimeters and other types of measuring equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

English CRW 2001 - Creative Writing I

Instruction and practice in writing fiction and poetry. Students will submit a poetry portfolio and complete at least one short story.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CRW 2002 - Creative Writing II

Advanced work in poetry and prose modes with emphasis on revision. Students will submit a poetry portfolio and write and revise at least one complete short story. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CRW 2100 - Introduction to Fiction Writing

Practice in writing fiction using various points-of-view. Students will submit completed short stories for workshop. Upon agreement with the instructor, students may elect to develop novel chapters with synopsis. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CRW 2201 - Introduction to Creative Nonfiction

This writing course examines the narrative possibilities of creative nonfiction. We will explore structure, technique, and authorial presence in representative works of established sub-genres, including literary journalism, travel and/or food writing, memoir, the lyric essay and collage.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CRW 2300 - Introduction to Poetry Writing

Practice in writing poetic forms employing poetic techniques. Students will workshop completed poems and submit a portfolio of revised poetry. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CRW 2302 - Intermediate Poetry Writing

This course builds on poetry writing skills developed in CRW 2300 . Students will examine styles and techniques of contemporary poets and develop a portfolio of original work with attention to the revision process. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
CRW 2300 .

ENC 0056 - Developmental Writing Module

This course is designed to develop written language skills for students whose entry placement scores do not meet requirements for degree credit courses (not applicable for degree completion). Conducted in a lab setting, this course is self-paced course, designed to allow students to focus on their individual grammar, usage, and writing needs to prepare for successful entry into college credit English courses (not applicable for degree completion). This course may be taken in place of ENC 0027 if a student has a placement score of 98-102 on the PERT. Students may exit Developmental Writing Module by passing the coursework and by obtaining a passing score on the Departmental Exit Exam.

Credit Hour(s): 2 College Prep Credits When Offered: (Offered as Needed) Prerequisite(s):
Students must score 98-102 on the PERT or on an elective basis score 103 or higher on the PERT.

Note:

* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1101L - English Composition I Lab

An instructor directed writing workshop designed to improve student's opportunity for success in ENC1101. Students will strengthen writing and grammar skills necessary to master the topics and concepts covered in ENC1101. Areas of focus include, but are not limited to, the following: expository and argumentative writing; appropriate diction; conventions of Standard American English grammar, punctuation, sentence structure; conventions of MLA.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

ENC0025 and REA0017 or equivalent with a "C" or better grade, or a score of 100-116 on the PERT, or on an elective basis with a score of 103 or higher on the PERT.

Corequisite(s):

ENC 1101

ENC 1102 - English Composition II

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

passing score on placement test.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

LIN 1670 - Writing and Grammar

The course includes practice in writing short essays and encompasses a comprehensive review of grammar and mechanics. This

course is strongly recommended for students who have completed Developmental Writing, those who want a preparation for Composition, or those who score 103-116 on the PERT.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal achievement, successful completion of any required developmental English coursework with a minimum grade of "C", or exemption from placement testing.

English as a Second Language (ESOL) XEL 01___ - ESOL I

This course provides small group and individualized instruction in both oral and written English communication skills at the beginning level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 02___ - ESOL II

This course provides small group and individualized instruction in both oral and written English communication skills at the low beginning level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 03___ - ESOL III

This course provides small group and individualized instruction in both oral and written English communication skills at the high beginning level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 04___ - ESOL IV

This course provides small group and individualized instruction in both oral and written English communication skills at the low intermediate level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 05___ - ESOL V

This course provides small group and individualized instruction in both oral and written English communication skills at the high intermediate level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 06___ - ESOL VI

This course provides small group and individualized instruction in both oral and written English communication skills at the advanced level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

Entrepreneurship ENT 2931 - Selected Studies in Entrepreneurship

In this course, topics of current interest are presented in group instruction.

Credit Hour(s): 1 Credit Hour When Offered: (Spring)

Environmental Sciences ENV 4610 - Sustainable Logistics

This course introduces students to current and future trends in logistics technology, policy and sustainability. Topics include, source sustainability, environmental impacts of existing and emerging technologies, and local environmental conditions and the global climate.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1940 - Internship, Environmental Science

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Minimum grade of "B" in any college level science course and permission of instructor.

Fire Science FFP 0010 - Firefighting I

This course is the first part of the Basic Fire Recruit Academy and prepares students for a career as a volunteer firefighter. Classroom instruction includes a variety of fire related topics which are reinforced and enhanced through practical skills activities. Upon completion, the student is eligible to test for certification as a volunteer firefighter through the Florida State Fire College and may elect to continue training in Firefighter II to pursue state certification as a career firefighter. Permission of the Public Safety Division is required.

Credit Hour(s): 206 Clock Hours When Offered: (Offered as needed) Corequisite(s):

FFP 0077 unless previous certification has been obtained for first responder, EMT, or paramedic.

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0020 - Firefighting II

This course is the second part of the Basic Fire Recruit Academy and prepares students for a career as a firefighter. The delivery of instruction includes a variety of training in practical skills necessary for the mastery of the basic competencies required in the program. Upon successful completion of this course, the student is eligible to take the Bureau of Fire Standards and Training written and practical examination. Permission of the Public Safety Division is required.

Credit Hour(s): 192 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

FFP 0010 or FFP 0077

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0077 - First Responder for Public Safety Personnel

This course trains public safety members who are the first to arrive at an emergency in providing efficient and accurate pre-hospital care. Students assess patients for wounds to determine if trauma, shock, burns or closed airways are a problem and how to address those issues by dressing wounds, stabilizing the person or administering oxygen. They immobilize patients and address common emergency medical issues with basic treatments. This course includes hands-on, practical experience and is necessary to be eligible for first responder certification.

Credit Hour(s): 45 Clock Hours When Offered: (Fall, Spring, Summer) Note:

This course is a co-requisite course for students entering the Firefighting Certificate program who do not have certification for first responder, EMT, or paramedic.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 1140 - First Responder for Public Safety Personnel

This course introduces the student to the skills and techniques used for first response to medical emergencies. Classroom instruction includes a variety of medical related topics encountered by public safety personnel. Practical exercises and scenarios are included to enhance classroom instruction and skill development.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1301 - Fire Service Hydraulics

Introduction to the study and characteristics of hydrostatics and hydrodynamics in the fire service; to include basic hydraulic measuring units, facts, theories, and formulas for problem solving. The course covers the relationship between flow and pressure and mathematical hydraulic formulas.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1505 - Fire Prevention Practices

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1540 - Private Fire Protection Systems

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1691 - Fundamentals of Firefighting & Unmanned Vehicles

Course introduces the fundamentals of unmanned vehicle applications for firefighting with prioritization of manpower and equipment utilization. Fire officers explore the use of unmanned vehicles for fire ground commanders for tactical operations for all levels of fire. Emphasis for fire investigators on utilization of unmanned vehicles in the investigation process. Course introduces determination of fire cause and origin with collection of evidence by unmanned vehicles during fire scene investigation. Participants will explore the use unmanned vehicles for planning, responding, and evaluating HAZMAT incidents.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

FFP 1702 - Principles of Emergency Services

This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/services; fire loss analysis, organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1740 - Fire Service Course Delivery

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1800 - Disaster Education for Individuals and the Community

This course provides a study of the design, development, and delivery of public disaster safety education and programs including: methods of identification of disaster safety programs, the selection of target programs and strategies of affect reduction, methods of designing and implementing information and educational programs, and methods of evaluating a program's impact. Studies include theoretical and practical skills training in individual, group, and mass media communications, instructional skills, planning priorities, and evaluation techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1801 - Introduction to Emergency Management Administration

This course will discuss emergency management practices and how they relate to natural and man-made disasters. It is designed to help the student develop an understanding of overall emergency management principles, practices, and standards in the local, national, and international environments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1810 - Firefighting Tactics and Strategy I

This course is a study of the principles utilized on the fire ground for maximum manpower and equipment utilization; fire ground administration starting with a small fire on up through major conflagrations. Emphasis will be on developing thinking skills in relation to crises.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

FFP 0010 and FFP 0020

FFP 1826 - Incident Management

This course contrasts the major forms of Incident Management/Incident Command Systems. It illuminates these differences and offers a fresh perspective on the concepts on which these systems are founded in order to make them more accessible and user-friendly. It bridges the gap between their theoretical and academic foundations and their real-world applications, and makes them more applicable to the professional's daily needs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1880 - Public Policy in Emergency Management

This course provides the student specialized knowledge and skills necessary to develop public policy related to emergency management, providing public policy leadership in the area of emergency management as part of the larger responsibility to protect the general welfare of the people. Topics of discussion include: government disaster programs; agency participation, policy design and implementation, and administrative processes involved in managing disasters.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1881 - Emergency Management Leadership

This course provides the student with the knowledge and skills necessary for effective interpersonal relationships, including conflict management and the use of power and influence as they apply to emergency administration and leadership. It addresses the budget process and related administrative duties of an emergency management program manager.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1890 - Emergency Management Principles for Tourism and Hospitality Industry

This course analyzes emergency management functions and responsibilities within the tourism and hospitality industry. Particular emphasis is placed in the areas of administration, organization, communications, and human relations. Students will learn how historical mistakes can influence human response to disaster situations, and some of the current legal and human challenges posed when dealing with disasters.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2120 - Fire Service Building Construction

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

FFP 0010 and FFP 0020

FFP 2610 - Fire Behavior and Combustion

Study of cause and origin of fires with emphasis on fire inspector's or fire officer's role in the investigation process. The course deals with determination of fire cause and origin, collection of evidence, and investigator's preparation for trial.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

FFP 0010 and FFP 0020

FFP 2692 - Unmanned Vehicles Applications and Search & Rescue

This course examines the utilization of unmanned vehicles by public safety in various search and rescue operations. Students will be introduced to the utilization of unmanned vehicles during searches for suspects eluding capture. Course will examine the response protocol and interagency support utilizing unmanned vehicles in urban, water, and various terrain search and rescue operations. Students will be introduced to the operations of unmanned vehicles for silver and amber alerts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

FFP 2720 - Company Officer

Designed to assist fire officers in solving the varied problems and situations they will be required to manage effectively in today's ever changing fire service. The curriculum includes a review of fire department organization and administration, management theory, leadership, communication, motivation, and small group dynamics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2770 - Ethical and Legal Issues for the Fire Service

This course teaches the federal, state, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases. It also includes labor relations, human rights and diversity, conflicts of interest and frameworks for ethical decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2780 - Fire Department Administration

The course is designed to present the principles of management theory, and its application in the fire service. The course is intended for officers whose area of responsibility encompasses long and short range planning, budgeting and administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2820 - Emergency Preparedness

This course teaches all aspects of emergency preparedness and planning related to natural and man-made disasters, and basic principles of emergency management. Planning concepts and the planning process will be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2823 - Technical Applications in Emergency Management

This course explores issues and problems associated with the use of technology in emergency management. It examines strategies to overcome these issues and problems. Some of the subjects treated are use of the Internet, spatial analysis applications in vulnerability analysis, decision support systems, and emerging technologies.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2834 - Societal Issues in Disaster Management

This course examines human response to disaster events, including political and economic factors influencing vulnerability. It examines how individuals and institutions make decisions at all levels of disaster response, it is an introduction to current research pertaining to the sociological aspects of disaster, and it will provide increased awareness of the potential and difficulties in using social science research as a basis for modifying public policy.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2841 - Contingency Planning for the Private Sector

This course is designed to assist students in developing effective public sector plans by using the National Incident Management System and the Incident Command System templates. The curriculum includes case studies and development procedures for private sector logistics management and employee support planning.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2905 - Independent Study: Emergency Management

A defined independent study which is pursued under direct supervision of a faculty member and recorded through departmental procedures. Designed to provide an in depth exploration of a special or advanced topic in the Emergency Management field. Activities include targeted readings and research, as well as a final project or portfolio. Departmental approval is required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Note:
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

French FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common

prerequisites.

FRE 1121 - French II

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

FRE 1120 or an equivalent course with a grade of “C” or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

General Education Diploma (GED) XGE 14__ - GED 2014 Comprehensive

The GED 2014 Comprehensive Preparation Program provides skills and knowledge building for each of the four content-area assessments of the Official GED 2014 Tests: Reasoning through Language Arts, Mathematics Reasoning, Science, and Social Studies. The purpose of the program is to prepare students to obtain the knowledge and skills necessary to pass the Official GED Tests and be awarded a State of Florida High School Diploma. An additional performance level will certify that the adult student is career and college ready. This program strives to motivate students not only to obtain a GED diploma, but to continue their education to earn a postsecondary degree, certificate, or industry certification.

Note:

*Course number varies with number of instructional contact hours.

Geography GEA 1000 - World Regional Geography

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

Geology GLY 2010C - Principles of Geology I

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2100C - Principles of Geology II

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2601C - Introduction to Paleontology

This course is a survey of prehistoric life. Topics include fossilization, systematics, evolution, ecology, extinction, and the geological history of life. Laboratory work covers the anatomy, classification, and ecology of major phyla of both extinct and extant organisms, including monerans, protists, plant, macroinvertebrates, and vertebrate animals. The course involves local and regional fossil collecting trips. This course may be used as a General Education science course for any A.S program, and may be used as a category III General Education science course for the A.A. degree.

Credit Hour(s): 4 Credit Hours When Offered: (Fall or Spring)

Graphic Design GRA 1151C - Illustration I

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

GRA 1152C - Illustration II

An advanced graphic design course building upon the skills covered in Illustration I; the course includes increased challenges relating to conceptual skills and multi-software integration relating to typical print-based design problems. Access to an appropriate high quality digital camera is required.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2140C - Multimedia I

An advanced course covering the development of multimedia projects incorporating a variety of digital media elements. Students will learn an industry standard digital video editing application and the aesthetic and technical considerations involved in content acquisition. Access to a miniDV camcorder suggested.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ART 2602C , GRA 1151C and PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2141C - Multimedia II

An advanced course covering principles of design and information architecture surrounding interactive multimedia presentations. Students will learn an industry standard interactive DVD media authoring software application. Students will produce a finished interactive DVD.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 2140C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2190C - Graphic Design I

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

GRA 2191C - Graphic Design II

An advanced Graphic Design course covering the aesthetics and challenges associated with producing complex multi-page printed communications. Access to an appropriate high quality digital camera required.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C , GRA 2190C , PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2900 - Independent Study – Graphic Art

This course covers the practical treatment of Graphics/Printing Technology. Emphasis is on individual work projects.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C or PGY 1801C

GRA 2905 - Independent Study – Graphic Design

The student will initiate independent computer related work, utilizing various software and hardware. The course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C or PGY 1801C

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2941A - Internship, Graphic Design

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C , GRA 2190C , PGY 1801C and permission of the instructor.

GRA 2950C - Advanced Graphic Projects

An advanced Graphic Design course addressing common Graphic Design problems. Students will explore advanced software application functionality and creative, aesthetic, and portfolio development. Access to a high quality digital camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ART 2602C , ART 2603C , GRA 1151C , GRA 2190C , PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

Health Education HIM 1000 - Health Information and Delivery Systems

Orientation to medical records history and professional associations. Confidentiality, filing, retrieving, indexing, numbering, storage and content of the medical record is also discussed. The course includes job search skills and professional job performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1012 - Health Care and Legal Compliance

In-depth study of federal, state, local laws governing preparation, and use of the healthcare record in the healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1432 - Pathopharmacology

Introduction to the nature, cause, and treatment of disease entities and the body's defense mechanisms. Commonly used drugs will also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1442 - Pharmacology for HIM Professionals

Pharmacology for HIM Professionals provides an overview of the pronunciation, spelling, actions and side effects of the most commonly prescribed medications. The course will examine pharmacological terms, abbreviations, and symbols used by healthcare providers to write prescriptions.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2253 - CPT Coding - Part 1

Instruction and practice in basic CPT coding conventions, principles of classifying physician services using current procedural terminology (CPT-4), APC, and auditing procedures. Ethical standards of practice will be analyzed.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

HSC 1531 , BSC 1080 , HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

(Previously listed as HIM1253)

HIM 2272 - Healthcare Reimbursement

Emphasis on billing regulations for the State of Florida. Course content includes LMRPS, Workers' Compensation laws, Florida Medicare, and claims for automobile accident injuries.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

HIM 2253 and HIM 2724 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2291 - CPT Coding Part 2

This is an advanced course in ICD, CPT and HCPCS coding systems. Students will learn guidelines and applications to more complex case studies and health records according to current ethical standards of practice, inpatient and outpatient prospective payment systems, encoding software and RBRVs.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

HIM 2253 and HIM 2729 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

HIM 2724 - ICD Coding Part 1

This course provides a foundation using ICD-10-CM/PCS coding conventions, rules, methodology and sequencing, data sets, documentation requirements, and coding resources.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

HSC 1531 , BSC 1080 , HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2729 - ICD Coding Part 2

This course focuses on assigning appropriate ICD, DRG, and Level II (HCPCS) codes to a wide range of original source medical documents. This course increases the quality of code selection by applying the decision process in problem solving using well-defined medical record review methods and guidelines. Ethical practices will be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

HIM 2724 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2815C - Professional Practice Experience

Working in a simulated, online environment, students will endeavor to code and bill using nationally recognized, American Health Information Management Association (AHIMA) simulation software.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

HIM 2291 and HIM 2729

HIM 2931C - Special Topics in Health Information Technology

This course is a review of skills and work processes to support classification and coding to become nationally certified in-field. Effective test-taking strategies for certification exams and employability skills will be discussed.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

HIM 2291 and HIM 2729

Note:

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

HSA 3110 - Health Care Organization and Management

This course focuses on the structure and management of health care organizations, and the fundamental issues facing the U.S. health care system. Key topics include health status, the organization of health services, manpower, public health, financing, facilities, utilization, quality, regulation, and national health policy.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3111 - Introduction to Health Care Management

This course studies the administration, organization and delivery of health care in the United States. Topics to be examined include health care leadership, management, strategy, performance improvement, information technology, insurance, financial and human resources management, as well as ethical and legal concepts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3113 - Contemporary Issues in Health Care

This course is designed to introduce students to a range of issues related to health and health care in the United States. Course content will give students the opportunity to explore differing perspectives as they develop a deeper understanding of the issues and enhance their research and communication skills. The course will enable students to analyze and evaluate evidence regarding controversial issues. Students will develop and practice skills in formulating and writing well-informed, well-articulated arguments and reflections.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4191 - Health Information Systems

This course focuses on the theories, concepts and principles of health information systems and development of critical thinking skills for use in practice/working in health care informatics. Current trends and issues in using, designing, and managing heath care information systems will be examined. Students, applying evidence-based knowledge, will analyze the design and implementation of health care information systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4922 - Capstone: Health Care Management

This course integrates the information, skills, and abilities provided throughout the Health Administration Program in a capstone project. Students complete a project that demonstrates excellence by applying the knowledge gained from the core courses and materials studied throughout the program. Successful completion of the course requires demonstration of the achievement of program objectives and learning outcomes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

senior standing and completion of or concurrent enrollment in remaining program core and emphasis courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

History AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1012 - World Civilization I

A study of world history from 4000 BC to 1650 AD as it relates to the development of western civilization. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1022 - World Civilization II

A study of history from 1650 AD to the present as it relates to the development of the modern world. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Hospitality Management FOS 2201 - Food Service Sanitation Management

Scientific rationales for safety and sanitation procedures; causes of food-borne illnesses and preventative measures, sanitation practices, and food safety regulations and practices.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1120 - Food and Beverage Purchasing

Contracts and procedures involved in volume food and beverage purchasing, procedures for receiving, storing, and issuing food, beverages, and other supplies, and writing specifications.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1203C - Quantity Food Production

This course is designed to assist students to recognize the operational procedures of food services, career and job opportunities, to recognize techniques in preparing a bake station, beverage, and pantry items. To use standard recipes and commercial tools and equipment to demonstrate safe work procedures, and to demonstrated employability, leadership, and organizational skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1250 - Dining Room Management

The various types of service appropriate to coffee shops, dining rooms, luncheons, banquets, and buffets. The relationship between menu, equipment, supplies, merchandising, and personnel and patron acceptance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2251 - Food and Beverage Management

Purchasing, receiving, storage, preparation, and service of food and beverages. Including the layout and design of storage and kitchen facilities, scheduling, financial management techniques, personnel management, and sanitation and safety.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
FSS 1120 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2500 - Food and Beverage Cost Control

Materials and labor cost and controls to include inventories, payroll preparation and processing, preparing of reports, insurance and tax procedures, and maximizing economy and profits.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1250 - Hotel and Resort Operations

This course acquaints students with the operation of a hotel, motel and resort including front office procedures in registering, accounting for and checking out guests, promotional and sales practices, housekeeping, interior decoration, purchase of furniture, carpeting, linens and supplies, maintenance and engineering of a practical nature, facilities specifications, purchasing and storage.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1300 - Managing Housekeeping Operations

Provides an overview of the fundamentals of housekeeping management. Describes management functions, tools, and practices required in today's lodging and institutional housekeeping departments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1410 - Front Office Management

This course guides students through all the skills including directing the activities and solving the complex problems, needed to properly manage the front office of a hotel/motel/resort. The course also acquaints students with the operation of all the departments as they apply to their primary responsibility of selling rooms and serving guests.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1500 - Marketing and Sales in the Hospitality Industry

How to sell and promote the many services the food service/lodging industries offer guests. How to operate a sales and convention department.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2210 - Hospitality Management

Training in the techniques involved in the supervision of employees, developing sound relations with other departments, group discussions, and methods of improvement and development of cost consciousness. Job Analysis and job description techniques are developed.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2223 - Human Relations and Supervisory Development

Designed to provide specific application of proven training systems and methods for managers in the hospitality industry.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

HFT 2210 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2600 - Hospitality Law

Nature and function of our legal system as it applies to the operation of an INN. Innkeeper-guest relationship, contracts, torts, civil rights and insurable risks are emphasized.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2940 - Hospitality Internship

This course consists of on-the-job experience supplied by the hotel-motel-resort- restaurant industries. Job placement will be dependent upon the availability of participating hospitality institutions. The course consists of 30 hours per semester of on-the-job instruction accompanied by a seminar class.

Credit Hour(s): 1 Credit Hour When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2941 - Hospitality Internship

This course consists of on-the-job experience supplied by the hotel-motel-resort- restaurant industries. Job placement will be dependent upon the availability of participating hospitality institutions. The course consists of 60 hours per semester of on-the-job instruction accompanied by a seminar class.

Credit Hour(s): 2 Credit Hours When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2942 - Hospitality Internship

This course, an extension of Hospitality Internship (HFT2941), consists of on-the-job work experience supplied by the hotel, motel, resort and restaurant industries. Students will concentrate on 3 specific areas or functions that are career-goal oriented. Job placement will be dependent upon availability of participating hospitality institutions. The course consists of 90 hours of on-the-job instruction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Humanities HUM 1020 - Humanities – lntroduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1905A - Independent Study – Arts and Humanities

A defined independent study which is pursued under supervision of a faculty directing teacher and recorded through departmental procedures. Designed to permit a student to pursue nonscheduled academic and laboratory work which may be of a specialized or advanced nature and not available through classes or courses available on a college schedule. Departmental approval is required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

approval from department chair, a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

HUM 2250 - Humanities – A Contemporary Perspective

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2920 - Humanities Colloquium

Humanities Colloquium is a lab designed to introduce students to critical visual and listening skills to become an intelligent arts consumer. Initial lecture sessions are devoted to discussions of the elements of analysis of art works, music pieces, theater performances, and dance presentations. Students will be required to attend selected NWFSC Visual and Performance Arts presentations and to write a short critical review of each. Topics may vary.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

placement test may be required.

HUM 2930 - Humanities – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

IDS 2220 - Issues in Science and Religion

This course will explore and relate scientific and religious conceptions of the natural world. Survey of major scientific discoveries and theories that both challenge and inform religious belief (including Big Bang cosmology, geologic time, evolutionary biology and paleontology, and Earth systems/global change). Survey of the historic role of religion and religious cosmologies in the rise of science, types of religious experience, concepts of God and divine action, the idea of the sacred as the ground for meaning in nature, natural theology and theology of nature, intelligent design, varieties of creationism, and various metascientific proposals (Anthropic Principle, Gaia Hypothesis, Biophylia, Deep Ecology). Emphasis is placed on integrating and harmonizing scientific and

religious understandings to develop a more meaningful and informative, contemporary worldview.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

Legal Assisting PLA 1003 - Introduction to Paralegal Studies

This course is designed to give students a broad understanding of the nature of the paralegal profession and the elements contained within the profession, as well as its responsibility.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1005 - Legal Terminology

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for students seeking careers in legal secretary technology or legal assisting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1114 - Legal Research and Writing

This course is designed to provide the student with necessary skills and knowledge required in legal research/case analysis and legal writing.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

PLA 1003 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court systems of the various states and the federal government in a non-criminal setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a

unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

Library Science LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

Literature AML 2010 - American Literature I

A course in American Literature from the pre-Colonial period to the Civil War. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2020 - American Literature II

A course in American Literature from Civil War to present. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Spring) Prerequisite(s):

ENC 1101 . (Note: AML 2010 is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2012A - English Literature I

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature II

A study of English literature from the Romantics through the modern era, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature I

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature II

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Spring) Prerequisite(s):

ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2335 - Introduction to Children's and Adolescent Literature

Designed to explore the range and diversity of the children's literary canon, surveying the historical development of children's and adolescent literature (pre-school to eighth grade) and the construction of socio-cultural influences. While the focus is predominantly on classic works from the tradition of American and British fiction, poetry, folklore and fairy tales, drama, and picture books, the course nonetheless addresses multi-cultural issues and texts in order to broaden the cultural vision provided by the literary study. This course will be a General Education elective, but will not meet the Humanities or English General Education requirements. Course has international/diversity focus for Teacher Education program common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

LIT 2603 - Literature of War in the 20th Century

Designed to investigate the historical, psychological, and universal issues that face societies in times of war, through analysis of a range of literary genre and texts, including fiction, poetry, drama, letters, and memoirs focusing on wars of the modern era. The approach is global, but concentrates heavily on the war experiences of the United States. This course will be a General Education elective, but will not meet Humanities or English General Education requirements. Course has International/Diversity focus for Teacher Ed program common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

Machining/CNC ETI 2419C - Advanced Concepts of CNC Machines and CNC Machining Practices

This course is designed to provide the student with advanced concepts in CNC machines and CNC machining to include: theory, operation, setup, safety, and practices.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PMT 2261C or PMT 2262C

PMT 1203C - Introduction to Machining

In this course, the student will learn how to interpret engineered blueprint drawings, lay out scribe lines and marks for sawing, rough saw and cut materials; utilize precise indicating devices for tramming of machines, indicating vises, sine bars, angle plates, etc. in order to set up and operate various machines; square, face, cut, turn down, and bore material to maintain strict machining tolerances; develop a basic knowledge and understanding of industrial materials to calculate proper speeds, feeds, and RPM's and safely operate heavy-duty industrial machinery.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 2150 or equivalent.

PMT 1250C - Introduction to CNC Machining

The history and development of CNC (computer numerical control). Programming methods are reviewed with the emphasis of skills placed on programming, milling, drilling and turning with M and G code preparation. Manual and computer assisted programming are also reviewed. Students will program, set up and operate full size CNC machines found in our manufacturing lab. Projects will be assigned to students with an expectation of performing these tasks on manufacturing equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PMT 2213C - Machining I

In this course students will continue to develop basic machining skills and better utilize machine tool accessories to assist in different machining operations to include: set up and utilize machine tool accessories, vertical knee milling operation, manual lathe operations, manual lathe threading and drill press operations.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PMT 1203C and ETD 2218 or equivalent experience

PMT 2214C - Machining II

In this course, utilizing the skill sets learned in Introduction to Machining and Machining I the student will bring the machining process together to fabricate a complete assembly. In addition, this course includes an introduction to CNC.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PMT 2213C or equivalent.

PMT 2261C - CNC Machining I

This course provides training in CNC machine operation and programming. The student will gain technical knowledge and programming methods employed in CNC machining centers. CNC Machine programming, set-up and operations are taught using computer and hands on applications. Metal fabrication processes are taught through lectures, demonstration and student generated projects. Completion of this course offers students technical skills as a CNC operator processes to be applied in various machining and fabrication industries. MasterCam–Lathe is taught to provide the student programming application in CNC machining.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PMT 1250C or equivalent experience.

PMT 2262C - CNC Machining II

This course will offer students a working knowledge of MasterCam Mill 2-D and Solidworks. This is the second class offered which teaches the student 3-D design using solidworks. An in-depth study of CAD/CAM software, CNC processing methods and the set-up of CNC machining centers. The course lectures and lab offer students hands-on applications using Solidworks generated projects processed with Mastercam tool path software to generate various projects. The student will also learn to calculate machining feeds and Speeds, edit CNC programs and part production for Mill and Lathe.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PMT 2261C or eqivalent experience.

Management HUS 4950 - Capstone: Human Resources Management

This capstone will build upon and integrate the primary human resource management skills introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge in the field of human resources.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Senior standing and completion of or concurrent enrollment in remaining program core and emphasis courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3120 - Leadership and Group Dynamics

An applied leadership course with a focus on case studies, projects and group interaction; includes theoretical background on group dynamics, small group behavior and motivation, power, types of groups, verbal and non-verbal communication skills and

team-building. Emphasis will be placed on sociological and psychological dimensions of inter-group relations, including analysis and problem-solving through simulations, cases and similar activities which reflect a general business perspective, as well as leadership and group dynamics across a variety of business units/functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing is required. Concurrent or prior enrollment in GEB 3031 and MAN 3052 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization diversity and change management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3294 - Strategy and Innovation

This course explores the concepts and tools used by businesses to create and sustain competitive advantage under dynamic market conditions. Topics will include strategy formulation, understanding core capabilities, examining external competitive forces and evaluating goals. Emphasis will also be placed on understanding the process of innovation and challenges faced by innovative organizations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3310 - Issues in Human Resource Management

Introduces the full range of human resource management functional areas, including recruiting and hiring staff, performance evaluations, employment regulations, discipline and termination, downsizing, compensation and benefits, job analysis, the organized labor setting, equity/diversity issues, and policy design. Approach will focus on current issues and applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3320 - Employee Staffing and Benefits

An intermediate level course in employment staffing issues focusing on staffing patterns, organizational structures, job analysis and design, staffing efficiencies, employee assistance programs, staff projection models, and employee services.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and MAN 3310 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3350 - Training and Development

Covers various staff training and development models, effective workshop techniques, designing and implementing company-wide training and development programs. Assessment of training needs, training and development as a benefit and setting development goals; students will design and conduct at least one workshop/training session for fellow students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

upper division standing and GEB 3213 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3505 - Production Operations and Logistics Management

This course examines the integration of production operations and logistics management and how this enables an organization to compete successfully in business. Special emphasis is placed on the relationships that exist between operations and the supply chain to include operations and supply chain strategies, business processes, project management, product design and development, and inventory management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3574 - Acquisition Management

Students will be exposed to the fundamentals of government acquisitions. This course provides conceptual material on government acquisitions, to include program planning, execution, and control. Students will be introduced to the elements of program risk and learn risk management techniques. The systems engineering process will be emphasized to include work breakdown structures, cost -- benefit analysis, and scheduling.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and MAN 3052 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3610 - Global Logistics Management

Examines selected industrial relations systems of Western Europe, Asia and the Americas, with special emphasis on differences among systems and the reasons such differences exist. The industrial relations significance of the multinational enterprise and management problems associated with operations in diverse systems are analyzed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

MAN 3593 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3786 - Sustainable Enterprise Planning

This course introduces students to assessment tools, design and construction considerations, and operating planning requirements for sustainable enterprises. Students will learn about the ecological and economic benefits of sustainability/green practices. Additionally, they will learn how product, process, and service decisions affect sustainable enterprise concepts. Today's enterprises focus on social and environmental challenges, marketing, supply chain decisions, recycling, reusing, reconditioning, and other product and service decisions in order to realize a competitive advantage. This course will focus on best practices, case studies, evolving trends, and experimental efforts regarding sustainable/green systems.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3903 - Operations Research

Operations Research is a science of modeling and optimization. It allows to model real-world problems by using mathematics, statistics and computers. It provides us the tools and theories to solve real-world problems by finding the optimal solutions to models subject to constraints of time, labor, resource, materials and business rules. With Operations Research, people make intelligent decisions to develop and manage their processes and businesses.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. STA 2023 , MAC 1140 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4162 - Customer Relations for Managers

This course focuses on relationship building for all customers of an organization. The impact of culture and diversity on business relationships, successful negotiation strategies, and promotion of the organization through media relations are discussed. Emphasis is placed on the manager's role in improving customer relationships by creating a customer-focused, organizational

climate.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4401 - Labor Relations

This course explores the impact of employee organizations on labor relations, current problems, conflicts and trends and includes the development of managerial approaches to achieve labor management cooperation.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4520 - Quality Management

This course examines the significance of quality as a primary competitive strategy for tomorrow's successful business organizations. The impact of quality focus on increasing customer satisfaction is changing the manner in which business organizations functions. Students will recognize that quality focused business organizations are evolving into very different environments in which to work and manage. This quality imperative is relevant for both industrial and service sector organizations. Students will be exposed to the critical issues of total quality management through reading, case studies, class discussion, field trips and outside speakers. The students are expected to gain insight and understanding regarding the meaning of quality, how organizations develop a quality focus, and the continuous nature of quality management. This course is appropriate for students who have an interest in: (1) managing the total quality program in a business organization, and/or (2) working for a business organization which already made a strong commitment to total quality management.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4555 - Quality Certification: ISO 9000

A comprehensive study of internationally uniform quality standards (ISO 9000 and the steps to individual and organizational certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions and other certification topics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4570 - Purchasing and Materials Management

The management of purchasing and the materials for production processes. Cost/price analysis, computer systems, forecasting, materials requirements, negotiations, and contracting are included.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4594 - Reverse Logistics

In this course forward-moving logistics is compared to reverse-moving logistics. Both goods and information are discussed. Topics include federal and state regulations, waste management, recycled materials, technology, financial controls, stakeholders, and performance measurement.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4595 - Logistics Technology

This course provides an overview of the use of technology (bar codes, gps, and radio frequency identification tags) in logistics to control recalls, returns, recycling, and waste management. Management functions, data synchronization, and interrelationships between different technologies to capture data regarding products moving in a logistics system are also discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4720 - Strategic Planning and Management

This course addresses the integration of organizational functions to achieve competitive advantage and organizational harmony through strategy formulation, implementation and evaluation. Activities include case studies and a strategic planning simulation. Topics include change theory, decision-making, planning models, and strategic planning processes as applied in a variety of business settings, units, and functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4930 - Capstone: Acquisition Management

In this seminar, students will have the opportunity to participate in hands-on projects applying the techniques in Acquisition Management. Emphasis will be on government acquisition management. Students will create a work-breakdown structure, a project schedule, and perform a cost-benefit analysis of alternatives. Earned value management will be introduced as a method of program control. Students will also identify potential risk areas and suggest mitigation plans.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and MAN 3574 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

senior standing and completion of MAN 3583 are required. Concurrent enrollment in remaining program core and emphasis courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4932 - Contract Negotiations Seminar

This seminar will refine the negotiation skills of the student through the use of readings, class discussions, case analyses, and practical exercises. Students will be introduced to goals, objectives, and strategies, as well as using appropriate tactics and methods to achieve them. The course will also help students understand the role of communication, power, and personality in the negotiation process and facilitate them assessing their personal abilities and traits as they relate to negotiation. While the course will focus on negotiation of defense-related contracts, the principles covered will apply to the entire range of interpersonal relationships.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4933 - Best-Value Source Selection Seminar

Focus is on the best-value source selection process. Students will walk through the acquisition cycle. Topics will include acquisition strategy, pre-solicitation activity, preparation for evaluation, initial proposal evaluation, discussions or negotiations, final proposal revision and recommendations and decisions.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and MAN 3574 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4934 - Logistics Management Seminar

A special topics course conducted in group or individual format; focus is on the terms, concepts and processes associated with logistics and distribution in the contemporary business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing and MAN 3583 or MAN 3574 . Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4940 - Capstone: Supervision

This capstone course will build upon and integrate the primary management skills and concepts introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge. This course will also cover basic entrepreneurial principles, which will be integrated throughout the student-led projects.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Senior standing and completion of or concurrent enrollment in remaining core and emphasis business courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel

focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1346 - Supervision II

The course presents a continuing study of the functions of a personnel manager, philosophy of general management, employee socioeconomic climate and other information. Included are orientation, training, labor unions, safety, health and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2141 - Leadership Techniques

This interdisciplinary course addresses leadership in a group setting and focuses on leadership development through discussion, readings, group and individual projects and other applied activities.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Marketing MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2021 - Professional Selling

Selling, correct attitudes and personal attributes for dealing with the public on a business or professional basis.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2511 - Introduction to Advertising

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Mathematics MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105L - College Algebra Lab

A hands-on lab designed to improve students' success rates in the College Algebra course. Students will work on all topics covered in MAC 1105 . Emphasis will be placed on strengthening algebraic skills through a variety of nontraditional approaches to learning, including small group collaboration and computer-based interactive learning. Meets specific general education requirements. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or equivalent with a "C" or better, or appropriate placement scores

Corequisite(s):

MAC 1105 .

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to

curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAD 3107 - Applied Discrete Mathematics

This course builds on the foundation established in Introduction to Discrete Mathematics with further exploration in logic, mathematical reasoning, and mathematical proof writing. Topics include logic, set theory, boolean algebra, combinatorics, and graph theory with applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Completion of MAC 2312 with a grade of “C” or better or concurrent enrollment in MAC 2312 .

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MAT 0018 - Developmental Mathematics I

This course is designed for students whose entry level placement test scores do not meet requirements for degree credit (not applicable for degree completion). It is designed to reinforce the knowledge of operations and applications of fractions, decimals, percents, and signed numbers. An introduction to algebra will also be covered. Students must pass this class with a "C" or better to move on to MAT 0028 .

Credit Hour(s): 3 College Prep Credits When Offered: (Offered as needed) Prerequisite(s):

A score of 50-95 on the PERT.

Corequisite(s):

SLS 1101 .

Note:

* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0022 - Developmental Mathematics Combined

A course designed to satisfy the requirements of both MAT0018 and MAT0028 in one semester and prepare students for MAT1033A. Topics to be studied include computations with decimals, percents, integers, operations with rational and polynomial expressions, linear equations and inequalities in one variable, factoring, and basic linear graphing. This course will teach the student to understand and communicate concepts of algebra in the language of mathematics, both orally and written. Due to the nature of this course, calculators are not permitted. A grade of "C" or better is required for successful completion of this course. College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

score of 50-95 on the PERT

Prereq/Corequisites:

SLS 1101

MAT 0028 - Developmental Mathematics II

This course is designed for students whose entry level placement test scores do not meet requirements for degree credit (not applicable for degree completion). This course emphasizes concepts, techniques, and applications of the following topics: operations with real numbers, linear equations and inequalities in one variable, rational expressions, properties of exponents, polynomials, radical expressions, and graphs of lines.

Credit Hour(s): 4 College Prep Credits When Offered: (Fall, Spring, Summer) Prerequisite(s):

Grade of "C" or better in MAT 0018 or score of 96-113 on the PERT or on an elective basis a score of 114 or higher on the PERT

Note:

* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0056 - Developmental Mathematics Module

This course is designed for students whose entry level placement test scores do not meet requirements for degree credit. This course emphasizes concepts, techniques, and applications of the following topics: operations with real numbers, linear equations and inequalities in one variable, rational expressions; properties of exponents, polynomials, radical expressions, and graphs of lines. Student may exit Developmental Mathematics Module by passing the coursework and by obtaining a passing score on the Exit Exam.

Credit Hour(s): 2 College Prep Credits When Offered: (Fall, Spring, Summer) Prerequisite(s):

score of 105-109 on the PERT or elective basis score 110 or higher on the PERT

Note:

* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0157 - Modularized Developmental Mathematics II

This course is designed to help students develop computational & algebra skills needed for success in college level mathematics. This course uses a modular format in a lecture/lab setting. Students will take a diagnostic test in class to identify skills that have not been mastered and to determine placement into the appropriate modules. Each student will have an individualized learning plan such that he or she works only on skills not yet mastered. Possible topics in the learning plan include operations on signed numbers, solving linear equations and inequalities in one variable, graphing linear equations, operations with exponents and polynomial expressions, factoring polynomials and solving quadratic equations, introduction to rational expressions, and operations with square roots. Students will use computerized instruction as well as guided instruction by the instructor. Successful completion of this course requires mastery of the material in each module and a passing score of the department final exam. Course cannot be

used toward AA or AS degree.

Credit Hour(s): 4 College Prep Credits When Offered: (Fall, Spring) Prerequisite(s):

MAT 0018 with a grade of "C" or better or a score of 96-113 on the PERT.

Note:

* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 1033A - Intermediate Algebra

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

MAT 1033L - Intermediate Algebra Laboratory

A hands-on lab designed to improve students' chance for success in the MAT1033A Intermediate Algebra course. Students will work to strengthen skills required to master the topics covered in Intermediate Algebra. The topics include, but are not limited to, factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 0028 or equivalent with a grade of "C" or better, or a score of 110-122 on the PERT, or on an elective basis with a score of 123 or higher on the PERT.

Corequisite(s):

MAT 1033A

Note:

*Students scoring 110-113 on the PERT may enroll in MAT 1033A if they also enroll in MAT 1033L. Students should see an academic advisor.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or higher mathematics course with a grade of "C" or better or equivalent or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or higher mathematics course with a grade of "C" or better or equivalent or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MHF 4404 - History of Mathematics

This course is for students pursuing an education degree with an emphasis in middle school and secondary mathematics. This course covers the evolution of mathematics from early number systems through modern mathematics. If used to meet NWFSC

Teacher Education program requirements, this course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Completion of MAC 2311 with a grade of "C" or better or concurrent enrollment in MAC 2311 .

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

completion of MAC 1105 or equivalent with a “C” or better.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

Medical Office Skills HSA 1100 - Introduction to Health Care

This course provides an overview of the United States Healthcare System, including the economic, social, political, and technological forces that shape the industry. The role of state and federal government and regulatory agencies in healthcare delivery is examined. The fundamental roles and responsibilities of healthcare team members are surveyed. Healthcare safety, security, and infection control procedures will also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

HSC 1531 - Medical Terminology

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1107 - Word Processing I

Integration of basic keyboarding and word processing – learning the keyboard, creating, editing, saving, and other word processing functions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2117 - Word Processing II

Continuation of Typing and Word Processing I – develop keyboarding and document processing using a microcomputer.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 1107 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Meteorology MET 1010C - Introduction to Meteorology

Structure of the atmosphere; weather processes, systems and phenomena; climate and climatic change, economic impact of weather. May be used to satisfy the AA degree Physical Science requirement for career goals other than sciences, engineering and pre-professional fields.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

Military Science (ROTC) MSL 1001 - Foundations of Officership

This course examines the unique duties and responsibilities of officers, organization and role of the Army, reviews skills pertaining to fitness and communication, and analyzes Army values and expected ethical behavior. Requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 1 Credit Hour When Offered: (Fall)

MSL 1002 - Basic Leadership

This course presents fundamental leadership concepts and doctrine, the practice of basic skills that underlie effective problem solving, and examines the officer experience. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 1 Credit Hour When Offered: (Spring)

MSL 2101 - Individual Leadership Studies

This course develops knowledge of self-confidence and individual leadership skills. It develops problem solving and critical thinking skills, as well as how to apply communication, feedback, and conflict resolution skills. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 2 Credit Hours When Offered: (Fall)

MSL 2102 - Leadership and Teamwork

This course focuses on self-development guided by knowledge of self and group processes, challenges current beliefs, knowledge, and skills. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 2 Credit Hours When Offered: (Spring)

MSL 2905 - Independent Study – Military Science and Leadership

Directed study and/or individual project designed to meet the needs and interests of students in ROTC. This course develops knowledge of self, self-confidence, and individual leadership skills. It develops problem and critical thinking skills, as well as how to apply communication, feedback, and conflict resolution skills. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

ROTC sophomore standing and departmental approval.

Note:

This course may be taken up to four times for credit.

MSL 3201 - Adaptive Team Leadership

Examines skills that underlie effective problem solving, analyze military missions and plan military operations, execute squad battle drills.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 3202 - Leadership in Changing Environments

Probes leader responsibilities that foster an ethical command climate, develop cadet leadership competencies, and apply principles and techniques of effective written and oral communication.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 3203 - The Joint Environment

Provides an introduction to the joint military environment. The course provides an overview of the development of national and regional policy through the national Security Council and national security system.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 4301 - Developing Adaptive Leaders

Discuss staff organization, functions, and processes, analyze counseling responsibilities and methods, and apply leadership and problem solving principles to a complex case study/simulation.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 4302 - Leadership in a Complex World

Capstone course to explore topics relevant to second lieutenants entering the army, describe legal aspects of decision making and leadership, analyze army organization from tactical to strategic level.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Music MUH 2930 - Music Humanities – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUM 1620 - Audio and Acoustic Fundamentals

Audio and Acoustic Fundamentals explores the basics of audio systems and equipment and the acoustical environment in which they are used. Emphasis is placed on equipment terminology, function and acoustical listening. The two basic fundamentals are summed together to begin laying the basic foundation required to operate audio and recording equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MUM 2300 - Introduction to the Music Industry

This course is an introduction to the history, principles, and practices of the music industry. Topics will include music publishing, copyright, distribution, industry organization, producing, and general business functions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

MUM 2600 - Recording Techniques I

This course is designed as an introduction to basic audio engineering and studio practices. Listening exercises, phychoacoustics, microphone characteristics, and studio etiquette will be studied. In addition the student will study techniques and practices and procedures of multi-track recording, acoustical balancing, editing, and over dubbing in a variety of situations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MUM 1620

MUM 2601 - Recording Techniques II

This course explores advanced multi-track recording skills and audio production techniques, edits, use of outboard equipment and live multi-track recording.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MUM 1620 , MUM 2600 .

MUM 2604 - Multi-Track Mixdown (Post Production)

This course explores the application of signal processing equipment as it relates to multi-track master mixdowns. In addition,

software and hardware application of mixdown is applied to post-production practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MUM 1620 , MUM 2600 , MUM 2601 .

MUN 1000 - Summer Ensemble Workshop

An ensemble workshop open to any student who desires to improve vocal and physical presentation skills. A variety of musical physical styles will be studied and performed. Students participating in Summer Ensemble Workshop will be expected to participate in several scheduled performances.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

experience in high school or a desire to learn.

MUN 1001 - Summer Ensemble Workshop II

An ensemble workshop and performance to improve vocal and physical presentation skills. A variety of musical physical styles will be studied and performed. Students participating in Summer Ensemble Workshop II will be expected to participate in several scheduled performances.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

MUN 1000 .

MUN 1002 - Summer Ensemble Workshop III

An ensemble workshop open to any student who desires to improve vocal and physical presentation skills. A variety of musical physical styles will be studied. Students participating in Summer Ensemble Workshop will be expected to participate in several scheduled performances.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

MUN 1000 , MUN 1001 .

MUN 1140C - Wind Ensemble I

An instrumental ensemble providing an outlet and learning experience to study and perform standard wind band literature, to improve individual instrumental skills, and to sharpen ensemble techniques. The Wind Ensemble performs in both on and off campus venues.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

experience in high school or community band programs.

Note:

This course may be taken up to four times for credit.

MUN 1310 - Women's Ensemble

A music organization open through auditions to any student having experience in reading music. A variety of musical styles will be studied and performed. Students electing NWFSC Chorus will be expected to participate in scheduled performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Experience in high school choruses or choirs.

Note:

This course may be taken up to four times for credit.

MUN 1340A - NWFSC Show Choir I

A study of the fundamental techniques and principles of integrating dance, voice, music and acting into a performance show choir. Training in voice, jazz movement, character interpretation and personality presentation is covered. Membership is open to all part-time or full-time students on a credit or audit basis. All music majors and performance majors must participate. The show choir appears in public performances at frequent intervals throughout the year.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Audition, consent of department, music or performance minor.

Note:

This course may be taken up to four times for credit.

MUN 1360 - Madrigal Singers I

Auditioned a cappella ensemble teaching choral styles that range from the Renaissance madrigal to present day, such as vocal jazz, spirituals and contemporary choral works. This course if for the "first year" student.

Credit Hour(s): 1 Credit Hour When Offered: (Offered Fall, Spring) Prerequisite(s):

Audition based on vocal quality, musicianship and sight reading ability.

Note:

This course may be taken up to four times for credit.

MUN 1390 - Symphony Chorale I

A music organization open through auditions to any student. The Symphonic Chorus will study and perform literature for the large sized chorus.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

audition or permission of instructor.

Note:

This course may be taken up to four times for credit.

MUN 1421 - Flute Ensemble

The study and performance of flute ensemble and flute choir music in a musical group.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

audition or instructor recommendation only.

Note:

This course may be taken up to four times for credit.

MUN 1710A - Rock and Jazz Ensembles I

Music performing organization open to any student who wants to develop his or her performance repertoire. Laboratory studies include techniques of performing music, literature, practices, styles and media applicable to designated organized ensemble.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Some experience in high school bands, etc.

Note:

This course may be taken up to four times for credit.

MUN 1711 - Jazz Workshop

The study and performance of jazz music in the context of the small ensemble. This will be accomplished through the performance of both stock arrangements and student arrangements. Instrumentation: 5 wind, 4 rhythm, voice.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

Strong music performance background with basic knowledge of the jazz idiom.

Note:

This course may be taken up to four times for credit.

MUN 1720A - Rock and Jazz Ensembles II

Music performing organization open to any student who wants to develop his/her performance repertoire. Laboratory studies include techniques of performing music, literature, practices, styles and media applicable to designated organized ensemble.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

experience in high school bands.

Note:

This course may be taken up to four times for credit.

MUN 2141C - Wind Ensemble II

An instrumental ensemble providing an outlet and learning experience to study and perform standard wind band literature, to improve individual instrumental skills, and to sharpen ensemble techniques. The Wind Ensemble performs in both on and off campus venues.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

experience in high school or community band programs.

Note:

This course may be taken up to four times for credit.

MUN 2311 - Women's Ensemble II

A music organization open through auditions to any student having experience in reading music. A variety of musical styles will be studied and performed. Students electing Women's Ensemble will be expected to participate in scheduled performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1310

Note:
This course may be taken up to four times for credit.

MUN 2361 - Madrigal Singers II
Auditioned a cappella ensemble teaching choral styles that range from the Renaissance madrigal to present day, such as vocal jazz, spirituals and contemporary choral works. This course is for the "second year" student.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1360 .

Note:
This course may be taken up to four times for credit.

MUN 2371 - NWFSC Show Choir II
A study of the fundamental techniques and principles of integrating dance, voice, music and acting into a performance show choir. Training in voice, jazz movement, character interpretation and personality presentation is covered. Membership is open to all part-time or full-time students on a credit or audit basis. All music majors and performance majors must participate. The show choir appears in public performances at frequent intervals throughout the year.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1340A .

Note:
This course may be taken up to four times for credit.

MUN 2392 - Symphony Chorale II
A music organization open through auditions to any student. The Symphony Chorus will study and perform literature for the large sized chorus.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1390 .

Note:
This course may be taken up to four times for credit.

MUS 1905A - Independent Study – Music
A defined independent study which is pursued under supervision of a faculty directing teacher and recorded through departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized or advanced nature and not available through classes or courses available on a college schedule. Departmental approval required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of “C” is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
Approval from department chair, a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

MUS 2930 - Music – Special Topics
A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Note:
*This course may be taken up to four times for credit.

MUT 1001 - Fundamentals of Music
A pre-theory course for the music major, non-music major, or for the elementary education major.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MUT 1121 - Music Theory I - Ear Training and Sight Singing
A study of the fundamentals of basic musicianship, music notation, understanding of simple rhythms, key situations, intervals, ear training, dictation, sight singing, major and minor scales, intervals, triads, chords, polyphonic composition and elementary keyboard work.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
MUT 1001 or instructor permission.

Note:
▲Technology-Across-the-Curriculum Course.

MUT 1122 - Music Theory II - Ear Training and Sight Singing
A continuation of MUT 1121 . Basic musicianship, writing and reading of music, ear training, dictation, sight singing will be studied, as well as major and minor scales, intervals, triads, seventh chords, inversions, cadences, periods and progressions in all keys. Two, three and four part chords and polyphonic composition.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
MUT 1121 .

Note:
▲Technology-Across-the-Curriculum Course.

MUT 2126 - Music Theory III – Ear Training and Sight Singing
A continuation of MUT 1121 and MUT 1122 . The harmonization and modulation of melodies through the use of nondominant harmony and the study of sequence writing. Incorporates keyboard harmony plus sight reading of chromatic melodies, large intervals, and advanced rhythms.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
MUT 1122 .

MUT 2127 - Music Theory IV – Ear Training and Sight Singing
The continued study of harmonization of melodies, sequence writing, sight reading, intervals, advanced rhythms and structures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
MUT 2126 .

MUT 2351 - Introduction to Jazz Theory/Arranging
A lecture-demonstration-workshop, approach to jazz/ pop arranging open to any student who wants to begin or understand composing/arranging. Studies include jazz/pop harmonies, arranging fundamentals and techniques, and the use of jazz/pop instrumentation. Workshop practices include assigned arrangements with the arrangements played by the jazz ensemble, and other audio demonstrations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MUT 1122 .

MVB 1201 - Applied Music Secondary – Brass I
Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For nonmusic majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVB 2202 - Applied Music Secondary – Brass II
Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For nonmusic majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVB 1201.

Note:
This course may be taken up to four times for credit.

MVK 1211 - Applied Music – Piano I
Private instruction in piano, as secondary instrument, consisting of one half-hour lesson per week. Minimum of one hour daily practice is required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVK 1311 - Applied Music - Piano I for Majors
Private instruction in Piano in the freshman year of study as the student's principal performing medium. This one hour, weekly lesson is for intended piano majors, and requires Division Chair approval. A major component of this class is a required juried

performance at the end of the semester for which three-four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVK 1211 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

MVK 2221 - Applied Music – Piano II

Private instruction in piano, as a secondary instrument, consisting of one half-hour lesson per week. Minimum of one hour daily practice is required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVK 1211.

Note:

This course may be taken up to four times for credit.

MVK 2321 - Applied Music - Piano II for Majors

Private instruction in Piano in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended piano majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which a memorized sonata movement and three-four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MVK 1211 , MVK 1311 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

MVP 1201 - Applied Music Secondary – Percussion I

Private instruction in percussion instruments to develop the student's performance ability in an applied area. One half-hour private lesson per week. Minimum of one hour daily practice is required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

MVP 2202 - Applied Music Secondary – Percussion II

Private instruction in percussion instruments to develop the student's performance ability in an applied area. One half-hour private lesson per week. Minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MVP 1201 .

Note:

This course may be taken up to four times for credit.

MVS 1016 - Applied Strings – Guitar I

Private instruction on guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

MVS 1017 - Applied Strings – Bass Guitar I

Private instruction in guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

MVS 1111 - Class Guitar

The study of basic techniques for the beginning and continuing student.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Note:

This course may be taken up to four times for credit.

MVS 1201 - Applied Music Secondary – Strings I

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

MVS 2026 - Applied Strings – Guitar II

Private instruction in guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVS 1016 .

Note:
This course may be taken up to four times for credit.

MVS 2027 - Applied Strings – Bass Guitar II

Private instruction in guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVS 1017 .

Note:
This course may be taken up to four times for credit.

MVS 2202 - Applied Music Secondary – Strings II

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVS 1201 .

Note:
This course may be taken up to four times for credit.

MVV 1211 - Applied Music – Voice I

Private instruction in voice, as a secondary instrument, consisting of one half-hour session per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

MVV 1311 - Applied Music - Voice I for Majors

Private instruction in voice in the freshman year of study as the student's principal performing medium. This one hour weekly lesson is for intended voice majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVV 1211 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

MVV 2221 - Applied Music – Voice II

Private instruction in voice, as a secondary instrument, consisting of one half-hour lesson per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVV 1211 .

Note:
This course may be taken up to four times for credit.

MVV 2322 - Applied Music - Voice II for Majors

Private instruction in voice in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended voice majors, and requires Division Chair Approval. A major component of this class is a required juried performance at the end of the semester for which six memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MVV 1211 , MVV 1311 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

MVW 1201 - Applied Music Secondary – Woodwinds I

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

MVW 2202 - Applied Music Secondary – Woodwinds II

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MVW 1201 .

Note:

This course may be taken up to four times for credit.

Nursing NSP 2049L - Nursing Practice Readiness

This elective laboratory course assists the nursing student to prepare for the RN licensure examination (NCLEX-RN). Web-based instructional methodologies allow the student to complete the course within a self-paced time frame. Students practice test taking skills, self-evaluation and other strategies to gain confidence in sitting for the NCLEX-RN.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 2241C or permission from Nursing Program Director.

Note:

Special Nursing Program policies may apply to this course.

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA’s pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran’s healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

NSP 4625C - Transcultural Nursing Immersion Course

This course unfolds in two phases: a comprehensive Orientation and Education Phase (I) and a Population Service Phase (II). The two stages are designed to be synergistic in nature. Phase I helps students to develop a deeper appreciation for an underserved region of the world. Phase I will set the stage for the immersion and learning that will take place during Phase II when students will provide basic healthcare and health education to an instructor chosen underserved population in the world. Air and ground travel are required. Current/valid Florida Registered Nursing License, good health, and a clear Background Check/Drug Screen are required. An International Passport may be required. Expenses associated with the course are the responsibility of the student.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Student must be a Registered Nurse and have a clear background check/drug screen.

NSP 4869 - The Professional Nurse Manager and Leader

This course outlines the roles and functions of nurses in executive practice using the competencies identified by the American Organization of Nurse Executives (AONE). Successful nurse leaders and managers exercise complex leadership responsibilities that directly affect the quality of patient and family care in today's multifaceted healthcare management systems. This course will address competencies in communication, knowledge of the healthcare environment, business skills and principles, and

professionalism. The course content also provides a review of the material covered in the Certified Nurse Manager and Leader examination conducted by the American Organization of Nurse Executives Credentialing Center that is available to BSN prepared Registered Nurses.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required clinical nursing courses in the nursing curriculum. Theory content includes an introduction to healthcare systems ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program, BSC 1085C

Corequisite(s):

NUR 1021L

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1021L - Nursing Process I Clinical Experience

This course introduces students to the role of the Associate Degree Nurse in providing direct, holistic nursing care to young, middle-aged and older adults who are hospitalized or in community settings. Students are introduced to all steps of the nursing process with a focus on assessment skills. Students will identify self-learning needs and set their own goals for improvement. Critical thinking and working effectively with peers and other healthcare professionals as a team member is expected. The demonstration of caring behaviors and therapeutic communication as a provider of bedside, technical nursing care is emphasized. Students must demonstrate safe performance of basic nursing skills, including but not limited to medication administration, physical assessment, and comfort care.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Corequisite(s):

NUR 1021C .

Note:

Special Nursing Program policies may apply to this course.

NUR 1141 - Pharmacologic Principles in Nursing I

This course introduces students to concepts and principles of pharmacology related to safe administration of therapeutic agents within the nursing process framework. Students begin to learn major drug classifications and selected exemplars along with principles of safe, effective administration of drugs. Students will learn dosage calculations, factors that affect the absorption, excretion, distribution, and metabolism of drugs, as well as drug actions, adverse effects, and interactions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Note:

Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

An introduction to the role of the associate degree nurse in providing direct, holistic nursing care to young, middle-aged and elderly adults who are hospitalized or receiving care in community settings. Emphasis is on applying all steps of the nursing process with focus on assessment skills. Pre-requisite college foundation and nursing courses provide theoretical bases for nursing care. Critical thinking is an expected behavior along with skills in working ethically and effectively with peers and other health care professionals as a team member; demonstrate caring behaviors and therapeutic communication with clients as a provider of bedside, technical nursing care. The student is expected to demonstrate safe performance of basic nursing skills, e.g., medication administration, physical assessment and comfort care of hospitalized adults and nursing home residents.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):

NUR 1231C and NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L NUR 1021C and NUR 1141 ;or LPN licensure; admission to the AS Nursing Program or permission from the program director

Corequisite(s):

NUR 1750L and NUR 1142

Prereq/Corequisites:

DEP 2004 and BSC 1086C

Note:

Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics, and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Students continue to develop management skills through conflict management and other professional behaviors. Students demonstrate safe performance of all basic and more complex nursing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L or LPN licensure

Corequisite(s):

NUR 1231C .

Note:

Special Nursing Program policies may apply to this course.

NUR 1940L - Nursing Clinical Externship

This elective course is designed to offer students the opportunity to gain additional clinical skills practice during the summer semester. Working with a preceptor and the nursing faculty in area hospitals, clinics, or community settings , the student will be able to perform all skills learned in successfully completed nursing courses.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

admission to the AS Nursing Program; NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 2233C - Nursing Process III

Students continue to use the nursing process and critical thinking with emphasis on primary and secondary prevention as nursing interventions in clients experiencing threats to functional health patterns, including during the childbearing process and children whose normal lines of defense have been invaded by stressors to the degree that hospitalization is necessary. Nursing practice issues continue to focus on ethical-legal issues related to acute and/or chronic illness and disability. Management skills include delegation and career development.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 1231C & NUR 1142 or approval from the program director.

Corequisite(s):
NUR 2233L and MCB 2010C

Note:
Special Nursing Program policies may apply to this course.

NUR 2233L - Nursing Process III – Clinical Experience
Students continue to apply knowledge and skills learned in previous nursing courses in providing nursing care for the hospitalized child, the family during the maternity cycle, and adults whose health problems are more complex and/or chronic. Clinical sites include hospitals, health departments, clinics, physician offices, schools and other community settings. Conflict resolution skills are applied, as needed, to meet client and/or peer learning goals. Delegation skills with peers are also practiced. Students demonstrate continuation of all previously learned nursing skills and must perform safely all advanced nursing skills in this clinical course.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 1750L

Corequisite(s):
NUR 2233C .

Note:
Special Nursing Program policies may apply to this course.

NUR 2241C - Nursing Process IV
Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Students differentiate holistic nursing care therapies in primary, secondary and tertiary care settings. Students become proficient in applying all steps in the nursing process with emphasis on evaluating nursing care outcomes. Students apply critical thinking skills in exploring case-based practice situations and work together in simulation seminars to select effective client care improvement processes. Self-evaluation is part of the socialization process to prepare students for the work world as competent, caring staff nurses. Nursing practice issues include licensure standards and continued professional development.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Permission from the Director of Nursing or NUR 2233C ; MAC 1105 or STA 2023

Corequisite(s):
NUR 2241L , NUR 2811L

Prereq/Corequisites:
SYG 2000

Note:
Special Nursing program policies may apply to this course.

NUR 2241L - Nursing Process IV – Clinical Experience
Students apply knowledge and principles of the biophysical and psychosocial sciences to assess, plan, implement and evaluate holistic nursing care of critically ill adults in hospitals, ambulatory care settings, and the home. Students will expand on management of care skills in preparation for their four-week clinical practicum prior to graduation from the program. Students will also shadow a home health/hospice nurse in observing treatment and palliative care of adults and children. Other clinical activities will include experiences in the emergency department and critical care units. Students must demonstrate competency in all behaviors required for an Associate Degree Nursing graduate.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L

Corequisite(s):
NUR 2241C , NUR 2811L

Note:
Special Nursing Program policies may apply to this course.

NUR 2811L - Nursing Practicum
This course is a capstone course and provides a time during the last four weeks of the nursing program in which students begin to

transition from the student role into the graduate role as an associate degree nurse. Students attend seminar hours and complete standardized testing for evaluation in proficiency in applying all steps in the nursing process with emphasis on evaluating safe nursing care outcomes. Students complete clinical practice hours with an experienced registered nurse preceptor to provide holistic nursing care for a limited number of clients. The focus is on demonstration of all professional behaviors and competencies expected of the associate degree registered nurse graduate at entry level. Clinical experiences provide hands-on learning opportunities, enhancing clinical thinking, safe nursing judgment, and clinical confidence in skills. Clinical experiences take place in a variety of clinical settings and work schedules.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 2233L

Corequisite(s):

NUR 2241C , NUR 2241L

Note:

Special Nursing Program policies may apply to this course.

NUR 2931 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 1 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

admission to the AS Nursing program; permission of Nursing program Director.

NUR 2932 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

admission to the AS Nursing program; permission of Nursing program Director.

NUR 2933 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

admission to the AS Nursing program; permission of Nursing program Director.

NUR 2934 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

admission to the AS Nursing program; permission of Nursing program Director.

NUR 2935 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 5 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

admission to the AS Nursing program; permission of Nursing program Director.

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic,

psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the fieldwork experience, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3071 - Writing for Success in Nursing

This course Is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3678 - Nursing Care of Vulnerable Populations

Caring for the vulnerable members of society is a function nurses perform without regard for their own ambitions, personal safety, and financial security. This course is designed to pull together material from different cultures and at risk groups of individuals considered vulnerable populations. Key concepts will be discussed that will provide a basic structure for caring for the vulnerable, the relevance of nursing theories to vulnerable populations, nursing research showing the kinds of phenomena nurses study, and many ideas about learning to work with and advocate for vulnerable individuals.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

NUR 3767 - Nursing Care of Complex Clients

This course assists the RN to BSN student in the assimilation of pathophysiology, assessment, and pharmacological nursing concepts with variety complex client issues. This course provides expanded concepts related to nursing care for individuals experiencing complex alterations in health problems as they progress through a variety of healthcare delivery systems and environments.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

NUR 3067C , NUR 3080 .

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Must be an RN or ASN student.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Current RN Licensure.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course is designed to provide the RN to BSN student with an introduction to the research process and evidence based practice. The purpose of the course is to stimulate interest in nursing research; to enable students to understand and judge the usefulness of scientific findings; and to develop an understanding of how clinical proficiency is combined with experimental proof to produce nursing practices based upon evidence. An on-line teaching method is used with optional workshops available to students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided a fieldwork opportunity to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program and completion of all General Education requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. Nursing leadership and management fieldwork focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. Fieldwork provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C .

NUR 4956 - Portfolio II

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring, Summer) Prerequisite(s):

NUR 3955 , NUR 3080 ; Pre or Corequisite: NUR 4827C .

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Nutrition HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Oceanography OCE 1001C - Oceanography

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

OCE 1013C - Aquatic Environmental Science

This course will investigate living and non-living components of aquatic ecosystems. Students will learn how aquatic ecosystems function naturally as well as how human activity can alter these ecosystems. The course is built around field trip(s) and lab work during which students will obtain water quality data from a local aquatic environment. Through field trip(s) and lab work, students will gain appreciation for the local relevance of course material. For both majors and non-majors, a key outcome of such experiences will be gaining experience in using inquiry and reasoning through the scientific method and becoming comfortable with data, technology, and instrumentation. Problem-solving, interpretation of data, and class discussions will be key.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

Paramedics EMS 0119 - Emergency Medical Technician for Firefighters

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 140 Clock Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Permission of the EMS Director

Corequisite(s):

FFP 0010, FFP 0020, EMS 0119L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

EMS 0119L - Emergency Medical Technician Lab for Firefighters

This course provides an integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 160 Clock Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Permission of the EMS Director.

Corequisite(s):

FFP 0010, FFP 0020, EMS 0119

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

EMS 1119C - Emergency Medical Technician

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMT Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1401L .

EMS 1335 - Emergency Vehicle Operators Course

Students receive basic education and information on the safe and effective operation of emergency vehicles.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Program Director.

EMS 1337 - Defensive Tactics

Designed to provide EMS personnel with fundamental knowledge of the recognition of aggressive/violent behavior, and use of appropriate verbal and physical skills to control aggressive behavior in the course of providing emergency care.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

admission to the Paramedic program or permission of instructor.

EMS 1401L - EMT Lab

An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1119C .

EMS 2231C - Paramedic Processes I

First course in the sequence necessary for Paramedic program completion. Designed to integrate concepts and clinical skills learned at the EMT level with advanced life support concepts and skills. Emphasis on patient assessment, pulmonary anatomy and physiology, advanced airway management, pathophysiology and clinical management of shock, medical emergencies and traumatic injuries. Course is consistent with most current Department of Transportation (DOT) curriculum.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Paramedic program.

EMS 2232C - Paramedic Processes II

Second course in the sequence necessary for Paramedic program completion. Integrates and reinforces concepts and clinical skills learned in Paramedic Processes I, with emphasis on pharmacology, cardiology and Advanced Cardiac Life Support (ACLS) skills. Other topics include assessment and management of OB/GYN emergencies, psychiatric emergencies, pediatric emergencies, musculoskeletal injuries and mass casualty situations. Consistent with the most current DOT curriculum.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2436L .

EMS 2233 - Paramedic Processes III

The final course necessary for Paramedic program completion. Designed to prepare the student for both Florida State Board and National Registry examinations. Emphasizes the integration of paramedic knowledge, attitudes and behaviors. Course consistent with the most current DOT curriculum.

Credit Hour(s): 2 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2425L .

EMS 2342 - Advanced Extrication

Focus is on advanced principles of gaining access to and disentanglement of victims of vehicular crashes. Emphasis is placed on victim and rescuer safety. Actual use of available rescue tools is included. Packaging of patients to protect against possible spinal injury is demonstrated and assessed. The course takes place with a mock scene and "junk" cars are used for experience with rescue tools.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

EMS 2350 - Unmanned Vehicles Applications and Operations for EMS

This course examines the response of Emergency Medical Services to unsecure scenes with the aid of unmanned vehicles. Students will explore EMS protocols for the utilization of unmanned vehicles in catastrophic events with mass casualties requiring triage and multiple agency responses. Participants will be introduced to the concepts of the utilization of unmanned vehicles for support during large scale public events such as; conventions, festivals, athletic events, protest, and special team support.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

EMS 2425L - Paramedic Externship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

permission of the instructor

Corequisite(s):

EMS 2233 .

EMS 2435L - Paramedic Lab I

The clinical and skills laboratory companion course to EMS 2231C. Designed to provide instruction in advanced paramedic skills and the opportunity to apply these skills in the clinical setting. By state rule, the instructor-to-students ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Paramedic program

Corequisite(s):

EMS 2231C .

EMS 2436L - Paramedic Lab II

This course is the clinical companion course to EMS 2232C, Paramedic Processes II. It is designed to provide instruction in the advanced paramedic skills and the opportunity to apply them in the clinical setting. By state rule, the instructor-to-student ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

EMS 2435L

Corequisite(s):

EMS 2232C .

EMS 2438C - Advanced Clinical Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

EMS 2232C , EMS 2436L and permission of the instructor

EMS 2526 - Twelve-Lead EKG Interpretation

Designed for the EMS student. Fundamentals of twelve-lead electrocardiogram (EKG) interpretation. Emphasis on scenario-based and case-based learning that reinforces the concept that 12-lead EKG technology is the best tool for visualization of the surfaces of the heart, identification of sites of ischemia, injury and infarction, as well as various intricate conduction abnormalities.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2552 - Advanced Cardiac Life Support (ACLS)

An intense overview of the guidelines for emergency cardiac care and cardiac arrest management as published by the American Heart Association. Students must successfully pass a written examination and a skills proficiency performance examination to receive the "ACLC Provider" and successfully pass the course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate and CPR for Health Care Providers certification.

EMS 2553 - Pediatric Advanced Life Support (PALS)

Designed for the EMS student. Fundamentals of recognizing infants and children who are at risk for cardiopulmonary arrest, including the strategies that are needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2555 - International Trauma Life Support (ITLS)

Fundamentals of managing traumatic injuries at the basic and advanced levels in accordance with the national Basic Trauma Life Support committee. The recognition and treatment of specific traumatic injuries such as pneumothorax, closed head injury, hemothorax, compensated and decompensated shock, fractures, uncontrolled bleeding, internal injuries of the abdomen and thorax. Emphasis is on rapid assessment, management and transport with discussion on mechanism of injury and kinematics of trauma.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certification or permission from the instructor.

EMS 2940 - Internship: Emergency Medical Services

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the instructor.

Note:

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

Philosophy PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2930 - Philosophy – Special Topics
A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Photography PGY 1220C - Commercial Photography I
A beginning course that introduces students to the procedures and aesthetics of developing photographic illustrations for industrial and advertising use. Students will gain experience using a high quality digital studio camera, electronic lighting, and digital applications of their work. It is recommended that students take PGY 1801C prior to or at the same time as this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PGY 1401C - Basic Photography
A beginning course in black and white photographic and darkroom technique. Students will learn the functions of their camera and darkroom equipment. Students will apply their technical knowledge to various artistic challenges. Access to a 35mm camera with manual mode required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

PGY 1405C - Advanced Black and White Photography
An advanced course in black and white photography. Students will be presented with more demanding creative challenges and will be exposed to a variety of advanced procedures in the darkroom. Access to a 35mm camera with manual mode required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
PGY 1401C or equivalent.

PGY 1801C - Digital Photography I
A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:
▲Technology-Across-the-Curriculum Course.

PGY 2221C - Commercial Photography II
As advanced a course that allows the student to expand their skill set in producing photographic illustrations for industrial and advertising use. Students may explore product, portrait, and on-location commercial photographic projects.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PGY 1220C and PGY 1801C .

Note:
▲Technology-Across-the-Curriculum Course.

PGY 2802C - Digital Photography II
An intermediate-level photography course where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

PGY 2804C - Digital Photography III

An advanced-level photography courses where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PGY 2802C .

Note:

▲Technology-Across-the-Curriculum Course.

Physical Education HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PEL 1212A - Advanced Softball

Instruction, practice, and participation in advanced softball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1213 - Advanced Softball II

This course is a continuation of Advanced Softball, which consists of instruction, practice, and participation in advanced softball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

PEL 1212A (Athletes)

PEL 1217A - Advanced Baseball

Instruction, practice, and participation in advanced baseball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1219 - Advanced Baseball II

This course is a continuation of Advanced Baseball, which consists of instruction, practice, and participation in advanced baseball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

PEL 1217A (Athletes)

PEL 1624M - Advanced Basketball (Men)

This course is a high intensity, drill-oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1624W - Advanced Basketball (Women)

This course is a high intensity, drill oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including: rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1626M - Advanced Basketball II (Men)

This course is a continuation of Advanced Basketball for Men, which consists of a high intensity, drill -oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

PEL 1624M (Athletes)

PEL 1626W - Advanced Basketball II (Women)

This course is a continuation of Advanced Basketball for Women, which consists of a high intensity, drill -oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

PEL 1624W (Athletes)

PEM 1131A - Strength Training

This course is a high intensity lecture/demonstration and flexible lab hour weight training program designed to increase the size, strength, and endurance of the skeletal muscle system. Instruction includes, but is not limited to, weight training safety, etiquette, history, and nutrition. Instruction will be given in the design of progressive resistance programs to increase total body efficiency and to meet the objectives of the individual student. Students are responsible for determining fitness for training, and those with medical problems which restrict personal activities are encouraged to obtain medical clearance before enrolling in the course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PEM 2108 - Fitness Lab

Instruction and participation in an exercise program with emphasis on muscle endurance, strength and flexibility.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

HLP 1081 or approved wellness assessment by the department chair.

Note:

This course may be taken up to four times for credit.

PET 1000 - Introduction to Physical Education

A study of the history of physical education and sport with particular emphasis placed on present practices and trends.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 2622 - Care and Prevention of Athletic Injuries

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Physical Science AST 1005 - Introduction to Astrobiology

This course will explore the scientific evidence for the possibility, probability, and potential nature of life that might exist beyond the Earth. Contemporary discoveries about current and past conditions suitable for the origin of life on Mars and some of the moons orbiting other planets in our own solar system are reviewed in the context of what we understand about life on Earth. The question of life in other solar systems is also covered. Space travel and problems regarding intelligent extra-terrestrial beings visiting the Earth and intelligent life beyond the Earth but still within our own solar system are also discussed. All this is done in a fashion which integrates the various branches of science required to understand life beyond the Earth: Astronomy, Biology, Chemistry, Geology, and Physics. There are no prerequisites for this course and it may be taught in a team fashion by faculty members from various scientific disciplines.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

ISC 1003 - Natural Disasters – Causes, Consequences, Human Response

This interdisciplinary course investigates natural catastrophic events, such as earthquakes, volcanic eruptions, tsunamis,

hurricanes and floods. This class will use an environmental studies approach to examine how modern society exacerbates the damage caused by these natural phenomena and methods to mitigate human suffering. The student will gain an appreciation of humankind's relationship to the natural environment.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ISC 4145 - Environmental Systems

Environmental Systems will expose students to a broad overview of the structure and processes occurring on Earth. Students will gain a broad understanding of the interactions between the atmosphere, biosphere, lithosphere, and hydrosphere. Course topics will be related to current environmental issues and our local ecosystems. This course is focused on Earth System Science content with development of methods specific to teaching middle school science as a secondary objective.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

(1) any two-course laboratory sequence in the natural sciences (i.e., Principles of Biology I & II, Principles of Geology I & II, College Chemistry I & II, Physics I & II, College Physics I & II, Anatomy & Physiology I & II); (2) any GLY course; (3) and either CHM1020 (Chemical Science) or PHY1020 (Physical Science).

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSC 2905 - Independent Study – Physical Science

Directed study and individual projects designed to meet the needs of students interested in a specialized area of the physical sciences for which present course availability is limited. Meets specific general education requirements.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

Physics PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

Political Science POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POT 1002 - History and Ideas of Political Science

This course reviews classical ideas, political theory and institutions from a historical and comparative viewpoint. It examines the rise of the State, its organization, economic systems, the use of force, and persuasion. This course qualifies as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

Psychology CLP 1001 - Personal Adjustment

Psychology of adjustment, application of psychological theory for problem solving and better mental health. An examination of psychological defense mechanisms and adaptive behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CLP 2140 - Abnormal Psychology

A study of the different problems in psychopathology, including anxiety, depression, social deviance, psychosis, schizophrenia, mental retardation and general brain dysfunction of both children and adults, with emphasis on descriptive etiology, known causes, and treatments.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PSY 2012 .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Public Administration PAD 3003 - Public Service Operations

An introduction to public administration and policy in America. This course is designed to provide undergraduate students a basic understanding and appreciation of the administration of the public sector. It is intended to provide an overview of public administration for students interested in public service and for students, who as good citizens, want an appreciation of the complexities of public management.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

upper division standing.

PAD 3393 - Advanced Emergency Management

This course examines functional demands that emergency managers should be aware of in crafting emergency management policies and programs. Students investigate how public policy choices impact emergency planning and the consequences of a disaster. It is designed to help the student develop an in-depth understanding of overall emergency management principles, practices, and standards in the local, national, and international environments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing.

PAD 3820 - Public Safety System Integration

This course compares and contrasts the various components of the public safety sector. The course examines the working relationship between public safety organizations and the effectiveness of the various service delivery models.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing.

PAD 3874 - Community Relations

This course will expose the student to community relations theory and practice within a broad range of public safety organizations. Students will understand why positive community perception of public safety is critical to funding and operational effectiveness. Students will explore the public safety responsibility in establishing business continuity both in preplanning and following a disaster. Each student will gain the insight and skills necessary to be effective in the community relations function of public safety administration.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

PAD 3882 - Issues in Public Service Administration

This course focuses on current issues and trends in the field of public service administration. The course is structured to introduce management and administrative topics in public service, examine the implications to the field, and reformulate recommendations. This course will begin developing skills in project design and presentation. This course will enhance critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

upper division standing.

PAD 4878 - Capstone: Public Service

This course provides an opportunity for the student to complete a professional project and apply information and skills studied in core and concentration program courses under the direction of the professor. Successful completion of the course requires demonstration of achievement of the program's learning outcomes. This course should be completed in the last term before graduation.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

upper division standing.

PAD 4933 - Special Topics in Public Administration

This is an individual or group course designed to provide students with the opportunity to pursue a special topic(s) from the area of public administration in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Upper division standing and permission of the instructor.

Note:

This course may be taken up to three times for credit.

Radiography RTE 1000 - Introduction to Radiologic Technology

This course is designed to provide an overview of the history of radiography and the role and scope of practice of the practitioner in the healthcare delivery system. Organizations, accreditation, federal agencies, regulatory agencies (including OSHA) and professional credentialing will be discussed. Content includes a fundamental background in medical law, ethics, human diversity

and patient consent. The student will examine a variety of ethical issues and dilemmas found in clinical practice, as well as developing a better understanding of patients, the patient's families, and professional peers through comparison of diverse populations based on value systems, cultural and ethnic influences, communication styles and socioeconomic influences. Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed and students will perform required clinical observations in imaging departments. Background check, drug screening, training and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Summer, Offered as needed) Prerequisite(s):

admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography, conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1418 .

Corequisite(s):

RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):

RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures

(chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1000

Corequisite(s):

RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1804L

Corequisite(s):

RTE 1513C .

RTE 1824L - Radiography Clinical Education III

This course is a continuation of Radiography Clinical Education II. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I and II. The student will gain experience and develop clinical competence in general radiographic procedures such as the cranium and specialized contrast studies. Advanced patient care skills, critical thinking, imaging and exposure techniques, radiation protection application and image processing will be emphasized. This rotation covers clinical experience in all phases of fundamental radiologic procedures and image critique. Students will rotate through ancillary departments in this course.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):

RTE 1814L

Corequisite(s):

RTE 2523C .

RTE 2061 - Radiographic Preparation for Practice

This course is designed review information in preparation for the student to take the American Registry of Radiologic Technologist (ARRT) registry examination. The course will cover patient care and education, image production, equipment operation and maintenance, radiographic procedures and radiation protection. The student will also be given simulated registry examinations for practice and assessment purposes.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 2844L

Corequisite(s):

RTE 2854L .

RTE 2385 - Radiographic Protection and Biology

This course is designed to provide the student with an overview of the principles of interaction of ionizing radiation with living systems. Ionizing effects on molecules, cells, tissues and the body as a whole are presented, along with factors affecting biological response, including; acute, chronic, stochastic and non-stochastic effects. This course is also designed to present an overview of the principles of radiation protection including the responsibilities of the radiographer for patients, personnel and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and healthcare organizations are incorporated, as are the various methods of monitoring radiation exposure and acceptable dose limit values.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1000 , RTE 1418 , RTE 1457C , RTE 2523C

Corequisite(s):

RTE 2844L .

RTE 2473 - Radiographic Quality Assurance

This course is designed to introduce the student to the quality management of medical imaging, including quality control procedures and image analysis/critique of radiographs. This course will include theory and practical applications to routine quality control check on routine, fluoroscopic, mobile, and tomographic radiography equipment. Quality control tests on ancillary equipment, such as film processor, view boxes, grids and leaded protective equipment are also included. Acceptable parameters

for QC tests, as established by various regulatory agencies will also be presented. This course teaches the student to critically analyze radiographic images for image quality and diagnostic value, as well as formulating corrective action as needed. Class demonstrations and labs are used to demonstrate application of theory.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1418 , RTE 1457C

Corequisite(s):
RTE 2844L .

RTE 2523C - Radiographic Procedures III

This course is a continuation of RTE 1513C covering cranium procedures and positioning. It is designed to provide the student with instruction in more complex radiographic procedures such as fluoroscopy, urinary studies, bone age, trauma, pediatrics, mobile and surgical radiography. Included is instruction in additional modalities and studies such as CT, MRI, arthography, myelography, and vascular studies. Attention will be given to the specialized equipment, contrast media, critical thinking and techniques necessary to perform these procedures. Radiographic anatomy, pathology, and critique of images are included in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1513C

Corequisite(s):
RTE 1824L .

RTE 2533C - Radiographic Procedures IV

This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2844L

RTE 2571 - Introduction to Computed Tomography

This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):
RTE 1457C

RTE 2782 - Radiographic Pathology

This course is designed to introduce theories of disease causation and the pathophysiologic disorder that compromise healthy persons. Etiology, pathophysiologic responses, clinical manifestations, and radiographic appearance of alterations in body systems will be presented. Emphasis will be placed on pathological findings on diagnostic radiographic images.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2854L .

RTE 2844L - Radiography Clinical Education IV

This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1824L

Corequisite(s):
RTE 2385 .

RTE 2854L - Radiography Clinical Education V

This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's

I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 2844L

Corequisite(s):

RTE 2061 .

RTE 2910 - Radiographic Evidence Based Practice

This course is designed to develop the student's research, writing and oral presentation skills; while completing assignments, both independently and collaboratively, with minimal direction and supervision. Methods of research, appropriate style of writing, citing work, and using APA format will be covered.

Credit Hour(s): 1 Credit Hour When Offered: (Fall) Prerequisite(s):

RTE 2523C

Corequisite(s):

RTE 2844L .

Note:

♦This college credit course may not be applied toward the A.A. degree and normally is not intended for transfer unless the student transfers to a baccalaureate in radiologic sciences degree program that is specified under the Florida Statewide AS to BS Articulation Agreement.

Reading REA 1205 - Reading Across the Genres I

This college-level reading course employs a variety of literary genres as the source material for building student skills in comprehension, context clues, reading speed, critical analysis, vocabulary, and other related reading skills. Students will be exposed to numerous styles and levels of reading material including novels, short stories, critical essays, drama, news reporting. Students will also develop a personal reading preference profile and learn how to identify books, magazines and other reading material commensurate with that profile.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PERT placement score of 106 or higher.

Reading/English Developmental Ed. ENC 0017 - Integrated Reading and Writing I

This course is designed to develop reading comprehension and writing language skills for students whose entry level placement scores do not meet requirements for degree credit (not applicable for degree completion). The course includes a thorough review of English grammar and conventions and practice in writing paragraphs and essays while building skills in vocabulary and academic reading comprehension. Students must pass the class with a "C" or better grade.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Appropriate score on PERT or other approved assessment.

Note:

*College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

ENC 0027 - Integrated Reading and Writing II

This course is designed to develop reading comprehension and writing language skills for students whose entry level placement scores do not meet requirements for degree credit (not applicable for degree completion). The course includes a review of English grammar and convention and practice in writing persuasive essays while building skills in vocabulary and academic reading comprehension. Student must pass the class with a "C" or better grade.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Minimum grade of "C" in ENC 0017 or appropriate PERT or other approved assessment score.

Note:

*College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

REA 0056 - Developmental Reading Module

This course is designed to increase the student's ability to comprehend college-level, written material (not applicable for degree completion). Conducted in a lab setting, this course is self-paced, designed to allow students to focus on their individual development of higher level reading skills and vocabulary needed for literal and critical interpretation of passages similar to those used in college texts. This course may be taken in place of REA 0017. Students must pass the class with a "C" or better and obtain a passing score on the end of course exam.

Credit Hour(s): 2 College Prep Credits When Offered: (Fall, Spring, Summer) Prerequisite(s):
Students must score 96-105 on the PERT or elective basis score 106 or higher on the PERT.

Note:
*College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

Religion REL 2300 - Introduction to World Religions
This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2930 - Religion – Special Topics
A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Safety and Quality Control ETI 1420 - Properties of Materials and Cutting Tools
This course is designed to provide the student with an introduction to the basic properties of materials, principles and processes in the metal working and plastics field, and tools and machinery involved in manufacture of metals of plastics. This course covers non-chip producing and chip producing manufacturing processes.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ETI 1710 - Occupational Safety
A basic course in occupational safety and health covering such topics as: theories of accident causation, workplace hazards, hazard analysis and prevention, accident reporting, OSHA, ergonomics, product safety, workers' compensation, and stress on the job.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer, Fall)

ETI 2110 - Total Quality Tools
This course prepares students to effectively solve business/process/product problems, track process performance, find process and product improvement opportunities, and validate improvements made, using the necessary intellectual tools and procedures including: Five-S, flow charting, Pareto analysis, cause and effect diagrams, histograms, check sheets, scatter diagrams, stratification, statistical process control, failure mode and effects analysis.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Sign Language ASL 1140 - American Sign Language I
Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ASL 1150 - American Sign Language II
This course increases the student's American Sign Language vocabulary and uses more complex expression of thoughts, ideas, and emotions and increases the receptive and expressive proficiency of the student in both sign and finger spelling.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ASL 1140 or an equivalent course with a grade of "C" or better

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ASL 2160 - American Sign Language III

A conversational course in American Sign Language utilizing skills and vocabulary from American Sign Language I and II and building on these to form more complex expressions in American Sign Language. Impromptu and planned stories, dialogues and skits will be performed. Receptive and expressive finger spelling will be advanced. No voice will be used for the majority of classroom time.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):

ASL 1150 or an equivalent course with a grade of "C" or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

Small Business Management SBM 2000 - Small Business Management

This course provides students the opportunity to learn hands-on technical applications regarding entrepreneurship. It is designed for the student who is interested in the ownership and management of a small business enterprise.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

Social Sciences DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ISS 1905 - Independent Study – Social Science

Directed study and individual projects designed to meet the needs of students interested in a specialized area of the social sciences for which present course availability is limited.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Note:

This course may be taken up to four times for credit.

Sociology SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SYG 2430 - The Family and Society

An examination of the problems which arise out of participation in marriage, family and community situations. Designed to provide students with a basic understanding of the dynamics of family interaction, the effects upon the children, and the family's relationship to and participation in the community.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Spanish SPN 1120 - Spanish I

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SPN 1121 - Spanish II

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

SPN 1120 or an equivalent course with a grade of “C” or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2220 - Spanish III

Intermediate level review of grammar, readings in Spanish Literature, and development of conversational and writing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

SPN 1121 or an equivalent course with a grade of “C” or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2221 - Spanish IV

Completion of intermediate level review of grammar, readings in Spanish literature, and development of conversational and writing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

SPN 2220 or an equivalent course with a grade of “C” or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

Speech and Debate SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2511 - Discussion and Debate

This course is designed to provide learning experiences in rational decision making incorporating the techniques of persuasion through organized procedures for argumentation, debate and discussion.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

membership on forensic team.

Sports, Fitness & Recreation LEI 1544 - Outdoor Recreation Management

This course examines the fundamental influences on outdoor recreation. The course also provides information on hazards, conservation considerations, and safety factors in planning and organizing outdoor recreations. Basic first aid, CPR, and AED training is incorporated as it pertains to outdoor recreation. Field trips may be assigned as warranted.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Theater THE 1905A - Independent Study – Theater

A defined independent study which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule. Departmental approval required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

Approval from department chair, a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

THE 2000 - Theatre Appreciation

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
ENC 1101

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2820 - Musical Theater Workshop

An introduction to creative dramatics and children's theater. Topics span a wide range of interests; creative experience, children and theater, workshop procedure, script selection, rehearsal and performance.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

THE 2821 - Musical Theater Workshop II

Creative dramatics introduces the many elements of theater: dance, voice and musical theater. Topics span a wide range of interests: the creative process, workshop procedures, rehearsal and performance. Creative Dramatics will focus on producing a final performance.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
THE 2820 .

THE 2930 - Theater – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

TPA 1210 - Stagecraft

This course is an introduction to the principles of stagecraft: stage terminology, stage safety, instruction in proper use of shop tools, basic theater construction methods, understanding of theatrical rigging, and understanding of general background practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPA 1290 - Scenic Design

An introduction to technical theater and scene technology. Topics include scene drawings, safety and health, stage facility, basic crafts, two and three-dimensional scenery, scene painting, scene assembly, rigging, properties, special effects and shop organization.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prereq/Corequisites:
TPA 1210

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2232 - Introduction to Costuming Technology

An introduction to costume techniques and wardrobe practices. Topics span a wide range: costume construction techniques, problems in costumes, costume history, construction styles, sewing machine practices, seam finishes, flat pattern layout and production techniques. This course is intended to develop practical experiences in theater costumes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

TPA 2276C - Entertainment Technology - Crafts

This course presents the practices and principles of advanced woodworking, welding, smithing, casting, ceramics, plaster work, fiberglass and plastic technology for the entertainment industry. State of the art tool technology, shop and field practice, health and safety standards will be emphasized. These crafts are entertainment industry oriented that will use items created in a realized production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

TPA 1210 .

TPA 2331 - Costume Construction

An introduction to costume construction techniques and wardrobe design. Topics span a wide range: costume construction techniques, problems in costumes, costume history, construction styles, sewing machine practices, seam finishes, flat pattern layout and production techniques. This course is intended to develop practical experiences in costume construction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

TPA 2232

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

TPP 1190 .

TPP 1192 - Rehearsal and Performance III

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

TPP 1191 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

TPP 2110 .

TPP 2141 - Acting in Shakespeare

This course is an introduction to the concepts, principles, and skills needed to develop characters in Shakespeare's plays. The course focuses on the hidden clues in the text to discover character choices and meaning. Specific analysis and the techniques of scansion are introduced as they relate to character interpretation. Application of these techniques will be presented in scenes and monologues.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2150 - Advanced Scene Study

This course is a continuation of the processes and concepts of TPP 2111, Acting II, with the addition of new techniques to create dynamic and engaging characterizations through performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2250 - Introduction to Musical Theatre

Introduction to the study of Musical Theater analysis, creation, and performance with an emphasis on singing, dancing, and acting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2301 - Directing I

A beginning course in the study, development and training in directing for the theater. Although not a prerequisite, students are encouraged to take Acting I and II before Directing I.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2302 - Directing II

Directing II is a continued study of the basic principles of directing for the theater with emphasis in the continued study, development and training in directing for the theater.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

TPP 2301 .

TPP 2533 - Stage Combat I (Unarmed & Rapier)

Through in-class study and performance the student will develop an understanding of and proficiency in the safe techniques of unarmed and rapier stage combat which are required of a theatrical performer. Application of these techniques will be presented in two scenes, one for unarmed and one for rapier.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

TPP 2930 - Theater Performance – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

Welding PMT 0106C - Welder Helper

This course provides instruction in shop safety, the use of safety procedures and protective equipment needed in a welding shop. Course incudes basic shop math, shop safety, welding equipment setup/teardown procedures.

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0111C - Metal Preparation

This course provides instruction in different metal preparation processes including: thermal preparation (oxygen/fuel cutting, carbon arc cutting, plasma torch cutting). The student will also learn mechanical preparation (band saw, grinder, power brush, and other metal prep equipment).

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take

advantage of this opportunity.

PMT 0121C - Introductory Shielded Metal Arc Welding (SMAW)

This course provides instruction and demonstration using Shielded Metal Arc Welding (SMAW). Topics include visually inspect of welds, and basic SMAW technical terminology. Basic structural welding techniques will be demonstrated in accordance with American Welding Society (AWS) D1.1 Structural Welding Code. Tack welding and metal joint fit of carbon steel is covered in this course.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0122C - Basic Shielded Metal Arc Welding (SMAW)

This course introduces structural fillet welds in different joint positions in accordance with AWS D1.1 Structural Welding Code. Fillet welds will be performed on carbon steel plate of various thicknesses.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):

PMT 0121C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0126C - Intermediate Shielded Metal Arc Welding (SMAW)

This course provides the student with instruction on joint design, joint preparation, and fit-up, and performance of groove welds with backing. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of groove welds with backing and make acceptable groove welds with backing using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):

PMT 0122C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0127C - Advanced Shielded Metal Arc Welding (SMAW)

This course provides the student with advanced instruction on joint design, joint preparation, and fit-up, and performance of open groove welds. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of open groove welds and make acceptable open groove welds in all positions using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Spring, Summer) Prerequisite(s):

PMT 0126C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0134C - Gas Metal Arc Welding (GMAW)

This course provides instruction and demonstration using the various transfer methods and techniques of Gas Metal Arc Welding

(GMAW). Topics included are safety, equipment set-up, joint design and preparation, and gases.

Credit Hour(s): 50 Clock Hours When Offered: (Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0145C - Flux-Core Arc and Gas Tungsten Arc Welding

This course provides instruction and demonstration using the various transfer methods and techniques to flux cored arc and gas tungsten arc welds. Topics included are safety, equipment set-up, joint design and preparation, and gases. Students study basic Flux-Core Arc Welding (FCAW), basic Gas Tungsten Arc Welding (GTAW), and basic understanding of pipe welding. Welding symbols and blueprint reading is covered in this course.

Credit Hour(s): 400 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0165C - Shielded Metal Arc Weld (SMAW) Pipe Welding

This course introduces the student to the practices and procedures of welding carbon steel pipe using the Shielded Metal Arc Weld (SMAW) process. Emphasis is placed on pipe positions, electrode selection, joint geometry, joint preparation and fit-up. Upon completion, students should be able to demonstrate pipe positions, proper electrodes selection, proper joint geometry, joint preparation, fit-up, and proper SMAW pipe welding techniques in accordance with applicable codes.

Credit Hour(s): 200 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0171C - SMAW-GTAW Pipe Welding

This course is designed to provide the students with skills in welding carbon steel pipe using Shielded Metal Arc Weld process and Gas Tungsten Arc Weld (GTAW) processes using proper filler metals in the 2G, 5G, and 6G positions. Upon completion, students should be able to perform shielded metal arc welding process and gas tungsten arc welding on carbon steel pipe with the prescribed filler metals in the 2G, 5G, and 6G position in accordance with the applicable code.

Credit Hour(s): 400 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0173C - Specialty Pipe Welding

This courses covers advanced pipe welding and is designed to build advanced GTAW skills. This course covers advanced Gas Tungsten Arc Welding (GTAW) on alloy pipe and heavy wall carbon pipe.

Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Zoology ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

General Education

General Education for All Degrees

All NWF State College degree programs contain both specialized courses and general education courses. Bachelor of Applied Science, Bachelor of Science and Associate in Arts students complete at least thirty-six (36) general education credits from five subject area categories. Associate in Science students complete at least eighteen (18) general education credits from five (5) subject areas. The general education component of each program is designed to further the mission and goals of the college. Upon successful completion of general education coursework, the student will:
Demonstrate proficiency in reading, writing and speaking;
Apply reflection, analysis, synthesis, logical reasoning and evaluation to formulate judgments, reach decisions and solve problems;
Understand and apply mathematical and scientific principles and methods;
Find, evaluate, organize and use information accurately and effectively;
Participate actively as informed and responsible citizens in social, cultural, global and environmental matters.
The NWF State College General Education Program is designed to conform to all applicable regional accreditation criteria, Florida State Board of Education Rules, and the Florida Statewide Articulation Agreement. To that end, the program incorporates a Technology-Across-the-Curriculum component, a Speaking-Across-the-Curriculum requirement, and minimum grade and writing requirements as stipulated in Florida's "Gordon Rule."

Technology-Across-the-Curriculum

Competence in basic technology skills is an essential component of life. Accordingly, NWF State College has incorporated technology throughout its programs and courses. Each two-year degree program contains at least one course that requires the student to demonstrate fundamental technology skills. All English Composition I classes are taught in a computer classroom, and students are required to complete assignments and other activities on a computer. Microcomputer Applications is a requirement or prerequisite course in many A.S. degrees. In support of the technology requirement, NWF State College offers student access to and technical support in open computer labs at all college sites.
B.A.S., B.S., A.A. and A.S. degree-seeking students will meet the computer technology skill requirement through completion of ENC 1101 and/or CGS 1100 and may encounter more advanced computer skills in other elective, technical or general education courses. See the course descriptions section of this catalog for the courses designated as part of the Technology-Across-the-Curriculum program.

Writing-Across-the-Curriculum

All associate degree students must complete at least one three-credit writing class as part of their general education program. Additional writing activities are required in all general education humanities courses. Bachelor of Applied Science, Bachelor of Science and Associate in Arts students must complete twelve (12) to fifteen (15) college credits from designated general education Gordon Rule Communication, Humanities and Social Science subject areas. See the A.A. General Education section of catalog for specific courses.

Speaking-Across-the-Curriculum (SATC)

Oral communication is an integral part of the NWF State College general education program; thus several general education courses include graded activities designed to build speaking and communication skills. All B.A.S., B.S., A.A., and A.S. degree-seekers must satisfy the Speaking-Across-the-Curriculum requirement and may do so by completing at least one of the general education courses designated as part of the Speaking-Across-the-Curriculum component of the General Education program. Students who successfully complete other speech, forensics, or oral interpretation courses may request that such courses be used to satisfy this requirement. See the A.A. General Education section of catalog for specific courses.

Gordon Rule Courses

Florida's Gordon Rule (FAC Rule 6A-10.030) includes a legislative mandate that all baccalaureate and Associate in Arts graduates successfully complete specific math and writing requirements. B.A.S., B.S. and A.A. graduates must have successfully completed at least 21 college credits from designated general education Gordon Rule Communication, Humanities, Social Science and Mathematics subject areas. A.S graduates must have successfully completed at least 9-12 college credits from designated general education Gordon Rule Communication, Humanities, Social Science and Mathematics subject areas (SATC Humanities may be replaced with General Humanities in the AS degree as long as Speaking-Across-the-Curriculum is met elsewhere. General Social Science may replace Gordon Rule Social Science, thus lowering the Gordon Rule requirement for the AS degree from 12 to 9 college credits).
All B.A.S., B.S., A.A. and A.S. degree-seekers must also earn a grade of "C" or higher in each Gordon Rule course used to satisfy general education requirements, whether the credits are earned at NWFSC or elsewhere.

Diversity Focus for Teacher Education Programs

Students who plan to enter any of the Teacher Education programs leading to certification must complete 6 credit hours of coursework with an international or diversity focus. Any course identified as meeting NWF State College's Diversity Requirement will fulfill this requirement, including foreign language courses.

AA Degree General Education Requirements

Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an advisor, who will assist with selecting the college credits most advantageous to the student's educational goals.
To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. Beginning with students initially entering a Florida College System institution or state university in 2015-2016 and thereafter, each student must complete at least one identified core course (designated with ♦) in each area of study as part of the general education course requirements.
Furthermore, NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

AS Degree General Education Requirements

All A.S. degree programs at NWF State College require a minimum of 18 college credits in general education. Unless otherwise specified in the program requirements, students must complete one course from each of the following categories to meet general education requirements.
To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options (designated with ♦) in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. The A.S. degree programs provide flexibility for entering the job market or continuing education. Students who take general education courses are guaranteed transfer of those courses when continuing their education within the Florida College and University System.
NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

AAS Degree General Education Requirements

All A.A.S. degree programs at NWF State College require a minimum of 18 college credits in general education. Unless otherwise specified in the program requirements, students must complete one course from each of the following categories to meet general education requirements.

Bachelor Degrees

Bachelor of Applied Science (BAS) Degree

BAS in Management and Supervision Degree BAS in Project Management Degree

NWF State College is approved by the State of Florida Board of Education to offer the Bachelor of Applied Science Degree in Project Management (BAS) and the Bachelor of Applied Science Degree in Management and Supervision (BAS).
The BAS degree offers students a unique opportunity to gain the skills and knowledge necessary for career advancement in a variety of areas. Program content has been developed with input from local employers and is reflective of traditional business management degrees, as well as of the technical skills identified by various professional organizations.
There are four pre-planned areas of emphasis in the Management and Supervision program. Areas of specialization include:
Healthcare Management
Human Resources Management
Military Science and Leadership
Supervision
There are five pre-planned areas of emphasis in the Project Management program. Areas of specialization include:
Acquisitions
Logistics
Project Management
Quality Improvement
Technology Management
The BAS program provides a career-ladder for students who have already completed an associate's degree and who wish to continue their education at the bachelor's level, or beginning students may design a program of study for the degree as early as the freshman year if they have not yet obtained an associate's degree.
Coursework for the degree is designed with the working student in mind and is offered with classes available evenings, weekends, in concentrated fast-track terms, through eCampus/Distance Learning, or structured as "blended/hybrid" classes (part traditional classroom and part non-traditional format). Coursework incorporates internships, seminars, and other work-based learning activities designed to ensure students acquire the latest skills and content. Students receive the full range of articulation and transfer rights guaranteed by Florida law through common course numbering and the statewide articulation agreement.

Graduation Requirements for the BAS Degrees

Students seeking a Bachelor of Applied Science degree must meet the following requirements:
Complete applicable admission requirements for the program. See the Admissions section of the catalog.
Complete at least 25% of the course work towards the program at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.
Complete A.A. General Education requirements, including all Gordon Rule course requirements with minimum grades ("C").
Completion of two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination.

Successfully complete at least forty (40) credits of approved upper division coursework in the major.
Complete at least 50% of the upper division program course work in residence at NWF State College.
Complete a minimum of one hundred and twenty (120) college credits applicable toward the BAS degree.
Satisfy all outstanding obligations to the college.
Apply to graduate by the published deadline.

Bachelor of Science (BS) Degree in Education

BS in Early Childhood Education, Birth through Four Degree

The Bachelor of Science Degree in Early Childhood Education, Birth through Four is designed to prepare students to work in programs serving children ages 0-4 years. Graduates will be prepared to advance in the Early Childhood career field. The degree offers a career ladder for students earning the Associate of Science in Early Childhood Education at NWF State College, which includes the state-mandated prerequisite courses. Students earning an A.A. may also enter this program after completing the state-mandated prerequisite courses. Coursework is designed for the working adult, utilizing weekend, evening, and hybrid classes.

BS in Teacher Education Degrees

NWF State College is approved by the Florida Board of Education to offer three bachelor's degrees leading to state certification in teacher education: the Bachelor of Science in Elementary Education, the Bachelor of Science in Middle Grades General Science Education and the Bachelor of Science in Middle Grades Mathematics Education. These degrees are designed to provide a career ladder for those who have already completed an Associate in Arts (A.A.) degree or have 60 hours of acceptable lower division coursework and who wish to continue their education at the bachelor's level. The Bachelor of Science in Elementary Education also includes endorsements in Reading and English as a Second Language.

Graduation Requirements for BS in Childhood Education, Birth through Four Degree

Students seeking a Bachelor of Science degree in Childhood Education, Birth through Four must meet the following requirements:
Complete applicable admission requirements for the program. See the Admissions section of the catalog.
Complete at least 25% of the course work towards the program at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.
Earn a minimum grade ("C") in all upper division course work.
Successfully complete all coursework within the major field of study with a cumulative GPA of at least 2.00.
Complete A.A. General Education requirements, including all Gordon Rule course requirements with minimum grades ("C").
Completion of two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination.
Complete at least 50% of the upper division program course work in residence at NWF State College.
Complete a minimum of one hundred and twenty (120) college credits applicable toward the B.S. degree.
Satisfy all outstanding obligations to the college.
Apply to graduate by the published deadline.

Graduation Requirements for BS in Teacher Education Degree

Students seeking a Bachelor of Science degree in Education must meet the following requirements:
Complete applicable admission requirements for the program. See the Admissions section of the catalog.
Complete at least 25% of the course work towards the program at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.

Earn a minimum grade ("C") in all upper division course work.
Successfully complete all coursework within the major field of study with a cumulative GPA of at least 2.50.
Complete A.A. General Education requirements, including all Gordon Rule course requirements with minimum grades ("C").
Completion of two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination.
Complete at least 50% of the upper division program course work in residence at NWF State College.
Pass the three Florida Teacher Certification Examinations: General Knowledge, Professional Education and appropriate Subject Area.
Complete a minimum of one hundred and twenty (120) college credits applicable toward the B.S. degree.
Satisfy all outstanding obligations to the college.
Apply to graduate by the published deadline.

Elementary Education (BS)

Admission Program Objective Code BSED State CIP Code 1101312021
The first sixty credits in the following program of study are designed to prepare students not only for the A.A. degree, but also for the General Knowledge exam and Elementary Subject Area exam of the Florida Teacher Certification Exam (FTCE).
If you plan to be an elementary school teacher and are just beginning your A.A. degree, this program of study will best prepare you for that career choice. If you have already completed your A.A. degree and some of your general education courses differ from those listed below, your A.A. degree will still meet that component of the admission process; however, you may need to complete additional coursework, independent study, or workshops to be well prepared for the FTCE Elementary Subject Area exam. A passing score on the FTCE Elementary Subject Area exam is one of the graduation requirements for this degree. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.
Courses with the "C" designation include extra hours to accommodate field experiences.
Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements. Requirements for Teacher Education programs may change due to legislative mandate. Candidates should request the most current requirements from the Teacher Education Program Director.

Middle Grades General Science (BS)

Admission Program Objective Code BSES State CIP Code 1101313165
The first sixty credits in the following program of study are designed to prepare students not only for the A.A. degree, but also for the General Knowledge exam and Middle Grades General Science Subject Area exam of the Florida Teacher Certification Exam (FTCE).
If you plan to be a middle grades science teacher and are just beginning your A.A. degree, this program of study will best prepare you for that career choice. If you have already completed your A.A. degree and some of your general education courses differ from those listed below, your A.A. degree will still meet that component of the admission process; however, you may need to complete additional coursework, independent study, or workshops to be well prepared for the FTCE Middle Grades General Science Subject Area exam. A passing score on the FTCE Middle Grades General Science Subject Area exam is one of the graduation requirements for this degree. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.
Courses with the "C" designation include extra hours to accommodate laboratory and field experiences.
Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements. Requirements for Teacher Education programs may change due to legislative mandates. Candidates should request the most current requirements from the Teacher Education Program Director.

Middle Grades Mathematics (BS)

Admission Program Objective Code BSEM State CIP Code 1101313112
The first sixty credits in the following program of study are designed to prepare students not only for the A.A. degree, but also for the General Knowledge exam and Middle Grades Math Subject Area exam of the Florida Teacher Certification Exam (FTCE).

If you plan to be a middle grades math teacher and are just beginning your A.A. degree, this program of study will best prepare you for that career choice. If you have already completed your A.A. degree and some of your general education courses differ from those listed below, your A.A. degree will still meet that component of the admission process; however, you may need to complete additional coursework, independent study, or workshops to be well prepared for the FTCE Middle Grades Math Subject Area exam. A passing score on the FTCE Middle Grades Mathematics Subject Area exam is one of the graduation requirements for this degree. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.
Courses with the "C" designation include extra hours to accommodate laboratory and field experiences.
Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements. Requirements for Teacher Education programs may change due to legislative mandates. Candidates should request the most current requirements from the Teacher Education Program Director.

Early Childhood Education, Birth through Four (BS)

Admission Program Objective Code BSEB State CIP Code 1101312102
The Bachelor of Science in Early Childhood Education, Birth through Four is designed to prepare students to work in programs serving children ages 0-4 years. Graduates will be prepared for advancement in the Early Childhood career field. The degree offers a career ladder for students earning the Associate of Science in Early Childhood Education at NWF State College, which includes the five state-mandated prerequisite courses. A.S. students will complete an additional 18 hours of General Education classes during their upper division coursework, after admission to the Early Childhood Education program. Students earning an A.A. may also enter this program after completing the state-mandated prerequisite courses. These students will complete technical classes during their upper division coursework after admission to the Early Childhood Education program. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.
Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements.

EEC 4940 - Internship

Supervised teaching in an assigned Early Childhood Education setting. Student teaching assignments will be made by the Department of Teacher Education Office. This course requires a minimum grade of "C". Current background check (fingerprinting) is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Upper Division standing with permission of Department Chair

Bachelor of Science (BS) Degree in Nursing

BS in Nursing Degree

The baccalaureate nursing program at NWF State College is accredited by the Commission on Collegiate Nursing Education, One DuPont Circle, NW, Suite 530, Washington DC 20036, (202) 887-6791. For more information regarding disclosure, please review pages 15-16 of the CCNE Procedures for Accreditation of Baccalaureate and Graduate Degree Nursing Programs (http://www.aacn.nche.edu/ccne-accreditation/Procedures.pdf). The program is an R.N. to BSN degree career ladder and is open to applicants who currently hold a valid Registered Nursing license and have completed an accredited ADN or diploma program. The program can be completed in three to four semesters. Program content for the BSN program meets those specified in Florida's A.S. to B.S. Articulation Manual. All theory courses are taught on-line from the NWF State College Niceville Campus and clinical instruction targets the specific needs of Okaloosa and Walton healthcare providers.

Graduation Requirements for the BS in Nursing Degree

Students seeking the Bachelor of Science degree in Nursing (BSN) must meet the following requirements:
Complete applicable admission requirements for the program. See the Admissions section of the catalog.

Complete at least 25% of the course work towards the program at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.
Earn a minimum grade ("C") in all upper division course work.
Complete A.A. General Education requirements, including all Gordon Rule course requirements with minimum grades ("C").
Completion of two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination.
Complete at least 50% of the upper division program course work (not to include portfolio assessment) in residence at NWF State College.
Complete a minimum of one hundred and twenty (120) college credits applicable toward the BSN degree.
Satisfy all outstanding obligations to the college.
Apply to graduate by the published deadline.

Nursing (BS)

Admission Program Objective Code BSNG State CIP Code 1105138012
The baccalaureate Nursing program at Northwest Florida State College is accredited by the Commission on Collegiate Nursing Education, One DuPont Circle, NW, Suite 530, Washington DC 20036, (202)887-6791. For more information regarding disclosure, please review pages 15-16 of the CCNE Procedures for Accreditation of Baccalaureate and Graduate Degree Nursing Programs (http://www.aacn.nche.edu/ccne-accreditation/Procedures.pdf).
The program is an R.N. to B.S.N. degree career ladder and is open to applicants who currently hold a valid Registered Nursing license and have completed an accredited ADN or diploma program. The program can be completed in three to four semesters. Program content for the B.S.N. program meets those specified in Florida's A.S. to B.S. Articulation Manual. All theory courses are taught on-line from the NWF State College Niceville campus and clinical activities can be completed near the student's residence.

Associate in Arts Degree

The Associate in Arts degree is equivalent to the first two years of a bachelor's degree program and is offered for those students planning to transfer to a four-year institution or to remain at NWF State College to complete the last two years of a bachelor's degree program. The AA degree is awarded upon satisfactory completion of 60 credit hours of general education and college credit electives, attainment of the appropriate minimum grade point averages, and completion of all other applicable college graduation requirements, including the Speaking-Across-the-Curriculum and Technology-Across-the-Curriculum requirements. Although the number of credits and specific courses required for a bachelor's degree may vary across upper-division schools, the Florida community colleges and universities enjoy an articulation agreement, which guarantees certain transfer rights for students who complete the AA degree.
A.A. degree students should work closely with an Academic Advisor or faculty advisor to select the appropriate courses to meet their degree goals.

Graduation Requirements for the AA Degree

The A.A. degree curriculum requires the following.
Complete a minimum of 60 college credits per the following distribution as outlined in the AA Degree General Education Requirements:
Complete 36 credit hours of general education courses distributed appropriately across the Communications, Humanities, Social Sciences, Mathematics, Natural Sciences, and General Education Elective categories presented in the AA Degree General Education Requirements section of the catalog for specific courses.
Completion of two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination.
Complete 24 credit hours of college credit electives. (Students should consult with a counselor or advisor to select the electives most appropriate to their intended baccalaureate program.)
Meet the General Education minimum grade and writing requirements:

Attain a grade of "C" or higher in each Gordon Rule writing course (any general education course from the Communications or Humanities categories, and those designated as Gordon Rule in the Social Science category) whether credits in such courses are earned at NWF State College or elsewhere.
Complete the Gordon Rule writing requirement (students who complete 6 credits each from the Communications and Humanities categories and an additional Gordon Rule Social Science course will satisfy this requirement).
Attain a grade of "C" or higher in each Gordon Rule Mathematics course (any course from the Mathematics category that is used to meet AA general education requirements), whether credits in such courses are earned at NWF State College or elsewhere.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.
Complete applicable admission requirements for the program. See the Admissions section of the catalog.
Complete at least 25% of the course work towards the program at NWFSC.
Satisfy all outstanding obligations to the college.
Apply to graduate by the published deadline.

Transferring to another Four-Year College or University within the State of Florida:

Faculty members, counselors and advisors will gladly assist students in achieving a smooth transfer to other institutions in Florida. Liaison representatives from the respective public institutions in the state are eager to help. Several of the liaisons make regular visits to campus and will meet directly with students to answer questions. The names of the liaisons and dates of upcoming visits are available in the Advising Center in the Student Services Center on the Niceville Campus. In addition, Common Prerequisite Manuals for the Florida State University System are available on RaiderNet or at www.flvc.org.
It is desirable that students transferring to a senior institution plan their program so that common prerequisites can be completed for the upper-division transfer school for their major. It is best for the student to complete the entire two-year degree program prior to transfer, as A.A. graduates who transfer to one of the institutions in the Florida State University System (SUS) enjoy certain protections under the statewide articulation agreement. These rights are presented in the "Student Bill of Rights".
NWF State College offers the necessary prerequisites for most of the State of Florida University Baccalaureate Programs. Students are encouraged to consult a current catalog from the upper-division school where they plan to transfer in addition to meeting with a college advisor or faculty member to acquire an official program plan of study for their intended major.

Special Foreign Language Requirements for Entry into Upper-Level Florida Universities:

Effective August 1, 1990, according to requirements of the Florida Board of Regents, new applicants to any of the state universities must have completed two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination. There are two exceptions to this requirement: 1) students who received an A.A. degree prior to September 1, 1989, or 2) students who enrolled in a program leading to an A.A. degree prior to August 1, 1989 and maintained continuous enrollment. Students who are not exempt but fail to satisfy the requirement, may be admitted to the university as part of the 5% admissions exceptions group but will be required to complete eight-ten credit hours in one foreign language as a graduation requirement, regardless of the requirements in the student's major. Students transferring into the Florida SUS without an A.A. degree or fewer than 60 transferable credits must meet this foreign language requirement before going on to the upper division. NWF State College offers the necessary coursework in French, Spanish, Chinese and American Sign Language (ASL) to meet the Florida SUS admission requirements.

Student Bill of Rights

Florida Community College Associate in Arts (AA) Degree graduates are guaranteed rights under the

Florida Statewide Articulation for AA Degree
Local NWF Agreements with Other Institutions
Local NWF Internal Agreements
NWF Certificate to AS Degree Career Paths
Statewide Articulation Agreements

What is an Articulation Agreement?

Florida has instituted a variety of methods to facilitate student transfer of credit, otherwise known as articulation agreements.

The [[permalink=597|new:{'title':1}]]Statewide Articulation Manual[[/permalink]] provides statewide standards for awarding advanced placement credits, high school dual enrollment credit, transfer of credit between institutions, and related topics. The Florida Department of Education, through the Articulation Coordinating Committee (ACC), also facilitates statewide consistency among institutions that award credit for certain professional credentials, such as industry certifications, licenses, and certificates. In addition to statewide articulation agreements, NWF State College has local articulation agreements with various other institutions, as well as internal agreements for specific NWF State College programs.

Florida Statewide Articulation Agreement for AA Degree (State Board of Education Rule 6A-10.024)

Florida Community College Associate in Arts (AA) graduates are guaranteed the following rights under the Statewide Articulation Agreement (State Board of Education Rule 6A-10.024):
Admission to one of the state universities, except to Limited Access* programs.
Acceptance of at least 60 credit hours by the state university toward the baccalaureate degree.
Adherence to university requirements and policies based on the catalog in effect at the time the student first entered a community college, provided the student maintains continuous enrollment.
Transfer of equivalent courses under the Statewide Course Numbering System.
Acceptance by the state universities of credit earned in accelerated programs (e.g., CLEP, DANTES, AP, PEP, Dual Enrollment, Early Admission and International Baccalaureate).
No additional General Education Core requirements.
Advance knowledge of selection criteria for Limited Access* programs.
Equal opportunity with native university students to enter Limited Access* programs.
Should any guarantee be denied, students have the right of appeal. Each state university, and state college shall make available established appeal procedures through the respective articulation officers. At NWF State College, students may contact the Vice President of Academic Affairs or the Dean of Students.
* Limited Access is the designation given to programs that require additional admission requirements which are more selective than general admission requirements. These may include the following: increased total GPA and test scores; additional courses and prerequisites; and auditions and portfolios.

NWF State College Certificate to AS Degree Career Paths

Many of the technical certificate programs offered by NWF State College provide the initial step in meeting selected course requirements for an A.S. degree in a related area. Courses from those certificates are the same as or equivalent to comparable courses in the companion degree program. Likewise, courses used in the degree program may be applied to a certificate in a related area; in many cases, completion of the technical courses in the degree program can automatically qualify the student to receive the companion certificate.
A list of all AS degrees and corresponding articulated certificates is shown
on the [[permalink=358|new:{'title':1,'description':1}]][[/permalink]] page.
For a side by side view of the AS degrees and corresponding certificates see
the [[permalink=1038|same:{'title':1}]][[/permalink]] [.pdf]

NWF2UWF

[[permalink=1042|same:{'title':1}]][[/permalink]]
The NWF2UWF Program offers collaborative academic advising from UWF Transfer Advisors and an on-site NWF2UWF Program Coordinator located on the NWF State College's Niceville campus. Students will also receive access to UWF services and benefits before they enroll. Students who complete an associate of arts degree at NWF State College are guaranteed admissions at UWF, contingent upon meeting the minimum transfer requirements.
Admission to UWF with no application fee
Convenient transfer of academic records and courses from NWF State College
Affordable bachelor's degree from an accredited and respected public university
Options to complete a bachelor's degree at one of three University of West Florida's locations:
Main Campus - Pensacola
Emerald Coast - Ft. Walton Beach, Eglin and Hurlburt Field Air Force Base
Online Campus
Faculty and staff committed to academic success
Flexible class schedules to meet busy lifestyles
Experienced academic advisors to assist in satisfying degree requirements
Library privileges at both institutions
UWF email account
UWF ID card
To participate in a 2UWF Program a student must:
Meet current admission criteria at a state college partner.
Have earned fewer than 45 credit hours.
Complete an associate of arts degree with a minimum overall combined 2.0 GPA as computed by UWF. (Individual departmental requirements may be higher)
Be in compliance with the code of conduct at a state college and is in good academic standing.
Not attend another institution between the time you graduate from your current state college and enroll at UWF.
Formally enroll in UWF within one year of having completed an associate of arts degree.
Not have previously graduated from a state college partner.

Statewide Articulation Agreements

The State Board of Education approved the Statewide Career and Technical Education Articulation Agreements which are based on industry certification. This supports the Department's Next Generation Areas of Focus effort Number 3 —"to expand opportunities for postsecondary degrees and certificates." These agreements are intended to be a minimum guarantee of articulated credit and do not preclude institutions from granting additional credit based on local agreements. Individual agreements are listed below.
Statewide Articulation Agreements

AS to Baccalaureate Degree Articulation Agreements

In Florida, A.S. degree curricula regularly include technical skills and theoretical knowledge, as well as, a required general education component that are designed to prepare an individual either for entry into the workforce or transfer into a related baccalaureate program. It is this combination of theory and practice that distinguishes the A.S. degree from the A.A. degree, with its traditional focus on the liberal arts and sciences. This valuable combination of knowledge and skills need not disqualify A.S. degree courses from transferability. Indeed, the competencies taught in the lower division at two-year colleges often duplicate competencies taught at universities in the upper division (in nursing, for example, or in certain information technology fields). The learning outcomes embedded in the A.S. degree programs often embody similar technical knowledge and skill sets. A complete list of articulated programs and hours can be viewed in the Florida Department of Education Career Ladder Agreements document.

Industry Certification to Associate in Applied Science (AAS) / Associate in Science (AS) Articulation Agreements

There are several acceleration methods associated with Industry Certification. These acceleration opportunities allow students who are progressing to the next level of education to earn a guaranteed number of college credits toward the AAS or AS degree. Each acceleration opportunity requires the student to demonstrate mastery of a specified level of competency. One example of this method is the Gold Standard Articulation Agreement, which includes identified industry certifications. As new agreements are developed they are added to the articulation list.
The Gold Standard Career pathways Articulation Agreements of Industry Certification provides information on the identified industry certifications approved by the Florida State Board of Education. Contact Ms. La'Terica Clark, Coordinator of Career and Technical Education at (850) 729-4956 for specific industry certification articulation options at NWF State College.

ATD to AAS/AS Articulation Agreements

The Applied Technology Diploma (ATD) consists of a course of study that is part of an associate in science (AS) or an associate in applied science degree (AAS), is less than sixty (60) credit hours, is approximately fifty (50) percent of the technical component (non-general education), and leads to employment in a specific occupation. An applied technology diploma program may consist of either clock hour credit or college credit. The transfer of the applied technology diploma to an associate degree is guaranteed for a period of three (3) years following the date of the award of the applied technology diploma. For a listing of specific statewide ATD

to AAS/AS articulation agreements approved by the ACC, see: ATD to AAS/AS Articulation Agreements.

High School Career Pathways Programs

To determine competency alignment between secondary and postsecondary programs/courses, Florida Department of Education staff review the secondary curriculum frameworks, textbooks, additional materials and equipment used, and the knowledge and skills sets students acquire in the secondary program. From this information, college administration and faculty determine to which courses and/or programs, if any, the secondary programs can be articulated, and identify what courses a student (having successfully completed a Career Pathways program) may receive upon high school graduation and college enrollment. At NWF State College, students may earn credits through the [[permalink=1039|same:{'title':1}]][/permalink]] program based upon high school coursework completed at a school in Okaloosa or Walton County.

Transfer Agreement with Independent Colleges and Universities in Florida

The Florida College System has a transfer agreement with many of the Independent Colleges and Universities of Florida (ICUF). This allows AA degree graduates to transfer into a private college or university with the guarantee that a student will enter as a junior, receive at least 60 credit hours toward the bachelor's degree, and receive recognition for the general education core that was completed at an institution within the Florida College System. Most of the 31 ICUF institutions have recognized this agreement. To view a copy of the ICUF articulation agreement with the Florida College System, see: Independent Colleges and Universities Articulation Agreement.

Other Statewide Agreements

The Florida College System also has established articulation agreements with private colleges and other universities. To view specific agreements, see: http://www.fldoe.org/articulation/articulation-agreement.asp.

(State Board of Education Rule 6A-10.024).

AA Transfer Majors

AA Transfer Majors indicate the required courses needed to be eligible to be admitted to the university program at the institutions listed. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.
The following list indicates the AA transfer majors that can be completed taking courses at NWF State College. It is not a complete list of all university transfer majors. The Common Course Prerequisite Manual lists all university transfer programs available in the State of Florida.
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWF State College recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

AA Transfer Major: Architecture - FAMU/NWF Pre-Articulation Agreement

Admission Program Objective Code FAMU State CIP Code 1192401010

Articulation Agreement with the Florida A&M University (FAMU) School of Architecture:

An articulation agreement between NWF State College and Florida A&M University (FAMU) School of Architecture allows students to earn an Associate in Arts (A.A.) degree that could qualify them for entrance to the upper-division of the Bachelor of Science in Architectural Studies degree program at FAMU. It is highly recommended that, in addition to the common prerequisites listed below, students should consult the current catalog from FAMU. Some SUS programs have restricted access or are considered Limited Access programs. Students are responsible for completing the specific requirements for admissions. For more information on the FAMU A.A. to B.S. articulation, contact Mr. Ray Rickman at 729-5218 or rickmanr@nwfsc.edu.

Associate in Arts Degree/Pre-Architecture FAMU Prerequisites

Please consult the Course Description section of the catalog for the required prerequisites of all courses needed to satisfy the requirements of this program. Students must meet NWFSC A.A. degree graduation requirements.

AA - Associate in Arts General Degree

Admission Program Objective Code AAGD State CIP Code 1192401010
The AA is primarily intended as a transfer degree for students continuing to a 4 year bachelor's program at a university or state college. The AA Transfer Programs indicate the required courses needed to be eligible to be admitted to the university program at the institutions listed.
Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an advisor, who will assist with selecting the college credits most advantageous to the student's educational goals.

AA Transfer Major: Athletic Training

Admission Program Objective Code: ATHL State CIP Code: 1192401010
Offered at FGCU*, FSU*, UCF, UF*, UNF*, USF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 2/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Biology & Earth Science

Admission Program Objective Code: BIEA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 3/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Biology & Mathematics

Admission Program Objective Code: BIMA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 4/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Biology & Physics

Admission Program Objective Code: BIPH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 5/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Chemistry & Computer Science

Admission Program Objective Code: CHCO State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 6/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Chemistry & Earth Science

Admission Program Objective Code: CHEA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 7/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Chemistry & Mathematics

Admission Program Objective Code: CHMA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 8/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Chemistry & Physics

Admission Program Objective Code: CHPY State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 9/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Computer & Earth Sciences

Admission Program Objective Code: CMEA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 10/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Computer Science & Math

Admission Program Objective Code: CMMA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 11/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Computer Science & Physics

Admission Program Objective Code: CMPH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 12/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Earth Science & Mathematics

Admission Program Objective Code: EAMA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 13/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Earth Science & Physics

Admission Program Objective Code: EAPH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 14/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Mathematics & Physics

Admission Program Objective Code: MAPH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 15/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological & Physical Sciences - Interdisciplinary Natural Sciences

Admission Program Objective Code: BIOP State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 16/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biological/Biosystems Engineering

Admission Program Objective Code: BIBI State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 144501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biology, General

Admission Program Objective Code: BIOL State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, IRSC, MDC, SPC, UCF, UF, UNF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260101, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biomedical Sciences

Admission Program Objective Code: BIMD State CIP Code: 1192401010
Offered at FSCJ, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260102 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biomedical/Bioengineering

Admission Program Objective Code: BIEN State CIP Code: 1192401010
Offered at FIU, FGCU, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biotechnology

Admission Program Objective Code: BITC State CIP Code: 1192401010
Offered at FGSU, SFC, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 261201 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Botany, General

Admission Program Objective Code: BOTA State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Administration & Management

Admission Program Objective Code: BUSM State CIP Code: 1192401010
Offered at CC, FAMU, FAU, FGCU, FIU*, FSCJ, FSU*, IRSC, SPC, UCF, UF, UNF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520201 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Administration

Admission Program Objective Code: BUSA State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Managerial Economics

Admission Program Objective Code: BMET State CIP Code: 1192401010
Offered at UCF, UNF, USF*, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520601 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Marketing Management

Admission Program Objective Code: BMKT State CIP Code: 1192401010
Offered at FAU, FGCU, FIU*, FSU*, UCF, UF*, UNF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521401 *See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Teacher Education/Business Technology Education

Admission Program Objective Code: BTEA State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131303 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business, General

Admission Program Objective Code: BUTN State CIP Code: 1192401010
Offered at FSU*, UCF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Chemical Engineering

Admission Program Objective Code: CHEN State CIP Code: 1192401010
Offered at FIU, FAMU, FSU, USF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Chemical Sciences - Chemical Sciences

Admission Program Objective Code: CMSI State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400599, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Chemistry

Admission Program Objective Code: CHEM State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic

advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Chemistry Teacher Education

Admission Program Objective Code: CHTE State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400501, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Civil Engineering

Admission Program Objective Code: CIVI State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FSU, UCF, UNF, FIU, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140801 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Communications (Mass), Media Studies or Converged Communications

Admission Program Objective Code: COMM State CIP Code: 1192401010
Offered at FGCU, FSCJ, UCF, UNF, USFSP, UWF*
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090102 * See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Communication and Media Studies

Admission Program Objective Code: COMS State CIP Code: 1192401010
Offered at FSU*
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090199 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Community Health Liaison

Admission Program Objective Code: CMHL State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 511504 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computational Biology

Admission Program Objective Code: BICP State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 261104 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computational Science

Admission Program Objective Code: CMPT State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 303001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer & Information Science - Computer Science

Admission Program Objective Code: CMIN State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 1/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer & Information Science - Computer Science (FSU only)

Admission Program Objective Code: CFSU State CIP Code: 1192401010
Offered at FSU* Transfer Program CIP code: 110101, track 2/6 Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer & Information Science - Information Science (UNF only)

Admission Program Objective Code: CUNF State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 4/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer Science - BA in Computer Science

Admission Program Objective Code: CMSC State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 6/6 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer Criminology

Admission Program Objective Code: CMCR State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430199 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer Engineering - Computer Engineering

Admission Program Objective Code: CMEN State CIP Code: 1192401010
Offered at FAMU, UF, FAU, FIU, FSU, UCF, USF*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140901, track 1/3 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer Engineering - Computer & Information Engineering

Admission Program Objective Code: CMPE State CIP Code: 1192401010
Offered at FAMU, FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140901, track 2/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer Software & Media Applications

Admission Program Objective Code: CSFM State CIP Code: 1192401010
Offered at FGCU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110899, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Construction Engineering

Admission Program Objective Code: CONS State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140803 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Criminal Justice Studies

Admission Program Objective Code: CRIM State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, IRSC, PSC, UCF, UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430104 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Criminology

Admission Program Objective Code: CRMO State CIP Code: 1192401010
Offered at UF*, USF, USFSM, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Dental Hygiene (BAS)

Admission Program Objective Code: DEHY State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510602 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Digital Media

Admission Program Objective Code: DGMD State CIP Code: 1192401010
Offered at FSCJ, GCSC, IRSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 100304 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Drama Education

Admission Program Objective Code: DRAM State CIP Code: 1192401010

Offered at FAMU, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500501, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Economics - Social Sciences

Admission Program Objective Code: ECON State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, FSU*, UCF, UF, UNF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450601, track 1/2 *See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Education of Blind & Visually Handicapped

Admission Program Objective Code: EDBL State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131009 *See note on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Education, General

Admission Program Objective Code: EDTR State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 130101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Educational Studies

Admission Program Objective Code: EDST State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 139999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.
NOTE: Completion of this program does not result in educator certification.

AA Transfer Major: Electrical, Electronics Engineering

Admission Program Objective Code: ELEL State CIP Code: 1192401010
Offered at UF, FAMU, FAU, FSU, UCF, UNF, USF, FIU, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141001, track 1/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Electronic Engineering Technology - Electrical & Computer Engineering Technology

Admission Program Objective Code: ELEC State CIP Code: 1192401010
Offered at FAMU, VC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 150303 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Elementary Teacher Education (NWF)

Admission Program Objective Code: ELED State CIP Code: 1192401010
Offered at CC, DSC, FSWSC, FAMU, FGCU, FSU*, NWFSC, SFSC, UCF, UF*, USF, USFSM, USFSP, UWF, FIU, FAU, SPC, IRSC, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131202 *See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Energy Technology Management (BAS)

Admission Program Objective Code: ENRG State CIP Code: 1192401010
Offered at SCFMS Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 150503 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Engineering Technology

Admission Program Objective Code: ENGN State CIP Code: 1192401010
Offered at DSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 159999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: English Language and Literature

Admission Program Objective Code: ENLI State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF*, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 230101 * See Note on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: English Teacher Education

Admission Program Objective Code: ENTE State CIP Code: 1192401010
Offered at CC, FSWSC, FAMU, FAU, FSU, UCF, USF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131305 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Entomology

Admission Program Objective Code: ENTM State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260702 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Entrepreneurship

Admission Program Objective Code: ENTR State CIP Code: 1192401010
Offered at USFSP* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520701 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Environmental Health Engineering

Admission Program Objective Code: ENVR State CIP Code: 1192401010
Offered at FIU, FGCU, UCF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Environmental Science - Geography/Environmental Management

Admission Program Objective Code: ENVG State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 130104, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Exercise Science (FAU only)

Admission Program Objective Code: EXFA State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310505, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Exercise Science (FGCU only)

Admission Program Objective Code: EXFG State CIP Code: 1192401010
Offered at FGCU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310505, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Exercise Science (USF only)

Admission Program Objective Code: EXUS State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131314, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Finance, General (BS) or Banking (BAS)

Admission Program Objective Code: FINB State CIP Code: 1192401010
Offered at FAU, FGCU, FIU, FSU*, UCF, UF, UNF, USF*, USFSM*, USFSP*, UWF, SPC (BAS) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520801 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Financial Services

Admission Program Objective Code: FINS State CIP Code: 1192401010
Offered at UNF, FSCJ Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520803 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Fire Science Management (BAS)

Admission Program Objective Code: FIR1 State CIP Code: 1192401010
Offered at FSCJ Transfer Program CIP code: 430202 Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Fire and Emergency Services

Admission Program Objective Code: FRES State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430203 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Food Science & Technology - Food Science

Admission Program Objective Code: FOOD State CIP Code: 1192401010
Offered at UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 011001, track 1/2 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Food Science & Technology - Dietetics

Admission Program Objective Code: FSTD State CIP Code: 1192401010
Offered at UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 011001, track 2/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Foreign Language, Multiple

Admission Program Objective Code: FORG State CIP Code: 1192401010
Offered at UCF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 160101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Forensic Science

Admission Program Objective Code: FORE State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430106 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Forest Resources & Conservation - Wildlife Ecology & Conservation

Admission Program Objective Code: FORW State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030501, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: General Studies

Admission Program Objective Code: GENS State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240106 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Geology

Admission Program Objective Code: GEOT State CIP Code: 1192401010
Offered at FAU, FIU, FSU, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400601, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Geology - Earth Science Teacher Education

Admission Program Objective Code: GEEA State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400601 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Geomatics Engineering

Admission Program Objective Code: GEOE State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 143801 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Gerontology

Admission Program Objective Code: GERO State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 301101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Graphic Design

Admission Program Objective Code: GRPH State CIP Code: 1192401010
Offered at FAMU, FSU*, UF*, USFSP* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500409 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Science - Concentration in Physician Assistant Studies

Admission Program Objective Code: HMDC State CIP Code: 1192401010
Offered at MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 2/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Science - Community Health

Admission Program Objective Code: HUNF State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 6/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Services Administration (BAS)

Admission Program Objective Code: HSAD State CIP Code: 1192401010
Offered at EFSC, SPC
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512211 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Services Administration

Admission Program Objective Code: HLSR State CIP Code: 1192401010
Offered at SFC, FAMU, FAU, FGCU, FIU, IRSC, SCFMS, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health and Physical Education, General - Physical Education

Admission Program Objective Code: HPEP State CIP Code: 1192401010
Offered at FAMU, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310501, track 2/4 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health and Physical Education, General - Exercise Science

Admission Program Objective Code: HPEE State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310501, track 3/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health and Physical Education, General - Health, Leisure, and Fitness Studies

Admission Program Objective Code: HPEH State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310501, track 4/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: History

Admission Program Objective Code: HIST State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 540101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Hospitality Administration/Management (UCF, UWF)

Admission Program Objective Code: HAMA State CIP Code: 1192401010
Offered at FIU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520901, track 1/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Hospitality Administration/Management (FAU, FSU)

Admission Program Objective Code: HAMB State CIP Code: 1192401010
Offered at FAU, FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520901, track 2/4 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Hospitality Administration/Management (USFSM)

Admission Program Objective Code: HAMC State CIP Code: 1192401010
Offered at USFSM Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520901, track 3/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Hospitality Administration/Management (FIU)

Admission Program Objective Code: HAMD State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520901, track 4/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Human Resource Management

Admission Program Objective Code: HRMG State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Human Services

Admission Program Objective Code: HUSR
Offered at FSCJ, IRSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440000, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Humanities

Admission Program Objective Code: HUMA State CIP Code: 1192401010
Offered at FSU, UCF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240103 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Industrial & Systems Engineering

Admission Program Objective Code: INSY State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 142701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Industrial/Manufacturing Engineering

Admission Program Objective Code: INDS State CIP Code: 1192401010
Offered at FAMU, FSU, UCF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 143501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Information Sciences and Studies - Computer Information Systems EN EIF

Admission Program Objective Code: INSC State CIP Code: 1192401010
Offered at EFSC, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Information Technology (UCF, USFSM, DSC)

Admission Program Objective Code: INTA State CIP Code: 1192401010
Offered at UCF, USF, USFSM, DSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110103, track 1/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Information Technology (FIU, FSU, USF, UWF)

Admission Program Objective Code: INTB State CIP Code: 1192401010

Offered at FIU, FSU, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110103, track 2/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Insurance

Admission Program Objective Code: INSU State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521701 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Interdisciplinary Studies

Admission Program Objective Code: INTE State CIP Code: 1192401010
Offered at UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 309999 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: International Business Management

Admission Program Objective Code: INTN State CIP Code: 1192401010
Offered at FAU, FIU, FSU*, SCFMS, SPC, USF*, USFSP* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: International Relations

Admission Program Objective Code: INTR State CIP Code: 1192401010
Offered at FIU, FSU, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450901 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: International /Global Studies

Admission Program Objective Code: INTG State CIP Code: 1192401010
Offered at UCF, UF, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 302001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jewish Studies

Admission Program Objective Code: JWST State CIP Code: 1192401010
Offered at FAU, FU Transfer Program CIP code: 380206 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Math/Middle Grade Science Ed

Admission Program Objective Code: MTMS State CIP Code: 1192401010
Offered at UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 1/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade English/Middle Grade Social Science Ed

Admission Program Objective Code: MTES State CIP Code: 1192401010
Offered at UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 2/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Math/Middle Grade English Ed

Admission Program Objective Code: MTEN State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 3/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Math/Middle Grade Social Science Ed

Admission Program Objective Code: MTSS State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 4/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Science/Middle Grade English Ed

Admission Program Objective Code: MTSE State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 5/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Science/Middle Grade Social Science Ed

Admission Program Objective Code: MTSC State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 6/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade English/Middle Grade Special Ed

Admission Program Objective Code: MTSP State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 7/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Latin American Studies (FSU)

Admission Program Objective Code: LATA State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050134 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Latin American Studies (UCF)

Admission Program Objective Code: LAAS State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050107 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Legal Assisting

Admission Program Objective Code: LEGA State CIP Code: 1192401010
Offered at UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 220302 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Liberal Arts & Sciences

Admission Program Objective Code: LIAS State CIP Code: 1192401010
Offered at FAU, FIU, UNF
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Linguistics

Admission Program Objective Code: LING State CIP Code: 1192401010
Offered at FAU, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 160102 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Management Info Systems - Business/Data Processing/Business Information Mgt

Admission Program Objective Code: MGIN State CIP Code: 1192401010
Offered at FAU, FGCU, FSU*, SSCF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521201 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Management Science

Admission Program Objective Code: MGNT State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Honors College (NCF)

Admission Program Objective Code: HONA State CIP Code: 1192401010
Offered at NCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240199, track 1/2 *See note in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Honors College (FAU)

Admission Program Objective Code: HONB State CIP Code: 1192401010
Offered at FAU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240199, track 2/2 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Marine/Aquatic Biology

Admission Program Objective Code: MARI State CIP Code: 1192401010
Offered at FIU, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 261302 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Marketing, Other - Advertising

Admission Program Objective Code: MARO State CIP Code: 1192401010
Offered at USF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521499 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Materials Engineering

Admission Program Objective Code: MATE State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141801 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Mathematics Teacher Education - Secondary Mathematics Education

Admission Program Objective Code: MATR State CIP Code: 1192401010

Offered at BC, CC, DSC, FSWSC, FAMU, FAU, IRSC, UCF, UNF, USF, SPC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131311, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Mathematics Teacher Education - Jr. High/Middle School Mathematics Ed (NWF)

Admission Program Objective Code: MATN State CIP Code: 1192401010
Offered at BC, CC, FSWSC, IRSC, NWFSC, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131311, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Mathematics General - Mathematics General

Admission Program Objective Code: MATH State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270101, track 1/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Mathematics, General - Mathematics Teacher Education

Admission Program Objective Code: MFIU State CIP Code: 1192401010
Offered at FIUIndividual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270101, track 4/4Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Mechanical Engineering

Admission Program Objective Code: MECH State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, FPU, FSU, UCF, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141901 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Medical Technology/Clinical Laboratory Sciences

Admission Program Objective Code: MEDC State CIP Code: 1192401010
Offered at USF, SFC, FGCU, UCF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 511005 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Meteorology - Meteorology

Admission Program Objective Code: METE State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400401, track 1/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Microbiology/Bacteriology

Admission Program Objective Code: MCBA State CIP Code: 1192401010
Offered at UCF, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260503 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Middle Eastern Studies

Admission Program Objective Code: MIDE State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050108 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Multi-/Interdisciplinary Studies

Admission Program Objective Code: MULT State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300000 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Advertising

Admission Program Objective Code: ADVE State CIP Code: 1192401010
Offered at UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090903 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Chemical Sciences - FSU Teach

Admission Program Objective Code: CMST State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400599, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Community Health

Admission Program Objective Code: COMH State CIP Code: 1192401010
Offered at FGCU, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512208 * See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer & Information Science- Information Systems

Admission Program Objective Code: CIS State CIP Code: 1192401010
Offered at FAMU. FIU, UF, UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 3/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer & Information Science - Information Technology

Admission Program Objective Code: CIIT State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 5/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Computer Networking (BAS)

Admission Program Objective Code: CNET State CIP Code: 1192401010
Offered at FSCJ Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm

program requirements. Transfer Program CIP code: 110901 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Cardiopulmonary Science

Admission Program Objective Code: CARD State CIP Code: 1192401010
Offered at FSWSC, VC*, FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510908 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Dietetics/Nutritional Services

Admission Program Objective Code: DIET State CIP Code: 1192401010
Offered at FIU*, FSU, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513101, track 1/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Dietetics/Nutritional Services - Dietetics

Admission Program Objective Code: DIEN State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Agriculture Science

Admission Program Objective Code: AGRS State CIP Code: 1192401010
Offered at UFAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 010000 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Economics - Business

Admission Program Objective Code: ECOB State CIP Code: 1192401010
Offered at FAMU, FAU, UF, UNF, USF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450601, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Environmental Science

Admission Program Objective Code: ENVS State CIP Code: 1192401010
Offered at FSU (BA only), UF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030104, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Geoscience - FSU Teach

Admission Program Objective Code: GEOS State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141401, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Information Management

Admission Program Objective Code: HEIM State CIP Code: 1192401010
Offered at FAMU, UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510706 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Science - Pre-Clinical/Pre-Physical Therapy

Admission Program Objective Code: HSPC State CIP Code: 1192401010
Offered at FAMU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 3/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Science - Pre-Occupational Therapy

Admission Program Objective Code: HSPO State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 4/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Health Science

Admission Program Objective Code: HESC State CIP Code: 1192401010
Offered at FGCU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 5/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Interior Design (BAS)

Admission Program Objective Code: INDE State CIP Code: 1192401010
Offered at SSCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500408, track 3/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Journalism

Admission Program Objective Code: JOUR State CIP Code: 1192401010
Offered at UCF*, FAMU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Mathematics, General - FSU - Teach

Admission Program Objective Code: MFSU State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270101, track 3/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Motion Picture & Television Technology

Admission Program Objective Code: MOTP State CIP Code: 1192401010
Offered at FSU*, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500602, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Biology, General - FSU - Teach

Admission Program Objective Code: BIOF State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Nuclear Engineering

Admission Program Objective Code: NUCL State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 142301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Nursing

Admission Program Objective Code: NRSN State CIP Code: 1192401010
Offered at FAMU*, FAU*, FGCU*, FIU*, FSU*, UCF*, UF*, UNF*, USF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513801, 1/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Nursing - AS to BS (NWF)

Admission Program Objective Code: NUR1 State CIP Code: 1192401010
Offered at BC, CC, CCF, DSC*, FAMU*, FAU*, FSCJ, FSWSC, GCSC, NWFSC, PESC, PHSC, PSC, SCFMS, SFC, SFSC, IRSC, PBSC, SPC, SJRSC, FGCU*, FIU*, FSU*, FGC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513801, track 2/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Paralegal Studies (BAS)

Admission Program Objective Code: PLAA State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 220302, 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Parks & Recreation Management - Instruction

Admission Program Objective Code: PKRE State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 1/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Parks & Recreation Management - Recreation, Tourism & Events

Admission Program Objective Code: PRKR State CIP Code: 1192401010
Offered at 310301, track 2/6 Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131311 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Parks & Recreation Management - Recreation and Tourism

Admission Program Objective Code: PRKT State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 3/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Parks & Recreation Management - Hospitality, Recreation & Resort Management

Admission Program Objective Code: PRKH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 5/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Parks & Recreation Management

Admission Program Objective Code: PRKF State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 6/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Pharmaceutical Science

Admission Program Objective Code: PHAR State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512099 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Pharmacy (Pharm D)

Admission Program Objective Code: PHAD State CIP Code: 1192401010
Offered at FAMU*, UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512001 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Philosophy

Admission Program Objective Code: PHIL State CIP Code: 1192401010
Offered at FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 380101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Philosophy and Religion

Admission Program Objective Code: PHRL State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 389999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Photonics Science and Engineering

Admission Program Objective Code: PHEN State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141003 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Physical Education Teacher Education

Admission Program Objective Code: PHED State CIP Code: 1192401010
Offered at FIU, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131314 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Physical Science

Admission Program Objective Code: PHSC State CIP Code: 1192401010

Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400899, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Physical Science - FSU Teach

Admission Program Objective Code: PHYT State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400899, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Physics

Admission Program Objective Code: PHYS State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400801, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Physics Teacher Education

Admission Program Objective Code: PHTE State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400801, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Political Science & Government

Admission Program Objective Code: POTL State CIP Code: 1192401010
Offered at FAU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Age 3 through Grade 3

Admission Program Objective Code: ECHA State CIP Code: 1192401010
Offered at CCF, FAMU, FGCU, FSCJ, FSU*, SJRSC, UCF, UNF, UWF, SPC, USF, USFSM, FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131210, track 1/3 * See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Birth through Age 4 (NWF)

Admission Program Objective Code: ECHB State CIP Code: 1192401010
Offered at NWFSC, SCFMS, SFC, FGC (CIP 131210, track 2/3 is Early Childhood Teacher Ed - Birth through 4 at NWFSC)
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131210, track 2/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Professional Communication

Admission Program Objective Code: PRCO State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090900 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Project Management (BAS - NWF)

Admission Program Objective Code: PROJ State CIP Code: 1192401010
Offered at NWFSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520202 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Psychobiology

Admission Program Objective Code: PSYB State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 422706 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Psychology, General

Admission Program Objective Code: PSCH State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU*, UCF, UF*, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 420101
* See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Public Policy and Administration

Admission Program Objective Code: PUBP State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, IRSC, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Public Relations & Organizational Communication

Admission Program Objective Code: PUBC State CIP Code: 1192401010
Offered at FAMU*, UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090902 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Public Safety Mgt (BAS) or Public Admin (BAS) or Public Safety/Homeland Security

Admission Program Objective Code: PBHL State CIP Code: 1192401010
Offered at FAU, FSCJ, FSWSC, MDC, SCFMS, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 439999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Public Safety and Security

Admission Program Objective Code: PUBC State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430107 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Radio & TV Broadcasting

Admission Program Objective Code: RADO State CIP Code: 1192401010
Offered at UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090701 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Radiologic and Imaging Science

Admission Program Objective Code: RDTC State CIP Code: 1192401010
Offered at VC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510907 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Real Estate

Admission Program Objective Code: REAL State CIP Code: 1192401010
Offered at FAU, FIU, FSU*, UCF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521501 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Religious Studies

Admission Program Objective Code: RELG State CIP Code: 1192401010
Offered at FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 380201 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Resort & Hospitality Management

Admission Program Objective Code: RSHO State CIP Code: 1192401010
Offered at FGCU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520906 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Restaurant and Food Service Management

Admission Program Objective Code: REST State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520905 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Rhetorical Speech & Communication

Admission Program Objective Code: RHET State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 231304 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Russian & East European Studies

Admission Program Objective Code: RUSS State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050105 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Biology Teacher Education (FAMU, FAU, UCF, UNF, USF)

Admission Program Objective Code: STEB State CIP Code: 1192401010
Offered at FAMU, FAU, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 1/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Earth/Space Teacher Education

Admission Program Objective Code: STEE State CIP Code: 1192401010
Offered at DSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 3/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Physics Teacher Education

Admission Program Objective Code: STEP State CIP Code: 1192401010
Offered at FAMU, FAU, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 4/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Middle Grades Science Teacher Education (NWF)

Admission Program Objective Code: MSCI State CIP Code: 1192401010
Offered at BC, CC, FSWSC, IRSC, NWFSC, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 5/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Biology Teacher Ed (BC, CC, DSC, FSWSC, SPC, MDC)

Admission Program Objective Code: SCIB State CIP Code: 1192401010
Offered at BC, CC, DSC, FSWSC, IRSC, SPC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131322 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Chemistry Teacher Education (DSC, MDC)

Admission Program Objective Code: SCIC State CIP Code: 1192401010
Offered at DSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131323 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Secondary Teacher Ed - English

Admission Program Objective Code: SETE State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131205, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Secondary Teacher Ed - Social Science

Admission Program Objective Code: SESS State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131205, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Social Psychology

Admission Program Objective Code: SOPS State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 422707 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Social Sciences Teacher Ed (History, Social Science, Economics, and Political Science)

Admission Program Objective Code: SSTE State CIP Code: 1192401010
Offered at FAMU, FAU, FSU, UCF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131317 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Social Sciences, General

Admission Program Objective Code: SOSI State CIP Code: 1192401010
Offered at FAU, FSU, UCF, USF, USFSM, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Social Work, General

Admission Program Objective Code: SOWR State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU*, UCF*, USF*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440701 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Sociology - Anthropology

Admission Program Objective Code: SOAN State CIP Code: 1192401010
Offered at FUI Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451101, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Sociology

Admission Program Objective Code: SOCI State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FSU, UCF, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Spanish

Admission Program Objective Code: SPAN State CIP Code: 1192401010
Offered at FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 160905 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Special Education, General

Admission Program Objective Code: SPED State CIP Code: 1192401010
Offered at BC, CC, DSC, FAU, FGCU, FIU, FSU, UCF, UF*, UNF, USF, USFSM, USFSP, UWF, SPC, IRSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Speech Communication and Rhetoric

Admission Program Objective Code: SPCO State CIP Code: 1192401010
Offered at FAU, FIU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Speech Pathology & Audiology (USFSM)

Admission Program Objective Code: SPCU State CIP Code: 1192401010
Offered at USFSM Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510201 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Speech Pathology & Audiology (FSU, UCF, UF, USF)

Admission Program Objective Code: SPCP State CIP Code: 1192401010
Offered at FSU*, UCF, UF*, USF, USFSM Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510204, track 1/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Speech Pathology & Audiology - Deaf Studies Concentration

Admission Program Objective Code: SPCH State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510204, track 3/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Sport Management

Admission Program Objective Code: SPME State CIP Code: 1192401010
Offered at FSU, UF, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310504 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Statistics

Admission Program Objective Code: STAT State CIP Code: 1192401010
Offered at FIU, FSU, UCF, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Studio/Fine Art

Admission Program Objective Code: SDAR State CIP Code: 1192401010
Offered at FAMU, FGCU,, FIU, FSU*, UCF, UF*, UNF*, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500702, track 1/2
* See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Studio/Fine Art - Graphic Design

Admission Program Objective Code: SDGD State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500702, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Management and Supervision (BAS - NWF)

Admission Program Objective Code: SVMG State CIP Code: 1192401010
Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC (Also see Supervision and Management) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Supply Chain Management (BAS)

Admission Program Objective Code: SUPP State CIP Code: 1192401010
Offered at BC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520203, track 1/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Science Teacher Education - Chemistry Teacher Education (FAMU, FAU, UCF, UNF, USF)

Admission Program Objective Code: STEC State CIP Code: 1192401010
Offered at FAMU, FAU, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, 2/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Surveying

Admission Program Objective Code: SURV State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 151102 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Sustainability Management - BAS

Admission Program Objective Code: SUST State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Sustainability and Built Environment

Admission Program Objective Code: SSBL State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 303301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Teacher Education, Multiple Levels

Admission Program Objective Code: TCHE State CIP Code: 1192401010
Offered at USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131206 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Technology Management (BAS)

Admission Program Objective Code: TCMG State CIP Code: 1192401010
Offered at BC, FSCJ, GCSC, PBSC, SCFMS, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 111099 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Tourism and Travel Services Management

Admission Program Objective Code: TOUR State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520907 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Trade & Industrial Teacher Ed (Vocational)

Admission Program Objective Code: TRAD State CIP Code: 1192401010

Offered at FAMU, FIU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131320 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Transportation Management

Admission Program Objective Code: TRAN State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520209 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Urban & Regional Planning

Admission Program Objective Code: URBA State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 040301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Urban Design

Admission Program Objective Code: URDS State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 040401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Veterinary Technology (BAS)

Admission Program Objective Code: VET State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510808 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Vocational Rehabilitation Counseling

Admission Program Objective Code: VOCR State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512310 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Women's Studies

Admission Program Objective Code: WOMN State CIP Code: 1192401010
Offered at FIU, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050207 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Zoology

Admission Program Objective Code: ZOO State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Environmental Studies

Admission Program Objective Code: ENVT State CIP Code: 1192401010
Offered at FGCU, FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030103 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Supervision & Management (BAS), Organizational Mgt (BAS), Business & Org Mgt (BAS), Administration & Supervision (BAS), Spvr & Org Mgt (BAS) Mgt & Org Leadership (BAS)

Admission Program Objective Code: SVMG State CIP Code: 1192401010
Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC (CIP 520299 is Management and Supervision at NWFSC) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Early Childhood Teacher Ed - Birth through Age 4 (NWF)

Admission Program Objective Code: ECHB State CIP Code: 1192401010
Offered at NWFSC, SCFMS, SFC, FGC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131210, track 2/3 Common Course Prerequisite Manual (Also see AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Birth through Age 4 (NWF))

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Associate in Science Degrees (AS), Certificates and Applied Technology Diploma Programs

Associate in Science Degree (AS)

The Associate in Science degree provides students with college credit curricula designed to prepare them for employment in various semi-professional, technical, and supervisory fields. The A.S. degree programs include a minimum of 60 college credit hours, of which at least 18 are general education courses. The A.S. degree is not generally intended for transfer: however, many students eventually pursue upper division study after completing the A.S. degree. In recognition of this practice, the general education courses required for the A.S. degree meet all applicable Gordon Rule standards and minimum grade requirements; all are transferable as general education credits to upper division institutions in the Florida State University System. Many of the technical courses in the A.S. degree are also transferable, but students should work closely with an advisor in selecting technical courses if transfer is an eventual goal.

Companion Certificate Programs

Many of the technical certificate programs offered by NWF State College provide the initial step in meeting selected course requirements for an A.S. degree in a related area. Courses from those certificates are the same as or equivalent to comparable courses in the companion degree program. Likewise, courses used in the degree program may be applied to a certificate in a related area; in many cases, completion of the technical courses in the degree program can automatically qualify the student to receive the companion certificate. Applied Technology Diploma (A.T.D.) students should work closely with an advisor to plan their studies in order to take advantage of both curricular options.

Graduation Requirements for A.S. Degree

A.S. degree students must satisfy the following requirements:
Complete the A.S. general education courses as appropriate to the program of study, including Speaking-Across-the-Curriculum , Technology-Across-the-Curriculum , minimum Gordon Rule course and minimum grade requirements.
Complete at least fifteen credits of the technical core courses and technical elective courses specified in the degree program at NWF State College, unless there is an established articulation agreement.
Complete at least 25% of the credits at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.
Complete AS Degree General Education Requirements (all Gordon Rule courses require a minimum grade of "C").

Customizing an A.S. to Meet a Specific Career Goal

In order to provide a student with the strongest technical background feasible, some technical courses within a given degree program may be adjusted to meet the student's targeted career goal. In these special cases, course substitutions may be approved upon request of the appropriate department chair to the Dean of Career and Technical Education.

College Credit Certificates and Applied Technology Diplomas (CCC and ATD)

College credit certificates and the ATD range from eleven (11) to forty-two (42) credits in length, although most are comprised of thirty (30) credits, and require approximately one academic year to complete. Courses in these certificates include professional and technical skills, with an emphasis on practical application.
Each of the NWF State College credit certificates is paired with a companion A.S. degree program. Upon successful completion of the college credit certificate, the student may receive credit toward approximately 45% to 50% of the course requirements in the

companion degree program. Conversely, students who successfully complete the technical credits within a companion degree program may qualify for graduation from the appropriate certificate program. In this manner, students may receive two graduation credentials from the college. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Career and Technical or Vocational Certificates (PSAV)

Career and technical or vocational certificates are comprised clock hour courses and are designed to prepare students for direct entry into employment. The certificates are generally less than one year in length and are designed to prepare students for employment in selected occupational skill areas. The curriculum is heavily oriented toward problem solving and skill application. In certain circumstances, the skills acquired through completion of a career and technical or vocational certificate may be articulated into comparable college credit work and applied to college credit certificate, or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Graduation Requirements for Certificate and ATD Programs

To successfully complete a college credit or a career and technical or vocational certificate, the student must meet the following requirements.
Complete the courses and other requirements as specified in the program of study. (With advance approval, college credit courses may be substituted for equivalent vocational courses in any career and technical or vocational certificate.)
Complete at least 25% of the certificate coursework in residence at Northwest Florida State College.
Maintain a cumulative GPA of not less than 2.00 in all coursework pursued for the certificate.
Satisfy all other college graduation requirements.
In addition, students wishing to complete a career and technical or vocational certificate must demonstrate minimum skill levels in reading, communications, and mathematics, as measured by the TABE. The levels vary for each program of study.

Certificate to AS Degree Career Paths

Many of the technical certificate programs offered by NWFSC provide the initial step in meeting selected course requirements for an A.S. degree in a related area. Courses from those certificates are the same as or equivalent to comparable courses in the companion degree program. Likewise, courses used in the degree program may be applied to a certificate in a related area; in many cases, completion of the technical courses in the degree program can automatically qualify the student to receive the companion certificate. Listed below are the NWFSC Associate in Science degrees and their companion certificates.

CJE 1735 - Unmanned Vehicle Legal Requirements and Case Law

This course examines the legal requirements and limits of drone operation by law enforcement. The course will also introduce the student to case studies, guidelines, laws, and protocols for law enforcement operations in contrast to use by private citizens. Additionally, this case will examine and define expectations of privacy, based on case law as set forth by the United States Supreme Court. Case studies and Supreme Court decisions from the last century based on the fourth amendment and due process of law, will be studied for class projects. Each student will be required to submit a research paper on a specific related topic as assigned by the instructor.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJE 2736 - Law Enforcement Applications of Unmanned Vehicles for 21st Century

This course will introduce students to current law enforcement uses and abilities of unmanned vehicle systems, along with new and developing applications for exclusive use in law enforcement actions. Students will understand and explain the definitions of privacy expectations as related to law enforcement actions governed by the fourth amendment. Students will be required to participate in a course project, in which students will develop, justify and define futuristic uses on drone technologies in the law enforcement field. In this team project, a presentation is required to defend the positions and uses of drone technologies as related in the project results.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

Accounting Technology

Accounting Technology (AS)

Admission Program of Study Code ACCT State CIP Code 1552030201
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Accounting Technology Management (CCC) (State CIP Code 0552030205).

Accounting Technology Management (CCC)

Admission Program of Study Code ACCM State CIP Code 0552030205
Students who successfully complete this certificate may be eligible to receive credits towards the Accounting Technology (AS) degree (State CIP Code 1552030201).

ACG 2021 - Financial Accounting

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
MAC 1105 - College Algebra , equivalent, or higher

Architectural Design and Construction Technology

Architectural Design & Construction Technology - Architectural Design Option (AS)

Admission Program Objective Code ARDO State CIP Code 1604090100
The purpose of this program is to prepare students for employment as architectural drafters in the residential design and light commercial structures field.

Architectural Design & Construction Technology - Construction Technology Option (AS)

Admission Program Objective Code ARCO State CIP Code 1604090100
The purpose of this program is to prepare students for employment in the building construction field in the residential design and light commercial structures.

Business Administration

Business Administration (AS)

Admission Program of Study Code BADM State CIP Code 1552020102
Students who successfully complete selected courses from this program of study may be eligible to receive the Business Management (CCC) (State CIP Code 0552070101) and/or Business Specialist (Marketing) (CCC) (State CIP Code 0552020103)

college credit certificates.

Business Management (CCC)

Admission Program of Study Code BUSG State CIP Code 0552070101
Students who successfully complete this certificate may be eligible to receive credits toward the Business Administration (AS) degree (CIP Code 1552020102).

Business Specialist (Marketing) (CCC)

Admission Program of Study Code BUSS State CIP Code 0552020103 Students who successfully complete this certificate may be eligible to receive credits toward the Business Administration (AS) degree (CIP Code 1552020102).

Business Development and Entrepreneurship (CCC)

Admission Program of Study Code BMDE State CIP Code 0552070306
Students who successfully complete this certificate may be eligible to receive credits towards the Business Administration (AS) degree (State CIP Code 1552020102).

Computer Engineering Technology

Computer Engineering Technology (AS)

Admission Program of Study Code CENG State CIP Code 1615120100
Students who successfully complete selected courses from this program of study may be eligible to receive the Microcomputer Repairer/Installer (CCC) (State CIP Code 0647010406) college credit certificate.

Microcomputer Repairer/Installer (CCC)

Admission Program of Study Code MCCR State CIP Code 0647010406
Students who successfully complete this certificate may be eligible to receive credits towards the Computer Engineering Technology (AS) degree (State CIP Code 161520100).

Computer Information Technology

Computer Information Technology (AS)

Admission Program Objective Code CINF State CIP Code 1511010307

*This program has been closed to new students effective the Spring 2018 term.

Computer Programming and Analysis

Computer Programmer (CCC)

Admission Program of Study Code CMPG State CIP Code 0511020200
Students who successfully complete this certificate may be eligible to receive credits towards the Computer Programming and Analysis (AS) degree (State CIP Code 1511020101).

Computer Programming and Analysis (AS)

Admission Program Objective Code CPRO State CIP Code 1511020101
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Computer Programmer (CCC) (State CIP Code 0511020200) and/or Computer Programming Specialist (CCC) (State CIP Code 0511020103).

Computer Programming Specialist (CCC)

Admission Program of Study Code CMPS State CIP Code 0511020103
Students who successfully complete this certificate may be eligible to receive credits towards the Computer Programming and Analysis (AS) degree (State CIP Code 1511020101).

Criminal Justice Technology

Auxiliary Law Enforcement Officer Basic (PSAV)

Admission Program of Study Code LEAY State CIP Code 0743010701
Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Correctional Officer (Basic) (PSAV)

Admission Program of Study Code CORR State CIP Code 0743010200
Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Criminal Justice Technology (AS)

Admission Program of Study Code CJTC State CIP Code 1743010302

Law Enforcement Officer (Basic) (PSAV)

Admission Program of Study Code LEOB State CIP Code 0743010700
Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Customer Relationship Management

Customer Relationship Management (AS)

Admission Program Objective Code CUST State CIP Code 1252020700
Students who successfully complete selected courses from this program of study may be eligible to receive the applied technology diploma in Customer Service Technology (ATD) (State CIP Code 0252020701).

Cyber Security

Database and E-Commerce Security (CCC)

Admission Program Objective Code DECS State CIP Code 0511100311
Students who successfully complete this certificate may be eligible to receive credits towards the Cyber Security (AS) degree (State CIP Code 1511100307).

Cyber Security (AS)

Admission Program Objective Code CYBE State CIP Code 1511100307
Students who successfully complete selected courses from this program of study may be eligible to receive the Database and E-Commerce Security (CCC) certificate (State CIP Code 0511100311).

Dental Assisting

Dental Assisting (PSAV)

Admission Program of Study Code DENT State CIP Code 0351060112
Basic Skills Requirements: The student must be exempt or attain a 10th grade level on each section of the TABE exam: Math, Language and Reading.
This program is a Limited Admission program subject to additional program policies and requirements stipulated in the "Dental Assisting Student Handbook." The admission criteria and process, as well as some course numbers and credits are subject to change; students should contact the Dental Assisting program office for the most current information.
The Dental Assisting program is accredited by the Commission on Dental Accreditation and has been granted accreditation status of approval without reporting requirements. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611-2678. The Commission's web address is: http://www.ada.org/100.aspx.
Students who successfully complete this program and pass the Dental Assisting National Board (DANB) Certificate (CDA) may apply 21 credits towards the Technical Elective requirements for the Health Services Management (AS) degree (State CIP Code 135070100).

Digital Media/Multimedia Technology

Digital Media/Multimedia Authoring (CCC)

Admission Program of Study Code DMMA State CIP Code 0609070209
Students who successfully complete this diploma may be eligible to receive credits towards the Digital Media/Multimedia Technology (AS) degree (State CIP Code 1611080102).

Digital Media/Multimedia Presentation (CCC)

Admission Program of Study Code DMMP State CIP Code 0609070219
Students who successfully complete this diploma may be eligible to receive credits towards the Digital Media/Multimedia Technology (AS) degree (State CIP Code 1611080102).

Digital Media/Multimedia Technology (AS)

Admission Program Objective Code DMMT State CIP Code 1611080103
The Digital Media/Multimedia programs are intended for students interested in working in commercial art fields that include electronic publishing, digital video production, and website development.
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificates in Digital Media/Multimedia Authoring (CCC) (State CIP Code 0609070209) and/or Digital Media/Multimedia Presentation (CCC) (State CIP Code 0609070209).
Students are encouraged, but not required, to contact Digital Media faculty at 729-6019 for detailed advising to plan a program of study before enrolling in courses.

Drafting Design Technology

AutoCAD Foundations (CCC)

Admission Program of Study Code ACAD State CIP Code 0615130204
Students who successfully complete this certificate may be eligible to receive credits towards the Drafting and Design Technology - Mechanical Design/CAD Option (AS) degree (State CIP Code 1615130102) and the Drafting and Design Technology - Technical Illustration Option (AS) (State CIP Code 1615130102).

Drafting and Design Technology - Mechanical Design/CAD Option (AS)

Admission Program Objective Code DTMC State CIP Code 1615130102
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificates in AutoCAD Foundations (CCC) (State CIP Code 0615130204) and/or Drafting Design Certificate (CCC) (State CIP 0615130101).

Drafting Design Certificate (CCC)

Admission Program of Study Code DRDS State CIP Code 0615130101
Students who successfully complete this certificate may be eligible to receive credits towards the Drafting and Design Technology - Mechanical Design/CAD Option (AS) degree (State CIP Code 1615130102).

Drafting and Design Technology - Technical Illustration Option (AS)

Admission Program Objective Code DTTI State CIP Code 1615130102
The purpose of this program is to prepare students for employment as technical illustrators. Technical illustrators are typically responsible for 2D and 3D illustrations for use in technical documents and service manuals. Technical illustrators work in conjunction with engineers and technical writers to gather information that would be conveyed into technical drawings. Drawing software can include AutoCAD, Inventor, Solidworks, Isodrraw, PhotoShop, Illustrator or other software.
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit

certificates in AutoCAD Foundations (CCC) (State CIP Code 0615130204).

Early Childhood Education

Child Care Center Management Specialization (CCC)

Admission Program of Study Code CCCM State CIP Code 0419070906
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Child Development Early Intervention (CCC)

Admission Program of Study Code CDEI State CIP Code 0419070904
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Early Childhood Education (AS)

Admission Program Objective Code ECED State CIP Code 1413121004
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Child Development Early Intervention (CCC) (State CIP Code 0419070904), Child Care Center Management Specialization (CCC) (State CIP Code 0419070906), Infant/Toddler Specialization (CCC) (State CIP Code 0419070907), and/or Preschool Specialization (CCC) (State CIP Code 0419070908).

Infant/Toddler Specialization (CCC)

Admission Program of Study Code CITS State CIP Code 0419070907
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Preschool Specialization (CCC)

Admission Program of Study Code CCPS State CIP Code 0419070908
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Emergency Administration and Management

Emergency Administration & Management (AS)

Admission Program Objective Code EAMT State CIP Code 1743030200
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificates in Emergency Administrator & Manager (CCC) (State CIP Code 0743030201) and/or Homeland Security Emergency Manager (CCC) (State CIP Code 0743030202).

Emergency Administrator & Manager (CCC)

Admission Program of Study Code EMAM State CIP Code 0743030201
Students who successfully complete this certificate may be eligible to receive credits towards the Emergency Administration & Management (AS) (State CIP Code 1743030200).

Firefighter I/II (PSAV)

Admission Program of Study Code FIRN State CIP Code 0743020303
Entry into the Firefighting Certificate Program requires meeting the standards established by the Florida Division of State Fire Marshal, Bureau of Fire Standards and Training. A copy of these requirements is available through the Public Safety Division of NWF State College.
Students who successfully complete this certificate may be eligible to receive credits towards the Emergency Administration & Management (AS) degree (State CIP Code 1743030200).

Homeland Security Emergency Manager (CCC)

Admission Program of Study Code HSEM State CIP Code 0743030202
Students who successfully complete this certificate may be eligible to receive credits towards the Emergency Administration & Management (AS) degree (State CIP Code 1743030200).

Firefighter/Emergency Medical Technician-Combined (PSAV)

Admission Program of Study Code FIEM State CIP Code 0743020312
Basic Skills Requirements: The student must be exempt or attain a 10th grade level on each section of the TABE exam: Math, Language and Reading.
Entry into the Firefighter/Emergency Medical Technician-Combined Program requires meeting the standards established by the Florida Division of State Fire Marshal, Bureau of Fire Standards and Training. A copy of these requirements is available through the Public Safety Division of NWF State College.
Firefighters are trained to extinguish and control fires in response to situations where property, life, or the environment is in danger. At the scene of an emergency, firefighters perform tasks assigned by their commanding officer. Depending on the situation, they may need to provide medical attention, break through debris, operate fire hoses, or enter a burning building. Firefighters are often first responders to car accidents, heart attack scenes, and other medical emergencies that do not involve fire.
Graduates of this program will be eligible to apply for the examinations to become both a Florida Certified Emergency Medical Technician/National Registry Emergency Medical Technician Basic and Florida Fire Standards. This will allow graduates to obtain employment as a firefighter EMT after 2 semesters of training.
The Firefighter/EMT Certificate program is two semester program that consists of Firefighter standards and EMT training. Applicants to this program must have a high school diploma or GED and meet other applicable admission criteria. If the number of qualified applicants to the program exceeds the number of openings, students will be accepted using a combination of application points . Contact the Emergency Services Office at (850) 729-4924 for additional information.
Students who successfully complete this certificate may be eligible to receive credits towards the Emergency Administration & Management (AS) degree (State CIP Code 1743030200).

Fire Officer Supervisor (CCC)

Admission Program of Study Code FSUP
State CIP Code 0743020111
Earning this certificate increases management skills for professionals employed as Fire Fighters. The purpose of this certificate is to prepare students for employment as Firefighting and Prevention Supervisors to supervise Fire Fighters who control and extinguish fires, protect life and property, and conduct rescue efforts. The program is beneficial to professionals seeking career

field enhancement. This program does not prepare students for certification as Fire Fighters. A student must successfully complete the basic recruit program in firefighting to become certified, pursuant to Chapter 633, Florida Statutes. This program does not complete the requirements to be eligible to sit for Bureau of Fire Standards and Training (BFST) certification exams. A student must contact the Bureau of Fire Standards and Training (BFST) for additional requirements.

Fire Science Technology (AS)

Admission Program of Study Code FSCI
State CIP Code 1743020112

The Fire Science Technology Associate in Science degree program offers students a sequence of courses designed to provide relevant technical knowledge needed to prepare students for entry or advancement in the fire service or in a related fire protection field. A technical certificate, Fire Officer Supervisor (6455) (T.C.), is included as an option within this degree program. Students may pursue the A.S. degree and earn the technical certificate while completing the requirements for the degree, or pursue the certificate to develop or upgrade their skills. Contact an advisor or counselor to determine the career education path that is best for you.
Career Opportunities In addition to community fire departments, there are opportunities in government installations such as airports, as well as private fire-fighting companies. There is also a need for inspectors, investigators, forest rangers and smoke jumpers. In all cases, employment is based on high test scores and outstanding skills.

Emergency Medical Services

Emergency Medical Services (AS)

Admission Program Objective Code EMSR State CIP Code 1351090402
This curriculum forms the last stage of a career ladder program progression from Emergency Medical Technician (CCC) (State CIP Code 0351090415) to Paramedic (CCC) (State CIP Code 0351090405) to Emergency Medical Services (AS) degree.
Students interested in pursuing this program must have a current and active Florida Bureau of Emergency Medical Services EMT/Paramedic licensure. Contact the Emergency Services/Paramedic program at (850) 729-4924 for more information.

Emergency Medical Technician (CCC)

Admission Program of Study Code EMTN State CIP Code 0351090415
Admission will be through a Limited Access application process. Graduates of this program will be eligible to apply for the examination to become a Florida certified Emergency Medical Technician and a National Registry Emergency Medical Technician Basic. Students interested in pursuing this program should contact the Emergency Medical Services Office at (850) 729-4924. Students who successfully complete this certificate may be eligible to receive credits towards the Emergency Medical Services (AS) degree (State CIP Code 1351090402).

Paramedic (CCC)

Admission Program Objective Code EMPM State CIP Code 0351090405
Admission will be through a Limited Access application process. Graduates will be eligible to sit for the Paramedic certification exam. The curriculum forms the core of the Emergency Medical Services (AS) degree (State CIP Code 1351090402). Students may "add on" general education credits and some college credit electives to the Paramedic certificate and earn the A.S. degree. Students interested in pursuing this program should contact the Emergency Medical Services Office at (850) 729-4924.

DSC 1250 - Unmanned Vehicles Fundamentals for Disaster Management

This course examines the protocol and interagency support concepts for the utilization of unmanned vehicles in preparation and

response of catastrophic events. Students will be introduced to the development of an emergency response plan which will include unmanned vehicle concepts such as observation, communications, safety, training, and also integration between Public safety agencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

EMS 2350 - Unmanned Vehicles Applications and Operations for EMS

This course examines the response of Emergency Medical Services to unsecure scenes with the aid of unmanned vehicles. Students will explore EMS protocols for the utilization of unmanned vehicles in catastrophic events with mass casualties requiring triage and multiple agency responses. Participants will be introduced to the concepts of the utilization of unmanned vehicles for support during large scale public events such as; conventions, festivals, athletic events, protest, and special team support.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

FFP 1691 - Fundamentals of Firefighting & Unmanned Vehicles

Course introduces the fundamentals of unmanned vehicle applications for firefighting with prioritization of manpower and equipment utilization. Fire officers explore the use of unmanned vehicles for fire ground commanders for tactical operations for all levels of fire. Emphasis for fire investigators on utilization of unmanned vehicles in the investigation process. Course introduces determination of fire cause and origin with collection of evidence by unmanned vehicles during fire scene investigation. Participants will explore the use unmanned vehicles for planning, responding, and evaluating HAZMAT incidents.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

FFP 2692 - Unmanned Vehicles Applications and Search & Rescue

This course examines the utilization of unmanned vehicles by public safety in various search and rescue operations. Students will be introduced to the utilization of unmanned vehicles during searches for suspects eluding capture. Course will examine the response protocol and interagency support utilizing unmanned vehicles in urban, water, and various terrain search and rescue operations. Students will be introduced to the operations of unmanned vehicles for silver and amber alerts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

Engineering Technology

CNC Machinist/Fabricator (CCC)

Admission Program of Study Code CNMM State CIP Code 0648051002
Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS) degree (State CIP Code 1615000001).

Computer-Aided Design and Drafting (CCC)

Admission Program of Study Code CADD State CIP Code 0615130304
Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Digital Design & Modeling Specialization Option (AS) degree (State CIP Code 1615000001).

Digital Manufacturing Specialist (CCC)

Admission Program of Study Code DMFS State CIP Code 0615000009
Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS) degree (State CIP Code 1615000001).

Engineering Technology Support Specialist (CCC)

Admission Program of Study Code ETSS State CIP Code 0615000007
Students who successfully complete this certificate may be eligible to receive credits towards one of the Engineering Technology (AS) degree (State CIP Code 1615000001) specializations: Engineering Technology - Advanced Technology Specialization (AT) Option (AS) , Engineering Technology - Digital Design & Modeling Specialization Option (AS), Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS) or Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS) .

Engineering Technology - Advanced Technology Specialization (AT) Option (AS)

Admission Program Objective Code ETAT State CIP Code 1615000001
The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the four specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, and Digital Manufacturing with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hour core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification.
Students who successfully complete selected courses from this program of study may be eligible to receive the Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007) certificate.

Engineering Technology - Digital Design & Modeling Specialization Option (AS)

Admission Program Objective Code ETDD State CIP Code 1615000001
The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the four specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, and Digital Manufacturing with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hour core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification.
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Computer-Aided Design and Drafting (CCC) (State CIP Code 0615000004), Rapid Prototyping Specialist (CCC) (State CIP Code 0615000012) and/or Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007).

Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS)

Admission Program Objective Code ETDM State CIP Code 1615000001

The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the four specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, and Digital Manufacturing with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hour core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification.
Students who successfully complete selected courses from this program of study may be eligible to receive the Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007), Digital Manufacturing Specialist (CCC) (State CIP Code 0615000009), and Rapid Prototyping Specialist (CCC) (State CIP code 0615000012) certificates.

Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS)

Admission Program Objective Code ETMD State CIP Code 1615000001
The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the four specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, and Digital Manufacturing with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hour core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification.
Students who successfully complete selected courses from this program of study may be eligible to receive the CNC Machinist/Fabricator (CCC) (State CIP Code 0615080502), the Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007).

Rapid Prototyping Specialist (CCC)

Admission Program of Study Code RAPP State CIP Code 0615000012
Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS) or the Engineering Technology - Digital Design & Modeling Specialization Option (AS) Option (Both State CIP Code 1615000001).

Engineering Technology - Electronics Specialization Option (AS)

Admission Program Objective Code ETES State CIP Code 1615000001
The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the five specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, Digital Manufacturing and Electronics with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hours core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC

skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification. Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007).

Graphics Technology

Graphic Design Production (CCC)

Admission Program of Study Code GRDP State CIP Code 0611080303
Students who successfully complete this certificate may be eligible to receive credits towards the Graphics Technology - Graphic Design Option (AS) Degree (State CIP Code 1611080300).

Graphic Design Support (CCC)

Admission Program of Study Code GRDS State CIP Code 0611080302
Students who successfully complete this certificate may be eligible to receive credits towards the Graphics Technology - Graphic Design Option (AS) Degree (State CIP Code 1611080300).

Graphics Technology - Graphic Design Option (AS)

Admission Program Objective Code GRTH State CIP Code 1611080300 The Graphics Technology (Graphic Design Technology) A.S. degree is intended for students interested in careers in Graphic Design and Commercial Art where creativity and visual communication are core competencies. Students are encouraged, but not required, to contact Graphic Arts faculty at 729-6019 for detailed advising to plan a program of study before enrolling in courses.
Students who successfully complete selected courses from this program of study may be eligible to receive the Graphic Design Production (CCC) (State CIP Code 0650040204), and/or Graphic Design Support (CCC) (State CIP Code 0650040202).

Graphics Technology - Visual Artist Option (AS)

Admission Program Objective Code GRTV State CIP Code 1611080300 The Graphics Technology (Graphic Design Technology) A.S. degree is intended for students interested in careers in Graphic Design and Commercial Art where creativity and visual communication are core competencies. Students are encouraged but not required to contact Graphic Arts faculty for detailed advising before enrolling in courses to plan a program of study at 729-6019.

Health Services Management

Health Services Management (AS)

Admission Program Objective Code HTMG State CIP Code 1351070101

Hospitality and Tourism

Hospitality and Tourism (AS)

Hospitality and Tourism
Admission Program of Study Code HSTR
State CIP Code 1252090101
The Hospitality and Tourism program prepares students for employment in management positions in the hospitality industry and/or provides supplemental training for persons previously or currently employed in these occupations. The hospitality industry as addressed in this program includes the hotel, motel, bed and breakfast, resort, club, marina, and other lodging organizations.

Industrial Management Technology

Industrial Management Technology (AS)

Admission Program Objective Code INDU State CIP Code 1652020501

Internet Services Technology

Internet Services Technology (AS)

Admission Program Objective Code ISTC State CIP Code 1511080102
Students who successfully complete selected courses from this program of study may be eligible to receive the Web Development Specialist (CCC) (State CIP Code 1511080102) certificate.
*This program has been closed to new students effective the Spring 2018 term.

Web Development Specialist (CCC)

Admission Program of Study Code WBDV State CIP Code 0511080103
Students who successfully complete this certificate may be eligible to receive credits towards the Internet Services Technology (AS) degree (State CIP code 1511080102).
*This program has been closed to new students effective the Spring 2018 term.

Medical Coder/Biller

Medical Coder/Biller (CCC)

Admission Program of Study Code MEDB State CIP Code 0351070714

Music Production Technology

Audio Technology (Recording Arts) (CCC)

Admission Program of Study Code ATRA State CIP Code 0650060209
Students who successfully complete this program may apply these credits to the Music Production Technology (AS) degree (State CIP Code 1650091300).

Music Production Technology (AS)

Admission Program Objective Code MUSC State CIP Code 1650091300
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Audio Technology (Recording Arts) (CCC) (State CIP Code 0650060209).

Network Systems Technology

Digital Forensics (CCC)

Admission Program of Study Code DGFO State CIP Code 0511100119
Students who successfully complete this certificate may be eligible to receive credits towards the Network Systems Technology (AS) degree (State CIP Code 1511100112).

Network Security (CCC)

Admission Program of Study Code NESC State CIP Code 0511100118
Students who successfully complete this certificate may be eligible to receive credits towards the Network Systems Technology (AS) degree (State CIP Code 1511100112).

Network Server Administration (CCC)

Admission Program of Study Code NNSA State CIP Code 0511100112
Students who successfully complete this certificate may be eligible to receive credits towards the Network Systems Technology (AS) degree (State CIP Code 1511100112).

Network Systems Technology (AS)

Admission Program Objective Code NSTC State CIP Code 1511100112
Students may apply selected credits from this program to the requirements of the following college credit certificates: Digital Forensics (CCC) (State CIP Code 0511100119), Network Security (CCC) (State CIP Code 0511100118), Network Server Administration (CCC) (State CIP Code 0511100112), and/or LINUX System Administrator (CCC) (State CIP Code 0511100122).

LINUX System Administrator (CCC)

Admission Program of Study Code LINU State CIP Code 0511100122
Students who successfully complete this certificate may be eligible to receive credits towards the Network Systems Technology (AS) degree (State CIP Code 1511100112).

Nursing

Nursing (AS)

Admission Program Objective Code NURS State CIP Code 1351380100
This program is a Limited Admission program subject to additional program policies and licensure requirements stipulated in the

"Nursing Program Student Handbook." Policies are strictly enforced and students should work with the Nursing Program staff rather than self-advise. The admission criteria and process are subject to change; students should contact the Associate Degree Nursing Program office for the most current information.

Office Administration

Office Management (CCC)

Admission Program of Study Code OFMG State CIP Code 0552020401
Students who successfully complete this certificate may be eligible to receive credits towards the Office Administration (AS) degree (State CIP Code 1552020401).

Medical Office Management (CCC)

Admission Program of Study Code MEOM State CIP Code 0551071605
Students who successfully complete this certificate may be eligible to receive credits towards the Office Administration (AS) (State CIP Code 1552020401).
*This program has been closed to new students effective the Spring 2018 term.

Office Specialist (CCC)

Admission Program of Study Code OFSP State CIP Code 0552040704
Students who successfully complete this certificate may be eligible to receive credits towards the Office Administration (AS) degree (State CIP Code 1552020401).

Office Administration (AS)

Admission Program Objective Code OFFA State CIP Code 1552020401
Students who successfully complete selected technical courses in this program may also be eligible to receive the college credit certificates in Office Specialist (CCC) (State CIP Code 0552040704), Medical Office Management (CCC) (State CIP Code 0551071605), Office Management (CCC) (State CIP Code 05520200401).

Paralegal Studies

Paralegal Studies (AS)

Admission Program Objective Code PARA State CIP Code 1722030200

Radiography

Radiography (AS)

Admission Program Objective Code RADT State CIP Code 1351090700
This program is a Limited Access program subject to additional policies and licensure requirements. Students attend classes at the Niceville Campus, and are assigned to clinical rotations at various healthcare facilities in the district. Graduates are eligible to sit for the ARRT certification exam. For additional information contact the Health Technology Department at (850) 729-6444.

Please note: In order to be a part of the Radiography program applicant pool, students must declare Radiography as their intended major on the online admissions application.

Sports, Fitness and Recreation Management

Sports, Fitness and Recreation Management (AS)

Admission Program Objective Code SPFR State CIP Code 1731050701

Theatre and Entertainment Technology

Stage Technology (Theater & Entertainment) (CCC)

Admission Program of Study Code STGT State CIP Code 0650050201
Students who successfully complete this certificate may be eligible to receive credits towards one of the following Theatre and Entertainment A.S. degree options:
Theater and Entertainment Technology - Acting Specialization Option (AS) (State CIP Code 1650050202)
Theater and Entertainment Technology - Costuming Specialization Option (AS) (State CIP Code 0650050201)
Theater and Entertainment Technology - Technical Theater Specialization Option (AS) (State CIP Code 0650050201)

Theater and Entertainment Technology - Acting Specialization Option (AS)

Admission Program Objective Code THTA State CIP Code 1650050202
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Stage Technology (Theater & Entertainment) (CCC) (State CIP Code 0650050201).

Theater and Entertainment Technology - Costuming Specialization Option (AS)

Admission Program Objective Code THTC State CIP Code 1650050202
Students who successfully complete selected courses from this program of study may be eligible to receive the Stage Technology (Theater & Entertainment) (CCC) certificate (State CIP Code 0650050201).

Theater and Entertainment Technology - Dance Specialization Option (AS)

Admission Program Objective Code THTD State CIP Code 1650050202

Theater and Entertainment Technology - Music Theater Specialization Option (AS)

Admission Program Objective Code THTM State CIP Code 1650050202

Theater and Entertainment Technology - Technical Theater Specialization Option (AS)

Admission Program Objective Code THTT State CIP Code 1650050202
Students who successfully complete selected courses from this program of study may be eligible to receive the Stage Technology (Theater & Entertainment) (CCC) certificate (State CIP Code 0650050201).

Welding

Welding Technology (PSAV)

Admission Program of Study Code WELT State CIP Code 0648050805
This program offers a broad foundation of knowledge and skills to prepare students for employment in the welding industry.
Basic Skills Requirements: The student must be exempt or attain a 9th grade level on each section of the TABE exam: Math, Language and Reading.

Welding Technology - Advanced (PSAV)

Admission Program of Study Code WELA State CIP Code 0648050806
This program offers a broad foundation of knowledge and skills to prepare students for employment in the welding industry.

Achievement Award

A student who has successfully completed a given set of skill courses within a particular degree or certificate program may be recognized for his/her mastery of these competencies with a NWFSC Achievement Award. Although the award does not indicate completion of an official, approved program of study, it does verify the student's proficiency with a specified group of skills. Achievement awards are not noted on the student's transcript or permanent record; however, the student will receive an NWFSC Achievement Certificate from the Office of Career and Technical Education that may be presented to an employer or agency as a record of this educational milestone. Students are encouraged to keep a copy of these awards as the college cannot guarantee that these can be duplicated.

Course Divisions

Upper Division College Credit Courses

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4333 - Contract Formation and Administration

Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4931 - Acquisition Law Seminar

This course addresses contract law as applicable to formation and administration of contracts with private and governmental agencies, with emphasis on the federal government. The following topics are also included: concepts of responsiveness and responsibility, bidding procedures, mistakes, negotiation procedures, changes, claims and dispute resolution. Students will explore the typical contracting problems that can lead to litigation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

EDE 4223 - Integrating Art, Music, and Physical Education

This integrative course provides students with critical understanding of art, music, and physical education. Emphasis is placed on the effective integrative lesson planning and modeling techniques to art, music, and physical education in elementary schools. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

EDE 4226C - Integrated Language Arts, Social Science and Literature

This course is designed to prepare candidates to teach language arts and social science in elementary classrooms. Teacher candidates will develop units of study that integrate literature, language arts, with social science content. Emphasis is on constructivist principles and methodology. Teacher candidates will plan and deliver standards-based language arts and social science lessons designed to meet the needs of diverse learners including English language learners (ELLs) and students with exceptionalities. This course requires 18 hours of field experience in a K-6 classroom setting. Current background check (fingerprinting) acceptable to the district in which the field experience will take place is required for this course. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

EDE 4930C - Seminar in Elementary Education

This course is designed to prepare the pre-service teacher to transition into the workplace. Includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

EDF 3214 - Human Development and Learning

This course is designed to cover the principles of learning and student development with applications to learning/teaching situations. Identification and analysis of students' academic, physical, cognitive, emotional, motivational, and social development is to be emphasized. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

EDF 3430 - Measurement, Evaluation, and Assessment in Education

This course studies the basic principles and methods of measurement, evaluation, and methods of test construction. Students will interpret standardized test scores, construct teacher-made tests and other classroom assessments, and evaluate portfolio and performance assessment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

EDF 3910A - Projects in Teacher Education

Directed study and individual projects designed to meet the needs of Teacher Education students completing an artifact required in the B.S.E. program. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
upper division standing

EDF 3910P - Projects in Teacher Education – Field Placement

Directed study and individual projects designed to meet the needs of Teacher Education students completing field experience in the B.S.E. program. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
upper division standing

EDG 3343 - Instructional Strategies

This course provides an overview of instructional models and strategies. Emphasis is placed on principles of state standards, instructional methods, and lesson planning and instruction. Students will develop knowledge of instructional models and lesson plan construction for effective implementation including the diverse student populations. This course requires a grade of "C" or

better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C

EDG 3410 - Classroom Management, School Safety, Law, and Ethics

Practicing teachers are provided strategies for managing a safe, stimulating learning environment for all learners. This course emphasizes school safety, law, and ethics as they apply to schools, districts, and the learning environment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. This course is restricted to practicing teachers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Online Only Prerequisite(s):
upper division standing.

EDG 3410C - Classroom Management, School Safety, Law, and Ethics

Pre-service teachers are provided strategies for managing a safe, stimulating learning environment for all learners. This course emphasizes school safety, law, and ethics as they apply to schools, districts, and the learning environment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

EDG 4940 - Internship

Supervised teaching in a public or private school. Student teaching assignments will be made by the department of teacher education field placement coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing with permission of department chair.

EEC 3213 - Teaching the Language Arts In Early Childhood Education

The focus of this course will be on the development of language and literacy in children ages birth through age four. Emphasis will be placed on understanding the process of emergent literacy including vocabulary and language, phonological awareness, print knowledge and comprehension; and on designing a developmentally appropriate language arts program in relation to the early learning and developmental standards. This course will require observing and participating in an early childhood classroom.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

EEC 3227 - Art, Music, and Movement

The focus of this course will be on developing an understanding of the creative developmental process in the life of children from birth through four years old. Emphasis will be placed on the teacher's role in developing opportunities and materials for young children to express themselves creatively through music, drama, dance and two- and three-dimensional art and on providing varied opportunities for young children to gain an appreciation of art, music, drama, and dance in ways that reflect cultural diversity in relation to the early learning and developmental standards. This course will require observing and participating in an early childhood classroom.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 3320 - Principles and Methods for Teaching Early Childhood Social Studies

This course is designed to prepare students to teach social studies In the early childhood classroom. Emphasis is on implementing the project approach to investigate components of social studies to include: individual development and identity; people, places, and environments, technology and our world; and civic ideals and practices. The student will increase and apply knowledge and skills in the Florida Early Learning and Developmental Standards relevant to this content area.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 3511 - Curriculum for Infants and Toddlers

The focus of this course will be on the design, implementation and evaluation of programming and curriculum that promotes growth and development of young children birth to three years old and aligns with the early learning and developmental standards. Study of typical and atypical development will be included. Emphasis will be on working effectively with families of infants and toddlers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 3524 - Professionalism/Program Development

Focus of this course will be on management and leadership in early childhood education programs. Topics will include mentoring adults, professional development, staff assessment, program evaluation, and child advocacy. Career options in the field of early childhood education will be explored. This course will require observing and participating in a program or agency related to early childhood education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

EEC 4404 - Families and Diversity

This course will focus on building positive relationships with families through communication and involvement. Focus will include developing an awareness of diversity and multicultural considerations in working with families of young children. The course will explore the role of the family and the influence of the community on the development of young children in a diverse society; and will prepare the student to work effectively with families and communities.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEC 4421 - Teaching Math and Science in Early Childhood Education

The focus of this course will be on developing an understanding of how concepts, skills and attitudes in early childhood mathematics and science are developed in young children ages birth through age four. Math topics will include number sense and operations, patterns, geometry, and measurement. Science topics will include scientific inquiry, physical science, life science and earth science. Emphasis will be on the alignment of the Early Learning and Developmental Standards with a developmentally appropriate approach to teaching math and science in the early childhood classroom. This course will require observing and participating in an early childhood classroom.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

EEC 4613 - Systematic Observation and Assessment

The focus of this course will be on understanding the purpose of child assessment, implementing developmentally appropriate practices in formal and informal child assessment, and using assessment results to support learning, to identify special needs, to evaluate programs, and to respond to program accountability requirements. A field experience is required to practice various methods of assessment in an early childhood setting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEX 3070 - Methods of Inclusion and Collaboration

This course examines the basic identification techniques and strategies used to promote academic and social integration and interaction of "mainstreamed" exceptional students. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EEX 3604 - Classroom Management in Early Childhood Education

The focus of this course is on implementing effective classroom management practices including establishing an appropriate physical environment, setting up appropriate classroom routines and rules and creating a positive classroom community. Emphasis will be on strategies for guiding children's behavior, teaching social problem-solving skills and responding appropriately to challenging behaviors.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EEX 4201 - Young Children with Special Needs

The focus of this course will be on working with young children birth through age four in an inclusive early childhood classroom. Emphasis will be on identifying typical and atypical development, creating an inclusive early childhood learning environment, understanding special education law, developing an awareness of resources for inclusive practice to meet the needs of young children and their families.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

EME 3410C - Integrating Technology in the Classroom

In this course students will learn how to design a technology-rich classroom while contemplating the changing role of the teacher as a mentor/guide and student as a self-directed learner. Students will explore models of technology integration, classroom management, and administrative tasks that can be performed more efficiently using technology and learn strategies to select software and deal with legal and ethical issues when planning for technology integration. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3343 and EDG 3410C

ENV 4610 - Sustainable Logistics

This course introduces students to current and future trends in logistics technology, policy and sustainability. Topics include, source sustainability, environmental impacts of existing and emerging technologies, and local environmental conditions and the global climate.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

ETI 4205 - Applied Logistics

Introduction to logistics. Emphasis on practical applications. Includes systems engineering, cost/ systems effectiveness, reliability, maintainability, system functional analysis, logistic support analysis, life cycle cost analysis.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

EVR 3949 - Extended Internship, Environmental Science

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Minimum Grade of "B" in any college-level science course and permission of instructor.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3930 - Business Project and Acquisitions Terms and Concepts

Students will apply specialized terminology of project and acquisitions management in various communication venues including short written documents and summary analyses. Emphasis will be placed upon the latest terms, abbreviations and jargon applicable to the field. Students will research selected terms and concepts in various contemporary periodicals and publications.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3933 - Business Research

This seminar-style course, offered in group or individual format, provides an introduction to various references, databases, periodicals, journals and other publications essential to the research of contemporary business issues; also included are methods of accessing resources via the Internet, designing search strategies, citing Internet resources and evaluating research materials.

Credit Hour(s): 1 Credit Hour When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4454 - Business in a High Technology Environment

Presents the special challenges and opportunities of managing a high technology firm or a traditional entity operating in the high technology environment; addresses software/information security, recruiting technical personnel, outsourcing, equipment security, updating equipment, telecommuting and similar issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and GEB 3031 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4930 - Special Topics: Project Management

An individual or group course designed to provide students with the opportunity to pursue a special topic(s) in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4933 - Special Topics: Management

An individual or group course designed to provide students with the opportunity to pursue a special topic(s) in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4934 - Special Topics: Business Administration

An individual or group course designed to provide students with the opportunity to pursue a special topic(s) from the area of business administration in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4941 - Internship: Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and permission of the instructor are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3110 - Health Care Organization and Management

This course focuses on the structure and management of health care organizations, and the fundamental issues facing the U.S. health care system. Key topics include health status, the organization of health services, manpower, public health, financing, facilities, utilization, quality, regulation, and national health policy.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3111 - Introduction to Health Care Management

This course studies the administration, organization and delivery of health care in the United States. Topics to be examined include health care leadership, management, strategy, performance improvement, information technology, insurance, financial and human resources management, as well as ethical and legal concepts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3113 - Contemporary Issues in Health Care

This course is designed to introduce students to a range of issues related to health and health care in the United States. Course content will give students the opportunity to explore differing perspectives as they develop a deeper understanding of the issues and enhance their research and communication skills. The course will enable students to analyze and evaluate evidence regarding controversial issues. Students will develop and practice skills in formulating and writing well-informed, well-articulated arguments and reflections.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4191 - Health Information Systems

This course focuses on the theories, concepts and principles of health information systems and development of critical thinking skills for use in practice/working in health care informatics. Current trends and issues in using, designing, and managing heath care

information systems will be examined. Students, applying evidence-based knowledge, will analyze the design and implementation of health care information systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4922 - Capstone: Health Care Management

This course integrates the information, skills, and abilities provided throughout the Health Administration Program in a capstone project. Students complete a project that demonstrates excellence by applying the knowledge gained from the core courses and materials studied throughout the program. Successful completion of the course requires demonstration of the achievement of program objectives and learning outcomes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
senior standing and completion of or concurrent enrollment in remaining program core and emphasis courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

HUS 4950 - Capstone: Human Resources Management

This capstone will build upon and integrate the primary human resource management skills introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge in the field of human resources.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Senior standing and completion of or concurrent enrollment in remaining program core and emphasis courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

ISC 4145 - Environmental Systems

Environmental Systems will expose students to a broad overview of the structure and processes occurring on Earth. Students will gain a broad understanding of the interactions between the atmosphere, biosphere, lithosphere, and hydrosphere. Course topics will be related to current environmental issues and our local ecosystems. This course is focused on Earth System Science content with development of methods specific to teaching middle school science as a secondary objective.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
(1) any two-course laboratory sequence in the natural sciences (i.e., Principles of Biology I & II, Principles of Geology I & II, College Chemistry I & II, Physics I & II, College Physics I & II, Anatomy & Physiology I & II); (2) any GLY course; (3) and either CHM1020 (Chemical Science) or PHY1020 (Physical Science).

ISM 3220 - Network Technologies for Information Professionals

This course is designed to give the student an understanding of the various networking technologies and their practical application in the management of a business. The course also covers the technical issues involved in designing and implementing an efficient network for voice, data, and information networks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 3232 - Software Essentials

This course covers a broad range of software topics as they apply to software management and systems analysis and design. Topics include, but are not limited to programming, the systems development life cycle (SDLC), systems management, interface design and Internet technology.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 3323 - Applications in Information Security

This course helps develop the important security concepts relative to software application development and access control that provide the knowledge and skills necessary for the successful management of information security in an organization. Students will understand the environment where software is designed and developed as well as the critical role software plays in providing security to an organization's information systems. The course focuses on software development concepts that relate to security, and how access control methodologies fit into the entire enterprise architecture.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 4011 - Information Systems Management

This course provides a study of the language, concepts, structures, and processes involved in management of information systems, including the fundamentals of computer-based technology and the use of business-based software for support of managerial decisions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 4480 - Electronic Commerce Systems and Strategies

This course is designed to familiarize the student with the management approach to defining and implementing e-commerce (EC) systems. The course addresses the digital economy, EC strategy and marketing, EC models (Business to Business, Business to Consumer, etc.) as well as EC architectures. The course will cover management and regulatory issues in EC such as internationalization, electronic payment methods, Internet fraud, mobile e-commerce, and current implementation technologies. Architectures and inter-dependence (i.e. integration) of systems will be covered.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 4930 - Special Topics - Technology Management

This is an individual or group course designed to provide students with the opportunity to pursue a special topic(s) in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Upper division standing and permission of instructor.

Note:
This course may be taken up to two times for credit.

ISM 4931 - Internship - Technology Management

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and permission of instructor.

LAE 4343C - Writing Across the Curriculum

This course prepares pre-service teachers by developing an understanding of the foundations of writing through the use of writers workshops and instructional strategies necessary to provide adequate instruction to emergent, novice, and transitional writers. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAD 3107 - Applied Discrete Mathematics

This course builds on the foundation established in Introduction to Discrete Mathematics with further exploration in logic, mathematical reasoning, and mathematical proof writing. Topics include logic, set theory, boolean algebra, combinatorics, and graph theory with applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Completion of MAC 2312 with a grade of “C” or better or concurrent enrollment in MAC 2312 .

MAE 3350C - Principles and Methods for Teaching Mathematics K-8

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching mathematics in grades K-8. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4312C - How Children Learn Math

This course is designed to develop the skills and concepts necessary to deliver the mathematics curriculum effectively in the classroom. The content strongly reflects the curriculum emphases of the National Council of Teacher of Mathematics, and topics are presented using a process-oriented approach. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4930C - Seminar in Math Education

This course is designed to prepare the pre-service teacher to transition into the workplace, and includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns in mathematics, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4940C - Teaching Methods in Middle Grades Math Field Experience

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching mathematics in a middle school classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

MAE 4945 - Internship - Middle Grades Math

Supervised teaching of Middle Grades Math in an assigned school. Student teaching assignments will be made by the Department of Teacher Education Field Placement Coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Upper division standing with permission of department chair.
EDF 3214 , EDF 3430 , EDG 3410C , EDG 3343 , EEX 3070 , EME 3410C , MAC 2312 , MAD 3107 , MAE 3350C , MAE 4312C , MAE 4940C , MHF 4404 , MTG 2206 , RED 3324C , RED 3335C , STA 2023 , and TSL 3081C

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3120 - Leadership and Group Dynamics

An applied leadership course with a focus on case studies, projects and group interaction; includes theoretical background on group dynamics, small group behavior and motivation, power, types of groups, verbal and non-verbal communication skills and team-building. Emphasis will be placed on sociological and psychological dimensions of inter-group relations, including analysis and problem-solving through simulations, cases and similar activities which reflect a general business perspective, as well as leadership and group dynamics across a variety of business units/functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing is required. Concurrent or prior enrollment in GEB 3031 and MAN 3052 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization diversity and change management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3294 - Strategy and Innovation

This course explores the concepts and tools used by businesses to create and sustain competitive advantage under dynamic market conditions. Topics will include strategy formulation, understanding core capabilities, examining external competitive forces and evaluating goals. Emphasis will also be placed on understanding the process of innovation and challenges faced by innovative organizations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3310 - Issues in Human Resource Management

Introduces the full range of human resource management functional areas, including recruiting and hiring staff, performance evaluations, employment regulations, discipline and termination, downsizing, compensation and benefits, job analysis, the organized labor setting, equity/diversity issues, and policy design. Approach will focus on current issues and applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3320 - Employee Staffing and Benefits

An intermediate level course in employment staffing issues focusing on staffing patterns, organizational structures, job analysis and design, staffing efficiencies, employee assistance programs, staff projection models, and employee services.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and MAN 3310 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3350 - Training and Development

Covers various staff training and development models, effective workshop techniques, designing and implementing company-wide training and development programs. Assessment of training needs, training and development as a benefit and setting development goals; students will design and conduct at least one workshop/training session for fellow students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing and GEB 3213 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3505 - Production Operations and Logistics Management

This course examines the integration of production operations and logistics management and how this enables an organization to compete successfully in business. Special emphasis is placed on the relationships that exist between operations and the supply chain to include operations and supply chain strategies, business processes, project management, product design and development, and inventory management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3574 - Acquisition Management

Students will be exposed to the fundamentals of government acquisitions. This course provides conceptual material on government acquisitions, to include program planning, execution, and control. Students will be introduced to the elements of program risk and learn risk management techniques. The systems engineering process will be emphasized to include work breakdown structures, cost -- benefit analysis, and scheduling.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are

strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Upper division standing and MAN 3052 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3610 - Global Logistics Management

Examines selected industrial relations systems of Western Europe, Asia and the Americas, with special emphasis on differences among systems and the reasons such differences exist. The industrial relations significance of the multinational enterprise and management problems associated with operations in diverse systems are analyzed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
MAN 3593 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3786 - Sustainable Enterprise Planning

This course introduces students to assessment tools, design and construction considerations, and operating planning requirements for sustainable enterprises. Students will learn about the ecological and economic benefits of sustainability/green practices. Additionally, they will learn how product, process, and service decisions affect sustainable enterprise concepts. Today's enterprises focus on social and environmental challenges, marketing, supply chain decisions, recycling, reusing, reconditioning, and other product and service decisions in order to realize a competitive advantage. This course will focus on best practices, case studies, evolving trends, and experimental efforts regarding sustainable/green systems.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3903 - Operations Research

Operations Research is a science of modeling and optimization. It allows to model real-world problems by using mathematics, statistics and computers. It provides us the tools and theories to solve real-world problems by finding the optimal solutions to models subject to constraints of time, labor, resource, materials and business rules. With Operations Research, people make intelligent decisions to develop and manage their processes and businesses.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing is required. STA 2023 , MAC 1140 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4162 - Customer Relations for Managers

This course focuses on relationship building for all customers of an organization. The impact of culture and diversity on business relationships, successful negotiation strategies, and promotion of the organization through media relations are discussed. Emphasis is placed on the manager's role in improving customer relationships by creating a customer-focused, organizational climate.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4401 - Labor Relations

This course explores the impact of employee organizations on labor relations, current problems, conflicts and trends and includes the development of managerial approaches to achieve labor management cooperation.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4520 - Quality Management

This course examines the significance of quality as a primary competitive strategy for tomorrow's successful business organizations. The impact of quality focus on increasing customer satisfaction is changing the manner in which business organizations functions. Students will recognize that quality focused business organizations are evolving into very different environments in which to work and manage. This quality imperative is relevant for both industrial and service sector organizations. Students will be exposed to the critical issues of total quality management through reading, case studies, class discussion, field trips and outside speakers. The students are expected to gain insight and understanding regarding the meaning of quality, how organizations develop a quality focus, and the continuous nature of quality management. This course is appropriate for students who have an interest in: (1) managing the total quality program in a business organization, and/or (2) working for a business organization which already made a strong commitment to total quality management.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4555 - Quality Certification: ISO 9000

A comprehensive study of internationally uniform quality standards (ISO 9000 and the steps to individual and organizational certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions and other certification topics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4570 - Purchasing and Materials Management

The management of purchasing and the materials for production processes. Cost/price analysis, computer systems, forecasting, materials requirements, negotiations, and contracting are included.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4594 - Reverse Logistics

In this course forward-moving logistics is compared to reverse-moving logistics. Both goods and information are discussed. Topics include federal and state regulations, waste management, recycled materials, technology, financial controls, stakeholders, and performance measurement.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4595 - Logistics Technology

This course provides an overview of the use of technology (bar codes, gps, and radio frequency identification tags) in logistics to control recalls, returns, recycling, and waste management. Management functions, data synchronization, and interrelationships between different technologies to capture data regarding products moving in a logistics system are also discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4720 - Strategic Planning and Management

This course addresses the integration of organizational functions to achieve competitive advantage and organizational harmony through strategy formulation, implementation and evaluation. Activities include case studies and a strategic planning simulation. Topics include change theory, decision-making, planning models, and strategic planning processes as applied in a variety of business settings, units, and functions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4930 - Capstone: Acquisition Management

In this seminar, students will have the opportunity to participate in hands-on projects applying the techniques in Acquisition Management. Emphasis will be on government acquisition management. Students will create a work-breakdown structure, a project schedule, and perform a cost-benefit analysis of alternatives. Earned value management will be introduced as a method of program control. Students will also identify potential risk areas and suggest mitigation plans.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
upper division standing and MAN 3574 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
senior standing and completion of MAN 3583 are required. Concurrent enrollment in remaining program core and emphasis courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4932 - Contract Negotiations Seminar

This seminar will refine the negotiation skills of the student through the use of readings, class discussions, case analyses, and practical exercises. Students will be introduced to goals, objectives, and strategies, as well as using appropriate tactics and methods to achieve them. The course will also help students understand the role of communication, power, and personality in the negotiation process and facilitate them assessing their personal abilities and traits as they relate to negotiation. While the course will focus on negotiation of defense-related contracts, the principles covered will apply to the entire range of interpersonal relationships.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4933 - Best-Value Source Selection Seminar

Focus is on the best-value source selection process. Students will walk through the acquisition cycle. Topics will include acquisition strategy, pre-solicitation activity, preparation for evaluation, initial proposal evaluation, discussions or negotiations, final proposal revision and recommendations and decisions.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and MAN 3574 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4934 - Logistics Management Seminar

A special topics course conducted in group or individual format; focus is on the terms, concepts and processes associated with logistics and distribution in the contemporary business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing and MAN 3583 or MAN 3574 . Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4940 - Capstone: Supervision

This capstone course will build upon and integrate the primary management skills and concepts introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge. This course will also cover basic entrepreneurial principles, which will be integrated throughout the student-led projects.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Senior standing and completion of or concurrent enrollment in remaining core and emphasis business courses. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

MHF 4404 - History of Mathematics

This course is for students pursuing an education degree with an emphasis in middle school and secondary mathematics. This course covers the evolution of mathematics from early number systems through modern mathematics. If used to meet NWFSC Teacher Education program requirements, this course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Completion of MAC 2311 with a grade of "C" or better or concurrent enrollment in MAC 2311 .

MSL 3201 - Adaptive Team Leadership

Examines skills that underlie effective problem solving, analyze military missions and plan military operations, execute squad battle drills.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 3202 - Leadership in Changing Environments

Probes leader responsibilities that foster an ethical command climate, develop cadet leadership competencies, and apply principles and techniques of effective written and oral communication.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 3203 - The Joint Environment

Provides an introduction to the joint military environment. The course provides an overview of the development of national and regional policy through the national Security Council and national security system.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 4301 - Developing Adaptive Leaders

Discuss staff organization, functions, and processes, analyze counseling responsibilities and methods, and apply leadership and problem solving principles to a complex case study/simulation.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 4302 - Leadership in a Complex World

Capstone course to explore topics relevant to second lieutenants entering the army, describe legal aspects of decision making and leadership, analyze army organization from tactical to strategic level.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA’s pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran’s healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

NSP 4625C - Transcultural Nursing Immersion Course

This course unfolds in two phases: a comprehensive Orientation and Education Phase (I) and a Population Service Phase (II). The two stages are designed to be synergistic in nature. Phase I helps students to develop a deeper appreciation for an underserved region of the world. Phase I will set the stage for the immersion and learning that will take place during Phase II when students will provide basic healthcare and health education to an instructor chosen underserved population in the world. Air and ground travel are required. Current/valid Florida Registered Nursing License, good health, and a clear Background Check/Drug Screen are required. An International Passport may be required. Expenses associated with the course are the responsibility of the student.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Student must be a Registered Nurse and have a clear background check/drug screen.

NSP 4869 - The Professional Nurse Manager and Leader

This course outlines the roles and functions of nurses in executive practice using the competencies identified by the American Organization of Nurse Executives (AONE). Successful nurse leaders and managers exercise complex leadership responsibilities that directly affect the quality of patient and family care in today's multifaceted healthcare management systems. This course will address competencies in communication, knowledge of the healthcare environment, business skills and principles, and professionalism. The course content also provides a review of the material covered in the Certified Nurse Manager and Leader examination conducted by the American Organization of Nurse Executives Credentialing Center that is available to BSN prepared

Registered Nurses.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Student must be a Registered Nurse to take this course.

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the fieldwork experience, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer) Prerequisite(s):
Admission to the BSN program and meets all enrollment conditions.

NUR 3071 - Writing for Success in Nursing

This course Is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):
Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer) Prerequisite(s):
Admission to the BSN program and meets all enrollment conditions.

NUR 3678 - Nursing Care of Vulnerable Populations

Caring for the vulnerable members of society is a function nurses perform without regard for their own ambitions, personal safety, and financial security. This course is designed to pull together material from different cultures and at risk groups of individuals considered vulnerable populations. Key concepts will be discussed that will provide a basic structure for caring for the vulnerable, the relevance of nursing theories to vulnerable populations, nursing research showing the kinds of phenomena nurses study, and many ideas about learning to work with and advocate for vulnerable individuals.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

NUR 3767 - Nursing Care of Complex Clients

This course assists the RN to BSN student in the assimilation of pathophysiology, assessment, and pharmacological nursing concepts with variety complex client issues. This course provides expanded concepts related to nursing care for individuals experiencing complex alterations in health problems as they progress through a variety of healthcare delivery systems and environments.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
NUR 3067C , NUR 3080 .

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The

ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Must be an RN or ASN student.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Current RN Licensure.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):
Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course is designed to provide the RN to BSN student with an introduction to the research process and evidence based practice. The purpose of the course is to stimulate interest in nursing research; to enable students to understand and judge the usefulness of scientific findings; and to develop an understanding of how clinical proficiency is combined with experimental proof to produce nursing practices based upon evidence. An on-line teaching method is used with optional workshops available to students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
STA 2023 .

NUR 4615C - Family and Community Health

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided a fieldwork opportunity to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 3067C , NUR 3080 , admission to the BSN program and completion of all General Education requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. Nursing leadership and management fieldwork focuses on the roles and functions of the professional nurse in these roles. Issues

associated with healthcare delivery are explored. Fieldwork provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C .

NUR 4956 - Portfolio II

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring, Summer) Prerequisite(s):
NUR 3955 , NUR 3080 ; Pre or Corequisite: NUR 4827C .

PAD 3003 - Public Service Operations

An introduction to public administration and policy in America. This course is designed to provide undergraduate students a basic understanding and appreciation of the administration of the public sector. It is intended to provide an overview of public administration for students interested in public service and for students, who as good citizens, want an appreciation of the complexities of public management.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
upper division standing.

PAD 3393 - Advanced Emergency Management

This course examines functional demands that emergency managers should be aware of in crafting emergency management policies and programs. Students investigate how public policy choices impact emergency planning and the consequences of a disaster. It is designed to help the student develop an in-depth understanding of overall emergency management principles, practices, and standards in the local, national, and international environments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing.

PAD 3820 - Public Safety System Integration

This course compares and contrasts the various components of the public safety sector. The course examines the working relationship between public safety organizations and the effectiveness of the various service delivery models.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
upper division standing.

PAD 3874 - Community Relations

This course will expose the student to community relations theory and practice within a broad range of public safety organizations. Students will understand why positive community perception of public safety is critical to funding and operational effectiveness. Students will explore the public safety responsibility in establishing business continuity both in preplanning and following a disaster. Each student will gain the insight and skills necessary to be effective in the community relations function of public safety administration.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

PAD 3882 - Issues in Public Service Administration

This course focuses on current issues and trends in the field of public service administration. The course is structured to introduce management and administrative topics in public service, examine the implications to the field, and reformulate recommendations. This course will begin developing skills in project design and presentation. This course will enhance critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

upper division standing.

PAD 4878 - Capstone: Public Service

This course provides an opportunity for the student to complete a professional project and apply information and skills studied in core and concentration program courses under the direction of the professor. Successful completion of the course requires demonstration of achievement of the program's learning outcomes. This course should be completed in the last term before graduation.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
upper division standing.

PAD 4933 - Special Topics in Public Administration

This is an individual or group course designed to provide students with the opportunity to pursue a special topic(s) from the area of public administration in depth; may be repeated as topics change.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Upper division standing and permission of the instructor.

Note:
This course may be taken up to three times for credit.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods used in business and economics, including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
upper division standing is required and Knowledge of basic computer and keyboarding skills are strongly recommended.

RED 3309C - Early and Emergent Literacy K-2

This course is designed to increase the understanding of early literacy development and the conditions which promote total literacy from birth through lower elementary grades. Language theory and current research are used to shape informed practices regarding literacy development. Connections are made among all aspects of literacy learning: reading, writing, listening, speaking and attitude development. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

RED 3324C - Teaching in the Middle Grades Curriculum

This course presents theory and methodology for teaching reading at the middle school level with emphasis on strategies for vocabulary and comprehension, evaluating student progress in reading, and integrating reading and study skills into content area instruction across the middle school curriculum. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

RED 3335C - Teaching Reading in the Content Areas

This course addresses strategies, materials, and skills for teaching reading in content areas. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
RED 3324C and upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

RED 3511 - Intermediate Literacy 3-6: Reading and Thinking

This course combines the theory and practice in the teaching of reading/ literacy in the elementary intermediate grades. Procedures for meeting individual differences, differentiated instruction, selected use of materials, and classroom organizations will be examined. This course requires a minimum grade of "C" or better and is restricted to practicing teachers.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
RED 3309C and upper division standing

Prereq/Corequisites:
EDG 3410C , EDG 3343

RED 3511C - Intermediate Literacy 3-6: Reading and Thinking

This course combines the theory and practice in the teaching of reading/literacy in the elementary intermediate grades. Procedures for meeting individual differences, differentiated instruction, selected use of materials, and classroom organizations will be examined. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
RED 3309C and upperdivision standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

RED 4312 - Integration of Assessment into Classroom Reading

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on integrating assessments into the curriculum to strengthen instructional strategies and student success. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
RED 3309C , RED 3511C and upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

RED 4519C - Diagnostic and Instructional Interventions in Reading

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on diagnosis of reading problems, administration of assessments, evaluation of results and planning instructional interventions to remediate reading difficulties. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
RED 3309C , RED 3511C and upperdivision standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

RED 4854C - Reading Field Experience

This course provides application of knowledge of reading development to reading instruction. Emphasis is placed on increased reading proficiency for struggling students, including students with disabilities and students from diverse populations. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
RED 3309C , RED 3511C , RED 4312 , RED 4519C , upper division standing with permission of department chair

SCE 3350C - Principles and Methods for Teaching Science K-8

This course provides techniques, methods and materials of instruction for teaching science in grades K-8. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

SCE 4930C - Seminar in Science Education

This course is designed to prepare the pre-service teacher to transition into the workplace, and includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns in science, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

SCE 4940C - Teaching Methods in Middle Grades Science Field Experience

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching science in a middle school classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

SCE 4945 - Internship - Middle Grades Science

Supervised teaching of Middle Grades Science in an assigned school. Student teaching assignments will be made by the Department of Teacher Education Field Placement Coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Upper division standing with permission of department chair.
EDF 3214 , EDF 3430 , EDG 3343 , EDG 3410C , EME 3410C , EEX 3070 , ESC 1000 , EVR 3949 , ISC 4145 , MET 1010C , RED 3324C , RED 3335C , SCE 3350C , SCE 4940C , TSL 3081C , and CHM 1020 or PHY 1020

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TRA 3132 - Procurement Management

Purchasing is required by all types of goods-producing & service-providing organizations in such sectors as manufacturing, agriculture, health care, & government. This professional business function tries to buy the right good or service at the right quality, in the right quantity, at the right time, at the right price, from the right source, with delivery at the right place.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

TRA 4203 - Principles of Logistics

Overview of logistics function within a firm and in the context of integrated vertical systems. Topics include customer service, information flow, inventory control, materials management, order processing, packaging, physical distribution.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

TSL 3081 - TESOL Issues and Practices

This course is designed to integrate the theories and principles of the Teaching of English to Speakers of Other Languages and applying them to classroom instruction. ESOL methodology and curriculum will be emphasized as they relate to current best practice in ESOL instruction. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a minimum grade of "C." Neither field experience or a background check/fingerprinting are required for current teachers enrolled in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Upper division standing

Prereq/Corequisites:
EDG 3410C , EDG 3343

TSL 3081C - TESOL Issues and Practice

This course is designed to integrate the theories and principles of the Teaching of English to Speakers of Other Languages and applying them to classroom instruction. ESOL methodology and curriculum will be emphasized as they relate to current best practice in ESOL instruction. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

TSL 4140C - ESOL Methods, Curriculum and Assessment

This course is designed to build on the candidate's knowledge of applied linguistics and cross cultural communication. Candidates

will extend their understanding of the role of language and culture in the classroom. This course will prepare candidates for effective planning, instruction, and assessment of ELLs in the classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
TSL 3081C and upper division standing

Prereq/Corequisites:
EDG 3410C and EDG 3343

Adult Education Courses

ABX 01__ - Adult Basic Education - Mathematics

The Adult Basic Education (ABE) Mathematics course is a non-credit course designed to develop literacy skills necessary to be successful workers, citizens and family members. Career and College Readiness (CCR) standards have been incorporated into this class. A student enrolled in the ABE program should be enrolled in all of the following courses: Mathematics, Language Arts, and Reading. ABE prepares students to enroll in a GED® Preparation course.

ABX 02__ - Adult Basic Education - Reading

The Adult Basic Education (ABE) Reading course is a non-credit course designed to develop literacy skills necessary to be successful workers, citizens and family members. Career and College Readiness (CCR) standards have been incorporated into this class. A student enrolled in the ABE program should be enrolled in all of the following courses: Mathematics, Language Arts, and Reading. ABE prepares students to enroll in a GED® Preparation course.

ABX 03__ - Adult Basic Education - Language Arts

The Adult Basic Education (ABE) Language Arts course is a non-credit course designed to develop literacy skills necessary to be successful workers, citizens and family members. Career and College Readiness (CCR) standards have been incorporated into this class. A student enrolled in the ABE program should be enrolled in all of the following courses: Mathematics, Language Arts, and Reading. ABE prepares students to enroll in a GED® Preparation course.

XEL 01___ - ESOL I

This course provides small group and individualized instruction in both oral and written English communication skills at the beginning level. The course is designed for non-native English speakers.

Note:
* Course number varies with number of instructional contact hours.

XEL 02___ - ESOL II

This course provides small group and individualized instruction in both oral and written English communication skills at the low beginning level. The course is designed for non-native English speakers.

Note:
* Course number varies with number of instructional contact hours.

XEL 03___ - ESOL III

This course provides small group and individualized instruction in both oral and written English communication skills at the high beginning level. The course is designed for non-native English speakers.

Note:
* Course number varies with number of instructional contact hours.

XEL 04___ - ESOL IV

This course provides small group and individualized instruction in both oral and written English communication skills at the low intermediate level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 05___ - ESOL V

This course provides small group and individualized instruction in both oral and written English communication skills at the high intermediate level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XEL 06___ - ESOL VI

This course provides small group and individualized instruction in both oral and written English communication skills at the advanced level. The course is designed for non-native English speakers.

Note:

* Course number varies with number of instructional contact hours.

XGE 14__ - GED 2014 Comprehensive

The GED 2014 Comprehensive Preparation Program provides skills and knowledge building for each of the four content-area assessments of the Official GED 2014 Tests: Reasoning through Language Arts, Mathematics Reasoning, Science, and Social Studies. The purpose of the program is to prepare students to obtain the knowledge and skills necessary to pass the Official GED Tests and be awarded a State of Florida High School Diploma. An additional performance level will certify that the adult student is career and college ready. This program strives to motivate students not only to obtain a GED diploma, but to continue their education to earn a postsecondary degree, certificate, or industry certification.

Note:

*Course number varies with number of instructional contact hours.

Developmental Education Courses

ENC 0017 - Integrated Reading and Writing I

This course is designed to develop reading comprehension and writing language skills for students whose entry level placement scores do not meet requirements for degree credit (not applicable for degree completion). The course includes a thorough review of English grammar and conventions and practice in writing paragraphs and essays while building skills in vocabulary and academic reading comprehension. Students must pass the class with a "C" or better grade.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Appropriate score on PERT or other approved assessment.

Note:

*College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

ENC 0027 - Integrated Reading and Writing II

This course is designed to develop reading comprehension and writing language skills for students whose entry level placement scores do not meet requirements for degree credit (not applicable for degree completion). The course includes a review of English grammar and convention and practice in writing persuasive essays while building skills in vocabulary and academic reading

comprehension. Student must pass the class with a "C" or better grade.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Minimum grade of "C" in ENC 0017 or appropriate PERT or other approved assessment score.

Note:
*College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

ENC 0056 - Developmental Writing Module

This course is designed to develop written language skills for students whose entry placement scores do not meet requirements for degree credit courses (not applicable for degree completion). Conducted in a lab setting, this course is self-paced course, designed to allow students to focus on their individual grammar, usage, and writing needs to prepare for successful entry into college credit English courses (not applicable for degree completion). This course may be taken in place of ENC 0027 if a student has a placement score of 98-102 on the PERT. Students may exit Developmental Writing Module by passing the coursework and by obtaining a passing score on the Departmental Exit Exam.

Credit Hour(s): 2 College Prep Credits When Offered: (Offered as Needed) Prerequisite(s):
Students must score 98-102 on the PERT or on an elective basis score 103 or higher on the PERT.

Note:
* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0018 - Developmental Mathematics I

This course is designed for students whose entry level placement test scores do not meet requirements for degree credit (not applicable for degree completion). It is designed to reinforce the knowledge of operations and applications of fractions, decimals, percents, and signed numbers. An introduction to algebra will also be covered. Students must pass this class with a "C" or better to move on to MAT 0028 .

Credit Hour(s): 3 College Prep Credits When Offered: (Offered as needed) Prerequisite(s):
A score of 50-95 on the PERT.

Corequisite(s):
SLS 1101 .

Note:
* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0022 - Developmental Mathematics Combined

A course designed to satisfy the requirements of both MAT0018 and MAT0028 in one semester and prepare students for MAT1033A. Topics to be studied include computations with decimals, percents, integers, operations with rational and polynomial expressions, linear equations and inequalities in one variable, factoring, and basic linear graphing. This course will teach the student to understand and communicate concepts of algebra in the language of mathematics, both orally and written. Due to the nature of this course, calculators are not permitted. A grade of "C" or better is required for successful completion of this course. College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
score of 50-95 on the PERT

Prereq/Corequisites:
SLS 1101

MAT 0028 - Developmental Mathematics II

This course is designed for students whose entry level placement test scores do not meet requirements for degree credit (not applicable for degree completion). This course emphasizes concepts, techniques, and applications of the following topics: operations with real numbers, linear equations and inequalities in one variable, rational expressions, properties of exponents, polynomials, radical expressions, and graphs of lines.

Credit Hour(s): 4 College Prep Credits When Offered: (Fall, Spring, Summer) Prerequisite(s):
Grade of "C" or better in MAT 0018 or score of 96-113 on the PERT or on an elective basis a score of 114 or higher on the PERT

Note:
* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0056 - Developmental Mathematics Module

This course is designed for students whose entry level placement test scores do not meet requirements for degree credit. This course emphasizes concepts, techniques, and applications of the following topics: operations with real numbers, linear equations and inequalities in one variable, rational expressions; properties of exponents, polynomials, radical expressions, and graphs of lines. Student may exit Developmental Mathematics Module by passing the coursework and by obtaining a passing score on the Exit Exam.

Credit Hour(s): 2 College Prep Credits When Offered: (Fall, Spring, Summer) Prerequisite(s):
score of 105-109 on the PERT or elective basis score 110 or higher on the PERT

Note:
* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

MAT 0157 - Modularized Developmental Mathematics II

This course is designed to help students develop computational & algebra skills needed for success in college level mathematics. This course uses a modular format in a lecture/lab setting. Students will take a diagnostic test in class to identify skills that have not been mastered and to determine placement into the appropriate modules. Each student will have an individualized learning plan such that he or she works only on skills not yet mastered. Possible topics in the learning plan include operations on signed numbers, solving linear equations and inequalities in one variable, graphing linear equations, operations with exponents and polynomial expressions, factoring polynomials and solving quadratic equations, introduction to rational expressions, and operations with square roots. Students will use computerized instruction as well as guided instruction by the instructor. Successful completion of this course requires mastery of the material in each module and a passing score of the department final exam. Course cannot be used toward AA or AS degree.

Credit Hour(s): 4 College Prep Credits When Offered: (Fall, Spring) Prerequisite(s):
MAT 0018 with a grade of "C" or better or a score of 96-113 on the PERT.

Note:
* College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

REA 0056 - Developmental Reading Module

This course is designed to increase the student's ability to comprehend college-level, written material (not applicable for degree completion). Conducted in a lab setting, this course is self-paced, designed to allow students to focus on their individual development of higher level reading skills and vocabulary needed for literal and critical interpretation of passages similar to those used in college texts. This course may be taken in place of REA 0017. Students must pass the class with a "C" or better and obtain a passing score on the end of course exam.

Credit Hour(s): 2 College Prep Credits When Offered: (Fall, Spring, Summer) Prerequisite(s):
Students must score 96-105 on the PERT or elective basis score 106 or higher on the PERT.

Note:
*College preparatory credits may not be counted toward fulfilling the number of credits required for a degree.

Lower Division College Credit Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific

transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2450 - Computer Applications for Accounting

An introductory course in computerized integrated accounting procedures found in the microcomputer environment. Includes application of software designed for general ledger, accounts payable and receivable, financial statement analysis, purchasing and sales order processing, fixed assets, payroll, inventory and departmental accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ACO 1806 - Payroll Accounting

Introduction to the theory, laws and procedures related to payroll activities of a business. Topics include payroll and personnel records, federal payroll laws, payroll operations, computerized payroll systems, and preparation of payroll registers, earnings records, and payroll tax forms.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2010 - American Literature I

A course in American Literature from the pre-Colonial period to the Civil War. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall) Prerequisite(s):
ENC 1101 .

Note:
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2020 - American Literature II

A course in American Literature from Civil War to present. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Spring) Prerequisite(s):
ENC 1101 . (Note: AML 2010 is not a prerequisite for this course)

Note:
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ANT 2100 - Introduction to Archaeology

Introduction to the fundamental principles, methods, and theories in archaeology. Includes a history of the development of archaeology, and examination of the nature of archaeological data and research, an introduction to archaeological data and analysis, and an examination of approaches to synthesis and interpretation. North and South American archeology is studied, but non-western examples are also studied to enhance an understanding of the development of the discipline in Europe and the Americas.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ANT 2159C - Florida Southeast US Archaeology

Introduction to special topics in anthropology and archaeology. Example: field experience in archaeology, brief introduction to prehistoric native American cultures in Florida and the southeastern United States and field experience excavating a prehistoric site in Okaloosa County.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ARC 1131 - Architectural Presentation

This course introduces basic ideas and presentation techniques directed towards developing design skills, such as drawing, perspective sketching, and graphics using a variety of media to include: pencil, ink, colored pencils, markers, and model building to be used in architectural presentations. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

ARC 1301C - Design 1.1

The primary foci of this course are the development of two and three-dimensional graphic skills and the ability to think spatially and to manipulate elements in space. Analysis and design exercises are located primarily in abstract two/three dimensional space and deal with topics such as figure/ground relationships, line/plane/mass, the idea of systems, networks, repetition, and the relation of part to the whole. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Fall)

ARC 1302C - Design 1.2

This course continues the emphasis and topics studied in Design 1.1, with increased expectation with regard to graphic and spatial manipulation ability. Students study exemplary works of architecture and art, beginning the process of developing an understanding of the role history plays in their creative explorations. By the end of the course, site and the human being are part of the design environment. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
ARC 1301C .

ARC 2201 - Theory of Architecture

An introduction to architectural theory, selected contemporary architectural theories and movements, and their evolution and historical basis. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ETD 1102 .

ARC 2303A - Design 2.1

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 6 Credit Hours When Offered: (Fall) Prerequisite(s):
ARC 2201 .

ARC 2304 - Design 2.2

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making, and human behavior.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Prerequisite(s):
ARC 2303A .

ARC 2472 - Introduction to the Technology of Architecture

This course is the beginning of the technology sequence in the areas of structures, environment technology, and materials and methods of construction. It introduces themes such as the response of buildings to the natural environment, the strength, stiffness, and durability in building materials, and the quantitative method of analysis and design of building assemblies and support systems. It explores the relationship between building technology and the social, aesthetic, environmental and economic aspects of the settings in which buildings are located, and how these factors relate to the process of architectural design. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Summer)

ARC 2501 - Architectural Structures I

The emphasis of the course is on the development of the principles of statics and the application of these principles to the analysis and design of structural systems, primarily column, beam, slab systems, and the truss systems. The course builds on the basic ideas of structural form and material properties developed in Introduction to the Technology of Architecture.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
any college level physics or calculus course, and concurrent enrollment in ARC 2472 . This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ARC 2701 - Survey of History of Architecture, Part I

A critical exploration of the history and theory of architecture from pre-history through the end of the 13th century. Examination of the making and intent of significant buildings and sites tracing the developments that have given meaning to the built environment and brought order to the tectonics of architecture. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of

medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2402 - Art History: Modern Art

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2930 - Art History – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 1750C - Pottery I

The students shall be exposed to the production of pottery utilizing all known hand building techniques. Also includes introduction to potter’s wheel and basic wheel fundamentals. The first half of course is hand building, the second half is devoted to development of skills on the potter’s wheel. Students also learn how to glaze pottery and make glass. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ART 1751C - Pottery II

Continues hand building of Pottery I, but major emphasis is placed upon development skills utilizing the potter’s wheel. Additional glazing experimentation is also emphasized.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ART 1750C . Please refer to catalog section regarding audit enrollment.

ART 1905A - Independent Study – Art

A defined independent study which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule. Departmental approval is required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

ART 2330C - Figure Drawing I

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2331C - Figure Drawing II

This class is a continuation of Figure Drawing I. Emphasis is on composition and self-expression in relation to the human figure. Exploration of media and content will be encouraged.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ART 2330C . Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 2500C - Painting I

Course will include design elements, composition and spatial relationships. Emphasis is on color theory, color mixing, and execution thereof within a variety of subject matter. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2501C - Painting II

This course is a continuation of Painting I ART 2500C with emphasis on further exploration of student's personal style and original techniques. Further experimentation in abstraction and emotional aspects of form and color are explored and expressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ART 2500C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2540C - Water Color I

An introduction to water media techniques applied to various subject matter through demonstrations and various lab experiences. Open to all students. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2541C - Water Color II

Allows continued experience in more complex water color technique and subject matter. Emphasis is on composition and individual expression.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ART 2540C . Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 2602C - Digital Imaging I

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:
▲Technology-Across-the-Curriculum Course.

ART 2603C - Digital Imaging II

A continuing course which expands upon the technical and conceptual foundation laid in Digital Imaging I. Students will explore advanced software techniques and greater challenges of personal or commercial expression in digital media. Access to an appropriate high quality digital camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ART 2602C , PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

ART 2701C - Sculpture I

An introductory course in the technical and aesthetic consideration of sculptural forms. Includes a wide range of materials and expressions, representing past and present sculptural methods. Audit enrollment in studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

ART 2703C - Sculpture II

Allows continued experience in more complex three-dimensional techniques; emphasis on individual projects and conceptual approach.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ART 2701C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2834C - Gallery Practices

The principles of Art Gallery practices and operations. Both theoretical and practical experiences will be obtained through lectures, field trips and class projects.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ART 2930 - Art - Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

ART 2955 - Portfolio Development

Development of a working portfolio through studio project aimed at fulfilling the general requirements the average company, university, art school or advertising agency looks for in a portfolio presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ART 1201C , ART 1203C , ART 1300C , ART 1301C .

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ASL 1150 - American Sign Language II

This course increases the student's American Sign Language vocabulary and uses more complex expression of thoughts, ideas, and emotions and increases the receptive and expressive proficiency of the student in both sign and finger spelling.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ASL 1140 or an equivalent course with a grade of "C" or better

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common

prerequisites.

ASL 2160 - American Sign Language III

A conversational course in American Sign Language utilizing skills and vocabulary from American Sign Language I and II and building on these to form more complex expressions in American Sign Language. Impromptu and planned stories, dialogues and skits will be performed. Receptive and expressive finger spelling will be advanced. No voice will be used for the majority of classroom time.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):
ASL 1150 or an equivalent course with a grade of "C" or better.

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AST 1005 - Introduction to Astrobiology

This course will explore the scientific evidence for the possibility, probability, and potential nature of life that might exist beyond the Earth. Contemporary discoveries about current and past conditions suitable for the origin of life on Mars and some of the moons orbiting other planets in our own solar system are reviewed in the context of what we understand about life on Earth. The question of life in other solar systems is also covered. Space travel and problems regarding intelligent extra-terrestrial beings visiting the Earth and intelligent life beyond the Earth but still within our own solar system are also discussed. All this is done in a fashion which integrates the various branches of science required to understand life beyond the Earth: Astronomy, Biology, Chemistry, Geology, and Physics. There are no prerequisites for this course and it may be taught in a team fashion by faculty members from various scientific disciplines.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BCN 1230 - Building Construction Materials and Processes

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

BCN 1272 - Blueprint Reading for Commercial Construction

A course to familiarize non-drafting students with techniques of blueprint reading and the fundamentals of construction methods that make blueprint reading meaningful.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

BCN 1520 - Electrical Systems in Construction

A course to familiarize students with electrical terminology, practices, methods, code requirements and safety and health in construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCN 1567 - Plumbing and Gas Construction Practices

A course to familiarize students with Plumbing and Gas code requirements, terminology, methods, practices, processes and safety and health used in building construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCN 2231 - Building Construction Materials and Processes II

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry. The focus of the course will cover Divisions 9 through 16 of the construction industry.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

BCN 2560 - Mechanical Systems in Construction

A course to familiarize students with mechanical trades terminology, methods, practices, code requirements processes, and safety and health criteria in mechanical construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCN 2721 - Construction Management/Planning

The course covers project development and organization from pre-construction site investigation to final completion. The course will include the management of project estimates, plans, schedules, operations and safety. The student will become knowledgeable about documents used in the construction industry for bid, contracts, zoning, permits, bonds, loans specifications and drawings. Cost engineering, procurement, value engineering and quality assurance will be covered. Cost management through job cost analysis and purchase order systems will also be covered.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCT 1763 - Construction Safety and Health

A basic course in construction safety and health, covering such topics as: theories of accident causation; workplace hazards; hazard analysis and prevention; accident reporting; OSHA construction standard and safety practices; environmental safety; violence in the workplace; ergonomics; ethics and safety; workers' compensation; and stress on the job.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCT 2761 - Structural Systems in Construction

A course to familiarize students with structural terminology, practices, methods, code requirements and safety, and health criteria in construction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

BCT 2770 - Construction Estimating

A course in estimating as it relates to the construction industry covering references, estimating methods, take-off organization and presentation; material take-off, cost estimating in heavy construction, mathematical formulas for estimating, quantity take-off from plan review, and computer estimating overview.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BCN 1230 , BCN 1272 .

BOT 1010C - Botany

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005C - General College Biology

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. General biology uses experimental methodology and technique and includes a survey of bacteria, protist, fungi, plants and animals. The lab content will include a survey of organisms, dissection of plants, invertebrates and vertebrates.

Credit Hour(s): 5 Credit Hours (1 HC) When Offered: (Fall, Spring, Summer) Note:
(NWFSC Collegiate High School Students Only)

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:
BSC 1005 or equivalent.

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

BSC 1080 - Essentials of Anatomy and Physiology

This course surveys basic structure and function of the human body with emphasis on terminology and anatomy.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 1905 - Independent Study – Biology

A course designed to (1) allow a student to complete part of a course taken elsewhere and thereby complete general education requirements, (2) to go deeper into special areas of interest.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

BSC 2020C - Human Structure and Function

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 2946 - Directed Work Study – Biology

Practical experience with use and maintenance of lab equipment and materials. Participation in support activities and organizational routines of lab courses. Course fees may be waived. May be taken up to four times for credit. Departmental approval following interview is required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):
BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CAP 2134C - Database Security

This course is designed to provide the student with an understanding of database security concepts and practices. The objective of the course is to provide hands-on instruction in various database tasks that relate to securing the confidentiality, integrity and availability of information that is stored in a database. The student will be able to perform administrative tasks in different database management systems, as well as manage database user profiles, privileges, and roles. Different database application security models will be explored, as will the security advantages of utilizing virtual private databases. Finally, the process of database auditing will be explored, including auditing methods using various database management systems.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CET 1660

Note:

▲Technology-Across-the-Curriculum Course.

CAP 2762 - Data Mining

This course offers exploration of data mining methodologies. Topics may include decision tables, decision trees, classification rules, association rules, clustering, statistical modeling, and linear models and will focus on data warehousing, data mining and data drilling.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CGS 2541 or any programming language are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CCJ 1010 - Introduction to Criminology

A study of the nature and causes of crime and delinquency; the development of delinquent and criminal behavior; theory development in criminology, crime rates and trends, victimology and particular crime pattern areas.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CCJ 1020 - Introduction to Criminal Justice

An introduction to the philosophical and historical background of law enforcement and the administration of criminal justice. Organization and jurisdiction of local, state, and federal law enforcement agencies, court and criminal procedures, career opportunities in the Criminal Justice field are also covered.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CCJ 1941 - Internship – Criminal Justice

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Permission of the instructor

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

CCJ 2509 - Introduction to Gangs and Crime

This course provides students with an overview of street gangs, the social factors, and the general classifications necessary for the law enforcement, corrections, and public safety professional. This course explores the history, membership, activity, current trends, and influence of street gangs. Students will be challenged to define community-based solutions and strategies to combat the criminal activity associated with street gangs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CCJ 2934 - Special Topics in Criminal Justice

This course centers around topics of current interest or of special interest to students or instructors. Topics or focus may vary from semester to semester.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
*This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

CET 1600C - Networking Fundamentals

This course introduces the student to the basics of Internetworking technology. This is also the first of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity, and electronics and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CET 1610C - Routing Protocols and Concepts

Basic Router terminology and configurations are studied in this course. The student will study router components, router configuration, IOS, TCP/IP, IP addressing, and router protocols. This is one of the four courses designed to prepare a student to take the CISCO Certified Network Associate Exam (CCNA).

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CET 1660 - Introduction to Network Security

This course is designed to introduce students to the terminology and concepts associated with network security, including communication security, infrastructure security, cryptography, access control, authentication, external attack, as well as operational and organizational security. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CET 1675C - Introduction to IP Telephony

This course explains how companies are using IP Telephony equipment and software to efficiently upgrade existing telephone systems. In addition, the course will give the student a fundamental understanding of the architecture of voice communication and how signaling, call quality and public switched telephone networks operate in a LAN/WAN networking environment. The use of IP

Telephony products will be discussed and how software allows companies to cost-effectively upgrade and eventually replace existing (legacy) telephone systems with more cost-effective and easy-to-use telephone equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1600C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 1854C - Introduction to Wireless Technology

This course teaches key wireless networking topics, including wireless technology and architecture network design, types of wireless networks, and applications. Special focus on technical matters, wireless communication products, wireless networking products, and wireless LANS products. It is recommended that all students have a least a basic knowledge of networking, including protocol, the OSI module, and TCIP/IP.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2172C - Microcomputer Servicing

This course introduces the PC system, how it works and how the operating system controls it. Also studied are the components which make up the PC system, how to use multimeters and logic probes to make measurements and troubleshoot the system with the aid of diagnostic software. Students will perform fault analysis of simulated PC defects. In addition, students will learn to disassemble, reassemble and modify the PC hardware components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2179C - PC Operating Systems A+

This course is designed to help prepare the student to take the A+ Certification exams by making the student proficient in personal computer operating systems, including Win 2000, Win XP, and Win Vista. Major topics include disk and file management, system configurations, menu driven processing, graphical user interfaces, boot files, disk caching, virtual memory, device drivers, remote assistance, and security essentials and security practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2182C - PC Hardware A+

This course is designed to prepare the student to take the A+ Certification exam, by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2615C - LAN Switching and Wireless

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CET 1600C , CET 1610C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2620C - Accessing the WAN

This course introduces the student to advanced router configurations and network design. This is also the last of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1600C , CET 1610C , CET 2615C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2682C - Cisco Voice over IP (VoIP)

Instruction includes, but is not limited to, Voice over Internet Protocol (VoIP) theory, Voice Gateway configuration in a IP Telephony (IPT) solution, IP Phone configuration, design of VoIP networks and troubleshooting IPT networks. Students will design and configure various VoIP networks using case studies and laboratory equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2685C - Fundamentals of Network Security

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1600C , CET 1610C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2854C - Fundamentals of Wireless LANs

Develop, implement and troubleshoot wireless networks. This hands-on, skill-based course focuses on the design, planning and operation of wireless networks, with an overview of technologies, security, and design best practices. This course helps prepare the student for the CISCO Wireless Certification.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1600C , CET 1610C are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2880C - Digital Forensics Fundamentals

This course offers a solid foundation to computer forensics investigations: preparing students to acquire and analyze digital evidence. the course covers tools and techniques and explains topics such as file structure, data recovery, e-mail and network investigations, and expert witness testimony. In addition, the student will gain practical knowledge in conducting digital investigations and preserving digital evidence that maybe used in court or corporate inquiries.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2881C - Digital Forensics II

Digital Forensics II builds upon the foundational knowledge learned in digital forensics fundamentals. Students will utilize industry standard tools to conduct examinations of various digital media and document their findings. Devices to be studied include computers (server, desktop, laptop), mobile devices (tablets, cell phones, smart phones, mp3 players, gps), and devices such as dvr's and routers. Emphasis will be placed upon real-world digital forensics scenarios and the investigative thought process. At the conclusion of the class, students will be prepared to take the accessdata certified examiner (ace) examination.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 2880C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2891C - Wireless Network Security Certification

This course prepares students to secure wireless networks and protect valuable data from intruders. The following subjects are covered: intrusion tools and techniques, detection systems, WPA/WPA2/802.11i security, enterprise wireless gateways, encryption gateways, secure wireless bridging, and wireless VPN routers. This course prepares students for the compTIA wireless certification exam.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1854C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2892C - Advanced Network Security

This course examines advanced network security topics including, but not limited to, advanced topics in integration of hardware firewalls, advanced topics in Intrusion Detection Systems (IDS), advanced topics in Internet Protocol-security (IPSec), and advanced topics in Virtual Private Networking (VPN) in network security design. Students will implement designs using equipment in a laboratory setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CET 2905 - Independent Study, Computer Engineering

This is a directed study course to provide computer engineering students with individual projects designed to meet specific needs in areas of computer engineering technology for which present course availability is limited.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

instructor or departmental chair approval. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CET 2940 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

active enrollment in an appropriate degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CET 2941 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CET 2942 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-

Curriculum Course.

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
none

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):
none

Note:
▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1550 - Introduction to World Wide Web

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World Wide Web and the Internet.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CGS 1843 - Introduction to E-Commerce

This course is designed to provide students with an overview of the dynamics of electronic commerce and how it links information technology to business objectives. Course may not transfer to all State University System institutions.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CGS 2541 - Introduction to Database Concepts

This course will provide an introduction to data modeling and the design and implementation of relational databases and extend the students' understanding of the principles and techniques used in the design and implementation of modern database systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CGS 2544 - Advanced Database Concepts

The aim of this course is to explore advanced database concepts including an advanced exploration of data modeling and the design and implementation of relational databases. This course will extend the students' understanding of advanced principles and techniques used in the design and implementation of modern database systems and explore database problems and potential solutions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CGS 2820 - Web Design

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

CHI 1121 - Mandarin Chinese II

This course is a continuation of Mandarin Chinese I with additional vocabulary and grammar. Pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
CHI 1120 or an equivalent course with a minimum grade of "C".

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
CHM 2210C .

CIS 1000 - Introduction to Computer Science

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CIS 1940 - Internship in Computer Studies

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree. ▲Technology-Across-the-Curriculum Course.

CIS 2352C - Ethical Hacking Fundamentals

This course is designed to provide the student with an understanding of the techniques and methodologies of security penetration testing. This course provides hands-on instruction using the various tools and methods that security professionals use to analyze an information system in order to discover vulnerabilities and protect against information loss, cyber-terrorism, and corporate espionage. The student will be introduced to fundamental security testing concepts, gain practical knowledge of computer programming, learn how to properly document a security test, and explore the legal and ethical ramifications of penetration testing. Students will also learn how to apply the appropriate countermeasures in order to reduce the risk that an organization faces.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of networking, basic computer, and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CJC 2000 - Introduction to Corrections

Theories of punishment and incarceration; the organization of correction programs and institutions, principles of probation and parole, role of parole and probation officers, legal implications; and problems of rehabilitation are covered. This course may be used in transfer to UWF and may be accepted at other upper division schools. Students should consult the department for program planning.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJE 1642C - Introduction to Crime Scene Technology

This course explains and discusses the principals and theories in crime scene technology. The course covers specialized collection procedures for biological evidence, weapons, traffic crash evidence, arson evidence, gunshot residue, blood splatter and

bodies.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2300 - Police Administration and Organization

This course presents the principles of organization and administration in law enforcement including functions and activities, planning and research, public relations, personnel and training, inspection and control, records and communications and custody.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2330 - Ethics in Criminal Justice

This course is a detailed exploration of ethical issues in Criminal justice with special emphasis on morality and the law, human behavior, and ethical decision making in law enforcement, corrections and the courts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2400 - Police and Community Relations

A study of the relationship of the Justice Administration agencies to the surrounding community. Examines the effect of social change and the consequences that it produces upon law enforcement, corrections, and the courts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJE 2600 - Criminal Investigations

Fundamentals of investigation; duties and responsibilities of the detective; interrogation techniques; search and techniques of protecting the crime scene; collection and preservation of evidence; modus operandi systems; scientific aids and other sources of information; court preparation and case follow-up.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CJJ 1002 - Juvenile Delinquency

A study of the nature and cause of juvenile delinquency, the development of the delinquent and criminal behavior, specific criminal justice subsystem (law enforcement, judicial, corrections) problems dealing with juvenile delinquents from initial contact through final disposition and treatment. This course may be used in transfer to UWF and may be accepted at other upper division schools. Students should consult the department for program planning.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CJL 1100 - Criminal Law

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2130 - Criminal Evidence and Procedure

This course provides students with an overview of criminal procedure particularly applied to search and seizure and evaluation of

evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CLP 1001 - Personal Adjustment

Psychology of adjustment, application of psychological theory for problem solving and better mental health. An examination of psychological defense mechanisms and adaptive behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CLP 2140 - Abnormal Psychology

A study of the different problems in psychopathology, including anxiety, depression, social deviance, psychosis, schizophrenia, mental retardation and general brain dysfunction of both children and adults, with emphasis on descriptive etiology, known causes, and treatments.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
PSY 2012 .

COP 1000 - Introduction to Programming Concepts and Logic

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2010 - Visual Basic Programming

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2011 - Advanced Applications Programming in Visual Basic

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2030 - Programming In Python

An Introduction to Python programming language using microcomputers. Topics include Python basics, use of Python control and data structures, use of Python function, Python 110, and implementation of basic programming tasks.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2176 - Visual Basic ADO.Net

The aim of this course is to provide an advanced level of knowledge in database programming using Visual Basic's ADO.Net, using normalization, object and relational types, modeling, data validation, and structured query language (SQL) in creating database applications.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 and COP 2010 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):
CGS 2544 , COP 2011 .

Note:
▲Technology-Across-the-Curriculum Course.

COP 2220 - Programming in C

An introduction to C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2222 - Advanced Programming in C

An advanced exploration of the C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2224 - Programming in C++

An introduction to C++ programming using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2228 - Advanced Programming in C++

An advanced exploration of the C++ programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2360 - Programming in C Sharp (C#)

An introduction to the C# programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2362 - Advanced Programming in C Sharp (C#)

This hands-on course examines how to utilize advanced features in the .NET Framework using the C# programming language, in order to build sophisticated applications. Students will work with advanced object-oriented programming topics, including inheritance, partial classes and generics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2360 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2658 - Advanced Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the advanced IOS programming topics and provides a broad perspective of the IPhone SDK platform. It begins with an overview of the Objective-C language and progressed into the advanced details of the UIKit, as well as several other frameworks essential for advanced development of the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 2654 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2662 - Advanced Programming for Mobile Devices: Android

This class teaches advanced concepts and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devises and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2700 - Introduction to SQL

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2702 - Introduction to PL-SQL

An introduction to PL-SQL and the design and creation of object-oriented databases (using PL-SQL). Topics include storing, retrieving, updating and displaying data using PL-SQL and Oracle.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2440 or CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2800 - Introduction to Java Programming

An introduction to programming using the Java language. Students will develop and apply individual programs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2805 - Advanced Java Programming

An advanced level programming course using advanced Java techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

COP 2833 - Databasing for Internet Applications

This course will expose students to basic relational database concepts used in web programming, including structuring data and

making queries.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):
CGS 2820

Note:
▲Technology-Across-the-Curriculum Course.

COP 2840 - Web-based Programming I

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CRW 2001 - Creative Writing I

Instruction and practice in writing fiction and poetry. Students will submit a poetry portfolio and complete at least one short story.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CRW 2002 - Creative Writing II

Advanced work in poetry and prose modes with emphasis on revision. Students will submit a poetry portfolio and write and revise at least one complete short story. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CRW 2100 - Introduction to Fiction Writing

Practice in writing fiction using various points-of-view. Students will submit completed short stories for workshop. Upon agreement with the instructor, students may elect to develop novel chapters with synopsis. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CRW 2201 - Introduction to Creative Nonfiction

This writing course examines the narrative possibilities of creative nonfiction. We will explore structure, technique, and authorial presence in representative works of established sub-genres, including literary journalism, travel and/or food writing, memoir, the lyric essay and collage.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CRW 2300 - Introduction to Poetry Writing

Practice in writing poetic forms employing poetic techniques. Students will workshop completed poems and submit a portfolio of revised poetry. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

CRW 2302 - Intermediate Poetry Writing

This course builds on poetry writing skills developed in CRW 2300 . Students will examine styles and techniques of contemporary

poets and develop a portfolio of original work with attention to the revision process. Students will prepare creative work for publisher market.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
CRW 2300 .

CTS 1106 - Fundamentals of UNIX

This course is designed to introduce the UNIX operating system to new users. The student will learn fundamental features of the operating system, including file system navigation, file permissions, editors, command shells, and basic network use. Provides a foundation for more advanced courses in administration and certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of networking, basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CTS 1156C - Desktop Support

This course introduces the helpdesk skills to troubleshoot hardware or software operation and application problems for end users on the desktop or client-side, based on the Windows operating system. It is designed to help prepare the student to take the two core exams (70-620 and 70-622) required for certification as an MCITP: Enterprise Support Technician students should have user-level competency with Windows and MS Office.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CTS 1347C - Windows Network Infrastructure 2010

This course addresses the configuration of Windows Server network infrastructure. Topics covered include: routing and remote access, network access protection, network authentication, IPv4 and IPv6 addressing, DHCP, DNS, WINS, DFS, IPSec, and security. Recommended level of knowledge: A+, Network +, Security +. This course prepares the student for the MCTS exam, a core requirement for Windows MCITP.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CTS 1383C - Windows Server Administration Fundamentals

This course provides basic concepts of server administration in a Microsoft server environment. Introduction to server installation, server storage concepts, administering services, Active Directory infrastructure and configuration, server roles, remote access, troubleshooting and performance monitoring, and maintenance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

CTS 2104 - Introduction to Windows

An introduction to operating systems in general with emphasis on Windows.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2134 - Network Technology

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2143C - CompTIA Server+

This course provides advanced concepts in server hardware components and troubleshooting in a non-vendor-specific environment. Introduction to server installation, server storage concepts, administering services, server roles, virtualization, performance monitoring, security, data protection, and maintenance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2163C - Windows 10 Client Operating System

This course addresses the implementation and desktop support needs of the MS client software, including installation, configuration and management of hardware and file systems, user profiles, remote users, and monitoring of resources and performance. Recommended level of knowledge: A+, Network +, Security +. This course prepares the student for the MCTS exam, a core requirement for Windows MCITP.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2302C - Windows Active Directory

This course focuses on a Windows server directory service environment, including forest and domain structure, DNS, site topology and replication, organizational unit structure and delegation of administration, Group Policy, and user/group/computer account strategies. Recommended level of knowledge: A+, Network +, Security +. This course prepares the student for the MCTS exam, a core requirement for Windows MCITP.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CTS 1383C

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2314C - Network Defense and Countermeasures

This course will explore concepts of network defense and countermeasures as well as hardware and software required to design,

configure and implement secure networks. Security topics covered in this course include firewalls, Intrusion Detection Systems (IDS), Virtual Private Networks (VPN) and policy creation using the Windows Operating System (OS), Transmission Control Protocol/Internet Protocol (TCP/IP) packet and signature analysis. The student will get hands-on instruction installing the network defense mechanisms and countermeasure applications. Software will be used for collecting, monitoring and auditing various activities; students will analyze threats and intrusions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CET 1660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2321 - UNIX Administration

This course is designed for network administrators in a UNIX operating environment. UNIX operating system concepts, architecture and administration will be explored using Linux. Includes shell programming, database managements, rapid application development, and programming tools such as PERL and C++.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2134 and CTS 1106 are required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2346C - Windows Server 2016 Administrator

This course will provide students with the opportunity to develop the skills required to manage accounts and resources, maintain server resources, monitor server performance, and safeguard data. Recommended knowledge level: A+, Network +, Security + and Win client operating system. This course prepares the student for the MCITP exam.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

CTS 1383C

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2390C - Installing and Configuring Windows Server 2016

This course is the first of a series of three courses which provide the skills and knowledge necessary to implement a core Windows Server 2016 infrastructure in an existing enterprise environment. The three courses in total collectively cover implementing, managing, maintaining, and provisioning services and infrastructure in a Windows Server 2016 environment. While there is some cross-over in skill set and tasks across the courses, this course primarily covers the initial implementation and configuration of those core services, such as Active Directory Domain Services, networking services, and initial Hyper-V configuration and is also preparation material for, Exam 70-410: Installing and Configuring Windows Server 2016.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CTS 2163C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2391C - Administering Windows Server 2016

This course is the second in a series of three courses which provide the skills and knowledge necessary to implement a core Windows Server 2016 infrastructure in an existing enterprise environment. The three courses in total will collectively cover implementing, managing, maintaining and provisioning services and infrastructure in a Windows Server 2016 environment. While there is some cross-over in skills and tasks across the courses, this course will primarily cover the administration tasks necessary to maintain a Windows Server 2016 infrastructure, such as user and group management, network access and data security and is

also preparation material for, Exam 70-411: Administering Windows Server 2016.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CTS 2390C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2392C - Configuring Advanced Windows Server 2016

This course is the third in a series of three courses which provide the skills and knowledge necessary to implement a core Windows Server 2016 Infrastructure in an existing enterprise environment. While there is some cross-over in skill sets and tasks across the three courses this course will primarily cover advanced configuration and services tasks necessary to deploy, manage and maintain a Windows Server 2016 infrastructure, such as identity management and identity federation, network load balancing, business continuity and disaster recovery, fault tolerance and rights management. This course is also preparation material, and maps directly to, Exam 70-412: Configuring Advanced Windows Server 2016 Services.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

CTS 2391C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2437 - Administering SQL Server Database

This course provides students with the skills required to install, configure, administer and troubleshoot the client-server database management system of Microsoft SQL Server. This is preparation for the MCP exam, an elective requirement for Windows MCSA/MCSE.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2134 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2438 - Advanced SQL Server Database

This course provides students with advanced topics required to install, configure, administer and troubleshoot the client-server database management system of Microsoft SQL Server. This course is designed to prepare the student for certification, an elective requirement for the Windows MCSA/MCSE.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CTS 2437 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CTS 2440 - Introduction to Oracle

An introduction to Oracle and the design and creation of relational databases (using Oracle). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL) integrated into Stored Procedures, Functions, Packages and Triggers (PL/SQL Programming).

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

DAA 1100 - Fundamentals of Modern Dance

This beginning dance class serves as an introduction to the art of contemporary dance. It includes instruction and practice in basic modern dance techniques, improvisation, dance forms and brief historical overview.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring,, Summer) Note:
This course may be taken up to four times for credit.

DAA 1101 - Modern Dance II for Non-Majors

This course includes a continued analysis of the modern dance at an intermediate level. Instruction and practice in specific contemporary dance techniques and performance qualities will be stressed.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1104 - Modern I for Majors

This dance class is designed to affect an understanding of the art of the modern dance. It includes a brief history of the dance; instruction and practice in basic dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time. This course maybe taken 4 times for credit.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1200 - Fundamentals of Ballet

This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1201 - Ballet II for Non-Majors

Intermediate Ballet is designed to train the student in the tradition of the art of the classical ballet beyond the basics. Continued development of the body as an expressive instrument for ballet movement will be stressed as students reach the proficiency level necessary to perform the more complicated steps of an intermediate class.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1204 - Ballet I for Majors

A beginning dance course designed to serve as an introduction to the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1500 - Jazz I for Non-Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken four times for credit.

DAA 1500A - Beginning Jazz

This course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1520 - Tap I

This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAA 1521 - Tap II

The Tap II dance class includes a more in-depth history of tap dance, instruction and practice utilizing tap and exploring its various styles.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
DAA 1520 .

Note:
This course may be taken up to four times for credit.

DAA 1580 - Musical Theater Dance I

This beginning course covers the study of musical theater dance techniques and styles as related to a specific performance experience, usually Creative Dramatics. Students must participate in designated rehearsals and performances.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):
level of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 1680 - Dance Workshop

This course includes instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAA 1681 - Dance Ensemble

The student shall participate in the preparation and performance of original dance compositions to include Dance Line and Show Choir performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

level of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 2105 - Modern II for Majors

This dance class is designed to further the student's understanding of the art of the modern dance. It includes continued study in history of the dance; instruction and practice in intermediate level dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 2205 - Ballet II for Majors

This dance course is designed to serve as an further training in the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 2581 - Musical Theater Dance II

The continued study of Musical Theater dance techniques and styles as related to a specific performance experience, usually Summer Ensemble Workshop. Students must participate in rehearsals and performances.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):
level of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 2610 - Dance Composition

An introduction and practice in the application of compositional tools encourages the student to explore and compose dance. By studying the body's movement in time and space the student will improve technical skills, develop improvisation and choreographic skills and enhance overall dance performance. Previous dance experience is helpful.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAA 2682 - Dance Workshop II

This course includes continued instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
A demonstration of competency determined by audition.

Note:
This course may be taken up to four times for credit.

DAA 2683 - Performance Dance, (Repertory and/or Original Choreography)

This course includes the continuation of study and participation in all rehearsals of selected works of dance repertory and/or original choreography culminating in public performance.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAN 1750 - Dance Conditioning

Dance Conditioning is an excellent course in which to begin your dance training. It is designed to improve fundamentals for the beginning/intermediate student through daily practice in floor work, yoga, and Pilates exercises. This movement class will get you ready to meet the challenges of other dance classes by toning, strengthening and preparing the body to move.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAN 2120 - Dance Appreciation

This course is a study of the development of dance as an art form, as entertainment, and how it relates to the history of cultures and societies, emphasizing the evolution of dance in the specific genres such as ballet, modern dance, jazz dance, and world dance forms. Designed to heighten student awareness of dance as an integral part of society and establish an appreciation of dance's impact on the making of art. This course will give the student a foundation level understanding of dance as an art form and its historical and cultural significance. The major periods of dance history, master choreographers, and their works will be explored through lecture, discussion and media presentation. DAN 2120 is not an activity course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2100 - Child Growth and Development

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

DSC 1002 - Domestic and International Terrorism

This course is designed to assist students in recognizing and understanding the elements and objectives of terrorism and 4th Generation Warfare and how they affect public safety planning and response operations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1004 - Introduction to NRF and NIMS

Designed to inform emergency responders and planners of the key elements in the National Response Framework (NRF) and the National Incident Management System (NIMS) and their relationship to planning and response operations. The curriculum includes classroom exercises.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1222 - Psychological Management of Disaster Victims

This course introduces students to a general overview of terrorism and the potential psychological effect of terrorist events on victims.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1552 - Critical Infrastructure Protection

This course introduces participants to the Critical Infrastructure Protection (CIP) process to secure the effective protection of the people, physical entities, and cyber systems that are critical. The CIP course will guide leaders in the systematic protection of critical infrastructures. More basically, the course will introduce decision sequence that assists leaders and future leaders in ultimately determining exactly what really needs protection as well as when. The course will introduce a time-efficient and resource-restrained practice that ensures the protection of only those infrastructures upon which survivability, continuity of operations, and mission success depend.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1562 - Homeland Security Threat Strategy

This course addresses problems of terrorism from a criminal justice perspective. It is designed to provide students with an understanding of the major issues associated with responding to terrorism in a democratic society. The course focuses on the threat of terrorism to the United States and will review specific strategies to deter terrorist threats to the U.S. The course will assess the relative effectiveness of anti-terrorist activities.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1631 - Planning Considerations for Terror Prevention

This course introduces participants to various aspects of planning for potential terrorist activity. The student will be introduced to basic principles of emergency management, communications, security threats, and the effects these operations may have on personnel. The student will learn techniques for evaluating their own jurisdiction's vulnerability against terrorist attacks. Students will gain knowledge of the roles and responsibilities of local agencies during terrorism responses. The course introduces participants to various aspects of emergency management of terrorist activity.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 1751 - Homeland Security Policy and Law

This course introduces participants to the major debates about balancing democratic freedoms with security from the Patriot Act to Supreme Court decisions on detention powers. The course provides insight into legal strategies necessary to confront ongoing national security threats. The course examines laws designed to preserve both our security and our democratic way of life.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

DSC 2055 - Issues in Disaster Response

This course serves as an introduction to disaster response and mitigation for the first responder. Students will be introduced to legislation that has had a major impact on disaster and incident response, the role of local, tribal, state and federal government response to incident and disaster declarations and a brief introduction to the National Incident Management System, National Response Plan and the Incident Management System.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

DSC 2056 - Disaster Response Operations

This course examines the response protocol, logistics, responsibilities, interagency support, and concepts of front end planning involved in preparation for a catastrophic event. Students will be introduced to the development of an emergency response plan that will include concepts such as lookout, awareness, communications, escape, safety (laces), training, and various agency relationships.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

EDF 1005 - Introduction to the Teaching Profession

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen-hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course requires a minimum grade of "C" if used to meet state prerequisites for entry into a Bachelor of Teacher Education program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EDF 1006 - Field Experience in Education

This Educational Field Experience course allows students to work in an educational setting for a semester to meet requirements for admission to the BSE program. This course requires a minimum grade of "C". Current background check (fingerprints) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
permission of department chair.

EDF 1006A - Field Experience in Education

This Educational Field Experience course allows students to work in an educational setting for a semester to meet requirements for admission to the BSE program. This course requires a minimum grade of "C". Current background check (fingerprints) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
permission of department director.

EDF 2085 - Introduction to Diversity for Educators

This course will provide the student with the opportunity to explore personal values and attitudes toward cultural diversity. Designed for the prospective educator, the theoretical component will examine the issues of teaching in culturally diverse classrooms. An eighteen-hour field experience and examination of educational materials will enhance the student's understanding of multiculturalism. An additional fingerprinting cost may be associated with this course. This course requires a minimum grade of "C" if used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EDP 2002 - Educational Psychology

Significant aspects of the growth and development of children and youth, including physical, social, and intellectual developments as they affect behavior patterns. Psychology as applied in improving the learning process.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1002 - Early Childhood Program Administration

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1201 - Infants and Toddlers

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1401 - The Family In Early Childhood Education

This course is comprehensive in scope, emphasizing skills and concepts of parenting which include: adjustment to parental roles; parent-child communication, care, growth, and development of children; cultivating strong families; special concerns; alternative family structures; educational institutions working effectively with parents; and agencies and legislation affecting children and parents.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1601 - Assessment in Early Childhood Education

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EEC 1750 - Guidance for Young Children

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

EEC 1949 - Internship, Early Childhood Education

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the

supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
EEC 1309 or EEC 1201 .

EEC 2218 - Instructional Strategies in Early Childhood Education

Study of and development of effective skills and techniques used in program planning and use of creative media for young children.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
EEC 1309 .

EEC 2220 - Language and Literacy Instruction In Early Childhood Education

Study of the principles, methods, and materials used to assist young children acquire basic skills to use language effectively and competently; evaluation and development of appropriate teaching materials to use with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
EEC 1309

EEC 2222 - Math and Science Instruction In Early Childhood Education

Study of the basic concepts, methods, and materials of mathematics and science appropriate to the education of young children. Identification of the role of staff members in the center for the education of young children. Assignment with young children in community agencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring and as needed) Prerequisite(s):
EEC 1309 .

EEC 2732 - Child Nutrition, Health and Safety

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EET 1015C - Electricity/Electronics I, DC Circuits

This is the first course required for Electronics Aide certificate. This course introduces the theories, concepts, and relationships of voltage, current, and power in DC series, parallel, and series/parallel circuits containing common circuit elements with single and multiple sources. Students are introduced to Ohm's Law, Kirchoff's voltage and current Laws, Thieving's, Norton's, super-position, and maximum transfer of power theorems and their uses in DC circuit analysis. Students will learn how to use a digital multimeter to trouble shoot and analysis DC circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1084C

EET 1025C - Electricity/Electronics II, AC Circuits

This is the second course required for Electronics Aide certificate. This course introduces the theories, concepts, and relationships of voltage, current, and power in AC series, parallel, and series/parallel circuits containing common circuit elements with single and 3-phase sources. Students will apply Ohm's Law, Kirchoff's voltage and current Laws, Thieving's, Norton's, super-position, and maximum transfer of power theorems and their uses in AC circuit analysis. Included will be the use of a multimeter and

oscilloscope for experimentation with and trouble shooting AC circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1015C

EET 1084C - Introduction to Electronics

This course introduces the fundamentals, terminology, and applications used in the electronics industry. The topic coverage will include circuit theory principles, electronic components, transistor usage, amplifiers, power supplies, digital logic techniques, and electronic instruments. The course will also include some basic laboratory exercises to strengthen the topic coverage as it pertains to measurement involving both analog and digital circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EET 1141C - Solid State Electronics

This is the third course required for Electronics Aide certificate. This course introduces the student to the concept, components, and uses of solid state electronics. Topics include semiconductor devices; thyristors and diodes, transistors, amplifiers, power supplies, oscillators, and optoelectronics. The use of capacitors and inductors in solid state electronics will be also covered. The design, set-up, and troubleshooting solid state circuits and devices using various power supplies and function generators will be dispersed throughout the class.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1025C

EET 1180C - Industrial Electronic Troubleshooting

This course covers troubleshooting procedures for a variety of electronic equipment and circuits common to industrial applications. The student will develop and implement trouble shooting protocols and plans, equipment monitoring plans, a preventive maintenance plan, and select appropriate test and monitoring equipment. Safety in an industrial setting will be stressed and reinforced through a series of lab exercises throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1084C

EET 2155C - Linear Integrated Circuits

This course covers the fundamentals and applications of linear integrated circuits and operational amplifiers. The course covers includes inverting and non-inverting amplifiers, comparators, signal generators, differential and instrumentation amplifiers, operational amplifier specifications, active filters, modulator-demodulator integrated circuits, timers, analog to digital converters (ADC), and digital to analog converters (DAC) and measurement and analysis of linear circuits and devices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1015C , EET 1025C

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EGN 1111C - Engineering Graphics

Covers the use of instruments, lettering practice; geometric construction; multiview projection and conventions, auxiliary views, section views, axonometric and oblique projections, rotation, patterns and development, and methods of reproduction.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 1102 or equivalent: prerequisite only applies to Architectural Drafting and Design students.

EGN 1130C - Descriptive Geometry

Covers basic principles of orthographic projection, auxiliary views and rotation as they apply to points, lines and planes in space; addition of coplanar and non-coplanar vectors; intersections and developments; and selected abstract, exponometric and oblique projection, and practical problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
EGN 1111C or equivalent.

EME 2040 - Introduction to Technology for Educators

This course will develop competencies necessary to integrate technology into classroom instruction. Students will survey a variety of instructional technology materials, software, and systems, as well as learn to use these in the classroom environment. This course requires a minimum grade of “C” if used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

EMS 1119C - Emergency Medical Technician

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMT Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):
EMS 1401L .

EMS 1335 - Emergency Vehicle Operators Course

Students receive basic education and information on the safe and effective operation of emergency vehicles.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
permission of the EMS Program Director.

EMS 1337 - Defensive Tactics

Designed to provide EMS personnel with fundamental knowledge of the recognition of aggressive/violent behavior, and use of appropriate verbal and physical skills to control aggressive behavior in the course of providing emergency care.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
admission to the Paramedic program or permission of instructor.

EMS 1401L - EMT Lab

An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1119C .

EMS 2231C - Paramedic Processes I

First course in the sequence necessary for Paramedic program completion. Designed to integrate concepts and clinical skills learned at the EMT level with advanced life support concepts and skills. Emphasis on patient assessment, pulmonary anatomy and physiology, advanced airway management, pathophysiology and clinical management of shock, medical emergencies and traumatic injuries. Course is consistent with most current Department of Transportation (DOT) curriculum.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):
admission to the Paramedic program.

EMS 2232C - Paramedic Processes II

Second course in the sequence necessary for Paramedic program completion. Integrates and reinforces concepts and clinical skills learned in Paramedic Processes I, with emphasis on pharmacology, cardiology and Advanced Cardiac Life Support (ACLS) skills. Other topics include assessment and management of OB/GYN emergencies, psychiatric emergencies, pediatric emergencies, musculoskeletal injuries and mass casualty situations. Consistent with the most current DOT curriculum.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Corequisite(s):
EMS 2436L .

EMS 2233 - Paramedic Processes III

The final course necessary for Paramedic program completion. Designed to prepare the student for both Florida State Board and National Registry examinations. Emphasizes the integration of paramedic knowledge, attitudes and behaviors. Course consistent with the most current DOT curriculum.

Credit Hour(s): 2 Credit Hours When Offered: (Spring) Corequisite(s):
EMS 2425L .

EMS 2342 - Advanced Extrication

Focus is on advanced principles of gaining access to and disentanglement of victims of vehicular crashes. Emphasis is placed on victim and rescuer safety. Actual use of available rescue tools is included. Packaging of patients to protect against possible spinal injury is demonstrated and assessed. The course takes place with a mock scene and "junk" cars are used for experience with rescue tools.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

EMS 2425L - Paramedic Externship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
permission of the instructor

Corequisite(s):
EMS 2233 .

EMS 2435L - Paramedic Lab I

The clinical and skills laboratory companion course to EMS 2231C. Designed to provide instruction in advanced paramedic skills

and the opportunity to apply these skills in the clinical setting. By state rule, the instructor-to-students ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):
admission to the Paramedic program

Corequisite(s):
EMS 2231C .

EMS 2436L - Paramedic Lab II

This course is the clinical companion course to EMS 2232C, Paramedic Processes II. It is designed to provide instruction in the advanced paramedic skills and the opportunity to apply them in the clinical setting. By state rule, the instructor-to-student ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):
EMS 2435L

Corequisite(s):
EMS 2232C .

EMS 2438C - Advanced Clinical Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
EMS 2232C , EMS 2436L and permission of the instructor

EMS 2526 - Twelve-Lead EKG Interpretation

Designed for the EMS student. Fundamentals of twelve-lead electrocardiogram (EKG) interpretation. Emphasis on scenario-based and case-based learning that reinforces the concept that 12-lead EKG technology is the best tool for visualization of the surfaces of the heart, identification of sites of ischemia, injury and infarction, as well as various intricate conduction abnormalities.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
EMT certificate or permission of the instructor.

EMS 2552 - Advanced Cardiac Life Support (ACLS)

An intense overview of the guidelines for emergency cardiac care and cardiac arrest management as published by the American Heart Association. Students must successfully pass a written examination and a skills proficiency performance examination to receive the "ACLC Provider" and successfully pass the course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
EMT certificate and CPR for Health Care Providers certification.

EMS 2553 - Pediatric Advanced Life Support (PALS)

Designed for the EMS student. Fundamentals of recognizing infants and children who are at risk for cardiopulmonary arrest, including the strategies that are needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
EMT certificate or permission of the instructor.

EMS 2555 - International Trauma Life Support (ITLS)

Fundamentals of managing traumatic injuries at the basic and advanced levels in accordance with the national Basic Trauma Life Support committee. The recognition and treatment of specific traumatic injuries such as pneumothorax, closed head injury, hemothorax, compensated and decompensated shock, fractures, uncontrolled bleeding, internal injuries of the abdomen and thorax. Emphasis is on rapid assessment, management and transport with discussion on mechanism of injury and kinematics of trauma.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
EMT certification or permission from the instructor.

EMS 2940 - Internship: Emergency Medical Services

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
permission of the instructor.

Note:
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
▲ Technology-Across-the-Curriculum Course
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1101L - English Composition I Lab

An instructor directed writing workshop designed to improve student's opportunity for success in ENC1101. Students will strengthen writing and grammar skills necessary to master the topics and concepts covered in ENC1101. Areas of focus include, but are not limited to, the following: expository and argumentative writing; appropriate diction; conventions of Standard American English grammar, punctuation, sentence structure; conventions of MLA.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
ENC0025 and REA0017 or equivalent with a "C" or better grade, or a score of 100-116 on the PERT, or on an elective basis with a score of 103 or higher on the PERT.

Corequisite(s):
ENC 1101

ENC 1102 - English Composition II

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
passing score on placement test.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ENL 2012A - English Literature I

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):
ENC 1101 .

Note:
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature II

A study of English literature from the Romantics through the modern era, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENT 2931 - Selected Studies in Entrepreneurship

In this course, topics of current interest are presented in group instruction.

Credit Hour(s): 1 Credit Hour When Offered: (Spring)

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

ETD 1102 - Introduction to Technical Drawing

A course in the fundamental principles of the graphic language (the language of industry) and is developed for students without previous mechanical drawing experience. Topics include: use and care of instruments, lettering, geometric construction, multiview projection, sketching techniques, inking, and methods of reproduction.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer, Fall)

ETD 1112 - Mechanical Drafting I

The second of a sequence of courses in drafting which includes basic use of instruments, freehand lettering, geometric construction, orthographic projection, sections and conventional revolutions, dimensioning, inking, mechanical lettering, methods of reproduction, and developing computer-aided drafting skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

ETD 1102 and ETD 1320C or equivalent

ETD 1217 - Fundamentals of Dimensioning and Tolerancing

A course designed to help students develop the basic fundamentals of dimensioning and tolerancing. Topics include: dimensioning systems such as; metric, decimal, fractional-inch, foot and inch, tolerancing methods, limits and tolerances, tolerancing accumulation, dimensioning practices, and standards fits.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

ETD 1320C - AutoCAD I

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:
▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands, advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 1320C or equivalent.

Note:
▲Technology-Across-the-Curriculum Course.

ETD 1355C - AutoCAD 3-D Modeling I

A basic course in mechanical design using basic computer geometry techniques. Topics will include: orthographic projections, space relationships of points, lines, planes and revolution of objects. Additional coverage will include principles of surface generation, intersections, wire modeling, and solid modeling techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ETD 1340C or equivalent.

Note:
▲Technology-Across-the-Curriculum Course.

ETD 1801C - Technical Illustration

The purpose of this course is to help students develop the skills, knowledge, and attitudes necessary to be job entry-level qualified as technical illustrators.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
ETD 1112 or EGN 1130C , and ETD 1340C .

Note:
▲Technology-Across-the-Curriculum Course.

ETD 2150 - Industrial Print Reading

The beginning level aspects of reading industrial prints such as drawing notes, title blocks, revision blocks, legends, schedules, multiviews, and parts list.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ETD 2218 - Geometric Dimensioning and Tolerancing

An introductory course in geometric dimensioning and tolerancing using the geometric method nationally accepted according to ASMEY 14.5M. Topics covered include: definition and terms, symbols, datum referencing, locational tolerancing, form tolerancing, profile tolerancing, orientation and runout tolerancing, and math for positional tolerancing.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Summer) Prerequisite(s):
ETD 1217 or equivalent.

ETD 2350C - AutoCAD III

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 1340C .

Note:
▲Technology-Across-the-Curriculum Course.

ETD 2357C - Inventor I

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Note:
▲Technology-Across-the-Curriculum Course.

ETD 2358C - Inventor II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using Inventor Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
ETD 2357C .

Note:
▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Note:
▲Technology-Across-the-Curriculum Course.

ETD 2368C - SolidWorks II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ETD 2364C or higher or equivalent.

Note:
▲Technology-Across-the-Curriculum Course.

ETD 2371C - Rapid Prototyping I

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2364C or ETD 2357C or permission of instructor.

ETD 2372C - Rapid Prototyping II

The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2371C or permission of the instructor.

ETD 2377C - 3D Studio Max I

Course is designed to use 3D Studio in rendering, and animation as a dynamic visualization tool for AutoCAD design images. Upon completion of this course, the user will be able to navigate through the modules of the program, model simple projects, set up scenes for rendering and animation, assign materials to objects, and define simple motion paths, input and output techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ETD 1355C or equivalent.

ETD 2731 - Mechanical Drafting II

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary views, related mathematics, precision dimensioning developing computer-aided drafting skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ETD 1112 or equivalent.

ETD 2735 - Mechanical Drafting III

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include: isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary views, related mathematics, and precision dimensioning developing computer-aided drafting skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ETD 2218 and ETD 2731 or equivalent.

ETD 2802C - Technical Illustration II

The purpose of this course is to help students develop advanced skills, knowledge, and attitudes necessary as technical illustrators, to include oblique, and axiometric projections, perspective and exploded pictorial drawings, and related techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ETD 1340C or equivalent.

ETD 2905 - Independent Study – Drafting

Practical treatment of special geometry, graphics, and design with emphasis on individual work projects utilizing such graphical techniques as orthographic projection, perspective drawing, auxiliary views, topographic drawing, and graphing.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
EGN 1111C and ETD 1112 or permission of instructor.

Note:
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
* This course may be taken up to four times for credit.

ETG 1941 - Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit

report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
permission of the instructor

Note:
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

ETI 1420 - Properties of Materials and Cutting Tools

This course is designed to provide the student with an introduction to the basic properties of materials, principles and processes in the metal working and plastics field, and tools and machinery involved in manufacture of metals of plastics. This course covers non-chip producing and chip producing manufacturing processes.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ETI 1710 - Occupational Safety

A basic course in occupational safety and health covering such topics as: theories of accident causation, workplace hazards, hazard analysis and prevention, accident reporting, OSHA, ergonomics, product safety, workers' compensation, and stress on the job.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer, Fall)

ETI 2110 - Total Quality Tools

This course prepares students to effectively solve business/process/product problems, track process performance, find process and product improvement opportunities, and validate improvements made, using the necessary intellectual tools and procedures including: Five-S, flow charting, Pareto analysis, cause and effect diagrams, histograms, check sheets, scatter diagrams, stratification, statistical process control, failure mode and effects analysis.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ETI 2419C - Advanced Concepts of CNC Machines and CNC Machining Practices

This course is designed to provide the student with advanced concepts in CNC machines and CNC machining to include: theory, operation, setup, safety, and practices.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PMT 2261C or PMT 2262C

ETM 1010C - Mechanical Measurement and Instrumentation

This course provides the foundation for mechanical and electronic measurement techniques used in manufacturing environments. The course will integrate the concepts, principles, and techniques of mechanical measurement with the use of various types of instruments including micrometers, verniers, calipers, height gages, digital multimeters and other types of measuring equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ETS 1511C - Motors and Controls

This course explores the theory and application of AC and DC motors, types of single-phase motors, three-phase power, three-phase motors, remote and local control, forward and reversing motor starters, and various motor control circuits. Wiring and troubleshooting exercises of electric three-phase motor control circuits are emphasized in a wide range of applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
EET 1084C

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1940 - Internship, Environmental Science

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Minimum grade of "B" in any college level science course and permission of instructor.

FFP 1140 - First Responder for Public Safety Personnel

This course introduces the student to the skills and techniques used for first response to medical emergencies. Classroom instruction includes a variety of medical related topics encountered by public safety personnel. Practical exercises and scenarios are included to enhance classroom instruction and skill development.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1301 - Fire Service Hydraulics

Introduction to the study and characteristics of hydrostatics and hydrodynamics in the fire service; to include basic hydraulic measuring units, facts, theories, and formulas for problem solving. The course covers the relationship between flow and pressure and mathematical hydraulic formulas.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1505 - Fire Prevention Practices

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1540 - Private Fire Protection Systems

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1702 - Principles of Emergency Services

This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/services; fire loss analysis, organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1740 - Fire Service Course Delivery

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1800 - Disaster Education for Individuals and the Community

This course provides a study of the design, development, and delivery of public disaster safety education and programs including: methods of identification of disaster safety programs, the selection of target programs and strategies of affect reduction, methods of designing and implementing information and educational programs, and methods of evaluating a program's impact. Studies include theoretical and practical skills training in individual, group, and mass media communications, instructional skills, planning priorities, and evaluation techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1801 - Introduction to Emergency Management Administration

This course will discuss emergency management practices and how they relate to natural and man-made disasters. It is designed to help the student develop an understanding of overall emergency management principles, practices, and standards in the local, national, and international environments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1810 - Firefighting Tactics and Strategy I

This course is a study of the principles utilized on the fire ground for maximum manpower and equipment utilization; fire ground administration starting with a small fire on up through major conflagrations. Emphasis will be on developing thinking skills in relation to crises.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 1826 - Incident Management

This course contrasts the major forms of Incident Management/Incident Command Systems. It illuminates these differences and offers a fresh perspective on the concepts on which these systems are founded in order to make them more accessible and user-friendly. It bridges the gap between their theoretical and academic foundations and their real-world applications, and makes them more applicable to the professional's daily needs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1880 - Public Policy in Emergency Management

This course provides the student specialized knowledge and skills necessary to develop public policy related to emergency management, providing public policy leadership in the area of emergency management as part of the larger responsibility to protect the general welfare of the people. Topics of discussion include: government disaster programs; agency participation, policy design and implementation, and administrative processes involved in managing disasters.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1881 - Emergency Management Leadership

This course provides the student with the knowledge and skills necessary for effective interpersonal relationships, including conflict management and the use of power and influence as they apply to emergency administration and leadership. It addresses the budget process and related administrative duties of an emergency management program manager.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 1890 - Emergency Management Principles for Tourism and Hospitality Industry

This course analyzes emergency management functions and responsibilities within the tourism and hospitality industry. Particular emphasis is placed in the areas of administration, organization, communications, and human relations. Students will learn how historical mistakes can influence human response to disaster situations, and some of the current legal and human challenges posed when dealing with disasters.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2120 - Fire Service Building Construction

The curriculum draws from many recognized authorities in exploring the methods and mechanics of imparting information and adult learning principles. The course emphasizes techniques which have wide application in teaching situations, as well as devices for specific areas. Also stressed are measuring teaching effectiveness, the use of media and visual aids.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2610 - Fire Behavior and Combustion

Study of cause and origin of fires with emphasis on fire inspector's or fire officer's role in the investigation process. The course deals with determination of fire cause and origin, collection of evidence, and investigator's preparation for trial.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2720 - Company Officer

Designed to assist fire officers in solving the varied problems and situations they will be required to manage effectively in today's ever changing fire service. The curriculum includes a review of fire department organization and administration, management theory, leadership, communication, motivation, and small group dynamics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2770 - Ethical and Legal Issues for the Fire Service

This course teaches the federal, state, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases. It also includes labor relations, human rights and diversity, conflicts of interest and frameworks for ethical decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2780 - Fire Department Administration

The course is designed to present the principles of management theory, and its application in the fire service. The course is intended for officers whose area of responsibility encompasses long and short range planning, budgeting and administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
FFP 0010 and FFP 0020

FFP 2820 - Emergency Preparedness

This course teaches all aspects of emergency preparedness and planning related to natural and man-made disasters, and basic principles of emergency management. Planning concepts and the planning process will be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2823 - Technical Applications in Emergency Management

This course explores issues and problems associated with the use of technology in emergency management. It examines strategies to overcome these issues and problems. Some of the subjects treated are use of the Internet, spatial analysis applications in vulnerability analysis, decision support systems, and emerging technologies.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2834 - Societal Issues in Disaster Management

This course examines human response to disaster events, including political and economic factors influencing vulnerability. It examines how individuals and institutions make decisions at all levels of disaster response, it is an introduction to current research pertaining to the sociological aspects of disaster, and it will provide increased awareness of the potential and difficulties in using social science research as a basis for modifying public policy.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2841 - Contingency Planning for the Private Sector

This course is designed to assist students in developing effective public sector plans by using the National Incident Management System and the Incident Command System templates. The curriculum includes case studies and development procedures for private sector logistics management and employee support planning.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

FFP 2905 - Independent Study: Emergency Management

A defined independent study which is pursued under direct supervision of a faculty member and recorded through departmental procedures. Designed to provide an in depth exploration of a special or advanced topic in the Emergency Management field. Activities include targeted readings and research, as well as a final project or portfolio. Departmental approval is required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Note:
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

FOS 2201 - Food Service Sanitation Management

Scientific rationales for safety and sanitation procedures; causes of food-borne illnesses and preventative measures, sanitation practices, and food safety regulations and practices.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

FRE 1121 - French II

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
FRE 1120 or an equivalent course with a grade of “C” or better.

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

FSS 1120 - Food and Beverage Purchasing

Contracts and procedures involved in volume food and beverage purchasing, procedures for receiving, storing, and issuing food, beverages, and other supplies, and writing specifications.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1203C - Quantity Food Production

This course is designed to assist students to recognize the operational procedures of food services, career and job opportunities, to recognize techniques in preparing a bake station, beverage, and pantry items. To use standard recipes and commercial tools and equipment to demonstrate safe work procedures, and to demonstrated employability, leadership, and organizational skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1250 - Dining Room Management

The various types of service appropriate to coffee shops, dining rooms, luncheons, banquets, and buffets. The relationship between menu, equipment, supplies, merchandising, and personnel and patron acceptance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2251 - Food and Beverage Management

Purchasing, receiving, storage, preparation, and service of food and beverages. Including the layout and design of storage and kitchen facilities, scheduling, financial management techniques, personnel management, and sanitation and safety.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
FSS 1120 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2500 - Food and Beverage Cost Control

Materials and labor cost and controls to include inventories, payroll preparation and processing, preparing of reports, insurance and tax procedures, and maximizing economy and profits.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GEA 1000 - World Regional Geography

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1214 - Business and Supervision Terminology

This course is designed for students to achieve mastery of the special vocabulary, jargon, and concept terminology associated with general business and supervision in the modern workplace. Students will apply the terms in common workplace scenarios and hypothetical situations, as well as in standard written documents and assignments.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

GEB 1942 - Internship Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GLY 2010C - Principles of Geology I

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth's interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2100C - Principles of Geology II

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2601C - Introduction to Paleontology

This course is a survey of prehistoric life. Topics include fossilization, systematics, evolution, ecology, extinction, and the geological history of life. Laboratory work covers the anatomy, classification, and ecology of major phyla of both extinct and extant organisms, including monerans, protists, plant, macroinvertebrates, and vertebrate animals. The course involves local and regional fossil collecting trips. This course may be used as a General Education science course for any A.S program, and may be used as a category III General Education science course for the A.A. degree.

Credit Hour(s): 4 Credit Hours When Offered: (Fall or Spring)

GRA 1151C - Illustration I

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
▲Technology-Across-the-Curriculum Course.

GRA 1152C - Illustration II

An advanced graphic design course building upon the skills covered in Illustration I; the course includes increased challenges relating to conceptual skills and multi-software integration relating to typical print-based design problems. Access to an appropriate high quality digital camera is required.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2140C - Multimedia I

An advanced course covering the development of multimedia projects incorporating a variety of digital media elements. Students will learn an industry standard digital video editing application and the aesthetic and technical considerations involved in content acquisition. Access to a miniDV camcorder suggested.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ART 2602C , GRA 1151C and PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2141C - Multimedia II

An advanced course covering principles of design and information architecture surrounding interactive multimedia presentations. Students will learn an industry standard interactive DVD media authoring software application. Students will produce a finished interactive DVD.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 2140C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2190C - Graphic Design I

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

GRA 2191C - Graphic Design II

An advanced Graphic Design course covering the aesthetics and challenges associated with producing complex multi-page printed communications. Access to an appropriate high quality digital camera required.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C , GRA 2190C , PGY 1801C .

Note:

▲Technology-Across-the-Curriculum Course.

GRA 2900 - Independent Study – Graphic Art

This course covers the practical treatment of Graphics/Printing Technology. Emphasis is on individual work projects.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C or PGY 1801C

GRA 2905 - Independent Study – Graphic Design

The student will initiate independent computer related work, utilizing various software and hardware. The course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
GRA 1151C or PGY 1801C

Note:
▲Technology-Across-the-Curriculum Course.

GRA 2941A - Internship, Graphic Design

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
GRA 1151C , GRA 2190C , PGY 1801C and permission of the instructor.

GRA 2950C - Advanced Graphic Projects

An advanced Graphic Design course addressing common Graphic Design problems. Students will explore advanced software application functionality and creative, aesthetic, and portfolio development. Access to a high quality digital camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ART 2602C , ART 2603C , GRA 1151C , GRA 2190C , PGY 1801C .

Note:
▲Technology-Across-the-Curriculum Course.

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1250 - Hotel and Resort Operations

This course acquaints students with the operation of a hotel, motel and resort including front office procedures in registering, accounting for and checking out guests, promotional and sales practices, housekeeping, interior decoration, purchase of furniture, carpeting, linens and supplies, maintenance and engineering of a practical nature, facilities specifications, purchasing and storage.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1300 - Managing Housekeeping Operations

Provides an overview of the fundamentals of housekeeping management. Describes management functions, tools, and practices required in today's lodging and institutional housekeeping departments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1410 - Front Office Management

This course guides students through all the skills including directing the activities and solving the complex problems, needed to properly manage the front office of a hotel/motel/resort. The course also acquaints students with the operation of all the departments as they apply to their primary responsibility of selling rooms and serving guests.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1500 - Marketing and Sales in the Hospitality Industry

How to sell and promote the many services the food service/lodging industries offer guests. How to operate a sales and convention department.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2210 - Hospitality Management

Training in the techniques involved in the supervision of employees, developing sound relations with other departments, group discussions, and methods of improvement and development of cost consciousness. Job Analysis and job description techniques are developed.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2223 - Human Relations and Supervisory Development

Designed to provide specific application of proven training systems and methods for managers in the hospitality industry.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HFT 2210 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2600 - Hospitality Law

Nature and function of our legal system as it applies to the operation of an INN. Innkeeper-guest relationship, contracts, torts, civil rights and insurable risks are emphasized.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2940 - Hospitality Internship

This course consists of on-the-job experience supplied by the hotel-motel-resort- restaurant industries. Job placement will be dependent upon the availability of participating hospitality institutions. The course consists of 30 hours per semester of on-the-job instruction accompanied by a seminar class.

Credit Hour(s): 1 Credit Hour When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2941 - Hospitality Internship

This course consists of on-the-job experience supplied by the hotel-motel-resort- restaurant industries. Job placement will be dependent upon the availability of participating hospitality institutions. The course consists of 60 hours per semester of on-the-job instruction accompanied by a seminar class.

Credit Hour(s): 2 Credit Hours When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 2942 - Hospitality Internship

This course, an extension of Hospitality Internship (HFT2941), consists of on-the-job work experience supplied by the hotel, motel, resort and restaurant industries. Students will concentrate on 3 specific areas or functions that are career-goal oriented. Job placement will be dependent upon availability of participating hospitality institutions. The course consists of 90 hours of on-the-job instruction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1000 - Health Information and Delivery Systems

Orientation to medical records history and professional associations. Confidentiality, filing, retrieving, indexing, numbering, storage and content of the medical record is also discussed. The course includes job search skills and professional job performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1012 - Health Care and Legal Compliance

In-depth study of federal, state, local laws governing preparation, and use of the healthcare record in the healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1432 - Pathopharmacology

Introduction to the nature, cause, and treatment of disease entities and the body's defense mechanisms. Commonly used drugs will also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1442 - Pharmacology for HIM Professionals

Pharmacology for HIM Professionals provides an overview of the pronunciation, spelling, actions and side effects of the most commonly prescribed medications. The course will examine pharmacological terms, abbreviations, and symbols used by healthcare providers to write prescriptions.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2253 - CPT Coding - Part 1

Instruction and practice in basic CPT coding conventions, principles of classifying physician services using current procedural terminology (CPT-4), APC, and auditing procedures. Ethical standards of practice will be analyzed.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HSC 1531 , BSC 1080 , HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
(Previously listed as HIM1253)

HIM 2272 - Healthcare Reimbursement

Emphasis on billing regulations for the State of Florida. Course content includes LMRPS, Workers' Compensation laws, Florida Medicare, and claims for automobile accident injuries.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
HIM 2253 and HIM 2724 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2291 - CPT Coding Part 2

This is an advanced course in ICD, CPT and HCPCS coding systems. Students will learn guidelines and applications to more complex case studies and health records according to current ethical standards of practice, inpatient and outpatient prospective payment systems, encoding software and RBRVs.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HIM 2253 and HIM 2729 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

HIM 2724 - ICD Coding Part 1

This course provides a foundation using ICD-10-CM/PCS coding conventions, rules, methodology and sequencing, data sets, documentation requirements, and coding resources.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
HSC 1531 , BSC 1080 , HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2729 - ICD Coding Part 2

This course focuses on assigning appropriate ICD, DRG, and Level II (HCPCS) codes to a wide range of original source medical documents. This course increases the quality of code selection by applying the decision process in problem solving using well-defined medical record review methods and guidelines. Ethical practices will be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
HIM 2724 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2815C - Professional Practice Experience

Working in a simulated, online environment, students will endeavor to code and bill using nationally recognized, American Health Information Management Association (AHIMA) simulation software.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):
HIM 2291 and HIM 2729

HIM 2931C - Special Topics in Health Information Technology

This course is a review of skills and work processes to support classification and coding to become nationally certified in-field. Effective test-taking strategies for certification exams and employability skills will be discussed.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):
HIM 2291 and HIM 2729

Note:
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HSA 1100 - Introduction to Health Care

This course provides an overview of the United States Healthcare System, including the economic, social, political, and technological forces that shape the industry. The role of state and federal government and regulatory agencies in healthcare delivery is examined. The fundamental roles and responsibilities of healthcare team members are surveyed. Healthcare safety, security, and infection control procedures will also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

HSC 1531 - Medical Terminology

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1905A - Independent Study – Arts and Humanities

A defined independent study which is pursued under supervision of a faculty directing teacher and recorded through departmental procedures. Designed to permit a student to pursue nonscheduled academic and laboratory work which may be of a specialized or advanced nature and not available through classes or courses available on a college schedule. Departmental approval is required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
approval from department chair, a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

HUM 2250 - Humanities – A Contemporary Perspective

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2920 - Humanities Colloquium

Humanities Colloquium is a lab designed to introduce students to critical visual and listening skills to become an intelligent arts consumer. Initial lecture sessions are devoted to discussions of the elements of analysis of art works, music pieces, theater

performances, and dance presentations. Students will be required to attend selected NWFSC Visual and Performance Arts presentations and to write a short critical review of each. Topics may vary.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s): placement test may be required.

HUM 2930 - Humanities – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

IDS 2220 - Issues in Science and Religion

This course will explore and relate scientific and religious conceptions of the natural world. Survey of major scientific discoveries and theories that both challenge and inform religious belief (including Big Bang cosmology, geologic time, evolutionary biology and paleontology, and Earth systems/global change). Survey of the historic role of religion and religious cosmologies in the rise of science, types of religious experience, concepts of God and divine action, the idea of the sacred as the ground for meaning in nature, natural theology and theology of nature, intelligent design, varieties of creationism, and various metascientific proposals (Anthropic Principle, Gaia Hypothesis, Biophylia, Deep Ecology). Emphasis is placed on integrating and harmonizing scientific and religious understandings to develop a more meaningful and informative, contemporary worldview.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note: This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ISC 1003 - Natural Disasters – Causes, Consequences, Human Response

This interdisciplinary course investigates natural catastrophic events, such as earthquakes, volcanic eruptions, tsunamis, hurricanes and floods. This class will use an environmental studies approach to examine how modern society exacerbates the damage caused by these natural phenomena and methods to mitigate human suffering. The student will gain an appreciation of humankind's relationship to the natural environment.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ISS 1905 - Independent Study – Social Science

Directed study and individual projects designed to meet the needs of students interested in a specialized area of the social sciences for which present course availability is limited.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Note: This course may be taken up to four times for credit.

LEI 1544 - Outdoor Recreation Management

This course examines the fundamental influences on outdoor recreation. The course also provides information on hazards, conservation considerations, and safety factors in planning and organizing outdoor recreations. Basic first aid, CPR, and AED training is incorporated as it pertains to outdoor recreation. Field trips may be assigned as warranted.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

LIN 1670 - Writing and Grammar

The course includes practice in writing short essays and encompasses a comprehensive review of grammar and mechanics. This course is strongly recommended for students who have completed Developmental Writing, those who want a preparation for Composition, or those who score 103-116 on the PERT.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
A passing score on the standardized placement test measuring communications/verbal achievement, successful completion of any required developmental English coursework with a minimum grade of "C", or exemption from placement testing.

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):
a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:
▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):
ENC 1101 .

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature I

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall) Prerequisite(s):
ENC 1101 .

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature II

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Spring) Prerequisite(s):
ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2335 - Introduction to Children's and Adolescent Literature

Designed to explore the range and diversity of the children's literary canon, surveying the historical development of children's and adolescent literature (pre-school to eighth grade) and the construction of socio-cultural influences. While the focus is predominantly on classic works from the tradition of American and British fiction, poetry, folklore and fairy tales, drama, and picture books, the course nonetheless addresses multi-cultural issues and texts in order to broaden the cultural vision provided by the literary study. This course will be a General Education elective, but will not meet the Humanities or English General Education requirements. Course has international/diversity focus for Teacher Education program common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ENC 1101 .

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

LIT 2603 - Literature of War in the 20th Century

Designed to investigate the historical, psychological, and universal issues that face societies in times of war, through analysis of a range of literary genre and texts, including fiction, poetry, drama, letters, and memoirs focusing on wars of the modern era. The approach is global, but concentrates heavily on the war experiences of the United States. This course will be a General Education elective, but will not meet Humanities or English General Education requirements. Course has International/Diversity focus for Teacher Ed program common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ENC 1101 .

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105L - College Algebra Lab

A hands-on lab designed to improve students' success rates in the College Algebra course. Students will work on all topics covered in MAC 1105 . Emphasis will be placed on strengthening algebraic skills through a variety of nontraditional approaches to learning, including small group collaboration and computer-based interactive learning. Meets specific general education requirements. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAT 1033A or equivalent with a "C" or better, or appropriate placement scores

Corequisite(s):
MAC 1105 .

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better

in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
completion of MAC 2312 with a grade or “C” or better, or equivalent.

MAT 1033A - Intermediate Algebra

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

MAT 1033L - Intermediate Algebra Laboratory

A hands-on lab designed to improve students' chance for success in the MAT1033A Intermediate Algebra course. Students will work to strengthen skills required to master the topics covered in Intermediate Algebra. The topics include, but are not limited to, factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAT 0028 or equivalent with a grade of "C" or better, or a score of 110-122 on the PERT, or on an elective basis with a score of 123 or higher on the PERT.

Corequisite(s):
MAT 1033A

Note:
*Students scoring 110-113 on the PERT may enroll in MAT 1033A if they also enroll in MAT 1033L. Students should see an academic advisor.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

MET 1010C - Introduction to Meteorology

Structure of the atmosphere; weather processes, systems and phenomena; climate and climatic change, economic impact of weather. May be used to satisfy the AA degree Physical Science requirement for career goals other than sciences, engineering and pre-professional fields.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAT 1033A or higher mathematics course with a grade of "C" or better or equivalent or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or higher mathematics course with a grade of "C" or better or equivalent or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MKA 2021 - Professional Selling

Selling, correct attitudes and personal attributes for dealing with the public on a business or professional basis.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2511 - Introduction to Advertising

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1346 - Supervision II

The course presents a continuing study of the functions of a personnel manager, philosophy of general management, employee socioeconomic climate and other information. Included are orientation, training, labor unions, safety, health and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2141 - Leadership Techniques

This interdisciplinary course addresses leadership in a group setting and focuses on leadership development through discussion,

readings, group and individual projects and other applied activities.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MSL 1001 - Foundations of Officership

This course examines the unique duties and responsibilities of officers, organization and role of the Army, reviews skills pertaining to fitness and communication, and analyzes Army values and expected ethical behavior. Requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 1 Credit Hour When Offered: (Fall)

MSL 1002 - Basic Leadership

This course presents fundamental leadership concepts and doctrine, the practice of basic skills that underlie effective problem solving, and examines the officer experience. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 1 Credit Hour When Offered: (Spring)

MSL 2101 - Individual Leadership Studies

This course develops knowledge of self-confidence and individual leadership skills. It develops problem solving and critical thinking skills, as well as how to apply communication, feedback, and conflict resolution skills. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 2 Credit Hours When Offered: (Fall)

MSL 2102 - Leadership and Teamwork

This course focuses on self-development guided by knowledge of self and group processes, challenges current beliefs, knowledge, and skills. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 2 Credit Hours When Offered: (Spring)

MSL 2905 - Independent Study – Military Science and Leadership

Directed study and/or individual project designed to meet the needs and interests of students in ROTC. This course develops knowledge of self, self-confidence, and individual leadership skills. It develops problem and critical thinking skills, as well as how to apply communication, feedback, and conflict resolution skills. This course requires participation in a weekly one-hour leadership laboratory. Students are required to participate in a one-hour physical training session three times a week and will be evaluated on their performance of the Army Physical Fitness Test.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
ROTC sophomore standing and departmental approval.

Note:
This course may be taken up to four times for credit.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary

administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
completion of MAC 1105 or equivalent with a “C” or better.

MUH 2930 - Music Humanities – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUM 1620 - Audio and Acoustic Fundamentals

Audio and Acoustic Fundamentals explores the basics of audio systems and equipment and the acoustical environment in which they are used. Emphasis is placed on equipment terminology, function and acoustical listening. The two basic fundamentals are summed together to begin laying the basic foundation required to operate audio and recording equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MUM 2300 - Introduction to the Music Industry

This course is an introduction to the history, principles, and practices of the music industry. Topics will include music publishing,

copyright, distribution, industry organization, producing, and general business functions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

MUM 2600 - Recording Techniques I

This course is designed as an introduction to basic audio engineering and studio practices. Listening exercises, phychoacoustics, microphone characteristics, and studio etiquette will be studied. In addition the student will study techniques and practices and procedures of multi-track recording, acoustical balancing, editing, and over dubbing in a variety of situations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MUM 1620

MUM 2601 - Recording Techniques II

This course explores advanced multi-track recording skills and audio production techniques, edits, use of outboard equipment and live multi-track recording.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MUM 1620 , MUM 2600 .

MUM 2604 - Multi-Track Mixdown (Post Production)

This course explores the application of signal processing equipment as it relates to multi-track master mixdowns. In addition, software and hardware application of mixdown is applied to post-production practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MUM 1620 , MUM 2600 , MUM 2601 .

MUN 1000 - Summer Ensemble Workshop

An ensemble workshop open to any student who desires to improve vocal and physical presentation skills. A variety of musical physical styles will be studied and performed. Students participating in Summer Ensemble Workshop will be expected to participate in several scheduled performances.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
experience in high school or a desire to learn.

MUN 1001 - Summer Ensemble Workshop II

An ensemble workshop and performance to improve vocal and physical presentation skills. A variety of musical physical styles will be studied and performed. Students participating in Summer Ensemble Workshop II will be expected to participate in several scheduled performances.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
MUN 1000 .

MUN 1002 - Summer Ensemble Workshop III

An ensemble workshop open to any student who desires to improve vocal and physical presentation skills. A variety of musical physical styles will be studied. Students participating in Summer Ensemble Workshop will be expected to participate in several scheduled performances.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
MUN 1000 , MUN 1001 .

MUN 1140C - Wind Ensemble I

An instrumental ensemble providing an outlet and learning experience to study and perform standard wind band literature, to

improve individual instrumental skills, and to sharpen ensemble techniques. The Wind Ensemble performs in both on and off campus venues.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
experience in high school or community band programs.

Note:
This course may be taken up to four times for credit.

MUN 1310 - Women's Ensemble

A music organization open through auditions to any student having experience in reading music. A variety of musical styles will be studied and performed. Students electing NWFSC Chorus will be expected to participate in scheduled performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
Experience in high school choruses or choirs.

Note:
This course may be taken up to four times for credit.

MUN 1340A - NWFSC Show Choir I

A study of the fundamental techniques and principles of integrating dance, voice, music and acting into a performance show choir. Training in voice, jazz movement, character interpretation and personality presentation is covered. Membership is open to all part-time or full-time students on a credit or audit basis. All music majors and performance majors must participate. The show choir appears in public performances at frequent intervals throughout the year.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
Audition, consent of department, music or performance minor.

Note:
This course may be taken up to four times for credit.

MUN 1360 - Madrigal Singers I

Auditioned a cappella ensemble teaching choral styles that range from the Renaissance madrigal to present day, such as vocal jazz, spirituals and contemporary choral works. This course if for the "first year" student.

Credit Hour(s): 1 Credit Hour When Offered: (Offered Fall, Spring) Prerequisite(s):
Audition based on vocal quality, musicianship and sight reading ability.

Note:
This course may be taken up to four times for credit.

MUN 1390 - Symphony Chorale I

A music organization open through auditions to any student. The Symphonic Chorus will study and perform literature for the large sized chorus.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
audition or permission of instructor.

Note:
This course may be taken up to four times for credit.

MUN 1421 - Flute Ensemble

The study and performance of flute ensemble and flute choir music in a musical group.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
audition or instructor recommendation only.

Note:

This course may be taken up to four times for credit.

MUN 1710A - Rock and Jazz Ensembles I

Music performing organization open to any student who wants to develop his or her performance repertoire. Laboratory studies include techniques of performing music, literature, practices, styles and media applicable to designated organized ensemble.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
Some experience in high school bands, etc.

Note:
This course may be taken up to four times for credit.

MUN 1711 - Jazz Workshop

The study and performance of jazz music in the context of the small ensemble. This will be accomplished through the performance of both stock arrangements and student arrangements. Instrumentation: 5 wind, 4 rhythm, voice.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
Strong music performance background with basic knowledge of the jazz idiom.

Note:
This course may be taken up to four times for credit.

MUN 1720A - Rock and Jazz Ensembles II

Music performing organization open to any student who wants to develop his/her performance repertoire. Laboratory studies include techniques of performing music, literature, practices, styles and media applicable to designated organized ensemble.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
experience in high school bands.

Note:
This course may be taken up to four times for credit.

MUN 2141C - Wind Ensemble II

An instrumental ensemble providing an outlet and learning experience to study and perform standard wind band literature, to improve individual instrumental skills, and to sharpen ensemble techniques. The Wind Ensemble performs in both on and off campus venues.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
experience in high school or community band programs.

Note:
This course may be taken up to four times for credit.

MUN 2311 - Women's Ensemble II

A music organization open through auditions to any student having experience in reading music. A variety of musical styles will be studied and performed. Students electing Women's Ensemble will be expected to participate in scheduled performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1310

Note:
This course may be taken up to four times for credit.

MUN 2361 - Madrigal Singers II

Auditioned a cappella ensemble teaching choral styles that range from the Renaissance madrigal to present day, such as vocal

jazz, spirituals and contemporary choral works. This course is for the "second year" student.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1360 .

Note:
This course may be taken up to four times for credit.

MUN 2371 - NWFSC Show Choir II

A study of the fundamental techniques and principles of integrating dance, voice, music and acting into a performance show choir. Training in voice, jazz movement, character interpretation and personality presentation is covered. Membership is open to all part-time or full-time students on a credit or audit basis. All music majors and performance majors must participate. The show choir appears in public performances at frequent intervals throughout the year.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1340A .

Note:
This course may be taken up to four times for credit.

MUN 2392 - Symphony Chorale II

A music organization open through auditions to any student. The Symphony Chorus will study and perform literature for the large sized chorus.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUN 1390 .

Note:
This course may be taken up to four times for credit.

MUS 1905A - Independent Study – Music

A defined independent study which is pursued under supervision of a faculty directing teacher and recorded through departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized or advanced nature and not available through classes or courses available on a college schedule. Departmental approval required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of “C” is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
Approval from department chair, a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

MUS 2930 - Music – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Note:
*This course may be taken up to four times for credit.

MUT 1001 - Fundamentals of Music

A pre-theory course for the music major, non-music major, or for the elementary education major.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MUT 1121 - Music Theory I - Ear Training and Sight Singing

A study of the fundamentals of basic musicianship, music notation, understanding of simple rhythms, key situations, intervals, ear training, dictation, sight singing, major and minor scales, intervals, triads, chords, polyphonic composition and elementary keyboard work.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
MUT 1001 or instructor permission.

Note:
▲Technology-Across-the-Curriculum Course.

MUT 1122 - Music Theory II - Ear Training and Sight Singing

A continuation of MUT 1121 . Basic musicianship, writing and reading of music, ear training, dictation, sight singing will be studied, as well as major and minor scales, intervals, triads, seventh chords, inversions, cadences, periods and progressions in all keys. Two, three and four part chords and polyphonic composition.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
MUT 1121 .

Note:
▲Technology-Across-the-Curriculum Course.

MUT 2126 - Music Theory III – Ear Training and Sight Singing

A continuation of MUT 1121 and MUT 1122 . The harmonization and modulation of melodies through the use of nondominant harmony and the study of sequence writing. Incorporates keyboard harmony plus sight reading of chromatic melodies, large intervals, and advanced rhythms.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
MUT 1122 .

MUT 2127 - Music Theory IV – Ear Training and Sight Singing

The continued study of harmonization of melodies, sequence writing, sight reading, intervals, advanced rhythms and structures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
MUT 2126 .

MUT 2351 - Introduction to Jazz Theory/Arranging

A lecture-demonstration-workshop, approach to jazz/ pop arranging open to any student who wants to begin or understand composing/arranging. Studies include jazz/pop harmonies, arranging fundamentals and techniques, and the use of jazz/pop instrumentation. Workshop practices include assigned arrangements with the arrangements played by the jazz ensemble, and other audio demonstrations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MUT 1122 .

MVB 1201 - Applied Music Secondary – Brass I

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For nonmusic majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVB 2202 - Applied Music Secondary – Brass II

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For nonmusic majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVB 1201.

Note:
This course may be taken up to four times for credit.

MVK 1211 - Applied Music – Piano I

Private instruction in piano, as secondary instrument, consisting of one half-hour lesson per week. Minimum of one hour daily practice is required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVK 1311 - Applied Music - Piano I for Majors

Private instruction in Piano in the freshman year of study as the student's principal performing medium. This one hour, weekly lesson is for intended piano majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which three-four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVK 1211 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

MVK 2221 - Applied Music – Piano II

Private instruction in piano, as a secondary instrument, consisting of one half-hour lesson per week. Minimum of one hour daily practice is required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVK 1211.

Note:
This course may be taken up to four times for credit.

MVK 2321 - Applied Music - Piano II for Majors

Private instruction in Piano in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended piano majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which a memorized sonata movement and three-four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MVK 1211 , MVK 1311 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

MVP 1201 - Applied Music Secondary – Percussion I

Private instruction in percussion instruments to develop the student's performance ability in an applied area. One half-hour private lesson per week. Minimum of one hour daily practice is required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVP 2202 - Applied Music Secondary – Percussion II

Private instruction in percussion instruments to develop the student's performance ability in an applied area. One half-hour private lesson per week. Minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVP 1201 .

Note:
This course may be taken up to four times for credit.

MVS 1016 - Applied Strings – Guitar I

Private instruction on guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

MVS 1017 - Applied Strings – Bass Guitar I

Private instruction in guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVS 1111 - Class Guitar

The study of basic techniques for the beginning and continuing student.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Note:
This course may be taken up to four times for credit.

MVS 1201 - Applied Music Secondary – Strings I

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

MVS 2026 - Applied Strings – Guitar II

Private instruction in guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVS 1016 .

Note:
This course may be taken up to four times for credit.

MVS 2027 - Applied Strings – Bass Guitar II

Private instruction in guitar. Designed to equip the student for continuing study leading progressively to greater proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVS 1017 .

Note:
This course may be taken up to four times for credit.

MVS 2202 - Applied Music Secondary – Strings II

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music

majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVS 1201 .

Note:
This course may be taken up to four times for credit.

MVV 1211 - Applied Music – Voice I

Private instruction in voice, as a secondary instrument, consisting of one half-hour session per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

MVV 1311 - Applied Music - Voice I for Majors

Private instruction in voice in the freshman year of study as the student's principal performing medium. This one hour weekly lesson is for intended voice majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVV 1211 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

MVV 2221 - Applied Music – Voice II

Private instruction in voice, as a secondary instrument, consisting of one half-hour lesson per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVV 1211 .

Note:
This course may be taken up to four times for credit.

MVV 2322 - Applied Music - Voice II for Majors

Private instruction in voice in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended voice majors, and requires Division Chair Approval. A major component of this class is a required juried performance at the end of the semester for which six memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MVV 1211 , MVV 1311 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

MVW 1201 - Applied Music Secondary – Woodwinds I

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVW 2202 - Applied Music Secondary – Woodwinds II

Private instruction: one half-hour private lesson per week. Minimum one hour daily practice. For non-music majors and music majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MVW 1201 .

Note:
This course may be taken up to four times for credit.

NSP 2049L - Nursing Practice Readiness

This elective laboratory course assists the nursing student to prepare for the RN licensure examination (NCLEX-RN). Web-based instructional methodologies allow the student to complete the course within a self-paced time frame. Students practice test taking skills, self-evaluation and other strategies to gain confidence in sitting for the NCLEX-RN.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
NUR 2241C or permission from Nursing Program Director.

Note:
Special Nursing Program policies may apply to this course.

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required clinical nursing courses in the nursing curriculum. Theory content includes an introduction to healthcare systems ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Admission to the AS Nursing Program, BSC 1085C

Corequisite(s):
NUR 1021L

Prereq/Corequisites:
BSC 1086C , HUN 2201

Note:
Special Nursing Program policies may apply to this course.

NUR 1021L - Nursing Process I Clinical Experience

This course introduces students to the role of the Associate Degree Nurse in providing direct, holistic nursing care to young, middle-aged and older adults who are hospitalized or in community settings. Students are introduced to all steps of the nursing process with a focus on assessment skills. Students will identify self-learning needs and set their own goals for improvement. Critical thinking and working effectively with peers and other healthcare professionals as a team member is expected. The demonstration of caring behaviors and therapeutic communication as a provider of bedside, technical nursing care is emphasized. Students must demonstrate safe performance of basic nursing skills, including but not limited to medication administration, physical assessment, and comfort care.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Admission to the AS Nursing Program

Corequisite(s):
NUR 1021C .

Note:
Special Nursing Program policies may apply to this course.

NUR 1141 - Pharmacologic Principles in Nursing I

This course introduces students to concepts and principles of pharmacology related to safe administration of therapeutic agents within the nursing process framework. Students begin to learn major drug classifications and selected exemplars along with principles of safe, effective administration of drugs. Students will learn dosage calculations, factors that affect the absorption, excretion, distribution, and metabolism of drugs, as well as drug actions, adverse effects, and interactions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
Admission to the AS Nursing Program

Note:
Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

An introduction to the role of the associate degree nurse in providing direct, holistic nursing care to young, middle-aged and elderly adults who are hospitalized or receiving care in community settings. Emphasis is on applying all steps of the nursing process with focus on assessment skills. Pre-requisite college foundation and nursing courses provide theoretical bases for nursing care. Critical thinking is an expected behavior along with skills in working ethically and effectively with peers and other health care professionals as a team member; demonstrate caring behaviors and therapeutic communication with clients as a provider of bedside, technical nursing care. The student is expected to demonstrate safe performance of basic nursing skills, e.g., medication administration, physical assessment and comfort care of hospitalized adults and nursing home residents.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):
NUR 1231C and NUR 1750L

Note:
Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 1021L NUR 1021C and NUR 1141 ;or LPN licensure; admission to the AS Nursing Program or permission from the program director

Corequisite(s):
NUR 1750L and NUR 1142

Prereq/Corequisites:
DEP 2004 and BSC 1086C

Note:
Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics,

and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Students continue to develop management skills through conflict management and other professional behaviors. Students demonstrate safe performance of all basic and more complex nursing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 1021L or LPN licensure

Corequisite(s):
NUR 1231C .

Note:
Special Nursing Program policies may apply to this course.

NUR 1940L - Nursing Clinical Externship

This elective course is designed to offer students the opportunity to gain additional clinical skills practice during the summer semester. Working with a preceptor and the nursing faculty in area hospitals, clinics, or community settings , the student will be able to perform all skills learned in successfully completed nursing courses.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
admission to the AS Nursing Program; NUR 1750L

Note:
Special Nursing Program policies may apply to this course.

NUR 2233C - Nursing Process III

Students continue to use the nursing process and critical thinking with emphasis on primary and secondary prevention as nursing interventions in clients experiencing threats to functional health patterns, including during the childbearing process and children whose normal lines of defense have been invaded by stressors to the degree that hospitalization is necessary. Nursing practice issues continue to focus on ethical-legal issues related to acute and/or chronic illness and disability. Management skills include delegation and career development.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 1231C & NUR 1142 or approval from the program director.

Corequisite(s):
NUR 2233L and MCB 2010C

Note:
Special Nursing Program policies may apply to this course.

NUR 2233L - Nursing Process III – Clinical Experience

Students continue to apply knowledge and skills learned in previous nursing courses in providing nursing care for the hospitalized child, the family during the maternity cycle, and adults whose health problems are more complex and/or chronic. Clinical sites include hospitals, health departments, clinics, physician offices, schools and other community settings. Conflict resolution skills are applied, as needed, to meet client and/or peer learning goals. Delegation skills with peers are also practiced. Students demonstrate continuation of all previously learned nursing skills and must perform safely all advanced nursing skills in this clinical course.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 1750L

Corequisite(s):
NUR 2233C .

Note:
Special Nursing Program policies may apply to this course.

NUR 2241C - Nursing Process IV

Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Students differentiate holistic nursing care therapies in primary, secondary and tertiary care settings. Students become proficient in applying all steps in the nursing process with emphasis on evaluating nursing care outcomes. Students apply critical thinking skills in exploring case-based practice situations and work together in simulation seminars to select effective client care improvement processes. Self-evaluation is part of the socialization process to prepare students for the work world as competent, caring staff nurses. Nursing practice issues include licensure standards and continued professional development.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Permission from the Director of Nursing or NUR 2233C ; MAC 1105 or STA 2023

Corequisite(s):
NUR 2241L , NUR 2811L

Prereq/Corequisites:
SYG 2000

Note:
Special Nursing program policies may apply to this course.

NUR 2241L - Nursing Process IV – Clinical Experience

Students apply knowledge and principles of the biophysical and psychosocial sciences to assess, plan, implement and evaluate holistic nursing care of critically ill adults in hospitals, ambulatory care settings, and the home. Students will expand on management of care skills in preparation for their four-week clinical practicum prior to graduation from the program. Students will also shadow a home health/hospice nurse in observing treatment and palliative care of adults and children. Other clinical activities will include experiences in the emergency department and critical care units. Students must demonstrate competency in all behaviors required for an Associate Degree Nursing graduate.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L

Corequisite(s):
NUR 2241C , NUR 2811L

Note:
Special Nursing Program policies may apply to this course.

NUR 2811L - Nursing Practicum

This course is a capstone course and provides a time during the last four weeks of the nursing program in which students begin to transition from the student role into the graduate role as an associate degree nurse. Students attend seminar hours and complete standardized testing for evaluation in proficiency in applying all steps in the nursing process with emphasis on evaluating safe nursing care outcomes. Students complete clinical practice hours with an experienced registered nurse preceptor to provide holistic nursing care for a limited number of clients. The focus is on demonstration of all professional behaviors and competencies expected of the associate degree registered nurse graduate at entry level. Clinical experiences provide hands-on learning opportunities, enhancing clinical thinking, safe nursing judgment, and clinical confidence in skills. Clinical experiences take place in a variety of clinical settings and work schedules.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L

Corequisite(s):
NUR 2241C , NUR 2241L

Note:
Special Nursing Program policies may apply to this course.

NUR 2931 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving.

Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 1 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
admission to the AS Nursing program; permission of Nursing program Director.

NUR 2932 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
admission to the AS Nursing program; permission of Nursing program Director.

NUR 2933 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
admission to the AS Nursing program; permission of Nursing program Director.

NUR 2934 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
admission to the AS Nursing program; permission of Nursing program Director.

NUR 2935 - Special Topics in Associate Degree Nursing

Students work individually to enhance nursing knowledge and skills applicable to selected topics in Associate Degree Nursing. AD nursing competencies provide the framework for learning prescriptions which include critical thinking and problem-solving. Seminars, journals, CAI, written assignments and student – instructor conferences guide students in meeting course objectives. Flexible schedule.

Credit Hour(s): 5 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
admission to the AS Nursing program; permission of Nursing program Director.

OCE 1001C - Oceanography

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

OCE 1013C - Aquatic Environmental Science

This course will investigate living and non-living components of aquatic ecosystems. Students will learn how aquatic ecosystems function naturally as well as how human activity can alter these ecosystems. The course is built around field trip(s) and lab work during which students will obtain water quality data from a local aquatic environment. Through field trip(s) and lab work, students

will gain appreciation for the local relevance of course material. For both majors and non-majors, a key outcome of such experiences will be gaining experience in using inquiry and reasoning through the scientific method and becoming comfortable with data, technology, and instrumentation. Problem-solving, interpretation of data, and class discussions will be key.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

OST 1107 - Word Processing I

Integration of basic keyboarding and word processing – learning the keyboard, creating, editing, saving, and other word processing functions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2117 - Word Processing II

Continuation of Typing and Word Processing I – develop keyboarding and document processing using a microcomputer.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
OST 1107 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PEL 1212A - Advanced Softball

Instruction, practice, and participation in advanced softball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1213 - Advanced Softball II

This course is a continuation of Advanced Softball, which consists of instruction, practice, and participation in advanced softball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
PEL 1212A (Athletes)

PEL 1217A - Advanced Baseball

Instruction, practice, and participation in advanced baseball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1219 - Advanced Baseball II

This course is a continuation of Advanced Baseball, which consists of instruction, practice, and participation in advanced baseball. The continuous development of physical skills is of major importance in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
PEL 1217A (Athletes)

PEL 1624M - Advanced Basketball (Men)

This course is a high intensity, drill-oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1624W - Advanced Basketball (Women)

This course is a high intensity, drill oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including: rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

PEL 1626M - Advanced Basketball II (Men)

This course is a continuation of Advanced Basketball for Men, which consists of a high intensity, drill -oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
PEL 1624M (Athletes)

PEL 1626W - Advanced Basketball II (Women)

This course is a continuation of Advanced Basketball for Women, which consists of a high intensity, drill -oriented program designed to increase the knowledge, skill ability, and endurance levels of individuals interested in basketball. Instruction includes various aspects of the game of basketball including rules and regulations, basic fundamentals, offensive set, defensive sets, and scouting procedures. Instruction will be given through classroom lectures, as well as on-the-court lectures and activities. It is strongly recommended that students participate in an exercise program outside of class hours. It may be recommended and in some cases required that the student obtain medical approval before participating in this course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
PEL 1624W (Athletes)

PEM 1131A - Strength Training

This course is a high intensity lecture/demonstration and flexible lab hour weight training program designed to increase the size, strength, and endurance of the skeletal muscle system. Instruction includes, but is not limited to, weight training safety, etiquette, history, and nutrition. Instruction will be given in the design of progressive resistance programs to increase total body efficiency and to meet the objectives of the individual student. Students are responsible for determining fitness for training, and those with medical problems which restrict personal activities are encouraged to obtain medical clearance before enrolling in the course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PEM 2108 - Fitness Lab

Instruction and participation in an exercise program with emphasis on muscle endurance, strength and flexibility.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
HLP 1081 or approved wellness assessment by the department chair.

Note:
This course may be taken up to four times for credit.

PEO 2004 - Theory and Practice of Teaching a Specific Sport

This course is designed to provide knowledge of the rules, teaching progressions and strategies for competition. The course includes acceptable behavior and ethics for coaches. This course will be offered for the following specific sports: baseball/softball, basketball, football, golf, soccer, swimming, tennis, track and field/cross country, volleyball and wrestling.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PEO 2005 - Coaching Theory

This course is designed to provide knowledge of the characteristics, principles, ethics, and theories related to coaching sports in educational and recreational settings. Emphasis is placed on preparing coaches to train athletes to achieve optimal levels of performance.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 1000 - Introduction to Physical Education

A study of the history of physical education and sport with particular emphasis placed on present practices and trends.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 2622 - Care and Prevention of Athletic Injuries

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PGY 1220C - Commercial Photography I

A beginning course that introduces students to the procedures and aesthetics of developing photographic illustrations for industrial and advertising use. Students will gain experience using a high quality digital studio camera, electronic lighting, and digital applications of their work. It is recommended that students take PGY 1801C prior to or at the same time as this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PGY 1401C - Basic Photography

A beginning course in black and white photographic and darkroom technique. Students will learn the functions of their camera and darkroom equipment. Students will apply their technical knowledge to various artistic challenges. Access to a 35mm camera with manual mode required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

PGY 1405C - Advanced Black and White Photography

An advanced course in black and white photography. Students will be presented with more demanding creative challenges and will be exposed to a variety of advanced procedures in the darkroom. Access to a 35mm camera with manual mode required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
PGY 1401C or equivalent.

PGY 1801C - Digital Photography I

A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:
▲Technology-Across-the-Curriculum Course.

PGY 2221C - Commercial Photography II

As advanced a course that allows the student to expand their skill set in producing photographic illustrations for industrial and advertising use. Students may explore product, portrait, and on-location commercial photographic projects.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PGY 1220C and PGY 1801C .

Note:
▲Technology-Across-the-Curriculum Course.

PGY 2802C - Digital Photography II

An intermediate-level photography course where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PGY 1801C .

Note:
▲Technology-Across-the-Curriculum Course.

PGY 2804C - Digital Photography III

An advanced-level photography courses where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PGY 2802C .

Note:
▲Technology-Across-the-Curriculum Course.

PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2930 - Philosophy – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental

procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

PLA 1003 - Introduction to Paralegal Studies

This course is designed to give students a broad understanding of the nature of the paralegal profession and the elements contained within the profession, as well as its responsibility.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1005 - Legal Terminology

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for students seeking careers in legal secretary technology or legal assisting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1114 - Legal Research and Writing

This course is designed to provide the student with necessary skills and knowledge required in legal research/case analysis and legal writing.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
PLA 1003 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court systems of the various states and the federal government in a non-criminal setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
*This college credit course is not intended for transfer and may not be applied toward the AA degree.

PMT 1203C - Introduction to Machining

In this course, the student will learn how to interpret engineered blueprint drawings, lay out scribe lines and marks for sawing, rough saw and cut materials; utilize precise indicating devices for tramming of machines, indicating vises, sine bars, angle plates, etc. in order to set up and operate various machines; square, face, cut, turn down, and bore material to maintain strict machining tolerances; develop a basic knowledge and understanding of industrial materials to calculate proper speeds, feeds, and RPM's and safely operate heavy-duty industrial machinery.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2150 or equivalent.

PMT 1250C - Introduction to CNC Machining

The history and development of CNC (computer numerical control). Programming methods are reviewed with the emphasis of skills placed on programming, milling, drilling and turning with M and G code preparation. Manual and computer assisted programming are also reviewed. Students will program, set up and operate full size CNC machines found in our manufacturing lab. Projects will be assigned to students with an expectation of performing these tasks on manufacturing equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PMT 2213C - Machining I

In this course students will continue to develop basic machining skills and better utilize machine tool accessories to assist in different machining operations to include: set up and utilize machine tool accessories, vertical knee milling operation, manual lathe operations, manual lathe threading and drill press operations.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
PMT 1203C and ETD 2218 or equivalent experience

PMT 2214C - Machining II

In this course, utilizing the skill sets learned in Introduction to Machining and Machining I the student will bring the machining process together to fabricate a complete assembly. In addition, this course includes an introduction to CNC.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
PMT 2213C or equivalent.

PMT 2261C - CNC Machining I

This course provides training in CNC machine operation and programming. The student will gain technical knowledge and programming methods employed in CNC machining centers. CNC Machine programming, set-up and operations are taught using computer and hands on applications. Metal fabrication processes are taught through lectures, demonstration and student generated projects. Completion of this course offers students technical skills as a CNC operator processes to be applied in various machining and fabrication industries. MasterCam–Lathe is taught to provide the student programming application in CNC machining.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
PMT 1250C or equivalent experience.

PMT 2262C - CNC Machining II

This course will offer students a working knowledge of MasterCam Mill 2-D and Solidworks. This is the second class offered which teaches the student 3-D design using solidworks. An in-depth study of CAD/CAM software, CNC processing methods and the set-up of CNC machining centers. The course lectures and lab offer students hands-on applications using Solidworks generated projects processed with Mastercam tool path software to generate various projects. The student will also learn to calculate machining feeds and Speeds, edit CNC programs and part production for Mill and Lathe.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
PMT 2261C or eqivalent experience.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POT 1002 - History and Ideas of Political Science

This course reviews classical ideas, political theory and institutions from a historical and comparative viewpoint. It examines the rise of the State, its organization, economic systems, the use of force, and persuasion. This course qualifies as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

PSC 2905 - Independent Study – Physical Science

Directed study and individual projects designed to meet the needs of students interested in a specialized area of the physical sciences for which present course availability is limited. Meets specific general education requirements.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

REA 1205 - Reading Across the Genres I

This college-level reading course employs a variety of literary genres as the source material for building student skills in comprehension, context clues, reading speed, critical analysis, vocabulary, and other related reading skills. Students will be exposed to numerous styles and levels of reading material including novels, short stories, critical essays, drama, news reporting. Students will also develop a personal reading preference profile and learn how to identify books, magazines and other reading material commensurate with that profile.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PERT placement score of 106 or higher.

REL 2300 - Introduction to World Religions

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2930 - Religion – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

RTE 1000 - Introduction to Radiologic Technology

This course is designed to provide an overview of the history of radiography and the role and scope of practice of the practitioner in the healthcare delivery system. Organizations, accreditation, federal agencies, regulatory agencies (including OSHA) and professional credentialing will be discussed. Content includes a fundamental background in medical law, ethics, human diversity and patient consent. The student will examine a variety of ethical issues and dilemmas found in clinical practice, as well as developing a better understanding of patients, the patient's families, and professional peers through comparison of diverse populations based on value systems, cultural and ethnic influences, communication styles and socioeconomic influences.

Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed and students will perform required clinical observations in imaging departments. Background check, drug screening, training and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Summer, Offered as needed) Prerequisite(s):
admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography, conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1418 .

Corequisite(s):
RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):
RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures (chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000

Corequisite(s):
RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1804L

Corequisite(s):
RTE 1513C .

RTE 1824L - Radiography Clinical Education III

This course is a continuation of Radiography Clinical Education II. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I and II. The student will gain experience and develop clinical competence in general radiographic procedures such as the cranium and specialized contrast studies. Advanced patient care skills, critical thinking, imaging and exposure techniques, radiation protection application and image processing will be emphasized. This rotation covers clinical experience in all phases of fundamental radiologic procedures and image critique. Students will rotate through ancillary departments in this course.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1814L

Corequisite(s):
RTE 2523C .

RTE 2061 - Radiographic Preparation for Practice

This course is designed review information in preparation for the student to take the American Registry of Radiologic Technologist (ARRT) registry examination. The course will cover patient care and education, image production, equipment operation and maintenance, radiographic procedures and radiation protection. The student will also be given simulated registry examinations for practice and assessment purposes.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2854L .

RTE 2385 - Radiographic Protection and Biology

This course is designed to provide the student with an overview of the principles of interaction of ionizing radiation with living

systems. Ionizing effects on molecules, cells, tissues and the body as a whole are presented, along with factors affecting biological response, including; acute, chronic, stochastic and non-stochastic effects. This course is also designed to present an overview of the principles of radiation protection including the responsibilities of the radiographer for patients, personnel and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and healthcare organizations are incorporated, as are the various methods of monitoring radiation exposure and acceptable dose limit values.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000 , RTE 1418 , RTE 1457C , RTE 2523C

Corequisite(s):
RTE 2844L .

RTE 2473 - Radiographic Quality Assurance

This course is designed to introduce the student to the quality management of medical imaging, including quality control procedures and image analysis/critique of radiographs. This course will include theory and practical applications to routine quality control check on routine, fluoroscopic, mobile, and tomographic radiography equipment. Quality control tests on ancillary equipment, such as film processor, view boxes, grids and leaded protective equipment are also included. Acceptable parameters for QC tests, as established by various regulatory agencies will also be presented. This course teaches the student to critically analyze radiographic images for image quality and diagnostic value, as well as formulating corrective action as needed. Class demonstrations and labs are used to demonstrate application of theory.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1418 , RTE 1457C

Corequisite(s):
RTE 2844L .

RTE 2523C - Radiographic Procedures III

This course is a continuation of RTE 1513C covering cranium procedures and positioning. It is designed to provide the student with instruction in more complex radiographic procedures such as fluoroscopy, urinary studies, bone age, trauma, pediatrics, mobile and surgical radiography. Included is instruction in additional modalities and studies such as CT, MRI, arthography, myelography, and vascular studies. Attention will be given to the specialized equipment, contrast media, critical thinking and techniques necessary to perform these procedures. Radiographic anatomy, pathology, and critique of images are included in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1513C

Corequisite(s):
RTE 1824L .

RTE 2533C - Radiographic Procedures IV

This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2844L

RTE 2571 - Introduction to Computed Tomography

This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):
RTE 1457C

RTE 2782 - Radiographic Pathology

This course is designed to introduce theories of disease causation and the pathophysiologic disorder that compromise healthy persons. Etiology, pathophysiologic responses, clinical manifestations, and radiographic appearance of alterations in body systems will be presented. Emphasis will be placed on pathological findings on diagnostic radiographic images.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2854L .

RTE 2844L - Radiography Clinical Education IV

This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1824L

Corequisite(s):
RTE 2385 .

RTE 2854L - Radiography Clinical Education V

This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2061 .

RTE 2910 - Radiographic Evidence Based Practice

This course is designed to develop the student's research, writing and oral presentation skills; while completing assignments, both independently and collaboratively, with minimal direction and supervision. Methods of research, appropriate style of writing, citing work, and using APA format will be covered.

Credit Hour(s): 1 Credit Hour When Offered: (Fall) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2844L .

Note:
♦This college credit course may not be applied toward the A.A. degree and normally is not intended for transfer unless the student transfers to a baccalaureate in radiologic sciences degree program that is specified under the Florida Statewide AS to BS Articulation Agreement.

SBM 2000 - Small Business Management

This course provides students the opportunity to learn hands-on technical applications regarding entrepreneurship. It is designed for the student who is interested in the ownership and management of a small business enterprise.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SLS 1201 - Service Learning Seminar

A seminar course designed to enhance and reinforce the value of civic responsibility and to provide students with a community service program opportunity by volunteering in community agencies in the public and private sectors.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2511 - Discussion and Debate

This course is designed to provide learning experiences in rational decision making incorporating the techniques of persuasion through organized procedures for argumentation, debate and discussion.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
membership on forensic team.

SPN 1120 - Spanish I

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SPN 1121 - Spanish II

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
SPN 1120 or an equivalent course with a grade of “C” or better.

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2220 - Spanish III

Intermediate level review of grammar, readings in Spanish Literature, and development of conversational and writing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
SPN 1121 or an equivalent course with a grade of “C” or better.

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2221 - Spanish IV

Completion of intermediate level review of grammar, readings in Spanish literature, and development of conversational and writing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

SPN 2220 or an equivalent course with a grade of “C” or better.

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule

requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SYG 2430 - The Family and Society

An examination of the problems which arise out of participation in marriage, family and community situations. Designed to provide students with a basic understanding of the dynamics of family interaction, the effects upon the children, and the family's relationship to and participation in the community.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

TAR 2121C - Architectural Drafting

Architectural design and development of residential and light commercial buildings to include: development and construction of good architectural freehand lettering, VA and FHA approved residential house plans, “Good Sense” house plans as defined in the Arkansas Plan, and heat loss/heat gain calculations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
ETD 1102 or ETD 1112 or equivalent.

TAX 2000 - Federal Income Tax: Individual

Federal Income Taxes. Determine income tax for individuals, interpretations of Internal Revenue Code and Regulation, tax planning and advisory service. Brief introduction to partnership, corporation, estate and gift taxes. Extensive practice problems in individual income tax returns and research in tax questions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
MTB 1103 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

THE 1905A - Independent Study – Theater

A defined independent study which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule. Departmental approval required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):
Approval from department chair, a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

THE 2000 - Theatre Appreciation

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive

investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
ENC 1101

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2820 - Musical Theater Workshop

An introduction to creative dramatics and children's theater. Topics span a wide range of interests; creative experience, children and theater, workshop procedure, script selection, rehearsal and performance.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

THE 2821 - Musical Theater Workshop II

Creative dramatics introduces the many elements of theater: dance, voice and musical theater. Topics span a wide range of interests: the creative process, workshop procedures, rehearsal and performance. Creative Dramatics will focus on producing a final performance.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
THE 2820 .

THE 2930 - Theater – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

TPA 1210 - Stagecraft

This course is an introduction to the principles of stagecraft: stage terminology, stage safety, instruction in proper use of shop tools, basic theater construction methods, understanding of theatrical rigging, and understanding of general background practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPA 1290 - Scenic Design

An introduction to technical theater and scene technology. Topics include scene drawings, safety and health, stage facility, basic crafts, two and three-dimensional scenery, scene painting, scene assembly, rigging, properties, special effects and shop organization.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prereq/Corequisites:
TPA 1210

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2232 - Introduction to Costuming Technology

An introduction to costume techniques and wardrobe practices. Topics span a wide range: costume construction techniques, problems in costumes, costume history, construction styles, sewing machine practices, seam finishes, flat pattern layout and production techniques. This course is intended to develop practical experiences in theater costumes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

TPA 2276C - Entertainment Technology - Crafts

This course presents the practices and principles of advanced woodworking, welding, smithing, casting, ceramics, plaster work, fiberglass and plastic technology for the entertainment industry. State of the art tool technology, shop and field practice, health and safety standards will be emphasized. These crafts are entertainment industry oriented that will use items created in a realized production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
TPA 1210 .

TPA 2331 - Costume Construction

An introduction to costume construction techniques and wardrobe design. Topics span a wide range: costume construction techniques, problems in costumes, costume history, construction styles, sewing machine practices, seam finishes, flat pattern layout and production techniques. This course is intended to develop practical experiences in costume construction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
TPA 2232

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1190 .

TPP 1192 - Rehearsal and Performance III

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills.

Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1191 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
TPP 2110 .

TPP 2141 - Acting in Shakespeare

This course is an introduction to the concepts, principles, and skills needed to develop characters in Shakespeare's plays. The course focuses on the hidden clues in the text to discover character choices and meaning. Specific analysis and the techniques of scansion are introduced as they relate to character interpretation. Application of these techniques will be presented in scenes and monologues.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2150 - Advanced Scene Study

This course is a continuation of the processes and concepts of TPP 2111, Acting II, with the addition of new techniques to create dynamic and engaging characterizations through performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2250 - Introduction to Musical Theatre

Introduction to the study of Musical Theater analysis, creation, and performance with an emphasis on singing, dancing, and acting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2301 - Directing I

A beginning course in the study, development and training in directing for the theater. Although not a prerequisite, students are encouraged to take Acting I and II before Directing I.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2302 - Directing II

Directing II is a continued study of the basic principles of directing for the theater with emphasis in the continued study, development and training in directing for the theater.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
TPP 2301 .

TPP 2533 - Stage Combat I (Unarmed & Rapier)

Through in-class study and performance the student will develop an understanding of and proficiency in the safe techniques of

unarmed and rapier stage combat which are required of a theatrical performer. Application of these techniques will be presented in two scenes, one for unarmed and one for rapier.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

TPP 2930 - Theater Performance – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

WOH 1012 - World Civilization I

A study of world history from 4000 BC to 1650 AD as it relates to the development of western civilization. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1022 - World Civilization II

A study of history from 1650 AD to the present as it relates to the development of the modern world. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Spring) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

Vocational Courses

CJK 0001 - Introduction to Law Enforcement

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to introduce the student to law enforcement, the process for becoming a certified law enforcement officer, and the requirements of the academy program. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0012 - Legal

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to introduce the student to the criminal justice system, the chain-of-command system in law enforcement, Constitutional Law, Florida Statutes, and the Police Code of Ethics. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 63 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0013 - Interactions in a Diverse Community

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enhance student awareness and understanding of human diversity issues and to teach students skills to enable them to effectively interact with people of diverse backgrounds. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0014 - Interviewing and Report Writing

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to help the student learn vital communication skills including interviewing, note-taking, statement taking, and report writing. It also helps the student to develop survival skills, stress management skills, and problem solving skills utilizing the SECURE model. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 54 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0020 - Law Enforcement CMS Vehicle Operations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply vehicle operations knowledge, principles and techniques to the police driving environment. This course includes classroom instruction and practical application on the driving range. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0031 - CMS First Aid for Criminal Justice Officers

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - CMS Firearms

This course is a component of the Law Enforcement/Corrections Florida CMS Basic Recruit Academy. This course is designed to give the student basic skills and knowledge needed to safely operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Law Enforcement Florida CMS or Corrections Basic Recruit Academy.

Credit Hour(s): 81 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Defensive Tactics

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 81 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0064 - Fundamentals of Patrol

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to understand Community Oriented Policing and how it is implemented as a problem solving model, and identify the SECURE problem solving model and its application in real life situations; understand officer safety issues, identify and avoid fatal errors, identify and manage stress, maintain mental and physical fitness; respond to a call, approach a suspect, make an arrest, transport a prisoner and process the prisoner at a detention facility; and understand how to direct traffic, how to enforce traffic citations, identify how to respond to alarms and conduct a building search, and search inventory and impound vehicles. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0065 - Calls for Service

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to respond to calls for service, disturbances, people in distress and court orders. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0077 - Criminal Investigations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to prepare the student to respond appropriately to a person or property crime victim, witness, and suspect; conduct a preliminary investigation on crimes against persons and crimes against property offenses; conduct a follow-up investigation to establish a suspect's identity and/or ascertain facts of the case; and, give testimony in different types of court proceedings. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 51 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0078 - Crime Scene to Courtroom

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to prepare the student to respond to a crime scene, protect and survey a crime scene, process a crime scene, dust for latent prints, and document a crime scene by sketching. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved

articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0084 - DUI Traffic Stops

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to the basic rules for conducting safe and effective DUI stops, including identifying a driver under the influence of alcohol and drugs, conducting field sobriety tests, and completing a DUI investigation. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0087 - Traffic Stops

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to the basic rules for conducting safe and effective traffic stops, including ethical consideration, safety considerations, citation and warning procedures, and dealing with abandoned vehicles. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0088 - Traffic Crash Investigations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to traffic crash investigations, laws pertaining to traffic crashes and procedures for responding to a traffic crash. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0092 - Critical Incidents

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to identify the crowd control procedures to safely and effectively disperse or control a large group of people; understand local emergency response plans; respond to a bomb threat, assesses the scene, search and evacuate a building or suspected bomb sight, identify Weapons of Mass Destruction and properly respond to a WMD incident. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 45 Clock Hours When Offered: (Fall, Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved

articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096A - Criminal Justice Physical Fitness I

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 31 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096B - Criminal Justice Physical Fitness II

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 32 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0240 - Law Enforcement Auxiliary Introduction

This course is a component of the Law Enforcement Auxiliary Basic Recruit Academy. It introduces the student to the criminal justice system. It also introduces an understanding of ethics and professionalism required by a law enforcement auxiliary officer as well as the daily functions to be conducted by an auxiliary officer. This course is open only to students admitted to the Law Enforcement Auxiliary CMS Basic Recruit Academy.

Credit Hour(s): 27 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0241 - Law Enforcement Auxiliary Patrol and Traffic

This course is a component of the Law Enforcement Auxiliary Basic Recruit Academy. It introduces the student to the basic rules for responding to calls, making arrests, and transporting prisoners. It also helps students understand how to direct traffic, enforce citations and maintain crowd control. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and

Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0242 - Law Enforcement Auxiliary Investigations

This course is a component of the Law Enforcement Auxiliary Florida Basic Recruit Academy. It introduces the student to the basic rules for responding, protecting and processing a crime scene. It also introduces how to conduct an investigation and give a testimony in court. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Auxiliary Florida Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0300 - Introduction to Corrections

This course introduces students to the legal and ethical responsibilities of a correctional officer. Legal terms and definitions are explained. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0305 - CJSTC Communications

This course covers the entire report writing process. Topics include interview and interrogation, interpersonal communication, and practical exercises. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0310 - Officer Safety

Correctional officer safety procedures are learned. Students will learn to identify potential hazards and learn how to safely respond. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0315 - Facility and Equipment

Students learn the appropriate procedures for inspecting a correctional facility and equipment. This course is open only to students

admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0320 - Intake and Release

Students learn the appropriate procedures for admitting and releasing inmates in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0325 - Supervising in a Correctional Facility

Students learn the appropriate procedures for supervising inmates in a correctional facility. They also learn to detect crimes and rule violations in various correctional facility settings. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0330 - Supervising Special Populations

Students learn how to identify and supervise special population groups, such as threat groups, juveniles, elderly, and mentally ill inmates. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0335 - Responding to Incidents and Emergencies

Students learn how to identify and respond to situations involving escapes, riots, bomb threats, fires, and medical emergencies in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0340 - Corrections PSAV Physical Fitness

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0422 - Dart-Firing Stun Gun

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare students in the proper use of the Dart Firing Stun in accordance with the Florida State Statutes, the United States Constitution, and case law. It includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 9 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0780 - Cross-Over Law Enforcement to Corrections

This course is a component of the Corrections Cross-Over Basic Recruit Academy. This course is designed to enhance Law Enforcement recruits' awareness and understanding of corrections and to teach student skills which will enable them to cross-train into the corrections profession. This course includes classroom instruction. This course is open only to students who have successfully completed the Law Enforcement Basic Recruit Academy and passed the state certification examination for Law Enforcement.

Credit Hour(s): 16 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

Law Enforcement Basic Recruit Training Program.

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0020 - Pre-Clinical Procedures Theory

This course is designed to provide an introduction to the dental assisting profession to include orientation to four handed dentistry and general dental office procedures including, but not limited to basic principles of disease prevention, patient data collection and assessment, and instrumentation. Emphasis is on adhering to safety guidelines as specified by OSHA.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved

articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0020L - Pre-Clinical Practice Lab

This is a comprehensive chair side competency based course. The course provides the skills practice necessary for dental assisting students entering four handed dentistry practice including but not limited to infection control, taking and recording vital signs, assisting with operative procedures, principles of preventive dentistry, instrument identification, and use and maintenance of equipment. Emphasis is on aseptic technique and clinical competency with procedures performed in a contemporary dental practice.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):
DEA 0020 , DES 0103L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0130 - Allied Dental Theory

This course is a general study of the scientific and clinical concepts that include additional knowledge base necessary to the practice of dental assisting. Students will study the normal and abnormal conditions of the oral cavity such as dental caries prevention, the dental caries process and recognition of various common pathological conditions. Oral pathology, histology and embryology are included. Emphasis is on the interrelationship of the information presented with the clinical practice of dental assisting.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0803L - Clinical Practice I

This competency based clinical course provides a real world setting in which to integrate the laboratory and clinical skills learned in the classroom. The student receives closely supervised hands on training in chair side dental assisting through rotations at community dental offices. Progress is evaluated using predetermined competency guidelines. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 90 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):
DEA 0020 , DEA 0020L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0851L - Clinical Practice III

This course is a continuation of Clinical Practice II, providing a real world setting for students to practice the training and clinical skills learned in class including x-ray film placement and cone positioning. The student is assigned to various offices in the community including specialty offices and general dentistry offices. Students assist the dentist and staff with various function of a Dental Assistant at a more advanced level of proficiency. Students must provide their own transportation and must have current CPR training along with up-to-date immunizations. Specific procedure requirements and 180 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 180 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DEA 0803L , DEA 0852L , DES 0205 , DES 0205L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0852L - Clinical Practice II

This course is a continuation of Clinical Practice I. It provides a real world setting for students to receive additional training in the clinical skills learned in class. Students are assigned to various offices in the community including but not limited to general dentists, oral surgeons, orthodontists, periodontists, and endodontists. Performance evaluations are utilized to measure competency and provide feedback from the local dental offices to the instructor regarding the students' competency level. Skills are strengthened in Seminar Lab. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 150 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DEA 0803L , DES 0400B

Corequisite(s):
DES 0830 , DES 0830L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0936 - Dental Assisting Seminar

This course is designed to provide a review of materials commonly covered on the Dental Assisting National Board (DANB) Exam. Topics include but are not limited to infection control, general chair side procedures, and radiographic technique. The seminar will provide a mock board examination, and opportunities for review, problem solving, and strengthening skills. The course also serves as an opportunity for feedback from students' Clinical Practice.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DEA 0852L , DEA 0803L , DES 0205 , DES 0205L

Corequisite(s):
DEA 0803L , DES 0206L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103 - Dental Materials Theory

This course is a comprehensive study of the theory of manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. The competency based lab that accompanies this course includes exercises to illustrate application and use of selected materials. Students will study various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, as well as acrylic plastics. Students will become familiar with various pieces of dental laboratory equipment and their uses.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Corequisite(s):
DES 0103L , DEA 0020L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103L - Dental Materials Lab

This course is a comprehensive study of the manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. Emphasis is on practical application as it relates to the role of the dental assistant in the contemporary dental practice. It is a competency based lab that accompanies the theory course and includes exercises to illustrate application and uses of selected materials. Students practice the use of various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, and acrylic plastics.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):
DES 0103 , DEA 0020L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205 - Dental Radiology Lecture

This course is designed to introduce the theory, application and principles of radiographic exposure and processing techniques used in dentistry. Students will receive instruction including but not limited to historical data, radiation safety, exposure, processing, mounting and error prevention. Image interpretation of radiographic anatomical structures will be included.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DES 0400B , DEA 0020 , DEA 0020L

Corequisite(s):
DES 0205L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205L - Dental Radiology Lab

This laboratory course assists students in radiographic performance techniques using DXTR manikins to achieve competency prior

to exposure of various patients with varied dentitions. Students practice exposing, mounting, radiographic interpretation, safe darkroom procedures, identification of landmarks and distinguishing radiographic pathology from normal landmarks. Clinical radiographic skills necessary to produce diagnostic quality radiographs including bitewings, periapical radiographs, and panoramic x-rays will be covered. Emphasis is on patient and operator safety guidelines and producing diagnostic quality radiographs.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DES 0400B , DEA 0020 , DEA 0020L

Corequisite(s):
DES 0205 .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206L - Dental Radiology Lab II

This laboratory course assists students in additional radiographic performance techniques to include surveys on patients with varied dentitions. Students practice more advanced radiographic exposure techniques, interpretation, additional darkroom procedures, identification of landmarks and distinguishing various radiographic pathology. Clinical radiographic skills necessary to produce diagnostic quality x-rays including but not limited to bitewings, periapical radiographs, and panoramic surveys on actual patients will be covered. Emphasis is placed on patient and operator safety guidelines and producing diagnostic quality radiographs during this course.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DES 0400B , DEA 0020 , DEA 0020L , DES 0205L

Corequisite(s):
DEA 0851L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0324 - Interpersonal Communications Skills

This course is designed to implement interpersonal and effective communication skills in the practice of dentistry. It includes team building strategies, oral and written communications skills with the correct use of terminology commonly used in dentistry. Professionalism in verbal and nonverbal communications is emphasized. Students will be introduced to the legal and ethical scope of responsibilities for dental assistants and interpersonal relations in the dental office. Providing oral health instructions and post operative instructions for patients will be introduced. Scenario-based role playing is used to augment student learning of course content.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0400B - Dental Anatomy

This course provides a detailed study of the orofacial and related structures of the head and neck including, but not limited to the eruption, identification and function of the human dentition, study of bony, circulatory, muscular and nervous systems of the head,

neck and surrounding structures associated with the oral cavity. A brief introduction to oral histology and embryology will be included.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0501 - Dental Practice Management

This course includes theory and content relating to practical administrative duties performed in the dental office. Lectures and role playing activities are related to the responsibilities of the dental assistant. Topics include but are not limited to appointment scheduling, billing, collections, record keeping, clerical and dental supply inventory. Students are introduced to the use of dental practice software with hands on computer experience. Legal responsibilities, interpersonal relations, and interview skills are included.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0205 , DES 0205L

Corequisite(s):

DEA 0936 .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0602 - Pharmacology and Dental Office Emergencies

This course is designed to familiarize the dental assisting student with the basic concepts and considerations regarding pharmacology and pharmaceutics used in dentistry. Topics presented include nitrous oxide monitoring, emergency procedures and protocol. Lectures will include recognition of emergency conditions in the dental office, not limited to syncope, anaphylaxis, and cardiovascular incidents. Emphasis is placed on the role of the dental assistant in the prevention and management of dental office emergencies.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830 - Expanded Function Theory

This course introduces the dental assisting student to the dental specialty practices and more advanced clinical skills. It also provides the theory of dental specialty practice administration as it relates to the role of the dental assistant including ethical and legal ramifications. Lectures relate topics including but not limited to dental specialty procedures, instruments used in the specialty practices and duties delegated to dental assistants according to the rules and regulations of the Florida Dental Practice Act. Role playing and problem solving activities using case studies relate to duties delegated to dental assistants.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0400B

Corequisite(s):

DES 0830L .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830L - Skills Seminar

This laboratory course accompanies the clinical practice lecture course DES 0830 and provides opportunity for students to practice application of the duties delegated to dental assistants according to the Florida Dental Practice Act. Students become more proficient in more advanced skills. Competencies containing information and behavioral objectives allow students to master each skill before advancing to the next.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
DEA 0020 , DEA 0020L , DES 0400B

Corequisite(s):
DES 0830 .

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0844 - Dental Science

This course is a general study in biomedical sciences of preventive dentistry to familiarize the dental assisting student with basic principles of microbiology, basic body structures, and their functions and effects as manifested in the oral cavity. The course also covers the effects of nutrition and the role of microorganisms in dental health and blood borne pathogens.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

EMS 0119 - Emergency Medical Technician for Firefighters

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 140 Clock Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Permission of the EMS Director

Corequisite(s):
FFP 0010, FFP 0020, EMS 0119L

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

EMS 0119L - Emergency Medical Technician Lab for Firefighters

This course provides an integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 160 Clock Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Permission of the EMS Director.

Corequisite(s):
FFP 0010, FFP 0020, EMS 0119

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0010 - Firefighting I

This course is the first part of the Basic Fire Recruit Academy and prepares students for a career as a volunteer firefighter. Classroom instruction includes a variety of fire related topics which are reinforced and enhanced through practical skills activities. Upon completion, the student is eligible to test for certification as a volunteer firefighter through the Florida State Fire College and may elect to continue training in Firefighter II to pursue state certification as a career firefighter. Permission of the Public Safety Division is required.

Credit Hour(s): 206 Clock Hours When Offered: (Offered as needed) Corequisite(s):
FFP 0077 unless previous certification has been obtained for first responder, EMT, or paramedic.

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0020 - Firefighting II

This course is the second part of the Basic Fire Recruit Academy and prepares students for a career as a firefighter. The delivery of instruction includes a variety of training in practical skills necessary for the mastery of the basic competencies required in the program. Upon successful completion of this course, the student is eligible to take the Bureau of Fire Standards and Training written and practical examination. Permission of the Public Safety Division is required.

Credit Hour(s): 192 Clock Hours When Offered: (Offered as needed) Prerequisite(s):
FFP 0010 or FFP 0077

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0077 - First Responder for Public Safety Personnel

This course trains public safety members who are the first to arrive at an emergency in providing efficient and accurate pre-hospital care. Students assess patients for wounds to determine if trauma, shock, burns or closed airways are a problem and how to address those issues by dressing wounds, stabilizing the person or administering oxygen. They immobilize patients and address common emergency medical issues with basic treatments. This course includes hands-on, practical experience and is necessary to be eligible for first responder certification.

Credit Hour(s): 45 Clock Hours When Offered: (Fall, Spring, Summer) Note:
This course is a co-requisite course for students entering the Firefighting Certificate program who do not have certification for first responder, EMT, or paramedic.
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0106C - Welder Helper

This course provides instruction in shop safety, the use of safety procedures and protective equipment needed in a welding shop. Course incudes basic shop math, shop safety, welding equipment setup/teardown procedures.

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Spring) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0111C - Metal Preparation

This course provides instruction in different metal preparation processes including: thermal preparation (oxygen/fuel cutting, carbon arc cutting, plasma torch cutting). The student will also learn mechanical preparation (band saw, grinder, power brush, and other metal prep equipment).

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0121C - Introductory Shielded Metal Arc Welding (SMAW)

This course provides instruction and demonstration using Shielded Metal Arc Welding (SMAW). Topics include visually inspect of welds, and basic SMAW technical terminology. Basic structural welding techniques will be demonstrated in accordance with American Welding Society (AWS) D1.1 Structural Welding Code. Tack welding and metal joint fit of carbon steel is covered in this course.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0122C - Basic Shielded Metal Arc Welding (SMAW)

This course introduces structural fillet welds in different joint positions in accordance with AWS D1.1 Structural Welding Code. Fillet

welds will be performed on carbon steel plate of various thicknesses.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):
PMT 0121C

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0126C - Intermediate Shielded Metal Arc Welding (SMAW)

This course provides the student with instruction on joint design, joint preparation, and fit-up, and performance of groove welds with backing. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of groove welds with backing and make acceptable groove welds with backing using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):
PMT 0122C

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0127C - Advanced Shielded Metal Arc Welding (SMAW)

This course provides the student with advanced instruction on joint design, joint preparation, and fit-up, and performance of open groove welds. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of open groove welds and make acceptable open groove welds in all positions using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Spring, Summer) Prerequisite(s):
PMT 0126C

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0134C - Gas Metal Arc Welding (GMAW)

This course provides instruction and demonstration using the various transfer methods and techniques of Gas Metal Arc Welding (GMAW). Topics included are safety, equipment set-up, joint design and preparation, and gases.

Credit Hour(s): 50 Clock Hours When Offered: (Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0145C - Flux-Core Arc and Gas Tungsten Arc Welding

This course provides instruction and demonstration using the various transfer methods and techniques to flux cored arc and gas tungsten arc welds. Topics included are safety, equipment set-up, joint design and preparation, and gases. Students study basic Flux-Core Arc Welding (FCAW), basic Gas Tungsten Arc Welding (GTAW), and basic understanding of pipe welding. Welding symbols and blueprint reading is covered in this course.

Credit Hour(s): 400 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0165C - Shielded Metal Arc Weld (SMAW) Pipe Welding

This course introduces the student to the practices and procedures of welding carbon steel pipe using the Shielded Metal Arc Weld (SMAW) process. Emphasis is placed on pipe positions, electrode selection, joint geometry, joint preparation and fit-up. Upon completion, students should be able to demonstrate pipe positions, proper electrodes selection, proper joint geometry, joint preparation, fit-up, and proper SMAW pipe welding techniques in accordance with applicable codes.

Credit Hour(s): 200 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0171C - SMAW-GTAW Pipe Welding

This course is designed to provide the students with skills in welding carbon steel pipe using Shielded Metal Arc Weld process and Gas Tungsten Arc Weld (GTAW) processes using proper filler metals in the 2G, 5G, and 6G positions. Upon completion, students should be able to perform shielded metal arc welding process and gas tungsten arc welding on carbon steel pipe with the prescribed filler metals in the 2G, 5G, and 6G position in accordance with the applicable code.

Credit Hour(s): 400 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0173C - Specialty Pipe Welding

This courses covers advanced pipe welding and is designed to build advanced GTAW skills. This course covers advanced Gas Tungsten Arc Welding (GTAW) on alloy pipe and heavy wall carbon pipe.

Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Associate in Applied Science Degree (AAS)

Associate of Applied Science Degree (AAS Degree)

The Associate of Applied Science degree is a two-year, non-transfer college credit curricula designed to prepare students for employment in various technical and semi-professional fields. The A.A.S. degree consists of a minimum of 60 college credits, of which at least 18 are general education courses. Because the A.A.S. degree is not intended for transfer, the selection of general education and technical courses is broader and more flexible than that of the A.S. degree.

Graduation Requirements for A.A.S. Degree

A.A.S. degree students must satisfy the following requirements:
Complete the A.A.S. general education courses as appropriate to the program of study, including Speaking-Across-the-Curriculum, Technology-Across-the-Curriculum, and minimum grade requirements.
Complete at least fifteen credits of the technical core courses and technical elective courses specified in the degree program at NWF State College, unless there is an established articulation agreement.
Complete at least 25% of the credits at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued at NWF State College.
Maintain a cumulative grade point average of at least 2.00 for all college credit course work pursued, whether at NWF State College or by transfer.
Complete A.A.S. General Education requirements.
Customizing an A.A.S. Degree to Meet a Specific Career Goal
In order to provide a student with the strongest technical background feasible, some technical courses within a given degree program may be adjusted to meet the student's targeted career goal. In these special cases, course substitutions may be approved upon request of the appropriate department chair to the Dean of Career and Technical Education.

Department: Applied Management

Applied Management (AAS)

Admission Program of Study Code APMG
State CIP Code 0552020107
The A.A.S. degree in Applied Management examines the ways in which management skills are used in a variety of businesses. Students interested in a broad range of technical fields will be able to prepare for leadership roles in the Business Management and Administration professions.
