Welcome from the President

Welcome to Northwest Florida State College! We are honored that you have chosen our college to further your education. At NWF State College, our mission is YOU! We are committed to helping all students who come through our doors to achieve their individual goals for education and career success.

NWF State College provides the advantages of affordability, excellence, and access locally. In addition to offering affordable tuition, our college consistently achieves national rankings for excellence in academics, athletics and arts. Our mission is to improve your life by providing you access to a full college experience that blends academic and co-curricular interests in a flexible, convenient, and customized schedule. We are excited about the potential, the possibilities, and the promise that exists for our students and the region of Northwest Florida.

Most importantly, we are excited that you've chosen our great college to further your education and reach your career goals!

Again, thank you for choosing Northwest Florida State College!

Dr. Devin Stephenson, President

Northwest Florida State College

Distance Learning Final Exams	Aug 3			
Final Exams	Last Day of Classes	Last Day of Classes	Last Day of Classes	Last Day of Classes
Last Day of Term for Students	Aug 8	Jun 25	Aug 8	Aug 8

Final grades posted[4]	Aug 9	Jun 26	Aug 9	Aug 9

Holidays (College Closed) - Summer 2019	May 27	Memorial Day
	Jul 4	Independence Day

Last day of term for Faculty	Aug 9	Jun 26	Aug 9	Aug 9

[1]Meeting priority deadlines ensures paperwork is processed prior to first day of class; applications are still accepted after the priority deadline and processed in order of receipt.

[2]Students may pay fees in RaiderNet by clicking on the "Pay Fees" tab.

[3]A $25 fee applies to students who are registering for the first time during the schedule adjustment period.

[4]Preferably, faculty will submit course grades within 24 hours of each final exam. All grades are required to the Registrar by 11 am on the day final grades are posted.

Approved by Board of Trustees Feb. 2018

Paying for College

Full payment of tuition and fees is required when registering for classes at NWF State College. Payment due dates are printed on the student's registration receipt and on RaiderNet. Payment may be made using cash, check, e-check, MasterCard, Visa, American Express, or Discover credit cards. Students who have not paid their fees will not be admitted to classes and will be dropped from their classes on their payment due date. The College may grant deferments as specifically defined by Florida Statutes.

Fees

These fees are subject to change by the Florida Legislature and the Board of Trustees based on the June 2017 Board Meeting. Current fees are available from the College Business Office and are published in the class schedule. These fees apply whenever applicable, except: (1) for courses in which complimentary instructional services or equivalent program costs are provided by appropriate persons, agencies or organizations; or (2) when specifically waived by the Board of Trustees. Active Duty Military and their dependents pay only Florida Resident, in-state fees, see the residency portion of the catalog. The fees listed below are for the 2015-2016 academic year.

Fees Subject to Change by Action of the Florida Legislature and the NWF State College *Board of Trustees without notice.*

Baccalaureate (College Credit)	$122.59	$123.59	$450.86
Advanced & Professional (College Credit)	$104.01	$105.01	398.02
Postsecondary Voc. (College Credit)	$104.01	$105.01	398.02
Developmental	$104.01	$105.01	398.02
Postsecondary Adult Vocational (Voc. Credit)	$86.10	$87.10	344.10
Adult Basic & Adult Secondary	$30.00	$30.00	30.00

Laboratory and Special Tuition Fees exist to cover unique costs related to a given course. The amount is determined course-by-course and is based on the instructional costs for each. A fee schedule is on file in the Business Office and is printed in the class schedule each session.

Full Cost of Instruction for Third Attempt

College credit and developmental course enrollments beginning with the third attempt in the same course pay the full cost of instruction (based on action by the Florida Legislature).

RaiderCards

The RaiderCard is a student identification card that is issued to college credit students after tuition fees are paid. There is a $15 fee per term.

The RaiderCard allows students to deposit money on the card to be used on campus for photocopying and food services and bookstore purchases. It is also used to provide access at the College Learning Resource center and to provide free admission to NWF State College athletic events and certain cultural events offered by the college. RaiderCards are re-activated each time a student re-enrolls. Lost or damaged cards may be replaced for a $15 charge.

Other Fees and Charges

Continuing Workforce Education	At Full Cost of Instruction
Distance Learning Fee	$15.00 per credit hour
Hybrid Learning Fee	$9.00 per credit hour
Graduation Application Fee	$25.00 per term, for degrees only (BAS, BS, AA, AAS, AS)
Late Registration Fee (during Schedule Adjustment Period)	$25.00 per term
Library Fines	
Late fee	$0.20 per day
Lost Book Charge	Actual cost of replacement (if available) or $25.00 plus $5.00 processing fee
Parking Decal Fee	$25.00 per term or $60 annually (available to purchase during fall term only)
Recreational & Leisure Courses	At Full Cost of Instruction
Reinstatement Fee*	$25.00
Returned Check Fee*	$25.00
Special Service Charges	At Cost
Student Access Fee**	
Per semester fee	$15.00
Replacement fee	$15.00
Transcript Fee (per transcript)	$10.00 electronic or $15.00 paper

*Students who are administratively withdrawn from class due to late payment or non-payment of fees, loans or deferments or a dishonored check will be charged a $25.00 reinstatement fee.

** Student Access Fee is required of all college credit students.

Course Fees

In accordance with Florida Statute 1009.23 (12)(a), course and lab fees are adjusted each year upon board approval. These fees cover expenses unique to course offerings such as laboratory fees, standardized testing fees, and other direct course level expenditures. To view course and lab fees, visit NWF Class Search.

Testing Fees*Online Payments

Credit card payments are not accepted in person at any of our campuses or centers. Online credit card payments through CashNet SmartPay will have an added convenience fee of 2.75%. Online E-check payments can be made at no extra charge.

Admission Assessment Exam for Health Programs (HESI)	
Required of Radiography and RN Students	$40.00
College Level Exam Program (CLEP)	
Exam Fee $80.00/Administration Fee $20.00	$100.00
Course Challenge Exam	$100.00
DSST Exams (formerly DANTES)	
Exam Fee $80.00/Administration Fee $20.00	$100.00
FBAT Test	$35.00
GED Test	
Complete Battery	$128.00
Individual Modules	$32.00
PERT	
Non-NWF State College students or repeat attempts by NWFSC students (There is no charge for the first attempt for students enrolling at NWF State College.)	$10.00
Proctoring (Other Schools)	$30.00
TABE (Non-NWF State College Students)	$20.00
Microsoft Office Specialist Certifications (MOS)	
(Non-NWF State College Students) Exam Fee per Section	$62.80
Certiport Internet and Computing Core Certification (IC3)	
(Non-NWF State College Students) Exam Fee per Section	$22.18

* Additional registration fees may apply. See Testing Services for additional information.

Parking Fines

All students, staff and faculty must register their vehicles with the College and display the parking decal when on campus. Visitors must park in designated visitor sections or obtain a visitors temporary parking permit from the Welcome Center in the Student Services Center or Student Life in the Activities Center. Parking regulation details are in the Student Handbook section of the catalog. Violating NWF State College's parking regulations may result in parking fines being assessed, the vehicle being towed, or "booted" at the owner's expense.

No Decal Fee	$25.00
Parking Ticket	$25.00
Tire Boot Removal Fee	$25.00 plus parking ticket of $25.00
Towing and Storage	Actual cost

Fines and Debts to the College

All unpaid debts, including Federal Guaranteed Student Loans, with NWF State College will result in fines being assessed or the withholding of transcripts, diplomas, certificates, and other official documents. Students will be prohibited from enrolling until all debts are paid in full. Students may be subject to liabilities for collection costs including attorney's fees.

Cost Summary

The range of basic charges for a typical full-time college-credit tuition non-baccalaureate student, per year, registered for 15 credit hours per term for two terms are noted below. Lab fees, food, housing, and travel costs depend upon the individual student's circumstances.

Florida Resident	
Fees	$3,304.00
Books and Supplies	$1,440.00
	$4,744.00
Alabama Border-State Resident	
Fees	$3,334.00
Books and Supplies	$1,440.00
	$4,774.00
Non-Florida Resident	
Fees	$11,614.00
Books and Supplies	$1,440.00
	$13,054.00

Student Tuition Payment Plan

A student tuition payment plan is available on the college website through NelNet Tuition Installment Program. NWF State College will hold academic transcripts and refuse re-enrollment to any student who is delinquent on their agreement from any preceding semester until all amounts owed on prior agreements are paid or the student is released by NelNet. Please refer to the NWF State College website for additional information or to apply for this service.

Military Assistance

Active-duty military personnel who enroll in college-credit programs through base education offices may be eligible for financial assistance. The college has Military Assistance Agreements in effect with both Eglin Air Force Base and Hurlburt Field. Contact the base education office for details.

The Veterans Success Center, located in the Student Services Center on the Niceville campus, can assist veterans with educational goals and resources.

Refund Policy

A student can receive a full 100% refund up to and during the schedule adjustment period for the term. Full refunds after the schedule adjustment period may be requested by completing a Refund Request Form. Only the refund requests citing the following reasons will be approved: Serious illness, military orders, circumstances beyond the student's control or administrative college error. Refund requests must be submitted before the midterm and may only apply to the current semester. The Business Office will notify the student of the request disposition within 15 business days of the date of receipt of the request. Refund checks will only be issued for $1.00 or more. Refunds less than $1.00 will be paid in cash at the Business Office on the Niceville Campus.

Full financial credit will be granted for cancelled classes. Students can choose to enroll in other classes to which the fees can be applied. A refund will be processed automatically if replacement classes are not selected.

Testing Fees Refund Policy

Individuals who have paid the registration fees to take the CLEP or TABE and who are unable to test at the scheduled date and time, may request to reschedule the test or may request a full refund. The rescheduled test date must occur within thirty (30) days of the first scheduled test date. Individuals who are unable to reschedule a test may request a refund within thirty (30) days after the scheduled test date. Requests for full testing fee refunds must be submitted in writing using the Refund Request form.

Dishonored Check Policy

Checks returned by the bank will be processed as follows:

1. The student will be notified by certified mail that their check was dishonored by the bank. A $25 return check charge will be applied to the student's account.
2. The student will have seven (7) calendar days to pay for the check and the return check charge. Payment must be in the form of cash or certified funds. If any portion of the dishonored check funds includes payment of tuition and fees, failure to make the payment will result in cancellation of enrollment.
3. Reinstatement after enrollment cancellation will be considered only after full payment which will include an additional $25 reinstatement fee.

4. The student's record at NWF State College will reflect the obligation as an outstanding debt which will result in the withholding of transcripts, diplomas, certificates, and other official documents. Students will also be prohibited from enrolling until all debts are paid in full.
5. Students who have written two or more checks with insufficient funds will be subject to disciplinary action even though their checks have been paid. The college will also suspend their check writing privileges and may report to other colleges and credit reporting agencies.
6. The college will forward unpaid dishonored checks, returned check charge, and related information about the student to a collection agency within 35 days.

General Information

Mission Statement

Northwest Florida State College improves lives. We deliver outstanding educational programs that are relevant, accessible, and engaging for students of all ages and provide exceptional cultural, athletic, and economic development activities for the communities served. We commit to excellence, creativity, integrity, and services.

Values

Northwest Florida State College Values:

- Opportunity - meeting each student's educational need at his or her level of ability
- Excellence - achieving the highest standards
- Learning - acquiring new skills, insights, and ideas
- Success - preparing students for the future
- Creativity - finding innovative ways to accomplish our objectives
- Community - listening and responding to community needs
- Teamwork - supporting and respecting each other and those we serve

Vision 2020

Vision 2020 comprises the college's mission statement of seven core values that are central to all our programs and services, and an accompanying Vision outline. Vision 2020 will focus the work of the college over the coming years and be fully incorporates into all aspects of college life. Vision 2020 was prepared following several months of discussion and work within various standing committees of the college.

Vision One: A Learning-Centered Community

Northwest Florida State College will be a college that places the teaching-learning process at the core of our existence and seeks to improve student success.

- We will assess student learning, hold ourselves accountable for learning outcomes, and invest in resources to improve student learning outcomes.
- We will use learning-focused methods that actively engage students and will seek to help students understand that they are an integral part of the teaching-learning process.
- We will provide learning environments, both in and out of the classroom, that meet student learning needs and encourage student success.

Vision Two: Access to Opportunity

Northwest Florida State College will be the gateway to higher education opportunity for students in areas we serve.

- We will provide educational opportunities at multiple sites and varying times and through alternative delivery methods that maximize the opportunity to earn an education.
- We will seek efficiency and quality while maintaining an affordable tuition level.

Vision Three: Community Engagement

Northwest Florida State College will be recognized as a critical community resource and a valuable partner in advancing cultural, economic, and educational aspirations.

- We will develop partnerships with community organizations to promote educational opportunity.
- We will provide a rich inventory of cultural, athletic, life-long learning, and academic experiences that engage community members in the life of the college.
- We will offer cultural and educational opportunities to the many constituencies we serve in a deliberate effort to broaden and enrich the lives we touch.

Vision Four: Institutional Growth

Northwest Florida State College will seek to grow strategically in areas that increase our impact on the communities we serve.

- We will increase program offerings and enrollments in baccalaureate and career/technical programs.
- We will increase the proportion of students we enroll from the communities we serve.

Vision Five: Financial Stewardship

Northwest Florida State College will be financially secure and will practice wise financial stewardship.

- We will grow the College Foundation's asset base and increase its annual impact on the college.
- We will maintain sufficient financial reserves to provide security, flexibility, and institutional innovation and development.

Vision Six: A Great Place to Work

Northwest Florida State College will be one of the leading employers in our service area by offering competitive compensation packages and investments in personal and professional development programs and will place and emphasis on job security.

- We will offer a combination of salary and benefits that allows us to recruit and retain the best possible employees.
- We will invest in the personal and professional development of our workforce and provide employees with the tools they need to do their jobs well and prepare them for future career opportunities.

College History

Northwest Florida State College is part of the Florida College System, a network of 28 public state and community colleges. NWF State College offers postsecondary education opportunities to more than 17,000 students annually. Located in the coastal heart of Northwest Florida, the college has earned a reputation for educational excellence and community involvement in its 50 year history. The college operates six area campuses and centers in Niceville, Fort Walton Beach, Crestview, DeFuniak Springs, South Walton County, and Hurlburt Field.

The Florida Legislature initially established the college, originally known as Okaloosa-Walton Junior College, as the 18th of the state's eventual 28 community colleges in 1963. The institution was named Okaloosa-Walton Junior College in March 1964 and opened for students in August 1964. The college's District Board of Trustees changed the name to Okaloosa-Walton Community College (OWCC) in March 1988 to recognize the college's expanded role in economic development, cultural programs and other endeavors. Further expansion of the college's mission occurred in April 2003 when the Florida State Board of Education authorized OWCC to develop baccalaureate degree programs. In December 2003, the Commission on Colleges of the Southern Association of Colleges and Schools

approved Level II status for the college to grant baccalaureate degrees. The college name officially changed to Okaloosa-Walton College (OWC) on July 1, 2004 to reflect the college's new status to award bachelor's degrees. The college began a Bachelor of Applied Science in Project and Acquisitions Management and a Bachelor of Science in Nursing (a joint program with the University of West Florida) in the Fall 2004 semester. In 2007, the Florida Department of Education authorized the college to add baccalaureate degrees in Teacher Education and in 2008 the college's joint Bachelor of Science in Nursing program was approved as a stand-alone BSN program to become the college's third baccalaureate program.

The 2008 Florida Legislature passed the State College Bill (SB 1716) to maximize student access to baccalaureate degrees, respond to community needs for postsecondary education, and provide the degrees that best meet Florida's employment needs. The bill was signed into law by Florida Governor Charlie Crist on June 12, 2008 at a ceremony held at the Mattie Kelly Fine and Performing Arts Center on the college's Niceville Campus. In response to Okaloosa-Walton College's new role as one of Florida's first state colleges, the OWC District Board of Trustees voted on July 8, 2008 to officially rename the institution as Northwest Florida State College. While the mission of the college has expanded, NWF State College continues its long-standing commitment to open-door admissions, associate degree programs, adult education, certificate programs, and affordable tuition. NWF State College has also maintained the school's traditional scarlet and silver colors and the Raiders name for sports programs.

The college currently offers baccalaureate programs in Project Management, Management and Supervision, Nursing, Elementary Education, Middle Grades Math Education, Middle Grades General Science Education and Early Childhood Education, Birth through Four. Additional bachelor's programs may be phased in over the coming years based on regional needs and feasibility. As NWF State College fulfills its role as a state college, students benefit from the opportunity to have accessible, low cost baccalaureate degrees that meet their aspirations as students and meet the needs of higher education in Florida.

In addition to a 264 acre campus in Niceville, NWF State College operates a joint campus with the University of West Florida in Fort Walton Beach, the Chautauqua Center in DeFuniak Springs, the Robert L. F. Sikes Education Center in Crestview, the South Walton Center in Santa Rosa Beach and a full-time center at Hurlburt Field.

When its doors first opened in August of 1964 in a temporary campus of vacant buildings in Valparaiso, OWJC had a faculty of ten instructors, three support personnel and five administrators for the 309 full-time and 458 part-time students on hand. Now, approximately 102 full-time and 293 part-time instructors, as well as 455 support staff and 16 administrators serve 17,000 students annually. Since its inception, more than 302,000 persons have been served by OWJC, OWCC, OWC and NWF State College.

Located between State Roads 85 and 285, the 264 beautifully wooded acres of the college's main campus in Niceville were transferred to OWJC from the Eglin Air Force Reservation by an Act of Congress in January 1966. In 1989, another Act of Congress designated a permanent site for the 156 acre Fort Walton Beach Campus.

Throughout the college's history, NWF State College has maintained a consistent record of educational excellence. The median grade point average for NWF State College students who transfer to the State University System consistently ranks among the top five in the state. NWF State College professors have been recognized with numerous state and national level awards for instructional excellence. The college's Forensics/Debate and Brain Bowl academic teams have achieved numerous state and national championships. NWF State College students and student athletes are also consistently named to the All-Florida Academic Teams.

In addition to a record of regional and national accolades, NWF State College offers state-of-the-art student computer labs, a top-rated sports complex, a full program of intercollegiate and intramural sports, a child development center, and a criminal justice training center. The 120,000 square foot Mattie Kelly Fine and Performing Arts Center on the Niceville Campus provides students the finest in instructional facilities for dance, music, theater, the visual arts and the humanities.

Facilities

Niceville Campus

The Niceville Campus is located between State Roads 85 and 285 off of College Boulevard. The Niceville Campus includes the following permanent facilities:

- **Activities Center (Building 410)** houses the Barnes & Noble College Store, Student Life, The Academic Success Center (ASC), the Career Center, Florida's Great Northwest, as well as, a conference room for general use.
- **Administration (Building 320)** houses the executive and administrative offices, including Academic Affairs, Administrative and Financial Services, Marketing and Public Relations, the NWF State College Foundation and the Alumni Association.
- **Business and Computer Science (Building 360)** houses facilities for instructional programs in business education, business administration, computer science, mid-management and the Bachelor of Applied Science in Project Management. The building contains the offices of the college's Business and Computer Technology Divisions and offices for the Bachelor of Applied Science degree in Project Management, including faculty offices. The building also contains the William T. Neshem, Mickey and Dottie Gilmore, and Blanche and Allyn Donaldson classrooms.
- **Classroom Building (Building 330)** houses ten state-of-the-art, general-purpose classrooms.
- **Collegiate High School (Building 340)** houses the Collegiate High School offices, classrooms and labs.
- **Community Service Complex (Arena, ROTC, Emergency Operations Center, Doolittle Raiders History Exhibit) (Building 200)** a multi-purpose facility which houses the college's Division of Athletics, Health and Fitness, a 2,200 seat basketball Arena, Wellness classrooms, a Fitness Center, the Raider room, and the Col. George E. 'Bud' Day Wing of the complex, which houses the college's ROTC program. A permanent Doolittle Raiders History Exhibit is located in the lobby of the Raiders Arena to honor the WWII heroes for whom the college's athletic teams are named. The museum-quality exhibit is free of charge and open from 8:00 a.m. to 4:00 p.m. Monday to Friday and during events held in the Raiders Arena. For information on the exhibit call 729-5203. Okaloosa County's Emergency Operations Center (EOC) and 911 Call Center are also located in the complex. The entire facility is hardened to withstand 190-mph winds and the Arena may serve as a public emergency shelter.
- **Engineering Technology (Building 310)** houses drafting and design, laboratories for computer-assisted drafting (CAD) and computer-aided manufacturing (CAM), Architecture Studio for AA in Pre-Architecture, Computer Engineering Technology, IT Security, and Network Systems Technology. The building also contains the James Leslie Gibson Drafting Classroom and the college's CISCO Academy and Microsoft IT Academy.
- **English/Communications, Social Science and the Gallimore Center for Healthcare Education (Building 420)** houses the college's various healthcare education programs and a variety of other instructional programs. Located on the upper north mezzanine levels are an open computer lab, three computer labs/classrooms, and faculty offices for the Division of English/Communications and Social Sciences. The first floor level contains additional faculty offices and classrooms, as well as the main office for the Division of English/Communications and Social Sciences and the Bill and Pearl Robinson Classroom. The college's Nursing and Allied Health programs in registered nursing, radiography, and dental assisting are located in the center core of this building; named the Gallimore Center for Healthcare Education. Located within the Gallimore Center for Healthcare Education are the Fort Walton Beach Medical Center Nursing Lab, the Marjorie Cox Gray and Hugh Gray Health Technology Computer Lab, the Meagan Campbell Nursing Lab, the Twin Cities Hospital Surgical Technology Lab, the Juanita Harbaugh Nursing Classroom.
- **Information Technology (Building 430)** houses the college's Information Technology staff and the Learning Technologies Offices.
- **Learning Resources Center (Library) (Building 500)** houses a collection of more than 100,000 items. There are 90,000 books, 8,000 audiovisual items, 200 magazine and newspaper subscriptions, 200 electronic databases and websites with online full-text periodicals and over 80,000 eBooks. A statewide network provides access to the holdings of all 12 state university libraries and 28 college learning resources centers, numerous electronic databases and worldwide information sources through the Internet. The LRC also contains conference room facilities and group study space. The Graphic Design Department and Studio are located on the second floor.

- **Maintenance and the Maurice F. Mettee Engineering Plant (Building 600)** houses the air conditioning and heating equipment, the Physical Plant (maintenance and custodial).
- **Marie Snow Greene Visual Arts (Building 120)** is a unique circular building in the Mattie Kelly Fine & Performing Arts Center complex that houses instructional art programs in pottery, drawing and painting is named for arts patron Marie Snow Greene. The Dotty Blacker Gallery is located in the center rotunda of the building and the facility also contains the George S. and Frederick F. LaRoche Painting Studio.
- **Mary Lou O' Connor Child Development and Education Center (Building 530)** houses a Child Development Education Center for pre-school age children and features the Sarah Brennan Goodwin Child Development Center Playground.
- **Mathematics (Building 300)** houses offices, classrooms, and specialized laboratories for the mathematics department. The building also contains the Shirley A. Howard Classroom.
- **Mattie Kelly Fine & Performing Arts Center (Building 100)** the main building houses the Mainstage Theater, the Frances Smith Herron Dance Studio, Box Office, and offices for the Division of Humanities, Fine & Performing Arts. The smaller Sprint Theater is located adjacent to the main theater. A central circular sculpture courtyard, which features the college's signature "Seven Dancers" sculpture, connects the theater building with two instructional wings. The Music Wing contains the Tyler Recital Hall (Eva "Kay" and Don Tyler), the Dewitt and Else Hardmant Orchestra Rehearsal Hall, the Dewitt and Else Hardmant Recording Studio, and various other performing arts Instructional facilities, classrooms and musical studios. The Art Wing contains two art galleries -- the Holzhauer Gallery and McIlroy Gallery, as well as an Art History classroom. An outdoor amphitheater is located behind the main complex as is the circular Marie Snow Greene Visual Arts Building. The Seven Dancers courtyard is ringed with benches, which are named in memory or in honor of individuals including: Marvin and Nina Adams, Belinda Besse, Dr. Joseph Matthews, James H. and Mary R. Dietz, James Leslie Gibson, Terry Tislow, Sidney and Agnes Bangma, and Julie A. Massey.
- **Observatory (Building 750)** located on the northwest corner of the Niceville Campus, the Observatory houses an 18" automated reflective telescope, complete with a CCD camera and software to allow the location and recording of events in the sky, and a classroom for Astronomy classes.
- **Public Safety East and** Gymnasium (Building 510) houses a multi-purpose facility used to house indoor physical education activities and the facilities, offices, classrooms, and specialized laboratories for programs offered by the Florida Criminal Justice Training Center No. 21 and the college's Public Safety Division, including the college's EMS/EMT/Paramedic, Fire Service, and American Heart Association programs. The building also houses the NWFSC Police Department. In addition, the division also utilizes a specialized P.A.T. (Physical Agilities Test) course, located off of West McCracken Way (the campus loop road).
- **Public Safety Firing Range (Building 550)** is located behind the Mary Lou O'Connor Child Development and Education Center on the northeast corner of the Niceville Campus.
- **Public Safety West, Driving and Firefighter Training Ranges (Building 700)** are located north of the softball field and include a specialized driving pad for Public Safety motor vehicle training and motorcycle rider safety courses.
- **Robert E. Greene Jr. Science Building (Building 350)** houses classrooms and laboratory facilities for biological and chemical science programs as well as the college's Mattie M. Kelly Environmental Institute and the Carroll Richard Stegall Classroom.
- **ROTC Rappel Tower** is located north of the softball field. Access is on a select/restricted basis through the college's ROTC program.
- **ROTC Challenge Course** a military Confidence Course, located north of the Public Safety Driving pad off of West McCracken Way (the campus loop road), was designed based on a similar facility at the U.S. Army base in Fort Benning, GA. Access to the course is on a select/restricted basis through the college's ROTC program.
- **Receiving and Grounds (Building 630)** houses Central Services, Receiving, and grounds equipment and functions.
- **Teacher Education and Graphic Services (Building 520)** houses offices and classrooms for the college's Teacher Education programs including the Bachelor of Science in Education degrees and the Bachelor of

Science in Early Childhood Education, Birth through Four. The college's Graphic Services department, which serves college faculty and staff, is also located in this building.

- **Student Services Center (Building 400)** houses the Welcome Center, Admission, Registration, Financial Aid, Veteran's Affairs (VA), the Business Office (Cashier), the Testing Center, Advising, the Office of Disability Support Services, and Recruiting on the second floor. The courtyard level first floor houses food services and several multipurpose meeting spaces. The third floor houses the Costa Leadership Institute, which includes a variety of specialized meeting and conference facilities including the Janet Nadel Morell Conference room, the Charles K. and Eileen H. Arpke, and the Carr, Riggs and Ingram Conference rooms, as well as the Goetsch Gallery.
- **Sports Complex** is located on the west side of the Niceville Campus and contains field houses for men's and women's baseball and softball, two diamonds, bleachers, and a Strength Training Center.
- **Welding/Manufacturing (Buildng 560)** is located across the street from Teacher Education and Graphic Services on the northeast corner of the Niceville Campus and houses the Welding Technology and Machining programs.

Northwest Florida State College and University of West Florida Fort Walton Beach Campus

The Fort Walton Beach Campus is a joint campus which provides higher education opportunities ranging from Associate to Doctoral degree programs, as well as, non-credit and adult basic education programs. In addition, the campus houses various economic development programs including the Economic Development Council of Okaloosa County, the Technology Coast Manufacturing & Engineering Network and the Quality Institute. The campus is located on a 156-acre wooded site owned by NWF State College on Martin Luther King, Jr. Boulevard, serving about ten percent of the students enrolled in NWFSC by offering almost 200 classes each year. Fifty-one faculty memebers teach on this campus and twelve faculty members' offices are located on the FWB campus. Two fulltime advisors serve students, many of which come from other locations. The Joint Campus is a full service campus providing admissions, registration, cashiering, financial aid information, advisement, instruction and learning, tutoring and a full service public library. The campus includes the following permanent facilities:

- **Administration (1):** houses administrative offices and the business and registration offices of both institutions, a large community meeting room, and two conference rooms available for rent to outside organizations.
- **Student Affairs (2):** houses the Barnes & Noble College Store, Student Center and student government offices along with advising for the University of West Florida. The Office for the NWFSC Police Department is also located in Building 2.
- **Classroom Building (3):** houses classrooms and the adult basic education offices. This building contains the Evelyn Walters Nelson Classroom, the Crystal Beach Development Classroom, the Heapy Family/Carpet One Classroom, the Howard F. McGee/First City Bank Classroom, G.L. "Jack" Prince, Jr./First City Bank Classroom, and the Katherine C. McGee/First City Bank Classroom.
- **Classroom Building (4):** houses faculty offices, classrooms, a reading improvement laboratory, some tutoring services and the academic counseling/advising office for Northwest Florida State College.
- **Utilities and Maintenance Building (5)**: houses the air conditioning and heating equipment, central services, maintenance, and custodial/grounds functions for the campus.
- **Science Building (6):** houses science laboratory facilities for programs in earth science, biology, chemistry, and physics and mechanical engineering laboratory.
- **Computer Labs (7):** houses computer laboratories, the Math Lab, classrooms, and various Economic Development programs. The building also contains the Judge Ben Gordon Classroom.
- **Library, Fitness Center, Auditorium (8):** houses the Campus Café coffee shop, a graduate level library operated by the University of West Florida, a fitness center, and a 230 seat lecture auditorium, which is available for rent to outside organizations.

Chautauqua Center

The Chautauqua Center is located on 90 wooded acres along Highway 90 West in DeFuniak Springs, and offers a full range of college services and programs. The center houses two computer labs, a career center, small conferencing

facilities and a child care center, as well as the L.E. "Zack" and Henrietta Laird Classroom and the T.P. and Annie R. Campbell Classroom.

Robert L. F. Sikes Education Center

The Robert L. F. Sikes Education Center in Crestview is located on East James Lee Boulevard (State Highway 90 East) and offers a full range of college services and programs. The center houses two computer labs, classrooms, a student lounge and administrative/student services space, as well as the Margaret S. Gebauer Literacy Classroom.

South Walton Center

The South Walton Center is located on Greenway Trail, just off Highway 331 South in Santa Rosa Beach is a full-service center that offers college credit, adult basic education and other courses and provides placement testing, advising and program planning, registration and financial aid services. The center houses the offices of the college's Choctawhatchee Basin Alliance (CBA) and the Allyn C. Donaldson Entrepreneurial Center that is part of the college's Costa Leadership Institute at NWF State College.

Hurlburt Field Center

The Hurlburt Field Center offers college credit and noncredit programs for military and civil service personnel. Also offered are courses specifically geared toward the Community College of the Air Force (CCAF) studies and other courses designed to meet the needs of individual military units, base contractors, and individuals who are retiring from the military.

Foundation

The Northwest Florida State College Foundation, Inc. is a non-profit organization which seeks tax deductible contributions to help the college promote academic excellence through scholarships, instructional enhancements, and educational equipment acquisition.

The Foundation was established in 1988 to give individuals, organizations and businesses the opportunity to directly invest in the educational mission of the college. As an IRS 501 (c)(3) organization, donations to the Foundation are tax deductible. The Foundation has a Board of Directors comprised of business and community leaders in Okaloosa and Walton counties.

The Foundation is vitally important to the quality and diversity of higher education in our community. The foundation operates under the philosophy of building principal and using the interest to support various NWFS State College endeavors. For information, contact the Foundation Office at (850) 729-5357 or visit www.nwfscfoundation.org.

Alumni Association

The Northwest Florida State College Alumni Association's purpose is to provide our alumni -- OWJC, OWCC, OWC, and NWF State College alike -- a means to remain involved in the college. Membership in the Alumni Association is open to all graduates and to any student who has attended the College. For more information please contact the NWF State College Foundation at (850) 729-5357 or visit www.nwfsc.edu/alumni.

Mattie M. Kelly Cultural and Environmental Institute

The Mattie M. Kelly Cultural and Environmental Institute was established in 1997. The institute is a partnership of NWF State College, the NWF State College Foundation, and the Choctawhatchee Basin Alliance of NWF State College, dedicated to the cultural, environmental, historical and instructional goals set forth for the institute by the late Mattie M. Kelly of Destin. The objectives of the institute are: to conduct biology and marine science studies associated with Choctawhatchee Bay and the Gulf of Mexico; to display the cultural heritage of Northwest Florida; to

provide instruction in the Fine & Performing Arts and Environmental Sciences; to provide a location for fine arts groups and performing groups; and to provide a location for conferences and seminars offered through NWF State College. For information call (850) 729-5357 or visit http://www.mattiekellyinstitute.org/.

Choctawhatchee Basin Alliance (CBA)

The Choctawhatchee Basin Alliance (CBA) program of NWF State College is an organization committed to sustaining and providing optimum utilization of the Choctawhatchee Basin watershed. CBA provides opportunities for citizens, educators, and technical experts to promote the health of the Choctawhatchee Basin watershed. For more information on CBA visit www.basinalliance.org, follow them on Facebook and Twitter or call (850) 200-4171.

Composition of Student Body

NWF State College is a coeducational institution serving approximately 17,000 students annually. Students age 16 to 24 comprise 55 percent of the student body. Students age 25 to 34 comprise 24 percent and students 35 to 49 comprise 18 percent. Other age students comprise the remainder of the student population.

College Website

The Northwest Florida State College website is located at www.nwfsc.edu. The website provides access to College information such as admission, registration, financial aid, bookstore, student life, academic resources, instructor websites and more.

RaiderNet

RaiderNet is the student on-line information and registration system. RaiderNet provides access to update contact information, register for classes, view grades, obtain unofficial transcripts, order official transcripts, enrollment verification, degree audit, and financial aid status. RaiderNet utilizes a password. To access RaiderNet from the college's homepage, click the quick link on www.nwfsc.edu. For questions concerning access to RaiderNet, call the Help Desk at (850) 729-5396.

Student Email Accounts

Students are assigned an NWF State College student email account during the application for admission process. The student email address serves as the official method of communication to the student from the college. This email service is reserved for college business. For more information and to access student email, go to www.nwfsc.edu. Send questions concerning access to student email to helpdesk@nwfsc.edu or call (850) 729-5396.

NWF State College Alert System

Northwest Florida State College's safety Alert system enables the college to reach students with emergency information and updates through immediate, direct communications to automatic phone calls, text messages and emails issued by the college. Students who wish to receive NWF State College Alert phone and text messages by automatic notification to their personally selected contact list, must sign up for this free service through the RaiderNet system. It is the student's responsibility to maintain the accuracy of the information and to provide their preferred contact information so that they can be reached in the event of an emergency. In addition, a student may add a parent, guardian or spouse to their emergency contact list.

Solicitation/Promotions

Agencies or organizations that request permission to display, distribute, or present programs that are not within the educational mission of Northwest Florida State College must submit a request in writing at least two weeks prior to the proposed activity. This request shall contain the name of the organization, the proposed time, date, and location, and the topic of the items to be displayed or distributed. The agency or organization must complete an Events Proposal form which will be routed for review and approval to the Vice President of Administration for final approval by the College President or his designee. The college reserves the right to determine the time, place, and manner of the presentation.

Social Security Number Collection and Use

In compliance with Florida Statute 119.071(5), 229.559 and School Code 1008-396. Northwest Florida State College collects the Social Security Number for use for the College's functions, tracking responsibilities and assisting students from K-20 in post-secondary education. The College will never release your Social Security Number to unauthorized parties. To protect your identity, each student will be assigned a secure unique student identification number. Your unique student identification number is used for all educational purposes at NWF State College.

Federal legislation requires the college to collect Social Security Numbers to report to the Internal Revenue Service. A student can refuse. However, refusing to comply with Federal guidelines can result in a fee.

All Social Security Numbers are protected by federal regulations and are not released to unauthorized parties.

Copyright Policy Statement

College policy (Policy No. GP14.00) states that employees and students will comply with the U.S. Copyright Law (Title 17, U.S. Code, Section 101). Employees and students may use, perform, or reproduce copyrighted works when authorized by (1) licenses or written permission from copyright owner; (2) the fair-use guidelines (available from the Learning Resources Center); (3) the principle of fair use; (4) specific documented exemptions in the law. Copyright items include print, video, electronic data, performances, music, and computer software.

Employees and students who willfully disregard this policy or the specific provisions set forth in the college copyright manual (available in the Learning Resources Center) are subject to state and federal penalties, including civil and criminal liability, as well as college disciplinary action. The college will refuse to grant requests if fulfillment of the request might lead to a violation of the copyright law. Further information is available from the office of the director of learning resources, (850) 729-5392.

Admissions

Northwest Florida State College is an open-door institution. However, depending on the student's major/program of study, specific admission criteria must be met. Generally, a student must be able to provide documentation that he/she is at least 16 years old and no longer enrolled in a K-12 system.

Get Started

1. It's free to apply to Northwest Florida State College. Apply online at www.nwfsc.edu/admissions.
2. Request official transcripts, as applicable, which include the following: high school or GED transcript, Home Educated Affidavit, official college and/or university transcripts from all institutions attended, Military transcripts (CCAF, AARTS, SMARTS) and official score reports from CLEP, DANTES, AICE, AP, or IB. Please request official transcripts to be sent directly to: **Admissions Office: NWF State College, 100 College Boulevard, Niceville, FL 32578**
3. All First-Time Freshman are required to meet with a Student Success Navigator for academic advising prior to registering for courses. You may call (850) 729-5111 or email advising@nwfsc.edu to schedule an appointment.
4. Use your college assigned student email. Once admitted students are assigned a college student email account. **Email serves as the official method of communication to the student from the college.** Each applicant will be notified by email of their admission's status to the college.

Readmissions

Any student who has previously attended or applied to NWF State College, and who has not been in attendance within one (1) year (3 semesters) must reapply online at www.nwfsc.edu/admissions to update personal data, verify their major/program of study, and residency. If the student attended another institution in the interim, an official transcript must be submitted from that institution. The student will complete requirements for graduation under the catalog in effect at the time of re-entry.

Transfer Students

A student who has attended any college or university prior to enrolling at NWF State College is considered a transfer student. Transfer students must request that an official transcript(s) of all previous college work including their high school transcripts be sent directly to the Admissions Office. All re-enrollment forms and supporting documents must be submitted in sufficient time to permit processing and notification of admission status prior to registration. In certain instances, applicants may be conditionally admitted as provided below.

Exception to Admissions Policy

Applicants may request an exception to Admissions Policy by submitting the Request for Exception to Admissions Policy form. Requests for exception to published policy must be accompanied by all required or appropriate supporting documentation and will be reviewed by the Executive Director-Student Success Navigation on a case-by-case basis. Requests must be submitted at least (5) business days before the end of the published Add/Drop period for the desired term of entry. Decisions issues in this process are final. Multiple appeals for the same term will not be accepted. See official appeal form for further details and instructions.

Associate in Arts, Associate in Applied Science, and Associate in Science Degree Admission Requirements

An applicant for admission to the Associate in Arts, Associate in Applied Science, or Associate in Science degree programs must be a high school graduate and may be admitted with one of the following:

A. **High School Diploma**
   Florida public high school graduates must have earned a standard high school diploma. An official high school transcript with high school graduation date is required. Non-Florida public high school graduates must have earned the equivalency of a standard Florida public high school diploma.
   All other diplomas must be validated. Institutions that are not registered with a department of education from a U.S. state or U.S. territory, or that only offer an exam for diploma, are automatically denied.
B. **State Equivalency Diploma (GED)**
   Students who have received the General Education Diploma (GED) are entitled to admission to all degree programs. An official transcript of the GED results is required for admission.
C. **Home-Educated Students**
   Home-Educated students must complete an Affidavit for Home-Educated Students form verifying high school graduation. These forms may be obtained from the Admissions Office.
D. **Foreign Educated Students**
   Foreign educated students who have earned an education equivalent to a US secondary school education must use one of the agencies sanctioned by the National Association of Credential Evaluation Services, Inc. (NACES) to translate and validate their high school diploma. Students will need to have the official evaluation sent to NWF State College. For more Information please refer to the NACES website at www.naces.org.

Certificate Admission Requirements

An applicant for admission to College Credit or Vocational certificate programs may be admitted without the standard high school diploma or GED high school equivalency diploma provided the program to which the student is applying does not require the high school diploma or equivalent. However, the College will not be able to award federal financial aid unless the student meets the requirements as set forth under the AA, AAS, and AS admission criteria above. As with all programs at NWF State College, certificate students must submit official copies of high school transcripts or GED diploma and, if a transfer student, a copy of transcripts from all previously attended postsecondary institutions.

Baccalaureate Degree Admission Requirements

NWF State College is approved by the State of Florida Board of Education to offer baccalaureate degrees. All Bachelor programs are designed to provide a career ladder for those who have already completed an associate degree (or 60 transferable credits for the Bachelor's in Education degrees and BAS degrees). All Bachelor applicants must complete the NWF State College online admission and residency materials to apply to their desired program. Applicants must complete the standard Florida foreign language upper division admission requirement. If a student has not completed two years of the same foreign language in high school or six credits in college, or does not qualify for a waiver, the student may be admitted but will need to complete the foreign language requirement before completing the program.

Bachelor of Applied Science in Project Management
Bachelor of Applied Science in Management and Supervision

An applicant for admission to the Bachelor of Applied Science in Project Management or Management and Supervision degree program may be admitted with the following:

- Completion of NWF State College admission and residency materials.
- Completion of an Associate in Science (A.S.) or an Associate in Applied Science (A.A.S.) degree (with a minimum of 60 semester hours) in a professional/technical field. A.A. degree students may be asked to

complete additional credits in a professional area (e.g., accounting, computer science, general business, etc.) in lieu of the additional general education required of the A.S./A.A.S. student.
- Completion of all developmental coursework.

Bachelor of Science in Nursing

An applicant for admission to the Bachelor of Science in Nursing degree program may be admitted with the following:

- Completion of NWF State College admission and residency materials.
- Completion of an associate degree nursing program or nursing diploma prior to enrollment.
- Completion of all developmental coursework.
- Documentation of a current RN License. Recent graduates of associate degree nursing programs who have not yet obtained a RN License may apply and may be accepted on a conditional basis for one term or until clinical experiences begin. Conditional status may be removed once the student obtains a current RN License.
- Documentation of a grade point average (GPA) of 2.75 or higher in all college credit coursework and a grade of "C" or higher in all Florida Common Course Prerequisites applicable to the RN to BSN degree program. Depending on program capacity, students with less than a 2.75 GPA may be admitted on a provisional basis. However, in all cases, the student must have earned a "C" or higher in all common course prerequisites. Provisional status may be removed if the student earns a GPA of 3.0 or higher for his/her first eight upper division nursing credits at the college. Ideally, prerequisite and general education courses should be completed prior to enrolling in upper division nursing courses; however, all prerequisite and general education courses must be completed by the beginning of the senior year.

Additional pre-enrollment conditions, which include proof of immunizations, CPR verification, drug screen, and background check, must be satisfied prior to registration.

Contact the BSN Department at (850) 729-6440 for additional information.

Bachelor of Science in Elementary Education,
Bachelor of Science in Middle Grades Mathematics Education,
Bachelor of Science in Middle Grades General Science Education

An applicant for admission to the Bachelor of Science in Education degree program may be admitted with the following:

- Completion of NWF State College admission and residency materials.
- Completion of an Associate in Arts (A.A.) degree from a regionally accredited college or university, or at least 60 semester hours of postsecondary education from a regionally accredited college or university.
- Completion of all developmental coursework.
- Completion of all general education requirements and lower-division state-mandated common prerequisite with a minimum grade of "C" in the prerequisite course.
- Completion of 6 semester hours of coursework with an international or diversity focus.
- A minimum cumulative grade point average (GPA) of 2.5 on a 4.0 scale for the general education component of the undergraduate studies or have completed the requirements for a baccalaureate degree with a minimum cumulative grade point average of 2.5 on a 4.0 scale from any approved college or university.
- Passing scores on the General Knowledge Test of the Florida Teacher Certification Examination (FTCE).
- Agreement to submit to background checks by both the Florida Department of Law Enforcement (FDLE) and the Federal Bureau of Investigation (FBI).

Bachelor of Science in Early Childhood Education, Birth through Four

An applicant for the Bachelor of Science in Early Childhood Education may be admitted with the following:

- Completion of NWF State College admission and residency materials.
- Completion of state-mandated prerequisites with a minimum grade of "C".
- Completion of an associate's degree from a regionally accredited institution with a minimum of 60 transferable semester hours.
- Completion of all developmental coursework and a minimum of 18 credit hours of transferable general education credit hours.
- Completion of 6 semester hours of coursework with an international or diversity focus.
- A minimum cumulative grade point average (GPA) of 2.0 on a 4.0 scale
- Agreement to submit to fingerprinting as required by Early Childhood facilities.

Second Degree

In recognition that students seeking a second baccalaureate degree have completed a rigorous program of study at a regionally accredited or comparable international institution, some admission and graduation, requirements will be satisfied by virtue of their previous degree. These include Gordon Rule, Foreign Language Entrance Requirement, and General Education. However, this will not preclude prerequisites for the major that happen to be general education courses. NWF State College will also honor the same practice for students who have been awarded a State of Florida Associate of Arts or a baccalaureate degree from a regionally accredited or comparable international institution and are seeking an Associate in Applied Science or Associate in Science degree at NWF State College. Students should contact the appropriate department or division office for more information.

Foreign Language Requirement

University or college admission to baccalaureate programs in the State of Florida requires that students demonstrate foreign language competencies. The Florida Department of Education has identified the competencies as successful completion of two sequential credits in high school foreign language, a minimum of 6 credit hours in one foreign language at the college level or an appropriate score on an approved CLEP examination. Native speakers of another language who can demonstrate proficiency by evidence of a secondary high school transcript may petition for a waiver. Students should contact their Academic Advisor for more information.

Selective Admissions Programs

Selective Admissions programs have additional admission requirements and a competitive selection process.

Dental Assisting

The Dental Assisting program is accredited by the Commission on Dental Accreditation. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or 211 East Chicago Avenue, Chicago, IL 60611. The program is a three semester Selective Admissions Career and Technical or Vocational program. Applicants must possess a high school diploma or its equivalent, as well as satisfy all other NWF State College admission criteria. Program graduates are eligible to sit for the Dental Assisting National Board examination to receive the Certified Dental Assistant (CDA) credential. Contact Dental Assisting at (850) 729-6444 for additional information.

Emergency Medical Technician (EMT)

The Emergency Medical Technician program is accredited by the Committee on Accreditation for the EMS Professions (CoAEMSP). Emergency Medical Technicians are part of the Emergency Medical Services team. EMTs are trained to provide basic life support and transportation of the sick and injured. The EMT program prepares

students to apply for the examination to become a Florida licensed and National Registry Emergency Medical Technician Basic.

The Emergency Medical Technician program is 12 credit hours long and is conducted over one (1) semester. Applicants to this program must have a high school diploma or GED and meet other applicable admission criteria (including fingerprinting, a background check and a drug screen). If the number of qualified applicants to the program exceeds the number of openings, students will be accepted using a combination of application points and a random selection process. Contact the EMS Office at (850) 729-4924 for additional information.

Firefighting

Firefighters are trained to extinguish and control fires in response to situations where property, life, or the environment is in danger. At the scene of an emergency, firefighters perform tasks assigned by their commanding officer. Depending on the situation, they may need to provide medical attention, break through debris, operate fire hoses, or enter a burning building. Firefighters are often first responders to car accidents, heart attack scenes, and other medical emergencies that do not involve fire.

The Firefighting Certificate program is one semester that consists of two classes; Fire Basic I and II. Applicants to this program must have a high school diploma or GED and meet other applicable admission criteria. If the number of qualified applicants to the program exceeds the number of openings, students will be accepted using a combination of application points and a random selection process. Contact the Firefighting Office at (850) 729-4924 for additional information.

AS/RN Nursing

This two-year Nursing program, which is fully approved by the Florida Board of Nursing, leads to an Associate in Science (A.S.) in Nursing degree. Current Florida Licensed Practical Nurses (LPNs) may complete the program in three semesters, not including summer and general education course requirements. Graduates of the Nursing program are eligible to apply for licensure by examination to become Registered Nurses (RNs). They are also prepared to continue their education and can smoothly transition into the RN to BSN program offered at NWF State College.

The Associate in Science in Nursing has a twice-a-year application/admissions process to begin nursing coursework the following Fall or Spring semester. Those who plan to apply to the program may wish to complete specified general education coursework to prepare a more competitive application. Applicants must complete a program application in addition to the college application, must meet or exceed the minimum cumulative GPA requirement, and must pass the Nursing Admission Examination in order to be considered for selection into the program. Students selected for this program must meet matriculation criteria, including fingerprinting, a criminal background check, drug screen, proof of immunization and CPR Certification, as required by clinical facilities. Interested students should review all application materials and selection criteria on the Nursing website. Contact the Nursing Department at (850) 729-6400 for additional information.

Paramedic

Paramedics are the highest trained and educated pre-hospital provider of emergency medicine. In the Paramedic program, students are provided the highest quality education to prepare to become competent leaders in the high pace work of Emergency Medical Services. The Paramedic program is three semesters beyond the Emergency Medical Technician Basic level and prepares students to apply for the Florida or National Registry Paramedic board examination. The Paramedic Certificate program is a Selective Admissions College Credit Certificate. Students admitted to this program must have a high school diploma or GED and meet other applicable admission criteria (including documentation of current Florida Emergency Medical Technician (EMT) Certification, fingerprinting, a background check and a drug screen). If the number of qualified applicants to the program exceeds the number of openings, students will be accepted using a combination of application points and a random selection process. The

curriculum for this program forms the core of the Emergency Medical Services Associate in Science degree program. Contact the EMS Office at (850) 729-4924 for additional information.

Radiography

The Radiography Program is a Selective Admissions Associate in Science degree program. New students are accepted annually for enrollment in the Summer Term. Students admitted to this program must meet specific admission criteria. Additionally, after acceptance into the Radiography program a background check, drug screen and other training will be required. Graduates of the program will be eligible to sit for the American Registry of Radiologic Technologists (ARRT) certification exam. Contact the Division of Allied Health at (850) 729-6444 or visit our website for additional application requirements and information.

Welding

The Welding Technology and Advanced Welding Technology are Selective Admissions Certificate programs. New students are accepted for Admissions annually in the Fall term for the day program and annually in the Spring term for the night program. Students admitted to this program must meet specific admission criteria. The NWF State College Welding program provides you the skills, knowledge, and customized training required to be a professional welder. Students accepted into the program have the opportunity of obtaining NCCER credentials. Each certificate level is acknowledged by the industry as proof of acquired skills in various forms of welding, cutting, base metal preparation, welding inspection, safety, and metallurgy. Interested students should review all application materials and selection criteria in the Welding program guide. Please contact the Welding Office at (850) 729-5224 for the daytime office and (850) 729-5233 for the night time office or visit the welding website for additional information.

Programs with Additional Admission Requirements

Criminal Justice Training Programs

The Law Enforcement Basic and Correctional Officer Basic Career and Technical or Vocational Certificate Programs are certified through the Florida Department of Law Enforcement (FDLE). The college is designated as Florida Criminal Justice Training Center Number 21 and students enrolling in these certificate programs must meet FDLE requirements (including fingerprinting and background check), possess a standard high school diploma or its equivalent, successfully complete the Florida Basic Abilities Test (FBAT), as well as satisfy all other NWF State College admission standards. Contact the Criminal Justice Program at criminaljustice@nwfsc.edu or (850) 729-5378 for additional information.

Emergency Medical Services

The Associate in Science in Emergency Medical Services (EMS) is limited to students who are licensed EMT/Paramedics. Contact the EMS Program Office at (850) 729-4924 for additional information.

Fine and Performing Arts

Some Fine and Performing Arts classes are open only by audition or faculty/division approval. Contact the Humanities, Fine and Performing Arts Division at (850) 729-5382 for additional information.

Reserve Officers' Training Corps (ROTC)

The U.S. Army Reserve Officers' Training Corps (ROTC) program provides an outstanding opportunity for military leadership training. Students may also begin leadership training at the college level. Participation in the program does

not require a commitment to enter the U.S. Army for non-scholarship students. The four courses in the program are transferable to any ROTC program in different branches of the military and participants in the program are able to transfer seamlessly for upper division studies.

To enroll, a student must be physically qualified, a full-time degree-seeking student and a U.S. citizen. Student may register for their ROTC courses at any NWF location but ROTC courses will be taught at University of West Florida's main campus in Pensacola. For additional information contact Ramsey Ross at (850) 729-5379.

Non-Degree Seeking Students

Many students attend college to upgrade employment skills, for transfer credit, or for personal interest and enjoyment. Non-degree applicants only need to provide a completed Application for Admission and Florida Residency form. Applicants who do not wish to earn a degree or certificate from NWF State College and wish to take college, career and technical or vocational credit courses do not need to provide evidence of prior educational coursework. However, students seeking enrollment in courses with prerequisites or other admissions requirements, or students seeking financial assistance may be required to provide evidence of all prior educational course work. Students will not be permitted to enroll in any college credit English, humanities, mathematics or Gordon Rule social science course without meeting the State of Florida mandated minimum scores on an approved placement test or showing that they have met the prerequisite or are exempt from placement testing.

Transient Students from Other Institutions

Students who are currently enrolled at another post-secondary institution, wishing to take courses that will be transferred back to their current institution are considered Transient Students. Transient Students are required to submit their home institution's authorization of course selection before registration.

Adult General Education

This program leads to the completion of elementary and secondary studies, including basic reading, writing and mathematics. Adult General Education classes are designed for adults who need to develop skills in reading, writing and arithmetic with a minimum of 4th grade level on the Test of Adult Basic Education (TABE) assessment. It includes other subjects related to gainful employment and college readiness such as obtaining the Florida High School Diploma through GED testing, career preparation and postsecondary transition services. English classes are available for students that have a primary language other than English. Eligibility requirements are as follows:

- Applicants must be 16 years old.
- Applicants normally must NOT have received a standard high school diploma or passed the General Education Development (GED) Test.
- Registration dates and start times are the same as those for college credit students. The Adult Education Program is open enrollment and students may enroll anytime during the semester. The term fee is $30.00. Most student classroom materials are included in this fee.

International Students

International students should begin the admissions process at least four months prior to the beginning of any college term. International mail delays, transcript verifications, international monetary transfers, consular appointments, travel, housing and advisement/testing requirements must be anticipated many months in advance of enrollment. The desired date for application materials to be received by the College is April 1st for Fall, September 1st for Spring and January 1st for the Summer term. International students seeking college credit on the F-1 or M-1 visa must satisfy all requirements for admission as a regular student and meet the following requirements:

1. Fill out the admission form located within the International Student Application Packet. Students can obtain an International Student Application Packet from the Admission area of the NWF State College website.
2. Transcripts: Official evaluations of secondary school records must be evaluated by an outside source at the student's expense. Students must use one of the agencies sanctioned by the National Association of Credential Evaluation Services, Inc. (NACES). For more Information please refer to the NACES website at www.naces.org. Though not required requests for the acceptance of college/vocational level transfer work must also be evaluated by a NACES sanctioned evaluation service at the student's expense. Recommendations from the evaluation service will be considered in determining what courses may transfer, however, the final determination will be made by the College Registrar in consultation with the Academic Department Chairs/Deans. Academic records will not be returned nor will they be forwarded to another college or agency.
3. Financial Support: An official statement from the applicant's (or sponsor's) bank or other financial institution or government agency verifying the availability of sufficient funds for tuition, matriculation, books, living expenses, etc., must be submitted. (Approximately: $22,000 for the academic year.) With the exception of athletic scholarships, financial assistance for international students is not available from Northwest Florida State College. An international student must be able to finance all school expenses and transportation. Before obtaining a visa, the U.S. government will require a copy of the financial certification given to Northwest Florida State College. Employment is not permitted unless permission to work is given by INS. Remember, fees are subject to change without notice.
4. Language Proficiency: Test of English as a Foreign Language (TOEFL) results are required of applicants for whom English is not the primary language. The minimum required score is 173 for the computer-based TOEFL and 61 on the Internet-based TOEFL. Students, who have evidence of English proficiency in lieu of a passing TOEFL score, may petition the Admissions Office for consideration. **NWF State College does NOT give the TOEFL test.**
5. Health Information: Health insurance with hospitalization coverage and a repatriation clause is required. This insurance should be obtained prior to the international student's first registration and must be maintained while attending NWFSC.

An official notice of acceptance or denial will be sent to applicants. Applicants should not make definite plans to arrive in the U.S. until he/she has been notified of acceptance to the college. Being in the U.S. will not affect the admission decision. Completing the application process does not guarantee acceptance to Northwest Florida State College. When all admissions documents, academic credentials, and test results are on file and meet minimum standards for the college, an acceptance letter will be sent along with the U.S. Immigration Form I-20. The Form I-20 is the document required to obtain the Student (F-1 or M-1) Visa. Final approval for visa is determined by the American Embassy or consulate representative and not the college. If the student cannot enroll for the semester written in the notice of acceptance and wishes to enroll in a different semester, International Student Admissions must be informed immediately.

NWF State College does NOT provide on campus housing; therefore, international students must arrange housing in the community. There is limited public transportation service in the area; students must provide their own transportation to and from the college. The U. S. Citizenship and Immigration Service (USCIS) regulations require that foreign students enroll in a full-time course of study during two of the yearly terms. USCIS regulations also restrict work opportunities for such students. International students should consult with the International Student Advisor and present his/her student visa and evidence of health insurance before registration.

Collegiate High School

NWF State College operates an innovative charter high school on the Niceville Campus. This school is a public school of the Okaloosa County School District governed by the NWF State College Board of Trustees. Through this unique high school/college program, students may earn both a high school diploma and a two-year college degree at the same time through full-time study at NWF State College. The Collegiate High School is free of charge and operates under guidelines established by Florida statute. Admission is open to any public, private or home school student who is of high school age and who has earned credit for placement in grades 10, 11, or 12.

Collegiate High School students enroll in honors high school classes and college courses and may earn both high school and college credit for these classes. Students follow an approved program of study designed by the student, his/her parents, and an educational advisor. The program of study meets the Florida statutory requirements for both a high school diploma and an associate degree. A limited pre-collegiate track assists students who are not completely prepared to directly enter a full program of college-level classes. For more information, call the Collegiate School Office at (850) 729-4949 or visit www.nwfcollegiatehigh.org.

Simultaneous Enrollment for High School Students

Simultaneous enrollment programs provide a means for educational acceleration for academically superior high school students. These include the following admission categories:

Dual Enrollment provides the opportunity for qualified high school students from Okaloosa and Walton counties to enroll in NWF State College courses while simultaneously enrolled in high school. Students receive both high school and college credit for these courses. Dual Enrollment students are exempt from tuition, matriculation, and laboratory fees. Public school students have books provided by the student's high school through the College's Barnes and Noble bookstore. Books must be returned by the end of the semester. Private and home school students must purchase their own college textbooks. Eligibility criteria and enrollment procedures comply with Florida law and regulations and are defined in the appropriate District Articulation Agreement. Prospective students and their parents should consult the Dual Enrollment Office at (850) 729-5205 or visit the website for the most current admission information and procedures, and a list of approved college courses.

Concurrent Enrollment provides the opportunity for qualified high school students from Okaloosa and Walton counties to enroll in NWF State College courses while simultaneously enrolled in high school. Unlike Dual Enrollment, college credits earned through concurrent enrollment do not apply to the student's high school requirements. Students concurrently enrolled pay standard college tuition, matriculation, laboratory and textbook fees.

Please note the terms and eligibility criteria of these high school enrollment programs are defined by state regulation, college policies and procedures and current articulation agreements. It may vary between Okaloosa and Walton counties, private and home school students. As such, they are subject to change.

Students must meet the admission requirements in order to enroll in either the Dual or Concurrent Enrollment programs. Student success in these programs is dependent upon both academic readiness and social maturity. Prospective students should consult the Dual Enrollment/Early College Office at (850) 729-5205 for admission information and procedures or visit the website.

Florida Residency for Tuition Purposes

Northwest Florida State College offers one of the lowest tuition rates in the state of Florida. In order to take advantage of this and receive in-state tuition, students must prove Florida Residency. The Florida Residency for Tuition Purposes policy is based upon state statutes, rules of the two higher education governing boards in Florida, and statewide guidelines developed by college and university administrators in conjunction with the Statewide Residency Committee and the Florida Department of Education.

Students are classified as Florida residents, Border State residents or as non-Florida residents for the purpose of fee assessment at the time of initial registration. Criteria for determining residency status are detailed in Florida Statutes and the administrative rules of the State Board of Education. A Florida resident for tuition purposes is a person who has (or a dependent person whose parent or legal guardian has) established and maintained legal residence in Florida for the 12 months immediately preceding the first day of classes of the term for which enrollment is requested.

Residence in Florida must be for the purpose of establishing a permanent home and not merely incident to enrollment at an institution of higher education.

To qualify as a Florida resident for tuition purposes you must be a U.S. citizen, lawful permanent resident, or certain individuals granted indefinite stay by the U.S. Citizenship and Immigration Service. Living in Florida for the express purposes of attending school does NOT constitute legal residence. Students who depend on out-of-state parents for support are presumed to be legal residents of the same state as their parents unless one parent has established legal residence in Florida for more than 12 months. Two (2) documents supporting the establishment of legal residence must be dated or issued 12 months before the first day of classes of the term for which Florida residency is sought. Supporting documents for residency classification must be submitted to the NWF Admissions Office prior to the first day of the semester in order to be considered as instate for tuition purposes. Students cannot hold out-of-state driver's licenses, vehicle registrations, etc. and be eligible for Florida residency.

Providing false residency information is a violation of Florida law and could result in disciplinary action being initiated. The college will correct the fees assessed those students who misrepresent their place of legal residence. An invoice will be issued for the increase in tuition.

Dependent

Students who are claimed on their parent's tax return as a dependent for the previous calendar year shall be considered to be dependent. In addition, a student, whether or not living with his/her parent, who is eligible to be claimed by his/her parent as a dependent under the federal income tax code shall be classified as dependent. In general, the IRS requires that a "qualifying child" or "dependent" meet six (6) tests:

1. The child must be your son, daughter, or stepchild.
2. The child must be: (a) under age 19 at end of the year; (b) under age 24 at end of the year AND a full-time student; or (c) any age if permanently disabled.
3. The child must have lived with you for more than half of the year subject to IRS exceptions.
4. The child must have NOT provided more than half of his/her own support for the year.
5. The child is NOT filing a joint return for the year (unless that joint return is filed only as a claim for refund).
6. If the child meets the rules to be a qualifying child of more than one person, you must be the person entitled to claim the child as a qualifying child.

Independent

A student who meets any one of the following criteria shall be classified as an independent student for the determination of residency for tuition purposes. Evidence that the student meets one of these criteria will be requested by the higher education institution.

1. The student is 24 years of age or older by the first day of classes of the term for which residency status is sought at a Florida institution.
2. The student is married.
3. The student has children who receive more than half of their support from the student.
4. The student has other dependents that live with and receive more than half of their support from the student.
5. The student is a veteran of the U.S. Armed Forces or is currently serving on active duty in the U.S. Armed Forces for purposes other than training.
6. Both of the student's parents are deceased or the student is or was (until age 18) a ward/dependent of the court or in foster care.
7. The student is determined an unaccompanied homeless by a school district homeless liaison, emergency shelter or transitional housing program.
8. Documentation is provided showing the student provides more than 50% of his/her support for the year.

Exceptions/Qualifications

Other persons not meeting the 12 month legal residence requirement may be classified as Florida residents for tuition purposes if they fall within one of the limited special categories authorized by the Florida Legislature [Florida Statute S.1009.21(11)]. These exceptions are listed below.

Documentation in support of these exceptions is required:

1. Active duty service members of the U.S. and active drilling members of the Florida National Guard stationed in Florida (spouse and dependent children included).
2. Active duty service members of the U.S. not stationed in Florida but whose legal state of residence is Florida (spouse and dependent children included).
3. Full-time instructional and administrative personnel employed by the State public schools system, college system, or university system (spouse and dependent children included).
4. A dependent child who has lived with an adult relative (who is not a parent or legal guardian) for at least three years.
5. Persons who were enrolled as Florida residents at a state institution of higher learning but who abandon Florida residency for less than one year.
6. Latin American/Caribbean Scholars.
7. U.S. citizens living on the Isthmus of Panama who have completed 12 consecutive months of college-level coursework at the FSU Panama Canal Branch (spouse and dependent children included).
8. Full-time employees of state-agencies or political subdivisions of the State when the student fees are paid by the agency or subdivision for the purpose of job-related law enforcement or corrections training.
9. Qualified beneficiaries under the Florida Pre-Paid Postsecondary Expense Program as provided in Florida statute.
10. A dependent child whose parents are divorced, separated, or otherwise living apart, will be considered a resident for tuition purposes if either parent is a legal resident of Florida, regardless of which parent claims the minor for tax purposes.

The law allows non-U.S. citizens such as lawful permanent residents, temporary permanent residents, asylees, parolees, and refugees who have applied for and been approved for such status and who otherwise meet the 12 month legal residence requirements, to be eligible to establish Florida residency for tuition purposes. For a list of non-immigrant categories (visa categories and INS classifications) eligible to establish Florida residency for tuition purposes contact the Registrar/Admissions Office or consult the Residency Guidelines under Apply on http://www.floridashines.org.

Reclassification

Students classified as out-of-state residents for tuition purposes, may re-apply for in-state residency at such time as they have completed the requirements for establishing legal Florida residency. Students can reclassify by submitting an updated Residency Classification form and supporting documentation to the Admissions Office. A minimum of three (3) documents that support clear and convincing evidence of Florida legal resident for the previous twelve (12) consecutive months will be required. Supporting documents for reclassification must be submitted to the NWF Admissions Office prior to the first day of the semester in order to be considered.

Students who become eligible for in-state tuition in the middle of a term shall have their record adjusted to reflect the in-state tuition rate effective the next term of enrollment. **Tuition will not be adjusted for the current term**.

Appeals

In cases where the applicant expresses a desire to appeal the residency classification the appeal will be referred to the Residency Appeal Committee in accordance with the college's official appeals process. The Residency Committee will render to the applicant the final residency determination and the reasons for the determination in writing.

Recent Florida High School Graduates Waiver

House Bill 851 amended section (s.) 1009.26, Florida Statutes (F.S.), fee waivers, to authorize an out-of-state fee waiver for students who have attended a Florida high school for 3 consecutive years immediately prior to graduating from a Florida high school. These students must have applied to Northwest Florida State College within 24 months after their high school graduation. In order to be eligible, students will need to submit an official high school transcript showing the Florida high school attendance. This waiver can be applied to recent Florida high school graduates regardless of their immigration status to include DACA and undocumented students. Students who do not qualify for in-state residency are encouraged to contact the Admissions Office to explore their options and apply for the waiver; 850-729-4901 or admissions@nwfsc.edu.

Out of State Tuition Waiver for Veterans and their Dependents

House Bill 7015 created the Congressman C.W. Bill Young Veteran Tuition Waiver Program, authorizing an out-of-state fee waiver for honorably discharged veterans and their dependents of the United States (U.S.) Armed Forces, U.S. Reserve Forces or the National Guard who physically reside in Florida. A new waiver application is required each academic year. Veterans students and their dependents are encouraged to seek in-state residency for tuition purposes through the Admissions Office.

Northwest Florida State College shall waive the out-of-state tuition for veteran students and their dependents who meet the following conditions:

- The Veteran student and/or dependent's sponsor received an honorable discharge as a member of the U.S. Armed Forces, U.S. Reserve Forces or the National Guard.
- Physically reside in the state while enrolled at the institution (this will be verified each semester).
- Proof of honorable discharge confirmed on veteran's DD214 (member copy 4).
- Proof of physical residence in the state may include but is not limited to submission of an annual lease and/or a FL Driver's License reflecting the veteran's name.

In order to be eligible for the waiver, students will need to fill out the Non-Resident Tuition Waiver for Veterans which can be found in the student portal; RaiderNet. The waiver is also available any of our six locations.

Out of State Tuition Waiver for Active Duty Service Members

House Bill 799 amended section (s.) 1009.26, Florida Statutes (F.S.), fee waivers, to authorize an out-of-state fee waiver for a person who is an active duty member of the Armed Forces of the United States residing or stationed outside of the state. Tuition and fees charged to such students will be at the in-state rate. In order to be eligible, students will be required to present a copy of their active duty orders. House Bill 799 was signed into law July 2016.

Additional Resources

Florida Statutes

- 1009.21 *Determination of Resident Status for Tuition Purposes*. This statute outlines the broad legal parameters for establishing residency for tuition purposes in Florida public higher education institutions.

State Board of Education Rules

- 6A-10.044 *Residency for Tuition Purposes.* The purpose of this rule is to establish consistent policies for the classification of students as residents for tuition purposes in accordance with criteria set forth in Section 1009.21, F.S.

- 6A-20.003 *Florida Residency as a Requirement for the Receipt of State Student Aid*. Students that attend a Florida postsecondary educational institution must show eligibility to receive funds from state student financial assistance programs by following proving Florida residency as outlined in 1009.21, F.S.

Board of Governors Residency Regulation

- State University System of Florida Board of Governors Residency Regulation.

Florida Residency Guidelines

- Articulation Coordinating Committee's Guidelines on Florida Residency for Tuition Purposes . This Residency Guidelines document was adopted by the Articulation Coordinating Committee to assist college and university administrators in implementing Section 1009.21, Florida Statutes; Rules 6A-10.044 and 6A-20.003, Florida Administrative Code; and the Board of Governors (BOG) Residency Regulation. The guidelines, as maintained by the Statewide Residency Committee, are used to determine residency status for tuition purposes in public colleges and universities. The Florida Residency Guidelines for Tuition Purposes were first adopted by the Articulation Coordinating Committee September 6, 2006

Alabama Residency

The Florida Legislature allows the option of providing Alabama residents a different tuition assessment for postsecondary classes. At NWF State College the Alabama Border State Fee, at a rate of an additional $1.00 per credit hour to the current in-state tuition rate, will be assessed for all eligible Alabama residents.

To be eligible for the Alabama Border State Fee the student must complete the Alabama Residency form and provide verification of an Alabama driver's license, Alabama vehicle registration, or Alabama voter's registration card.

Financial Aid/Veteran's Affairs

Financial assistance administered by NWF State College does not discriminate on the basis of color, religion, age, sex, national origin, disability, pregnancy, or marital status. Specific criteria and academic standing information may be required for particular assistance or scholarships.

The mission of the Office of Student Financial Aid and Veteran Affairs Office at Northwest Florida State College is to remove financial barriers; to promote the success of a diverse student body; and to increase opportunities for access in higher education. We seek to provide a premier experience for students, faculty, and staff by providing timely communication and by providing courteous and efficient financial services while complying with all federal, state, and college policies.

Financial Aid Administered by Northwest Florida State College

Federal Aid: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (SEOG), Federal Work Study Program (FWS), and Federal Student Loans

State Aid: Bright Futures, Florida Student Assistance Grant (FSAG), First Generation Matching Grant, and Scholarships for Children and Spouses of Deceased or Disabled Veterans

Institutuional Scholarships are also awarded by NWF State College. The application can be found at: https://www.nwfsc.edu/students/financialaid/scholarships/

Steps in Applying for Financial Aid

1. Complete the NWF State College Application for Admission and Residency.
2. Request appropriate supporting documents for admission (i.e. high school transcript, GED, college transcripts).
3. Complete the Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov.
4. 24 hours after completing the FAFSA, the student will receive a Student Aid Report (SAR). The SAR must be reviewed by the student for accuracy.
5. Check RaiderNet after submitting the FAFSA for red flags (Federal Verification Form, federal income tax transcript, W-2 forms, SAP, etc.).
6. If a student's financial aid file is "complete", then an award letter will be emailed to the student by the college's Financial Aid Office. Awards listed on a student's award letter are tentative and are not final. Awards can be either adjusted or canceled at any time due to enrollment, academic standing or availability of funds.
7. Student loans are automatically awarded to students. You can accept or decline the full or partial amount of student loan monies on the Financial Aid tab of RaiderNet.

Timelines for Applying for Financial Aid

Applications for federal financial aid should be made well in advance of registration by submitting the Free Application for Federal Student Aid (FAFSA).

Fall Term	Spring Term	Summer Term
May 15	October 1	February 1

Students not meeting the priority timeline may still qualify for financial aid but may experience delays in receiving financial aid.

The last day for determining enrollment status (i.e. part-time, three-quarter time, or full-time) is the last day to register for full-term courses during each term. (These dates are listed on the Academic calendar.) Students must be enrolled in all classes that will be included in their enrollment status, including late starting classes, by the last day to register for full-term.

Enrollment Status

The amount of federal financial aid a student is eligible to receive is dependent on the student's enrollment status each term based on the following table. Credit hours are computed using all developmental and college credits in which the student is enrolled.

Full-Time Enrollment	Three-Quarter Time Enrollment	Half-Time Enrollment	Less Than Half-Time Enrollment
12 or more credit hours	9-11 credit hours	6-8 credit hours	1-5 credit hours
450 clock hours	Clock hours/program length*	Clock hours/program length*	Clock hours/program length*

*To determine enrollment status other than full-time, as established by federal regulation, the number of clock hours the student is enrolled in is divided by the program length.

- Enrollment status is based upon number of credit hours enrolled in at the END of schedule adjustment period each term.
- The amount of the award will not increase if students add a class after that schedule adjustment period.
- To retain enrollment status, student must attend all of their classes. Attendance for distance learning courses is defined as attending an orientation; participating in the course, as defined by the instructor; submitting course assignments, as required, to the instructor; or initiating contact with the instructor.
- Failure to attend any enrolled course will lower the award status and amount.
- Award emails are sent to notify students the disbursement amount based upon the number of enrolled credit hours.

Enrollment status will be determined by the number of credit hours or clock hours in which a student was enrolled on the date a student's eligibility is verified.

Student Eligibility

FEDERAL PROGRAMS

For a student to be eligible for federal financial aid at NWF State College, a student must:

- Be accepted for enrollment in an approved program of study, have a high school diploma or GED
- Be a U.S. citizen, or an eligible non-citizen
- Not owe a refund or repayment on a federal grant at any institution
- Not be in default on a federally-funded or insured student loan
- **Must maintain satisfactory academic progress standards**

STATE OF FLORIDA PROGRAMS

For a student to be eligible for State of Florida financial aid (i.e. FSAG, FSAG-CE) at the college, a student must:

- Have demonstrated a financial need (complete the FAFSA application)
- Have met the advertised deadline
- Have been a resident of Florida for one year or be classified as a Florida resident by the Registrar's Office
- Be degree-seeking (enrolled in an A.A., A.S., A.A.S., B.S., B.A.S., or certificate program)
- Have a 2.0 or higher grade point average (GPA) on all previous college work
- A student must have earned credit hours equivalent to his/her enrollment status during each term of the prior academic year in which state aid was received, (12 credit hours or 360 vocational hours for each term of full-time enrollment, 9 credit hours or 270 vocational hours for each term of three-quarter-time enrollment and 6 credit hours or 180 vocational hours for each term of half-time enrollment), and
- A student enrolled as a full-time student (minimum 12 credit hours or 360 vocational hours) is eligible for a full-time FSAG or FSAG-CE award. A student enrolled part-time (6 to 11 credit hours per term or 180 to 330 vocational hours) is eligible for a part-time FSAG or FSAG-CE award. Part-time awards will be prorated according to enrollment status. FSAG and FSAG-CE awards will be offered until the limited funds are exhausted.

All FAFSA applications for the Florida Student Assistance Grant (FSAG) dated May 15 or earlier will be given first priority in determining FSAG eligibility. All FAFSA applications for the Federal Work-Study Program (FWS) and the Federal Supplemental Educational Opportunity Grant (FSEOG) dated May 15 or earlier will be given first priority in determining FWS and FSEOG eligibility.

NOTE: An applicant who believes State of Florida financial aid has been wrongly denied has a right to appeal. The applicant may appeal to the Financial Aid Office if he/she believes an error has been made in determining eligibility.

Financial Aid Standards of Academic Progress

Satisfactory Academic Progress Requirements

To be eligible for financial aid, all students, including students transferring to NWF State College from another institution, must meet NWF State College's standards of satisfactory academic progress for financial aid. Student academic progress is reviewed at the end of each term. A transferring student's satisfactory progress will initially be determined from the student's academic history at all previously attended institutions. Students who attended NWF State College in the past will be reviewed based on all previously attempted courses, regardless of how long ago they attended NWF State College, in accordance with federal guidelines.

Failure to meet one or more of the established standards of satisfactory progress will make a student ineligible for financial aid. Students who become ineligible for financial aid due to the failure to meet the standards of satisfactory progress for financial aid will remain ineligible for financial aid until they meet the standards or are placed on an Academic Plan as a condition of their approved appeal. Satisfactory progress includes all previous academic history, even if the student did not receive financial aid.

Standards of Satisfactory Academic Progress for Financial Aid

Below are the standards of satisfactory progress for financial aid. These standards apply to all students:

All students must complete their degree program before attempting more than 150 % of the total credit hours required for their program.

Satisfactory Academic Progress (SAP) for Financial Aid Eligibility Federal regulations (34 CFR 668.34) require a student to move toward the completion of a degree or certificate within an eligible program when receiving financial aid. Specific requirements for academic progress for financial aid recipients are applied differently than college Academic Standards, Warning, Probation, and Suspension. Federal regulations state that Satisfactory Academic Progress Standards must include a review of all periods of enrollment, regardless of whether or not aid was received. The student must meet all the minimum standards in order to receive financial aid.

There are three parts to the SAP rules:

Your SAP status is calculated using your entire academic record from all schools attended, even if you did not receive financial aid. This includes dual-enrollment credits from high school.

1.You must maintain a 2.0 cumulative Grade Point Average (GPA). This is includes all course work you have taken at NWF State College or any college or university (this includes college level classes taken during high school), regardless of whether or not you received financial aid for those classes.

2.You must successfully complete at least 67% of all of the classes in which you have enrolled. This includes all the course work you have taken at NWF State College or any college or university (this includes dual enrollment classes), regardless of whether or not you received financial aid for those classes.

3.You must not attempt more than 150% of credits needed for the level of degree in which you are seeking. All coursework attempted is included in these totals.

Financial Aid Warning Status

The first semester a student fails to meet the satisfactory progress standards for financial aid, he/she will be placed on Warning Status. While the student will continue to receive financial aid during this period, it is the student's responsibility to restore his/her academic standing for financial aid be the end of the term in which the Warning Status is given.

Students who exceed the 150% Rule are not eligible for a Financial Aid Warning Status.

Failure to restore academic standing by the end of the Warning Status term will result in the student being ineligible for financial aid. Students can appeal their failure to meet standards of Academic Progress.

Appealing Satisfactory Academic Progress Requirements

Before submitting an appeal for financial aid, students must meet with an academic advisor and obtain an approved program of study. The program of study may be the basis for the student's academic plan. The Executive Director of Financial Planning and Scholarships may consult with the academic advisor to develop an academic plan for the student who has appealed. This academic plan becomes the core of the approved appeal. Students should file a financial aid appeal as soon as they receive notification of their failure to meet the standards of academic progress, or

no later than 30 days after the semester ends. Appeal forms and procedures are available on the Financial Aid web page at https://www.nwfsc.edu/students/financialaid/forms/

Transfer students must meet the established satisfactory progress requirements or submit a financial aid appeal. Students can appeal their failure to meet the standards of academic progress for financial aid if unusual circumstances exist. Unusual and mitigating circumstances include, but are not limited to, a death in the student's family, medical condition, hospitalization, documented emotional distress, or other situations beyond the student's control. While federal regulations make no provision for the concept of academic amnesty or academic renewal, students are allowed to appeal those courses that were considered to be old grades and thus "reset" their academic progress. The option to "reset" is at the discretion of the financial aid committee and can be used one time only.

All situations must be fully documented.

Students' appeals are reviewed by the Financial Aid Committee. Students do not meet with the committee, and the decision of the committee is final.

Courses Paid for by Financial Aid

Repeated Courses

Federal regulations limit the number of times a student may repeat a course and receive financial aid for that course.

- A student may receive aid when repeating a course that was previously failed (received a failing or unsatisfactory grade), regardless of the number of times the course was attempted and failed.
- A student may receive aid to repeat a previously passed course (grade of 'D' or higher) one additional time.
- Once a student has completed any course twice with a passing grade (grad of 'D' or higher), he/she is no longer eligible to receive aid for that course.
- This rule applies whether or not the student received aid for earlier enrollments in the course.
- Students will receive notification if they are aid applicants and attempt to repeat coursework beyond the limits.

Developmental Courses

NWF State College approves developmental courses for the use of financial aid and includes developmental courses where necessary when determining a student's enrollment status. Admission placement testing requirements will determine if developmental courses are needed in a student's degree program. Financial aid will pay for no more than 30 credit hours of developmental coursework.

Clock Hour Programs

Clock hour programs (Dental, Welding, Law Enforcement, and Fire Science/EMT) are not paid in semester hours like the other programs offered at NWF State College. Financial aid pays for the entire program, but not by semesters, and eligible amounts may be subject to proration based upon the length of the program.

Program Objective Enrollment Compliance (POEC)

Federal Financial Aid (Pell Grants, Direct Loans, Supplemental Educational Grants, college work study, etc.) will only cover courses that are part of the student's declared program.

A student's eligibility will be adjusted to reflect only those courses that are within the program of study (i.e. full-time status vs. part-time status). POEC is determined by the electronic degree audit - NOT the student's paper program of study. A student's declared program must be chosen at the beginning of the semester. Changes in declared programs will not be effective for financial aid until the subsequent semester.

Random Selection for Verification

The U. S. Department of Education randomly selects a student's Student Aid Report (SAR) for verification. Students selected must provide all the requested documents needed for this process (i.e. income tax transcripts, W-2 forms). NWF State College's Financial Aid Office retains the right to request supporting documents it deems necessary from any student to determine financial aid eligibility. For this reason, the college suggests that students do not file financial aid applications until the tax forms for the family are complete and correct. Inaccurate estimates of income and taxes paid may require extensive processing delays and verification of corrected data. All financial information reported MUST BE CORRECT. Penalties or delays may occur if the data is incorrect or incomplete. It is strongly recommended that students and parents utilize the IRS retrieval tool when completing the FAFSA.

Return of Title IV Financial Aid Funds

When a student awarded federal Title IV aid withdraws from or ceases attendance in **ALL COURSES** prior to completing more than 60% of a term, a portion of the student's Title IV aid must be returned to the federal programs. Title IV aid includes the Federal Pell Grant, Federal SEOG, Federal Direct Loans. Federal Work study aid and FSAG aid are not included. The college must determine the percentage of Title IV aid earned by the student. Up to the 60% point of the term, the percentage of earned aid is equal to the percentage of the term completed based on the day the student withdraws from or ceases attendance in **ALL COURSES**. After the 60% point of the term, the percentage of aid earned is 100%. If the student received more Title IV aid than the amount earned, the unearned amount is considered an overpayment and must be returned to the Title IV programs. NWF State College will be responsible for returning to the Title IV programs the lesser of the unearned amount of Title IV aid or the institutional charges (tuition, fees and books) incurred for the term, multiplied by the percentage of unearned aid. The student will be responsible for returning to the Title IV programs the unearned amount of aid (overpayment) minus the amount the college returns, and the amount of any unpaid institutional charges to NWF State College.

In some cases, when a student receives federal Title IV aid greater than the amount of institutional charges (tuition, fees and books), he or she will have to return a portion of the federal funds. A student will lose Title IV eligibility unless he or she returns the amount of unearned aid (overpayment) in full to the college within 45 days from the date the college notifies him/her of the overpayment, or signs a repayment agreement with the U.S. Department of Education after the 45-day period.

This policy is derived from provisions of federal law. Students receiving Title IV aid should consult with the Financial Aid Office prior to withdrawing from any or all classes.

Financial Aid Unofficial Withdrawals

Per federal regulations, schools are required to review students who received federal financial aid and failed to earn a passing grade in any of the classes. An assessment must be made to determine whether the student earned the non-passing grades while attending classes or stopped attending classes, but did not officially withdraw. Students who stopped attending classes may be required to repay a portion of their federal financial aid for that semester which will result in a debt to the college.

If a student follows NWF State College's procedures and withdraws, the student will have an official withdrawal date and their financial aid refund calculation will be completed according to NWF State College's refund policy.

At the end of each semester, all federal financial aid recipients who received no passing grades (any combination of F, FA, FN, I, W, WN) will be reviewed to determine if the non-passing grade was earned while attending or due to no

longer attending the class. Reports are generated at the end of each semester to determine the students who received no passing grades. This report is used to determine if the student completed the term and earned the "F" grade or ceased attending prior to the end of the semester. Instructors are required to indicate the last day of attendance when a grade of F is entered. The last day of attendance is then used in the calculation of the Return of Title IV Financial Aid Funds.

Veteran's Affairs Office

All new students are encouraged to visit the VAO at the Niceville campus in the Student Services Center for assistance with starting a record. NWF State College is approved for training by the State Approving Agency under the various veterans' training laws. Veterans planning to enroll and use their GI Bill should consult with the Veterans Affairs Office (VAO) well in advance of their first semester. All new veteran students should refer to the Application Procedures at the college website on our Veterans Page to establish their VA record with the VAO. VA students are also required to be familiar with the NWF State College Veteran's Handbook which explains our processes and the rules imposed by U.S. Code Title 38 and Title 10. Our Veteran's Handbook can also be downloaded from the Veteran's Page.

Training time for all programs, except Chapter 33 Post 9/11 GI Bill, is computed at full time, three quarter time and half time; please refer to your specific chapter payment chart at the GI Bill website. Chapter 33 does not have a half time rate; it is computed by dividing the student's credit hours by the full time rate, rounding to the nearest tenth and multiplying by the E-5 with dependent Basic Allowance for Housing rate. Example: 9 credit hours divided by 12 = .75, which the VA rounds up to 80%. If the BAH rate for zip code 32578 was $1,356 a BAH payment at 80% would be $1,084.80 a month. Chapter 33 students will also receive a book stipend payment which is calculated at $41.67 per credit hour. Chapter 33 students who schedule all distance learning classes, (Online, Hybrid, Independent Study, & Video Conferencing), will only receive half the national average in BAH which is $805.50 for a full time schedule.

Full-Time Enrollment	**Three-Quarter Time Enrollment**	**Half-Time Enrollment**
12 or more credit hours	9-11 credit hours	6-8 credit hours
Chapter 33:	**Chapter 33:**	**Chapter 33:**
12 or more = 100%	11 = 90% 9 or 10 = 80%	8 = 70% 7 = 60%

NWF State College also has clock hour programs that the VA calculates on a weekly basis. To maintain full time status a student must have 22 clock hours per week for Applied Welding Technologies, 18 clock hours per week for Auxiliary Law Enforcement, Corrections Officer, Law Enforcement Basic, Fire Fighter, and Dental Assisting. Chapter 33 students in a clock hour program who are full time will receive $83 a month for book stipend.

Training time for the Summer Term and any accelerated session of any term is computed differently. Veterans are advised to contact the VAO before registering for Summer Term and accelerated term classes to determine training status.

All veterans who wish to receive VA benefits must provide a signed Enrollment Certification Request Drop/Add form each semester, available on our website. VA students must submit a new Enrollment Certification Request Drop/Add form for all schedule changes, to include (drop, withdrawal, never attending, reinstatement or termination of attendance). Note: VA student attendance is reported to the VA and will affect benefit payments. A Chapter 33 student's tuition is paid directly to the college by the VA. Chapter 35, 30, 1606, and 1607 students are responsible for paying their tuition by the due date; these students, including Chapter 33 students who do not have a Certificate of Eligibility, can use a VA deferment once a school year.

Veterans' Fee Deferment Policy

Any eligible VA student who wishes to pursue an approved program of study shall be granted upon request, a deferment for full payment of fees for a period determined by the Business Office, once per school year (August through July). Under no circumstances shall any person be allowed to enroll or re-enroll at NWF State College who has an unpaid fee deferment. A student who defaults on a VA deferment will lose the right to receive future deferments.

Testing Services

- ACT/SAT Testing
- Proctor U
- Professional Testing/Certification/GED
- Registerblast
- Testing Center Hours and Contact Info
- Testing Center Locations
- Testing Services Offered and Fees

Testing Center Locations

Northwest Florida State College offers six testing locations:

- Niceville Campus
- Robert L. F. Sikes Education Center (Crestview)
- Fort Walton Beach Campus
- Hurlburt Field Site
- DeFuniak Springs Chautauqua Center
- South Walton Center.

Registerblast

If testing at the Niceville Campus, students should visit registerblast.com/nwfsc/exam to register for exams. This link is also found on the Testing Center webpage. RegisterBlast will allow test candidates to schedule and pay for exams. A $3.50 convenience fee is applied to all registrations requiring payment. For all other locations, appointments made via phone are necessary.

Proctor U

NWF State College requires that online courses include a proctored element. Students have three options for completing the proctored element: (1) face to face on the Niceville campus, (2) face to face at a remote proctoring site, or (3) online using ProctorU.

Distance Learning students are provided the opportunity to test through Proctor U. Students should log on to http://www.proctoru.com/howitworks.php to register and create an appointment. This service requires a web cam and microphone and the test candidate will be monitored through the computer screen. Tests should be scheduled at least 3 days in advance and there is an associated proctoring fee, see the Testing Center webpage for details.

Testing Services Offered and Associated Fees

PERT - For placement into English and Math courses, current and prospective NWF State College students will need to complete the Postsecondary Education Readiness Test (PERT). This assessment is free for the first attempt. Additional attempts will incur a $10.00 fee. Students must wait 7 days between each testing attempt. There is a $30.00 test fee for all non-NWF State College test candidates. The PERT test is offered at the six locations listed above.

Proctored Exams - Make-up exams for current NWF State College students are offered free of charge. Tests are offered at the six locations listed above. It is the student's responsibility to ensure the test is received at the test location.

Proctored Exams for Non-NWF State College Students - Students currently enrolled in an institution other than NWF State College will be charged a $30.00 testing fee. Tests are offered at the six locations listed above. It is the student's responsibility to ensure the testing location has received the exam from the home institution.

CLEP (College Level Examination Program) - A student may sit for a CLEP exam to prove competency in a subject area, therefore earning credit without registering for a course. It is the student's responsibility to ensure the receiving institution accepts the CLEP credit. CLEP Exams must be registered for and paid at clep.collegeboard.org. There is an $80.00 exam fee plus a $20.00 Administration Fee to be paid to the NWF State College Testing Center. This is a free exam for military and specific military affiliations. Please see the CLEP website for additional information. Test is offered at Niceville and Hurlburt Field and can only be taken once every six months.

DSST, formerly DANTES (Defense Activity for Non-Traditional Education Support) - A student may sit for the DSST to prove competency in a subject area, therefore earning credit without registering for a course. The DSST must be registered for and paid at getcollegecredit.com. There is an $80.00 exam fee plus a $20.00 Administration Fee to be paid to the testing center. This is a free exam for military and specific military affiliations. Please see DSST website for additional information. Test is offered at Niceville and Hurlburt Field and can only be taken once every six months.

FBAT (Florida Criminal Justice Basic Abilities Test) - This assessment is used to measure an applicant's likelihood of being successful in a Law Enforcement program. Aptitudes for written expression, oral comprehension, selective attention, visualization, inductive, and deductive reasoning are determined. Candidates may complete this assessment up to three times for any program in a 12-month period. The testing fee is $35.00. Test is offered at Niceville only.

HESI (Health and Environmental Sciences Institute) - The HESI is a computerized exam that includes up to seven sections. Admission into the NWF State College Associates of Science in Radiography and the Associate of Science in Nursing programs requires the completion of the Math, Reading Comprehension, Vocabulary and General Knowledge, Grammar, and Anatomy sections. Candidates are allowed two attempts during any one application cycle, with 30 days between attempts. Candidates for another institution will be required to verify the required sections of the HESI with that institution. The testing fee is $40.00. Test is offered at Niceville only.

TABE (Test of Adult Basic Education) - Students seeking admission into the Dental, Fire, and Welding programs at NWF State College are required to complete TABE and will be charged a $30.00 for for this assessment. TABE measures a combination of skills in Reading, Language, Language Mechanics, Spelling, Vocabulary, Writing, Applied Math, and Math Computation. Combinations will vary based on program admission requirements. Those completing TABE as an exit assessment will not be charged an additional fee. All other programs and test candidates will be charged $30.00 per attempt. Candidates may retake TABE immediately after first attempt. However, after two attempts, candidates must wait 30 days prior to retesting. Test is offered at Niceville only.

Professional Testing/Certification and GED Services

The Niceville Campus houses a certified Prometric and Pearson Vue testing center in which to complete professional certifications and the GED.

Prometric (Information Technology Certifications) - Designed for software and technology professionals, exams offered at NWF State College include: Microsoft Certified Systems Engineer (MCSE) and Microsoft Certified Systems Administrator (MCSA), UNIX, LINUX, A+, Network +, CISCO Certified Network Associate (CCNA), Certified Novell Administrator (CNA) and Certified Novell Engineer (CNE). For a comprehensive list, examinees should visit www.prometric.com.

Pearson VUE - Delivers certification and licensure tests through NWF State College's test center in the areas of Academic/Admissions, Construction Trades, UST & Inspectors, Driving Test, Employment/HR/Management Safety, Financial Services, GED 2014 Exam, Health/Medicine/Nursing/Pharmacy, Information Technology, Insurance, Legal Services, Real Estate/Appraisers/Mortgage and Loan, and State Regulated Certifications and Licensures. This is not a comprehensive list and examinees should visit www.pearsonvue.com.

Certiport - NWF State College offers the official Microsoft Office Specialist certification for desktop productivity in the following areas: Word, Excel, Outlook, Power Point, Access, and Project. The IC3 training and certification program covers a broad range of computing knowledge and skills that proves competency in: Computing Fundamentals, Key Applications, and Living Online. For additional information, visit www.certiport.com.

ACT/SAT Testing

The ACT and SAT are offered at the Niceville Campus on dates specified on the respective websites.

Testing Center Hours and Contact Information

Generally, testing locations are open Monday - Friday. For current testing hours, contact information or questions, go to the Testing Center webpage.

Academic Advising

- Academic Assistance
- Academic Advisors
- Excess Hours Advisory Statement
- Faculty Advisors
- Florida Virtual Campus
- Health Counseling
- NWF2UWF
- Placement Testing and Developmental Education

Academic Assistance

Northwest Florida State College utilizes a comprehensive advising model which supports students in achieving their academic goals. Academic advising and educational planning for students is offered through a variety of means and is available to assist students with course and program selection for academic program completion. All first time-in college, degree seeking students are required to meet with an Academic Advisor prior to the first semester of enrollment. Students are encouraged to schedule an appointment with an advisor at any of the six locations. At most locations walk-ins are welcome, but appointments are suggested.

Students should select their desired major at the time of application. Students who plan to transfer to a four year college or university should select an AA transfer major that corresponds to their intended bachelor's program. If assistance is needed, students are encouraged to visit the Career Center to complete career assessments to help determine an appropriate career field based on interests and aptitude.

Academic Advisors will assist with the review of transcripts for course suggestions prior to an official course evaluation being completed, guide students towards the completion of pre-requisite requirements to the desired transfer institution, and provide resources to ensure academic success.

Academic Advisors

Academic Advisors will assist students with program planning, course selection, and graduation or transfer requirements. All first time-in college, degree seeking students are required to meet with an Academic Advisor prior to the first semester of enrollment to further explore educational goals and the various programs offered by the college.

All degree-seeking students required to enroll in developmental instruction based on placement testing must meet with an advisor prior to their first semester of enrollment at the college. Students must also continue to work with an advisor throughout the duration of their developmental education courses. Student must consult with an Academic Advisor before completely withdrawing from the College.

Academic Advisors are available at the following locations:

- **Niceville Campus:**
  Student Services Center, Building 400
- **Fort Walton Beach Campus:**
  Building 44, Room 403A
- **Hurlburt Field Center:**
  Education Center, Building 90220
- **Chautauqua Center:**
  DeFuniak Springs
- **Robert L. F. Sikes Education Center:**
  Crestview
- **South Walton Center:**
  Santa Rosa Beach

Placement Testing and Developmental Education

Some students may be exempt from developmental placement testing and developmental education requirements. Advisors will utilize an advising questionnaire to determine exemption eligibility per Florida statute 1008.03 and placement options. Advisors recommend each student complete placement testing regardless of exemption status. Research shows that students not prepared for college-level course work benefit from developmental education courses that prepare them for subsequent college-level courses.

Please see the Developmental Education/Placement section of the catalog for complete information on placement in developmental education courses and developmental education exemption.

Faculty Advisors

Students who have already committed to a particular program or know the major area of study they wish to pursue may receive guidance in that discipline through the appropriate academic department.

Florida Shines

Florida Shines allows access to student services and resources for Florida public community colleges, state colleges, universities, and many private institutions. Students may apply for transient status at other Florida institutions, view their student transcripts, run a degree audit or track progress toward graduation. FLVC can be accessed on the NWF State College RaiderNet log on page in the public access area or directly at http://www.floridashines.org

NWF2UWF

The NWF 2UWF Program offers collaborative academic advising from UWF Transfer Advisors and an on-site 2UWF Program Coordinator located on the NWF State College's Niceville campus. Students will also receive access to UWF services and benefits before they enroll. Students who complete an associate of arts degree at NWF State College are guaranteed admissions at UWF, contingent upon meeting the minimum transfer requirements.

- Admission to UWF with no application fee
- Convenient transfer of academic records and courses from NWF State College
- Affordable bachelor's degree from an accredited and respected public university
- Options to complete a bachelor's degree at one of three University of West Florida's locations:
    - Main Campus - Pensacola
    - Emerald Coast - Ft. Walton Beach, Eglin and Hurlburt Field Air Force Base

    - Online Campus
- Faculty and staff committed to academic success
- Flexible class schedules to meet busy lifestyles
- Experienced academic advisors to assist in satisfying degree requirements
- Library privileges at both institutions
- UWF email account
- UWF ID card

To participate in a 2UWF Program a student must:

- Meet current admission criteria at a state college partner.
- Have earned fewer than 30 credit hours.
- Complete an associate of arts degree with a minimum overall combined 2.0 GPA as computed by UWF. (Individual departmental requirements may be higher)
- Be in compliance with the code of conduct at a state college and is in good academic standing.
- Not attend another institution between the time you graduate from your current state college and enroll at UWF.
- Formally enroll in UWF within one year of having completed an associate of arts degree.
- Not have previously graduated from a state college partner.

Health Counseling

In case of illness or emergency please call 911. Health Services are not provided on campus.

Students can contact a licensed mental health counselor through Pattison Professional Counseling and Mediation Center by requesting a referral from the Academic Advising Center. Services are offered for assistance with domestic violence, sexual assault, AIDS, Victim advocate, substance abuse, and referral services. The Okaloosa AIDS Support and Information system: OASIS provides support at http://aidsoasis.org.

NWF State College Advisors and Counselors maintain local treatment referral services for health conditions such as drug or alcohol abuse, pregnancy and AIDS intervention. Students can contact the Dean of Students for more information.

Excess Hours Advisory Statement

Florida Statutes section 1009.286, establishes an "excess hour" surcharge for a student seeking a baccalaureate degree at a state university. This surcharge only applies to courses taken at a Florida public university and does NOT apply to any programs offered by Northwest Florida State. However, it is critical that students, including those entering Florida colleges, are aware of the potential for additional course fees.

"Excess hours" are defined as hours that go beyond 110% of the hours required for a baccalaureate degree program. For example, if the length of the program is 120 credit hours, the student may be subject to an excess hour surcharge for any credits attempted beyond 132 credit hours (120 X 110%).

All students whose educational plan may include earning a bachelor's degree should make every effort to enroll in and successfully complete those courses that are required for their intended major on their first attempt. Florida college students intending to transfer to a state university should identify a major or "transfer program" early and be advised of admission requirements for that program, including the approved common prerequisites. Course withdrawals and/or repeats, as well as enrollment in courses non-essential to the intended major, may contribute to a potential excess hours surcharge.

Enrollment

- Academic Load
- Audit Status
- Classification of Students
- Full-time and Part-time Status
- Registration
- Schedule Changes
- Withdrawing from Courses

Registration

Registration is the process of enrolling in courses and obtaining your schedule for the next term. Registration is required before a student can attend classes. Students can register online through RaiderNet. For information regarding important dates, visit the Academic Year Calendar online.

Students may register by computer via the college website or in person at any of our campus locations. Any student who has previously attended the college, and who has not been in attendance within one academic year, must reapply online at www.nwfsc.edu/admissions to update personal data, verify education goals, and residency.

Enrollment Status

Student Type	Full Time	3/4 Time	Half Time	Less than Half Time
College Credit, Vocational, Developmental	12 or more credit hours	9 credit hours	6 credit hours	less than 6 credit
Adult Basic Ed, ESOL, GED	20 contact hours			

Classification of Students

Students are classified according to the number of semester hours they have earned.

LOWER LEVEL

Freshman	A student who has 29 or fewer hours
Sophomore	A student who has 30 hours to 60 hours

UPPER LEVEL

Junior	A student who has 61 to 90 hours
Senior	A student who has 91 or more

Academic Load

The maximum load that may be carried by a student each term is eighteen (18) credit hours. Students seeking to enroll in more than eighteen (18) developmental, vocational, and/or college credits in a single term must have the prior approval of an advisor.

Audit Status

Students registering in a college-credit course on a "not-for-credit" basis will be enrolled in an audit status. Upon completion of the course, an "X" grade will be awarded with no impact on the student's GPA. Students may elect to change to audit after the end of the advertised drop/add period. An "XC" will count as an attempt toward full cost of instruction/repeat rules. Students auditing a class are not required to complete examinations but are expected to attend classes and participate in other activities and requirements on the same basis as students seeking credit. Some occupational courses may not be available on an audit basis. Students wishing to audit an occupational course must obtain permission in advance from the appropriate department head or division director. Audit enrollment in studio art classes is permitted on a space-available basis only. Students may audit a class no more than four (4) times.

Schedule Changes during the Schedule Adjustment Period

Changes in courses or sections may be made during the schedule adjustment period specified in the college calendar. Any such change can be accomplished either in person, by completing and processing the required forms at any NWF State College campus or center, or by logging on to RaiderNet.

Withdrawing From Courses

Enrollment	Registration Period	Time Frame	Transcripts Grades	Refund
Schedule Adjustment Period	Add or Drop a Class	First Week of Full Term	No Record Recorded	Full Refund
Withdraw	Drop one or more classes	Up to 60% period of the semester	W Grade	No Refund
Complete Withdrawal from College	No longer a currently enrolled student - Must consult with an Academic Advisor	Up to 60% period of the semester	W Grade	No Refund
Administrative Withdrawal	Mitigating Circumstances only with Dean Approval	Anytime	W Grade	No Refund

Student-Initiated Drop Prior to or during the Schedule Adjustment Period

If a student withdraws from a course within the established schedule adjustment period, the transaction is considered dropping a course and no record of the enrollment will appear on the student's transcript, nor will the enrollment count as an attempt for purposes of full cost or repeat rules.

Student-Initiated Withdrawal after the Schedule Adjustment Period

Students are permitted a maximum of two withdrawals per course in college credit, vocational or developmental courses. Upon the third and any subsequent attempt in such a course, the student will not be permitted to withdraw and will receive a grade for the course.

A student-initiated withdrawal can be processed up to the withdrawal deadline posted in the College Calendar. Withdraws can be completed using RaiderNet or by submitting a signed withdrawal form at the registration desk at any campus or center. If the student has not exceeded the approved number of withdrawals, the student will receive a grade of "W" on his/her transcript.

Complete Withdrawal from College

A currently enrolled student may completely withdraw from all of their classes up to the withdrawal deadline posted in the College Calendar and, thus, will no longer be considered a current student. The transcript will reflect a grade of a "W" for all currently enrolled classes. The student must first consult with an Academic Advisor to complete the process. Financial Aid recipients and student athletes must check with their appropriate representative(s) to determine financial ramifications for withdrawing, if applicable.

Administrative Withdrawal

Students may be administratively withdrawn from the College for reasons such as violation of college policies, procedures, student code of conduct, or for other mitigating circumstances. The Vice President of Academic Affairs or the Dean of Students can administratively withdraw a student at any time. Instructors may withdraw students who do not attend during the first week of class.

Distance Learning

- eCampus
- Final Examinations
- Online Course Orientation
- OnLine Instruction
- Online Support Services

eCampus

Technology and the Internet are integral parts of the education process at NWF State College. In keeping with current educational practice, students will be expected to use computer technology and internet communication throughout their college experience. All classes offered at NWF State College may require use of the Internet; such use may vary depending on the class delivery mode (traditional, hybrid, or online).

NWF State College's eCampus website (http://eCampus.nwfsc.edu) supports student learning through various methods and serves as the portal for online and hybrid classes. The site provides access to online classes for Distance Learning students and for students in traditional and hybrid classes using the College's online learning environment, D2L Brightspace.

Technical support for students using D2L Brightspace is available on the eCampus website or by filling out a Student Request for Technical Assistance form.

Online Classes

Online instruction reaches students needing flexibility and convenience. Online courses are conducted 100% online.

Hybrid Classes

Hybrid classes are traditional college classes combined with online activities to reduce class seat time. Hybrid classes provide the advantages of limited face-to-face instruction combined with the convenience of online learning. Thus, hybrid classes meet less often than a traditional class but provide the same course credit as a traditional class.

Online Instruction

NWF State College offers students the convenience and flexibility of earning course credits through various delivery modes so that students may take control of their own education by working and learning at times and places convenient to them. Online and hybrid classes carry the same course numbers and credits as their traditional counterparts and appear on the student's transcript just as any other course does; there is no designator on the transcript identifying a course as online or hybrid. Credits earned are transferable and are applicable to graduation requirements in the same manner as traditional classes. All NWF State College courses, including all online and hybrid courses, are taught by faculty holding credentials in the relevant subject matter. Students can search for online and hybrid classes by clicking the Class Search Quick link at https://ps-ssb.nwfsc.edu/PROD/bwckschd.p_disp_dyn_sched.

Online Course Orientations

To ensure the success of each student, every online instructor will provide an online orientation experience. Course orientations contain crucial information, such as course pace, how to submit assignments, grading requirements,

testing arrangements, and strategies for improving student success. A face-to-face orientation may be required for specialized programs, such as nursing; please see the class schedule for details.

Final Examinations

Final examinations for both traditional and Distance Learning classes are held at the end of each term and must be taken at the scheduled time unless other arrangements are approved in advance by the appropriate division director or department head. Final exam schedules are printed in the Schedule of Classes and are on the NWF State College website calendar for each term.

Online Support Services

NWF State College is committed to offering students the same quality of education through online and hybrid courses as it offers in the classroom. In addition to online tutoring provided through Smarthinking and online library help through Ask-a-Librarian, distance learning students have full access to college services at all physical locations. They may use on-campus resources, such as the Academic Success Center, the Career Center, Academic Advising and computer labs.

Online and hybrid courses are subject to the same rules as traditional, in-class courses for refunds, prerequisites, placement, withdrawals, repeat rules, grading, and other academic policies. Depending on student eligibility, financial assistance is generally available for these courses in the same manner as it is for traditional courses.

For more information, contact the eCampus/Learning Technologies Office at (850) 729-6464 or visit the eCampus website at http://eCampus.nwfsc.edu.

Student Records

Student Records

The Office of Academic Records and Enrollment houses all official records of students who have attended NWF State College or any of its previous names. Information is released only upon the written and signed request of the student in accordance with Federal laws.

Student Transcripts

A transcript is a student's official academic record. Students requesting an official transcript may do so online through RaiderNet. There is a fee for sending official transcripts. Transcripts will be sent within five (5) to ten (10) College business days of the request. Vocational and Undergraduate Level courses, grades and cumulative GPAs will display on separate transcripts. If you have taken courses at both levels, you will need to order both transcripts by choosing the "select all" option.

NOTE: Each state's Department of Education maintains their own GED transcripts. Students that received their GED in the state of Florida can obtain theirs by contacting the Florida Department of Education through their website.

Transcripts will not be released if the student has an outstanding financial obligation to the College or an incomplete admissions file.

Student Contact Information

It is the student's responsibility to notify the College of a change of address or phone number. Students can update contact information through RaiderNet or at any NWF State College location.

Family Educational Rights and Privacy Act of 1974, as Amended (FERPA), The Buckley Amendment

NWF State College upholds the Federal law, The Family Educational Rights and Privacy Act (FERPA), giving students the right to inspect, review, and amend their educational records. The College will not release or disclose information nor allow inspection of records without prior written permission from the student except under certain circumstances where, by law, prior consent is not required. Students have the right to file a complaint with the U.S. Department of Education if they feel their records have been inappropriately released. A student's FERPA rights begin when the student is "enrolled" as defined by NWF State College as the point when a student registers for class.

Eligible Parent:

A parent or guardian providing documentation that supports the student is a legal dependent for tax purposes may review a student's records.

Details:

The College will provide students in attendance with an annual notification of the rights available under FERPA.

Right to Review and Inspect:

Students have the right to review and inspect their permanent student records. A student desiring to review records may do so by submitting a request in writing to the Executive Director of Academic Records and Enrollment who will schedule such inspections within 45 College business days of the request. A student desiring copies of educational records may receive them after payment of a fee of $1.00 per sheet. This is exclusive of the normal transcript service.

Waiver of Right to Inspect:

The College will not provide confidential letters or statements of recommendation concerning admission to another educational institution, or applications for employment, unless the student has waived the right to inspect such letters or statements.

Right to Amend Educational Records:

The student, or eligible parents of the student, may direct challenges related to the accuracy of the educational records to the Executive Director of Academic Records and Enrollment. The Executive Director of Academic Records and Enrollment will schedule a hearing within 10 calendar days of initial notification of the challenge to allow the student to present evidence relevant to the matter at the hearing. The student, or eligible parents of the student, will be notified in writing of the results. A student can insert a statement in his/her record after a hearing regardless of the hearing outcome (whether the college maintains, upholds or rules against the challenge).

Disclosure Policy:

There are two types of information distinguished under FERPA: personally identifiable information and directory information. Certain conditions exist with regard to the disclosure of each kind of information. NWF State College complies as follows:

- **Personally Identifiable Information:**
  Personally Identifiable Information is information that includes identifying data such as social security number, academic work completed, grades, achievement test scores, aptitude test scores, health data, or other personal characteristics or information which would make the student's identity easily traceable. Prior consent, in the form of a signed and dated document, must be provided by the student to authorize the College to disclose personally identifiable information. The consent must specify the educational records that may be disclosed, should state the purpose of the disclosure, and must identify the party or class of parties to whom the disclosure may be made.
- **Directory Information:**
  FERPA allows for the disclosure of directory information as identified by the institution. NWF State College has designated the following as directory information:
    - NAME
    - LOCAL AND PERMANENT ADDRESS
    - NWF STATE COLLEGE STUDENT EMAIL ADDRESS
    - MAJOR
    - DATES OF ATTENDANCE
    - CURRENT ENROLLMENT STATUS (FT/PT)
    - DEGREE(S) EARNED AND DATE(S) AWARDED
    - HONORS AND AWARDS
    - PRIOR POSTSECONDARY INSTITUTION(S) ATTENDED
    - PARTICIPATION IN OFFICIALLY RECOGNIZED ACTIVITIES AND SPORTS
    - HEIGHT AND WEIGHT OF STUDENT ATHLETES

  A student has the right to refuse designation of any or all of this directory information by notifying the Executive Director of Academic Records and Enrollment, in writing, at least 10 calendar days prior to enrolling in the term that the directory information block should begin. Once a student obtains a confidential classification, it will not be removed until a signed authorization requesting it be removed is received by the

Registrar. A student's request to prevent the release of any informational items will result in preventing the publication of all items including graduation, honors, and awards.

Exceptions to the Disclosure Policy:

FERPA allows for the release of student records without written consent of the student under the following conditions:

- To school officials with a legitimate educational interest. The College has designated school officials such as faculty, administration, professional employees, support staff, work-study students, or persons employed by or under contract to the College (example: an attorney or auditor) acting as an official agent of the College to perform a business function or service on behalf of the institution. A school official is determined to have a legitimate educational interest if the information requested is necessary for that official to: perform appropriate tasks that are specified in his or her position description or by a contract agreement; institution research and studies, perform a task related to a student's education; perform a task related to the discipline of a student; provide a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid. Disclosure to a school official having a legitimate educational interest does not constitute institutional authorization to transmit, share, or disclose any or all information received to a third party. An unauthorized disclosure of personally identifiable information from the education record of the students is prohibited.
- In compliance with a court order or subpoena
- To parents of a dependent student or such parents as defined in Section 152 of the Internal Revenue Code of 1954
- To schools in which a student seeks or intends to enroll
- To the Comptroller General of the United States, Attorney General of the United States, The Secretary of the Department of Education, and federal, state and local educational authorities involving an audit or evaluation of compliance with education programs
- In connection with the financial aid process
- In the event of a health or safety emergency where the information is required to resolve the emergency
- In the event that a student under the age of 21 has committed a drug or alcohol related offense
- As the result of a disciplinary hearing where the student is the perpetrator of a crime of violence or a non-forcible sex offense. Under this exception, information may be released to anyone, including the media. No information on the victim or witnesses may be released.

Students' Rights

A student has a right to file a complaint to The Family Policy Compliance Office, U. S. Department of Education, 400 Independence Ave., SW, Washington, D.C. 20202-4605, the office responsible for enforcing and administering the Family Educational Rights and Privacy Act. There are two basic requirements for a complaint to be properly filed against an institution in relation to FERPA infractions:

- The complaint must be made within 180 days of when the infraction was discovered.
- There must be sufficient facts (evidence) to prove the violation.

Enrollment and Degree Verification

The National Student Clearinghouse provides free enrollment and degree verifications for the purposes of employment, obtaining Military ID cards, Health Insurance or background screening. The National Student Clearinghouse can be contacted at:

Web: www.degreeverify.com Phone: (703) 742-4200 Email: degreeverify@studentclearinghouse.org	Address: National Student Clearinghouse 2300 Dulles Station Blvd., Suite 300 Herndon, VA 20171

Transient Students from NWF State College

Currently enrolled degree-seeking students may request approval from the Director of Records/Registrar to concurrently enroll at another college or university under limited extenuating circumstances. Students should complete an Application for Transient Study form prior to enrolling at the other institution. The form should be submitted to the Advising Office for initial review. Transient Student Authorization forms may be obtained online or from any NWF State College Center/Campus. An electronic version of the form is available for students attending a Florida public institution at https://www.floridashines.org/. Approval of transient study requests is determined by the Director of Advising and Testing and the Director of Records/Registrar. Upon completion of the course(s), request an official transcript to be sent directly to NWF State College Registrar's Office.

Students must meet the following criteria before approval can be granted:

- Be a degree-seeking student in good standing.
- Meet the appropriate NWF State College minimum credit hour residency requirement for the degree program.
- The requested course must be needed for the degree/certificate at NWF State College.
- Meet pre-requisites and/or testing requirements for the course at NWF State College.

Transfer Credit

Evaluation of transfer credit is completed for all degree-seeking students with a completed admission file. All credits at other colleges or universities accredited by one of the regional higher education accrediting bodies will be evaluated for transferability to the student's permanent record (transcript) as follows:

- For students pursuing an associate degree or college certificate, all attempted credits at the freshman and sophomore level, and
- For students pursuing a baccalaureate degree, all attempted credits at the freshman, sophomore, junior and senior level.

Credits recorded as transfer credit on the student's permanent record (transcript) do not guarantee that these credits will meet specific degree requirements for the student's program. The college may limit the number of transfer credits applicable towards the student's degree. The determination of how transfer credits may apply to a specific degree program rests with the College Registrar in consultation with the appropriate faculty/instructional staff.

The following factors will be considered in the evaluation of credits for transfer. The factors will be used in determining whether the course is transferable and in determining whether the course is recorded as a specific or unclassified course.

- Breadth, depth and rigor of course content as evidenced by course syllabi, prerequisites, placement test scores, exit requirements, student portfolios, textbooks, writing or oral communication requirements, grading standards, catalog descriptions, etc.
- Qualifications of the faculty member(s) providing the instruction
- Age of credits
- Recommendations through other established credit assessment bodies (e.g. ACE)
- Institutional accreditation via other professional assessment/accrediting bodies (e.g. AMA, NLN, state agency)

- Secondary documentation of course competencies (e.g. professional certification, standardized exam scores, etc.)

Recording Transfer Credits on the Student's Permanent Record (Transcript)

When evaluating credits, NWF State College reserves the right to delay recording the transfer credits on the student's permanent record until the student has completed admissions requirements, successfully completed college-level coursework at NWF State College, satisfied residency requirements and/or provided documentation or verification of student competencies. Final award or posting of credits to the student's permanent record may be contingent upon successful completion of one or more of the following requirements:

- NWF State College residency requirement;
- Higher-level courses in the same or a related subject area;
- Subsequent courses in the subject/course sequence;
- Demonstration of specific lab/clinical skills or other applied competencies;
- Additional independent/directed study in the subject area.

Once accepted, transfer credits will be recorded on the student's permanent record as externally awarded and will indicate the original institution awarding the credit. Transfer grades are not used in the cumulative GPA calculation towards credits earned at NWF State College. Where appropriate, an equivalent NWF State College course number will be indicated. When the college does not offer an equivalent course or if the course differs substantively from the suggested NWFSC course, the transfer credits may be listed on the transcript as an "unclassified" course. The unclassified credits will be further described as an open elective, a subject area elective, a general education elective or a general education subject area course, as appropriate.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:

"Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students."

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been exempted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- Courses not offered by the receiving institution.
- For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.

- Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations.
- Developmental courses.
- Graduate courses.
- Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
- Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Nonregionally Accredited Institutions using Florida Common Course Numbering

The Statewide Common Course Numbering System (SCNS) makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Vice President of Academic Affairs, Building A, Niceville Campus, or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

Acceptance of Transfer Credits from Other Non-Regionally Accredited Institutions

Credits awarded at non-regionally accredited institutions may be accepted by NWF State College and placed on the transcript if the credits represent collegiate level coursework relevant to the program of study, with course credit and level of instruction resulting in student competencies at least equivalent to those of students enrolled in comparable instruction at NWF State College. Students will need to complete a Transfer Credit Appeal form in order for the credits to be evaluated. Acceptance of credits from non-regionally accredited institutions of higher education will be based upon recommendation from the NWF State College instructional department responsible for the course subject area(s) in conjunction with the Registrar.

Appeal of Transfer Credit

A student may appeal the denial of transfer credits by written request (Transfer Credit Appeal form) to the Record's Office. Credits in question will be reviewed by a subject area expert(s) from the instructional department normally responsible for the subject matter in question. The review process will parallel that applied to the general evaluation of credits for transfer. The final determination will be made by the Registrar's Office in consultation with Academic Affairs.

Application of Transfer Credits to Baccalaureate Degree Programs

Lower division college credits in technical areas not generally applicable at the baccalaureate degree level will be reviewed according to the following factors prior to their acceptance as satisfying degree requirements.

- Breadth, depth and rigor of course content as evidenced by course syllabi, prerequisites, placement test scores, exit requirements, student portfolios, textbooks, writing or oral communication requirements, grading standards, catalog descriptions, etc.
- Qualifications of the faculty member(s) providing the instruction

- Age of credits
- Recommendations through other established credit assessment bodies (e.g. ACE)
- Institutional accreditation via other professional assessment/accrediting bodies (e.g. AMA, NLN, state agency)
- Secondary documentation of course competencies (e.g. professional certification, standardized exam scores, etc.)

Where questions of applicability remain following such review, the credits may still be used to meet lower division degree requirements subject to one or more of the following conditions:

- Successful completion of related higher-level courses in the student's program of study;
- Successful completion of subsequent courses in the subject/course sequence;
- Successful completion of complementary lower division coursework in the subject or related area;
- Demonstration of specific lab/clinical skills or other applied competencies;
- Completion of additional supplemental independent/directed study in the subject area which augments the skills/content of the technical course;
- Presentation of a portfolio of work substantiating the breadth, depth and rigor of the course content to include both theory and applied competencies;
- Analysis of clusters of course credits where a combination of technical courses may represent baccalaureate level competencies when viewed as a package (e.g. eight credits in technical coursework may correspond to a three credit traditional transfer course in a given subject area);
- Verification of faculty credentials at the transferring institution.

International Students

International students must have their transcripts translated and evaluated by one of the credential evaluation agencies sanctioned by the National Association of Credential Evaluation Services, Inc. (NACES). Each course will be individually assessed for transfer consideration. Credits will be awarded on a course-by-course basis.

Credit by Alternative Means of Study

NWF State College will award credit for certain types of non-traditional study or credits earned through alternative means of study. No more than 75% of the credits in NWF State College's Baccalaureate, Associate and Certificate programs may be earned by alternate study. Alternative study methods covered under these limits include: Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB), Excelsior College, Military Service School Credits, Correspondence Credits, the NWF State College's Course Challenge Exam Option, and Credits through Prior Learning Assessment. Credits for accelerated mechanisms defined under Florida rules and regulations will be awarded in accordance with Florida Administrative Code FAC 6A-10 and the State of Florida's Articulation Coordinating Committee Credit-by-Exam equivalents.

Advanced Placement Credits (AP):

NWF State College participates in the Advanced Placement program conducted by the College Board. Advanced Placement Tests may be taken at participating high schools or centers. Upon receipt of official score reports from the College Board, college credits will be awarded as determined by the Admissions' Office under guidelines established by the State Board of Education. Scores of 3, 4, and 5 will be accepted for credit. No credit will be allowed for scores of 1 or 2.

Cambridge A-Level & AS-Level Exams (AICE):

NWF State College will award credit through the AICE program upon receipt of an official score report, as determined by the Admissions Office under the guidelines established by the State Board of Education.

College Level Examination Program (CLEP):

College credits may be earned through the successful completion of general and subject level examinations. A 50th percentile score is required for credit. Upon receipt of official score reports from the College Board, specific courses in which credit may be awarded is determined by the Record/Registrar Office under guidelines established by the State Board of Education. For information regarding how to register for the test and how the credits will be accepted, please refer the NWF State College Testing Center CLEP webpage.

International Baccalaureate (IB):

Students may receive up to 30 college credits for International Baccalaureate (IB) program higher level and subsidiary level examinations. Upon receipt of an official score report college credit will be awarded as determined by the Admissions Office under guidelines established by the State Board of Education.

DSST Examination:

College credit may be earned through DSST examination program. The official score report should be submitted to the Records/Registrar office to be evaluated under the guidelines established by the State Board of Education. For information regarding how to register for the test and how the credits will be accepted, please refer the NWF State College Testing Center DSST (DANTES) webpage.

Excelsior College Examination:

NWF State College will award credit through the Excelsior College exam program upon receipt of an official score report, as determined by the Registrar's Office under the guidelines established by the State Board of Education.

Comprehensive Course Challenge Examination for Credit

Eligible degree-seeking students that have accumulated a minimum of fifteen (15) hours in residence with NWF State College may earn credit through successful completion of the College's Course Challenge Examination. The comprehensive examination is intended to verify skills and knowledge acquired through prior learning experiences and is available for courses listed below.

Course Challenge Exams are available for the following courses: (Courses not listed MAY be available by special permission)

Advanced Technology

- CET 2172C - Microcomputer Servicing **4 Credit Hours**
- ETD 1102 - Introduction to Technical Drawing **3 Credit Hours**

Allied Health

- HSC 1531 - Medical Terminology **3 Credit Hours**
- NSP 4275 - Introduction to Critical Care Nursing **3 Credit Hours**

Business/ Computer Technology

- CGS 1100 - Microcomputer Applications **3 Credit Hours**
- CGS 1550 - Introduction to World Wide Web **3 Credit Hours**
- CIS 1000 - Introduction to Computer Science **3 Credit Hours**
- CTS 2104 - Introduction to Windows **3 credit hours**
- GEB 1011 - Introduction to Business **3 credit hours**
- MAN 2300 - Personnel Management **3 credit hours**
- MAR 2011 - Introduction to Marketing **3 credit hours**
- MTB 1103 - Business Mathematics **3 credit hours**
- OST 1107 - Word Processing I **3 credit hours**

Mathematics

- MAT 1033A - Intermediate Algebra **4 Credit Hours**

Science

- HUN 2201 - Nutrition **3 Credit Hours**

Public Safety

- FFP 1801 - Introduction to Emergency Management Administration **2 Credit Hours**

Steps for Approval:

- The student should consult with the Division Director/Department Chairperson regarding the availability of a course challenge exam for the specific course. Division Director/Department Chairperson will approve or disapprove request. If approval is granted, a date, time and place for the test should be arranged.
- The Office of Enrollment Services will verify that the student meets all of the eligibility criteria. Students must be current/former student of NWF State College in good academic standing that are not currently enrolled but eligible to take the requested course. Student must not have received a grade (except 'W') nor enrolled in the course in the previous semester. Students are only allowed to attempt the Course Challenge once for each subject area and if there is no CLEP option available.
- The student takes the signed form to the Business Office and pays the $100 testing fee prior to taking the exam. The cashier notates on the form the receipt of the fees which serves as an admission ticket for the student to take to the exam.
- At the time the student takes the exam, he/she turns in the Course Challenge Exam form to the test administrator. At the end of the exam, the administrator will record whether the student passed or failed the exam and the form will be forwarded to the Registrar's office.
- If the student passes the exam, he/she will receive full credit for the course with a transcript grade of "P". If the student fails the exam, no grade will be recorded.

Jump Start: Career Pathways and Industry Certifications

"Jump Start" is the name applied to the Career Pathway and Industry Certification articulation program between Northwest Florida State College, the Okaloosa and Walton School Districts and all students who meet the General Provisions of the agreement. High School and Adult students who have participated in career/technical programs and/or obtained industry certifications, have the opportunity to apply skills acquired through those programs in partial fulfillment of a certificate and/or two-year degree program at NWF State College. The amount of credit awarded will depend upon established articulation agreements, skill assessment and departmental recommendations. Students

receiving credit under this option must complete credits in residence at NWF State College, per established agreements before the credits will appear on the student's permanent record (transcript).

Articulation of Vocational Courses and Credits

For students who meet certain requirements, the college may award credit for certain types of non-traditional study such as High School Career Academy Courses and Certifications, Certified Professional Secretary Exam, Child Development Associate Certification, Licensed Practical Nurse (LPN) Bridge, Fire Science Training, Certified Law Enforcement or Correctional Officers, Licensed EMT/Paramedic, External PSAV to PSV or Internal PSAV to PSV agreements, or other such agreements as established by the NWF State College Curriculum Committee.

Credits awarded through these means will be documented on the NWF State College Articulation Analysis form, which will reside in the student's permanent file in the Records Office. Credits received through these methods may not be transferable or applicable to the A.A. degree.

Students who complete a diploma or certificate from a vocational or technical school at less than the college level may receive credit toward partial completion of a related technical program at the college. Credit is awarded based upon the nature of the training, current skill levels, and relationship to college program standards. The amount of credit awarded will depend upon established articulation agreements, skill assessment and departmental recommendations. Students receiving credit under this option must complete credits in residence at NWF State College, per established agreements, before the alternate credits will appear on the student's permanent record (transcript). Additional minimum grade or course requirements, as well as demonstration of competencies may also be required.

Students who complete a vocational school certificate program, which is contained in an approved articulation agreement with the college, will receive credit toward completion of a related technical program at the college per the details of the agreement. Credits received in this manner may not be transferable to upper division schools nor be applicable to the A.A. degree.

Students who complete a vocational certificate at NWF State College may receive credit toward partial completion of a related technical program at the college according to the credit/ competency equivalents established by the NWF State College Curriculum Committee.

Final decisions regarding the award of credits and the recording of credits on the student's transcript rest with the College Registrar.

Credit for Armed Services Schools and Military Training

Credits resulting from classroom-type instruction (i.e., excluding on-the-job training and correspondence-type courses) at U.S. Air Force, Army, Coast Guard, Marine or Naval Schools will be evaluated as stated on the official transcripts issued by the Community College of the Air Force (CCAF), the Sailor/Marine/ACE Registry Transcript (SMART), the Army/American Council on Education Registry Transcript System (AARTS) or the Military Education Transcript from the Coast Guard Institute. Credits for occupational and vocational technical courses may apply toward an A.S. degree or Technical Certificate. Credits received in this manner may not be transferable nor be applicable to the B.A.S. or A.A. degree. CLEP and DANTES credits will be evaluated by the Registrar in keeping with the state of Florida Articulation Agreement between community colleges and universities, upon receipt of official score reports from the College Board.

Achievement Awards

A student who has successfully completed a given set of skill courses within a particular degree or certificate program may be recognized for his/her mastery of these competencies with a NWF State College Achievement Award. Although the award does not indicate completion of an official, approved program of study, it does verify the student's

proficiency with a specified group of skills. Achievement awards are not noted on the student's transcript or permanent record; however, the student will receive an NWF State College Achievement Certificate from the Office of Career and Technical Education that may be presented to an employer or agency as a record of this educational milestone. Students are encouraged to keep a copy of these awards as the college cannot guarantee that these can be duplicated.

Grades

Grades are awarded in all college, vocational, and developmental courses, as well as in certain non-credit courses. NWF State College maintains permanent records for all students registering for courses. A cumulative record of the student's grades appears on the transcript. Letter grades are assigned according to the grades.

A student has a right to a course grade that represents the instructor's professional judgment of the student's performance in the course, without personal prejudice. An instructor has a right to expect that the work presented for evaluation or submitted as classroom projects is that of the student acting alone without benefit of any aids or practices that are generally considered academically dishonest.

Grades Table

Academic Grade	General Meaning
A	Excellent
B	Good
C	Average
D	Poor/Passing
F	Failure
FA	Failure Due to Lack of Attendance
FN	Failure Never Attended
I	Incomplete
IP	In Progress
NG	No Grade
P	Passing
U	Unsatisfactory
V	Deferred Incomplete
W	Student Withdrew
WF	Student Withdrew Failing
WN	Withdrawn for Never Attending

X	Audit
XC	Changed to Audit After Schedule Adjustment Period

Grade Point Average (GPA)

The student's permanent record also contains grade point average (GPA) calculations. The student's GPA is used in determining academic standing, graduation readiness, eligibility for the President's and Dean's Lists, and in other academically related decisions. Your semester grade point average represents the average of your grades for only one semester. Your cumulative grade point average represents the average of the grades of all courses you have taken at NWF State College. Only grades for courses at 1000 level or above are used to compute GPA for graduation. College preparatory courses are not included in GPA calculations.

To determine the grade point average, multiply the number of quality points for each grade received by the number of credit hours for that course. Then divide the total number of quality points by the total number of GPA hours attempted excluding courses with W, I, and Audit grades. Vocational and Undergraduate Level courses are calculated separately.

As of Fall 2015, the College no longer includes course grades transferred from other institutions in the calculation of a student's GPA.

Credit hours pursued is defined as those credits in which a grade of A-F has been awarded. Grades of S, P, U, I, V, N, W, and X, do not carry grade quality points. In general, credits for these grades do not count in hours pursued. However, in certain other circumstances, such as determination of repeat enrollments, and in computation of certain specialized GPA's, credits which carry these grades may be included in the GPA computation.

Grade	Grade Quality Points
A	4
B	3
C	2
D	1
F	0

Example Course	Grade	Grade Points		Credit Hours	Quality Points
Speech	C	2	**x**	3	6
Algebra	C	2	**x**	3	6
American Literature	B	3	**x**	3	9
Chemistry	D	1	**x**	4	4
Health Science	A	4	**x**	2	8

Total Points					33
Total Semester Credit Hours				15	33/15=
GPA					2.20

Dean's and President's Lists

When the quality of a student's work is superior, the college is pleased to honor such work for students enrolled in all programs - Baccalaureate, Associate or Certificate programs through recognition as follows:

PRESIDENT'S LIST:

Any student with nine (9) or more earned college credit hours in the term and a term grade point average of 3.80 - 4.00 in college level courses is placed on the President's List.

DEAN'S LIST:

Any student with nine (9) or more earned college credit hours in the term and a term grade point average of 3.50 - 3.79 in college level courses is placed on the Dean's List.

Incomplete Grades

At the instructor's discretion, a grade of "I" may be given when a student is unable to complete the required work because of clearly documented extenuating circumstances and if the student has demonstrated successful completion of a significant portion of the course requirement that he/she has a reasonable chance of making a passing grade. The instructor files with the department chair, and with the student concerned, an outline of the work that must be completed, including an estimate of the student's grade standing for work already completed during the term. Work for the removal of the "I" must be completed prior to the LAST CLASS DAY in the next 16-week term immediately following except where course requirements mandate otherwise. Students completing course work to remove the "I" must do so outside the regular classroom setting. The grade will revert to an "F" on the official transcript if not removed by that time. A student will not be permitted to re-enroll in a course which he/she has an outstanding grade of "I" or for a class that has that course as a prerequisite.

In extraordinary circumstances, a deferred incomplete grade of "V" may be awarded when approved absences preclude satisfactory course completion by the end of the next 16-week term of enrollment.

Repeating Courses

Repeating a Course to Improve the Grade

If a student receives a grade of D, F, W, or U in a college credit, vocational or developmental course, he/she may repeat the course to improve the grade. Students are permitted a maximum of two enrollment attempts in such courses. A third and fourth attempt may be allowed only through an academic appeal process based on major extenuating circumstances. Any attempt to enroll in a course for a third/fourth attempt should be directed to the Dean of Students. On the third attempt, and any subsequent attempts, the student will be awarded the letter grade earned (A, B, C, D, F, S, U, or P) and will not be allowed to withdraw from the course. If a course withdrawal (drop) is processed prior to the close of the schedule adjustment period, or if audit status is declared prior to the end of the schedule adjustment period, the enrollment will not count as one of the attempts. Once a student has successfully completed a course (received a grade of A, B, C,) he/she will not be permitted to repeat the course. In certain special

or compelling circumstances, it may be possible to re-enroll after successful completion, but advance written approval must be obtained from the Vice President of Academic Affairs. Such circumstances include, for example, NWF State College program requirements, teacher recertification, license renewal, and mandated professional development. Grades earned in this manner will not replace grades earned in prior enrollments but will appear on the transcript.

For any course repeated, whether at NWF State College or elsewhere, only credit from the last attempt will be used in the computation of the student's grade point average and for meeting program requirements. Repeating a course results in an adjusted grade point average; however, if a course is repeated after the student has earned his/her A.A. degree, the student's grade point average will not change. Students should be aware that some private colleges and universities, as well as out-of-state institutions, and some Florida public universities (depending on the student's major) may not accept the revised GPA or treat the repeated course in the same manner.

Per Florida statute 1009.285, after the second attempt in a college credit or developmental course, a student will be required to pay the full cost of instruction (approximately four times the usual matriculation fees) to repeat the course. In documented cases of financial hardship or extenuating and compelling circumstances, the full cost requirement may be appealed through the Registrar's Office. Students receiving financial aid or veterans benefits should consult with a financial aid advisor before repeating a course; benefits and aid may not be available for certain repeat enrollments.

Repeating a Course for Credit toward Graduation

Certain courses, such as those in the fine and performing arts areas, physical education, and communications areas, may be repeated for credit toward graduation. The specific courses and the number of allowable repeat enrollments are provided in the course description section of this catalog. Only those courses designated as repeatable for credit fall into this category.

When a course is repeated under these circumstances, the full cost of instruction rule is not applicable until the maximum number of creditable repeats has been reached. All grades and credits associated with the allowable number of repeats will be considered in the student's GPA and will be considered in determining the credits for program completion. Once the maximum number of enrollments has been reached, additional enrollments will be treated as specified in the previous section on course repeats and may be subject to the full cost rule.

Repeating Non-credit Courses

Courses taken through Continuing Education, PRIME Time, the Institute for Professional Development, Kids on Campus, or Adult Education courses, including ABE, GED, and ESOL, are not subject to repeat rules.

Grade Changes/Errors

If a student believes there is an inadvertent error in the recording or the computation of his/her final course grade, the student should contact the instructor or the appropriate department office immediately. If an error has occurred, an adjustment to the student's permanent record (transcript) will be made within approximately ten (10) working days. The student is responsible for reporting such concerns within thirty (30) days of the close of the term in which the grade was awarded.

If a student has documentation of extraordinary or emergency circumstances which warrant recording a course withdrawal ("W") after the usual deadline, he/she must submit a written request for such change to the Dean of Students. If an adjustment is warranted, the change will be made within approximately ten (10) days. The student is responsible for requesting such changes within thirty (30) days of the term in which the original grade was awarded.

Grade Grievances

If a student believes that he/she has not been graded fairly in a course, an appeal may be filed at http://www.nwfsc.edu/disputes. The grade grievance process applies only to final course grades. Any appeal must be initiated within thirty (30) days of the date the grade was issued to the Registrar's Office. The student should first make an informal appeal to the instructor.

A student has a right to protection against the improper disclosure of information concerning grades, beliefs, or character which an instructor acquires in the course of the professional association with the student. An instructor has a right to deal with what is perceived to be academic dishonesty and such behavior may result in disciplinary action.

Academic History Grade Relief Option

A student who has been unsuccessful academically (i.e. grades of "D's" and "F's") and whose credits are five or more years old may seek relief from the effect of those credits on his/her grade point average at NWF State College by submitting a written appeal to the Vice President of Academic Affairs. If the request is granted, it will apply to all credits and grades earned prior to the date specified, and the student will not be permitted to count any of those credits toward graduation or program completion. The courses and grades will remain on the student's permanent record (transcript), but will not be considered in grade point average computations at NWF State College. Financial Aid is required by federal regulation to include all credit hours attempted in calculating eligibility for federal financial aid. Grade relief cannot be granted to students who have already graduated.

A student requesting this option should be aware that the relief may not be honored by other colleges and universities; other institutions may continue to consider the older credits and grades in evaluating the student's work. Relief through this process does not excuse the student from restrictions related to repeating courses or from compliance with other applicable college policies.

Academic Standing

The college has set academic standards ranging from recognition of excellence for superior progress to discontinuance of enrollment for inadequate progress towards these standards. In determining academic progress, college credit and vocational courses are combined. The standards apply to full and part-time students. They apply to those students who are seeking a degree or award and those who are not. Students enrolled in a Limited Admission or Limited Access program should contact the appropriate department or division office for information on programmatic certification and/or professional accreditation standards as they pertain to demonstrating satisfactory academic progress as these may vary by program.

Good Standing

A student is considered in academic good standing at the college as long as the student maintains a cumulative grade-point average (GPA) detailed below:

Credit Hours Attempted	Minimum GPA Required
0.00 - 11.99	N/A
12.00 - 24.99	1.50
25.00 & Over	2.00

Not in Academic Good Standing

When students fail to achieve the 2.00 cumulative GPA, the college will place certain restrictions on their future registrations and the courses for which they may enroll. In order to return to "Academic Good Standing", a student must increase the cumulative grade point average for all work attempted to at least the level specified for "Academic Good Standing." Students "Not in Academic Good Standing" are encouraged to take advantage of the tutorial services offered in the Academic Success Center. There are three states of being while "Not in Academic Good Standing" and the following regulations apply to these states:

Academic Warning

When students fail to meet these minimum standards, they will be put on Academic Warning for the following semester. Students on warning will be advised to see an Academic Advisor, who will recommend that the student take advantage of our many support services, including the Academic Success Center, to help improve their performance and fulfill their academic goals.

Students will be removed from Academic Warning if they have returned to good standing by bringing up their GPA to the required minimum standard.

Students will continue for a second semester on warning if they have successfully completed all courses attempted during the warning period, but have not yet brought their overall GPA up to the required minimum. Students will be placed on probation for the next semester if they have not returned to good standing and have not successfully completed all courses earning the minimum GPA for the semester while on warning.

Academic Probation

When put on Academic Probation the student will be monitored every semester and will be required to consult with an Academic Advisor to develop a mandatory prescriptive program each semester. This program may require the student to take a 50-percent reduction in course load from prior semesters, to repeat certain courses, or to take advantage of student support services such as those offered in the Academic Success Center.

Students will be removed from Academic Probation if they have returned to good standing by bringing their GPA up to the required minimum standard at the end of the semester. Students will continue for a second semester on probation if they have successfully completed all courses during the probation period but have not yet brought their overall GPA up to the required minimum.

Students will be placed on "Suspension" for the next semester if they have not returned to good standing and have not successfully completed all courses earning a the required minimum GPA for the semester on probation.

Academic Suspension

Students placed on Academic Suspension will be required to stop enrollment for one complete semester. They will be allowed to appeal a suspension based upon extraordinary, one-time events during their probationary semester that should not affect academic success in the future. Performance in developmental courses can be considered part of the appeal process. If a suspended student wishes to return, they may submit an appeal to the Registrar's Office requesting reinstatement. If a suspended student has already registered for classes, the classes will be dropped on the first day of the schedule adjustment period if the student does not complete an appeal or the appeal is denied. The appeal should explain what factors prevented the student from succeeding earlier and how those factors will no longer interfere with the student's progress and include supporting documentation. If the appeal is granted, the student also is required to meet with the advisor who initially approved the student's probation status to review and once again develop a prescriptive program before the student is allowed to register. The returning student will still be on probation and their status will be reviewed again at the end of the semester. If a student sits out a semester, then appeal to come back to school and do not improve in the semester they return, they will be suspended again and must sit out one semester. If a student makes progress but is still on Academic Suspension, The Registrar's office will allow them to keep taking classes as long as they keep making progress.

Financial Aid is required by federal regulation to include all credit hours attempted in calculating eligibility for federal financial aid.

Graduation

- Additional Degrees
- Diplomas
- Effective Catalog Changes
- Graduation Ceremonies
- Graduation Honors

Student Responsibilities

Graduation at NWF State College is an automatic process, streamlining the necessary steps for students and ensuring their transcripts reflect the degree or certificate earned. Students will be automatically graduated upon completing all degree requirements, and diplomas will be mailed to the address on file. Degree notations on transcripts will include academic terms in which all of the requirements were completed. Students may opt out of the automatic process with the registrar's office. Students opting out of auto-graduation understand the Registrar's Office will not award the certificate or degree. Students opting out of auto-graduation will need to complete a graduation application when ready to graduate. During the months of October (Fall), March (Spring) and June (Summer), the College will conduct a preliminary review of each currently enrolled student's degree audit. Students who will be "100% program complete" at the end of the term will be eligible for graduation. An email will be sent to eligible students informing them of their graduation status and inviting them to participate in the commencement ceremony.

To be eligible for graduation, a student must have a complete admission file, including all certificate programs as well. We must receive all official transcripts before the program completion can be posted to the transcript. If a student has an incomplete file or is completing the remaining courses as a transient student at a different institution, we must receive the official transcript by the current semester's deadline. Refer to your student email account for notifications regarding the deadline.

Students are responsible for selecting courses which meet program requirements and for earning the required minimum grades in those courses. Contact your adviser no later than two semesters prior to the anticipated graduation date to schedule an appointment and confirm all requirements. Students may review their graduation progress through the degree audit component of RaiderNet.

Effective Catalog Policy

Students must follow the requirements in effect at the time of initial enrollment in a program of study and are expected to complete the program within five catalog years. A student who is not continuously enrolled and is required to be readmitted must complete requirements for graduation under the catalog in effect at the time of re-entry. A student who does not complete the requirements within five catalog years will be evaluated for graduation using current catalog requirements.

Continuous enrollment is defined as enrollment in at least one course per major semester (Fall, Spring) during an academic year.

Additional Degrees

A student who earns a degree may be granted a second or additional degree under the following conditions:

- No more than one Associate in Arts degree may be granted.

- A Bachelor of Science, Bachelor of Applied Science, Associate in Science, and/or Associate of Applied Science degree may not be earned in the same program.
- The written degree plan for an additional Bachelor of Science or Bachelor of Applied Science degree shall specify the prerequisite and core courses for the additional degree. In meeting these requirements, the student may use courses completed for a previous degree. However, the student must complete at least 30 additional credits. The additional 30 credits may be core credits and/or general education credits but are usually technical courses that support the specific program of study. The degree plan including the additional courses must be approved in advance by the appropriate Department Chair, the college Registrar and the Vice President of Academic Affairs.
- The written degree plan for an additional Associate in Science degree shall specify the prerequisite and core courses for the additional degree. In meeting these requirements, the student may use courses completed for a previous degree. However, the student must complete at least 15 additional credits unless otherwise approved by an approved program of study. The additional 15 credits may be core credits and/or general education credits but are usually technical courses that support the specific program of study. The degree plan including the additional courses must be approved in advance by the appropriate Department Chair, the College Registrar and the Vice President of Academic Affairs.
- Students who have been awarded a State of Florida Associate of Arts degree, a baccalaureate degree from a regionally accredited institution or a comparable international institution may meet some of the graduation requirements by virtue of their previous degree. This may include Gordon Rule and general education requirements. Although, prerequisites for the major are still required. Students should contact their Academic Advisor or Registrar for additional information.
- All other requirements for graduation remain in effect for students pursuing additional degrees.

The Graduation Process

At the end of the term, graduates are reviewed for final program completion. Graduation will be posted to the official transcript within 10 business days of the final grade reporting date for instructors. Incomplete grades for the graduation term must be completed within 3 weeks of the end of the term. Transient transcripts with course work for the graduation term must be received within 3 weeks of the end of the term. Unsuccessful graduates must reapply for graduation in the future term they plan to graduate. Diplomas are mailed 6 – 8 weeks after the close of each term.

Graduation Honors

For students enrolled in a degree program (Baccalaureate and Associate) at the time of graduation, a student's total academic record is included in the calculation to determine recognition of outstanding academic achievement. If the student's cumulative grade point average for all college and vocational courses completed at NWF State College and at other transfer institutions meets the standards, and if the student meets all other graduation requirements, he or she will be graduated with the appropriate level of honors. The honors will be posted on the diploma and the transcript. Honors for students enrolled degree programs include:

Cum Laude	**Magna Cum Laude**	**Summa Cum Laude**
Cumulative GPA of 3.50 – 3.79	Cumulative GPA of 3.80 – 3.99	Cumulative GPA of 4.00

For students enrolled in a certificate or diploma program (Career and Technical, Vocational, College Credit or Applied Technology Diploma) at the time of graduation, all coursework pursued for the certificate or diploma will be included in the calculation to determine recognition of outstanding academic achievement. If the student's grade point average for the certificate or diploma course meets the standards, and if the student meets all other graduation requirements, he or she will be graduated with the appropriate level of honors. The honors will be posted on the diploma and the transcript. The honors for the students enrolled in certificate or diploma programs include:

Honors	High Honors	Highest Honors
Cumulative GPA of 3.50 – 3.79	Cumulative GPA of 3.80 – 3.99	Cumulative GPA of 4.00

Graduation Ceremony

NWF State College hosts two graduation ceremonies at the end of Spring semester. The ceremonies honors graduates from the previous Summer and Fall semester as well as potential Spring semester graduates. Students participating in the ceremony must RSVP prior to the ceremony. For more information regarding the Commencement Ceremony and to RSVP, please refer to the Graduation webpage.

Graduation Regalia

Graduation regalia to include cap, gown, tassel, and baccalaureate stole are available at the Barnes and Noble College Stores located on the Niceville campus approximately four weeks prior to graduation. Graduation regalia are required for participation. Honor cords are provided by the College and are given out at the commencement check-in. Borrowed regalia is not permitted. For more information regarding graduation, please refer to the Graduation webpage. For additional information concerning graduation regalia, please call the Niceville Barnes and Noble College Store at (850) 729-5384.

Diplomas

Diplomas are mailed 6-8 weeks after the close of each term to the address on the graduation application. Diplomas are issued in the name provided on the graduation application.

Campus Services

- Academic Success Center (ASC)
- AmeriCorps
- ATM Machines
- Barnes & Noble College Store
- Career Center
- Child Development Center
- Disability Support Services
- Learning Resources Center (LRC)
- Photocopies
- Raider Café
- Veteran's Succses Center

Learning Resources Center

Academic Success Center (ASC)

The ASC is located on the first floor of the Library (Learning Resources Center-LRC), Building 500 on the Niceville Campus. We also have services available at the Fort Walton Beach Campus, the Sikes Center in Crestview, and at the Chautauqua Center in DeFuniak Springs. The ASC provides free learning support services in subjects such as writing, math, science, and many others. One on one appointments are available via walk-in and appointment (click here to make an appointment). The ASC also offers workshops, groups sessions, and online appointments via Zoom and paper submissions. For more information, call the Academic Success Center at (850) 729-5389.

Math Labs are located in the Math Building 300, Room L-131, on the Niceville Campus; in Building 7, Room 702 on the Fort Walton Beach Campus. The math labs are open to all students and provide free walk-in tutoring for all mathematics courses. For lab hours, students may call the Math Department at (850) 729-5377 or visit our website.

AmeriCorps

AmeriCorps is a component of the National Service Network. Its goal is to engage Americans of all ages and backgrounds in service to help meet communities' critical education, public safety, environmental, and other human needs and homeland security. AmeriCorps is often referred to as the "Domestic Peace Corps".

Full-time members serve a minimum of 1720 hours per service year. They receive a taxable living allowance of $12,630 per year while serving and a $5,815.00 education award voucher at the end of the service commitment. Other benefits for full-time members include healthcare insurance and student loan deferment and childcare (if qualified).

For more information, please call (850) 729-6037 for information on the program.

ATM Machines

ATM machines are located in the Activities Center, Building 410 on the Niceville Campus and in the Administration Building on the Fort Walton Beach Campus.

Barnes & Noble College Stores

NWF State College has two College Stores which are operated by Barnes & Noble College. The College Store on the Niceville Campus is located in the Activities Center, Building 410. The Fort Walton Beach Campus College Store is located in the Student Services Building. Both stores are full-service stores offering textbooks, supplies, college clothing, gift items, hardware, and software. The stores maintain extended hours during back-to-school and book buy back periods. Contact the College Store or visit the Barnes & Noble College Store website for store hours.

Career Center

The Career Center provides career planning assistance for students and the community. The Career Center offers interest and skills assessments, career information, help with resume preparation and a variety of workshops. The program assists students with making an education and training choice that will enable them to enter or reenter the workforce with marketable skills.

A new partnership with CareerSource Okaloosa-Walton has enabled us to now have a CareerSource advisor available to meet with students and community members at the Niceville Campus Career Center. Services include: job seeker services, career counseling, employment search workshops, and labor market information. Prove-It! Skills testing is also available and offers over 1,200 validated assessments for a variety of employment sectors. Phone 850.729.4994 to set up an appointment. Walk-ins are always welcome.

Students who are undecided about their future career plans are encouraged to make an appointment with their Academic Advisor or to visit the Career Center located in the Activities Center, Building 410 on the Niceville Campus (Phone 850.729.5227) or Building 2 at the DeFuniak Springs Chautauqua Center (Phone 850.200.4113) to discuss career opportunities. Selected career-related services are also available at the Fort Walton Beach Campus and the Robert L. F. Sikes Education Center.

The Career Center offers numerous career assessment services, including:

- Career counseling
- Web-based career planning information
- College-wide career focus workshops
- Job fairs information
- Occupational information linked to NWF State College degree and certificate programs
- Computerized career exploration programs:
    - My Career Shines is a Career Planning tool hosted by the state of Florida and available on any computer. The NWF State College Career Center has computers available in their Career Counseling area for students to access this powerful program to set up an account and explore career, education and scholarship opportunities.
    - Strong II - The Strong Interest Inventory provides information on overall patterns of interests, preferences and personal styles that can be explored for the immediate and long-range educational and career planning.
    - Myers-Briggs Type Indicator - This is a personality instrument based on psychological types and temperaments. It provides information about your personality style and the way you interact with other people.

Disability Support Services

NWF State College is committed to the fulfillment of equal educational opportunities to all students. In compliance with the regulations of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the ADA Amendments Act of 2008, the office of Disability Support Services (DSS) exists to determine appropriate accommodations for qualified students with documented disabilities, to assist students in self-advocacy, and to educate the NWF State College community about disabilities.

Students in need of assistance are encouraged to register with DSS which is located in the Student Services Center on the Niceville campus. Appropriate documentation guidelines are located on the college website. All information is kept confidential. Students who register may be eligible for accommodations such as, but not limited to, note-taker, scribe, interpreter, extended time for testing, course substitution, use of an audio recording device and tests recorded on tape.

Telephone Device for the Deaf (TDD) numbers are available through the Florida Telecommunication Relay Service:

Voice: 711 or 1-800-955-8770

TDD: 711 or 1-800-955-8771

Students who feel that the College did not respond appropriately to their disability requirements are asked to show NWF State College the particulars of the complaint. Students should first discuss the problem with the Counselor of Students with Disabilities in an attempt to informally resolve the issue. If unable to resolve the issue informally, a student may file a formal student grievance through the office of Disability Support Services. It will be forwarded to the Dean of Students and follow the College's procedures for filing a grievance.

Learning Resources Center

During the Fall and Spring Terms, the library is open Monday through Thursday from 7:30 am to 9:00 pm, Fridays from 7:30 am to 5:00 pm, and Saturdays from 9:00 am to 1:00 pm. Hours vary during the Summer Terms. Please visit the LRC website for hours and additional information or call (850) 729-5318.

Mary Lou O'Connor Child Development and Education Center

The College's Mary Lou O'Connor Child Development and Education Center provides comprehensive, quality care for children ages 2.5 to 5. The center is nationally accredited and is open to dependents of NWF State College students, staff, faculty and members of the community on a space available basis. The center is located in Building 530 on the Niceville Campus and is open Monday through Friday from 7:00 am to 5:30 pm. The college participates in the Florida Voluntary Pre-Kindergarten (VPK) program. For more information call (850) 729-5386.

Photocopies

The RaiderCard may be used to make copies at the locations listed below.

- Niceville Campus - The Learning Resources Center
- Fort Walton Beach Campus – Library

Raider Café

The Raider Café, located in the Activities Center, Building 410, on the Niceville Campus, is open Monday through Friday from 7:15 am to 2:00 pm during the Fall and Spring Terms and Monday through Thursday from 7:30 am to 2:00 pm during the Summer Term. Vending machines are available at the Fort Walton Beach Campus in the Student Services Building, Building 6 and Building 3. Vending machines are also available in the student lounge areas at the Chautauqua and Sikes Centers.

Veteran's Success Center

The Veterans Success Center, located in the Student Services Center, Building 400 on the Niceville campus, can assist veterans and families with educational goals and transition into the workplace.

Student Life

Get Involved

College is much more than just academics. The invaluable experiences gained through co-curricular activities can't just be delivered in the classroom alone. The term "co-curricular" replaced the previously used term "extra-curricular" to emphasize that your involvement outside the classroom goes hand in hand with your classroom academics!

Student Life strives to cultivate a campus environment that promotes equity, opportunities for all students to participate in extracurricular activities, and the environment for each student to learn and practice essential skills needed after college life. Student Life provides support to students, student organizations, community service projects, and community activities that may enhance the quality of educational life for students. Student Life also provides social and cultural enrichment opportunities in Okaloosa and Walton counties.

Athletics

NWF State College is an active member of the National Junior College Athletic Association (NJCAA) and the Florida College System Activities Association (FCSAA) which is composed of all public community and state colleges in Florida. Visit Raider Athletics for more information.

Intercollegiate Sports

Intercollegiate Sports operate under the rules and regulations of NJCAA and FCSAA. Varsity athletes enjoy the privilege, honor, and social distinction of representing the college in the field of athletic competition. Representation of the college is open by competitive selection to all students provided they meet the eligibility requirements of the FCSAA. Intercollegiate sports include basketball for men and women, baseball for men, and fast-pitch softball for women.

Intramural Activities

Intramural Activities may be offered based on student interest. These include team sports such as flag football, volleyball, softball, tennis, and basketball, as well as individual and recreational sports such as tennis, racquetball, and backgammon. Classes, clubs, organizations and independent groups are encouraged to form teams and compete.

Times, schedules, and places of meeting for activities are posted on the bulletin boards located in the Activities Center and throughout the Niceville Campus.

Student Organizations

Student Life oversees a wide variety of student organizations that cover many interests and activities. Membership is open to all students who qualify, without regard to age, color, creed, handicap, marital status, national origin, race, religion or sex, except for those particular groups which are selective on the basis of scholarship. For more information on getting involved with a student organization or starting one, visit Student Life or contact the office at (850) 729-5348.

Student Government Association

Student Government Association (SGA) provides a voice for the Northwest Florida State College student body in all college affairs while helping to further the goals of the college from a student perspective. The President of SGA is a

member of the Administrators, Supervisors and Professionals Council (ASP) and represents the student body. The SGA president receives a yearly tuition scholarship. The SGA Senate and President are housed in the Activities Center.

SGA participates with the Florida College System Student Government Association (FCSSGA) in representing students across the state to advocate change in Florida legislation beneficial to all college students. Lastly, SGA coordinates and regulates various activities for students such as fall and spring flings and various service learning opportunities.

All currently enrolled students of NWF State College are members of SGA with the right to full voice, upon recognition, in all SGA functions. However, the only students with the right to vote in SGA functions are; the elected Vice-President, elected and appointed Senators, and appointed Officers of the SGA Executive Board; In the event of a tie vote at any SGA function, the SGA President will cast the deciding vote.

Student Activities Board

Student Activities Board (SAB) provides coordination among all of student clubs and organizations. The executive board consists of a member from each of the school sanctioned organizations: Brain Bowl, Forensics, Phi Theta Kappa, and SGA. The SAB makes budgeting decisions regarding student activity funding. The vice president of SGA is the presiding officer and receives a tuition scholarship.

The names of recognized student organizations are owned by NWF State College. Students or others shall not organize independent groups of the same name nor function as a group independent of the college utilizing the name of a NWFSC student organization.

Student Organization Terms

Each student activity, club, and organization authorized to function in the name of the College shall be organized, chartered and operated in accordance with Florida Statutes, State Board Rules, NWF State College Student Handbook, and the Student Organization Handbook. Visit Student Life for more information.

Student Handbook

Notice of Equal Access / Equal Opportunity and Nondiscrimination

Northwest Florida State College is dedicated to the concepts of equity and equal opportunity. It is the specific intention of the college not to discriminate on the basis of age, color, ethnicity, disability, marital status, national origin, race, pregnancy, religion, genetic information, or gender, in its employment practices or in the admission and treatment of students in its programs or activities.

Title IX of the Education Amendments of 1972 (20 U.S.C. ss1681) is an all-encompassing federal law that prohibits discrimination based on the sex of students, employees, and third parties when appropriate, of educational institutions which receive federal financial assistance. Sexual harassment of students, which includes acts of sexual violence, is a form of sex discrimination prohibited by Title IX. Northwest Florida State College complies with all aspects of this and other federal and state laws regarding non-discrimination.

Anyone with questions about compliance or a complaint regarding harassment or discrimination, including sexual harassment and sexual violence of Title IX, should contact the College's Equity Coordinator using the following contact information:

Roberta Mackey

Executive Director of Human Resources, Equity Coordinator
100 College Blvd. Niceville, FL 32578
Building: 320
Phone: (850) 729-5337

Email: mackeyr@nwfsc.edu

The college environment is an open intellectual forum where varying opinions may be freely expressed and fairly debated. Each member of the college is expected to participate seriously and purposefully in college life. While the freedom to express ideas and beliefs will be respected, conduct and behavior that result in the defacement of property, intimidation of others, or the disruption of any college activity will not be tolerated or permitted and will be subject to disciplinary action. Instructors explain classroom requirements, and students are expected to assume full responsibility for their own actions.

College Accreditation

Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)

Northwest Florida State College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate and associate degrees, certificates and diplomas. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, www.sacscoc.org, or call 404-679-4500 for questions about the accreditation of Northwest Florida State College.

NWF State College Website

The Northwest Florida State College website is located at www.nwfsc.edu. The website provides access to College information such as admission, registration, financial aid, bookstore, student life, academic resources, instructor websites and more.

RaiderNet

RaiderNet is the student on-line information and registration system. RaiderNet provides access to update contact information, register for classes, view grades, obtain unofficial transcripts, enrollment verification, degree audit, and financial aid status. To access RaiderNet from the college's homepage, click the quick link "RaiderNet" on www.nwfsc.edu. For questions concerning access to RaiderNet, call (850) 729-6922.

Student Email Accounts

Students are assigned an NWF State College student email account during the application for admission process. The student email address serves as the official method of communication to the student from the college. This email service is reserved for college business. For more information and to access student email, go to www.nwfsc.edu. Send questions concerning access to student email to helpdesk@nwfsc.edu or call (850) 729-5396.

Attendance

Regular and prompt attendance in all classes is expected. All instructors are free to establish attendance policies for their classes. It is the student's responsibility to notify the instructor and make arrangements to complete any missed work. (Make-up work is offered solely at the discretion of the instructor.) Excessive absences can affect the success of course completion and financial aid funding. This general policy applies to the student absent from class traveling as a member of a college group, or club or for personal reasons.

Religious Observance by Students

The College shall accommodate recognized religious observances of students under existing State directives. Provision shall be made for students to complete the following activities when their religious observances interfere with the following:

1. Admission and registration
2. Attendance in class, class activities, examinations, and official ceremonies
3. Class work assignments

Students wishing to participate in any recognized religious holiday observances are to let the instructor know, in advance, of their absence. Students will be excused for such absences without penalty. Students are responsible for any material covered during their excused absence. A reasonable amount of time will be allowed to complete make up assignments. Students who believe they have been denied an education benefit because of their religious belief or practice may seek redress as outlined in the Student Grievance Procedures.

Children on Campus

NWF State College values family life and has worked to develop policies that are supportive of families. However, it is the policy of NWF State College that students and visitors should not use the College in lieu of a childcare provider. Accordingly, minor children of employees, students, or visitors may be on campus only under the special circumstances outlined below. Contact the Dean of Students for any questions or concerns.

- Minor children are permitted on campus when the purpose of their visit is to participate in activities, classes, or events specifically scheduled for their benefit (e.g. Kids on Campus, Children's Fine Arts Series, Child Development and Education Center).
- Minor children are permitted on campus when with a parent or responsible adult who is conducting routine business at the college.
- Minor children are not permitted in labs, shops, construction/repair sites, classrooms, offices, labs, or other areas where potential hazards exist, unless enrolled in classes or activities scheduled at the site.

- In an emergency or other compelling situation, students or staff may bring children to class or the workplace on an incidental, individual basis, provided advance approval is obtained from the appropriate administrator. In such cases, the children must be directly supervised by the parent/adult and must not disrupt or distract the flow of college work, services or instruction.
- Minor children on campus must be directly supervised at all times.

Service Animals

Service animals are permitted on NWF State College campuses. Service animals are defined by the American Disabilities Act (ADA) as "*dogs that are individually trained to do work or perform tasks for people with disabilities*." Please see the ADA Requirements and Florida Statute 413.081 regarding services animals. Therapeutic animals are not considered to be service animals and are not permitted on NWF State College campuses.

Service animals must be under control of the handler at all times. The handler is responsible for the care, cleanup of all animal waste, and for ensuring that the animal is not disruptive to any program, service, learning environment, or college activity. A service animal may be removed by state, local government, campus authorities, or the handler may be requested to remove the animal from college premises, if it is disruptive, aggressive, unhygienic, or behaving in ways outside the duties of a service animal (wandering, barking, etc.)

Mental Health Counseling Services

Northwest Florida State College has teamed up with local agencies to provide mental health counseling services for NWF State College students who need assistance coping with the challenges of college life, as well as, academic performance. Referrals are handled through the Vice President of Student Success, located in the Student Services Center at the Niceville campus.

- Pattison Professional Counseling and Mediation Center helps students overcome personal challenges. Refer to www.ppccfl.com or (850) 863-2873 for additional information.
- Bridgeway Center is a non-profit psychological healthcare company in Okaloosa County serving children, adults, and families. Refer to www.bridgewaycenter.org or (850) 833-7500 / (850) 689-7810 for additional information.
- Florida Panhandle 211 Get Connected, Get Answers COPE Center is a referral hotline staffed with trained certified resource specialists to offer guidance and support to citizens of Walton County. By dialing 211 from any phone, people will be linked to services for clothing, food, financial assistance, employment, dentistry, healthcare providers, transportation, tutoring, child care, home health care, counseling, drug rehabilitation, and evaluations etc. Call (850) 892-8045 for additional information.
- Crestview Health Center provides low cost medical, dental, and counseling services to everyone, including uninsured and underinsured. Call 850-682-1164 for more information.

AIDS and HIV

Northwest Florida State College Policy #GP12.00 and FS 1006.68 states that students with AIDS or who are HIV positive are not denied admission to the college. Students are encouraged to confidentiality disclose to the Disability Support Services if needed to obtain accommodations in classrooms such as lab classes. The Vice President of Student Success has a referral system for regional health services for assistance.

Substance Abuse

NWF State College Drug-Free Work Place policy #HR 4.00 states that Northwest Florida State College is alcohol and drug free in accordance with Public Law 100-690, The Anti-Drug Abuse Act of 1988. The unlawful manufacture,

distribution, dispensation, possession, or use of alcohol or a controlled substance is prohibited in and on NWFSC owned and controlled property except for events specifically approved to include alcohol. Students in violation will be subject to disciplinary action as stated in the Student Code of Conduct published in the Student Handbook/College Catalog and may be subject to criminal prosecution.

Tobacco Use

NWF State College Smoking and Tobacco policy #HR 23.00 states:

"Smoking (including E-cigarettes) and tobacco use are prohibited in all College owned or leased buildings including common areas and in College vehicles. Common area means any hallway, corridor, aisle, water fountain area, restroom, stairwell, entryway, or breezeway. Smoking and tobacco use, including all tobacco products, are prohibited within 30 feet of entryways.

A smoking area may not be designated in any College owned or leased building or common areas".

Parking Regulations

All vehicle operators are responsible for complying with Northwest Florida State College's parking regulations whenever they bring a vehicle on campus. Vehicles parked on any of the Northwest Florida State College's locations must display a valid parking permit or temporary parking permit. The College cannot assume responsibility for vehicle contents while on NWF State College premises. Driving on campus is a privilege. The College has the right to revoke privileges of operating a vehicle on campus.

Parking Permits

Parking permits are available online and at all NWF State College locations. Visit Parking Services for more information on aquiring a parking permit.

Designated Parking Areas

White Lines	Student Parking
Yellow Lines	Faculty/Staff Parking
Blue Lines	Disabled Person Parking
Green Lines	Visitor Parking

Parking Violations

Violation	Fee
PARKED ACROSS PARKING LINES Vehicle tire parked on or over the parking line in a manner that impedes parking in adjacent space.	$25
PARKED IN NO PARKING ZONE	$25

PARKED IN AREA NOT DESIGNATED FOR PARKING Parked in a loading or unloading zone not designated for parking.	$25
PARKED ON WALKS OR GROUNDS	$25
PARKED IN DESIGNATED SPACE Vehicle parked in Faculty/Staff parking without proper permit. A non-visitor parked in visitor parking.	$25
PARKED IN DISABLED PARKING (+Tow Away Infraction) It is unlawful for any person to stop, stand, or park a vehicle within, or to obstruct, any such specially designated and marked parking space provided in accordance with s. 553.5041, unless the vehicle displays a disabled parking permit issued under s. 316.1958 or s. 320.0848 or a license plate issued under s. 320.084, s. 320.0842, s. 320.0843, or s. 320.0845, and the vehicle is transporting the person to whom the displayed permit is issued. Vehicle will be towed at owner's expense.	$25
DOUBLE PARKED Vehicle is parked alongside another vehicle already parked at a curb.	$25
OBSTRUCTING DRIVE, FIRE HYDRANT/LANE (+Immobilization)	$50
OBSTRUCTING OTHER VEHICLES (+Immobilization)	$50
NO VALID PERMIT DISPLAYED Vehicles are require to display a valid permit or decal on the rear view mirror or driver side dash. Permit information must be visible from outside of the vehicle. Decals should be displayed on the front fork of the motorcycle.	$25
IMMOBILIZATION Vehicle has outstanding citation fees from various violation(s) previously issued. Pay outstanding fees and immobilization fee to have boot removed.	$25
PERMIT NOT REGISTERED TO VEHICLE Each vehicle being used with a permit must be registered with designated permit. Using permit with an unregistered vehicle is a violation.	$25
FORGED PERMIT (+Immobilization) Any vehicle displaying a forged parking permit (ie: photocopy, picture of, etc).	$50

The Student Traffic Court

The Student Traffic Court convenes, as needed, to adjudicate appeals of parking citations for students. After traffic court deliberation, results are emailed to your registered email with Permit Express. Visit the Parking Services site for more information on appealing citations.

Posting, Circulating and Exhibiting Printed and Filmed Information

Students are expected to use mature judgment and a sense of discretion in their selection, publication, display, presentation and circulation of any printed or filmed materials at any college location, and to realize that they must accept responsibility individually and collectively for the consequences of their choices on these matters. The appearance of the college name, seal or insignia on any material which is not published by the college is not authorized and does not imply college approval or endorsement of the contents.

Notices

Notices may be posted by students and recognized student organizations on appropriate bulletin boards. Notices and posters are not to be taped, glued, or pasted on painted or finished surfaces. All such posting must be cleared in advance by the Director of Student Life at the Niceville Campus. College Center Directors may approve notices at their respective locations. The general distribution of notices is prohibited by anyone other than instructional and staff personnel in the performance of their duties or by recognized student organizations to advertise an approved event.

Student Publications

Student publications (which may include video media newscasts) are intended to foster an atmosphere of free and responsible discussion and intellectual exploration. They are a means of bringing student concerns to the attention of faculty and staff members, and of formulating student opinion on various issues at the college and in the surrounding community.

The editorial freedom of student editors entails the corollary responsibility to be governed by the canons of responsible journalism, such as the avoidance of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.

Student publications shall contain a statement to the effect that the opinions expressed therein are not necessarily those of the faculty, staff or student body of the college.

Student Fundraising

Fundraising activities by students and/or student organizations are permissible when the specific purpose is to support institutional scholarships, humanitarian/charitable efforts, or a recognized student organization's mission and goals. Students/Student Organizations must receive approval by completing the Activity Request Form located on the Student Life website at least one month prior to the activity's scheduled date.

Policy Formulation

A student who wishes to suggest a change in any policy of the college should submit a written recommendation to the Student Senate for evaluation. If favorably received by the Senate, the proposal shall be submitted by the Student Senate to the appropriate standing committee/subcommittee of the college for consideration. Students serve on various college committees such as the Budget committee.

Student Right to Know and Campus Security Act of 1990

The Student Right to Know and Campus Security Act (P.L. 101-542) requires the College to compile and release completion, graduation, and transfer-out rates for all students, safety and policies and crime statistics. This information is available from the Office of Institutional Research.

The campus security policy and crime statistics are published below.

Campus Security Policy

All criminal incidents can and should be reported to the NWF State College administrator in charge of a function, the campus receptionist, or an attending faculty or staff member. NWF State College will implement appropriate actions including, but not limited to, contacting the presiding law enforcement agency, any medical services needed or others as appropriate. Incident Forms are available in Dean of Students Office, the Business Office and the off-campus centers. All incidents must be communicated, in writing, to the Vice President for Administrative Services or the Dean of Students as soon as possible.

Summary of Reported Crimes on Campus

This information is provided to all students and employees in compliance with The Federal Student Right-to-Know and Campus Security Act. Questions about this report or Campus Security in general may be directed to the Director of Physical Plant Department or the Dean of Students.

Federal and State law requires a person designated as a "sexual predator or offender" to register with the Florida Department of Law Enforcement (FDLE). The FDLE then is required to notify the local law enforcement agency where the registrant resides or attends an institution of higher learning. Information regarding sexual predators or offenders attending an institution of higher learning may be obtained from the local law enforcement agency with jurisdiction for the particular NWF State College campus or center, by calling the FDLE hotline (1-888-FL-PREDATOR) or (1-888-357-7332), by visiting the FDLE website at www.fdle.state.fl.us, or the Dean of Students.

A Student's Guide to Reporting Harassment

The purpose of this guide is to ensure an orderly resolution of charges of sexual, racial, or other forms of harassment brought by students at NWF State College. Sexual harassment and racial harassment have been held to constitute a form of discrimination prohibited by the Title VII of the Civil Rights Act of 1964, as amended and Title IX of the Education Amendments of 1972. Applicable law prohibits other types of harassment.

NWF State College upholds the Clery Act and Violence Against Women Reauthorization Act of 2013.

NWF State College prohibits all acts of harassment and will properly investigate any claims of harassment.

Sexual and Other Unlawful Harassment

NWF State College is committed to providing an educational and work environment that is free from all forms of discrimination and harassment. NWF State College expressly prohibits any form of unlawful discrimination or harassment based on race, color, gender, religion, national origin, age, ethnicity, marital status, or disability or genetic information. NWF State College provides ongoing harassment training to ensure everyone the opportunity to work and/or learn in an environment free of sexual and other unlawful harassment.

Definitions of Harassment

Sexual harassment is defined as unwanted sexual advances, including visual, verbal, or physical conduct of a sexual nature. This definition includes gender-based harassment of a person of the same sex as the harasser. Examples of conduct expressly prohibited by the policy include, but are not limited to, the following:

- Making unwanted sexual advances.
- Offering employment benefits in exchange for sexual favors.
- Making or threatening reprisals after a negative response to sexual advances.
- Leering, making sexual gestures, or displaying of sexually suggestive objects, pictures, cartoons, or posters.
- Making or using derogatory comments, epithets, slurs, or jokes.
- Making verbal commentaries about an individual's body.
- Using sexually degrading words used to describe an individual.
- Sending suggestive or obscene letters, notes, communications or invitations.
- Touching, assaulting, impeding or blocking movements or violating someone's "personal space."
- Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute harassment when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of employment or reward; (2) submission to or rejection of the conduct is used as a basis for making educational, academic, or employment decisions; or, (3) the conduct has the purpose or effect of interfering with educational, academic, or employment performance or creating an intimidating, hostile, or offensive educational, academic, or employment environment.

Responsibilities

All College employees and students are responsible for creating an atmosphere free of discrimination or harassment, sexual or otherwise. Further, all College employees and students are responsible for respecting the rights of all members of the College community. Any student who experiences or witnesses any sexual or other unlawful harassment or discrimination in the College environment should promptly report the behavior to the Vice President of Student Success. If the Dean of Students is unavailable, the student should promptly contact the Human Resources Office. Reports should be made, in writing, within sixty working days of the incident. This policy applies to all incidents of alleged discrimination or harassment, including those occurring off-campus or during off-hours, when the alleged offender has a relationship with the College.

Investigation

All allegations of sexual or other harassment will be quickly and discreetly investigated and kept confidential to the maximum extent possible. All students have a duty to cooperate fully with the College in connection with any such investigation. If NWF State College determines that an employee or student is guilty of discriminating against or harassing another individual, appropriate disciplinary action will be taken against the offending employee or student, up to and including termination of employment, suspension, or expulsion.

Retaliation

NWF State College prohibits any form of retaliation against any student or employee for filing a bona fide complaint under this policy or for assisting in a complaint investigation. However, if after investigating any complaint of harassment or unlawful discrimination, the College determines that the complaint is not bona fide and was not made in good faith or that a student has provided false information regarding the complaint, disciplinary action may be taken against the individual who filed the complaint or gave false information.

Office of the Student Ombudsman

Per Florida Statute 1006.51, NWF State College provides a Student Ombudsman with whom students may confidentially discuss complaints, concerns, or problems to reach an informal consensus before proceeding with official college processes. The Director of Student Life on the Niceville Campus will serve as the Student Ombudsman and may be contacted at 850-729-5277 or ombudsman@nwfsc.edu.

Student Grievance Procedures

Student grievances fall into two categories: academic and all other. While the grievance process is similar for both, different college offices are responsible for each category. NWF State College prohibits any form of retaliation against any student filing a grievance, academic or non-academic.

Academic Grievances

Academic grievances must be initiated within 30 days of the incident being grieved. If a student believes that he or she has not been graded fairly in a course, a grievance may be filed. The grade grievance process applies only to final course grades.

Academic Grievance Process

The student should submit the grievance in writing by completing the Grievance form located at http://www.nwfsc.edu/disputes/.

Non-Academic Grievances

Non-Academic grievances must be initiated within 30 days of the incident being grieved. These procedures apply to all non-academic student grievances, including those alleging discrimination and harassment.

Informal Non-Academic Grievance Process

The student should first request a conference with the Vice President of Student Success. The Vice President will attempt to resolve the grievance informally to the satisfaction of the student. If the issue is not resolved the student may proceed to the formal grievance process.

Formal Non-Academic Grievance Process

The Dean will conduct an adequate, reliable, and impartial investigation of the complaint and render a decision. The Dean of Students may refer the matter to an ad hoc hearing committee to assist in evaluating the complaint. The student will be notified of the response to his or her grievance and the basis for that decision within 10 business days. The student may also appeal the decision of the Dean by requesting a formal hearing (see Student Due Process) conducted by the Judicial Council.

Student Code of Conduct

College students are citizens of the local, state, and national governments and of the academic community and are therefore expected to conduct themselves as law abiding members of each community at all times. Admission to the College carries with it special privileges and imparts special responsibilities apart from those rights and duties enjoyed by non-students. In recognition of the special relationship that exists between the College and the community it seeks to serve, the Northwest Florida State College Board of Trustees has authorized the President of the College to take such action that may be necessary to maintain campus safety and preserve the integrity of the College and its educational environment.

Pursuant to this authorization, the College has developed the following regulations, which are intended to govern student conduct on the campus. The College may enforce its own regulations regardless of any proceedings instituted by other authorities. Conversely, violation of any section of these regulations may subject a student to disciplinary measures by the College whether or not such conduct is simultaneously in violation of local, state, or national laws. When a student fails to abide by the rules and regulations of the College or fails to obey the ordinance of local, state, and national governments, disciplinary action may be taken.

Student Disciplinary Offenses

For the purpose of these regulations, a "student" shall mean any person who is registered for study at the College for any academic period. Generally, through appropriate due process procedures, College disciplinary measures shall be imposed for conduct which adversely affects the College's pursuit of its educational objectives, which violates or shows a disregard for the rights of other members of the academic community, or which endangers property or person at the College or on any College controlled property.

All police officers have been given the authority to control access and to patrol facilities. Failure to leave after instruction to do so can result in trespassing charges. Individual, group, or organizational misconduct, which is subject to disciplinary sanctions, shall include but not be limited to the following offenses:

Academic Offenses

- **Academic dishonesty:** Students are expected to conduct themselves as responsible members of the academic community and to be honest and forthright in their academic endeavors. Academic dishonesty may include but is not limited to:
    - **Cheating**: During any academic evaluation activity, the use or attempted use of unauthorized materials, information, notes, study aids or other devices, information from another student or student's paper. During any academic evaluation activity, engaging in unauthorized communication of information, including collaborating, contrary to the requirements of a course.
    - **Plagiarism**: Presenting work in part or whole of another as one's own without proper acknowledgment of the source or sources. The sole exception to the requirement of acknowledging sources occurs when ideas or information are common knowledge.

Non-Academic Offenses

- **Aiding and abetting the commission of offenses**: Any attempt to commit any of the foregoing offenses or the aiding and abetting of the commission of any of the foregoing offenses (an "attempt" to commit an

offense is defined as the intention to commit an offense coupled with the taking of some action toward its commission).

- **Alcoholic beverages:** The unauthorized use and or possession of alcoholic beverages on the College campus, or at any College sponsored event, except College events where alcoholic beverages are provided by the College.
- **Bullying:** Systematically and chronically inflicting physical hurt or psychological distress on one or more students. Bullying is further defined as unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting or dehumanizing gesture by a student that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment, cause discomfort or humiliation, or unreasonably interfere with an individual's educational experience.
    - **Bullying includes**: Teasing; social exclusion; threat; intimidation; stalking; physical violence; theft; sexual, religious or racial harassment; public or private humiliation; and/or destruction of property.
    - **Cyberbullying**: Bullying, through the use of technology or any electronic communication, includes, but is not limited to, transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in photo-optical systems, email, internet, webpages, instant messages, facsimile, social networking and/or phone. Bullying is created by the transmission of electronic content which is communicated and posted to more than one person that interferes with the orderly operation of the educational environment.
- **Classroom misconduct:** Classroom misconduct includes direct or indirect disruptive, threatening, or otherwise unacceptable social behavior in the classroom. Engaging in or assisting with such activity is prohibited. The instructor has the primary responsibility for control over classroom behavior and maintenance of academic integrity and can order any student engaged in disruptive conduct or conduct that violates the general rules and regulations of the College to be temporarily removed or expelled from the classroom.
- **Dangerous conduct:** Any conduct that constitutes a serious danger to any person's health, safety, or personal well-being, including any physical or immediate threat to others.
- **Dating violence, domestic violence, sexual assault, or stalking:** A type of abuse or violence where there is a pattern of controlling behaviors that one person is used to establish power over an intimate partner in order to control actions and activities. One can experience trauma where abusive relationships can increase in danger, or dangerous situations where students would not feel safe or secure. Actions include disrespectful and hurtful behaviors that one intimate partner may use against another partner, causing a partner physically harm, stalking, threating, isolating, gesturing and/or demanding unwanted sex practices.
- **Disorderly conduct or language:** Any individual or group behavior or language which is abusive, obscene, lewd, indecent, violent, excessively noisy, disorderly, or which unreasonably disturbs other groups or individuals.
- **Drugs**: The unlawful possession or use of any drug or controlled substance, including any stimulant, depressant, narcotic, hallucinogenic drug or substance, marijuana, or sale or distribution of any such drug or controlled substance on college owned or controlled property or at any college sponsored activity.
- **Explosives, fireworks, and flammable materials:** The unauthorized possession, ignition, or detonation of any object or article, that would cause damage by fire or other means to persons or property.
- **Failure to cooperate with College officials:** Failure to comply with directions of College officials acting in the performance of their duties.
- **Financial misconduct:** Conduct, including but not limited to, knowingly passing forms of payment such as a worthless check, debit, credit card, or money order in payment to the College community.
- **Firearms/Weapons:** Possesion, other than legally and securely stored in your vehicle, or use of firearms or other dangerous weapons at any college location or activity except by authorized law enforcement officers in the performance of their duties is prohibited behavior and will subject the offender to disciplinary procedures as well as as appropriate action by civil authorities.
- **Gambling**: Gambling in any form.
- **Harassment**: Any act of harassment by an individual or group against a student, college employee, campus group, visitor, or guest. Harassment shall include, but not be limited to, insults, heckling, verbal abuse,

threats of physical abuse, unwanted suggestions of a sexual nature, repeated teasing or annoyance of another, or other actions intended to disturb others.

- **Hazing:** Hazing is any intentional or reckless act, on or off the property of the College, by students acting alone, or with others, involving any action which is directed against any other students that endangers the mental or physical health or safety of that student, or which induces or coerces a student to endanger such student's mental or physical health or safety. For the purpose of this statement, hazing is defined as those actions taken and situations created in connection with initiation into or affiliation with any organization.
- **Inappropriate dress:** College students are mature enough to make wise and appropriate decisions on the type of apparel suitable for a college campus. Attire that disrupts the learning process is not allowed. Dress that includes any words or images that are obscene, offensive, or tend to promote violence, drugs or disrespect is prohibited.
- **Misuse of documents or identification cards:** Any forgery, alteration of, or unauthorized use of College documents, forms, records, or identification cards including information collected in connection with a student's admission, enrollment, financial transactions, or status in the College.
- **Obstruction of or interference with College activities or facilities:** Any intentional interference with or obstruction of any College activity, program, event, or facilities including the following:
    - Unauthorized occupancy of the College, College controlled facilities, or blockage of access to or from such facilities.
    - Interference with the right of way of any college member or other authorized person to gain access to the College or College controlled activity, program, event, or facilities.
    - Obstruction or delay of a campus security officer, fire/rescue service, or any College official in the performance of his/her duty.
    - Acts of misuse, vandalism, malicious or unwarranted damage or destruction, defacing, disfiguring, or unauthorized use of property belonging to the College including but not limited to: fire alarms, fire equipment, elevators, telephones, College keys, library materials, and/or safety devices; and any such act against a member of the College community or a guest of the College.
- **Theft**: Unauthorized possession or sale of College property
- **Unacceptable conduct at a College hearing:** Any conduct at any College hearing involving contemptuous, disrespectful, or disorderly behavior or false testimony or other evidence at any hearing.
- **Violations of general rules and regulations:** Any violation of the general rules and regulations of the College as published in an official College publication, including the intentional failure to perform any required action or the intentional performance of any prohibited action.
- **Violations of state or federal laws:** Any violation of state or federal laws or regulations proscribing conduct or establishing offenses.

Disciplinary Procedures

Disciplinary offenses fall into two categories: academic and all others. While the procedures are similar for both, different college offices are responsible each category. The Dean of Students and/or the Vice President for Academic Affairs, if the offense is academic in nature, are responsible for enforcement of student disciplinary policies and procedures, and will, in the pursuit of that responsibility, observe the proper aim of discipline, observe due process procedure, consider all evidence, determine the facts, render a decision, and impose appropriate disciplinary sanctions when a student has been charged with violation of College rules and/or regulations. Ultimately the President has responsibility and oversight of student disciplinary procedures, processes, and sanctions.

Disciplinary Process

Conference: The Vice President of Student Success, Vice President of Teaching and Learning, or designee, hereafter referred to as the "Administrator", shall request a meeting with the student for a preliminary conference where the student shall be apprised of his/her basic rights and made aware of the student due process procedures.

The student will be extended the opportunity to explain the conduct in question and provide the Administrator with a detailed written explanation. Failure of the student to meet with the Administrator within 10 days of the request for a meeting will not prevent the process of collecting information or the decision to move forward.

Investigation: The Administrator shall consider all evidence, determine the facts, render a decision, and impose disciplinary sanction(s) as necessary.

Sanctions: The Administrator will, in writing, identify the claimed misconduct, infraction or offense and present a statement of the full penalty or sanction, in addition to a statement of the student's right to due process. The student shall be provided this information either in person or by college email and registered mail.

Disciplinary Sanctions

Upon determination that a student or organization has violated any of the rules, regulations, or disciplinary offenses set forth in College policy, the Administrator may impose the following disciplinary sanctions either singly or in combination.

- **Warning**: The appropriate College officials may notify the student that continuation or repetition of specified conduct may be cause for other disciplinary action.
- **Reprimand**: A written reprimand or censure may be given any student or organization whose conduct violates any part of these regulations. Such a reprimand does not restrict the student in any way, but does have important consequences. It signifies that he or she is in effect being given another chance to conduct himself or herself as a proper member of the College community and that any further violation may result in more serious penalties.
- **Restitution**: A student who has committed an offense against property may be required to reimburse the College or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to cost of repair or placement.
- **Restrictions**: Restrictions upon a student or organization's privileges for a period of time may be imposed. These restrictions may include, for example, denial of the right to represent the College in any way, denial of use of facilities, parking privileges, participation in extracurricular activities, or restriction of organizational privileges.
- **Disciplinary Probation:** Continued enrollment of a student on probation may be conditioned upon or adherence to these regulations. Any student placed on probation will be notified of such in writing and will also be notified of the terms and length of probation. Probation may include restrictions upon the extracurricular activities of a student. Any conduct in violation of these regulations while on probationary status may result in the imposition of a more serious disciplinary action.
- **Suspension**: If a student is suspended, he or she is separated from the College for a stated period of time with conditions of readmission to the College. Student must appeal for reinstatement.
- **Expulsion**: Permanent removal and exclusion from the College, College controlled facilities, programs, events, and activities.
- **Dismissal:** The dismissal of a student whose character and behavior prove unsatisfactory for a period up to two years.

Some disciplinary actions must adhere to additional state, federal, or organizational and accrediting agency guidelines and regulations. Immediate sanctions, up to and including expulsion, or dismissal may be necessary in some cases to guarantee the safety and harmony of the college environment. To provide and protect a safe learning environment, the College reserves the right to invoke immediate sanctions based upon the nature and seriousness of the offense. At this point, the student is able to request a final appeal to the President.

Due Process

Northwest Florida State College recognizes that occasionally issues arise between members of the college community. When such instances occur the college encourages the parties to attempt to reconcile their differences

informally between themselves. If the informal approach doesn't render an acceptable solution or an aggrieved isn't comfortable with the informal approach then the following procedures must be utilized to notify the college of an "official" grievance.

All "informal" efforts noted above are not recorded and will not exist in college records. The process outlined below is the only means an individual has to notify the college of a grievance. Grievances must be submitted to the college within 30 days of the aggrieved becoming aware of the grievance (except for isisues that have a defined timeline outlined by governmental administrative procedure or state/federal statute.) The form must be completed and submitted by the grievant to initiate action by the college. When a grievance is submitted through this system the person completing the form will receive an automated acknowledgment with a receipt number. Please keep the receipt for your reference and reference it when contacting the college concerning your complaint.

The following procedures will be utilized in the case of a grievance or a disciplinary offense.

Formal Grievance Investigation Procedure (Step 1)

- Individuals wishing to file a grievance with the college must do so by completing the Grievance form located at http://www.nwfsc.edu/disputes/. Once filed, the grievance will be assigned to a college administrator for investigation. Grievances may be filed for academic issues, potential violations of college policies or procedures, or potential violations of Title VII or Title IX. Any grievance filed concerning criminal issues will be referred to law enforcement and when required by the Clery Act or Title IX the school will initiate a parallel investigation into the incident.
- The individual filing the grievance must identify the following points in their submission:
    - College faculty member or college department that initiated the initial action of concern.
    - Identify the action taken by the person or college department that is being grieved.
    - Identify why the action taken by the person or college department is factually flawed or contrary to federal law, state law or college policy or practice.
    - Desired outcome of the grievance.
    - If the actions taken by the college faculty member or college department resulted in sanctions, and the individual filing the grievance wishes for the sanctions to be suspended during the step 1 process the individual filing must provide justification for the request.
- The administrator will issue a notice of investigation to the individual(s) being investigated, if applicable. The notice will include a summary of the incident and possible violations, as know at the time, being investigated. The individual(s) will be notified via college email.
- The administrator may, for safety reasons, issue temporary sanctions or accommodations, as appropriate, during the investigation.
- The administrator will meet with the appropriate parties to collect the facts of incident.
- Once all known facts of the incident have been collected the administrator will consider the details and render a decision. All decisions will be based on a "beyond a reasonable doubt" standard.
- The administrator will notify the individual(s) of the decision. If the individual is found "responsible" for the incident sanctions will be applied.
- If the administrator denies the appeal and determines that the sanctions issued by the original college employee or college department are insufficient, the administrator may expand the sanctions on behalf of the college.
- The individual will be notified of the decision and sanctions (if appropriate) via school email.
- In the case of Title VII and Title IX violations the "victim" of the incident will also be notified of the decision and sanctions rendered on the accused.

Grievance Appeal Procedures (Step 2)

- Step 2 appeal must be filed within 10 calendar days of the issuance of the Step 1 finding. This is accomplished by the individual filing their intent by completing the on-line appeal form located

at http://www.nwfsc.edu/disputes/. During the appeal process the sanctions issued in Step 1 will stand. In the case of Title VII and Title IX issues the "victim" of the violation may initiate the appeal process if they do not concur with the decision of the administrator in Step 1.

- Step 2 grievance may be filed if the individual filing the grievance believes there was an error or omission of fact or law considered by the administrator in Step 1.
- The individual filing the grievance must identify the following points in their submission:
    - Administrator who conducted the step 1 grievance.
    - Identify the outcome that the administrator issued as a result of Step 1.
    - Identify why the out outcome issued by the administrator is factually flawed or contrary to federal law, state law or college policy or practice.
    - Desired outcome of the grievance.
    - If the step 1 grievance resulted in sanctions and the individual filing the grievance wishes for the sanctions to be suspended during the step 2 process the individual filing must provide justification for the request. The VP of Academic Affairs (or designee) will be the sole arbiter of this request.
- Upon review by the VP of Academic Affairs (or designee) the VP may return the appeal back to the individual if it is determined the appeal was not based on a factual matter or for clarification. The VP of Academic Affairs (or designee) will be the sole arbiter of the validity of the request. This decision will be allowed to be appealed by filing a Step 3 appeal.
- The individual filing the appeal has a right to the factual data and documents used in the decision of Step 1 and must state his/her request in the Step 2 appeal. The individual is not entitled to the investigative notes of the Administrator in Step 1. Any information protected by the Family Education Rights and Privacy Act (FERPA) or non-critical academic information will be redacted.
- Step 2 Appeal will be heard by a panel of:
    - Two full-time college employees (faculty members, from a different department, if the incident is academic in nature)
    - One full-time Student Affairs employee
    - Two students (from an academic program other than the student filing the appeal, if appropriate.)
    - The panel will be chaired by an administrator assigned by the VP of Academic Affairs who will be a non-voting member and serve as the recorder of the hearing.
- Individuals filing the appeal will be notified of the date, time and location of the hearing in writing via college email. This notification will occur a minimum of 10 calendar days prior to the hearing.
- The individual filing the appeal must represent him/herself at the hearing unless the assistance of a representative is required by law.
- The college will be represented by the Administrator in Step 1.
- Only persons directly involved in the cases, panel members, administration representative, the filing individual, and persons giving testimony will be allowed in the proceedings.
- Persons giving testimony will only be allowed in the proceedings while testifying.
- Audio and visual recording devices are not allowed in the proceedings.
- The chair will provide a summary of the "case" as it exists, including the Step 1 outcome for all involved.
- The individual and the administrator will present "their" case, including the presentation of evidence and witnesses. The individual will present first followed by the administrator. At the conclusion of each presentation, the other party may provide a rebuttal to the evidence or testimony presented.
- Once the presentations are completed closing statements may be made by the individual and administrator (in order.) The closing statement must only be a summation of the case.
- In closed session the panel will consider the evidence and testimony and decide, on a majority vote, to affirm the Step 1 decision or overturn the Step 1 decision based on the documented basis of the appeal. All decisions must be based on a "beyond a reasonable doubt" standard.
- If the panel decides to affirm the appeal the panel may:
    - Alter the findings and/or sanctions in Step 1.
    - Refer the investigation back to the Step 1 administrator for continued investigation. Note: if this option is selected the process is considered to be back at the Step 1 investigation and the individual still has the full appeals option available when the revised findings are published.

- The individual will be notified of the decision via their college email.

Grievance Appeal Procedures (Step 3)

- Step 3 appeal must be filed within 10 calendar days of the issuance of the Step 2 finding. This is accomplished by the individual filing their intent with the completion of the on-line appeal form located at http://www.nwfsc.edu/disputes/. During the appeal process the sanctions issued/affirmed in Step 2 will stand.
- The VP Academic Affairs (or designee) will be the sole arbiter of this request. In the case of Title VII and Title IX issue the "victim" of the violation may initiate the grievance process if they do not concur with the decision of the panel in Step 2.
- Step 3 grievance may be filed if the individual filing the grievance believes there was an error or omission of fact or law considered by the panel in Step 2.
- The individual filing the grievance must identify the following points in their submission:
    - Identify the outcome that the panel issued as a result of Step 2.
    - Identify why the outcome issued by the panel is factually flawed or contrary to federal law, state law or college policy or practice.
    - Desired outcome of the grievance.
    - If the step 2 grievance resulted in sanctions and the individual filing the grievance wishes for the sanctions to be suspended during the step 3 process, the individual filing must provide justification for the request.
- Upon review by the VP Academic Affairs (or designee) the request may be returned back to the individual if it is determined the appeal was not based on a factual matter or for clarification. The VP Academic Affairs (or designee) will be the arbiter of the validity of the request.
- The VP Academic Affairs (or designee) will conduct an investigation and render a final decision. The VP Academic Affairs (or designee) may or may not meet with the individual, witnesses or others.
- The VP Academic Affairs (or designee) will consider the evidence and testimony and decide to affirm the Step 2 decision or overturn the Step 2 decision based on the documented basis of the appeal. All decisions must be based on a "beyond a reasonable doubt" standard.
- The VP Academic Affairs (or designee) will:
    - Affirm the Step 2 decision and may alter the findings and/or sanctions in Step 2, OR
    - Affirm the Step 3 appeal and overturn the Step 2 decision.
- The individual will be notified of the Step 3 decision via college email.
- The step 3 grievance is the final step in the college's grievance process.

All Programs

Active NWF Programs with State and Fed CIP 2019-03-12

AA - Associate in Arts General Degree

Admission Program Objective Code AAGD
State CIP Code 1192401010

The AA is primarily intended as a transfer degree for students continuing to a 4 year bachelor's program at a university or state college. The AA Transfer Programs indicate the required courses needed to be eligible to be admitted to the university program at the institutions listed.

Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an advisor, who will assist with selecting the college credits most advantageous to the student's educational goals.

General Education

In consultation with an advisor, choose appropriate General Education courses that fulfill your AA Degree Concentration for University Transfer Major. Select courses from each area as listed below; see the AA Degree General Education Requirements section of catalog for specific course listings:

- ____ ____ - Communication Skills **3 Credit Hours**
- ____ ____ - Communication Skills **3 Credit Hours**
- ____ ____ - Core Humanities **3 Credit Hours**
- ____ ____ - General or Core Humanities **3 Credit Hours**
- ____ ____ - Core Mathematics **3 Credit Hours**
- ____ ____ - General or Core Mathematics **3 Credit Hours**
- ____ ____ - Biological Sciences **3 Credit Hours****
- ____ ____ - Physical Sciences **3 Credit Hours****
- ____ ____ - Behavioral Social Sciences **3 Credit Hours*****
- ____ ____ - History/Government Social Sciences **3 Credit Hours*****
- ____ ____ - Additional General Education Credits **6 Credit Hours**

** One or both of the Biological or Physical Sciences must come from a core group. See AA Degree General Education Requirements for details.

*** One or both of the Social Sciences must come from a core group. See AA Degree General Education Requirements for details.

Total General Education Credits Required: 36

Foreign Language

A minimum of 6 credit hours must be earned in one foreign language at the college level, or successful completion of two sequential credits in high school foreign language, or an appropriate score on an approved CLEP examination.

- ___-____ - Foreign Language
- ___-____ - Foreign Language

AA Elective Requirements

In consultation with an advisor, select appropriate AA degree college credit electives that fulfull your AA Degree Concentration for University Transfer Major:

- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**
- ____ ____ - Elective **3 Credit Hours**

Total Elective Credits Required: 24

Total Program Credits Required: 60

Suggested Two Year Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

AA General Degree (AA) (AAGD)
First Year
Fall Semester Core Mathematics **- 3 Credit Hours** ENC 1101 - English Composition I **3 Credit Hours ♦ ▲ ¶** Core Humanities **- 3 Credit Hours** Elective **- 3 Credit Hours** Elective **- 3 Credit Hours** **Total Semester Hours: 15**
Spring Semester Core or General Mathematics **- 3 Credit Hours** ENC 1102 - English Composition II **3 Credit Hours ¶**

Core or General Humanities **- 3 Credit Hours** Elective **- 3 Credit Hours** Elective **- 3 Credit Hours** **Total Semester Hours: 15**
Second Year
Fall Semester Biological Science* **- 4 Credit Hours** Behavioral Social Science** **- 3 Credit Hours** Elective **- 3 Credit Hours** Elective **- 3 Credit Hours** Elective **- 3 Credit Hours** **Total Semester Hours: 16**
Spring Semester Physical Science* **- 4 Credit Hours** History/Government Social Science** **- 3 Credit Hours** Elective or Additional General Education Hours*** **- 4 Credit Hours** Elective **- 3 Credit Hours** **Total Semester Hours: 14**
Total Program Hours: 60
* At least one Science course must come from the core. ** At least one Social Science course must come from the core. *** Students who have already satisfied the 36 hour General Education requirement may take a general Elective.

AA Degree Checklist:

- Have you completed a minimum of 60 credit hours in the following areas?
    - 36 Hours of General Education
        - 6 hours in Communications ("C" or better)
        - 6 hours in Mathematics ("C" or better)
        - 6 hours in Humanities ("C" or better)
        - 8 hours in Natural Science
        - 6 hours in Social Sciences ("C" or better in History/Government Social Science category)

        - 4 hours in Additional General Education Credits (if needed)
    - 24 hours of college credit A.A. transferable electives
- Have you completed at least 15 of the 60 credits at NWF State College?
- Have you completed the foreign language requirement?
- Have you met the minimum 2.0 GPA requirements for the A.A.?
- Have you met the Civic Literacy Competency requirement for the A.A?
- Have you applied for graduation by the advertised deadline?

AA Degree General Education Requirements

Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an advisor, who will assist with selecting the college credits most advantageous to the student's educational goals.

To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. Beginning with students initially entering a Florida College System institution or state university in 2015-2016 and thereafter, each student must complete at least one identified core course (designated with ♦) in each area of study as part of the general education course requirements. Furthermore, NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

AA General Education Requirements

Communications: 6

Students will demonstrate the ability to communicate effectively.

Students will demonstrate the ability to analyze communication critically.

A minimum grade of "C" in each Communications course is required for general education credit.

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

3 Credit Hours ¶
(Fall, Spring, Summer)

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

♦ Core General Education
▲ Technology-Across-the Curriculum
¶ Writing requirements

Humanities: 6

Students will confirm the ability to think critically through demonstrating interpretive ability and cultural literacy.

Students will acquire competence in reflecting critically upon the human condition.

A minimum grade of "C" in each Humanities course is required for general education credit.

- Choose one Core Humanities course and one General Humanities course, or
- Choose two Core Humanities courses.

Core Humanities

ARH 1000 - Art Appreciation

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

3 Credit Hours † ♦ ¶
(Fall, Spring, Summer)

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

3 Credit Hours † ♦ ¶
(Fall, Spring, Summer)

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

♦ Core General Education

❖ International and/or diversity focus
¶ Writing requirements

General Humanities

AML 2010 - American Literature I

3 Credit Hours ¶
(Fall)

A course in American Literature from the pre-Colonial period to the Civil War. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2020 - American Literature II

3 Credit Hours ¶
(Spring)

A course in American Literature from Civil War to present. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101. (Note: AML 2010 is not a prerequisite for this course)

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2050 - Art History: Pre-Renaissance

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2402 - Art History: Modern Art

3 Credit Hours ❖ † ¶
(Fall, Spring)

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2012A - English Literature I

3 Credit Hours ¶
(Offered as needed)

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature II

3 Credit Hours ¶
(Offered as needed)

A study of English literature from the Romantics through the modern era, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is required.

Prerequisite(s): ENC 1101. (Note: ENL 2012A is not a prerequisite for this course)

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2250 - Humanities – A Contemporary Perspective

3 Credit Hours ❖ † ¶
(Fall, Spring, Summer)

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

3 Credit Hours ❖ ¶
(Offered as needed)

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

3 Credit Hours ❖ ¶
(Offered as needed)

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature I

3 Credit Hours ❖ ¶
(Fall)

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature II

3 Credit Hours ❖ ¶
(Spring)

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101. (Note: LIT 2100 is not a prerequisite for this course)

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

3 Credit Hours ❖ † ¶
(Fall, Spring, Summer)

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2300 - Introduction to World Religions

3 Credit Hours ❖ ¶
(Fall, Spring, Summer)

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

3 Credit Hours † ¶
(Fall, Spring, Summer)

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 and REA 0017.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

3 Credit Hours † ¶
(Fall, Spring)

Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

† Speaking-Across-the Curriculum
❖ International and/or diversity focus
¶ Writing requirements

Mathematics: 6

Students will determine appropriate mathematical and computational models and methods in problem solving, and demonstrate an understanding of mathematical concepts.

Students will apply appropriate mathematical and computational models and methods in problem solving.

All Mathematics courses listed below meet Mathematics requirements outlined in FAC Rule 6A-10.030.

A minimum grade of "C" in each Mathematics course is required for general education credit.

- Choose one Core Mathematics course and one General Mathematics course, or
- Choose two Core Mathematics courses.

(Any student who successfully completes a Mathematics course for which one of the general education core

course options in Mathematics is an immediate prerequisite shall be considered to have completed the Mathematics core.)

Core Mathematics

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MGF 1106 - Practical Applications of Mathematics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR

(2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MGF 1107 - Math in Society

3 Credit Hours ♦
(Fall, Spring, Summer)

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s):
Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following:
(1) 123 or higher on the math section of the PERT OR
(2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ♦ **Core General Education**

General Mathematics

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of

“C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and

planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

3 Credit Hours
(Fall)

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a grade of "C" or better in MAC 1140. A course in programming is recommended.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

3 Credit Hours
(Offered as needed)

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

3 Credit Hours
(Spring)

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel

and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 or equivalent with a “C” or better.

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

Natural Sciences: 6

Students will demonstrate the ability to critically examine and evaluate scientific observation, hypothesis, or model construction, and to use the scientific method to explain the natural world.

Students will successfully recognize and comprehend fundamental concepts, principles, and processes about the natural world.

- Choose one Biological Science course and one Physical Science course.
  At least one course must be a Core Natural Science course indicated by the ♦ symbol.

  (Any student who successfully completes a Science course for which one of the general education core course options in Science is an immediate prerequisite shall be considered to have completed the Science core.)

Biological Sciences

BOT 1010C - Botany

4 Credit Hours
(Spring)

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

BSC 2020C - Human Structure and Function

4 Credit Hours
(Fall, Spring, Summer)

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

- ♦ **Core General Education**

Physical Sciences

AST 1002 - Descriptive Astronomy

3 Credit Hours ♦
(Fall, Spring, Summer)

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AST 1005 - Introduction to Astrobiology

3 Credit Hours
(Spring)

This course will explore the scientific evidence for the possibility, probability, and potential nature of life that might exist beyond the Earth. Contemporary discoveries about current and past conditions suitable for the origin of life on Mars and some of the moons orbiting other planets in our own solar system are reviewed in the context of what we understand about life on Earth. The question of life in other solar systems is also covered. Space travel and problems regarding intelligent extra-terrestrial beings visiting the Earth and intelligent life beyond the Earth but still within our own solar system are also discussed. All this is done in a fashion which integrates the various branches of science required to understand life beyond the Earth: Astronomy, Biology, Chemistry, Geology, and Physics. There are no prerequisites for this course and it may be taught in a team fashion by faculty members from various scientific disciplines.

CHM 1020 - Chemical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1032C - General Chemistry for Life Sciences

4 Credit Hours
(Fall, Spring, Summer)

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Prerequisite(s): MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

ESC 1000 - Earth Science

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

EVR 1001C - Environmental Science

4 Credit Hours ♦
(Offered as needed)

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GLY 2010C - Principles of Geology I

4 Credit Hours
(Fall, Spring)

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

GLY 2100C - Principles of Geology II

4 Credit Hours
(Fall, Spring)

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

ISC 1003 - Natural Disasters – Causes, Consequences, Human Response

3 Credit Hours
(Fall, Spring, Summer)

This interdisciplinary course investigates natural catastrophic events, such as earthquakes, volcanic eruptions,

tsunamis, hurricanes and floods. This class will use an environmental studies approach to examine how modern society exacerbates the damage caused by these natural phenomena and methods to mitigate human suffering. The student will gain an appreciation of humankind's relationship to the natural environment.

MET 1010C - Introduction to Meteorology

4 Credit Hours
(Fall, Spring, Summer)

Structure of the atmosphere; weather processes, systems and phenomena; climate and climatic change, economic impact of weather. May be used to satisfy the AA degree Physical Science requirement for career goals other than sciences, engineering and pre-professional fields.

OCE 1001C - Oceanography

4 Credit Hours
(Fall, Spring)

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

OCE 1013C - Aquatic Environmental Science

4 Credit Hours
(Offered as needed)

This course will investigate living and non-living components of aquatic ecosystems. Students will learn how aquatic ecosystems function naturally as well as how human activity can alter these ecosystems. The course is built around field trip(s) and lab work during which students will obtain water quality data from a local aquatic environment. Through field trip(s) and lab work, students will gain appreciation for the local relevance of course material. For both majors and non-majors, a key outcome of such experiences will be gaining experience in using inquiry and reasoning through the scientific method and becoming comfortable with data, technology, and instrumentation. Problem-solving, interpretation of data, and class discussions will be key.

PHY 1020 - Physical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1054C - General Physics Without Calculus II

4 Credit Hours
(Spring)

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

- ♦ **Core General Education**

Social Sciences: 6

Students will demonstrate the ability to examine behavioral, social, and cultural issues from a variety of points of view.

Students will demonstrate an understanding of basic social and behavioral science concepts and principles used in the analysis of behavioral, social, and cultural issues, past and present, local and global.

- Choose one Behavioral Social Science course and one History/Government Social Science.
  At least one course must be a Core Social Science course indicated by the ♦ symbol, or
- Choose two History/Government Social Sciences courses.
  At least one course must be a Core Social Science course indicated by the ♦ symbol.

Behavioral Social Sciences

ANT 2000 - Introduction to Anthropology

3 Credit Hours ❖ ♦
(Offered as needed)

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Prereq/Corequisites: ❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ANT 2100 - Introduction to Archaeology

3 Credit Hours ❖
(Offered as needed)

Introduction to the fundamental principles, methods, and theories in archaeology. Includes a history of the development of archaeology, and examination of the nature of archaeological data and research, an introduction to archaeological data and analysis, and an examination of approaches to synthesis and interpretation. North and South American archeology is studied, but non-western examples are also studied to enhance an understanding of the development of the discipline in Europe and the Americas.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

DEP 2004 - Human Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GEA 1000 - World Regional Geography

3 Credit Hours ❖
(Offered as needed)

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ♦ **Core General Education**
- ❖ **International and/or diversity focus**

History/Government Social Sciences

A minimum grade of "C" in each History/Government Social Science course is required for general education credit.

AMH 2010 - American History I

3 Credit Hours ¶
(Fall, Spring, Summer)

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SYG 2010 - Social Problems

3 Credit Hours ❖ ¶
(Fall, Spring, Summer)

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1012 - World Civilization I

3 Credit Hours ❖ ¶
(Fall)

A study of world history from 4000 BC to 1650 AD as it relates to the development of western civilization. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading

achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1022 - World Civilization II

3 Credit Hours ❖ ¶
(Spring)

A study of history from 1650 AD to the present as it relates to the development of the modern world. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

- ♦ **Core General Education**
- ❖ **International and/or diversity focus**
- ¶ **Writing requirements**

Additional General Education Credits: 6

Additional General Education Credits should be selected in alignment with a student's choice of transfer major. Any general education hours over a total of 36 will apply as electives in the AA degree. Consult with an academic advisor for assistance.

ASL 1140 - American Sign Language I

4 Credit Hours ❖
(Fall, Spring)

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

1 Credit Hour
(Fall, Spring)

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Prereq/Corequisites: BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

4 Credit Hours ❖
(Fall)

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

1 Credit Hour
(Fall, Spring, Summer)

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

1 Credit Hour
(Fall, Spring, Summer)

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

FRE 1120 - French I

4 Credit Hours ❖
(Fall)

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

3 Credit Hours
(Fall, Spring, Summer)

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

LIS 1001 - Library Skills

1 Credit Hour
(Offered as needed)

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

LIS 2004 - Introduction to Internet Research

1 Credit Hour ▲
(Offered as needed)

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Prerequisite(s): a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

LIT 2335 - Introduction to Children's and Adolescent Literature

3 Credit Hours ❖
(Offered as needed)

Designed to explore the range and diversity of the children's literary canon, surveying the historical development of children's and adolescent literature (pre-school to eighth grade) and the construction of socio-cultural influences. While the focus is predominantly on classic works from the tradition of American and British fiction, poetry, folklore and fairy tales, drama, and picture books, the course nonetheless addresses multi-cultural issues and texts in order to broaden the cultural vision provided by the literary study. This course will be a General Education elective, but will not meet the Humanities or English General Education requirements. Course has international/diversity focus for Teacher Education program common prerequisites.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

LIT 2603 - Literature of War in the 20th Century

3 Credit Hours ❖
(Offered as needed)

Designed to investigate the historical, psychological, and universal issues that face societies in times of war, through analysis of a range of literary genre and texts, including fiction, poetry, drama, letters, and memoirs focusing on wars of the modern era. The approach is global, but concentrates heavily on the war experiences of the United States. This course will be a General Education elective, but will not meet Humanities or English General Education requirements. Course has International/Diversity focus for Teacher Ed program common prerequisites.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

SLS 1101 - College Success

3 Credit Hours
(Fall, Spring, Summer)

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

SLS 2505 - Critical Thinking

3 Credit Hours
(Fall, Spring)

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

SPC 1006 - Essentials of Speech

1 Credit Hour †
(Offered as needed)

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

3 Credit Hours †
(Fall, Spring)

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

4 Credit Hours ❖
(Fall, Spring, Summer)

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

- ___ ____ - Any A.A. General Education Communications, Mathematics, Humanities, Natural Science, or Social Science course
  - ♦ **Core General Education**
  - **† Speaking-Across-the Curriculum**
  - **▲ Technology-Across-the Curriculum**
  - ❖ I**nternational and/or diversity focus**

Total AA General Education Credits Required: 36

Footnote Legend

Symbol	Description
♦	Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
▲	Courses listed with this symbol address NWF State College's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.
†	Courses listed with this symbol address NWF State College's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
❖	Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶	Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Degree Checklist:

- Have you completed a minimum of 60 credit hours in the following areas?
  - 36 Hours of General Education
    - 6 hours in Communications ("C" or better)
    - 6 hours in Mathematics ("C" or better)
    - 6 hours in Humanities ("C" or better)
    - 6 hours in Natural Science
    - 6 hours in Social Sciences ("C" or better in History/Government Social Science category)
    - 6 hours in Additional General Education Credits (if needed)
  - 24 hours of college credit A.A. transferable electives
- Have you completed at least 15 of the 60 credits at NWF State College?
- Have you completed the foreign language requirement?
- Have you met the minimum 2.0 GPA requirements for the A.A.?
- Have you met the Civic Literacy Competency requirement for the A.A?
- Have you applied for graduation by the advertised deadline?

AA Transfer Major: Accounting

Admission Program Objective Code: ACCO
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU*, IRSC, UCF, UF*, UNF, USF*, USFSM*, USFSP*, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520301
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the

economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Actuarial Science

Admission Program Objective Code: ACTU
State CIP Code: 1192401010

Offered at FSU, UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521304
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- COPXXXX - A scientific programming course designed for computer science majors* (COP 2011, COP 2222, COP 2228, COP 2362, COP 2658 , COP 2662, COP 2805, COP 2833, COP 2840)

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of "C" or better or equivalent.

* See Notes on Common Course Prerequisite Manual

Transfer Major Required Courses

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Aerospace Engineering

Admission Program Objective Code: AERO
State CIP Code: 1192401010

Offered at UCF, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 140201
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: African-American (Black) Studies

Admission Program Objective Code: AFRI
State CIP Code: 1192401010

Offered at FAMU, FSU, USF

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005L - Biology Lab

1 Credit Hour
(Fall, Spring)

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Prereq/Corequisites: BSC 1005 or equivalent.

CHM 1032C - General Chemistry for Life Sciences

4 Credit Hours
(Fall, Spring, Summer)

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Prerequisite(s): MAT 1033A or appropriate placement test scores.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is

recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

3 Credit Hours ¶
(Fall, Spring, Summer)

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Agricultural Teacher Education (Vocational)

Admission Program Objective Code: AGTE
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131301
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

ENC 2210 - Technical Report Writing

3 Credit Hours
(Spring)

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Prerequisite(s): passing score on placement test.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005L - Biology Lab

1 Credit Hour
(Fall, Spring)

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Prereq/Corequisites: BSC 1005 or equivalent.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1020 - Physical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Agriculture Science

Admission Program Objective Code: AGRS
State CIP Code: 1192401010

Offered at UFAMU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 010000
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and

incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: American Studies (USA)

Admission Program Objective Code: AMER
State CIP Code: 1192401010

Offered at FSU, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 050102
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Applied Science

Admission Program Objective Code: APPL
State CIP Code: 1192401010

Offered at FGCU, UCF, USF, USFSM

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 240102

Transfer Majors Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Architecture - FAMU/NWF Pre-Articulation Agreement

Admission Program Objective Code FAMU
State CIP Code 1192401010

Articulation Agreement with the Florida A&M University (FAMU) School of Architecture:

An articulation agreement between NWF State College and Florida A&M University (FAMU) School of Architecture allows students to earn an Associate in Arts (A.A.) degree that could qualify them for entrance to the upper-division of the Bachelor of Science in Architectural Studies degree program at FAMU. It is highly recommended that, in addition to the common prerequisites listed below, students should consult the current catalog from FAMU. Some SUS programs have restricted access or are considered Limited Access programs. Students are responsible for completing the specific requirements for admissions. For more information on the FAMU A.A. to B.S. articulation, contact Mr. Ray Rickman at 729-5218 or rickmanr@nwfsc.edu.

Associate in Arts Degree/Pre-Architecture FAMU Prerequisites

Please consult the Course Description section of the catalog for the required prerequisites of all courses needed to satisfy the requirements of this program. Students must meet NWFSC A.A. degree graduation requirements.

General Education

Undesignated courses are to be selected from the General Education Requirements listed in the AA Degree General Education Requirements section of catalog for specific courses.

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

3 Credit Hours ¶
(Fall, Spring, Summer)

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

3 Credit Hours ❖ ¶
(Offered as needed)

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is

a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 1000 - Art Appreciation

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GEA 1000 - World Regional Geography

3 Credit Hours ❖
(Offered as needed)

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

OCE 1001C - Oceanography

4 Credit Hours
(Fall, Spring)

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Total General Education Credits Required: 36

Program Electives

ARC 1131 - Architectural Presentation

3 Credit Hours
(Summer)

This course introduces basic ideas and presentation techniques directed towards developing design skills, such as drawing, perspective sketching, and graphics using a variety of media to include: pencil, ink, colored pencils, markers, and model building to be used in architectural presentations. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ARC 1301C - Design 1.1

4 Credit Hours
(Fall)

The primary foci of this course are the development of two and three-dimensional graphic skills and the ability to think spatially and to manipulate elements in space. Analysis and design exercises are located primarily in abstract two/three dimensional space and deal with topics such as figure/ground relationships, line/plane/mass, the idea of

systems, networks, repetition, and the relation of part to the whole. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ARC 1302C - Design 1.2

4 Credit Hours
(Spring)

This course continues the emphasis and topics studied in Design 1.1, with increased expectation with regard to graphic and spatial manipulation ability. Students study exemplary works of architecture and art, beginning the process of developing an understanding of the role history plays in their creative explorations. By the end of the course, site and the human being are part of the design environment. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Prerequisite(s): ARC 1301C.

ARC 2201 - Theory of Architecture

3 Credit Hours
(Fall, Spring)

An introduction to architectural theory, selected contemporary architectural theories and movements, and their evolution and historical basis. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Prerequisite(s): ETD 1102.

ARC 2303A - Design 2.1

6 Credit Hours
(Fall)

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Prerequisite(s): ARC 2201.

ARC 2304 - Design 2.2

6 Credit Hours
(Spring)

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making, and human behavior.

Prerequisite(s): ARC 2303A.

ARC 2472 - Introduction to the Technology of Architecture

4 Credit Hours
(Summer)

This course is the beginning of the technology sequence in the areas of structures, environment technology, and materials and methods of construction. It introduces themes such as the response of buildings to the natural environment, the strength, stiffness, and durability in building materials, and the quantitative method of analysis and design of building assemblies and support systems. It explores the relationship between building technology and the social, aesthetic, environmental and economic aspects of the settings in which buildings are located, and how these factors relate to the process of architectural design. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ARC 2501 - Architectural Structures I

3 Credit Hours
(Offered as needed)

The emphasis of the course is on the development of the principles of statics and the application of these principles to the analysis and design of structural systems, primarily column, beam, slab systems, and the truss systems. The course builds on the basic ideas of structural form and material properties developed in Introduction to the Technology of Architecture.

Prerequisite(s): any college level physics or calculus course, and concurrent enrollment in ARC 2472. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ETD 1320C - AutoCAD I

3 Credit Hours
(Fall, Spring, Summer)

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

▲Technology-Across-the-Curriculum Course.

Total Program Elective Credits Required: 36

Total Articulation Program Credits Required: 72

AA Transfer Major: Art History & Appreciation

Admission Program Objective Code: ARTA
State CIP Code: 1192401010

Offered at FIU, FSU, UF, UNF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 500703
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ART 1201C - Two-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

or

ART 1203C - Three-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1300C - Drawing I

3 Credit Hours
(Fall, Spring)

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

or

ART 1301C - Drawing II

3 Credit Hours
(Fall, Spring)

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Prerequisite(s): ART 1300C. Audit enrollment in studio art classes is permitted on a space-available basis only.

ARH 2050 - Art History: Pre-Renaissance

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses

ART 1300C - Drawing I

3 Credit Hours
(Fall, Spring)

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1201C - Two-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of

design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic

graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Athletic Training

Admission Program Objective Code: ATHL
State CIP Code: 1192401010

Offered at FGCU*, FSU*, UCF, UF*, UNF*, USF*, UWF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510913
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Behavioral Healthcare

Admission Program Objective Code: BEHA
State CIP Code: 1192401010

Offered at USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 440000
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- STAXXXX - Any course with the STA prefix

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2010 - Social Problems

3 Credit Hours ❖ ¶
(Fall, Spring, Summer)

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Biochemistry

Admission Program Objective Code: BICY
State CIP Code: 1192401010

Offered at FGCU, FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 260202
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry,

coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

or

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

or

PHY 1054C - General Physics Without Calculus II

4 Credit Hours
(Spring)

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 1053C or equivalent.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Biological & Physical Sciences - Interdisciplinary Natural Sciences

Admission Program Objective Code: BIOP
State CIP Code: 1192401010

Offered at USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 300101, track 16/16

Transfer Program Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med,

and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.
or

BOT 1010C - Botany

4 Credit Hours
(Spring)

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.
or

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Biology & Mathematics

Admission Program Objective Code: BIMA
State CIP Code: 1192401010

Offered at UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 300101, track 4/16
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

or

BOT 1010C - Botany

4 Credit Hours
(Spring)

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of

ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of "C" or better or equivalent.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.
or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Computer & Earth Sciences

Admission Program Objective Code: CMEA
State CIP Code: 1192401010

Offered at UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 300101, track 10/16
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- COPXXXX - Introductory programming in Ada, C, C++, Pascal or equivalent language* (COP 2010, COP 2030, COP 2176, COP 2220, COP 2224, COP 2360, COP 2654, COP 2660, COP 2700, COP 2702)

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of "C" or better or equivalent.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals

and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Biological/Biosystems Engineering

Admission Program Objective Code: BIBI
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 144501
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Biology, General

Admission Program Objective Code: BIOL
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU, IRSC, MDC, SPC, UCF, UF, UNF, USF, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course

Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 260101, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

or

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

or

BOT 1010C - Botany

4 Credit Hours
(Spring)

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.
or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health

profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

or

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Biology, General - FSU - Teach

Admission Program Objective Code: BIOF

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate

placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.
or

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Biomedical/Bioengineering

Admission Program Objective Code: BIEN
State CIP Code: 1192401010

Offered at FIU, FGCU, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 140501
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Biotechnology

Admission Program Objective Code: BITC
State CIP Code: 1192401010

Offered at FGSU, SFC, UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 261201
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is

recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Botany, General

Admission Program Objective Code: BOTA
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 260301

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-

Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric

equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

and

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

AA Transfer Major: Business Administration

Admission Program Objective Code: BUSA
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520101, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the

economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Business Administration & Management

Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual, link above.

AA Transfer Major: Business Marketing Management

Admission Program Objective Code: BMKT
State CIP Code: 1192401010

Offered at FAU, FGCU, FIU*, FSU*, UCF, UF*, UNF, USF*, USFSM*, USFSP*, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521401
*See Notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. AA Transfer Major: Business Teacher Education/Business Technology Education

Admission Program Objective Code: BTEA
State CIP Code: 1192401010

Offered at SPC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131303
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be

associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Cardiopulmonary Science

Admission Program Objective Code: CARD
State CIP Code: 1192401010

Offered at FSWSC, VC*, FAMU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510908
*See notes in Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

- CGSX060 (required at FAMU only)
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Chemical Engineering

Admission Program Objective Code: CHEN
State CIP Code: 1192401010

Offered at FIU, FAMU, FSU, USF, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 140701
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Chemical Sciences - Chemical Sciences

Admission Program Objective Code: CMSI
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400599, track 1/2
Common Course Prerequisite Manual

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

AA Transfer Major: Chemical Sciences - FSU Teach

Admission Program Objective Code: CMST
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals

and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

- SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
- SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Chemistry

Admission Program Objective Code: CHEM
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400501, track 1/3
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

Transfer Major Physical Sciences Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

**Required for Bachelor in Science degree.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

*** May be used for Bachelor in Arts degree only.

* See Notes on Common Course Prerequisite Manual, link above.

AA Transfer Major: Chemistry Teacher Education

Admission Program Objective Code: CHTE
State CIP Code: 1192401010

Offered at FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400501, track 2/3
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Communication and Media Studies

Admission Program Objective Code: COMS
State CIP Code: 1192401010

Offered at FSU*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 090199
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- 18 hours beyond the 36 hours of general education requirements. Cannot include ENC or LIT prefixes*

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Communications (Mass), Media Studies or Converged Communications

Admission Program Objective Code: COMM
State CIP Code: 1192401010

Offered at FGCU, FSCJ, UCF, UNF, USFSP, UWF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 090102
* See Notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- 18 hours beyond the 36 hours of general education requirements. Cannot include ENC or LIT prefixes*

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Community Health

Admission Program Objective Code: COMH
State CIP Code: 1192401010

Offered at FGCU, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 512208
* See Notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-

83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Community Health Liaison

Admission Program Objective Code: CMHL
State CIP Code: 1192401010

Offered at UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 511504
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HSC 1100 - Health Education

3 Credit Hours
(Spring)

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

- STAXXXX - Any course with the STA prefix

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

AA Transfer Major: Computational Biology

Admission Program Objective Code: BICP
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer

institution to confirm program requirements.

Transfer Program CIP code: 261104
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

Transfer Major Physical Sciences Required Courses

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health

profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Computational Science

Admission Program Objective Code: CMPT
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 303001
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems,

mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

- COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010, COP 2030 , COP 2176, COP 2220, COP 2224, COP 2360, COP 2654, COP 2660, COP 2700, COP 2702, COP 2800)

- BSCXXXXC - Any lab course with the BSC prefix
  or
- CHMXXXXC - Any lab course with the CHM prefix
  or
- GLYXXXXC - Any lab course with the GLY prefix
  or
- METXXXXC - Any lab course with the MET prefix
  or
- PHYXXXXC - Any lab course with the PHY prefix
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer & Information Science - Computer Science

Admission Program Objective Code: CMIN
State CIP Code: 1192401010

Offered at FAMU, FAU, FIU, UCF, UF, UNF, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 110101, track 1/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010, COP 2030 , COP 2176, COP 2220, COP 2224, COP 2360, COP 2654, COP 2660, COP 2700, COP 2702, COP 2800)

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

- Choose two science courses for science majors* (BSC 1010C, BSC 1011C, CHM 1045C, CHM 1046C, GLY 2010C, GLY 2100C)
  *See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer & Information Science - Computer Science (FSU only)

Admission Program Objective Code: CFSU
State CIP Code: 1192401010

Offered at FSU*
Transfer Program CIP code: 110101, track 2/6

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010, COP 2030 , COP 2176, COP 2220, COP 2224, COP 2360, COP 2654, COP 2660, COP 2700, COP 2702, COP 2800)
- A science course for science majors* (BSC 1010C, BSC 1011C, CHM 1045C, CHM 1046C, GLY 2010C, GLY 2100C)

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer & Information Science - Information Science (UNF only)

Admission Program Objective Code: CUNF
State CIP Code: 1192401010

Offered at UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 110101, track 4/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010, COP 2030 , COP 2176, COP 2220, COP 2224, COP 2360, COP 2654, COP 2660, COP 2700, COP 2702, COP 2800)

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer & Information Science - Information Technology

Admission Program Objective Code: CIIT
State CIP Code: 1192401010

Offered at UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

- SPCXXXX - Any course with the SPC prefix

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer & Information Science- Information Systems

Admission Program Objective Code: CIS
State CIP Code: 1192401010

Offered at FAMU, UF, UNF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 110101, track 3/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- COPXXXX - High level programming language course*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

or

ACG 2021 - Financial Accounting

3 Credit Hours
(Summer)

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Prerequisite(s): MAC 1105 - College Algebra **3 Credit Hours ♦**, equivalent, or higher

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer Criminology

Admission Program Objective Code: CMCR
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 430116
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

- COP2XXX - Any computer programming course*

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

AA Transfer Major: Computer Engineering - Computer & Information Engineering

Admission Program Objective Code: CMPE
State CIP Code: 1192401010

Offered at FAMU, FAU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 140901, track 2/3
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

- COPXXXX - Introductory programming in Ada, C, C++, Pascal or equivalent language* (COP 2010, COP 2030, COP 2176, COP 2220, COP 2224, COP 2360, COP 2654, COP 2660, COP 2700, COP 2702)
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Computer Engineering - Computer Engineering

Admission Program Objective Code: CMEN
State CIP Code: 1192401010

Offered at FAMU, UF, FAU, FIU, FSU, UCF, USF*, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 140901, track 1/3
*See notes in Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of "C" or better or equivalent.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Criminal Justice Studies

Admission Program Objective Code: CRIM
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU, IRSC, PSC, UCF, UNF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

No required courses for this Transfer Major.

AA Transfer Major: Dietetics/Nutritional Services

Admission Program Objective Code: DIET
State CIP Code: 1192401010

Offered at FIU*, FSU, UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 513101, track 1/2
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

CHM 1032C - General Chemistry for Life Sciences

4 Credit Hours
(Fall, Spring, Summer)

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Prerequisite(s): MAT 1033A or appropriate placement test scores.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Dietetics/Nutritional Services - Dietetics

Admission Program Objective Code: DIEN
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 513101, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Digital Media

Admission Program Objective Code: DGMD
State CIP Code: 1192401010

Offered at FSCJ, GCSC, IRSC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 100304
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

Associate in Arts Degree or Associate in Science Degree in Graphics, Design, Digital Media, Information Technology or related fields.

AA Transfer Major: Drama Education

Admission Program Objective Code: DRAM
State CIP Code: 1192401010

Offered at FAMU, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 500501, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Economics - Business

Admission Program Objective Code: ECOB
State CIP Code: 1192401010

Offered at FAMU, FAU, UF, UNF, USF, USFSP

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 450601, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet

are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is

recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual, link above.

AA Transfer Major: Economics - Social Sciences

Admission Program Objective Code: ECON
State CIP Code: 1192401010

Offered at FAMU, FAU, FIU, FSU*, UCF, UF, UNF, USF, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 450601, track 1/2
*See Notes on Common Course Prerequisite Manual

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas,

volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Electronic Engineering Technology - Electrical & Computer Engineering Technology

Admission Program Objective Code: ELEC
State CIP Code: 1192401010

Offered at FAMU, VC, MDC

Transfer Major Required Courses

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

State CIP Code: 1192401010

Offered at DSC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 159999
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

COP 2220 - Programming in C

3 Credit Hours
(Spring)

An introduction to C programming language using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

AA Transfer Major: English Language and Literature

Admission Program Objective Code: ENLI
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF*, UNF, USF, USFSM, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 230101
* See Note on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

3 Credit Hours ¶
(Fall, Spring, Summer)

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: English Teacher Education

Admission Program Objective Code: ENTE
State CIP Code: 1192401010

Offered at CC, FAU, FSU, FSWSC, UCF, USF, USFSP

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131305
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

3 Credit Hours ¶
(Fall, Spring, Summer)

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Entomology

Admission Program Objective Code: ENTM
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 260702
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-

Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric

equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Entrepreneurship

Admission Program Objective Code: ENTR
State CIP Code: 1192401010

Offered at USFSP*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520701
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Environmental Health Engineering

Admission Program Objective Code: ENVR
State CIP Code: 1192401010

Offered at FIU, FGCU, UCF, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 141401
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Environmental Science

Admission Program Objective Code: ENVS
State CIP Code: 1192401010

Offered at FSU (BA only), UF, USF, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 030104, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BOT 1010C - Botany

4 Credit Hours
(Spring)

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

or

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1020 - Physical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required.

The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

or

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

GLY 2010C - Principles of Geology I

4 Credit Hours
(Fall, Spring)

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth's interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Environmental Science - Geography/Environmental Management

Admission Program Objective Code: ENVG
State CIP Code: 1192401010

Offered at UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 130104, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005L - Biology Lab

1 Credit Hour
(Fall, Spring)

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Prereq/Corequisites: BSC 1005 or equivalent.

BOT 1010C - Botany

4 Credit Hours
(Spring)

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GLY 2010C - Principles of Geology I

4 Credit Hours
(Fall, Spring)

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth's interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Exercise Science (FAU, UNF)

Admission Program Objective Code: EXFA
State CIP Code: 1192401010

Offered at FAU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310505, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

or

HSC 1100 - Health Education

3 Credit Hours
(Spring)

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

HSC 1400 - First Aid

3 Credit Hours
(Spring)

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Exercise Science (FGCU only)

Admission Program Objective Code: EXFG
State CIP Code: 1192401010

Offered at FGCU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310505, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

* See Notes on Common Course Prerequisite Manual

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Finance, General (BS) or Banking (BAS)

Admission Program Objective Code: FINB
State CIP Code: 1192401010

Offered at FAU, FGCU, FIU, FSU*, UCF, UF, UNF, USF*, USFSM*, USFSP*, UWF, SPC (BAS)

Individual course requirements at specific institutions may sometimes differ from the published Common Course

Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520801
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Financial Services

Admission Program Objective Code: FINS
State CIP Code: 1192401010

Offered at UNF, FSCJ

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520803
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics

include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Fire and Emergency Services

Admission Program Objective Code: FRES
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 430203
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Fire Science Management (BAS)

Admission Program Objective Code: FIR1
State CIP Code: 1192401010

Offered at FSCJ
Transfer Program CIP code: 430202

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Food Science & Technology - Dietetics

Admission Program Objective Code: FSTD
State CIP Code: 1192401010

Offered at UF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 011001, track 2/2
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Food Science & Technology - Food Science

Admission Program Objective Code: FOOD
State CIP Code: 1192401010

Offered at UF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 011001, track 1/2
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Foreign Language, Multiple

Admission Program Objective Code: FORG
State CIP Code: 1192401010

Offered at UCF, USFSP

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 160101
Common Course Prerequisite Manual

AA Transfer Major: Forensic Science

Admission Program Objective Code: FORE
State CIP Code: 1192401010

Offered at FGCU, UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 430106
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Forest Resources & Conservation - Wildlife Ecology & Conservation

Admission Program Objective Code: FORW
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 030501, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: General Studies

Admission Program Objective Code: GENS
State CIP Code: 1192401010

Offered at USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 240106
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Geology

Admission Program Objective Code: GEOT
State CIP Code: 1192401010

Offered at FAU, FIU, FSU, UF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400601, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GLY 2010C - Principles of Geology I

4 Credit Hours
(Fall, Spring)

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GLY 2100C - Principles of Geology II

4 Credit Hours
(Fall, Spring)

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Geology - Earth Science Teacher Education

Admission Program Objective Code: GEEA
State CIP Code: 1192401010

Offered at FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

AA Transfer Major: Geomatics Engineering

Admission Program Objective Code: GEOE
State CIP Code: 1192401010

Offered at FAU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 143801
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current

circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Geoscience - FSU Teach

Admission Program Objective Code: GEOS
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 141401, track 2/2

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric

substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

- SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
- SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

AA Transfer Major: Gerontology

Admission Program Objective Code: GERO
State CIP Code: 1192401010

Offered at USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 301101
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Graphic Design

Admission Program Objective Code: GRPH
State CIP Code: 1192401010

Offered at FAMU, FSU*, UF*, USFSP*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 500409
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ART 1300C - Drawing I

3 Credit Hours
(Fall, Spring)

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1201C - Two-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 2602C - Digital Imaging I

4 Credit Hours
(Offered as needed)

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

▲Technology-Across-the-Curriculum Course.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ART 1301C - Drawing II

3 Credit Hours
(Fall, Spring)

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Prerequisite(s): ART 1300C. Audit enrollment in studio art classes is permitted on a space-available basis only.

or

ART 1203C - Three-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

or

ART 2330C - Figure Drawing I

3 Credit Hours
(Fall, Spring)

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

GRA 2190C - Graphic Design I

3 Credit Hours
(Offered as needed)

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

▲Technology-Across-the-Curriculum Course.

- GRAXXXX - Any course with the GRA prefix

AA Transfer Major: Health and Physical Education, General - Exercise Science

Admission Program Objective Code: HPEE
State CIP Code: 1192401010

Offered at UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310501, track 3/4
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

or

HSC 1100 - Health Education

3 Credit Hours
(Spring)

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

HSC 1400 - First Aid

3 Credit Hours
(Spring)

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Health and Physical Education, General - Health, Leisure, and Fitness Studies

Admission Program Objective Code: HPEH
State CIP Code: 1192401010

Offered at FAMU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310501, track 4/4
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

No required courses for this Transfer Major.

AA Transfer Major: Health and Physical Education, General - Physical Education

Admission Program Objective Code: HPEP
State CIP Code: 1192401010

Offered at FAMU, UWF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310501, track 2/4
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

- 4 Credit hours in Skill Development Courses in Physical Activities
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Health Information Management

Admission Program Objective Code: HEIM
State CIP Code: 1192401010

Offered at FAMU, UCF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510706
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics

include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

- CGSXXXX - Any course with the CGS prefix
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Health Science (Track 5/7) (SSCF, FGCU)

Admission Program Objective Code: HESC
State CIP Code: 1192401010

Offered at FGCU, SSCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510000, track 5/7

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory

technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Health Services Administration

Admission Program Objective Code: HLSR
State CIP Code: 1192401010

Offered at SFC, FAMU, FAU, FGCU, FIU, IRSC, SCFMS, UCF, UNF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510701
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory

will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

ACG 2021 - Financial Accounting

3 Credit Hours
(Summer)

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Prerequisite(s): MAC 1105 - College Algebra **3 Credit Hours** ♦, equivalent, or higher

or

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the

activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry

terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Hospitality Administration/Management (FIU)

Admission Program Objective Code: HAMD
State CIP Code: 1192401010

Offered at FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520901, track 4/4
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Hospitality Administration/Management (Track 1/4) (FIU, FSU, UCF)

Admission Program Objective Code: HAMA
State CIP Code: 1192401010

Offered at FIU, FSU, UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520901, track 1/4

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Hospitality Administration/Management (USFSM)

Admission Program Objective Code: HAMC
State CIP Code: 1192401010

Offered at USFSM

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520901, track 3/4
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and

planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Industrial/Manufacturing Engineering

Admission Program Objective Code: INDS
State CIP Code: 1192401010

Offered at FAMU, FSU, UCF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Major Required Courses*

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

PHI 2600 - Introduction to Ethics

3 Credit Hours ❖ † ¶
(Fall, Spring, Summer)

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course

and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- CGSXXXX - Any database course* (CGS 2541 ,CGS 2544)*
- COPXXXX - Any computer programming course*
- COPXXXX - COPXXXX - Any object-oriented computer programming course* (COP 2224, COP 2228, COP 2360, COP 2362, COP 2654, COP 2658, COP 2660, COP 2662, COP 2800, COP 2805, COP 2833)
- MACXXXX Pre-Calculus course or Discrete Math

AA Transfer Major: Information Technology (UCF, USFSM, DSC)

Admission Program Objective Code: INTA
State CIP Code: 1192401010

Offered at UCF, USF, USFSM, DSC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 110103, track 1/4
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- PSYXXXX - Any course with the PSY prefix

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAD 2104 - Introduction to Discrete Mathematics

3 Credit Hours
(Fall)

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics,

mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a grade of "C" or better in MAC 1140. A course in programming is recommended.

- CGSXXXX - Any database course* (CGS 2541 ,CGS 2544)
- COP2XXX - Any computer programming course*
- PHYXXXX - Any course with the PHY prefix
- COPXXXX - Any object-oriented computer programming course* (COP 2224, COP 2228, COP 2360, COP 2362, COP 2654, COP 2658, COP 2660, COP 2662, COP 2800, COP 2805, COP 2833)
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Insurance

Admission Program Objective Code: INSU
State CIP Code: 1192401010

Offered at FSU*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521701
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be

emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Interdisciplinary Studies

Admission Program Objective Code: INTE
State CIP Code: 1192401010

Offered at UF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 309999
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum

grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1020 - Physical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Interior Design (BAS)

Admission Program Objective Code: INDE
State CIP Code: 1192401010

Offered at SSCF

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AMH 2010 - American History I

3 Credit Hours ¶
(Fall, Spring, Summer)

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

and

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Math/Middle Grade Science Ed

Admission Program Objective Code: MTMS
State CIP Code: 1192401010

Offered at NWFSC, UNF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131203, track 1/7
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

and

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of "C" or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

ESC 1000 - Earth Science

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

- GLYXXXXC - Any course with the GLY prefix that includes a lab
  or
- METXXXXC - Any course with the MET prefix that includes a lab
  or
- OCEXXXXC - Any course with the OCE prefix that includes a lab

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Latin American Studies (FSU)

Admission Program Objective Code: LATA
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 050134
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Latin American Studies (UCF)

Admission Program Objective Code: LAAS
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 050107
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Legal Assisting

Admission Program Objective Code: LEGA
State CIP Code: 1192401010

Offered at UCF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 220302
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Legal Studies, General (UCF)

Admission Program Objective Code: LEGL
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 220000
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- No specific courses are required

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Liberal Arts & Sciences

Admission Program Objective Code: LIAS
State CIP Code: 1192401010

Offered at FAU, FIU, UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 240101
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Linguistics

Admission Program Objective Code: LING
State CIP Code: 1192401010

Offered at FAU, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 160102
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- XXXXXXX - Demonstrated competency by testing or completion of a foriegn language through the intermediate level (SPN 2220 - Spanish III or ASL 2160 - American Sign Language III at NWFSC)*

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Management and Supervision (BAS - NWF)

Admission Program Objective Code: SVMG
State CIP Code: 1192401010

Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC
(Also see Supervision and Management)

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520299

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Management Info Systems - Business/Data Processing/Business Information Mgt

Admission Program Objective Code: MGIN
State CIP Code: 1192401010

Offered at FAU, FGCU, FSU*, SSCF, USF, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521201
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate

placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Management Science

Admission Program Objective Code: MGNT
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521301
Common Course Prerequisite Manual

AA Transfer Major: Marine/Aquatic Biology

Admission Program Objective Code: MARI
State CIP Code: 1192401010

Offered at FIU, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 261302
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.
or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

or

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Marketing, Other - Advertising

Admission Program Objective Code: MARO
State CIP Code: 1192401010

Offered at USF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521499
*See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Materials Engineering

Admission Program Objective Code: MATE
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 141801

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Mathematics General - Mathematics General

Admission Program Objective Code: MATH
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 270101, track 1/4
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- COPXXXX - A scientific programming course designed for computer science majors* (Please check with your transfer institution for the appropriate course)

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

- A laboratory based science course for science majors* (BSC 1010C, BSC 1011C, CHM 1045C, CHM 1046C, GLY 2010C, GLY 2100C, PHY 2048C, PHY 2049C)
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Mathematics Teacher Education - Jr. High/Middle School Mathematics Ed (NWF)

Admission Program Objective Code: MATN
State CIP Code: 1192401010

Offered at BC, CC, FSWSC, IRSC, NWFSC, SPC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131311, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of

differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Medical Technology/Clinical Laboratory Sciences

Admission Program Objective Code: MEDC
State CIP Code: 1192401010

Offered at USF, SFC, FGCU, UCF*, UWF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 511005
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Meteorology - Meteorology

Admission Program Objective Code: METE
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400401, track 1/2
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Microbiology/Bacteriology

Admission Program Objective Code: MCBA
State CIP Code: 1192401010

Offered at UCF, UF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 260503
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry,

coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

or

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Middle Eastern Studies

Admission Program Objective Code: MIDE
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MUT 1111 - Music Theory I

3 Credit Hours
(Fall, Spring)

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor scales, intervals, triads, 7^{th} chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17^{th} & 18^{th} centuries.

Prerequisite(s): MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s): MUT 1241

MUT 1112 - Music Theory II

3 Credit Hours
(Fall, Spring)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, species counterpoint, chord structures, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1111

Corequisite(s): MUT 1242

MUT 2116 - Music Theory III

3 Credit Hours
(Fall)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including secondary chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1112

Corequisite(s): MUT 2246

MUT 2117 - Music Theory IV

3 Credit Hours
(Spring)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including modulation, non-tonicizing fully diminished 7th chords, augmented 6th chords, mode mixture, Neapolitan chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries while providing an introduction to Romantic period and chromatic musical structures.

Prerequisite(s): MUT 2116

MUT 1241 - Ear Training and Sight Singing I

1 Credit Hour
(Fall, Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic

dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s): MUT 1111

MUT 1242 - Ear Training and Sight Singing II

1 Credit Hour
(Fall, Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1241

Corequisite(s): MUT 1112

MUT 2246 - Ear Training and Sight Singing III

1 Credit Hour
(Fall)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1242

Corequisite(s): MUT 2116

MUT 2247 - Ear Training and Sight Singing IV

1 Credit Hour
(Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 2246

Corequisite(s): MUT 2117

- MUNXXXX - Any course with MUN prefix **4 Credit Hours**
- MV(K/S/V) XX1X (Applied Music course) **2-4 Credit Hours**
- MV(K/S/V) XX2X (Applied Music course) **2-4 Credit Hours**
- XXXXXXX

- Secondary Piano Proficiency (exam)
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Music Performance (FGCU, FSU, UCF, UNF, USF, UWF)

Admission Program Objective Code: PERF
State CIP Code: 1192401010

Offered at FGCU*, FSU*, UCF, UNF*, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

MUT 1111 - Music Theory I

3 Credit Hours
(Fall, Spring)

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor scales, intervals, triads, 7th chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s): MUT 1241

MUT 1112 - Music Theory II

3 Credit Hours
(Fall, Spring)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, species counterpoint, chord structures, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1111

Corequisite(s): MUT 1242

MUT 2116 - Music Theory III

3 Credit Hours
(Fall)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including secondary chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1112

Corequisite(s): MUT 2246

MUT 2117 - Music Theory IV

3 Credit Hours
(Spring)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including modulation, non-tonicizing fully diminished 7th chords, augmented 6th chords, mode mixture, Neapolitan chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries while providing an introduction to Romantic period and chromatic musical structures.

Prerequisite(s): MUT 2116

MUT 1241 - Ear Training and Sight Singing I

1 Credit Hour
(Fall, Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s): MUT 1111

MUT 1242 - Ear Training and Sight Singing II

1 Credit Hour
(Fall, Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1241

Corequisite(s): MUT 1112

MUT 2246 - Ear Training and Sight Singing III

1 Credit Hour
(Fall)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1242

Corequisite(s): MUT 2116

MUT 2247 - Ear Training and Sight Singing IV

1 Credit Hour
(Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 2246

MUT 2246 - Ear Training and Sight Singing III

1 Credit Hour
(Fall)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1242

Corequisite(s): MUT 2116

MUT 2247 - Ear Training and Sight Singing IV

1 Credit Hour
(Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 2246

Corequisite(s): MUT 2117

- MUNXXXX - Any course with MUN prefix
- MV(K/S/V) XX1X (Applied Music course)
- MV(K/S/V) XX2X (Applied Music course)
- XXXXXXX
- Secondary Piano Proficiency (exam)
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Nonprofit Management (UCF)

Admission Program Objective Code: NPRO
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520206
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Nuclear Engineering

Admission Program Objective Code: NUCL
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 142301
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of

differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and

incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Nursing (Track 1/2)

Admission Program Objective Code: NRSN
State CIP Code: 1192401010

Offered at FAMU*, FAU*, FGCU*, FIU*, FSU*, UCF*, UF*, UNF*, USF*, UWF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 513801, Track 1/2
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

- BSCXXXX - Any course with the BSC prefix
  or
- CHMXXXX - Any course with the CHM prefix
  or
- PHYXXXX - Any course with the PHY prefix

DEP 2004 - Human Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

MCB 2010C - Microbiology, Allied Health

4 Credit Hours
(Fall, Spring, Summer)

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Prerequisite(s): CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

- SYGXXXX - Any course with the SYG prefix

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Nursing - AS to BS (NWF)

Admission Program Objective Code: NUR1
State CIP Code: 1192401010

Offered at BC, CC, CCF, DSC*, FAMU*, FAU*, FSCJ, FSWSC, GCSC, NWFSC, PBSC, PESC, PHSC, PSC, SCFMS, SFC, SFSC, IRSC, SPC, SJRSC, TCC, FGCU*, FIU*, FSU*, FGC, MDC, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 513801, track 2/2
* See notes on Common Course Prerequisite Manual

AA Transfer Major: Paralegal Studies (BAS)

Admission Program Objective Code: PLAA
State CIP Code: 1192401010

Offered at SPC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 220302, 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Parks & Recreation Management

Admission Program Objective Code: PRKF
State CIP Code: 1192401010

Offered at FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310301, track 6/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

DEP 2004 - Human Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

AA Transfer Major: Parks & Recreation Management - Hospitality, Recreation & Resort Management

Admission Program Objective Code: PRKH
State CIP Code: 1192401010

Offered at UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310301, track 5/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Parks & Recreation Management - Instruction

Admission Program Objective Code: PKRE
State CIP Code: 1192401010

Offered at FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Major Required Courses

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

DEP 2004 - Human Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Parks & Recreation Management - Recreation, Tourism & Events

Admission Program Objective Code: PRKR
State CIP Code: 1192401010

Offered at FSU*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

AA Transfer Major: Pharmaceutical Science

Admission Program Objective Code: PHAR
State CIP Code: 1192401010

Offered at FAMU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 512099
Common Course Prerequisite Manual

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Pharmacy (Pharm D)

Admission Program Objective Code: PHAD
State CIP Code: 1192401010

Offered at FAMU*, UF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 512001
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory

technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.

CHM 2211C - Organic Chemistry II

4 Credit Hours
(Spring)

In continuation of CHM 2210C - Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Prerequisite(s): CHM 2210C.

MAC 1140 - Pre-Calculus Algebra

3 Credit Hours
(Fall, Spring, Summer)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and

determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Philosophy

Admission Program Objective Code: PHIL
State CIP Code: 1192401010

Offered at FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 380101
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Philosophy and Religion

Admission Program Objective Code: PHRL
State CIP Code: 1192401010

Offered at FAMU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 389999
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Photonics Science and Engineering

Admission Program Objective Code: PHEN
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 141003
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus,

area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

3 Credit Hours
(Fall, Spring)

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313. Equivalent courses from other institutions may be used to meet the prerequisite.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Physical Education Teacher Education

Admission Program Objective Code: PHED
State CIP Code: 1192401010

Offered at FIU, UNF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course

Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131314
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

or

PET 2622 - Care and Prevention of Athletic Injuries

3 Credit Hours
(Offered as needed)

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

- PELXXXX - 4-5 credit hours of courses with the PEL prefix
- PEMXXXX - 3 hours of courses with the PEM prefix
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Physical Science

Admission Program Objective Code: PHSC
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400899, track 1/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Physics Teacher Education

Admission Program Objective Code: PHTE
State CIP Code: 1192401010

Offered at FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 400801, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Political Science & Government

Admission Program Objective Code: POTL
State CIP Code: 1192401010

Offered at FAU, UCF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 451001
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Age 3 through Grade 3

Admission Program Objective Code: ECHA
State CIP Code: 1192401010

Offered at CCF, FGC, FGCU, FSCJ, FSU*, MDC, NWFSC, PSC, SCFMS, SFC, SJRSC, UCF, UNF, UWF, SPC, USF, USFSM, FIU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131210
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this

course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Professional Communication

Admission Program Objective Code: PRCO
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 090900
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

No required courses for this Transfer Major.

AA Transfer Major: Project Management (BAS - NWF)

Admission Program Objective Code: PROJ
State CIP Code: 1192401010

Offered at NWFSC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520202
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Psychobiology

Admission Program Objective Code: PSYB
State CIP Code: 1192401010

Offered at FAU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 422706
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-

chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

CHM 2210C - Organic Chemistry I

4 Credit Hours
(Fall)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Prerequisite(s): CHM 1046C.
or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the

individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

or

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Psychology, General

Admission Program Objective Code: PSCH
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FIU, FSU*, UCF, UF*, UNF, USF, USFSM, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 420101
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- One of the following Biology courses: BSC 1005, BSC 1010C, BSC 1011C, BSC 1080, BSC 1085C, BSC 1086C, BSC 2020C
  or

ZOO 1010C - Zoology

4 Credit Hours
(Offered as needed)

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- One of the following Psychology courses: CLP 1001, CLP 2140, DEP 2004, DEP 2100

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Public Health (FGCU, USF)

Admission Program Objective Code: PUBH
State CIP Code: 1192401010

Offered at FGCU, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 512201
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability

distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Public Policy and Administration

Admission Program Objective Code: PUBP
State CIP Code: 1192401010

Offered at FAMU, FAU, FIU, IRSC, SPC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 440401
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Public Relations & Organizational Communication

Admission Program Objective Code: PUBC
State CIP Code: 1192401010

Offered at FAMU*, UF*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 090902
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AMH 2010 - American History I

3 Credit Hours ¶
(Fall, Spring, Summer)

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Radiologic and Imaging Science

Admission Program Objective Code: RDTC
State CIP Code: 1192401010

Offered at VC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510907
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

> *To be admitted, a student must have current American Registry of Radiologic Technologists (ARRT) certification.**
>
> * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Real Estate

Admission Program Objective Code: REAL
State CIP Code: 1192401010

Offered at FAU, FIU, FSU*, UCF, UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 521501
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability

distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Religious Studies

Admission Program Objective Code: RELG
State CIP Code: 1192401010

Offered at FIU, FSU, UCF, UF, UNF, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 380201
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Resort & Hospitality Management

Admission Program Objective Code: RSHO
State CIP Code: 1192401010

Offered at FGCU*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520906
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Restaurant and Food Service Management

Admission Program Objective Code: REST
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520905
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Rhetorical Speech & Communication

Admission Program Objective Code: RHET
State CIP Code: 1192401010

Offered at USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 231304
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Russian & East European Studies

Admission Program Objective Code: RUSS
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 050105
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

AA Transfer Major: Science Teacher Education - Biology Teacher Ed (BC, CC, DSC, FSWSC, IRSC, NWFSC, SPC, MDC)

Admission Program Objective Code: SCIB
State CIP Code: 1192401010

Offered at BC, CC, DSC, FSWSC, IRSC, NWFSC, SPC, MDC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131322
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

Any two of the following:

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1054C - General Physics Without Calculus II

4 Credit Hours
(Spring)

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Science Teacher Education - Biology Teacher Education (FAMU, FAU, UCF, UNF, USF)

Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered

if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Science Teacher Education - Earth/Space Teacher Education

Admission Program Objective Code: STEE
State CIP Code: 1192401010

Offered at DSC, MDC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131316, track 3/5
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be

associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-

chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and

planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of "C" or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Secondary Teacher Ed - English

Admission Program Objective Code: SETE
State CIP Code: 1192401010

Offered at UCF, UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131205, track 1/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. ** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

- LITXXXX - Any course with the LIT prefix
  or
- AMLXXXX - Any course with the AML prefix

ENL 2012A - English Literature I

3 Credit Hours ¶
(Offered as needed)

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): ENC 1101.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

or

ENL 2022 - English Literature II

3 Credit Hours ¶
(Offered as needed)

A study of English literature from the Romantics through the modern era, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is required.

Prerequisite(s): ENC 1101. (Note: ENL 2012A is not a prerequisite for this course)

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Secondary Teacher Ed - Social Science

Admission Program Objective Code: SESS
State CIP Code: 1192401010

Offered at FAMU, UCF, UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131205, track 2/6

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

AMH 2010 - American History I

3 Credit Hours ¶
(Fall, Spring, Summer)

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Transfer Major Required Courses*

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

Select one course from the following:

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body

dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

Select one course from the following:

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

or

PHY 1054C - General Physics Without Calculus II

4 Credit Hours
(Spring)

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 1053C or equivalent.

or

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Secondary Teacher Education - Chemistry Teacher Education (Track 5/6) (UCF)

Admission Program Objective Code: CTED
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131205, track 5/6
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

Select from the following groups of courses:

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

and

PHY 1054C - General Physics Without Calculus II

4 Credit Hours
(Spring)

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 1053C or equivalent.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

and

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Secondary Teacher Education - Physics Teacher Education (Track 6/6) (UCF)

Admission Program Objective Code: PHYE
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131205, track 6/6

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of "C" or better or equivalent.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2049C - General Physics with Calculus II

4 Credit Hours
(Spring, Summer)

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Prerequisite(s): PHY 2048C

Prereq/Corequisites: MAC 2312 or equivalent

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general

chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.
* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Secondary Teacher Education - Secondary Mathematics Teacher Education (Track 3/6) (UCF)

Admission Program Objective Code: SMTE
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

3 Credit Hours ¶
(Fall, Spring, Summer)

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Transfer Major Required Courses

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

SYG 2010 - Social Problems

3 Credit Hours ❖ ¶
(Fall, Spring, Summer)

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Sociology

Admission Program Objective Code: SOCI
State CIP Code: 1192401010

Offered at FAMU, FAU, FGCU, FSU, UCF, UF, UNF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 451101, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

- Two Sociology courses - Choose from: SYG 2000, SYG 2010, SYG 2430

AA Transfer Major: Sociology - Anthropology

Admission Program Objective Code: SOAN
State CIP Code: 1192401010

Offered at FUI

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 451101, track 1/2
Common Course Prerequisite Manual

Transfer Major Required Courses*

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ANT 2000 - Introduction to Anthropology

3 Credit Hours ❖ ♦
(Offered as needed)

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Prereq/Corequisites: ❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Spanish

Admission Program Objective Code: SPAN
State CIP Code: 1192401010

Offered at FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 160905
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

SPN 1120 - Spanish I

4 Credit Hours ❖
(Fall, Spring, Summer)

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

SPN 1121 - Spanish II

4 Credit Hours
(Fall, Spring, Summer)

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Prerequisite(s): SPN 1120 or an equivalent course with a grade of “C” or better.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2220 - Spanish III

4 Credit Hours
(Offered as needed)

Intermediate level review of grammar, readings in Spanish Literature, and development of conversational and writing skills.

Prerequisite(s): SPN 1121 or an equivalent course with a grade of “C” or better.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Special Education, General

Admission Program Objective Code: SPED
State CIP Code: 1192401010

Offered at BC, CC, DSC, FAU, FGCU, FIU, FSU*, UCF, UF*, UNF, USF, USFSM, USFSP, UWF, SPC, IRSC, MDC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131001
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Speech Communication and Rhetoric

Admission Program Objective Code: SPCO
State CIP Code: 1192401010

Offered at FAU, FIU, UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 090101
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Speech Pathology & Audiology (FSU, UCF, UF, USF)

Admission Program Objective Code: SPCP
State CIP Code: 1192401010

Offered at FSU*, UCF, UF*, USF, USFSM

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510204, track 1/3
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- BSCXXXX - Any course with the BSC prefix

- PHYXXXX - Any course with the PHY prefix
  or
- CHMXXXX - Any course with the CHM prefix

- PSYXXXX - Any course with the PSY prefix
  or
- CLPXXXX - Any course with the CLP prefix
  or
- DEPXXXX - Any course with the DEP prefix
  or
- SYGXXXX - Any course with the SYG prefix

AA Transfer Major: Speech Pathology & Audiology (USFSM)

Admission Program Objective Code: SPCU
State CIP Code: 1192401010

Offered at USFSM

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510201
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

AA Transfer Major: Speech Pathology & Audiology - Deaf Studies Concentration

Admission Program Objective Code: SPCH
State CIP Code: 1192401010

Offered at USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510204, track 3/3
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Sport Management

Admission Program Objective Code: SPME
State CIP Code: 1192401010

Offered at FSU, UF, UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 310504
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- MARXXXX - Any course with the MAR prefix
  or
- GEBXXXX - Any course with the GEB prefix

- MANXXXX - Any course with the MAN prefix
  or
- BULXXXX - Any course with the BUL prefix
  or
- CGSXXXX - Any course with the CGS prefix
  or
- STA 2023 - Statistics **4 Credit Hours**
  or
- ACGXXXX - Any course with the ACG prefix

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.
or

- ECOXXXX - Any course with the ECO prefix (ECO 2013 or ECO 2023)

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PET 2622 - Care and Prevention of Athletic Injuries

3 Credit Hours
(Offered as needed)

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Statistics

Admission Program Objective Code: STAT
State CIP Code: 1192401010

Offered at FIU, FSU, UCF, UF, UNF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 270501
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

- COPXXXX - A scientific programming course designed for computer science majors* (COP 2011, COP 2222, COP 2228, COP 2362, COP 2658 , COP 2662, COP 2805, COP 2833, COP 2840)

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate

placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

4 Credit Hours
(Fall, Spring, Summer)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2312 with a grade of “C” or better or equivalent.

- Two laboratory based science courses for science majors* (BSC 1010C, BSC 1011C, CHM 1045C, CHM 1046C, GLY 2010C, GLY 2100C, PHY 2048C, PHY 2049C)

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Studio/Fine Art

Admission Program Objective Code: SDAR
State CIP Code: 1192401010

Offered at FAMU, FGCU,, FIU, FSU*, UCF, UF*, UNF*, USF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 500702, track 1/2
* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ART 1201C - Two-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1203C - Three-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1300C - Drawing I

3 Credit Hours
(Fall, Spring)

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1301C - Drawing II

3 Credit Hours
(Fall, Spring)

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Prerequisite(s): ART 1300C. Audit enrollment in studio art classes is permitted on a space-available basis only.

or

ART 2330C - Figure Drawing I

3 Credit Hours
(Fall, Spring)

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

ARH 2050 - Art History: Pre-Renaissance

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

- ARTXXXX - Two courses with the ART prefix
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Studio/Fine Art - Graphic Design

Admission Program Objective Code: SDGD
State CIP Code: 1192401010

Offered at UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 500702, track 2/2
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 2602C - Digital Imaging I

4 Credit Hours
(Offered as needed)

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

▲Technology-Across-the-Curriculum Course.

- ARHXXXX - Any course with the ARH prefix

ART 1301C - Drawing II

3 Credit Hours
(Fall, Spring)

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Prerequisite(s): ART 1300C. Audit enrollment in studio art classes is permitted on a space-available basis only.

GRA 2190C - Graphic Design I

3 Credit Hours
(Offered as needed)

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

▲Technology-Across-the-Curriculum Course.

- GRAXXXX - Any course with the GRA prefix
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Supervision & Management (BAS), Organizational Mgt (BAS), Business & Org Mgt (BAS), Administration & Supervision (BAS), Spvr & Org Mgt (BAS) Mgt & Org Leadership (BAS)

Admission Program Objective Code: SVMG
State CIP Code: 1192401010

Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC
(CIP 520299 is Management and Supervision at NWFSC)

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

AA Transfer Major: Surveying

Admission Program Objective Code: SURV
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 151102
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2312 - Calculus II

4 Credit Hours
(Fall, Spring, Summer)

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 2311 with a grade of "C" or better or equivalent.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Sustainability and Built Environment

Admission Program Objective Code: SSBL
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 303301
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

No required courses for this Transfer Major.

AA Transfer Major: Sustainability Management - BAS

Admission Program Objective Code: SUST
State CIP Code: 1192401010

Offered at SPC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 030299
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

Students with the following Associate in Science (AS) degrees will be admitted: Environmental Science Technology, Architectural Design & Construction Technology, Drafting and Design Technology or Engineering Technology.

Students who do not have one of the AS degrees listed will be required to take 15 credits in related coursework which mirrors coursework for SPC's AS in Environmental Science Technology degree requirements.

- The courses include: ARCXXXX, CHMXXXX, ECO 2013, ECO 2023, EETXXXX, ETM 1010C, ESCXXXX, EVRXXXX, GLYXXXX, GIS 1040C, OCEXXXX, PHYXXXX

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Teacher Education, Multiple Levels (Track 1/3) (USFSP)

Admission Program Objective Code: TCHE
State CIP Code: 1192401010

Offered at USFSP

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131206, track 1/3

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

AA Transfer Major: Teacher Education, Multiple Levels - Art Education (Track 2/3) (UCF)

Admission Program Objective Code: ARTE
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131206, track 2/3
Common Course Prerequisite Manual

ART 1300C - Drawing I

3 Credit Hours
(Fall, Spring)

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1201C - Two-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Select one course from the following:

ART 1301C - Drawing II

3 Credit Hours
(Fall, Spring)

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Prerequisite(s): ART 1300C. Audit enrollment in studio art classes is permitted on a space-available basis only.

or

ART 2330C - Figure Drawing I

3 Credit Hours
(Fall, Spring)

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

ART 1203C - Three-Dimensional Design

3 Credit Hours
(Fall, Spring)

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

ARH 2050 - Art History: Pre-Renaissance

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

3 Credit Hours ❖ † ¶
(Fall, Spring)

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

AA Transfer Major: Technology Management (BAS)

Admission Program Objective Code: TCMG
State CIP Code: 1192401010

Offered at BC, FSCJ, GCSC, PBSC, SCFMS, SPC

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 111099
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

Admission into this BAS program requires an AS degree from a regionally-accredited institution in Computer Engineering Technology, Computer Information Technology, Computer Programming or Database Technology. Students with an AA degree, 60 credit hours but no degree, or an AS degree in another area may be admitted by the Dean on a case-by-case basis.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Tourism and Travel Services Management

Admission Program Objective Code: TOUR
State CIP Code: 1192401010

Offered at UCF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520907
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Trade & Industrial Teacher Ed (Vocational)

Admission Program Objective Code: TRAD
State CIP Code: 1192401010

Offered at FIU, UCF, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 131320
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Education Required Courses

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

** See Notes on Common Course Prerequisite Manual, link above

Transfer Major Required Courses*

- 15 hours in courses from the area of specialization*

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Transportation Management

Admission Program Objective Code: TRAN
State CIP Code: 1192401010

Offered at UNF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 520209
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1550 - Introduction to World Wide Web

3 Credit Hours
(Fall)

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World Wide Web and the Internet.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

AA Transfer Major: Urban & Regional Planning

Admission Program Objective Code: URBA
State CIP Code: 1192401010

Offered at FAU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 040301
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Urban Design

Admission Program Objective Code: URDS
State CIP Code: 1192401010

Offered at FAU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 040401

Transfer Major Required Courses

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- SYGXXXX - Any course with the SYG prefix
  * See Notes on Common Course Prerequisite Manual

AA Transfer Major: Women's Studies

Admission Program Objective Code: WOMN
State CIP Code: 1192401010

Offered at FIU, UF, USF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 050207
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

No required courses for this Transfer Major.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Zoology

Admission Program Objective Code: ZOO
State CIP Code: 1192401010

Offered at UF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 260701
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

MAC 2233 - Business Calculus

3 Credit Hours
(Fall, Spring, Summer)

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

AA Transfer Major: Health Science (Track 1/7) (FAU, UF*, USF, USFSP, UWF)

Admission Program Objective Code: HSCI
State CIP Code: 1192401010

Offered at FAU, UF*, USF, USFSP, UWF

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510000, Track 1/7
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

Select one course from the following:

BSC 1005C - General College Biology

5 Credit Hours (1 HC)
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. General biology uses experimental methodology and technique and includes a survey of bacteria, protist, fungi, plants and animals. The lab content will include a survey of organisms, dissection of plants, invertebrates and vertebrates.

(NWFSC Collegiate High School Students Only)

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1011C - Principles of Biology II

4 Credit Hours
(Fall, Spring)

This course is a continuation of BSC 1010C. It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): BSC 1010C.

BSC 1086C - Anatomy and Physiology II

4 Credit Hours
(Fall, Spring, Summer)

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

BSC 2020C - Human Structure and Function

4 Credit Hours
(Fall, Spring, Summer)

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

STA 2122 - Statistical Applications

4 Credit Hours
(Offered as needed)

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is

an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

DEP 2004 - Human Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

or

CLP 2140 - Abnormal Psychology

3 Credit Hours
(Fall, Spring, Summer)

A study of the different problems in psychopathology, including anxiety, depression, social deviance, psychosis, schizophrenia, mental retardation and general brain dysfunction of both children and adults, with emphasis on descriptive etiology, known causes, and treatments.

Prerequisite(s): PSY 2012.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ENC 2210 - Technical Report Writing

3 Credit Hours
(Spring)

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Prerequisite(s): passing score on placement test.

* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Health Science - Interdisciplinary Medical Science (Track 7/7) (FSU)

Admission Program Objective Code: MESI
State CIP Code: 1192401010

Offered at FSU

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 510000, Track 7/7
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

Select from the following:

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

or

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 1114 - Trigonometry

3 Credit Hours
(Fall, Spring, Summer)

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAC 1140 with a grade of "C" or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1046C - College Chemistry II

4 Credit Hours
(Fall, Spring, Summer)

Continuation of CHM 1045C. Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Prerequisite(s): CHM 1045C.
* See Notes on Common Course Prerequisite Manual

AA Transfer Major: Music, General - Music Teacher Education (FIU*) (Track 2/2)

Admission Program Objective Code: MTEA
State CIP Code: 1192401010

Offered at FIU*

Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.

Transfer Program CIP code: 500901
Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MUT 1111 - Music Theory I

3 Credit Hours
(Fall, Spring)

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor scales, intervals, triads, 7^{th} chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17^{th} & 18^{th} centuries.

Prerequisite(s): MUT 1001 or Approval of Theory Faculty and successful completion of Theory

Fundamentals Exam

Corequisite(s): MUT 1241

MUT 1112 - Music Theory II

3 Credit Hours
(Fall, Spring)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, species counterpoint, chord structures, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1111

Corequisite(s): MUT 1242

MUT 2116 - Music Theory III

3 Credit Hours
(Fall)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including secondary chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Prerequisite(s): MUT 1112

Corequisite(s): MUT 2246

MUT 2117 - Music Theory IV

3 Credit Hours
(Spring)

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including modulation, non-tonicizing fully diminished 7th chords, augmented 6th chords, mode mixture, Neapolitan chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries while providing an introduction to Romantic period and chromatic musical structures.

Prerequisite(s): MUT 2116

MUT 1241 - Ear Training and Sight Singing I

1 Credit Hour
(Fall, Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s): MUT 1111

MUT 1242 - Ear Training and Sight Singing II

1 Credit Hour
(Fall, Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1241

Corequisite(s): MUT 1112

MUT 2246 - Ear Training and Sight Singing III

1 Credit Hour
(Fall)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 1242

Corequisite(s): MUT 2116

MUT 2247 - Ear Training and Sight Singing IV

1 Credit Hour
(Spring)

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Prerequisite(s): MUT 2246

Corequisite(s): MUT 2117

- MUNXXXX - Any course with MUN prefix
- MV(K/S/V) XX1X (Applied Music course)
- MV(K/S/V) XX2X (Applied Music course)
- XXXXXXX
- Secondary Piano Proficiency (exam)

* See Notes on Common Course Prerequisite Manual

AAS Degree General Education Requirements

All A.A.S. degree programs at NWF State College require a minimum of 18 college credits in general education. Unless otherwise specified in the program requirements, students must complete one course from each of the following categories to meet general education requirements.

To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options (designated with ♦) in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. The A.A.S. degree programs provide flexibility for entering the job market or continuing education. Students who take general education courses are guaranteed transfer of those courses when continuing their education within the Florida College and University System.

NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA, AS, and AAS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

Communications: 3

Students will demonstrate the ability to communicate effectively.

Students will demonstrate the ability to analyze communication critically.

LIN 1670 - Writing and Grammar

3 Credit Hours
(Fall, Spring, Summer)

The course includes practice in writing short essays and encompasses a comprehensive review of grammar and mechanics. This course is strongly recommended for students who have completed Developmental Writing, those who want a preparation for Composition, or those who score 103-116 on the PERT.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal achievement, successful completion of any required developmental English coursework with a minimum grade of "C", or exemption from placement testing.

- ___ ____ - Any other AA General Education Communications Course
  ♦ Core General Education
  ▲ Technology-Across-the Curriculum
  ¶ Writing requirements

Humanities: 3

Students will confirm the ability to think critically through demonstrating interpretive ability and cultural literacy.

Students will acquire competence in reflecting critically upon the human condition.

ARH 1000 - Art Appreciation

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

3 Credit Hours † ♦ ¶
(Fall, Spring, Summer)

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

3 Credit Hours † ♦ ¶
(Fall, Spring, Summer)

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

- ___ ____ - Any other AA General Education Humanities course with the **†** symbol or any General Education Humanities course AND another course with the **†** symbol.
  ♦ Core General Education
  † Speaking-Across-the Curriculum
  ❖ International and/or diversity focus
  ¶ Writing requirements

Mathematics: 3

Students will determine appropriate mathematical and computational models and methods in problem solving, and demonstrate an understanding of mathematical concepts.

Students will apply appropriate mathematical and computational models and methods in problem solving.

MAT 1033A - Intermediate Algebra

4 Credit Hours
(Fall, Spring, Summer)

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Prerequisite(s): a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MGF 1106 - Practical Applications of Mathematics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following:
(1) 114 or higher on the math section of the PERT OR
(2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MGF 1107 - Math in Society

3 Credit Hours ♦
(Fall, Spring, Summer)

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s):
Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following:
(1) 123 or higher on the math section of the PERT OR
(2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

___ ____ - Any other AA General Education Mathematics course

♦ **Core General Education**

Natural Sciences: 3

Students will demonstrate the ability to critically examine and evaluate scientific observation, hypothesis, or model construction, and to use the scientific method to explain the natural world.

Students will successfully recognize and comprehend fundamental concepts, principles, and processes about the natural world.

AST 1002 - Descriptive Astronomy

3 Credit Hours ♦
(Fall, Spring, Summer)

This non-lab one-semester course is designed to meet the general education requirements in physical science for

non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1020 - Chemical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ESC 1000 - Earth Science

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

EVR 1001C - Environmental Science

4 Credit Hours ♦
(Offered as needed)

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1020 - Physical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ___ ____ - Any other AA General Education Natural Science course
  - ♦ **Core General Education**

Social Sciences: 3

Students will demonstrate the ability to examine behavioral, social, and cultural issues from a variety of points of view.

Students will demonstrate an understanding of basic social and behavioral science concepts and principles used in the analysis of behavioral, social, and cultural issues, past and present, local and global.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ANT 2000 - Introduction to Anthropology

3 Credit Hours ❖ ♦
(Offered as needed)

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Prereq/Corequisites: ❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ___ ____ - Any other AA General Education Social Science course
  - ♦ **Core General Education**
  - ❖ I**nternational and/or diversity focus**
  - ¶ **Writing requirements**

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

4 Credit Hours ❖
(Fall, Spring)

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

1 Credit Hour
(Fall, Spring)

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Prereq/Corequisites: BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

4 Credit Hours ❖
(Fall)

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

1 Credit Hour
(Fall, Spring, Summer)

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

1 Credit Hour
(Fall, Spring, Summer)

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

FRE 1120 - French I

4 Credit Hours ❖
(Fall)

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

3 Credit Hours
(Fall, Spring, Summer)

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

LIS 1001 - Library Skills

1 Credit Hour
(Offered as needed)

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

LIS 2004 - Introduction to Internet Research

1 Credit Hour ▲
(Offered as needed)

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Prerequisite(s): a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

LIT 2335 - Introduction to Children's and Adolescent Literature

3 Credit Hours ❖
(Offered as needed)

Designed to explore the range and diversity of the children's literary canon, surveying the historical development of children's and adolescent literature (pre-school to eighth grade) and the construction of socio-cultural influences. While the focus is predominantly on classic works from the tradition of American and British fiction, poetry, folklore and fairy tales, drama, and picture books, the course nonetheless addresses multi-cultural issues and texts in order to broaden the cultural vision provided by the literary study. This course will be a General Education elective, but will not meet the Humanities or English General Education requirements. Course has international/diversity focus for Teacher Education program common prerequisites.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

LIT 2603 - Literature of War in the 20th Century

3 Credit Hours ❖
(Offered as needed)

Designed to investigate the historical, psychological, and universal issues that face societies in times of war, through analysis of a range of literary genre and texts, including fiction, poetry, drama, letters, and memoirs focusing on wars of the modern era. The approach is global, but concentrates heavily on the war experiences of the United States. This course will be a General Education elective, but will not meet Humanities or English General Education requirements. Course has International/Diversity focus for Teacher Ed program common prerequisites.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

SLS 1101 - College Success

3 Credit Hours
(Fall, Spring, Summer)

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

SLS 2505 - Critical Thinking

3 Credit Hours
(Fall, Spring)

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

SPC 1006 - Essentials of Speech

1 Credit Hour †
(Offered as needed)

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

3 Credit Hours †
(Fall, Spring)

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

4 Credit Hours ❖
(Fall, Spring, Summer)

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

AAS Degree Checklist:

- Have you completed a minimum of 18 credit hours in the following areas?
    - 3 hours in Communications
    - 3 hours in Humanities
    - 3 hours in Social Sciences
    - 3 hours in Mathematics
    - 3 hours in Natural Sciences
    - 3 Additional hours in General Education Credits
- Have you completed the required Core and Technical Elective course work for your A.A.S. degree?
- Have you completed at least 25% of the total number of credits for your A.A.S. degree at NWF State College?
- Have you met the minimum 2.0 GPA requirements for the A.A.S.?
- Have you applied for Graduation by the advertised deadline?

Accounting Technology (AS)

Admission Program of Study Code ACCT
State CIP Code 1552030201

Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Accounting Technology Management (CCC) (State CIP Code 0552030205).

Core Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

ACG 2450 - Computer Applications for Accounting

3 Credit Hours
(Spring)

An introductory course in computerized integrated accounting procedures found in the microcomputer environment.

Includes application of software designed for general ledger, accounts payable and receivable, financial statement analysis, purchasing and sales order processing, fixed assets, payroll, inventory and departmental accounting.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ACO 1806 - Payroll Accounting

3 Credit Hours
(Spring)

Introduction to the theory, laws and procedures related to payroll activities of a business. Topics include payroll and personnel records, federal payroll laws, payroll operations, computerized payroll systems, and preparation of payroll registers, earnings records, and payroll tax forms.

Prerequisite(s): ACG 2001 is strongly recommended and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

BUL 2241 - Business Law I

3 Credit Hours
(Fall, Spring)

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ENC 2210 - Technical Report Writing

3 Credit Hours
(Spring)

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Prerequisite(s): passing score on placement test.

GEB 1011 - Introduction to Business

3 Credit Hours
(Fall)

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

3 Credit Hours
(Fall)

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds

and stocks.

Prerequisite(s): completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

TAX 2000 - Federal Income Tax: Individual

3 Credit Hours
(Spring)

Federal Income Taxes. Determine income tax for individuals, interpretations of Internal Revenue Code and Regulation, tax planning and advisory service. Brief introduction to partnership, corporation, estate and gift taxes. Extensive practice problems in individual income tax returns and research in tax questions.

Prerequisite(s): MTB 1103 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 36

Technical Elective Courses

Select 6 credits from the following:

ECO 2023 - Economics II

3 Credit Hours
(Spring)

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Prerequisite(s): ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2242 - Business Law II

3 Credit Hours
Offered as needed

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Prerequisite(s): BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2430 - Business Ethics

3 Credit Hours
(Fall)

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

3 Credit Hours
(Fall, Spring)

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

3 Credit Hours
(Fall)

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GEB 1940 - Internship - Business

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing

skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

Advanced Computer-Aided Technical Design Certificate (CCC)

Admission Program of Study Code ACAT
State CIP Code 0615130101

Students who successfully complete this certificate may be eligible to receive credits towards the Computer-Aided Drafting and Design - Mechanical Design Option (AS) degree (State CIP Code 1615130102).

Core Courses

ETD 1102 - Introduction to Technical Drawing

3 Credit Hours
(Spring, Summer, Fall)

A course in the fundamental principles of the graphic language (the language of industry) and is developed for students without previous mechanical drawing experience. Topics include: use and care of instruments, lettering, geometric construction, multiview projection, sketching techniques, inking, and methods of reproduction.

ETD 1112 - Mechanical Drafting I

4 Credit Hours
(Offered as needed)

The second of a sequence of courses in drafting which includes basic use of instruments, freehand lettering, geometric construction, orthographic projection, sections and conventional revolutions, dimensioning, inking, mechanical lettering, methods of reproduction, and developing computer-aided drafting skills.

Prerequisite(s): ETD 1102 and ETD 1320C or equivalent

ETD 1217 - Fundamentals of Dimensioning and Tolerancing

4 Credit Hours
(Fall, Spring)

A course designed to help students develop the basic fundamentals of dimensioning and tolerancing. Topics include: dimensioning systems such as; metric, decimal, fractional-inch, foot and inch, tolerancing methods, limits and tolerances, tolerancing accumulation, dimensioning practices, and standards fits.

ETD 1320C - AutoCAD I

3 Credit Hours
(Fall, Spring, Summer)

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

3 Credit Hours
(Fall, Spring, Summer)

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands, advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Prerequisite(s): ETD 1320C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 2350C - AutoCAD III

3 Credit Hours
(Fall, Spring, Summer)

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Prerequisite(s): ETD 1340C.

▲Technology-Across-the-Curriculum Course.

ETD 2731 - Mechanical Drafting II

4 Credit Hours
(Offered as needed)

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary views, related mathematics, precision dimensioning developing computer-aided drafting skills.

Prerequisite(s): ETD 1112 or equivalent.

Total Program Credits Required: 24

Core Courses

MAN 2021 - Management

3 Credit Hours
(Fall)

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

3 Credit Hours
(Spring)

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

3 Credit Hours
(Spring)

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

3 Credit Hours
(Fall, Spring)

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

BUL 2241 - Business Law I

3 Credit Hours
(Fall, Spring)

Introductory course in business law with objective of presenting the law underlying business transactions. Course

includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 2104 - Introduction to Windows

3 Credit Hours
(Spring)

An introduction to operating systems in general with emphasis on Windows.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ENC 2210 - Technical Report Writing

3 Credit Hours
(Spring)

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Prerequisite(s): passing score on placement test.

GEB 1940 - Internship - Business

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 2011 - Introduction to Marketing

3 Credit Hours
(Fall)

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2021 - Professional Selling

3 Credit Hours
(Fall)

Selling, correct attitudes and personal attributes for dealing with the public on a business or professional basis.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

3 Credit Hours
(Spring)

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2511 - Introduction to Advertising

3 Credit Hours
(Spring)

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

3 Credit Hours
(Fall)

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

3 Credit Hours
(Spring)

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

3 Credit Hours
(Fall)

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Prerequisite(s): completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

____ ____ Other Approved College Credits (Requires Dept. Chair Approval)

Total Technical Elective Credits Required: 30

Total Program Credits Required: 60

Suggested Two Year Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Applied Management (AAS) - (XXXX)
First Year

Total General Education Credits Required: 18

Core Courses

ARC 2201 - Theory of Architecture

3 Credit Hours
(Fall, Spring)

An introduction to architectural theory, selected contemporary architectural theories and movements, and their evolution and historical basis. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Prerequisite(s): ETD 1102.

ARC 2303A - Design 2.1

6 Credit Hours
(Fall)

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Prerequisite(s): ARC 2201.

BCN 1230 - Building Construction Materials and Processes

3 Credit Hours
(Fall)

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry.

BCN 1272 - Blueprint Reading for Commercial Construction

3 Credit Hours
(Fall, Spring)

A course to familiarize non-drafting students with techniques of blueprint reading and the fundamentals of construction methods that make blueprint reading meaningful.

EGN 1111C - Engineering Graphics

3 Credit Hours
(Fall, Spring, Summer)

Covers the use of instruments, lettering practice; geometric construction; multiview projection and conventions, auxiliary views, section views, axonometric and oblique projections, rotation, patterns and development, and methods of reproduction.

Prerequisite(s): ETD 1102 or equivalent: prerequisite only applies to Architectural Drafting and Design students.

ETD 1102 - Introduction to Technical Drawing

3 Credit Hours
(Spring, Summer, Fall)

A course in the fundamental principles of the graphic language (the language of industry) and is developed for students without previous mechanical drawing experience. Topics include: use and care of instruments, lettering, geometric construction, multiview projection, sketching techniques, inking, and methods of reproduction.

ETD 1320C - AutoCAD I

3 Credit Hours
(Fall, Spring, Summer)

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

3 Credit Hours
(Fall, Spring, Summer)

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands, advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Prerequisite(s): ETD 1320C or equivalent.

▲Technology-Across-the-Curriculum Course.

TAR 2121C - Architectural Drafting

3 Credit Hours
(Offered as needed)

Architectural design and development of residential and light commercial buildings to include: development and construction of good architectural freehand lettering, VA and FHA approved residential house plans, “Good Sense” house plans as defined in the Arkansas Plan, and heat loss/heat gain calculations.

Prerequisite(s): ETD 1102 or ETD 1112 or equivalent.

Total Core Credits Required: 30

Technical Elective Courses

Select 18 credits from the following:

ARC 1131 - Architectural Presentation

3 Credit Hours
(Summer)

This course introduces basic ideas and presentation techniques directed towards developing design skills, such as drawing, perspective sketching, and graphics using a variety of media to include: pencil, ink, colored pencils, markers, and model building to be used in architectural presentations. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ARC 2304 - Design 2.2

6 Credit Hours
(Spring)

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making, and human behavior.

Prerequisite(s): ARC 2303A.

BCN 2231 - Building Construction Materials and Processes II

3 Credit Hours
(Spring)

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry. The focus of the course will cover Divisions 9 through 16 of the construction industry.

EGN 1130C - Descriptive Geometry

3 Credit Hours
(Fall, Spring, Summer)

Covers basic principles of orthographic projection, auxiliary views and rotation as they apply to points, lines and planes in space; addition of coplanar and non-coplanar vectors; intersections and developments; and selected abstract, exponometric and oblique projection, and practical problems.

Prerequisite(s): EGN 1111C or equivalent.

ETD 1355C - AutoCAD 3-D Modeling I

3 Credit Hours
(Fall, Spring)

A basic course in mechanical design using basic computer geometry techniques. Topics will include: orthographic projections, space relationships of points, lines, planes and revolution of objects. Additional coverage will include principles of surface generation, intersections, wire modeling, and solid modeling techniques.

Prerequisite(s): ETD 1340C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 2350C - AutoCAD III

3 Credit Hours
(Fall, Spring, Summer)

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Prerequisite(s): ETD 1340C.

▲Technology-Across-the-Curriculum Course.

ETD 2357C - Inventor I

3 Credit Hours
(Spring)

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

3 Credit Hours
(Fall)

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2371C - 3D Printing I

3 Credit Hours
(Fall, Spring, Summer)

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Prerequisite(s): ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2377C - 3D Studio Max I

3 Credit Hours
(Offered as needed)

Course is designed to use 3D Studio in rendering, and animation as a dynamic visualization tool for AutoCAD design images. Upon completion of this course, the user will be able to navigate through the modules of the program, model simple projects, set up scenes for rendering and animation, assign materials to objects, and define simple motion paths, input and output techniques.

Prerequisite(s): ETD 1355C or equivalent.

Total Technical Elective Credits Required: 18

Total Program Credits Required: 66

Total Core Credits Required: 30

Technical Elective Courses

Select 18 credits from the following:

BCN 1520 - Electrical Systems in Construction

3 Credit Hours
(Fall, Spring, Summer)

A course to familiarize students with electrical terminology, practices, methods, code requirements and safety and health in construction.

BCN 1567 - Plumbing and Gas Construction Practices

3 Credit Hours
(Fall, Spring, Summer)

A course to familiarize students with Plumbing and Gas code requirements, terminology, methods, practices, processes and safety and health used in building construction.

BCN 2231 - Building Construction Materials and Processes II

3 Credit Hours
(Spring)

Course designed to introduce the student to terminology, methods, procedures, materials, and processes used in the construction industry. The focus of the course will cover Divisions 9 through 16 of the construction industry.

BCN 2560 - Mechanical Systems in Construction

3 Credit Hours
(Fall, Spring, Summer)

A course to familiarize students with mechanical trades terminology, methods, practices, code requirements processes, and safety and health criteria in mechanical construction.

BCN 2721 - Construction Management/Planning

3 Credit Hours
(Fall, Spring, Summer)

The course covers project development and organization from pre-construction site investigation to final completion. The course will include the management of project estimates, plans, schedules, operations and safety. The student will become knowledgeable about documents used in the construction industry for bid, contracts, zoning, permits, bonds, loans specifications and drawings. Cost engineering, procurement, value engineering and quality assurance will be covered. Cost management through job cost analysis and purchase order systems will also be covered.

BCT 1763 - Construction Safety and Health

3 Credit Hours
(Fall, Spring, Summer)

A basic course in construction safety and health, covering such topics as: theories of accident causation; workplace hazards; hazard analysis and prevention; accident reporting; OSHA construction standard and safety practices; environmental safety; violence in the workplace; ergonomics; ethics and safety; workers' compensation; and stress on the job.

BCT 2761 - Structural Systems in Construction

3 Credit Hours
(Fall, Spring, Summer)

A course to familiarize students with structural terminology, practices, methods, code requirements and safety, and health criteria in construction.

BCT 2770 - Construction Estimating

3 Credit Hours
(Fall, Spring)

A course in estimating as it relates to the construction industry covering references, estimating methods, take-off organization and presentation; material take-off, cost estimating in heavy construction, mathematical formulas for estimating, quantity take-off from plan review, and computer estimating overview.

Prerequisite(s): BCN 1230, BCN 1272.

BUL 2241 - Business Law I

3 Credit Hours
(Fall, Spring)

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

AS Degree General Education Requirements

All A.S. degree programs at NWF State College require a minimum of 18 college credits in general education. **Unless otherwise specified in the program requirements**, students must complete one course from each of the following categories to meet general education requirements.

To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options (designated with ♦) in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. The A.S. degree programs provide flexibility for entering the job market or continuing education. Students who take general education courses are guaranteed transfer of those courses when continuing their education within the Florida College and University System.

NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

Communications: 3

Students will demonstrate the ability to communicate effectively.

Students will demonstrate the ability to analyze communication critically.

A minimum grade of "C" in each Communications course is required for general education credit.

ENC 1101 - English Composition I

3 Credit Hours ♦ ▲ ¶
(Fall, Spring, Summer)

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

- ___ ____ - Any other AA General Education Communications Course
  ♦ Core General Education
  ▲ Technology-Across-the Curriculum
  ¶ Writing requirements

Humanities: 3

Students will confirm the ability to think critically through demonstrating interpretive ability and cultural literacy.

Students will acquire competence in reflecting critically upon the human condition.

A minimum grade of "C" in Humanities courses is required for general education credit.

ARH 1000 - Art Appreciation

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

3 Credit Hours † ♦ ¶
(Fall, Spring, Summer)

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

3 Credit Hours ❖ † ♦ ¶
(Fall, Spring, Summer)

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

3 Credit Hours † ♦ ¶
(Fall, Spring, Summer)

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

- ___ ____ - Any other AA General Education Humanities course with the **†** symbol or any General Education Humanities course AND another course with the **†** symbol.
  ♦ Core General Education
  † Speaking-Across-the Curriculum
  ❖ International and/or diversity focus
  ¶ Writing requirements

Mathematics: 3

Students will determine appropriate mathematical and computational models and methods in problem solving, and demonstrate an understanding of mathematical concepts.

Students will apply appropriate mathematical and computational models and methods in problem solving.

All Mathematics courses listed below meet Mathematics requirements outlined in FAC Rule 6A-10.030.

A minimum grade of "C" in Mathematics courses is required for general education credit.

MAC 1105 - College Algebra

3 Credit Hours ♦
(Fall, Spring, Summer)

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAC 2311 - Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is

recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MGF 1106 - Practical Applications of Mathematics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): Students who are exempt from placement testing may enroll in this course with no prerequisites.
Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following:
(1) 114 or higher on the math section of the PERT OR
(2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MGF 1107 - Math in Society

3 Credit Hours ♦
(Fall, Spring, Summer)

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s):
Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following:
(1) 123 or higher on the math section of the PERT OR
(2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

STA 2023 - Statistics

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is

recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ___ ____ - Any other AA General Education Mathematics course
  - ♦ **Core General Education**

Natural Sciences: 3

Students will demonstrate the ability to critically examine and evaluate scientific observation, hypothesis, or model construction, and to use the scientific method to explain the natural world.

Students will successfully recognize and comprehend fundamental concepts, principles, and processes about the natural world.

AST 1002 - Descriptive Astronomy

3 Credit Hours ♦
(Fall, Spring, Summer)

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1005 - General Biology

3 Credit Hours ♦
(Fall, Spring, Summer)

The principles of biology are included. Human Biology is emphasized. Man's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1010C - Principles of Biology I

4 Credit Hours ♦
(Fall, Spring)

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Prerequisite(s): high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

BSC 1085C - Anatomy and Physiology I

4 Credit Hours ♦
(Fall, Spring, Summer)

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1020 - Chemical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

CHM 1045C - College Chemistry I

4 Credit Hours ♦
(Fall, Spring, Summer)

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Prerequisite(s): MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ESC 1000 - Earth Science

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

EVR 1001C - Environmental Science

4 Credit Hours ♦
(Offered as needed)

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1020 - Physical Science

3 Credit Hours ♦
(Fall, Spring, Summer)

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 1053C - General Physics Without Calculus I

4 Credit Hours ♦
(Fall)

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Prerequisite(s): MAC 1114 or equivalent

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

PHY 2048C - General Physics With Calculus I

4 Credit Hours ♦
(Fall, Spring, Summer)

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Prereq/Corequisites: MAC 2311.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ___ ____ - Any other AA General Education Natural Science course
  - ♦ **Core General Education**

Social Sciences: 3

Students will demonstrate the ability to examine behavioral, social, and cultural issues from a variety of points of view.

Students will demonstrate an understanding of basic social and behavioral science concepts and principles used in the analysis of behavioral, social, and cultural issues, past and present, local and global.

A minimum grade of "C" in courses with the ¶ symbol is required for general education credit.

AMH 2020 - American History II

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ANT 2000 - Introduction to Anthropology

3 Credit Hours ❖ ♦
(Offered as needed)

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Prereq/Corequisites: ❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

POS 1041 - American Government

3 Credit Hours ♦ ¶
(Fall, Spring, Summer)

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

3 Credit Hours ♦
(Fall, Spring, Summer)

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

SYG 2000 - Sociology

3 Credit Hours ❖ ♦
(Fall, Spring, Summer)

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the

dynamics of families, government, and economic influences.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

- ___ ____ - Any other AA General Education Social Science course
  - ♦ **Core General Education**
  - ❖ I**nternational and/or diversity focus**
  - ¶ **Writing requirements**

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

4 Credit Hours ❖
(Fall, Spring)

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

1 Credit Hour
(Fall, Spring)

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Prereq/Corequisites: BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

4 Credit Hours ❖
(Fall)

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

1 Credit Hour
(Fall, Spring, Summer)

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

1 Credit Hour
(Fall, Spring, Summer)

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

FRE 1120 - French I

4 Credit Hours ❖
(Fall)

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

3 Credit Hours
(Fall, Spring, Summer)

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will

enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

HUN 2201 - Nutrition

3 Credit Hours
(Fall, Spring, Summer)

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

LIS 1001 - Library Skills

1 Credit Hour
(Offered as needed)

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

LIS 2004 - Introduction to Internet Research

1 Credit Hour ▲
(Offered as needed)

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Prerequisite(s): a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

LIT 2335 - Introduction to Children's and Adolescent Literature

3 Credit Hours ❖
(Offered as needed)

Designed to explore the range and diversity of the children's literary canon, surveying the historical development of children's and adolescent literature (pre-school to eighth grade) and the construction of socio-cultural influences. While the focus is predominantly on classic works from the tradition of American and British fiction, poetry, folklore and fairy tales, drama, and picture books, the course nonetheless addresses multi-cultural issues and texts in order to broaden the cultural vision provided by the literary study. This course will be a General Education elective, but will not meet the Humanities or English General Education requirements. Course has international/diversity focus for Teacher Education program common prerequisites.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

LIT 2603 - Literature of War in the 20th Century

3 Credit Hours ❖
(Offered as needed)

Designed to investigate the historical, psychological, and universal issues that face societies in times of war, through analysis of a range of literary genre and texts, including fiction, poetry, drama, letters, and memoirs focusing on wars of the modern era. The approach is global, but concentrates heavily on the war experiences of the United States. This course will be a General Education elective, but will not meet Humanities or English General Education requirements. Course has International/Diversity focus for Teacher Ed program common prerequisites.

Prerequisite(s): ENC 1101.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

SLS 1101 - College Success

3 Credit Hours
(Fall, Spring, Summer)

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

SLS 2505 - Critical Thinking

3 Credit Hours
(Fall, Spring)

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

SPC 1006 - Essentials of Speech

1 Credit Hour †
(Offered as needed)

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

3 Credit Hours †
(Fall, Spring, Summer)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in

preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

3 Credit Hours †
(Fall, Spring)

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

† Courses listed with this symbol address NWFSC's **Speaking-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

4 Credit Hours ❖
(Fall, Spring, Summer)

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.

- ___ ____ - Any other AA General Education course

♦ Core General Education

¶	Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AS Degree Checklist:

- Have you completed a minimum of 18 credit hours in the following areas?
  - 3 hours in Communications – ("C" or better)
  - 3 hours in Humanities – ("C" or better)
  - 3 hours in Social Sciences
  - 3 hours in Mathematics ("C" or better)
  - 3 hours in Natural Sciences
  - 3 Additional hours in General Education Credits
- Have you completed the required Core and Technical Elective course work for your A.S. degree?
- Have you completed at least 25% of the total number of credits for your A.S. degree at NWF State College?
- Have you met the minimum 2.0 GPA requirements for the A.S.?
- Have you applied for Graduation by the advertised deadline?
- Check to see if you qualify for any of the companion Certificates listed for your A.S. degree and complete a separate graduation application for each one.

Audio Technology (Recording Arts) (CCC)

Admission Program of Study Code ATRA
State CIP Code 0650060209

Students who successfully complete this program may apply these credits to the Music Production Technology (AS) degree (State CIP Code 1650091300).

Core Courses

MUM 2300 - Introduction to the Music Industry

3 Credit Hours
(Summer)

This course is an introduction to the history, principles, and practices of the music industry. Topics will include music publishing, copyright, distribution, industry organization, producing, and general business functions.

MUM 2600 - Recording Techniques I

3 Credit Hours
(Fall, Spring, Summer)

This course is designed as an introduction to basic audio engineering and studio practices. Listening exercises, phychoacoustics, microphone characteristics, and studio etiquette will be studied. In addition the student will study techniques and practices and procedures of multi-track recording, acoustical balancing, editing, and over dubbing in a variety of situations.

Prereq/Corequisites: MUM 1620

MUM 2601 - Recording Techniques II

3 Credit Hours
(Fall, Spring, Summer)

This course explores advanced multi-track recording skills and audio production techniques, edits, use of outboard equipment and live multi-track recording.

Prerequisite(s): MUM 1620, MUM 2600.

MUM 2604 - Multi-Track Mixdown (Post Production)

3 Credit Hours
(Fall, Spring, Summer)

This course explores the application of signal processing equipment as it relates to multi-track master mixdowns. In addition, software and hardware application of mixdown is applied to post-production practices.

Prerequisite(s): MUM 1620, MUM 2600, MUM 2601.

- ____ ____ Other Approved College Credits (MUL, MUM, MUN, MUS, MUT, MVB, MVK, MVP, MVS, MVV, MVW) **3 Credit Hours**

Total Program Credits Required: 15

Auxiliary Law Enforcement Officer Basic (PSAV)

Admission Program of Study Code LEAY
State CIP Code 0743010701

Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Core Courses

CJK 0422 - Dart-Firing Stun Gun

9 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare students in the proper use of the Dart Firing Stun in accordance with the Florida State Statutes, the United States Constitution, and case law. It includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the

awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0031 - CMS First Aid for Criminal Justice Officers

48 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - CMS Firearms

81 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement/Corrections Florida CMS Basic Recruit Academy. This course is designed to give the student basic skills and knowledge needed to safely operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Law Enforcement Florida CMS or Corrections Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Defensive Tactics

81 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to

college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0020 - Law Enforcement CMS Vehicle Operations

48 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply vehicle operations knowledge, principles and techniques to the police driving environment. This course includes classroom instruction and practical application on the driving range. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Core Courses

ACG 2001 - Accounting I

3 Credit Hours
(Fall)

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

3 Credit Hours
(Spring)

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Prerequisite(s): ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

3 Credit Hours
(Spring)

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Corequisite(s): ACG 2011 with instructor/department approval.

BUL 2241 - Business Law I

3 Credit Hours
(Fall, Spring)

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

ENC 2210 - Technical Report Writing

3 Credit Hours
(Spring)

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Prerequisite(s): passing score on placement test.

GEB 1011 - Introduction to Business

3 Credit Hours
(Fall)

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

3 Credit Hours
(Fall)

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 27

Technical Elective Courses

Select 15 credits from the following:

BUL 2242 - Business Law II

3 Credit Hours
Offered as needed

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Prerequisite(s): BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 2104 - Introduction to Windows

3 Credit Hours
(Spring)

An introduction to operating systems in general with emphasis on Windows.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

GEB 1940 - Internship - Business

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

GEB 2430 - Business Ethics

3 Credit Hours
(Fall)

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

3 Credit Hours
(Spring)

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 2011 - Introduction to Marketing

3 Credit Hours
(Fall)

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2021 - Professional Selling

3 Credit Hours
(Fall)

Selling, correct attitudes and personal attributes for dealing with the public on a business or professional basis.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

3 Credit Hours
(Spring)

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2511 - Introduction to Advertising

3 Credit Hours
(Spring)

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

3 Credit Hours
(Fall)

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

3 Credit Hours
(Spring)

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

3 Credit Hours
(Spring)

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

3 Credit Hours
(Fall)

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash

discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Prerequisite(s): completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

3 Credit Hours
(Fall, Spring)

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Admission Program of Study Code: CHEF

State CIP Code 0612050302

Students who successfully complete this certificate may be eligible to receive credits towards the Culinary Management (AS) degree (State CIP Code 1252090101).

Core Courses

FOS 2201 - Food Service Sanitation Management

3 Credit Hours
(Offered as Needed)

This course acquaints students with the Food and Drug Administration's Food Code as well as the challenges and opportunities facing hospitality managers in the area of sanitation management. The class presents a systems approach to sanitation management, utilizing the Hazard Analysis Control Point Program (HACCP), and provides a basic understanding of quality sanitation management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1001 - Culinary Techniques

3 Credit Hours
(Fall)

Emphasis in this course will be placed on the basic methods and chemistry of cooking. Students study ingredients, cooking, theories, terminology, equipment, technology, weights and measures, formula conversions and work on cooking skills and procedures.

Prerequisite(s): FOS 2201

FSS 1202L - Food Production I

3 Credit Hours
(Fall)

Students will acquire knowledge and skill in the preparation of food. Included are basic principles and techniques of food preparation, management of resources, use of recipes, use and care of equipment, and evaluation of food products. The course emphasizes safety and sanitation practices.

Prerequisite(s): FOS 2201

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Program Credits Required: 12

Child Care Center Management Specialization (CCC)

Admission Program of Study Code CCCM
State CIP Code 0419070906

Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education A.S. degree (State CIP Code 1413121004).

Core Courses

DEP 2100 - Child Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

EEC 1002 - Early Childhood Program Administration

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

EEC 1001 - Introduction to Early Childhood Education

3 Credit Hours
(Fall)

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

EEC 1309 - Early Childhood Education Foundations

3 Credit Hours
(Fall, Summer, Spring)

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Total Program Credits Required: 12

Child Development Early Intervention (CCC)

Admission Program of Study Code CDEI
State CIP Code 0419070904

Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education A.S. degree (State CIP Code 1413121004).

Core Courses

DEP 2100 - Child Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

EEC 1001 - Introduction to Early Childhood Education

3 Credit Hours
(Fall)

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

EEC 1002 - Early Childhood Program Administration

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

EEC 1201 - Infants and Toddlers

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

EEC 1309 - Early Childhood Education Foundations

3 Credit Hours
(Fall, Summer, Spring)

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

EEC 1601 - Assessment in Early Childhood Education

3 Credit Hours
(Fall, Spring)

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

EEC 1750 - Guidance for Young Children

3 Credit Hours
(Fall, Spring Summer)

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

EEC 1949 - Internship, Early Childhood Education

3 Credit Hours
(Fall, Spring, Summer)

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Prereq/Corequisites: EEC 1309 or EEC 1201.

EEC 2220 - Language and Literacy Instruction In Early Childhood Education

3 Credit Hours
(Spring)

Study of the principles, methods, and materials used to assist young children acquire basic skills to use language effectively and competently; evaluation and development of appropriate teaching materials to use with young children.

Prerequisite(s): EEC 1309

EEC 2222 - Math and Science Instruction In Early Childhood Education

3 Credit Hours
(Spring and as needed)

Study of the basic concepts, methods, and materials of mathematics and science appropriate to the education of young children. Identification of the role of staff members in the center for the education of young children. Assignment with young children in community agencies.

Prerequisite(s): EEC 1309.

EEC 2732 - Child Nutrition, Health and Safety

3 Credit Hours
(Fall, Spring, Summer)

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

EEX 2010 - Introduction to Exceptional Children

3 Credit Hours
(Offered as needed)

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

Total Core Credits Required: 36

Total Program Credits Required: 36

CNC Machinist/Fabricator (CCC)

Admission Program of Study Code CNMM
State CIP Code 0648051002

Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS) degree (State CIP Code 1615000001).

Core Courses

ETD 2364C - SolidWorks I

3 Credit Hours
(Fall)

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric

part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

PMT 1250C - Introduction to CNC Machining

3 Credit Hours
(Fall, Spring, Summer)

The history and development of CNC (computer numerical control). Programming methods are reviewed with the emphasis of skills placed on programming, milling, drilling and turning with M and G code preparation. Manual and computer assisted programming are also reviewed. Students will program, set up and operate full size CNC machines found in our manufacturing lab. Projects will be assigned to students with an expectation of performing these tasks on manufacturing equipment.

PMT 2261C - CNC Machining I

3 Credit Hours
(Fall, Spring, Summer)

This course provides training in CNC machine operation and programming. The student will gain technical knowledge and programming methods employed in CNC machining centers. CNC Machine programming, set-up and operations are taught using computer and hands on applications. Metal fabrication processes are taught through lectures, demonstration and student generated projects. Completion of this course offers students technical skills as a CNC operator processes to be applied in various machining and fabrication industries. MasterCam–Lathe is taught to provide the student programming application in CNC machining.

Prerequisite(s): PMT 1250C or equivalent experience.

PMT 2262C - CNC Machining II

3 Credit Hours
(Fall, Spring, Summer)

This course will offer students a working knowledge of MasterCam Mill 2-D and Solidworks. This is the second class offered which teaches the student 3-D design using solidworks. An in-depth study of CAD/CAM software, CNC processing methods and the set-up of CNC machining centers. The course lectures and lab offer students hands-on applications using Solidworks generated projects processed with Mastercam tool path software to generate various projects. The student will also learn to calculate machining feeds and Speeds, edit CNC programs and part production for Mill and Lathe.

Prerequisite(s): PMT 2261C or eqivalent experience.

Total Program Credits Required: 12

Suggested Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester

CNC Machinist/Fabricator (CCC) (CNMM)
First Year **Fall Semester** ETD 2364C - SolidWorks I **3 Credit Hours** PMT 1250C - Introduction to CNC Machining **3 Credit Hours - Offered at Night Only** **Total Semester Hours: 6**
Spring Semester PMT 2261C - CNC Machining I **3 Credit Hours - Offered at Night Only** **Total Semester Hours: 3**
Second Year **Fall Semester** PMT 2262C - CNC Machining II **3 Credit Hours - Offered at Night Only** **Total Semester Hours: 3**
Total Program Hours: 12

Computer Engineering Technology (AS)

Admission Program of Study Code CENG
State CIP Code 1615120100

Students who successfully complete selected courses from this program of study may be eligible to receive the Microcomputer Repairer/Installer (CCC) (State CIP Code 0647010406) college credit certificate.

General Education

Select one course from each category; see the AS Degree General Education Requirements section of catalog for specific course listings:

- ____ ____ Communication Skills **3 Credit Hours**
- ____ ____ Humanities **3 Credit Hours**
- ____ ____ Mathematics **3 Credit Hours**
- ____ ____ Natural Sciences **3 Credit Hours**
- ____ ____ Social Sciences **3 Credit Hours**
- ____ ____ Additional General Education Credits **3 Credit Hours**

Total General Education Credits Required: 18

Core Courses

CET 2182C - PC Hardware A+

3 Credit Hours
(Spring)

This course is designed to prepare the student to take the A+ Certification exam, by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2660 - Network Security

3 Credit Hours
(Fall, Spring)

This course provides an in-depth study of network security concepts and techniques. Students examine theoretical concepts that make computer network security unique. This course provides a practical, hands-on approach when examining networking security techniques. Students examine different network strategies, explore the advancement of network implementation, and study timeless problem solving strategies. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Prerequisite(s): Knowledge of networking basic computer, and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CIS 1000 - Introduction to Computer Science

3 Credit Hours
(Fall, Spring, Summer)

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 1000 - Introduction to Programming Concepts and Logic

3 Credit Hours
(Fall, Spring, Summer)

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 1134 - Network Foundations

3 Credit Hours
(Fall)

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 1156C - Desktop Support

3 Credit Hours
(Fall)

This course introduces the helpdesk skills to troubleshoot hardware or software operation and application problems for end users on the desktop or client-side, based on the Windows operating system. It is designed to help prepare the student to take the two core exams (70-620 and 70-622) required for certification as an MCITP: Enterprise Support Technician students should have user-level competency with Windows and MS Office.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 2143C - CompTIA Server+

3 Credit Hours
(Spring)

This course provides advanced concepts in server hardware components and troubleshooting in a non-vendor-specific environment. Introduction to server installation, server storage concepts, administering services, server roles, virtualization, performance monitoring, security, data protection, and maintenance.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 21

Technical Elective Courses

Select 21 credits from the following:

CET 1600C - Networking Fundamentals

3 Credit Hours
(Fall, Spring)

This course introduces the student to the basics of Internetworking technology. This is also the first of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity, and electronics and network management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2179C - PC Operating Systems A+

3 Credit Hours
(Fall)

This course is designed to help prepare the student to take the A+ Certification exams by making the student proficient in personal computer operating systems, including Win 2000, Win XP, and Win Vista. Major topics include disk and file management, system configurations, menu driven processing, graphical user interfaces, boot files, disk caching, virtual memory, device drivers, remote assistance, and security essentials and security practices.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2615C - LAN Switching and Wireless

3 Credit Hours
(Spring)

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2620C - Accessing the WAN

3 Credit Hours
(Spring)

This course introduces the student to advanced router configurations and network design. This is also the last of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Prerequisite(s): CET 2615C isrequired. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2685C - Fundamentals of Network Security

3 Credit Hours
(Spring)

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2854C - Fundamentals of Wireless LANs

3 Credit Hours
(Offered as needed)

Develop, implement and troubleshoot wireless networks. This hands-on, skill-based course focuses on the design, planning and operation of wireless networks, with an overview of technologies, security, and design best practices. This course helps prepare the student for the CISCO Wireless Certification.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2940 - Computer Engineering Internship

1 Credit Hour
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): active enrollment in an appropriate degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to four times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
▲Technology-Across-the-Curriculum Course.

CET 2941 - Computer Engineering Internship

2 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to four times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
▲Technology-Across-the-Curriculum Course.

CET 2942 - Computer Engineering Internship

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to four times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

Computer Programmer (CCC)

Admission Program of Study Code CMPG
State CIP Code 0511020200

Students who successfully complete this certificate may be eligible to receive credits towards the Computer Programming and Analysis (AS) degree (State CIP Code 1511020101).

Core Courses

CGS 2820 - Web Design

3 Credit Hours
(Fall)

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 1000 - Introduction to Programming Concepts and Logic

3 Credit Hours
(Fall, Spring, Summer)

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2010 - Visual Basic Programming

3 Credit Hours
(Spring)

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2220 - Programming in C

3 Credit Hours
(Spring)

An introduction to C programming language using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2224 - Programming in C++

3 Credit Hours
(Spring)

An introduction to C++ programming using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2700 - Introduction to SQL

3 Credit Hours
(Spring)

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Prerequisite(s): COP 1000 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2800 - Introduction to Java Programming

3 Credit Hours
(Fall, Spring)

An introduction to programming using the Java language. Students will develop and apply individual programs.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 21

Technical Elective Courses

Select 12 credits from the following:

CIS 1940 - Internship in Computer Studies

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
▲Technology-Across-the-Curriculum Course.

COP 2011 - Advanced Applications Programming in Visual Basic

3 Credit Hours
(Summer)

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2030 - Programming In Python

3 Credit Hours
(Offered as needed)

An Introduction to Python programming language using microcomputers. Topics include Python basics, use of Python control and data structures, use of Python function, Python 110, and implementation of basic programming tasks.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2176 - Visual Basic ADO.Net

3 Credit Hours
(Offered as needed)

The aim of this course is to provide an advanced level of knowledge in database programming using Visual Basic's ADO.Net, using normalization, object and relational types, modeling, data validation, and structured query language (SQL) in creating database applications.

Prerequisite(s): COP 2010 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s): CGS 2544, COP 2011.

▲Technology-Across-the-Curriculum Course.

COP 2222 - Advanced Programming in C

3 Credit Hours
(Offered as needed)

An advanced exploration of the C programming language using microcomputers.

Prerequisite(s): COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2228 - Advanced Programming in C++

3 Credit Hours
(Summer)

An advanced exploration of the C++ programming language using microcomputers.

Prerequisite(s): COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2360 - Programming in C Sharp (C#)

3 Credit Hours
(Offered as needed)

An introduction to the C# programming language using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2362 - Advanced Programming in C Sharp (C#)

3 Credit Hours
(Offered as needed)

This hands-on course examines how to utilize advanced features in the .NET Framework using the C# programming language, in order to build sophisticated applications. Students will work with advanced object-oriented programming topics, including inheritance, partial classes and generics.

Prerequisite(s):

COP 2360 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

3 Credit Hours
(Offered as needed)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2660 - Programming for Mobile Devices: Android

3 Credit Hours
(Offered as needed)

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2702 - Introduction to PL-SQL

3 Credit Hours
(Offered as needed)

An introduction to PL-SQL and the design and creation of object-oriented databases (using PL-SQL). Topics include storing, retrieving, updating and displaying data using PL-SQL and Oracle.

Prerequisite(s): COP 1000 and CTS 2440 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2805 - Advanced Java Programming

3 Credit Hours
(Spring)

An advanced level programming course using advanced Java techniques.

Prerequisite(s): COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2833 - Databasing for Internet Applications

3 Credit Hours
(Offered as needed)

This course will expose students to basic relational database concepts used in web programming, including structuring data and making queries.

Prerequisite(s): CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s): CGS 2820

▲Technology-Across-the-Curriculum Course.

COP 2840 - Web-based Programming I

3 Credit Hours
(Spring)

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Technical Elective Credits Required: 12

Total Program Credits Required: 33

Total General Education Credits Required: 18

Core Courses

CGS 2820 - Web Design

3 Credit Hours
(Fall)

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 1000 - Introduction to Programming Concepts and Logic

3 Credit Hours
(Fall, Spring, Summer)

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2010 - Visual Basic Programming

3 Credit Hours
(Spring)

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2220 - Programming in C

3 Credit Hours
(Spring)

An introduction to C programming language using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2224 - Programming in C++

3 Credit Hours
(Spring)

An introduction to C++ programming using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2700 - Introduction to SQL

3 Credit Hours
(Spring)

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Prerequisite(s): COP 1000 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2800 - Introduction to Java Programming

3 Credit Hours
(Fall, Spring)

An introduction to programming using the Java language. Students will develop and apply individual programs.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2805 - Advanced Java Programming

3 Credit Hours
(Spring)

An advanced level programming course using advanced Java techniques.

Prerequisite(s): COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

MAD 2104 - Introduction to Discrete Mathematics

3 Credit Hours
(Fall)

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a grade of "C" or better in MAC 1140. A course in programming is recommended.

Total Core Credits Required: 27

Technical Elective Courses

Select 15 credits from the following:

CGS 2541 - Introduction to Database Concepts

3 Credit Hours
(Fall)

This course will provide an introduction to data modeling and the design and implementation of relational databases and extend the students' understanding of the principles and techniques used in the design and implementation of modern database systems.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CIS 1000 - Introduction to Computer Science

3 Credit Hours
(Fall, Spring, Summer)

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CIS 1940 - Internship in Computer Studies

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
▲Technology-Across-the-Curriculum Course.

COP 2011 - Advanced Applications Programming in Visual Basic

3 Credit Hours
(Summer)

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2030 - Programming In Python

3 Credit Hours
(Offered as needed)

An Introduction to Python programming language using microcomputers. Topics include Python basics, use of Python control and data structures, use of Python function, Python 110, and implementation of basic programming tasks.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2176 - Visual Basic ADO.Net

3 Credit Hours
(Offered as needed)

The aim of this course is to provide an advanced level of knowledge in database programming using Visual Basic's ADO.Net, using normalization, object and relational types, modeling, data validation, and structured query language (SQL) in creating database applications.

Prerequisite(s): COP 2010 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s): CGS 2544, COP 2011.

▲Technology-Across-the-Curriculum Course.

COP 2222 - Advanced Programming in C

3 Credit Hours
(Offered as needed)

An advanced exploration of the C programming language using microcomputers.

Prerequisite(s): COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2228 - Advanced Programming in C++

3 Credit Hours
(Summer)

An advanced exploration of the C++ programming language using microcomputers.

Prerequisite(s): COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2360 - Programming in C Sharp (C#)

3 Credit Hours
(Offered as needed)

An introduction to the C# programming language using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2362 - Advanced Programming in C Sharp (C#)

3 Credit Hours
(Offered as needed)

This hands-on course examines how to utilize advanced features in the .NET Framework using the C# programming language, in order to build sophisticated applications. Students will work with advanced object-oriented programming topics, including inheritance, partial classes and generics.

Prerequisite(s):

COP 2360 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

3 Credit Hours
(Offered as needed)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2660 - Programming for Mobile Devices: Android

3 Credit Hours
(Offered as needed)

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2702 - Introduction to PL-SQL

3 Credit Hours
(Offered as needed)

An introduction to PL-SQL and the design and creation of object-oriented databases (using PL-SQL). Topics include storing, retrieving, updating and displaying data using PL-SQL and Oracle.

Prerequisite(s): COP 1000 and CTS 2440 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2833 - Databasing for Internet Applications

3 Credit Hours
(Offered as needed)

This course will expose students to basic relational database concepts used in web programming, including structuring data and making queries.

Prerequisite(s): CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s): CGS 2820

▲Technology-Across-the-Curriculum Course.

COP 2840 - Web-based Programming I

3 Credit Hours
(Spring)

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Technical Elective Credits Required: 15

Total Program Credits Required: 60

Suggested Two Year Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Computer Programming and Analysis (AS) (CPRO)	Companion Certificates*

State CIP Code 0511020103

Students who successfully complete this certificate may be eligible to receive credits towards the Computer Programming and Analysis (AS) degree (State CIP Code 1511020101).

Core Courses

CGS 2820 - Web Design

3 Credit Hours
(Fall)

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 1000 - Introduction to Programming Concepts and Logic

3 Credit Hours
(Fall, Spring, Summer)

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2224 - Programming in C++

3 Credit Hours
(Spring)

An introduction to C++ programming using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2800 - Introduction to Java Programming

3 Credit Hours
(Fall, Spring)

An introduction to programming using the Java language. Students will develop and apply individual programs.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 12

Technical Elective Courses

Select 6 credits from the following:

CIS 1000 - Introduction to Computer Science

3 Credit Hours
(Fall, Spring, Summer)

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CIS 1940 - Internship in Computer Studies

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved

projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
▲Technology-Across-the-Curriculum Course.

COP 2010 - Visual Basic Programming

3 Credit Hours
(Spring)

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2011 - Advanced Applications Programming in Visual Basic

3 Credit Hours
(Summer)

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2220 - Programming in C

3 Credit Hours
(Spring)

An introduction to C programming language using microcomputers.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly

recommended.

▲Technology-Across-the-Curriculum Course.

COP 2222 - Advanced Programming in C

3 Credit Hours
(Offered as needed)

An advanced exploration of the C programming language using microcomputers.

Prerequisite(s): COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2228 - Advanced Programming in C++

3 Credit Hours
(Summer)

An advanced exploration of the C++ programming language using microcomputers.

Prerequisite(s): COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

3 Credit Hours
(Offered as needed)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2660 - Programming for Mobile Devices: Android

3 Credit Hours
(Offered as needed)

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Prerequisite(s): COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2700 - Introduction to SQL

3 Credit Hours
(Spring)

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Prerequisite(s): COP 1000 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2805 - Advanced Java Programming

3 Credit Hours
(Spring)

An advanced level programming course using advanced Java techniques.

Prerequisite(s): COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 2840 - Web-based Programming I

3 Credit Hours
(Spring)

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Technical Elective Credits Required: 6

Total Program Credits Required: 18

Suggested Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Computer Programming Specialist (CCC) (CMPS)

Computer-Aided Design and Drafting (CCC)

Admission Program of Study Code CADD
State CIP Code 0615130304

Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Digital Design & Modeling Specialization Option (AS) degree (State CIP Code 1615000001).

Core Courses

ETD 1320C - AutoCAD I

3 Credit Hours
(Fall, Spring, Summer)

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

3 Credit Hours
(Fall, Spring, Summer)

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands,

advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Prerequisite(s): ETD 1320C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 1355C - AutoCAD 3-D Modeling I

3 Credit Hours
(Fall, Spring)

A basic course in mechanical design using basic computer geometry techniques. Topics will include: orthographic projections, space relationships of points, lines, planes and revolution of objects. Additional coverage will include principles of surface generation, intersections, wire modeling, and solid modeling techniques.

Prerequisite(s): ETD 1340C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 2350C - AutoCAD III

3 Credit Hours
(Fall, Spring, Summer)

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Prerequisite(s): ETD 1340C.

▲Technology-Across-the-Curriculum Course.

ETD 2357C - Inventor I

3 Credit Hours
(Spring)

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2358C - Inventor II

3 Credit Hours
(Summer)

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using Inventor Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools,

advanced constraints, motion simulation, adaptive technology and drawing presentation.

Prerequisite(s): ETD 2357C.

▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

3 Credit Hours
(Fall)

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2368C - SolidWorks II

3 Credit Hours
(Spring)

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Prerequisite(s): ETD 2364C or higher or equivalent.

▲Technology-Across-the-Curriculum Course.

Total Program Credits Required: 24

Suggested Academic Plan

Total General Education Credits Required: 18

Core Courses

ETD 1102 - Introduction to Technical Drawing

3 Credit Hours
(Spring, Summer, Fall)

A course in the fundamental principles of the graphic language (the language of industry) and is developed for

students without previous mechanical drawing experience. Topics include: use and care of instruments, lettering, geometric construction, multiview projection, sketching techniques, inking, and methods of reproduction.

ETD 1217 - Fundamentals of Dimensioning and Tolerancing

4 Credit Hours
(Fall, Spring)

A course designed to help students develop the basic fundamentals of dimensioning and tolerancing. Topics include: dimensioning systems such as; metric, decimal, fractional-inch, foot and inch, tolerancing methods, limits and tolerances, tolerancing accumulation, dimensioning practices, and standards fits.

ETD 1320C - AutoCAD I

3 Credit Hours
(Fall, Spring, Summer)

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

3 Credit Hours
(Fall, Spring, Summer)

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands, advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Prerequisite(s): ETD 1320C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 1355C - AutoCAD 3-D Modeling I

3 Credit Hours
(Fall, Spring)

A basic course in mechanical design using basic computer geometry techniques. Topics will include: orthographic projections, space relationships of points, lines, planes and revolution of objects. Additional coverage will include principles of surface generation, intersections, wire modeling, and solid modeling techniques.

Prerequisite(s): ETD 1340C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 2350C - AutoCAD III

3 Credit Hours
(Fall, Spring, Summer)

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Prerequisite(s): ETD 1340C.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 19

Technical Elective Courses

Select 25 credits from the following:

ETD 1112 - Mechanical Drafting I

4 Credit Hours
(Offered as needed)

The second of a sequence of courses in drafting which includes basic use of instruments, freehand lettering, geometric construction, orthographic projection, sections and conventional revolutions, dimensioning, inking, mechanical lettering, methods of reproduction, and developing computer-aided drafting skills.

Prerequisite(s): ETD 1102 and ETD 1320C or equivalent

ETD 2150 - Industrial Print Reading

3 Credit Hours
(Fall, Spring, Summer)

The beginning level aspects of reading industrial prints such as drawing notes, title blocks, revision blocks, legends, schedules, multiviews, and parts list.

ETD 2218 - Geometric Dimensioning and Tolerancing

4 Credit Hours
(Fall, Summer)

An introductory course in geometric dimensioning and tolerancing using the geometric method nationally accepted according to ASMEY 14.5M. Topics covered include: definition and terms, symbols, datum referencing, locational tolerancing, form tolerancing, profile tolerancing, orientation and runout tolerancing, and math for positional tolerancing.

Prerequisite(s): ETD 1217 or equivalent.

ETD 2357C - Inventor I

3 Credit Hours
(Spring)

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

3 Credit Hours
(Fall)

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2368C - SolidWorks II

3 Credit Hours
(Spring)

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Prerequisite(s): ETD 2364C or higher or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 2371C - 3D Printing I

3 Credit Hours
(Fall, Spring, Summer)

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Prerequisite(s): ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2731 - Mechanical Drafting II

4 Credit Hours
(Offered as needed)

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary

views, related mathematics, precision dimensioning developing computer-aided drafting skills.

Prerequisite(s): ETD 1112 or equivalent.

ETD 2735 - Mechanical Drafting III

4 Credit Hours
(Offered as needed)

A course that continues and completes the student's study of the fundamentals intrinsic to all types of drafting. Topics covered include: isometric, diametric, trimetric, oblique, and perspective projection, descriptive geometry, auxiliary views, related mathematics, and precision dimensioning developing computer-aided drafting skills.

Prerequisite(s): ETD 2218 and ETD 2731 or equivalent.

Total Technical Elective Credits Required: 25

Total Program Credits Required: 62

Suggested Two Year Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Computer-Aided Drafting and Design - Mechanical Design Option (AS) (CAD)	Companion Certificate*	
First Year	CATD	ACAT

Computer-Aided Drafting and Design - Technical Illustration Option (AS)

Admission Program Objective Code CADI
State CIP Code 1615130102

The purpose of this program is to prepare students for employment as technical illustrators. Technical illustrators are typically responsible for 2D and 3D illustrations for use in technical documents and service manuals. Technical

illustrators work in conjunction with engineers and technical writers to gather information that would be conveyed into technical drawings. Drawing software can include AutoCAD, Inventor, Solidworks, Isodrraw, PhotoShop, Illustrator or other software.

Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificates in Computer-Aided Technical Design Certificate (CCC) (State CIP Code 0615130204).

General Education

- ____ ____ Communication Skills **3 Credit Hours**
- ____ ____ Humanities **3 Credit Hours**
- ____ ____ Mathematics **3 Credit Hours**
- ____ ____ Natural Sciences **3 Credit Hours**
- ____ ____ Social Sciences **3 Credit Hours**
- ____ ____ Additional General Education Credits **3 Credit Hours**

Total General Education Credits Required: 18

Core Courses

ETD 1102 - Introduction to Technical Drawing

3 Credit Hours
(Spring, Summer, Fall)

A course in the fundamental principles of the graphic language (the language of industry) and is developed for students without previous mechanical drawing experience. Topics include: use and care of instruments, lettering, geometric construction, multiview projection, sketching techniques, inking, and methods of reproduction.

ETD 1217 - Fundamentals of Dimensioning and Tolerancing

4 Credit Hours
(Fall, Spring)

A course designed to help students develop the basic fundamentals of dimensioning and tolerancing. Topics include: dimensioning systems such as; metric, decimal, fractional-inch, foot and inch, tolerancing methods, limits and tolerances, tolerancing accumulation, dimensioning practices, and standards fits.

ETD 1320C - AutoCAD I

3 Credit Hours
(Fall, Spring, Summer)

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

▲Technology-Across-the-Curriculum Course.

ETD 1340C - AutoCAD II

3 Credit Hours
(Fall, Spring, Summer)

The second course in a series designed to develop skill and proficiency in the use of AutoCAD software to include: additional drawing commands, editing commands, modify commands, advanced display and inquiry commands, advanced dimensioning and annotation, advanced layering, block, attributes and X-Ref, paper space, UCS, data exchange and output files.

Prerequisite(s): ETD 1320C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 1355C - AutoCAD 3-D Modeling I

3 Credit Hours
(Fall, Spring)

A basic course in mechanical design using basic computer geometry techniques. Topics will include: orthographic projections, space relationships of points, lines, planes and revolution of objects. Additional coverage will include principles of surface generation, intersections, wire modeling, and solid modeling techniques.

Prerequisite(s): ETD 1340C or equivalent.

▲Technology-Across-the-Curriculum Course.

ETD 2350C - AutoCAD III

3 Credit Hours
(Fall, Spring, Summer)

An advanced course designed to help students develop proficiency in the area of computer aided drafting and systems drafting. Topics covered include: transfer drawings, digitized drawings, explanatory drawings, multiview projections, exploded assemblies, pictorial drawings, auxiliary views, sections, details, geometric dimensioning and tolerancing, and CADD concepts.

Prerequisite(s): ETD 1340C.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 19

Technical Elective Courses

ART 2602C - Digital Imaging I

4 Credit Hours
(Offered as needed)

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings

with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

▲Technology-Across-the-Curriculum Course.

ART 2603C - Digital Imaging II

4 Credit Hours
(Offered as needed)

A continuing course which expands upon the technical and conceptual foundation laid in Digital Imaging I. Students will explore advanced software techniques and greater challenges of personal or commercial expression in digital media. Access to an appropriate high quality digital camera required.

Prerequisite(s): ART 2602C, PGY 1801C.

▲Technology-Across-the-Curriculum Course.

ETD 1801C - Technical Illustration

3 Credit Hours
(Fall)

The purpose of this course is to help students develop the skills, knowledge, and attitudes necessary to be job entry-level qualified as technical illustrators.

Prerequisite(s): ETD 1112 or EGN 1130C, and ETD 1340C.

▲Technology-Across-the-Curriculum Course.

ETD 2357C - Inventor I

3 Credit Hours
(Spring)

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

3 Credit Hours
(Fall)

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2371C - 3D Printing I

3 Credit Hours
(Fall, Spring, Summer)

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Prerequisite(s): ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2377C - 3D Studio Max I

3 Credit Hours
(Offered as needed)

Course is designed to use 3D Studio in rendering, and animation as a dynamic visualization tool for AutoCAD design images. Upon completion of this course, the user will be able to navigate through the modules of the program, model simple projects, set up scenes for rendering and animation, assign materials to objects, and define simple motion paths, input and output techniques.

Prerequisite(s): ETD 1355C or equivalent.

ETD 2802C - Technical Illustration II

3 Credit Hours
(Spring)

The purpose of this course is to help students develop advanced skills, knowledge, and attitudes necessary as technical illustrators, to include oblique, and axiometric projections, perspective and exploded pictorial drawings, and related techniques.

Prerequisite(s): ETD 1340C or equivalent.

GRA 1151C - Illustration I

3 Credit Hours
(Offered as needed)

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

▲Technology-Across-the-Curriculum Course.

GRA 1152C - Illustration II

3 Credit Hours
(Offered as needed)

An advanced graphic design course building upon the skills covered in Illustration I; the course includes increased challenges relating to conceptual skills and multi-software integration relating to typical print-based design problems.

Access to an appropriate high quality digital camera is required.

Prerequisite(s): GRA 1151C.

▲Technology-Across-the-Curriculum Course.

Total Technical Elective Credits Required: 25

Total Program Credits Required: 62

Correctional Officer (Basic) (PSAV)

Admission Program of Study Code CORR
State CIP Code 0743010200

Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Core Courses

CJK 0300 - Introduction to Corrections

33 Clock Hours
(Offered as needed)

This course introduces students to the legal and ethical responsibilities of a correctional officer. Legal terms and definitions are explained. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0305 - CJSTC Communications

42 Clock Hours
(Offered as needed)

This course covers the entire report writing process. Topics include interview and interrogation, interpersonal communication, and practical exercises. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0310 - Officer Safety

12 Clock Hours
(Offered as needed)

Correctional officer safety procedures are learned. Students will learn to identify potential hazards and learn how to safely respond. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0315 - Facility and Equipment

12 Clock Hours
(Offered as needed)

Students learn the appropriate procedures for inspecting a correctional facility and equipment. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0320 - Intake and Release

18 Clock Hours
(Offered as needed)

Students learn the appropriate procedures for admitting and releasing inmates in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0325 - Supervising in a Correctional Facility

42 Clock Hours
(Offered as needed)

Students learn the appropriate procedures for supervising inmates in a correctional facility. They also learn to detect crimes and rule violations in various correctional facility settings. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0330 - Supervising Special Populations

21 Clock Hours
(Offered as needed)

Students learn how to identify and supervise special population groups, such as threat groups, juveniles, elderly, and mentally ill inmates. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0335 - Responding to Incidents and Emergencies

18 Clock Hours
(Offered as needed)

Students learn how to identify and respond to situations involving escapes, riots, bomb threats, fires, and medical emergencies in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Defensive Tactics

81 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - CMS Firearms

81 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement/Corrections Florida CMS Basic Recruit Academy. This course is designed to give the student basic skills and knowledge needed to safely operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Law Enforcement Florida CMS or Corrections Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0031 - CMS First Aid for Criminal Justice Officers

48 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0340 - Corrections PSAV Physical Fitness

30 Clock Hours
(Offered as needed)

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 438

Suggested Academic Plan

This program admits students in the fall/spring/summer. Below is a sample academic plan for these students in this clock hour program.

Total General Education Credits Required: 18

Core Courses

CCJ 1010 - Introduction to Criminology

3 Credit Hours
(Spring)

A study of the nature and causes of crime and delinquency; the development of delinquent and criminal behavior; theory development in criminology, crime rates and trends, victimology and particular crime pattern areas.

CCJ 1020 - Introduction to Criminal Justice

3 Credit Hours
(Fall)

An introduction to the philosophical and historical background of law enforcement and the administration of criminal

justice. Organization and jurisdiction of local, state, and federal law enforcement agencies, court and criminal procedures, career opportunities in the Criminal Justice field are also covered.

CJC 2000 - Introduction to Corrections

3 Credit Hours
(Fall)

Theories of punishment and incarceration; the organization of correction programs and institutions, principles of probation and parole, role of parole and probation officers, legal implications; and problems of rehabilitation are covered. This course may be used in transfer to UWF and may be accepted at other upper division schools. Students should consult the department for program planning.

CJE 2300 - Police Administration and Organization

3 Credit Hours
(Fall, Spring, Summer)

This course presents the principles of organization and administration in law enforcement including functions and activities, planning and research, public relations, personnel and training, inspection and control, records and communications and custody.

CJL 1100 - Criminal Law

3 Credit Hours
(Fall)

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

CJL 1400 - Criminal Procedure

3 Credit Hours
(Spring)

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

CJL 2500 - Courts and the Judicial Process

3 Credit Hours
(Fall)

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Total Core Credits Required: 21

Technical Elective Courses

Select 21 credits from the following:

BUL 2241 - Business Law I

3 Credit Hours
(Fall, Spring)

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

CCJ 1941 - Internship – Criminal Justice

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Permission of the instructor

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

CCJ 2509 - Introduction to Gangs and Crime

3 Credit Hours
(Fall, Spring, Summer)

This course provides students with an overview of street gangs, the social factors, and the general classifications necessary for the law enforcement, corrections, and public safety professional. This course explores the history, membership, activity, current trends, and influence of street gangs. Students will be challenged to define community-based solutions and strategies to combat the criminal activity associated with street gangs.

CCJ 2934 - Special Topics in Criminal Justice

2 Credit Hours
(Fall, Spring, Summer)

This course centers around topics of current interest or of special interest to students or instructors. Topics or focus may vary from semester to semester.

*This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

CJE 1642C - Introduction to Crime Scene Technology

3 Credit Hours
(Fall, Spring, Summer)

This course explains and discusses the principals and theories in crime scene technology. The course covers specialized collection procedures for biological evidence, weapons, traffic crash evidence, arson evidence, gunshot residue, blood splatter and bodies.

CJE 1735 - Unmanned Vehicle Legal Requirements and Case Law

3 Credit Hours
(Fall)

This course examines the legal requirements and limits of drone operation by law enforcement. The course will also introduce the student to case studies, guidelines, laws, and protocols for law enforcement operations in contrast to use by private citizens. Additionally, this case will examine and define expectations of privacy, based on case law as set forth by the United States Supreme Court. Case studies and Supreme Court decisions from the last century based on the fourth amendment and due process of law, will be studied for class projects. Each student will be required to submit a research paper on a specific related topic as assigned by the instructor.

CJE 2330 - Ethics in Criminal Justice

3 Credit Hours
(Fall, Spring, Summer)

This course is a detailed exploration of ethical issues in Criminal justice with special emphasis on morality and the law, human behavior, and ethical decision making in law enforcement, corrections and the courts.

CJE 2400 - Police and Community Relations

3 Credit Hours
(Fall, Spring, Summer)

A study of the relationship of the Justice Administration agencies to the surrounding community. Examines the effect of social change and the consequences that it produces upon law enforcement, corrections, and the courts.

CJE 2600 - Criminal Investigations

3 Credit Hours
(Offered as needed)

Fundamentals of investigation; duties and responsibilities of the detective; interrogation techniques; search and techniques of protecting the crime scene; collection and preservation of evidence; modus operandi systems; scientific aids and other sources of information; court preparation and case follow-up.

CJE 2736 - Law Enforcement Applications of Unmanned Vehicles for 21st Century

3 Credit Hours
(Fall)

This course will introduce students to current law enforcement uses and abilities of unmanned vehicle systems, along with new and developing applications for exclusive use in law enforcement actions. Students will understand and explain the definitions of privacy expectations as related to law enforcement actions governed by the fourth amendment. Students will be required to participate in a course project, in which students will develop, justify and define futuristic uses on drone technologies in the law enforcement field. In this team project, a presentation is required to defend the positions and uses of drone technologies as related in the project results.

CJJ 1002 - Juvenile Delinquency

3 Credit Hours
(Offered as needed)

A study of the nature and cause of juvenile delinquency, the development of the delinquent and criminal behavior, specific criminal justice subsystem (law enforcement, judicial, corrections) problems dealing with juvenile delinquents from initial contact through final disposition and treatment. This course may be used in transfer to UWF and may be accepted at other upper division schools. Students should consult the department for program planning.

CJL 2130 - Criminal Evidence and Procedure

3 Credit Hours
(Fall, Spring, Summer)

This course provides students with an overview of criminal procedure particularly applied to search and seizure and evaluation of evidence.

FFP 1801 - Introduction to Emergency Management Administration

3 Credit Hours
(Offered as needed)

This course will discuss emergency management practices and how they relate to natural and man-made disasters. It is designed to help the student develop an understanding of overall emergency management principles, practices, and standards in the local, national, and international environments.

FFP 2820 - Emergency Preparedness

3 Credit Hours
(Offered as needed)

This course teaches all aspects of emergency preparedness and planning related to natural and man-made disasters, and basic principles of emergency management. Planning concepts and the planning process will be discussed.

PLA 1005 - Legal Terminology

3 Credit Hours
(Offered as Needed)

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

3 Credit Hours
(Offered as Needed)

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for students seeking careers in legal secretary technology or legal assisting.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

3 Credit Hours
(Spring)

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court systems of the various states and the federal government in a non-criminal setting.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

SLS 1101 - College Success

3 Credit Hours
(Fall, Spring, Summer)

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

SYG 2010 - Social Problems

3 Credit Hours ❖ ¶
(Fall, Spring, Summer)

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

❖ Courses listed with this symbol have an **international and/or diversity focus** and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet **writing requirements** outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Culinary Arts (CCC)

Admission Program of Study Code: CULA

State CIP Code 0612050301

Students who successfully complete this certificate may be eligible to receive credits towards the Culinary Management (AS) degree (State CIP Code 1252090101).

Core Courses

FOS 2201 - Food Service Sanitation Management

3 Credit Hours
(Offered as Needed)

This course acquaints students with the Food and Drug Administration's Food Code as well as the challenges and opportunities facing hospitality managers in the area of sanitation management. The class presents a systems approach to sanitation management, utilizing the Hazard Analysis Control Point Program (HACCP), and provides a basic understanding of quality sanitation management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1001 - Culinary Techniques

3 Credit Hours
(Fall)

Emphasis in this course will be placed on the basic methods and chemistry of cooking. Students study ingredients, cooking, theories, terminology, equipment, technology, weights and measures, formula conversions and work on cooking skills and procedures.

Prerequisite(s): FOS 2201

FSS 1120 - Food and Beverage Purchasing

3 Credit Hours
(Offered as Needed)

Students will learn the fundamentals involved in purchasing food and beverages in quantity. The course emphasizes standardizing, grading and estimating, selecting, receiving and storing foods and beverages, as well as the practical application in writing specifications and in developing purchasing techniques.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 1202L - Food Production I

3 Credit Hours
(Fall)

Students will acquire knowledge and skill in the preparation of food. Included are basic principles and techniques of food preparation, management of resources, use of recipes, use and care of equipment, and evaluation of food products. The course emphasizes safety and sanitation practices.

Prerequisite(s): FOS 2201

FSS 1221L - Food Production II

3 Credit Hours
(Fall)

Students will focus on the knowledge and preparation of meats, poultry, seafood, as well as starches, fruits and vegetables. Students will learn to prepare menus for special dietary needs. This course will utilize all dry and moist methods of cooking. Menu selection and balance will be studied. The course emphasizes safety and sanitation procedures.

Prerequisite(s): FSS 1202L

FSS 1246L - Baking and Pastries I

3 Credit Hours
Students apply the fundamentals of baking science and pastry preparation to produce a variety of bread products and pastries. Special emphasis is given to the application of advanced techniques in bakery management and the use and care of equipment found in bake shops. Preparation of breads and rolls, classical cakes and icings. Student must pass written and practical baking examination covering a variety of techniques and procedures.

Prerequisite(s): FOS 2201

FSS 2100 - Food Plans and Menu Preparation

3 Credit Hours
(Fall)

Emphasizes the preparation of a nutritionally balanced cycle menu, portion control, use of leftovers and waste control. Students will study and prepare menus supporting the various food service and beverage industries.

FSS 2242L - International and Regional Cuisine

3 Credit Hours
(Fall)

Emphasis is placed on learning to use various condiments and seasonings that are indigenous to different parts of the world in food preparation. Topics may include Far East cuisine, Middle Eastern, Mediterranean, North African cuisine, Continental cuisine. Lectures, demonstrations and preparations will also cover American regional cooking. Student must successfully pass written and practical examination covering a variety of cooking techniques.

Prerequisite(s): FSS 1221L

FSS 2251 - Food and Beverage Management

3 Credit Hours
(Fall)

An application of principles in commercial and institutional food and beverage facilities including marketing, menu development, effective cost control in purchasing, pricing, labor and service technique. Procedure, approaches and techniques of management are explored and developed as they relate to commercial and institutional food and beverage facilities and personnel.

FSS 2500 - Food and Beverage Cost Control

3 Credit Hours
(Fall)

Emphasis given to methods of menu pricing, systems of controlling and accounting for food and beverage costs and methods of controlling sales income, through cost control systems.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

FSS 2942 - Culinary Internship

3 Credit Hours
(Fall)

The Program Director has the discretion to provide override approval as it relates to the waiver of required program/discipline-related courses. This course provides a planned work-based experience that will provide students with an opportunity to fine-tune skills learned in coursework and enhance workplace skills through supervised practical experiences related to their career

objectives. Internship requires a minimum of 135 clock hours of work. May be repeated for credit, but grade forgiveness cannot be applied.

Prerequisite(s): Satisfactory completion of all General Education Classes, a minimum 2.0 institutional or overall GPA; and complete FSS 1202L , HFT 1000 , and FSS 1221L with a grade of "D" or better.

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Program Credits Required: 36

Culinary Arts Management Operations (CCC)

Admission Program of Study Code: CULM

State CIP Code 0612050401

Students who successfully complete this certificate may be eligible to receive credits towards the Culinary Management (AS) degree (State CIP Code 1252090101).

Students will acquire knowledge and skill in the preparation of food. Included are basic principles and techniques of food preparation, management of resources, use of recipes, use and care of equipment, and evaluation of food products. The course emphasizes safety and sanitation practices.

Prerequisite(s): FOS 2201

FSS 2240L - Classical Cuisine

3 Credit Hours
(Fall)

Students prepare and learn the skills and management theories involved in classical dishes. Concentration is on the basics of classical cuisine, such as stocks, soups, and sauces. Attention is given to the management tasks of portion control, costing and presentation. Special emphasis is given to classics such as emulsion sauces, thickening agents, and sauces derived from the Mother sauces. Student must successfully pass written and practical examination covering a variety of techniques and procedures.

Prerequisite(s): FSS 1221L

FSS 2251 - Food and Beverage Management

3 Credit Hours
(Fall)

An application of principles in commercial and institutional food and beverage facilities including marketing, menu development, effective cost control in purchasing, pricing, labor and service technique. Procedure, approaches and techniques of management are explored and developed as they relate to commercial and institutional food and beverage facilities and personnel.

FSS 2284 - Catering, Banquet and Event Management

3 Credit Hours
(Fall)

Students will be taught the logistics of preparation, production, transportation, and implementation of the catered event, including analysis of typical banquet/event contracts. Students learn to determine cost of the project. Emphasis is given to menu planning for various types of banquets, theme buffets, and physical management of floor lay-out and table setup. Training techniques for supervisors in dining room and banquet service is practiced. Development of stewarding and production checklists is practiced.

HFT 1000 - Introduction to Hospitality Management

3 Credit Hours
(Fall)

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Core Courses

CGS 1100 - Microcomputer Applications

3 Credit Hours ▲
(Fall, Spring)

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Prerequisite(s): none

▲ Courses listed with this symbol address NWFSC's **Technology-Across-the Curriculum** student learning outcome, namely that all associate degree graduates are competent in basic technology use.

or

CGS 1570 - Computer Applications for Business

3 Credit Hours
(Fall, Spring)

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

ENC 2210 - Technical Report Writing

3 Credit Hours
(Spring)

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Prerequisite(s): passing score on placement test.

MAR 2011 - Introduction to Marketing

3 Credit Hours
(Fall)

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

3 Credit Hours
(Fall)

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

3 Credit Hours
(Spring)

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

3 Credit Hours
(Fall)

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2430 - Business Ethics

3 Credit Hours
(Fall)

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

3 Credit Hours
(Spring)

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Prerequisite(s): OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

3 Credit Hours
(Fall, Spring)

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles.

A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2013 - Economics I

3 Credit Hours ♦
(Fall, Spring)

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

Total Core Credits Required: 30

Technical Elective Courses

Select 12 credits from the following:

BUL 2241 - Business Law I

3 Credit Hours
(Fall, Spring)

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1550 - Introduction to World Wide Web

3 Credit Hours
(Fall)

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World Wide Web and the Internet.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

GEB 1940 - Internship - Business

3 Credit Hours
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing

skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

(can be completed two times for credit)

MAN 2021 - Management

3 Credit Hours
(Fall)

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

3 Credit Hours
(Spring)

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

3 Credit Hours
(Spring)

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

3 Credit Hours
(Fall)

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Prerequisite(s): completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 12

Total Program Credits Required: 60

Suggested Two-Year Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Customer Relationship Management (AS) (CUST)
First Year
Fall Semester CGS 1100 - Microcomputer Applications **3 Credit Hours ▲** or CGS 1570 - Computer Applications for Business **3 Credit Hours** ECO 2013 - Economics I **3 Credit Hours ♦** ENC 1101 - English Composition I **3 Credit Hours ♦ ▲ ¶** GEB 1011 - Introduction to Business **3 Credit Hours** Humanities General Education **3 Credit Hours** **Total Semester Hours: 15**
Spring Semester OST 2401 - General Office Management **3 Credit Hours** Mathematics General Education **3 Credit Hours** Natural Science General Education **3 Credit Hours** Additional General Education Credits **3 Credit Hours** Technical Elective **3 Credit Hours**

Total Semester Hours: 15
Second Year
Fall Semester GEB 2430 - Business Ethics **3 Credit Hours** MAR 2011 - Introduction to Marketing **3 Credit Hours** MNA 1161 - Customer Service **3 Credit Hours** Social Science General Education **3 Credit Hours** Technical Elective **3 Credit Hours** **Total Semester Hours: 15**
Spring Semester MNA 2100 - Organizational Behavior **3 Credit Hours** OST 2335 - Business Communications **3 Credit Hours** ENC 2210 - Technical Report Writing **3 Credit Hours** Technical Elective **3 Credit Hours** Technical Elective **3 Credit Hours** **Total Semester Hours: 15**
Total Program Hours: 60

Cyber Security (AS)

Core Courses

CAP 2134C - Database Security

3 Credit Hours
(Spring)

This course is designed to provide the student with an understanding of database security concepts and practices. The objective of the course is to provide hands-on instruction in various database tasks that relate to securing the confidentiality, integrity and availability of information that is stored in a database. The student will be able to perform administrative tasks in different database management systems, as well as manage database user profiles, privileges, and roles. Different database application security models will be explored, as will the security advantages of utilizing virtual private databases. Finally, the process of database auditing will be explored, including auditing methods using various database management systems.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites: CET 2660

▲Technology-Across-the-Curriculum Course.

CET 2660 - Network Security

3 Credit Hours
(Fall, Spring)

This course provides an in-depth study of network security concepts and techniques. Students examine theoretical concepts that make computer network security unique. This course provides a practical, hands-on approach when examining networking security techniques. Students examine different network strategies, explore the advancement of network implementation, and study timeless problem solving strategies. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Prerequisite(s): Knowledge of networking basic computer, and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2880C - Digital Forensics Fundamentals

3 Credit Hours
(Spring)

This course offers a solid foundation to computer forensics investigations: preparing students to acquire and analyze digital evidence. the course covers tools and techniques and explains topics such as file structure, data recovery, e-mail and network investigations, and expert witness testimony. In addition, the student will gain practical knowledge in conducting digital investigations and preserving digital evidence that maybe used in court or corporate inquiries.

Prerequisite(s): CTS 1134 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CGS 2541 - Introduction to Database Concepts

3 Credit Hours
(Fall)

This course will provide an introduction to data modeling and the design and implementation of relational databases and extend the students' understanding of the principles and techniques used in the design and implementation of modern database systems.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CIS 2352C - Ethical Hacking Fundamentals

3 Credit Hours
(Fall)

This course is designed to provide the student with an understanding of the techniques and methodologies of security penetration testing. This course provides hands-on instruction using the various tools and methods that security professionals use to analyze an information system in order to discover vulnerabilities and protect against information loss, cyber-terrorism, and corporate espionage. The student will be introduced to fundamental security testing concepts, gain practical knowledge of computer programming, learn how to properly document a security test, and explore the legal and ethical ramifications of penetration testing. Students will also learn how to apply the appropriate countermeasures in order to reduce the risk that an organization faces.

Prerequisite(s): CTS 1134 is required. Knowledge of networking, basic computer, and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

COP 1000 - Introduction to Programming Concepts and Logic

3 Credit Hours
(Fall, Spring, Summer)

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 1106 - Fundamentals of UNIX

3 Credit Hours
(Spring)

This course is designed to introduce the UNIX operating system to new users. The student will learn fundamental features of the operating system, including file system navigation, file permissions, editors, command shells, and basic network use. Provides a foundation for more advanced courses in administration and certification.

Prerequisite(s): Knowledge of networking, basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 1134 - Network Foundations

3 Credit Hours
(Fall)

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 2314C - Network Defense and Countermeasures

3 Credit Hours
(Spring)

This course will explore concepts of network defense and countermeasures as well as hardware and software required to design, configure and implement secure networks. Security topics covered in this course include firewalls, Intrusion Detection Systems (IDS), Virtual Private Networks (VPN) and policy creation using the Windows Operating System (OS), Transmission Control Protocol/Internet Protocol (TCP/IP) packet and signature analysis. The student will get hands-on instruction installing the network defense mechanisms and countermeasure applications. Software will be used for collecting, monitoring and auditing various activities; students will analyze threats and intrusions.

Prerequisite(s): CET 2660 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 27

Technical Elective Courses

Select 15 credits from the following:

CET 1854C - Introduction to Wireless Technology

3 Credit Hours
(Fall)

This course teaches key wireless networking topics, including wireless technology and architecture network design, types of wireless networks, and applications. Special focus on technical matters, wireless communication products,

wireless networking products, and wireless LANS products. It is recommended that all students have a least a basic knowledge of networking, including protocol, the OSI module, and TCIP/IP.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2615C - LAN Switching and Wireless

3 Credit Hours
(Spring)

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2620C - Accessing the WAN

3 Credit Hours
(Spring)

This course introduces the student to advanced router configurations and network design. This is also the last of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Prerequisite(s): CET 2615C isrequired. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2685C - Fundamentals of Network Security

3 Credit Hours
(Spring)

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2881C - Digital Forensics II

3 Credit Hours
(Summer)

Digital Forensics II builds upon the foundational knowledge learned in digital forensics fundamentals. Students will utilize industry standard tools to conduct examinations of various digital media and document their findings. Devices to be studied include computers (server, desktop, laptop), mobile devices (tablets, cell phones, smart phones, mp3 players, gps), and devices such as dvr's and routers. Emphasis will be placed upon real-world digital forensics scenarios and the investigative thought process. At the conclusion of the class, students will be prepared to take the accessdata certified examiner (ace) examination.

Prerequisite(s): CET 2880C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2891C - Wireless Network Security Certification

3 Credit Hours
(Offered as needed)

This course prepares students to secure wireless networks and protect valuable data from intruders. The following subjects are covered: intrusion tools and techniques, detection systems, WPA/WPA2/802.11i security, enterprise wireless gateways, encryption gateways, secure wireless bridging, and wireless VPN routers. This course prepares students for the compTIA wireless certification exam.

Prerequisite(s): CET 1854C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2892C - Advanced Network Security

3 Credit Hours
(Spring)

This course examines advanced network security topics including, but not limited to, advanced topics in integration of hardware firewalls, advanced topics in Intrusion Detection Systems (IDS), advanced topics in Internet Protocol-security (IPSec), and advanced topics in Virtual Private Networking (VPN) in network security design. Students will implement designs using equipment in a laboratory setting.

Prerequisite(s): CET 2660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2940 - Computer Engineering Internship

1 Credit Hour
(Offered as needed)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the

student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Prerequisite(s): active enrollment in an appropriate degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

This course may be taken up to four times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.
▲Technology-Across-the-Curriculum Course.

CGS 2544 - Advanced Database Concepts

3 Credit Hours
(Summer)

The aim of this course is to explore advanced database concepts including an advanced exploration of data modeling and the design and implementation of relational databases. This course will extend the students' understanding of advanced principles and techniques used in the design and implementation of modern database systems and explore database problems and potential solutions.

Prerequisite(s): CGS 2541 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Dental Assisting (PSAV)

Admission Program of Study Code DENT
State CIP Code 0351060112

Basic Skills Requirements: The student must be exempt or attain a **10th grade level** on each section of the TABE exam: Math, Language and Reading.

This program is a Limited Admission program subject to additional program policies and requirements stipulated in the "Dental Assisting Student Handbook." The admission criteria and process, as well as some course numbers and credits are subject to change; students should contact the Dental Assisting program office for the most current information.

The Dental Assisting program is accredited by the Commission on Dental Accreditation and has been granted accreditation status of approval without reporting requirements. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be

contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611-2678. The Commission's web address is: http://www.ada.org/100.aspx.

Students who successfully complete this program and pass the Dental Assisting National Board (DANB) Certificate (CDA) may apply 21 credits towards the Technical Elective requirements for the Health Services Management (AS) degree (State CIP Code 135070100).

Core Courses

DEA 0020 - Pre-Clinical Procedures Theory

60 Clock Hours
(Offered as needed)

This course is designed to provide an introduction to the dental assisting profession to include orientation to four handed dentistry and general dental office procedures including, but not limited to basic principles of disease prevention, patient data collection and assessment, and instrumentation. Emphasis is on adhering to safety guidelines as specified by OSHA.

Corequisite(s): DEA 0020L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0020L - Pre-Clinical Practice Lab

90 Clock Hours
(Offered as needed)

This is a comprehensive chair side competency based course. The course provides the skills practice necessary for dental assisting students entering four handed dentistry practice including but not limited to infection control, taking and recording vital signs, assisting with operative procedures, principles of preventive dentistry, instrument identification, and use and maintenance of equipment. Emphasis is on aseptic technique and clinical competency with procedures performed in a contemporary dental practice.

Corequisite(s): DEA 0020, DES 0103L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0130 - Oral Pathology

30 Clock Hours
(Offered as needed)

This course is a general study of the scientific and clinical concepts that include additional knowledge base necessary to the practice of dental assisting. Students will study the normal and abnormal conditions of the oral cavity such as

dental caries prevention, the dental caries process and recognition of various common pathological conditions. Oral pathology, histology and embryology are included. Emphasis is on the interrelationship of the information presented with the clinical practice of dental assisting.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0803L - Clinical Practice I

150 Clock Hours
(Offered as needed)

This competency based clinical course provides a real world setting in which to integrate the laboratory and clinical skills learned in the classroom. The student receives closely supervised hands on training in chair side dental assisting through rotations at community dental offices. Progress is evaluated using predetermined competency guidelines. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 90 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Corequisite(s): DEA 0020, DEA 0020L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830 - Expanded Function Theory

30 Clock Hours
(Offered as needed)

This course introduces the dental assisting student to the dental specialty practices and more advanced clinical skills. It also provides the theory of dental specialty practice administration as it relates to the role of the dental assistant including ethical and legal ramifications. Lectures relate topics including but not limited to dental specialty procedures, instruments used in the specialty practices and duties delegated to dental assistants according to the rules and regulations of the Florida Dental Practice Act. Role playing and problem solving activities using case studies relate to duties delegated to dental assistants.

Prerequisite(s): DEA 0020, DEA 0020L, DES 0400

Corequisite(s): DES 0830L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830L - Expanded Functions Lab

60 Clock Hours
(Offered as needed)

This laboratory course accompanies the clinical practice lecture course DES 0830 and provides opportunity for students to practice application of the duties delegated to dental assistants according to the Florida Dental Practice Act. Students become more proficient in more advanced skills. Competencies containing information and behavioral objectives allow students to master each skill before advancing to the next.

Prerequisite(s): DEA 0020, DEA 0020L, DES 0400

Corequisite(s): DES 0830.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0852L - Clinical Practice II

180 Clock Hours
(Offered as needed)

This course is a continuation of Clinical Practice I. It provides a real world setting for students to receive additional training in the clinical skills learned in class. Students are assigned to various offices in the community including but not limited to general dentists, oral surgeons, orthodontists, periodontists, and endodontists. Performance evaluations are utilized to measure competency and provide feedback from the local dental offices to the instructor regarding the students' competency level. Skills are strengthened in Seminar Lab. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 150 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Prerequisite(s): DEA 0803L, DES 0400

Corequisite(s): DES 0830, DES 0830L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0936 - Dental Assisting Seminar

60 Clock Hours
(Offered as needed)

This course is designed to provide a review of materials commonly covered on the Dental Assisting National Board (DANB) Exam. Topics include but are not limited to infection control, general chair side procedures, and radiographic technique. The seminar will provide a mock board examination, and opportunities for review, problem solving, and strengthening skills. The course also serves as an opportunity for feedback from students' Clinical Practice.

Prerequisite(s): DEA 0852L, DEA 0803L, DES 0205, DES 0205L

Corequisite(s): DEA 0803L, DES 0206L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103 - Dental Materials

60 Clock Hours
(Offered as needed)

This course is a comprehensive study of the theory of manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. The competency based lab that accompanies this course includes exercises to illustrate application and use of selected materials. Students will study various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, as well as acrylic plastics. Students will become familiar with various pieces of dental laboratory equipment and their uses.

Corequisite(s): DES 0103L, DEA 0020L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103L - Dental Materials Lab

90 Clock Hours
(Offered as needed)

This course is a comprehensive study of the manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. Emphasis is on practical application as it relates to the role of the dental assistant in the contemporary dental practice. It is a competency based lab that accompanies the theory course and includes exercises to illustrate application and uses of selected materials. Students practice the use of various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, and acrylic plastics.

Corequisite(s): DES 0103, DEA 0020L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205 - Dental Radiology Lecture

60 Clock Hours
(Offered as needed)

This course is designed to introduce the theory, application and principles of radiographic exposure and processing

techniques used in dentistry. Students will receive instruction including but not limited to historical data, radiation safety, exposure, processing, mounting and error prevention. Image interpretation of radiographic anatomical structures will be included.

Prerequisite(s): DES 0400, DEA 0020, DEA 0020L

Corequisite(s): DES 0205L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205L - Dental Radiology Laboratory I

60 Clock Hours
(Offered as needed)

This laboratory course assists students in radiographic performance techniques using DXTR manikins to achieve competency prior to exposure of various patients with varied dentitions. Students practice exposing, mounting, radiographic interpretation, safe darkroom procedures, identification of landmarks and distinguishing radiographic pathology from normal landmarks. Clinical radiographic skills necessary to produce diagnostic quality radiographs including bitewings, periapical radiographs, and panoramic x-rays will be covered. Emphasis is on patient and operator safety guidelines and producing diagnostic quality radiographs.

Prerequisite(s): DES 0400, DEA 0020, DEA 0020L

Corequisite(s): DES 0205.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206L - Dental Radiology Laboratory II

60 Clock Hours
(Offered as needed)

This laboratory course assists students in additional radiographic performance techniques to include surveys on patients with varied dentitions. Students practice more advanced radiographic exposure techniques, interpretation, additional darkroom procedures, identification of landmarks and distinguishing various radiographic pathology. Clinical radiographic skills necessary to produce diagnostic quality x-rays including but not limited to bitewings, periapical radiographs, and panoramic surveys on actual patients will be covered. Emphasis is placed on patient and operator safety guidelines and producing diagnostic quality radiographs during this course.

Prerequisite(s): DES 0400, DEA 0020, DEA 0020L, DES 0205L

Corequisite(s): DEA 0851L.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an

approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0324 - Interpersonal Communications Skills

30 Clock Hours
(Offered as needed)

This course is designed to implement interpersonal and effective communication skills in the practice of dentistry. It includes team building strategies, oral and written communications skills with the correct use of terminology commonly used in dentistry. Professionalism in verbal and nonverbal communications is emphasized. Students will be introduced to the legal and ethical scope of responsibilities for dental assistants and interpersonal relations in the dental office. Providing oral health instructions and post operative instructions for patients will be introduced. Scenario-based role playing is used to augment student learning of course content.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0400 - Dental Anatomy

90 Clock Hours
(Offered as needed)

This course provides a detailed study of the orofacial and related structures of the head and neck including, but not limited to the eruption, identification and function of the human dentition, study of bony, circulatory, muscular and nervous systems of the head, neck and surrounding structures associated with the oral cavity. A brief introduction to oral histology and embryology will be included.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0501 - Dental Practice Management

60 Clock Hours
(Offered as needed)

This course includes theory and content relating to practical administrative duties performed in the dental office. Lectures and role playing activities are related to the responsibilities of the dental assistant. Topics include but are not limited to appointment scheduling, billing, collections, record keeping, clerical and dental supply inventory. Students are introduced to the use of dental practice software with hands on computer experience. Legal responsibilities, interpersonal relations, and interview skills are included.

Prerequisite(s): DES 0205, DES 0205L

Corequisite(s): DEA 0936.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0602 - Pharmacology and Dental Office Emergencies

30 Clock Hours
(Offered as needed)

This course is designed to familiarize the dental assisting student with the basic concepts and considerations regarding pharmacology and pharmaceutics used in dentistry. Topics presented include nitrous oxide monitoring, emergency procedures and protocol. Lectures will include recognition of emergency conditions in the dental office, not limited to syncope, anaphylaxis, and cardiovascular incidents. Emphasis is placed on the role of the dental assistant in the prevention and management of dental office emergencies.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0844 - Infection Control for Dental Assistants

30 Clock Hours
(Offered as needed)

This course is a general study in biomedical sciences of preventive dentistry to familiarize the dental assisting student with basic principles of microbiology, basic body structures, and their functions and effects as manifested in the oral cavity. The course also covers the effects of nutrition and the role of microorganisms in dental health and blood borne pathogens.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 1230

Suggested Academic Plan

This program admits students in the fall/spring/summer. Below is a sample academic plan for these students in this clock hour program.

Dental Assisting (PSAV) (DENT)
Fall Semester

DEA 0020 - Pre-Clinical Procedures Theory **60 Clock Hours**

DEA 0020L - Pre-Clinical Practice Lab **90 Clock Hours**

DES 0400 - Dental Anatomy **90 Clock Hours**

DES 0103 - Dental Materials **60 Clock Hours**

DES 0103L - Dental Materials Lab **90 Clock Hours**

DEA 0803L - Clinical Practice I **150 Clock Hours**

DES 0324 - Interpersonal Communications Skills **30 Clock Hours**

DES 0844 - Infection Control for Dental Assistants **30 Clock Hours ***

Total Semester Clock Hours: 450

Spring Semester

DES 0830 - Expanded Function Theory **30 Clock Hours**

DES 0602 - Pharmacology and Dental Office Emergencies **30 Clock Hours**

DES 0830L - Expanded Functions Lab **60 Clock Hours**

DEA 0852L - Clinical Practice II **180 Clock Hours**

DES 0205 - Dental Radiology Lecture **60 Clock Hours**

DES 0205L - Dental Radiology Laboratory I **60 Clock Hours**

DEA 0130 - Oral Pathology **30 Clock Hours**

Total Semester Clock Hours: 420

Summer Semester

DEA 0851L - Clinical Practice III **180 Clock Hours**

DES 0501 - Dental Practice Management **60 Clock Hours**

DEA 0936 - Dental Assisting Seminar **60 Clock Hours**

DES 0206L - Dental Radiology Laboratory II **60 Clock Hours**

Total Semester Clock Hours: 360

Total Program Clock Hours: 1230

* DES0844 may be taken in Fall or Spring Semester

Digital Forensics (CCC)

Admission Program of Study Code DGFO
State CIP Code 0511100119

Students who successfully complete this certificate may be eligible to receive credits towards the Network Systems Technology (AS) degree (State CIP Code 1511100112).

Core Courses

CET 1600C - Networking Fundamentals

3 Credit Hours
(Fall, Spring)

This course introduces the student to the basics of Internetworking technology. This is also the first of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity, and electronics and network management.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 1610C - Routing Protocols and Concepts

3 Credit Hours
(Fall, Spring)

Basic Router terminology and configurations are studied in this course. The student will study router components, router configuration, IOS, TCP/IP, IP addressing, and router protocols. This is one of the four courses designed to prepare a student to take the CISCO Certified Network Associate Exam (CCNA).

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites: CET 1600C is required.

▲Technology-Across-the-Curriculum Course.

CET 2660 - Network Security

3 Credit Hours
(Fall, Spring)

This course provides an in-depth study of network security concepts and techniques. Students examine theoretical concepts that make computer network security unique. This course provides a practical, hands-on approach when examining networking security techniques. Students examine different network strategies, explore the advancement of network implementation, and study timeless problem solving strategies. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Prerequisite(s): Knowledge of networking basic computer, and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2182C - PC Hardware A+

3 Credit Hours
(Spring)

This course is designed to prepare the student to take the A+ Certification exam, by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2880C - Digital Forensics Fundamentals

3 Credit Hours
(Spring)

This course offers a solid foundation to computer forensics investigations: preparing students to acquire and analyze digital evidence. the course covers tools and techniques and explains topics such as file structure, data recovery, e-mail and network investigations, and expert witness testimony. In addition, the student will gain practical knowledge in conducting digital investigations and preserving digital evidence that maybe used in court or corporate inquiries.

Prerequisite(s): CTS 1134 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2881C - Digital Forensics II

3 Credit Hours
(Summer)

Digital Forensics II builds upon the foundational knowledge learned in digital forensics fundamentals. Students will utilize industry standard tools to conduct examinations of various digital media and document their findings. Devices to be studied include computers (server, desktop, laptop), mobile devices (tablets, cell phones, smart phones, mp3 players, gps), and devices such as dvr's and routers. Emphasis will be placed upon real-world digital forensics scenarios and the investigative thought process. At the conclusion of the class, students will be prepared to take the accessdata certified examiner (ace) examination.

Prerequisite(s): CET 2880C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 2314C - Network Defense and Countermeasures

3 Credit Hours
(Spring)

This course will explore concepts of network defense and countermeasures as well as hardware and software required to design, configure and implement secure networks. Security topics covered in this course include firewalls, Intrusion Detection Systems (IDS), Virtual Private Networks (VPN) and policy creation using the Windows Operating System (OS), Transmission Control Protocol/Internet Protocol (TCP/IP) packet and signature analysis. The student will get hands-on instruction installing the network defense mechanisms and countermeasure applications. Software will be used for collecting, monitoring and auditing various activities; students will analyze threats and intrusions.

Prerequisite(s): CET 2660 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CTS 1134 - Network Foundations

3 Credit Hours
(Fall)

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Program Credits Required: 24

Technical Elective Courses

Select 8 credits from the following:

CET 2615C - LAN Switching and Wireless

3 Credit Hours
(Spring)

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2620C - Accessing the WAN

3 Credit Hours
(Spring)

This course introduces the student to advanced router configurations and network design. This is also the last of four

courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Prerequisite(s): CET 2615C isrequired. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2685C - Fundamentals of Network Security

3 Credit Hours
(Spring)

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CET 2854C - Fundamentals of Wireless LANs

3 Credit Hours
(Offered as needed)

Develop, implement and troubleshoot wireless networks. This hands-on, skill-based course focuses on the design, planning and operation of wireless networks, with an overview of technologies, security, and design best practices. This course helps prepare the student for the CISCO Wireless Certification.

Prerequisite(s): CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

CIS 2352C - Ethical Hacking Fundamentals

3 Credit Hours
(Fall)

This course is designed to provide the student with an understanding of the techniques and methodologies of security penetration testing. This course provides hands-on instruction using the various tools and methods that security professionals use to analyze an information system in order to discover vulnerabilities and protect against information loss, cyber-terrorism, and corporate espionage. The student will be introduced to fundamental security testing concepts, gain practical knowledge of computer programming, learn how to properly document a security test, and explore the legal and ethical ramifications of penetration testing. Students will also learn how to apply the appropriate countermeasures in order to reduce the risk that an organization faces.

Prerequisite(s): CTS 1134 is required. Knowledge of networking, basic computer, and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

Total Technical Elective Credits Required: 8

Total Program Credits Required: 32

Suggested Academic Plan

This program admits students in the fall/spring/summer semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Digital Manufacturing Specialist (CCC)

Admission Program of Study Code DMFS
State CIP Code 0615000009

Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS) degree (State CIP Code 1615000001).

Core Courses

ETD 2357C - Inventor I

3 Credit Hours
(Spring)

A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2364C - SolidWorks I

3 Credit Hours
(Fall)

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

▲Technology-Across-the-Curriculum Course.

ETD 2371C - 3D Printing I

3 Credit Hours
(Fall, Spring, Summer)

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Prerequisite(s): ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2372C - 3D Printing II

3 Credit Hours
(Fall, Spring, Summer)

The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid

prototyping.

Prerequisite(s): ETD 2371C or permission of the instructor.

PMT 1203C - Introduction to Machining

3 Credit Hours
(Fall, Spring, Summer)

This course introduces the student to basic mechanic fundamentals. Instructional topics will include hand tool identification and application, power tool identification and application and shop safety.

PMT 1250C - Introduction to CNC Machining

3 Credit Hours
(Fall, Spring, Summer)

The history and development of CNC (computer numerical control). Programming methods are reviewed with the emphasis of skills placed on programming, milling, drilling and turning with M and G code preparation. Manual and computer assisted programming are also reviewed. Students will program, set up and operate full size CNC machines found in our manufacturing lab. Projects will be assigned to students with an expectation of performing these tasks on manufacturing equipment.

PMT 2261C - CNC Machining I

3 Credit Hours
(Fall, Spring, Summer)

This course provides training in CNC machine operation and programming. The student will gain technical knowledge and programming methods employed in CNC machining centers. CNC Machine programming, set-up and operations are taught using computer and hands on applications. Metal fabrication processes are taught through lectures, demonstration and student generated projects. Completion of this course offers students technical skills as a CNC operator processes to be applied in various machining and fabrication industries. MasterCam–Lathe is taught to provide the student programming application in CNC machining.

Prerequisite(s): PMT 1250C or equivalent experience.

PMT 2262C - CNC Machining II

3 Credit Hours
(Fall, Spring, Summer)

This course will offer students a working knowledge of MasterCam Mill 2-D and Solidworks. This is the second class offered which teaches the student 3-D design using solidworks. An in-depth study of CAD/CAM software, CNC processing methods and the set-up of CNC machining centers. The course lectures and lab offer students hands-on applications using Solidworks generated projects processed with Mastercam tool path software to generate various projects. The student will also learn to calculate machining feeds and Speeds, edit CNC programs and part production for Mill and Lathe.

Prerequisite(s): PMT 2261C or eqivalent experience.

Total Credits Required: 24

Digital Media/Multimedia Authoring (CCC)

Admission Program of Study Code DMMA
State CIP Code 0609070209

Students who successfully complete this diploma may be eligible to receive credits towards the Digital Media/Multimedia Technology (AS) degree (State CIP Code 1611080102).

Core Courses

ART 2602C - Digital Imaging I

4 Credit Hours
(Offered as needed)

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

▲Technology-Across-the-Curriculum Course.

CGS 2820 - Web Design

3 Credit Hours
(Fall)

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

GRA 1151C - Illustration I

3 Credit Hours
(Offered as needed)

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

▲Technology-Across-the-Curriculum Course.

PGY 1801C - Digital Photography I

4 Credit Hours
(Offered as needed)

A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

▲Technology-Across-the-Curriculum Course.

Total Program Credits Required: 14

Digital Media/Multimedia Technology (AS)

Admission Program Objective Code DMMT
State CIP Code 1611080103

The Digital Media/Multimedia programs are intended for students interested in working in commercial art fields that include electronic publishing, digital video production, and website development.

Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificates in Digital Media/Multimedia Authoring (CCC) (State CIP Code 0609070209) and/or Digital Media/Multimedia Presentation (CCC) (State CIP Code 0609070209).

Students are encouraged, but not required, to contact Digital Media faculty at 729-6019 for detailed advising to plan a program of study before enrolling in courses.

(Fall)

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

GRA 1151C - Illustration I

3 Credit Hours
(Offered as needed)

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

▲Technology-Across-the-Curriculum Course.

GRA 2140C - Multimedia I

4 Credit Hours
(Fall, Spring, Summer)

An advanced course covering the development of multimedia projects incorporating a variety of digital media elements. Students will learn an industry standard digital video editing application and the aesthetic and technical considerations involved in content acquisition. Access to a miniDV camcorder suggested.

Prerequisite(s): ART 2602C, GRA 1151C and PGY 1801C.

▲Technology-Across-the-Curriculum Course.

GRA 2190C - Graphic Design I

3 Credit Hours
(Offered as needed)

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking

this course.

▲Technology-Across-the-Curriculum Course.

PGY 1801C - Digital Photography I

4 Credit Hours
(Offered as needed)

A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

▲Technology-Across-the-Curriculum Course.

Total Core Credits Required: 21

Technical Elective Courses

Select 21 credits from the following:

ART 2603C - Digital Imaging II

4 Credit Hours
(Offered as needed)

A continuing course which expands upon the technical and conceptual foundation laid in Digital Imaging I. Students will explore advanced software techniques and greater challenges of personal or commercial expression in digital media. Access to an appropriate high quality digital camera required.

Prerequisite(s): ART 2602C, PGY 1801C.

▲Technology-Across-the-Curriculum Course.

GRA 2141C - Multimedia II

4 Credit Hours
(Offered as needed)

An advanced course covering principles of design and information architecture surrounding interactive multimedia presentations. Students will learn an industry standard interactive DVD media authoring software application. Students will produce a finished interactive DVD.

Prerequisite(s): GRA 2140C.

▲Technology-Across-the-Curriculum Course.

COP 2840 - Web-based Programming I

3 Credit Hours
(Spring)

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Prerequisite(s): Knowledge of basic computer and keyboarding skills are strongly recommended.

▲Technology-Across-the-Curriculum Course.

GRA 2950C - Advanced Graphic Projects

4 Credit Hours
(Offered as needed)

An advanced Graphic Design course addressing common Graphic Design problems. Students will explore advanced software application functionality and creative, aesthetic, and portfolio development. Access to a high quality digital camera required.

Prerequisite(s): ART 2602C, ART 2603C, GRA 1151C, GRA 2190C, PGY 1801C.

▲Technology-Across-the-Curriculum Course.

PGY 1220C - Commercial Photography I

4 Credit Hours
(Offered as needed)

A beginning course that introduces students to the procedures and aesthetics of developing photographic illustrations for industrial and advertising use. Students will gain experience using a high quality digital studio camera, electronic lighting, and digital applications of their work. It is recommended that students take PGY 1801C prior to or at the same time as this course.

PGY 2802C - Digital Photography II

4 Credit Hours
(Offered as needed)

An intermediate-level photography course where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Prerequisite(s): PGY 1801C.

▲Technology-Across-the-Curriculum Course.

Core Courses

DEP 2100 - Child Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

EEC 1001 - Introduction to Early Childhood Education

3 Credit Hours
(Fall)

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

EEC 1002 - Early Childhood Program Administration

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

EEC 1201 - Infants and Toddlers

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

EEC 1309 - Early Childhood Education Foundations

3 Credit Hours
(Fall, Summer, Spring)

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

EEC 1401 - The Family In Early Childhood Education

3 Credit Hours
(Fall, Spring, Summer)

This course is comprehensive in scope, emphasizing skills and concepts of parenting which include: adjustment to parental roles; parent-child communication, care, growth, and development of children; cultivating strong families; special concerns; alternative family structures; educational institutions working effectively with parents; and agencies and legislation affecting children and parents.

EEC 1601 - Assessment in Early Childhood Education

3 Credit Hours
(Fall, Spring)

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

EEC 1750 - Guidance for Young Children

3 Credit Hours
(Fall, Spring Summer)

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

EEC 1949 - Internship, Early Childhood Education

3 Credit Hours
(Fall, Spring, Summer)

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Prereq/Corequisites: EEC 1309 or EEC 1201.

EEC 2220 - Language and Literacy Instruction In Early Childhood Education

3 Credit Hours
(Spring)

Study of the principles, methods, and materials used to assist young children acquire basic skills to use language effectively and competently; evaluation and development of appropriate teaching materials to use with young children.

Prerequisite(s): EEC 1309

EEC 2222 - Math and Science Instruction In Early Childhood Education

3 Credit Hours
(Spring and as needed)

Study of the basic concepts, methods, and materials of mathematics and science appropriate to the education of young children. Identification of the role of staff members in the center for the education of young children. Assignment with young children in community agencies.

Prerequisite(s): EEC 1309.

EEC 2732 - Child Nutrition, Health and Safety

3 Credit Hours
(Fall, Spring, Summer)

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

EEX 2010 - Introduction to Exceptional Children

3 Credit Hours
(Offered as needed)

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

Early Childhood Education, Birth through Four (BS)

Admission Program Objective Code BSEB
State CIP Code 1101312102

The Bachelor of Science in Early Childhood Education, Birth through Four is designed to prepare students to work in programs serving children ages 0-4 years. Graduates will be prepared for advancement in the Early Childhood career field. The degree offers a career ladder for students earning the Associate of Science in Early Childhood Education at NWF State College, which includes one state-mandated prerequisite courses. A.S. students will complete an additional 18 hours of General Education classes during their upper division coursework, after admission to the Early Childhood Education program. Students earning an A.A. may also enter this program after completing the state-mandated prerequisite courses. These students will complete technical classes during their upper division coursework after admission to the Early Childhood Education program. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.

Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements.

Lower Division Requirements

Unless otherwise specified, select courses from each category, see the AA Degree General Education Requirements section of catalog for course listings:

General Education Course Requirements

Students entering with an A.S. or A.A.S. degree will have 18 General Education hours and will complete the remaining 18 within the B.S. in Early Childhood coursework.

Total Lower Division (Associate Degree) Credits Required: 60

Foreign Language

A minimum of 6 credit hours must be earned in one foreign language at the college level, or successful completion of two sequential credits in high school foreign language, or an appropriate score on an approved CLEP examination.

- ___-____ - Foreign Language
- ___-____ - Foreign Language

Upper Division Requirements

Program Content Courses

Students entering with an A.S. or A.A.S. degree will complete 18 General Education hours within the B.S. in Early Childhood coursework. Students entering with an A.A. degree will complete 18 hours of Early Childhood technical coursework within the B.S. in Early Childhood, in accordance with a signed program of study designed by a program advisor.

DEP 2100 - Child Growth and Development

3 Credit Hours
(Fall, Spring, Summer)

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

EEC 1002 - Early Childhood Program Administration

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

EEC 1201 - Infants and Toddlers

3 Credit Hours
(Fall, Spring, Summer)

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

EEC 1750 - Guidance for Young Children

3 Credit Hours
(Fall, Spring Summer)

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

EEC 2732 - Child Nutrition, Health and Safety

3 Credit Hours
(Fall, Spring, Summer)

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

EEC 3213 - Teaching the Language Arts In Early Childhood Education

4 Credit Hours
(Offered as needed)

The focus of this course will be on the development of language and literacy in children ages birth through age four. Emphasis will be placed on understanding the process of emergent literacy including vocabulary and language, phonological awareness, print knowledge and comprehension; and on designing a developmentally appropriate language arts program in relation to the early learning and developmental standards. This course will require observing and participating in an early childhood classroom.

EEC 3227 - Art, Music, and Movement

3 Credit Hours
(Offered as needed)

The focus of this course will be on developing an understanding of the creative developmental process in the life of children from birth through four years old. Emphasis will be placed on the teacher's role in developing opportunities and materials for young children to express themselves creatively through music, drama, dance and two- and three-dimensional art and on providing varied opportunities for young children to gain an appreciation of art, music, drama, and dance in ways that reflect cultural diversity in relation to the early learning and developmental standards. This course will require observing and participating in an early childhood classroom.

EEC 3320 - Principles and Methods for Teaching Early Childhood Social Studies

3 Credit Hours
(Offered as needed)

This course is designed to prepare students to teach social studies In the early childhood classroom. Emphasis is on implementing the project approach to investigate components of social studies to include: individual development and identity; people, places, and environments, technology and our world; and civic ideals and practices. The student will increase and apply knowledge and skills in the Florida Early Learning and Developmental Standards relevant to this content area.

EEC 3511 - Curriculum for Infants and Toddlers

3 Credit Hours
(Offered as needed)

The focus of this course will be on the design, implementation and evaluation of programming and curriculum that promotes growth and development of young children birth to three years old and aligns with the early learning and developmental standards. Study of typical and atypical development will be included. Emphasis will be on working effectively with families of infants and toddlers.

EEC 3524 - Professionalism/Program Development

4 Credit Hours
(Offered as needed)

Focus of this course will be on management and leadership in early childhood education programs. Topics will include mentoring adults, professional development, staff assessment, program evaluation, and child advocacy. Career options in the field of early childhood education will be explored. This course will require observing and participating in a program or agency related to early childhood education.

EEC 4404 - Families and Diversity

3 Credit Hours
(Offered as needed)

This course will focus on building positive relationships with families through communication and involvement. Focus will include developing an awareness of diversity and multicultural considerations in working with families of young children. The course will explore the role of the family and the influence of the community on the development of young children in a diverse society; and will prepare the student to work effectively with families and communities.

EEC 4421 - Teaching Math and Science in Early Childhood Education

4 Credit Hours
(Offered as needed)

The focus of this course will be on developing an understanding of how concepts, skills and attitudes in early childhood mathematics and science are developed in young children ages birth through age four. Math topics will include number sense and operations, patterns, geometry, and measurement. Science topics will include scientific inquiry, physical science, life science and earth science. Emphasis will be on the alignment of the Early Learning and Developmental Standards with a developmentally appropriate approach to teaching math and science in the early childhood classroom. This course will require observing and participating in an early childhood classroom.

EEC 4613 - Systematic Observation and Assessment

3 Credit Hours
(Offered as needed)

The focus of this course will be on understanding the purpose of child assessment, implementing developmentally appropriate practices in formal and informal child assessment, and using assessment results to support learning, to identify special needs, to evaluate programs, and to respond to program accountability requirements. A field experience is required to practice various methods of assessment in an early childhood setting.

EEC 4940 - Internship

9 Credit Hours
(Fall, Spring)

Supervised teaching in an assigned Early Childhood Education setting. Student teaching assignments will be made by the Department of Teacher Education Office. This course requires a minimum grade of "C". Current background check (fingerprinting) is required for this course.

Prerequisite(s): Upper Division standing with permission of Department Chair

EEX 2010 - Introduction to Exceptional Children

3 Credit Hours
(Offered as needed)

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EEX 3604 - Classroom Management in Early Childhood Education

3 Credit Hours
(Offered as needed)

The focus of this course is on implementing effective classroom management practices including establishing an appropriate physical environment, setting up appropriate classroom routines and rules and creating a positive classroom community. Emphasis will be on strategies for guiding children's behavior, teaching social problem-solving skills and responding appropriately to challenging behaviors.

EEX 4201 - Young Children with Special Needs

3 Credit Hours
(Offered as needed)

The focus of this course will be on working with young children birth through age four in an inclusive early childhood classroom. Emphasis will be on identifying typical and atypical development, creating an inclusive early childhood learning environment, understanding special education law, developing an awareness of resources for inclusive practice to meet the needs of young children and their families.

Total Upper Division Credits Required: 60

Elementary Education (BS)

Admission Program Objective Code BSED
State CIP Code 1101312021

The first sixty credits in the following program of study are designed to prepare students not only for the A.A. degree, but also for the General Knowledge exam and Elementary Subject Area exam of the Florida Teacher Certification Exam (FTCE).

If you plan to be an elementary school teacher and are just beginning your A.A. degree, this program of study will best prepare you for that career choice. If you have already completed your A.A. degree and some of your general education courses differ from those listed below, your A.A. degree will still meet that component of the admission process; however, you may need to complete additional coursework, independent study, or workshops to be well prepared for the FTCE Elementary Subject Area exam. A passing score on the FTCE Elementary Subject Area exam is one of the graduation requirements for this degree. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.

Courses with the "C" designation include extra hours to accommodate field experiences.

Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements. Requirements for Teacher Education programs may change due to legislative mandate. Candidates should request the most current requirements from the Teacher Education Program Director.

Lower Division (Associate Degree) Courses

Specific General Education and lower division courses are recommended because these courses meet NWF State College general education requirements and cover state content competencies tested on the Elementary Education K-6 subject area section of the Florida Teacher Certification Exams (FTCE), which all students must pass before entering the final internship semester in the Bachelor of Science in Elementary Education Program.

Unless otherwise specified, select courses from each category; see the AA Degree General Education Requirements section of catalog for course listings:

- MAC 1105 - College Algebra recommended or other Core Mathematics **3 Credit Hours ♦**
- MGF 1106 - Practical Applications of Mathematics recommended or other General or Core Math **3 Credit Hours ♦**
- BSC_ ____ - General Education Biological Sciences **3 Credit Hours*** (BSC1010C strongly recommended due to FTCE subject area content)
- WOH ____ - World Civilization **3 Credit Hours****
- ECO 2013 - Economics I **3 Credit Hours ♦** **
- PHY 1020 - Physical Science **3 Credit Hours ♦**
- POS 1041 - American Government **3 Credit Hours ♦ ¶**
- AMH 2010 - American History I **3 Credit Hours ¶ or** AMH 2020 - American History II **3 Credit Hours ♦ ¶**

It is recommended that at least one physical or biological science include a lab.

***** One or both of the Biological or Physical Sciences must come from a core group. See AA Degree General Education Requirements for details.

****** One or both of the Social Sciences must come from a core group. See AA Degree General Education Requirements for details.

At least 6 hours of diversity credits should be included in General Education required credits.

Total General Education Credits Required: 36

State-Mandated Prerequisite

EDF 1005 - Introduction to the Teaching Profession

3 Credit Hours
(Fall, Spring)

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Prerequisite(s): ENC 1101 AND (MAC 1105 or STA 2023)

Total State-Mandated Prerequisite Credits Required: 3

Additional Lower Division Coursework

AST ____ - Astronomy **3 Credit Hours**

ESC 1000 - Earth Science

3 Credit Hours ♦
(Fall, Spring, Summer)

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

GLY ____ - Geological Science **4 Credit Hours**

EEX 2010 - Introduction to Exceptional Children

3 Credit Hours
(Offered as needed)

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EVR 1001C - Environmental Science

4 Credit Hours ♦
(Offered as needed)

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state **Core General Education** requirements.

MAT 1033A - Intermediate Algebra

4 Credit Hours
(Fall, Spring, Summer)

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an

introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Prerequisite(s): a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

Total Additional Lower Division Credits Required: 21

Diversity Requirement

Within the AA or AS coursework, students must meet the state-mandated diversity requirement of 6 credit hours with an international or diversity focus.

Diversity courses: ANT 2000, ANT 2100, ARH 1000, ARH 2050, ARH 2051, ARH 2060, ARH 2402, ASL 1140, ASL 1150, ASL 2160, CHI 1120, CHI 1121, EEX 2010, FRE 1120, FRE 1121, GEA 1000, HUM 1020, HUM 2250, HUM 2700, IDS 2220, LIT 2090, LIT 2100, LIT 2120, LIT 2335, LIT 2603, PHI 2010, PHI 2600, POT 1002, REL 2300, SPN 1120, SPN 1121, SPN 2220, SPN 2221, SYG 2000, SYG 2010, WOH 1012, WOH 1022

Total Lower Division (Associate Degree) Credits Required: 60

Foreign Language

A minimum of 6 credit hours must be earned in one foreign language at the college level, or successful completion of two sequential credits in high school foreign language, or an appropriate score on an approved CLEP examination.

- ___-____ - Foreign Language
- ___-____ - Foreign Language

Upper Division Courses

Program Content Courses

EDE 4223 - Integrating Art, Music, and Physical Education

3 Credit Hours
(Summer)

This integrative course provides students with critical understanding of art, music, and physical education. Emphasis is placed on the effective integrative lesson planning and modeling techniques to art, music, and physical education in elementary schools. This course requires a minimum grade of "C".

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

EDE 4226C - Integrated Language Arts, Social Science and Literature

3 Credit Hours
(Fall, Spring)

This course is designed to prepare candidates to teach language arts and social science in elementary classrooms. Teacher candidates will develop units of study that integrate literature, language arts, with social science content. Emphasis is on constructivist principles and methodology. Teacher candidates will plan and deliver standards-based language arts and social science lessons designed to meet the needs of diverse learners including English language learners (ELLs) and students with exceptionalities. This course requires 18 hours of field experience in a K-6 classroom setting. Current background check (fingerprinting) acceptable to the district in which the field experience will take place is required for this course. This course requires a grade of "C" or better.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

EDE 4930C - Seminar in Elementary Education

1 Credit Hour
(Fall, Spring)

This course is designed to prepare the pre-service teacher to transition into the workplace. Includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns, and review strategies for certification exams. This course requires a grade of "C" or better.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

EDF 3214 - Human Development and Learning

3 Credit Hours
(Summer)

This course is designed to cover the principles of learning and student development with applications to learning/teaching situations. Identification and analysis of students' academic, physical, cognitive, emotional, motivational, and social development is to be emphasized. This course requires a grade of "C" or better.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

EDF 3430 - Measurement, Evaluation, and Assessment in Education

3 Credit Hours
(Fall, Spring)

This course studies the basic principles and methods of measurement, evaluation, and methods of test construction. Students will interpret standardized test scores, construct teacher-made tests and other classroom assessments, and evaluate portfolio and performance assessment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

EDG 3410C - Classroom Management, School Safety, Law, and Ethics

3 Credit Hours
(Fall, Spring)

Pre-service teachers are provided strategies for managing a safe, stimulating learning environment for all learners. This course emphasizes school safety, law, and ethics as they apply to schools, districts, and the learning environment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing

EDG 3343 - Instructional Strategies

3 Credit Hours
(Fall, Spring)

This course provides an overview of instructional models and strategies. Emphasis is placed on principles of state standards, instructional methods, and lesson planning and instruction. Students will develop knowledge of instructional models and lesson plan construction for effective implementation including the diverse student populations. This course requires a grade of "C" or better.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C

EDG 4940 - Internship

9 Credit Hours
(Offered as needed)

Supervised teaching in a public or private school. Student teaching assignments will be made by the department of teacher education field placement coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing with permission of department chair.
EDE 4223, EDE 4226C, EDF 3214, EDF 3430, EDG 3410C, EDG 3343, EEX 3070, LAE 4343C, MAE 3350C, RED 3309C, RED 3511C, RED 4312, RED 4519C, SCE 3350C, TSL 3081C, TSL 4140C

EEX 3070 - Methods of Inclusion and Collaboration

3 Credit Hours
(Summer)

This course examines the basic identification techniques and strategies used to promote academic and social integration and interaction of "mainstreamed" exceptional students. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

❖This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

LAE 4343C - Writing Across the Curriculum

3 Credit Hours
(Offered as needed)

This course prepares pre-service teachers by developing an understanding of the foundations of writing through the use of writers workshops and instructional strategies necessary to provide adequate instruction to emergent, novice, and transitional writers. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

MAE 3350C - Principles and Methods for Teaching Mathematics K-8

3 Credit Hours
(Fall, Spring)

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching mathematics in grades K-8. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

RED 3309C - Early and Emergent Literacy K-2

3 Credit Hours
(Fall, Spring)

This course is designed to increase the understanding of early literacy development and the conditions which promote total literacy from birth through lower elementary grades. Language theory and current research are used to shape informed practices regarding literacy development. Connections are made among all aspects of literacy learning: reading, writing, listening, speaking and attitude development. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

RED 3511C - Intermediate Literacy 3-6: Reading and Thinking

3 Credit Hours
(Fall, Spring)

This course combines the theory and practice in the teaching of reading/literacy in the elementary intermediate grades. Procedures for meeting individual differences, differentiated instruction, selected use of materials, and classroom organizations will be examined. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): RED 3309C and upperdivision standing

Prereq/Corequisites: EDG 3410C and EDG 3343

RED 4312 - Integration of Assessment into Classroom Reading

3 Credit Hours
(Summer)

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on integrating assessments into the curriculum to strengthen instructional strategies and student success. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Prerequisite(s): RED 3309C, RED 3511C and upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

RED 4519C - Diagnostic and Instructional Interventions in Reading

3 Credit Hours
(Fall, Spring)

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on diagnosis of reading problems, administration of assessments, evaluation of results and planning instructional interventions to remediate reading difficulties. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): RED 3309C, RED 3511C and upperdivision standing

Prereq/Corequisites: EDG 3410C and EDG 3343

RED 4854C - Reading Field Experience

2 Credit Hours
(Fall, Spring)

This course provides application of knowledge of reading development to reading instruction. Emphasis is placed on increased reading proficiency for struggling students, including students with disabilities and students from diverse populations. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): RED 3309C, RED 3511C, RED 4312, RED 4519C, upper division standing with permission of department chair

SCE 3350C - Principles and Methods for Teaching Science K-8

3 Credit Hours
(Fall, Spring)

This course provides techniques, methods and materials of instruction for teaching science in grades K-8. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

TSL 3081C - TESOL Issues and Practice

3 Credit Hours
(Fall, Spring)

This course is designed to integrate the theories and principles of the Teaching of English to Speakers of Other Languages and applying them to classroom instruction. ESOL methodology and curriculum will be emphasized as they relate to current best practice in ESOL instruction. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

TSL 4140C - ESOL Methods, Curriculum and Assessment

3 Credit Hours
(Fall, Spring)

This course is designed to build on the candidate's knowledge of applied linguistics and cross cultural communication. Candidates will extend their understanding of the role of language and culture in the classroom. This course will prepare candidates for effective planning, instruction, and assessment of ELLs in the classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Prerequisite(s): TSL 3081C and upper division standing

Prereq/Corequisites: EDG 3410C and EDG 3343

Total Upper Division Credits Required: 60

Total Program Credits Required: 120

Suggested Two Year Academic Plan

This program admits students in the fall/spring semester(s). Below is a sample academic plan for these students admitted in the identified semester.

Elementary Education (BS) (BSED)

First Year

Fall Semester

EDG 3343 - Instructional Strategies **3 Credit Hours**

EDG 3410C - Classroom Management, School Safety, Law, and Ethics **3 Credit Hours**

TSL 3081C - TESOL Issues and Practice **3 Credit Hours**

RED 3309C - Early and Emergent Literacy K-2 **3 Credit Hours**

Total Semester Hours: 12

Spring Semester

EDF 3430 - Measurement, Evaluation, and Assessment in Education **3 Credit Hours**

LAE 4343C - Writing Across the Curriculum **3 Credit Hours**

TSL 4140C - ESOL Methods, Curriculum and Assessment **3 Credit Hours**

RED 3511C - Intermediate Literacy 3-6: Reading and Thinking **3 Credit Hours**

Total Semester Hours: 12

Summer Semester

EDE 4223 - Integrating Art, Music, and Physical Education **3 Credit Hours**

EDF 3214 - Human Development and Learning **3 Credit Hours**

EEX 3070 - Methods of Inclusion and Collaboration **3 Credit Hours**

RED 4312 - Integration of Assessment into Classroom Reading **3 Credit Hours**

Total Semester Hours: 12

Second Year

Fall Semester

EDE 4226C - Integrated Language Arts, Social Science and Literature **3 Credit Hours**

MAE 3350C - Principles and Methods for Teaching Mathematics K-8 **3 Credit Hours**

Total General Education Credits Required: 18

Core Courses

FFP 1801 - Introduction to Emergency Management Administration

3 Credit Hours
(Offered as needed)

This course will discuss emergency management practices and how they relate to natural and man-made disasters. It is designed to help the student develop an understanding of overall emergency management principles, practices, and standards in the local, national, and international environments.

FFP 2820 - Emergency Preparedness

3 Credit Hours
(Offered as needed)

This course teaches all aspects of emergency preparedness and planning related to natural and man-made disasters, and basic principles of emergency management. Planning concepts and the planning process will be discussed.

FFP 2823 - Technical Applications in Emergency Management

3 Credit Hours
(Offered as needed)

This course explores issues and problems associated with the use of technology in emergency management. It examines strategies to overcome these issues and problems. Some of the subjects treated are use of the Internet, spatial analysis applications in vulnerability analysis, decision support systems, and emerging technologies.

FFP 2841 - Contingency Planning for the Private Sector

3 Credit Hours
(Offered as needed)

This course is designed to assist students in developing effective public sector plans by using the National Incident Management System and the Incident Command System templates. The curriculum includes case studies and development procedures for private sector logistics management and employee support planning.

FFP 2834 - Societal Issues in Disaster Management

3 Credit Hours
(Offered as needed)

This course examines human response to disaster events, including political and economic factors influencing vulnerability. It examines how individuals and institutions make decisions at all levels of disaster response, it is an introduction to current research pertaining to the sociological aspects of disaster, and it will provide increased awareness of the potential and difficulties in using social science research as a basis for modifying public policy.

Total Core Credits Required: 15

Technical Elective Courses

Select 27 credits from the following:

CCJ 1020 - Introduction to Criminal Justice

3 Credit Hours
(Fall)

An introduction to the philosophical and historical background of law enforcement and the administration of criminal justice. Organization and jurisdiction of local, state, and federal law enforcement agencies, court and criminal procedures, career opportunities in the Criminal Justice field are also covered.

CJL 1100 - Criminal Law

3 Credit Hours
(Fall)

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

CJL 1400 - Criminal Procedure

3 Credit Hours
(Spring)

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

DSC 1002 - Domestic and International Terrorism

3 Credit Hours
(Offered as needed)

This course is designed to assist students in recognizing and understanding the elements and objectives of terrorism and 4th Generation Warfare and how they affect public safety planning and response operations.

DSC 1004 - Introduction to NRF and NIMS

3 Credit Hours
(Offered as needed)

Designed to inform emergency responders and planners of the key elements in the National Response Framework (NRF) and the National Incident Management System (NIMS) and their relationship to planning and response operations. The curriculum includes classroom exercises.

DSC 1222 - Psychological Management of Disaster Victims

3 Credit Hours
(Offered as needed)

This course introduces students to a general overview of terrorism and the potential psychological effect of terrorist events on victims.

DSC 1552 - Critical Infrastructure Protection

3 Credit Hours
(Offered as needed)

This course introduces participants to the Critical Infrastructure Protection (CIP) process to secure the effective protection of the people, physical entities, and cyber systems that are critical. The CIP course will guide leaders in the systematic protection of critical infrastructures. More basically, the course will introduce decision sequence that assists leaders and future leaders in ultimately determining exactly what really needs protection as well as when. The

course will introduce a time-efficient and resource-restrained practice that ensures the protection of only those infrastructures upon which survivability, continuity of operations, and mission success depend.

DSC 1562 - Homeland Security Threat Strategy

3 Credit Hours
(Offered as needed)

This course addresses problems of terrorism from a criminal justice perspective. It is designed to provide students with an understanding of the major issues associated with responding to terrorism in a democratic society. The course focuses on the threat of terrorism to the United States and will review specific strategies to deter terrorist threats to the U.S. The course will assess the relative effectiveness of anti-terrorist activities.

DSC 1631 - Planning Considerations for Terror Prevention

3 Credit Hours
(Offered as needed)

This course introduces participants to various aspects of planning for potential terrorist activity. The student will be introduced to basic principles of emergency management, communications, security threats, and the effects these operations may have on personnel. The student will learn techniques for evaluating their own jurisdiction's vulnerability against terrorist attacks. Students will gain knowledge of the roles and responsibilities of local agencies during terrorism responses. The course introduces participants to various aspects of emergency management of terrorist activity.

DSC 1751 - Homeland Security Policy and Law

3 Credit Hours
(Offered as needed)

This course introduces participants to the major debates about balancing democratic freedoms with security from the Patriot Act to Supreme Court decisions on detention powers. The course provides insight into legal strategies necessary to confront ongoing national security threats. The course examines laws designed to preserve both our security and our democratic way of life.

DSC 2056 - Disaster Response Operations

3 Credit Hours
(Offered as needed)

This course examines the response protocol, logistics, responsibilities, interagency support, and concepts of front end planning involved in preparation for a catastrophic event. Students will be introduced to the development of an emergency response plan that will include concepts such as lookout, awareness, communications, escape, safety (laces), training, and various agency relationships.

FFP 1505 - Fire Prevention Practices

3 Credit Hours
(Fall, Spring, Summer)

This course is a survey of the principles of fire prevention and investigation. It includes a study of fire hazards in various occupancies; a review of fire prevention codes; a study of procedures and techniques of fire prevention

inspection, to include surveying and mapping, recognition and elimination of fire hazards, public relations, methods of determining the area of fire origin, fire cause, fire spread and location and preservation of evidence.

Prerequisite(s): FFP 0010 and FFP 0020

FFP 1540 - Private Fire Protection Systems

3 Credit Hours
(Fall, Spring, Summer)
