This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enhance student awareness and understanding of human diversity issues and to teach students skills to enable them to effectively interact with people of diverse backgrounds. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0014 - Interviewing and Report Writing

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to help the student learn vital communication skills including interviewing, note-taking, statement taking, and report writing. It also helps the student to develop survival skills, stress management skills, and problem solving skills utilizing the SECURE model. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 54 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0020 - Law Enforcement CMS Vehicle Operations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply vehicle operations knowledge, principles and techniques to the police driving environment. This course includes classroom instruction and practical application on the driving range. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take

advantage of this opportunity.

CJK 0031 - CMS First Aid for Criminal Justice Officers

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or the Corrections Basic Recruit Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - CMS Firearms

This course is a component of the Law Enforcement/Corrections Florida CMS Basic Recruit Academy. This course is designed to give the student basic skills and knowledge needed to safely operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Law Enforcement Florida CMS or Corrections Basic Recruit Academy.

Credit Hour(s): 81 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Defensive Tactics

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 81 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0064 - Fundamentals of Patrol

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to understand Community Oriented Policing and how it is implemented as a problem solving model, and identify the SECURE problem solving model and its application in real life situations; understand officer safety issues, identify and avoid fatal errors, identify and manage stress, maintain mental and physical fitness; respond to a call, approach a suspect, make an arrest, transport a prisoner and process the prisoner at a detention facility; and understand how to direct traffic, how to enforce traffic citations, identify how to respond to alarms and conduct a building search, and search inventory and impound vehicles. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0077 - Criminal Investigations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to prepare the student to respond appropriately to a person or property crime victim, witness, and suspect; conduct a preliminary investigation on crimes

against persons and crimes against property offenses; conduct a follow-up investigation to establish a suspect's identity and/or ascertain facts of the case; and, give testimony in different types of court proceedings. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 51 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0078 - Crime Scene to Courtroom

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to prepare the student to respond to a crime scene, protect and survey a crime scene, process a crime scene, dust for latent prints, and document a crime scene by sketching. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0087 - Traffic Stops

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to the basic rules for conducting safe and effective traffic stops, including ethical consideration, safety considerations, citation and warning procedures, and dealing with abandoned vehicles. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0084 - DUI Traffic Stops

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to the basic rules for conducting safe and effective DUI stops, including identifying a driver under the influence of alcohol and drugs, conducting field sobriety tests, and completing a DUI investigation. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0088 - Traffic Crash Investigations

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It introduces the student to traffic crash investigations, laws pertaining to traffic crashes and procedures for responding to a traffic crash. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take

advantage of this opportunity.

CJK 0096A - Criminal Justice Physical Fitness I

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 31 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096B - Criminal Justice Physical Fitness II

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 32 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0422 - Dart-Firing Stun Gun

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare students in the proper use of the Dart Firing Stun in accordance with the Florida State Statutes, the United States Constitution, and case law. It includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 9 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0065 - Calls for Service

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to respond to calls for service, disturbances, people in distress and court orders. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 36 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0092 - Critical Incidents

This course is a component of the Law Enforcement Florida CMS Basic Recruit Academy. It is designed to enable students to identify the crowd control procedures to safely and effectively disperse or control a large group of people; understand local emergency response plans; respond to a bomb threat, assesses the scene, search and evacuate a building or suspected bomb sight, identify Weapons of Mass Destruction and properly respond to a WMD incident. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 45 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 801

Medical Coder/Biller (CCC)

Admission Program of Study Code MEDB State CIP Code 0351070714

Core Courses

BSC 1085C - Anatomy and Physiology I

with

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

OR

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 2020C - Human Structure and Function

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

HIM 1000 - Health Information and Delivery Systems
Orientation to medical records history and professional associations. Confidentiality, filing, retrieving, indexing, numbering, storage and content of the medical record is also discussed. The course includes job search skills and professional job performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2272 - Healthcare Reimbursement *
Emphasis on billing regulations for the State of Florida. Course content includes LMRPS, Workers' Compensation laws, Florida Medicare, and claims for automobile accident injuries.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
HIM 2253 and HIM 2724 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2724 - ICD Coding Part 1 *
This course provides a foundation using ICD-10-CM/PCS coding conventions, rules, methodology and sequencing, data sets, documentation requirements, and coding resources.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
HSC 1531 and HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:
BSC 2020C OR (BSC 1085C AND BSC 1086C)

HIM 1432 - Pathopharmacology
Introduction to the nature, cause, and treatment of disease entities and the body's defense mechanisms. Commonly used drugs will also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2729 - ICD Coding Part 2 *
This course focuses on assigning appropriate ICD, DRG, and Level II (HCPCS) codes to a wide range of original source medical documents. This course increases the quality of code selection by applying the decision process in problem solving using well-defined medical record review methods and guidelines. Ethical practices will be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
HIM 2724 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1531 - Medical Terminology
An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1012 - Health Care and Legal Compliance
In-depth study of federal, state, local laws governing preparation, and use of the healthcare record in the healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2253 - CPT Coding - Part 1 *
Instruction and practice in basic CPT coding conventions, principles of classifying physician services using current procedural terminology (CPT-4), APC, and auditing procedures. Ethical standards of practice will be analyzed.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HSC 1531 and HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:
BSC 2020C OR (BSC 1085C AND BSC 1086C)

Note:
(Previously listed as HIM1253)

HIM 2291 - CPT Coding Part 2 *
This is an advanced course in ICD, CPT and HCPCS coding systems. Students will learn guidelines and applications to more complex case studies and health records according to current ethical standards of practice, inpatient and outpatient prospective payment systems, encoding software and RBRVs.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HIM 2253 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

HIM 2815C - Professional Practice Experience *

Working in a simulated, online environment, students will endeavor to code and bill using nationally recognized, American Health Information Management Association (AHIMA) simulation software.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):
HIM 2291 and HIM 2729

Total Core Credits Required: 37

Total Program Credits Required: 37

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 1107 - Word Processing I

Integration of basic keyboarding and word processing – learning the keyboard, creating, editing, saving, and other word processing functions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 2117 - Word Processing II

Continuation of Typing and Word Processing I – develop keyboarding and document processing using a microcomputer.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 1107 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 15

Technical Elective Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Courses

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 1107 - Word Processing I

Integration of basic keyboarding and word processing – learning the keyboard, creating, editing, saving, and other word processing functions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 2117 - Word Processing II

Continuation of Typing and Word Processing I – develop keyboarding and document processing using a microcomputer.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 1107 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 15

Suggested Academic Plan

Technical Elective Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:
▲Technology-Across-the-Curriculum Course.

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
▲Technology-Across-the-Curriculum Course.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Music Production Technology (AS)

Admission Program Objective Code MUSC State CIP Code 1650091300

Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Audio Technology (Recording Arts) (CCC) (State CIP Code 0650060209).

General Education

Total General Education Credits Required: 18

Core Courses

MUM 1620 - Audio and Acoustic Fundamentals

Audio and Acoustic Fundamentals explores the basics of audio systems and equipment and the acoustical environment in which they are used. Emphasis is placed on equipment terminology, function and acoustical listening. The two basic fundamentals are summed together to begin laying the basic foundation required to operate audio and recording equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MUM 2300 - Introduction to the Music Industry

This course is an introduction to the history, principles, and practices of the music industry. Topics will include music publishing, copyright, distribution, industry organization, producing, and general business functions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

MUM 2600 - Recording Techniques I

This course is designed as an introduction to basic audio engineering and studio practices. Listening exercises, phychoacoustics, microphone characteristics, and studio etiquette will be studied. In addition the student will study techniques and practices and procedures of multi-track recording, acoustical balancing, editing, and over dubbing in a variety of situations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MUM 1620

MUM 2601 - Recording Techniques II

This course explores advanced multi-track recording skills and audio production techniques, edits, use of outboard equipment and live multi-track recording.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MUM 1620 , MUM 2600 .

MUM 2604 - Multi-Track Mixdown (Post Production)

This course explores the application of signal processing equipment as it relates to multi-track master mixdowns. In addition, software and hardware application of mixdown is applied to post-production practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MUM 1620 , MUM 2600 , MUM 2601 .

Total Core Credits Required: 15

Technical Elective Courses

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUT 1111 - Music Theory I

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor scales, intervals, triads, 7th chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1241

MUT 1241 - Ear Training and Sight Singing I

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1111

MUT 1112 - Music Theory II

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, species counterpoint, chord structures, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

MUT 1111

Corequisite(s):

MUT 1242

MUT 1242 - Ear Training and Sight Singing II

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MUT 1241

Corequisite(s):

MUT 1112

MUT 2116 - Music Theory III

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including secondary chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MUT 1112

Corequisite(s):

MUT 2246

MUT 2246 - Ear Training and Sight Singing III

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music

notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall) Prerequisite(s):

MUT 1242

Corequisite(s):

MUT 2116

MUT 2117 - Music Theory IV

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including modulation, non-tonicizing fully diminished 7th chords, augmented 6th chords, mode mixture, Neapolitan chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries while providing an introduction to Romantic period and chromatic musical structures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MUT 2116

MUT 2247 - Ear Training and Sight Singing IV

____ ____ Other Approved College Credits (MUL, MUM, MUN, MUS, MUT, MVB, MVK, MVP, MVS, MVV, MVW)
____ ____ Other Approved College Credits

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):

MUT 2246

Corequisite(s):

MUT 2117

Suggested Two Year Academic Plan

Nursing (AS)

Admission Program Objective Code NURS State CIP Code 1351380100
The AS Nursing program at Northwest Florida State College is accredited by the:
Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326
(404) 975-5000
http://www.acenursing.us/accreditedprograms/programSearch.htm
This program is a Selective Admission program subject to additional program policies. Policies are strictly enforced and students should work with a Student Success Navigator rather than self-advise. The admission criteria and process are subject to change; students should refer to the Selective Program Admissions/Nursing (AS) webpage for the most current information. All courses in the AS Nursing program, including general education and core courses, must be completed with a minimum grade of "C" to graduate with the AS Degree in Nursing.

General Education

____ ____ Any core Mathematics course 3 Credit Hours

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ENC 1101 - English Composition I

____ ____ Humanities 3 Credit Hours

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SYG 2000 - Sociology

or PSY 2012 - Psychology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Total General Education Credits Required: 20

Total General Education Credits Required: 20

Total General Education Credits Required: 20

Core Courses

A minimum grade of "C" in each Core course is required.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required clinical nursing courses in the nursing curriculum. Theory content includes an introduction to healthcare systems ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program and BSC 1085C

Corequisite(s):

NUR 1021L

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1021L - Nursing Process I Clinical Experience

This course introduces students to the role of the Associate Degree Nurse in providing direct, holistic nursing care to young, middle-aged and older adults who are hospitalized or in community settings. Students are introduced to all steps of the nursing process with a focus on assessment skills. Students will identify self-learning needs and set their own goals for improvement. Critical thinking and working effectively with peers and other healthcare professionals as a team member is expected. The demonstration of caring behaviors and therapeutic communication as a provider of bedside, technical nursing care is emphasized. Students must demonstrate safe performance of basic nursing skills, including but not limited to medication administration, physical assessment, and comfort care.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Corequisite(s):

NUR 1021C .

Note:

Special Nursing Program policies may apply to this course.

NUR 1141 - Pharmacologic Principles in Nursing I

This course introduces students to concepts and principles of pharmacology related to safe administration of therapeutic agents

within the nursing process framework. Students begin to learn major drug classifications and selected exemplars along with principles of safe, effective administration of drugs. Students will learn dosage calculations, factors that affect the absorption, excretion, distribution, and metabolism of drugs, as well as drug actions, adverse effects, and interactions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Note:

Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

An introduction to the role of the associate degree nurse in providing direct, holistic nursing care to young, middle-aged and elderly adults who are hospitalized or receiving care in community settings. Emphasis is on applying all steps of the nursing process with focus on assessment skills. Pre-requisite college foundation and nursing courses provide theoretical bases for nursing care. Critical thinking is an expected behavior along with skills in working ethically and effectively with peers and other health care professionals as a team member; demonstrate caring behaviors and therapeutic communication with clients as a provider of bedside, technical nursing care. The student is expected to demonstrate safe performance of basic nursing skills, e.g., medication administration, physical assessment and comfort care of hospitalized adults and nursing home residents.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):

NUR 1231C and NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L NUR 1021C and NUR 1141 ;or LPN licensure; admission to the AS Nursing Program or permission from the program director

Corequisite(s):

NUR 1750L and NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics, and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Students continue to develop management skills through conflict management and other professional behaviors. Students demonstrate safe performance of all basic and more complex nursing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L or LPN licensure

Corequisite(s):

NUR 1231C .

Note:

Special Nursing Program policies may apply to this course.

NUR 2233C - Nursing Process III

Students continue to use the nursing process and critical thinking with emphasis on primary and secondary prevention as nursing interventions in clients experiencing threats to functional health patterns, including during the childbearing process and children whose normal lines of defense have been invaded by stressors to the degree that hospitalization is necessary. Nursing practice issues continue to focus on ethical-legal issues related to acute and/or chronic illness and disability. Management skills include delegation and career development.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1231C & NUR 1142 or approval from the program director.

Corequisite(s):

NUR 2233L

Prereq/Corequisites:

MCB 2010C

Note:

Special Nursing Program policies may apply to this course.

NUR 2233L - Nursing Process III – Clinical Experience

Students continue to apply knowledge and skills learned in previous nursing courses in providing nursing care for the hospitalized child, the family during the maternity cycle, and adults whose health problems are more complex and/or chronic. Clinical sites include hospitals, health departments, clinics, physician offices, schools and other community settings. Conflict resolution skills are applied, as needed, to meet client and/or peer learning goals. Delegation skills with peers are also practiced. Students demonstrate continuation of all previously learned nursing skills and must perform safely all advanced nursing skills in this clinical course.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1750L

Corequisite(s):

NUR 2233C .

Note:

Special Nursing Program policies may apply to this course.

NUR 2241C - Nursing Process IV

Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Students differentiate holistic nursing care therapies in primary, secondary and tertiary care settings. Students become proficient in applying all steps in the nursing process with emphasis on evaluating nursing care outcomes. Students apply critical thinking skills in exploring case-based practice situations and work together in simulation seminars to select effective client care improvement processes. Self-evaluation is part of the socialization process to prepare students for the work world as competent, caring staff nurses. Nursing practice issues include licensure standards and continued professional development.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Permission from the Director of Nursing or NUR 2233C ; MAC 1105 or STA 2023

Corequisite(s):

NUR 2241L , NUR 2811L

Prereq/Corequisites:

SYG 2000

Note:

Special Nursing program policies may apply to this course.

NUR 2241L - Nursing Process IV – Clinical Experience

Students apply knowledge and principles of the biophysical and psychosocial sciences to assess, plan, implement and evaluate holistic nursing care of critically ill adults in hospitals, ambulatory care settings, and the home. Students will expand on management of care skills in preparation for their four-week clinical practicum prior to graduation from the program. Students will also shadow a home health/hospice nurse in observing treatment and palliative care of adults and children. Other clinical activities will include experiences in the emergency department and critical care units. Students must demonstrate competency in all

behaviors required for an Associate Degree Nursing graduate.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 2233L

Corequisite(s):

NUR 2241C , NUR 2811L

Note:

Special Nursing Program policies may apply to this course.

NUR 2811L - Nursing Practicum

LPNs who successfully complete NUR 1142, NUR 1231C, NUR 1750L, NUR 2233C and NUR 2233L will receive credit for NUR 1021C, NUR 1021L, and NUR 1141.

This course is a capstone course and provides a time during the last four weeks of the nursing program in which students begin to transition from the student role into the graduate role as an associate degree nurse. Students attend seminar hours and complete standardized testing for evaluation in proficiency in applying all steps in the nursing process with emphasis on evaluating safe nursing care outcomes. Students complete clinical practice hours with an experienced registered nurse preceptor to provide holistic nursing care for a limited number of clients. The focus is on demonstration of all professional behaviors and competencies expected of the associate degree registered nurse graduate at entry level. Clinical experiences provide hands-on learning opportunities, enhancing clinical thinking, safe nursing judgment, and clinical confidence in skills. Clinical experiences take place in a variety of clinical settings and work schedules.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 2233L

Corequisite(s):

NUR 2241C , NUR 2241L

Note:

Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

An introduction to the role of the associate degree nurse in providing direct, holistic nursing care to young, middle-aged and elderly adults who are hospitalized or receiving care in community settings. Emphasis is on applying all steps of the nursing process with focus on assessment skills. Pre-requisite college foundation and nursing courses provide theoretical bases for nursing care. Critical thinking is an expected behavior along with skills in working ethically and effectively with peers and other health care professionals as a team member; demonstrate caring behaviors and therapeutic communication with clients as a provider of bedside, technical nursing care. The student is expected to demonstrate safe performance of basic nursing skills, e.g., medication administration, physical assessment and comfort care of hospitalized adults and nursing home residents.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):

NUR 1231C and NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic

relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L NUR 1021C and NUR 1141 ;or LPN licensure; admission to the AS Nursing Program or permission from the program director

Corequisite(s):

NUR 1750L and NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics, and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Students continue to develop management skills through conflict management and other professional behaviors. Students demonstrate safe performance of all basic and more complex nursing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L or LPN licensure

Corequisite(s):

NUR 1231C .

Note:

Special Nursing Program policies may apply to this course.

NUR 2233C - Nursing Process III

Students continue to use the nursing process and critical thinking with emphasis on primary and secondary prevention as nursing interventions in clients experiencing threats to functional health patterns, including during the childbearing process and children whose normal lines of defense have been invaded by stressors to the degree that hospitalization is necessary. Nursing practice issues continue to focus on ethical-legal issues related to acute and/or chronic illness and disability. Management skills include delegation and career development.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1231C & NUR 1142 or approval from the program director.

Corequisite(s):

NUR 2233L

Prereq/Corequisites:

MCB 2010C

Note:

Special Nursing Program policies may apply to this course.

NUR 2233L - Nursing Process III – Clinical Experience

Students continue to apply knowledge and skills learned in previous nursing courses in providing nursing care for the hospitalized child, the family during the maternity cycle, and adults whose health problems are more complex and/or chronic. Clinical sites include hospitals, health departments, clinics, physician offices, schools and other community settings. Conflict resolution skills are applied, as needed, to meet client and/or peer learning goals. Delegation skills with peers are also practiced. Students demonstrate continuation of all previously learned nursing skills and must perform safely all advanced nursing skills in this clinical course.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1750L

Corequisite(s):
NUR 2233C .

Note:
Special Nursing Program policies may apply to this course.

NUR 2241C - Nursing Process IV
Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Students differentiate holistic nursing care therapies in primary, secondary and tertiary care settings. Students become proficient in applying all steps in the nursing process with emphasis on evaluating nursing care outcomes. Students apply critical thinking skills in exploring case-based practice situations and work together in simulation seminars to select effective client care improvement processes. Self-evaluation is part of the socialization process to prepare students for the work world as competent, caring staff nurses. Nursing practice issues include licensure standards and continued professional development.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Permission from the Director of Nursing or NUR 2233C ; MAC 1105 or STA 2023

Corequisite(s):
NUR 2241L , NUR 2811L

Prereq/Corequisites:
SYG 2000

Note:
Special Nursing program policies may apply to this course.

NUR 2241L - Nursing Process IV – Clinical Experience
Students apply knowledge and principles of the biophysical and psychosocial sciences to assess, plan, implement and evaluate holistic nursing care of critically ill adults in hospitals, ambulatory care settings, and the home. Students will expand on management of care skills in preparation for their four-week clinical practicum prior to graduation from the program. Students will also shadow a home health/hospice nurse in observing treatment and palliative care of adults and children. Other clinical activities will include experiences in the emergency department and critical care units. Students must demonstrate competency in all behaviors required for an Associate Degree Nursing graduate.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L

Corequisite(s):
NUR 2241C , NUR 2811L

Note:
Special Nursing Program policies may apply to this course.

NUR 2811L - Nursing Practicum
LPNs who successfully complete NUR 1142, NUR 1231C, NUR 1750L, NUR 2233C and NUR 2233L will receive credit for NUR 1021C, NUR 1021L, and NUR 1141.

This course is a capstone course and provides a time during the last four weeks of the nursing program in which students begin to transition from the student role into the graduate role as an associate degree nurse. Students attend seminar hours and complete standardized testing for evaluation in proficiency in applying all steps in the nursing process with emphasis on evaluating safe nursing care outcomes. Students complete clinical practice hours with an experienced registered nurse preceptor to provide holistic nursing care for a limited number of clients. The focus is on demonstration of all professional behaviors and competencies expected of the associate degree registered nurse graduate at entry level. Clinical experiences provide hands-on learning opportunities, enhancing clinical thinking, safe nursing judgment, and clinical confidence in skills. Clinical experiences take place in a variety of clinical settings and work schedules.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L

Corequisite(s):
NUR 2241C , NUR 2241L

Note:
Special Nursing Program policies may apply to this course.

Total Core Credits Required: 52

Technical Electives (Not Required)

NUR 1940L - Nursing Clinical Externship

This elective course is designed to offer students the opportunity to gain additional clinical skills practice during the summer semester. Working with a preceptor and the nursing faculty in area hospitals, clinics, or community settings , the student will be able to perform all skills learned in successfully completed nursing courses.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

admission to the AS Nursing Program; NUR 1750L or NUR 1021L

Note:

Special Nursing Program policies may apply to this course.

Core Courses

A minimum grade of "C" in each Core course is required.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required clinical nursing courses in the nursing curriculum. Theory content includes an introduction to healthcare systems ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program and BSC 1085C

Corequisite(s):

NUR 1021L

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1021L - Nursing Process I Clinical Experience

This course introduces students to the role of the Associate Degree Nurse in providing direct, holistic nursing care to young,

middle-aged and older adults who are hospitalized or in community settings. Students are introduced to all steps of the nursing process with a focus on assessment skills. Students will identify self-learning needs and set their own goals for improvement. Critical thinking and working effectively with peers and other healthcare professionals as a team member is expected. The demonstration of caring behaviors and therapeutic communication as a provider of bedside, technical nursing care is emphasized. Students must demonstrate safe performance of basic nursing skills, including but not limited to medication administration, physical assessment, and comfort care.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Corequisite(s):

NUR 1021C .

Note:

Special Nursing Program policies may apply to this course.

NUR 1141 - Pharmacologic Principles in Nursing I

This course introduces students to concepts and principles of pharmacology related to safe administration of therapeutic agents within the nursing process framework. Students begin to learn major drug classifications and selected exemplars along with principles of safe, effective administration of drugs. Students will learn dosage calculations, factors that affect the absorption, excretion, distribution, and metabolism of drugs, as well as drug actions, adverse effects, and interactions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Note:

Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

An introduction to the role of the associate degree nurse in providing direct, holistic nursing care to young, middle-aged and elderly adults who are hospitalized or receiving care in community settings. Emphasis is on applying all steps of the nursing process with focus on assessment skills. Pre-requisite college foundation and nursing courses provide theoretical bases for nursing care. Critical thinking is an expected behavior along with skills in working ethically and effectively with peers and other health care professionals as a team member; demonstrate caring behaviors and therapeutic communication with clients as a provider of bedside, technical nursing care. The student is expected to demonstrate safe performance of basic nursing skills, e.g., medication administration, physical assessment and comfort care of hospitalized adults and nursing home residents.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):

NUR 1231C and NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L NUR 1021C and NUR 1141 ;or LPN licensure; admission to the AS Nursing Program or permission from the program director

Corequisite(s):

NUR 1750L and NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics, and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Core Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1003 - Introduction to Paralegal Studies

This course is designed to give students a broad understanding of the nature of the paralegal profession and the elements contained within the profession, as well as its responsibility.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1005 - Legal Terminology

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for students seeking careers in legal secretary technology or legal assisting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1114 - Legal Research and Writing

This course is designed to provide the student with necessary skills and knowledge required in legal research/case analysis and legal writing.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
PLA 1003 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court systems of the various states and the federal government in a non-criminal setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 27

Total Core Credits Required: 27

Technical Elective Courses

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):
BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):
none

Note:
▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CJL 1100 - Criminal Law

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 27

Total Core Credits Required: 27

Technical Elective Courses

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CJL 1100 - Criminal Law

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

Total Technical Elective Credits Required: 15

Total Technical Elective Credits Required: 15

Total Program Credits Required: 60

Paramedic (CCC)

Admission Program Objective Code EMPM State CIP Code 0351090405

Admission will be through a Limited Access application process. Graduates will be eligible to sit for the Paramedic certification exam. The curriculum forms the core of the Emergency Medical Services (AS) degree (State CIP Code 1351090402). Students

may "add on" general education credits and some college credit electives to the Paramedic certificate and earn the A.S. degree. Students interested in pursuing this program should contact the Emergency Medical Services Office (850) 729-5378.

Core Courses

BSC 2020C - Human Structure and Function

OR BSC 1085C - Anatomy and Physiology I AND BSC 1086C - Anatomy and Physiology II

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

EMS 2231C - Paramedic Processes I

First course in the sequence necessary for Paramedic program completion. Designed to integrate concepts and clinical skills learned at the EMT level with advanced life support concepts and skills. Emphasis on patient assessment, pulmonary anatomy and physiology, advanced airway management, pathophysiology and clinical management of shock, medical emergencies and traumatic injuries. Course is consistent with most current Department of Transportation (DOT) curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Paramedic program.

EMS 2232C - Paramedic Processes II

Second course in the sequence necessary for Paramedic program completion. Integrates and reinforces concepts and clinical skills learned in Paramedic Processes I, with emphasis on pharmacology, cardiology and Advanced Cardiac Life Support (ACLS) skills. Other topics include assessment and management of OB/GYN emergencies, psychiatric emergencies, pediatric emergencies, musculoskeletal injuries and mass casualty situations. Consistent with the most current DOT curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2436L .

EMS 2233 - Paramedic Processes III

The final course necessary for Paramedic program completion. Designed to prepare the student for both Florida State Board and National Registry examinations. Emphasizes the integration of paramedic knowledge, attitudes and behaviors. Course consistent with the most current DOT curriculum.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2425L .

EMS 2425L - Paramedic Externship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

permission of the instructor

Corequisite(s):

EMS 2233 .

EMS 2435L - Paramedic Lab I

The clinical and skills laboratory companion course to EMS 2231C. Designed to provide instruction in advanced paramedic skills and the opportunity to apply these skills in the clinical setting. By state rule, the instructor-to-students ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Paramedic program

Corequisite(s):

EMS 2231C .

EMS 2436L - Paramedic Lab II

This course is the clinical companion course to EMS 2232C, Paramedic Processes II. It is designed to provide instruction in the advanced paramedic skills and the opportunity to apply them in the clinical setting. By state rule, the instructor-to-student ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

EMS 2435L

Corequisite(s):

EMS 2232C .

EMS 2438C - Advanced Clinical Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

EMS 2232C , EMS 2436L and permission of the instructor

EMS 2526 - Twelve-Lead EKG Interpretation

Designed for the EMS student. Fundamentals of twelve-lead electrocardiogram (EKG) interpretation. Emphasis on scenario-based and case-based learning that reinforces the concept that 12-lead EKG technology is the best tool for visualization of the surfaces of the heart, identification of sites of ischemia, injury and infarction, as well as various intricate conduction abnormalities.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2552 - Advanced Cardiac Life Support (ACLS)

An intense overview of the guidelines for emergency cardiac care and cardiac arrest management as published by the American Heart Association. Students must successfully pass a written examination and a skills proficiency performance examination to receive the "ACLC Provider" and successfully pass the course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate and CPR for Health Care Providers certification.

EMS 2553 - Pediatric Advanced Life Support (PALS)

Designed for the EMS student. Fundamentals of recognizing infants and children who are at risk for cardiopulmonary arrest, including the strategies that are needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2555 - International Trauma Life Support (ITLS)

Fundamentals of managing traumatic injuries at the basic and advanced levels in accordance with the national Basic Trauma Life Support committee. The recognition and treatment of specific traumatic injuries such as pneumothorax, closed head injury, hemothorax, compensated and decompensated shock, fractures, uncontrolled bleeding, internal injuries of the abdomen and thorax. Emphasis is on rapid assessment, management and transport with discussion on mechanism of injury and kinematics of trauma.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certification or permission from the instructor.

HSC 1531 - Medical Terminology

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Program Credits Required: 42

Preschool Specialization (CCC)

Admission Program of Study Code CCPS State CIP Code 0419070908
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Core Courses

DEP 2100 - Child Growth and Development
This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education
Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1309 - Early Childhood Education Foundations
Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1949 - Internship, Early Childhood Education
On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
EEC 1309 or EEC 1201 .

Rapid Prototyping Specialist (CCC)

Admission Program of Study Code RAPP State CIP Code 0615000012
Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS) or the Engineering Technology - Digital Design & Modeling Specialization Option (AS) Option (Both State CIP Code 1615000001).

Core Courses

ETD 2364C - SolidWorks I

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Note:

▲Technology-Across-the-Curriculum Course.

ETD 2368C - SolidWorks II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ETD 2364C or higher or equivalent.

Note:

▲Technology-Across-the-Curriculum Course.

ETD 2371C - 3D Printing I

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2372C - 3D Printing II

The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 2371C or permission of the instructor.

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2372C - 3D Printing II

The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

ETD 2371C or permission of the instructor.

Total Technical Elective Credits Required: 12

Core Courses

ETD 2364C - SolidWorks I

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Note:

▲Technology-Across-the-Curriculum Course.

ETD 2368C - SolidWorks II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ETD 2364C or higher or equivalent.

Note:

▲Technology-Across-the-Curriculum Course.

ETD 2371C - 3D Printing I

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of

specialization to explore methods and materials in a number of options in industrial environment with the use of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2372C - 3D Printing II

The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2371C or permission of the instructor.

Total Technical Elective Credits Required: 12

Radiography (AS)

Admission Program Objective Code RADT State CIP Code 1351090700

The Radiography program is based on selective admission, subject to additional policies and licensure requirements. The admission criteria and process are subject to change; students should refer to the Selective Program Admissions Radiography (AS) webpage for the most current information. All courses in the Radiography program, including required general education and core courses, must be completed with a minimum grade of "C" to graduate with the AS Degree in Radiography. Graduates are eligible to sit for the ARRT certification exam. For additional information, contact the Health Technology Department at (850) 729-6444.

Please note: In order to be a part of the Radiography program applicant pool, students must declare Radiography as their intended major on the online admissions application.

General Education

____ ____ - Communication Skills 3 Credit Hours

____ ____ - Humanities 3 Credit Hours

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development

MAC 1105 - College Algebra , an equivalent, or higher level math course 3 Credit Hours

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Total General Education Credits Required: 20

Total General Education Credits Required: 20

Core Courses

RTE 1000 - Introduction to Radiologic Technology

This course is designed to provide an overview of the history of radiography and the role and scope of practice of the practitioner in the healthcare delivery system. Organizations, accreditation, federal agencies, regulatory agencies (including OSHA), and professional credentialing will be discussed. Content includes a fundamental background in medical law, ethics, human diversity, and patient consent. The student will examine a variety of ethical issues and dilemmas found in clinical practice, as well as developing a better understanding of patients, the patient's families, and professional peers through comparison of diverse populations based on value systems, cultural and ethnic influences, communication styles, and socioeconomic influences. Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed. Background check, drug screening, training, and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Summer, Offered as needed) Prerequisite(s):

Admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography, conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1418 .

Corequisite(s):

RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):
RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures (chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000

Corequisite(s):
RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1804L

Corequisite(s):
RTE 1513C .

RTE 1824L - Radiography Clinical Education III

This course is a continuation of Radiography Clinical Education II. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I and II. The student will gain experience and develop clinical competence in general radiographic procedures such as the cranium and specialized contrast studies. Advanced patient care skills, critical thinking, imaging and exposure techniques, radiation protection application and image processing will be emphasized. This rotation covers clinical experience in all phases of fundamental radiologic procedures and image critique. Students will rotate through ancillary departments in this course.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1814L

Corequisite(s):
RTE 2523C .

RTE 2061 - Radiographic Preparation for Practice

This course is designed review information in preparation for the student to take the American Registry of Radiologic Technologist (ARRT) registry examination. The course will cover patient care and education, image production, equipment operation and maintenance, radiographic procedures and radiation protection. The student will also be given simulated registry examinations for practice and assessment purposes.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2854L .

RTE 2385 - Radiographic Protection and Biology

This course is designed to provide the student with an overview of the principles of interaction of ionizing radiation with living systems. Ionizing effects on molecules, cells, tissues and the body as a whole are presented, along with factors affecting biological response, including; acute, chronic, stochastic and non-stochastic effects. This course is also designed to present an overview of the principles of radiation protection including the responsibilities of the radiographer for patients, personnel and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and healthcare organizations are incorporated, as are the various methods of monitoring radiation exposure and acceptable dose limit values.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000 , RTE 1418 , RTE 1457C , RTE 2523C

Corequisite(s):
RTE 2844L .

RTE 2473 - Radiographic Quality Assurance
This course is designed to introduce the radiography student to evaluation methodology of radiographic systems to assure consistency in the production of quality images. Image critique, fluoroscopy, malfunctions, and specifications are some of the topics covered in the course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1418 , RTE 1457C

Corequisite(s):
RTE 2844L .

RTE 2523C - Radiographic Procedures III
This course is a continuation of RTE 1513C covering cranium procedures and positioning. It is designed to provide the student with instruction in more complex radiographic procedures such as fluoroscopy, urinary studies, bone age, trauma, pediatrics, mobile and surgical radiography. Included is instruction in additional modalities and studies such as CT, MRI, arthography, myelography, and vascular studies. Attention will be given to the specialized equipment, contrast media, critical thinking and techniques necessary to perform these procedures. Radiographic anatomy, pathology, and critique of images are included in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1513C

Corequisite(s):
RTE 1824L .

RTE 2782 - Radiographic Pathology
This course is designed to introduce theories of disease causation and the pathophysiologic disorder that compromise healthy persons. Etiology, pathophysiologic responses, clinical manifestations, and radiographic appearance of alterations in body systems will be presented. Emphasis will be placed on pathological findings on diagnostic radiographic images.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2854L .

RTE 2844L - Radiography Clinical Education IV
This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1824L

Corequisite(s):
RTE 2385 .

RTE 2854L - Radiography Clinical Education V

All RTE courses must be completed with a grade of 75 or higher to progress in the Radiography Program.
This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2061 .

RTE 2571 - Introduction to Computed Tomography

This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):

RTE 1418

RTE 2533C - Radiographic Procedures IV

This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 2523C

Corequisite(s):

RTE 2844L

Total Core Credits Required: 57

Total Program Credits Required: 77

Total Program Credits Required: 77

Suggested Two Year Academic Plan

Core Courses

RTE 1000 - Introduction to Radiologic Technology

This course is designed to provide an overview of the history of radiography and the role and scope of practice of the practitioner in the healthcare delivery system. Organizations, accreditation, federal agencies, regulatory agencies (including OSHA), and professional credentialing will be discussed. Content includes a fundamental background in medical law, ethics, human diversity, and patient consent. The student will examine a variety of ethical issues and dilemmas found in clinical practice, as well as developing a better understanding of patients, the patient's families, and professional peers through comparison of diverse populations based on value systems, cultural and ethnic influences, communication styles, and socioeconomic influences. Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed. Background check, drug screening, training, and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Summer, Offered as needed) Prerequisite(s):

Admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging

with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography, conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1418 .

Corequisite(s):

RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):

RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures (chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1000

Corequisite(s):

RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1804L

Corequisite(s):

RTE 1513C .

RTE 1824L - Radiography Clinical Education III

This course is a continuation of Radiography Clinical Education II. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I and II. The student will gain experience and develop clinical competence in general radiographic procedures such as the cranium and specialized contrast studies. Advanced patient care skills, critical thinking, imaging and exposure techniques, radiation protection application and image processing will be emphasized. This rotation covers clinical experience in all phases of fundamental radiologic procedures and image critique. Students will rotate through ancillary

departments in this course.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1814L

Corequisite(s):
RTE 2523C .

RTE 2061 - Radiographic Preparation for Practice

This course is designed review information in preparation for the student to take the American Registry of Radiologic Technologist (ARRT) registry examination. The course will cover patient care and education, image production, equipment operation and maintenance, radiographic procedures and radiation protection. The student will also be given simulated registry examinations for practice and assessment purposes.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2854L .

RTE 2385 - Radiographic Protection and Biology

This course is designed to provide the student with an overview of the principles of interaction of ionizing radiation with living systems. Ionizing effects on molecules, cells, tissues and the body as a whole are presented, along with factors affecting biological response, including; acute, chronic, stochastic and non-stochastic effects. This course is also designed to present an overview of the principles of radiation protection including the responsibilities of the radiographer for patients, personnel and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and healthcare organizations are incorporated, as are the various methods of monitoring radiation exposure and acceptable dose limit values.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000 , RTE 1418 , RTE 1457C , RTE 2523C

Corequisite(s):
RTE 2844L .

RTE 2473 - Radiographic Quality Assurance

This course is designed to introduce the radiography student to evaluation methodology of radiographic systems to assure consistency in the production of quality images. Image critique, fluoroscopy, malfunctions, and specifications are some of the topics covered in the course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1418 , RTE 1457C

Corequisite(s):
RTE 2844L .

RTE 2523C - Radiographic Procedures III

This course is a continuation of RTE 1513C covering cranium procedures and positioning. It is designed to provide the student with instruction in more complex radiographic procedures such as fluoroscopy, urinary studies, bone age, trauma, pediatrics, mobile and surgical radiography. Included is instruction in additional modalities and studies such as CT, MRI, arthography, myelography, and vascular studies. Attention will be given to the specialized equipment, contrast media, critical thinking and techniques necessary to perform these procedures. Radiographic anatomy, pathology, and critique of images are included in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1513C

Corequisite(s):
RTE 1824L .

RTE 2782 - Radiographic Pathology

This course is designed to introduce theories of disease causation and the pathophysiologic disorder that compromise healthy persons. Etiology, pathophysiologic responses, clinical manifestations, and radiographic appearance of alterations in body systems will be presented. Emphasis will be placed on pathological findings on diagnostic radiographic images.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2854L .

RTE 2844L - Radiography Clinical Education IV

This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1824L

Corequisite(s):
RTE 2385 .

RTE 2854L - Radiography Clinical Education V

All RTE courses must be completed with a grade of 75 or higher to progress in the Radiography Program.
This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2061 .

RTE 2571 - Introduction to Computed Tomography

This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):
RTE 1418

RTE 2533C - Radiographic Procedures IV

This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2844L

Total General Education Credits Required: 18

Core Courses

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

PEM 1131A - Strength Training

This course is a high intensity lecture/demonstration and flexible lab hour weight training program designed to increase the size, strength, and endurance of the skeletal muscle system. Instruction includes, but is not limited to, weight training safety, etiquette, history, and nutrition. Instruction will be given in the design of progressive resistance programs to increase total body efficiency and to meet the objectives of the individual student. Students are responsible for determining fitness for training, and those with medical problems which restrict personal activities are encouraged to obtain medical clearance before enrolling in the course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 1000 - Introduction to Physical Education

A study of the history of physical education and sport with particular emphasis placed on present practices and trends.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 2622 - Care and Prevention of Athletic Injuries

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

LEI 1544 - Outdoor Recreation Management

This course examines the fundamental influences on outdoor recreation. The course also provides information on hazards, conservation considerations, and safety factors in planning and organizing outdoor recreations. Basic first aid, CPR, and AED training is incorporated as it pertains to outdoor recreation. Field trips may be assigned as warranted.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Total Core Credits Required: 21

Total Core Credits Required: 21

Technical Elective Courses

CCJ 1020 - Introduction to Criminal Justice

An introduction to the philosophical and historical background of law enforcement and the administration of criminal justice. Organization and jurisdiction of local, state, and federal law enforcement agencies, court and criminal procedures, career opportunities in the Criminal Justice field are also covered.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CLP 1001 - Personal Adjustment

Psychology of adjustment, application of psychological theory for problem solving and better mental health. An examination of psychological defense mechanisms and adaptive behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CLP 2140 - Abnormal Psychology

A study of the different problems in psychopathology, including anxiety, depression, social deviance, psychosis, schizophrenia, mental retardation and general brain dysfunction of both children and adults, with emphasis on descriptive etiology, known causes, and treatments.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PSY 2012 .

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EDF 1005 - Introduction to the Teaching Profession

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education, BS Middle Grades Math, or BS Middle Grades General Science). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ENC 1101 AND (MAC 1105 or STA 2023)

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology and services available in connection with exceptional children including: hearing and speech problems, learning disabilities, mental retardation, blind, physically handicapped, gifted, emotional conflicts, and parents of exceptional children.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as

well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIN 1670 - Writing and Grammar

The course includes practice in writing short essays and encompasses a comprehensive review of grammar and mechanics. This course is strongly recommended for students who have completed Developmental Writing, those who want a preparation for Composition, or those who score 103-116 on the PERT.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal achievement, successful completion of any required developmental English coursework with a minimum grade of "C", or exemption from placement testing.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAT 1033A - Intermediate Algebra

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PEM 2108 - Fitness Lab

Instruction and participation in an exercise program with emphasis on muscle endurance, strength and flexibility.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

HLP 1081 or approved wellness assessment by the department chair.

Note:

This course may be taken up to four times for credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

____ ____ - Selected Activity Courses (PEL, PEM, PEO) 4 Credit Hours

____ ____ - Other Approved College Credits

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Stage Technology (Theater & Entertainment) (CCC)

Admission Program of Study Code STGT State CIP Code 0650050201
Students who successfully complete this certificate may be eligible to receive credits towards one of the following Theatre and Entertainment A.S. degree options:
Theater and Entertainment Technology - Acting Specialization Option (AS) (State CIP Code 1650050202)
Theater and Entertainment Technology - Costuming Specialization Option (AS) (State CIP Code 0650050202)
Theater and Entertainment Technology - Technical Theater Specialization Option (AS) (State CIP Code 0650050202)

Core Courses

TPA 1210 - Stagecraft

This course is an introduction to the principles of stagecraft: stage terminology, stage safety, instruction in proper use of shop tools, basic theater construction methods, understanding of theatrical rigging, and understanding of general background practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas

and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):
TPA 1290

TPA 2212 - Sound Production for the Stage

This course is an introduction to audio production and reinforcement for the stage. Students will learn how to use and maintain equipment, record and edit sound effects, and mixing live sound. Emphasis will be placed on digital audio techniques and equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Technical Required Courses

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1190 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through

modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
TPP 2110 .

TPP 2141 - Acting in Shakespeare

This course is an introduction to the concepts, principles, and skills needed to develop characters in Shakespeare's plays. The course focuses on the hidden clues in the text to discover character choices and meaning. Specific analysis and the techniques of scansion are introduced as they relate to character interpretation. Application of these techniques will be presented in scenes and monologues.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2150 - Advanced Scene Study

This course is a continuation of the processes and concepts of TPP 2111, Acting II, with the addition of new techniques to create dynamic and engaging characterizations through performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2533 - Stage Combat I (Unarmed & Rapier)

Through in-class study and performance the student will develop an understanding of and proficiency in the safe techniques of unarmed and rapier stage combat which are required of a theatrical performer. Application of these techniques will be presented in two scenes, one for unarmed and one for rapier.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 1940 - Internship in Theatre Performance

The emphasis of this course is on applied learning and vocational experience in the theatre performance field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2220 - Auditioning

This course explores audition techniques for the stage. Students will be better prepared to audition in professional settings.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2120 - Improvisation

This course explores the use of creativity and imagination, engaging the actor in a wide variety of improvisational theatre games.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed

Technical Required Courses

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s): experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s): TPP 1190 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s): TPP 2110 .

TPP 2141 - Acting in Shakespeare

This course is an introduction to the concepts, principles, and skills needed to develop characters in Shakespeare's plays. The course focuses on the hidden clues in the text to discover character choices and meaning. Specific analysis and the techniques of scansion are introduced as they relate to character interpretation. Application of these techniques will be presented in scenes and monologues.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2150 - Advanced Scene Study

This course is a continuation of the processes and concepts of TPP 2111, Acting II, with the addition of new techniques to create dynamic and engaging characterizations through performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2533 - Stage Combat I (Unarmed & Rapier)

Through in-class study and performance the student will develop an understanding of and proficiency in the safe techniques of unarmed and rapier stage combat which are required of a theatrical performer. Application of these techniques will be presented in two scenes, one for unarmed and one for rapier.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Theater and Entertainment Technology - Costuming Specialization Option (AS)

Admission Program Objective Code THTC State CIP Code 1650050202

Students who successfully complete selected courses from this program of study may be eligible to receive the Stage Technology (Theater & Entertainment) (CCC) certificate (State CIP Code 0650050201).

Technical Required Courses

HUM 1905A - Independent Study – Arts and Humanities

A defined independent study which is pursued under supervision of a faculty directing teacher and recorded through departmental procedures. Designed to permit a student to pursue nonscheduled academic and laboratory work which may be of a specialized or advanced nature and not available through classes or courses available on a college schedule. Departmental approval is required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
approval from department chair, a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1190 .

TPP 1192 - Rehearsal and Performance III

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1191 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2930 - Theater Performance – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

TPA 2331 - Costume Construction

An introduction to costume construction techniques and wardrobe design. Topics span a wide range: costume construction techniques, problems in costumes, costume history, construction styles, sewing machine practices, seam finishes, flat pattern layout and production techniques. This course is intended to develop practical experiences in costume construction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
TPA 2232

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):
TPA 1290

TPA 1940 - Internship in Theatre Design or Production

The emphasis of this course is on applied learning and vocational experience in the technical theatre field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2063 - Principles of Scenic Design

This course is a detailed introduction to the principles and techniques used in scene design. The course will include the discussion and practice in analyzing scripts, visualizing a design concept, drafting, paint elevations and rendering and/or modeling techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 2343

Suggested Two Year Academic Plan

Technical Required Courses

HUM 1905A - Independent Study – Arts and Humanities

A defined independent study which is pursued under supervision of a faculty directing teacher and recorded through departmental procedures. Designed to permit a student to pursue nonscheduled academic and laboratory work which may be of a specialized or advanced nature and not available through classes or courses available on a college schedule. Departmental approval is required. Placement test is required. The course includes Writing-Across-The-Curriculum. If used to meet Gordon Rule requirements for general education, a minimum grade of "C" is also required.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
approval from department chair, a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1190 .

TPP 1192 - Rehearsal and Performance III

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1191 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2930 - Theater Performance – Special Topics

A defined special topics course which is pursued under supervision of a faculty member and recorded through usual departmental procedures. Designed to permit a student to pursue non-scheduled academic and laboratory work which may be of a specialized nature and not available through the college schedule.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

TPA 2331 - Costume Construction

An introduction to costume construction techniques and wardrobe design. Topics span a wide range: costume construction techniques, problems in costumes, costume history, construction styles, sewing machine practices, seam finishes, flat pattern layout and production techniques. This course is intended to develop practical experiences in costume construction.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
TPA 2232

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):
TPA 1290

TPA 1940 - Internship in Theatre Design or Production

The emphasis of this course is on applied learning and vocational experience in the technical theatre field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2063 - Principles of Scenic Design

This course is a detailed introduction to the principles and techniques used in scene design. The course will include the discussion and practice in analyzing scripts, visualizing a design concept, drafting, paint elevations and rendering and/or modeling techniques.

Theater and Entertainment Technology - Dance Specialization Option (AS)

Technical Required Courses

DAA 1200 - Fundamentals of Ballet (can be completed four times for credit)

This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1520 - Tap I

(to be completed twice for program credit)

This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1681 - Dance Ensemble

(to be completed three times for audit)

The student shall participate in the preparation and performance of original dance compositions to include Dance Line and Show Choir performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

level of competency determined by audition.

Note:

This course may be taken up to four times for credit.

DAA 2610 - Dance Composition

An introduction and practice in the application of compositional tools encourages the student to explore and compose dance. By studying the body's movement in time and space the student will improve technical skills, develop improvisation and choreographic skills and enhance overall dance performance. Previous dance experience is helpful.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 2683 - Performance Dance, (Repertory and/or Original Choreography)

(to be completed twice for program credit)

This course includes the continuation of study and participation in all rehearsals of selected works of dance repertory and/or original choreography culminating in public performance.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAN 1750 - Dance Conditioning

(to be completed twice for program credit)

Dance Conditioning is an excellent course in which to begin your dance training. It is designed to improve fundamentals for the beginning/intermediate student through daily practice in floor work, yoga, and Pilates exercises. This movement class will get you ready to meet the challenges of other dance classes by toning, strengthening and preparing the body to move.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1104 - Modern I for Majors

(to be completed twice for program credit)

This dance class is designed to affect an understanding of the art of the modern dance. It includes a brief history of the dance; instruction and practice in basic dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time. This course maybe taken 4 times for credit.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1204 - Ballet I for Majors

(to be completed twice for program credit)

A beginning dance course designed to serve as an introduction to the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1504 - Jazz I for Majors

(to be completed twice for program credit)

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 2105 - Modern II for Majors (can be completed four times for credit)

This dance class is designed to further the student's understanding of the art of the modern dance. It includes continued study in history of the dance; instruction and practice in intermediate level dance techniques, improvisation, and dance forms. DAA 2205 - Ballet II for Majors (can be completed four times for credit)

This dance course is designed to serve as an further training in the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

Total Technical Credits Required: 33

Technical Required Courses

DAA 1200 - Fundamentals of Ballet (can be completed four times for credit)

This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1520 - Tap I

(to be completed twice for program credit)

This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1681 - Dance Ensemble

(to be completed three times for audit)

The student shall participate in the preparation and performance of original dance compositions to include Dance Line and Show Choir performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

level of competency determined by audition.

Note:

This course may be taken up to four times for credit.

DAA 2610 - Dance Composition

An introduction and practice in the application of compositional tools encourages the student to explore and compose dance. By studying the body's movement in time and space the student will improve technical skills, develop improvisation and choreographic skills and enhance overall dance performance. Previous dance experience is helpful.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 2683 - Performance Dance, (Repertory and/or Original Choreography)

(to be completed twice for program credit)

This course includes the continuation of study and participation in all rehearsals of selected works of dance repertory and/or original choreography culminating in public performance.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAN 1750 - Dance Conditioning

(to be completed twice for program credit)

Dance Conditioning is an excellent course in which to begin your dance training. It is designed to improve fundamentals for the beginning/intermediate student through daily practice in floor work, yoga, and Pilates exercises. This movement class will get you ready to meet the challenges of other dance classes by toning, strengthening and preparing the body to move.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1104 - Modern I for Majors

(to be completed twice for program credit)

This dance class is designed to affect an understanding of the art of the modern dance. It includes a brief history of the dance; instruction and practice in basic dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time. This course maybe taken 4 times for credit.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1204 - Ballet I for Majors

(to be completed twice for program credit)

A beginning dance course designed to serve as an introduction to the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1504 - Jazz I for Majors

(to be completed twice for program credit)

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 2105 - Modern II for Majors (can be completed four times for credit)
This dance class is designed to further the student's understanding of the art of the modern dance. It includes continued study in history of the dance; instruction and practice in intermediate level dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

DAA 1680 - Dance Workshop

(to be completed four times for audit)

This course includes instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

MVV 1211 - Applied Music – Voice I

Private instruction in voice, as a secondary instrument, consisting of one half-hour session per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

MVV 2221 - Applied Music – Voice II

Private instruction in voice, as a secondary instrument, consisting of one half-hour lesson per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVV 1211 .

Note:

This course may be taken up to four times for credit.

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
TPP 2110 .

TPP 2250 - Introduction to Musical Theatre

Introduction to the study of Musical Theater analysis, creation, and performance with an emphasis on singing, dancing, and acting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

MVV 1311 - Applied Music - Voice I for Majors

Private instruction in voice in the freshman year of study as the student's principal performing medium. This one hour weekly lesson is for intended voice majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVV 1211 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

MVV 2322 - Applied Music - Voice II for Majors

Private instruction in voice in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended voice majors, and requires Division Chair Approval. A major component of this class is a required juried performance at the end of the semester for which six memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MVV 1211 , MVV 1311 and Division Chair approval.

Note:
This course may be taken up to four times for credit.

DAA 1500 - Jazz I for Non-Majors

(to be completed twice for program credit)
The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Theater and Entertainment Technology - Technical Theater Specialization Option (AS)

Admission Program Objective Code THTT State CIP Code 1650050202
Students who successfully complete selected courses from this program of study may be eligible to receive the Stage Technology (Theater & Entertainment) (CCC) certificate (State CIP Code 0650050201).

Technical Required Courses

TPA 1290 - Technical Theatre Lab I
This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design
An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2276C - Entertainment Technology - Crafts
This course presents the practices and principles of advanced woodworking, welding, smithing, casting, ceramics, plaster work,

fiberglass and plastic technology for the entertainment industry. State of the art tool technology, shop and field practice, health and safety standards will be emphasized. These crafts are entertainment industry oriented that will use items created in a realized production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
TPA 1210 .

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):
TPA 1290

TPA 1940 - Internship in Theatre Design or Production

The emphasis of this course is on applied learning and vocational experience in the technical theatre field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2063 - Principles of Scenic Design

This course is a detailed introduction to the principles and techniques used in scene design. The course will include the discussion and practice in analyzing scripts, visualizing a design concept, drafting, paint elevations and rendering and/or modeling techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 2343

TPA 2212 - Sound Production for the Stage

This course is an introduction to audio production and reinforcement for the stage. Students will learn how to use and maintain equipment, record and edit sound effects, and mixing live sound. Emphasis will be placed on digital audio techniques and equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2292 - Technical Theatre Lab III

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Technical Required Courses

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

TPA 1210

TPA 2276C - Entertainment Technology - Crafts

This course presents the practices and principles of advanced woodworking, welding, smithing, casting, ceramics, plaster work, fiberglass and plastic technology for the entertainment industry. State of the art tool technology, shop and field practice, health and safety standards will be emphasized. These crafts are entertainment industry oriented that will use items created in a realized production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

TPA 1210 .

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):

TPA 1290

TPA 1940 - Internship in Theatre Design or Production

The emphasis of this course is on applied learning and vocational experience in the technical theatre field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2063 - Principles of Scenic Design

This course is a detailed introduction to the principles and techniques used in scene design. The course will include the discussion and practice in analyzing scripts, visualizing a design concept, drafting, paint elevations and rendering and/or modeling techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 2343

TPA 2212 - Sound Production for the Stage

This course is an introduction to audio production and reinforcement for the stage. Students will learn how to use and maintain equipment, record and edit sound effects, and mixing live sound. Emphasis will be placed on digital audio techniques and equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2292 - Technical Theatre Lab III

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 1291

TPA 2301 - Technical Theatre Lab IV

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 2292

TPA 2343 - CAD for the Theatre

This course is project oriented covering fundamental through advanced material in computer aided drafting and design and its application for the theatre.

AA Degree General Education Requirements

Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an advisor, who will assist with selecting the college credits most advantageous to the student's educational goals.

To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. Beginning with students initially entering a Florida College System institution or state university in 2015-2016 and thereafter, each student must complete at least one identified core course (designated with ♦) in each area of study as part of the general education course requirements. Furthermore, NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

AA General Education Requirements

Communications: 6

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

♦ Core General Education ▲ Technology-Across-the Curriculum ¶ Writing requirements

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Humanities: 6

Core Humanities

ARH 1000 - Art Appreciation
This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction
A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature: Antiquity through the Renaissance

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s): ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature: Renaissance through the Present

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered, Fall, Spring, Summer) Prerequisite(s): ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2300 - Introduction to World Religions

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

† Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

ENC 1101

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Communications: 6

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
▲ Technology-Across-the-Curriculum Course
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

♦ Core General Education ▲ Technology-Across-the Curriculum ¶ Writing requirements
Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part

of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 6

Core Mathematics

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and

consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

completion of MAC 1105 or equivalent with a “C” or better.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

Humanities: 6

Core Humanities

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – lntroduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

General Humanities

AML 2010 - American Literature: 1492 - 1865

A course in American Literature from the pre-Colonial period to the Civil War. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2020 - American Literature: 1865 - Present

A course in American Literature from Civil War to present. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: AML 2010 is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from

placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2402 - Art History: Modern Art

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2012A - English Literature: Old English through the Enlightenment

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature: Romantic Period Through the Present

A study of English literature from the Romantic period through the present, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2250 - Humanities – A Contemporary Perspective

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature: Antiquity through the Renaissance

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature: Renaissance through the Present

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect

cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered, Fall, Spring, Summer) Prerequisite(s): ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2300 - Introduction to World Religions

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s): a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

† Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
ENC 1101

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Natural Sciences: 6

Biological Sciences

BOT 1010C - Botany
This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1005 - General Biology
The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II
This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 2020C - Human Structure and Function

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ZOO 1010C - Zoology

♦ Core General Education

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

Physical Sciences

AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GLY 2010C - Principles of Geology I

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2100C - Principles of Geology II

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

ISC 1003 - Natural Disasters – Causes, Consequences, Human Response

This interdisciplinary course investigates natural catastrophic events, such as earthquakes, volcanic eruptions, tsunamis, hurricanes and floods. This class will use an environmental studies approach to examine how modern society exacerbates the damage caused by these natural phenomena and methods to mitigate human suffering. The student will gain an appreciation of humankind's relationship to the natural environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MET 1010C - Introduction to Meteorology

Structure of the atmosphere; weather processes, systems and phenomena; climate and climatic change, economic impact of weather. May be used to satisfy the AA degree Physical Science requirement for career goals other than sciences, engineering and pre-professional fields.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

OCE 1001C - Oceanography

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

OCE 1013C - Aquatic Environmental Science

This course will investigate living and non-living components of aquatic ecosystems. Students will learn how aquatic ecosystems function naturally as well as how human activity can alter these ecosystems. The course is built around field trip(s) and lab work during which students will obtain water quality data from a local aquatic environment. Through field trip(s) and lab work, students will gain appreciation for the local relevance of course material. For both majors and non-majors, a key outcome of such experiences will be gaining experience in using inquiry and reasoning through the scientific method and becoming comfortable with data, technology, and instrumentation. Problem-solving, interpretation of data, and class discussions will be key.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

♦ Core General Education

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AST 1005 - Introduction to Astrobiology

This course will explore the scientific evidence for the possibility, probability, and potential nature of life that might exist beyond the Earth. Contemporary discoveries about current and past conditions suitable for the origin of life on Mars and some of the moons orbiting other planets in our own solar system are reviewed in the context of what we understand about life on Earth. The question of life in other solar systems is also covered. Space travel and problems regarding intelligent extra-terrestrial beings visiting the Earth and intelligent life beyond the Earth but still within our own solar system are also discussed. All this is done in a fashion which integrates the various branches of science required to understand life beyond the Earth: Astronomy, Biology, Chemistry, Geology, and Physics. There are no prerequisites for this course and it may be taught in a team fashion by faculty members from various scientific disciplines.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

Physical Sciences

AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GLY 2010C - Principles of Geology I

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2100C - Principles of Geology II

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

ISC 1003 - Natural Disasters – Causes, Consequences, Human Response

This interdisciplinary course investigates natural catastrophic events, such as earthquakes, volcanic eruptions, tsunamis, hurricanes and floods. This class will use an environmental studies approach to examine how modern society exacerbates the damage caused by these natural phenomena and methods to mitigate human suffering. The student will gain an appreciation of humankind's relationship to the natural environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MET 1010C - Introduction to Meteorology

Structure of the atmosphere; weather processes, systems and phenomena; climate and climatic change, economic impact of weather. May be used to satisfy the AA degree Physical Science requirement for career goals other than sciences, engineering and pre-professional fields.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

OCE 1001C - Oceanography

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

OCE 1013C - Aquatic Environmental Science

This course will investigate living and non-living components of aquatic ecosystems. Students will learn how aquatic ecosystems function naturally as well as how human activity can alter these ecosystems. The course is built around field trip(s) and lab work during which students will obtain water quality data from a local aquatic environment. Through field trip(s) and lab work, students will gain appreciation for the local relevance of course material. For both majors and non-majors, a key outcome of such experiences will be gaining experience in using inquiry and reasoning through the scientific method and becoming comfortable with data, technology, and instrumentation. Problem-solving, interpretation of data, and class discussions will be key.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

♦ Core General Education

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AST 1005 - Introduction to Astrobiology

This course will explore the scientific evidence for the possibility, probability, and potential nature of life that might exist beyond the Earth. Contemporary discoveries about current and past conditions suitable for the origin of life on Mars and some of the moons orbiting other planets in our own solar system are reviewed in the context of what we understand about life on Earth. The question of life in other solar systems is also covered. Space travel and problems regarding intelligent extra-terrestrial beings visiting the Earth and intelligent life beyond the Earth but still within our own solar system are also discussed. All this is done in a fashion which integrates the various branches of science required to understand life beyond the Earth: Astronomy, Biology, Chemistry, Geology, and Physics. There are no prerequisites for this course and it may be taught in a team fashion by faculty members from various scientific disciplines.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

Physical Sciences

AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GLY 2010C - Principles of Geology I

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2100C - Principles of Geology II

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

ISC 1003 - Natural Disasters – Causes, Consequences, Human Response

This interdisciplinary course investigates natural catastrophic events, such as earthquakes, volcanic eruptions, tsunamis, hurricanes and floods. This class will use an environmental studies approach to examine how modern society exacerbates the damage caused by these natural phenomena and methods to mitigate human suffering. The student will gain an appreciation of humankind's relationship to the natural environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MET 1010C - Introduction to Meteorology

Structure of the atmosphere; weather processes, systems and phenomena; climate and climatic change, economic impact of weather. May be used to satisfy the AA degree Physical Science requirement for career goals other than sciences, engineering and pre-professional fields.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

OCE 1001C - Oceanography

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

OCE 1013C - Aquatic Environmental Science

This course will investigate living and non-living components of aquatic ecosystems. Students will learn how aquatic ecosystems function naturally as well as how human activity can alter these ecosystems. The course is built around field trip(s) and lab work during which students will obtain water quality data from a local aquatic environment. Through field trip(s) and lab work, students will gain appreciation for the local relevance of course material. For both majors and non-majors, a key outcome of such experiences will be gaining experience in using inquiry and reasoning through the scientific method and becoming comfortable with data, technology, and instrumentation. Problem-solving, interpretation of data, and class discussions will be key.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

♦ Core General Education

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AST 1005 - Introduction to Astrobiology

This course will explore the scientific evidence for the possibility, probability, and potential nature of life that might exist beyond the Earth. Contemporary discoveries about current and past conditions suitable for the origin of life on Mars and some of the moons orbiting other planets in our own solar system are reviewed in the context of what we understand about life on Earth. The question

of life in other solar systems is also covered. Space travel and problems regarding intelligent extra-terrestrial beings visiting the Earth and intelligent life beyond the Earth but still within our own solar system are also discussed. All this is done in a fashion which integrates the various branches of science required to understand life beyond the Earth: Astronomy, Biology, Chemistry, Geology, and Physics. There are no prerequisites for this course and it may be taught in a team fashion by faculty members from various scientific disciplines.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

Social Sciences: 6

History/Government Social Sciences

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1012 - World Civilization: Early Humans through Global Expansion

A study of world history from 4000 BC to 1650 AD as it relates to the development of western civilization. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communication/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1022 - World Civilization: The Modern Period and Renaissance to the Present

♦ Core General Education
International and/or diversity focus
¶ Writing requirements
Ω Civic Literacy Compentency
A study of history from 1650 AD to the present as it relates to the development of the modern world. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Behavioral Social Sciences

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ANT 2100 - Introduction to Archaeology

Introduction to the fundamental principles, methods, and theories in archaeology. Includes a history of the development of archaeology, and examination of the nature of archaeological data and research, an introduction to archaeological data and analysis, and an examination of approaches to synthesis and interpretation. North and South American archeology is studied, but non-western examples are also studied to enhance an understanding of the development of the discipline in Europe and the Americas.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GEA 1000 - World Regional Geography

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

♦ Core General Education International and/or diversity focus
An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ENC 1102 - English Composition II

♦ Core General Education ▲ Technology-Across-the Curriculum ¶ Writing requirements

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Additional General Education Credits: 6

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking (students transferring to FSU are advised to take SPC 1608)

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

___ ____ - Any A.A. General Education Communications, Mathematics, Humanities, Natural Science, or Social Science course

♦ Core General Education

† Speaking-Across-the Curriculum

▲ Technology-Across-the Curriculum International and/or diversity focus

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SLS 2505 - Critical Thinking

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Humanities: 6

Core Humanities

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered, Fall, Spring, Summer) Prerequisite(s):

ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from

placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2300 - Introduction to World Religions

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

† Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements

Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

ENC 1101

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 6

Core Mathematics

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR

(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

completion of MAC 1105 or equivalent with a “C” or better.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

Mathematics: 6

Core Mathematics

Communications: 6

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful

completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
▲ Technology-Across-the-Curriculum Course
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

♦ Core General Education ▲ Technology-Across-the Curriculum ¶ Writing requirements
Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 6

Core Mathematics

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting,

probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum

grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines,

slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
completion of MAC 1105 or equivalent with a “C” or better.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

Early Childhood Education, Birth through Four (BS)

Admission Program Objective Code BSEB State CIP Code 1101312102

The Bachelor of Science in Early Childhood Education, Birth through Four is designed to prepare students to work in programs serving children ages 0-4 years. Graduates will be prepared for advancement in the Early Childhood career field. The degree offers a career ladder for students earning the Associate of Science in Early Childhood Education at NWF State College, which includes one state-mandated prerequisite courses. A.S. students will complete an additional 18 hours of General Education classes during their upper division coursework, after admission to the Early Childhood Education program. Students earning an A.A. may also enter this program after completing the state-mandated prerequisite courses. These students will complete technical classes during their upper division coursework after admission to the Early Childhood Education program. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.

Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements.

Suggested Two Year Academic Plan

AA Transfer Major: Architecture - FAMU/NWF Pre-Articulation Agreement

Admission Program Objective Code FAMU State CIP Code 1192401010

Articulation Agreement with the Florida A&M University (FAMU) School of Architecture:

An articulation agreement between NWF State College and Florida A&M University (FAMU) School of Architecture allows students to earn an Associate in Arts (A.A.) degree that could qualify them for entrance to the upper-division of the Bachelor of Science in Architectural Studies degree program at FAMU. It is highly recommended that, in addition to the common prerequisites listed below, students should consult the current catalog from FAMU. Some SUS programs have restricted access or are considered Limited Access programs. Students are responsible for completing the specific requirements for admissions. For more information on the FAMU A.A. to B.S. articulation, contact Mr. Ray Rickman at 729-5218 or rickmanr@nwfsc.edu.

Associate in Arts Degree/Pre-Architecture FAMU Prerequisites

Please consult the Course Description section of the catalog for the required prerequisites of all courses needed to satisfy the requirements of this program. Students must meet NWFSC A.A. degree graduation requirements.

General Education

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

GEA 1000 - World Regional Geography

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

OCE 1001C - Oceanography

A survey of the physics, chemistry, geology and biology of the oceans. Interrelationships between the atmosphere and oceans, methods of measurement and research, processes of coastal change and marine conservation. May be used to satisfy A.A. requirements in physical science for career goals other than the sciences, engineering, and pre-professional healthcare.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Total General Education Credits Required: 36

Program Electives

ARC 1131 - Architectural Presentation

This course introduces basic ideas and presentation techniques directed towards developing design skills, such as drawing, perspective sketching, and graphics using a variety of media to include: pencil, ink, colored pencils, markers, and model building to be used in architectural presentations. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

ARC 1301C - Design 1.1

The primary foci of this course are the development of two and three-dimensional graphic skills and the ability to think spatially and to manipulate elements in space. Analysis and design exercises are located primarily in abstract two/three dimensional space and deal with topics such as figure/ground relationships, line/plane/mass, the idea of systems, networks, repetition, and the relation of part to the whole. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Fall)

ARC 1302C - Design 1.2

This course continues the emphasis and topics studied in Design 1.1, with increased expectation with regard to graphic and spatial manipulation ability. Students study exemplary works of architecture and art, beginning the process of developing an understanding of the role history plays in their creative explorations. By the end of the course, site and the human being are part of the design environment. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

ARC 1301C .

ARC 2201 - Theory of Architecture

An introduction to architectural theory, selected contemporary architectural theories and movements, and their evolution and historical basis. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ETD 1102 .

ARC 2303A - Design 2.1

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 6 Credit Hours When Offered: (Fall) Prerequisite(s):

ARC 2201 .

ARC 2304 - Design 2.2

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making, and human behavior.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Prerequisite(s):

ARC 2303A .

ARC 2472 - Introduction to the Technology of Architecture

This course is the beginning of the technology sequence in the areas of structures, environment technology, and materials and methods of construction. It introduces themes such as the response of buildings to the natural environment, the strength, stiffness, and durability in building materials, and the quantitative method of analysis and design of building assemblies and support systems. It explores the relationship between building technology and the social, aesthetic, environmental and economic aspects of the settings in which buildings are located, and how these factors relate to the process of architectural design. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Summer)

ARC 2501 - Architectural Structures I

The emphasis of the course is on the development of the principles of statics and the application of these principles to the analysis and design of structural systems, primarily column, beam, slab systems, and the truss systems. The course builds on the basic ideas of structural form and material properties developed in Introduction to the Technology of Architecture.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

any college level physics or calculus course, and concurrent enrollment in ARC 2472 . This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should

consult with an advisor.

ETD 1320C - AutoCAD I

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:
▲Technology-Across-the-Curriculum Course.

any college level physics or calculus course, and concurrent enrollment in ARC 2472 . This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ETD 1320C - AutoCAD I

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry commands, modify commands, dimensioning and annotation, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Note:

▲Technology-Across-the-Curriculum Course.

Total Program Elective Credits Required: 36

Program Electives

ARC 1131 - Architectural Presentation

This course introduces basic ideas and presentation techniques directed towards developing design skills, such as drawing, perspective sketching, and graphics using a variety of media to include: pencil, ink, colored pencils, markers, and model building to be used in architectural presentations. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

ARC 1301C - Design 1.1

The primary foci of this course are the development of two and three-dimensional graphic skills and the ability to think spatially and to manipulate elements in space. Analysis and design exercises are located primarily in abstract two/three dimensional space and deal with topics such as figure/ground relationships, line/plane/mass, the idea of systems, networks, repetition, and the relation of part to the whole. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Fall)

ARC 1302C - Design 1.2

This course continues the emphasis and topics studied in Design 1.1, with increased expectation with regard to graphic and spatial manipulation ability. Students study exemplary works of architecture and art, beginning the process of developing an understanding of the role history plays in their creative explorations. By the end of the course, site and the human being are part of the design environment. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

ARC 1301C .

ARC 2201 - Theory of Architecture

An introduction to architectural theory, selected contemporary architectural theories and movements, and their evolution and historical basis. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ETD 1102 .

ARC 2303A - Design 2.1

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 6 Credit Hours When Offered: (Fall) Prerequisite(s):

ARC 2201 .

ARC 2304 - Design 2.2

Application of two and three-dimensional design principles learned in first-year design, in preparation for whole building design in third year. Small building projects adding programmatic responsibilities to the design agenda. Emphasis on programmatic issues internal to the building such as function, circulation structure, resolution of form, space and place making, and human behavior.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Prerequisite(s):

ARC 2303A .

ARC 2472 - Introduction to the Technology of Architecture

This course is the beginning of the technology sequence in the areas of structures, environment technology, and materials and methods of construction. It introduces themes such as the response of buildings to the natural environment, the strength, stiffness,

and durability in building materials, and the quantitative method of analysis and design of building assemblies and support systems. It explores the relationship between building technology and the social, aesthetic, environmental and economic aspects of the settings in which buildings are located, and how these factors relate to the process of architectural design. This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

Credit Hour(s): 4 Credit Hours When Offered: (Summer)

ARC 2501 - Architectural Structures I

The emphasis of the course is on the development of the principles of statics and the application of these principles to the analysis and design of structural systems, primarily column, beam, slab systems, and the truss systems. The course builds on the basic ideas of structural form and material properties developed in Introduction to the Technology of Architecture.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

any college level physics or calculus course, and concurrent enrollment in ARC 2472 . This course is designed as part of an articulation agreement with Florida A&M University; students interested in transferring to another upper division school should consult with an advisor.

ETD 1320C - AutoCAD I

Total Program Elective Credits Required: 36

AS Degree General Education Requirements

All A.S. degree programs at NWF State College require a minimum of 18 college credits in general education. Unless otherwise specified in the program requirements, students must complete one course from each of the following categories to meet general education requirements.
To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options (designated with ♦) in each of five areas of study—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. The A.S. degree programs provide flexibility for entering the job market or continuing education. Students who take general education courses are guaranteed transfer of those courses when continuing their education within the Florida College and University System.
NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study; by program design, all AA and AS graduates take courses that allow them to demonstrate their abilities in these important life skills.

Communications: 3

ENC 1101 - English Composition I

___ ____ - Any other AA General Education Communications Course

♦ Core General Education ▲ Technology-Across-the Curriculum ¶ Writing requirements

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Humanities: 3

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

___ ____ - Any other AA General Education Humanities course with the † symbol or any General Education Humanities course AND another course with the † symbol.
♦ Core General Education † Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Social Sciences: 3

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

___ ____ - Any other AA General Education Social Science course
♦ Core General Education
International and/or diversity focus
¶ Writing requirements
Ω Civic Literacy Compentency
An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Humanities: 3

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

___ ____ - Any other AA General Education Humanities course with the † symbol or any General Education Humanities course AND another course with the † symbol.
♦ Core General Education † Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 3

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and

ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

___ ____ - Any other AA General Education Mathematics course

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression.

Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Social Sciences: 3

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

 Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Ω Courses listed with this symbol have a Civic Literacy Competency.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

___ ____ - Any other AA General Education Social Science course

♦ Core General Education

International and/or diversity focus

¶ Writing requirements

Ω Civic Literacy Compentency

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:
▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):
a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:
▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

___ ____ - Any other AA General Education course
♦ Core General Education
† Speaking-Across-the Curriculum
▲ Technology-Across-the Curriculum International and/or diversity focus
Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:
Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SLS 2505 - Critical Thinking

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Mathematics: 3

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and

decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

___ ____ - Any other AA General Education Mathematics course

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

___ ____ - Any other AA General Education course

♦ Core General Education

† Speaking-Across-the Curriculum

▲ Technology-Across-the Curriculum International and/or diversity focus

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SLS 2505 - Critical Thinking

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Total AS General Education Credits Required: 18

Natural Sciences: 3

AST 1002 - Descriptive Astronomy

This non-lab one-semester course is designed to meet the general education requirements in physical science for non-science majors and for students in related scientific fields needing a scientific elective. The course includes topics in planetary astronomy, the sun and stellar evolution, galaxies, and cosmology. Also covered are basic physical laws, light, and telescopes. Exercises require only basic math with some very limited algebra.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1020 - Chemical Science

Fundamental principles and theories of matter and energy. Atomic theory, periodicity, properties, structure, kinetic molecular theory, bonding, solutions, scientific method, carbon compounds. This course serves as an introduction to chemistry for non-science majors, satisfying the General Education requirement for the A.A. degree; and as a preparatory course for students intending to enter college chemistry.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ESC 1000 - Earth Science

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

___ ____ - Any other AA General Education Natural Science course

♦ Core General Education

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map

interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all

associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

___ ____ - Any other AA General Education course

♦ Core General Education

† Speaking-Across-the Curriculum

▲ Technology-Across-the Curriculum International and/or diversity focus

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SLS 2505 - Critical Thinking

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Total AS General Education Credits Required: 18

Social Sciences: 3

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Ω Courses listed with this symbol have a Civic Literacy Competency.

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common

prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

___ ____ - Any other AA General Education Social Science course
♦ Core General Education
International and/or diversity focus
¶ Writing requirements
Ω Civic Literacy Compentency
An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

SPN 1120 - Spanish I

___ ____ - Any other AA General Education course

♦ Core General Education

† Speaking-Across-the Curriculum

▲ Technology-Across-the Curriculum International and/or diversity focus

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SLS 2505 - Critical Thinking

This course is designed to teach students to become critical thinkers and to show students how to apply their thinking skills to everyday problems and issues in college, career, and personal settings. Based on discussions of timely issues, students will learn to use critical thinking.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Total AS General Education Credits Required: 18

Additional General Education Credits: 3

ASL 1140 - American Sign Language I

Introduces the student to the basic vocabulary and finger spelling of American Sign Language. Emphasis will be on learning to express this language in a simple form and have a basic receptive language competency.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CHI 1120 - Mandarin Chinese I

This course focuses on pronunciation and grammatical structures of Mandarin Chinese, with emphasis upon balanced development of all four skills: listening, speaking, reading and writing. Covers all basic structures of the language and develops a foundation for further study of the language. Designed for students with no previous knowledge of Chinese.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

ENG 1001 - Research Papers

A learn-by-doing course in the methods of conducting library research and writing a documented paper. Students will work on self-selected subjects under the supervision and guidance of the instructor in a tutorial relationship. For successful completion, each student will write a documented paper in accordance with a standard system. This course may be taken four times for credit.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be used as a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. Students may use this course to satisfy deficiency in the Gordon Rule writing requirement, but it may not be used in lieu of traditional Gordon Rule courses, such as ENC 1101.

ESC 1000L - Earth Science Lab

Laboratory experiences pertaining to the physical environment: observation, measurement, data analysis, mapping, map interpretation, and properties of earth materials. This is an optional course serving students who transfer to universities which require a laboratory course to satisfy the General Education requirement in Physical Science.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer)

FRE 1120 - French I

Pronunciation and grammatical structures of French, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIS 1001 - Library Skills

A self-paced course on how individual students can make effective and efficient use of library resources. Students develop the basic information literacy skills necessary for college coursework, general research, and for lifelong learning in an information centered society.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour ▲ When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

SLS 1101 - College Success

A course designed to focus on developing practical study skills to enhance academic success. Skills taught in this course are time management, concentration/memorization, listening, note taking, test taking, use of college resources, establishing goals, identifying learning styles, developing career choices and learning to cope with personal issues that face many college students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

SPC 1006 - Essentials of Speech

This course can be used to satisfy missing transfer requirements and/or oral components required in certain programs. Individuals participate in the preparation and presentation of speeches.

Credit Hour(s): 1 Credit Hour † When Offered: (Offered as needed) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPN 1120 - Spanish I

AA - Associate in Arts General Degree

Admission Program Objective Code AAGD State CIP Code 1192401010
The AA is primarily intended as a transfer degree for students continuing to a 4 year bachelor's program at a university or state college. The AA Transfer Programs indicate the required courses needed to be eligible to be admitted to the university program at the institutions listed.
Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an advisor, who will assist with selecting the college credits most advantageous to the student's educational goals.

AA Degree Checklist:

Engineering Technology - Electronics Specialization Option (AS)

Admission Program Objective Code ETES State CIP Code 1615000001
The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the five specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, Digital Manufacturing and Electronics with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hours core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification.
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit

certificate in Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007).

Technical Required Courses

EET 1141C - Solid State Electronics

This is the third course required for Electronics Aide certificate. This course introduces the student to the concept, components, and uses of solid state electronics. Topics include semiconductor devices; thyristors and diodes, transistors, amplifiers, power supplies, oscillators, and optoelectronics. The use of capacitors and inductors in solid state electronics will be also covered. The design, set-up, and troubleshooting solid state circuits and devices using various power supplies and function generators will be dispersed throughout the class.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

EET 1025C

EET 1180C - Industrial Electronic Troubleshooting

This course covers troubleshooting procedures for a variety of electronic equipment and circuits common to industrial applications. The student will develop and implement trouble shooting protocols and plans, equipment monitoring plans, a preventive maintenance plan, and select appropriate test and monitoring equipment. Safety in an industrial setting will be stressed and reinforced through a series of lab exercises throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

EET 1084C

EET 2155C - Linear Integrated Circuits

This course covers the fundamentals and applications of linear integrated circuits and operational amplifiers. The course covers includes inverting and non-inverting amplifiers, comparators, signal generators, differential and instrumentation amplifiers, operational amplifier specifications, active filters, modulator-demodulator integrated circuits, timers, analog to digital converters (ADC), and digital to analog converters (DAC) and measurement and analysis of linear circuits and devices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

EET 1015C , EET 1025C

ETS 1542C - Introduction to Programmable Logic Controllers

This is an introductory course in Programmable Logic Controllers (PLCs.) The student will learn basic concepts with a focus on programming and practical applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

EET 1084C

Total Technical Credits Required: 12

AA Transfer Major: Athletic Training

Admission Program Objective Code: ATHL State CIP Code: 1192401010
Offered at FGCU*, FSU*, UCF, UF*, UNF*, USF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510913 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

* See Notes on Common Course Prerequisite Manual

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PHY 1053C - General Physics Without Calculus I

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

AA Transfer Major: Accounting

Admission Program Objective Code: ACCO State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU*, IRSC, UCF, UF*, UNF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520301 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Aerospace Engineering

Admission Program Objective Code: AERO State CIP Code: 1192401010

Offered at UCF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140201 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation,

chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Agricultural (Food & Resource) Economics

Admission Program Objective Code: AGRI State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 010103 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or appropriate placement test scores.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Actuarial Science

Admission Program Objective Code: ACTU State CIP Code: 1192401010
Offered at FSU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements.
Transfer Program CIP code: 521304 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - A scientific programming course designed for computer science majors* (COP 2011 , COP 2222 , COP 2228 , COP 2362 , COP 2658 , COP 2662 , COP 2805 , COP 2833 [Inactive], COP 2840)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

* See Notes on Common Course Prerequisite Manual
This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

Transfer Major Required Courses*

COPXXXX - A scientific programming course designed for computer science majors* (COP 2011 , COP 2222 , COP 2228 , COP 2362 , COP 2658 , COP 2662 , COP 2805 , COP 2833 [Inactive], COP 2840)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Transfer Major Required Courses*

BSC 1005 - General Biology

The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005L - Biology Lab

Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:

BSC 1005 or equivalent.

CHM 1045C - College Chemistry I

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ENC 2210 - Technical Report Writing
The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
passing score on placement test.

MAC 1140 - Pre-Calculus Algebra
This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

PHY 1020 - Physical Science
A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking
Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

Transfer Major Required Courses*

BSC 1005 - General Biology
The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005L - Biology Lab
Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:
BSC 1005 or equivalent.

CHM 1045C - College Chemistry I
or
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
passing score on placement test.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: African-American (Black) Studies

Admission Program Objective Code: AFRI State CIP Code: 1192401010
Offered at FAMU, FSU, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer

institution to confirm program requirements. Transfer Program CIP code: 050201 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

Transfer Major Required Courses*

AA Transfer Major: Agricultural Engineering

Admission Program Objective Code: AGRE State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

▲ Technology-Across-the-Curriculum Course

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

Transfer Major Required Courses

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 4 Credit Hours

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 4 Credit Hours

* See Notes on Common Course Prerequisite Manual
This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

or
This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Applied Science

Admission Program Objective Code: APPL State CIP Code: 1192401010
Offered at FGCU, UCF, USF, USFSM Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240102 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Majors Required Courses*

AA Transfer Major: Art History & Appreciation

Admission Program Objective Code: ARTA State CIP Code: 1192401010
Offered at FIU, FSU, UF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500703 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

XXXXXXX - Competency requirement for a single foreign language*

* See Notes on Common Course Prerequisite Manual

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ART 1201C - Two-Dimensional Design

or

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

or

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

Transfer Major Required Courses*

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

or

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2330C - Figure Drawing I

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Transfer Major Required Courses*

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

ARHXXX - Any course with ARH prefix

* See Notes on Common Course Prerequisite Manual

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

ART 1201C - Two-Dimensional Design
An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design
An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I
Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

AA Transfer Major: Astronomy

Admission Program Objective Code: ASTR State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400201 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

Transfer Major Required Courses

Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440000 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

PSY 2012 - Psychology

STAXXXX - Any course with the STA prefix
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
 Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

* See Notes on Common Course Prerequisite Manual
Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
 Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Transfer Major Required Courses*

AA Transfer Major: Biochemistry

Admission Program Objective Code: BICY State CIP Code: 1192401010

Offered at FGCU, FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260202 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II
This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

CHM 2210C - Organic Chemistry I
or
This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
CHM 1046C .

CHM 2211C - Organic Chemistry II
or
In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
CHM 2210C .

MAC 2233 - Business Calculus

* See Notes on Common Course Prerequisite Manual
This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

or

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The

principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Biology & Chemistry

Admission Program Objective Code: BICH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 1/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Program Required Courses

BOT 1010C - Botany

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

or

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. BSC 1011C - Principles of Biology II

or

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

COPXXXX - Introductory programming in Ada, C, C++, Pascal or equivalent language* (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702)

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic

graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Biology & Earth Science

Admission Program Objective Code: BIEA State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 3/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BOT 1010C - Botany

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

or

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their

compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

COPXXXX - Introductory programming in Ada, C, C++, Pascal or equivalent language* (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702)
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Chemistry & Earth Science

Admission Program Objective Code: CHEA State CIP Code: 1192401010

Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course

Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 7/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Program Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Chemistry & Mathematics

Admission Program Objective Code: CHMA State CIP Code: 1192401010

Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 8/16 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
CHM 1046C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):
MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I and BSC 1011C - Principles of Biology II 4 Credit Hours

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. ♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics
COPXXXX - Introductory programming in Ada, C, C++, Pascal or equivalent language* (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702)
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ZOO 1010C - Zoology and BOT 1010C - Botany 4 Credit Hours
An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Computer Science & Math

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Earth Science & Mathematics

Admission Program Objective Code: EAMA State CIP Code: 1192401010

Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 13/16 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I and BSC 1011C - Principles of Biology II 4 Credit Hours

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

ZOO 1010C - Zoology and BOT 1010C - Botany 4 Credit Hours

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Biological & Physical Sciences Interdisciplinary Studies - Earth Science & Physics

Admission Program Objective Code: EAPH State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300101, track 14/16 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I and BSC 1011C - Principles of Biology II 4 Credit Hours

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Biology, General

Admission Program Objective Code: BIOL State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, IRSC, MDC, SPC, UCF, UF, UNF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260101, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BOT 1010C - Botany *
This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1010C - Principles of Biology I
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II
or
This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours*

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours*

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II

4 Credit Hours*

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ZOO 1010C - Zoology *

or

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Biomedical Sciences

Admission Program Objective Code: BIMD State CIP Code: 1192401010
Offered at FSCJ, UCF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260102 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II
This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

CHM 2210C - Organic Chemistry I
This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
CHM 1046C .

CHM 2211C - Organic Chemistry II
In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
CHM 2210C .

MAC 2311 - Calculus I
This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Biomedical/Bioengineering

Admission Program Objective Code: BIEN State CIP Code: 1192401010

Offered at FIU, FGCU, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

* See Notes on Common Course Prerequisite Manual
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II (Required at UF only)*

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Biotechnology

Admission Program Objective Code: BITC State CIP Code: 1192401010
Offered at FGSU, SFC, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 261201 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II
This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

AA Transfer Major: Botany, General

Admission Program Objective Code: BOTA State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions,

colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 1114 - Trigonometry

and

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

AA Transfer Major: Business Administration & Management

Admission Program Objective Code: BUSM State CIP Code: 1192401010
Offered at CC, FAMU, FAU, FGCU, FIU*, FSCJ, FSU*, IRSC, SPC, UCF, UF, UNF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520201 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Administration

Admission Program Objective Code: BUSA State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Business Managerial Economics

Admission Program Objective Code: BMET State CIP Code: 1192401010
Offered at UCF, UNF, USF*, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520601 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Marketing Management

Admission Program Objective Code: BMKT State CIP Code: 1192401010

Offered at FAU, FGCU, FIU*, FSU*, UCF, UF*, UNF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521401 *See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Business Teacher Education/Business Technology Education

Admission Program Objective Code: BTEA State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131303 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

XXXXXXX - Elective in Business Administration*
* See Notes on Common Course Prerequisite Manual
This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Business, General

Admission Program Objective Code: BUTN State CIP Code: 1192401010
Offered at FSU*, UCF, USF*, USFSM*, USFSP*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Chemical Engineering

Admission Program Objective Code: CHEN State CIP Code: 1192401010

Offered at FIU, FAMU, FSU, USF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140701 Common Course Prerequisite Manual The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Chemical Sciences - Chemical Sciences

Admission Program Objective Code: CMSI State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400599, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Chemistry

Admission Program Objective Code: CHEM State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Communications (Mass), Media Studies or Converged Communications

Admission Program Objective Code: COMM State CIP Code: 1192401010
Offered at FGCU, FSCJ, UCF, UNF, USFSP, UWF*
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090102 * See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Communication and Media Studies

Admission Program Objective Code: COMS State CIP Code: 1192401010
Offered at FSU*
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090199 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Community Health Liaison

Admission Program Objective Code: CMHL State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 511504 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HUN 2201 - Nutrition

STAXXXX - Any course with the STA prefix
The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common

prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computational Biology

Admission Program Objective Code: BICP State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 261104 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

AA Transfer Major: Computational Science

Admission Program Objective Code: CMPT State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 303001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702 , COP 2800)
BSCXXXXC - Any lab course with the BSC prefix or
CHMXXXXC - Any lab course with the CHM prefix or
GLYXXXXC - Any lab course with the GLY prefix or
METXXXXC - Any lab course with the MET prefix or
PHYXXXXC - Any lab course with the PHY prefix
* See Notes on Common Course Prerequisite Manual
This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

AA Transfer Major: Computer & Information Science - Computer Science

Admission Program Objective Code: CMIN State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 1/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702 , COP 2800)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

Choose two science courses for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C)

*See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Computer & Information Science - Computer Science (FSU only)

Admission Program Objective Code: CFSU State CIP Code: 1192401010
Offered at FSU* Transfer Program CIP code: 110101, track 2/6 Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I and BSC 1011C - Principles of Biology II and CHM 1045C - College Chemistry I

* See Notes on Common Course Prerequisite Manual
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702 , COP 2800)
A science course for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II

4 Credit Hours

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer & Information Science - Information Science (UNF only)

Admission Program Objective Code: CUNF State CIP Code: 1192401010

Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 4/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

* See Notes on Common Course Prerequisite Manual

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702 , COP 2800)
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer Science - BA in Computer Science (Track 6/6) (FSU)

Admission Program Objective Code: CMSC State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 6/6 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer Criminology

Admission Program Objective Code: CMCR State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430116 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

COP2XXX - Any computer programming course*

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

AA Transfer Major: Computer Engineering - Computer Engineering

Admission Program Objective Code: CMEN State CIP Code: 1192401010
Offered at FAMU, UF, FAU, FIU, FSU, UCF, USF*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140901, track 1/3 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702 , COP 2800)

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Computer Engineering - Computer & Information Engineering

Admission Program Objective Code: CMPE State CIP Code: 1192401010
Offered at FAMU, FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140901, track 2/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space,

quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

COPXXXX - Introductory programming in Ada, C, C++, Pascal or equivalent language* (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702)
* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Computer Software & Media Applications

Admission Program Objective Code: CSFM State CIP Code: 1192401010
Offered at FGCU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110899, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - Introductory programming in C, C++, Java or equivalent language. * (COP 2010 , COP 2030 , COP 2176 , COP 2220 , COP 2224 , COP 2360 , COP 2654 , COP 2660 , COP 2700 , COP 2702 , COP 2800)

A science course for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Construction Engineering

Admission Program Objective Code: CONS State CIP Code: 1192401010

Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 140803 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Criminal Justice Studies

Admission Program Objective Code: CRIM State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, IRSC, PSC, UCF, UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430104 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Criminology

Admission Program Objective Code: CRMO State CIP Code: 1192401010
Offered at UF*, USF, USFSM, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Dental Hygiene (BAS)

Admission Program Objective Code: DEHY State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm

program requirements. Transfer Program CIP code: 510602 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Digital Media

Admission Program Objective Code: DGMD State CIP Code: 1192401010
Offered at FSCJ, GCSC, IRSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 100304 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Drama Education

Admission Program Objective Code: DRAM State CIP Code: 1192401010
Offered at FAMU, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500501, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Economics - Social Sciences

Admission Program Objective Code: ECON State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, FSU*, UCF, UF, UNF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450601, track 1/2
*See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also

includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Education of Blind & Visually Handicapped

Admission Program Objective Code: EDBL State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131009 *See note on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Education, General

Admission Program Objective Code: EDTR State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 130101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Educational Studies

Admission Program Objective Code: EDST State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 139999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.
NOTE: Completion of this program does not result in educator certification.

AA Transfer Major: Electrical, Electronics Engineering

Admission Program Objective Code: ELEL State CIP Code: 1192401010
Offered at UF, FAMU, FAU, FSU, UCF, UNF, USF, FIU, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141001, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Electronic Engineering Technology - Electrical & Computer Engineering Technology

Admission Program Objective Code: ELEC State CIP Code: 1192401010
Offered at FAMU, VC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 150303 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Elementary Teacher Education

Admission Program Objective Code: ELED State CIP Code: 1192401010
Offered at CC, DSC, FAMU, FGCU, FSU*,FSWSC, NWFSC, PSC, SFSC, UCF, UF*, USF, USFSM, USFSP, UWF, FIU, FAU, SPC, IRSC, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131202 *See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Energy Technology Management (BAS)

Admission Program Objective Code: ENRG State CIP Code: 1192401010
Offered at SCFMS Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 150503 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Engineering Technology

Admission Program Objective Code: ENGN State CIP Code: 1192401010
Offered at DSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 159999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

COP 2220 - Programming in C

An introduction to C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: English Language and Literature

Admission Program Objective Code: ENLI State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF*, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 230101
* See Note on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
▲ Technology-Across-the-Curriculum Course
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: English Teacher Education

Admission Program Objective Code: ENTE State CIP Code: 1192401010
Offered at CC, FAU, FSU, FSWSC, UCF, USF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131305 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ▲ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
▲ Technology-Across-the-Curriculum Course
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

LITXXXX - Any course with the LIT prefix or
AMLXXXX - Any course with the AML prefix or
ENLXXXX - Any course with the ENL prefix
Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Entomology

Admission Program Objective Code: ENTM State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260702 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Entrepreneurship

Admission Program Objective Code: ENTR State CIP Code: 1192401010
Offered at USFSP* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520701 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Environmental Health Engineering

Admission Program Objective Code: ENVR State CIP Code: 1192401010
Offered at FIU, FGCU, UCF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Environmental Science - Geography/Environmental Management

Admission Program Objective Code: ENVG State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 130104, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BOT 1010C - Botany
This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1005 - General Biology
The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1005L - Biology Lab
Laboratory for General Biology. Experimental methodology and technique. Not recommended for Biology majors.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prereq/Corequisites:
BSC 1005 or equivalent.

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

GLY 2010C - Principles of Geology I

* See Notes on Common Course Prerequisite Manual
Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth's interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

STA 2023 - Statistics
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Exercise Science (FAU, UNF)

Admission Program Objective Code: EXFA State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310505, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

* See Notes on Common Course Prerequisite Manual

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

HUN 2201 - Nutrition

or

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

or

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra

or

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Exercise Science (FGCU only)

Admission Program Objective Code: EXFG State CIP Code: 1192401010
Offered at FGCU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310505, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of

phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 3 Credit Hours

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic

graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their

compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Foreign Language, Multiple

Admission Program Objective Code: FORG State CIP Code: 1192401010
Offered at UCF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 160101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Forensic Science

Admission Program Objective Code: FORE State CIP Code: 1192401010
Offered at FGCU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430106 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds,

and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
CHM 2210C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):
MAC 1114 or equivalent

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Forest Resources & Conservation - Wildlife Ecology & Conservation

Admission Program Objective Code: FORW State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030501, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science

majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2311 - Calculus I

* See Notes on Common Course Prerequisite Manual

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: General Studies

Admission Program Objective Code: GENS State CIP Code: 1192401010
Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240106 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Geology

Admission Program Objective Code: GEOT State CIP Code: 1192401010
Offered at FAU, FIU, FSU, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400601, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

GLY 2010C - Principles of Geology I *

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

GLY 2100C - Principles of Geology II *

* See Notes on Common Course Prerequisite Manual

Survey of the physical and biological history of the Earth. Course is divided into two parts. First is a review of common minerals, rocks, and fossils; the use of stratified sedimentary rocks to reconstruct past environments and climates; and the theory of plate tectonics. Second is an overview of the origin and early evolution of the Earth, tectonic formation of continents and oceans, and life through time (first appearance of life, early life in the ocean, Age of Dinosaurs, the Great Ice Age, and the appearance of the first humans). Field and laboratory work in mineral, rock, and fossil identification, description of stratigraphic sections in the field, and geologic map construction and interpretation. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Gerontology

Admission Program Objective Code: GERO State CIP Code: 1192401010

Offered at USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 301101 Common Course Prerequisite Manual

Transfer Major Required Courses

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Graphic Design

Admission Program Objective Code: GRPH State CIP Code: 1192401010
Offered at FAMU, FSU*, UF*, USFSP* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500409 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts.

Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design

or

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

or

Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2330C - Figure Drawing I

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2602C - Digital Imaging I

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

GRA 2190C - Graphic Design I

GRAXXXX - Any course with the GRA prefix

An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

AA Transfer Major: Health Science - Concentration in Physician Assistant Studies (Track 2/7) (MDC)

Admission Program Objective Code: HMDC State CIP Code: 1192401010

Offered at MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 2/7 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Health Science - Community Health (Track 6/7) (UNF)

Admission Program Objective Code: HUNF State CIP Code: 1192401010
Offered at UNF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 6/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105 - College Algebra

STAXXXX - Any course with the STA prefix
* See Notes on Common Course Prerequisite Manual
This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health Services Administration (BAS)

Admission Program Objective Code: HSAD State CIP Code: 1192401010
Offered at EFSC, SPC
Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512211 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Health Services Administration

Admission Program Objective Code: HLSR State CIP Code: 1192401010
Offered at SFC, FAMU, FAU, FGCU, FIU, IRSC, SCFMS, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of

professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health and Physical Education, General - Physical Education

Admission Program Objective Code: HPEP State CIP Code: 1192401010
Offered at FAMU, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310501, track 2/4 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

4 Credit hours in Skill Development Courses in Physical Activities

* See Notes on Common Course Prerequisite Manual

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

AA Transfer Major: Health and Physical Education, General - Exercise Science

Admission Program Objective Code: HPEE State CIP Code: 1192401010

Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310501, track 3/4 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

* See Notes on Common Course Prerequisite Manual

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

HUN 2201 - Nutrition

or

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

or

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used

to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s): completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health and Physical Education, General - Health, Leisure, and Fitness Studies

Admission Program Objective Code: HPEH State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310501, track 4/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: History

Admission Program Objective Code: HIST State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU, UCF, UF, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 540101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Hospitality Administration/Management (Track 1/4) (FIU, FSU, UCF)

Admission Program Objective Code: HAMA State CIP Code: 1192401010
Offered at FIU, FSU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520901, track 1/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

* See Notes on Common Course Prerequisite Manual
This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Hospitality Administration/Management (FAU, FSU, UWF)

Admission Program Objective Code: HAMB State CIP Code: 1192401010
Offered at FAU, FSU*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520901, track 2/4 * See notes on Common Course Prerequisite Manual

MAC 1105 - College Algebra

or

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

ACG 2021 - Financial Accounting

or

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

MAC 1105 - College Algebra , equivalent, or higher

AA Transfer Major: Hospitality Administration/Management (USFSM)

Admission Program Objective Code: HAMC State CIP Code: 1192401010
Offered at USFSM Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Human Services

Admission Program Objective Code: HUSR

Offered at FSCJ, IRSC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440000, track 1/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Humanities

Admission Program Objective Code: HUMA State CIP Code: 1192401010

Offered at FSU, UCF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 240103 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Industrial & Systems Engineering

Admission Program Objective Code: INSY State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 142701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Industrial/Manufacturing Engineering

Admission Program Objective Code: INDS State CIP Code: 1192401010
Offered at FAMU, FSU, UCF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 143501 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAD 2104 - Introduction to Discrete Mathematics

CGSXXXX - Any database course* (CGS 2541 ,CGS 2544)
COP2XXX - Any computer programming course*
PHYXXXX - Any course with the PHY prefix
COPXXXX - Any object-oriented computer programming course* (COP 2224 , COP 2228 , COP 2360 , COP 2362 , COP 2654 , COP 2658 , COP 2660 , COP 2662 , COP 2800 , COP 2805 , COP 2833 [Inactive])
* See Notes on Common Course Prerequisite Manual
This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.
PSYXXXX - Any course with the PSY prefix

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Information Technology (BC, FAMU, FIU, FSU, USF, UWF)

Admission Program Objective Code: INTB State CIP Code: 1192401010
Offered at BC, FAMU, FIU, FSU, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. MACXXXX Pre-Calculus course or Discrete Math
* See Notes on Common Course Prerequisite Manual
This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

AA Transfer Major: Insurance

Admission Program Objective Code: INSU State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521701 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression.

Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Interdisciplinary Studies

Admission Program Objective Code: INTE State CIP Code: 1192401010
Offered at UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 309999 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2023 - Economics II

* See Notes on Common Course Prerequisite Manual

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1020 - Physical Science

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and

atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: International Business Management

Admission Program Objective Code: INTN State CIP Code: 1192401010
Offered at FAU, FIU, FSU*, SCFMS, SPC, USF*, USFSP* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521101 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: International Relations

Admission Program Objective Code: INTR State CIP Code: 1192401010

Offered at FIU, FSU, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450901 Common Course Prerequisite Manual The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: International /Global Studies

Admission Program Objective Code: INTG State CIP Code: 1192401010
Offered at UCF, UF, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 302001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Jewish Studies

Admission Program Objective Code: JWST State CIP Code: 1192401010
Offered at FAU, FU Transfer Program CIP code: 380206 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Math/Middle Grade Science Ed

Admission Program Objective Code: MTMS State CIP Code: 1192401010
Offered at NWFSC, UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 1/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions,

colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ESC 1000 - Earth Science and ESC 1000L - Earth Science Lab 1 Credit Hour

or

GLYXXXXC - Any course with the GLY prefix that includes a lab or

METXXXXC - Any course with the MET prefix that includes a lab

or

OCEXXXXC - Any course with the OCE prefix that includes a lab

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105 - College Algebra

or

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

and

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade English/Middle Grade Social Science Ed

Admission Program Objective Code: MTES State CIP Code: 1192401010
Offered at UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. ♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

and

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

AMHXXX - Any course with the AMH prefix or
WOHXXXX - Any course with the WOH prefix or
EUHXXXX - Any course with the EUH prefix or
POSXXXX - Any course with the POS prefix
* See Notes on Common Course Prerequisite Manual

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Science/Middle Grade English Ed

Admission Program Objective Code: MTSE State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 5/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ESC 1000 - Earth Science and ESC 1000L - Earth Science Lab 1 Credit Hour

or

GLYXXXXC - Any course with the GLY prefix that includes a lab or
METXXXXC - Any course with the MET prefix that includes a lab or
OCEXXXXC - Any course with the OCE prefix that includes a lab

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

AMLXXXX - Any course with the AML prefix* or
LITXXXX - Any course with the LIT prefix or
ENCXXXX - Any course with the ENC prefix or
ENLXXXX - Any course with the ENL prefix

* See Notes on Common Course Prerequisite Manual

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Jr. High/Middle School Teacher Ed - Middle Grade Science/Middle Grade Social Science Ed

Admission Program Objective Code: MTSC State CIP Code: 1192401010
Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131203, track 6/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Admission Program Objective Code: MGIN State CIP Code: 1192401010
Offered at FAU, FGCU, FSU*, SSCF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521201 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved

in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Management Science

Admission Program Objective Code: MGNT State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 1046C - College Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Marketing, Other - Advertising

Admission Program Objective Code: MARO State CIP Code: 1192401010
Offered at USF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521499 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating

system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Materials Engineering

Admission Program Objective Code: MATE State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141801 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space,

quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Mathematics Teacher Education - Secondary Mathematics Education

Admission Program Objective Code: MATR State CIP Code: 1192401010
Offered at BC, CC, DSC, FAU, FSWSC, IRSC, UNF, USF, SPC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131311, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem,

definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

MACXXXX - Any course with the MAC prefix or
MTGXXXX - Any course with the MTG prefix or
MASXXXX - Any course with the MAS prefix
* See Notes on Common Course Prerequisite Manual

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

AA Transfer Major: Mathematics Teacher Education - Jr. High/Middle School Mathematics Ed (NWF)

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations
This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I
This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Medical Technology/Clinical Laboratory Sciences

Admission Program Objective Code: MEDC State CIP Code: 1192401010
Offered at USF, SFC, FGCU, UCF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 511005 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I
A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):
high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Meteorology - Meteorology

Admission Program Objective Code: METE State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400401, track 1/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

* See Notes on Common Course Prerequisite Manual
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I
This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II
This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and

conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Microbiology/Bacteriology

Admission Program Objective Code: MCBA State CIP Code: 1192401010
Offered at UCF, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260503 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science

majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions,

improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Middle Eastern Studies

Admission Program Objective Code: MIDE State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050108 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Multi-/Interdisciplinary Studies

Admission Program Objective Code: MULT State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 300000 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Advertising

Admission Program Objective Code: ADVE State CIP Code: 1192401010
Offered at UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090903 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Chemical Sciences - FSU Teach

Admission Program Objective Code: CMST State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400599, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

* See Notes on Common Course Prerequisite Manual

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Community Health

Admission Program Objective Code: COMH State CIP Code: 1192401010
Offered at FGCU, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512208 * See Notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105 - College Algebra

or

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 4 Credit Hours (Required at UF)

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer & Information Science- Information Systems

Admission Program Objective Code: CIS State CIP Code: 1192401010

Offered at FAMU, UF, UNF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 3/6 Common Course Prerequisite Manual The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - High level programming language course*

ACG 2001 - Accounting I and ACG 2011 - Accounting II

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the

following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

* See Notes on Common Course Prerequisite Manual

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

or

ACG 2021 - Financial Accounting

This course is an introduction to financial accounting that specializes in the processes and principles used to prepare financial statements. This course will focus on the purpose and content of the four basic financial statements including the preparation of these statements as well as interpreting information for decision-making.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

MAC 1105 - College Algebra , equivalent, or higher

AA Transfer Major: Computer & Information Science - Information Technology

Admission Program Objective Code: CIIT State CIP Code: 1192401010

Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110101, track 5/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1570 - Computer Applications for Business

An introductory object-oriented computer programming course* (COP 2224 , COP 2228 , COP 2360 , COP 2362 , COP 2654 , COP 2658 , COP 2660 , COP 2662 , COP 2800 , COP 2805 , COP 2833 [Inactive])

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

* See Notes on Common Course Prerequisite Manual

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

SPCXXXX - Any course with the SPC prefix

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Computer Networking (BAS)

Admission Program Objective Code: CNET State CIP Code: 1192401010

Offered at FSCJ Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 110901 *See notes in Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Cardiopulmonary Science

Admission Program Objective Code: CARD State CIP Code: 1192401010
Offered at FSWSC, VC*, FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510908 *See notes in Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1005 - General Biology and BSC 1005L - Biology Lab 1 Credit Hour

or

The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their

compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

CGSX060 (required at FAMU only)

* See Notes on Common Course Prerequisite Manual

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Dietetics/Nutritional Services

Admission Program Objective Code: DIET State CIP Code: 1192401010

Offered at FIU*, FSU, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513101, track 1/2 * See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CHM 1032C - General Chemistry for Life Sciences

This course is a one-semester introduction to chemistry especially appropriate for those pursuing a degree for a career in an allied health science field, although open to all students. Topics include atomic theory, bonding, nomenclature, gases, acids and bases, stoichiometry, and solutions, with an additional emphasis on reaction rates, equilibria, organic and biochemistry, and organic and biomolecules and their roles and functions in living organisms.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAT 1033A or appropriate placement test scores.

CHM 1045C - College Chemistry I and CHM 1046C - College Chemistry II 4 Credit Hours

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Dietetics/Nutritional Services - Dietetics

Admission Program Objective Code: DIEN State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum

grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Agriculture Science

Admission Program Objective Code: AGRS State CIP Code: 1192401010

Offered at UFAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 010000 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and

ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

or

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Economics - Business

Admission Program Objective Code: ECOB State CIP Code: 1192401010

Offered at FAMU, FAU, UF, UNF, USF, USFSP Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 450601, track 2/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

AA Transfer Major: Environmental Science

Admission Program Objective Code: ENVS State CIP Code: 1192401010

Offered at FSU (BA only), UF, USF, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 030104, track 1/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BOT 1010C - Botany

This course covers the structure and function of seed plants, basic information on plant metabolism, including photosynthesis and water relations, and a survey of lower plants, algae and fungi. It introduces basic concepts of ecology and plant geography and stresses the importance of plants to humans. Laboratory sessions illustrate concepts from the lecture using specimens, microscope slides and field trips.

Credit Hour(s): 4 Credit Hours When Offered: (Spring)

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

or

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

GLY 2010C - Principles of Geology I

* See Notes on Common Course Prerequisite Manual

Survey of the composition and dynamic processes of the solid Earth. Topics include planetary geology, mineralogy and petrology, volcanism, surface environments and processes (ocean floor, coastlines, rivers, karst, glaciers, deserts), seismology, surface deformation, Earth’s interior, plate tectonics, and mountain formation. Laboratory exercises in mineral and rock identification, interpretation of geological landforms using topographic maps, earthquakes, and basic field methods. Local or regional fieldtrips offered.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring)

MAC 1105 - College Algebra *

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and

decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 1140 - Pre-Calculus Algebra

or

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1020 - Physical Science *

A one term course of lectures and demonstrations designed 1) to meet the general education requirements in physical science for non-science majors and 2) for students who need a preparatory course prior to taking physics. The course presents the fundamental classical and modern concepts of physics in the area of mechanics, energy, wave motion, electromagnetism, and atomic structure. Also topics in earth science and astronomy will be discussed.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable

knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II

4 Credit Hours

or

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Ω Courses listed with this symbol have a Civic Literacy Competency.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Geoscience - FSU Teach

Admission Program Objective Code: GEOS State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 141401, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
* See Notes on Common Course Prerequisite Manual
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Health Information Management

Admission Program Objective Code: HEIM State CIP Code: 1192401010
Offered at FAMU, UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510706 *See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

CGSXXXX - Any course with the CGS prefix

* See Notes on Common Course Prerequisite Manual

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health Science - Pre-Clinical/Pre-Physical Therapy (Track 3/7) (FAMU, UCF)

Admission Program Objective Code: HSPC State CIP Code: 1192401010
Offered at FAMU, UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 3/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 1114 - Trigonometry

* See Notes on Common Course Prerequisite Manual

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

PSY 2012 - Psychology
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Health Science (Track 5/7) (SSCF, FGCU)

Admission Program Objective Code: HESC State CIP Code: 1192401010
Offered at FGCU, SSCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510000, track 5/7 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Interior Design (BAS)

Admission Program Objective Code: INDE State CIP Code: 1192401010
Offered at SSCF Individual course requirements at specific institutions may sometimes differ from the published Common Course

Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500408, track 3/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Journalism

Admission Program Objective Code: JOUR State CIP Code: 1192401010
Offered at UCF*, FAMU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

POS 1041 - American Government

* See Notes on Common Course Prerequisite Manual
Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American

federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Mathematics, General - FSU - Teach

Admission Program Objective Code: MFSU State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 270101, track 3/4 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

COPXXXX - A scientific programming course designed for computer science majors* (COP 2011 , COP 2222 , COP 2228 , COP 2362 , COP 2658 , COP 2662 , COP 2805 , COP 2833 [Inactive], COP 2840)

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

A laboratory based science course for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C , PHY 2048C , PHY 2049C)
This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*
* See Notes on Common Course Prerequisite Manual
This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

AA Transfer Major: Motion Picture & Television Technology

Admission Program Objective Code: MOTP State CIP Code: 1192401010
Offered at FSU*, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500602, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Biology, General - FSU - Teach

Admission Program Objective Code: BIOF State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260101, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

or

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II I 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

SMTX043 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

SMTX053 - Not offered at NWFSC but can be taken at transfer institution when admitted to upper division.*

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Nuclear Engineering

Admission Program Objective Code: NUCL State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 142301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Nursing (Track 1/2)

Admission Program Objective Code: NRSN State CIP Code: 1192401010
Offered at FAMU*, FAU*, FGCU*, FIU*, FSU*, UCF*, UF*, UNF*, USF*, UWF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513801, Track 1/2 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

BSCXXXX - Any course with the BSC prefix or

CHMXXXX - Any course with the CHM prefix or

PHYXXXX - Any course with the PHY prefix

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

or

SYGXXXX - Any course with the SYG prefix

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

* See Notes on Common Course Prerequisite Manual

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction

to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

AA Transfer Major: Nursing - AS to BS (NWF)

Admission Program Objective Code: NUR1 State CIP Code: 1192401010
Offered at BC, CC, CCF, DSC*, FAMU*, FAU*, FSCJ, FSWSC, GCSC, NWFSC, PBSC, PESC, PHSC, PSC, SCFMS, SFC, SFSC, IRSC, SPC, SJRSC, TCC, FGCU*, FIU*, FSU*, FGC, MDC, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 513801, track 2/2
* See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

BSCXXXX - Any course with the BSC prefix or
CHMXXXX - Any course with the CHM prefix or
PHYXXXX - Any course with the PHY prefix
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

PSY 2012 - Psychology

or
SYGXXXX - Any course with the SYG prefix
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the

physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

or

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2122 - Statistical Applications

* See Notes on Common Course Prerequisite Manual

This course is designed for students pursuing psychology, education, and some specialized degrees. The course is an introduction to understanding and applying statistical concepts. Topics include: descriptive statistics, probability distributions, one and two sample hypothesis testing, confidence interval estimation, correlation, regression, and analysis of variance. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MAT 1033A or equivalent with a “C” or better, or appropriate placement score.

AA Transfer Major: Paralegal Studies (BAS)

Admission Program Objective Code: PLAA State CIP Code: 1192401010

Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 220302, 2/2 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Parks & Recreation Management - Instruction

Admission Program Objective Code: PKRE State CIP Code: 1192401010

Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 1/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Parks & Recreation Management - Recreation, Tourism & Events

Admission Program Objective Code: PRKR State CIP Code: 1192401010
Offered at FSU* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 2/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

AA Transfer Major: Parks & Recreation Management - Recreation and Tourism

Admission Program Objective Code: PRKT State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 3/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Parks & Recreation Management - Hospitality, Recreation & Resort Management

Admission Program Objective Code: PRKH State CIP Code: 1192401010

Offered at UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 5/6 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Parks & Recreation Management

Admission Program Objective Code: PRKF State CIP Code: 1192401010
Offered at FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 310301, track 6/6 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

AA Transfer Major: Pharmaceutical Science

Admission Program Objective Code: PHAR State CIP Code: 1192401010
Offered at FAMU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512099 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

CHM 2211C - Organic Chemistry II

In continuation of Organic Chemistry I the relationships between functional groups and properties of organic compounds will be discussed. Infrared, NMR, and mass spectroscopy will be used for identification of organic compounds and for structure analysis. The transition state theory is applied to interpret the nucleophilic addition reactions, the carbanion condensation reactions, the interconversions of carbonyl compounds and the nucleophilic acyl substitution of carboxylic acids and their derivatives. Biochemical topics, i.e. lipids, carbohydrates, amino acids and proteins are included.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

CHM 2210C .

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Pharmacy (Pharm D)

Admission Program Objective Code: PHAD State CIP Code: 1192401010
Offered at FAMU*, UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512001 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and

biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
CHM 2210C .

MAC 1140 - Pre-Calculus Algebra and MAC 1114 - Trigonometry 4 Credit Hours

or

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):
MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

* See Notes on Common Course Prerequisite Manual
Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Philosophy

Admission Program Objective Code: PHIL State CIP Code: 1192401010

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique.

Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual
This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
PHY 2048C

Prereq/Corequisites:
MAC 2312 or equivalent

Note:
In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Physical Education Teacher Education

Admission Program Objective Code: PHED State CIP Code: 1192401010
Offered at FIU, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131314 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
or
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

PET 2622 - Care and Prevention of Athletic Injuries
PELXXXX - 4-5 credit hours of courses with the PEL prefix
PEMXXXX - 3 hours of courses with the PEM prefix
* See Notes on Common Course Prerequisite Manual
Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Physical Science

Admission Program Objective Code: PHSC State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400899, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors.

This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Physical Science - FSU Teach

Admission Program Objective Code: PHYT State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 400899, track 2/2 Common Course Prerequisite Manual

AA Transfer Major: Political Science & Government

Admission Program Objective Code: POTL State CIP Code: 1192401010
Offered at FAU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451001 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

POS 1041 - American Government

* See Notes on Common Course Prerequisite Manual
Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

AA Transfer Major: Pre-Elementary/Early Childhood Teacher Ed - Age 3 through Grade 3

Admission Program Objective Code: ECHA State CIP Code: 1192401010
Offered at CCF, FGC, FGCU, FSCJ, FSU*, MDC, NWFSC, PSC, SCFMS, SFC, SJRSC, UCF, UNF, UWF, SPC, USF, USFSM, FIU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. AA Transfer Major: Psychobiology

Admission Program Objective Code: PSYB State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 422706 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

CHM 2210C - Organic Chemistry I and CHM 2211C - Organic Chemistry II 4 Credit Hours

or

This course will present the correlation between structure and physical and chemical properties of organic compounds. The principle types of mechanisms involved in organic reactions will be discussed on aliphatic and aromatic hydrocarbons, alkyl halides, alcohols and ethers. Laboratory exercises illustrate these topics.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

CHM 1046C .

MAC 2233 - Business Calculus

or

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the

physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Psychology, General

Admission Program Objective Code: PSCH State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU*, UCF, UF*, UNF, USF, USFSM, USFSP, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 420101
* See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

PSY 2012 - Psychology

One of the following Psychology courses: CLP 1001 , CLP 2140 , DEP 2004 , DEP 2100
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
One of the following Biology courses: BSC 1005 , BSC 1010C , BSC 1011C , BSC 1080 , BSC 1085C , BSC 1086C , BSC 2020C or

ZOO 1010C - Zoology

An introduction to the major concepts of animal life, to include the structure, taxonomy, evolutionary relationships, and natural history of the major animal groups.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

AA Transfer Major: Public Policy and Administration

Admission Program Objective Code: PUBP State CIP Code: 1192401010
Offered at FAMU, FAU, FIU, IRSC, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440401 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

* See Notes on Common Course Prerequisite Manual

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Ω Courses listed with this symbol have a Civic Literacy Competency.

AA Transfer Major: Public Relations & Organizational Communication

Admission Program Objective Code: PUBC State CIP Code: 1192401010

Offered at FAMU*, UF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090902 * See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

ECO 2013 - Economics I

* See Notes on Common Course Prerequisite Manual

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Public Safety Mgt (BAS) or Public Admin (BAS) or Public Safety/Homeland Security

Admission Program Objective Code: PBHL State CIP Code: 1192401010
Offered at FAU, FSCJ, FSWSC, MDC, SCFMS, SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 439999 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Public Safety and Security

Admission Program Objective Code: PUBC State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 430107 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Radio & TV Broadcasting

Admission Program Objective Code: RADO State CIP Code: 1192401010
Offered at UCF* Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 090701 * See notes on Common Course Prerequisite Manual

AA Transfer Major: Radiologic and Imaging Science

Admission Program Objective Code: RDTC State CIP Code: 1192401010
Offered at VC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510907 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

To be admitted, a student must have current American Registry of Radiologic Technologists (ARRT) certification.*
* See Notes on Common Course Prerequisite Manual
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Real Estate

Admission Program Objective Code: REAL State CIP Code: 1192401010
Offered at FAU, FIU, FSU*, UCF, UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 521501 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts

General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Religious Studies

Admission Program Objective Code: RELG State CIP Code: 1192401010

Offered at FIU, FSU, UCF, UF, UNF, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 380201 Common Course Prerequisite Manual

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .
Choose any two of the following:

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

PHY 2048C

Prereq/Corequisites:

MAC 2312 or equivalent

Note:

In special circumstances, PHY 2048C and PHY 2049C can be taken out of sequence with instructor approval.

AA Transfer Major: Science Teacher Education - Earth/Space Teacher Education

Admission Program Objective Code: STEE State CIP Code: 1192401010

Offered at DSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common

Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 3/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I and BSC 1011C - Principles of Biology II 4 Credit Hours

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1045C - College Chemistry I and CHM 1046C - College Chemistry II 4 Credit Hours

or

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

AA Transfer Major: Science Teacher Education - Biology Teacher Ed (BC, CC, DSC, FSWSC, IRSC, NWFSC, SPC, MDC)

Admission Program Objective Code: SCIB State CIP Code: 1192401010
Offered at BC, CC, DSC, FSWSC, IRSC, NWFSC, SPC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131322 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2311 - Calculus I

Any two of the following:
This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet

Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):

MAC 1114 or equivalent

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1054C - General Physics Without Calculus II

This is the second course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers the areas of electricity, magnetism, light, quantum theory, atomic and nuclear structure, and elementary particles. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

PHY 1053C or equivalent.

PHY 2048C - General Physics With Calculus I

This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MAC 2311 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2049C - General Physics with Calculus II

* See Notes on Common Course Prerequisite Manual

This is the second course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers electrostatics, magnetostatics, electromagnetic fields and waves, direct-current circuits, alternating-current circuits, and optics. This course contains both lecture and laboratory components.

Transfer Major Required Courses*

ENL 2012A - English Literature: Old English through the Enlightenment

or

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):
ENC 1101 .

Note:
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature: Romantic Period Through the Present

* See Notes on Common Course Prerequisite Manual

A study of English literature from the Romantic period through the present, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):
ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SPC 1608 - Public Speaking

LITXXXX - Any course with the LIT prefix or
AMLXXXX - Any course with the AML prefix

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

AA Transfer Major: Secondary Teacher Ed - Social Science

Admission Program Objective Code: SESS State CIP Code: 1192401010
Offered at FAMU, UCF, UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131205, track 2/6 Common Course Prerequisite Manual The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

Admission Program Objective Code: SOWR State CIP Code: 1192401010
Offered at FAMU, FAU, FGCU, FIU, FSU*, UCF*, USF*, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 440701 * See notes on Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1005 - General Biology

or

The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1010C - Principles of Biology I

or

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2013 - Economics I

or

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

or

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AA Transfer Major: Sociology - Anthropology

Admission Program Objective Code: SOAN State CIP Code: 1192401010

Offered at FUI Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 451101, track 1/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ANT 2000 - Introduction to Anthropology

* See Notes on Common Course Prerequisite Manual
Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Transfer Major Required Courses*

SPN 1120 - Spanish I

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading, and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

SPN 1121 - Spanish II

Pronunciation and grammatical structures of Spanish, with emphasis upon balanced development of all four skills – listening, speaking, reading and writing. Covers all basic structures of the language.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

SPN 1120 or an equivalent course with a grade of "C" or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

SPN 2220 - Spanish III

* See Notes on Common Course Prerequisite Manual
Intermediate level review of grammar, readings in Spanish Literature, and development of conversational and writing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

SPN 1121 or an equivalent course with a grade of "C" or better.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

AA Transfer Major: Special Education, General

Admission Program Objective Code: SPED State CIP Code: 1192401010
Offered at BC, CC, DSC, FAU, FGCU, FIU, FSU*, UCF, UF*, UNF, USF, USFSM, USFSP, UWF, SPC, IRSC, MDC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc

lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

Two laboratory based science courses for science majors* (BSC 1010C , BSC 1011C , CHM 1045C , CHM 1046C , GLY 2010C , GLY 2100C , PHY 2048C , PHY 2049C)

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

STA 2023 - Statistics

* See Notes on Common Course Prerequisite Manual

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Studio/Fine Art

Admission Program Objective Code: SDAR State CIP Code: 1192401010

Offered at FAMU, FGCU,, FIU, FSU*, UCF, UF*, UNF*, USF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500702, track 1/2

* See notes on Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

ARTXXXX - Two courses with the ART prefix
* See Notes on Common Course Prerequisite Manual
Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1203C - Three-Dimensional Design

An introductory course, both theoretical and applied, dealing with principles of organization and the elements of design in a 3-dimensional format. Various materials, tools, and surfaces are used to explore 3-D form. This is a foundation course. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1301C - Drawing II

or
Continued study of drawing techniques explored in Drawing I. Provides experience with more complex drawing problems. Emphasis is on self-expression, value, color theory, and composition. A variety of subject matter and drawing media will be explored.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ART 1300C . Audit enrollment in studio art classes is permitted on a space-available basis only.

ART 2330C - Figure Drawing I

The development of technical skills and self-expression through drawing the figure; course begins with anatomy studies, progresses to conceptualization of human form. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

AA Transfer Major: Studio/Fine Art - Graphic Design

Admission Program Objective Code: SDGD State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 500702, track 2/2 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2602C - Digital Imaging I

ARHXXXX - Any course with the ARH prefix

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Note:

▲Technology-Across-the-Curriculum Course.

GRA 2190C - Graphic Design I

GRAXXXX - Any course with the GRA prefix

* See Notes on Common Course Prerequisite Manual
An intermediate Graphic Design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality digital camera required. It is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:
▲Technology-Across-the-Curriculum Course.

AA Transfer Major: Management and Supervision (BAS - NWF)

Admission Program Objective Code: SVMG State CIP Code: 1192401010
Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC (Also see Supervision and Management) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520299 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Supply Chain Management (BAS)

Admission Program Objective Code: SUPP State CIP Code: 1192401010
Offered at BC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520203, track 1/3 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

AA Transfer Major: Science Teacher Education - Chemistry Teacher Education (FAMU, FAU, UCF, UNF, USF)

Admission Program Objective Code: STEC State CIP Code: 1192401010
Offered at FAU, UCF, UNF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131316, track 2/5 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

CHM 1045C - College Chemistry I
Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II
Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
CHM 1045C .

MAC 2311 - Calculus I
This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 1053C - General Physics Without Calculus I and PHY 1054C - General Physics Without Calculus II 4 Credit Hours

* See Notes on Common Course Prerequisite Manual
This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall) Prerequisite(s):
MAC 1114 or equivalent

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PHY 2048C - General Physics With Calculus I and PHY 2049C - General Physics with Calculus II 4 Credit Hours
or
This is the first course in a two-term sequence of calculus-based physics designed for engineering and physical science majors. This course covers classical mechanics (statics and dynamics of point-masses), rigid-body dynamics, oscillations, and waves. Additional topics, such as fluids or the special theory of relativity, may be covered if time permits. This course contains both lecture and laboratory components.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MAC 2311 .

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Surveying

Admission Program Objective Code: SURV State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 151102 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

PHY 1053C - General Physics Without Calculus I

or

This is the first course in a two-term sequence of non-calculus physics designed for biological science and pre-health profession majors. This course covers classical mechanics and thermodynamics. Entering students are assumed to have a serviceable knowledge of basic algebra and trigonometry. This course contains both lecture and laboratory components.

AA Transfer Major: Tourism and Travel Services Management

Admission Program Objective Code: TOUR State CIP Code: 1192401010
Offered at UCF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520907 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

AA Transfer Major: Trade & Industrial Teacher Ed (Vocational)

Admission Program Objective Code: TRAD State CIP Code: 1192401010
Offered at FIU, UCF, UWF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 131320 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Transportation Management

Admission Program Objective Code: TRAN State CIP Code: 1192401010
Offered at UNF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520209 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

Note:

▲Technology-Across-the-Curriculum Course.

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 with instructor/department approval.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours ▲ When Offered: (Fall, Spring) Prerequisite(s):

none

Note:

▲ Courses listed with this symbol address NWFSC's Technology-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic technology use.

CGS 1550 - Introduction to World Wide Web

This course provides an introduction to the required hardware, software, procedures, uses and building web pages on the World Wide Web and the Internet.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

▲Technology-Across-the-Curriculum Course.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Urban & Regional Planning

Admission Program Objective Code: URBA State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 040301 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Urban Design

Admission Program Objective Code: URDS State CIP Code: 1192401010
Offered at FAU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 040401 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Veterinary Technology (BAS)

Admission Program Objective Code: VET State CIP Code: 1192401010
Offered at SPC Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 510808 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Vocational Rehabilitation Counseling

Admission Program Objective Code: VOCR State CIP Code: 1192401010
Offered at FSU Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 512310 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1005 - General Biology
SYGXXXX - Any course with the SYG prefix
* See Notes on Common Course Prerequisite Manual
The principles of biology are included. Human Biology is emphasized. Human's effect on the environment is considered wherever appropriate. (NO LABORATORY — Not for majors in Biology).

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

PSY 2012 - Psychology
Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Women's Studies

Admission Program Objective Code: WOMN State CIP Code: 1192401010
Offered at FIU, UF, USF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 050207 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

AA Transfer Major: Zoology

Admission Program Objective Code: ZOO State CIP Code: 1192401010
Offered at UF Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 260701 Common Course Prerequisite Manual
The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses

BSC 1010C - Principles of Biology I

A study of the structure and function of the major biological molecules and the organization of these molecules at the subcellular level; of cellular growth including bioenergetics, metabolism and its control, and the movement and incorporation of macromolecules as related to cell expansion and repair; and the study of the control of cellular growth including both genetic and biochemical control mechanisms. Required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

high school biology and chemistry or CHM 1020 and eligibility to enroll in MAC 1105 .

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1011C - Principles of Biology II

This course is a continuation of BSC 1010C . It provides an overview of the history of life on Earth, a summary of the concepts of phylogeny and classification, and a survey of organisms with emphasis on plants and animals. Structure, evolution, taxonomy, and ecology of the major phyla will be included. This course is required for Biology, Pre-Med, and most Pre-Professional Science majors.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

BSC 1010C .

CHM 1045C - College Chemistry I

Quantitative approach to modern theoretical and descriptive chemistry with appropriate development of laboratory technique. Includes symbols, formulas, equations, atomic structure, bonding, states of matter, stoichiometry, thermo-chemistry, solutions, colloids, molecular orbitals, periodicity and properties. A two semester sequence in general chemistry with laboratory exercises and demonstrations. University transfer credit.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

MAC 1105 required; high school Chemistry or Physics, CHM 1020 or PHY 1020 advised.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

CHM 1046C - College Chemistry II

Continuation of CHM 1045C . Includes kinetics, chemical equilibrium, acids and bases, thermo-dynamics, non-metals and their compounds, electrochemistry, redox, the atmosphere, hydrocarbons, biochemistry, nuclear chemistry, coordination compounds, and qualitative analysis.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1045C .

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2311 - Calculus I

or

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

AA Transfer Major: Supervision & Management (BAS), Organizational Mgt (BAS), Business & Org Mgt (BAS), Administration & Supervision (BAS), Spvr & Org Mgt (BAS) Mgt & Org Leadership (BAS)

Admission Program Objective Code: SVMG State CIP Code: 1192401010

Offered at BCC, BC, CC, CCF, DSC, FSWFC, FSCJ, GCSC, IRSC, LSSC, MDC, NWFSC, PBSC, PESC, PSC, SFC,SFSC, SJRSC, SPC (CIP 520299 is Management and Supervision at NWFSC) Individual course requirements at specific institutions may sometimes differ from the published Common Course Prerequisite Manual. NWFSC recommends students see an academic advisor as well as contact their transfer institution to confirm program requirements. Transfer Program CIP code: 520299 Common Course Prerequisite Manual

The following courses are required for admission into the University Transfer Program. Please see the AA - Associate in Arts General Degree as well as the AA Degree General Education Requirements pages for complete AA degree requirements.

Transfer Major Required Courses*

Welding Technology (CCP)

Admission Program of Study Code WELT State CIP Code 0648050805

This program offers a broad foundation of knowledge and skills to prepare students for employment in the welding industry. Basic Skills Requirements: The student must be exempt or attain a 9th grade level on each section of the TABE exam: Math, Language and Reading.

Core Courses

PMT 0106C - Welder Helper

This course provides instruction in shop safety, the use of safety procedures and protective equipment needed in a welding shop. Course incudes basic shop math, shop safety, welding equipment setup/teardown procedures.

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0111C - Metal Preparation

This course provides instruction in different metal preparation processes including: thermal preparation (oxygen/fuel cutting, carbon arc cutting, plasma torch cutting). The student will also learn mechanical preparation (band saw, grinder, power brush, and other metal prep equipment).

Credit Hour(s): 150 Clock Hours When Offered: (Fall, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0121C - Introductory Shielded Metal Arc Welding (SMAW)

This course provides instruction and demonstration using Shielded Metal Arc Welding (SMAW). Topics include visually inspect of welds, and basic SMAW technical terminology. Basic structural welding techniques will be demonstrated in accordance with American Welding Society (AWS) D1.1 Structural Welding Code. Tack welding and metal joint fit of carbon steel is covered in this course.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0122C - Basic Shielded Metal Arc Welding (SMAW)

This course introduces structural fillet welds in different joint positions in accordance with AWS D1.1 Structural Welding Code. Fillet welds will be performed on carbon steel plate of various thicknesses.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):

PMT 0121C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0126C - Intermediate Shielded Metal Arc Welding (SMAW)

This course provides the student with instruction on joint design, joint preparation, and fit-up, and performance of groove welds with backing. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of groove welds with backing and make acceptable groove welds with backing using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Fall, Spring) Prerequisite(s):

PMT 0122C

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0127C - Advanced Shielded Metal Arc Welding (SMAW)

This course provides the student with advanced instruction on joint design, joint preparation, and fit-up, and performance of open groove welds. Emphasis is placed on safe operation of welding equipment. Upon completion, students should be able to identify the proper joint design, joint preparation and fit-up of open groove welds and make acceptable open groove welds in all positions using Shielded Metal Arc Welding (SMAW) in accordance with AWS D1.1 welding code.

Credit Hour(s): 75 Clock Hours When Offered: (Spring, Summer) Prerequisite(s):

PMT 0126C

Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0134C - Gas Metal Arc Welding (GMAW)
This course provides instruction and demonstration using the various transfer methods and techniques of Gas Metal Arc Welding (GMAW). Topics included are safety, equipment set-up, joint design and preparation, and gases.

Credit Hour(s): 50 Clock Hours When Offered: (Spring, Summer) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0145C - Flux-Core Arc Welding (FCAW)
This course provides instruction and demonstration using the various transfer methods and techniques to flux cored arc welds. Topics included are safety, equipment set-up, joint design and preparation, and gases. Students study basic Flux-Core Arc Welding (FCAW) and basic understanding of pipe welding. Welding symbols and blueprint reading are covered in this course.

Credit Hour(s): 240 Clock Hours When Offered: (Offered as Needed) Note:
*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0155C - Gas Tungsten Arc Welding (GTAW)
This course provides instruction and demonstration using the various transfer methods and techniques to gas tungsten arc welds. Topics included are safety, equipment set-up, joint design and preparation, and gases. Students study basic Gas Tungsten Arc Welding (GTAW), and basic understanding of pipe welding.

Credit Hour(s): 160 Clock Hours When Offered: (Offered as Needed)

Total Program Hours Required: 1050

Suggested Academic Plan

Welding Technology - Advanced (CCP)

Admission Program of Study Code WELA State CIP Code 0648050806
This program offers a broad foundation of knowledge and skills to prepare students for employment in the welding industry.

A student wishing to be admitted into the Welding Technology – Advanced certificate program at Northwest Florida State College must meet one of the following prerequisites:
Pass a 10 panel drug screening (same requirement for admissions into Welding Technology program) AND one of the following:
Have completed a Welding Technology certificate program at an accredited institution. OR
Possess an AWS certification or a company sponsored weld certification, in plate welding using the SMAW process OR
Demonstrate their abilities by passing a SMAW plate weld test to AWS standards

Core Courses

PMT 0165C - Shielded Metal Arc Weld (SMAW) Pipe Welding

This course introduces the student to the practices and procedures of welding carbon steel pipe using the Shielded Metal Arc Weld (SMAW) process. Emphasis is placed on pipe positions, electrode selection, joint geometry, joint preparation and fit-up. Upon completion, students should be able to demonstrate pipe positions, proper electrodes selection, proper joint geometry, joint preparation, fit-up, and proper SMAW pipe welding techniques in accordance with applicable codes.

Credit Hour(s): 200 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

PMT 0171C - SMAW-GTAW Pipe Welding

This course is designed to provide the students with skills in welding carbon steel pipe using Shielded Metal Arc Weld process and Gas Tungsten Arc Weld (GTAW) processes using proper filler metals in the 2G, 5G, and 6G positions. Upon completion, students should be able to perform shielded metal arc welding process and gas tungsten arc welding on carbon steel pipe with the prescribed filler metals in the 2G, 5G, and 6G position in accordance with the applicable code.

Credit Hour(s): 400 Clock Hours When Offered: (Offered as needed) Note:
