Student Success Navigation

Northwest Florida State College (NWF) utilizes a holistic and comprehensive advising model to better support students in achieving their academic goals. Advising services are provided in a centralized, one-stop format with options for in-person, phone at (850) 502-2895, and virtual (web-based) sessions. Service areas covered in this model include admissions, registration, records, financial aid, and academic advising, which includes degree and career pathway planning. All services are provided by Student Success Navigators under the authority of the Student Success Navigation department.
All first-time-in-college students, and transfer students with 29 or fewer transferable credits, are required to meet with a Student Success Navigator for new student advising prior to registering for classes during their first term at NWF. Students are strongly encouraged to continue regular meetings with Student Success Navigation throughout the duration of their studies. Student Success Navigators are available for advising services via phone, live chat (web), and in-person at all campus locations.
In compliance with our Memorandum of Understanding with the Department of Defense, DoD Instruction 1322.25, and NWFSC Board of Trustees Policy SS 7.00, for Service Members receiving Military Tuition Assistance, the College is required to refrain from high-pressure recruitment tactics such as making multiple unsolicited contacts (3 or more), including contacts by phone, email, or in-person, and engaging in same-day recruitment and registration for the purpose of securing Service member enrollments.

International Student Advising and Policies

International students on F-1 Student Visas are required to meet with a designated school official (DSO) prior to registration for each semester. Additionally, F-1 students must physically appear before a DSO at the beginning of each semester to demonstrate presence on campus.
International students are required to maintain full-time enrollment (12 semester credits) for each semester unless on authorized annual vacation or pending completion in the immediate term. A registration hold will be applied to each F-1 student's account to prevent unauthorized registration changes one week prior to the beginning of classes for each semester. The hold will be lifted upon the opening of the registration period for the upcoming semester and replaced one week prior the beginning of classes. An audit of F-1 student registration will be conducted by a DSO during the schedule adjustment period for each term. Students who are out of compliance will be notified in writing. Students who remain out of compliance beyond the final schedule adjustment period may risk violation of F-1 status and revocation of legal presence in the United States.
Further rules and regulations are defined by the US Department of Homeland Security and may be found online at https://studyinthestates.dhs.gov/. Consult a DSO for additional information.

On-Campus Employment for International Students

International students on F-1 Student Visas are permitted to work on-campus with the approval of a Designated School Official (DSO) and under specific guidelines. USCIS requires the work must take place either at the school or at an educationally affiliated (associated with the school's established curriculum or part of contractually funded research projects at the postgraduate level) off-campus location. On-campus employment must not displace a U.S. citizen or lawful permanent resident (LPR).
An F-1 student has three main employment-related guidelines:
May work at any qualifying on-campus job that does not displace a U.S. citizen or LPR
May work up to 20 hours per week while school is in session (full-time during those periods when school is not in session or during the annual vacation)
Should report offer of employment to a DSO and receive a certification letter to present to the Social Security Administration in order to be able to receive a Social Security number.
Not complying with these guidelines for on-campus employment may be a violation of status that could result in the F-1 student having to leave the United States.

An F-1 student may begin working as much as 30 days before the start of a program of study. they should inform the DSO before they begin work.
If an F-1 student finishes a program (such as an associate's or bachelor's degree) and starts another program of study at the same campus, the student may continue on-campus employment as long as the student plans to enroll in the new program of study for the next term. If otherwise eligible, an F-1 student may continue to work on-campus with a pending application for reinstatement or change of status.
To learn more, speak with a DSO or visit https://www.ice.gov/sevis/employment.

Practical Training for International Students

F-1 students have the option of training in the United States by engaging in practical training during a program of study or after the program of study ends. Practical training can provide valuable work experience by sharpening and adding the skills the student is learning in school. There are two types of practical training available for F-1 students: curricular practical training (CPT) and optional practical training (OPT).
Curricular Practical Training (CPT)
CPT is integral to the program of study and the experience must be part of the program of study.
A DSO will provide a new Form I-20, "Certificate of Eligibility for Nonimmigrant Student Status," that shows that the DSO has approved the employment.
The student can work on CPT either full-time or part-time.
CPT requires a signed cooperative agreement or a letter from the employer.
If the student has 12 months or more of full-time CPT, the student is ineligible for OPT, but part-time CPT is fine and will not stop the student from doing OPT.
Optional Practical Training (OPT)
OPT must relate to the program of study.
The student can apply for 12 months of OPT at each education level, (i.e., 12 months of OPT at the associate's level and another 12 months of OPT at the bachelor's level).
A DSO will provide you with a new Form I-20 that shows the DSO recommendation for this employment.
For work authorization, the student must mail a completed Form I-765, "Application for Employment Authorization," to U.S. Citizenship and Immigration Services (USCIS) and pay a filing fee. USCIS will send a Form I-766, "Employment Authorization Document," (EAD) upon approving the Form I-765.
The student must wait to start work until after receipt of the EAD.
While school is in session, the student may only work 20 hours per week.
24-Month STEM OPT Extension
All F-1 students who are currently on a regular period of OPT and are eligible for a STEM OPT extension must apply for the 24-month STEM OPT extension.
Students may qualify for an additional 24 months of OPT under the following circumstances:
The student is currently participating in a regular period of OPT.
The student received a science, technology, engineering or mathematics (STEM) degree at an undergraduate level or higher and is seeking a training opportunity related to this degree.
The student received a qualifying STEM degree from a currently accredited SEVP-certified college or university.
The employer from which you are seeking employment uses the E-Verify program.
The student and the prospective employer have completed and signed the Form I-983, "Training Plan for STEM OPT Students."
For more information about the specific eligibility requirements for the 24-month STEM OPT extension, please visit the STEM OPT Hub on https://studyinthestates.dhs.gov/.
Once a DSO verifies that the Form I-983 is complete, they will provide a new Form I-20 that shows their recommendation for this training opportunity.
The student must apply for work authorization by filing a Form I765 with USCIS and paying a filing fee. USCIS will send an EAD upon approving the petition.
The student may continue to work on an expired EAD for OPT up to 180 days while the 24-month extension petition is pending if the student meets the following conditions:
The student is currently in a period of post-completion OPT.
The student properly and in a timely manner filed the application for the 24-month extension with USCIS.
The student must report changes in name, address, employer, and loss of employment to a DSO within 10 days of any change.
Annual Vacation for International Students
An annual vacation is an authorized break in a student's studies that is taken once per academic year and lasts one term. F-1

students are eligible to take an annual vacation after completing their academic year requirement at a Student and Exchange Visitor Program (SEVP)-certified school and once every year after that. For this purpose, Northwest Florida State College defines the academic year as three semesters.
Annual vacation differs from a school break, which occurs when the college closes for a short period of time during a school term (i.e. Spring Break).
Before taking annual vacation, F-1 students should speak with a designated school official (DSO). A DSO can confirm the student's eligibility for vacation and should sign the student's Form I-20, "Certificate of Eligibility for Nonimmigrant Student Status," if the student plans to travel outside of the United States.
F-1 students must be enrolled in a full course of study any time they are not on annual vacation.

Faculty Advisors

Students admitted to selective admission programs may be required to meet with faculty advisors as directed by the associated academic department. More information on departmental policies and advising may be found on the NWF website at www.nwfsc.edu.

Last day of term for Faculty	Aug 10
Jun 28	Aug 10

1Meeting priority deadlines ensures paperwork is processed prior to first day of class; applications are still accepted after the priority deadline and processed in order of receipt.

2Students may pay fees in RaiderNet by clicking on the "Pay Fees" tab.

3Meeting this deadline ensures paperwork is processed prior to the first day of class. Per Florida Statute 1009.21 and State Board of Education Rule 6A-10.044, students will be classified as an in-state resident only if their documentation is received prior to the start of class (if students are taking courses within multiple parts of term, their documentation must be submitted prior to the earliest starting course in order to be classified as an in-state resident for the semester).

4Students registered in parts of term other than the ones published here should refer to the Non-Traditional Parts-of-Term Calendar listed on the Academic Calendar website for registration deadlines specific to their course(s).

5Faculty are required to submit all grades by 11 am on the days midterm and final grades are posted.

Approved by Board of Trustees 6/16/2020

Accommodation Resource Center

Accommodation Resource Center

The Accommodation Resource Center (ARC) of Northwest Florida State College is committed to providing equal access and opportunities for our students with disabilities in accordance with Section 504 and 508 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, as well as the ADA Amendments Act of 2008. The ARC advocates for students with disabilities by removing educational barriers and partnering with the campus community for inclusion and support.
Students in need of accommodations must be registered for courses and are encouraged to complete and submit the application form which is available online by visiting www.nwfsc.edu/students/accommodations. Students who apply for services may be eligible for accommodations such as, but not limited to, assistive technology, software and equipment, sign language interpreters, live captioning, or exam time-extensions. Registered students with the ARC must renew their accommodations at the beginning of each semester by filling out and submitting an ARC renewal form located on the ARC website. Confidentiality is honored and maintained. Students may contact the ARC at arc@nwfsc.edu or by calling 850-729-6079.
Telephone Device for the Deaf (TDD) numbers are available through the Florida Telecommunication Relay Service:

Voice:	711 or 1-800-955-8770
TDD:	711 or 1-800-955-8771

Northwest Florida State College does not discriminate against qualified individuals with disabilities in any of our programs, services, or activities based on Title II of the Americans with Disabilities Act.

Physical Therapist Assistant (AS)
Radiography (AS)
Welding Technology (CCP)

College Accreditation

Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)

Northwest Florida State College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate and baccalaureate degrees. Contact the Southern Association of Colleges and Schools at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Northwest Florida State College.

Program Accreditations

Dental Assisting (CCP)

The program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval without reporting requirements". The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission's web address is: http://www.ada.org/en/coda. The next site visit is in 2025.

Elementary Education (BS)

Northwest Florida State College is approved by the Florida Department of Education to offer the Bachelor of Science in Elementary Education with ESOL/Reading Endorsement, which leads to state certification in teacher education. The Florida Department of Education web address is: http://www.fldoe.org/teaching/preparation/initial-teacher-preparation-programs/

EMT (CCC)

The EMT program is certified by the Florida Department of Health. The Florida Department of Health can be contacted at (850) 245-4910 or through their website at: http://www.floridahealth.gov/licensing-and-regulation/emt-paramedics/index.html.

Firefighter I/II

The Firefighter I/II program is certified by the Florida Bureau of Fire Standards and Training. The Florida Bureau of Fire Standards

and Training can be contacted at (352) 369-2800 or through their website at: https://www.myfloridacfo.com/division/sfm/bfst/.

Law Enforcement (CCP)

The following NWF State College instructional programs are certified by the Florida Criminal Justice Standards and Training Commission (CJSTC) through the Florida Department of Law Enforcement (FDLE). The Florida Criminal Justice Standards and Training Commission can be contacted at (850) 410-7000. The website for the Criminal Justice Standards & Training Commission is: https://www.fdle.state.fl.us/CJSTC/CJSTC-Home.aspx.
Law Enforcement Officer Basic (CCP)
Correctional Officer Basic (CCP)

Medical Laboratory Technology (AS)

The Medical Laboratory Technology program at Northwest Florida State College is currently seeking accreditation through the National Accrediting Agency for Clinical Laboratory Science.
Graduation from a medical laboratory technology program accredited by the National Accrediting Agency for Clinical Laboratory Science is necessary for eligibility to sit for all national certification exams and for Florida licensure. Submission of an accreditation application does not assure that the program will be granted accreditation status. In order to be considered for accreditation, the first cohort of students must fully complete the two year program. This cohort will be allowed to sit for certification exams when the college achieves NAACLS serious candidate status prior to their graduation.

Nursing (ASN)

The AS Nursing program at Northwest Florida State College is accredited by the: Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326,(404) 975-5000 (http://www.acenursing.com/accreditedprograms/programsearch.htm).

Nursing (BSN)

The baccalaureate Nursing program is accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).

Paramedic (CCC)

The NWF State College Paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs (http://www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), Commission on Accreditation of Allied Health Education Programs, 1361 Park Street, Clearwater, FL 33756, Telephone (727) 210-2350. www.caahep.org
To contact CoAEMSP: 8301 Lakeview Parkway, Suite 111-312, Rowlett, TX 75088, Telephone (214) 703-8445 Fax (214) 703-8992. www.coaemsp.org
The Paramedic program is certified by the Florida Department of Health. The Florida Department of Health can be contacted at (850) 245-4910 or through their website at: http://www.floridahealth.gov/licensing-and-regulation/emt-paramedics/index.html.

Physical Therapist Assistant (AS)

The Physical Therapist Program is currently pursuing accreditation through the Commission on Accreditation in Physical Therapy Education (CAPTE).
Graduation from a physical therapist assistant education program accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; phone (703) 706-3245; accreditation@apta.org is necessary for eligibility to sit for the national licensure examination, which is required in all states.
Effective November 3, 2020, Northwest Florida State College has been granted Candidate for Accreditation status by the Commission on Accreditation in Physical Therapy Education (3030 Potomac Ave., Suite 100, Alexandria, VA, 22305-3085; phone:

703-706-3245; email: accreditation@apta.org). If needing to contact the program/institution directly, please call 850-863-6511 or email pta@nwfsc.edu. Candidate for Accreditation is an accreditation status of affiliation with the Commission on Accreditation in Physical Therapy Education that indicates the program may matriculate students in technical/professional courses. Achievement of Candidate for Accreditation status does not assure that the program will be granted Initial Accreditation.

Radiography (AS)

The Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850 Chicago, IL 60606-3182, Email: mail@jrcert.org, Phone: (312) 704-5300, Fax: (312) 704-5304. www.jrcert.org

Welding Technology (CCP)

The Welding Technology program is accredited by the National Center for Construction Education and Research. As the accrediting body for the industry, NCCER establishes the benchmark for quality training and assessments. The National Center for Construction Education and Research can be contacted at (888) 622-3720 or at 13614 Progress Boulevard, Alachua, FL 32615. NCCER's web address is: https://www.nccer.org/.

Northwest Florida State College (NWFSC) is an open-door institution that admits high school graduates or GED certificate holders. However, depending on the student's intended program of study, there may be specific admission criteria that must be met. All applicants must complete the online NWFSC Admissions Application. An applicant is limited to one application per semester. If an applicant needs to make any changes to the application, he or she must complete an electronic Request for Exception: Admissions form to make any changes to the current application. A link to this request form can be found on the Admissions Page of the College's website. Upon admission, the student is bound to the rules and requirements set forth in the College Catalog in effect for the semester of admission. If the applicant fails to enroll during the semester of their initial admission, he or she will be required to complete a new Admissions Application for a future semester.

Get Started

It's free to apply to NWFSC. Apply online at www.nwfsc.edu/admissions.
Request official transcripts, as applicable, which include the following: a final high school transcript, GED transcript, or the Affidavit of Home School Completion (the affidavit must be notarized and proof of home education program registration with a County School Board must accompany it); official college and/or university transcripts from all institutions previously attended, including military transcripts (Community College of the Air Force and the Joint Services Transcript). Please request official transcripts to be sent directly to Northwest Florida State College, Office of Academic Records and Enrollment, 100 College Blvd. East, Niceville, FL 32578. All required documents must be received prior to the start of the semester of admission; if all admission documentation is not received, a registration hold will be placed on the student's account that will prohibit all registration activity until such time as the documentation is received.
Score reports from national testing agencies such as CLEP, DANTES, AICE, AP, or IB are required to receive course credit; however, a lack of submission will not prevent an admissions decision nor registration.
All First-Time Freshmen are required to meet with a Student Success Navigator for academic advising prior to registering for courses. Students may call (850) 502-2895 or email studentsuccess@nwfsc.edu to schedule an appointment.
Each applicant will be notified by email of their admission status to the College. Once admitted, students are assigned an NWFSC student email account and student identification number. The student is expected to provide his or her student identification number in order to verify his or her identity when discussing any information related to the student's education record here at the College. The NWFSC student email account serves as the official method of communication to the student from the College. The student will be expected to use this email account when communicating electronically with the College.

Re-Admission

An application is good for one semester. A student who is admitted but does not enroll within that semester must re-apply. In addition, a student who has previously attended NWFSC, but who has not been in attendance within one year (3 semesters) must reapply to update personal data, verify their intended program of study, and declare their current residency status. If the student attended another post-secondary institution during his or her break in enrollment, an official transcript must be submitted from that institution. The student will complete requirements for graduation under the catalog in effect for the term of re-admission.
In compliance with our Memorandum of Understanding with the Department of Defense, DoD Instruction 1322.25, and NWFSC Board of Trustees Policy SS 7.00, service members and reservists may be readmitted to a program if they are temporarily unable to attend class or have to suspend their studies due to service requirements. Contact the Executive Director of Academic Records & Enrollment for more details.

Transfer Students

A student who has attended another college or university prior to enrolling at NWFSC in a degree program is considered a transfer student, regardless of the grades received or the transferability of the courses attempted. Transfer students who are seeking an associate degree or baccalaureate degree at NWF State College must submit official transcript(s) from every post-secondary college or university he or she has previously attended to Northwest Florida State College, Office of Academic Records and Enrollment, 100 College Blvd. East, Niceville, FL 32578. If all transcripts are not received prior to the start of the semester of admission, a registration hold will be placed on the student's account that will prohibit all registration activity until such time as the transcripts are received.

An Exception to Admissions Policy

Applicants may request an exception to the Admissions policy by submitting the electronic Request for Exception: Admissions Policy form. Requests for exception to published policy must be accompanied by all required supporting documentation and will be reviewed by the Office of Academic Records and Enrollment on a case-by-case basis. Requests must be submitted at least ten (10) business days before the start of the desired semester (or part-of-term) of entry. Decisions issued in this process are final. Multiple appeals for the same term will not be accepted. A link to this request form can be found on the Admissions Page of the College's website. Please see the official appeal form for further details and instructions.

Associate in Arts, Associate in Applied Science, and Associate in Science

Degree Admission Requirements

An applicant for admission to the Associate in Arts (AA), Associate in Applied Science (AAS), Associate in Science (AS), College Credit Certificate (CCC), or Bachelor (BAS, BSE, BSN) degree programs must be a high school graduate and submit one of the following as a part of the application:
High School Diploma Florida public high school graduates must have earned a standard high school diploma as defined in Section 1003.4282 and Section 1002.3105 of Florida Statute, and in Rule 6A-1.09963 of Florida Administrative Code. An official high school transcript listing the high school graduation date is required. Non-Florida public high school graduates must have earned the equivalent of a standard Florida public high school diploma. All other diplomas must be validated. Domestic institutions that are not registered with a department of education from a U.S. state or U.S. territory, or that only offer an exam for a diploma, do not meet the high school diploma requirement.
State Equivalency Diploma (GED) Students who have received the General Education Diploma (GED) are required to submit an official GED transcript listing the overall passing score.
Home-Educated Students Home-Educated students must submit a notarized copy of the Affidavit of Home School Completion and provide proof that he or she registered with a County School Board as participating in a home education program.
Internationally-Educated Students Students who graduated from a secondary school outside of the U.S. must use one of the agencies sanctioned by the National Association of Credential Evaluation Services, Inc. (NACES) to validate their secondary school credentials. A list of NACES agency members can be found at www.naces.org. Students will need to have the official evaluation sent to Northwest Florida State College, Office of Academic Records and Enrollment, 100 College Blvd. East, Niceville, FL 32578. The evaluation agency must verify that the student received the equivalent of a U.S. high school diploma in order to meet the high school diploma requirement for Admissions.
Graduating High School Seniors that are applying for the summer semester directly following his or her spring high school graduation date may be provisionally admitted to the College's non-selective programs without receipt of a final high school transcript, as long as the student meets all other admission requirements. The student will be able to register and enroll for the summer semester but must submit a final high school transcript verifying the high school graduation date prior to the start of the subsequent semester of enrollment. If this documentation is not received by the deadline, the student will have a registration hold placed on his or her record until the time that the final high school transcript is received and the student's application status changes from provisional acceptance to full admittance.

Admission to an A.S. Program with a Companion Certification

Many of the technical certificate programs offered by NWFSC provide the initial step in meeting selected course requirements for an A.S. degree in a related area. Courses from those certificates are the same as or equivalent to comparable courses in the companion degree program. Likewise, courses used in the degree program may be applied to a certificate in a related area; in many cases, completion of the technical courses in the degree program can automatically qualify the student to receive the companion certificate. To ensure that students receive every credential earned here at NWFSC, students who are admitted to an A.S. degree that contains a companion certificate will automatically have that certificate added to their program of study at the time of admission. This will ensure that once the student has met the course requirement for the companion certificate, he or she will be identified as a potential certificate graduate. Students who have met all of the requirements for a certificate will automatically be awarded the applicable credential at the end of the semester in which all certificate requirements have been fulfilled.

Certificate Admission Requirements (CCC or CCP)

An applicant for admission to either the College Credit Certificate (CCC) or Career Certificate (CCP) programs must be a high school graduate and submit one of the documents as described above as part of the application. Transcripts from previous post-secondary institutions are not required for admission but must be submitted if the student is seeking any type of transfer credit for previous college or university coursework successfully completed.*
*If the CCC or CCP program is a selective admissions program, transcripts from previous post-secondary institutions may be required as part of the selective admissions process.

Applied Technology Diploma (ATD) Admission Requirements

An applicant for admission to an Applied Technology Diploma (ATD) program must be a high school graduate and submit one of

the documents as described above as part of the application. Transcripts from previous post-secondary institutions are not required for admission but must be submitted if the student is seeking any type of transfer credit for previous college or university coursework successfully completed.*
*If the ATD program is a selective admissions program, transcripts from previous post-secondary institutions may be required as part of the selective admissions process.

Baccalaureate Degree Admission Requirements

NWFSC is approved by the State of Florida Board of Education to offer baccalaureate degrees. NWFSC offers the Bachelor of Applied Science (BAS), Bachelor of Science in Education (BSE), and Bachelor of Science in Nursing (BSN) degree programs. All bachelor's degree programs are designed to provide a career ladder for those who have already completed an associate degree (or 60 transferable credits for the BAS and BSE degrees). All bachelor's degree applicants must complete the NWFSC Admissions Application. Students who do not have an associate degree (or 60 transferable credits for the BAS and BSE degrees) are not eligible to apply and should speak with a Student Success Navigator to determine the appropriate program in which the student may be eligible. Students may call (850) 502-2895 or email studentsuccess@nwfsc.edu to schedule an appointment.

Bachelor of Applied Science in Project Management Bachelor of Applied Science in Management and Supervision

An applicant for admission to the Bachelor of Applied Science in Project Management or the Bachelor of Applied Science in Management and Supervision degree program may be admitted with the following:
Completion of NWFSC Admission Requirements as outlined for the AA, AAS, and AS degree programs
Completion of 60 transferable credits. Students who have completed an AA degree may be asked to complete additional credits in a professional area (e.g., accounting, computer science, general business, etc.) in lieu of the additional general education credits required of the AS and AAS students.
Completion of all developmental coursework.

Bachelor of Science in Nursing

An applicant for admission to the Bachelor of Science in Nursing (BSN) degree program may be admitted with the following:
Completion of NWFSC Admission Requirements as outlined for the AA, AAS, and AS degree programs.
Completion of an associate degree in nursing (ADN) or a nursing diploma program prior to enrollment.
Completion of all developmental coursework.
Documentation of a current and clear RN License. Recent graduates of nursing programs who have not yet obtained an RN License may apply and may be accepted on a conditional basis for one semester and may not take courses that include experiential learning components. The conditional status will be removed once the student provides a copy of his or her RN License.
Documentation of a grade point average (GPA) of 2.75 or higher in all college credit coursework and a grade of "C" or higher in all Florida Common Course Prerequisites applicable to the RN to BSN degree program. Depending on program capacity, students with less than a 2.75 GPA may be admitted on a provisional basis. However, in all cases, the student must have earned a "C" or higher in all Florida Common Course Prerequisites. Provisional status will be removed if the student earns a GPA of 3.0 or higher for his or her first eight upper-division nursing credits at the College. If this benchmark is not met, the student will not be permitted to continue in the RN to BSN degree program. Ideally, pre-requisite and General Education courses should be completed prior to enrolling in upper-division nursing courses; however, all pre-requisite and General Education courses must be completed before the student can take NUR 4615C and subsequent BSN courses.
Additional conditions, which include proof of immunizations, CPR verification, drug screen, and background check, must be satisfied prior to registration in courses that include experiential learning experiences.
Contact the BSN Department at (850) 729-6444 for additional information.

Bachelor of Science in Elementary Education

An applicant for admission to the Bachelor of Science in Elementary Education degree program may be admitted with the following:
Completion of NWFSC Admission Requirements as outlined for the AA, AAS, and AS degree programs.

Completion of an AA or AS degree from a regionally accredited college or university, or at least 60 transferable credits of post-secondary education from a regionally accredited college or university.
Completion of all developmental coursework.
Completion of all General Education Requirements and the lower-division state-mandated common pre-requisite with a minimum grade of "C" in the pre-requisite course.
Completion of 6 semester hours of coursework with an international or diversity focus.
A minimum cumulative grade point average (GPA) of 2.5 on a 4.0 scale for the General Education component of the undergraduate studies or have completed the requirements for a baccalaureate degree with a minimum Cumulative GPA of 2.5 on a 4.0 scale from an approved college or university.
Agreement to submit to background checks by both the Florida Department of Law Enforcement (FDLE) and the Federal Bureau of Investigation (FBI).

Bachelor of Science in Early Childhood Education, Birth through Four

An applicant for the Bachelor of Science in Early Childhood Education may be admitted with the following:
Completion of NWFSC Admission Requirements as outlined for the AA, AAS, and AS degree programs.
Completion of an AA or AS degree from a regionally accredited college or university, or at least 60 transferable credits of post-secondary education from a regionally accredited college or university.
Completion of all developmental coursework and a minimum of 18 credit hours of transferable General Education courses.
Completion of state-mandated prerequisites with a minimum grade of "C".
Completion of 6 semester hours of coursework with an international or diversity focus.
A minimum cumulative grade point average (GPA) of 2.0 on a 4.0 scale.
Agreement to submit to fingerprinting as required by Early Childhood facilities.

Selective Program Admissions

Selective programs are those programs that have limited slots, a competitive selection process, and require additional Admission Requirements.

Dental Assisting

The program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval without reporting requirements". The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission's web address is http://www.ada.org/en/coda. The next site visit is in 2025.
The program is a three (3) semester Selective Admissions Career and Technical Certificate program. Applicants must possess a high school diploma or its equivalent, must meet or exceed the minimum cumulative GPA requirement, and satisfy all other NWF State College admission criteria. Students selected for this program must meet matriculation criteria, including a criminal background check, drug screen, proof of immunization and CPR certification, as required by clinical facilities. Program graduates are eligible to sit for the Dental Assisting National Board examination to receive the Certified Dental Assistant (CDA) credential. Contact Dental Assisting at (850) 729-6444 for additional information.

Emergency Medical Technician (EMT)

The Emergency Medical Technician program is approved by the Florida Department of Health. Emergency Medical Technicians are part of the Emergency Medical Services team. EMTs are trained to provide basic life support and transportation of the sick and injured. The EMT program prepares students to apply for the examination to become a Florida licensed and National Registry Emergency Medical Technician-Basic.
The Emergency Medical Technician program is 300 clock hour program and is conducted over one (1) semester. Applicants to this program must have a high school diploma or its equivalent and meet other applicable Admission criteria (including fingerprinting, a background check, and a drug screen). Contact the Public Safety Office at publicsafety@nwfsc.edu or (850) 729-5378 for additional information.

Firefighting

Firefighters are trained to extinguish and control fires in response to situations where property, life, or the environment is in danger. At the scene of an emergency, firefighters perform tasks assigned by their commanding officer. Depending on the situation, they may need to provide medical attention, break through debris, operate fire hoses, or enter a burning building. Firefighters are often first responders to car accidents, heart attack scenes, and other medical emergencies that do not involve fire.
The Firefighting Certificate program is one (1) semester that consists of two classes: Fire Basic I and II. Applicants to this program must have a high school diploma or its equivalent and meet other applicable Admission criteria. In order to complete the program, all students must pass the Test of Adult Basic Education (TABE) or qualify for TABE exemption. Contact the Public Safety Office at publicsafety@nwfsc.edu or (850) 729-5378 for additional information.

Medical Laboratory Technology

The program leads to an Associate in Science (AS) in Medical Laboratory Technology degree. Graduates are eligible to apply for certification to become Medical Laboratory Technicians and/or continue their education at the bachelor's or higher level.
New students will be accepted annually at the end of the summer semester. Applicants must complete specific requirements in addition to the College application to include performance in prerequisite coursework. Students selected for the program will be required to complete a background check and drug screen before admittance to the clinical phase of the program. Interested students should review all application material and selection criteria on the NWFSC MLT program website. Contact a Student Success Navigator at (850) 502-2895 or studentsucess@nwfsc.edu for advising or additional information.

AS/RN Nursing

This two (2) year Nursing program, which is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA, 30326. http://www.acenursing.com/accreditedprograms/programSearch.htm, (404) 975-5000, leads to an Associate in Science (AS) in Nursing degree. Graduates of the Nursing program are eligible to apply for licensure by examination to become Registered Nurses (RNs). They are also prepared to continue their education and can smoothly transition into the RN to BSN program offered at NWFSC.
The Associate in Science in Nursing has a twice-a-year admissions process to begin nursing coursework in the Fall or Spring semester. Those who plan to apply to the program may wish to complete specified General Education coursework to prepare a more competitive application. Applicants must complete a program application in addition to the College application, must meet or exceed the minimum cumulative GPA requirement, and must pass the Nursing Admission Examination to be considered for selection into the program. Students selected for this program must meet matriculation criteria, including fingerprinting, a criminal background check, drug screen, proof of immunization, and CPR Certification, as required by clinical facilities. Interested students should review all application materials and selection criteria on the Nursing website. Contact a Student Success Navigator at (850) 502-2895 or studentsuccess@nwfsc.edu for advising or additional information.

Paramedic

The Paramedic program is accredited by the Committee on Accreditation for the EMS Professions (CoAEMSP). Paramedics are the highest trained and educated pre-hospital provider of emergency medicine. In the Paramedic program, students are provided the highest quality education to prepare to become competent leaders in the high pace work of Emergency Medical Services. The Paramedic program is three (3) semesters beyond the Emergency Medical Technician - Basic level and prepares students to apply for the Florida or National Registry Paramedic board examination. The Paramedic Certificate program is a Selective Admissions College Credit Certificate. Students admitted to this program must have a high school diploma or its equivalent and meet other applicable Admission criteria (including documentation of current Florida Emergency Medical Technician (EMT) Certification, fingerprinting, a background check, and a drug screen). The curriculum for this program forms the core of the Associate in Science in Emergency Medical Services degree program. Contact the Public Safety Office at publicsafety@nwfsc.edu or (850) 729-5378 for additional information.

Physical Therapist Assistant

The Physical Therapist Assistant Program is based on a selective admissions process with students admitted annually at the end

of the fall semester to begin technical courses in spring. Admissions requirements and procedures are subject to change. Interested students should review all application materials and selection criteria on the PTA Program website. Applicants must complete specific requirements in addition to the College application to include a minimum pre-requisite GPA and pass the Health Professions Admissions Examination. Students selected for the program will receive conditional acceptance pending completion of a background check and drug screen. Graduates are eligible to apply for licensure by examination to become licensed PTAs. Contact a Student Success Navigator at (850) 502-2895 or studentsucess@nwfsc.edu for advising or additional information.
Effective November 3, 2020, Northwest Florida State College has been granted Candidate for Accreditation status by the Commission on Accreditation in Physical Therapy Education (3030 Potomac Ave., Suite 100, Alexandria, VA, 22305-3085; phone: 703-706-3245; email: accreditation@apta.org). If needing to contact the program/institution directly, please call 850-863-6511 or email pta@nwfsc.edu.
Candidate for Accreditation is an accreditation status of affiliation with the Commission on Accreditation in Physical Therapy Education that indicates the program may matriculate students in technical/professional courses. Achievement of Candidate for Accreditation status does not assure that the program will be granted Initial Accreditation.

Radiography

The Radiography program is based on selective admission, subject to additional policies and licensure requirements. The admission criteria and process are subject to change; students should refer to the Selective Program Admissions Radiography (AS) webpage for the most current information. All courses in the Radiography program, including required general education and core courses, must be completed with a minimum grade of "C" to graduate with the AS Degree in Radiography. Graduates are eligible to sit for the ARRT certification exam. For additional information, contact the Health Technology Department at (850) 729-6444.

Welding

Welding Technology and Advanced Welding Technology are Selective Admissions Career Certificate programs. New students are accepted for Admissions annually in both the Spring and Fall semesters. Students admitted to these programs must meet specific admission criteria. The NWFSC Welding program provides you the skills, knowledge, and customized training required to be a professional welder. Students accepted into the program have the opportunity of obtaining NCCER credentials. Each certificate level is acknowledged by the industry as proof of acquired skills in various forms of welding, cutting, base metal preparation, welding inspection, safety, and metallurgy. Interested students should review all application materials and selection criteria in the Welding program guide. Please contact the Welding Office at (850) 729-5224 or visit the Welding website for additional information.

Programs with Additional Admission Requirements

Criminal Justice Training Programs

The Law Enforcement Officer Basic and Correctional Officer Basic Career and Technical Certificate Programs are certified through the Florida Department of Law Enforcement (FDLE). The College is designated as Florida Criminal Justice Training Center Number 21 and students enrolling in these certificate programs must meet FDLE requirements (including fingerprinting and background check, and a medical exam), possess a standard high school diploma or its equivalent, successfully complete the Florida Basic Abilities Test (FBAT) and the Physical Agility Test (PAT), as well as satisfy all other NWFSC Admission standards. Contact the Criminal Justice Program at criminaljustice@nwfsc.edu or (850) 729-5378 for additional information.

Emergency Medical Services

The Associate in Science in Emergency Medical Services (EMS) curriculum forms the last stage of a career ladder program progression from Emergency Medical Technician to Paramedic to the associate in science degree. Applicants to this program must have a high school diploma or its equivalent. Students must meet additional criteria (including fingerprinting, a background check, and a drug screen) prior to enrolling in the program's EMT or Paramedic coursework. Contact the Public Safety Office at publicsafety@nwfsc.edu or (850) 729-5378 for additional information.

Fine and Performing Arts

While a student may be admitted into a Fine & Performing Arts program without any additional Admissions requirements, please note that specific courses may require an audition and/or interview. Contact the Humanities, Fine and Performing Arts Division at (850) 729-5382 for additional information.

Non-Degree Seeking Students

Many students attend college to upgrade employment skills, meet specific pre-requisite requirements, or for personal interest and enjoyment. Non-degree applicants only need to complete the NWFSC Admissions Application. Applicants who do not wish to earn a degree or certificate from NWFSC but wish to take credit courses do not need to provide evidence of prior educational coursework. However, students seeking enrollment in courses with pre-requisites or other Admissions requirements, or students seeking financial assistance may be required to provide evidence of all prior educational course work. A student will not be permitted to enroll in any college credit English, Humanities, Mathematics or Gordon Rule Social Science course without meeting the State of Florida mandated minimum scores on an approved placement test, providing documentation verifying they have met the pre-requisite, or proving that he or she is exempt from placement testing.

Transient Students from Other Institutions

Students who are currently enrolled at another Florida post-secondary institution as a degree-seeking student, but wish to take courses at NWFSC that will transfer back to their home institution are considered Transient Students. Transient students within the state of Florida are required to submit an online FloridaShines application. A FloridaShines application showing approval by the home institution is required to be admitted to NWFSC. A new FloridaShines application will need to be submitted for each semester that the student intends to enroll at NWFSC. At the end of the semester, NWFSC will send a copy of the student's official transcript back to the student's home institution on the student's behalf.
Students who are currently enrolled at a non-Florida post-secondary institution, but wish to take courses at NWFSC that will transfer back to their home institution are considered standard Non-Degree Seeking students at NWFSC and should complete the College's regular online Non-Degree Seeking application. If the student is seeking to enroll in coursework that requires a pre-requisite, the student will need to provide a copy of his or her transcript (or applicable score report) showing that the pre-requisite has been completed or submit their home institution's authorization of course selection prior to initial registration.

International Students

International students should begin the Admissions process at least four months prior to the beginning of any college semester. International mail delays, transcript verification, international monetary transfers, consular appointments, travel, housing, and advisement and/or testing requirements must be anticipated many months in advance of enrollment. The desired date for application materials to be received by the College is April 1st for Fall, September 1st for Spring, and January 1st for the Summer semester. International students seeking college credit on the F-1 or M-1 Visa must satisfy all requirements for admission as a regular student and meet the following requirements:
Fill out the online International (F1-VISA) application located on the Admissions website.
Transcripts: Official transcripts of secondary and post-secondary school records from outside of the U.S. must be evaluated by a third-party agency at the student's expense. The evaluation agency must be sanctioned by the National Association of Credential Evaluation Services, Inc. (NACES). A list of NACES agency members can be found at www.naces.org. A course-by-course evaluation is required for all post-secondary record evaluations. Students will need to have the official evaluation sent to Northwest Florida State College, Office of Academic Records and Enrollment, 100 College Blvd. East, Niceville, FL 32578. Though not required, requests for the acceptance of career and technical level transfer work must also be evaluated by a NACES sanctioned evaluation service at the student's expense. Recommendations from the evaluation service will be considered in determining what courses may transfer, however, the final determination will be made by the Executive Director of Academic Records and Enrollment in consultation with the appropriate academic department representatives, if applicable. Once the original transcript evaluation documents are received and processed by NWFSC, they are considered the property of the College and are only considered as 'official' for internal academic and business processes. These documents will not be returned to the student nor will they be forwarded to another college or agency. Students seeking an exception to this policy may submit a written request to the Executive Director of Academic Records and Enrollment for consideration.

Financial Support: An official statement from the applicant's (or sponsor's) bank or other financial institution or government agency verifying the availability of sufficient funds for tuition, matriculation, books, living expenses, etc., must be submitted (Approximately: $25,000 for the academic year). With the exception of athletic scholarships, financial assistance for international students is not available from NWFSC. An international student must be able to finance all school expenses and transportation. Before obtaining a visa, the U.S. government will require a copy of the financial certification given to NWFSC. Employment is not permitted unless permission to work is given by the Immigration and Naturalization Service (INS). College fees are subject to change without notice.
Language Proficiency: Test of English as a Foreign Language (TOEFL) results are required of applicants for whom English is not the primary language. The minimum required score is 173 for the computer-based TOEFL cBT and 61 on the Internet-based TOEFL iBT. Students, who have evidence of English proficiency in lieu of a passing TOEFL score, may submit a Request for Exception: Admissions Policy Form. NWFSC does NOT administer the TOEFL test.
Health Information: Health insurance with hospitalization coverage and a repatriation clause is required. This insurance should be obtained prior to the international student's first registration and must be maintained while attending NWFSC.
An official notice of acceptance or denial will be sent to applicants. Applicants should not make definite plans to arrive in the U.S. until he or she has been notified of acceptance to the College. Being in the U.S. will not affect the Admission decision. Completing the application process does not guarantee acceptance to NWFSC. When all admissions documents, academic credentials, and test results are on file and meet minimum standards for the College, an acceptance letter will be sent along with the U.S. Immigration Form I-20. The Form I-20 is the document required to obtain the Student (F-1 or M-1) Visa. Final approval for a visa is determined by the American Embassy or Consulate representative and not the College. If the student cannot enroll for the semester written in the notice of acceptance and wishes to enroll in a different semester, the NWFSC International Student Success Navigator must be informed immediately.
NWFSC does NOT provide on-campus housing; therefore, international students must find available housing in the community. There is limited public transportation service in the area; students must provide their own transportation to and from the College.
The U.S. Citizenship and Immigration Service (USCIS) regulations require that foreign students enroll in a full-time course of study during two (2) of the yearly terms. USCIS regulations also restrict work opportunities for such students. International students should consult with the International Student Success Navigator and present his or her student visa and evidence of health insurance prior to registration.

Collegiate High School

chs banner

NWFSC operates an innovative charter high school on the Niceville Campus. This school is a public school of the Okaloosa County School District governed by the NWFSC Board of Trustees. Through this unique high school/college program, students may earn both a high school diploma and a two-year college degree at the same time through full-time study at NWFSC. The Collegiate High School is free of charge and operates under guidelines established by Florida Statute. Admission is open to any public, private or home school student who is of high school age and who has earned credit for placement in grades 10, 11, or 12.
Collegiate High School students enroll in honors high school classes and college courses and may earn both high school and college credit for these classes. Students follow an approved program of study designed by the student, his/her parents, and an educational advisor. The program of study meets the Florida statutory requirements for both a high school diploma and an associate degree. A limited pre-collegiate track assists students who are not completely prepared to directly enter a full program of college-level classes. For more information, call the Collegiate School Office at (850) 729-4949 or visit www.nwfcollegiatehigh.org.

Simultaneous Enrollment for High School Students

Simultaneous enrollment programs provide a means for educational acceleration for academically superior high school students. These include the following Admission categories:
Dual Enrollment provides the opportunity for qualified high school students from Okaloosa and Walton counties to enroll in NWFSC courses while simultaneously enrolled in high school. Students receive both high school and college credit for these courses. Dual Enrollment students are exempt from tuition, matriculation, and laboratory fees. Public school students have books provided by the student's high school through the College's Barnes and Noble Bookstore. Books must be returned by the end of the semester. Private and home school students must purchase their own college textbooks. Eligibility criteria and enrollment procedures comply with Florida law and regulations and are defined in the appropriate District Articulation Agreement.
Please note the terms and eligibility criteria of these high school enrollment programs are defined by state regulation, college policies and procedures, and current articulation agreements. It may vary between Okaloosa and Walton counties, private, and

home school students. As such, they are subject to change.
Students must meet all eligibility requirements in order to enroll in the Dual Enrollment program. Student success is dependent upon both academic readiness and social maturity. Prospective students and their parents should consult the Dual Credit Coordinator at (850) 729-5205 or visit the Dual Enrollment website for the most current admission information and procedures.

Florida Residency for Tuition Purposes

NWFSC offers one of the lowest tuition rates in the state of Florida. In order to take advantage of this and receive in-state tuition, students must prove Florida Residency by submitting the Florida Residency Declaration and provide all applicable supporting documentation. The Florida Residency for Tuition Purposes policy is based upon state statutes, rules of the two higher education governing boards in Florida, and statewide guidelines developed by college and university administrators in conjunction with the Statewide Residency Committee and the Florida Department of Education.
Students are classified as Florida residents, Border State residents, or Non-Florida residents for the purpose of fee assessment at the time of initial registration. Criteria for determining residency status are detailed in Florida Statutes and the administrative rules of the State Board of Education. A Florida resident for tuition purposes is a person who has (or a dependent person whose parent or legal guardian has) established and maintained legal residence in Florida for the 12 months immediately preceding the first day of classes of the term for which enrollment is requested. Residence in Florida must be for the purpose of establishing a permanent home and not merely incident to enrollment at an institution of higher education.
To qualify as a Florida resident for tuition purposes you must be a U.S. citizen, lawful permanent resident, or certain individuals granted indefinite stay by the U.S. Citizenship and Immigration Service. Living in Florida for the express purposes of attending school does NOT constitute legal residence. Students who depend on out-of-state parents for support are presumed to be legal residents of the same state as their parents unless one parent has established legal residence in Florida for more than 12 months. Two (2) documents supporting the establishment of legal residence must be dated or issued 12 months before the first day of classes of the term for which Florida residency is sought. Supporting documents for residency classification must be submitted to the Office of Academic Records and Enrollment prior to the first day of the semester in order to be considered as in-state for tuition purposes. If a student's schedule includes only courses that are part of a non-traditional part-of-term that begins after the start of the regular semester, that student must submit supporting documents for residency classification prior to the first day of the earliest non-traditional part-of-term for which they are enrolled. Students cannot hold out-of-state driver's licenses, vehicle registrations, etc., and be eligible for Florida residency.
The Office of Academic Records and Enrollment verifies through the student's submitted documentation whether or not the student is eligible to be designated as a Florida resident for tuition assessment purposes. Once verified, documentation related solely to residency will not be maintained within the student's permanent education record. Note that while the Office of Academic Records and Enrollment makes every attempt to validate residency documentation, the ultimate responsibility to ensure that residency requirements have been satisfied belongs to the student. If the student fails to prove his or her Florida residency status (or Border State residency status), the student will be charged tuition at the out-of-state (non-resident) rate.
Providing false residency information is a violation of Florida law and could result in disciplinary action being initiated. The College will correct the fees assessed for those students who misrepresent their place of legal residence. An invoice will be issued for the increase in the student's tuition.

Dependent

Students who are claimed on their parent's tax return as a dependent for the previous calendar year shall be considered to be dependent. In addition, a student, whether or not living with his or her parent, who is eligible to be claimed by his or her parent as a dependent under the federal income tax code shall be classified as dependent. In general, the IRS requires that a "qualifying child" or "dependent" meet six (6) tests:
The child must be your son, daughter, or stepchild.
The child must be: (a) under age 19 at end of the year; (b) under age 24 at end of the year AND a full-time student; or (c) any age if permanently disabled.
The child must have lived with you for more than half of the year subject to IRS exceptions.
The child must have NOT provided more than half of his or her own support for the year.
The child is NOT filing a joint return for the year (unless that joint return is filed only as a claim for refund).
If the child meets the rules to be a qualifying child of more than one person, you must be the person entitled to claim the child as a qualifying child.

Independent

A student who meets any one of the following criteria shall be classified as an independent student for the determination of residency for tuition purposes. Evidence that the student meets one of these criteria will be requested by the College.
The student is 24 years of age or older by the first day of classes of the term for which residency status is sought at a Florida institution.
The student is married.
The student has children who receive more than half of their support from the student.
The student has other dependents that live with and receive more than half of their support from the student.
The student is a Veteran of the U.S. Armed Forces or is currently serving on active duty in the U.S. Armed Forces for purposes other than training.
Both of the student's parents are deceased or the student is, or was (until age 18), a dependent or ward of the court or in foster care.
The student is determined as an unaccompanied homeless by a school district homeless liaison, emergency shelter, or transitional housing program.
Documentation is provided showing the student provides more than 50% of his/her support for the year.

Qualification by Exception

Other persons not meeting the 12-month legal residence requirement may be classified as Florida residents for tuition purposes if they fall within one of the limited special categories authorized by the Florida Legislature [Florida Statute 1009.21(11)]. These exceptions are listed below.

Documentation in support of these exceptions is required:

Active duty service members of the U.S. and active drilling members of the Florida National Guard stationed in Florida (spouse and dependent children included).
Active duty service members of the U.S. not stationed in Florida but whose legal state of residence is Florida (spouse and dependent children included).
Full-time instructional and administrative personnel employed by the State public school system, college system, or university system (spouse and dependent children included).
A dependent child who has lived with an adult relative (who is not a parent or legal guardian) for at least three years.
Persons who were enrolled as Florida residents at a state institution of higher learning but who abandon Florida residency for less than one year.
Latin American/Caribbean Scholars.
U.S. citizens living on the Isthmus of Panama who has completed 12 consecutive months of college-level coursework at the FSU Panama Canal Branch (spouse and dependent children included).
Full-time employees of state agencies or political subdivisions of the State when the student fees are paid by the agency or subdivision for the purpose of job-related law enforcement or corrections training.
Qualified beneficiaries under the Florida Pre-Paid Postsecondary Expense Program as provided in Florida statute.
A dependent child whose parents are divorced, separated, or otherwise living apart, will be considered a resident for tuition purposes if either parent is a legal resident of Florida, regardless of which parent claims the minor for tax purposes.
The law allows non-U.S. citizens such as lawful permanent residents, temporary permanent residents, asylees, parolees, and refugees who have applied for and been approved for such status and who otherwise meet the 12-month legal residence requirements, to be eligible to establish Florida residency for tuition purposes. For a list of non-immigrant categories (visa categories and INS classifications) eligible to establish Florida residency for tuition purposes contact Student Success Navigation at (850) 502-2895 or registrar@nwfsc.edu.

Reclassification

Students classified as out-of-state residents for tuition purposes may re-apply for in-state residency at such time as they have completed the requirements for establishing legal Florida residency. Students requesting reclassification should email registrar@nwfsc.edu and request a Florida Residency Reclassification Review. Students seeking reclassification will be required to submit an updated Declaration of Florida Residency form and supporting documentation to the Office of Academic Records and

Enrollment. A minimum of three (3) documents that support clear and convincing evidence of Florida legal resident for the previous twelve (12) consecutive months will be required. Supporting documents for reclassification must be submitted to the Office of Academic Records and Enrollment prior to the first day of the semester in order to be considered. If a student's schedule includes only courses that are part of a non-traditional part-of-term that begins after the start of the regular semester, that student must submit supporting documents for residency reclassification prior to the first day of the earliest non-traditional part-of-term for which they are enrolled.
Students who become eligible for in-state tuition in the middle of a semester shall have their record adjusted to reflect the in-state tuition rate effective the next semester of enrollment. Tuition will not be adjusted for the current semester.

Residency Appeals

In cases where the student expresses a desire to appeal the residency classification, he or she must submit a Residency Appeal Form to the Office of Academic Records and Enrollment. This form may be obtained by contacting the Office of Academic Records and Enrollment at registrar@nwfsc.edu. Once submitted, the appeal will be referred to the Residency Appeal Committee in accordance with the College's official appeal process. The Residency Committee will render the final residency determination and the reasons for the determination in writing to the student.

Tuition Waivers

The state offers a variety of exemptions and waivers for the out-of-state portion of tuition, found in F.S. 1009.26. The most commonly awarded waivers by NWFSC are below. Students must first submit a Declaration of Florida Residency before a tuition waiver can be requested. A waiver will only be awarded once the student demonstrates he or she does not qualify for Florida residency.

Out-of-State Fee Waiver: Florida High School Graduate

House Bill 851 amended section (s.) 1009.26, Florida Statutes (F.S.), fee waivers, to authorize an out-of-state fee waiver for students who have attended a Florida high school for 3 consecutive years immediately prior to graduating from a Florida high school. These students must have applied to a Florida College System institution within 24 months after their high school graduation. This waiver can be applied to recent Florida high school graduates regardless of their immigration status to include DACA and undocumented students. Applicants who do not qualify for in-state residency but are eligible for this waiver should submit an official Florida High School transcript and complete the Out-of-State Fee Waiver: Florida High school Graduate Form. Students with questions regarding waiver eligibility should contact Student Success Navigation at (850) 502-2895 or studentsuccess@nwfsc.edu.

Out-of-State Fee Waiver: VA Eligible Students (for Veterans and their Dependents)

House Bill 7015 created the Congressman C.W. Bill Young Veteran Tuition Waiver Program and amended section (s.) 1009.26, Florida Statutes (F.S.) fee waivers, to authorize an out-of-state fee waiver for honorably discharged Veterans and their dependents of the U.S. Armed Forces, U.S. Reserve Forces or the National Guard who physically reside in Florida. Veterans students and their dependent(s) must submit the Florida Residency Declaration and the College must determine that they are not eligible for in-state tuition before the Veteran and/or dependent(s) can pursue an out-of-state fee waiver.
NWF State College shall waive the out-of-state tuition for Veteran students and their dependent(s) who meet the following conditions:
The Veteran student and/or dependent's sponsor received an honorable discharge as a member of the U.S. Armed Forces, U.S. Reserve Forces or the National Guard.
Proof of honorable discharge confirmed on Veteran's DD214 (member copy 4).
Proof of physical residence in the state may include but is not limited to, submission of an annual lease and/or a Florida Driver's License reflecting the Veteran's name.
In order to be eligible for the waiver, students will need to submit complete the Out-of-State Fee Waiver: VA Eligible Student Form. Once approved, this waiver is good for only one academic year. Once the waiver has expired at the end of the academic year, students must submit a new Florida Residency Declaration and the College must determine that they are still not eligible for in-state tuition before the Veteran and/or dependent(s) can pursue an out-of-state fee waiver again. If the student is still classified as not

eligible for in-state tuition, then they must submit a new waiver form in order for it to be applied to the upcoming academic year.

Out-of-State Fee Waiver: Active Duty Service Member

House Bill 799 was signed into law July 2016 and amended section (s.) 1009.26, Florida Statutes (F.S.), fee waivers, to authorize an out-of-state fee waiver for a person who is an active duty member of the Armed Forces of the United States residing or stationed outside of the state of Florida. In order to be eligible for this waiver, students will need to submit the Out-of-State Fee Waiver: Active Duty Service Member Form and provide a copy of their current active duty orders to the Office of Academic Records and Enrollment. Once approved, this waiver is good for only one academic year. Once the waiver has expired at the end of the academic year, students must submit a new waiver form in order for it to be applied to the upcoming academic year and provide updated active duty orders if applicable.

Additional Resources

Florida Statutes

1009.21 Determination of Resident Status for Tuition Purposes. This statute outlines the broad legal parameters for establishing residency for tuition purposes in Florida public higher education institutions.

State Board of Education Rules

6A-10.044 Residency for Tuition Purposes. The purpose of this rule is to establish consistent policies for the classification of students as residents for tuition purposes in accordance with criteria set forth in Section 1009.21, F.S.
6A-20.003 Florida Residency as a Requirement for the Receipt of State Student Aid. Students that attend a Florida post-secondary educational institution must show eligibility to receive funds from state student financial assistance programs by following proving Florida residency as outlined in 1009.21, F.S.

Board of Governors Residency Regulation

State University System of Florida Board of Governors Residency Regulation.

Florida Residency Guidelines

Articulation Coordinating Committee's Guidelines on Florida Residency for Tuition Purposes. This Residency Guidelines document was adopted by the Articulation Coordinating Committee to assist college and university administrators in implementing Section 1009.21, Florida Statutes; Rules 6A-10.044 and 6A-20.003, Florida Administrative Code; and the Board of Governors (BOG) Residency Regulation. The guidelines, as maintained by the Statewide Residency Committee, are used to determine residency status for tuition purposes in public colleges and universities. The Florida Residency Guidelines for Tuition Purposes were first adopted by the Articulation Coordinating Committee on September 6, 2006.

Alabama Residency for Tuition Purposes

The Florida Legislature allows the option of providing Alabama residents a different tuition assessment for post-secondary classes. At NWFSC, the Alabama Border State Fee, at a rate of an additional $1.00 per credit hour to the current in-state tuition rate, will be assessed for all eligible Alabama residents.
To be eligible for the Alabama Border State Fee the student must complete the Declaration of Alabama Residency form and provide verification of a current Alabama driver's license, Alabama vehicle registration, or Alabama voter's registration card.

Admission of Sexual Offender/Sexual Predator

The presence of students officially designated as Sexual Offenders/Sexual Predators on campus would be disruptive of the orderly process of the College's programs and/or would interfere with the rights and privileges of other students. In accordance with Section 1001.64(8a), Florida Statutes, the College may consider the past actions of any person applying for admission or enrollment and may deny admission or enrollment to an applicant because of past misconduct if it is determined to be in the best interest of the College.

Accordingly, the College will deny admission/enrollment to students who are officially designated as Sexual Offenders/Sexual Predators. An applicant wishing to contest their denial of admission/enrollment should follow the appeal process outlined below. If an academic term has already begun at the time the College receives a notification of past misconduct that would classify the student as not eligible for admission, the student's admission will be revoked, the student will be administratively dropped from all courses and refunded for fees paid for the term in progress. The student may also receive credit for required textbooks purchased for classes from which the student is dropped. This decision may be appealed to the Vice-President of Student Success.

To submit an appeal the student must send a letter to the Vice-President of Student Success that contains the following:

The reason the student believes an appeal should be granted.

Documentation of the legal proceedings that led to the student being listed with the State of Florida as a Sexual Offender/Predator including police reports, court proceedings, adjudication, time served, and parole information. If this information is not received with the letter of appeal, the Vice-President of Student Success may attempt to collect it through other means.

The names and contact telephone numbers of at least three professional references who can attest to the student's ability to function without harm to a learning community (which includes persons under the age of 18.) This could include probation officers, therapists, employers, and clergy.

The name and contact information for the therapist of the sex therapy group that was required as part of the legal sanction or in which the student/applicant participated.

Once the full documentation is received, the Vice-President of Student Success will review it, conduct telephone interviews with references provided, share all of the information with the College President and talk with the appellant about the situation presented. If there is sufficient reason at this point to believe an appeal may be granted, the Vice-President of Student Success will conduct a face-to-face meeting with the student to determine the risk the student poses to the campus learning environment. The final decision will be made based on the full documentation received and the meeting with the student. The student will receive a letter of the decision from the Vice-President of Student Success. The Vice-President of Student Success will monitor the student's enrollment each term through their degree completion at NWFSC. Any behavioral issues will result in immediate and permanent expulsion from NWFSC.

Applicant Records

Applicant Records (the pre-attendance record) include records relating to an individual's application for admission to NWFSC prior to his or her actual attendance as an enrolled student. Although not considered education records (because an applicant is not yet a student), Section 1006.52, Florida Statutes does define Applicant Records and provides that such records are confidential and exempt from Sections 119.07(1), Florida Statutes and 24(a), Art. I, Fla. Constitution.

Articulation Agreements

Florida Statewide Articulation for AA Degree
Local NWFSC Agreements with Other Institutions
Local NWFSC Internal Agreements
NWFSC Certificate to AS Degree Career Paths
Statewide Articulation Agreements

What is an Articulation Agreement?

Florida has instituted a variety of methods to assist students with the transfer of their credits, otherwise known as articulation agreements. The Statewide Articulation Manual provides statewide standards for awarding advanced placement credits, high school dual enrollment credit, transfer of credit between institutions, and related topics. The Florida Department of Education, through the Articulation Coordinating Committee (ACC), also facilitates statewide consistency among institutions that award credit for certain professional credentials, such as industry certifications, licenses, and certificates. In addition to statewide articulation agreements, Northwest Florida State College (NWFSC) has local articulation agreements with various other institutions, as well as internal agreements for specific NWFSC programs.
NWFSC is committed to establishing cooperative partnerships that provide clear educational pathways for its students. A comprehensive list of active partnerships can be found on the University Partnerships website. Students who are interested in one of these unique pathways and would like additional information on requirements and eligibility should consult with a Student Success Navigator at studentsuccess@nwfsc.edu or 850-502-2895.

Florida Statewide Articulation Agreement for AA Degree

Per Florida Administrative Code Rule 6A-10.024, Florida Community College Associate in Arts (AA) graduates are guaranteed the following rights under the Statewide Articulation Agreement:
Admission to one of the state universities, except to Selective Admission* programs
Acceptance of at least 60 credit hours by the state university toward the baccalaureate degree
Adherence to university requirements and policies based on the catalog in effect at the time the student first entered a community college, provided the student maintains continuous enrollment
Transfer of equivalent courses under the Statewide Course Numbering System
Acceptance by the state universities of credit earned in accelerated programs (e.g., CLEP, DANTES, AP, PEP, Dual Enrollment/Early Admission, and International Baccalaureate)
No additional General Education Core requirements
Advance knowledge of selection criteria for Selective Admission* programs
Equal opportunity with native university students to enter Selective Admission* programs
Should any guarantee be denied, students have the right to appeal. Each state university and state college shall make available established appeal procedures through the respective articulation officers. At NWFSC, students may contact the Vice President of Academic Affairs or the Executive Director of Student Success Navigation.
* Selective Admission is the designation given to programs that require additional admission requirements which are more selective than general admission requirements. These may include the following: higher GPA and/or test score requirements; additional courses and/or prerequisites; and auditions and/or portfolios.

NWFSC Certificate to AS Degree Career Paths

Many of the technical certificate programs offered by NWFSC provide the initial step in meeting selected course requirements for an A.S. degree in a related area. Courses from those certificates are the same as or equivalent to comparable courses in the companion degree program. Likewise, courses used in the degree program may be applied to a certificate in a related area; in many cases, completion of the technical courses in the degree program can automatically qualify the student to receive the companion certificate.
A list of all AS degrees and corresponding articulated certificates is shown on the Certificate to AS Degree Career Paths website.

Local NWFSC Internal Articulation Agreements

Internal Articulation Agreements (Summary of Eligible Certifications and Credit Awarded)

Business and Computer Technology Eligible Certifications

Industry Certification to the A.S. in Industrial Management Technology

NCCER Welding (Levels 1-3)
AWS or Industry Equivalent
SMAW (all positions)
SMAW (all positions) and FACAW (all positions)
SMAW (all positions)/GTAW (all positions)
Plate Weld Certification

Industry Certification to the A.A.S. in Applied Management

Florida Department of Education - Welding Technologies (or equivalent)
Florida Department of Education - Advanced Welding Technologies (or equivalent)

Culinary Management

Industry Certification to the A.S. in Culinary Management (and embedded certificates)

ServSafe Certified Food Protection Manager (NRAEF003)

Early Childhood Education

Early Childhood Certifications to NWFSC Early Childhood Coursework

Child Development Associate Credential
Florida Child Care Professional Credential (Infants and Toddlers)
Florida Child Care Professional Credential (Preschool)

Engineering Technology

Industry Certifications to NWFSC Engineering Technology Coursework

Autodesk Certified User - Inventor (ADESK011)
Autodesk Certified Professional - Inventor (ADESK024)
Associate Certified Electronics Technician (CETa) (ETAIN008)
Certified SolidWorks Associate - Academic (CSWA-Academic) (SOLID003)
MSSC Certified Production Technician (CPT)
Eligible Exam Content Areas
Safety
Quality Practices and Measurement
Manufacturing Processes and Production
Maintenance Awareness

Health Sciences

Dental Assisting Certificate to the A.S. in Health Services Management

Dental Assisting Certificate

LPN to RN (A.S. in Nursing)

Licensed Practical Nurse Certification
NWFSC Nursing Department Articulation Plan

Hospitality and Tourism Management

Industry Certification to the A.S. in Hospitality and Tourism (and embedded program certificates)

ServSafe Certified Food Protection Manager (NRAEF003)

Public Safety/Emergency Medical Services

Industry Certification to NWFSC Criminal Justice Coursework

Florida Corrections Officer Certification
Florida Law Enforcement Certification

EMT or Paramedic Certification(s) to the A.S. in Emergency Medical Services

Florida State Certified Emergency Medical Technician (EMT-Basic)
Florida State Certified Paramedic (EMT-P)

American Council on Education (ACE) Special Forces Advanced Tactical Practitioner/18 Delta to the CCC in Paramedic Certificate

ACE Special Forces Advanced Tactical Practitioner/18 Delta

Statewide Articulation Agreements

The State Board of Education approved the Statewide Career and Technical Education Articulation Agreements which are based

on industry certification. This supports the Department's Next Generation Areas of Focus effort Number 3 —"to expand opportunities for postsecondary degrees and certificates." These agreements are intended to be a minimum guarantee of articulated credit and do not preclude institutions from granting additional credit based on local agreements. Individual agreements are listed below.
Statewide Articulation Agreements

AS to Baccalaureate Degree Articulation Agreements

In Florida, A.S. degree curricula regularly include technical skills and theoretical knowledge, as well as, a required general education component that are designed to prepare an individual either for entry into the workforce or transfer into a related baccalaureate program. It is this combination of theory and practice that distinguishes the A.S. degree from the A.A. degree, with its traditional focus on the liberal arts and sciences. This valuable combination of knowledge and skills need not disqualify A.S. degree courses from transferability. Indeed, the competencies taught in the lower division at two-year colleges often duplicate competencies taught at universities in the upper-division (for example, in nursing or in certain information technology fields). The learning outcomes embedded in the A.S. degree programs often embody similar technical knowledge and skillsets. A complete list of articulated programs and hours can be viewed in the Florida Department of Education Career Ladder Agreements document.

Industry Certification to AAS or AS Articulation Agreements

There are several acceleration methods associated with Industry Certification. These acceleration opportunities allow students who are progressing to the next level of education to earn a guaranteed number of college credits toward the A.A.S. or A.S. degree. Each acceleration opportunity requires the student to demonstrate mastery of a specified level of competency. One example of this method is the Gold Standard Articulation Agreement, which includes identified industry certifications. As new agreements are developed they are added to the articulation list.
The Gold Standard Career Pathways Articulation Agreements of Industry Certification provides information on the identified industry certifications approved by the Florida State Board of Education. Contact the Coordinator of Career & Technical Education for additional information.

ATD to AAS or AS Articulation Agreements

The Applied Technology Diploma (ATD) consists of a course of study that is part of an A.A.S. or A.S., is less than sixty (60) credit hours, is approximately fifty (50) percent of the technical component (non-general education), and leads to employment in a specific occupation. An applied technology diploma program may consist of either clock hour credit or college credit. The transfer of the applied technology diploma to an associate degree is guaranteed for a period of three (3) years following the date of the award of the applied technology diploma. For a listing of specific statewide ATD to AAS/AS articulation agreements approved by the ACC, see ATD to AAS/AS Articulation Agreements.

Transfer Agreement with Independent Colleges and Universities in Florida

The Florida College System has a transfer agreement with many of the Independent Colleges and Universities of Florida (ICUF). This allows AA degree graduates to transfer into a private college or university with the guarantee that a student will enter as a junior, receive at least 60 credit hours toward the bachelor's degree, and receive recognition for the general education core that was completed at an institution within the Florida College System. Most of the 31 ICUF institutions have recognized this agreement. To view a copy of the ICUF articulation agreement with the Florida College System, see Independent Colleges and Universities Articulation Agreement.

Other Statewide Agreements

The Florida College System also has established articulation agreements with private colleges and other universities. To view specific agreements, see http://www.fldoe.org/articulation/articulation-agreement.asp.

Accommodation Resource Center

The Accommodation Resource Center (ARC) of Northwest Florida State College is committed to providing equal access and opportunities for our students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the ADA Amendments Act of 2008. The ARC helps navigate accessibility for students with disabilities by removing educational barriers and partnering with the campus community for inclusion and support.
Students in need of accommodations must be registered for courses and are encouraged to submit a request online by visiting www.nwfsc.edu/accommodations. Students who apply for services may be eligible for accommodations such as, but not limited to, assistive technology, software and equipment, sign language interpreters, live captioning, or exam time-extensions. Registered students with the ARC must renew their accommodations at the beginning of each semester by filling out and submitting an ARC renewal form located in Raidernet. Confidentiality is honored and maintained. Students may contact the arc at arc@nwfsc.edu or by calling 850-729-6079.
Telephone Device for the Deaf (TDD) numbers are available through the Florida Telecommunication Relay Service:

Voice:	711 or 1-800-955-8770
TDD:	711 or 1-800-955-8771

Northwest Florida State College does not discriminate against qualified individuals with disabilities in any of our programs, services, or activities based on Title II of the Americans with Disabilities Act.

AmeriCorps

AmeriCorps is a component of the National Service Network. Its goal is to engage Americans of all ages and backgrounds in service to help meet communities' critical education, public safety, environmental, and other human needs and homeland security. AmeriCorps is often referred to as the "Domestic Peace Corps".
12 Full-time members are recruited to serve a minimum of 1710 hours per service year. They receive a taxable living allowance of $16,000 for the 2021-2022 program year while serving. Members also receive $6,195 Segal education award (comparable to the full yearly Pell Grant Award) voucher at the end of the service commitment upon completion of contract obligations. Other benefits for full-time members include healthcare insurance and student loan deferment and childcare (if qualified).
For more information, please call (850) 729-6037 for information on the program.

ATM Machines

ATM machines are located in the Activities Center, Building 410 and the Raider Cafe` in Building 400 on the Niceville Campus and in Building 1 on the Fort Walton Beach Campus.

Barnes & Noble College Stores

NWF State College has a College Store which is operated by Barnes & Noble College. The College Store is on the Niceville Campus and is located in Building 410. The store is full-service, offering textbooks, supplies, college clothing, gift items, hardware, and software, as well as a Starbucks Coffee Shop. The store maintains extended hours during back-to-school and book buy back periods. Contact the College Store or visit the Barnes & Noble College Store website for store hours.

Career Exploration

Students who are undecided about their future career plans are encouraged to make an appointment with a Student Success Navigator or the Career Navigation office to discuss and explore career opportunities. The college offers free career assessment and exploration tools online at https://www.nwfsc.edu/career-resource-center, including Career Coach and a digital jobs and internships board.
Student Success Navigation and Career Navigation may both be reached by calling (850) 502-2895 or visiting Raider Central in Building 400 on the Niceville Campus.
Computerized career exploration programs:
My Career Shines is a Career Planning tool hosted by the state of Florida and available on any computer. The NWF State College Career Center has computers available in their Career Counseling area for students to access this powerful program to set up an account and explore career, education and scholarship opportunities.

Zoghby Learning Commons

The Zoghby Learning Commons is located in the Susan Myers Learning Resources Center, building 500. It is a centralized hub of collaborative and engaging support services for both students and faculty. Primarily home to library and tutoring services, the Zoghby Learning Commons comprises other academic support services, as well as independent and group study areas, computers, whiteboards, and printing services.

Library

Library services are located on the second floor of the Zoghby Learning Commons. Also known as the Susan Myers Learning Resource Center (LRC), the library contains over 250,000 digital, print, and audio-visual resources on all curricular subject areas. Library services are open on all regular class days but may vary when classes are not in session or during the summer. Visit the LRC website or call (850) 729-5318 for hours and additional information.

Reference Services

Reference librarians are available during scheduled business hours and are ready to help students with research requests and finding resources. Call (850)729-5318 or email reference@nwfsc.edu.

Tutoring

Free tutoring is available for all Northwest Florida State College students on the first floor of the Zoghby Learning Commons in Niceville and at other select campus locations. Support is available for most general education courses as well as study strategies and test prep. Students can walk-in during open hours to meet with an available tutor or schedule an appointment in advance to guarantee one-on-one time with a tutor. Remote tutoring is provided via Zoom as well as asynchronous submit a paper

appointments. Students can go here to schedule a tutoring appointment or select the Zoghby Learning Commons tab on the Blackboard landing page for additional scheduling links, hours, and information.

Math and Writing Labs

New Math and Writing Labs are located on the first floor of the Zoghby Learning Commons. Active NWFSC students are encouraged to use the labs to complete coursework and spend time studying as a group or individually. Labs are always staffed with a tutor and/or instructor to help students when needed. For additional lab information and hours, including our Math Lab located at our Fort Walton Beach campus (Building 7, Room 702), visit the Learning Commons webpage, call (850) 729-5389 or email LCsupport@nwfsc.edu.

Testing

Testing and assessment services provide comprehensive testing for both students and the community at several Northwest Florida State College testing locations. Tests administered include the Post-Secondary Educational Readiness Test (PERT), college admission tests, proctored exams, Pearson VUE testing, College Level Examination Program (CLEP) testing, Tests of Adult Basic Education (TABE), and much more. For an inclusive list of tests offered, locations, and scheduling information visit the Testing webpage.

Mary Lou O'Connor Child Development and Education Center

The College's Mary Lou O'Connor Child Development and Education Center provides comprehensive, quality care for children ages 2.5 to 5 years. The center is nationally accredited by the National Association for the Education of Young Children. Registration is open to dependents of NWFSC students, staff, faculty and members of the community (based on space availability). The center is located in Building 530 on the Niceville Campus and is open Monday through Friday from 7:00 am to 5:30 pm. The college participates in the Florida Voluntary Pre-Kindergarten (VPK) program as well as the Florida school readiness program. For more information call (850) 729-5343 or email baldockd@nwfsc.edu.

Photocopies

The RaiderCard may be used to make copies at the locations listed below.
Niceville Campus - The Susan Myers Learning Resources Center
Fort Walton Beach Campus – Library Building 8

Raider Café

The Raider Café, located on the first floor of Building 400 on the Niceville Campus, is open Monday through Thursday from 8:00 am to 1:30 pm during the Fall and Spring Terms. Vending machines are available at all of our centers and across the Niceville campus.

Veterans Success Center

The Veterans Success Center, located on the ground level (west section) of building 500 on the Niceville campus. The staff at the Veterans Success Center can assist student veterans and eligible family members pursuing their educational, professional, vocational objectives, and to transition into the workplace. The Veterans Success Center is a central location for student veterans and eligible family members to initiate their VA Educational Benefits, receive VA specific academic advising support from a Student Success Navigator, and utilize state-of-the art infrastructure and technology in designated areas to foster success. The Veterans Success Center offers a tranquil, professional, and respectful location to create a cooperative community for student veterans and provides resources for leadership, support, advisement, and campus engagement as part of Northwest Florida State College Office of Financial Aid, not the U.S. Department of Veterans Affairs (DVA).

Complaints and Grievances

Student Complaint and Grievance Procedures

Title IX Grievance Procedures

The Title IX Grievance Process differs from the Student Complaint and Grievance Procedures. The procedure under the Title IX regulations (34 C.F.R. part 106) implements Northwest Florida State College policy and state and federal law that prohibit discrimination and harassment based on sex and gender in employment and educational programs or activities.

Any person may make a report of sexual harassment (whether or not that person is the Complainant or alleged victim of the conduct that could constitute sexual harassment). Reports may be made in person or via mail, phone call, or email by contacting the Title IX Coordinator:

Jessica Holley-Guiles HR Specialist, Title IX Coordinator 100 College Blvd. East, Niceville, FL 32578 Building 310 Phone: (850) 729-5365 Email: holleyj4@nwfsc.edu

If an individual discloses sexual harassment or discrimination to a Responsible Employee of the College, that employee is obligated to report the alleged harassment to the Title IX Coordinator.

The Title IX Coordinator will contact each Complainant to discuss the availability of supportive measures and the Complainant's wishes regarding the supportive measures. The Title IX Coordinator will also discuss with the Complainant the process of filing a formal complaint and whether the Complainant will file a formal complaint.

If a formal complaint is filed either by the Complainant or the Title IX Coordinator, the College will treat Complainants and Respondents equitably and will include an objective evaluation of all relevant evidence. Each party may have an advisor. An investigation will be conducted by a trained investigator who will collect relevant evidence and interview both parties and witnesses. The investigator will provide the evidence to both parties for review, allowing at least ten (10) days for the parties to review and provide a written response. The investigator will consider these written responses before submitting the investigative report.

The decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, must allow each party's advisor to cross examine the other party and all witnesses at a live hearing. Both parties will be given at least ten (10) days between receiving the investigative report and the live hearing. Either party may request that the hearing take place with the parties in separate rooms and technology enabling the parties and decision-maker to see and hear the proceedings. The decision-maker will issue a written determination, which either party may appeal in writing within seven (7) days of the written determination.

During the formal complaint procedure, the parties may agree to an informal resolution, which is a remedies-based, non-judicial approach designed to eliminate a hostile environment without taking disciplinary action against a Respondent. Both parties must voluntarily consent to the informal resolution process in writing. The College cannot offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

To read the College's full Title IX procedure, click here.

These procedures are designed to encourage a prompt and equitable resolution of complaints however it does not prohibit individuals from seeking assistance from other sources. The College prohibits retaliation against any person who files a complaint alleging discrimination or any person alleged to have committed discrimination.

Definitions

An informal complaint or formal grievance is a dispute against any employee or department of the College who has:

Violated a written College policy or procedure

Not properly followed the College's published policies, regulations, rules, or procedures.

Informal Resolution of Complaints

A student who has a complaint against an employee or department of the College should attempt to resolve the matter informally. Outlined below are the procedures for informally resolving a complaint. The Director of Student Development and Campus Engagement may act as the Student Ombudsman and assist in the resolution of informal complaints. Informal complaints should be discussed directly with the instructor, allowing department chairs, program directors, deans and vice presidents to participate in the formal grievance process.

Academic (informal)

Academic complaints are any dispute (meeting the definition above) with an instructor or department related to in-class activity. As part of the informal process, students must first attempt to resolve the dispute directly with the instructor.

Non-Academic (informal)

Non-academic complaints are any dispute (meeting the definition above) with a college employee or department related to non-class activity.

As part of the informal process, students must first attempt to resolve the issue directly with the employee.

Formal Grievances
Limit of Scope
A formal grievance cannot be used:
As a resolution of matters student-to-student.
To challenge the legitimacy of existing policies, regulations, rules, or procedures.
Against any non-employee of the College.
Formal Resolution of Grievances (Step 1)
A student who has a formal grievance against an employee or department of the College who has attempted to satisfactorily resolve the matter informally (as outlined above) may file a formal grievance. Outlined below are the procedures for resolving a formal grievance. A formal grievance may be escalated to a higher step if an administrator was involved in prior adjudication.
The student will submit their Step I Grievance through an electronic form available on the website at:
https://www.nwfsc.edu/disputes/.
The student must explain, within 30 days of the last contact with the individual in the informal complaint, the circumstances pertaining to the situation.
The student must identify the policies that have been violated or not properly followed.
The student must identify what action would be a satisfactory resolution to the situation.

Formal grievance Investigation Procedure (Step 1)

Academic	Non-Academic
The instructor's Program Director or Department Chair (hereafter "the administrator") will investigate.	The employee's Director or Executive Director (hereafter "the administrator") will investigate.

Formal Resolution of Grievances (Step 2)
A Step 2 Grievance must be filed within 10 calendar days of the issuance of the Step 1 finding.
The student will submit their Step 2 Grievance through an electronic form available on the website.
During the appeal process the sanctions issued in Step 1 will stand.
A Step 2 Grievance may be filed if the individual filing the Grievance believes there was an error or omission of fact or law considered by the administrator in Step 1.
The individual filing the Grievance must identify the following points in their submission:
Why the outcome issued by the administrator is factually flawed or contrary to federal law, state law or college policy or practice.
Desired outcome of the Grievance.

Formal grievance Investigation Procedure (Step 2)

Academic	Non-Academic
The Program Director or Department Chair's Dean (hereafter "the administrator") will investigate.	A Director or Executive Director not supervising the involved parties (hereafter "the administrator") will investigate.

Formal Resolution of Grievances (Step 3)
A Step 3 Grievance must be filed within 10 calendar days of the issuance of the Step 2 finding.
The student will submit their Step 2 Grievance through an electronic form available on the website.
During the appeal process the sanctions issued in Step 1 will stand.
A Step 3 Grievance may be filed if the individual filing the Grievance believes there was an error or omission of fact or law considered by the administrator in Step 1.
The individual filing the Grievance must identify the following points in their submission:
Why the outcome issued by the administrator is factually flawed or contrary to federal law, state law or college policy or practice.
Desired outcome of the Grievance.

Formal grievance Investigation Procedure (Step 3)

Academic	Non-Academic
The Vice President, Academic Affairs will be the sole arbiter.	The Vice President, Student Success will be the sole arbiter.

Developmental Education

Developmental Education Overview

Developmental education courses are designed to improve students' skills in English, reading, and mathematics and prepare them for success in their college level courses, career fields, and/or the workplace. SLS 1101 - College Success , a college credit course, provides curriculum that helps improve the more general abilities students need to succeed in college, including time-management skills, test-taking skills, and note-taking strategies.
NWFSC students are encouraged to visit the Learning Commons for instructional support and to take advantage of individual and group study areas, computers, whiteboards, and free printing. Free tutoring is offered in-person or remotely, providing students with support in study skills, reading, writing, math, and other general subject areas. Appointments are preferred to guarantee time with a tutor. However, students who wish to visit the Math Lab do not require an advance appointment. Students can also upload their

papers for a tutor to review! Visit Learning Commons for more information, as well as hours, availability, and scheduling links. Students can email LCsupport@nwfsc.edu or LCcoach@nwfsc.edu for questions and assistance with services at other campus locations.
Successful completion of the developmental requirement is defined as:
A grade of "C" or higher in each required developmental course and
Attainment of a passing score on each required developmental exit examination.
Students enrolled in developmental courses may, at the same time, take college credit courses for which they are qualified. In this manner, a student may begin earning credits that apply toward his/her program of study while completing developmental requirements.

Placement Testing

A student's placement test scores ensure accurate placement in Developmental courses. However, some students are exempt from placement testing, although they may opt to take the placement test in order to gauge their readiness for college-level work.

Exempt Students

Exempt students are defined by Florida Administrative Code 6A-10.0315 and Florida Statute 1008.30 as Active Duty Military students or students who have graduated from a Florida high school since 2007 and are not required to take a placement test or take Developmental Education courses. Exempt students who choose to take a placement test to measure their college readiness are not bound by the scores to enter developmental education; however, they may elect to enroll in developmental education. See the Placement Chart below for course placement scores. Any Navigator or the appropriate department chair can provide the permission required for some courses.

Non-Exempt Students

Non-exempt students whose entry level placement scores are below the levels specified in Florida Administrative Code are required to enroll in the appropriate developmental courses. They must take the placement test and will be placed based on their scores, as outlined in the Placement Chart.

Alternative Developmental Instruction

Florida law requires that all students whose placement test scores indicate the need for remediation be given the opportunity to satisfy the remediation requirement through developmental instruction or through alternate instructional options. Examples of alternate options include independent study, non-credit courses, and instruction through other colleges and private providers. Students who elect to pursue one of the alternate options must meet with an Academic Advisor prior to registration in order to discuss the impact of the choice on his/her degree progress.

Repeat Enrollments and Attempts in Developmental Courses

Per Florida Statute, a student is eligible for no more than three attempts to successfully complete a given developmental course. All official enrollments after Summer of 1997 are considered attempts, regardless of the grade received. In documented cases of hardship or extenuating circumstances, an exception to the requirement may be granted. Exceptions must be appealed through the Registrar prior to registration. However, if a withdrawal is processed prior to the close of the Drop/Add period, or if audit status is granted prior to the close of the Drop/Add period, the enrollment will not be counted as an attempt. Students may not audit a developmental course unless advance approval is granted through the Office of Teaching and Learning. If a student receives a grade of D, F, W, WN, X, or U in a developmental course, he/she may repeat the course to improve the grade and meet developmental requirements. On the third attempt, however, the student will be awarded the letter grade earned (A, B, C, D, F, S, U, or P) and will not be allowed to withdraw or to re-enroll. The prohibition for re-enrollment extends to any public postsecondary institution in Florida.
Once a student has exhausted his/her course attempts in a given developmental area, the only ways to satisfy the developmental requirement are: a) retake the placement examination and demonstrate a score above the established minimum for that subject area, or b) provide documentation of successful completion of an equivalent or higher-level course at a private postsecondary institution. Students not eligible to re-enroll in a given developmental course may, however, continue enrollment at the college in other developmental courses, or in other courses for which they are eligible. In the latter case, an appeal through Enrollment Services may be necessary to continue enrollment.

3rd and 4th Attempts

Per Florida statute 1009.285, after the second attempt in any college-credit or developmental course, a student will be required to pay the full cost of instruction (approximately four times the usual matriculation fees) to repeat the course. In documented cases of financial hardship or extenuating and compelling circumstances, the full cost requirement may be appealed via the Request for Exception: Business Office form. Please see the official appeal form for specific guidelines and criteria. Students receiving financial aid or veterans' benefits should consult with a Student Success Navigator before repeating a course; benefits and aid may not be available for certain repeat enrollments.

Alternatives for Students No Longer Eligible for College Developmental Enrollment

Once a student has exhausted their course attempts in a given developmental area, the only ways to satisfy the developmental requirement are a) retake the placement examination and demonstrate a score above the established minimum for that subject area or b) provide documentation of successful completion of an equivalent or higher-level course at a postsecondary institution. NWF State College is committed to student success and has developed several strategies for students in this circumstance. The student should work closely with an Academic Advisor to identify alternatives for which he/she is eligible and to develop a plan for continued study. These strategies are also appropriate for an individual who is subject to the full cost requirement and is unable to afford the increased cost of enrollment.
The student may continue enrollment in other appropriate developmental courses, or continue enrollment in other appropriate developmental and college credit courses and pursue one of or a combination of the following strategies. After an appropriate skill-building effort, the student may then retake the placement exam.
Enroll in an appropriate alternate developmental course in the subject area
Pursue individualized study in the Academic Success Center and/or Math Lab to build skills in the given area
Work with a college tutor to build skills in the given area
Enroll in a college non-credit basic skill refresher course in the given subject/skill area
Attend a Skill Refresher Workshop(s) in the given subject/skill area
The student may consider a revised program of study which does not carry a developmental requirement. The college offers several college credit and vocational certificates for which placement testing and developmental instruction are not applicable.

Students pursuing an A.S. degree may wish to change to a companion college credit certificate which offers the technical skills needed for employment. After completion of the certificate courses, the student may acquire sufficient skills to perform better on the placement examination and eventually progress to an associate degree program of study. See the "Certificates " section of this catalog.
The student may temporarily "stop-out" of credit courses, concentrate on skill development, through his/her own resources, then retake the placement examination.
The student may enroll in an equivalent or higher level course in the subject area at another postsecondary institution. Upon successful completion of that course work, the student may transfer the course back to NWF State College and/or re-take the placement exam. Students wishing to pursue this option should work closely with an advisor to be sure the alternate course(s) selected will satisfy the developmental requirement. Ideally, the student should submit a transient study form and secure advance approval. Depending on the nature and level of the transfer course, the student may still need to demonstrate minimum skills through the placement exam.

College and Personal Success Classes

Courses focusing on college and personal success strategies are beneficial to a student's academic career and can be used as an elective in some degree programs. NWF State College offers the following college credit courses:
SLS 1101 - College Success is a recommended course for all students enrolled in the first level of developmental instruction of reading, mathematics or English, or for any student that is required to take any two or more developmental courses regardless of the level.
SLS 1201 - Service Learning Seminar is required for Honors Scholarship students.

Directed Independent Study

Directed independent study provides opportunities for students to earn college credits in standard courses by working with a college instructor on an independent basis. Students enrolling for courses under Directed Independent Study (DIS) are expected to accomplish the goals and objectives as specified in the course syllabus and are expected to attend such class meetings, group sessions, and working conferences as specified by the instructor. Courses are scheduled on a flexible basis as approved by the instructor, the department chair, and by the Vice President of Academic Affairs with the understanding that final exams will be taken and grades awarded during the term in which they begin. All regular fees apply to DIS courses.
DIS course enrollments are authorized under the following conditions:
A documented need exists for the student(s) to enroll for the course immediately rather than taking an alternate course or waiting until the next term in which the desired course would be offered.
The student is able to identify an instructor who is willing to teach the course as DIS.
The student understands the extensive burden which he or she is undertaking.
Enrollment is approved by the Department Chair and Vice President of Academic Affairs.
When it is not feasible for the course/section to be scheduled concurrently and taught at the same time and locations as another course/section.

Distance Learning

19-20 Distance Learning	NWF Online Final Examinations Online Course Orientation Online Instruction Online Support Services ProctorU

NWF Online

Technology and the Internet are integral parts of the education process at NWF State College. In keeping with current educational practice, students will be expected to use computer technology and internet communication throughout their college experience. All classes offered at NWF State College may require use of the Internet; such use may vary depending on the class delivery mode

(traditional, hybrid, or online).
NWF Online's website (http://online.nwfsc.edu) supports student learning through various methods and serves as the portal to online classrooms. The site provides access to online classes for Distance Learning students and for students in traditional and hybrid classes using the College's online learning environment, Blackboard Learn.
Technical support for students using Blackboard is available on the NWF Online website.

Online Classes

Online instruction, which is offered in asynchronous and synchronous (Online Live, with real-time classes conducted via Zoom) formats, reaches students needing flexibility and convenience. Online courses are conducted 100% online.

Hybrid Classes

Hybrid classes are traditional college classes combined with online activities to reduce class seat time. Hybrid classes provide the advantages of limited face-to-face instruction combined with the convenience of online learning. Thus, hybrid classes meet less often than a traditional class but provide the same course credit as a traditional class.

Online Instruction

NWF State College offers students the convenience and flexibility of earning course credits through various delivery modes so that students may take control of their own education by working and learning at times and places convenient to them. Online and hybrid classes carry the same course numbers and credits as their traditional counterparts and appear on the student's transcript just as any other course does; there is no designator on the transcript identifying a course as online or hybrid. Credits earned are transferable and are applicable to graduation requirements in the same manner as traditional classes. All NWF State College courses, including all online and hybrid courses, are taught by faculty holding credentials in the relevant subject matter. Students can search for online and hybrid classes by clicking the Class Search Quick link at https://ps-ssb.nwfsc.edu/PROD/bwckschd.p_disp_dyn_sched.

Online Course Orientations

To ensure the success of each student, every online instructor will provide an online orientation to Blackboard and the course. Course orientations contain crucial information, such as course pace, how to submit assignments, grading requirements, testing arrangements, and strategies for improving student success.

Final Examinations

Final examinations for online classes will be given within Blackboard. Online final exams are held at the end of each term and must be taken at the scheduled time unless other arrangements are approved in advance by the appropriate division director or department head. Final exam schedules are printed in the Schedule of Classes and are on the NWF State College website calendar for each term.

Online Support Services

NWF State College is committed to offering students the same quality of education through online and hybrid courses as it offers in the classroom. In addition to online tutoring support and online library help through Ask-a-Librarian, distance learning students have full access to college services at all physical locations. They may use on-campus resources, such as the Academic Success Center, Academic Advising and computer labs. The process for seeking assistance for NWF Online classes is to email online@nwfsc.edu.
Online and hybrid courses are subject to the same rules as traditional, in-class courses for refunds, prerequisites, placement, withdrawals, repeat rules, grading, and other academic policies. Depending on student eligibility, financial assistance is generally available for these courses in the same manner as it is for traditional courses.

ProctorU

Distance Learning students are provided the opportunity to test through ProctorU. Students should log on to https://www.proctoru.com/portal/nwfsc to register and create an appointment. This service requires a webcam and microphone and the test candidate will be monitored through the computer screen. Tests should be scheduled at least 3 days in advance; for testing options outside this 72-hour window, additional fees may apply. Visit https://support.proctoru.com/hc/en-us/articles/360028406332-What-are-Premium-Fees-and-Premium-Scheduling-Rescheduling- to learn more about optional fees associated with proctoring.

Financial Aid/Veteran's Education Benefits

Enrollment Status
Courses Paid for by Financial Aid
Standards of Academic Progress
Program Objective Enrollment Compliance (POEC)
Repayment of Unearned Federal Financial Aid (Return of Title IV)
Rights and Responsibilities
Veteran's Services
Veterans' Tuition Deferment Policy

The Office of Financial Planning and Scholarships at Northwest Florida State College strives to remove financial barriers; to promote the success of a diverse student body; and to increase opportunities for access in higher education. We seek to contribute to a premier experience for students, faculty, and staff by providing timely communication and by delivering courteous and efficient financial services while complying with all federal, state, and college policies.
Financial assistance administered by NWF State College does not discriminate on the basis of color, religion, age, sex, national origin, disability, pregnancy, or marital status. Specific criteria and academic standing information may be required for particular assistance and/or scholarships.

Financial Aid Administered by Northwest Florida State College

Federal Aid: Pell Grant, Supplemental Educational Opportunity Grant (SEOG), Work Study Program (FWS), Iraq and Afghanistan Service Grant (IASG), and Student Loans
State Aid: Bright Futures, Florida Student Assistance Grant (FSAG), First Generation Match Grant, and Scholarships for Children and Spouses of Deceased or Disabled Veterans
Information regarding
Institutional Scholarships: Awarded by NWF State College, a list can be found on the college website at https://www.nwfsc.edu/students/financialaid/scholarships/

Deadlines

A FAFSA (Free Application for Federal Student Aid) must be completed for each academic year and one FAFSA serves throughout that entire academic year (Fall through Summer). The FAFSA becomes available each October for the following academic year, and you should apply as early as possible because many financial aid programs have limited funding that will go only to early applicants.
Financial Aid Priority Deadline
To have your financial aid processed in time for your registration fees to be paid by financial aid, you must complete all steps in the application process by the Financial Aid Priority Deadline:
June 1 for Fall Term
October 1 for Spring Term
March 1 for Summer Term
Late Applicants
If you miss the Financial Aid Priority Deadline for the term in which you wish to enroll, you still are strongly encouraged to apply for financial aid. Your application will be accepted and processed; however, it may not be processed in time for you to use your financial aid to pay for your fees and books. If this is the case, you will need to pay your tuition and purchase your books; then, if

you qualify for financial aid, a refund will be issued to you later in the term. You can seek help with paying your tuition through the NelNet Tuition Payment Plan. Further information about this plan can be found on RaiderNet under the "Pay Fees" tab or by contacting the Business Office at 850-729-5385.
Applications for federal financial aid should be made well in advance of registration by submitting the Free Application for Federal Student Aid (FAFSA).

Application Instructions

You must apply for financial aid each academic year.
Be a degree-seeking student at NWF State College or be a certificate-seeking student in an eligible program and take courses that are required for that degree or certificate. (Some certificates, due to required program length, are not eligible for Federal Financial Aid. Please see a Student Success Navigator if you have questions regarding your program)
Provide the Admissions/Records Office with an official final copy of your high school transcript or GED score report, or, if you are a college transfer student, provide an official copy of your transcript from each institution you have attended. Transfer course work must be evaluated before an award can be made.
Complete the Free Application for Federal Student Aid (FAFSA). NWF State College's school code number is "001510."
World Wide Web address fafsa.ed.gov (Allow at least two weeks for processing.)

General Eligibility

Federal Programs

For a student to be eligible for federal financial aid at NWF State College, a student must:

Be accepted for enrollment in an approved program of study, have a high school diploma or GED
Be a U.S. citizen, or an eligible non-citizen
Not owe a refund or repayment on a federal grant at any institution
Not be in default on a federally-funded or insured student loan
Enrollment must be in courses required for your degree or certificate
Be registered for Selective Service if required
Not have been convicted for sale or possession of illegal drugs while receiving Title IV funds
If a college transfer student, have an official transcript from each previously attended institution submitted to, and evaluated by, NWF State College.
Must maintain satisfactory academic progress standards

State of Florida Programs

For a student to be eligible for State of Florida financial aid (i.e. FSAG, FSAG-CE) at the college, a student must:
Have demonstrated a financial need (complete the FAFSA application)
Have met the advertised deadline
Have been a resident of Florida for one year or be classified as a Florida resident by the Registrar's Office
Be degree-seeking in an approved program of study
Have a 2.0 or higher grade point average (GPA) on all previous college work
A student must have earned credit hours equivalent to his/her enrollment status during each term of the prior academic year in which state aid was received, (12 credit hours or 360 vocational hours for each term of full-time enrollment, 9 credit hours or 270 vocational hours for each term of three-quarter-time enrollment and 6 credit hours or 180 vocational hours for each term of half-time enrollment), and
A student who is not enrolled full-time will be offered a part-time award. Part-time awards will be prorated according to enrollment status. Funds will be offered until the limited funds are exhausted.

Verification

The federal government requires that some applications be reviewed for accuracy through a process called "verification." If you are selected for this process, you will be required to provide additional documentation to our office for review. You will be notified through your student e-mail account, or by checking your RaiderNet account, which documents you will need to provide to complete your financial aid file. All documentation must be submitted to the Financial Aid Office within 30 days of notification. If you do not submit the requested information you may lose funds otherwise available to you.

Federal Eligibility Matches

The federal processor matches your name and social security number with a variety of federal agencies. Agency matches are performed against the files of the Social Security Administration, Department of Homeland Security, Selective Service and the National Student Loan Data System. If any discrepancies or questions about your information occur, you will be asked to provide additional documents or take additional action to confirm your eligibility for federal assistance.

Transfer Students

If you previously applied for federal financial aid at another institution and now want to apply for financial aid at NWF State College, you must update your current year FAFSA to include our federal school code (001510).

If you are a college transfer student seeking a degree or technical certificate, you must submit a complete official transcript from each college and university you have attended. Your financial aid eligibility cannot be determined until NWF has received and evaluated all of the transcripts for transfer credit.

Transient Students

If you are enrolled as a transient student, you are not eligible for financial aid through NWF State College.

Enrollment Status

The amount of federal financial aid a student is eligible to receive is dependent on the student's enrollment status each term based on the following table. Credit hours are computed using all developmental and college credits in which the student is enrolled.

Full-Time Enrollment	Three-Quarter Time Enrollment	Half-Time Enrollment	Less Than Half-Time Enrollment
12 or more credit hours	9-11 credit hours	6-8 credit hours	1-5 credit hours
450 clock hours	Clock hours/program length*	Clock hours/program length*	Clock hours/program length*

*To determine enrollment status other than full-time, as established by federal regulation, the number of clock hours the student is enrolled in is divided by the program length.

Enrollment status (Full-time, Half-time, etc.) is based upon number of credit hours enrolled at the end of Drop/Add for Session 1 courses (census date). New student admission and FAFSA's received after the enrollment status date will be updated at the time of completion.

The amount of the award will not increase if students add a class after the advertised census date.

To retain enrollment status, student must attend all of their classes. Attendance for distance learning courses is defined as attending an orientation; participating in the course, as defined by the instructor; submitting course assignments, as required, to the instructor; or initiating contact with the instructor.

Failure to attend any enrolled course may lower the enrollment status and award amount once hours are reduced to account for non-attendance.

Courses Paid for by Financial Aid

Repeated Courses

Federal regulations limit the number of times a student may repeat a course and receive financial aid for that course.

A student may receive aid when repeating a course that was previously failed (received a failing or unsatisfactory grade); regardless of the number of times the course was attempted and failed.

A student may receive aid to repeat a previously passed course (grade of 'D' or higher) one additional time.

Once a student has completed any course twice with a passing grade (grade of 'D' or higher), he/she is no longer eligible to receive aid for that course.

This rule applies whether or not the student received aid for earlier enrollments in the course.

Students will receive notification if they are aid applicants and attempt to repeat coursework beyond the limits.

Developmental Courses
NWF State College approves developmental courses for the use of financial aid and includes developmental courses where necessary when determining a student's enrollment status. Admission placement testing requirements will determine if developmental courses are needed in a student's degree program. Financial aid will pay for no more than 30 credit hours of developmental coursework.
Clock Hour Programs
Clock hour programs (Dental, Welding, Law Enforcement, and Fire Science/EMT) are not paid in semester hours like other programs offered at NWF State College. Financial aid pays for the entire program, by payment periods and based upon the length of the program and completion of program hours. Program instructors are responsible for documenting the number of hours of participation, excused and unexcused hours of absence, and the student's satisfactory academic progress during their weeks of attendance. Aid disbursements are based on this reported information. Prior to the second and all subsequent payments, the student's hours completed and satisfactory academic progress will be verified.

Standards of Academic Progress (SAP)

Satisfactory Academic Progress Requirements

To be eligible for financial aid, all students, including students transferring to NWF State College from another institution, must meet NWF State College's standards of satisfactory academic progress for financial aid. Student academic progress is reviewed at the end of each term. A transferring student's satisfactory progress will initially be determined from the student's academic history at all previously attended institutions. Students who attended NWF State College in the past will be reviewed based on all previously attempted courses, regardless of how long ago they attended NWF State College, in accordance with federal guidelines.
Failure to meet one or more of the established standards of satisfactory progress will make a student ineligible for financial aid. Students who become ineligible for financial aid due to the failure to meet the SAP for financial aid will remain ineligible for financial aid until they meet the standards or are placed on an Academic Plan as a condition of their approved appeal. Satisfactory progress includes all previous academic history, even if the student did not receive financial aid.
Below are the standards of satisfactory progress for financial aid. These standards apply to all students:
SAP for Financial Aid Eligibility Federal regulations (34 CFR 668.34) require a student to move toward the completion of a degree or certificate within an eligible program when receiving financial aid. Specific requirements for academic progress for financial aid recipients may be applied differently than college Academic Standards, Warning, Probation, and Suspension. Federal regulations state that SAP must include a review of all periods of enrollment, regardless of whether or not aid was received. The student must meet all the minimum standards in order to receive financial aid.
There are three parts to the SAP rules:
1. You must maintain a 2.0 cumulative Grade Point Average (GPA). This is includes all course work you have taken at NWF State College or any college or university (this includes college level classes taken during high school), regardless of whether or not you received financial aid for those classes.
2. You must successfully complete at least 67% of all of the classes in which you have enrolled. This includes all the course work you have taken at NWF State College or any college or university (this includes dual enrollment classes), regardless of whether or not you received financial aid for those classes.
3. You must not attempt more than 150% of credits needed for the level of degree in which you are seeking. All coursework attempted is included in these totals.
Financial Aid Warning Status
The first semester a student fails to meet the satisfactory progress standards for financial aid, he/she will be placed on Warning Status. While the student will continue to receive financial aid during this period, it is the student's responsibility to restore his/her academic standing for financial aid by the end of the warning status term.
Students who exceed the 150% Rule are not eligible for a Financial Aid Warning Status.
Failure to restore academic standing by the end of the Warning Status term will result in the student being ineligible for financial aid. Students can appeal their failure to meet standards of Academic Progress.
Appealing Satisfactory Academic Progress Requirements
Before submitting an appeal for financial aid, students must meet with a Student Success Navigator and obtain an approved program of study. The program of study may be the basis for the student's academic plan. Students should file a financial aid appeal as soon as they receive notification of their failure to meet the standards of academic progress, or no later than 30 days after the semester ends. Appeal forms and procedures are available on the Financial Aid web page at

https://www.nwfsc.edu/students/financialaid/forms/
Transfer students must meet the established satisfactory progress requirements or submit a financial aid appeal. Students can appeal their failure to meet the standards of academic progress for financial aid if unusual circumstances exist. Unusual and mitigating circumstances include, but are not limited to, a death in the student's family, medical condition, hospitalization, documented emotional distress, or other situations beyond the student's control.
All situations must be fully documented.

Program Objective Enrollment Compliance (POEC)

A Program Objective Enrollment Compliance (POEC) review is required for every student seeking federal student aid. In accordance with federal law, federal student aid funds can only be applied to classes that are recognized as being truly necessary for completion of a student's declared degree. To that end, we must verify (on a term-by-term basis) whether all classes for which a student is enrolled are required or not. Those classes that are confirmed to be required, i.e. POEC compliant, will be counted in enrollment status for federal student aid (as long as all other relevant eligibility criteria has been met). Classes that are identified as not required for degree completion will be flagged as such, and these non-compliant courses will be excluded from enrollment status.
To be clear, any coursework that is not required will not be included when calculating enrollment status for Title IV funds (Pell Grant, Direct Subsidized Loans, Direct Unsubsidized Loans, etc.). Students who qualify for aid that exceeds the actual cost of their compliant coursework may be able to apply that difference to non-compliant classes. If excess aid does not exist, the student who wishes to keep such classes on their schedule will need to pay for those classes out of pocket.

Repayment of Unearned Federal Financial Aid (Return of Title IV)

If you receive Title IV federal financial aid (Pell, Federal Loans, SEOG) and completely withdraw from all of your classes within the first 60% of the term, stop attending all classes without notification or have a break in attendance during the semester, a pro-rated portion of your financial aid may need to be repaid. In this case, you will be billed for aid that must be repaid, and holds will be placed on your record until the bill is settled. This policy is derived from provisions of federal law. Students receiving Title IV aid should consult with the Financial Aid Office prior to withdrawing from any or all classes.

Rights and Responsibilities

As a student financial aid consumer,

You have the right to:
Be informed about financial aid application procedures, cost of attendance, aid available and renewal requirements.
Have confidential protection of your financial aid records. The contents of your financial aid file are maintained in accordance with the Family Educational Rights and Privacy Act (FERPA).
Request a review of decisions made by the NWF State College financial aid staff. A letter explaining your situation in detail should be submitted to the Executive Director of Financial Planning and Scholarships.
You have the responsibility to:
Complete applications correctly and on time.
Read and understand all materials sent to you from Financial Aid and other financial aid agencies by e-mail and/or letter; keep copies of all forms and materials submitted.
Know and comply with the rules governing your aid program(s).
Comply with the provisions of any promissory note and all other agreements you sign.
Register for the appropriate number of credits and maintain satisfactory academic progress.
Request personal assistance if you have questions or do not understand the information provided to you.
Register for courses that count toward your degree or certificate.

Veteran's Services

All new student veterans and eligible family members are encouraged to visit the Veteran Success Center at the Niceville campus for assistance with starting a VA file/record. NWF State College is approved for training by the State Approving Agency under the various Veterans' training laws. Student veterans and eligible family members planning to enroll and use their VA Educational Benefits should consult with the Veterans Success Center staff well in advance of their first semester of enrollment. All new student veterans and eligible family members are encouraged to follow the application procedures found at https://www.nwfsc.edu/students/veterans/ when establishing their VA file with the Veterans Success Center.

Student veterans and eligible family members are also required to be familiar with the NWF State College VA Student Information Packet, which explains our processes and the rules imposed, by U.S. Code Title 38 and Title 10. The VA Student Information Packet can be found at https://www.nwfsc.edu/wp-content/uploads/2020/02/2020-VA-Student-Briefing-Packet.docx.pdf.

In accordance with U.S. Code Title 38 and Title 10, the law requires that educational assistance benefits to student veterans and eligible family members be discontinued when the student ceases to make satisfactory progress toward completion of their training objective.

Student veterans and eligible family members are ineligible for VA Education Benefits beyond two consecutive terms of not meeting Academic Standards per the current NWF State College catalog. VA Education Benefits will be terminated following the second subsequent term of enrollment where their Academic Standing remains below the established requirements. If a student veteran or eligible family member is placed on Academic Suspension per the current college catalog, VA Education Benefits will be terminated immediately. Students may be re-certified for VA Education Benefits ONLY after achieving the minimum required cumulative grade point average and submitting a VA Form 22-1995 or 22-5495 (Chapter 35).

Training time for all programs, except Chapter 33 Post 9/11 GI Bill®, is computed at full time, three quarter time and half time; please refer to your specific chapter payment chart at the GI Bill® website (https://www.va.gov/gi-bill-comparison-tool).

Training time for the Summer Term and any accelerated session of any term is computed differently. Student veterans and eligible family members are advised to contact the Veterans Success Center before registering for Summer Term and accelerated term classes to determine training status.

Rate of Pursuit (RoP) applies specifically to Chapter 33 beneficiaries, as it differs from training time which is used for all other chapters. RoP is used to determine a student's Monthly Housing Allowance (MHA). RoP is computed by dividing the student's credit hours by the full time rate, rounding to the nearest tenth and multiplying by the E-5 with dependent Basic Allowance for Housing rate.

Full-Time Enrollment	Three-Quarter Time Enrollment	Half-Time Enrollment
12 or more credit hours	9-11 credit hours	6-8 credit hours
Chapter 33:	Chapter 33:	Chapter 33:
12 or more = 100%	11 = 90% 9 or 10 = 80%	8 = 70% 7 = 60%

The above enrollment information is based on 16 week terms (Fall and Spring). The Summer term is 12 weeks and enrollment hours are adjusted accordingly. Please reference the VA Student Information Packet for specific requirements.

The Monthly Housing Allowance is paid if the student's RoP is more than 50%. The VA Regional Processing Office reviews the student's RoP to determine whether MHA can be awarded: If a student's RoP is more than 50% the student receives MHA; if the student's RoP is 50% or less, then the student doesn't receive MHA (Active Duty personnel receiving Chapter 33 benefits or spouses of Active Duty personnel receiving Transfer of Entitlement benefits are not eligible for MHA under VA due to receiving comparable compensation of Basic Housing Allowance).

It is advised that student's use the GI Bill® Comparison Tool at https://www.va.gov/gi-bill-comparison-tool to determine their Monthly Housing Allowance Rate. This tool provides MHA rates for main, branch campuses and extension campuses. Follow the steps below to receive an estimate of your MHA.

Search and select your school's main campus from the list.

Scroll down to "Where will you take the majority of your classes?"

Select "Other Location" or "An Extension Campus."

Enter the zip code of the other location or select the location from the drop down.

Chapter 33 students who schedule all distance learning classes, (online, independent study, and video conferencing), are only eligible to receive half the national average in Monthly Housing Allowance. Current information on rates can be found at https://www.va.gov/gi-bill-comparison-tool/ Chapter 33 students may be eligible to receive a books and supplies stipend of up to $1,000.00 each academic year paid proportionately based on enrollment.

NWF State College also has clock hour programs that the VA calculates training time on a weekly basis. To maintain full time status a student must have 22 clock hours per week for Applied Welding Technologies, 18 clock hours per week for Corrections

Officer, Law Enforcement Basic, Fire Fighter, and Dental Assisting. Chapter 33 students in clock hour program who are full time are also eligible to receive books and supplies up to $1,000.00 each academic year paid proportionately based on enrollment.
Training time for the Summer Term and any accelerated session of any term is computed differently. Student veterans and eligible family members are advised to contact the Veteran's Success Center before registering for Summer Term and accelerated term classes to determine training status.
All student veterans and eligible family members who wish to be certified for their VA Education Benefits must provide a signed VA Certification Request Drop/Add form each semester, available online at https://nwfstatecollege.formstack.com/forms/va_enrollment_certification_request_form. Student veterans and eligible family members are required to submit a new VA Certification Request Drop/Add form for all schedule changes, to include: drop, withdrawal, never attended, and reinstatement or termination due to excessive absences.
Note: Student's attendance is reported to the VA and may impact benefit payments.
The VA pays a Chapter 33 student's tuition directly to NWF State College.
Chapter 35, 30, 1606, and 1607 students are responsible for paying their tuition by the established and published due date. These students may be eligible to use a VA deferment once an academic year.
Chapter 33 students who do not have a current Certificate of Eligibility may also be eligible to use a VA deferment once an academic year.

Veterans' Tuition Deferment Policy

Any eligible student veteran or eligible family member who wishes to pursue an approved program of study shall be granted upon request, a deferment for full payment of fees for a period determined by the Business Office, once per academic year (August through July). Under no circumstances shall any person be allowed to enroll or re-enroll at NWF State College who has an unpaid fee deferment. A student who defaults on a VA deferment will lose the right to receive future deferments.
In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:
Prevent the student's enrollment;
Assess a late penalty fee to the student;
Require the student to secure alternative or additional funding;
Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.
However, to qualify for this provision, such students may be required to:
Produce the VA Certificate of Eligibility (COE) by the first day of class;
Provide a written request to be certified;
Provide additional information needed to properly certify the enrollment as described in other institutional policies

General Course Information

Florida's Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and by participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.
Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance

as to type of institution and discipline field or specialization.
The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "statewide course profiles."

Examples of Course Identifiers

Prefix	Level Code (first digit)	Century Digit (second digit)	Decade Digit (third digit)	Unit Digit (fourth digit)	Lab Code
ENC	1	1	0	1	English Composition

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.
For example, a freshman composition skills course is offered by 84 different public and nonpublic postsecondary institutions. Each institution uses "ENC_101" to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "ENC" means "English Composition," the century digit "1" represents "Freshman Composition," the decade digit "0" represents "Freshman Composition Skills," and the unit digit "1" represents "Freshman Composition Skills I."
In the sciences and certain other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.
Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at a Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent. NOTE: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:
Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to

be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.
Courses not offered by the receiving institution.
For courses at nonregionally accredited institutions, courses offered prior to the established transfer date of the course in question.
Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations.
Graduate courses.
Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Nonregionally Accredited Institutions

The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.
Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to Northwest Florida State College, Office of the Vice President of Academic Affairs or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

Graduation Process
Graduation Regalia

Graduation Process

The goal of the graduation process at Northwest Florida State College (NWFSC) is to ensure that a student's official transcript reflects every credential for which the student has earned here at the College. During the months of October (for the fall semester), March (for the spring semester), and June (for the summer semester), the College will conduct a preliminary review of each currently enrolled student's degree audit. Because many of the College's associate and baccalaureate degrees contain embedded certifications that students can earn as they are taking courses toward their degree, students within an associate's or bachelor's degree will also be reviewed to see if he or she has met all requirements to receive the embedded certificate(s). Students who are

expected to be "100% program complete" at the end of the term will be identified as eligible for graduation and the student will be notified of their eligibility via the student's NWFSC email account. This email will provide instructions on how to submit the Graduation Application. To be awarded an associate's or bachelor's degree, a student MUST submit a Graduation Application. Students in a College Credit Certificate, Career Certificate, or Applied Technology Diploma program will automatically be awarded the applicable credential once all requirements are met. If a student desires to delay the receipt of their earned associate or baccalaureate credential and fails to submit a Graduation Application by the deadline, the Office of Academic Records and Enrollment will not award the credential until such time as a Graduation Application is received during the normal award deadline for the semester in which the student applies to graduate (the student may not request that the award be back-dated to a prior semester). Once a credential is awarded, a student may not request that it be removed from his or her permanent record.

To be eligible for graduation, a student must have a complete admission file. If a student has an incomplete file or is completing the remaining course(s) as a transient student at a different institution, the Office of Academic Records and Enrollment must receive all outstanding items by the graduation deadline. Students should always check their NWFSC student email account for notifications regarding relevant deadlines.

Students are responsible for selecting courses that meet program requirements and for earning the required minimum grades in those courses. Students are encouraged to meet with a Student Success Navigator each semester to confirm that the student is progressing toward degree completion as expected. Students may review their graduation progress through the DegreeWorks degree audit component of RaiderNet.

At the end of the semester, all eligible students will be reviewed for a final check of program completion. Unsuccessful graduation candidates will be notified of which outstanding requirements prevented the student from graduating for the current semester and will be instructed to follow-up with a Student Success Navigator to determine the best path forward to degree completion.

Effective Catalog Policy

Students must follow the requirements outlined in the College Catalog in effect for the term in which the student is admitted (students admitted into a program for Fall 2021, Spring 2022, or Summer 2022 will fall under the 2021-2022 College Catalog). A student who breaks enrollment (i.e. fails to register for three consecutive semesters) is required to re-apply, at which time they must complete requirements for graduation under the catalog in effect for the term of re-admission.

Additional Degrees

A student who earns a degree at NWFSC may be granted a second or additional degree under the following conditions:

No more than one Associate in Arts degree may be granted.

A second Bachelor of Science, Bachelor of Applied Science, Associate in Science, and/or Associate in Applied Science degree may not be earned in the same program. For example, a student may only receive one Bachelor of Applied Science in Project Management degree and one Bachelor of Applied Science in Management and Supervision degree, despite the fact that these programs have several emphasis options for a student to choose from. An additional Bachelor of Science or Bachelor of Applied Science degree will require at least 30 credits in addition to the new program's standard coursework requirements. The additional 30 credits may be core credits and/or general education credits but it is recommended that these additional credits be technical courses that support the specific program of study and the student's future educational and career goals. Students are encouraged to work closely with their intended program's Department Chair/Division Director to ensure that the student is taking the most beneficial coursework.

An additional Associate in Science degree shall require at least 15 credits in addition to the new program's standard coursework requirements. The additional 15 credits may be core credits and/or general education credits but it recommended that these additional credits be technical courses that support the specific program of study and the student's future educational and career goals. Students are encouraged to work closely with their intended program's Department Chair/Division Director to ensure that the student is taking the most beneficial coursework.

Students who have been awarded a State of Florida Associate in Arts degree, a baccalaureate degree from a regionally accredited institution, or a comparable international institution may have already met some of the graduation requirements through coursework taken as part of the previous degree. This may include general education requirements or other program-specific graduation requirements. However, numerous NWFSC graduation requirements are specifically mandated by Florida Statute and/or Florida Administrative Code and therefore must be met prior to the award of an NWFSC degree. Students who would like their previous degree coursework reviewed to see if additional graduation requirements can be waived should submit a Request for Exception: Records appeal. Please note that pre-requisites for major courses are still required.

All other requirements for graduation remain in effect for students pursuing additional degrees.

Graduation Honors

At the time of graduation, for students enrolled in an associate or baccalaureate degree program, the entire academic record is included in the grade point average (GPA) calculation to determine recognition of outstanding academic achievement. If the student's cumulative GPA meets the standards, and if the student meets all other graduation requirements, he or she will graduate with the appropriate level of honors. The following honors will be posted on the diploma and the transcript as applicable:

Cum Laude	Magna Cum Laude	Summa Cum Laude
Cumulative GPA of 3.50 – 3.79	Cumulative GPA of 3.80 – 3.99	Cumulative GPA of 4.00

At the time of graduation, for students enrolled in a certificate or diploma program (College Credit Certificate, Career Certificate, or Applied Technology Diploma), all coursework pursued toward the certificate or diploma will be included in the GPA calculation to determine recognition of outstanding academic achievement. If the student's grade point average for the certificate or diploma course meets the standards, and if the student meets all other graduation requirements, he or she will graduate with the appropriate level of honors. The following honors will be posted on the diploma and the transcript as applicable:

Honors	High Honors	Highest Honors
Cumulative GPA of 3.50 – 3.79	Cumulative GPA of 3.80 – 3.99	Cumulative GPA of 4.00

Graduation Ceremony

NWFSC hosts two graduation ceremonies at the end of each spring semester. The ceremonies honor graduates from the previous summer and fall semesters, as well as potential spring semester graduates. Students participating in the ceremony must RSVP prior to the ceremony. Once identified as eligible to participate in the ceremony, students will be contacted via his or her NWFSC email account with instructions on how to RSVP. For more information regarding the Commencement Ceremony, please refer to the Graduation webpage.

Graduation Regalia

Graduation regalia to include cap, gown, tassel, and baccalaureate stole are available at the Barnes and Noble College Store located on the Niceville campus approximately four weeks prior to graduation. Graduation regalia are required for participation. Honor cords are provided by the College and are given out at the Commencement check-in station on the day of the ceremony. Please note that because the Commencement Ceremony normally takes place prior to the posting of final grades for the Spring semester, potential Spring graduates will have honor cords assigned based on the honor designation as of the completed fall semester. Once final grades are posted, the final honors designation will appear on the student's official transcript. For more information regarding graduation, please refer to the Graduation webpage. For additional information concerning graduation regalia, please call the Niceville Barnes and Noble College Store at (850) 729-5384.

Diplomas

Diplomas are mailed 6-8 weeks after the close of each semester. The diploma will be mailed to the address provided on the Graduation Application. If a diploma address is not provided via the Graduation Application, the diploma will be mailed to the mailing address listed on the student's record. If no mailing address exists, the diploma will be mailed to the permanent address listed on the student's record. It is the student's responsibility to make sure the College has the most up-to-date contact information on file. Addresses can be updated through the Student Tab in RaiderNet or by completing the Update My Personal Information Form.

Educational records are maintained under a student's full legal name and this is the name that will appear on the student's NWFSC diploma. Any desired changes to the student's legal name will require the student to submit a name change request to the Office of Academic Records and Enrollment via the Update My Personal Information Form and provide appropriate supporting documentation as applicable. If a student would like his or her diploma to reflect a name other than the full legal name, he or she must submit a request in writing to the Executive Director of Academic Records and Enrollment for consideration. Approval to use a

name other than the student's legal name is up to the discretion of the Executive Director of Academic Records and Enrollment.

Paying for College

Full payment of tuition and fees is required by the payment due date posted in RaiderNet. Payment may be made in person for cash or check at any of our campus/center locations. Payment via e-check (ACH), MasterCard, Visa, American Express, or Discover credit cards is available online through the student's RaiderNet account. Students who have not paid their account balance in full by the payment due date will be dropped from their classes. The College may grant deferments as specifically defined by Florida Statutes.

Fees

These fees are subject to change by the Florida Legislature and the Board of Trustees based on the June 2021 Board Meeting. Current fees are available from the College Business Office and are published in the class schedule. These fees apply whenever applicable, except: (1) for courses in which complimentary instructional services or equivalent program costs are provided by appropriate persons, agencies or organizations; or (2) when specifically waived by the Board of Trustees. Active Duty Military residing in this state and their dependents are eligible to pay in-state tuition rate. The Active Duty Service Member and/or their dependent must complete the Declaration of the Florida Residency to receive this benefit. The College's full residency policy can be found in the Florida Residency for Tuition Purposes sections of the Catalog. The fees listed below are for the 2020-2021 academic year.
Fees Subject to Change by Action of the Florida Legislature and the NWF State College Board of Trustees without notice.

In-State Tuition per credit hour	Border State (Alabama) Tuition per credit hour	NWF Online Out-of-State Tuition per credit hour	Out-of-State Tuition per credit hour
Baccalaureate (College Credit)	$122.59	$123.59	$123.59
$450.86	Advanced & Professional (College Credit)	$104.01	$105.01
$105.01	398.02	Postsecondary Voc. (College Credit)	$104.01
$105.01	$105.01	398.02	Developmental
$104.01	$105.01	$105.01	398.02
Postsecondary Adult Vocational (Voc. Credit)	$86.10	$87.10	$87.10

Laboratory and Special Tuition Fees exist to cover unique costs related to a given course. The amount is determined course-by-course and is based on the instructional costs for each. A fee schedule is on file in the Business Office and is printed in the class schedule each session.

Full Cost of Instruction for Third Attempt

Per Florida Statute 1009.285, after the second attempt in any college-credit or developmental course, a student will be required to pay the full cost of instruction (the out-of-state rate; approximately four times the usual matriculation fees) to repeat the course. A student may petition to have the out-of-state portion waived based on documented extenuating circumstances by submitting the

Request for Exception: Business Office form. Please see the official appeal form for specific guidelines and criteria. Students needing assistance with this form should contact a Student Success Navigator at studentsuccess@nwfsc.edu or 850-502-2895.

RaiderCards

The RaiderCard is a student identification card that is issued to college credit students after tuition fees are paid. There is a $15 fee per term.
The RaiderCard provides access at the College Learning Resource center and free admission to NWF State College athletic events and certain cultural events offered by the college. RaiderCards are re-activated each time a student re-enrolls.

Other Fees and Charges

Continuing Workforce Education	At Full Cost of Instruction
Distance Learning Fee	$15.00 per credit hour
Hybrid Learning Fee	$7.50 per credit hour
Library Fines	Lost Book Charge
Actual cost of replacement (if available) or $30.00	Recreational & Leisure Courses
At Full Cost of Instruction	Returned Check Fee
$25.00	Special Service Charges
At Cost	Student Access Fee*
Per semester fee	$15.00
Replacement fee	$15.00
Transcript Fee (per transcript)	$10.00 electronic or $15.00 paper

* Student Access Fee is required of all college credit students.

Course Fees

In accordance with Florida Statute 1009.23 (12)(a), course and lab fees are adjusted each year upon board approval. These fees cover expenses unique to course offerings such as laboratory fees, standardized testing fees, and other direct course level expenditures. To view course and lab fees, visit NWF Class Search.

Parking Fines

All students, staff, and faculty must register their vehicles with the College and display the parking decal when on campus. Visitors must park in designated visitor sections or obtain a visitors temporary parking permit from Raider Central in the Student Services Center. Parking regulation details are in the Student Handbook section of the catalog. Violating NWF State College's parking regulations may result in parking fines being assessed or the vehicle being towed.

No Decal Fee	$25.00
Parking Ticket	$25.00

Obstructing a Fire Hydrant	$50.00
Towing and Storage	Actual cost

Fines and Debts to the College

All unpaid debts, including Federal Guaranteed Student Loans, with NWF State College will result in fines being assessed or the withholding of transcripts, diplomas, certificates, and other official documents. Students will be prohibited from enrolling until all debts are paid in full. Students may be subject to liabilities for collection costs including attorney's fees.

Cost Summary

The range of basic charges for a typical full-time college-credit tuition non-baccalaureate student, per year, registered for 15 credit hours per term for two terms are noted below. Lab fees, food, housing, and travel costs depend upon the individual student's circumstances.

$1,440.00

$13,054.00

Student Tuition Payment Plan

A student tuition payment plan is available on the college website through NelNet Tuition Installment Program. NWF State

College will hold academic transcripts and refuse re-enrollment to any student who is delinquent on their agreement from any preceding semester until all amounts owed on prior agreements are paid or the student is released by NelNet. Please refer to the NWF State College website for additional information or to apply for this service.

Military Assistance

Active-duty military personnel who enroll in college-credit programs through base education offices may be eligible for financial assistance. The college has Military Assistance Agreements in effect with both Eglin Air Force Base and Hurlburt Field. Students using Military Tuition Assistance should receive approval from the Education Service Officer, military counselor, or the Service prior to enrollment.
In compliance with our Memorandum of Understanding with the Department of Defense, DoD Instruction 1322.25, and NWFSC Board of Trustee Policy (SS 7.00), Military Tuition Assistance (TA) is awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws, the student may no longer be eligible for the full amount of TA funds originally awarded.
To comply with the new Department of Defense policy, Northwest Florida State College will return any unearned TA funds on a prorated basis through at least the 60% portion of the period for which the funds were provided. TA funds are earned proportionally during an enrollment period, with unearned funds returned based upon when a student stops attending. These funds are returned to the military Service branch.
In instances when a Service member stops attending due to a military service obligation, the College will work with the affected Service member to identify solutions that will not result in student debt for the returned portion.
In compliance with Board of Trustee Policy (BS 18.00), the following academic programs are eligible for fee waivers for students using Military Tuition Assistance: Programs eligible for Military Fee Waivers.

Refund Policy

A student can receive a full refund up to and during the schedule adjustment period for the term. The schedule adjustment period is published annually on the Academic Calendar. Full refunds after the schedule adjustment period may be requested by completing the Request for Exception: Business Office form. Refunds are only considered for documented extenuating circumstances. Refunds are NOT approved based on changes in work schedules or for enrollment status changes due to illegal activities. Refund requests must be made prior to the end of the semester for which the student was enrolled in the course(s). As such, the Request for Exception: Business Office form must be submitted by the last day of the current semester as published in the Academic Calendar (the last day of the semester is identified as the Last day of term for students for Session 1). For example, a student seeking a refund for a Fall 2021 course must submit the appeal no later than the Last day of term for students deadline listed for Session 1 on the Fall 2021 Academic Calendar. See the official appeal form for specific guidelines and criteria. Students needing assistance with this form should contact a Student Success Navigator at studentsuccess@nwfsc.edu or 850-502-2895.
Refunds will only be issued for $1.00 or more. Refunds less than $1.00 will be paid in cash at the Business Office located on the Niceville Campus.
Students will receive a full refund for classes that are cancelled by the College. A student can choose to enroll in other classes to which tuition and fees may be credited.

Dishonored Check Policy

Checks returned by the bank will be processed as follows:
The student will be notified by certified mail that their check was dishonored by the bank. A $25 return check charge will be applied to the student's account.
The student will have seven (7) calendar days to pay for the check and the return check charge. Payment must be in the form of cash or certified funds. If any portion of the dishonored check funds includes payment of tuition and fees, failure to make the payment will result in cancellation of enrollment.
Reinstatement after enrollment cancellation will be considered only after full payment which will include an additional $25 reinstatement fee.
The student's record at NWF State College will reflect the obligation as an outstanding debt which will result in the withholding of transcripts, diplomas, certificates, and other official documents. Students will also be prohibited from enrolling until all debts are

paid in full.
Students who have written two or more checks with insufficient funds will be subject to disciplinary action even though their checks have been paid. The college will also suspend their check writing privileges and may report to other colleges and credit reporting agencies.
The college will forward unpaid dishonored checks, returned check charge, and related information about the student to a collection agency within 35 days.

Professional and Continuing Education

19-20 Prof-Cont Ed	Community Education Costa Leadership Institute Fitness and Wellness Jr. Raiders Kid's Programs Personal Enrichment Online Learning Meeting and Special Event Facilities

The Professional and Continuing Education Department at Northwest Florida State College offers a variety of quality non-credit programs. These programs include personal enrichment for the lifelong learner, business skills training for professionals, online classes, special event space rentals, fitness and wellness classes, kid's programs and community programs. Taught by experienced professionals, these programs are for all ages and offered during the morning, afternoon, evening and weekends, convenient for people with busy lives. Our programs are conducted throughout Okaloosa and Walton Counties and include:

Community Education

In partnership with community organizations, ecotourism programs and state/court mandated program (Motorcycle Safety, Advanced Motorcycle Rider, Divorce Classes, Guardianship Classes, Eco Tours with Choctawhatchee Basin Alliance, American Heart Association CPR trainings, and more)

Costa Leadership Institute

The Costa Leadership Institute provides professional and business skills training (Computer/Technology, Leadership, Communications, Preparation Exam/Certification Courses, Certification Exams, Continuing Education Units for Designated Professionals, and more)

Fitness and Wellness

Group aerobic and wellness classes at our Niceville Campus and DeFuniak Springs Center (Ballroom Dancing, Zumba, Tia Chi, Yoga and more). The Niceville Campus also offers gym memberships to the Raider Wellness Center, Niceville Campus.

Jr. Raiders Kid's Programs

Summer Kid's On Campus, Sports Camps (June and July Kid's On Campus and basketball, baseball and softball sports campus conducted by NWFSC Raider's coaches)

Personal Enrichment

A variety of non-credit personal enrichment courses are available throughout the year. Topics range from computer skills, finance, consumer education and a variety of courses to meet the needs of the community. Fees vary with the length and type of course offered; most classes are held on the Niceville Campus.

Online Learning

Online workforce training and personal enrichment classes offered through Ed2go

Meeting and Special Event Facilities

Offering meeting and special event facilities at our main campus in Niceville and centers in Fort Walton Beach, Crestview, DeFuniak Springs and South Walton.

Raider Life

Athletics
Get Involved
Student Organizations
Student Organization Terms

Get Involved

College is much more than just academics. The invaluable experiences gained through co-curricular activities cannot just be delivered in the classroom alone. The term "co-curricular" replaced the previously used term "extra-curricular" to emphasize that your involvement outside the classroom goes hand in hand with your classroom academics!
Raider Life strives to cultivate a campus environment that promotes equity, opportunities for all students to participate in extracurricular activities, and the environment for each student to learn and practice essential skills needed after college life. Raider Life provides support to students, student organizations, community service projects, and community activities that may enhance the quality of educational life for students. Raider Life also provides social and cultural enrichment opportunities in Okaloosa and Walton counties.

Athletics

NWF State College is an active member of the National Junior College Athletic Association (NJCAA) and the Florida College System Activities Association (FCSAA) which is composed of all public community and state colleges in Florida. Visit Raider Athletics for more information.

Intercollegiate Sports

Intercollegiate Sports operate under the rules and regulations of NJCAA and FCSAA. Varsity athletes enjoy the privilege, honor, and social distinction of representing the college in the field of athletic competition. Representation of the college is open by competitive selection to all students provided they meet the eligibility requirements of the FCSAA. Intercollegiate sports include basketball for men and women, baseball for men, and fast-pitch softball for women.

Student Organizations

Raider Life oversees a wide variety of student organizations that cover many interests and activities. Membership is open to all students who qualify, without regard to age, color, creed, handicap, marital status, national origin, race, religion or sex, except for those particular groups which are selective on the basis of scholarship. For more information on getting involved with a student organization or starting one, visit Raider Life or contact the office at (850) 729-5348.

Student Advisory Board

Student Advisory Board (SAB) provides a voice for the Northwest Florida State College student body in all college affairs while helping to further the goals of the college from a student perspective. The President of SAB acts as a liaison between students and college administration and represents the interests of the student body. The SAB president receives a yearly tuition scholarship. The SAB offices are housed in the Activities Center.
SAB participates with the Florida College System Student Government Association (FCSSGA) in representing students across the state to advocate change in Florida legislation beneficial to all college students. Lastly, SAB coordinates and regulates various activities for students such as fall and spring flings and various service learning opportunities.
All currently enrolled students of NWF State College are associate members of SAB with the right to full voice, upon recognition, in all SAB functions. However, the only students with the right to vote in SAB functions are; the Vice-President, Board Members, and the SAB Executive Board. In the event of a tie vote at any SAB function, the SAB President will cast the deciding vote.

Student Organization Terms

Each student activity, club, and organization authorized to function in the name of the College shall be organized, chartered and operated in accordance with Florida Statutes, State Board Rules, NWF State College Student Handbook, and the Student Organization Handbook. Visit Raider Life for more information.

Registration

Academic Load
Audit Status
Classification of Students
Full-time and Part-time Status
Non-Attendance
Registration
Schedule Changes
Withdrawing from Courses

Registration

Registration is the process of selecting and enrolling in Northwest Florida State College (NWFSC) courses. Registration is required before a student can attend classes. For information regarding important registration dates, visit the online Academic Calendar. While most students may register online through RaiderNet, a student's status or program of study may restrict online registration. For additional information regarding the registration process, please contact a Student Success Navigator at (850) 502-2895 or studentsuccess@nwfsc.edu.

Enrollment Status

Student Type	Full Time	Three-Quarter Time	Half Time	Less than Half Time
Enrolled in College Credit, Career, or Developmental Courses	12 or more credit hours	9 credit hours	6 credit hours	less than 6 credit hours

Classification of Students

Students are classified according to the number of semester hours they have earned (both NWFSC institutional credit and transfer credit awarded to the student by NWFSC are included in this calculation).

LOWER LEVEL

Freshman	A student who has 29 or fewer hours
Sophomore	A student who has 30 hours to 60 hours

UPPER LEVEL

Junior	A student who has 61 to 90 hours
Senior	A student who has 91 or more

Academic Load

A student may enroll in a maximum of eighteen (18) credit hours each semester. Students seeking to enroll in more than eighteen (18) developmental, career, and/or college credits in a single semester must receive prior approval from a Student Success Navigator. Appointments with a Student Success Navigator can be made by contacting (850) 502-2895 or studentsuccess@nwfsc.edu.

Audit Status

Auditing a course permits a student to enroll in a college credit course on a "not-for-credit" basis. Students auditing a class are not required to complete examinations but are expected to attend classes and participate in other activities and requirements on the same basis as students seeking credit. For students who enroll with an Audit Status prior to the end of the Schedule Adjustment (Drop/Add) Period, upon completion of the course, an "X" grade will be awarded but will not impact the student's GPA nor count as an attempt toward Full Cost of Instruction and Repeat rules.
After the close of the Schedule Adjustment (Drop/Add) Period, students may only change from credit status to audit status with the written approval from the instructor of the course. If the student receives approval to change from credit status to audit status after the Schedule Adjustment (Drop/Add) period, an "XC" grade will be awarded. A grade of "XC" does not impact the student's GPA but does count as an attempt toward Full Cost of Instruction and Repeat rules.
Some occupational courses may not be available on an audit basis. Students wishing to audit an occupational course must obtain permission in advance from the appropriate Department Chair/Division Director. Audit enrollment in studio art classes is permitted only if space is available. Students may audit a class no more than four (4) times.
In order to register for a course in audit status (or to switch from credit status to audit status), a student must submit the Audit Course Form.

Schedule Changes during the Schedule Adjustment Period

Changes in course registration may be made during the Schedule Adjustment (Drop/Add) Period specified in the online Academic Calendar. Students can make changes to his or her schedule during the Schedule Adjustment (Drop/Add) Period through the student portal - RaiderNet. However, depending on a student's status, their program of study, or the start date of the course, the system may prevent a student from dropping his or her last class online. If this occurs, a student should contact a Student Success Navigator at (850) 502-2895 or studentsuccess@nwfsc.edu to ensure the student is manually dropped from the course prior to the deadline. It is the student's responsibility to ensure that his or her schedule is correct prior to the Schedule Adjustment (Drop/Add) deadline. If a student drops any course during the Schedule Adjustment (Drop/Add) Period, no record of that course enrollment will appear on the student's transcript nor will the enrollment count as an attempt toward Full Cost of Instruction or Repeat rules.

Non-Attendance

Students are expected to attend class beginning on the first scheduled meeting date regardless of the delivery method of the course (on-campus, hybrid, online, etc.). After the Schedule Adjustment (Drop/Add) Period has passed for a course, the instructor will be required to confirm attendance for each student on the roster. Attendance is confirmed through a student's participation in an academic-related activity. The following academic-related activities constitute attendance:
Physically attend a class where there was an opportunity for direct interaction between the instructor and students
Submit an academic assignment
Take an exam, an interactive tutorial, or computer-assisted instruction
Attend a study group that was assigned by the faculty member
Participate in an online discussion about academic matters
Initiate contact with a faculty member to ask a question about the academic subject studied in the course
Please note that simply logging into BlackBoard does not constitute participation in an academic-related activity and this alone would not count towards the College's attendance policy.
If a student's attendance is not confirmed by the deadline, that student will be dropped from the course and no record of that course enrollment will appear on the student's transcript nor will the enrollment count as an attempt toward Full Cost of Instruction or Repeat rules. Students are encouraged to reach out to his or her instructor(s) if clarification is needed on what constitutes attendance for a given course and corresponding deadlines.

Withdrawing From Courses

Students are expected to complete all courses for which they are enrolled at the end of the Schedule Adjustment (Drop/Add) Period. Course withdrawal may negatively impact a student both academically and financially. Prior to withdrawing, a student should speak with his or her instructor and a Student Success Navigator to determine if a course withdrawal is in the best interest of the student. Students are permitted a maximum of two withdrawals per course in college credit, career, or developmental courses. Pursuant to Rule 6A-14.0301 of Florida Administrative Code, upon the third (and any approved subsequent attempt), the student is not permitted to withdraw from that course. If the student does withdraw from a third (and any approved subsequent attempt), the "W" grade received in that course, will convert to a final grade of "F" at the end of the semester.
A student-initiated withdrawal may be processed at any point after the Schedule Adjustment Period up until the Withdraw Deadline published in the online Academic Calendar. Prior to the deadline, withdrawals can be completed by the student in RaiderNet. However, depending on a student's status, their program of study, or the start date of the course, the system may prevent a student from withdrawing from his or her last class online. If this occurs, a student should complete the Course Withdrawal Form. If the student has not exceeded the approved number of withdrawals, the student will receive a grade of "W" on his or her official College transcript for each course that the student withdraws.
To request to be withdrawn from a course after the published deadline (a.k.a. a late withdrawal), a student must submit the Request for Exception: Records. Approval will only be granted for documented extenuating circumstances. The deadline to submit a late withdrawal request is within thirty (30) days of the end of the term in which the student was enrolled in the course. For students making the request within the same semester as they are enrolled in the course, please note that he or she is responsible for all course requirements, including grades earned, during the time the late withdrawal request is being reviewed. If an adjustment is warranted, the change will be made within approximately ten (10) College business days of receiving all supporting documentation related to the request and the course will receive a grade of "W" on the official Northwest Florida State College Transcript.
Students are still financially responsible for all tuition, fees, and other associated costs related to the course(s) from which they withdraw.

Complete Withdrawal from the Semester

Students who wish to withdraw from all courses for a given semester should first consult with a Student Success Navigator before initiating this process. Financial Aid recipients, students receiving Veteran's Benefits, and student-athletes must check with their appropriate representative(s) to determine any financial or eligibility ramifications for withdrawing completely. If it is determined that a complete withdrawal from the semester is in the best interest of the student, the student may submit the Complete Withdrawal From Term form. If the request is made after the withdrawal deadline has passed, approval will only be granted for documented extenuating circumstances. The deadline to submit a late withdrawal request is within thirty (30) days of the end of the term in which the student was enrolled in the course. For students making the request within the same semester as they are enrolled in the

course(s), please note that he or she is responsible for all course requirements, including grades earned, during the time the late withdrawal request is being reviewed. If approved, and the student has not exceeded the approved number of withdrawals, the student will receive a grade of "W" on his or her official College transcript.

Administrative Withdrawal

Students may be administratively withdrawn from the College for reasons such as violation of college policies, procedures, student code of conduct, or other mitigating circumstances. The Vice-President of Academic Affairs or the Vice-President of Student Success can administratively withdraw a student at any time.

Enrollment	Action	Time Frame	Grade on Transcript	Refund
Schedule Adjustment (Drop/Add) Period	Add or Drop a Class	Schedule Adjustment (Drop/Add) Period as it is posted on the Academic Calendar	No Record Recorded	Full Refund
Withdrawal	Withdraw from one or more classes	After the Schedule Adjustment (Drop/Add) Period ends and prior to the Withdrawal Deadline posted on the Academic Calendar	W Grade	No Refund
Complete Withdrawal from the College	Withdraw from all classes	May be requested after the Schedule Adjustment (Drop/Add) Period ends and prior to the Withdrawal Deadline posted on the Academic Calendar using the Complete Withdrawal From Term form.	W Grade	No Refund

Late Withdrawal	Withdraw from one or more classes after the Withdrawal Deadline	May be requested after the Withdrawal deadline has passed using the Request for Exception: Records Appeal form but does require proof of mitigating circumstances and approval by the Executive Director of Academic Records & Enrollment; the deadline to submit a late withdrawal request is within thirty (30) days of the end of the term in which the student was enrolled in the course(s) in question.	W Grade	No Refund
Administrative Withdrawal	Withdraw from one or more classes by College Administration	May be approved by College Administration at any time for mitigating circumstances	W Grade	No Refund

Notice of Equal Access / Equal Opportunity and Nondiscrimination

Northwest Florida State College is dedicated to the concepts of equity and equal opportunity. It is the specific intention of the college not to discriminate on the basis of race, color, ethnicity, genetic information, national origin, religion, gender, gender identity, sexual orientation, marital status, disability, or age in programs or activities, in its employment practices or in the admission and treatment of students in its programs or activities.
If you have questions regarding compliance with the College's nondiscrimination policy or a complaint regarding harassment or discrimination, please contact the College's Equity Coordinator:
Roberta Mackey
Executive Director of Human Resources, Equity Coordinator
100 College Blvd. East, Niceville, FL 32578
Building: 310
Phone: (850) 729-5337
Email: mackeyr@nwfsc.edu
Title IX of the Education Amendments of 1972 (20 U.S.C. §§ 1681, et seq.) and its implementing regulations (34 C.F.R. part 106) prohibit and are designed to eliminate discrimination on the basis of sex in education programs or activities that receive federal financial assistance. The requirement not to discriminate in education programs or activities extends to admission and employment Discrimination on the basis of sex includes, but is not limited to, sex-based harassment that is sufficiently serious to deny or limit an individual's ability to participate in or benefit from the program at issue. Examples of sex-based harassment include sexual harassment, sexual violence, and gender-based harassment. Northwest Florida State College complies with all aspects of Title IX and other federal and state laws regarding non-discrimination.
If you have questions regarding compliance with Title IX or if you have a complaint regarding sexual harassment or sexual violence, please contact the College's Title IX Coordinator:
Jessica Holley-Guiles
HR Specialist, Title IX Coordinator
100 College Blvd. East, Niceville, FL 32578
Building 310
Phone: (850) 729-5365
Email: holleyj4@nwfsc.edu
The college environment is an open intellectual forum where varying opinions may be freely expressed and fairly debated. Each member of the college is expected to participate seriously and purposefully in college life. While the freedom to express ideas and beliefs will be respected, conduct and behavior that result in the defacement of property, intimidation of others, or the disruption of any college activity will not be tolerated or permitted and will be subject to disciplinary action. Instructors explain classroom requirements, and students are expected to assume full responsibility for their own actions.

College Accreditation

Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)

Northwest Florida State College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate and baccalaureate degrees. Contact the Southern Association of Colleges and Schools at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Northwest Florida State College.

NWF State College Website

The Northwest Florida State College website is located at www.nwfsc.edu. The website provides access to College information such as admissions, registration, financial aid, bookstore, Raider life, academic resources, academic calendars, instructor websites, and more.

Paying for College

Please refer to the Paying for College section of the College Catalog for information about cost, fees, cost of instruction for third attempts, and refunds.

Student Records

Please refer to the Student Records section of the College Catalog for information about grades, incomplete grades, repeating courses, grade changes/error, grade grievances, and the academic history grade relief option.

RaiderNet

RaiderNet is the student on-line information and registration system. RaiderNet provides access to update contact information, register for classes, view grades, and obtain unofficial transcripts, enrollment verification, degree audit, and financial aid status. To access RaiderNet from the college's homepage, click the quick link "RaiderNet" on www.nwfsc.edu. For questions concerning access to RaiderNet, call (850) 729-6922.

Student Email Accounts

Students are assigned an NWF State College student email account during the application for admission process. The student email address serves as the official method of communication to the student from the college. This email service is reserved for college business. For more information and to access student email, go to www.nwfsc.edu. Send questions concerning access to student email to helpdesk@nwfsc.edu or call (850) 729-5396.

Attendance

Regular and prompt attendance in all classes is expected. All instructors are free to establish attendance policies for their classes. It is the student's responsibility to notify the instructor and make arrangements to complete any missed work. (Make-up work is offered solely at the discretion of the instructor.) Excessive absences can affect the success of course completion and financial aid funding. This general policy applies to the student absent from class traveling as a member of a college group, or club or for personal reasons.

Religious Observance by Students

The College shall accommodate recognized religious observances of students under existing State directives. Provision shall be made for students to complete the following activities when their religious observances interfere with the following:
Admission and registration

Attendance in class, class activities, examinations, and official ceremonies
Class work assignments
Students wishing to participate in any recognized religious holiday observances are to let the instructor know, in advance, of their absence. Students will be excused for such absences without penalty. Students are responsible for any material covered during their excused absence. A reasonable amount of time will be allowed to complete make up assignments. Students who believe they have been denied an education benefit because of their religious belief or practice may seek redress as outlined in the Student Grievance Procedures.

Children on Campus

NWF State College values family life and has worked to develop policies that are supportive of families. However, it is the policy of NWF State College that students and visitors should not use the College in lieu of a childcare provider. Accordingly, minor children of employees, students, or visitors may be on campus only under the special circumstances outlined below. Contact the Vice President of Student Success for any questions or concerns.
Minor children are permitted on campus when the purpose of their visit is to participate in activities, classes, or events specifically scheduled for their benefit (e.g. Kids on Campus, Children's Fine Arts Series, Child Development and Education Center).
Minor children are permitted on campus when with a parent or responsible adult who is conducting routine business at the college.
Minor children are not permitted in labs, shops, construction/repair sites, classrooms, offices, or other areas where potential hazards exist, unless enrolled in classes or activities scheduled at the site.
In an emergency or other compelling situation, students or staff may bring children to class or the workplace on an incidental, individual basis, provided advance approval is obtained from the appropriate administrator. In such cases, the children must be directly supervised by the parent/adult and must not disrupt or distract the flow of college work, services or instruction.
Minor children on campus must be directly supervised at all times.

Service Animals

Service animals are permitted on NWF State College campuses. The American Disabilities Act (ADA) defines Service animals as "dogs that are individually trained to do work or perform tasks for people with disabilities." Please see the ADA Requirements and Florida Statute 413.08 regarding service animals.
At Northwest Florida State College you will see students and other individuals being assisted by service animals on campus. Service canines are trained to do a job for those with physical or mental impairments. They are not on campus for others to pet or interact with unless the owner says otherwise. Owners of service animals are responsible for keeping the animal under direct control, promptly cleaning up after the animal, and disposing of waste in an outdoor container. State, local government, and/or campus authorities, may request that the handler remove their service animal from college premises, if it is disruptive, aggressive, unhygienic, or behaving in ways outside the duties of a service animal (wandering, barking, etc.)
Emotional support animals (ESAs) are different than service animals because they do not have specialized training to perform specific duties. Due to their lack of training to assist with specific disabilities, Emotional Support Animals are not allowed access to campus and classrooms in the same way service animals are. If you have questions please contact the Accommodations Resource Center at arc@nwfsc.edu.

Accommodations

The Accommodation Resource Center at Northwest Florida State College is committed to providing equal access and opportunities for educational success to all students with disabilities as guided by the American Disabilities Act and other disability-related laws.

Mental Health Counseling Services

Northwest Florida State College has partnered with BayCare Health System to provide mental health counseling, life coaching, and a variety of other services to support and promote the wellbeing and success of students. All active, enrolled students are provided with three (3) therapy sessions at no cost to the student. Students may reach BayCare directly by calling their confidential helpline, open 24 hours a day, at 1-800-878-5470. A student dashboard with access to all services offered may be found by clicking here. No referral is required for this service.

AIDS and HIV

Northwest Florida State College Policy #GP12.00 and FS 1006.68 state that students with AIDS or who are HIV positive are not denied admission to the college. Students are encouraged to confidentially disclose to the Accommodation Resource Center if needed to obtain accommodations in classrooms such as lab classes. HIV/AIDS education information may be obtained from the Department of Health in Okaloosa or Walton County.

Substance Abuse

NWF State College Drug-Free Work Place policy #HR 4.00 states that Northwest Florida State College is alcohol and drug free in accordance with Public Law 100-690, The Anti-Drug Abuse Act of 1988. The unlawful manufacture, distribution, dispensation, possession, or use of alcohol or a controlled substance is prohibited in and on NWFSC owned and controlled property except for events specifically approved to include alcohol. Students in violation will be subject to disciplinary action as stated in the Student Code of Conduct published in the Student Handbook/College Catalog and may be subject to criminal prosecution.

Tobacco Use

Per NWF State College Smoking and Tobacco policy #HR 23.00 states:
Smoking and the use of all tobacco products (including E-cigarettes, vaping and smokeless tobacco) shall be prohibited from use at all Northwest Florida State College facilities, properties, and vehicles, owned or leased, regardless of location.
This policy shall apply to all students, faculty, staff and other persons on College property, regardless of the purpose for their visit. Further, no tobacco-related advertising or sponsorship shall be permitted on Northwest Florida State College property, at Northwest Florida State College-sponsored events, or in publications produced by Northwest Florida State, with the exception of advertising in a newspaper or magazine that is not produced by Northwest Florida State College and which is sold, brought, or distributed on Northwest Florida State College property.

Parking Regulations

Please visit the Parking Permits and Restrictions website for information about parking regulations and violations.

Posting, Circulating and Exhibiting Printed and Filmed Information

Students are expected to use mature judgment and a sense of discretion in their selection, publication, display, presentation, and circulation of any printed or filmed materials at any college location, and to realize that they must accept responsibility individually and collectively for the consequences of their choices on these matters. The appearance of the college name, seal or insignia on any material that is not published by the college is not authorized and does not imply college approval or endorsement of the contents.
Beginning July 1, 2021, under Florida Statutes section 1004.097 (2021), a student may, without prior notice, record video or audio of a class lecture for any of three specific purposes:
Their own personal educational use,
In connection with a complaint to Northwest Florida State College, or
As evidence in, or in preparation for, a criminal or civil proceeding.
Class Lecture Defined
A class lecture is a formal or methodical oral presentation as part of a College course intended to present information or teach about a particular subject. A class lecture will occur most often in a course identified by the College as a lecture type course, whether online or in-person, as opposed to a lab course or a course section identified as a discussion section. Class lecture does not include lab sessions or activities, student presentations (whether individually or as part of a group), class discussion (except when incidental to and incorporated within a class lecture), clinical presentations (including any material relating to autopsy, personal health information, or patient treatment or history), crime scene instruction, class exercises or activities involving student participation, test or examination administrations, field trips, private or other classroom conversations between students, or individual instruction, feedback, or conversation between a student and the faculty member.

Recording Guidelines
A recorded lecture may not be published without the consent of the lecturer. To publish to share, transmit, circulate, distribute, or otherwise provide access to the recording, regardless of format or medium, to another person, or persons, including but not limited to another student in the class.Additionally, a recording, or transcript of the recording, is published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited social media, book, magazine, newspaper, leaflet, picket signs, or any mode of print.
Recordings are subject to the protections provided in the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. § 1232g and Florida Statutes §§ 1002.22 and 1002.225.
Students must adhere to classroom behavioral standards while recording. Recording that disrupts the learning environment for other students may violate the Student Code of Conduct and result in disciplinary action.
Publication Notice
A person injured by a violation of Florida law regarding class lecture recording may sue a person who has published, in violation of section 1004.097, video or audio recorded in a classroom. The injured person may be entitled to damages plus court costs and reasonable attorney fees, with the total recovery not to exceed $200,000.

Notices

Notices may be posted by students and recognized student organizations on appropriate bulletin boards. Notices and posters should not to be taped, glued, or pasted on painted or finished surfaces. All such posting must be cleared in advance by the Director of Raider Life at the Niceville Campus. College Center Directors may approve notices at their respective locations. The general distribution of notices is prohibited by anyone other than instructional and staff personnel in the performance of their duties or by recognized student organizations to advertise an approved event.

Student Publications

Student publications (which may include video media newscasts) are intended to foster an atmosphere of free and responsible discussion and intellectual exploration. They are a means of bringing student concerns to the attention of faculty and staff members, and of formulating student opinion on various issues at the college and in the surrounding community.
The editorial freedom of student editors entails the corollary responsibility to be governed by the canons of responsible journalism, such as the avoidance of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.
Student publications shall contain a statement to the effect that the opinions expressed therein are not necessarily those of the faculty, staff or student body of the college.

Student Fundraising

Fundraising activities by students and/or student organizations are permissible when the specific purpose is to support institutional scholarships, humanitarian/charitable efforts, or a recognized student organization's mission and goals. Students/Student Organizations must receive approval by completing the Activity Request Form located on the Raider Life website at least one month prior to the activity's scheduled date.

Policy Formulation

A student who wishes to suggest a change in any policy of the college should submit a written recommendation to the Student Senate for evaluation. If favorably received by the Senate, the proposal shall be submitted by the Student Senate to the appropriate standing committee/subcommittee of the college for consideration. Students serve on various college committees such as the Budget committee.

Student Rights and Responsibilities

The following rights and responsibilities are afforded and ascribed to all students, regardless of location or mode of delivery.
The right to be protected from discrimination and harassment

The right to the safety and security of one's own academic records
The right to be informed about completion, graduation, and transfer-out rates for all students, safety, policies and crime statistics.
The right to due process if found in violation of a college policy or procedure.
The responsibility to abide by the Student Code of Conduct
The right to be protected from discrimination and harassment
The right to be protected against discrimination is covered in Board of Trustee Policy GP 6.00 and is considered "Prohibited Disruption of College Operations". The right to be protected from harassment is covered by Board of Trustee Policy HR 20.00. Violations of this right should be reported here: https://www.nwfsc.edu/disputes.
The Right to be Informed about Safety Procedures and Crime Statistics
Crime statistics are published annually in the Student Handbook (see below).
The Right to the Safety and Security of One's Own Academic Record
Information about the safety and security of one's own academic records, as well as complaint procedures, are published annually in the College Catalog and may be found here: https://catalog.nwfsc.edu/content.php?catoid=21&navoid=5828.
The Right to Due Process if Found in Violation of a College Policy or Procedure
Due process procedures are published annually in the Student Handbook (see below).
The responsibility to abide by the Student Code of Conduct
The Student Code of Conduct is published annually in the Student Handbook (see below).

Campus Security Policy

All criminal incidents should be reported to Campus Safety, the NWF State College administrator in charge of a function, or an attending faculty or staff member. NWF State College will implement appropriate actions including, but not limited to, contacting the presiding law enforcement agency, any medical services needed or others as appropriate. Reports can be made by phone 729-6888/598-6602 or Incident Forms online.

Summary of Reported Crimes on Campus

Students may review the annual Safety and Fire Report here.

A Student's Guide to Reporting Harassment

The purpose of this guide is to ensure an orderly resolution of charges of sexual, racial, or other forms of harassment brought by students at NWF State College. Sexual harassment and racial harassment have been held to constitute a form of discrimination prohibited by the Title VII of the Civil Rights Act of 1964, as amended and Title IX of the Education Amendments of 1972. Applicable law prohibits other types of harassment.
NWF State College upholds the Clery Act and Violence Against Women Reauthorization Act of 2013.
NWF State College prohibits all acts of harassment and will properly investigate any claims of harassment.

Sexual and Other Unlawful Harassment

NWF State College is committed to providing an educational and work environment that is free from all forms of discrimination and harassment. NWF State College expressly prohibits any form of unlawful discrimination or harassment based on race, color, gender, religion, national origin, age, ethnicity, marital status, or disability or genetic information. NWF State College provides ongoing harassment training to ensure everyone the opportunity to work and/or learn in an environment free of sexual and other unlawful harassment.

Definitions of Harassment

Sexual harassment is defined as unwanted sexual advances, including visual, verbal, or physical conduct of a sexual nature. This definition includes gender-based harassment of a person of the same sex as the harasser. Examples of conduct expressly prohibited by the policy include, but are not limited to, the following:
Making unwanted sexual advances.

Offering employment benefits in exchange for sexual favors.
Making or threatening reprisals after a negative response to sexual advances.
Leering, making sexual gestures, or displaying of sexually suggestive objects, pictures, cartoons, or posters.
Making or using derogatory comments, epithets, slurs, or jokes.
Making verbal commentaries about an individual's body.
Using sexually degrading words used to describe an individual.
Sending suggestive or obscene letters, notes, communications or invitations.
Touching, assaulting, impeding or blocking movements or violating someone's "personal space."
Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute harassment when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of employment or reward; (2) submission to or rejection of the conduct is used as a basis for making educational, academic, or employment decisions; or, (3) the conduct has the purpose or effect of interfering with educational, academic, or employment performance or creating an intimidating, hostile, or offensive educational, academic, or employment environment.

Responsibilities

All College employees and students are responsible for creating an atmosphere free of discrimination or harassment, sexual or otherwise. Further, all College employees and students are responsible for respecting the rights of all members of the College community. Any student who experiences or witnesses any sexual or other unlawful harassment or discrimination in the College environment should promptly report the behavior to the Executive Director of Human Resources or the Vice President of Student Success. Reports should be made, in writing, within sixty working days of the incident. This policy applies to all incidents of alleged discrimination or harassment, including those occurring off-campus or during off-hours, when the alleged offender has a relationship with the College.

Investigation

All allegations of sexual or other harassment will be quickly and discreetly investigated and kept confidential to the maximum extent possible. All students have a duty to cooperate fully with the College in connection with any such investigation. If NWF State College determines that an employee or student is guilty of discriminating against or harassing another individual, appropriate disciplinary action will be taken against the offending employee or student, up to and including termination of employment, suspension, or expulsion.

Retaliation

NWF State College prohibits any form of retaliation against any student or employee for filing a bona fide complaint under this policy or for assisting in a complaint investigation. However, if after investigating any complaint of harassment or unlawful discrimination, the College determines that the complaint is not bona fide and was not made in good faith or that a student has provided false information regarding the complaint, disciplinary action may be taken against the individual who filed the complaint or gave false information.

Student Complaint, Grievance & Due Process

Office of the Student Ombudsman

Per Florida Statute 1006.51, Northwest Florida State College provides a Student Ombudsman with whom students may confidentially discuss complaints, concerns, or problems to reach an informal consensus before proceeding with official college processes. The Director of Raider Life on the Niceville Campus will serve as the Student Ombudsman and may be contacted at 850-729-5277 or ombudsman@nwfsc.edu.
Notwithstanding the confidentiality for many complaints, concerns, or problems, under the Title IX regulations (34 C.F.R. part 106), the Student Ombudsman is a responsible employee. As such, the Student Ombudsman must report potential Title IX allegations to the Title IX Coordinator.

Student Complaint and Grievance Procedures

These procedures are designed to encourage a prompt and equitable resolution of complaints however it does not prohibit individuals from seeking assistance from other sources. The College prohibits retaliation against any person who files a complaint alleging discrimination or any person alleged to have committed discrimination.
Please refer to the Complaints and Grievances Section in the College Catalog for information regarding the steps to file a complaint or grievance.

Title IX Grievance Procedures

The Title IX Grievance Process differs from the Student Complaint and Grievance Procedures. The procedure under the Title IX regulations (34 C.F.R. part 106) implements Northwest Florida State College policy and state and federal law that prohibit discrimination and harassment based on sex and gender in employment and educational programs or activities.
Any person may make a report of sexual harassment (whether or not that person is the Complainant or alleged victim of the conduct that could constitute sexual harassment). Reports may be made in person or via mail, phone call, or email by contacting the Title IX Coordinator:
Jessica Holley-Guiles
HR Specialist, Title IX Coordinator
100 College Blvd. East, Niceville, FL 32578
Building 310
Phone: (850) 729-5365
Email: holleyj4@nwfsc.edu
If an individual discloses sexual harassment or discrimination to a Responsible Employee of the College, that employee is obligated to report the alleged harassment to the Title IX Coordinator.
The Title IX Coordinator will contact each Complainant to discuss the availability of supportive measures and the Complainant's wishes regarding the supportive measures. The Title IX Coordinator will also discuss with the Complainant the process of filing a formal complaint and whether the Complainant will file a formal complaint.
If a formal complaint is filed either by the Complainant or the Title IX Coordinator, the College will treat Complainants and Respondents equitably and will include an objective evaluation of all relevant evidence. Each party may have an advisor. An investigation will be conducted by a trained investigator who will collect relevant evidence and interview both parties and witnesses. The investigator will provide the evidence to both parties for review, allowing at least ten (10) days for the parties to review and provide a written response. The investigator will consider these written responses before submitting the investigative report.
The decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, must allow each party's advisor to cross examine the other party and all witnesses at a live hearing. Both parties will be given at least ten (10) days between receiving the investigative report and the live hearing. Either party may request that the hearing take place with the parties in separate rooms and technology enabling the parties and decision-maker to see and hear the proceedings. The decision-maker will issue a written determination, which either party may appeal in writing within seven (7) days of the written determination.
During the formal complaint procedure, the parties may agree to an informal resolution, which is a remedies-based, non-judicial approach designed to eliminate a hostile environment without taking disciplinary action against a Respondent. Both parties must voluntarily consent to the informal resolution process in writing. The College cannot offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.
To read the College's full Title IX procedure, click here.

Student Code of Conduct

College students are citizens of the local, state, and national governments and of the academic community and are therefore expected to conduct themselves as law-abiding members of each community at all times. Admission to the College carries with it special privileges and imparts special responsibilities apart from those rights and duties enjoyed by non-students. In recognition of the special relationship that exists between the College and the community it seeks to serve; the District Board of Trustees of Northwest Florida State College has authorized the President of the College to take such action that may be necessary to maintain campus safety and preserve the integrity of the College and its educational environment.
Pursuant to this authorization, the College has developed the following Student Code of Conduct, which is intended to govern student conduct on the campus. The College may enforce regulations the Student Code of Conduct regardless of any proceedings

instituted by other authorities. Conversely, violation of any section of the Student Code of Conduct may subject a student to disciplinary measures by the College whether or not such conduct is simultaneously in violation of local, state, or national laws. When a student fails to abide by the Student Code of Conduct or fails to obey the ordinance of local, state, and national governments, disciplinary action may be taken.

Student Disciplinary Offenses

For the purpose of the Student Code of Conduct, a "student" is any person who is registered for study at the College for any academic period. Generally, through appropriate due process procedures, College disciplinary measures shall be imposed for conduct that adversely affects the College's pursuit of its educational objectives, which violates or shows a disregard for the rights of other members of the academic community, or which endangers property or person at the College or on any College controlled property.
All Northwest Florida State College-employed police officers have the authority to control access and to patrol facilities. Failure to leave after instruction to do so can result in trespassing charges. Individual, group, or organizational misconduct, which is subject to disciplinary sanctions, shall include but not be limited to the following offenses:

Academic Offenses

Academic dishonesty: Students are expected to conduct themselves as responsible members of the academic community and to be honest and forthright in their academic endeavors. Academic dishonesty may include but is not limited to:
Cheating: During any academic evaluation activity, the use or attempted use of unauthorized materials, information, notes, study aids or other devices, information from another student or student's paper. During any academic evaluation activity, engaging in unauthorized communication of information, including collaborating, contrary to the requirements of a course.
Plagiarism: Presenting work in part or whole of another as one's own without proper acknowledgment of the source or sources. The sole exception to the requirement of acknowledging sources occurs when ideas or information are common knowledge.

Non-Academic Offenses

Aiding and abetting the commission of offenses: Any attempt to commit any of the foregoing offenses or the aiding and abetting of the commission of any of the foregoing offenses (an "attempt" to commit an offense is defined as the intention to commit an offense coupled with the taking of some action toward its commission).
Alcoholic beverages: The unauthorized use and or possession of alcoholic beverages on the College campus, or at any College sponsored event, except College events where the College provides alcoholic beverages.
Bullying: Systematically and chronically inflicting physical hurt or psychological distress on one or more students. Bullying is further defined as unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting or dehumanizing gesture by a student that is severe or pervasive enough to create an intimidating, hostile, or offensive educational environment, cause discomfort or humiliation, or unreasonably interfere with an individual's educational experience.
Bullying includes: Teasing; social exclusion; threat; intimidation; stalking; physical violence; theft; sexual, religious or racial harassment; public or private humiliation; and/or destruction of property.
Cyberbullying: Bullying, through the use of technology or any electronic communication, includes, but is not limited to, transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in photo-optical systems, email, internet, webpages, instant messages, facsimile, social networking and/or phone. Bullying is created by the transmission of electronic content, which is communicated and posted to more than one person that interferes with the orderly operation of the educational environment.
Classroom misconduct: Classroom misconduct includes direct or indirect disruptive, threatening, or otherwise unacceptable social behavior in the classroom. Engaging in or assisting with such activity is prohibited. The instructor has the primary responsibility for control over classroom behavior and maintenance of academic integrity and can order any student engaged in disruptive conduct or conduct that violates the general rules and regulations of the College to be temporarily removed or expelled from the classroom.
Dangerous conduct: Any conduct that constitutes a serious danger to any person's health, safety, or personal well-being, including any physical or immediate threat to others.
Dating violence, domestic violence, sexual assault, or stalking: A type of abuse or violence where there is a pattern of controlling behaviors that is used to establish power over an intimate partner in order to control actions and activities. One can experience trauma where abusive relationships can increase in danger, or dangerous situations where students would not feel safe or secure. Actions include disrespectful and hurtful behaviors that one intimate partner may use against another partner, causing a partner

physically harm, stalking, threating, isolating, gesturing and/or demanding unwanted sex practices.
Disorderly conduct or language: Any individual or group behavior or language which is abusive, obscene, lewd, indecent, violent, excessively noisy, disorderly, or which unreasonably disturbs other groups or individuals.
Drugs: The unlawful possession or use of any drug or controlled substance, including any stimulant, depressant, narcotic, hallucinogenic drug or substance, marijuana, or sale or distribution of any such drug or controlled substance on college owned or controlled property or at any college sponsored activity.
Explosives, fireworks, and flammable materials: The unauthorized possession, ignition, or detonation of any object or article, that would cause damage by fire or other means to persons or property.
Failure to cooperate with College officials: Failure to comply with directions of College officials acting in the performance of their duties.
Financial misconduct: Conduct, including but not limited to, knowingly passing forms of payment such as a worthless check, debit, credit card, or money order in payment to the College community.
Firearms/Weapons: Possession, other than legally and securely stored in your vehicle, or use of firearms or other dangerous weapons at any college location or activity except by authorized law enforcement officers in the performance of their duties is prohibited behavior and will subject the offender to disciplinary procedures as well as appropriate action by civil authorities.
Gambling: Gambling in any form.
Harassment: Any act of harassment by an individual or group against a student, college employee, campus group, visitor, or guest. Harassment shall include, but not be limited to, insults, heckling, verbal abuse, threats of physical abuse, unwanted suggestions of a sexual nature, repeated teasing or annoyance of another, or other actions intended to disturb others.
Hazing: Hazing is any intentional or reckless act, on or off the property of the College, by students acting alone, or with others, involving any action which is directed against any other students that endangers the mental or physical health or safety of that student, or which induces or coerces a student to endanger such student's mental or physical health or safety. For the purpose of this statement, hazing is defined as those actions taken and situations created in connection with initiation into or affiliation with any organization.
Inappropriate dress: College students are mature enough to make wise and appropriate decisions on the type of apparel suitable for a college campus. Attire that disrupts the learning process is not allowed. Dress that includes any words or images that are obscene, offensive, or tend to promote violence, drugs or disrespect is prohibited.
Misuse of documents or identification cards: Any forgery, alteration of, or unauthorized use of College documents, forms, records, or identification cards including information collected in connection with a student's admission, enrollment, financial transactions, or status in the College.
Obstruction of or interference with College activities or facilities: Any intentional interference with or obstruction of any College activity, program, event, or facilities including the following:
Unauthorized occupancy of the College, College controlled facilities, or blockage of access to or from such facilities.
Interference with the right of way of any college member or other authorized person to gain access to the College or College controlled activity, program, event, or facilities.
Obstruction or delay of a campus security officer, fire/rescue service, or any College official in the performance of his/her duty.
Acts of misuse, vandalism, malicious or unwarranted damage or destruction, defacing, disfiguring, or unauthorized use of property belonging to the College including but not limited to fire alarms, fire equipment, elevators, telephones, College keys, library materials, and/or safety devices; and any such act against a member of the College community or a guest of the College.
Theft: Unauthorized possession or sale of College property
Unacceptable conduct at a College hearing: Any conduct at any College hearing involving contemptuous, disrespectful, or disorderly behavior or false testimony or other evidence at any hearing.
Violations of general rules and regulations: Any violation of the general rules and regulations of the College as published in an official College publication, including the intentional failure to perform any required action or the intentional performance of any prohibited action.
Violations of state or federal laws: Any violation of state or federal laws or regulations proscribing conduct or establishing offenses.

Due Process Procedures

Due process procedures are outlined for both disciplinary offenses and student-initiated grievances. Procedures for both disciplinary violations and grievances include the informal resolution procedure and the formal resolution procedure. See Title IX Grievance Procedures for information regarding the Title IX complaint procedure and due process procedure.

Due Process for Disciplinary Offenses

At all times during a Student Code of Conduct disciplinary procedure, all involved individuals will comport themselves with professionalism and courtesy. This section is inapplicable to acts or omissions that do not rise to the level of or do not implicate a Student Code of Conduct violation, such as day-to-day classroom management matters handled by informal instructor intervention, student failure to meet substantive course requirements, management of relationships and participation of students in clinical or other offsite placements, or a student grievance against a College employee or department. When a student or student organization has allegedly violated the Student Code of Conduct, the College will:

Time Limits for Addressing Violation of Code of Conduct: Any procedure to redress an alleged violation of the Student Code of Conduct will be initiated within 60 days after a College employee with authority to initiate such disciplinary procedure has notice of such alleged violation. Notice may arise through written or verbal report, including a Maxient report. That time limit may be extended or waived when required by federal or state law or other written College policy or procedure or when the health, safety, or wellbeing of the student, student organization, or other College student, personnel, or operations necessitates addressing the alleged violation after 60 days has elapsed.

The Administrator: The Administrator processing the student disciplinary procedure must be an impartial party to the alleged violation and generally within either the Student Success or Academic Affairs departments; such Administrator will generally be a Program Chair or Program Director for academic offenses and a Director or Executive Director for non-academic offenses. When necessary to provide an impartial Administrator, the Vice President of Academic Affairs or the Chief Student Success Officer will appoint an impartial employee with the authority to resolve the disciplinary matter regardless of department.

Provide Notice of Alleged Violation: The Administrator will provide the student or student organization with timely written notice of the alleged violation of the Student Code of Conduct. The written notice will include the allegations to be investigated, a citation to the specific provision to the Student Code of Conduct at issue, the process used in determined whether a violation has occurred and associated rights, and the date, time, and location of the disciplinary proceeding. The written notice will be delivered to the student at least 7 business days prior to the first meeting of the disciplinary proceeding. If the student is 18 years of age or older, notice will be delivered to the student's institutional e-mail address. If the student is under 18 years of age, notice will be delivered to the student's institutional e-mail address and to the student's parent. If a student organization is at issue, notice will be delivered to the student organization's e-mail address.

Provide Known Witnesses and Additional Information: At least 5 business days before the first meeting of the disciplinary proceedings, the appropriate Administrator must provide the student or student organization with a listing of all known witnesses that have provided, or will provide, information against the student or student organization and all known information relating to the allegation, including inculpatory and exculpatory information. Such information will be delivered in writing to the addresses stated in the Provide Notice of Alleged Violation section.

Conference: The Administrator shall request a meeting with the student for a preliminary conference where the student shall be apprised of their rights and made aware of the student due process procedures; such Conference will follow the notices set out in the preceding two paragraphs.

The student will be offered the opportunity to explain the conduct in question and provide the Administrator with a detailed written explanation if the student chooses to do so. Failure of the student to meet with the Administrator within 10 days of the request for a meeting will not prevent the process of collecting information or the decision to move forward.

Investigation: The Administrator shall consider all evidence, determine the facts, render a decision, and impose disciplinary sanction(s) as necessary.

Sanctions: The Administrator will submit in writing the claimed misconduct, infraction, or offense and present a statement of the full penalty or sanction, in addition to a statement of the student's right to due process. The student shall be provided this information either in person or by college email and registered mail. If the student is 18 years of age or older, notice will be delivered to the student's institutional e-mail address and registered mailing address. If the student is under 18 years of age, notice will be delivered to the student's institutional e-mail address and registered address and the student's parent. If a student organization is at issue, notice will be delivered to the student organization's e-mail address and mail inbox on campus, if any assigned.

Appeal: The student or student organization has the right to appeal the final decision of the Administrator (or other hearing officer or any committee or panel) directly to the Chief Student Success Officer (for non-academic offenses) or Vice President of Academic Affairs (for academic offenses), who must hear the appeal and render a final decision. The Chief Student Success Officer or the Vice President of Academic Affairs, or other person designated to hear the appeal, may not have directly participated in any other proceeding related to the charged violation.

Record of Proceeding: The College shall make, preserve, and have available for copying upon request of the student or student organization an accurate and complete record of every disciplinary proceeding relating to a charged violation of the Student Code of Conduct.

Additional Due Process Protections of Students and Student Organizations: In addition to the protections set out elsewhere in this

section, the student and student organization are provided the following protections in the Disciplinary Process for alleged violations of the Student Code of Conduct:
The right to a presumption that no violation occurred. The College has the burden to prove, by a preponderance of the evidence, that a violation has taken place. Preponderance of the evidence means that the information presented supports the finding that it is more likely than not that the student or student organization violated of the Student Code of Conduct.
The right to an impartial hearing officer, which, in most cases, is an impartial Administrator who is designated to address the alleged violation of the Student Code of Conduct.
The right against self-incrimination and the right to remain silent. Such silence may not be used against the student or student organization.
The right to present relevant information and question witnesses.
The right to have an advisor, advocate, or legal representative, at the student's or student organization's own expense, present at any proceeding, whether formal or informal. Such person may directly participate in all aspects of the proceeding, including the presentation of relevant information and questioning of witnesses.
The advisor, advocate, or legal representative may not serve in any other role, including as an Administrator overseeing the disciplinary process (or investigator, decider of fact, hearing officer, member of a committee or panel convened to hear or decide the charge), or any appeal.

Disciplinary Sanctions

Upon determination by a preponderance of the evidence that a student or student organization has violated any part of the Student Code of Conduct, the Administrator may impose the following disciplinary sanctions either singly or in combination.
Warning: The appropriate College officials may notify the student that continuation or repetition of specified conduct may be cause for other disciplinary action.
Reprimand: A written reprimand or censure may be given any student or organization whose conduct violates any part of these regulations. Such a reprimand does not restrict the student in any way but does have important consequences. It signifies that they are in effect being given another chance to conduct themselves as a proper member of the College community and that any further violation may result in penalties that are more serious.
Restitution: A student who has committed an offense against property may be required to reimburse the College or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to cost of repair or placement.
Restrictions: Restrictions upon a student or organization's privileges may be imposed for a period. These restrictions may include, for example, denial of the right to represent the College in any way, denial of use of facilities, parking privileges, participation in extracurricular activities, or restriction of organizational privileges.
Disciplinary Probation: Continued enrollment of a student on probation may be conditioned upon or adherence to these regulations. Any student placed on probation will be notified of the terms and length in writing. Probation may include restrictions upon the extracurricular activities of a student. Any conduct in violation of these regulations while on probationary status may result in the imposition of a more serious disciplinary action.
Suspension: If a student is suspended, he or she will be separated from the College for a stated period and provided with the conditions of readmission to the College. Student must appeal for reinstatement.
Expulsion: Permanent removal and exclusion from the College, College controlled facilities, programs, events, and activities.
Dismissal: The dismissal of a student whose character and behavior prove unsatisfactory for a period up to two years.
Some disciplinary actions must adhere to additional state, federal, or organizational and accrediting agency guidelines and regulations. Immediate sanctions, up to and including expulsion, or dismissal may be necessary in some cases to guarantee the safety and harmony of the college environment. To provide and protect a safe learning environment, the College reserves the right to invoke immediate sanctions based upon the nature and seriousness of the offense. At this point, the student can request a final appeal to the President.

Student Records

The Office of Academic Records and Enrollment serves as the custodian of education records for students who have attended Northwest Florida State College (NWFSC) or under any of its previous names. Personally identifiable information (PII) is released only upon the written and signed approval of the student in accordance with the Family Educational Rights and Privacy Act (FERPA). Please see the College's section regarding FERPA for additional information regarding federal law pertaining to student education records.

Student Transcripts

A transcript is a student's official academic record. Students requesting an official transcript may do so online via the Transcripts website. Students have two options for requesting a transcript, depending on whether the receiving institution or entity participates in F.A.S.T.E.R. - the Florida Automated System for Transferring Educational Records. F.A.S.T.E.R. participants include the Florida public schools (67 districts), Florida College System institutions (28 colleges), State University System institutions (12), and the Florida Department of Education. If a student is unsure whether the receiving institution and/or entity participates in F.A.S.T.E.R., please contact Student Success at 850-502-2895 or studentsuccess@nwfsc.edu prior to making the official transcript request.
F.A.S.T.E.R Participants - There is no fee for sending official transcripts to an institution and/or entity participating in the F.A.S.T.E.R. system. Students MUST request that their transcript be sent via the F.A.S.T.E.R. TRANSCRIPT REQUEST to have the transcript fee waived. Transcripts will be sent within five (5) to ten (10) College business days of the request. Once the request is processed by NWFSC, it may take up to five (5) College business days for the receiving institution to receive the official transcript via F.A.S.T.E.R. (it may take longer depending on whether errors occur during sending/receiving of the electronic data exchange). It is highly recommended that the student follow-up with the receiving institution and/or entity to confirm that the data exchange was successful. Students who mistakenly submit a request via TranscriptsPlus(R) on the Transcripts website will be charged the non-refundable transcript fee.
Non-Florida public school, state college, state university, or other entity - There is a fee for sending official transcripts to an institution and/or entity that does not participate in F.A.S.T.E.R. Students needing an official transcript sent to a non-participant MUST request their transcript via TranscriptsPlus(R) on the Transcripts website. Transcripts will be sent within five (5) to ten (10) College business days of the request.
A separate transcript is created for each level of coursework (ex. one for Undergraduate and one for Vocational) and will display the course(s), grade(s), and cumulative GPA associated with that level. If a student has taken courses at more than one level, the student will need to order all transcripts by choosing the "Select All" option within the TranscriptsPlus(R) request portal.
Students have access to an unofficial copy of their transcript via RaiderNet.
NOTE: NWFSC is not the entity of record for GED transcripts earned by NWFSC students. Each state's Department of Education maintains its own GED transcripts. Students that received their GED in the state of Florida can obtain their GED transcript by contacting the Florida Department of Education via the FDOE website or by calling (888) 906-4031.
Transcripts will not be released if the student has an outstanding financial obligation to the College, an incomplete admissions file, or a Records hold on his or her account.

Student Contact Information

A students' permanent record is maintained under the student's legal name. Students do have the option to provide a "Preferred Name" via the online College Application or within RaiderNet for enrolled students. The "Preferred Name" will be stored within the

permanent record so that faculty and staff can communicate with the student by his or her "Preferred Name". It is the student's responsibility to notify NWFSC of any change of name, address, phone number, or email. Students can update personal information through RaiderNet or by submitting the Update My Personal Information Form.

Family Educational Rights and Privacy Act of 1974, as Amended (FERPA), The Buckley Amendment

NWFSC upholds the Family Educational Rights and Privacy Act (FERPA), a federal law that grants students the right to inspect, review, and amend their educational records. The College will not release or disclose information, nor allow inspection of records, without prior written permission from the student except under certain circumstances where, by law, prior consent is not required. Students have the right to file a complaint with the U.S. Department of Education if they feel their records have been inappropriately released. A student's FERPA rights begin when the student is "enrolled" as defined by NWFSC as the point of registration.

Eligible Parent:

At a post-secondary institution, FERPA rights belong to the student, regardless of age. A parent or guardian providing documentation that supports the student is a current legal dependent for tax purposes may only review a student's records if approval is granted by the Executive Director of Academic Records and Enrollment.

Details:

NWFSC will provide students in attendance with annual notification of their rights available under FERPA.

Right to Review and Inspect:

Students have the right to review and inspect their permanent student records. A student desiring to review records may do so by submitting a request in writing to the Executive Director of Academic Records and Enrollment who will schedule such inspections within 45 College business days of the request. While FERPA provides a student with the right to review and inspect their education records, it does not mandate that the student be given a copy of such record(s). Approval for a student to receive a copy of his or her educational records is up to the discretion of the Executive Director of Academic Records and Enrollment. If approved, the College would charge a $1.00 fee per sheet. This is exclusive of the normal transcript service.

Waiver of Right to Inspect:

The Office of Academic Records and Enrollment does not provide confidential letters or statements of recommendation concerning admission to another educational institution or to accompany applications for employment. College staff and/or faculty who know the student personally may provide confidential letters or statements of recommendation only if the student has waived the right to inspect such letters or statements.

Right to Amend Educational Records:

The student, or eligible parents of the student, may direct challenges related to the accuracy of the student's educational record to the Executive Director of Academic Records and Enrollment. The Executive Director of Academic Records and Enrollment will schedule a hearing within 10 College business days of initial notification of the challenge to allow the student to present evidence relevant to the matter at the hearing. The student, or eligible parents of the student, will be notified in writing of the results. A student can insert a statement in his or her record after a hearing regardless of the hearing outcome (whether the College maintains, upholds, or rules against the challenge).

Disclosure Policy:

There are two types of information distinguished under FERPA: personally identifiable information and directory information.

Certain conditions exist with regard to the disclosure of each kind of information. NWFSC complies as follows:
Personally Identifiable Information (PII): Personally Identifiable Information (PII) is information that includes identifying data such as social security number, academic work completed, grades, achievement test scores, aptitude test scores, health data, or other personal characteristics or information which would make the student's identity easily traceable. Prior consent, in the form of a signed and dated document, must be provided by the student to authorize the College to disclose personally identifiable information. The consent must specify the educational records that may be disclosed, should state the purpose of the disclosure, and must identify the party or class of parties to whom the disclosure may be made. For convenience, a student may submit a FERPA Release to provide his or her written consent to release approved personally identifiable information to a designated party permanently or until the time the student provides a written request to revoke this access to the Office of Academic Records and Enrollment.
Directory Information: NWFSC has designated the following information as directory information and may be disclosed under FERPA without the student's prior consent:
NAME
LOCAL AND PERMANENT ADDRESS
NWFSC STUDENT EMAIL ADDRESS
MAJOR
DATES OF ATTENDANCE
CURRENT ENROLLMENT STATUS (FT/PT)
DEGREE(S) EARNED AND DATE(S) AWARDED
HONORS AND AWARDS
PRIOR POST-SECONDARY INSTITUTION(S) ATTENDED
PARTICIPATION IN OFFICIALLY RECOGNIZED ACTIVITIES AND SPORTS
HEIGHT AND WEIGHT OF STUDENT-ATHLETES
STUDENT'S PHOTOGRAPHIC IMAGE INDEPENDENT OF ANY ADDITIONAL PERSONAL IDENTIFIERS
A student has the right to prevent the release of his or her directory information by submitting the Directory Hold Request at least 10 College business days prior to enrolling in the term that the directory information block should begin. Submitting this form will place a confidentiality indicator on the student's record that will signify that no directory information is to be released. Once a student obtains a confidential classification, it will not be removed until a signed authorization requesting it be removed is received by the Office of Academic Records and Enrollment. Please note that a student's request to prevent the release of directory information will prevent a student's name from being included in College publications including the Commencement program and any honors or award announcements. NWFSC assumes that a student's failure to request a directory information block constitutes the student's approval for disclosure.

Exceptions to the Disclosure Policy:

FERPA allows for the release of student records without the written consent of the student under the following conditions:
To school officials with a legitimate educational interest. The College has designated school officials as faculty, administration, professional employees, support staff, work-study students, or persons employed by or under contract to the College (example: an attorney or auditor) acting as an official agent of the College to perform a business function or service on behalf of the institution. Disclosure to a school official having a legitimate educational interest does not constitute institutional authorization to transmit, share, or disclose any or all information received to a third party. Unauthorized disclosure of personally identifiable information from the education record of the students is prohibited. A school official is determined to have a legitimate educational interest if the information requested is necessary for that official to:
perform appropriate tasks that are specified in his or her position description or by a contract agreement
institution research and studies
perform a task related to a student's education
perform a task related to the discipline of a student
provide a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid.
In compliance with a court order or subpoena.
To parents of a dependent student or such parents as defined in Section 152 of the Internal Revenue Code of 1954 (at the discretion of the Executive Director of Academic Records and Enrollment).
To schools in which a student seeks or intends to enroll.
To the Comptroller General of the United States, Attorney General of the United States, The Secretary of the Department of Education, and federal, state and local educational authorities involving an audit or evaluation of compliance with education

programs.
In connection with the financial aid process.
In the event of a health or safety emergency where the information is required to resolve the emergency.
In the event that a student under the age of 21 has committed a drug or alcohol-related offense.
As a result of a disciplinary hearing where the student is the perpetrator of a crime of violence or a non-forcible sex offense. Under this exception, information may be released to anyone, including the media. No information on the victim or witnesses may be released.

Students' Rights

A student has a right to file a complaint to The Family Policy Compliance Office, U. S. Department of Education, 400 Maryland Ave., SW, Washington, D.C. 20202-8520, the office responsible for enforcing and administering the Family Educational Rights and Privacy Act. There are two basic requirements for a complaint to be properly filed against an institution in relation to FERPA infractions:
The complaint must be made within 180 days of when the infraction was discovered.
There must be sufficient facts (evidence) to prove the violation.

Enrollment and Degree Verification

The National Student Clearinghouse provides free enrollment and degree verifications for the purposes of employment, obtaining Military ID cards, Health Insurance, or background screening. The National Student Clearinghouse in cooperation with NWFSC has permitted current students to request enrollment verifications directly through RaiderNet. If a student no longer has access to RaiderNet, he or she (and all third parties) should request verifications directly through the National Student Clearinghouse website or by calling (703) 742-4200.

Transient Students from NWFSC

Currently enrolled degree-seeking students may request to concurrently enroll at another college or university under limited extenuating circumstances. Students must have approval on file with the Office of Academic Records and Enrollment prior to enrolling at the other institution. NWFSC students who will be concurrently enrolling at another Florida state college or university will request approval through FloridaShines by completing a transient application found on the Florida Shines website. NWFSC students who will be concurrently enrolling at an institution outside of the state of Florida must complete the College's Transient Student Authorization Form. Upon completion of the course(s), it is the student's responsibility to request an official transcript to be sent directly to the NWFSC Office of Academic Records and Enrollment to have the credit added to his or her academic record.
Students must meet the following criteria before approval can be granted:
Be a degree-seeking student in good academic standing
Meet pre-requisites and/or testing requirements for the course at NWFSC
The requested course must be needed for the student's degree and or certificate program at NWFSC

Transfer Credit

Evaluation of transfer credit is completed for all degree-seeking students who have attended another college or university and submitted his or her official transcript. Evaluation of transfer credit for non-degree seeking students will be processed according to Transfer Credit staff availability. NWFSC will accept credits from colleges or universities fully accredited by one of the six regional higher education accrediting bodies below:
Middle States Commission on Higher Education
Higher Learning Commission
New England Association of Schools and Colleges, Commission on Institutions of Higher Education
Northwest Commission on Colleges and Universities
Southern Association of Colleges and Schools, Commission on Colleges
Western Association of Schools and Colleges
All attempted credits from a regionally accredited institution will be evaluated for transferability to the student's permanent record (transcript) as follows:

For students pursuing an associate degree or college credit certificate, all attempted credits at the freshman and sophomore levels, and
For students pursuing a baccalaureate degree, all attempted credits at the freshman, sophomore, junior and senior levels.
Credits recorded as transfer credit on the student's permanent record (transcript) do not guarantee that these credits will meet specific degree requirements for the student's program. The College may limit the number of transfer credits applicable to the student's degree. The determination of how transfer credits may apply to a specific degree program rests with the Executive Director of Academic Records and Enrollment in consultation with the appropriate faculty/instructional staff.
The following factors will be considered in the evaluation of credits for transfer. The factors will be used in determining whether the course is transferable and in determining whether the course is recorded as a direct equivalent to an NWFSC course, not a direct equivalent but fulfilling a specific general education or degree requirement, or as a general elective:
Breadth, depth, and rigor of course content as evidenced by course syllabi, prerequisites, placement test scores, exit requirements, student portfolios, textbooks, writing or oral communication requirements, grading standards, catalog descriptions, etc.
Qualifications of the faculty member(s) providing the instruction
Age of credits
Recommendations through other established credit assessment bodies (e.g. ACE)
Institutional accreditation via other professional assessment/accrediting bodies (e.g. AMA, NLN, a state agency)
Secondary documentation of course competencies (e.g. professional certification, standardized exam scores, etc.)

Recording Transfer Credits on the Student's Permanent Record (Transcript)

When evaluating credits, NWFSC reserves the right to delay recording the transfer credits on the student's permanent record until the student has completed admissions requirements, successfully completed college-level coursework at NWFSC, satisfied residency requirements, and/or provided documentation or verification of student competencies. Final award or posting of credits to the student's permanent record may be contingent upon successful completion of one or more of the following requirements:
NWFSC residency requirement
Higher-level courses in the same or a related subject area
Subsequent courses in the subject/course sequence
Demonstration of specific lab/clinical skills or other applied competencies
Additional independent/directed study in the subject area
Transfer credit will only be awarded to those courses for which the College has designated as eligible for transfer and applicable to an NWFSC credential. Transfer courses listed as In Progress on the transfer institution's official transcript will not be awarded credit until such time as an updated official transcript is received showing a grade. Transfer courses in which a grade of "W" was awarded by the transfer institution will not be added to the student's official NWFSC permanent record. Transfer courses in which the transfer institution has designated as a course "audit" will not be added to the student's official NWFSC permanent record. Transfer courses added to a student's record in which a grade of "F" or "I" was earned will appear on the student's official NWFSC permanent record but will not count as an attempt toward the College's course repeat rules. Once accepted, transfer credits will be recorded on the student's permanent record as externally awarded and will indicate the original institution at which the course was completed. Beginning with the 2015 - 2016 Catalog, transfer grades are not used in the official NWFSC cumulative GPA calculation. However, please note that some Selective Admissions programs do have a minimum cumulative GPA requirement for admissions; in these cases, transfer grades are calculated in the cumulative GPA for admissions purposes but are not used in the cumulative GPA calculation that appears on the student's permanent record. For Selective Admissions purposes, a transfer grade of "I" is considered the equivalent to an "F" for calculation purposes. Where appropriate, an equivalent NWFSC course number will be indicated. When the College does not offer an equivalent course or if the course differs substantively from the suggested NWFSC course, the transfer credits may be listed on the transcript as an "unclassified" course. The unclassified credits will be further described as an open elective, a subject area elective, a general education elective, or a general education subject area course, as appropriate.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:
"Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing

school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students."

Exceptions to General Rule for Equivalency

Since the initial implementation of the Statewide Common Course Numbering System (SCNS), specific disciplines or types of courses have been exempted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.
Courses not offered by the receiving institution
For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question
Courses in the _900-999 series are not automatically transferable and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations
Developmental courses
Graduate courses
Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999
Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.)

Courses at Non-Regionally Accredited Institutions using Florida Common Course Numbering

The Statewide Common Course Numbering System (SCNS) makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all non-public institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly. Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the NWFSC Vice-President of Academic Affairs, or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

Acceptance of Transfer Credits from Other Non-Regionally Accredited Institutions

Credits awarded at non-regionally accredited institutions may be accepted by NWFSC and placed on the transcript if the credits represent college-level coursework relevant to the program of study, with course credit and level of instruction resulting in student competencies at least equivalent to those of students enrolled in comparable instruction at NWFSC, and the instructor(s) of the course(s) possessed the minimum academic credentials and experiences as required of comparable NWFSC faculty at the time the instruction was received by the student. Students will need to complete an electronic Request for Exception: Records in order for the credits to be evaluated. Acceptance of credits from non-regionally accredited institutions of higher education rests with the Executive Director of Academic Records and Enrollment in consultation with the appropriate faculty/instructional staff.

Transfer Credit Appeal

A student may appeal either the equivalency determination or denial of transfer credits by submitting an electronic Request for Exception: Records. The review process will parallel that applied to the general evaluation of credits for transfer. The final determination will be made by the Office of Academic Records and Enrollment in consultation with the appropriate faculty/instructional staff normally responsible for the subject matter in question.

Application of Transfer Credits to Baccalaureate Degree Programs

Lower-division college credits in technical areas not generally applicable at the upper (baccalaureate) will be reviewed according to the following factors prior to their acceptance as satisfying NWFSC upper (baccalaureate) degree requirements:
Breadth, depth, and rigor of course content as evidenced by course syllabi, prerequisites, placement test scores, exit requirements, student portfolios, textbooks, writing or oral communication requirements, grading standards, catalog descriptions, etc.
Qualifications of the faculty member(s) providing the instruction
Age of credits
Recommendations through other established credit assessment bodies (e.g. ACE)
Institutional accreditation via other professional assessment/accrediting bodies (e.g. AMA, NLN, a state agency)
Secondary documentation of course competencies (e.g. professional certification, standardized exam scores, etc.)
Where questions of applicability still remain following such a review, the credits may still be used to meet lower-division degree requirements subject to one or more of the following conditions:
Successful completion of related higher-level courses in the student's program of study
Successful completion of subsequent courses in the subject/course sequence
Successful completion of complementary lower-division coursework in the subject or related area
Demonstration of specific lab/clinical skills or other applied competencies
Completion of additional supplemental independent/directed study in the subject area which augments the skills/content of the technical course
Presentation of a portfolio of work substantiating the breadth, depth, and rigor of the course content to include both theory and applied competencies
Analysis of clusters of course credits where a combination of technical courses may represent baccalaureate level competencies when viewed as a package (e.g. eight credits in technical coursework may correspond to a three-credit traditional transfer course in a given subject area)
Verification of faculty credentials at the transferring institution

International Students

International students must have all international transcripts translated and evaluated by one of the credential evaluation agencies sanctioned by the National Association of Credential Evaluation Services, Inc. (NACES). A list of NACES agency members can be found at www.naces.org. Students will need to have the official evaluation sent to NWFSC, Office of Academic Records and Enrollment, 100 College Blvd. East, Niceville, FL 32578. Each course on the evaluation will be individually assessed for transfer consideration. Normally, these credits will come in as elective credit only, unless the student can provide a translated course syllabus that details the course description, course pre-requisite or co-requisite requirements, and the student learning outcomes of the course. Credits will be awarded on a course-by-course basis.

Credit by Alternative Means of Study

NWFSC will award credit for certain types of non-traditional study or credits earned through alternative means of study. No more than 75% of the credits toward NWFSC's baccalaureate, associate, and certificate programs may be earned by way of alternate study. Alternative study methods covered under these limits include Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB), Excelsior College, Military Service Credits, Correspondence Credits, the NWFSC's Course Challenge Exam Option, and credits awarded through Prior Learning Assessment. Credits for accelerated mechanisms defined under Florida rules and regulations will be awarded in accordance with Florida Administrative Code FAC 6A-10.024 and the State of Florida's Articulation Coordinating Committee Credit-by-Exam equivalents. Current Credit-by-Exam equivalents as determined by the Articulation Coordinating Committee can be found at http://www.fldoe.org and searching for "Credit-by-Exam Equivalencies".

Advanced Placement (AP):

NWFSC will award college credit through the AP program. The student must submit an official score report to the Office of Academic Records and Enrollment for credit consideration. The amount and type of credit awarded will be determined by the Office

of Academic Records and Enrollment under the guidelines established by the State Board of Education.

Cambridge A-Level & AS-Level Examinations (AICE):

NWFSC will award college credit through the AICE program. The student must submit an official score report to the Office of Academic Records and Enrollment for credit consideration. The amount and type of credit awarded will be determined by the Office of Academic Records and Enrollment under the guidelines established by the State Board of Education.

College Level Examination Program (CLEP):

NWFSC will award college credits through the CLEP program. A minimum 50th percentile score is required for credit. The student must submit an official score report to the Office of Academic Records and Enrollment for credit consideration. The amount and type of credit awarded will be determined by the Office of Academic Records and Enrollment under the guidelines established by the State Board of Education. For students who are looking to take the exam(s) locally, the NWFSC Testing Center administers CLEP examinations. For information regarding how to register for the test, please refer to the NWFSC Testing Center website.

International Baccalaureate (IB):

NWFSC will award college credits through the successful completion of IB coursework, regardless of whether or not the student was awarded an actual IB diploma. The student must submit an official score report to the Office of Academic Records and Enrollment for credit consideration. The amount and type of credit awarded will be determined by the Office of Academic Records and Enrollment under the guidelines established by the State Board of Education.

DSST (DANTES):

NWFSC will award college credits through the DSST (Dantes) program. The student must submit an official score report to the Office of Academic Records and Enrollment for credit consideration. The amount and type of credit awarded will be determined by the Office of Academic Records and Enrollment under the guidelines established by the State Board of Education. For students who are looking to take the exam(s) locally, the NWFSC Testing Center administers CLEP examinations. For information regarding how to register for the test, please refer to the NWFSC Testing Center website.

Excelsior College Examinations:

NWFSC will award college credit through the Excelsior College exam program. The student must submit an official score report to the Office of Academic Records and Enrollment for credit consideration. The amount and type of credit awarded will be determined by the Office of Academic Records and Enrollment under the guidelines established by the State Board of Education.

Articulation of Vocational Courses and Credits

For students who meet certain requirements, the College may award credit for certain types of non-traditional study as established by the NWFSC Curriculum Committee.
Credits awarded through these means will be documented on the NWFSC Articulation Analysis form submitted by the appropriate instructional/department staff on the student's behalf, and processed by the Office of Academic Records and Enrollment and will reside in the student's permanent academic record. Credits received through these methods may not be transferable nor applicable to the Associate in Arts degree.
Students who complete a diploma or certificate from a vocational or technical school at less than the college level may receive credit toward partial completion of a related technical program at the College. Credit is awarded based upon the nature of the training, current skill levels, and relationship to college program standards. The amount of credit awarded will depend upon established articulation agreements, skill assessment, and departmental recommendations. Students receiving credit under this option must complete credits in residence at NWFSC, per established agreements, before the alternate credits will appear on the student's permanent record (transcript). Additional minimum grade or course requirements, as well as the demonstration of competencies, may also be required.

Students who complete a vocational school certificate program, which is contained in an approved articulation agreement with the College, will receive credit toward completion of a related technical program at the College per the details of the agreement. Credits received in this manner may not be transferable nor be applicable to the Associate in Arts degree.
Students who complete a vocational certificate at NWFSC may receive credit toward partial completion of a related technical program at the College according to the credit/competency equivalents established by the NWFSC Curriculum Committee.
Final decisions regarding the award of credits and the recording of credits on the student's transcript rest with the Executive Director of Academic Records and Enrollment in consultation with the appropriate faculty/instructional staff.

Credit for Military Training and Experience

NWFSC recognizes the educational value of military training and experience. Students must submit an official military transcript to the Office of Academic Records and Enrollment for credit consideration. The Army, Marine Corps, Navy, and Coast Guard use the Joint Services Transcript (JST) to document military training and experience. If no JST record is available for the service member, the Office of Academic Records and Enrollment will accept a copy of the service member's DD Form 214.
The American Council on Education (ACE) recognizes the educational value of non-traditional training and learning experiences. As such, ACE continuously evaluates military school courses and occupations and makes recommendations for college-level credit. ACE credit recommendations are present on the Joint Services Transcript (JST) of a military service member. NWFSC will award credit for ACE recommendations in the associate and baccalaureate categories for the service member's documented military courses. Students seeking credit for their military occupation experience must complete an electronic Request for Exception: Records in order for the credits to be considered. Approval to award credit based on a service member's occupation experience rests with the Executive Director of Academic Records and Enrollment in consultation with the appropriate faculty/instructional staff. ACE recommendations for credit at the vocational level may be awarded upon approval from the Executive Director of Academic and Records in conjunction with the appropriate faculty/instructional staff. Military courses in which ACE has provided optional credit recommendations will be reviewed on a case-by-case basis and a final determination will be made by the Executive Director of Academic Records in conjunction with the appropriate faculty/instructional staff. While ACE recommendations will be considered for credit during the evaluation of the JST, they are not binding to the College.
All direct course equivalents and general education electives will be posted to the student's academic record. A maximum of 18 non-general education electives will be posted. All credit awarded is posted to the student's record as transfer credit with a grade of "P". In such cases that the service member has no transferable experience documented on his or her JST, the service member will receive 4 hours of elective credit for his or her military experience.
Although credit-by-examination scores such as CLEP and DANTES may appear on the JST, the service member is still required to provide an official score report from the respective examination authority in order for credit to be awarded from these alternative examinations.
Please note that the Community College of the Air Force (CCAF) and Air University (AU) are degree-granting institutions accredited by the regional accrediting body Southern Association of Colleges and Schools, Commission on Colleges (SACS COC), and as such, falls under the College's general transfer credit policy, not this policy specific to the evaluation of the JST.

Grades

Grades are awarded in all college, vocational, and developmental courses, as well as in certain non-credit courses. NWFSC maintains permanent records for all students enrolled in a course. The student's official transcript is a cumulative record of the student's grades in each course in which the student was awarded a final grade. The table below shows the current letter grades that may appear on a student's official transcript. Some grades are no longer awarded, but may still appear on a student's record if he or she previously attended NWFSC during a time in which the letter grade was actively used. If a student has a grade on his or her permanent record that does not appear in the table below, please refer to the archived College Catalog in effect when the grade was received or contact the Office of Academic Records & Enrollment for information regarding how that grade was previously used and/or how it is calculated on the student's permanent record.

Grades Table

Academic Grade	General Meaning	Quality Points toward GPA Calculations
A	Excellent	4.0
B	Good	3.0
C	Average	2.0
D	Poor/Passing	1.0
F	Failure	0.0
I	Incomplete	-
IP	In Progress	-
NG	No Grade	-
P	Passing	-
S	Satisfactory	-
W	Student Withdrew (non-punitive but counts as an attempt)	-
X	Audit (does not count as an attempt)	-
XC	Changed to Audit After Schedule Adjustment Period (counts as an attempt)	-

Grade Point Average (GPA)

In addition to the letter grade earned in each attempted course, the student's permanent record also contains grade point average (GPA) calculations. The student's GPA is used in determining academic standing, graduation readiness, eligibility for the President's and Dean's Lists, and other academic-related decisions. The semester GPA represents the average of all grades earned during a given semester. The cumulative GPA represents the average of all grades earned during the student's entire attendance history at NWFSC. Beginning with the Fall 2015 semester, transfer grades are no longer included in the calculation of a student's GPA. However, transfer grades would be included in a student's cumulative GPA if those transfer grades were previously added to the student's permanent record prior to the 2015 - 2016 Catalog. Developmental courses are not included in any GPA calculations.

To determine the GPA, multiply the number of quality points for each grade received by the number of credit hours for that course. Then divide the total number of quality points by the total number of GPA hours attempted (excluding courses with W, I, and Audit grades). GPAs for Vocational and Undergraduate Level courses are calculated separately.

Credit hours used in GPA calculations are those credits in which a grade of A-F has been awarded. The current grades of I, IP, NG, P, S, W, WN, X, and XC do not carry grade quality points. However, in certain other circumstances, such as the determination of repeat enrollments, and in the computation of certain specialized GPAs, credits that carry these grades may be included in the GPA computation.

EXAMPLE COURSE	GRADE	GRADE POINTS	(MULTIPLY BY)	CREDIT HOURS	=QUALITY POINTS
Speech	C	2.00	x	3	6.00
American Literature	B	3.00	x	3	9.00
Biology	A	4.00	x	4	16.00
Health Science	D	1.00	x	2	2.00
Accounting	F	0.00	x	3	0.00

GENERAL EDUCATION COMMON GRADING SCALE
Effective Fall 2019 and forward, all General Education courses use a common grading scale, as noted below. For other courses, students should reference the course syllabus to identify the specific course grading scale. If this information is not found within the course syllabus, the student should contact the instructor.

Numerical Grade Range	Letter Grade
90-100%	A
80-89%	B
70-79%	C
60-69%	D
0-59%	F

Dean's and President's Lists

When the quality of a student's work is superior, the College is pleased to honor such work for students enrolled in all programs at the undergraduate (college credit) level.
PRESIDENT'S LIST:
Any student with nine (9) or more earned college credit hours in the term and a term grade point average of 3.80 - 4.00 in college-level courses is placed on the President's List.
DEAN'S LIST:
Any student with nine (9) or more earned college credit hours in the term and a term grade point average of 3.50 - 3.79 in college-level courses is placed on the Dean's List.

Incomplete Grades

At the instructor's discretion, a grade of "I" may be given when a student is unable to complete the required work because of clearly documented extenuating circumstances and if the student has demonstrated successful completion of a significant portion of the course requirement that he or she has a reasonable chance of successfully completing the course. The instructor will provide the respective department chair/divisional director and the student concerned an outline of the work that must be completed, including an estimate of the student's grade as it stands for work already completed during the semester. Work for the removal of the "I" must be completed prior to the LAST CLASS DAY in the next 16-week term immediately following the current term, except where course requirements mandate otherwise. Students completing course work to remove the "I" must do so outside the regular classroom setting. Once the student has completed the remaining course requirements, the instructor will submit a grade change indicating the final letter grade to the Office of Academic Records and Enrollment. If the student does not complete the course requirements by the deadline, the "I" grade will automatically revert to an "F" on the official transcript. A student will not be permitted to re-enroll in a course in which he or she has an outstanding grade of "I" or for a class that has that course as a pre-requisite or co-requisite.

Repeating Courses

Repeating a Course to Improve the Grade

State Rule 6A-14.0301 addresses repeated courses and grade forgiveness. If a student receives a grade of F or W (or a grade of D for a course that requires a grade of C or higher) in any college credit, vocational, or developmental course, he or she may repeat the course to improve the grade (will need approval from a Student Success Navigator prior to enrolling in a second attempt). A third and fourth attempt may be allowed only through an academic appeal process based on major extenuating circumstances. Students can request a third or fourth attempt via the Third of Fourth Attempt Request. A fifth attempt is not permitted.
On any third or fourth attempt, the student will be awarded the letter grade earned and will not be allowed to withdraw from the course. If a course is dropped prior to the close of the schedule adjustment period, or if audit status is declared prior to the end of the schedule adjustment period, the enrollment will not count as one of the attempts. However, if the student withdraws from the course after the schedule adjustment period has ended, that "W" grade will convert to a final grade of "F" when grades are calculated at the end of the semester and will appear on the student's official transcript.
Once a student has successfully completed a course he or she will not be permitted to repeat the course. In certain special or compelling circumstances, it may be possible to re-enroll after successful completion, but the student will have to seek approval by submitting a Repeat a Previously Completed Class For A Grade Request form. Such approved circumstances include, for example, NWFSC program requirements, teacher re-certification, license renewal, and mandated professional development. Both grades will appear on the student's permanent record.
For any course repeated, whether at NWFSC or elsewhere, only credit from the last attempt will be used in the computation of the student's grade point average and for meeting program requirements. Repeating a course results in an adjusted grade point average; however, if a course is repeated after the student has been awarded an NWFSC degree or certificate, the student's cumulative GPA may change, but will not affect the credential(s) previously awarded to the student. Students should be aware that some private colleges and universities, as well as out-of-state institutions, and some Florida public universities (depending on the student's major) may not accept the revised GPA or treat the repeated course in the same manner.
Per Florida Statute 1009.285, after the second attempt in any college-credit or developmental course, a student will be required to pay the full cost of instruction (the out-of-state rate; approximately four times the usual matriculation fees) to repeat the course. A student may petition to have the out-of-state portion waived based on documented extenuating circumstances by submitting the Request for Exception: Business Office form. Please see the official appeal form for specific guidelines and criteria. Students needing assistance with this form should contact a Student Success Navigator at studentsuccess@nwfsc.edu or 850-502-2895.

Repeating a Course for Credit toward Graduation

Certain courses, such as those in the fine and performing arts or physical education, may be repeated for credit toward graduation. The specific courses and the number of allowable repeat enrollments are provided in the course description section of this Catalog. Only those courses designated as repeatable for credit fall into this category.
When a course is repeated under these circumstances, the Full Cost of Instruction rule is not applicable until the maximum number of creditable repeats has been reached. All grades and credits associated with the allowable number of repeats will be considered in the student's GPA and will be considered in determining the credits for program completion. Once the maximum number of enrollments has been reached, additional enrollments will be treated as specified in the previous section on course repeats and may be subject to the Full Cost of Instruction rule.

Repeating Non-Credit Courses

Courses taken through our Non-Credit Programs such as Personal Enrichment, Costa Leadership Institute, and Kids on Campus are not subject to repeat rules.

Grade Changes/Errors

If a student believes that an administrative error has occurred in the recording or the computation of his or her final course grade,

the student should contact the instructor or the appropriate department office immediately. If an error has occurred, an adjustment to the student's permanent record (transcript) will be made within approximately ten (10) College business days after the instructor's signed grade change request has been received by the Office of Academic Records and Enrollment. The student MUST report such concerns within thirty (30) days of the end of the term in which the original grade was awarded.
If a student has documentation of extraordinary or emergency circumstances which warrant recording a course withdrawal ("W") after the published deadline, he or she must submit the Request for Exception: Records. If an adjustment is warranted, the change will be made within approximately ten (10) College business days of receiving all supporting documentation related to the request. The student MUST report such concerns within thirty (30) days of the end of the term in which the original grade was awarded.

Grade Grievances

If a student believes that he or she has not been graded fairly in a course, the student should first make an informal appeal to the instructor. Upon discussing the matter with the instructor, if the student still believes that the grade was awarded unfairly, the student may file an appeal via the Formal Student Grievance process. The grade grievance process applies only to final course grades. Any appeal must be initiated within thirty (30) days of the date the final grade was posted to the student's record.
A student has a right to protection against the improper disclosure of information concerning grades, beliefs, or character which an instructor acquires in the course of the professional association with the student. An instructor has a right to deal with what is perceived to be academic dishonesty and such behavior may result in disciplinary action.

Academic History Grade Relief Option

A student who has been unsuccessful academically (i.e. grades of "D's" and "F's") and whose credits are five or more years old may seek relief from the effect of those credits on his or her grade point average at NWFSC by submitting the Academic Forgiveness Request. If the request is granted, it will apply to all credits and grades earned prior to the date specified (including transfer courses), and the student will not be permitted to count any of those credits toward graduation or program completion. The courses and grades will remain on the student's permanent record (transcript), but will not be considered in GPA computations at NWFSC. Financial Aid is required by federal regulation to include all credit hours attempted in calculating eligibility for federal financial aid. Grade relief cannot be granted to students who have already graduated.
A student requesting this option should be aware that the relief may not be honored by other colleges and universities; other institutions may continue to consider the older credits and grades in evaluating the student's work. Relief through this process does not excuse the student from restrictions related to repeating courses or from compliance with other applicable college policies. Once Academic Forgiveness has been awarded, the student is not permitted to request its reversal.

Academic Standing

The College has set academic standards ranging from recognition of excellence for superior progress to the discontinuance of enrollment for inadequate progress towards these standards. Students will receive an academic standing designation for the level associated with the student's primary program of study. The standards apply to both full-time and part-time students. They apply to those students who are seeking a degree or award and those who are not. Students enrolled in a Selective Admissions program should contact the appropriate department or division office for information on programmatic certification and/or professional accreditation standards as they pertain to demonstrating satisfactory academic progress as these may vary by program.

Good Standing

Academic Standing is calculated at the end of each semester. A student who achieves a minimum cumulative grade point average (GPA) of 2.00 shall be classified as in Good Academic Standing with the College for the given semester. A student must maintain a GPA of 2.00 to remain in Good Standing in subsequent semesters.
Not in Academic Good Standing
When a student fails to achieve the 2.00 cumulative GPA, the College will place certain restrictions on future course registrations. Students "Not in Academic Good Standing" are encouraged to take advantage of the tutorial services offered in the Academic Success Center. There are three distinct designations while "Not in Academic Good Standing" and the following regulations apply:

Academic Warning

If a student's cumulative GPA falls below 2.00, he or she will be placed on Academic Warning.
When a student is placed on Academic Warning, it is strongly recommended that you talk with a Student Success Navigator to discuss your education plan and information regarding academic support services before the next registration.
To be removed from Academic Warning at the end of the next semester, the student must achieve a minimum cumulative overall GPA of 2.00.

Academic Probation

If a student's cumulative GPA falls below 2.00 for two successive semesters (i.e., the student was placed on Academic Warning but was unable to achieve a minimum cumulative GPA of 2.00 by the end of the subsequent semester of enrollment), he or she will be placed on academic probation.
When a student is placed on Academic Probation, he or she will be restricted to only 12.00 credit hours of registration and be required to meet with a Student Success Navigator once before the semester begins and again immediately following midterm. It is incumbent upon the student to schedule and to attend these meetings. A Student Success Navigator may recommend or require various remedies to promote academic success, including but not limited to, tutoring, greater reduced course load, and/or change of major. Students who fail to satisfy the advising requirement, or who do not follow through on any conditions attached to their probationary status, may be prevented from making changes to their course schedule and/or registering for classes in the next semester.
To be removed from academic probation, a student must achieve a minimum cumulative GPA of 2.00.

Academic Suspension

If a student's cumulative GPA falls below 2.00 for three successive semesters (i.e., the student was placed on Academic Warning, then Academic Probation, but was still unable to achieve a minimum cumulative GPA of 2.00 by the end of the subsequent semester of enrollment), he or she will be placed on academic suspension.
A student placed on Academic Suspension will be prevented from further course registration and automatically dropped from any courses in which he or she may have already enrolled for any future term. The duration of the suspension will last for one semester (one Fall, Spring, or Summer semester).
A one-time appeal may be submitted by any student wishing to request an exception to this policy. The student will be required to submit an Academic Suspension Appeal Form and include appropriate supporting documentation prior to the beginning of the regular semester for which the student wishes to register. Should the appeal be granted, the student will be placed back on Academic Probation for no more than one semester and subject to any conditions noted in the appeal approval. Failure to satisfy any probationary conditions may result in the student being placed back on Academic Suspension. Should the appeal be denied, the student will be required to wait one semester before re-enrolling as stipulated in the initial suspension notice.
After a student on Academic Suspension has sat out his or her mandatory semester, the student will need to submit the Academic Suspension Appeal Form in order to have his or her account cleared for registration. At this time, the student will be placed back on Academic Probation for no more than one semester and subject to the rules corresponding to the Academic Probation status.
Please note that the College's Academic Standing policy may differ from the Satisfactory Academic Progress (SAP) calculated for Financial Aid Eligibility Federal regulations (34 CFR 668.34) that require a student to move toward the completion of a degree or certificate within an eligible program when receiving financial aid. Specific requirements for academic progress for financial aid recipients are applied differently than the College's Academic Standards of Warning, Probation, and Suspension. Federal regulations state that Satisfactory Academic Progress Standards must include a review of all periods of enrollment, regardless of whether or not aid was received. The student must meet all the minimum standards in order to receive financial aid. Federal regulation requires the College to fully consider all credit hours attempted when determining aid eligibility and does not make an exception for any developmental courses or multiple attempts. For more information, please visit www.fafsa.ed.gov.
In accordance with U.S. Code Title 38 and Title 10, the law requires that educational assistance benefits to student veterans and eligible family members be discontinued when the student ceases to make satisfactory progress toward completion of their training objective.
Veteran students and eligible family members are ineligible for VA benefits beyond two consecutive terms on Academic Warning and Academic Probation. Student veterans or eligible family members VA Education benefits will be terminated following the second subsequent term of enrollment where their Academic Standing is listed as Academic Warning or Academic Probation. If a

student veteran or eligible family member is placed on Academic Suspension per the current college catalog, VA Education benefits will be terminated immediately. Students may be re-certified for VA Education benefits ONLY after achieving the minimum required cumulative grade point average (2.0) at NWF State College and submitting a VA Form 22-1995 or 22-5495 (Chapter 35).

Testing Services

Testing Services

As a member of the Florida Association of College Testing Administrators (FACTA), Northwest Florida State College offers comprehensive testing services for students and the community. Our exams are both nationally and academically-based, such as the SAT, ACT, CLEP, Accuplacer, and TABE.
NWFSC also provides proctored exams for students and non-students, which include make-up exams, remote testing, online exams, and testing with accommodations. Students with disabilities can inquire about testing accommodations through our Accommodation Resource Center (arc@nwfsc.edu).
As an authorized Pearson VUE Testing Center, NWFSC delivers secure professional certification testing for students and the community at select testing locations. For information on individual certification tests offered at our testing centers, visit www.pearsonvue.com.
Northwest Florida State College currently offers testing at six locations. For location information, hours and a list of testing services available at each location, visit www.nwfsc.edu/testing. For exam scheduling and pricing, visit http://www.registerblast.com/nwfsc/exam.

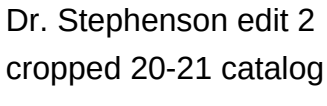
Testing Fees

Testing fees may be paid to the Cashier's Office by cash or check only. Credit card payments are not accepted at any of our campuses or centers. Testing appointments should be scheduled online in advance at Registerblast. A $3.50 convenience fee is added when payment is processed online using RegisterBlast.

Exam	Description	Testing Administration Fees
PERT	First attempt for incoming NWFSC students (including dual enrolled)	FREE
Non-NWFSC students	$20.00	Retest fee for NWFSC students (including dual enrolled students)
$10.00	Accuplacer	Advanced Algebra Functions
$20.00	CLEP	CLEP exam must be purchased through College Board website. Check website for current pricing. (https://clep.collegeboard.org/earn-college-credit/how-to-register) Testing fee may not apply to eligible military service members testing at a fully funded center.

$20.00 non-essay $30.00 with essay	DSST	DSST exam must be purchased at time of exam. Check https://www.getcollegecredit.com for current pricing information. Testing fee may not apply to eligible military service members testing at a fully funded center. DSST (formerly DANTES Subject Standardized Tests) are credit-by-examination tests originated by the United States Department of Defense's Defense Activity for Non-Traditional Education Support (DANTES) program.
$20.00	Proctored Exams for non-NWFSC students	Students requiring tests for other institutions must pay a testing fee and can participate on a space available basis. This fee applies to proctored exams, MSSC, TEAS, and other tests that may otherwise be free of charge for NWFSC students.
$20.00	Certiport	Professional certification exams in Microsoft, Adobe, IC3, etc. Certiport exam vouchers must be purchased in advance at www.certiport.com. Check website for current exam pricing.
$20.00	HESI	For students applying to the Nursing and Physical Therapist Assistant program
$60.00	Professional Certification Exams	Various exams offered through PearsonVUE. Exams include but are not limited to: FBAT, NREMT, CISCO, Comp TIA, etc.
Fees are collected directly by testing company and vary by exam.	ACT and SAT Testing	College admission exams

Welcome from the President



Dr. Stephenson edit 2 cropped 20-21 catalog

Welcome to Northwest Florida State College! We are honored you chose our college to further your education. At NWF State College, our mission is YOU! We are committed to helping all our students achieve their goals for education and career success.

Every day we work to create a better experience for students- one that is focused on moving you toward success. This is why we exist, and that is why we serve. We are all about making a significant IMPACT, including more emphasis on creating clear, unobstructed pathways toward student success.

We've been working on transformational changes to improve the quality of place and the quality of life at Northwest Florida State College and within our communities.

NWF State College provides the advantages of affordability, excellence and access locally.

Our college consistently achieves national rankings for excellence in academics, athletics and arts. We provide a full college experience that blends academic and co-curricular interests in a flexible, convenient and customized schedule. NWF State College employees are excited about the potential, the possibilities, and the promise that exists for our students and the region of Northwest Florida.

Most importantly, we are excited that you've chosen our great college to further your education and reach your career goals!

Again, thank you for choosing Northwest Florida State

College!
Dr. Devin Stephenson, President
Northwest Florida State College

Nursing (BS)

Admission Program Objective Code BSNG State CIP Code 1105138012
*This program is fully available online.
The baccalaureate program in nursing at Northwest Florida State College is accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).
The program is an RN to BSN degree career ladder and is open to applicants who currently hold a valid Registered Nursing license and have completed an ADN or diploma program. The program can be completed in three to four semesters. Program content for the B.S.N. program meets those specified in Florida's A.S. to B.S. Articulation Manual. All theory courses are taught through NWF Online (https://www.nwfsc.edu/online/) and observership experiences can be completed near the student's residence.

Lower Division Courses

General Education Course Requirements

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

____ ____ - General Education Physical Science 3-4 Credit Hours

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

____ ____ - General Education Math 3 Credit Hours

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology or

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the

physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

____ ____ - General Education Humanities (SATC) 6 Credit Hours

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

____ ____ - GE Social Science/History/Government 3 Credit Hours

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Total General Education Credits: 36

B.S.N. Common Prerequisite Courses

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

____ ____ CHM, BSC, BCH, PCB, PHY Course (CHM, PHY may be used for GE) 3 Credit Hours

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

Total Common Prerequisite Courses: 13

Total Common Prerequisite Courses: 13

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

____ ____ - General Education Math 3 Credit Hours

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology or

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

____ ____ - General Education Humanities (SATC) 6 Credit Hours

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

____ ____ - GE Social Science/History/Government 3 Credit Hours

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

NUR 3955 ; NUR 3080

Upper Division Nursing Electives

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RN LICENSURE

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

RN LICENSURE

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Must be an RN or ASN student.

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state

language requirements.

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their

professional nursing expertise and proficiency.

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RN LICENSURE

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
RN LICENSURE

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Must be an RN or ASN student.

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

RN LICENSURE

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Must be an RN or ASN student.

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

NSP 3640 - Nursing Care of Military and Veteran Populations
This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RN LICENSURE

NSP 4275 - Introduction to Critical Care Nursing
This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RN LICENSURE

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and

application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
RN LICENSURE

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Must be an RN or ASN student.

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RN LICENSURE

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
RN LICENSURE

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Must be an RN or ASN student.

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

Total Upper Division Credits: 44

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health

assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.
Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RN LICENSURE
NSP 4275 - Introduction to Critical Care Nursing
This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.
Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
RN LICENSURE
NUR 3826 - Nursing Ethics
This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.
Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Must be an RN or ASN student.
SPN 3036 - Spanish for Health Care Providers
Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Core Courses

NUR 3067C - Health Assessment

This course is designed to develop the student's knowledge for obtaining and recording a systematic, comprehensive health history, psychosocial assessment, and physical examination of the adult. The course involves the synthesis of nursing, biologic, psychologic, and sociocultural knowledge and theories as they apply to the findings obtained in the comprehensive health assessment of clients of various ages. During the experiential learning component, emphasis will be placed on collection of a database through physical assessment, history taking and interviewing.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Admission to the BSN program, clear background check and drug screen, and documented completion of required immunizations and CPR.

NUR 3071 - Writing for Success in Nursing

This course is designed to develop the student's knowledge for writing at the upper division nursing level. The course includes information regarding use of APA format and scholarly writing resources.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

Student must be a Registered Nurse to take this course.

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

NUR 3080 - Dimensions of Baccalaureate Nursing Practice

This course will provide Registered Nurses, who are returning to school to earn a Baccalaureate degree, an opportunity to advance professional practice concepts. As designed, the course engages the student intellectually in an ongoing professional dialogue and journey with peers, colleagues, and instructors that serves to broaden the student's professional development and builds on preexisting knowledge and experiences. The course curriculum is written for adult learners with the characteristics of self-direction, prior experience, applicability to practice, and motivation to meet the challenge to expand their knowledge base and to utilize advanced critical thinking skills.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 3837 - Health Care Issues

This course provides a forum for the exploration and evaluation of concerns germane to contemporary nursing. The focus of this course is on the nursing profession and current major issues and problems that concern it. Social forces influencing changes in the nursing profession are analyzed in terms of historical antecedents and their current manifestations. Recently passed, and pending legislature at both the national and state levels is emphasized.

Credit Hour(s): 2 Credit Hours When Offered: (All) Prerequisite(s):

CURRENT RN LICENSURE. ADMISSION TO THE BSN PROGRAM AND ALL ENROLLMENT CONDITIONS MET.

NUR 3955 - Portfolio I

This course will provide RN to BSN students an opportunity to develop an electronic professional portfolio to express one's professional nursing expertise and proficiency

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

Admission to the BSN program and meets all enrollment conditions.

NUR 4125 - Clinical Pathophysiology

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (All) Prerequisite(s):

NUR 3067C

NUR 4165 - Evidence-Based Practice: Incorporating Nursing Research

This course examines in detail the underlying process involved in the development, evolution, manifestations, and complications of common clinical diseases across the life span, and compares normal and abnormal states. The biological bases for therapeutic clinical actions are examined.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

STA 2023 .

NUR 4615C - Family and Community Health Nursing

The Family and Community Health Nursing course is designed to facilitate the conceptualizing of family, population groups, and community as units of care from diverse cultures, ethnic, and social backgrounds. The student is provided an experiential learning component to assess the health needs of selected families and groups in the community setting with selected health promotion, risk reduction, and disease prevention. The nursing process is used to examine multiple influences impacting life-course experiences of families and communities to enhance functioning.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 3067C , NUR 3080 , admission to the BSN program, completion of all General Education requirements, and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4827C - Nursing Leadership and Management

This course provides students with an evidence-based study of leadership, collaboration, and coordination in healthcare settings. Students develop an evidence based paper to deal with key leadership and management issues related to professional goals. The nursing leadership and management experiential learning component focuses on the roles and functions of the professional nurse in these roles. Issues associated with healthcare delivery are explored. The experiential learning component provides an opportunity to plan, implement and evaluate a change in the practice of nursing.

Credit Hour(s): 5 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

NUR 3080 ,NUR 4165 , NUR 3067C , NUR 4615C , and continued compliance with drug screening, immunization, and CPR requirements.

NUR 4956 - Portfolio II

NUR ____ - Upper Division Nursing Elective (See Below) 3 Credit Hours

This course will provide students an opportunity to complete and evaluate their electronic professional portfolio to express their professional nursing expertise and proficiency.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Summer) Prerequisite(s):

NUR 3955 ; NUR 3080

Corequisite(s):

NUR 4827C

Total Upper Division Nursing Credits: 30

Upper Division Nursing Electives

NSP 3640 - Nursing Care of Military and Veteran Populations

This course is designed to identify the unique healthcare needs of military and veteran populations in the United States in order to prepare students and practicing nurses to develop competence in designing nursing interventions within civilian and government agencies in which military members and veterans seek healthcare. In accordance with the ANA's pledge (2012) to raise awareness of the unique conditions and needs of military veterans and their families, this course supports the Joining Forces initiative to further nursing training to include specialized topics such as traumatic brain injury, posttraumatic stress disorder, trauma rehabilitation, and understanding the military and veteran's healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RN LICENSURE

NSP 4275 - Introduction to Critical Care Nursing

This course examines the needs of the critically ill client. As part of the human experience, the integrity of the individual and family may be disrupted by a critical illness. During such time, the critical care nurse assists the individual and family to restore life processes to a state of dynamic equilibrium. This course emphasizes the involvement through use of scientific rationale and application of the nursing process in providing care to the individual client and family. Critical care concepts and skills for promoting client and family well-being are stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

RN LICENSURE

NUR 3826 - Nursing Ethics

This course provides an in-depth exploration of ethical principles and moral reasoning as the foundation of nursing practice. The

ANA Code of Ethics will be used as a framework for examining current issues in healthcare delivery across the age span from reproductive issues to end-of-life care.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Must be an RN or ASN student.

SPN 3036 - Spanish for Health Care Providers

Spanish for Health Care Providers is designed for individuals majoring in nursing or working in health-related areas. The course focuses on vocabulary needed for the healthcare workplace, with grammar taught as a task-based practical skill. Students will learn phrases used to complete health assessments which include conducting interviews, filling out forms, writing reports, and reading and understanding medical articles and brochures. Prevalent disease processes will be discussed as well as cultural practices that affect health care, specifically the health care of Spanish-speaking patients. This course does not fulfill any part of the Florida state language requirements.

Lower Division Courses

General Education Course Requirements

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

____ ____ - General Education Physical Science 3-4 Credit Hours

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

____ ____ - General Education Math 3 Credit Hours

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PSY 2012 - Psychology or

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

____ ____ - General Education Humanities (SATC) 6 Credit Hours

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

____ ____ - GE Social Science/History/Government 3 Credit Hours

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

See the BAS Management and Supervision Program Flowchart.

Upper Division Requirements*

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4720 - Strategic Planning and Management

This course addresses the integration of organizational functions to achieve competitive advantage and organizational harmony through strategy formulation, implementation and evaluation. Activities include case studies and a strategic planning simulation. Topics include change theory, decision-making, planning models, and strategic planning processes as applied in a variety of business settings, units, and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization diversity and change management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Required Courses for the Emphasis in Healthcare Management

HSA 3110 - Health Care Organization and Management

This course focuses on the structure and management of health care organizations, and the fundamental issues facing the U.S. health care system. Key topics include health status, the organization of health services, manpower, public health, financing, facilities, utilization, quality, regulation, and national health policy. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):
Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3111 - Introduction to Health Care Management

This course studies the administration, organization and delivery of health care in the United States. Topics to be examined include health care leadership, management, strategy, performance improvement, information technology, insurance, financial and human resources management, as well as ethical and legal concepts. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4191 - Health Information Systems

This course focuses on the theories, concepts and principles of health information systems and development of critical thinking skills for use in practice/working in health care informatics. Current trends and issues in using, designing, and managing heath care information systems will be examined. Students, applying evidence-based knowledge, will analyze the design and implementation of health care information systems. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4922 - Capstone: Health Care Management

This course integrates the information, skills, and abilities provided throughout the Health Administration Program in a capstone project. Students complete a project that demonstrates excellence by applying the knowledge gained from the core courses and materials studied throughout the program. Successful completion of the course requires demonstration of the achievement of program objectives and learning outcomes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HSA 3110 , HSA 3111 , HSA 4191 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Suggested Two Year Academic Plan

Upper Division Requirements*

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC

and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4720 - Strategic Planning and Management

This course addresses the integration of organizational functions to achieve competitive advantage and organizational harmony through strategy formulation, implementation and evaluation. Activities include case studies and a strategic planning simulation. Topics include change theory, decision-making, planning models, and strategic planning processes as applied in a variety of business settings, units, and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization diversity and change management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Required Courses for the Emphasis in Healthcare Management

HSA 3110 - Health Care Organization and Management

This course focuses on the structure and management of health care organizations, and the fundamental issues facing the U.S. health care system. Key topics include health status, the organization of health services, manpower, public health, financing, facilities, utilization, quality, regulation, and national health policy. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 3111 - Introduction to Health Care Management

This course studies the administration, organization and delivery of health care in the United States. Topics to be examined include health care leadership, management, strategy, performance improvement, information technology, insurance, financial and human resources management, as well as ethical and legal concepts. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4191 - Health Information Systems

This course focuses on the theories, concepts and principles of health information systems and development of critical thinking skills for use in practice/working in health care informatics. Current trends and issues in using, designing, and managing heath care information systems will be examined. Students, applying evidence-based knowledge, will analyze the design and implementation of health care information systems. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

HSA 4922 - Capstone: Health Care Management

This course integrates the information, skills, and abilities provided throughout the Health Administration Program in a capstone project. Students complete a project that demonstrates excellence by applying the knowledge gained from the core courses and materials studied throughout the program. Successful completion of the course requires demonstration of the achievement of program objectives and learning outcomes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
HSA 3110 , HSA 3111 , HSA 4191 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Required Courses for the Emphasis in Human Resources Management

MAN 3310 - Issues in Human Resource Management

Introduces the full range of human resource management functional areas, including recruiting and hiring staff, performance evaluations, employment regulations, discipline and termination, downsizing, compensation and benefits, job analysis, the organized labor setting, equity/diversity issues, and policy design. Approach will focus on current issues and applications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3320 - Employee Staffing and Benefits

An intermediate level course in employment staffing issues focusing on staffing patterns, organizational structures, job analysis and design, staffing efficiencies, employee assistance programs, staff projection models, and employee services. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and MAN 3310 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3350 - Training and Development

Covers various staff training and development models, effective workshop techniques, designing and implementing company-wide

training and development programs. Assessment of training needs, training and development as a benefit and setting development goals; students will design and conduct at least one workshop/training session for fellow students. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and GEB 3213 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HUS 4950 - Capstone: Human Resources Management

This capstone will build upon and integrate the primary human resource management skills introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge in the field of human resources.
This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MAN 3310 , MAN 3320 , MAN 3350 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization

diversity and change management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Total Core Requirements: 30

Required Courses for the Emphasis in Human Resources Management

MAN 3310 - Issues in Human Resource Management

Introduces the full range of human resource management functional areas, including recruiting and hiring staff, performance evaluations, employment regulations, discipline and termination, downsizing, compensation and benefits, job analysis, the organized labor setting, equity/diversity issues, and policy design. Approach will focus on current issues and applications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3320 - Employee Staffing and Benefits

An intermediate level course in employment staffing issues focusing on staffing patterns, organizational structures, job analysis and design, staffing efficiencies, employee assistance programs, staff projection models, and employee services. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and MAN 3310 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3350 - Training and Development

Covers various staff training and development models, effective workshop techniques, designing and implementing company-wide training and development programs. Assessment of training needs, training and development as a benefit and setting development goals; students will design and conduct at least one workshop/training session for fellow students. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and GEB 3213 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HUS 4950 - Capstone: Human Resources Management

This capstone will build upon and integrate the primary human resource management skills introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge in the field of

human resources.
This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MAN 3310 , MAN 3320 , MAN 3350 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

See the BAS Management and Supervision Program Flowchart.

Upper Division Requirements*

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and

readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4720 - Strategic Planning and Management

This course addresses the integration of organizational functions to achieve competitive advantage and organizational harmony through strategy formulation, implementation and evaluation. Activities include case studies and a strategic planning simulation. Topics include change theory, decision-making, planning models, and strategic planning processes as applied in a variety of business settings, units, and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3240 - Organizational Behavior

Designed to develop student understanding of individual, group and organizational issues that affect and shape businesses. Topics include motivation, communication, decision making, leadership, power, organizational structure, team performance, organization diversity and change management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 4333 - Marketing Strategy

This upper-level marketing course is aimed at the marketing functions of a business, with emphasis on how strategies are developed and how the marketing mix is created to meet the wants and needs of consumers. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing required and knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Total Core Requirements: 30

Total Core Requirements: 30

Required Courses for the Emphasis in Supervision

MAN 4520 - Quality Management

This course examines the strategic role of quality within an organization, as well as strategic issues involved in managing quality. Topics include assessing customer requirements, developing customer focus and measuring quality performance. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4940 - Capstone: Supervision

This capstone course will build upon and integrate the primary management skills and concepts introduced in prior emphasis courses. Students will have the opportunity to work on a hands-on project to demonstrate, apply, and develop their knowledge. This course will also cover basic entrepreneurial principles, which will be integrated throughout the student-led projects. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MAN 3593 , MAN 3903 , MAN 4720 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3903 - Operations Research

Operations Research is a science of modeling and optimization. It allows to model real-world problems by using mathematics, statistics and computers. It provides us the tools and theories to solve real-world problems by finding the optimal solutions to models subject to constraints of time, labor, resource, materials and business rules. With Operations Research, people make intelligent decisions to develop and manage their processes and businesses. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. STA 2023 , MAC 1140 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Emphasis Requirements: 12

Required courses for the Emphasis in Acquisitions

BUL 4333 - Contract Formation and Administration

Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4931 - Acquisition Law Seminar

This course addresses contract law as applicable to formation and administration of contracts with private and governmental agencies, with emphasis on the federal government. The following topics are also included: concepts of responsiveness and responsibility, bidding procedures, mistakes, negotiation procedures, changes, claims and dispute resolution. Students will explore the typical contracting problems that can lead to litigation. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3574 - Acquisition Management

Students will be exposed to the fundamentals of government acquisitions. This course provides conceptual material on government acquisitions, to include program planning, execution, and control. Students will be introduced to the elements of program risk and learn risk management techniques. The systems engineering process will be emphasized to include work breakdown structures, cost -- benefit analysis, and scheduling. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4930 - Capstone: Acquisition Management

In this seminar, students will have the opportunity to participate in hands-on projects applying the techniques in Acquisition Management. Emphasis will be on government acquisition management. Students will create a work-breakdown structure, a project schedule, and perform a cost-benefit analysis of alternatives. Earned value management will be introduced as a method of program control. Students will also identify potential risk areas and suggest mitigation plans. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

BUL 4333 , BUL 4931 , MAN 3574 and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to

business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The

theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAC 2233 - Business Calculus

MAN
MAR
PAD

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

Required courses for the Emphasis in Acquisitions

BUL 4333 - Contract Formation and Administration

Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on

the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4931 - Acquisition Law Seminar

This course addresses contract law as applicable to formation and administration of contracts with private and governmental agencies, with emphasis on the federal government. The following topics are also included: concepts of responsiveness and responsibility, bidding procedures, mistakes, negotiation procedures, changes, claims and dispute resolution. Students will explore the typical contracting problems that can lead to litigation. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3574 - Acquisition Management

Students will be exposed to the fundamentals of government acquisitions. This course provides conceptual material on government acquisitions, to include program planning, execution, and control. Students will be introduced to the elements of program risk and learn risk management techniques. The systems engineering process will be emphasized to include work breakdown structures, cost -- benefit analysis, and scheduling. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4930 - Capstone: Acquisition Management

In this seminar, students will have the opportunity to participate in hands-on projects applying the techniques in Acquisition Management. Emphasis will be on government acquisition management. Students will create a work-breakdown structure, a project schedule, and perform a cost-benefit analysis of alternatives. Earned value management will be introduced as a method of program control. Students will also identify potential risk areas and suggest mitigation plans. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

BUL 4333 , BUL 4931 , MAN 3574 and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and

forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Technical Electives Course Requirements: 18

Total Upper Division Credits Required*: 60

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and

keyboarding skills are strongly recommended.

MAN 3583 - Project Management

Required courses for the Emphasis in Acquisitions

BUL 4333 - Contract Formation and Administration
Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 4931 - Acquisition Law Seminar
This course addresses contract law as applicable to formation and administration of contracts with private and governmental agencies, with emphasis on the federal government. The following topics are also included: concepts of responsiveness and responsibility, bidding procedures, mistakes, negotiation procedures, changes, claims and dispute resolution. Students will explore the typical contracting problems that can lead to litigation. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Upper division standing and BUL 4333 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3574 - Acquisition Management
Students will be exposed to the fundamentals of government acquisitions. This course provides conceptual material on government acquisitions, to include program planning, execution, and control. Students will be introduced to the elements of program risk and learn risk management techniques. The systems engineering process will be emphasized to include work breakdown structures, cost -- benefit analysis, and scheduling. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4930 - Capstone: Acquisition Management
In this seminar, students will have the opportunity to participate in hands-on projects applying the techniques in Acquisition Management. Emphasis will be on government acquisition management. Students will create a work-breakdown structure, a project schedule, and perform a cost-benefit analysis of alternatives. Earned value management will be introduced as a method of program control. Students will also identify potential risk areas and suggest mitigation plans. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
BUL 4333 , BUL 4931 , MAN 3574 and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Total Core Requirements: 30

Required Courses for the Emphasis in Project Management

BUL 4333 - Contract Formation and Administration

Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4454 - Business in a High Technology Environment

Presents the special challenges and opportunities of managing a high technology firm or a traditional entity operating in the high technology environment; addresses software/information security, recruiting technical personnel, outsourcing, equipment security, updating equipment, telecommuting and similar issues. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and GEB 3031 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3120 - Leadership and Group Dynamics

An applied leadership course with a focus on case studies, projects and group interaction; includes theoretical background on group dynamics, small group behavior and motivation, power, types of groups, verbal and non-verbal communication skills and

team-building. Emphasis will be placed on sociological and psychological dimensions of inter-group relations, including analysis and problem-solving through simulations, cases and similar activities which reflect a general business perspective, as well as leadership and group dynamics across a variety of business units/functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and MAN 3052 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Project Management Emphasis: BUL 4333 , GEB 4454 , MAN 3120 , MAN 3583 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.
Quality Improvement Emphasis: MAN 3583 , MAN 3593 , MAN 4520 , MAN 4555 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Suggested Two Year Academic Plan

Upper Division Requirements

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This

course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Total Core Requirements: 30

Required Courses for the Emphasis in Project Management

BUL 4333 - Contract Formation and Administration

Students will be exposed to the differences in the public and private sector contracting environments. Emphasis will be placed on the fundamentals of contract formation including sealed bidding, negotiations, and best value methods. Students will learn the fundamentals of contract administration including inspection and acceptance, quality control, contract changes, and disputes. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and BUL 3320 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 4454 - Business in a High Technology Environment

Presents the special challenges and opportunities of managing a high technology firm or a traditional entity operating in the high technology environment; addresses software/information security, recruiting technical personnel, outsourcing, equipment security, updating equipment, telecommuting and similar issues. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

upper division standing and GEB 3031 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3120 - Leadership and Group Dynamics

An applied leadership course with a focus on case studies, projects and group interaction; includes theoretical background on group dynamics, small group behavior and motivation, power, types of groups, verbal and non-verbal communication skills and team-building. Emphasis will be placed on sociological and psychological dimensions of inter-group relations, including analysis and problem-solving through simulations, cases and similar activities which reflect a general business perspective, as well as leadership and group dynamics across a variety of business units/functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and MAN 3052 , and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Project Management Emphasis: BUL 4333 , GEB 4454 , MAN 3120 , MAN 3583 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Quality Improvement Emphasis: MAN 3583 , MAN 3593 , MAN 4520 , MAN 4555 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and

forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Required Courses for the Emphasis in Quality Improvement

MAN 4520 - Quality Management

This course examines the strategic role of quality within an organization, as well as strategic issues involved in managing quality. Topics include assessing customer requirements, developing customer focus and measuring quality performance. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4555 - Quality Certification: ISO 9000

A comprehensive study of internationally uniform quality standards (ISO 9000 and the steps to individual and organizational certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions and other certification topics. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Project Management Emphasis: BUL 4333 , GEB 4454 , MAN 3120 , MAN 3583 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.
Quality Improvement Emphasis: MAN 3583 , MAN 3593 , MAN 4520 , MAN 4555 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The

theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Required Courses for the Emphasis in Quality Improvement

MAN 4520 - Quality Management

This course examines the strategic role of quality within an organization, as well as strategic issues involved in managing quality. Topics include assessing customer requirements, developing customer focus and measuring quality performance. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4555 - Quality Certification: ISO 9000

A comprehensive study of internationally uniform quality standards (ISO 9000 and the steps to individual and organizational

certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions and other certification topics. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Project Management Emphasis: BUL 4333 , GEB 4454 , MAN 3120 , MAN 3583 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.
Quality Improvement Emphasis: MAN 3583 , MAN 3593 , MAN 4520 , MAN 4555 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning. This course requires a minimum grade of "C".

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Project Management Emphasis: BUL 4333 , GEB 4454 , MAN 3120 , MAN 3583 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.
Quality Improvement Emphasis: MAN 3583 , MAN 3593 , MAN 4520 , MAN 4555 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3593 - Logistics and Supply Chain Management

Logistics and Supply Chain Management provides an introduction to logistics concepts in both the business and government environment. The student will gain an appreciation of the various logistics missions encountered both in the business world and government acquisition and support programs. The key concept is that logistics is a process that adds value to the end product whether it is a commercial item for a customer or a system used by the government which must achieve a desired state of

readiness through an established or acquired infrastructure. Emphasis will be placed on the challenges related to providing logistical support for procurement, manufacturing, and life cycle support. The course will focus on supply chain strategies, logistics information systems, order fulfillment, inventory, demand forecasting, and collaborative planning. In addition, the student will be introduced to transportation constraints, third party logistics (3PL), warehousing, materials handling, international logistics and facility planning. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Emphasis Requirements: 12

Required Courses for the Emphasis in Quality Improvement

MAN 4520 - Quality Management

This course examines the strategic role of quality within an organization, as well as strategic issues involved in managing quality. Topics include assessing customer requirements, developing customer focus and measuring quality performance. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4555 - Quality Certification: ISO 9000

A comprehensive study of internationally uniform quality standards (ISO 9000 and the steps to individual and organizational certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions and other certification topics. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Project Management Emphasis: BUL 4333 , GEB 4454 , MAN 3120 , MAN 3583 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.
Quality Improvement Emphasis: MAN 3583 , MAN 3593 , MAN 4520 , MAN 4555 , and senior standing are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This

course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Required Courses for the Emphasis in Quality Improvement

MAN 4520 - Quality Management

This course examines the strategic role of quality within an organization, as well as strategic issues involved in managing quality. Topics include assessing customer requirements, developing customer focus and measuring quality performance. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4555 - Quality Certification: ISO 9000

A comprehensive study of internationally uniform quality standards (ISO 9000 and the steps to individual and organizational certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions and other certification topics. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (As Needed) Prerequisite(s):

Upper division standing is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 4931 - Capstone: Project Management

This seminar will build on the basic project management skills by introducing the basic tools used by project managers. The student will learn management techniques for project planning, budgeting, scheduling and control techniques, cost estimating and project management software applications. Students will be exposed to the relationship of purchasing and contracting with project management. This course requires a minimum grade of "C".

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Emphasis will be placed on project oversight issues across the various business units and functions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and GEB 3031 or MAN 3052 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

QMB 3250 - Quantitative Methods for Business Decisions

An examination of the quantitative methods, statistical concepts, and procedures used in business and finance including methods of maximization and minimization objective functions, the analysis and use of statistic methods for planning, decision making, and forecasting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Requirements: 30

Total Core Requirements: 30

Required Courses for the Emphasis in Technology Management

ISM 3220 - Network Technologies for Information Professionals

This course is designed to give the student an understanding of the various networking technologies and their practical application in the management of a business. The course also covers the technical issues involved in designing and implementing an efficient network for voice, data, and information networks. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and at least two information technology or computer science courses at a college or university level.

ISM 3232 - Software Essentials

This course covers a broad range of software topics as they apply to software management and systems analysis and design. Topics include, but are not limited to programming, the systems development life cycle (SDLC), systems management, interface design and Internet technology. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and at least two information technology or computer science courses at a college or university level. Knowledge of basic computer and keyboarding skills are strongly recommended.

ISM 3323 - Applications in Information Security

This course helps develop the important security concepts relative to software application development and access control that provide the knowledge and skills necessary for the successful management of information security in an organization. Students will understand the environment where software is designed and developed as well as the critical role software plays in providing security to an organization's information systems. The course focuses on software development concepts that relate to security, and how access control methodologies fit into the entire enterprise architecture. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and at least two information technology or computer science courses at a college or university level. Knowledge of basic computer and keyboarding skills are strongly recommended.

ISM 4011 - Information Systems Management

This course provides a study of the language, concepts, structures, and processes involved in management of information systems, including the fundamentals of computer-based technology and the use of business-based software for support of managerial decisions. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Upper division standing and at least two information technology or computer science courses at a college or university level.

Total Emphasis Requirements: 12

Total Emphasis Requirements: 12

Total Upper Division Credits Required*: 60

Core Requirements

ACG 3083 - Accounting: Concepts and Practice

This course explores the preparation and use of accounting information. Topics include mathematical procedures related to business decisions; terms and processes associated with the accounting cycle; financial statements for the sole-proprietorship, partnership and corporation; and foundations of managerial accounting. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing and ACG 2001 and MAC 2233 are recommended. Knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 3320 - Law and Business

An introduction to the legal setting in which modern business operates; emphasis is on public and regulatory law, basic contract law, the processes of administrative, statutory and common law and interstate commerce issues; includes an overview of the UCC and intellectual property. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Upper division standing is required and knowledge of basic computer and keyboarding skills are strongly recommended.

FIN 4402 - Financial and Economic Management

This course addresses the application of contemporary theory and practice in business resource allocation. Topics include: capital budgeting, equity and capital financing, capital management, analysis of financial statements, pricing theory, management of working capital and other topics relevant to the acquisition, financing and management of business assets and business decision making. Both the economic and financial perspectives will be presented. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Upper division standing and ACG 3083 are required. ECO 2013 , STA 2023 , and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3031 - Contemporary Business Practices

This course includes an orientation to and examination of opportunities and challenges facing managers in contemporary business organizations. Introduces the competencies of teamwork, communication, creative thinking, adapting to change, decision making and customer service through application to issues and problems across the general business spectrum. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3213 - Business and Administrative Communication

A comprehensive course in effective and efficient communications in the business world; includes preparation of reports, proposals and presentations, technical writing skills, composition of standard business documents including persuasive messages, sales letters, customer service correspondence, instructional memoranda, and policy and procedure development. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and ENC 1101 or departmental permission are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3434 - Ethics for Business Leaders

This course uses a case study approach to focus on the significant ethical and legal issues facing today's business leaders. The theoretical and philosophical background will be presented along with real-life examples of ethics in the workplace. Cases and readings will be used to develop both analysis and application skills in the following areas: corporate and personal decision making, organizational culture and reputation, social responsibility and social reporting, customer relations, employee relations, financial reporting, technology, privacy/confidentiality and communications. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 3444 - Business Trends and Issues

This course builds on the traditional themes and concepts of the general business area through specialized readings on trends and issues facing today's business and industry leaders. Students will read opinion pieces by noted in-field experts, as well as conduct basic research on contemporary issues such as information and workplace security, diversity in the workplace, outsourcing functions/services and global competition, with an eye to improving business operations. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3052 - Management Philosophy and Practice

A comprehensive study of contrasting philosophies of management, current theories of leadership, management and supervision, as well as current trends and issues for business managers; focuses on applications and cases for development of competencies

across all business functions and units; emphasis is placed on the cross-functional aspects of management, as well as the manager's need for a general business perspective. This course requires a minimum grade of "C".

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Upper division standing is required. Concurrent or prior enrollment in GEB 3031 and knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 3583 - Project Management

In this introductory Project Management course, students will be exposed to the fundamentals of general project management. This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution. Suggested Two Year Academic Plan

Elementary Education (BS)

Admission Program Objective Code BSED State CIP Code 1101312021
The first sixty credits in the following program of study are designed to prepare students not only for the A.A. degree, but also for the General Knowledge exam and Elementary Subject Area exam of the Florida Teacher Certification Exam (FTCE).
If you plan to be an elementary school teacher and are just beginning your A.A. degree, this program of study will best prepare you for that career choice. If you have already completed your A.A. degree and some of your general education courses differ from those listed below, your A.A. degree will still meet that component of the admission process; however, you may need to complete additional coursework, independent study, or workshops to be well prepared for the FTCE Elementary Subject Area exam. A passing score on the FTCE Elementary Subject Area exam is one of the graduation requirements for this degree. For a detailed summary of graduation requirements for this degree program, see the Bachelor of Science graduation requirement section.
Courses with the "C" designation include extra hours to accommodate field experiences.
Substitutions for any coursework in this program of study must be approved by the Teacher Education Program Director. Please note that some courses below may require lower division prerequisites not specified as program requirements. Requirements for Teacher Education programs may change due to legislative mandate. Candidates should request the most current requirements from the Teacher Education Program Director.

Lower Division (Associate Degree) Courses

General Education Course Requirements

Total General Education Credits Required: 36

State-Mandated Prerequisite

EDF 1005 - Introduction to the Teaching Profession

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
ENC 1101 AND (MAC 1105 or STA 2023)

Total State-Mandated Prerequisite Credits Required: 3

Additional Lower Division Coursework

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology, law and services available in connection with learners with disabilities such as: intellectual and developmental disabilities, learning disabilities, attention deficit hyperactive disorder, emotional or behavioral disorder, autism spectrum disorder, communication disorders, deaf or hard of hearing, blind, physical disabilities, other health impairments, and gifted and talented.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

AST ____ - Astronomy 3 Credit Hours

ESC 1000 - Earth Science

GLY ____ - Geological Science 4 Credit Hours

This course provides an introduction to materials, processes, and interactions of Earth's global environments – the lithosphere (solid earth), hydrosphere (water earth), atmosphere (gaseous earth), and biosphere (living earth). It also includes a survey of sciences pertaining to the Earth, including basic astronomy, meteorology, oceanography, and geology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

EVR 1001C - Environmental Science

A study of the physical and biological environment and man's ecology with emphasis upon contemporary biological problems.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Offered as needed) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAT 1033A - Intermediate Algebra

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

Total Additional Lower Division Credits Required: 21

Upper Division Courses

Program Content Courses

EDE 4226C - Integrated Language Arts, Social Science and Literature

This course is designed to prepare candidates to teach language arts and social science in elementary classrooms. Teacher candidates will develop units of study that integrate literature, language arts, with social science content. Emphasis is on constructivist principles and methodology. Teacher candidates will plan and deliver standards-based language arts and social science lessons designed to meet the needs of diverse learners including English language learners (ELLs) and students with exceptionalities. This course requires 18 hours of field experience in a K-6 classroom setting. Current background check (fingerprinting) acceptable to the district in which the field experience will take place is required for this course. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDE 4930C - Professional Elementary Educator

This course is designed to prepare the pre-service teacher to transition into the workplace. Includes resume writing, professional dress and demeanor, interview techniques, refining professional portfolio, class discussion of issues common to teacher interns, and review strategies for certification exams. This course requires a grade of "C" or better.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDF 3214 - Human Development and Learning

This course is designed to cover the principles of learning and student development with applications to learning/teaching situations. Identification and analysis of students' academic, physical, cognitive, emotional, motivational, and social development is to be emphasized. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDF 3430 - Measurement, Evaluation, and Assessment in Education

This course studies the basic principles and methods of measurement, evaluation, and methods of test construction. Students will interpret standardized test scores, construct teacher-made tests and other classroom assessments, and evaluate portfolio and performance assessment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

EDG 3343 - Instructional Strategies

This course provides an overview of instructional models and strategies. Emphasis is placed on principles of state standards, instructional methods, and lesson planning and instruction. Students will develop knowledge of instructional models and lesson plan construction for effective implementation including the diverse student populations. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C

EDG 3410C - Classroom Management, School Safety, Law, and Ethics

Pre-service teachers are provided strategies for managing a safe, stimulating learning environment for all learners. This course emphasizes school safety, law, and ethics as they apply to schools, districts, and the learning environment. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take

place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

EDG 4940 - Internship

Supervised teaching in a public or private school. Student teaching assignments will be made by the department of teacher education field placement coordinator. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 9 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing with permission of department chair.
EDE 4223 , EDE 4226C , EDF 3214 , EDF 3430 , EDG 3410C , EDG 3343 , EEX 3070 , LAE 4343C , MAE 3350C , RED 3309C , RED 3511C , RED 4312 , RED 4519C , SCE 3350C , TSL 3081C , TSL 4140C

EEX 3070 - Methods of Inclusion and Collaboration

This course examines the basic identification techniques and strategies used to promote academic and social integration and interaction of "mainstreamed" exceptional students. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EME 3410 - Integrating Technology in the Classroom

In this course, students will learn specific methods to design a technology-rich classroom for the 21st Century Learner. Students will explore models of technology integration, within math and science curricula, apps for classroom management, and technology tools for assistive/differentiated instruction. Students will learn how to perform administrative tasks more efficiently using cloud/web-based apps. Students will create technology-based products for the classroom utilizing learning management systems and applications. Individualization will allow each student to select and develop materials in their disciplines. The course requires a minimum grade of a "C."."

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3343 and EDG 3410C

LAE 4343C - Writing Across the Curriculum

This course prepares pre-service teachers by developing an understanding of the foundations of writing through the use of writers workshops and instructional strategies necessary to provide adequate instruction to emergent, novice, and transitional writers. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

MAE 3350C - Principles and Methods for Teaching Mathematics K-6

In this course, students will apply knowledge of teaching strategies, methods and materials for teaching mathematics in grades K-6. This course requires a minimum grade of "C". Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 3309C - Early and Emergent Literacy K-2

This course is designed to increase the understanding of early literacy development and the conditions which promote total literacy from birth through lower elementary grades. Language theory and current research are used to shape informed practices regarding literacy development. Connections are made among all aspects of literacy learning: reading, writing, listening, speaking and attitude development. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 3511C - Intermediate Literacy 3-6: Reading and Thinking

This course combines the theory and practice in the teaching of reading/literacy in the elementary intermediate grades. Procedures for meeting individual differences, differentiated instruction, selected use of materials, and classroom organizations will be examined. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C and upperdivision standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 4312 - Integration of Assessment into Classroom Reading

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on integrating assessments into the curriculum to strengthen instructional strategies and student success. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

RED 3309C , RED 3511C and upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 4519C - Diagnostic and Instructional Interventions in Reading

This course introduces formal and informal methods and materials used to identify reading strengths and weaknesses of students. Emphasis is placed on diagnosis of reading problems, administration of assessments, evaluation of results and planning instructional interventions to remediate reading difficulties. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C , RED 3511C and upperdivision standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

RED 4854C - Reading Field Experience

This course provides application of knowledge of reading development to reading instruction. Emphasis is placed on increased reading proficiency for struggling students, including students with disabilities and students from diverse populations. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

RED 3309C , RED 3511C , RED 4312 , RED 4519C , upper division standing with permission of department chair

SCE 3350C - Principles and Methods for Teaching Science K-6

This course provides techniques, methods and materials of instruction for teaching science in grades K-6. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

TSL 3081C - TESOL Issues and Practice

This course is designed to integrate the theories and principles of the Teaching of English to Speakers of Other Languages and applying them to classroom instruction. ESOL methodology and curriculum will be emphasized as they relate to current best practice in ESOL instruction. The student will increase and apply knowledge and skills in the Uniform Core Curriculum relevant to this content area. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

TSL 4140C - ESOL Methods, Curriculum and Assessment

This course is designed to build on the candidate's knowledge of applied linguistics and cross cultural communication. Candidates will extend their understanding of the role of language and culture in the classroom. This course will prepare candidates for effective planning, instruction, and assessment of ELLs in the classroom. This course requires a grade of "C" or better. Current background check (fingerprinting) acceptable to the District in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

TSL 3081C and upper division standing

Prereq/Corequisites:

EDG 3410C and EDG 3343

Total Upper Division Credits Required: 60

Total Program Credits Required: 120

Suggested Two Year Academic Plan

Accounting Technology (AS)

Admission Program of Study Code ACCT State CIP Code 1552030201
*This program is available fully online
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Accounting Technology Management (CCC) (State CIP Code 0552030205).

General Education

Total General Education Credits Required: 18

Core Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a

business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2450 - Computer Applications for Accounting

An introductory course in computerized integrated accounting procedures found in the microcomputer environment. Includes application of software designed for general ledger, accounts payable and receivable, financial statement analysis, purchasing and sales order processing, fixed assets, payroll, inventory and departmental accounting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACO 1806 - Payroll Accounting

Introduction to the theory, laws and procedures related to payroll activities of a business. Topics include payroll and personnel records, federal payroll laws, payroll operations, computerized payroll systems, and preparation of payroll registers, earnings records, and payroll tax forms.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is strongly recommended and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

passing score on placement test.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

TAX 2000 - Federal Income Tax: Individual

Federal Income Taxes. Determine income tax for individuals, interpretations of Internal Revenue Code and Regulation, tax planning and advisory service. Brief introduction to partnership, corporation, estate and gift taxes. Extensive practice problems in individual income tax returns and research in tax questions.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MTB 1103 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 36

Technical Elective Courses

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2023 - Economics II

This course covers microeconomics, including economic structures, price theory, factor markets, and general equilibrium. It also includes the economics of information, externalities, and other current national and international issues.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ECO 2013 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management
Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications
Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

STA 2023 - Statistics
This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Core Courses

MUM 2300 - Introduction to the Music Industry

This course is an introduction to the history, principles, and practices of the music industry. Topics will include music publishing, copyright, distribution, industry organization, producing, and general business functions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

MUM 2600 - Recording Techniques I

This course is designed as an introduction to basic audio engineering and studio practices. Listening exercises, phychoacoustics, microphone characteristics, and studio etiquette will be studied. In addition the student will study techniques and practices and procedures of multi-track recording, acoustical balancing, editing, and over dubbing in a variety of situations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

MUM 1620

MUM 2601 - Recording Techniques II

This course explores advanced multi-track recording skills and audio production techniques, edits, use of outboard equipment and live multi-track recording.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MUM 1620 , MUM 2600 .

MUM 2604 - Multi-Track Mixdown (Post Production)

____ ____ Other Approved College Credits (MUL, MUM, MUN, MUS, MUT, MVB, MVK, MVP, MVS, MVV, MVW) 3 Credit Hours

This course explores the application of signal processing equipment as it relates to multi-track master mixdowns. In addition, software and hardware application of mixdown is applied to post-production practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MUM 1620 , MUM 2600 , MUM 2601 .

Technical Elective Courses

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 2104 - Introduction to Windows

An introduction to operating systems in general with emphasis on Windows.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

HFT 1000 - Introduction to Hospitality Management

This course is an overview of the hospitality industry, and the many different segments of the hospitality and tourism segments are discussed. Scope, size and industry trends are examined. Theories, examples and industry case studies are used to provide students with examples of problem solving tools of management. Basic industry terminology and management concepts are studied. The important role of service is stressed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2021 - Professional Selling

Selling, correct attitudes and personal attributes for dealing with the public on a business or professional basis.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2041 - Retail Management

This course covers retail store management, location, buying merchandise, control policies, services, pricing, expenses, profits, training and supervision of retail sales forces, and administrative problems. Also includes a variety of current perspectives in retailing management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MKA 2511 - Introduction to Advertising

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

Core Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the

study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

passing score on placement test.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the

market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 27

Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1201 - Infants and Toddlers

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1601 - Assessment in Early Childhood Education

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EEC 1750 - Guidance for Young Children

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

EEC 1949 - Internship, Early Childhood Education

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

EEC 1309 or EEC 1201 .

EEC 2220 - Language and Literacy Instruction In Early Childhood Education

Study of the principles, methods, and materials used to assist young children acquire basic skills to use language effectively and competently; evaluation and development of appropriate teaching materials to use with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

EEC 1309

EEC 2222 - Math and Science Instruction In Early Childhood Education

Study of the basic concepts, methods, and materials of mathematics and science appropriate to the education of young children. Identification of the role of staff members in the center for the education of young children. Assignment with young children in community agencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring and as needed) Prerequisite(s):

EEC 1309 .

EEC 2732 - Child Nutrition, Health and Safety

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology, law and services available in connection with learners with disabilities such as: intellectual and developmental disabilities, learning disabilities, attention deficit hyperactive disorder, emotional or behavioral disorder, autism spectrum disorder, communication disorders, deaf or hard of hearing, blind, physical disabilities, other health impairments, and gifted and talented.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

CNC Machinist/Fabricator (CCC)

Admission Program of Study Code CNMM State CIP Code 0648051002
Students who successfully complete this certificate may be eligible to receive credits towards the Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS) degree (State CIP Code 1615000001).

Core Courses

PMT 1203C - Introduction to Machining

This course introduces the student to basic mechanic fundamentals. Instructional topics will include hand tool identification and application, fabrication machine identification and application, drill press identification and application, and shop safety.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PMT 1250C - Introduction to CNC Machining

The history and development of CNC (computer numerical control). Programming methods are reviewed with the emphasis of skills placed on programming, milling, drilling and turning with M and G code preparation. Manual and computer assisted programming are also reviewed. Students will program, set up and operate full size CNC machines found in our manufacturing lab. Projects will be assigned to students with an expectation of performing these tasks on manufacturing equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PMT 2261C - CNC Machining I

This course provides training in cnc machine operation and programming. The student will gain technical knowledge and programming methods employed in cnc machining centers. CNC machine programming, set-up and operations are taught using computer and hands on applications. Metal fabrication processes are taught through lectures, demonstration and student generated projects. Completion of this course offers students technical skills as a cnc operator processes to be applied in various machining and fabrication industries.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PMT 1250C or equivalent.

PMT 2262C - CNC Machining II

This course will offer students a working knowledge of Solidworks and Solidworks Cam. An in-depth study of Cad/Cam software, CNC processing methods and the set-up of CNC machining centers. The course lectures and lab offer students hands-on applications using Solidworks generated projects processed with Solidworks cam tool path software to generate various projects. The student will also learn to calculate machining feeds and speeds, edit CNC programs and part production for mill and lathe.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PMT 2261C or eqivalent experience.

Total Program Credits Required: 12

Suggested Academic Plan

Computer Programmer (CCC)

Admission Program of Study Code CMPG State CIP Code 0511020200

Students who successfully complete this certificate may be eligible to receive credits towards the Computer Programming and Analysis (AS) degree (State CIP Code 1511020101).

Core Courses

CGS 2820 - Web Design

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 1000 - Introduction to Programming Concepts and Logic

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2010 - Visual Basic Programming

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2220 - Programming in C

An introduction to C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2224 - Programming in C++

An introduction to C++ programming using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2700 - Introduction to SQL

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2800 - Introduction to Java Programming

An introduction to programming using the Java language. Students will develop and apply individual programs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 21

Total Program Credits Required: 33

Technical Elective Courses

CIS 1940 - Internship in Computer Studies (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

COP 2011 - Advanced Applications Programming in Visual Basic

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2176 - Visual Basic ADO.Net

The aim of this course is to provide an advanced level of knowledge in database programming using Visual Basic's ADO.Net, using normalization, object and relational types, modeling, data validation, and structured query language (SQL) in creating database applications.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2010 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Corequisite(s):

CGS 2544 , COP 2011 .

COP 2030 - Programming In Python

An Introduction to Python programming language using microcomputers. Topics include Python basics, use of Python control and data structures, use of Python function, Python 110, and implementation of basic programming tasks.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2222 - Advanced Programming in C

An advanced exploration of the C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2228 - Advanced Programming in C++

An advanced exploration of the C++ programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2360 - Programming in C Sharp (C#)

An introduction to the C# programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2805 - Advanced Java Programming

An advanced level programming course using advanced Java techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2840 - Web-based Programming I
This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2362 - Advanced Programming in C Sharp (C#)
This hands-on course examines how to utilize advanced features in the .NET Framework using the C# programming language, in order to build sophisticated applications. Students will work with advanced object-oriented programming topics, including inheritance, partial classes and generics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 2360 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2702 - Introduction to PL-SQL
An introduction to PL-SQL and the design and creation of object-oriented databases (using PL-SQL). Topics include storing, retrieving, updating and displaying data using PL-SQL and Oracle.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 IS REQUIRED AND KNOWLEDGE OF BASIC COMPUTER AND KEYBOARDING SKILLS ARE STRONGLY RECOMMENDED.

Total Technical Elective Credits Required: 12

Total Program Credits Required: 33

Suggested Academic Plan

Computer Programming and Analysis (AS)

Admission Program Objective Code CPRO State CIP Code 1511020101
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Computer Programmer (CCC) (State CIP Code 0511020200) and/or Computer Programming Specialist (CCC) (State CIP Code 0511020103).

General Education

COP 2220 - Programming in C

An introduction to C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2224 - Programming in C++

An introduction to C++ programming using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2700 - Introduction to SQL

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2800 - Introduction to Java Programming

An introduction to programming using the Java language. Students will develop and apply individual programs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2805 - Advanced Java Programming

An advanced level programming course using advanced Java techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

Total Core Credits Required: 27

Total Core Credits Required: 27

Technical Elective Courses

CGS 2541 - Introduction to Database Concepts

This course will provide an introduction to data modeling and the design and implementation of relational databases and extend the students' understanding of the principles and techniques used in the design and implementation of modern database systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CIS 1000 - Introduction to Computer Science

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CIS 1940 - Internship in Computer Studies (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2840 - Web-based Programming I

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2362 - Advanced Programming in C Sharp (C#)

This hands-on course examines how to utilize advanced features in the .NET Framework using the C# programming language, in order to build sophisticated applications. Students will work with advanced object-oriented programming topics, including inheritance, partial classes and generics.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2360 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2702 - Introduction to PL-SQL

An introduction to PL-SQL and the design and creation of object-oriented databases (using PL-SQL). Topics include storing, retrieving, updating and displaying data using PL-SQL and Oracle.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 IS REQUIRED AND KNOWLEDGE OF BASIC COMPUTER AND KEYBOARDING SKILLS ARE STRONGLY RECOMMENDED.

Total Technical Elective Credits Required: 15

Total Technical Elective Credits Required: 15

Total Program Credits Required: 60

Computer Programming Specialist (CCC)

Admission Program of Study Code CMPS State CIP Code 0511020103
Students who successfully complete this certificate may be eligible to receive credits towards the Computer Programming and Analysis (AS) degree (State CIP Code 1511020101).

Core Courses

CGS 2820 - Web Design

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 1000 - Introduction to Programming Concepts and Logic

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2224 - Programming in C++

An introduction to C++ programming using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2800 - Introduction to Java Programming

An introduction to programming using the Java language. Students will develop and apply individual programs.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 12

Total Core Credits Required: 12

Technical Elective Courses

CIS 1000 - Introduction to Computer Science

A broad survey of computing and computer science topics appropriate for computer science, computer engineering, and information systems students. Math placement at the college algebra level strongly advised.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CIS 1940 - Internship in Computer Studies

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.
* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

COP 2010 - Visual Basic Programming

This course introduces programming in Visual Basic.Net. The student will learn to create innovative and dynamic data structures using Rapid Application Development techniques. Topics to be discussed include: graphical user interface development and object-oriented programming.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2011 - Advanced Applications Programming in Visual Basic

This course introduces the advanced features of Visual Basic.Net. The student will learn to create advanced versions of innovative and useful Windows programs using Rapid Application Development techniques. Topics to be discussed include: basic and advanced graphical user interface development; sequential file processing; advanced object-oriented programming; ActiveX components; advanced database management development including interfacing to external applications and Visual Basic's internal database manager; multimedia, networking; and advanced data structures.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2220 - Programming in C

An introduction to C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2222 - Advanced Programming in C

An advanced exploration of the C programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2220 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2228 - Advanced Programming in C++

An advanced exploration of the C++ programming language using microcomputers.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

COP 2224 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2700 - Introduction to SQL

An introduction to SQL and the design and creation of object-oriented databases (using SQL). Topics include storing, retrieving, updating and displaying data using Structured Query Language (SQL).

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 1000 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2805 - Advanced Java Programming

An advanced level programming course using advanced Java techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

COP 2800 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2840 - Web-based Programming I

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Suggested Academic Plan

Correctional Officer (Basic) (CCP)

Admission Program of Study Code CORR State CIP Code 0743010200
Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Core Courses

CJK 0031 - First Aid for Criminal Justice Officers

This course is a component of the Law Enforcement and Correctional Officer Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement or the Correctional Officer Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - Criminal Justice Firearms

This course is a component of the Florida Law Enforcement or Correctional Officer Academy. This course is designed to give the student basic skills and knowledge needed to safety operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Florida Law Enforcement or Correctional Officer Academy.

Credit Hour(s): 80 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Criminal Justice Defensive Tactics

This course is a component of the Florida Law Enforcement or Correctional Officer Academy. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Florida Law Enforcement or Correctional Officer Academy.

Credit Hour(s): 80 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0300 - Introduction to Corrections

This course introduces students to the legal and ethical responsibilities of a correctional officer. Legal terms and definitions are explained. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0305 - CJSTC Communications

This course covers the entire report writing process. Topics include interview and interrogation, interpersonal communication, and practical exercises. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0310 - Officer Safety

Correctional officer safety procedures are learned. Students will learn to identify potential hazards and learn how to safely respond. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0315 - Facility and Equipment

Students learn the appropriate procedures for inspecting a correctional facility and equipment. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0320 - Intake and Release

Students learn the appropriate procedures for admitting and releasing inmates in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0325 - Supervising in a Correctional Facility

Students learn the appropriate procedures for supervising inmates in a correctional facility. They also learn to detect crimes and rule violations in various correctional facility settings. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0330 - Supervising Special Populations

Students learn how to identify and supervise special population groups, such as threat groups, juveniles, elderly, and mentally ill inmates. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0335 - Responding to Incidents and Emergencies

Students learn how to identify and respond to situations involving escapes, riots, bomb threats, fires, and medical emergencies in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0340 - Corrections CCP Physical Fitness

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 436

CJK 0325 - Supervising in a Correctional Facility

Students learn the appropriate procedures for supervising inmates in a correctional facility. They also learn to detect crimes and rule violations in various correctional facility settings. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0330 - Supervising Special Populations

Students learn how to identify and supervise special population groups, such as threat groups, juveniles, elderly, and mentally ill inmates. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0335 - Responding to Incidents and Emergencies

Students learn how to identify and respond to situations involving escapes, riots, bomb threats, fires, and medical emergencies in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0340 - Corrections CCP Physical Fitness

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Core Courses

CJK 0031 - First Aid for Criminal Justice Officers

This course is a component of the Law Enforcement and Correctional Officer Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement or the Correctional Officer Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - Criminal Justice Firearms

This course is a component of the Florida Law Enforcement or Correctional Officer Academy. This course is designed to give the student basic skills and knowledge needed to safety operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Florida Law Enforcement or Correctional Officer Academy.

Credit Hour(s): 80 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Criminal Justice Defensive Tactics

This course is a component of the Florida Law Enforcement or Correctional Officer Academy. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Florida Law Enforcement or Correctional Officer Academy.

Credit Hour(s): 80 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0300 - Introduction to Corrections

This course introduces students to the legal and ethical responsibilities of a correctional officer. Legal terms and definitions are explained. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 33 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0305 - CJSTC Communications

This course covers the entire report writing process. Topics include interview and interrogation, interpersonal communication, and practical exercises. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0310 - Officer Safety

Correctional officer safety procedures are learned. Students will learn to identify potential hazards and learn how to safely respond. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0315 - Facility and Equipment

Students learn the appropriate procedures for inspecting a correctional facility and equipment. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0320 - Intake and Release

Students learn the appropriate procedures for admitting and releasing inmates in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0325 - Supervising in a Correctional Facility

Students learn the appropriate procedures for supervising inmates in a correctional facility. They also learn to detect crimes and rule violations in various correctional facility settings. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 42 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0330 - Supervising Special Populations

Students learn how to identify and supervise special population groups, such as threat groups, juveniles, elderly, and mentally ill inmates. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 21 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0335 - Responding to Incidents and Emergencies

Students learn how to identify and respond to situations involving escapes, riots, bomb threats, fires, and medical emergencies in a correctional facility. This course is open only to students admitted to the Correctional Officer Basic Recruit Academy.

Credit Hour(s): 18 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0340 - Corrections CCP Physical Fitness

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Dental Assisting (CCP)

Admission Program of Study Code DENT State CIP Code 0351060112
Basic Skills Requirements: The student must be exempt or attain a 10th grade level on each section of the TABE exam: Math, Language and Reading.
This program is a Selective Admission program subject to additional program policies and requirements stipulated in the "Dental Assisting Student Handbook." The admission criteria and process, as well as some course numbers and credits are subject to change; students should contact the Dental Assisting program office for the most current information.
The program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval without reporting requirements". The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission's web address is: http://www.ada.org/en/coda. The next site visit is in 2025.
Students who successfully complete this program and pass the Dental Assisting National Board (DANB) Certificate (CDA) may apply 21 credits towards the Technical Elective requirements for the Health Services Management (AS) degree (State CIP Code 135070100).

Core Courses

DEA 0020 - Pre-Clinical Procedures Theory

This course is designed to provide an introduction to the dental assisting profession to include orientation to four handed dentistry and general dental office procedures including, but not limited to basic principles of disease prevention, patient data collection and assessment, and instrumentation. Emphasis is on adhering to safety guidelines as specified by OSHA.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0020L - Pre-Clinical Practice Lab

This is a comprehensive chair side competency based course. The course provides the skills practice necessary for dental assisting students entering four handed dentistry practice including but not limited to infection control, taking and recording vital signs, assisting with operative procedures, principles of preventive dentistry, instrument identification, and use and maintenance of equipment. Emphasis is on aseptic technique and clinical competency with procedures performed in a contemporary dental practice.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020 , DES 0103L and DES 0103

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0130 - Oral Pathology

This course is a general study of the scientific and clinical concepts that include additional knowledge base necessary to the practice of dental assisting. Students will study the normal and abnormal conditions of the oral cavity such as dental caries prevention, the dental caries process and recognition of various common pathological conditions. Oral pathology, histology and embryology are included. Emphasis is on the interrelationship of the information presented with the clinical practice of dental assisting.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0803L - Clinical Practice I

This competency based clinical course provides a real world setting in which to integrate the laboratory and clinical skills learned in the classroom. The student receives closely supervised hands on training in chair side dental assisting through rotations at community dental offices. Progress is evaluated using predetermined competency guidelines. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 90 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0103 , DES 0103L , DES 0400 , DES 0844

Corequisite(s):

DES 0205 , DES 0205L , DES 0830

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0852L - Clinical Practice II

This course is a continuation of Clinical Practice I. It provides a real world setting for students to receive additional training in the clinical skills learned in class. Students are assigned to various offices in the community including but not limited to general dentists, oral surgeons, orthodontists, periodontists, and endodontists. Performance evaluations are utilized to measure competency and provide feedback from the local dental offices to the instructor regarding the students' competency level. Skills are strengthened in Seminar Lab. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 150 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 180 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0205 DES 0205L DEA 0020 DEA 0020L DES 0103 DES 0103L DEA 0803L DES 0400 DES 0844 DES 0602

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0936 - Dental Assisting Seminar

This course is designed to provide a review of materials commonly covered on the Dental Assisting National Board (DANB) Exam. Topics include but are not limited to infection control, general chair side procedures, and radiographic technique. The seminar will provide a mock board examination, and opportunities for review, problem solving, and strengthening skills. The course also serves as an opportunity for feedback from students' Clinical Practice.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0852L , DEA 0803L , DES 0205 , DES 0205L

Corequisite(s):

DEA 0803L , DES 0206L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103 - Dental Materials

This course is a comprehensive study of the theory of manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. The competency based lab that accompanies this course includes exercises to illustrate application and use of selected materials. Students will study various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, as well as acrylic plastics. Students will become familiar with various pieces of dental laboratory equipment and their uses.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0103L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103L - Dental Materials Lab

This course is a comprehensive study of the manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. Emphasis is on practical application as it relates to the role of the dental assistant in the contemporary dental practice. It is a competency based lab that accompanies the theory course and includes exercises to illustrate application and uses of selected materials. Students practice the use of various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, and acrylic plastics.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0103

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205 - Dental Radiology I

This course is designed to introduce the theory, application and principles of radiographic exposure and processing techniques used in dentistry. Students will receive instruction including but not limited to historical data, radiation safety, exposure, processing, mounting and error prevention. Image interpretation of radiographic anatomical structures will be included.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400 , DEA 0020 , DEA 0020L

Corequisite(s):

DES 0205L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205L - Dental Radiology Laboratory I

This laboratory course assists students in radiographic performance techniques using DXTR manikins to achieve competency prior to exposure of various patients with varied dentitions. Students practice exposing, mounting, radiographic interpretation, safe darkroom procedures, identification of landmarks and distinguishing radiographic pathology from normal landmarks. Clinical radiographic skills necessary to produce diagnostic quality radiographs including bitewings, periapical radiographs, and panoramic x-rays will be covered. Emphasis is on patient and operator safety guidelines and producing diagnostic quality radiographs.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400 , DEA 0020 , DEA 0020L

Corequisite(s):

DES 0205 .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206L - Dental Radiology Laboratory II

This laboratory course assists students in additional radiographic performance techniques to include surveys on patients with varied dentitions. Students practice advanced radiographic exposure techniques, interpretation, additional darkroom procedures, identification of landmarks and distinguishing various radiographic pathology. Clinical radiographic skills necessary to produce diagnostic quality x-rays including bitewing, radiographs, periapical radiographs, and panoramic surveys on actual patients are implemented. Emphasis is placed on patient and operator safety guideline and producing diagnostic quality radiographs. This course will involve live patients, scheduling appointments and presenting prescriptions for x-rays from local dentist.

Credit Hour(s): 30 Clock Hours When Offered: (Summer) Prerequisite(s):

DES 0400 , DES 0205 , DES 0205L

Corequisite(s):

DES 0206

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0400 - Dental Anatomy

This course provides a detailed study of the orofacial and related structures of the head and neck including, but not limited to the eruption, identification and function of the human dentition, study of bony, circulatory, muscular and nervous systems of the head, neck and surrounding structures associated with the oral cavity. A brief introduction to oral histology and embryology will be

included.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0501 - Dental Practice Management

This course includes theory and content relating to practical administrative duties performed in the dental office. Lectures and role playing activities are related to the responsibilities of the dental assistant. Topics include but are not limited to appointment scheduling, billing, collections, record keeping, clerical and dental supply inventory. Students are introduced to the use of dental practice software with hands on computer experience. Legal responsibilities, interpersonal relations, and interview skills are included.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0602 - Pharmacology and Dental Office Emergencies

This course is designed to familiarize the dental assisting student with the basic concepts and considerations regarding pharmacology and pharmaceutics used in dentistry. Topics presented include nitrous oxide monitoring, emergency procedures and protocol. Lectures will include recognition of emergency conditions in the dental office, not limited to syncope, anaphylaxis, and cardiovascular incidents. Emphasis is placed on the role of the dental assistant in the prevention and management of dental office emergencies.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830 - Expanded Function Theory

This course introduces the dental assisting student to the dental specialty practices and more advanced clinical skills. It also provides the theory of dental specialty practice administration as it relates to the role of the dental assistant including ethical and legal ramifications. Lectures relate topics including but not limited to dental specialty procedures, instruments used in the specialty practices and duties delegated to dental assistants according to the rules and regulations of the Florida Dental Practice Act. Role playing and problem solving activities using case studies relate to duties delegated to dental assistants.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0400 , DES 0103 , DES 0103L

Corequisite(s):

DES 0830L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830L - Expanded Functions Lab

This laboratory course accompanies the clinical practice lecture course DES 0830 and provides opportunity for students to practice application of the duties delegated to dental assistants according to the Florida Dental Practice Act. Students become more proficient in more advanced skills. Competencies containing information and behavioral objectives allow students to master each skill before advancing to the next.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 DEA 0020L DES 0103 DES 0103L DES 0400

Corequisite(s):

DES 0830

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0844 - Infection Control for Dental Assistants

This course is a general study in biomedical sciences of preventive dentistry to familiarize the dental assisting student with basic principles of microbiology, basic body structures, and their functions and effects as manifested in the oral cavity. The course also covers the effects of nutrition and the role of microorganisms in dental health and blood borne pathogens.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020 , DEA 0020L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206 - Dental Radiology Theory II

Students will learn to identify the normal landmarks of intraoral and extra oral images. They will also be able to demonstrate the ability to interpret x-rays and recognize and identify abnormalities on dental images. Students will learn how to discuss their finding with a dentist, without overstepping the boundaries of diagnosing, from a dental image. Students will be able to explain the differences in cancellous and cortical bone. Students will be able to use an x-ray to identify different restoration types and irregularities in those restorations. Students will be able to point and identify trauma, pulpal lesions and periapical lesions on an x-ray.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0205 , DES 0205L , and DES 0400

Corequisite(s):

DES 0206L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0132 - Dental Nutrition

This is a comprehensive course designed to integrate nutrition into diagnosis, care and treatment of dental patients. It also focuses on the relationships between dental disease, lifestyles, eating habits and oral health.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0400

Total Program Hours Required: 1230

Total Program Hours Required: 1230

Suggested Academic Plan

Core Courses

DEA 0020 - Pre-Clinical Procedures Theory

This course is designed to provide an introduction to the dental assisting profession to include orientation to four handed dentistry and general dental office procedures including, but not limited to basic principles of disease prevention, patient data collection and assessment, and instrumentation. Emphasis is on adhering to safety guidelines as specified by OSHA.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0020L - Pre-Clinical Practice Lab

This is a comprehensive chair side competency based course. The course provides the skills practice necessary for dental assisting students entering four handed dentistry practice including but not limited to infection control, taking and recording vital signs, assisting with operative procedures, principles of preventive dentistry, instrument identification, and use and maintenance of equipment. Emphasis is on aseptic technique and clinical competency with procedures performed in a contemporary dental practice.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020 , DES 0103L and DES 0103

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0130 - Oral Pathology

This course is a general study of the scientific and clinical concepts that include additional knowledge base necessary to the practice of dental assisting. Students will study the normal and abnormal conditions of the oral cavity such as dental caries prevention, the dental caries process and recognition of various common pathological conditions. Oral pathology, histology and embryology are included. Emphasis is on the interrelationship of the information presented with the clinical practice of dental assisting.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0803L - Clinical Practice I

This competency based clinical course provides a real world setting in which to integrate the laboratory and clinical skills learned in the classroom. The student receives closely supervised hands on training in chair side dental assisting through rotations at community dental offices. Progress is evaluated using predetermined competency guidelines. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 90 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 150 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0103 , DES 0103L , DES 0400 , DES 0844

Corequisite(s):

DES 0205 , DES 0205L , DES 0830

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0852L - Clinical Practice II

This course is a continuation of Clinical Practice I. It provides a real world setting for students to receive additional training in the clinical skills learned in class. Students are assigned to various offices in the community including but not limited to general dentists, oral surgeons, orthodontists, periodontists, and endodontists. Performance evaluations are utilized to measure competency and provide feedback from the local dental offices to the instructor regarding the students' competency level. Skills are strengthened in Seminar Lab. Students must provide their own transportation, current CPR training, and up-to-date immunization records. Specific procedure requirements and 150 clinical rotation hours (minimum) must be fulfilled to successfully complete this course.

Credit Hour(s): 180 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0205 DES 0205L DEA 0020 DEA 0020L DES 0103 DES 0103L DEA 0803L DES 0400 DES 0844 DES 0602

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0936 - Dental Assisting Seminar

This course is designed to provide a review of materials commonly covered on the Dental Assisting National Board (DANB) Exam. Topics include but are not limited to infection control, general chair side procedures, and radiographic technique. The seminar will provide a mock board examination, and opportunities for review, problem solving, and strengthening skills. The course also serves as an opportunity for feedback from students' Clinical Practice.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0852L , DEA 0803L , DES 0205 , DES 0205L

Corequisite(s):

DEA 0803L , DES 0206L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103 - Dental Materials

This course is a comprehensive study of the theory of manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. The competency based lab that accompanies this course includes exercises to illustrate application and use of selected materials. Students will study various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, as well as acrylic plastics. Students will become familiar with various pieces of dental laboratory equipment and their uses.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0103L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0103L - Dental Materials Lab

This course is a comprehensive study of the manipulation, physical and chemical properties of materials used in the diagnosis, prevention and treatment of oral disease. Emphasis is on practical application as it relates to the role of the dental assistant in the contemporary dental practice. It is a competency based lab that accompanies the theory course and includes exercises to illustrate application and uses of selected materials. Students practice the use of various materials including but not limited to impression materials, waxes, filled and unfilled resins, dental amalgams, gypsum, and acrylic plastics.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0103

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205 - Dental Radiology I

This course is designed to introduce the theory, application and principles of radiographic exposure and processing techniques used in dentistry. Students will receive instruction including but not limited to historical data, radiation safety, exposure, processing, mounting and error prevention. Image interpretation of radiographic anatomical structures will be included.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400 , DEA 0020 , DEA 0020L

Corequisite(s):

DES 0205L .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0205L - Dental Radiology Laboratory I

This laboratory course assists students in radiographic performance techniques using DXTR manikins to achieve competency prior to exposure of various patients with varied dentitions. Students practice exposing, mounting, radiographic interpretation, safe darkroom procedures, identification of landmarks and distinguishing radiographic pathology from normal landmarks. Clinical radiographic skills necessary to produce diagnostic quality radiographs including bitewings, periapical radiographs, and panoramic x-rays will be covered. Emphasis is on patient and operator safety guidelines and producing diagnostic quality radiographs.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DES 0400 , DEA 0020 , DEA 0020L

Corequisite(s):

DES 0205 .

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206L - Dental Radiology Laboratory II

This laboratory course assists students in additional radiographic performance techniques to include surveys on patients with varied dentitions. Students practice advanced radiographic exposure techniques, interpretation, additional darkroom procedures, identification of landmarks and distinguishing various radiographic pathology. Clinical radiographic skills necessary to produce diagnostic quality x-rays including bitewing, radiographs, periapical radiographs, and panoramic surveys on actual patients are implemented. Emphasis is placed on patient and operator safety guideline and producing diagnostic quality radiographs. This course will involve live patients, scheduling appointments and presenting prescriptions for x-rays from local dentist.

Credit Hour(s): 30 Clock Hours When Offered: (Summer) Prerequisite(s):

DES 0400 , DES 0205 , DES 0205L

Corequisite(s):

DES 0206

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0400 - Dental Anatomy

This course provides a detailed study of the orofacial and related structures of the head and neck including, but not limited to the eruption, identification and function of the human dentition, study of bony, circulatory, muscular and nervous systems of the head, neck and surrounding structures associated with the oral cavity. A brief introduction to oral histology and embryology will be included.

Credit Hour(s): 90 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0501 - Dental Practice Management

This course includes theory and content relating to practical administrative duties performed in the dental office. Lectures and role playing activities are related to the responsibilities of the dental assistant. Topics include but are not limited to appointment scheduling, billing, collections, record keeping, clerical and dental supply inventory. Students are introduced to the use of dental practice software with hands on computer experience. Legal responsibilities, interpersonal relations, and interview skills are included.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0602 - Pharmacology and Dental Office Emergencies

This course is designed to familiarize the dental assisting student with the basic concepts and considerations regarding pharmacology and pharmaceutics used in dentistry. Topics presented include nitrous oxide monitoring, emergency procedures and protocol. Lectures will include recognition of emergency conditions in the dental office, not limited to syncope, anaphylaxis, and

cardiovascular incidents. Emphasis is placed on the role of the dental assistant in the prevention and management of dental office emergencies.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830 - Expanded Function Theory

This course introduces the dental assisting student to the dental specialty practices and more advanced clinical skills. It also provides the theory of dental specialty practice administration as it relates to the role of the dental assistant including ethical and legal ramifications. Lectures relate topics including but not limited to dental specialty procedures, instruments used in the specialty practices and duties delegated to dental assistants according to the rules and regulations of the Florida Dental Practice Act. Role playing and problem solving activities using case studies relate to duties delegated to dental assistants.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0400 , DES 0103 , DES 0103L

Corequisite(s):

DES 0830L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0830L - Expanded Functions Lab

This laboratory course accompanies the clinical practice lecture course DES 0830 and provides opportunity for students to practice application of the duties delegated to dental assistants according to the Florida Dental Practice Act. Students become more proficient in more advanced skills. Competencies containing information and behavioral objectives allow students to master each skill before advancing to the next.

Credit Hour(s): 60 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 DEA 0020L DES 0103 DES 0103L DES 0400

Corequisite(s):

DES 0830

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0844 - Infection Control for Dental Assistants

This course is a general study in biomedical sciences of preventive dentistry to familiarize the dental assisting student with basic principles of microbiology, basic body structures, and their functions and effects as manifested in the oral cavity. The course also covers the effects of nutrition and the role of microorganisms in dental health and blood borne pathogens.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DEA 0020 , DEA 0020L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college

credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DES 0206 - Dental Radiology Theory II

Students will learn to identify the normal landmarks of intraoral and extra oral images. They will also be able to demonstrate the ability to interpret x-rays and recognize and identify abnormalities on dental images. Students will learn how to discuss their finding with a dentist, without overstepping the boundaries of diagnosing, from a dental image. Students will be able to explain the differences in cancellous and cortical bone. Students will be able to use an x-ray to identify different restoration types and irregularities in those restorations. Students will be able to point and identify trauma, pulpal lesions and periapical lesions on an x-ray.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

DEA 0020 , DEA 0020L , DES 0205 , DES 0205L , and DES 0400

Corequisite(s):

DES 0206L

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

DEA 0132 - Dental Nutrition

This is a comprehensive course designed to integrate nutrition into diagnosis, care and treatment of dental patients. It also focuses on the relationships between dental disease, lifestyles, eating habits and oral health.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Corequisite(s):

DES 0400

Total Program Hours Required: 1230

Total Program Hours Required: 1230

Digital Forensics (CCC)

Admission Program of Study Code DGFO State CIP Code 0511100119

Core Courses

CET 1600C - Networking Fundamentals

This course introduces the student to the basics of Internetworking technology. This is also the first of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity, and electronics and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 1610C - Routing Protocols and Concepts

Basic Router terminology and configurations are studied in this course. The student will study router components, router configuration, IOS, TCP/IP, IP addressing, and router protocols. This is one of the four courses designed to prepare a student to take the CISCO Certified Network Associate Exam (CCNA).

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CET 1600C is required.

CET 2660 - Network Security

This course provides an in-depth study of network security concepts and techniques. Students examine theoretical concepts that make computer network security unique. This course provides a practical, hands-on approach when examining networking security techniques. Students examine different network strategies, explore the advancement of network implementation, and study timeless problem solving strategies. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of networking basic computer, and keyboarding skills are strongly recommended.

CET 2182C - PC Hardware A+

This course is designed to prepare the student to take the A+ Certification exam, by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2880C - Digital Forensics Fundamentals

This course offers a solid foundation to computer forensics investigations: preparing students to acquire and analyze digital evidence. the course covers tools and techniques and explains topics such as file structure, data recovery, e-mail and network investigations, and expert witness testimony. In addition, the student will gain practical knowledge in conducting digital investigations and preserving digital evidence that maybe used in court or corporate inquiries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall and Spring) Prerequisite(s):

CET 2660 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2881C - Digital Forensics II

Digital Forensics II builds upon the foundational knowledge learned in digital forensics fundamentals. Students will utilize industry standard tools to conduct examinations of various digital media and document their findings. Devices to be studied include computers (server, desktop, laptop), mobile devices (tablets, cell phones, smart phones, mp3 players, gps), and devices such as DVRs and routers. Emphasis will be placed upon real-world digital forensics scenarios and the investigative thought process. At the conclusion of the class, students will be prepared to take the accessdata certified examiner (ace) examination.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 2880C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 1134 - Network Foundations

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 2314C - Network Defense and Countermeasures

This course will explore concepts of network defense and countermeasures as well as hardware and software required to design, configure and implement secure networks. Security topics covered in this course include firewalls, Intrusion Detection Systems (IDS), Virtual Private Networks (VPN) and policy creation using the Windows Operating System (OS), Transmission Control Protocol/Internet Protocol (TCP/IP) packet and signature analysis. The student will get hands-on instruction installing the network defense mechanisms and countermeasure applications. Software will be used for collecting, monitoring and auditing various activities; students will analyze threats and intrusions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CET 2660 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Program Credits Required: 24

Technical Elective Courses

CET 2615C - LAN Switching and Wireless

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2620C - Accessing the WAN

This course introduces the student to advanced router configurations and network design. This is also the last of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 2615C isrequired. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2685C - Fundamentals of Network Security

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2854C - Fundamentals of Wireless LANs

Develop, implement and troubleshoot wireless networks. This hands-on, skill-based course focuses on the design, planning and operation of wireless networks, with an overview of technologies, security, and design best practices. This course helps prepare the student for the CISCO Wireless Certification.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CIS 2352C - Ethical Hacking Fundamentals

This course is designed to provide the student with an understanding of the techniques and methodologies of security penetration testing. This course provides hands-on instruction using the various tools and methods that security professionals use to analyze an information system in order to discover vulnerabilities and protect against information loss, cyber-terrorism, and corporate espionage. The student will be introduced to fundamental security testing concepts, gain practical knowledge of computer programming, learn how to properly document a security test, and explore the legal and ethical ramifications of penetration testing. Students will also learn how to apply the appropriate countermeasures in order to reduce the risk that an organization faces.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CTS 1134 is required. Knowledge of networking, basic computer, and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 8

Total Program Credits Required: 32

Suggested Academic Plan

Early Childhood Education (AS)

Offered Online

Admission Program Objective Code ECED State CIP Code 1413121004
Students who successfully complete selected courses from this program of study may be eligible to receive the college credit certificate in Early Childhood Development Specialization (CCC) (State CIP Code 0419070904), Child Care Center Management Specialization (CCC) (State CIP Code 0419070906), Infant/Toddler Specialization (CCC) (State CIP Code 0419070907), and/or Preschool Specialization (CCC) (State CIP Code 0419070908).

General Education

Total General Education Credits Required: 18

Total General Education Credits Required: 18

Core Courses

DEP 2100 - Child Growth and Development
This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education
Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1002 - Early Childhood Program Administration
This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1201 - Infants and Toddlers
This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1309 - Early Childhood Education Foundations
Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1401 - The Family In Early Childhood Education
This course is comprehensive in scope, emphasizing skills and concepts of parenting which include: adjustment to parental roles; parent-child communication, care, growth, and development of children; cultivating strong families; special concerns; alternative family structures; educational institutions working effectively with parents; and agencies and legislation affecting children and parents.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1601 - Assessment in Early Childhood Education
Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EEC 1750 - Guidance for Young Children

A study of principles, methods, guidance and discipline techniques used to promote positive social development in young children; influence of environment and developmental level of child on social behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring Summer)

EEC 1949 - Internship, Early Childhood Education

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

EEC 1309 or EEC 1201 .

EEC 2220 - Language and Literacy Instruction In Early Childhood Education

Study of the principles, methods, and materials used to assist young children acquire basic skills to use language effectively and competently; evaluation and development of appropriate teaching materials to use with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

EEC 1309

EEC 2222 - Math and Science Instruction In Early Childhood Education

Study of the basic concepts, methods, and materials of mathematics and science appropriate to the education of young children. Identification of the role of staff members in the center for the education of young children. Assignment with young children in community agencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring and as needed) Prerequisite(s):

EEC 1309 .

EEC 2732 - Child Nutrition, Health and Safety

Methods of meeting physical needs of young children through nutrition and good health practices. Recognition of childhood diseases and care of the handicapped child.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology, law and services available in connection with learners with disabilities such as: intellectual and developmental disabilities, learning disabilities, attention deficit hyperactive disorder, emotional or behavioral disorder, autism spectrum disorder, communication disorders, deaf or hard of hearing, blind, physical disabilities, other health impairments, and gifted and talented.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

EDF 1005A - Introduction to the Teaching Profession - A

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. This course is intended for those students that are not planning to enter a degree program leading to teacher certification. An additional fingerprinting cost may be associated with this course. If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Core Courses

DEP 2100 - Child Growth and Development

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1002 - Early Childhood Program Administration

This course provides the student with management and administrative skills related to child care services. Instruction includes: director responsibilities; staff selection, supervision, and evaluation; planning for budget, nutritional services, facility maintenance, health, and safety; and marketing techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1201 - Infants and Toddlers

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1401 - The Family In Early Childhood Education

This course is comprehensive in scope, emphasizing skills and concepts of parenting which include: adjustment to parental roles; parent-child communication, care, growth, and development of children; cultivating strong families; special concerns; alternative family structures; educational institutions working effectively with parents; and agencies and legislation affecting children and parents.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1601 - Assessment in Early Childhood Education

Designed to increase objectivity and proficiency in observing and interpreting children's behavior in addition to increase awareness of normative patterns of children from birth through five years of age. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

EMT Certificate Courses

EMS 1119C - Emergency Medical Technician

Emergency Medical Technician is designed to prepare the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic. There is emphasis on assessment based learning and complies with National DOT EMS Education Standards.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1401L .

EMS 1401L - EMT Lab

An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Paramedic Certificate Core Courses

BSC 2020C - Human Structure and Function

OR BSC 1085C - Anatomy and Physiology I AND BSC 1086C - Anatomy and Physiology II

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

EMS 2231 - Paramedic Processes I

First course in the sequence necessary for Paramedic program completion. Designed to integrate concepts and clinical skills learned at the EMT level with advanced life support concepts and skills. Emphasis on patient assessment, pulmonary anatomy and physiology, advanced airway management, pathophysiology and clinical management of shock, medical emergencies and traumatic injuries. Course is consistent with most current Department of Transportation (DOT) curriculum.

Credit Hour(s): 7 Credit Hours When Offered: (Fall and Spring) Prerequisite(s):

BSC 2020C - Human Structure and Function OR BSC 1085C - Anatomy and Physiology I AND BSC 1086C - Anatomy and Physiology II HSC 1531 - Medical Terminology

Corequisite(s):

EMS 2435L

EMS 2232C - Paramedic Processes II

Second course in the sequence necessary for Paramedic program completion. Integrates and reinforces concepts and clinical skills learned in Paramedic Processes I, with emphasis on pharmacology, cardiology and Advanced Cardiac Life Support (ACLS) skills. Other topics include assessment and management of OB/GYN emergencies, psychiatric emergencies, pediatric emergencies, musculoskeletal injuries and mass casualty situations. Consistent with the most current DOT curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2436L .

EMS 2233 - Paramedic Processes III

The final course necessary for Paramedic program completion. Designed to prepare the student for both Florida State Board and National Registry examinations. Emphasizes the integration of paramedic knowledge, attitudes and behaviors. Course consistent with the most current DOT curriculum.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2425L [Inactive].

EMS 2435L - Paramedic Lab I

The clinical and skills laboratory companion course to EMS 2231C. Designed to provide instruction in advanced paramedic skills and the opportunity to apply these skills in the clinical setting. By state rule, the instructor-to-students ratio will not exceed six

students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Paramedic program

Corequisite(s):

EMS 2231 .

EMS 2436L - Paramedic Lab II

This course is the clinical companion course to EMS 2232C, Paramedic Processes II. It is designed to provide instruction in the advanced paramedic skills and the opportunity to apply them in the clinical setting. By state rule, the instructor-to-student ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

EMS 2435L

Corequisite(s):

EMS 2232C .

EMS 2438C - Advanced Clinical Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments. This is the capstone course for the Paramedic Program.
Instructor permission is required.

Credit Hour(s): 6 Credit Hours When Offered: (Summer) Prerequisite(s):

EMS 2232C , EMS 2436L and permission of the instructor

EMS 2552 - Advanced Cardiac Life Support (ACLS)

An intense overview of the guidelines for emergency cardiac care and cardiac arrest management as published by the American Heart Association. Students must successfully pass a written examination and a skills proficiency performance examination to receive the "ACLC Provider" and successfully pass the course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate and CPR for Health Care Providers certification.

EMS 2553 - Pediatric Advanced Life Support (PALS)

Designed for the EMS student. Fundamentals of recognizing infants and children who are at risk for cardiopulmonary arrest, including the strategies that are needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2555 - Prehospital Trauma Life Support

Fundamentals of managing traumatic injuries at the basic and advanced levels in accordance with the NAEMT PHTLS guidelines. The recognition and treatment of specific traumatic injuries such as pneumothorax, closed head injury, hemothorax, compensated and decompensated shock, fractures, uncontrolled bleeding, internal injuries of the abdomen and thorax. Emphasis is on rapid assessment, management and transport with discussion on mechanism of injury and kinematics of trauma.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):

EMT Certification or instructor permission

HSC 1531 - Medical Terminology

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Paramedic Credits Required: 42

Total Paramedic Credits Required: 42

Total Program Credits Required: 72

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1401L .

EMS 1401L - EMT Lab

An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician-Basic in the laboratory environment, area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT-Basic curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

permission of the EMS Director and AHA CPR for the Healthcare Provider

Corequisite(s):

EMS 1119C .

Engineering Technology Support Specialist (CCC)

Admission Program of Study Code ETSS State CIP Code 0615000007

Students who successfully complete this certificate may be eligible to receive credits towards one of the Engineering Technology (AS) degree (State CIP Code 1615000001) specializations: Engineering Technology - Digital Manufacturing Specialization (DM) Option (AS) or Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS) , Engineering Technology - Electronics Specialization Option (AS) , Engineering Technology - Maintenance Technician Specialization Option (AS) .

Core Courses

ETD 1320C - AutoCAD I

A basic course on the use of AutoCAD Software to include: introduction to AutoCAD, drawing commands, display and inquiry

commands, modify commands, dimensioning and annotation, data exchange and output files.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ETI 1420 - Properties of Materials and Processes

This course is designed to provide the student with an introduction to the basic properties of materials, principles and processes in the metal working, tools and machinery involved in the manufacture of metals. This course covers non-chip producing and chip producing manufacturing processes.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

ETI 1710 - Occupational Safety

A basic course in occupational safety and health covering such topics as: theories of accident causation, workplace hazards, hazard analysis and prevention, accident reporting, OSHA, ergonomics, product safety, workers' compensation, and stress on the job.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer, Fall)

ETI 2110 - Total Quality Tools

This course prepares students to effectively solve business/process/product problems, track process performance, find process and product improvement opportunities, and validate improvements made, using the necessary intellectual tools and procedures including: Five-S, flow charting, Pareto analysis, cause and effect diagrams, histograms, check sheets, scatter diagrams, stratification, statistical process control, failure mode and effects analysis. Pre-requisite ETM 1010C and co-requisite ETD 2150 .

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prereq/Corequisites:

ETM 1010C and ETD 2150

ETM 1010C - Mechanical Measurement and Instrumentation

This course provides the foundation for mechanical and electronic measurement techniques used in manufacturing environments. The course will integrate the concepts, principles, and techniques of mechanical measurement with the use of various types of instruments including micrometers, verniers, calipers, height gages, digital multimeters and other types of measuring equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

EET 1015C - Electricity/Electronics I, DC Circuits

This course introduces the theories, concepts, and relationships of voltage, current, and power in DC series, parallel, and series/parallel circuits containing common circuit elements with single and multiple sources. Students are introduced to Ohm's Law, Kirchoff's voltage and current Laws, Thieving's, Norton's, super-position, and maximum transfer of power theorems and their uses in DC circuit analysis. Students will learn how to use a digital multimeter to troubleshoot and analyze DC circuits.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

Suggested Academic Plan

Engineering Technology - Mechanical Design & Fabrication Specialization Option (AS)

Admission Program Objective Code ETMD State CIP Code 1615000001
The purpose of this program is to prepare students for employment or provide additional training for persons previously or currently employed in the manufacturing, electronics, aerospace, or other related industries. This degree is a planned sequence of instruction consisting of the four specializations: Mechanical Design and Fabrication, Digital Design and Modeling, Advanced Technology, and Digital Manufacturing with one common core. It is recommended that students complete the core before advancing to the courses in the next level of specialization. The coverage includes communication skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to support engineering design, processes, production, testing, and product quality.
The 18 credit hour core has been aligned with the Manufacturing Skills Standards Council's (MSSC) skills standards. The MSSC skill standards define the knowledge, skills, and performance needed for positions in manufacturing. After completing this core and the General Education requirements, the students will be eligible to take the exam for the MSSC Production Technician Certification.
Students who successfully complete selected courses from this program of study may be eligible to receive the CNC Machinist/Fabricator (CCC) (State CIP Code 0615080502), the Engineering Technology Support Specialist (CCC) (State CIP Code 0615000007).

Technical Elective Courses

ETD 2357C - Inventor I
A basic course in Parametric Solid Design using AutoDesk Inventor Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

ETD 2364C - SolidWorks I
A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

ETI 2419C - Advanced Concepts of CNC Machines and CNC Machining Practices
This course is designed to provide the student with advanced concepts in CNC machines and CNC machining to include: theory, operation, setup, safety, and practices.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PMT 2261C or PMT 2262C

PMT 1203C - Introduction to Machining
This course introduces the student to basic mechanic fundamentals. Instructional topics will include hand tool identification and application, fabrication machine identification and application, drill press identification and application, and shop safety.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PMT 2213C - Machining I
In this course students will continue to develop basic machining skills and better utilize machine tool accessories to assist in different machining operations to include: Set up and utilize machine tool accessories, vertical knee milling operation, manual lathe

operations, manual lathe threading and drill operations.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PMT 1203C and ETD 2218

PMT 1250C - Introduction to CNC Machining

The history and development of CNC (computer numerical control). Programming methods are reviewed with the emphasis of skills placed on programming, milling, drilling and turning with M and G code preparation. Manual and computer assisted programming are also reviewed. Students will program, set up and operate full size CNC machines found in our manufacturing lab. Projects will be assigned to students with an expectation of performing these tasks on manufacturing equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PMT 2261C - CNC Machining I

This course provides training in cnc machine operation and programming. The student will gain technical knowledge and programming methods employed in cnc machining centers. CNC machine programming, set-up and operations are taught using computer and hands on applications. Metal fabrication processes are taught through lectures, demonstration and student generated projects. Completion of this course offers students technical skills as a cnc operator processes to be applied in various machining and fabrication industries.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PMT 1250C or equivalent.

PMT 2262C - CNC Machining II

This course will offer students a working knowledge of Solidworks and Solidworks Cam. An in-depth study of Cad/Cam software, CNC processing methods and the set-up of CNC machining centers. The course lectures and lab offer students hands-on applications using Solidworks generated projects processed with Solidworks cam tool path software to generate various projects. The student will also learn to calculate machining feeds and speeds, edit CNC programs and part production for mill and lathe.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
PMT 2261C or eqivalent experience.

ETI 2408C - Welding Fundamentals

This course teaches basic welding processes and techniques for entry-level maintenance technician positions. Students learn welding safety, fundamental practices of shielded arc welding, arc welding with consumable and non-consumable electrodes, brazing, soldering, and plasma cutting.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

Total Technical Elective Credits Required: 12

Suggested Two-Year Academic Plan

Total Technical Elective Credits Required: 12

Firefighter I/II (CCP)

Admission Program of Study Code FIRN State CIP Code 0743020304
Entry into the Firefighting Certificate Program requires meeting the standards established by the Florida Division of State Fire Marshal, Bureau of Fire Standards and Training. A copy of these requirements is available through the Public Safety Division of NWF State College.

Core Courses

FFP 0010 - Firefighting I

This course is the first part of the Basic Fire Recruit Academy and prepares students for a career as a volunteer firefighter. Classroom instruction includes a variety of fire related topics which are reinforced and enhanced through practical skills activities. Upon completion, the student is eligible to test for certification as a volunteer firefighter through the Florida State Fire College and may elect to continue training in Firefighter II to pursue state certification as a career firefighter. Permission of the Public Safety Division is required.

Credit Hour(s): 201 Clock Hours When Offered: (Offered as needed) Corequisite(s):

FFP 0077 unless previous certification has been obtained for first responder, EMT, or paramedic.

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

FFP 0020 - Firefighting II

This course is the second part of the Basic Fire Recruit Academy and prepares students for a career as a firefighter. The delivery of instruction includes a variety of training in practical skills necessary for the mastery of the basic competencies required in the program. Upon successful completion of this course, the student is eligible to take the Bureau of Fire Standards and Training written and practical examination. Permission of the Public Safety Division is required.

Credit Hour(s): 295 Clock Hours When Offered: (Offered as needed) Prerequisite(s):

FFP 0010 or FFP 0077

Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Corequisite Course

FFP 0077 - First Responder for Public Safety Personnel

This course trains public safety members who are the first to arrive at an emergency in providing efficient and accurate pre-hospital care. Students assess patients for wounds to determine if trauma, shock, burns or closed airways are a problem and how to address those issues by dressing wounds, stabilizing the person or administering oxygen. They immobilize patients and address common emergency medical issues with basic treatments. This course includes hands-on, practical experience and is necessary to be eligible for first responder certification.

Credit Hour(s): 45 Clock Hours When Offered: (Fall, Spring, Summer) Note:

This course is a co-requisite course for students entering the Firefighting Certificate program who do not have certification for first responder, EMT, or paramedic.

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. Suggested Academic Plan

Graphic Design Production (CCC)

Admission Program of Study Code GRDP State CIP Code 0611080303
Students who successfully complete this certificate may be eligible to receive credits towards the Design and Digital Marketing (AS) Degree (State CIP Code 1611080300).

Core Courses

ART 2602C - Digital Imaging I

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

CGS 2820 - Web Design

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GRA 1151C - Illustration I

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

GRA 2140C - Multimedia I

An advanced course covering the development of multimedia projects incorporating a variety of digital media elements. Students will learn an industry standard digital video editing application and the aesthetic and technical considerations involved in content acquisition. Access to a miniDV camcorder suggested.

Credit Hour(s): 4 Credit Hours When Offered: (As Needed) Prerequisite(s):

ART 2602C , GRA 1151C and PGY 1801C .

GRA 2190C - Graphic Design I

An intermediate graphic design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality camera digital camera is required. It is recommended that students take PGY1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PGY 1801C - Digital Photography I

A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

Total Program Credits Required: 24

Total Program Credits Required: 24

Design and Digital Marketing (AS)

Admission Program Objective Code GRTD State CIP Code 1611080300 The Design and Digital Marketing A.S. degree is intended for students interested in careers in Graphic Design and Commercial Art where creativity and visual communication are core competencies. Students are encouraged, but not required, to contact Graphic Arts faculty at 850-729-6019 for detailed advising to plan a program of study before enrolling in courses.
Students who successfully complete selected courses from this program of study may be eligible to receive the Graphic Design Production (CCC) (State CIP Code 0611080303).

Core Courses

ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2602C - Digital Imaging I

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

GRA 1151C - Illustration I

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

GRA 2140C - Multimedia I

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PGY 1220C - Commercial Photography I

A beginning course that introduces students to the procedures and aesthetics of developing photographic illustrations for industrial and advertising use. Students will gain experience using a high quality digital studio camera, electronic lighting, and digital applications of their work. It is recommended that students take PGY 1801C prior to or at the same time as this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PGY 1801C - Digital Photography I

A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

GRA 2181C - Graphic Design Portfolio Development

A final semester course where students will develop a professional portfolio that demonstrates their technical and creative skills. Students will evaluate prior work for inclusion, and determine needs for new work that will enhance their portfolio. Students will develop new work exhibiting illustration, photography, and graphic design skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PGY 1801C , GRA 2190C , ART 2602C , GRA 1151C

Total Core Credits Required: 40

Total Core Credits Required: 40

Technical Elective Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1843 - Introduction to E-Commerce

This course is designed to provide students with an overview of the dynamics of electronic commerce and how it links information technology to business objectives. Course may not transfer to all State University System institutions.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 1000 - Introduction to Programming Concepts and Logic

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2658 - Advanced Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the advanced IOS programming topics and provides a broad perspective of the IPhone SDK platform. It begins with an overview of the Objective-C language and progressed into the advanced details of the UIKit, as well as several other frameworks essential for advanced development of the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2654 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2662 - Advanced Programming for Mobile Devices: Android

This class teaches advanced concepts and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devises and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

COP 2660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2840 - Web-based Programming I

This course is designed to extend the student's understanding of web-based programming techniques, and give them practical experience in the use of a range of technologies for creating e-Commerce applications.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GRA 1152C - Illustration II

An advanced graphic design course building upon the skills covered in Illustration I; the course includes increased challenges relating to conceptual skills and multi-software integration relating to typical print-based design problems. Access to an appropriate high quality digital camera is required.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C .

GRA 2191C - Graphic Design II

An advanced Graphic Design course covering the aesthetics and challenges associated with producing complex multi-page printed communications. Access to an appropriate high quality digital camera required.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

GRA 1151C , GRA 2190C , PGY 1801C .

MKA 2511 - Introduction to Advertising

Advertising as a marketing tool, its planning, creation, and use. A survey of copy writing, layout, and media (newspapers, magazines, radio, television, films, etc.)

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PGY 2802C - Digital Photography II

An intermediate-level photography course where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PGY 1801C .

PGY 2804C - Digital Photography III

____ ____ Other Approved College Credits

An advanced-level photography courses where creative idea generation and composition in photography are emphasized. Students research more deeply the history of photography and apply new skills to creative digital photographic work. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PGY 2802C .

Technical Elective Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1843 - Introduction to E-Commerce

This course is designed to provide students with an overview of the dynamics of electronic commerce and how it links information technology to business objectives. Course may not transfer to all State University System institutions.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 1000 - Introduction to Programming Concepts and Logic

General survey of programming/problem solving techniques. Includes an introduction to structured programming. Algorithm development will employ the use of a modern programming language.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2654 - Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the fundamentals and provides a broad perspective of the iPhone SDK platform. It begins with an overview of the Objective-C language and progresses into the details of the UIKit, as well as several other frameworks essential for development on the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2658 - Advanced Programming for Mobile Devices: iOS (iPhone/iPad)

This class teaches the advanced IOS programming topics and provides a broad perspective of the IPhone SDK platform. It begins with an overview of the Objective-C language and progressed into the advanced details of the UIKit, as well as several other frameworks essential for advanced development of the iPhone and iPad.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 2654 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2660 - Programming for Mobile Devices: Android

This class teaches the fundamentals and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devices and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
COP 1000 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

COP 2662 - Advanced Programming for Mobile Devices: Android

This class teaches advanced concepts and provides a broad perspective of the Android development platform. It begins with an overview of the Java language and progresses into the details of the developing for Android-based mobile devises and tablets. The curriculum also covers several other frameworks essential for development on the Android platform.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Core Courses

ART 1201C - Two-Dimensional Design

An introductory course, both theoretical and applied, dealing with the principles of organization and the elements of design in a two-dimensional format. This is a foundation course for all of the graphic arts: painting, printmaking, and the two-dimensional crafts. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 1300C - Drawing I

Basic drawing course covering different drawing media, line, form, shape, value and spatial relationships. Drawing problems involving a variety of subject matter will be explored. Emphasis is on value, drawing techniques, spatial relationships between shapes and composition. Audit enrollment In studio art classes is permitted on a space-available basis only.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

ART 2602C - Digital Imaging I

A digital illustration production course with a strong emphasis on concept development and image making skills. Students will create complex imagery based on manipulations of photographs or traditional drawings and paintings with an industry-standard image editing/manipulation software. Access to an appropriate high quality digital camera is required. It Is recommended that students take PGY 1801C at the same time or prior to taking this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

CGS 2820 - Web Design

This course introduces programming in techniques associated with web-based languages. The student will learn to create innovative and useful window programs. Topics to be discussed include variables, string handling, loops and arrays, formatting techniques, labels, buttons, menus, loading and saving, error handling, graphics and linking applications.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GRA 1151C - Illustration I

A beginning course to develop basic technical and conceptual skills with a focus on an industry-standard vector-based drawing program. Students will create logos and illustrations typical of graphic design challenges.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

GRA 2140C - Multimedia I

An advanced course covering the development of multimedia projects incorporating a variety of digital media elements. Students will learn an industry standard digital video editing application and the aesthetic and technical considerations involved in content acquisition. Access to a miniDV camcorder suggested.

Credit Hour(s): 4 Credit Hours When Offered: (As Needed) Prerequisite(s):

ART 2602C , GRA 1151C and PGY 1801C .

GRA 2190C - Graphic Design I

An intermediate graphic design course that focuses on using an industry standard page layout software application. Students will be exposed to the ideas and aesthetics involved in the production of print publications. Access to a high quality camera digital camera is required. It is recommended that students take PGY1801C at the same time or prior to taking this course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PGY 1220C - Commercial Photography I

A beginning course that introduces students to the procedures and aesthetics of developing photographic illustrations for industrial

and advertising use. Students will gain experience using a high quality digital studio camera, electronic lighting, and digital applications of their work. It is recommended that students take PGY 1801C prior to or at the same time as this course.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

PGY 1801C - Digital Photography I

A beginning course in photography with an emphasis on digital darkroom production techniques. Students will be exposed to procedures and aesthetic concerns relating to photography and digital image production. Access to an appropriate high-quality camera required.

Credit Hour(s): 4 Credit Hours When Offered: (Offered as needed)

GRA 2181C - Graphic Design Portfolio Development

A final semester course where students will develop a professional portfolio that demonstrates their technical and creative skills. Students will evaluate prior work for inclusion, and determine needs for new work that will enhance their portfolio. Students will develop new work exhibiting illustration, photography, and graphic design skills.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

PGY 1801C , GRA 2190C , ART 2602C , GRA 1151C

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

Total General Education Credits Required: 18

Core Courses

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ENC 2210 - Technical Report Writing

The course covers the fundamentals of technical report writing, mechanics, and style. Various types of reports are prepared and evaluated. The course also includes reading and analysis of technical literature as well as oral reporting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

passing score on placement test.

HSA 1100 - Introduction to Health Care

This course provides an overview of the United States Healthcare System, including the economic, social, political, and technological forces that shape the industry. The role of state and federal government and regulatory agencies in healthcare delivery is examined. The fundamental roles and responsibilities of healthcare team members are surveyed. Healthcare safety, security, and infection control procedures will also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and

bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

HSC 1531 - Medical Terminology **

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

SPC 2300 - Interpersonal Communication

or

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

Total Core Credits Required: 27

Technical Elective Courses

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies

associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1000 - Health Information and Delivery Systems

Orientation to medical records history and professional associations. Confidentiality, filing, retrieving, indexing, numbering, storage and content of the medical record is also discussed. The course includes job search skills and professional job performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1012 - Health Care and Legal Compliance

In-depth study of federal, state, local laws governing preparation, and use of the healthcare record in the healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 15

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

Total General Education Credits Required: 18

Technical Elective Courses

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1000 - Health Information and Delivery Systems

Orientation to medical records history and professional associations. Confidentiality, filing, retrieving, indexing, numbering, storage and content of the medical record is also discussed. The course includes job search skills and professional job performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAR 2011 - Introduction to Marketing

An introductory course in the field of marketing including a look at marketing as it exists in our economy today. Consideration of the market, the product, distribution channels. Special emphasis on the study of human behavior in marketing promotion.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1012 - Health Care and Legal Compliance

In-depth study of federal, state, local laws governing preparation, and use of the healthcare record in the healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 15

Core Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ETI 1710 - Occupational Safety

A basic course in occupational safety and health covering such topics as: theories of accident causation, workplace hazards, hazard analysis and prevention, accident reporting, OSHA, ergonomics, product safety, workers' compensation, and stress on the job.

Credit Hour(s): 3 Credit Hours When Offered: (Spring, Summer, Fall)

ETI 2110 - Total Quality Tools

This course prepares students to effectively solve business/process/product problems, track process performance, find process and product improvement opportunities, and validate improvements made, using the necessary intellectual tools and procedures including: Five-S, flow charting, Pareto analysis, cause and effect diagrams, histograms, check sheets, scatter diagrams, stratification, statistical process control, failure mode and effects analysis. Pre-requisite ETM 1010C and co-requisite ETD 2150 .

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prereq/Corequisites:

ETM 1010C and ETD 2150

GEB 1214 - Business and Supervision Terminology

This course is designed for students to achieve mastery of the special vocabulary, jargon, and concept terminology associated with general business and supervision in the modern workplace. Students will apply the terms in common workplace scenarios and hypothetical situations, as well as in standard written documents and assignments.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAN 2300 - Personnel Management

An introduction to personnel practices and procedures. Topics include the personnel management system, maximizing employee potential, organizational behavior, and labor management relations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1345 - Supervision I

The course presents the functions of a personnel manager, philosophy of general management, organizational structure, employer

socioeconomic climate and career information. Included also are job descriptions and specifications, recruiting practices, applications, resumes, interviewing, placement, performance appraisals, wage and salary administration and other related topics.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 29

Technical Elective Courses

ACG 2011 - Accounting II

This course covers recording of specific transactions and internal control associated with investments, fixed assets, liabilities, international operations and stockholders' equity. Preparation of the statement of cash flow will be emphasized. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ACG 2001 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

ACG 2071 - Managerial Accounting

This course covers the basic principles of accounting techniques for the preparation of internal reports related to management of the firm and the interpretation of financial data useful in the decision-making process within the economic framework of the entity.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

ACG 2011 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 2104 - Introduction to Windows

An introduction to operating systems in general with emphasis on Windows.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed three times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GEB 2947 - Academic Learning Field Studies I

This course gives students the opportunity to understand the relationship of theory to practice through participation in a service-learning experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2948 - Academic Learning Field Studies II

This course gives students the opportunity to understand the relationship of theory to practice through participation in a service-learning experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2949 - Academic Learning Field Studies III

This course gives students the opportunity to understand the relationship of theory to practice through participation in a service-learning experience.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

GEB 2430 - Business Ethics

This course addresses the legal, moral, and societal issues of ethical conduct in the business environment. Actual case studies are used to illustrate appropriate relationships among employers, employees, customers, stockholders, and other business stakeholders. Topics include: codes of ethics, laws and regulations related to ethics, conflict of interest, and moral philosophies associated with ethical conduct.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MNA 1161 - Customer Service

Designed to build and maintain the critical skills necessary to be a dynamic and successful professional. Students and front-line individuals who work with customers every day will develop strategies to create positive customer relationships. This course provides a practical approach to the thorny issues of customer dissatisfaction and will enable managers to keep service personnel focused on the organization's goals and objectives.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

STA 2023 - Statistics

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GEB 2947 - Academic Learning Field Studies I

This course gives students the opportunity to understand the relationship of theory to practice through participation in a service-learning experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2948 - Academic Learning Field Studies II

This course gives students the opportunity to understand the relationship of theory to practice through participation in a service-learning experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 2949 - Academic Learning Field Studies III

This course gives students the opportunity to understand the relationship of theory to practice through participation in a service-learning experience.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 13

Total Technical Elective Credits Required: 13

Infant/Toddler Specialization (CCC)

Admission Program of Study Code CITS State CIP Code 0419070907
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Core Courses

DEP 2100 - Child Growth and Development

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher,

and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1201 - Infants and Toddlers

This course provides the student with information pertinent to the care of infants and toddlers. Special attention is given to selection of developmentally appropriate curriculum. Course work satisfies the Child Development Associate competency standards for Infant/Toddler.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1949 - Internship, Early Childhood Education

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

EEC 1309 or EEC 1201 .

General Education

Total General Education Credits Required: 18

Core Courses

CAP 2134C - Database Security

This course is designed to provide the student with an understanding of database security concepts and practices. The objective of the course is to provide hands-on instruction in various database tasks that relate to securing the confidentiality, integrity and availability of information that is stored in a database. The student will be able to perform administrative tasks in different database management systems, as well as manage database user profiles, privileges, and roles. Different database application security models will be explored, as will the security advantages of utilizing virtual private databases. Finally, the process of database auditing will be explored, including auditing methods using various database management systems.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CET 2660

CET 2660 - Network Security

This course provides an in-depth study of network security concepts and techniques. Students examine theoretical concepts that make computer network security unique. This course provides a practical, hands-on approach when examining networking security techniques. Students examine different network strategies, explore the advancement of network implementation, and study timeless problem solving strategies. The course is also intended to assist with preparation for the CompTIA Security+ certification.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of networking basic computer, and keyboarding skills are strongly recommended.

CET 2880C - Digital Forensics Fundamentals

This course offers a solid foundation to computer forensics investigations: preparing students to acquire and analyze digital evidence. the course covers tools and techniques and explains topics such as file structure, data recovery, e-mail and network investigations, and expert witness testimony. In addition, the student will gain practical knowledge in conducting digital investigations and preserving digital evidence that maybe used in court or corporate inquiries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall and Spring) Prerequisite(s):

CET 2660 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CIS 2352C - Ethical Hacking Fundamentals

This course is designed to provide the student with an understanding of the techniques and methodologies of security penetration testing. This course provides hands-on instruction using the various tools and methods that security professionals use to analyze an information system in order to discover vulnerabilities and protect against information loss, cyber-terrorism, and corporate espionage. The student will be introduced to fundamental security testing concepts, gain practical knowledge of computer programming, learn how to properly document a security test, and explore the legal and ethical ramifications of penetration testing. Students will also learn how to apply the appropriate countermeasures in order to reduce the risk that an organization faces.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CTS 1134 is required. Knowledge of networking, basic computer, and keyboarding skills are strongly recommended.

CTS 1106 - Fundamentals of UNIX

This course is designed to introduce the UNIX operating system to new users. The student will learn fundamental features of the operating system, including file system navigation, file permissions, editors, command shells, and basic network use. Provides a foundation for more advanced courses in administration and certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of networking, basic computer and keyboarding skills are strongly recommended.

CTS 1134 - Network Foundations

This course is designed to introduce students to the terminology and concepts of the network industry, including data communications and network services, OSI Model, topology, network media, connectivity devices and security. This is preparation for the CompTIA Network+ certification and the first course in the MCSE/MCSA certification program.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 2314C - Network Defense and Countermeasures

This course will explore concepts of network defense and countermeasures as well as hardware and software required to design, configure and implement secure networks. Security topics covered in this course include firewalls, Intrusion Detection Systems (IDS), Virtual Private Networks (VPN) and policy creation using the Windows Operating System (OS), Transmission Control Protocol/Internet Protocol (TCP/IP) packet and signature analysis. The student will get hands-on instruction installing the network defense mechanisms and countermeasure applications. Software will be used for collecting, monitoring and auditing various activities; students will analyze threats and intrusions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

CET 2660 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CIS 1531 - Scripting for Cybersecurity Professionals

Scripting for Cybersecurity Professionals introduces the student to a variety of scripting languages. These scripting languages are an integral part of modern penetration testing tools. The course starts with an introduction to flowcharting, windows batch files and Linux shell scripting. With the importance of web attacks, the students will cover html and JavaScript. As a prerequisite course to

offensive security (advanced penetrating testing), this curriculum covers ruby and python scripting, concluding with a brief overview of assembly, debugging and disassembly.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CTS 2127 - Certified Information Systems Security Professional (CISSP)

This course covers security topics from a management perspective to include, security and risk management, asset security, security architecture and engineering, communication and network security, identity and access management, security assessment and testing, security operations, and software development security. This course will prepare students for management level security responsibilities. This course will prepare the student for the industry certification by ISC2: Certified Information System Security Professional (CISSP) exam.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 2660 is required and knowledge of basic computer and keyboarding skills are strongly recommended

Total Core Credits Required: 27

Technical Elective Courses

CET 1600C - Networking Fundamentals

This course introduces the student to the basics of Internetworking technology. This is also the first of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity, and electronics and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 1610C - Routing Protocols and Concepts

Basic Router terminology and configurations are studied in this course. The student will study router components, router configuration, IOS, TCP/IP, IP addressing, and router protocols. This is one of the four courses designed to prepare a student to take the CISCO Certified Network Associate Exam (CCNA).

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

CET 1600C is required.

CET 1854C - Introduction to Wireless Technology

This course teaches key wireless networking topics, including wireless technology and architecture network design, types of wireless networks, and applications. Special focus on technical matters, wireless communication products, wireless networking products, and wireless LANS products. It is recommended that all students have a least a basic knowledge of networking, including protocol, the OSI module, and TCIP/IP.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2615C - LAN Switching and Wireless

This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study LAN Switching, VLANS, OSPF, EIGRP, VTP, classless routing and Access Lists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2620C - Accessing the WAN

This course introduces the student to advanced router configurations and network design. This is also the last of four courses designed to prepare a student to take the CISCO Certified Network Associate Exam. The student will study WAN technology and design, PPP, ISDN, Frame Relay, and network management.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 2615C isrequired. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2685C - Fundamentals of Network Security

Introduction to network security and overall security processes. This hands-on, skill-based course focuses on the design and implementation of security solutions to reduce the vulnerability of the network, using VPNs, network routers and a firewall. This course helps prepare the student for the CISCO Security Specialist certification.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 1610C is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2881C - Digital Forensics II

Digital Forensics II builds upon the foundational knowledge learned in digital forensics fundamentals. Students will utilize industry standard tools to conduct examinations of various digital media and document their findings. Devices to be studied include computers (server, desktop, laptop), mobile devices (tablets, cell phones, smart phones, mp3 players, gps), and devices such as DVRs and routers. Emphasis will be placed upon real-world digital forensics scenarios and the investigative thought process. At the conclusion of the class, students will be prepared to take the accessdata certified examiner (ace) examination.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 2880C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2891C - Wireless Network Security Certification

This course prepares students to secure wireless networks and protect valuable data from intruders. The following subjects are covered: intrusion tools and techniques, detection systems, WPA/WPA2/802.11i security, enterprise wireless gateways, encryption gateways, secure wireless bridging, and wireless VPN routers. This course prepares students for the compTIA wireless certification exam.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

CET 1854C is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2892C - Advanced Network Security

This course examines advanced network security topics including, but not limited to, advanced topics in integration of hardware firewalls, advanced topics in Intrusion Detection Systems (IDS), advanced topics in Internet Protocol-security (IPSec), and advanced topics in Virtual Private Networking (VPN) in network security design. Students will implement designs using equipment in a laboratory setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

CET 2660 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CET 2942 - Computer Engineering Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to four times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

Total Technical Elective Credits Required: 15

Total Program Credits Required: 60

Suggested Two Year Academic Plan

Law Enforcement Officer (Basic) (CCP)

Admission Program of Study Code LEOB State CIP Code 0743010700
Entry into Criminal Justice Certificate Programs requires meeting the standards as established by the Criminal Justice Standards and Training Commission and the Florida Department of Law Enforcement for employment. A copy of these requirements will be furnished by the Public Safety Division at NWF State College.

Core Courses

CJK 0002 - Introduction to Law Enforcement

This course is a component of the Florida Law Enforcement Academy. It is designed to introduce the student to law enforcement, the process for becoming a certified law enforcement officer, and the requirements of the academy program. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0018 - Legal

This course is a component of the Florida Law Enforcement Academy. It is designed to introduce the student to the criminal justice system, Constitutional Law and Florida Statutes. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 64 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0016 - Communication

This course is a component of the Florida Law Enforcement Academy. It is designed to enhance student awareness and understanding of communication and to teach students skills to enable them to effectively interact with people of diverse backgrounds. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 24 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0019 - Interviewing and Report Writing

This course is a component of the Florida Law Enforcement Academy. It is designed to help the student learn vital communication skills including interviewing, note taking, statement taking, and report writing. This course includes classroom instruction and

scenario-based training exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 56 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0020 - Law Enforcement Vehicle Operations

This course is a component of the Florida Law Enforcement Academy. This course is designed to prepare prospective police officers to apply vehicle operations knowledge, principles and techniques to the police driving environment. This course includes classroom instruction and practical application on the driving range. This course is only open to students admitted to the Florida Law Enforcement. Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0031 - First Aid for Criminal Justice Officers

This course is a component of the Law Enforcement and Correctional Officer Academy. This course is designed to prepare prospective police officers to apply first responder knowledge and techniques to medical emergency situations. This course includes classroom instruction and hands-on practical demonstration. This course is open only to students admitted to the Law Enforcement or the Correctional Officer Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0040 - Criminal Justice Firearms

This course is a component of the Florida Law Enforcement or Correctional Officer Academy. This course is designed to give the student basic skills and knowledge needed to safety operate a firearm, and shoot a handgun, and shotgun and/or rifle with a prescribed degree of accuracy. This course includes classroom instruction and firing range practice/qualification. This course is open only to students admitted to the Florida Law Enforcement or Correctional Officer Academy.

Credit Hour(s): 80 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0051 - Criminal Justice Defensive Tactics

This course is a component of the Florida Law Enforcement or Correctional Officer Academy. It is designed to prepare prospective officers to control subjects and defend themselves using appropriate defensive tactics in accordance with Florida State Statue, the United States Constitution, and case law. This course includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Florida Law Enforcement or Correctional Officer Academy.

Credit Hour(s): 80 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0063 - Fundamentals of Patrol

This course is a component of the Florida Law Enforcement Academy. It is designed to enable students to understand Community Oriented Policing and how it is implemented as a problem solving model, identify the SECURE problem solving model its application in real life situations; understand officer safety issues, identify and avoid fatal errors, identify and manage stress, maintain mental and physical fitness; respond to a call, approach a suspect, make an arrest, transport a prisoner and process the prisoner at a detention facility. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 40 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0072 - Crimes Against Persons

This course is a component of the Florida Law Enforcement Academy. It is designed to prepare the student to respond appropriately to a crime against a person; conduct a preliminary investigation on crimes against persons; and, give testimony in court proceedings. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 48 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0079 - Crime Scene Follow-Up Investigations

This course is a component of the Florida Law Enforcement Academy. It is designed to prepare the student to respond to a crime scene, protect and survey a crime scene, process a crime scene, dust for latent prints, and document a crime scene by sketching, and conduct follow up investigations. This course includes classroom instruction and scenario-based training exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 34 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0401 - Traffic Stops

This course is a component of the Florida Law Enforcement Academy. It introduces the student to the basic rules for conducting safe and effective traffic stops, including ethical consideration, safety considerations, citation and warning procedures. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 24 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0403 - DUI Traffic Stops

This course is a component of the Florida Law Enforcement Academy. It introduces the student to the basic rules for conducting safe and effective DUI stops, including identifying a driver under the influence of alcohol or drugs, conducting field sobriety tests, and completing a DUI investigation. It includes classroom instruction and practical proficiency exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 24 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and

Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0402 - Traffic Crash Investigations

This course is a component of the Florida Law Enforcement Academy. It introduces the student to traffic crash investigations, laws pertaining to traffic crashes and procedures for responding to a traffic crash. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 30 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096A - Criminal Justice Physical Fitness I

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 31 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0096B - Criminal Justice Physical Fitness II

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to encourage students to improve their overall physical fitness, improve their score on the final fitness evaluation, and adopt a foundation for lifelong fitness. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy.

Credit Hour(s): 32 Clock Hours When Offered: (Fall, Spring, Summer) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0421 - Conducted Electrical Weapon/Dart-Firing Stun Gun

This course is a component of the Law Enforcement Florida CMS and Correctional Officer Basic Recruit Academies. It is designed to prepare students in the proper use of the Dart Firing Stun in accordance with the Florida State Statutes, the United States Constitution, and case law. It includes classroom instruction and practical physical exercises and demonstrations. This course is open only to students admitted to the Law Enforcement Florida CMS Basic Recruit Academy or Correctional Officer Basic Recruit Academy.

Credit Hour(s): 8 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0021 - Serving Your Community

This course is a component of the Florida Law Enforcement Academy. It is designed to train students to respond to the needs of the community and people in distress. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 34 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved

articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0400 - Traffic Incidents

This course is a component of the Florida Law Enforcement Academy. It introduces the student to traffic incidents, laws pertaining to traffic parking, towing and impoundment of vehicles, and methods of directing traffic. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0093 - Critical Incidents

This course is a component of the Florida Law Enforcement Academy. It is designed to enable students to identify the crowd control procedures to safely and effectively disperse or control a large group of people; understand local emergency response plans; respond to a bomb threat, assesses the scene, search and evacuate a building or suspected bomb sight, identify Weapons of Mass Destruction and properly respond to a WMD incident. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 44 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

CJK 0073 - Crimes Involving Property and Society

This course is a component of the Florida Law Enforcement Academy. It is designed to prepare the student to respond appropriately to crimes against property; conduct a preliminary investigation on crimes against persons; and, give testimony in court proceedings. It includes classroom instruction and practical exercises. This course is open only to students admitted to the Florida Law Enforcement Academy.

Credit Hour(s): 12 Clock Hours When Offered: (Offered as needed) Note:

*Vocational courses are not applicable to the A.A. or A.S. degree or to the College Credit Certificate without an approved articulation agreement. Vocational courses, offered in clock hours, are courses that can be used for the awarding of Career and Technical or Vocational Certificates. In addition, vocational courses may be articulated to college credit and applied to college credit certificates or A.S. degree programs. Students should work closely with an advisor to plan their studies in a way to take advantage of this opportunity.

Total Program Hours Required: 785

Suggested Academic Plan

Medical Coder/Biller (CCC)

Admission Program of Study Code MEDB State CIP Code 0351071404

Core Courses

BSC 1085C - Anatomy and Physiology I

with

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

OR

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

BSC 2020C - Human Structure and Function

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1000 - Health Information and Delivery Systems

Orientation to medical records history and professional associations. Confidentiality, filing, retrieving, indexing, numbering, storage and content of the medical record is also discussed. The course includes job search skills and professional job performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2272 - Healthcare Reimbursement *

Emphasis on billing regulations for the State of Florida. Course content includes LMRPS, Workers' Compensation laws, Florida Medicare, and claims for automobile accident injuries.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

HIM 2253 and HIM 2724 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2724 - ICD Coding Part 1 *

This course provides a foundation using ICD-10-CM/PCS coding conventions, rules, methodology and sequencing, data sets, documentation requirements, and coding resources.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

HSC 1531 and HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

BSC 2020C OR (BSC 1085C AND BSC 1086C)

HIM 1432 - Pathopharmacology

Introduction to the nature, cause, and treatment of disease entities and the body's defense mechanisms. Commonly used drugs will

also be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2729 - ICD Coding Part 2 *

This course focuses on assigning appropriate ICD, DRG, and Level II (HCPCS) codes to a wide range of original source medical documents. This course increases the quality of code selection by applying the decision process in problem solving using well-defined medical record review methods and guidelines. Ethical practices will be discussed.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

HIM 2724 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1531 - Medical Terminology

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 1012 - Health Care and Legal Compliance

In-depth study of federal, state, local laws governing preparation, and use of the healthcare record in the healthcare delivery system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HIM 2253 - CPT Coding - Part 1 *

Instruction and practice in basic CPT coding conventions, principles of classifying physician services using current procedural terminology (CPT-4), APC, and auditing procedures. Ethical standards of practice will be analyzed.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

HSC 1531 and HIM 1432 are required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

BSC 2020C OR (BSC 1085C AND BSC 1086C)

Note:

(Previously listed as HIM1253)

HIM 2291 - CPT Coding Part 2 *

This is an advanced course in ICD, CPT and HCPCS coding systems. Students will learn guidelines and applications to more complex case studies and health records according to current ethical standards of practice, inpatient and outpatient prospective payment systems, encoding software and RBRVs.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

HIM 2253 is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

HIM 2815C - Professional Practice Experience *

Working in a simulated, online environment, students will endeavor to code and bill using nationally recognized, American Health Information Management Association (AHIMA) simulation software.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Prereq/Corequisites:

HIM 2291 HIM 2729

OST 1107 - Word Processing I

Integration of basic keyboarding and word processing – learning the keyboard, creating, editing, saving, and other word processing functions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2117 - Word Processing II

Continuation of Typing and Word Processing I – develop keyboarding and document processing using a microcomputer.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
OST 1107 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 15

Technical Elective Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 15

Total Core Credits Required: 15

Technical Elective Courses

ACG 2001 - Accounting I

This course covers the fundamental principles and procedures of double entry accounting as applied to the financial records of a business entity. The preparation of an income statement, statement of owner's equity and balance sheet are emphasized. Specific transactions and internal control associated with cash, accounts receivable and inventory will be examined in detail. The code of professional ethics will be highlighted throughout the course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MTB 1103 and knowledge of basic computer and keyboarding skills are strongly recommended

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1030 - Computer Basics

This is an introductory course for basic computer use, including the Internet. It addresses the use of computers for personal, business, and college purposes. It introduces the Windows operating system and Microsoft Office applications, including Word, Excel, and PowerPoint. Hands-on use of a personal computer is required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1011 - Introduction to Business

Designed to give students a broad understanding of the nature of business and a preliminary idea of the various areas of business specialization.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

GEB 1940 - Internship - Business (can be completed two times for credit)

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

Active enrollment in an appropriate technical degree program and permission of the instructor. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

This course may be taken up to two times for credit.

* This college credit course is not intended for transfer and may not be applied toward the A.A. degree.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MTB 1103 - Business Mathematics

This course presents basic principles used to solve everyday business problems, including a review of basic skills and business terminology. Topics in the course include the following: base, rate and percentage, trade and cash discounts, wage and salary administration, insurance (fire and automobile), depreciation and business profits, distribution of corporate dividends, simple interest and bank discount, and buying and selling of corporation bonds and stocks.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

completion of MAT 0028 with a "C" or better or satisfactory test scores. Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Technical Elective Credits Required: 12

Total Technical Elective Credits Required: 12

Total Program Credits Required: 27

Suggested Academic Plan

Core Courses

CGS 1100 - Microcomputer Applications

or

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 1107 - Word Processing I

Integration of basic keyboarding and word processing – learning the keyboard, creating, editing, saving, and other word processing functions.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2117 - Word Processing II

Continuation of Typing and Word Processing I – develop keyboarding and document processing using a microcomputer.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 1107 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2335 - Business Communications

Business Communications is a comprehensive coverage of language structure and particular emphasis on writing superior business letters and reports. Instruction in principle, then illustration, and practice in applying the principles. A fundamental concept of the appearance, language and style, tone and psychology of effective business letters.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

OST 2401 - General Office Management

Study of practices and procedures in the modern office. Emphasis on exercising judgment, handling incoming calls and callers, processing mail, word processing systems, editing and composing techniques, travel arrangements, banking procedures, employment applications and resumes.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

OST 2117 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

General Education

Total General Education Credits Required: 18

Core Courses

MUM 1620 - Audio and Acoustic Fundamentals

Audio and Acoustic Fundamentals explores the basics of audio systems and equipment and the acoustical environment in which they are used. Emphasis is placed on equipment terminology, function and acoustical listening. The two basic fundamentals are summed together to begin laying the basic foundation required to operate audio and recording equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MUM 2300 - Introduction to the Music Industry

This course is an introduction to the history, principles, and practices of the music industry. Topics will include music publishing, copyright, distribution, industry organization, producing, and general business functions.

Credit Hour(s): 3 Credit Hours When Offered: (Summer)

MUM 2600 - Recording Techniques I

This course is designed as an introduction to basic audio engineering and studio practices. Listening exercises, phychoacoustics, microphone characteristics, and studio etiquette will be studied. In addition the student will study techniques and practices and procedures of multi-track recording, acoustical balancing, editing, and over dubbing in a variety of situations.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:
MUM 1620

MUM 2601 - Recording Techniques II

This course explores advanced multi-track recording skills and audio production techniques, edits, use of outboard equipment and live multi-track recording.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MUM 1620 , MUM 2600 .

MUM 2604 - Multi-Track Mixdown (Post Production)

This course explores the application of signal processing equipment as it relates to multi-track master mixdowns. In addition, software and hardware application of mixdown is applied to post-production practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
MUM 1620 , MUM 2600 , MUM 2601 .

Total Core Credits Required: 15

Technical Elective Courses

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):
a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUT 1111 - Music Theory I

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor scales, intervals, triads, 7th chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):
MUT 1241

MUT 1241 - Ear Training and Sight Singing I

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):
MUT 1111

MUT 1112 - Music Theory II

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, species counterpoint, chord structures, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
MUT 1111

Corequisite(s):

MUT 1242

MUT 1242 - Ear Training and Sight Singing II

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MUT 1241

Corequisite(s):

MUT 1112

MUT 2116 - Music Theory III

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including secondary chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MUT 1112

Corequisite(s):

MUT 2246

MUT 2246 - Ear Training and Sight Singing III

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall) Prerequisite(s):

MUT 1242

Corequisite(s):

MUT 2116

MUT 2117 - Music Theory IV

A continuing study of the fundamentals of basic musicianship, music notation, rhythms, musical structures, basic and advanced harmonic structures including modulation, non-tonicizing fully diminished 7th chords, augmented 6th chords, mode mixture, Neapolitan chords, polyphonic composition and keyboard work. This course is a continuing study of analytical models used for musical compositions of the 17th & 18th centuries while providing an introduction to Romantic period and chromatic musical structures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

MUT 2116

MUT 2247 - Ear Training and Sight Singing IV

____ ____ Other Approved College Credits (MUL, MUM, MUN, MUS, MUT, MVB, MVK, MVP, MVS, MVV, MVW)
____ ____ Other Approved College Credits

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, intermediate and advanced rhythmic identification and dictation, identification and dictation of advanced sonorities, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):

Suggested Two Year Academic Plan

Nursing (AS)

Admission Program Objective Code NURS State CIP Code 1351380100
The Associate in Science (A.S.) Nursing program at Northwest Florida State College located in Niceville, Florida is accredited by the:
Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400
Atlanta, GA 30326
(404) 975-5000
View the public information disclosed by the ACEN regarding this program at
http://www.acenursing.com/accreditedprograms/programsearch.htm
This program is a Selective Admission program subject to additional program policies. Policies are strictly enforced and students should work with a Student Success Navigator rather than self-advise. The admission criteria and process are subject to change; students should refer to the Selective Program Admissions/Nursing (AS) webpage for the most current information. All courses in the AS Nursing program, including general education and core courses, must be completed with a minimum grade of "C" to graduate with the AS Degree in Nursing.

General Education

____ ____ Any core Mathematics course 3 Credit Hours

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

ENC 1101 - English Composition I

____ ____ Humanities 3 Credit Hours

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

SYG 2000 - Sociology

or PSY 2012 - Psychology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Total General Education Credits Required: 20

Total General Education Credits Required: 20

Core Courses

A minimum grade of "C" in each Core course is required.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required theory courses in the nursing curriculum. Content includes an introduction to healthcare systems, ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program; BSC 1085C , ENC 1101 , Core College Level Math

Corequisite(s):

NUR 1021L , NUR 1141

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1021L - Nursing Process I Clinical Experience

This course introduces students to the role of the Associate Degree Nurse in providing direct, holistic nursing care to young, middle-aged and older adults who are hospitalized or in community settings. Students are introduced to all steps of the nursing process with a focus on assessment skills. Students will identify self-learning needs and set their own goals for improvement. Critical thinking and working effectively with peers and other healthcare professionals as a team member is expected. The demonstration of caring behaviors and therapeutic communication as a provider of bedside, technical nursing care is emphasized. Students must demonstrate safe performance of basic nursing skills, including but not limited to medication administration, physical assessment, and comfort care.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ADMISSION TO THE AS NURSING PROGRAM; BSC 1085C , ENC 1101 , CORE COLLEGE LEVEL MATH

Corequisite(s):

NUR 1021C , NUR 1141

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1141 - Pharmacologic Principles in Nursing I

This course introduces students to concepts and principles of pharmacology related to safe administration of therapeutic agents within the nursing process framework. Students begin to learn major drug classifications and selected exemplars along with principles of safe, effective administration of drugs. Students will learn dosage calculation, as well as factors that affect the absorption, excretion, distribution, and metabolism of drugs, and drug actions, adverse effects and interactions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Corequisite(s):

NUR 1021C , NUR 1021L

Note:

Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

Students will continue to learn about medications and their effects on different body systems. The conceptual and mathematical operations necessary for safe and effective administration of medications are emphasized.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):

NUR 1231C and NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L , NUR 1021C , AND NUR 1141 OR LPN LICENSURE, BSC 1086C

Corequisite(s):

NUR 1750L , NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics, and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Students continue to develop management skills through conflict management and other professional behaviors. Students demonstrate safe performance of all basic and more complex nursing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L , NUR 1021C , NUR 1141 OR LPN LICENSURE, BSC 1086C

Corequisite(s):

NUR 1231C , NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 2233C - Nursing Process III

Students continue to use the nursing process and critical thinking with emphasis on primary and secondary prevention as nursing interventions in clients experiencing threats to functional health patterns, including during the childbearing process and children whose normal lines of defense have been invaded by stressors to the degree that hospitalization is necessary. Nursing practice issues continue to focus on ethical-legal issues related to acute and/or chronic illness and disability. Management skills include delegation and career development. Core Course in these Programs

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1231C , NUR 1750L & NUR 1142 OR APPROVAL FROM PROGRAM DIRECTOR

Corequisite(s):

NUR 2233L

Prereq/Corequisites:

MCB 2010C

NUR 2233L - Nursing Process III – Clinical Experience

Students continue to apply knowledge and skills learned in previous nursing courses in providing nursing care for the hospitalized child, the family during the maternity cycle, and adults whose health problems are more complex and/or chronic. Clinical sites include hospitals, health departments, clinics, physician offices, schools and other community settings. Conflict resolution skills are applied, as needed, to meet client and/or peer learning goals. Delegation skills with peers are also practiced. Students demonstrate continuation of all previously learned nursing skills and must perform safely all advanced nursing skills in this clinical course.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1750L , NUR 1231C , NUR 1142

Corequisite(s):

NUR 2233C .

Prereq/Corequisites:

MCB 2010C

Note:

Special Nursing Program policies may apply to this course.

NUR 2241C - Nursing Process IV

Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Students differentiate holistic nursing care therapies in primary, secondary and tertiary care settings. Students become proficient in applying all steps in the nursing process with emphasis on evaluating nursing care outcomes. Students apply critical thinking skills in exploring case-based practice situations and work

together in learning seminars to select effective client care improvement processes. Self-evaluation is part of the socialization process to prepare students for the work world as competent, caring staff nurses. Nursing practice issues include licensure standards and continued professional development.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L , NUR 2233C , MCB 2010C

Corequisite(s):
NUR 2241L , NUR 2811L

Prereq/Corequisites:
SYG 2000 OR PSY 2012

Note:
Special Nursing program policies may apply to this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L, NUR 2233C, MCB 2010C

Corequisite(s):
NUR 2241C , NUR 2811L

Prereq/Corequisites:
SYG 2000 OR PSY 2012

Note:
Special Nursing Program policies may apply to this course.

NUR 2811L - Nursing Capstone

LPNs will receive credit for NUR 1021C, NUR 1021L, and NUR 1141.
This capstone course provides a time during the last four weeks of the nursing program in which students begin to transition from the student role into the graduate role as an associate degree nurse. Students attend seminar hours and complete standardized testing for evaluation in proficiency in applying all steps in the nursing process with emphasis on evaluating safe nursing care outcomes. Students complete clinical practice hours with an experienced registered nurse preceptor to provide holistic nursing care for a limited number of clients. The focus is on demonstration of all professional behaviors and competencies expected of the associate degree registered nurse graduate at entry level. Clinical experiences provide hands-on learning opportunities, enhancing clinical thinking, safe nursing judgment, and clinical confidence in skills. Clinical experiences take place in a variety of clinical settings and work schedules.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
NUR 2233L , NUR 2233C

Corequisite(s):
NUR 2241C , NUR 2241L

Prereq/Corequisites:
SYG 2000 or PSY 2012

Note:
Special Nursing Program policies may apply to this course.

Total Core Credits Required: 52

Total Core Credits Required: 52

Core Courses

A minimum grade of "C" in each Core course is required.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required theory courses in the nursing curriculum. Content includes an introduction to healthcare systems, ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program; BSC 1085C , ENC 1101 , Core College Level Math

Corequisite(s):

NUR 1021L , NUR 1141

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

This capstone course provides a time during the last four weeks of the nursing program in which students begin to transition from the student role into the graduate role as an associate degree nurse. Students attend seminar hours and complete standardized testing for evaluation in proficiency in applying all steps in the nursing process with emphasis on evaluating safe nursing care outcomes. Students complete clinical practice hours with an experienced registered nurse preceptor to provide holistic nursing care for a limited number of clients. The focus is on demonstration of all professional behaviors and competencies expected of the associate degree registered nurse graduate at entry level. Clinical experiences provide hands-on learning opportunities, enhancing clinical thinking, safe nursing judgment, and clinical confidence in skills. Clinical experiences take place in a variety of clinical settings and work schedules.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 2233L , NUR 2233C

Corequisite(s):

NUR 2241C , NUR 2241L

Prereq/Corequisites:

SYG 2000 or PSY 2012

Note:

Special Nursing Program policies may apply to this course.

Total Core Credits Required: 52

Total Core Credits Required: 52

Core Courses

A minimum grade of "C" in each Core course is required.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

MCB 2010C - Microbiology, Allied Health

This course is designed for students entering programs in the numerous health fields, but primarily for pre-nursing students. The material presented covers the fundamentals of microbiology needed to understand the biology of infectious diseases and the agents that cause them. Not recommended for biology, pre-med, pre-vet, and dentistry.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

CHM 1020 or CHM 1045C or BSC 1005 or BSC 1010C or BSC 1085C .

NUR 1021C - Nursing Process I

This course introduces concepts and principles of holistic nursing care. Students will build on knowledge obtained in the biophysical and psycho-social sciences in this first of four required theory courses in the nursing curriculum. Content includes an introduction to healthcare systems, ethical-legal aspects of nursing practice, health and illness, communications, functional health patterns of clients, stress-adaptation, professional behaviors, and all steps of the nursing process with emphasis on assessment of older adult clients. Students begin socialization into the role of the Associate Degree Nurse as a member of an interdisciplinary healthcare team.

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program; BSC 1085C , ENC 1101 , Core College Level Math

Corequisite(s):

NUR 1021L , NUR 1141

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1021L - Nursing Process I Clinical Experience

This course introduces students to the role of the Associate Degree Nurse in providing direct, holistic nursing care to young, middle-aged and older adults who are hospitalized or in community settings. Students are introduced to all steps of the nursing process with a focus on assessment skills. Students will identify self-learning needs and set their own goals for improvement. Critical thinking and working effectively with peers and other healthcare professionals as a team member is expected. The demonstration of caring behaviors and therapeutic communication as a provider of bedside, technical nursing care is emphasized. Students must demonstrate safe performance of basic nursing skills, including but not limited to medication administration, physical assessment, and comfort care.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ADMISSION TO THE AS NURSING PROGRAM; BSC 1085C , ENC 1101 , CORE COLLEGE LEVEL MATH

Corequisite(s):

NUR 1021C , NUR 1141

Prereq/Corequisites:

BSC 1086C , HUN 2201

Note:

Special Nursing Program policies may apply to this course.

NUR 1141 - Pharmacologic Principles in Nursing I

This course introduces students to concepts and principles of pharmacology related to safe administration of therapeutic agents within the nursing process framework. Students begin to learn major drug classifications and selected exemplars along with principles of safe, effective administration of drugs. Students will learn dosage calculation, as well as factors that affect the absorption, excretion, distribution, and metabolism of drugs, and drug actions, adverse effects and interactions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

Admission to the AS Nursing Program

Corequisite(s):

NUR 1021C , NUR 1021L

Note:

Special Nursing Program policies may apply to this course.

NUR 1142 - Pharmacologic Principles in Nursing II

Students will continue to learn about medications and their effects on different body systems. The conceptual and mathematical operations necessary for safe and effective administration of medications are emphasized.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

NUR 1141 or LPN licensure and admission to the Nursing Program

Corequisite(s):

NUR 1231C and NUR 1750L

Note:

Special Nursing Program policies may apply to this course.

NUR 1231C - Nursing Process II

Application of the nursing process continues with emphasis on the planning and implementation of nursing care for clients experiencing threats to functional health patterns. Development of professional behaviors, such as developing therapeutic relationships continues with students working clients through life interactions. Students further develop critical thinking skills through case studies and simulation scenarios designed to provide students with problem solving skills in analyzing, planning and prioritizing care for clients whose health problems are more acute or chronic; the client with psycho-emotional dysfunctions, dysfunctional support systems situations, grief, and loss. Students learn basic management skills as a team member caring for a limited number of clients in hospitals with emphasis on coordination of nursing care and discharge planning. Conflict management skills are highlighted as the student increases role as client advocate.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L , NUR 1021C , AND NUR 1141 OR LPN LICENSURE, BSC 1086C

Corequisite(s):

NUR 1750L , NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 1750L - Nursing Process II - Clinical Experience

This course builds on competencies presented in Nursing Process I regarding the role of the Associate Degree Nurse in providing direct, holistic nursing care for adult clients experiencing dysfunctional health patterns. Clinical experiences in hospitals, clinics, and community settings provide students with opportunities to apply the nursing process in care of clients, including the older adult. Students continue to develop management skills through conflict management and other professional behaviors. Students demonstrate safe performance of all basic and more complex nursing skills.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1021L , NUR 1021C , NUR 1141 OR LPN LICENSURE, BSC 1086C

Corequisite(s):

NUR 1231C , NUR 1142

Prereq/Corequisites:

DEP 2004

Note:

Special Nursing Program policies may apply to this course.

NUR 2233C - Nursing Process III

Students continue to use the nursing process and critical thinking with emphasis on primary and secondary prevention as nursing interventions in clients experiencing threats to functional health patterns, including during the childbearing process and children whose normal lines of defense have been invaded by stressors to the degree that hospitalization is necessary. Nursing practice issues continue to focus on ethical-legal issues related to acute and/or chronic illness and disability. Management skills include delegation and career development. Core Course in these Programs

Credit Hour(s): 6 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1231C , NUR 1750L & NUR 1142 OR APPROVAL FROM PROGRAM DIRECTOR

Corequisite(s):

NUR 2233L

Prereq/Corequisites:

MCB 2010C

NUR 2233L - Nursing Process III – Clinical Experience

Students continue to apply knowledge and skills learned in previous nursing courses in providing nursing care for the hospitalized child, the family during the maternity cycle, and adults whose health problems are more complex and/or chronic. Clinical sites include hospitals, health departments, clinics, physician offices, schools and other community settings. Conflict resolution skills are applied, as needed, to meet client and/or peer learning goals. Delegation skills with peers are also practiced. Students demonstrate continuation of all previously learned nursing skills and must perform safely all advanced nursing skills in this clinical course.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 1750L , NUR 1231C , NUR 1142

Corequisite(s):

NUR 2233C .

Prereq/Corequisites:

MCB 2010C

Note:

Special Nursing Program policies may apply to this course.

NUR 2241C - Nursing Process IV

Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Students differentiate holistic nursing care therapies in primary, secondary and tertiary care settings. Students become proficient in applying all steps in the nursing process with emphasis on evaluating nursing care outcomes. Students apply critical thinking skills in exploring case-based practice situations and work together in learning seminars to select effective client care improvement processes. Self-evaluation is part of the socialization process to prepare students for the work world as competent, caring staff nurses. Nursing practice issues include licensure standards and continued professional development.

Credit Hour(s): 5 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

NUR 2233L , NUR 2233C , MCB 2010C

Corequisite(s):

NUR 2241L , NUR 2811L

Prereq/Corequisites:

SYG 2000 OR PSY 2012

Note:

Special Nursing program policies may apply to this course.

NUR 2241L - Nursing Process IV – Clinical Experience

Students integrate knowledge and principles of the biophysical and psychosocial sciences to solve life-threatening problems that affect a limited number of critically ill clients in a variety of clinical settings. Core Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1003 - Introduction to Paralegal Studies

This course is designed to give students a broad understanding of the nature of the paralegal profession and the elements contained within the profession, as well as its responsibility.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1005 - Legal Terminology

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for students seeking careers in legal secretary technology or legal assisting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1114 - Legal Research and Writing

This course is designed to provide the student with necessary skills and knowledge required in legal research/case analysis and legal writing.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

PLA 1003 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court

systems of the various states and the federal government in a non-criminal setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Technical Elective Courses

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):
BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
Knowledge of basic computer and keyboarding skills are strongly recommended.

CJL 1100 - Criminal Law

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

Suggested Two Year Academic Plan

Core Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1003 - Introduction to Paralegal Studies

This course is designed to give students a broad understanding of the nature of the paralegal profession and the elements contained within the profession, as well as its responsibility.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1005 - Legal Terminology

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for

students seeking careers in legal secretary technology or legal assisting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1114 - Legal Research and Writing

This course is designed to provide the student with necessary skills and knowledge required in legal research/case analysis and legal writing.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

PLA 1003 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court systems of the various states and the federal government in a non-criminal setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of a minimum of 12 credit hours in the appropriate discipline, including PLA 1003 and permission of the instructor is required. Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

*This college credit course is not intended for transfer and may not be applied toward the AA degree.

Core Courses

BUL 2241 - Business Law I

Introductory course in business law with objective of presenting the law underlying business transactions. Course includes the study of the Law of Contracts, the Law of Bailments, and the Law of Sales based on the Uniform Commercial Code. Recommended for Business degree students.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1003 - Introduction to Paralegal Studies

This course is designed to give students a broad understanding of the nature of the paralegal profession and the elements contained within the profession, as well as its responsibility.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1005 - Legal Terminology

This course is designed to give an explanation of the common legal vocabulary involved in the broad, general principles of substantive and common law.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1013 - Introduction to the Legal System

A practical introduction to the US legal system, types and sources of law, the courts, and related topics; a beginning course for students seeking careers in legal secretary technology or legal assisting.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1114 - Legal Research and Writing

This course is designed to provide the student with necessary skills and knowledge required in legal research/case analysis and legal writing.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

PLA 1003 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1203 - Civil Procedure

This course provides an insight into the system of dispute resolution for private parties and the government provided by the court systems of the various states and the federal government in a non-criminal setting.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1600 - Wills, Trusts, and Probate

This course is designed to provide the student with an introductory knowledge of estate planning, wills, and probate administration.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 1800 - Introduction to Family Law

An introduction to practices as they relate to family law.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2273 - Tort Law

This course is designed to provide the student with an introductory knowledge of tort law with objectives centered on personal injury torts.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Core Credits Required: 27

Total Core Credits Required: 27

Technical Elective Courses

BUL 2242 - Business Law II

Course context explores laws relative to negotiable instruments, agency, partnerships, (includes study of Uniform Partnership Act), corporation law, creditors rights, consumer protection and insurance. Based on Uniform Commercial Code.

Credit Hour(s): 3 Credit Hours When Offered: Offered as needed Prerequisite(s):

BUL 2241 is required and knowledge of basic computer and keyboarding skills are strongly recommended.

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various

communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CGS 1570 - Computer Applications for Business

This is a hands-on course using computer software (word processing, spreadsheet and database) to facilitate the activities involved in the business environment.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

CJL 1100 - Criminal Law

Includes the study of the fundamentals of Criminal Law to include historical background and development, jurisdiction, the criminal act and responsibility, as well as, classification and analysis of Florida Statutes.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CJL 1400 - Criminal Procedure

Includes the study of the fundamentals of constitutional, criminal and civil law; principles, duties and mechanics of criminal procedures in Florida as applied to arrest, search, seizure, and court processing; and a functional analysis of the rules of evidence in court procedures.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

CJL 2500 - Courts and the Judicial Process

This course is designed to teach the student the major structures and basic legal concepts of the American criminal court system. The students shall learn the components, personnel, and inherent social issues in our present criminal court system.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

LIS 2004 - Introduction to Internet Research

Introduction to Internet Research is a one-credit hour course offered only online. The course focuses on methods of accessing information resources available through the internet. Students learn to design search strategies, retrieve, evaluate, and cite internet resources.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

a full service Internet account, including an electronic mail address from an Internet Service Provider (ISP), or access through a corporate or educational institution prior to beginning the course.

OST 1355 - Records Management

Methods and systems of filing used in business offices, filing equipment, and time-and-motion skills. Filing practice sets are used.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PLA 2949 - Internship - Paralegal

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments.

Paramedic (CCC)

Admission Program Objective Code EMPM State CIP Code 0351090405
Admission will be through a Limited Access application process. Graduates will be eligible to sit for the Paramedic certification exam. The curriculum forms the core of the Emergency Medical Services (AS) degree (State CIP Code 1351090402). Students

may "add on" general education credits and some college credit electives to the Paramedic certificate and earn the A.S. degree. Students interested in pursuing this program should contact the Emergency Medical Services Office (850) 729-5378.

Prerequisites for Admission

OR

BSC 1085C - Anatomy and Physiology I AND BSC 1086C - Anatomy and Physiology II

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 2020C - Human Structure and Function

A study of the structures and functions of the human body with emphasis on system integrations (homeostasis) and an introduction to system disorders and pathologies.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

AND

HSC 1531 - Medical Terminology

An introduction to prefixes, suffixes, root words, combining forms, Latin and Greek forms, spelling, and pronunciation, with emphasis on building a working medical vocabulary based on body systems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Total Prerequisite Credits Required: 7

Core Courses

EMS 2231 - Paramedic Processes I

First course in the sequence necessary for Paramedic program completion. Designed to integrate concepts and clinical skills learned at the EMT level with advanced life support concepts and skills. Emphasis on patient assessment, pulmonary anatomy and physiology, advanced airway management, pathophysiology and clinical management of shock, medical emergencies and traumatic injuries. Course is consistent with most current Department of Transportation (DOT) curriculum.

Credit Hour(s): 7 Credit Hours When Offered: (Fall and Spring) Prerequisite(s):

BSC 2020C - Human Structure and Function OR BSC 1085C - Anatomy and Physiology I AND BSC 1086C - Anatomy and Physiology II HSC 1531 - Medical Terminology

Corequisite(s):

EMS 2435L

EMS 2232C - Paramedic Processes II

Second course in the sequence necessary for Paramedic program completion. Integrates and reinforces concepts and clinical skills learned in Paramedic Processes I, with emphasis on pharmacology, cardiology and Advanced Cardiac Life Support (ACLS) skills. Other topics include assessment and management of OB/GYN emergencies, psychiatric emergencies, pediatric emergencies, musculoskeletal injuries and mass casualty situations. Consistent with the most current DOT curriculum.

Credit Hour(s): 6 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2436L .

EMS 2233 - Paramedic Processes III

The final course necessary for Paramedic program completion. Designed to prepare the student for both Florida State Board and National Registry examinations. Emphasizes the integration of paramedic knowledge, attitudes and behaviors. Course consistent with the most current DOT curriculum.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):

EMS 2425L [Inactive].

EMS 2435L - Paramedic Lab I

The clinical and skills laboratory companion course to EMS 2231C. Designed to provide instruction in advanced paramedic skills and the opportunity to apply these skills in the clinical setting. By state rule, the instructor-to-students ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Paramedic program

Corequisite(s):

EMS 2231 .

EMS 2436L - Paramedic Lab II

This course is the clinical companion course to EMS 2232C, Paramedic Processes II. It is designed to provide instruction in the advanced paramedic skills and the opportunity to apply them in the clinical setting. By state rule, the instructor-to-student ratio will not exceed six students to one instructor.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

EMS 2435L

Corequisite(s):

EMS 2232C .

EMS 2438C - Advanced Clinical Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments. This is the capstone course for the Paramedic Program.
Instructor permission is required.

Credit Hour(s): 6 Credit Hours When Offered: (Summer) Prerequisite(s):

EMS 2232C , EMS 2436L and permission of the instructor

EMS 2552 - Advanced Cardiac Life Support (ACLS)

An intense overview of the guidelines for emergency cardiac care and cardiac arrest management as published by the American Heart Association. Students must successfully pass a written examination and a skills proficiency performance examination to receive the "ACLC Provider" and successfully pass the course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate and CPR for Health Care Providers certification.

EMS 2553 - Pediatric Advanced Life Support (PALS)

Designed for the EMS student. Fundamentals of recognizing infants and children who are at risk for cardiopulmonary arrest, including the strategies that are needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2555 - Prehospital Trauma Life Support

Fundamentals of managing traumatic injuries at the basic and advanced levels in accordance with the NAEMT PHTLS guidelines. The recognition and treatment of specific traumatic injuries such as pneumothorax, closed head injury, hemothorax, compensated and decompensated shock, fractures, uncontrolled bleeding, internal injuries of the abdomen and thorax. Emphasis is on rapid assessment, management and transport with discussion on mechanism of injury and kinematics of trauma.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):

EMT Certification or instructor permission

Total Core Credits Required:35

Total Program Credits Required: 42

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

EMS 2435L

Corequisite(s):

EMS 2232C .

EMS 2438C - Advanced Clinical Internship

This is an individualized internship course that provides the student with supervised professional experience utilizing skills acquired in the program of study. The student will work with a qualified work site supervisor on approved projects related to his or her degree in a professional environment. The work site supervisor will evaluate the student's performance, and the student will submit report(s), examples of projects completed, or other assignments as required by the instructor, as appropriate, during the internship experience for evaluation by the college instructor. If this course is taken for credit more than once, the student must, on the second and subsequent (if applicable) enrollment(s), develop in concert with the work site supervisor and college instructor a unique set of objectives and assessments. This is the capstone course for the Paramedic Program.
Instructor permission is required.

Credit Hour(s): 6 Credit Hours When Offered: (Summer) Prerequisite(s):

EMS 2232C , EMS 2436L and permission of the instructor

EMS 2552 - Advanced Cardiac Life Support (ACLS)

An intense overview of the guidelines for emergency cardiac care and cardiac arrest management as published by the American Heart Association. Students must successfully pass a written examination and a skills proficiency performance examination to receive the "ACLC Provider" and successfully pass the course.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate and CPR for Health Care Providers certification.

EMS 2553 - Pediatric Advanced Life Support (PALS)

Designed for the EMS student. Fundamentals of recognizing infants and children who are at risk for cardiopulmonary arrest, including the strategies that are needed to prevent cardiopulmonary arrest in infants and children and the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock or cardiopulmonary arrest.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

EMT certificate or permission of the instructor.

EMS 2555 - Prehospital Trauma Life Support

Fundamentals of managing traumatic injuries at the basic and advanced levels in accordance with the NAEMT PHTLS guidelines. The recognition and treatment of specific traumatic injuries such as pneumothorax, closed head injury, hemothorax, compensated and decompensated shock, fractures, uncontrolled bleeding, internal injuries of the abdomen and thorax. Emphasis is on rapid assessment, management and transport with discussion on mechanism of injury and kinematics of trauma.

Credit Hour(s): 1 Credit Hour When Offered: (Summer) Prerequisite(s):

EMT Certification or instructor permission

Total Core Credits Required:35

Total Program Credits Required: 42

Total Program Credits Required: 42

Preschool Specialization (CCC)

Admission Program of Study Code CCPS State CIP Code 0419070908
Students who successfully complete this certificate may be eligible to receive credits towards the Early Childhood Education (AS) degree (State CIP Code 1413121004).

Core Courses

DEP 2100 - Child Growth and Development

This course covers the growth and development of the child from conception through age five, including the physical, social, emotional and mental development of the young child, influence of environment, and principles and theories of development.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EEC 1001 - Introduction to Early Childhood Education

Study of principles and practices of programs for young children; current research in early childhood education, role of the teacher, and selection and use of equipment and materials for groups of young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

EEC 1309 - Early Childhood Education Foundations

Study of the techniques of using language arts, science, art, social studies, music, mathematics, and physical activities with young children.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Summer, Spring)

EEC 1949 - Internship, Early Childhood Education

On-the-job training (OJT) in the Associate in Science degree program in which the student is enrolled. The student is under the supervision, at work, of a qualified supervisor appointed by the respective agency, who works with the NWFSC instructor regarding student's OJT objectives based on student's goals and prior training. The supervisor will rate the student's performance, knowledge, comprehension, dependability, initiative, cooperativeness based on OJT performance. NWFSC instructor will evaluate student OJT experience in consultation with agency supervisor regarding OJT performance and project paper on approved project submitted two weeks prior to close of semester. This course may be repeated four times for a total of 12 semester hours. Current background check (fingerprinting) as required by the Early Childhood program in which the field experience will take place is required for this course.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prereq/Corequisites:

EEC 1309 or EEC 1201 .

Total Core Credits Required: 12

Total Program Credits Required: 12

Rapid Prototyping Specialist (CCC)

Admission Program of Study Code RAPP State CIP Code 0615130211

Core Courses

ETD 2364C - SolidWorks I

A basic course in Parametric Solid Design using SolidWorks Software. Topics include: basic concepts of parametric part sketching 3D part creation, Revolve, Sweep and Lofted features, shell and coil, surface creation, sheet metal and orthographic drawing production.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

ETD 2368C - SolidWorks II

The second course in a series designed to develop skill and proficiency in Parametric Solid Design, using SolidWorks Software. Topics include: sheet metal modeling, assembly concepts, assembly modeling approach and tools, advanced constraints, motion simulation, adaptive technology and drawing presentation.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

ETD 2364C or higher or equivalent.

ETD 2371C - 3D Printing I

This course will develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students select a field of specialization to explore methods and materials in a number of options in industrial environment with the use of computer

simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2364C or ETD 1355C or ETD 2357C or permission of instructor.

ETD 2372C - 3D Printing II
The student will continue to develop elements of creative thinking and problem solving used in the design process, including the techniques and methods used to construct prototypes and models. In the project aspect of this course, the students expand their knowledge in the methods and materials and of computer simulation, modeling, and rapid prototyping.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
ETD 2371C or permission of the instructor.

Total Core Credits Required: 12

Suggested Academic Plan

Total Core Credits Required: 12

Radiography (AS)

Admission Program Objective Code RADT State CIP Code 1351091100
The Radiography program is based on selective admission, subject to additional policies and licensure requirements. The admission criteria and process are subject to change; students should refer to the Selective Program Admissions Radiography (AS) webpage for the most current information. All courses in the Radiography program, including required general education and core courses, must be completed with a minimum grade of "C" to graduate with the AS Degree in Radiography. Graduates are eligible to sit for the ARRT certification exam. For additional information, contact the Health Technology Department at (850) 729-6444.
Please note: In order to be a part of the Radiography program applicant pool, students must declare Radiography as their intended major on the online admissions application.

General Education

____ ____ - Communication Skills 3 Credit Hours
____ ____ - Humanities 3 Credit Hours

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development
MAC 1105 - College Algebra , an equivalent, or higher level math course 3 Credit Hours
A research oriented course in human development, covering the life span of the human being from conception to death. Special

emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Total General Education Credits Required: 20

Core Courses

RTE 1000 - Introduction to Radiologic Technology

This course is designed to provide an overview of the history of radiography and the role and scope of practice of the practitioner in the healthcare delivery system. Organizations, accreditation, federal agencies, regulatory agencies (including OSHA) and professional credentialing will be discussed. Content includes a fundamental background in medical law, ethics, human diversity and patient consent. The student will examine a variety of ethical issues and dilemmas found in clinical practice, as well as developing a better understanding of patients, the patient's families, and professional peers through comparison of diverse populations based on value systems, cultural and ethnic influences, communication styles and socioeconomic influences. Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed. Background check, drug screening, training and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, offered as needed) Prerequisite(s):

Admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography, conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1418 .

Corequisite(s):

RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):

RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures (chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1000

Corequisite(s):

RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1804L

Corequisite(s):

RTE 1513C .

RTE 1824L - Radiography Clinical Education III

This course is a continuation of Radiography Clinical Education II. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I and II. The student will gain experience and develop clinical competence in general radiographic procedures such as the cranium and specialized contrast studies. Advanced patient care skills, critical thinking, imaging and exposure techniques, radiation protection application and image processing will be emphasized. This rotation covers clinical experience in all phases of fundamental radiologic procedures and image critique. Students will rotate through ancillary departments in this course.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):

RTE 1814L

Corequisite(s):

RTE 2523C .

RTE 2061 - Radiographic Preparation for Practice

This course is designed review information in preparation for the student to take the American Registry of Radiologic Technologist (ARRT) registry examination. The course will cover patient care and education, image production, equipment operation and maintenance, radiographic procedures and radiation protection. The student will also be given simulated registry examinations for practice and assessment purposes.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 2844L

Corequisite(s):

RTE 2854L .

RTE 2385 - Radiographic Protection and Biology

This course is designed to provide the student with an overview of the principles of interaction of ionizing radiation with living systems. Ionizing effects on molecules, cells, tissues and the body as a whole are presented, along with factors affecting biological response, including; acute, chronic, stochastic and non-stochastic effects. This course is also designed to present an overview of

the principles of radiation protection including the responsibilities of the radiographer for patients, personnel and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and healthcare organizations are incorporated, as are the various methods of monitoring radiation exposure and acceptable dose limit values.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1000 , RTE 1418 , RTE 1457C , RTE 2523C

Corequisite(s):

RTE 2844L .

RTE 2473 - Radiographic Quality Assurance

This course is designed to introduce the radiography student to evaluation methodology of radiographic systems to assure consistency in the production of quality images. Image critique, fluoroscopy, malfunctions, and specifications are some of the topics covered in the course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1418 , RTE 1457C

Corequisite(s):

RTE 2844L .

RTE 2523C - Radiographic Procedures III

This course is a continuation of RTE 1513C covering cranium procedures and positioning. It is designed to provide the student with instruction in more complex radiographic procedures such as fluoroscopy, urinary studies, bone age, trauma, pediatrics, mobile and surgical radiography. Included is instruction in additional modalities and studies such as CT, MRI, arthography, myelography, and vascular studies. Attention will be given to the specialized equipment, contrast media, critical thinking and techniques necessary to perform these procedures. Radiographic anatomy, pathology, and critique of images are included in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):

RTE 1513C

Corequisite(s):

RTE 1824L .

RTE 2782 - Radiographic Pathology

This course is designed to introduce theories of disease causation and the pathophysiologic disorder that compromise healthy persons. Etiology, pathophysiologic responses, clinical manifestations, and radiographic appearance of alterations in body systems will be presented. Emphasis will be placed on pathological findings on diagnostic radiographic images.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 2523C

Corequisite(s):

RTE 2854L .

RTE 2844L - Radiography Clinical Education IV

This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1824L

Corequisite(s):

RTE 2385 .

RTE 2854L - Radiography Clinical Education V

All RTE courses must be completed with a grade of 75 or higher to progress in the Radiography Program.
This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2061 .

RTE 2571 - Introduction to Computed Tomography

This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):
RTE 1418

RTE 2533C - Radiographic Procedures IV

This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2844L

Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed. Background check, drug screening, training and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, offered as needed) Prerequisite(s):

Admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography,

conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1418 .

Corequisite(s):
RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):
BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):
RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures (chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000

Corequisite(s):
RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 1804L

Corequisite(s):
RTE 1513C .

RTE 1824L - Radiography Clinical Education III

This course is a continuation of Radiography Clinical Education II. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I and II. The student will gain experience and develop clinical competence in general radiographic procedures such as the cranium and specialized contrast studies. Advanced patient care skills, critical thinking, imaging and exposure techniques, radiation protection application and image processing will be emphasized. This rotation covers clinical experience in all phases of fundamental radiologic procedures and image critique. Students will rotate through ancillary departments in this course.

Credit Hour(s): 4 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1814L

Corequisite(s):
RTE 2523C .

RTE 2061 - Radiographic Preparation for Practice

This course is designed review information in preparation for the student to take the American Registry of Radiologic Technologist (ARRT) registry examination. The course will cover patient care and education, image production, equipment operation and

maintenance, radiographic procedures and radiation protection. The student will also be given simulated registry examinations for practice and assessment purposes.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2844L

Corequisite(s):
RTE 2854L .

RTE 2385 - Radiographic Protection and Biology

This course is designed to provide the student with an overview of the principles of interaction of ionizing radiation with living systems. Ionizing effects on molecules, cells, tissues and the body as a whole are presented, along with factors affecting biological response, including; acute, chronic, stochastic and non-stochastic effects. This course is also designed to present an overview of the principles of radiation protection including the responsibilities of the radiographer for patients, personnel and the public. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and healthcare organizations are incorporated, as are the various methods of monitoring radiation exposure and acceptable dose limit values.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1000 , RTE 1418 , RTE 1457C , RTE 2523C

Corequisite(s):
RTE 2844L .

RTE 2473 - Radiographic Quality Assurance

This course is designed to introduce the radiography student to evaluation methodology of radiographic systems to assure consistency in the production of quality images. Image critique, fluoroscopy, malfunctions, and specifications are some of the topics covered in the course.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 1418 , RTE 1457C

Corequisite(s):
RTE 2844L .

RTE 2523C - Radiographic Procedures III

This course is a continuation of RTE 1513C covering cranium procedures and positioning. It is designed to provide the student with instruction in more complex radiographic procedures such as fluoroscopy, urinary studies, bone age, trauma, pediatrics, mobile and surgical radiography. Included is instruction in additional modalities and studies such as CT, MRI, arthography, myelography, and vascular studies. Attention will be given to the specialized equipment, contrast media, critical thinking and techniques necessary to perform these procedures. Radiographic anatomy, pathology, and critique of images are included in this course.

Credit Hour(s): 3 Credit Hours When Offered: (Summer) Prerequisite(s):
RTE 1513C

Corequisite(s):
RTE 1824L .

RTE 2782 - Radiographic Pathology

This course is designed to introduce theories of disease causation and the pathophysiologic disorder that compromise healthy persons. Etiology, pathophysiologic responses, clinical manifestations, and radiographic appearance of alterations in body systems will be presented. Emphasis will be placed on pathological findings on diagnostic radiographic images.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2854L .

RTE 2844L - Radiography Clinical Education IV

This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1824L

Corequisite(s):

RTE 2385 .

RTE 2854L - Radiography Clinical Education V

All RTE courses must be completed with a grade of 75 or higher to progress in the Radiography Program.
This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 2844L

Corequisite(s):

RTE 2061 .

RTE 2571 - Introduction to Computed Tomography

This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):

RTE 1418

RTE 2533C - Radiographic Procedures IV

This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 2523C

Corequisite(s):

RTE 2844L

Total Core Credits Required: 57

Total Core Credits Required: 57

Suggested Two Year Academic Plan

Core Courses

RTE 1000 - Introduction to Radiologic Technology

This course is designed to provide an overview of the history of radiography and the role and scope of practice of the practitioner in the healthcare delivery system. Organizations, accreditation, federal agencies, regulatory agencies (including OSHA) and professional credentialing will be discussed. Content includes a fundamental background in medical law, ethics, human diversity and patient consent. The student will examine a variety of ethical issues and dilemmas found in clinical practice, as well as developing a better understanding of patients, the patient's families, and professional peers through comparison of diverse populations based on value systems, cultural and ethnic influences, communication styles and socioeconomic influences. Radiographic medical terminology and pharmacology will be covered. Site specific clinical education paperwork will be completed. Background check, drug screening, training and clinical site approval mandatory.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, offered as needed) Prerequisite(s):

Admission to the Radiography Program.

RTE 1111 - Introduction to Radiographic Patient Care

This course is designed to prepare radiography students to provide basic patient care. Basic concepts of patient care will be described, as well as infection control procedures and standard precautions. This course includes hospital specific training. Health risks, life stages, HIV/AIDs and domestic violence will be discussed. This course also includes an introduction to medical and radiographic terminology. Topics include vital signs, venipuncture, body mechanics and transport, verbal/nonverbal communication, and some pharmacology.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):

admission to the Radiography Program.

RTE 1418 - Radiographic Techniques I

This course is designed to establish a knowledge base in factors that govern and influence the production and recording of radiographic images. This course introduces the student to a comprehensive study and theory of the production of x-rays and primary exposure factors of radiographic imaging. The image parameters of density, contrast, recorded detail, image distortion and blur will be studied as well as ancillary devices and equipment required to produce a quality radiographic image. Digital imaging with related accessories will be emphasized. Class demonstrations and exercises are used to demonstrate application of theory.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

MAC 1105 or other Gordon Rule math course and admission to the Radiography Program.

RTE 1457C - Radiographic Techniques II

This course is a continuation of RTE 1418 Radiographic Techniques I. Course content includes the basics of magnetism, electricity, motors, generators, rectifying systems, x-ray tube and filament circuitry. Topics in electromagnetism such as self and mutual induction, high voltage transformation, and AC rectification will be emphasized. An introduction of special radiographic methods will include automatic exposure control, computers, fluoroscopy and image intensification, subtraction radiography, conventional tomography, digital image receptors, and digital image acquisition and manipulation.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1418 .

Corequisite(s):

RTE 1513C

RTE 1503C - Radiographic Procedures I

This course is designed to provide the Radiography student with instruction in radiographic examinations of the chest, abdomen, upper extremity and lower extremity. An introduction to medical and radiographic terminology, radiographic anatomy, and image critique are also included.

Credit Hour(s): 4 Credit Hours When Offered: (Fall) Prerequisite(s):

BSC 1085C and admission to the Radiography program.

RTE 1513C - Radiographic Procedures II

This course is a continuation of RTE 1503C . It is designed to provide the student with instruction in radiographic procedures and anatomy in the distal extremities, hip region, spine, ribs, and sternum and the cranium. Critical thinking, medical and radiographic terminology, as well as image critique are emphasized.

Credit Hour(s): 4 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1503C , RTE 1804L , and BSC 1086C

Corequisite(s):

RTE 1814L .

RTE 1804L - Radiography Clinical Education I

This course involves the practical application of the theories covered in RTE 1503C and RTE 1000 . Rotations provide experience with various imaging systems, protocols, and patient care. Students observe, assist and perform basic radiographic procedures (chest, abdomen and extremities) under direct supervision. This course emphasizes patient care and critical thinking. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1000

Corequisite(s):

RTE 1503C

RTE 1814L - Radiography Clinical Education II

This course is a continuation of Radiography Clinical Education I. This clinical training emphasizes lower and upper extremity. Medical and radiographic terminology, patient care, critical thinking and communication skills are emphasized. This course meets at the affiliate hospitals. Uniforms, name badges and radiographic markers required.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 1804L

Corequisite(s):

RTE 1513C .

RTE 1824L - Radiography Clinical Education III

General Education

____ ____ - Communication Skills 3 Credit Hours
____ ____ - Humanities 3 Credit Hours

BSC 1085C - Anatomy and Physiology I

A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II

A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development

MAC 1105 - College Algebra , an equivalent, or higher level math course 3 Credit Hours

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Total General Education Credits Required: 20

RTE 2844L - Radiography Clinical Education IV

This course is a continuation of RTE 1824L . The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I, II and III. The student will gain experience and develop clinical competence in specialized imaging procedures, and mobile, surgical and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Fall) Prerequisite(s):

RTE 1824L

Corequisite(s):

RTE 2385 .

RTE 2854L - Radiography Clinical Education V

All RTE courses must be completed with a grade of 75 or higher to progress in the Radiography Program.
This course is a continuation of RTE 2844L . The terminal objective for this course is to prepare the student for employment as an entry level technologist. The student is expected to continue to refine those skills related to objectives listed in Clinical Practicum's I-IV and trauma radiography. Advanced imaging skills and exposure techniques will continue to be provided. Rotations through ancillary areas continue.

Credit Hour(s): 5 Credit Hours When Offered: (Spring) Prerequisite(s):

RTE 2844L

Corequisite(s):
RTE 2061 .

RTE 2571 - Introduction to Computed Tomography
This course is designed to provide entry-level radiography students with an introduction to and basic understanding of the operation of a computed tomography (CT) device. Content is not intended to result in clinical competency.

Credit Hour(s): 1 Credit Hour When Offered: (Spring) Prerequisite(s):
RTE 1418

RTE 2533C - Radiographic Procedures IV
This is a continuation of RTE 2523C, with emphasis on special procedures and additional modalities. Students are required to complete observations hours within specialty areas.

Credit Hour(s): 2 Credit Hours When Offered: (Fall) Prerequisite(s):
RTE 2523C

Corequisite(s):
RTE 2844L

General Education

____ ____ - Communication Skills 3 Credit Hours
____ ____ - Humanities 3 Credit Hours

BSC 1085C - Anatomy and Physiology I
A study of the human organism to include cells, tissues, skeleton, muscular system and nervous system.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

BSC 1086C - Anatomy and Physiology II
A study of the human organism to include the cardiovascular system, the fluid electrolyte balance, and the respiratory, excretory, endocrine, reproductive, gastrointestinal and immune systems.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer)

DEP 2004 - Human Growth and Development
MAC 1105 - College Algebra , an equivalent, or higher level math course 3 Credit Hours
A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

Total General Education Credits Required: 20

Sports, Fitness and Recreation Management (AS)

Core Courses

HLP 1081 - Wellness: Practice and Theory

A course designed to promote wellness through assessment, instruction and fitness programs which, if applied, will enable the individual to achieve and/or maintain a high quality of health and fitness throughout life. Based on assessment test results a physical examination by a physician may be recommended.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

HSC 1100 - Health Education

A systematic and comprehensive coverage of basic factual material, concepts, terminology, and important trends in major health areas of concern today.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

HSC 1400 - First Aid

Preparation to meet emergencies that occur in the school, home or on the highway. Instruction and practice in dressing and bandaging, care of wounds, shock, bone and joint injuries, cardiopulmonary resuscitation, transportation of the injured oral poisoning and other medical emergencies.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

PEM 1131A - Strength Training

This course is a high intensity lecture/demonstration and flexible lab hour weight training program designed to increase the size, strength, and endurance of the skeletal muscle system. Instruction includes, but is not limited to, weight training safety, etiquette, history, and nutrition. Instruction will be given in the design of progressive resistance programs to increase total body efficiency and to meet the objectives of the individual student. Students are responsible for determining fitness for training, and those with medical problems which restrict personal activities are encouraged to obtain medical clearance before enrolling in the course.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 1000 - Introduction to Physical Education

A study of the history of physical education and sport with particular emphasis placed on present practices and trends.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

PET 2622 - Care and Prevention of Athletic Injuries

Designed to provide students with a basic knowledge of the care, prevention, and rehabilitation of injuries received during participation in physical education activities to include the effects and dangers of drug use including performance enhancing drugs.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

LEI 1544 - Outdoor Recreation Management

This course examines the fundamental influences on outdoor recreation. The course also provides information on hazards, conservation considerations, and safety factors in planning and organizing outdoor recreations. Basic first aid, CPR, and AED training is incorporated as it pertains to outdoor recreation. Field trips may be assigned as warranted.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring)

Total Core Credits Required: 21

Total Core Credits Required: 21

Technical Elective Courses

CCJ 1020 - Introduction to Criminal Justice

An introduction to the philosophical and historical background of law enforcement and the administration of criminal justice. Organization and jurisdiction of local, state, and federal law enforcement agencies, court and criminal procedures, career opportunities in the Criminal Justice field are also covered.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

CGS 1100 - Microcomputer Applications

This is a hands-on course using computer software including discussion and practical applications of the Windows operating system, computing concepts, Internet, word processing, spreadsheets, database management, presentation software, and various communications topics.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

none

CLP 1001 - Personal Adjustment

Psychology of adjustment, application of psychological theory for problem solving and better mental health. An examination of psychological defense mechanisms and adaptive behavior.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

CLP 2140 - Abnormal Psychology

A study of the different problems in psychopathology, including anxiety, depression, social deviance, psychosis, schizophrenia, mental retardation and general brain dysfunction of both children and adults, with emphasis on descriptive etiology, known causes, and treatments.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

PSY 2012 .

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

EDF 1005 - Introduction to the Teaching Profession

A study of the history, philosophy and social context of education. The course will help the student think critically about the process of education and his/her role as an educator. During an eighteen hour field experience, the student will observe and participate in the educational settings of local schools. An additional fingerprinting cost may be associated with this course. This course is intended for those students planning to enter a bachelor degree program leading to teacher certification (BS Elementary Education). If used to meet state prerequisite requirements for entry into a Bachelor of Teacher Education program, this course requires a minimum grade of "C."

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

ENC 1101 AND (MAC 1105 or STA 2023)

EEX 2010 - Introduction to Exceptional Children

Study of incidence, nature, etiology, law and services available in connection with learners with disabilities such as: intellectual and developmental disabilities, learning disabilities, attention deficit hyperactive disorder, emotional or behavioral disorder, autism spectrum disorder, communication disorders, deaf or hard of hearing, blind, physical disabilities, other health impairments, and gifted and talented.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

HUN 2201 - Nutrition

The role of nutrients in maintenance of physiological well-being. Application of nutrition principles to the individual and family as well as to some selected problems.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

LIN 1670 - Writing and Grammar

The course includes practice in writing short essays and encompasses a comprehensive review of grammar and mechanics. This course is strongly recommended for students who have completed Developmental Writing, those who want a preparation for Composition, or those who score 103-116 on the PERT.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal achievement, successful completion of any required developmental English coursework with a minimum grade of "C", or exemption from placement testing.

MAN 2021 - Management

Each function of management is analyzed and described in a systematic manner. Both the distilled experience of practical managers and the findings of scholars are presented. Other aspects of management are presented such as management process and concepts analysis of the technical knowledge and skills of managers, influences upon managerial decision-making process, and the psychological principles inherent in management.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

MAT 1033A - Intermediate Algebra

This is an intermediate algebra course designed to prepare students for general education mathematics/statistics courses. This course emphasizes concepts, techniques, and applications of the following major topics; factoring, algebraic functions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, two-variable linear equations/inequalities and their graphs, systems of linear equations and inequalities, and an introduction to functions. This course may be used as an elective, but does not meet Gordon Rule requirements for B.A.S., A.A., or A.S. transfer students.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring mathematics achievement, successful completion of MAT 0028 with a grade of "C" or better, or exemption from placement testing.

MNA 2100 - Organizational Behavior

Designed to help students develop an understanding of how they may be motivated to work together in greater harmony in all kinds of organizations. The basis of human motivation and how it is influenced by leadership, the organization itself, and the social environment in which the organization exists.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

PEM 2108 - Fitness Lab

Instruction and participation in an exercise program with emphasis on muscle endurance, strength and flexibility.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as needed) Prerequisite(s):

HLP 1081 or approved wellness assessment by the department chair.

Note:

This course may be taken up to four times for credit.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SPC 1608 - Public Speaking

Emphasis is on assisting the individual to develop his/her potential in oral communication. Individual participation in preparation and

presentation of speeches reinforced by continuing group analysis and constructive criticism.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring, Summer) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SPC 2300 - Interpersonal Communication

This course studies the speech communication principles involved in one-to-one interaction, comprehensive listening, conflict resolution, family and group communication and intrapersonal thought. Learning techniques may include small group participation, role play, as well as formal and informal presentations.

Credit Hour(s): 3 Credit Hours † When Offered: (Fall, Spring) Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

SYG 2000 - Sociology

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

____ ____ - Selected Activity Courses (PEL, PEM, PEO) 4 Credit Hours

____ ____ - Other Approved College Credits

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

Stage Technology (Theater & Entertainment) (CCC)

Admission Program of Study Code STGT State CIP Code 0650050201

Students who successfully complete this certificate may be eligible to receive credits towards one of the following Theatre and Entertainment A.S. degree options:

Theater and Entertainment Technology - Acting Specialization Option (AS) (State CIP Code 1650050202)

Theater and Entertainment Technology - Costuming Specialization Option (AS) (State CIP Code 0650050202)

Theater and Entertainment Technology - Technical Theater Specialization Option (AS) (State CIP Code 0650050202)

Core Courses

TPA 1210 - Stagecraft

This course is an introduction to the principles of stagecraft: stage terminology, stage safety, instruction in proper use of shop tools, basic theater construction methods, understanding of theatrical rigging, and understanding of general background practices.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on

interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):
TPA 1290

TPA 2212 - Sound Production for the Stage

This course is an introduction to audio production and reinforcement for the stage. Students will learn how to use and maintain equipment, record and edit sound effects, and mixing live sound. Emphasis will be placed on digital audio techniques and equipment.

Technical Required Courses

TPP 1190 - Rehearsal and Performance I

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
experience in high school or a desire to learn.

TPP 1191 - Rehearsal and Performance II

An ensemble theater performance experience open to any student who wishes to develop rehearsal and performance skills. Students must participate in scheduled rehearsals and performances.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
TPP 1190 .

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
TPP 2110 .

TPP 2141 - Acting in Shakespeare

This course is an introduction to the concepts, principles, and skills needed to develop characters in Shakespeare's plays. The course focuses on the hidden clues in the text to discover character choices and meaning. Specific analysis and the techniques of scansion are introduced as they relate to character interpretation. Application of these techniques will be presented in scenes and monologues.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2150 - Advanced Scene Study

This course is a continuation of the processes and concepts of TPP 2111, Acting II, with the addition of new techniques to create dynamic and engaging characterizations through performance.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

TPP 2533 - Stage Combat I (Unarmed & Rapier)

Through in-class study and performance the student will develop an understanding of and proficiency in the safe techniques of unarmed and rapier stage combat which are required of a theatrical performer. Application of these techniques will be presented in two scenes, one for unarmed and one for rapier.

Credit Hour(s): 3 Credit Hours When Offered: (Spring)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 1940 - Internship in Theatre Performance

The emphasis of this course is on applied learning and vocational experience in the theatre performance field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2220 - Auditioning

This course explores audition techniques for the stage. Students will be better prepared to audition in professional settings.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2120 - Improvisation

This course explores the use of creativity and imagination, engaging the actor in a wide variety of improvisational theatre games.

Technical Required Courses

DAA 1200 - Fundamentals of Ballet (can be completed four times for credit)

This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1520 - Tap I

(to be completed twice for program credit)

This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1681 - Dance Ensemble

(to be completed three times for audit)

The student shall participate in the preparation and performance of original dance compositions to include Dance Line and Show Choir performances.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

level of competency determined by audition.

Note:

This course may be taken up to four times for credit.

DAA 2610 - Dance Composition

An introduction and practice in the application of compositional tools encourages the student to explore and compose dance. By studying the body's movement in time and space the student will improve technical skills, develop improvisation and choreographic skills and enhance overall dance performance. Previous dance experience is helpful.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 2683 - Performance Dance, (Repertory and/or Original Choreography)

(to be completed twice for program credit)

This course includes the continuation of study and participation in all rehearsals of selected works of dance repertory and/or original choreography culminating in public performance.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAN 1750 - Dance Conditioning

(to be completed twice for program credit)

Dance Conditioning is an excellent course in which to begin your dance training. It is designed to improve fundamentals for the beginning/intermediate student through daily practice in floor work, yoga, and Pilates exercises. This movement class will get you ready to meet the challenges of other dance classes by toning, strengthening and preparing the body to move.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1104 - Modern I for Majors

(to be completed twice for program credit)

This dance class is designed to affect an understanding of the art of the modern dance. It includes a brief history of the dance; instruction and practice in basic dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time. This course maybe taken 4 times for credit.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1204 - Ballet I for Majors

(to be completed twice for program credit)

A beginning dance course designed to serve as an introduction to the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1504 - Jazz I for Majors

(to be completed twice for program credit)

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 2105 - Modern II for Majors (can be completed four times for credit)

This dance class is designed to further the student's understanding of the art of the modern dance. It includes continued study in history of the dance; instruction and practice in intermediate level dance techniques, improvisation, and dance forms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 2205 - Ballet II for Majors (can be completed four times for credit)

This dance course is designed to serve as an further training in the tradition and discipline of the art of the classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, agility, alignment, turn-out, control, elevation and sensitivity to line are studied. Performance, research and individual projects comprise the remaining class time.

Introduction to the study of Musical Theater analysis, creation, and performance with an emphasis on singing, dancing, and acting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

MVV 1311 - Applied Music - Voice I for Majors

Private instruction in voice in the freshman year of study as the student's principal performing medium. This one hour weekly lesson is for intended voice majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVV 1211 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

MVV 2322 - Applied Music - Voice II for Majors

Private instruction in voice in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended voice majors, and requires Division Chair Approval. A major component of this class is a required juried performance at the end of the semester for which six memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MVV 1211 , MVV 1311 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

DAA 1500 - Jazz I for Non-Majors

(to be completed twice for program credit)

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

MUN ____ - Music Ensembles (to be completed four times for audit)

MUT 1111 - Music Theory I

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor scales, intervals, triads, 7th chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1241

MUT 1241 - Ear Training and Sight Singing I

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):
MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):
MUT 1111

TPP 1940 - Internship in Theatre Performance
The emphasis of this course is on applied learning and vocational experience in the theatre performance field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2220 - Auditioning
This course explores audition techniques for the stage. Students will be better prepared to audition in professional settings.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Total Technical Elective Credits Required: 33

Technical Required Courses

DAA 1200 - Fundamentals of Ballet
This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

DAA 1520 - Tap I
(to be completed twice for program credit)
This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

DAA 1680 - Dance Workshop
(to be completed four times for audit)
This course includes instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:
This course may be taken up to four times for credit.

MVV 1211 - Applied Music – Voice I
Private instruction in voice, as a secondary instrument, consisting of one half-hour session per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:
This course may be taken up to four times for credit.

MVV 2221 - Applied Music – Voice II
Private instruction in voice, as a secondary instrument, consisting of one half-hour lesson per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):
MVV 1211 .

Note:
This course may be taken up to four times for credit.

TPP 2110 - Acting I
Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

TPP 2110 .

TPP 2250 - Introduction to Musical Theatre

Introduction to the study of Musical Theater analysis, creation, and performance with an emphasis on singing, dancing, and acting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

MVV 1311 - Applied Music - Voice I for Majors

Private instruction in voice in the freshman year of study as the student's principal performing medium. This one hour weekly lesson is for intended voice majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVV 1211 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

MVV 2322 - Applied Music - Voice II for Majors

Private instruction in voice in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended voice majors, and requires Division Chair Approval. A major component of this class is a required juried performance at the end of the semester for which six memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MVV 1211 , MVV 1311 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

DAA 1500 - Jazz I for Non-Majors

(to be completed twice for program credit)

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

This course may be taken four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

MUN ____ - Music Ensembles (to be completed four times for audit)

MUT 1111 - Music Theory I

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor

scales, intervals, triads, 7th chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1241

MUT 1241 - Ear Training and Sight Singing I

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1111

TPP 1940 - Internship in Theatre Performance

The emphasis of this course is on applied learning and vocational experience in the theatre performance field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2220 - Auditioning

This course explores audition techniques for the stage. Students will be better prepared to audition in professional settings.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Total Technical Elective Credits Required: 33

Technical Required Courses

DAA 1200 - Fundamentals of Ballet

This beginning dance course is designed to serve as an introduction to the tradition and discipline of the art of classical ballet. Physical development of the body as an expressive instrument for ballet movement will be stressed as strength, flexibility, balance, alignment, agility, turnout, control, elevation and sensitivity to line are studied.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

DAA 1520 - Tap I

(to be completed twice for program credit)

This course includes instruction in tap dance technique and the introduction of time steps commonly used in musical theater auditions.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

DAA 1680 - Dance Workshop

(to be completed four times for audit)

This course includes instruction and participation in dance as required by specific productions, i.e., Theater/Show Choir.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Note:

This course may be taken up to four times for credit.

MVV 1211 - Applied Music – Voice I

Private instruction in voice, as a secondary instrument, consisting of one half-hour session per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

MVV 2221 - Applied Music – Voice II

Private instruction in voice, as a secondary instrument, consisting of one half-hour lesson per week, with a minimum of one hour daily practice.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVV 1211 .

Note:

This course may be taken up to four times for credit.

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

TPP 2111 - Acting II

Through in-class performance, the student develops an understanding and proficiency in styles of acting from classic through modern.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

TPP 2110 .

TPP 2250 - Introduction to Musical Theatre

Introduction to the study of Musical Theater analysis, creation, and performance with an emphasis on singing, dancing, and acting.

Credit Hour(s): 3 Credit Hours When Offered: (Fall)

MVV 1311 - Applied Music - Voice I for Majors

Private instruction in voice in the freshman year of study as the student's principal performing medium. This one hour weekly lesson is for intended voice majors, and requires Division Chair approval. A major component of this class is a required juried performance at the end of the semester for which four memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

MVV 1211 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

MVV 2322 - Applied Music - Voice II for Majors

Private instruction in voice in the sophomore year of study as the student's principal performing medium. This one hour, weekly lesson is for intended voice majors, and requires Division Chair Approval. A major component of this class is a required juried performance at the end of the semester for which six memorized selections from standard literature will be required.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

MVV 1211 , MVV 1311 and Division Chair approval.

Note:

This course may be taken up to four times for credit.

DAA 1500 - Jazz I for Non-Majors

(to be completed twice for program credit)

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring, Summer) Note:

This course may be taken four times for credit.

DAA 1504 - Jazz I for Majors

The course includes a brief history of the jazz dance and instruction and practice in jazz dance techniques exploring popular dance idioms. Performance, research and individual projects comprise the remaining class time.

Credit Hour(s): 2 Credit Hours When Offered: (Fall, Spring, Summer) Note:

This course may be taken up to four times for credit.

MUN ____ - Music Ensembles (to be completed four times for audit)

MUT 1111 - Music Theory I

A study of the fundamentals of basic musicianship, music notation, simple rhythms, key signatures, intervals, major and minor

scales, intervals, triads, 7th chords, polyphonic composition and elementary keyboard work. This course also introduces students to tools necessary for analyzing musical compositions of the 17th & 18th centuries.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1241

MUT 1241 - Ear Training and Sight Singing I

A study of the fundamentals of basic musicianship with specific focus on elements of ear training and sight singing including, music notation, simple & compound rhythms identification and dictation, interval identification and dictation, major and minor scales identification and dictation, triad identification and dictation, and melodic and rhythmic dictation. This student will incorporate both rhythmic and tonal syllable systems.

Credit Hour(s): 1 Credit Hour When Offered: (Fall, Spring) Prerequisite(s):

MUT 1001 or Approval of Theory Faculty and successful completion of Theory Fundamentals Exam

Corequisite(s):

MUT 1111

TPP 1940 - Internship in Theatre Performance

The emphasis of this course is on applied learning and vocational experience in the theatre performance field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2220 - Auditioning

This course explores audition techniques for the stage. Students will be better prepared to audition in professional settings.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Total Technical Elective Credits Required: 33

Corequisite(s):
MUT 1111

TPP 1940 - Internship in Theatre Performance

The emphasis of this course is on applied learning and vocational experience in the theatre performance field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPP 2220 - Auditioning

This course explores audition techniques for the stage. Students will be better prepared to audition in professional settings.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Total Technical Elective Credits Required: 33

Total Program Credits Required: 60

Theater and Entertainment Technology - Technical Theater Specialization Option (AS)

Admission Program Objective Code THTT State CIP Code 1650050202
Students who successfully complete selected courses from this program of study may be eligible to receive the Stage Technology (Theater & Entertainment) (CCC) certificate (State CIP Code 0650050201).

Technical Required Courses

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2276C - Entertainment Technology - Crafts

This course presents the practices and principles of advanced woodworking, welding, smithing, casting, ceramics, plaster work, fiberglass and plastic technology for the entertainment industry. State of the art tool technology, shop and field practice, health and safety standards will be emphasized. These crafts are entertainment industry oriented that will use items created in a realized production.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
TPA 1210 .

TPA 2600 - Stage Management

This course is an introduction to the study and application of stage management as it relates to the manager portfolio, the stage manager morgue, rules and regulations relating to I.A.T.S.E., rules related to contracts, competence in stage management, proper communication with directors, technical directors, designers, cast members and crews, competence in technical discussion areas and basic first aid.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed)

TPP 2110 - Acting I

Through in-class performance the student will develop an understanding and proficiency of those skills of movement, voice, and expression which are required of a theatrical performer.

Credit Hour(s): 3 Credit Hours When Offered: (As Needed)

THE 2304 - Script Analysis

An introduction to the examination and analysis of play scripts as preparation for production. Students will read plays from various periods and genres, and analyze such dramatic elements as plot, theme, character, dialogue, and style.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 1291 - Technical Theatre Lab II

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed) Prerequisite(s):
TPA 1290

TPA 1940 - Internship in Theatre Design or Production

The emphasis of this course is on applied learning and vocational experience in the technical theatre field.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2063 - Principles of Scenic Design

This course is a detailed introduction to the principles and techniques used in scene design. The course will include the discussion and practice in analyzing scripts, visualizing a design concept, drafting, paint elevations and rendering and/or modeling techniques.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 2343

TPA 2212 - Sound Production for the Stage

This course is an introduction to audio production and reinforcement for the stage. Students will learn how to use and maintain equipment, record and edit sound effects, and mixing live sound. Emphasis will be placed on digital audio techniques and equipment.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

TPA 2292 - Technical Theatre Lab III

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 1291

TPA 2301 - Technical Theatre Lab IV

This course is designed to continue to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 2 Credit Hours When Offered: (Offered as Needed) Prerequisite(s):
TPA 2292

TPA 2343 - CAD for the Theatre

This course is project oriented covering fundamental through advanced material in computer aided drafting and design and its application for the theatre.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Total Technical Elective Credits Required: 33

Total Program Credits Required: 60

Suggested Two Year Academic Plan

Technical Required Courses

TPA 1290 - Technical Theatre Lab I

This course is designed to complement other technical theatre courses by giving the student the opportunity for hands-on interaction in a structured lab setting. Students will be assigned duties appropriate for their skills that will synthesize the classroom experience.

Credit Hour(s): 1 Credit Hour When Offered: (Offered as Needed)

TPA 2220 - Lighting Design

An introduction to stage lighting. Topics include history of stage lighting, fundamentals of light and illumination, lighting control, and lighting practices.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Corequisite(s):
TPA 1210

TPA 2276C - Entertainment Technology - Crafts

TPA 2343 - CAD for the Theatre

This course is project oriented covering fundamental through advanced material in computer aided drafting and design and its application for the theatre.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed)

Total Technical Elective Credits Required: 33

AA Degree General Education Requirements

Associate in Arts students must complete 60 college credits to complete the degree; 36 of these credits must be general education credits distributed across five subject area categories. A student must satisfy the required number of credits in each category. The remaining 24 elective credits should be selected in consultation with an Navigator, who will assist with selecting the college credits most advantageous to the student's educational goals.

To assure that graduates of the state university and state college systems share a common base of General Education requirements, the State of Florida has designated general education core course options in each of five subject area categories—Communication, Humanities, Mathematics, Natural Sciences, and Social Sciences. Beginning with students initially

entering a Florida College System institution or state university in 2015-2016 and thereafter, each student must complete at least one identified core course (designated with ♦) in each area of study as part of the general education course requirements. Furthermore, NWF State College has embedded the core competencies of speaking, writing, and technology in both the AA and AS programs of study.

AA General Education Requirements

Communications: 6

ENC 1101 - English Composition I

Instruction and intensive practice in expository and argumentative writing including a documented paper. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENC 1102 - English Composition II

♦ Core General Education ¶ Writing requirements

Interpretative and critical reading of fiction, drama, and poetry. The student will write analytic discourse and research papers as part of the essay process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of ENC 1101 or an equivalent course with a grade of "C" or better.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 6

Core Mathematics

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0022 or MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as

meeting the state Core General Education requirements.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

completion of MAC 1105 or equivalent with a “C” or better.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

completion of MAC 1105 or equivalent with a “C” or better.

Social Sciences: 6

Behavioral Social Sciences

ANT 2000 - Introduction to Anthropology

Introduction to the fundamental principles, concepts, methods and theories in Anthropology. Includes a brief introduction to the subdisciplines of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistics. A cross-cultural perspective will be paramount in the study of anthropology.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Offered as needed) Prereq/Corequisites:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

ANT 2100 - Introduction to Archaeology

Introduction to the fundamental principles, methods, and theories in archaeology. Includes a history of the development of archaeology, and examination of the nature of archaeological data and research, an introduction to archaeological data and analysis, and an examination of approaches to synthesis and interpretation. North and South American archeology is studied, but non-western examples are also studied to enhance an understanding of the development of the discipline in Europe and the Americas.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as Needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

DEP 2004 - Human Growth and Development

A research oriented course in human development, covering the life span of the human being from conception to death. Special emphasis placed upon the interrelationships of the stages of development of the normal person.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer)

ECO 2013 - Economics I

This course covers macroeconomics, its basic concepts and principles, national income accounting; fiscal and monetary policy and application, and growth economics. Basic math skills are required.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring) Prerequisite(s):

Knowledge of basic computer and keyboarding skills are strongly recommended.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

GEA 1000 - World Regional Geography

The course introduces the student to geographic regional studies. It will combine the concepts of physical geography and cultural, economic, and human geography as it applies to the differing regions of the world. It will show the relationships between the regional environment and the people who live there, between settlement patterns, economic patterns and cultural patterns within each region; and, using current events, it will show the impact of other phenomena upon those regions and their people.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

PSY 2012 - Psychology

Surveys of the various fields of psychology. Understanding human behavior by studying the adaptation of the individual to the physical and social environment.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

SYG 2000 - Sociology

♦ Core General Education International and/or diversity focus

An introduction to the basic theories, concepts, and descriptions of individuals, groups, and societal behaviors. Basic themes include an overview of culture, socialization, deviance, and social institutions, with an emphasis on the dynamics of families, government, and economic influences.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

History/Government Social Sciences

AMH 2010 - American History I

American History to 1877; describes the social, political, and economic development of the American people against the geographical background of the New World. Particular emphasis on American intellectual and political thought leading to the emergence of basic American character, ideas and attitudes. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AMH 2020 - American History II

American History from 1877, concentrating on industrial growth, the rise of corporate business, big labor, and government organization. Modification of basic American character and ideas as a continual historical process. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Ω Courses listed with this symbol have a Civic Literacy Competency.

POS 1041 - American Government

Examines government, political ideals, and institutions. Strong emphasis is placed on political thought, the origin of the American federal system, and the distribution of powers between state and national governments. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ ¶ Ω When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.
Ω Courses listed with this symbol have a Civic Literacy Competency.

SYG 2010 - Social Problems

Introduction to the sociological study of the nature of social problems to insure understanding of their impact on the individual, the group and social institutions in societal and cultural settings. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

WOH 1012 - World Civilization: Early Humans through Global Expansion

A study of world history from 4000 BC to 1650 AD as it relates to the development of western civilization. History is analyzed in terms of social, religious, philosophical, political, and economic concepts rather than chronological facts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

A passing score on the standardized placement test measuring communication/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Note:

This college credit course qualifies as having an international and/or diversity focus for Teacher Education Programs common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Mathematics: 6

Core Mathematics

MAC 1105 - College Algebra

This is a function-based college algebra course which includes the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities; and applications of functions (curve fitting, modeling, optimization, exponential/logarithmic growth and decay). Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAT 1033A or equivalent with a "C" or better or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MAC 2311 - Calculus I

This is the first course in a three-course sequence. The course covers the following: limits and continuity, rules of differentiation, chain rule, derivatives of trigonometric, inverse trigonometric, logarithmic, and exponential functions, applications of derivatives to

curve sketching, L'Hopital's Rule, indeterminate forms, and maxima/minima problems, mean value theorem, Rolle's theorem, definite and indefinite integrals, Fundamental Theorem of Integral Calculus, area, and applications of integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 and MAC 1114 with a grade of "C" or better or equivalent; or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1106 - Practical Applications of Mathematics

This course is designed for those students requiring only general education mathematics courses. It includes systematic counting, probability, statistics, history of mathematics, geometry, sets, and logic. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 114 or higher on the math section of the PERT OR (2) successful completion of MAT 0022 or MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

MGF 1107 - Math in Society

This course is designed for those students requiring only general education mathematics courses. Topics include numeration and mathematical systems, number theory, linear and exponential growth, history of mathematics, voting techniques, graph theory, and consumer mathematics. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following: (1) 123 or higher on the math section of the PERT OR (2) successful completion of MGF 1106 with a grade of "C" or better or equivalent or higher mathematics course OR
(3) concurrent enrollment in MGF 1106

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

STA 2023 - Statistics

♦ Core General Education

This course provides a general introduction to understanding and applying statistical terms and concepts. Topics include the following: descriptive statistics, probability, random variables, discrete and continuous probability distributions, sampling distributions, confidence interval estimation, hypothesis testing, two sample inferences, correlation, and simple linear regression. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ♦ When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAT 1033A or equivalent with a "C" or better, or appropriate placement score.

Note:

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the

six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):

a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):

either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other

institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):

completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):

completion of MAC 1105 or equivalent with a “C” or better.

General Mathematics

MAC 1114 - Trigonometry

This is the second course in a Pre-calculus sequence which includes the following topics: definitions, graphs, and properties of the six trigonometric functions and their inverses; trigonometric identities; solving trigonometric equations; solving right and oblique triangles and applications; complex numbers; vectors; and the polar coordinate system. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1140 with a grade of “C” or better or equivalent; or appropriate placement score. This course may be taken concurrently with MAC 1140 with special permission of the Mathematics Department.

MAC 1140 - Pre-Calculus Algebra

This is the first course in a two-course Pre-calculus sequence which includes the following: equations and inequalities; linear, quadratic, logarithmic and exponential functions and relations; systems of equations; matrices and determinants, mathematical proof techniques, including mathematical induction; binomial theorem; sequences and series; and applications of algebraic techniques in the real world. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

completion of MAC 1105 with a grade of “C” or better, or equivalent; or appropriate placement score.

MAC 2233 - Business Calculus

This is a calculus course covering limits, continuity, differentiation, and integration with emphasis on business applications. There is some mathematical theory; but, in general, topics are approached from an intuitive and applied point of view. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):

Completion of MAC 1140 with a grade of "C" or better; or completion of MAC 1105 with a grade of "C" or better, and a "C" or better in another Gordon Rule Mathematics course; or appropriate placement score.

MAC 2312 - Calculus II

This is the second course in a three-course sequence. The course covers the following: techniques for finding areas, volumes, arc lengths and surface areas, methods of integration, including integration by parts, trigonometric substitution, and partial fractions, improper integrals, conic sections, graphing and area in polar coordinates, infinite sequences and series, tests for absolute and conditional convergence of series, and power series. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2311 with a grade of “C” or better or equivalent.

MAC 2313 - Calculus III

This is the third course in a three-course sequence. The course includes the following topics: vectors, lines and planes in space, quadric surfaces, vector-valued functions and motion in space, functions of two or more variables, partial derivatives, gradients, directional derivatives, and their applications, multiple integrals in rectangular, cylindrical, and spherical coordinates, and their applications, line integrals, and surface integrals. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 4 Credit Hours When Offered: (Fall, Spring, Summer) Prerequisite(s):
completion of MAC 2312 with a grade of “C” or better or equivalent.

MAD 2104 - Introduction to Discrete Mathematics

This course is designed for those students who are majoring in computer science, mathematics, engineering, mathematics education, and other highly technical fields. Topics include formal logic, set theory, combinatorics, mathematical induction, relations and functions, recursion, and graph theory. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall) Prerequisite(s):
a grade of "C" or better in MAC 1140 . A course in programming is recommended.

MAP 2302 - Differential Equations

This course provides an introduction to ordinary differential equations with an emphasis on first and second order linear equations and applications. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Fall, Spring) Prerequisite(s):
either completion of MAC 2313 with a "C" or better or concurrent enrollment in MAC 2313 . Equivalent courses from other institutions may be used to meet the prerequisite.

MAS 2103 - Linear Algebra

This is an introductory course in Linear Algebra intended to give students enough insight to enable successful pursuit of more abstract mathematics courses. This course includes the study of matrices and systems of equations, determinants, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Exercises using MATLAB will be required. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Offered as needed) Prerequisite(s):
completion of MAC 2312 with a grade or “C” or better, or equivalent.

MTG 2206 - College Geometry

This course emphasizes Euclidean geometry and its relationship to logic, trigonometry, and coordinate geometry. The problems, proofs, constructions, and graphs involve the following: line segments, angles, triangles, polygons, parallel and perpendicular lines, slopes of lines, circles, and similarity. Trigonometry is presented in terms of right triangle relationships. Logic is the basis for deductive reasoning in proofs of theorems. Lines and other geometric figures are graphed in the rectangular coordinate system. A minimum grade of “C” is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours When Offered: (Spring) Prerequisite(s):
completion of MAC 1105 or equivalent with a “C” or better.

Humanities: 6

Core Humanities

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well,

as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum

course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

♦ Core General Education † Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements

An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

General Humanities

AML 2010 - American Literature: 1492 - 1865

A course in American Literature from the pre-Colonial period to the Civil War. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2020 - American Literature: 1865 - Present

A course in American Literature from Civil War to present. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to

meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: AML 2010 is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C"

when used for General Education credit.

ARH 2402 - Art History: Modern Art

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2012A - English Literature: Old English through the Enlightenment

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature: Romantic Period Through the Present

A study of English literature from the Romantic period through the present, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2250 - Humanities – A Contemporary Perspective

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all

associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature: Antiquity through the Renaissance

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature: Renaissance through the Present

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered, Fall, Spring, Summer) Prerequisite(s):

ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2300 - Introduction to World Religions

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

† Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the

college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

ENC 1101

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Core Humanities

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

MUL 1010 - Music Appreciation

Designed to develop a more intelligent understanding of and appreciation of music. By methodically surveying the main periods of

Western Art Music from the Medieval Period through present day, this class will bring about an awareness of music as a vital source in human life, and will aid in developing positive attitudes toward culture and the fine arts. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the- Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2010 - Introduction to Philosophy

Central concepts of philosophy are developed, including a description of the main philosophical problems involved through ancient, medieval, and contemporary thought. This is a Writing-Across-the-Curriculum course and a Speaking-Across-the-Curriculum course requiring selected written and speaking assignments. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2000 - Theatre Appreciation

♦ Core General Education † Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
An introduction to theater and theatrical production. Topics span a wide range of interest – critical, historical, aesthetic and practical – intended to lay a foundation for further knowledge and skill of the theater. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course contains an oral communication component and may be used to satisfy the Speaking-Across-the-Curriculum requirement.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C"

when used for General Education credit.

General Humanities

AML 2010 - American Literature: 1492 - 1865

A course in American Literature from the pre-Colonial period to the Civil War. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

AML 2020 - American Literature: 1865 - Present

A course in American Literature from Civil War to present. This course may be used for Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: AML 2010 is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2050 - Art History: Pre-Renaissance

Survey of significant contributions in art from prehistoric through Renaissance. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

ARH 2402 - Art History: Modern Art

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2012A - English Literature: Old English through the Enlightenment

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature: Romantic Period Through the Present

A study of English literature from the Romantic period through the present, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum

grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2250 - Humanities – A Contemporary Perspective

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2051 - Art History: Renaissance - 18th Century Neo-Classicism

Survey of significant contributions in art from Renaissance through Contemporary. Art will be considered in terms of stylistic qualities as well as iconography and historical context. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2060 - Architecture History

Survey of significant contributions in architecture from prehistoric to modern times. Architecture will be considered in terms of stylistic qualities, structural type, and intended usage. Topics will be addressed according to historical content, societal background, and geographical location. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ARH 2402 - Art History: Modern Art

Surveys and analyzes the major artistic periods and movements from 18th century Neo-Classicism to present. Required for all Art majors. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C"

when used for General Education credit.

ENL 2012A - English Literature: Old English through the Enlightenment

A study of English literature from the Old English period, Beowulf, through the late Eighteenth century, the Age of Enlightenment, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

ENL 2022 - English Literature: Romantic Period Through the Present

A study of English literature from the Romantic period through the present, focusing on major works and their authors with an emphasis upon the literature as a significant reflection of and contribution to the political, cultural, social, religious, and economic milieu of each age. This course may be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet AA Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 . (Note: ENL 2012A is not a prerequisite for this course)

Note:

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2250 - Humanities – A Contemporary Perspective

This course is an integrated study of the artistic, cultural, philosophic, religious, social, and technological influences that shape modern western cultures in the modern era. The focus will begin with the 20th century and follow, chronologically, the issues of the modern era. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 2700 - Humanities – Foreign Study

A variable humanities content course designed to allow students first-hand learning experiences outside the United States. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C"

when used for General Education credit.

LIT 2090 - Contemporary Literature

Studies in contemporary literature, focusing on comments on modern man. May be used as Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered as needed) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2100 - World Literature: Antiquity through the Renaissance

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from antiquity through the Renaissance, that reflect cultural and intellectual heritage. May be used as a Humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. If used to meet the Gordon Rule requirements for general education, a minimum grade of "C" is required.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered Fall, Spring, Summer) Prerequisite(s):

ENC 1101 .

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

LIT 2120 - World Literature: Renaissance through the Present

Designed to encourage students to know and appreciate the great literature that helps to mold their thinking and everyday living. Includes, without regard to national origin, those masterpieces of world literature, from the Renaissance to the present, that reflect cultural and intellectual heritage. May be used as a humanities credit. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Offered, Fall, Spring, Summer) Prerequisite(s):

ENC 1101 . (Note: LIT 2100 is not a prerequisite for this course)

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

PHI 2600 - Introduction to Ethics

Ways to frame and resolve ethical issues are studied. Major historical theories including consequentialism, deontology, and virtue ethics are presented in moral arguments and narratives. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

REL 2300 - Introduction to World Religions

This course will explore the principles and practices of the world's major religious traditions. The religions will be studied in their historical and contemporary forms. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2071 - Humanities – Cinema Appreciation

An introduction to the origin, development, cultural aspects and analysis of cinema topics. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communication/verbal/reading achievement or successful completion of ENC 0025 [Inactive] and REA 0017 [Inactive].

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

THE 2300 - Dramatic Literature

† Speaking-Across-the Curriculum International and/or diversity focus ¶ Writing requirements
Survey of dramatic works from the Greeks to the 20th century, with emphasis on the plays of the 19th and 20th centuries; intensive investigation and script analysis with reports, lectures and discussions. This is a Gordon Rule writing course and is part of the college's Writing-Across-the-Curriculum program. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ¶ When Offered: (Fall, Spring) Prerequisite(s):

ENC 1101

Note:

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.
¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

Core Humanities

ARH 1000 - Art Appreciation

This course offers a study in the basic concepts of art, including function, style and structure with emphasis on the interaction of

medium and meaning and problems of art criticism. This class does not fulfill the art history requirements for art majors, but compliments the art major's course of study as an elective. This is a Writing-Across-the-Curriculum course requiring selected written assignments. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education. This course is also a Speaking-Across-the-Curriculum course requiring selected speaking assignments. This course qualifies, as well, as having an international and/or diversity focus for Teacher Education programs common prerequisites.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.

† Courses listed with this symbol address NWFSC's Speaking-Across-the Curriculum student learning outcome, namely that all associate degree graduates are competent in basic public speaking skills.

♦ Courses listed with this symbol are Florida State Core Courses and are protected in transfer to other public state institutions as meeting the state Core General Education requirements.

¶ Courses listed with this symbol meet writing requirements outlined in FAC Rule 6A-10.030 and require a minimum grade of "C" when used for General Education credit.

HUM 1020 - Humanities – Introduction

A chronological survey of techniques and forms related to art, dance, film, literature, music, philosophy, religion and theater. Art works and selected readings are utilized as much as possible. The course includes Writing-Across-the-Curriculum and Speaking-Across-the-Curriculum. A minimum grade of "C" is required if used to meet Gordon Rule requirements for general education.

Credit Hour(s): 3 Credit Hours † ♦ ¶ When Offered: (Fall, Spring, Summer) Prerequisite(s):

a passing score on the standardized placement test measuring communications/verbal/reading achievement, successful completion of any required developmental English and Reading coursework with a grade of "C" or better, or exemption from placement testing.

Note:

Courses listed with this symbol have an international and/or diversity focus and meet Teacher Education Programs' common prerequisites.
